

## Kracker Krumb's

Odd Bits Salvaged at Random

Maybe it didn't take a drought to bring the President to Texas, but last Monday he was in our state because of the drought.

k-k

We don't know just who briefed the President on the site to select for an inspection tour—but in our opinion a more likely spot could not have been selected. That 22.6 miles of the San Angelo area is, we believe, the most typical of the driest when it's dry.

k-k

Last August, when we made a short tour of the area—we didn't know we were getting ahead of the President—about all one could see from the highway were fences, trees and prickly pear. Ranch land appeared to be just about as bare as the pavement.

k-k

We spent almost two years in the area south of San Angelo. We hit there when it was a garden spot. Spring rains had been plentiful, and grass on the ranch land was like a huge green carpet. Before the two years were up, we'd seen it dry, too, with huge cracks and crevices in the soil until it seemed to us to be dangerous to ride a horse over the ranges.

k-k

So we reckon the President selected a choice spot to see the effects of a drought in Texas. Just what he can do except sympathize with the people, we don't know. We seriously doubt if he can recommend and get passed any sort of legislation that will bring rain to the southwest. The weather, even, seemed to sort of defy him on this—as he landed his Columbine III at San Angelo we here in Munday had been getting whiffs of a cold, dry norther.

k-k

So what we need, Mr. President, is a rain! We need it in both Tom Green and Knox Counties! We reckon that would help us even more than the appointment of Harold Macmillan as Prime Minister of England.

k-k

Sometimes it kinda hurts to be a small town newspaper editor. The executive type might not be so bad, we just don't know, but being the type whose presence is necessary when the paper is in the making is about the only kind we know anything about.

k-k

Several weeks ago, Macyl Orman, agricultural agent for the Fort Worth and Denver Railway, was in Munday, and told us he wanted to offer us a vacation. We would leave here one day and return about the same day a week later. We declined with much regrets in that we felt we couldn't take a full week away from our operations.

k-k

So last Saturday the group left without us on a tour of the Rio Grande Valley and Winter Gardens of Texas for the purpose of observing vegetable production practices in those areas. Going with Mr. Orman on the trip were Herbert Partridge and William Browning, members of the Munday Vegetable Growers Co-operative; J. Weldon Smith, representing the First National Bank, and County Agent Roy B. England.

k-k

Dr. A. A. Smith experienced a feeling of sadness when he read a recent communication. It listed the names of his classmates in the Fort Worth medical school, from which he graduated in 1905. Of the 21 members in the class, the word "deceased" was written after the names of all but six of them.

k-k

We knew what he was talking about when Mayor M. F. Billingsley said things bought by the city were always going up—some had gone up as much as 50 per cent, and it was evident the city could not continue to operate at the same water rates, etc. We recently received notice of another \$4 per ton advance on newsprint, which brings to our mind the fact that we've been operating under the same advertising rates for several years and the same subscription rate since 1947, and absorbing those advances. Maybe we're getting in the same shape as the city.

k-k

We don't know of any business or businessman who isn't experiencing the same thing. Just what can we do about it?

## Texans In Congress Plan Relief For Farmers In Drought Stricken Areas

Members of the Texas Delegation in Congress today presented a plan for relief to the drought stricken Southwestern Area. This plan was jointly sponsored by Wright Patman, George Mahon, Bob Poage, O. C. Fisher, Olin Teague, Omar Burleson, Clark Thompson, Homer Thornberry, Walter Rogers, Frank Icard, John Dowdy, Martin Dies, Jack Brooks, Joe Kilgore, J. T. Rutherford, Jim Wright, and John Young. Senator Lydon B. Johnson of Texas, Majority Leader of the Senate, introduced an identical bill in the Senate.

This Texas plan is to be outlined this afternoon in the House by the sponsoring Members. The plan was outlined by Congressman Bob Poage, ranking Democratic Member of the House Committee on Agriculture, to be as follows:

"This is a two-fold approach to the drought problem. As an immediate assistance, the proposal specifically instructs the Secretary of Agriculture to assist in providing protein feed concen-

reas (cottonseed cake). We believe that an immediate supply of protein cake is essential to the maintenance of the range herds of the pasture area of the Southwest. We think that it is far cheaper than the feeding of hay or of grain for which assistance is now available under the present program. We base this belief on the established practice of the livestock industry of the Southwest which has for many years relied on protein cake to carry herds through the winter.

"The second section of this program is much more far-reaching and envisions an extensive Soil Conservation Program through the use of a deferred grazing program. Under present conditions the average little stockman finds his pastures almost completely denuded, but with the coming of the slightest rain, he will be under great pressure to put livestock back on whatever grass may grow. He owes money on his land; he owes the bank; he probably owes a grocery bill. At the same time, he knows that to stock this land before the grass has had a chance to recover from the effects of the drought will result in still further deterioration of the turf. In fact, the history of many sections of the world indicates that large areas of once

(Continued on Last Page)

## Baptist Revival To Close Sunday

The revival meeting which opened Sunday at the First Baptist Church, will come to a close with the evening services next Sunday.

Crowds continue to grow and interest is increasing with each service of the revival. Dr. Joe Burton of Nashville, Tenn., is bringing inspirational Christian messages at each service, and an interesting feature of each service is the song service under the leadership of S. W. Prestidge, Jr., of San Antonio.

Only one 7:30 a. m. service remains, that of Friday morning, with evening services being held at 7:30 o'clock through Sunday. Regular Sunday school and 11 a. m. services will be observed Sunday.

Robert H. Lloyd, pastor, extends a cordial invitation for everyone to attend the remaining services, regardless of church affiliation.

## Former Resident Dies Jan. 2nd At Haslet, Texas

Mrs. Lizzie Brownfield, former resident of Munday, passed away at 3:45 a. m. Wednesday, January 2, in the home of a daughter, Mrs. Laura Mills of Haslet, Texas. Funeral services were held at 2 p. m. Saturday, January 6, from Rudolph Funeral Home in Waxahachie, with burial at Wilmer, Dallas County.

Mrs. Brownfield was born March 5, 1885, in Cottonwood, Texas, and lived most of her life at Munday. She was married to Robert Lee Brownfield on October 31, 1906.

Surviving are two daughters, Mrs. May Gatloff of Mesa, Ariz., and Mrs. Mills of Haslet; 14 grandchildren, 16 great grandchildren; two sisters, Mrs. Mable Bouque of Corpus Christi and Mrs. Ruth Easter of Throckmorton; one brother, S. B. Compton, address unknown, and a number of nieces and nephews.

Her husband died November 24, 1939, at Munday and a daughter and two sons preceded her in death.

## CEMETERY ASSOCIATION TO SERVE DINNER

The Goree Cemetery Association will hold their dinner Friday, January 18, in the Memorial building. Serving will begin at 11:30 and everyone is invited to come and enjoy this good meal.

## Weather Report

## 1956 Texas 4-H Champions

Texas claimed four 1956 national champions in the 4-H awards program. They were among the 196 national winners from 48 states who received top honors and valuable awards. The Texas winners are: (from left) Laura Ellen Horn, Kenneth McEachern, Charlotte Simons and Alden Smith.

Three received \$300 college scholarship awards. Laura Ellen, 17, of Lubbock, won her scholarship for superior work in the 4-H Clothing program presented by Coats and Clark Inc. Kenneth McEachern, 15, of Hale Center, excelled in the 4-H Field Crops program. His scholarship was awarded by the Arcadian Products Dept., Allied Chemical and Dye Corp.

Alden Smith, 19, of Burkburnett, is one of two national winners in the 4-H Community Relations program who received his award from the Wm. Wrigley, Jr. Co. The scholarships will be put to good use when these recipients enter college next year.

Charlotte Simons, 18, of Burkburnett, was champion in the 4-H Dairy Foods Demonstration program. Her award was an all-expense trip to the National 4-H Club Congress, held recently in Chicago, and was presented by the Carnation Co. The Extension Service of Texas A & M College conducts these programs with the cooperation of the U. S. Department of Agriculture.

## Knox Farmers Engaged In Levelling Land, Preparing For Irrigated Crops

Irrigation farmers in the Wichita-Brazos Soil Conservation District are leveling their land for more efficient use of irrigation water and rainfall.

Mr. A. L. Ressel, who lives in the Sunset Community, has completed leveling 16 acres. Ressel plans to level 10 more acres before planting time this spring.

Others who are leveling their land are Howard Word, J. B. King, Leroy Lefler, D. A. Melton, O. L. Jamison, Edward Smith, Allen Hester, Lonnie Offutt and Troy Lindsey.

Soil Conservation Service technicians located at Knox City report that B. E. Smith, Otis Simpson, Harold Partridge and Vestal Burnison have applied for technical assistance in the layout of land to be levelled on their farms.

Conservation irrigation farmers, who do land levelling and install systems with the proper length of runs realize that more

efficient use can be obtained from the water that is applied. Rainfall can also be better utilized where the land is level. The soil should be thoroughly loosened following land-leveling to assure a uniform stand of the following crop. The cut areas should be reconditioned with a green manure crop or other residue of some type.

When planning a conservation irrigation system, enough time should be allowed to make a topographic map on land that is to be irrigated in order to work-out the most desirable layout possible.

## Knox County Hospital Notes

Patients in the hospital Monday, Jan. 14, 1957:

Geo. Oliver, Knox City; Grady Benedict, Knox City; Mrs. Lula Howery, Goree; Mrs. Sam Anderson, Knox City; Baby Frazier, Knox City; Walter Hertel, Benjamin; S. V. Nobles, Munday; Mrs. Rebecca Kilcrease, Benjamin; Alvin Adams, Munday; E. E. Acree, Rochester; Mrs. D. E. Wells, Knox City; L. L. Womble, Munday; Joe Spann, Munday; Mrs. John Broach, Goree; Jimmy Shaban, Goree; Hollie Baty, Wren; R. B. Jacobs, Lubbock; Baby Hayes, O'Brien and Dorothy Burris, Munday.

Patients dismissed since Monday, Jan 7, 1957:

Mrs. Roy Day, Knox City; Bob by Moore, Munday; Mrs. W. T. Adkins and Babies, O'Brien; M. G. Nix, Munday; Mrs. Dan Davis, Lubbock; Floyd Shields, Munday; Mrs. Helen Acosta, Knox City; W. A. Scroggins, Munday; Donita Sue Belcher, Goree; Roy Day, Knox City; Dale Phillips, Munday; J. P. Hester, Knox City; W. W. Jones, Wichita Falls; Mrs. N. B. Gillentine, Benjamin; W. R. Caldwell, Goree; Mrs. Fred Ledna and Baby, Knox City; Ronald Kent Brown, Rochester; Walter Caddell, Jr. Munday; Eret Bumpas, Benjamin; Charlie Timberlake, Benjamin; C. W. Y. McGregor, Benjamin and Gordon O'Pry, Knox City.

Birth: Mr. and Mrs. Fred Ledna, Knox City, a daughter.

Deaths: E. M. Owens, Knox City.

## Lee Takes Over Post In Schools

Harvey Lee, whose resignation as city secretary became effective January 1, has been named to a position with the Munday Public Schools, it was announced this week.

Mr. Lee will do the bookkeeping for the schools and will also serve as assessor and collector of school taxes. He will office in the Munday elementary school building.

## City Announces Increase In Water Rates Effective As Of January 20

An increase in the water rates for users in the City of Munday was announced last Tuesday by the City Council through Mayor M. F. Billingsley.

"The rate which we have adopted, effective January 20, 1957, is that recommended to us at the time the last bond issue was voted," Mr. Billingsley said, "and constant increases in operating expense as well as that in all items purchased by the city makes this increase imperative. We just can not continue to operate the city's water system on its present revenue."

For the small water users there will be practically no increase, however the minimum amount has been reduced to 2,000 gallons. This will be supplied for \$2.00. Those who use 3,000 to 7,000 gallons per month will pay 40c per thousand, or \$4.00 for 7,000 gallons.

From 7,000 through 12,000 gal-

lons the rate will be 30 cents per 1,000—your bill for 12,000 gallons being \$5.50.

A rate of 20 cents per 1,000 will apply to those using above 12,000 and up to 20,000 gallons, making your bill \$7.10 for 20,000 gallons. All above 20,000 gallons will be supplied for 15 cents per 1,000.

"We are forced to make this increase in order to keep from operating in the red," Mayor Billingsley said, "and records show that if Munday users consume the maximum amount they will still be paying about half the water bill as those in cities like Fort Worth."

## Notes From Knox Farms, Ranches

By Roy England, Knox County Agent

H. H. Partridge and William Browning of the Munday Vegetable Grower's Cooperative, J. Weldon Smith of the First National Bank of Munday, and County Agent Roy England accompanied Macyl Orman, Fort Worth and Denver agricultural agent, on a trip to the Valley and Winter Garden area of Texas, departing last Saturday, Jan. 12. Vegetable production in that area is in full swing at present, and the production practices can be readily observed at this time of year.

Knox County's 1957 Fat Steer Show has been scheduled for Feb. 9th, at Knox City, and our Annual Spring Livestock Show is planned for March 30 at the same location.

The Knox County Junior Livestock Association met on Dec. 6 and proposed a budget of \$850 to cover expenses of these two shows. The steer show in February was necessary because these steers will be going on to District Shows and will not be available in the Spring.

Soil testing is the one sure way to find the answer to the question, how much and what kind of fertilizer is needed to get top production. Soil Testing Laboratories can now offer faster service than at any other time of year. When the spring rush hits, returns will be slower and little time may be left for getting the recommendations into use. Information on how soil samples should be taken and mailed is available at the county agent's office.

## Shivers Names New U. S. Senator

William A. Blakey, 58, wealthy Dallas lawyer, who was appointed temporary U. S. senator from Texas by Gov. Allan Shivers last Tuesday, indicated he would help the Democrats maintain their narrow margin in the Senate.

One of Shivers' last acts before retiring as governor was to appoint Blakey to the post vacated by Price Daniel, who became Governor of Texas.

"I haven't made up my mind on how I will vote in the Senate," Blakey said. "I have got to get in the Senate first. He added that he had always been a Democrat and said he had supported President Eisenhower but also supported Senator Lyndon Johnson.

Johnson, Democratic leader in the Senate, said in Washington the appointment of Blakey means continued Democratic control of that body.

## Tax-Man Sam Sez:

Most of us have our income tax withheld from our salaries by our employers during the year and like it that way. Some of us, however, pay income tax through quarterly payments. Folks who pay their income tax through quarterly payments often make a very common error. In filing their tax return, they claim to have paid four quarterly payments on their tax when actually they have paid only three payments and are filing their tax returns and paying the tax instead of making the fourth payment. If you paid estimated tax during the year, be sure to claim only the tax you have paid.

NEW GOVERNOR—Price Daniel, one-time newsboy, country lawyer, state legislator, attorney general and U. S. senator, became governor of Texas in formal ceremonies last Tuesday, realizing his boyhood ambition. He promised to be a faithful governor "regardless of personal and partisan differences of the past," and called for "cooperation, unity and good will" in a state long torn by Democratic party conflicts.

### THE TAX STORY

If the public could only know and understand the tax story, it would support the tax-paying private utility companies at every opportunity. That is the view of Kinsey M. Robinson, president of the Washington Water Power Company. And he went on to tell a part of that story.

The eleven private utilities operating in the four Northwest states of Montana, Idaho, Washington and Oregon pay taxes to 285 counties, 671 towns and 2,257 school districts, in addition to state and federal levies. Their 1955 tax bill was over \$59,000,000—which works out to \$161,000 a day, or \$6,737 an hour for every hour of the whole year. These taxes would pay for a new school classroom every 2 1/2 hours if all the money were used for that purpose.

Then Mr. Robinson drew a compelling comparison. Washington State contains a number of Public Utility Districts (PUD's) which are free of some taxes. Last year these PUD's paid an average of \$12.25 in taxes for each of their customers. By contrast, the three private utilities operating in Washington paid \$39.55 per customer—more than three times as much—of which federal taxes accounted for \$22.25 and other taxes for \$17.40. He added: "The difference between the taxes paid by PUD's and the taxes paid by private utilities is \$27.30 per customer and you have to remember that in many, many cases, in spite of this much higher tax burden, the rates of private utilities are lower than, or at least as low as are the rates of PUD's."

In every part of the country utilities are among the biggest and most dependable taxpayers. Government system—whether local or national in nature—are, by contrast, tax eaters. Which do you prefer?

**BIRMINGHAM, ALA., INDUSTRIAL PRESS:** "We have always felt, that the present pressure to bring the Federal Government into public school systems of the nation by the subterfuge of 'financial aid' would be the beginning of the end to our traditionally free system of education."

**CORVALLIS, OREGON, GAZETTE-TIMES:** "All forms of government spending in fiscal 1956 hit a record of \$114,000,000,000, equivalent to 30 per cent of the whole national income. That means that 30 cents of every dollar we make in this country goes into government. That's our most serious economic problem."

### MORE LIVESTOCK WILL BE NEEDED

The following is from a Wall Street Journal news column: "To feed 1975's bigger, more prosperous population, federal prophets say, the nation will need 33 per cent more livestock and livestock products and 22 per cent more crops. The experts figure farmers will have to produce one-third more cattle, two-fifths more hogs, one-fourth more milk, two-fifths more eggs and chickens."

This is good news for livestock people, as well as the producers of the other farm products which will be in stronger demand. Also, of course, it presents a challenge. Meat production, particularly, must be planned on a long-term basis. Nature has her implacable laws, and you can't materially increase liveherds herds in a hurry.

But every precedent indicates that U. S. agriculture will produce all the steers, hogs and other meat animals that the country can use. They always have—and in periods when both total and per capita demand have increased sharply. There are good reasons why that should be so.

For one thing, meat animals provide farmers with their largest single source of cash income. For another, there is an established market for these animals that operates every business day of the year—prices vary, naturally, but the market is always there. Most important of all, livestock production isn't subjected to government restrictions as are the subsidized crops. It is conducted within the framework of our free enterprise system—and individual producers, not the bureaucrats, have the power of decision. That works to the long-range advantage of everyone concerned—all the way from farm and ranch to the nation's dining tables.

**ELOY, ARIZONA, ENTERPRISE:** "Pat, what's this I hear about ye joining up with the communists? Be ye daft, man?" "It's the truth, Mike. I signed up last week. The doctor told me I had but 10 days to live and 'tis better one 'o them communists die than a good Irishman."

**GREENFIELD, IND., DAILY REPORTER:** "... the little horse jockey by the name of Billy Pearson who last year won on the \$64,000 question on the subject of great art, became a champion and since has been on the 'Challenge' and won another \$32,000 in that contest.

"Just an interesting sidelight—out of the last \$32,000 he won, after taxes he only got to keep \$2,000."

## WHAT DOES THE BIBLE SAY?

### What Is Scriptural Baptism?

Down through the years, sprinkling and pouring have become recognized by Multitudes of people as being scriptural baptism. There are those who will turn to Webster's Dictionary in order to try to prove their point. Many fail to understand that Webster merely defines a term according to its modern day usage. On the other hand, why should anyone want to go to any authority other than the Bible to prove his point? It automatically follows that if an individual goes to another source for backing then his doctrine cannot be backed up by the word of God.

There are those who contend that sprinkling, pouring, and immersion are scriptural when it comes to baptism. But let's see. What does the Bible really say about this matter? Listen to the language of the apostle Paul: "Buried with him in baptism, wherein also ye are risen with him through the faith of

the operation of God, who hath raised him from the dead" (Col. 2:12). Now what is it Paul? The man of God says that one is buried with the Lord by baptism. Hence, according to the Bible baptism is a burial. Again, the same writer says: Know ye not, that so many of us as were baptized into Jesus Christ were baptized into his death? Therefore we are buried with him by baptism into death; that like as Christ was raised up from the dead by the glory of the Father, even so we also should walk in newness of life" (Rom. 6:3-4). Scriptural baptism, then, demands a burial. An example of such as found in Acts 8 where Phillip carried the eunuch down into the water and baptized him and then they came up out of the water. Sprinkling or pouring could not be scriptural baptism since the Bible speaks only of baptism as being a burial; then Paul settles it once and for all by stating that there is one baptism. (Eph. 4:5).

### SAVE TAX HEADACHES NEXT YEAR

There is no time like the present to start a procedure that will aid you with next year's income tax calculations. That is to maintain a record of your income and outgo. Such a record can be simple and brief but it may save you tax dollars and many hours of work in filling out tax forms.

The average man who works for a wage or salary doesn't have to concern himself about keeping books and records—at least so he thinks. His employer keeps a re-

liable record of his earnings and the Uncle Sam looks primarily to the employer for information on his earnings and for the withholding of various taxes out of his wages.

But whether or not you run a business of your own, you have a partner who each year is claiming a substantial interest in your personal income. And the law requires that you keep books for him in case he ever asks for an accounting.

Perhaps you own your home or are paying it out in installments. It's likely that some day you may sell that house. When you do you'll want to be able to prove whether you realized a gain or a loss on that sale. If a gain in capital resulted, it probably will add to your income tax. If a loss was suffered, it probably will reduce your income tax.

You may have made certain capital improvements on the house while you lived in it, but unless you can show what out-of-pocket expense you incurred while making them, you may not get credit for them in your cost

**Texas Agriculture In Review**

A backward glance at the 1956 crop year reveals no startling new facts to Texas farmers but should give high-level farm policy planners some cause for sober reflection. Something went haywire somewhere.

Drought, lack of irrigation water, decline in farm prices, higher production costs—these and other factors contributed to the decline in farm income. Yet, we have bumper crops in several commodities that counterbalanced severe crop failures in others.

Total value of principal crops in Texas was placed at 1.1 billion dollars in 1956. This is 9 percent below both last year and the 10-year average. Cotton was the most important crop and contributed more cash value than all other crops combined.

The corn crop was the shortest since 1873 with 27,465,000 bushels. Responsible factors were the smallest harvested acreage in 81 years and a low yield of 15 bushels per acre compared with the 10-year average of 17.6 bushels.

Wheat production totaled 26.4 million bushels, nearly double the 1955 short crop but only about half the 10-year average. Although most of the acres were lost to drought, the average yield on land that escaped its full effects was 12.5 bushels or nearly 2 bushels above average.

The fourth largest sorghum

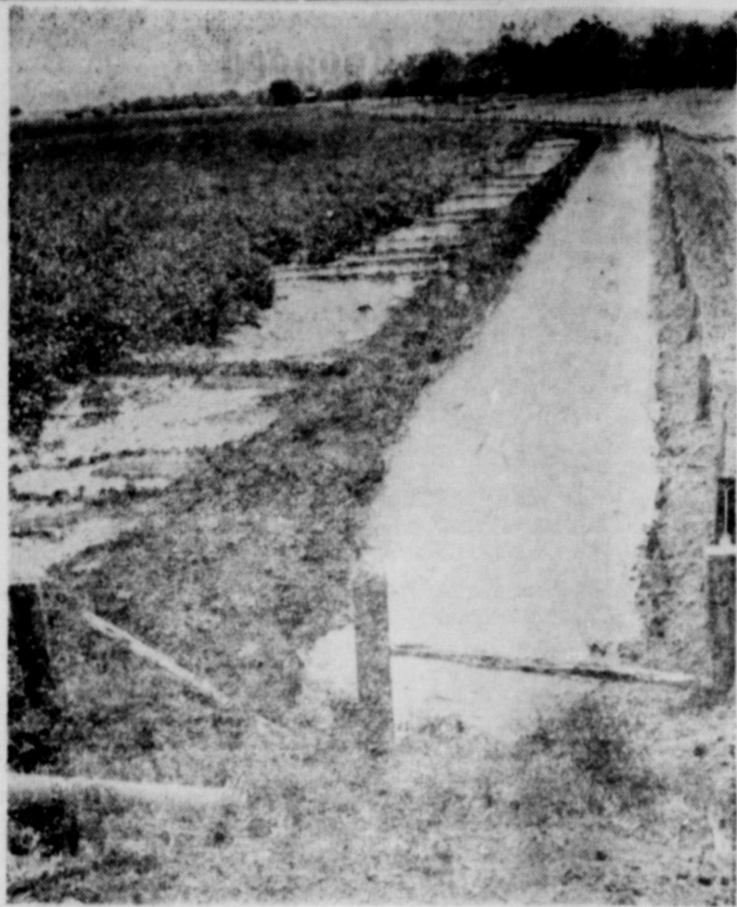

grain record was established at 124.2 million bushels. Yield per acre at 26 bushels exceeded the previous record by two bushels. Irrigation made the difference here.

About 3,610,000 bales of cotton were estimated for the state but the final figure is not yet completed. A yield of 278 pounds per acre was extremely good but the record high yields per acre in irrigated districts were contrasted with very low yields on most dryland acreage. Along the coast, crops were harvested ahead of the drought, although excellent early season prospects were not realized in that area.

Farmer production costs rose 3 percent in 1956 and are heading still higher in 1957, according to the U. S. Department of Agriculture. Everything the farmer buys and pays in the way of farm expenses is up above the 1947-49 average, except those things he buys from other farmers—seed, feed and feeder livestock. Interest and taxes are up more than any other farm production costs.

The bright hope for Texas farmers is that 1957 will bring an end to the 7-year drought. This one factor, more than any other, would help put Texas agriculture closer in balance with the national economy.

Drive carefully. The life you save may be your own.

**WATER FOR THE THIRSTY SOIL.** Irrigation ditches carry precious water to a cotton crop outside Navasota. In the 1956 growing season, during the worst Texas drought on record, irrigated cotton on the Brazos River bottoms between Hearne and Navasota made 2 1/4 bales to the acre, while dry cotton in Central Texas did well to make a bale to six acres. The long-range plan of the Brazos River Authority calls for thirteen more dams on the Brazos and its tributaries, to save water when it rains and create an assured supply for agriculture, cities and industries. Power will be an incidental by-product of some of the dams.

Miss Joyce Marie Michels of Dallas came in last Saturday for a few days visit with her mother, Mrs. Gene Michels, and family.

Bill Owens was a business visitor in Dallas last Saturday.

Miss Shirley Hill of Lubbock spent the week end with her parents, Mr. and Mrs. L. J. Hill.

Buster Pape was a business visitor in Quanah last Friday and Saturday.

Back in the early 1920's, there was a writer who had a short story in almost every issue of Redbook Magazine, which is of course one of the best. His name was Gerald Beaumont. His yarns were entertaining with sentiment and some humor intermingled, and were about baseball, policemen and racing. Three or four had their setting at the Tia Juana race track which is just across the California line in Old Mexico.

When Beaumont died, the big dailies published one paragraph under a one-line heading.

A fellow is a chump to write.

When I travelled with my father over Texas as a lad, we would stop at hotels in small towns and, after supper, in the lobby there would be lots of food talk. Usually there would be discussion of current events, maybe some politics—and humorous stories would be told. Occasionally, a somber note crept in.

One night a man told of a friend who was asleep when he heard a noise and in the darkness saw a burglar about to crawl through the window. The man drew his pistol from under the pillow, fired and the intruder fell into the room—dead.

"And now," the narrator concluded, "my friend continually dreams of shooting that man and

seeing the body fall through the window."

Some things are etched deep in the memory.

In the early 1930's, I was on the staff of the Fort Worth Star-Telegram. At an old settlers' homecoming in Weatherford, I met a Confederate veteran. He was a sergeant and near the close of the struggle, the opposing forces were facing each other from entrenchments. It was necessary to call the

roll at night but to have struck a light would have drawn the fire of a Yankee sharpshooter. So the sergeant memorized the list—some 12 or 14 names.

Probably, at the time he was telling about it, he was the only member of the squad still living.

He called the roll of his men for me, 66 years after the war.

Drive carefully. The life you save may be your own.

## Miss Maxine Henson Becomes Bride Of Larry Kuehler In Rites At Rhineland

Miss Maxine Henson, daughter of Mr. and Mrs. H. D. Henson, became the bride of Larry Kuehler, son of Mr. and Mrs. Tony Kuehler, in a double ring ceremony read on Friday, January 11, at 6 o'clock in the evening at the St. Joseph Catholic Church. The Rev. John Waibe, O. S. B., officiated. The church was decorated with baskets of white gladioli.

Appropriate music was played by Mrs. Leo Fetsch, organist. The bride, given in marriage by her father, wore a wedding dress, created by Clifford Wilhite, of glowing white satin and super fine nylon net. A fitted bodice of satin empire waist, adorned by a modest satin jacket with long sleeves, tapered over the hand. A full skirted ballerina length and nylon net over satin with bouffant ruffles from waist to hem in back was strewn with satin bows. Her waist length veil was of super fine nylon net to match her dress and was attached to her sequin and pearl iridescent hat. She wore a double strand of cultured pearls, a gift from the groom. She carried a bouquet of white feathered carnations showered with white satin streamers.

Miss Janice Herring of Rhineland, serving as maid of honor,

was attired in a pink ballerina length dress with matching headpiece and her bouquet was pink feathered carnations similar to that of the bride.

James Albus of Rhineland served as best man. Billy Jake Myers and Billy Ray Henson served as ushers.

Mrs. Kuehler is a 1950 graduate of Munday High School and is employed with the First National Bank in Munday. The groom attended Rhineland School and is now engaged in farming. They will make their home in Rhineland.

## Vera H. D. Club Meets January 8 At Legion Bldg.

The Vera Home Demonstration Club met January 8 at 2 p. m. in the American Legion building in Vera. Mrs. Grady Hardin, the new president, presided over the meeting. The minutes were read by Mrs. Bobby Roberson, the new secretary. Mrs. Lee Wayne McGuire was elected treasurer on the resignation of Mrs. L. D. Allen.

Council report was given by Mrs. Calvin Christian, council delegate. In addition to the above mentioned officers the following were elected for 1957: 1st vice-president, Mrs. Allen McGaughey; 2nd vice-president, Mrs. J. A. Fuller; reporter, Mrs. Claudell Bratcher and parliamentarian, Mrs. Fred Wiles.

The new yearbooks were distributed and various committees appointed. Plans for the new year were discussed briefly. The project chosen was "Livingroom Improvement". The demonstrator is Mrs. Clelan Russell with Mrs. James McGaughey and Mrs. Calvin Christian as leaders. Mrs. Clyde Beck is food demonstrator with Mrs. Gaylon Scott and Mrs. Claudell Bratcher as leaders. Mrs. Wesley Trainham is THDA no-

**FIRST BLUE CRUTCH SOLD**—Governor Allan Shivers became the first Texas purchaser of a March of Dimes Blue Crutch in Austin this week. Making the sale was Major General K. L. Berry, Adjutant General of the State of Texas and 1956-57 March of Dimes Campaign Chairman, above left fastening the Blue Crutch to Governor Shivers' tie clasp. Blue Crutches will go on sale all over Texas on Saturday, January 5. January has been officially proclaimed March of Dimes Month in Texas by Governor Shivers.

### mince.

Refreshments were served to the following members: Mesdames Clelan Russell, Alton Lee Patterson, J. N. McGaughey, Gaylon Scott, James McGaughey, Lola Scott, Fred Wiles, Lee Wayne McGuire, J. A. Fuller, Calvin Christian, Grady Hardin, Bobby Roberson, Clyde Beck and Claudell Bratcher.

## Student Dance Date Postponed To February 11th

In order to secure the music of the Wichita Falls High School Dance Band, parents sponsoring the Valentine dance for Munday High Students and guests announce a change in date from February 9 to Monday, February 11, 7 to 10 p. m.

Tickets for students and their guests will be one dollar per person and will be on sale at the Chamber of Commerce office from 10 a. m. to 12 noon Saturday, January 19.

The Wichita Falls aggregation is made up of fifteen students from Senior High under the direction of Donald Hatch. Since the music of this particular group is greatly in demand for dances in the Wichita Falls area, Mr. Hatch is setting aside usual commitment rules in order to bring the band to Munday at this time.

Chaperones for the semi formal dance will include some of the mothers and fathers of students from each class in high school. Students in charge of decorations are Bob Cude, Glenn Amerson, Margaret Yandell, James Goodwin, Iva June Ray, Jacquie Sokora, Linda Alexander, Kay Holcomb, Robert Beck, Linda Kay Smith, Jerrilynn Kane, Billy Frank Fitzgerald and Joe McMahon.

### ON STUDENT COUNCIL

Peggy Parks, a 1955 graduate of Munday High School, has been elected Student Council representative from the Cowgirls, a women's service club at Midwestern University in Wichita Falls. Peggy, a sophomore, is the daughter of Mr. and Mrs. Lee A. Parks of Munday. She is majoring in biology at MU.

## Engaged

Mr. and Mrs. L. R. Proctor, 1937 Pleasant Grive, Dallas, announce the engagement of their daughter, La Monne, to L. H. Blivins, son of Mrs. Joycie Blivins of Honey Grove. The bride-elect is a graduate of Pleasant Grive High School and is now employed in Dallas.

Her fiance attended the Honey Grove High School. He made his home in Goree until joining the navy. He did his high school graduate work through the U. S. Navy school and is now stationed at Chula Vista, Calif.

The date of the wedding is to be announced later.

### 4-H CLUB MEETING

The regular meeting of the Rhineland 4-H Club was held on January 9, with the meeting being called to order by Velma Belinghausen, junior club president. Miss Kinsey gave a demonstration on making cheese bread and a talk on well-balanced meals.

Drive carefully. The life you save may be your own!

### WHAT'S UP, HERE?

The Munday Study Club is planning an interesting program for their meeting on January 18. All members please make your plans to attend. (Hollywood Scouts may be present).

## LOCALS

Miss Henrietta Hertel, who is attending school in Wichita Falls, spent the week end with her parents, Mr. and Mrs. W. C. Hertel.

Mr. and Mrs. Hubert Finley and daughter of Hamlin were Sunday guests in the home of Mr. and Mrs. Jerry Guinn.

Mrs. Harold Honeycutt of Altus, Okla. came in last Friday for a visit with relatives and friends. She plans to stay here while her husband is in Guam for 3 months.

Mrs. C. M. Warren of Fort Worth came in last Monday for a visit with her daughters, Mrs. Wilkie Guinn and Mrs. Shelton Phillips, and their families.

### CARD OF THANKS

We want to thank our kind friends for their expressions of sympathy and for the beautiful floral offerings in our recent bereavement. May God bless you all.

Rev. and Mrs. Sanders. 1tp

## Guild Members Hold Regular Meeting Monday

Members of the Wesleyan Service Guild met Monday night, January 14, at the Methodist Church with 18 members present.

Subjects for the evening was "The United Nations". The Guild was fortunate to have Mr. Ibrahim Choucair, who was a delegate to the United Nations for two years representing Lebanon, for speaker. He gave a very interesting talk on the subject.

The meeting was closed with the Guild benediction. Mrs. T. J. Offutt was hostess for the occasion.

## Gilliand Girls Club Meeting Held

The Gilliland 4-H Club girls assembly in the Gilliland school lunch room on January 9, with Delma Rutherford presiding over the business meeting.

Miss Kinsey, the agent, gave a demonstration on how to make quick breads, and the breads were served to the members.

The next meeting will be on Wednesday, February 6.—Kay Miller, reporter.

## Missionary Speaks For Youth Rally

The Rev. John Larsson, Methodist missionary on furlough from India, spoke to the Stamford District Methodist Youth Fellowship meeting in the First Methodist Church in Rotan last Monday.

Rev. Larsson spoke about his work and how the northwest Texas conference MYF project "Operation Indian Agriculturalist" will affect the Indians and their standard of living. Approximately 90 youth, pastors and youth councilors from the Stamford district attended.

Margaret Yandell of Munday, president of the district, presided at the meeting.

Mrs. N. B. Davenport of Naples was a guest of Mrs. P. B. Baker several days this week.

### Texas 4-H'ers Win High Honors

Hard work and high honors went hand-in-hand for Judy Gibson, 16, of Frisco. As state winner in the 4-H Dairy program, she already has achieved a remarkable record in dairy production skills and practices. In recognition of Judy's progress, Lairo SureFeed Division of General Mills provided a trip to the National 4-H Club Congress held recently in Chicago.

Judy participated in numerous 4-H activities. They included feeding, grooming, training, showing, and milking her eight heifers and six cows. She enjoys showing them and won three county and several state prizes. She also showed a profit of over \$80.

Judy is a junior leader in her local 4-H Club, led by her mother, Mrs. B. Gibson.

Janice Perkins, 16, of Brown-

wood, a 4-H'er for four years, was judged state winner in the 4-H Home Grounds Beautification program. In recognition of her accomplishments, she was presented with a beautiful wrist watch by Mrs. Charles R. Walgreen of Chicago who has provided awards in this program for 19 years.

Janice's family bought a new home, and the yard had to be cleared of much debris. She landscaped the lawn and put up a picket fence. The top soil was improved by using grass, leaves, dirt and fertilizer.

Janice gave a demonstration, "Know Your Shrubs" before 2,000 people. She won first place in shrub identification at the county youth fair. Her mother, Mrs. Forest Perkins, is the local 4-H leader.

These 4-H programs are directed by the Extension Service of Texas A. & M. College with the U. S. Dept. of Agriculture cooperating.

### Lone Star Gas Co. Plans Construction

A record \$30,800,400 budget covering 1957 construction expenditures of the Lone Star Gas Company and its wholly-owned subsidiary, Lone Star Producing Company, was announced in Dallas today by President D. A. Hulley.

This year's construction budget, said Mr. Hulley, represents an increase of \$1,097,400 over the 1956 figure of \$29,703,000, the previously high amount allocated for expansion and development of physical properties.

He added that the year 1955 called for a construction budget of \$22,669,100, bringing the total in the three years to \$83,172,500.

Mr. Hulley said the budget for 1957 reflects an optimistic outlook for continuing residential, commercial and industrial growth throughout Lone Star operating territory.

"We added some 32,300 new customers during 1956 in our company-owned and operated distribution systems in 452 Texas and Oklahoma cities and towns," he said. "We anticipate about 32,400 new customers in 1957 which would give us a total customer count of about 821,000 at the end of the year. This figure is practically double the number of customers on our books at the close of 1947."

The \$30,800,400 budget represents \$26,750,600 in new construction improvements.

Major items listed in the 1957 budget include construction of new transmission and gathering pipelines, enlargement of compressor station facilities, drilling of oil and gas wells, acquisition of leases, expansion of underground gas storage facilities, construction of new office and warehouse buildings and extensions to existing distribution systems.

The budget sets out \$19,895,800 for Lone Star Gas Company and \$10,904,600 for Lone Star Producing Company projects. Lone Star Gas Company expenditures are broken down as follows: Transmission Division, \$7,568,000; General Division of Distribution, \$5,570,800; Dallas Division of Distribution, \$3,238,000, and Fort Worth Division of Distribution, \$3,519,000.

Major items in Lone Star Producing Company's budget include \$2,640,000 for new leases and seismicographic service and about \$8,700,000 for drilling and deepening wells.

Transmission Division expenditures include \$5,630,900 for new construction and \$1,937,100 for improvements. A major item of expense is \$3,359,500 for additions and extensions to the company's 8,000-mile pipeline network.

The General Division budget allocates \$3,772,500 for new main construction and \$1,798,300 for improvements to present customer service facilities, including fortification of local gas distribution mains.

Lone Star's General Division consists of distribution systems in about 400 towns and cities in Texas and Oklahoma. The Dallas Division serves the Greater Dallas area and the Fort Worth Division embraces Fort Worth and some 50 towns and cities in an area extending from Bowie in Montague County to Meridian in Bosque County.

### Range Management Program Progresses Despite Drouth

Range management demonstrations conducted last year under the supervision of local county agents involved 3,469,105 acres of Texas rangelands, reports Extension Range Specialists A. H. Walker and G. O. Hoffman.

The specialists, in their year end report, further stated that 7,751 range operators conducted demonstrations which stressed the efficiency and economy of production under drouth conditions. These demonstrations, because of the improved practices used, increased the returns or savings to the ranchmen by approximately four and a quarter million dollars. Educational benefits from training meetings and field demonstrations in the form of new knowledge on accepted range practices were estimated by the specialists to have been worth another \$700,000 to the state's ranch operators.

A total of 10,734 ranch operators in 225 Texas counties received assistance during the past year range management problems while some 985 meetings were attended by 28,500 interested producers. Field days held in the counties numbered 133 with an attendance of more than 9,300. Flexible stocking demonstrations were conducted by 2,000 operators; 11,977 new watering facilities were constructed while more than 1,400 ranchmen used a salt distribution practice to get more uniform utilization of their range

**Personal Wall Desk**  
Boon to Boy or Girl  
A PERSONAL desk is a boon to the school age girl or boy. It needn't be costly, either. The illustration shows a wall-hung desk, made in the home workshop at small expense out of common building materials such as 1-inch lumber, a Masonite "Peg-Board"

panel for a back, and a piece of hardboard that's smooth on both sides for the drop-down writing surface.

Ordinary molding, obtainable also at the lumber yard, is another material required. An interesting feature is the optional chalkboard, which can be made by painting the underside of the writing surface with blackboard slating, available at paint stores.

An important feature is the built-in fluorescent lighting fixture, which furnishes a soft but sufficient light right where it is needed. Readers may obtain a free plan showing how to make the wall desk. Send a postal card to the Home Service Bureau, Suite 2037, 111 West Washington St., Chicago 2, Ill., and request plan No. AE-510.

### Highlights At Austin

By Sen. Geo. Moffett

Jan. 14, '57—The Veterans Land Program was extended through a constitutional amendment, approved by the people at the general election in November 1956. Under this new amendment the Governor and the Attorney General are no longer members of the Veterans Land Board. Their places have been taken by two prominent citizens appointed by the Governor, who will devote their time to the Veterans Land Programs.

Every veteran who expects to buy land under the Texas Veterans Land Program should write to the Commissioner of the General Land Office, Austin, Texas, Mr. Earl Rudder, and ask for an application form. This does not mean that the veteran must have

a tract of land in mind at the time he requests the application. There are so many application already on file with the Commissioner of the General Land Office that it will be about fifteen to eighteen months after a future application is filed before a loan can be made; but unless the veteran files an application now and receives a number which will be called up in rotation, he would have a limited opportunity to buy land through the new program. Applications are being received in large numbers in each mail, and I hope that the veterans in our part of the state will not postpone filing their application. Suitable information will be sent to them when their application is received by the Commissioner of General Land Office.

The interest rate on new loans may be slightly above three per cent, but in any case it will be less than a veteran can borrow money from any other source.

Incidentally, the losses due to the misconduct of the former Land Commissioner will not prove to be nearly as great as has been reported. The state has foreclosed on the land involved in the improper transactions, and oil has been discovered near some of it, so that a considerable number of the tracts will bring more money than the state originally loaned on the land involved. The final loss may not be over 250 thousand dollars; and if more oil is discovered near the land involved, there may be no loss at all.

### Tax-Man Sam Sez:

The tax folks spend a lot of time sending back income tax returns that Papa signs and forgets to have Mama sign. If the return is a joint return, Papa and Mama are both responsible and both have to sign. Prepare your tax return and both sign it, if it is a joint return, now. It may be to your advantage to file early.

**All Livestock Open On Stronger Basis.**

FORT WORTH—Cattle and calves opened on a strong to 50c higher basis at Fort Worth Monday, with some high grade killing calves and top grade stocker calves 50 cents to \$1 higher. Heavyweight fed slaughter calves were up more than \$1 in spots. The abbreviated supplies brought all interest into the trade actively and cowmen and cattle feeders had the most gratifying session in more than a month.

Comparative prices: Good and choice slaughter steer and yearlings \$16.00-20.25; numerous loads in the \$18.00-20.00 bracket, including a load of 1,126-pound fed heifers from the Exum Ranch Co., of Dalhart, that topped at \$18.50. Lower grade killers sold from \$10 to \$15.

Good and choice slaughter calves \$15.00-18.00, with some heavyweights in the \$17.00-17.75 bracket more than \$1 above last week's low close on that type. Lower grade slaughter calves drew \$10.00-14.50, a few culls less. Good and choice stocker steer calves \$16.00-19.00, heifer calves \$17.00 down for stockers. Steer yearlings \$17.50 down.

**Runnells County Commercial Lambs Feature Trade**

The 4-H and FFA boys who took part in the commercial lamb feeding project just concluded marketed their lambs at mostly \$17 and \$17.50, which included some heavyweight lambs, which

**UNDERGROUND PARKING** garage in Stockholm, Sweden, showing two levels in this vast dual-purpose civil defense shelter which can accommodate 10,000 persons. The garage, a key unit in the largest underground shelter program in the world today, is equipped with triple electric doors at the entrance ramp to wall out blast pressures, electric generators, and a special air filter system, (inset) to eliminate poison gas, germs and radioactive dust. (Swedish Civil Defense Photo)

otherwise would have brought the extreme top.

Donald Dusek, winner of the contest, which was based 20% on gain, and 80% on records, averaged a gain of .44 pounds per day over weight going into the feedlot in the 111 days.

Adults with the group included Assistant County Agent Jim Haralson, H. B. Edmondson, VoAg Instructor at Ballinger; Dawson Coleman, VoAg Instructor at Miles and G. A. Frey, a 4-H club leader.

Boys participating in the test were: Rodney Flannagan; Alvin Hallmark; Donald Dusek; Douglas Moiser; Dalton Hoffman; Jimmy Smith; Eugene Shaer; Joe L. Moeller; Leroy Lange; Roy King; Roy Kahlig; Jerry Frank; Bennie Kalina; Pat Gulley; Wilburn Frey; Albert Gulden; Louis Heinz; Marvin Fant and Orville Wright.

**Lambs Open Strong To 50 Cents Higher, Top \$18.00.**

About 5,700 sheep and lambs, 90% of them lambs, arrived at Fort Worth Monday. This was about 2,500 fewer than a week earlier and the trade was brisk at strong to 50c higher rates. Good and choice slaughter lambs sold from \$16 to \$18, the top figure for some lambs bearing Fall shorn and full woolled pelts. Some choice lambs with No. 2 pelts sold from \$17.50 down, and some good recently shorn lambs drew \$16 to \$16.50. Cull, common and medium slaughter lambs sold from \$10 to \$15.

Stocker and feeder lambs sold from \$14 to \$17.50, the latter on woolled lambs, mixed fleshly and fat. Old ewes drew \$5.50 to \$7, and some recently shorn mixed old ewes and bucks sold at \$5.50 straight. Slaughter yearlings drew \$10 to \$15, the top for some recently shorn, but fancy fat handy weight yearling lambs.

**Beef Cattle Group Meets At Fort Worth January 28.**

Perry Lunsford, president of the Texas Beef Cattle Improvement Association, announced from his Dallas office this week that the annual meeting will be held at Hilton Hotel, Fort Worth, January 28.

Lunsford says the meeting is open to anyone interested. This is the group that seeks to improve quality by testing herds with a view to breeding towards heavier weaning weights, greater inherent ability to gain, etc. Though the stress is on hereditary factors in the main, any methods which also improve quality and gainability are tested, too.

This work has been labelled one of the most important steps to more profitable cattle production yet launched.

Mr. and Mrs. Joseph Borden and little Joe of Midland visited their parents, Mr. and Mrs. P. C. Phillips and Mr. and Mrs. J. C. Borden, over the week end. Mrs. Borden and Joe remained for a week's visit.

**News From The U. S. Congress**

By Frank Ikard, M. C.

This week I joined with other Members of the Texas Delegation in offering a plan which we believe to be an effective drought relief program for the stricken Southwestern Area. The plan that we propose is two-fold. First, it instructs the Secretary of Agriculture to make available protein feed concentrates in the drought area. There is no question but what an immediate supply of protein cake is essential for the maintenance of the basic range herds in the Southwest. The feeding of cake would probably be cheaper, as far as any Government program is concerned, than the feeding of hay or grain for which assistance is now available. The second portion of the plan that we offered would provide for a long range far-reaching soil conservation program through the use of deferred grazing. We now know that the present drought of the Southwest is the worst that has occurred in over 700 years and that it is not going to be broken and all the damage taken care of just by one big rain. If we are not careful in the future use of the areas effected by the drought, the present conditions could become permanent. Under the proposals that we have made, within certain limitations, the stockmen and ranchers would be

able to put his land into a deferred grazing program until such time as the turf had been restored and the grass was good enough to carry cattle again. It seems that such a program as this is essential if we are not to have the pastures overstocked in the drought area right after the first rain that comes.

Most of the work that a Member does in the House is done in his Committee; hence, the Committee to which a Member is assigned is of utmost importance to him and to his constituents. There is no Congressional Delegation here that is assigned to as many important Committees as is the Texas Delegation. For instance, on the Committee on Agriculture, W. R. Poage of Waco is Vice Chairman and ranking Democratic Member. Clark W. Thompson of Galveston also serves on this Committee. On the Committee on Appropriations, George Mahon of Lubbock and Albert Thomas of Houston are ranking Members with great responsibilities over the expenditure of Federal funds. Wright Patman of Texarkana and J. T. Rutherford of Odessa are the Texas Members of the Committee on Banking and Currency. The Committee on Government

Operations which is the investigating Committee of the House has Jack Brooks of Beaumont and Joe Kilgore of McAllen as Members. Omar Burlison of Anson and Abilene serves as Chairman of the House Administration Committee as well as an important Member on the Committee on Foreign Affairs. Walter Rogers of Pampa and Martin Dies of Lufkin are Members of the Committee on Interstate and Foreign Commerce. Walter Rogers also serves on the Committee on Interior and Insular Affairs with J. T. Rutherford. On the Committee on Judiciary Jack Brooks and John Dowdy of Athens represent Texas. Jim Wright of Fort Worth and Joe Kilgore are important Members of the Committee on Public Works. John Young of Corpus Christi serves on the Merchant Marine and Fisheries Committee as well as Post Office and Civil Service. Lindley Beckworth of Gladewater also is on the Committee on Post Office and Civil Service, and Olin Teague of Bryan is Chairman of the Committee on Veterans Affairs. Homer Thornberry of Austin is a Member of the all-important Committee on Rules. These assignments are made by the Committee on Committees which is made up of the

Democratic Members of the Committee on Ways and Means of which I am a Member.

**LOCALS**

Visiting in the home of Mr. and Mrs. John Albus during the holidays were Rev. John Walbe, Rev. John Errasti, Sister Mary Celeste, Van Buren, Ark.; Mrs. George Petrus, Harrold; Mrs. Sibella Andres, Mrs. Lena Albus, Robert Hertel, Mr. and Mrs. C. J. Albus and family, Mr. and Mrs. V. F. Albus and children, Rhineland; Mr. and Mrs. Robert Albus, Elko, Nev.; Mr. and Mrs. Ed Albus and son, Garnier, Vernon; Mr. and Mrs. Chas. Katulek, Munday.

Mr. and Mrs. Dorse Wardlaw and children of La Marque spent the week end with his parents, Mr. and Mrs. Stanley Wardlaw, and other relatives.

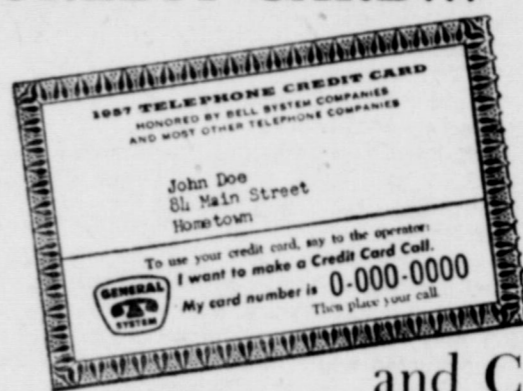

Mr. and Mrs. C. W. Burton and Maurice of Floydada visited in the homes of his sisters, Miss Christine Burton and Mrs. H. P. Hill, and Mr. Hill, over the week end.

Mrs. Vera Mitchell of Plainview was a business visitor here during the week end.

Chevrolet shows you some important differences in low-priced cars just by

*the look on its face!*

Wouldn't you say that most of the '57 cars look good from 50 feet away, but what about from 50 inches away?

What does a close-up of the grille tell you, for example? Is it solidly made like the new Chevrolet grille? Or, in comparison does it look less rich in design—feel less strong and solid? Compare the quality and construction of the bumpers and headlights, the fit of the chrome trim.

The more closely you look all around the car, the more clearly you'll see that Chevrolet has the edge in the way it's put together. You'll find, for instance, that Chevrolet is the only

car in its field with a lacquer finish . . . that only Chevrolet Bel Air models give you foam rubber cushions in front and rear seats as standard equipment. These are just a few of the advantages of Body by Fisher. And Chevrolet, you know, is the only low-priced car that has a Fisher Body.

We'll be glad to give you a close-up, comparative look at this new Chevy any time you care to come in. This week, maybe?

AIR CONDITIONING—TEMPERATURES MADE TO ORDER—AT NEW LOW COST. LET US DEMONSTRATE!

## MODERN HOMEMAKING

RECIPES... HOUSEHOLD HELPS

By Julia Hunter  
HOME ECONOMICS DIRECTOR, LONE STAR GAS COMPANY

Did you know the United States is the largest coffee consumer in the world? Coffee is certainly a great favorite in the Southwest, for we drink coffee from breakfast (or before) right through the last TV program at night, yet many people ask how to make really good coffee.

For instant coffee, use the amount of coffee that your preference dictates, add boiling water, cover the container and let the coffee steep for a moment or two to develop the flavor.

For brewed coffee, here are directions according to the National Coffee Association: Choose any type, but keep your coffee maker spotlessly clean—wash in suds, rinse thoroughly in very hot water. Scald coffee maker just before using. Use the proper grind coffee and measure accurately! One standard coffee measure (2 level tablespoons) to each six ounces of water (¾ of a standard measuring cup) are the correct proportions. Start with freshly drawn cold water. Never boil coffee! Keep it hot over a very low gas flame. For best results, brew coffee at full capacity of coffee maker, never less than three-fourths.

With coffee a favorite beverage, it follows that coffee is becoming a favorite flavor for many dishes. Coffee goes especially well in desserts. Try a little instant coffee sifted with confectioners' sugar for a butter frosting. For a delicious mocha flavor, top chocolate pudding or pie with coffee whipped cream; add 2 teaspoons instant coffee to ½ pint heavy cream before whipping.

Combine one cup sugar and one cup strong coffee, simmer three minutes, and you'll have a smooth syrup for flavoring milk drinks. Stir enough syrup into a glass of milk to give a preferred coffee flavor. Pop in a spoon of ice

cream to put this beverage in the party class.

For more free information, send a postcard to the Home Economics Department, Lone Star Gas Company, Room 601, 301 South Harwood, Dallas 1, Texas.

**Recipe Of The Week**  
**COFFEE VELVET CREAM PIE:** Soften 1 tablespoon unflavored gelatin in ¼ cup cold water. Combine and cook over low gas flame until mixture coats a spoon, stirring constantly, 2 egg yolks, 1/3 cup sugar, 2 tablespoons instant coffee and 1½ cups milk. Remove from flame. Add softened gelatin, stirring until gelatin is dissolved. Cool until slightly thickened. Beat until foamy 2 egg whites and ¼ teaspoon salt. Add gradually, beating until egg whites are stiff and stand in peaks, ¼ cup of sugar. Whip until stiff ¼ cup whipping cream. Fold beaten egg whites and whipped cream into cooked mixtures. Pour into 9-inch baked pastry shell or crumb crust. Sprinkle with mixture of ¼ teaspoon cinnamon and 1 teaspoon sugar. Chill in gas refrigerator at least three hours. Makes one 9-inch pie.

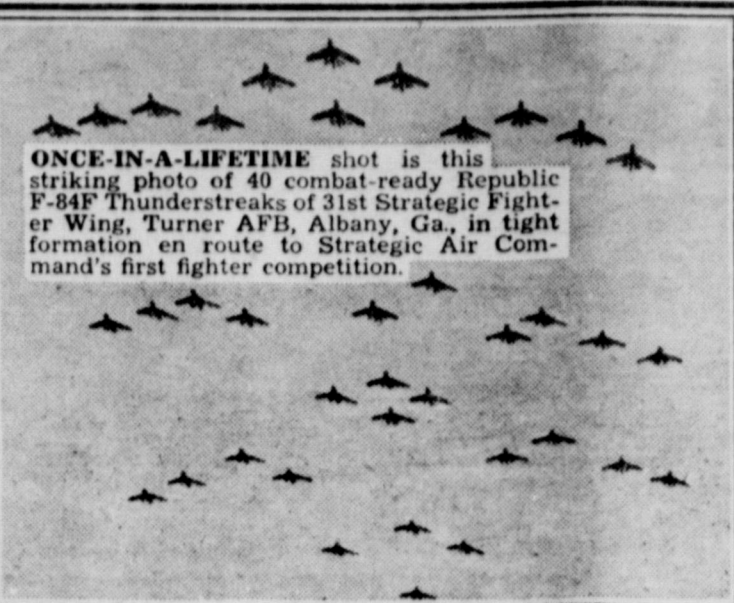

## LOCALS

Henry Arledge of Seymour and Sidney Winchester are in Denver, Colo., this week attending a National Western Hereford Show.

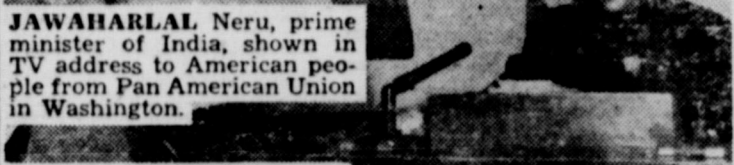

Miss Christine Burton visited Mrs. Bessie McStay in Bethania Hospital in Wichita Falls during the week end. Mrs. McStay was enjoying the numerous cards and notes she received from Munday friends.

Mrs. A. H. Mitchell is visiting her children, Mr. and Mrs. Michael Sloan and daughters, in Midland this week.

## SORGHUM HYBRIDS AVAILABLE FOR PLANTING IN 1957

Seven grain sorghum hybrids, developed cooperatively by the Texas Agricultural Experiment Station and the U. S. Department of Agriculture, will be available to farmers for planting in 1957. These hybrids are the result of research work which began in 1921 and are the first practical hybrids to be released from these studies.

The seven hybrids, RS 590, Texas 601, RS 610, Texas 611, Texas 620, RS 650 and Texas 660, are the best of several hundred produced and tested during the past 20 years at the Lubbock and Chillicothe stations. Tests were conducted last year throughout Texas and all have thus been grown under limited field demonstrations. The plant breeders for the Texas Station say still better hybrids with improved adaptation to various growing conditions can be expected in the near future.

Farmers are advised to plant one or more of the hybrids adapted to their areas and to make comparisons with standard varieties. Further, it is suggested, that only certified hybrid seed be planted as insurance that seed planted are correctly labeled.

Planting seed of these seven hybrids are white, but the grain produced will be red. In general, the higher the hybrid number, the later is its maturity, but none is as late as Plainsman. Yields 20 to 40 percent greater than varieties of the same maturity under most conditions can be expected. The plants show superior seedling vigor, rapid growth and uniform height and maturity. Since the hybrids have larger heads and are often slightly taller than the varieties, occasionally more lodging may occur in the hybrids. Cultural practices for the sorghum hybrids are the same as recommended for sorghum varieties.

Detailed information on each of the seven hybrids is given in L-310, Grain Sorghum Hybrids. It is available from the Agricultural Information Office, College Station, Texas.

Mr. and Mrs. Don Wardlaw, Mr. and Mrs. M. L. Wiggins and Mr. and Mrs. Worth Gafford were visitors in Wichita Falls last Sunday.

Mr. and Mrs. Jerry Kane and daughters spent last Saturday night with her sister and family, Mr. and Mrs. Perry Willson and son in Dallas. They went on to Gonzales Warm Springs for a check-up for their daughter, Jerryynn. Enroute home they visited his parents, Mr. and Mrs. Jerome Kane, in Waco.

Out of town relatives who were here for the funeral of Sid Owens in Goree last Sunday were Ira Owens and Orless Lambeth of Anton, J. P. Owens of Hico, Elmer Owens of Artesia, N. M.; Mrs. Letha Colburn of Wichita Falls and Mrs. Hattie Owens and daughter of Fort Worth.

## Weekly Health LETTER

Issued by Henry A. Holle, M. D., State Health Officer of Texas

**AUSTIN**—Quickening concern over lagging polio vaccinations was in evidence this week as state health authorities reported just slightly over 10 percent of the Texas population under 20 years of age has received the full course of three shots.

"And the start of the 1957 season is just a brief three months away," State Health Commissioner Henry A. Holle reminded.

The polio season usually begins in mid-April in Texas.

Dr. Holle predicted the relative number of cases among teen-agers and young adults would steadily increase because many persons in these age groups discount the possibility of falling victim to the disease and thereby fail to take the protective shots.

"The facts are that about 29 percent of all polio cases last year occurred among persons over 15 years old," the commissioner said. "Moreover, polio among persons of these ages is more highly fatal than it is in younger ages."

Dr. Holle said "fair" progress has been made in vaccinating infants and youngsters of grade school age, but that unless high school and college students quickly avail themselves of protection

through vaccination, "the heaviest percentages of future cases will affect them."

He said the vaccine is now in plentiful supply, "but it doesn't do any good in the bottle." National vaccine supply sources have indicated that enough of the protective fluid is on hand to vaccinate anyone desiring it, regardless of age.

As the year ended, a total of 732 cases of polio in its paralytic form had been registered in Texas for 1956. Of that number only 48 were reported as having received at least one shot. Only two had received all three shots.

Dr. Holle also appealed to parents of children who had received one or two shots to be sure the youngsters completed the third shot on schedule.

"The vaccine may give over 90 percent protection when all three shots are administered as recommended."

The recommended sequence calls for the second to be given a month after the first, and the third shot seven months after the second.

The commissioner called for a concerted drive throughout the state to get "all Texans—from infancy to maturity and beyond" to begin the three-shot series at once.

"It is a major medical miracle that so many people have been vaccinated in such a short space of time, but we cannot rest on that laurel with less than 10 percent of the job done and with another polio season coming up," the commissioner said.

## "Coming Events Cast Their Shadows Before"

Right now things are happening that will mean much to your future better health. Millions of dollars are being spent by the Pharmaceutical industry to research new drugs that promise to cure, or relieve diseases that have plagued mankind for ages.

Part of the cost of medicines in your Prescriptions is paying for this research. Because of this, it is certain, in the future, many lives will be saved.

Our Prescription department is complete in every detail. We solicit your prescriptions, and free delivery of them are yours for the asking.

## BROTHER PASSES

Mr. and Mrs. W. O. Lewis and Mrs. J. J. Smith were called to Fort Worth on Sunday night, January 6, because of the serious illness of O. B. Collins, brother of Mrs. Lewis and Mrs. Smith. Mr. Collins passed away the following afternoon, and funeral services were held at Weinert on Wednesday afternoon.

Bobby Prater of Frederick, Okla., visited Mr. and Mrs. J. F. Lowrance over the week end.

Mr. and Mrs. Herman Caldwell of Vernon and Mr. and Mrs. Raymond Caldwell of Wichita Falls visited Mr. and Mrs. W. R. Caldwell last Sunday.

Mrs. Joe Smith and son and Patsy Smith visited Mr. and Mrs. Taylor Couch and Mr. and Mrs. Roy Smith over the week end.

Mr. and Mrs. Corky West of Fort Worth were recent visitors with Van Thornton and Glenda.

Mrs. Paul Pilgrim is a patient in the Knox County Hospital.

Mrs. Floyd Kirk of Iowa Park spent the week end in the home of Mr. and Mrs. Taylor Couch.

Howard Crouch and Bud Yates of Wichita Falls were guests of Mr. and Mrs. George Crouch last Sunday.

Miss Donna Sue Jetton of San Angelo spent the week end with her parents, Mr. and Mrs. Dave Jetton.

Roy Mathis of Hardin-Simmons

University spent the week end with his parents, Rev. and Mrs. C. R. Mathis.

Miss Linda Joyce Lambeth of Wichita Falls visited her parents, Mr. and Mrs. Vernice Lambeth, over the week end.

Mr. and Mrs. Orville Parkey and family of Wichita Falls were guests of her parents, Mr. and Mrs. R. C. Knight, over the week end.

Mr. and Mrs. Norman Roberts of Canyon and Mr. and Mrs. David Roberts of Amarillo visited in the home of Jeff Roberts last Sunday.

Mr. and Mrs. Charles Atkinson and family of Houston visited their parents, Mr. and Mrs. Walter Cofman and Mr. and Mrs. Lock Atkinson, recently.

Mr. and Mrs. Millard McSwain, Mr. and Mrs. Woody Roberts, Mrs. Ammie Edwards and Mr. and Mrs. Terry Edwards and Cindy of Munday visited in the home of Mr. and Mrs. Charlie Edwards last Sunday.

Miss Mona Molbey of Hardin-Simmons University visited her mother and sister, Mrs. Ferris Mabley and Gayla, over the week end.

Dr. W. M. Taylor is a patient in Bethania Hospital in Wichita Falls.

Mr. and Mrs. Cordas Roy Lambeth of Wichita Falls were recent visitors with their parents, Mr.

and Mrs. Felton Lambeth and Mr. and Mrs. Irving Blankinship. Those from here who attended the funeral of Earl Coffman were Mr. and Mrs. Ernest Moore, Walter Coffman, Mr. and Mrs. John Coffman and Elbridge Coffman. John is the only surviving brother Earl.

## NEWS FROM VERA

(Mrs. Thelma Lee Coulston)

Mrs. T. M. Hurd returned home last Wednesday from an extended visit with Mr. and Mrs. Winn Stephens and boys in Antlers, Oklahoma.

Mr. and Mrs. Delton D. Hoosier and son of Plainview visited with his aunt, Mr. and Mrs. Clifford Roberson, last week end.

Mrs. W. F. Rabe spent the week end with Mr. and Mrs. Claude Jackson and children in Wichita Falls.

Jimmie Fuller is a patient in the General Hospital in Wichita Falls, following surgery.

Young people attending the District meeting of the Methodist Youth Fellowship, in Rotan last Monday night were Benny Carl Coulston, Floyd Brown, Barbara June Townsend, Jan Richards, Elizabeth Brown, Carol McGaughey and Rev. S. A. Wolfe.

Mr. and Mrs. Pete Feemster of Weatherford visited during the week end with her mother, Mrs. W. P. Hurd.

Mrs. Clarence Allen and Nancy of Abilene spent the week end with her mother, Mrs. Jim Hughes and Mr. and Mrs. Edd Allen.

Mr. and Mrs. Wesley Trainham visited with their son, Mr. and Mrs. Jerrell Trainham of Wichita Falls, last Friday.

Paul Weiss and Jess Trainham

## INAUGURAL SOUVENIRS AVAILABLE

OFFICIAL INAUGURAL PROGRAM

OFFICIAL INAUGURAL MEDAL

WASHINGTON, D. C.—Two official souvenirs of a U.S. Inauguration are now being made available throughout the nation for the first time in history. The Official Inaugural Program features a portrait of President Eisenhower and Vice President Nixon on the cover by Norman Rockwell, famous American artist. The cover and book is in four colors. The program contains historical information on past inaugurations, photos, a calendar of events and other interesting material. The front of the Inaugural Medal features for the first time since 1909 the heads of both the President and Vice President. The medal measures

3 1/4 inches across and is available in bronze and silver as a historic keepsake of the 43rd Inauguration. Cost of the Official Inaugural Program is \$1.10, postage included. Bronze medals sell for \$3.50 and special silver personalized medals cost \$27.50, postage included. Send check, money order or cash direct to Inaugural Committee 1957, Washington 25, D. C.

Mr. and Mrs. Bill Townsend and Barbara June accompanied Mr. and Mrs. Tom Russell to Lubbock over the week end. The group took Mrs. Russell's mother, Mrs. Neal Howell home after a week's visit with her daughter.

Mr. and Mrs. H. H. Gore have been visiting with their daughter, Mr. and Mrs. Wayne Knight in Wichita Falls.

Mr. and Mrs. A. B. Warren visited her sister, Mrs. Frank Burton, and family in Whitehouse last Sunday.

Mrs. C. Y. Morris of Rule visited her sister-in-law, Mrs. C. N. Smith, last Thursday.

## LOCALS

Mrs. Dub Gresham and children and Mr. and Mrs. Billy Joe Pruitt of Wichita Falls attended the wedding of their sister, Maxine Henson, to Larry Kuehler last Friday afternoon.

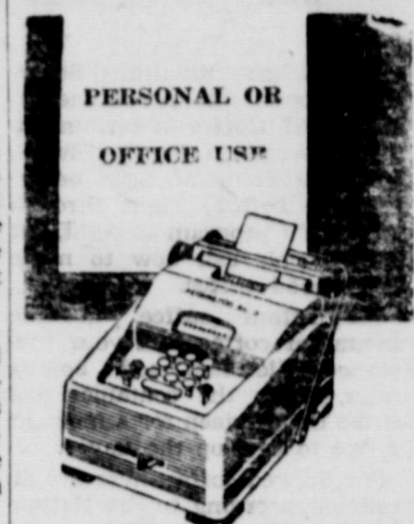

Mr. and Mrs. Coy Phillips and their daughter, Mrs. Ray Anderson of Levelland visited relatives here over the week end and attended the wedding of Maxine Henson and Larry Kuehler on Friday night.

Mrs. Ola McCollough of Rule was a week end guest in the home of Mr. and Mrs. J. D. Crockett.

Mrs. Billy Bradford of Abilene visited her parents, Mr. and Mrs. Coy Tuggle, from Wednesday until Saturday.

### CARD OF THANKS

The recent bereavement which has visited our home has brought to us a greater appreciation of our friends. Our heartfelt thanks to all who extended comforting sympathy and help in our recent sorrow. For the beautiful service, floral offerings, food and other kindness, we are deeply grateful. The Family of Edgel M. Owens. 1tp

**Wooden Miter Box Fits On Sawhorse**

**POPULAR MECHANICS** suggests a handy wooden miter box for use on a sawhorse. This is excellent for cutting quarter-round and small moldings and

can be constructed from three pieces of scrap lumber in a few minutes.

As illustrated, the box is constructed to fit snugly over a sawhorse. Thus there is support at a comfortable height and the location of the unit can be changed to meet convenience.

Another worthwhile suggestion from this magazine is to use sheet-metal screws to seal holes that were punched into a can so that part of the contents could be poured out. The screws prevent evaporation, eliminate pollution and look neat.

Mr. and Mrs. I. V. Cook of Plainview spent the week end with Mr. and Mrs. Aaron Edgar and other friends in Munday.

Mr. and Mrs. Wayne Smith of McMurry College in Abilene visited their parents, Mr. and Mrs. Joel Massey and Mr. and Mrs. A. L. Smith, last week end.

## Knox Prairie Philosopher Is Not Surprised That Prices Are Going Up; Says They Always Have, Always Will

Editor's note: The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek seems about half serious this week, although you never can tell:

J. A.

Dear editor:  
I was talking to a bunch of my neighbors sitting around a stove in town yesterday afternoon and they were concerned over the high cost of living.

Furthermore, one of them said, he'd read the day before where the kind of national economy we're living in requires prices to keep edging up a little, if they stopped they might start falling and that might bring on deflation and a depression, and that everybody might as well get set to see prices continue to go up a little each year from now on, maybe for the next 50 years at least.

This made everybody feel gloomy, expect me. It wasn't news to me that the cost of living may continue to go up. It's been going up ever since I can remember.

The man who in his early days was making \$90 a month and figured if he could just raise it to \$100 he could get by comfortably, is now making say \$400 a month and figuring if he could stretch it to \$500 he could get

by comfortably. The same applies regardless of the bracket you used to be in and are in now.

Anybody who hasn't discovered it costs more to get born, more stay healthy, more to get educated, more to stay clothed, more to get entertained, more to stay in business, more to retire on, more to die on, more to get buried on, more to have your will executed and your property divided among children who will find it wasn't enough to put them where they wanted to be, just hasn't been around for the last 25 years.

Understand, I wouldn't want to go back to the old days where a man was considered well off if he didn't have to ride bareback and owned a new well rope, but the idea that you can find some way to hold your income up and

your costs down, that you will be able to find somebody to sell you beans in a cellophane bag for the same price you could grow and store them yourself in a tow sack in the old days, is hopeless.

In other words, it's an uphill fight, but it always has been and always will be, except maybe in my case. I've done most of my fighting on level ground. You can rest better that way.

Yours faithfully,  
J. A.

a bill now before the legislature is passed. That bill is a flexible rating law for casualty (including automobile insurance).

Many economically-operated insurance companies are in a position to charge rates substantially lower than those of companies with more expensive types of operation.

Thus, it will mean that the insurance buyer can shop around and get the best buy for his insurance dollar—something he cannot now do.

More importantly, it will mean that the careful drivers will no longer have to subsidize the careless driver.

# Repair Loans

For Home Repairs

★ Up to 60 Months to Pay!

★ No Down Payment!

## Munday Lumber Co.

## Texans In—

(Continued from Page One)

productive grasslands have been changed into deserts simply by over grazing pastures at a time when they needed to recover from drought. The present disaster in the Southwest could well become a permanent condition unless we profit by the experience of the past and provide a program which will enable the land owners to give the land a chance to recover. We believe that we have offered such a program in this bill. This bill would require the Department of Agriculture to make payments to land owners who will

agree to defer the use of their depleted pasture lands for periods of not less than twelve months. This program shall become effective immediately in the drought disaster area and shall continue for a period of three years after the drought has broken. The bill provides for payments at the normal rental value of the land. This would enable thousands of stockmen to take the steps which they know to be sound from a conservation standpoint but which they cannot afford to take in the absence of some Government program.

"This program is offered to be of assistance to the entire Southwest area stricken by the drought, and it is hoped that all of the Members of Congress from the area will join in supporting it."

## Oil Activities

Fletcher Oil and Gas Drilling Co. has found another Tannehill discovery 1 1/2 miles northwest of Goree with the No. 1 W. L. Moore. Initial pumping potential was 84.69 barrels of 38 gravity oil, perforated with six shots at 1908-9 1/2 feet. Gas oil ratio was 220-1.

Glenn W. Cooper has completed his No. A-1 P. V. Cartwright in the Goree field for a daily flowing potential of 295 barrels of 36 gravity oil. Production was from 1714-22 feet, and gas oil ratio was 300 to 1. Total depth was 1740.

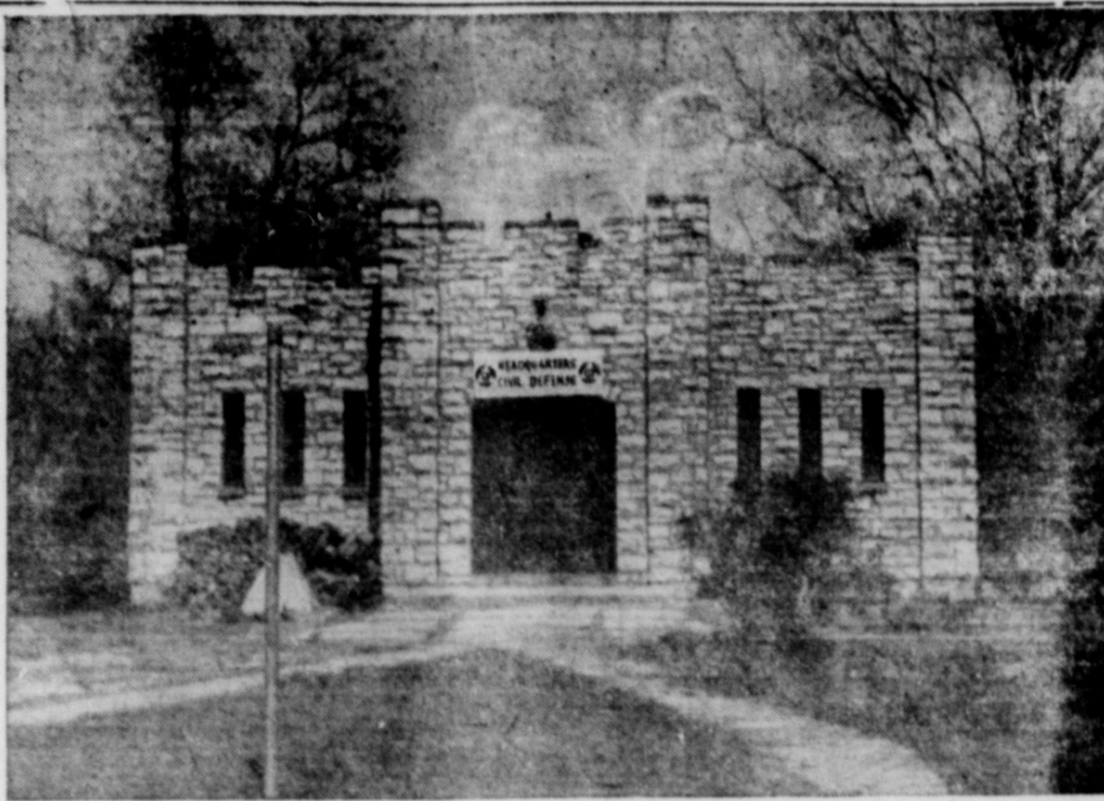

Five miles northwest of Munday, Ajax Oil and Development Co., Wichita Falls, staked the No. 3 J. D. Wright. Contract depth is 2200 feet.

On the northeast side of Goree, Lisle and Gray Drilling Co. staked the No. C. L. Patton as a 2000-foot Tannehill venture.

Two miles west of Goree, No. 1 W. L. Orsak will be drilled as a 2200-foot venture. Application for the wildcat was filed Monday by McMahon-Bullington Drilling Co., Steinberger and Lindemann Drilling Co. abandoned at 2005 feet the No. 1 Clifford Club, a wildcat four miles south of Goree.

Perking-Prothro Co. of Wichita Falls found a new Tannehill pay in its No. 1 C. L. Mayes, four miles northeast of Munday. Finalized at 1903-13 feet, the wildcat flowed 120.24 barrels of 39 gravity oil from the pay zone perforated with 40 shots. Gas-oil ratio was 235-1, and total depth was 2100 feet.

Clymore and Whitehurst of Corpus Christi filed application Tuesday to drill the No. 1 W. B.

OLD FORT "D" at Cape Girardeau, Mo., provides a natural setting for the town's civil defense headquarters. The Civil War fort has room for offices, classrooms, a kitchen for emergency feeding exercises and after-study snacks, and even a stack of Civil War rifles.

## Texas Farmers In '57 To Continue In Price-Cost Squeeze

Texas farmers will continue to be in a price-cost squeeze during 1957 although crop restrictions and increased agricultural exports may tend to relieve pressure created by large surpluses of cotton and wheat, says extension economist John G. McHaney.

Overall large supplies of agricultural products will prevent any great price increases to boost farmer income and production costs may even average slightly higher than 1956 figures, McHaney added.

Additional funds may still be

Herring et al., four miles north of Knox City, as a 2400-foot wildcat.

A mile east of Munday, Texas Oil and Gas Corp. plugged the No. 1 C. B. Yates at 2106 feet. A half-mile northeast of Knox City, Hurley Oil and Gas Corp. abandoned the No. 1 Mary Hackfield at 2405 feet.

In the Voss Tannehill Field, Lomax and Maxwell reported a daily potential of 108 barrels of 36 gravity oil on their No. 4 J. K. Johnson, two miles west of Munday. Flow was through 20/64-inch choke with 160-1 gas-oil ratio. Total depth was 2026 feet.

in the farmer's reach, however, in view of a scheduled government agricultural expenditure rise from 4.9 billion dollars in 1955-56 to 5.7 billion for 1956-57 as a result of the Soil Bank Program. With a fair amount of rain in 1957, McHaney says the Texas farmer can expect a better year than 1956. The Suez situation and other world trouble spots will not tend to decrease the agricultural export market and a general level of good economic activity is predicted for the new year by McHaney.

Government economic and fiscal policy will definitely play a leading role in the 1957 picture, he points out, and 1956-57 total outlay scheduled by the federal government is up 2.7 billion dollars over a year ago chiefly because of national security programs. Tighter credit and higher interest rates will probably make for a firmer check on expansive forces, but won't seriously affect a continuing strong demand for 1957 agricultural products.

## HOME ON LEAVE

A/3c Jimmy Trammell spent his 10-day leave here with his parents, Mr. and Mrs. Frank Trammell. He returned Tuesday to Kelly Field, San Antonio, where he is entering the Security Intelligence Service.

See You In CHURCH Sunday

## Breakfast Given CC Directors And Guests Wednesday

Directors in the Munday Chamber of Commerce and a few guests were served a breakfast Wednesday morning at the Hotel Coffee Shop as guests of the West Texas Chamber of Commerce.

Ralph E. Duncan, manager of community services for the body, was host. After the breakfast the group assembled in the First National Bank, where Mr. Duncan reviewed briefly the WTCC program. He summed up his talk with the statement: "It is a business organization serving the needs of West Texas in the fields of agriculture, legislation and business." The local group then started soliciting membership in the organization.

Present for the breakfast were J. C. Harpham, Dorse Collins, M. L. Wiggins, Charles Baker, Varney Moore, Tom Bullington, Chales McCauley, Aaron Edgar and Mr. Duncan.

A new Extension publication, B-136, Low-Cost Wood Treatments, is now available from the offices of county agents or from the Agricultural Information Office, College Station, Texas. It is a handbook on treating wood on the farm.

## CATTLE DELIVERIES

Chas Moorhouse has just delivered 69 Angus yearlings for Meriman and Fox of Crowell to Deaton Moorhouse of Amarillo and 61 Hereford yearlings the same way for Togo Moorhouse. He also bought 59 Hereford yearlings from the A-Bar Ranch near Truscott and sold them to Togo Moorhouse. The demand for good stocker cattle is good.

Waymon Smith of Baylor University in Waco was a guest of his parents, Mr. and Mrs. A. L. Smith, over the week end.

Mr. and Mrs. Clyde Yost and Ronald Clyde visited relatives in Fort Worth and DeKalb over the week end.
