Odd Bits Salvaged
at Random

Do you want to vote for Ralph Yarborough or some other person to fill Price Daniel's place in the Senate?

k-k

Better hurry then, and pay your poll tax if you haven't already done so. January 31 is the deadline for paying the tax which gives you the privilege of voting during all of this year.

k-k

The Senate race will not be the only question to be decided by voters in 1957. We will have the usual city and school election—and there could be others, such as state constitutional elections, bond elections, etc. It's the practical thing to do—pay your poll tax.

k-k

Soon after becoming Governor of Texas, Price Daniel called a special election for April 2 to name his successor in Washington. He set this date because it coincides with city elections in many instances over the state, and the election can be held with less expense.

k-k

Ralph Yarborough is a candidate for the Senate seat, and it looks like this will be a hot race. Others already warming up for the conflict are: James F. Hart of Austin, former justice of the Texas Supreme Court; Congressman-at-Large Martin Dies of Lufkin and Searcy Bracewell of Houston (all Democrats) and one Republican candidate, Thad T. Hutcheson of Houston.

k-k

Which brings another question to our mind: What is an Eisenhower-Democrat?

k-k

We noticed in the papers that's what Senator Bill Blakley is. He's the man, you know, whom Shivers named to fill Daniel's place at Washington until the voters can name one. Frankly, we had never heard of William A. Blakley until his appointment. But we guess that's nothing unusual. Possibly many other Texans have become millionaires without us hearing of them.

k-k

But back to our question. Your natural answer, we suppose, is that an Eisenhower-Democrat is a Democrat who supported President Eisenhower in his campaign for president. But dyed-in-the-wool Democrats will possibly differ and offer the idea that a person is either a Democrat or a Republican, and there ain't no such animal as an Eisenhower-Democrat—if he votes against the Democratic party's choice, then he's no longer a Democrat. We're not trying to start an argument, but we're kinda inclined to agree with the dyed-in-the-wool boys.

k-k

Our guess, though is that Bill Blakley will make a good temporary Senator. He's stated he won't be a candidate for the post, so you can't vote for him come April 2. Pick out one of the other boys.

k-k

Unusual cargo: Seen on the delivery truck of Cal Stevens as he passed down the street Monday, one automobile tire and one horse collar!

k-k

Lee Bivins has one of those electric needles for placing the names and license numbers of auto owners inside their hub caps so they can be identified if they are stolen. Lee says as soon as time permits, and with some volunteer help, he will "brand" these hub caps for 50 cents per car. Sounds like a bargain, and the money will go into the Civil Defense Unit's funds.

k-k

Looks like the old processing sheds will be the center of activity around June 15 this year. Local growers have completed arrangements for Trautmann Bros. to handle the spud crop, and it seems likely that 400 acres or more will be planted in cantaloupes, with more in watermelons and sweet potatoes. Planting of spuds is not far off—and when that time comes they're planted, even if its snowing.

CEMETERY ASSOCIATION TO SERVE DINNER

The Goree Cemetery Association will hold their dinner Friday, January 25 in the Memorial building. Serving will begin at 11:30 and everyone is invited to come and enjoy this good meal.

Ex-Newsman Of Area Passes At Corpus Christi

Word was received here of the death Saturday of William F. Bisbee, former Benjamin newspaperman, who died at 2 a. m. Saturday in Corpus Christi, where he was operating a grocery store. Mr. Bisbee was a former linotype operator for the Abilene Reporter-News, and was publisher of The Benjamin Post until 1936 when that paper was consolidated with The Munday Times and Bisbee started work on the Abilene paper.

Funeral services were held in Corpus Christi.

Survivors include his wife; one son, Billy, and one daughter, Betty; two sisters, Helen Bisbee of Phillips and Grace Bisbee of Haskell; three brothers, Leroy of Louisiana, Jim Bob of San Antonio and Charles of Dallas; several nieces and nephews.

Oil Activities

Knox County continues to increase its oil production. Figures released the latter part of last week showed daily production last week of 6,172 barrels as compared with 6,161 barrels for the week before.

McMahon-Bullington Drilling Co. of Wichita Falls has been drilling the No. 1 Clyde Yost, one mile northwest of Munday as a 2,200-foot test. Unofficial reports Monday were that the firm brought in a good well.

Ray Smith Drilling Co. of Dallas has scheduled a 3000-foot wildcat nine miles northwest of Truscott as the No. 1 Big Four Ranch test.

Going to 1900 feet three miles southwest of Munday is Christie-Stewart Drilling Co. of Wichita Falls No. 1 D. Phillips.

Fletcher Oil and Gas Corp. of Dallas No. 1 C. O. Scott is a 2300-foot operation six miles northwest of Munday.

Another 2300-foot is Garvin Oil Company, Dallas, No. 1 J. W. Howell, five miles west of Munday.

New wildcat location in the county, announced Wednesday include:

Tex A. Norwood et al No. A-1 Wall, 6 1/2 miles northeast of Knox City; J. L. Stodghill and C. P. Baker No. 1 A. P. Denton, four miles northwest of Knox City; Stodghill and Baner No. 1 Joe Smith, four miles northwest of Knox City; Nortex Oil and Gas Corp., Dallas, No. 1 Mrs. I. M. Douglas, one-half mile north of Munday; Noel Pautsky No. B-1 R. L. Ratliff, 2 1/2 miles south of Goree.

Three failures were reported. They are: Ray Smith Drilling Co. No. 1 Cypert, 1 1/2 miles east of Knox City; Smith's No. 1 B. B. Campbell, 3 1/2 miles northwest of Knox City, and Arnold H. Bruner Co., No. A-1 F. J. Redder, eight miles northwest of Munday.

Fund For March Of Dimes Now \$207.24

Donations thus far for the March of Dimes amounts to \$207.24, which is under last year's contributions. This includes the four schools, balloon sales by 4-H girls, mailed in and coffee money contributed by the Coffee Shop one morning.

The business houses will be called on soon and the "Mother's March" is set for Monday, February 4. Your cooperation is urged if you are asked to help in any of these drives.

Anyone living out of the city limits who wish to contribute to the March of Dimes is urged to do so soon. Mail your money or contact Mrs. John Peysen, Munday, Texas.

TO SWEDEN—Mr. and Mrs. Payne Hattox and children, Tommy and LaVerne, pictured above, will sail May 15, 1957, for Stockholm, Sweden, where they will locate as missionaries for the Church of Christ. So far as Mr. Hattox has been able to learn, there are no members of the

Church of Christ in Sweden, and he will devote his entire time to missionary work there.

Mr. and Mrs. Mitchell S. Greer and daughter of Knox City and Mr. and Mrs. Dan Billingsley and two children of Carrollton are also going to Sweden as missionaries.

Mr. Hattox is completing his third year as minister of the Munday Church of Christ. Since his decision to enter the mission field, he and others of the group have been doing extensive study. The Hattox family will spend at least four years in Sweden.

Funeral Held At Knox City For Mrs. John White

Funeral services for Mrs. John R. White, 76, were held at 2 p. m. Monday from the First Methodist Church in Knox City. She died Sunday at 6 a. m. in a Wichita Falls hospital, where she had been a patient for the past three months.

Mrs. White, the former Dallas Roberson, was born January 23, 1881, at Duffau, Hamilton County, Texas.

Rev. Walter Driver, pastor of the church, officiated at the funeral, and burial was in Knox City Cemetery under the direction of Warren Funeral Home.

Mrs. White is survived by her husband, a retired farmer; one son, Raymond; a grandson, Gary, all of Knox City; four sisters, Mrs. Willie Fuqua of Houston, Mrs. Ina Sedberry of DeLeon; Mrs. Effie Dunn of Stephenville, and Mrs. Edna King of Mabank; four brothers, Jim and Henry Roberson of Hamilton, Luther of Strathmore, Calif., and Steve of Quanah.

Plans For Musicade Getting Under Way

Plans for the 1957 Musicade sponsored by the Munday Band Booster Club, and presented by the Mogul Band of Munday High School, are underway. At a meeting Monday night the different committees were appointed and will start plans immediately. A definite date has not been set, but plans are being made for a date in March. Admission will be charged and advance tickets will be on sale soon at the Chamber of Commerce office. The proceeds will be used to buy band equipment.

Local Guests Hear New Olympics Star

The Y. M. C. A. in Abilene extended an invitation, through the Munday Chamber of Commerce, to the coach and his guests to attend their meeting in the new Abilene High School last Monday night.

Bob Richards, pastor in Long Beach, Calif., who recently won the pole vault in the Olympics, was guest speaker. Another honored speaker was Eddie Southern of Texas University.

Those attending from Munday were Coach Troy Stewart, Asst. Coach Ray Snider, Glenn Amerson, Gerald Tidwell and Bob Cude.

SELLS BARBER SHOP

After 2 1/2 years of operation in Knox City, C. R. Hendrix announced Tuesday that he has sold his barber shop to Jackie H. Young of Benjamin. Clyde has not announced his plans for the future.

Trautmann Bros. Will Handle Coop's Potato Crop; Other Crops Are Planned

In a recent meeting with Bill and Al Trautmann of Trautmann Bros., directors of the Munday Vegetable Growers Cooperative entered into final arrangements with them for handling the 1957 potato crop for this area.

A crew will move into Munday from Friona around February 15 to start cutting the seed and preparing them for planting. Trautmann Bros. will also have a field man here during the planting period.

Another representative who is

experienced in growing potatoes will come here around May 15 to supervise the crops in the final growing period, and Trautmann Bros. will handle all harvesting, processing and marketing of the crop.

Meeting Called Friday
Meanwhile, local members are working on final commitments of farmers for growing other crops, such as cantaloupes, watermelons and sweet potatoes. A meeting has been called for 7 p. m. Friday at the elementary school building to get commitments from farmers on the number of acres to be planted to watermelons and cantaloupes.

One processor and shipper who has contacted local directors wants a minimum of 400 acres in cantaloupes, while another wants to work with local farmers on a minimum of 300 acres each of watermelons and cantaloupes.

All farmers interested in growing these crops are urged to attend the meeting Friday night.

NEW POST—Jesse L. (Jack) Sharkey has been appointed to the newly created position of service unit field supervisor for the Salvation Army in the Texas Division, it was announced by Lt. Col John A. Morrison, divisional commander, and Dan Eddy, state service unit director in Dallas. Sharkey visited Munday during the time he served as field representative for this region.

Moffett Named On 11 Committees Of Texas Legislature

Sen. George Moffett of Chilli-cothe, veteran senator of this district, has been appointed a member of 11 of the 24 committees in the Senate of the 55th Legislature, including a majority of the important committees.

He will be chairman of the Committee on Agriculture and vice-chairman of the Committee on Oil and Gas. Others to which he was named a member are: Constitutional amendments, contingent expense, finance, co-operation, military and veterans' affairs, state affairs, water conservation, rules, and transportation.

FILM TO BE SHOWN AT METHODIST CHURCH

A film, "One God", based on a book by Florence Mary Fitch, will be presented in the main auditorium of the First Methodist Church at 7:00 p. m. Sunday, January 27. This is an inspiring film and one you should make plans to see.

Old Bus Being Put Into Shape

The old school bus which was donated to the local Civil Defense Unit is being put into shape, and within a few weeks it is hoped the vehicle will be transformed into an up-to-now defense bus.

Practically all of the work is being done with volunteer labor. Last week, Lee Bivins, Dorse Collins and Joe Lane took all the seats out and installed dome lights inside. Some mechanical aid was given the bus by Cypert's Auto Service, and Pete Vinson of Munday Paint and Body Shop is straightening out the "banged up" rear end—then the wagon will be painted.

George Beaty is doing the cabinet work and others are volunteering help where needed. Some civic groups have indicated they will donate some funds towards shaping up and equipping the bus.

Army surplus equipment will possibly be purchased to fix her up into a first-class disaster bus. Bivins said he hoped to have the vehicle ready to go within a few weeks.

Mrs. D. B. Weaver, 82, Dies; Rites Are Held On Tuesday

Funeral services for Mrs. D. B. Weaver, resident of the Munday area since 1922, were held at 3 p. m. Tuesday from the First Baptist Church in Munday with Rev. Robert H. Lloyd, pastor, officiating. Burial was in Knox City Cemetery under the direction of Elliott's Funeral Home of Abilene.

Mrs. Weaver, who was 82 years of age, died at 12:50 p. m. Saturday at the home of her son, Grady Weaver of Abilene. Although she had been in ill health for several years and seriously ill for the past few days, her death, which was attributed to a heart attack, was unexpected.

She was born Ella Samantha Hartman on August 14, 1874, in Macon, Ga. Prior to moving to Abilene 7 years ago she resided in and near Munday for about 27 years. Her husband preceded her in death in 1942. A son and two daughters are also deceased.

When she moved to Abilene, Mrs. Weaver transferred her church membership to Unversity Baptist Church in Abilene.

She is survived by a daughter, Mrs. Maudie Couton of Amarillo; four sons, W. C. Weaver of Beeville, Bert Weaver of Munday, D. B. Weaver of Hollywood, Calif., and S. G. Weaver of Abilene; a sister, Mrs. Lydia Assie of Lubbock; five brothers, Lum Hartman of Wellington, Wes Hartman of Quail, Jess Hartman of Brownfield, Tom Hartman of Sunnyvale, Calif., and Bob Hartman of Wichita Falls, 14 grandchildren, including Mrs. Darlene Harrison of Lubbock, and 19 great-grandchildren.

RESOLUTION ADOPTED BY THE KNOX COUNTY SCHOOL BOARD IN REGULAR SESSION AT BENJAMIN, TEXAS JANUARY 22, 1957

BE IT RESOLVED: By the Knox County School Board in Session with Representative School men and Lay Citizens of the County.

1. That the recommendations of the State School Board for school reorganization in Texas are un-democratic.
2. That a board state plan as proposed would penalize our school children in Western Texas.
3. That there is doubt as to whether larger units would mold better citizens than are developed by small units.
4. That local initiative would be lost under such a proposition.
5. That concentration of power in large units have never shown any saving of money but have repeatedly proven more expensive.

6. We Therefore go on record as opposed to the recommendations of the State Board of Education.

Signed: Sam Leaverton
President Knox County School Board
Merick McGaughey
Secretary Knox County School Board

SIX-YEAR OLDS WANTED ON CENSUS ROLLS

Supt. W. C. Cox is requesting all parents who have children six years of age on or before September 1, 1957, to turn their names in to him so they may be listed on this year's school census rolls.

He stated that unless these children are on the census rolls before opening of school, it is difficult to get things straightened out for later enrollment.

HEADS HEART DRIVE—David C. Leavell, Galveston newspaper executive and president of the Texas Press Association, has been appointed chairman of the public education committee of the 1957 Texas Heart Fund, it has been announced by Dr. D. D. Warren of Waco, Texas Heart Association president.

Mr. Leavell, whose committee will be in charge of public education work in Texas during the annual month-long Heart Fund Campaign in February, served as chairman of the Galveston Heart Association for four years and is well known for his civic and community welfare activities.

County Is Short Of Bond Quotas

W. E. Braly United States Savings Bonds Chairman for Knox County, announced today that citizens of this County purchased 263,612 dollars worth of U. S. Savings Bonds during the past twelve months. This amount represents 82.4 percent of the 1956 Savings Bonds Quota for Knox County, Mr. Braly stated.

Go to your bank NOW and buy that extra Bond. Your purchase will help Knox County to make its 1957 goal. And remember, said Mr. Braly, when you are buying that extra bond you are helping to keep your dollars stable, you are helping to keep your community strong, and you're investing in a brighter future for yourself and your family with a safe, sure United States Savings Bond.

Only Few Days Remain For Payment Of Poll Taxes To Vote During 1957

Several elections for 1957 are shaping up, and Knox County people will be "caught short" on voting privileges unless the poll tax payments become rolling in. John Smith, county tax assessor and collector, said last week that his office had issued only 865 poll tax receipts, as compared with 1,320 during the same period last year.

Poll taxes must be paid by Thursday, January 31, in order to qualify a person to vote in the 1957 election. A special election has been set for Tuesday, April 2, to elect a successor to Gov. Price Daniel in the U. S. Senate, and this is the same date for the city elections in which mayors

and city councilmen will be elected. Other elections which could be held during the year would be on bonds, higher taxes, constitutional amendments, etc. in which all citizens should have a vote.

All citizens of Knox County are urged to pay their poll taxes before the deadline so they can have a voice in all regular and special elections.

Texas farmers in 1957 will continue to be in a price-cost squeeze, but crop restrictions and increased agricultural exports may tend to relieve pressures created by large surpluses of cotton and wheat.

KEY TO '57

Newsweek recently ran a long feature article on the future prospects of American business and industry. It bore this significant title: "The U. S. Consumer: Key to '57."

That simply illustrates an obvious fact—that future business activity is dependent on the purchasing power, desires, and attitudes of the 168 million Americans who use the goods and services our factories produce.

It also illustrates a fact that is not quite so obvious—that the economic health of this vast country is very greatly dependent upon the vigor of its retailers. We buy the necessities as a matter of course. But the country would be in for hard times indeed if only necessities moved through the channels of trade. And a great share of Americans buying is induced by retail activity—by advertising, displays and other attractions that help to whet the public attitude for more and better goods.

There is nothing static about retail business. It is always changing—for the reason that consumer attitudes are always changing. As Newsweek says, ". . . major shifts are taking place—in consumer behavior, consumer desires, and consumer spending—that will do more than any other force to mold the nation's future." It is retailing's job to keep abreast of those shifts and to move with them.

It has done that with full success in the past, and it will keep on doing it in the seasons and years that lie ahead.

VAST DIFFERENCE

The Church of Jesus Christ of Latter-day Saints (the Mormon Church) owns a remarkably long and varied list of business enterprises, including a bank, an insurance company, a department store, a sugar company, a coal mine, ranches and so on.

But in this case, there is one vast difference from most business undertakings which are carried on by essentially non-profit organizations such as churches. A factual article on the Mormon ventures in the Wall Street Journal states: "The church insists on paying full Federal taxes on all profits from business activities, though legally it could often claim exemptions." This country could use more of that kind of spirit and principle.

—SAY YOU SAW IT IN THE TIMES—

THOSE WASHINGTON COWBOYS

Farm Journal points out a fact that is all too evident when it observes that many rural people feel that they have no choice but to get aboard the government gravy train.

Then the magazine strikes a brighter note, saying "There are exceptions though—important and powerful." It singles out the head of the American National Cattlemen's Association as one of these. He is a ranchman from the hard-hit drought country—but ever so, he has strongly criticized federal price support and related schemes as "sorry examples of that the 'cow business is nearing a solid, prosperous era."

It is certainly to be hoped that this forecast proves accurate, and there are many signs of a factual nature that indicate it will be. However—entirely aside from what happens to meat and livestock prices and production in the future—it will be a sad day for the producers if they turn to government to solve their problems. So far, to their great credit, they have had the self-reliance and good judgement to avoid doing that. They have kept their independence, and accepted the lean as well as the fat. If government ever moves in, with livestock price supports or other major controls, that independence will be gone with the wind. It has always been true that the man who pays the piper calls the tune and it always will be.

Our meat industry is the greatest in the world—and it is based on the free enterprise system working in a supply and demand economy. That's why it is the greatest.

YOU'RE A GOVERNMENT WORKER

Taxpayer's Dollar, a publication of the Chamber of Commerce of the United States, passes on this definition of a taxpayer—" . . . a person who doesn't have to pass a Civil Service test to work for the government."

That's more than a good gag. A man with two dependents who earns \$80 a week must work 4.9 weeks to meet his tax bill. If he has no dependents, he has to work 8.2 weeks. And, of course, the tax rates rise with almost bullet-like rapidity as incomes rise—and the amount of time a man has to work for the government rises with them.

So, in the fashion, we're all government workers. And we have to do a great deal more work on behalf of government than most of us realize.

Drive Safely! Spend a little more time with us.

THE COMMON COLD—HOW TO FIGHT IT

What causes a cold? That's a baffler. Men of science have been trying to solve the mystery for centuries.

Youngsters under 10 catch twice as many colds as adults. That's one of the few cold facts that have been proved conclusively. But adults don't escape them—not by any means!

In the next sixty days Americans will be fighting 25 million colds. Cold sufferers lose \$500 million a year in lost pay. They'll spend \$100 million a year on remedies—though a pill or potion that will actually cure a cold is yet to be found. And the red noses, coughs and sneezes are uncountable.

But that doesn't mean that you can't do anything about colds. Doctors advise staying away from people with colds as one good way to avoid them. Keeping in top physical condition, eating well balanced meals, plenty of sleep and rest, wearing suitable clothes when the weather is bad so you don't get chilled or wet—all these help you avoid colds.

But, despite all precautions, if you do get one—bundle yourself into bed, if you can. If you must go out keep warm and dry and

get lots of sleep. Nourishing foods and plenty of liquids are advised, too.

As to the medicine problem, lemon and baking soda is as effective a cold remedy as any yet discovered. Take a half glass of water, the juice of a fresh lemon and a half teaspoon of soda a couple of times a day. It was Grandma's favorite concoction and still is with many knowledgeable people. It's particularly good with children who are apt to hate anything that comes out of a medicine bottle.

Best thing about this remedy—you can vary the taste. A teaspoon of sugar or of honey makes it quite palatable. A teaspoon or two of maraschino cherry juice gives it a pleasing pink coloring. Children will actually enjoy it.

So if you, or your family, come down with the sneezes and wheezes this winter—remember, you have the ingredients for fighting it right in your kitchen.

IT'S THE LAW

in Texas

A public service feature of the State Bar of Texas

Court Rules Preserve Justice
 Are you hopelessly confused by court room procedure? Words such as "objections", "overruled", "sustained", "hearsay", "irrelevant" and "opinion" are meaningless to many persons.

The purpose of a trial is to settle disputes that the parties can't settle themselves. The facts which give rise to them must be established. This sounds simple, but on the contrary it is a difficult task. If the parties agreed on the facts the job would be easy, but each side has its own version.

The trial court has the job of establishing the facts. This is accomplished by questioning witnesses and the introduction of physical evidence. This requires application of the rules of evidence.

Through the years the law of evidence has been established. The rules place restraints on what type of evidence is proper. They have the effect of protecting the rights of the parties by insuring

a fair trial.

Hearsay is a word often heard during a trial. Hearsay may involve a statement by a third person of a conversation between two other persons. It would be hearsay if Jones were asked to tell the court what he overheard Smith tell Greene. With certain exceptions, evidence of this type is excluded because it is not reliable, and might open the door to false testimony.

A lawyer objects to evidence he does not believe is proper. If a lawyer objects to evidence because it is irrelevant, he means that the evidence is of such little importance that it has no bearing on the case, and if admitted it would bog down the trial so that the time needed doesn't justify its admittance.

Opinion evidence of one not an expert is not admissible since such opinion carries no weight. When an objection is sustained by the judge the evidence is not received. Should the objection be overruled, the evidence is allowed to be presented.

The rules of evidence have been built up through many years of court trials. These rules are not arbitrary but are designed to see that justice is done in our courts. The judge is seeking to have the truth established and insure that all parties and witnesses in the

trial are given a full and fair opportunity to present the facts. (This column, based on Federal law and prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is full yadvised concerning the facts involved, because a slight variance in facts may change the application of the law.)

LOCALS

Mr. and Mrs. Mac Haymes and sons of Odessa were week end guests of Mr. and Mrs. Lee Haymes.

Mr. and Mrs. Hub Ford and Harold of Roswell, N. M., visited relatives and friends here over the week end.

Mr. and Mrs. Waymon Pistole of Noodle visited friends here last Sunday.

Mr. and Mrs. Jeff Bowden and daughter of Wichita Falls and Mr. and Mrs. Edgar Beecher and daughters of Dimmitt were week end guests of their parents, Mr. and Mrs. J. O. Bowden. The Beechers also visited his parents, Mr. and Mrs. E. Beecher.

Mr. and Mrs. Glyn Bilbrey and Cathy of Hereford visited his sister and husband, Mr. and Mrs. M. L. Barnard, and with relatives in Goree over the week end.

MORE EGGS PER HEN

Texas egg production may come into its own during 1957 if the Legislature gives it the needed boost through a uniform grading and inspection law.

Such legal protection, assuring the consumer of good quality by approved standards, should increase considerably the value of the egg on the market shelf. The next logical step for the farmer is to get increased egg production through efficient management.

High egg production, high efficiency and low mortality in the laying flock are going to be related to the bird's comfort. An extra two dozen eggs per layer, a saving of one-half pound of feed per dozen on all eggs produced, and a reduction in mortality of 5 percent can mean \$120-\$150 extra income per 100 laying hens.

One item often overlooked is ventilation. Proper ventilation of laying houses is necessary for providing fresh air and removing excessive moisture. Faulty ventilation can result in wide variations in house temperatures which will affect feed consumption and egg production.

Insulation of the poultry house makes ventilation fairly easy and helps: (1) Conserve heat in winter, (2) Keep houses cooler in summer, (3) Prevents extremes in temperature changes, (4) Promotes better circulation because of temperature difference between inside and outside air.

The tendency is to under-ventilate in cold weather to avoid chilling the birds. Reports from a number of experimental stations show that "comfort zone" of laying hens is between 40-65 degrees.

As a rule, inlets for bringing fresh air in through openings not less than two feet above the floor. Windows and other openings should be adjusted to protect birds from direct drafts. In general, "top tilt" windows are most satisfactory and they should be protected with side shields. Outlets for fowl air should be at the highest point of the ceiling and should be designed to permit closing to stop drafts or excessive heat losses.

Attention to these factors will help reach the goal of a more profitable laying flock.

LET'S TALK LIVESTOCK BY TED GOULDY

Hogs Higher Again Monday

Fort Worth—Reports from across the nation Monday indicated another short run of hogs at the major livestock markets, with less than 70,000 on hand, more than 10,000 short of the previous week. As a result trade opened 25 to 50 cents higher at Fort Worth with choice hogs at \$19.25 and \$19.50. This marks a new high for the season and the best price here since June, 1953. Sows sold from \$15 to \$16.50.

Lambs Sell Stronger Again

Packers completely dominated the trade at Fort Worth as a relatively short supply of 3,500 lambs arrived. Virtually no sheep appeared in the run. Most of the offering was good and choice fed lambs and sold from \$16 to \$18.50. Woolled lambs and lambs with No. 1 and Fall shorn pelts, shared the top figure. No. 2 skins sold

WILDERNESS RADAR station in the Canadian north is typical of the far-flung outposts which are the "eyes" of the North American warning net. At the other end of the "line," civil defense volunteers would alert the public to danger through sirens, loudspeakers and Comelrad radio, so people could evacuate or take cover depending on amount of warning time. (U S Air Force Photo)

from \$17.50 down. No. 3 and shorter skins sold from \$16.50 down. A few feeders sold at \$17.50 down, but packers took nearly everything including choice feeders to kill at higher prices than feeder buyers could afford. A few old ewes sold from \$6 to \$7. Yearlings are quotable \$16 down and aged wethers are quotable \$12 down.

Fed Cattle Weak Stockers Strong

Fed steers and yearlings and heavyweight fed calves cashed at steady to 50 cents lower prices at Fort Worth Monday, and light and medium weight calves were steady. Cows and bulls were active and fully steady to strong. Stocker and feeder cattle and calves sold from fully steady to stronger, some fed steers and stocker yearlings 25 to 50 cents up.

Good and choice slaughter steers and yearlings cashed at \$16 to \$20.50, the higher figure for a load of fed steers from Ewing Halsell fed at Earth, Texas, that averaged 1,031 pounds. Other good and choice steers and yearlings cashed at \$20 down, and some handyweight fed heifers from J. J. Dearing, Tarrant County, topped at \$19 and a load of choice heavy heifers scaling 1,076

pounds from Exum Ranch Company, Dalhart, cashed at \$18.75. Lower grade cattle sold from \$12 to \$15.

Fat cows cashed at \$11.50 to \$13.50 and canners and cutters drew \$8 to \$11.50. Bulls cashed at \$10 to \$15.

Good and choice slaughter calves drew \$16 to \$18.50, and lower grades cashed at \$10 to \$15. Good and choice stocker steer calves sold from \$16.50 to \$19, and load lots were quotable to \$20. Steer yearlings in small lots sold from \$18 down. Heifer calves sold from \$17 down, and heifer yearlings sold from \$15.00 down. Feeder steers sold from \$16 to \$17.50, two loads of 802-pound feeders at \$17.50. A few replacement cows were reported from \$8 to \$12.

Cattle On Feed Up Four Percent

On January 1 USDA reported an estimated 6,099,000 cattle on feed in the United States. This is 4% above a year ago the same date. Cornbelt feeders in the west were feeding 4% more and eastern cornbelt feeders had 6% more cattle on feed.

Lambs On Feed Up Five Percent

USDA reported last week that the numbers of sheep and lambs

animal and poultry health program.

The new law, as projected by Chairman Frang Scofield of Austin, of the commission, would also include licenses and service fees and a 10c per ton tax on all feed sold in the state. It was reported at Fort Worth this week that the feed tax proposal had met with such a solid wall of resistance at hearing last week, that it now appears unlikely that it will be included in the bill.

The new feed tax would have endangered passage of the newly drafted feed control bill, hence, it met practically unanimous opposition from the public.

LOCALS

Mr. and Mrs. Edward Melton visited relatives in Fort Worth over the week end.

Mr. and Mrs. Homer Lain and son, Ted, and daughter, Mrs. Fred Webb, of Abilene were week end guests of Mr. and Mrs. Chester Lain and children.

Sunday guests in the home of Mr. and Mrs. Joe Patterson were her sister and family, Mr. and Mrs. H. D. Dennis and daughters, of Albany.

Mr. and Mrs. Leon Reagan of Spur visited their mothers, Mrs. Etta Webb and Mrs. C. A. Reagan last Sunday.

Jimmy Bell left Wednesday for Fort Worth where he will attend a Gulf Training School.

Mr. and Mrs. W. I. Gunter and children of Monahans were week end guests of her parents, Mr. and Mrs. M. A. Masters. Mrs. Gunter and children remained for a longer visit.

O. F. Gates H. W. West, A. G. Goldston and J. L. McCaleb were business visitors in Wichita Falls last Monday.

Mr. and Mrs. Jerry Guinn and daughter and Mr. and Mrs. Larr, Don Lain visited Mr. and Mrs. Hubert Finley in Hamlin over the week end.

Alfred Guinn of Wichita Falls spent the week end with his mother, Mrs. Bess Guinn.

Wilkie Guinn attended the funeral of Mrs. Jesse Shaw in Ralls last Thursday.

Mrs. P. C. Phillips four sisters and two brothers were here last Wednesday to help she and Mr. Phillips celebrate their 50th wedding anniversary. They are Mr. and Mrs. R. D. Perryman of Sayre, Okla.; Mr. and Mrs. J. F. Perryman of Ralls; Mrs. Alma Keeny of Plainview; Mrs. Ora Rhea of Amarillo and Mrs. A. L. Young and husband of Weatherford.

CARD OF THANKS

We desire to express to our kind neighbors and thoughtful friends our heartfelt thanks for their many expressions of sympathy. The beautiful floral offerings were especially appreciated.

The Family of Sid Owens, 1-1c

Mr. Farmer:

Let's see the decisive factors in the '57 Inner Ford

They show you why the new kind of Ford is worth more when you buy it, worth more when you sell it!

The secret of Ford's nationwide success is this: it's a new kind of Ford . . . new from the wheels up . . . more than a last year's model with a few "face lift" changes. In a Ford the chassis, engine and body are individually engineered into one spacious rock-solid unit.

If you're a careful car-buyer with whom features count, count the new features of the '57 Ford. Then drive it! There's only one conclusion: the liveliest car in the low-price field is the completely new Ford. For the decisive facts see your Ford Dealer.

Convocation For Workers With Youth In Methodist Church Set Jan. 25-26

Lubbock — First Methodist church here will be host Friday and Saturday, Jan. 25-26, for a Northwest Texas Methodist Conference Convocation For Adult Workers With Youth.

All workers in local churches counselors, teachers, superintendents, pastors and parents of youth are invited to attend.

Registration will get under way at 7 p. m., Friday followed by a worship service at 7:30 p. m., featuring a drama by youth of the host church and an address by Charles Lutrick, Lubbock, executive secretary of the conference board of education, at 8 p. m. There will be a fellowship period at 8:45 p. m. in Memorial hall.

Saturday's activities will get under way with a general session at 8:45 a. m., followed by group discussion on counseling from 9 to 11 a. m. Leaders will include: pastors, Rev. Hubert Bratcher, Pampa district superintendent; older youth, Mrs. Cecil R. Matthews, Lubbock, seniors, Jane Kern, Amarillo, Rev. Vernon Henderson, Brownfield district superintendent Rev. Wayne Cook, Lubbock, Rev. James Carter, Panhandle, Mamie Adams, Midland;

intermediates, Mrs. C. E. Nolan and Rev. John English, both of Lubbock.

From 11 a. m. until 12 noon, there will be a general session for reports from the group sessions and evaluation. Lunch will be served at the church at 12 noon.

From 1:30 to 3:30 p. m., there will be discussions on "My Job" with the following leadership: older youth, Rev. Cecil R. Matthews, Lubbock, seniors, Mrs. H. W. Barnett, Aiken, Billy Phillips, Lubbock; intermediates, Mrs. H. H. Bratcher, Pampa Mrs. Marvin Boyd, Midland; youth division superintendents, Mrs. H. C. Leon, Lubbock; woman's society of Christian service secretaries of youth work, Mrs. Alby Cockrell, Hereford; and sub-district counselors and district directors, Barbara Sommerville, Lubbock, conference youth director.

J. Chess Lovern, host pastor will be the speaker for the closing worship service at 3:30 p. m. Betty Shewbert and Don Ford both of Lubbock, will serve as organist and song leader, respectively.

Those attending will be housed in local homes Friday night and

TEXAS LEGIONNAIRES FIGHT POLIO—State Commander Charles L. Downey inserts the first dime in the big "Join the March of Dimes" coin boards that have been placed in every Legion Hall in Texas for the 1956 polio appeal (Jan. 3-31). Mrs. Minnye Lyle, state secretary for the Legion Auxiliary, right, is head of the mammoth project. Texas Legion posts also are holding suppers, dances and parties for the benefit of the March of Dimes during January.

will be served Saturday morning breakfast by their hosts.

Knox City Woman Dies On Sunday

Mrs. Fred Harrison, 67, passed away at the Knox County Hospital at 6 p. m. Sunday. She had been ill for several months and hospitalized for three days.

A long time resident of Knox City, Mrs. Harrison was born at Cameron on November 26, 1889. She was a member of the Baptist church.

Funeral services were held at 4:30 p. m. Tuesday from the Knox City Baptist Church with the pastor, Rev. Billy Frazier, officiating. He was assisted by Rev. Walter Driver, pastor of the Knox City Methodist Church. Burial was in Knox City Cemetery with the Warren Funeral Home in charge.

Survivors include three daughters, Mrs. Hass Huntsman of Knox City, Mrs. Bee Powers of Thalia and Mrs. Marilyn Wimberly of Abilene; one son, Clarence Harrison of Butte, Mont.; three sisters, Mrs. Lloyd Gibson of Waco, Mrs. Eliza Moseley of Waco and Mrs. Ora McCraw of Meridian; 13 grandchildren and five great-grandchildren.

MUNDAY CHILD ENTERS POLIO FOUNDATION

Gonzales—Five year old Antonio Sosa, son of Blas Sosa of Munday, has been admitted to Gonzales Warm Springs Foundation.

The youth will undergo treatment for poliomyelitis.

Victims of all types of crippling diseases undergo extensive rehabilitation treatment at Gonzales Warm Springs Foundation.

Moguls Defeat Knox City Team

The Munday teams walked off with three non-conference cage victories here last Tuesday night. In the main event, the Moguls downed the Knox City Greyhounds 63 to 53. The local boys gained a 6-point lead in the first quarter and were never behind during the game.

A girls' game saw Munday winning by 56 to 41, and the Munday B team took Knox City to a count of 40 to 17.

Bobby Driver racked up 29 points for Knox City for high point man of the game while Glen Amerson scored 19 points for Munday.

WOMAN FROM KOREA TO SPEAK TUESDAY

The women of the First Methodist Church will hold a meeting Tuesday night, January 29, at 6:30 o'clock at the church.

Bak Sen Lea, who has recently escaped from the communist party in Korea, will be the speaker. She is now a student in McMurry College in Abilene and is planning on returning to Korea to teach.

All women of the church are invited to attend.

Mr. and Mrs. John Ed Jones of Stephenville visited friends, and attended to business matters here the first of this week.

Mr. and Mrs. Russell Doran of Odessa visited her parents, Mr. and Mrs. W. V. Bevers, over the week end.

Remedy Cracked Walls
CRACKED or disfigured walls can easily be remedied by covering them with paneling of predecorated hardboard. This paneling can be applied right over the old surfaces to present a fresh and durable decorative finish.

Marlite blocks are a popular choice for such jobs. Built for trouble-free service, the blocks

are made of sturdy tempered Masonite hardboard and surfaced with baked plastic, which defies fire and wear.

Their 16" square size makes Marlite blocks easy to handle, and their tongue-and-groove joint design makes them simple to install. They are applied with wall-board adhesive and metal clips. While much used for ceilings, the blocks lend themselves to interesting wall treatments. In wood grain, the pattern direction may be altered on adjacent blocks for a basket-weave effect. Two plain colors may be combined to create a checkerboard pattern.

The blocks may be used with companion planks, 16" wide and 1/2" thick.

FEWER HOGS OUTLOOK FOR FALL OF '56 AND SPRING OF '57

A drop of eight percent in the nation's spring pig crop and an indicated reduction of seven percent in the number of sows to farrow this fall promise some relief of swine prices, says John G. McHaney, extension economist. Figures on Texas production closely follow the national trend, he adds.

Commercial slaughter of hogs during the first four months of 1956 averaged about 16 percent above the same months of last year but after mid-summer the slaughter rate is expected to drop to last year's level and then later below it.

As a result of the announced decrease in spring pig numbers and the indicated drop in fall farrowings and fewer hogs going to market, McHaney says prices should average at least as high this fall as last and should not drop to the low level of prices paid producers late in 1955.

Despite the indicated reduction in hog numbers, the specialist points out that total production of meat for 1956 is expected to be three percent above 1955 and

meat consumption per person will average about 16 1/2 pounds compared with 161 pounds last year.

Prices paid for hogs will respond to the reduction in supply, says the economist. If the seven percent reduction in the fall pig crop occurs and general economic activities continues at the present rate, the price in the spring of 1957 should average above last spring's prices by more than seven percent.

Low prices at the present time should not be reason for the efficient hog producer to curtail production. Hogs should be sold when their weight reaches the 200 to 220 pound level. Producers should guard against producing over-fat hogs.

HIGH PLAINS IRRIGATION FARMERS ADD MILES TO THEIR WATER PIPELINE

Irrigation farmers in the High Plains area of Texas, from September 1, 1955 to September 1, 1956, added 710 miles of underground concrete pipe to their irrigation facilities. This makes a total of 2,532 miles of pipe now in use says George L. Black, Jr., associate agent in irrigation for the Texas Agricultural Extension

Service with headquarters at Lubbock.

Black reports that the first installation was made in 1948 and that last year's additions amounted to 28 percent of the nine year total. "It is a demonstration which shows that farmers are doing something on their own to conserve and get the most efficient use from the water pumped for irrigation on their farms," says the engineer.

Advantages cited for the underground concrete pipe installations are the elimination of water losses from ditch seepage and evaporation; does away with the weed problem on ditches; makes for easier and more complete cultivation of all field areas; permits the tying together of two or more wells which cuts labor costs and of major importance, permits better water distribution over the entire farm. Black says that evaporation losses alone in the area range from 70 to 80 inches annually.

The cost of installing an underground irrigation system is high, points out Black, but since its lasting qualities are very good, the savings made in water, labor and better water distribution make it a paying proposition.

Mr. and Mrs. Press Phillips Observe Golden Wedding Anniversary Jan. 16th

Mr. and Mrs. Press Phillips, well known couple of Munday, observed their Golden Wedding Anniversary in their home on Wednesday, January 16, 1957. All of their nine children were present for the occasion, and many relatives and close friends called during the day.

The table was set with a white crocheted tablecloth, made by Mrs. Phillips, over gold linen. The centerpiece was of yellow cysanthemums with two large gold hearts with golden bells forming the base. This was offset on either side with triple brass candelabra and yellow tapers. Also on the serving table was an antique brass samovar.

The Golden Anniversary cake was in the form of an open Bible, with the honored couple's names and date of their marriage on one side and the names of their children listed on the opposite side. A wide gold velvet ribbon served as a book marker.

The cake was served by Mrs. Nell Campbell, while Mrs. Grady Phillips and Mrs. W. G. Leflar served coffee. Messrs. Nolan and Shelton Phillips presided at the punch bowl. Securing names of the guests were Mrs. Clovis Cagle of Wichita Falls and Miss Donna Phillips of Munday. Other members of the houseparty were Mrs. L. W. Hobert and Mrs. John Phillips.

Other decorations used throughout the house were arrangements of yellow snapdragons, cysanthemums and gladioli.

Out of town guests were from Russellville Ark.; Clinton and Havana, Cuba; Fort Worth, Haskell, Ralls, Jacksboro, Plainview, Weatherford, Dallas and Amarillo. Approximately 200 friends and relatives registered during the afternoon.

Mr. and Mrs. Phillips were married in 1907 at Haskell by J. H. Weaver of Haskell County. Their first home was on a farm owned by the late J. J. Thompson, about six miles southwest of Munday. This was a two-room house, and Mr. Phillips recalls that their bank account was exactly \$45.00. After living here four years,

where their first son, Nolan, was born, they moved to the M. C. Hardin place for another four-year stay. Here two more children, Helen and Shelton, were born.

They next bought a farm at Red Top, six miles northwest of Munday, living there three years and adding to their family two more daughters, Novelle and Dorcia.

Their present home where they have lived for 39 years, was the farm once belonging to Dr. J. T. Lee. Their other children, John, Marion, Audrey and Hattie Ann, were born here. All nine children were delivered by the late Dr. W. P. Farrington. All of them attended and graduated from the Munday Public Schools.

In beginning another 50 years together, Mr. and Mrs. Phillips have many pleasant memories of the past 50—and they're still sold on Knox County as a place to call home.

Miss Reagan And Ted J. Hardy To Marry February 3

Mr. and Mrs. Leon Reagan of Spur are announcing the engagement and approaching marriage of their daughter, Lavonne Dean, to Ted J. Hardy, son of Mr. and Mrs. T. D. Hardy of Brownfield.

Wedding plans call for the ceremony to be read at the First Baptist Church in Spur on Sunday, February 3, at 4:00 o'clock.

Miss Reagan and her fiancé are both students in Hardin Simmons University in Abilene.

She is the granddaughter of Mrs. C. A. Reagan and Mrs. Etta Webb of Munday.

Predictions of rainfall cannot be made on the basis of weather cycles of "wet and dry years". Recent studies of rainfall records at 31 locations dating as far back as 89 years in Texas' High and Rolling Plains by the Texas Agricultural Experiment Station show that cycles play little or no part in annual rainfall figures.

Bridal Shower Is Given To Honor Mrs. Gary Cure

Mrs. Gary Cure was honored with a bridal shower in the home of Mrs. Gene Thompson last Monday night.

The bride's chosen colors of blue and white were used in the decorative motif throughout the house.

Mrs. Thompson greeted the guests at the door and introduced them to the honoree, her mother, Mrs. L. C. Guinn of Knox City, and Mrs. Omer Cure, mother of the groom.

Hostesses alternated with the serving of punch and cookies, decorated in blue and white, and in the display of gifts. Mrs. Cure also had her gifts from Knox City on display.

Hostesses for the occasion were Meses. A. L. Smith, John Earl Nelson, Wayne Patterson, Jim Welch, Elton Carroll of Gililand, Nolan Phillips, Terry Harrison, Bob Jarvis, Joe Spann, Jack Tidwell, Lonnie Offutt, Don Yandell, Troy Stewart Gene Thompson, J. B. Scott and Bob Brown.

Misses Mauryse and Anita Tidwell furnished music during the evening.

Billy Ray Henson, Buddy Mayo and J. D. Alred were in Lubbock over the week end where Billy Ray enrolled for the second semester at Texas Tech.

Unique Program Is Presented At Munday Study Club

A very interesting and unusual program was presented to the Munday Study Club on January 18 when Mrs. Tommy Harper, Mrs. Don Combs, Mrs. Leland Floyd and Mrs. Oscar Spann presented a playlet "They Criticized and How."

Mrs. Grady Beck was hostess and Mrs. W. O. Ratliff was director for the meeting.

After the program a very important business meeting was conducted by the president.

The February first program will be a panel discussion on "Good Mental Health."

WICHITA FALLS BAND TO PLAY FOR DANCE

Sale of tickets for the parent sponsored Valentine dance for Munday High School students and guests will be continued on Saturday, January 26 from 10 to 12 a. m. at the Chamber of Commerce office.

Music will be furnished by the Wichita Falls High School Dance Band under the direction of Donald Hatch. The date for the dance is Monday, February 11, and tickets are one dollar per person.

Mrs. John Phillips and Mrs. Ben Yarbrough were visitors in Wichita Falls last Monday.

Group Instruction Given In Preparing Income Tax Returns

"Group instruction and self-help techniques in taxpayer assistance is being stressed again this year," it was announced here today by Mr. C. B. Dixon Administrative Officer of the Wichita Falls Office of Internal Revenue Service.

"Public acceptance of the self-help method made possible a saving 27,599 man-hours during the 1956 filing period here in our five southwestern states IRS region. The same methods with some refinements will be used

this year to save tax money by releasing IRS specialists for their regular duties," Dixon explained.

Taxpayer assistance days at the Wichita Falls office, located on the 3rd Floor of Post Office Bldg. are each Monday Morning. On these days Revenue will have a full staff to help taxpayers with complicated problems they are unable to solve.

"On other days," Dixon cautions, "anybody who needs help will get it but he may have to wait for service, since our specialists will be at their year around duties of collecting taxes and examining returns.

Drive carefully. The life you save may be your own!

Sunday guests in the home of Mr. and Mrs. B. L. Blacklock were her sister and husband, Mr. and Mrs. Paul Poe, of Clisco.

DEAR FRIENDS

If it were possible it would be the wish of myself and family that each of you be thanked personally for your kindness and sympathy during the sudden loss of our beloved Mitch.

It is our prayer that this time that we may be worthy of your friendship, and that our love for you may be as great as your love has been for us.

Sincerely,
Mrs. Arthur Mitchell
and family.

MODERN HOMEMAKING RECIPES... HOUSEHOLD HELPS

By Julia Hunter

HOME ECONOMICS DIRECTOR, LONE STAR GAS COMPANY

America's appetites are, like the country itself, a melting pot of the world. Many countries use spices and herbs more heavily in their cooking than American foods, and perhaps this change of pace is the very reason why so many foreign dishes have become popular in this country.

Mexican dinners are always a favorite. Here's an easy recipe for enchiladas: Prepare 2 cups chili, according to directions on can, dip 12 soft tortillas in hot oil, place 2 tablespoons grated American cheese and 2 tablespoons chopped onions in the center of each tortilla. Roll tortillas as you would a jelly roll and place them, seam side down, in a shallow baking dish. Cover with remaining chili and top with grated cheese. Bake in a moderate gas oven (350 degrees F.) 15 minutes or until cheese melts. Makes six servings.

Many foreign foods call for more ingredients in one dish, and for longer, slower cooking than American recipes, but usually the

one dish makes up for the entire meal with just a simple green salad and fresh fruit for dessert. For a different salad, try this Drain and chill one No. 2 can whole green beans, and, just before serving, toss with 1/4 teaspoon salt, 1/4-teaspoon minced parsley, dash of oregano, rosemary, basil and marjoram, 2 tablespoons olive oil and 3 tablespoons vinegar. Serve in lettuce cups. Makes 4 servings.

Every country has its own delicious and unusual dishes, but of all the foreign recipes asked for, spaghetti and meat balls leads the list. The recipe of the week is our favorite for this popular dish.

For additional free information, send a postcard to the Home Economics Department, Lone Star Gas Company, Room 601 at 301 South Harwood, Dallas 1, Texas.

Recipe Of The Week

SPAGHETTI AND MEAT BALLS: Combine, mixing well, 1 1/2 pounds ground round or chuck; 1/2-cup fine, dry bread crumbs; 1 egg, beaten, 2 small

cloves of garlic, finely minced; 1 teaspoon salt; 1/4-teaspoon pepper. Shape the mixture into 12 balls. Heat in heavy skillet over medium gas flame 1/3-cup olive oil. Add meat balls and brown slowly on all sides. Heat in Dutch oven or heavy pan over medium gas flame 1/3-cup olive oil. Add and cook until golden brown 1 cup minced onion and 2 cloves garlic, minced. Add and cook three minutes, stirring constantly. 2 six-ounce cans tomato paste. Add and stir well 1 six-ounce can water. Add 2 six-ounce cans water, 2 tablespoons minced parsley, 1/2-teaspoon salt and 1/4-teaspoon salt and 1/4-teaspoon pepper. Simmer over low gas flame 30 minutes, stirring frequently. Add more water as necessary to keep the sauce of the same consistency as thin catsup. Add meat balls and continue simmering for 15 minutes. Arrange cooked spaghetti on platter or serving plates, top with meat balls and pour over sauce. Sprinkle generously with Parmesan cheese or serve cheese in separate dish. Make six servings.

Weekly Health LETTER

Issued by Henry A. Hoel, M. D., State Health Officer of Texas

AUSTIN—State Health Department engineers say water supplies in most Texas cities are in better shape today than they were three years ago, despite continuation of the parching drought.

But they hasten to add that if the dry spell is prolonged it will bring serious hardships.

The engineers say reports indicate that the majority of public water facilities have been expanded in such amounts as to prevent rationing.

V. M. Ehlers, veteran director of the department's Division of Sanitary Engineering, explained the paradox like this:

Cities facing water bankruptcy in 1953-4 have gotten busy and developed other sources of supply. Some dug wells or additional wells; some made contracts with water districts having abundant supplies; some constructed impoundments.

Ehlers said many Rio Grande Valley towns formerly depended on water drawn from the border river. But when the river went dry the cities were forced to dig wells.

Then when the Rio Grande started running again, they found they had two sources of water the river and the wells.

Ehlers said cities have not only found auxiliary sources of water,

but they have also built or expanded or bettered treatment plants, built booster pump stations, and extended pipe lines.

In 1955 some 40 cities developed completely new water systems, 69 dug extra wells, 23 put in additional pumping facilities, and 13 built new treatment plants or expanded the old ones.

Ehlers said the state's underground water table is sinking lower and lower, but as an example of civic initiative he cited the North Texas Municipal Water District, whose 10-member towns spent \$9,000,000 to stand off the

spectre of short water rations.

The district pooled funds to build a common treatment plant on the Lavon Reservoir, a federal flood control project near Wylie, and put in lines to carry water to its member cities. The system went into operation in November.

Cities composing the district are Forney, Garland, Mesquite, McKinney, Plano, Rockwall, Farmersville, Wylie, Royse City, and Princeton. Terrell, though not a member of the district, is also being served, and 10 million gallon per day are being delivered

An attorney whom I know found it necessary to locate a man whom he had represented at one time but of whom he had not heard in many years. In fact, he was not sure the man was still living for he would be "up in years." Let us say the man's name was Bat Holden—which it was not, but he was known by a nick-name. The lawyer knew his actual initials, however.

The last time anyone had heard of Holden, he was living in California. So the lawyer went to the public library, got the names of all the Holdens with the initials of the man he was seeking, from the telephone book of Los Angeles and suburban cities. Then he began placing long distance calls but, after talking to a dozen and spending about \$75, he had made no headway whatever toward finding his man.

Then he did a little reasoning, such as Sherlock Holmes might have done.

"Let's see," he said to himself. Bat was a gambler; he used to run a gambling hall. Gambler—gambling—Las Vegas."

So he put in a call to Las Vegas, saying he thought his party had a gambling hall. There was a little delay, then the operator said, "All right, I have Mr. Bat Holden for you." The lawyer asked the man's age but he wasn't old enough so he was about to hang up but he did re-

mark, "Then you never had a gambling place in West Texas." The Las Vegas man said, "No—but my father did." So he obtained the address—a small town in California that he would never have known to call, phoned his man and cleared up a matter involving thousands of dollars.

Whatever happened to Nick Lucas? He recorded two big hits—"Tiptoe through the Tulips" and "Painting the Clouds with Sunshine" at about the same time, back in the 1930's.

Automobile makers turn out models with 280 horsepower—ultramatic, automatic, push-button control, finger-tip steering. Too bad they can't make a car that doesn't shock thunder out of you with static electricity when you open the door.

All Types of Storage On "Peg-Board" Panels

IT'S amazing the large variety of things that can be stored on "working walls," better known as Masonite "Peg-Board" panels and fixtures. They are extremely versatile. Hooks and brackets have been designed to hold such diverse items as folding chairs, golf bags, tools, dishes, shoes, neckties, lingerie, books, umbrellas, planters, among a host of other things.

**18.17 miles per gallon
on North America's
toughest truck run!**

That's the gas mileage reported by the Cameo Carrier after covering the entire length of the Alcan Highway in less than 45 hours! All six new Task-Force trucks that made the run turned in top scores for performance and economy!

Supervised and certified by the AAA.

New Task-Force 57 Chevrolet Trucks

Six heavily loaded Chevy trucks ran all the way up the rugged Alcan Highway in less than 45 hours! That's cutting more than a full day off the normal running time! They ran right around the clock, stopping only to refuel.

But the important fact about this run was that it proved new Chevy trucks through and through. The Alcan Highway is a supreme test of every truck component. Engines had to

prove their power up high-climbing grades and through washouts. Frames and suspensions flexed their muscles over axle-deep ruts and miles of pounding gravel. "And not a single truck turned back or dropped out due to mechanical failure," states the official AAA report of the test. Every model proved its over-all economy by its ironclad ability to stay on the job! Stop by; we'll talk about it.

**Proved on the Alcan Highway
Champs of every weight class!**

Your Soil Bank: Fertilizer Factory

A thick grass sod on your Soil Bank acres will hold soil, moisture and plant food. Grass by itself, however, cannot build any new fertility into your soil.

If the Soil Bank is to fulfill its purpose of building new fertility against the time when our fast-growing population will need food from every inch of land, the grasses must have help. Inoculated legumes sown with the grass will turn your Soil Bank acres into fertilizer factories for you.

Alfalfa, clover, vetch, lespedeza, soybeans, and other legumes — when inoculated — make nitrogen crop food out of the air. They can "fix" nitrogen, however, only with the help of the special bacteria supplied by inoculation. These bacteria form knots, called nodules, as shown on the clover root above. The bacteria live in these nodules, multiply millions of times, and manufacture nitrogen fertilizer out of the air.

An acre of mixed grass and inoculated clover can fix up to 200 pounds of nitrogen per acre per year. Inoculation only costs 2¢ to 5¢ an acre, returns dollars for pennies. You can inoculate seed for an acre in a couple of minutes.

For more information on turning your Soil Bank into a fertilizer factory, ask your seedman, county agent, vo-ag teacher, or Legume Inoculant Institute, P.O. Box 9, Sta. F., Milwaukee 9, Wis.

see fit to make substantial reductions.

In the Budget message the President also made many recommendations for legislation, among which were the extension of the coverage of the Fair Labor Standards Act (Minimum wage), raising of postal rates, the passage of legislation that would free the producers and gatherers of natural gas of Federal control, statehood for Hawaii and Alaska, and a continuance and in some areas an increase in foreign aid.

The new Senator from Texas, William A. Blakley, arrived in Washington this week. He has made a very fine impression here. There can be no doubt but what he, during his stay in the Senate, will render an outstanding service to Texas and to the country. Senator Blakley brings to the Senate a wealth of experience in the areas of the greatest concern to Texas in that he is well acquainted with the problems of agriculture, the oil and gas industry, and business generally.

Every four years at Inauguration Time, the whole front of the Capitol is almost completely remodeled to provide seats for the spectators and an adequate rostrum for the President to be inducted into office. The work in making these changes for the Inauguration took almost six months and will cost well over a Million Dollars.

Mr. Steve Ford of Wichita Falls

was a Washington visitor this week.

Mr. and Mrs. W. C. Cox were in Snyder last Sunday where they were met by Mrs. Cox's brother and family, Mr. and Mrs. Curtis Spivey and children of Seminole, for a day's visit.

News From The U. S. Congress

By Frank Ikard, M. C.

At the beginning of each session of Congress, the President, in his Budget message, outlines what the Administration would like to have appropriations for. The Budget is always a very long, tedious, and complicated document. This week the President sent to Congress his Budget message for the fiscal year of 1958. It calls for the expenditure of almost Seventy-two Billion Dollars which is the largest peace-time Budget we have had in the history of our country. The staggering size of the Budget was both surprising and disappointing. If anything like the amount of money the President requested is appropriated, it will preclude any possibility of any tax reduction. There are many areas in which the Budget can be cut, and it is my hope that Congress will

Women Of Texas Taking Part In March Of Dimes

More than 200,000 Texas Women are participating in the 1957 March of Dimes Campaign. Mrs. R. O. Pearson of Abilene, State Advisor on Women's Activities for the National Foundation for Infantile Paralysis, has announced.

Among the activities being conducted by the women throughout the state are coffee parties for polio, direct solicitation, vaccination drives and the Mothers March on Polio. The latter will be conducted on a state-wide basis the night of January 31 although some cities and areas will hold the event at an earlier date, Mrs. Pearson said.

A total of 32 different state women's organizations are participating in the 1957 March of Dimes Campaign. Among these are the United Daughters of the Confederacy, Business and Professional Women, D. A. V. Auxiliary, Phythian Sisters, Zonta International, B'nai B'rith Women, Baptist Women's Missionary Union, Christian Women's Fellowship, Council of Catholic Women's Fellowship, Council of Catholic Women and many others.

"Never before in all of our history have we had the overwhelming support of Women's organizations against polio. In addition to many drives urging members to take advantage of the Salk polio vaccine, there are various women's activities being conducted in every county in Texas to fight polio," Mrs. Pearson declared.

"We expect the largest Mother's March on Polio in the history of Texas with at least 150,000 women participating," the State

Ex-Texan Bowers Returns As Woodmen State Manager

Omaha, Neb. (Special)—E. A. Bowers, a native of Tenaha, Tex., is returning to his home state as state manager of northwest Texas for Woodmen of the World Life Insurance Society.

The appointment was effective Jan. 1, according to an announcement made by Woodmen President Howard M. Lundgren.

Mr. Bowers will supervise all northwest Texas activities of the organization, world's financially strongest fraternal benefit society, which has nearly 10,000 members in that area.

Ninety-four counties are under his jurisdiction. They are: Andrews, Archer, Armstrong, Baylor, Borden, Briscoe, Brown, Callahan, Carson, Castro, Childress, Clay, Cochran, Coke, Coleman, Collingsworth, Comanche, Concho, Cottle, Crane, Crosby, Dallam, Dawson, Deaf Smith, DeKens, Donnelly, Eastland, Ector, Erath, Fisher, Floyd, Foard, Gaines, Garza, Glasscock,

Gray, Hale, Hall, Hamilton, Hansford, Hardeman, Hartley, Haskell, Hemphill, Hockley, Howard, Hutchinson, Irion, Jack, Jones, Kent, King, Knox, Lamb, Lipscomb, Lubbock, Lynn, Martin, McCulloch, Menard, Midland, Mills, Mitchell, Moore, Motley, Nolan, Ochiltree, Oldham, Palo Pinto, Parker, Potter, Randall, Reagan, Roberts, Russell, San Saba, Schleicher, Scurry, Shackelford, Sherman, Stephens, Sterling, Stonewall, Swisher, Terry, Throckmorton, Tom Green, Upson, Wheeler, Wichita Falls, Wilbarger, Yoakum and Young.

He will select the town for his headquarters in the near future. Headquarters for the Society, established in 1890 on the foundation of fraternity, protection and service, is in Omaha. The Society has membership exceeding 430,000 and is licensed in 44 states.

Mr. Bowers attended Texas University and was graduated from Stephen F. Austin College, Nacogdoches. With Woodmen more than 20 years, he was district manager in east Texas and Houston in the late 1930's.

He moved to the state managership of New Mexico in 1942 and of New Jersey in 1951. He will move his family from Trenton, N. J., in the near future.

Advisor on Women's Activities for the National Foundation pointed out.

The 1957 March of Dimes Campaign slogan is "Let's Finish the Job." General K. L. Berry, Adjutant General of the State of Texas, is 1957 MOD Campaign Chairman.

Gray, Hale, Hall, Hamilton, Hansford, Hardeman, Hartley, Haskell, Hemphill, Hockley, Howard, Hutchinson, Irion, Jack, Jones, Kent, King, Knox, Lamb, Lipscomb, Lubbock, Lynn, Martin, McCulloch, Menard, Midland, Mills, Mitchell, Moore, Motley, Nolan, Ochiltree, Oldham, Palo Pinto, Parker, Potter, Randall, Reagan, Roberts, Russell, San Saba, Schleicher, Scurry, Shackelford, Sherman, Stephens, Sterling, Stonewall, Swisher, Terry, Throckmorton, Tom Green, Upson, Wheeler, Wichita Falls, Wilbarger, Yoakum and Young.

He will select the town for his headquarters in the near future. Headquarters for the Society, established in 1890 on the foundation of fraternity, protection and service, is in Omaha. The Society has membership exceeding 430,000 and is licensed in 44 states.

Mr. Bowers attended Texas University and was graduated from Stephen F. Austin College, Nacogdoches. With Woodmen more than 20 years, he was district manager in east Texas and Houston in the late 1930's.

CARD OF THANKS

We wish to express our appreciation and thanks to all our white and colored friends for their kind deeds rendered us in the loss of our dear wife and mother.

Ardell Scales and daughter. 1tc

Munday Members Are Hostesses Here For Jan. Meeting of Delta Kappa Gamma

With a "January in June Theme" Munday members of Beta Chi chapter of Delta Kappa Gamma, honorary society for women educators, were hostesses to other members on Saturday afternoon, in the Homemaking Department of Munday High School.

Mrs. E. R. Carpenter, Knox City, second vice-president presided for the business session in the absence of the chapter's president, Mrs. Luther Burkett, Haskell, who was not able to attend.

Reports were heard from Mrs. Irene Ballard, chairman of Fellowship of Foreign Women; Miss Madalin Hunt, Legislation; Mrs. Tom Russell, Research; Mrs. Phillip Colehour, World and Community Service; and Mrs. John P. Ward, Publicity. The group decided to join other chapters over the state in saving discarded silk hose to be sent to Japanese women to be used in their crafts. The group also heard a request for a contribution to a scholarship fund for a Korean student and a request for magazines for friendship to be sent to foreign countries.

Mrs. Iva Palmer, a former member, who is now a county coordinator in Burnet Schools and member of Alpha Chi Chapter, and Mrs. Aura Lee Thornton, a newly-elected member from Haskell were extended special welcomes.

Mrs. Fay Woodson, Haskell, was chairman of the symposium who discussed features of

UNESCO and Its Work. Madalin Hunt, Haskell, showed films taken of the United Nations Building in New York City. Against a background of United Nations flags and other realities of the unorganization, Mrs. Opal Nanny, Haskell, discussed What UNESCO Does and How It Works. Mrs. Wallace Cox, also from Haskell, told about The Struggle of Equality of Peoples of All Nations. Mrs. Roselle Wilkinson, Haskell, closed the discussion with Challenges on the Path of Freedom. Members sang America as a prayer to close the afternoon's most informative study.

Furthering the chosen theme, the hosts had arranged the refreshment table with pink net over pink linen. A gaily flowered covered parasol in net was at one extreme of the table. The crystal punch bowl was flanked by a spring time corsage of heavenly pink carnations from which extended a cascade of satin ribbons tied at intervals with lovers knots. Other appointments were silver.

Dainty ribbon sandwiches, cookies, and punch were served to twenty-nine members and one guest from Vera, Aspermont, Old Glory, Haskell, Knox City, Weibert and Munday.

Munday members who served as hostesses group were Mesdames W. C. Cox, Maurryse Blacklock, Flora Belle Blacklock, Bess Reeves, H. H. Cowan, R. B. Bowden, Alice Partridge and Miss Junita Smiley.

The man who wants to be followed by the fairer sex would do well to choose this single breasted, belted raincoat. Greenwood Mills' combed cotton sheen has been treated for water and spot repellency. Lining is cotton plaid with Scottish overtones. The coat by Neptune Garment Company has zipper cash pocket on sleeve and hook and eye neck closure.

Mrs. Hubert Sparks of Abilene spent the week end with her parents, Mr. and Mrs. E. H. Melton. She attended the wedding of her brother, Wayne Melton, in Seymour last Sunday.

MOTOR MAIDS

A Safe Time . . . A Good Time

By Jeanne Smith, Dodge Safety Consultant

WILL YOU be writing the folks back home about the swell vacation you're having? Or will they be writing you "get well" notes? To be sure of having a good time, the National Safety Council asks that you make safety part of your planning. Here is a list of the Council's suggestions:

1. Before leaving, have your car checked in the service department of your local dealer. Are brakes, lights and wheels OK?
2. Start off on the right foot. Use a light foot on the gas.
3. Slow down in bad weather, in bad traffic, on bad roads and when visibility is limited.
4. Make a check list. Take along a flashlight, extra car keys, first aid kit, road maps, sunglasses, flares or flashers, tools, rope — and safe, courteous driving habits.
5. Don't swim alone, too far, or after dark. Know the depth of the water, tide conditions, and under-water obstacles, if any.
6. Don't let the heat knock you cold. Take less sun the first few days. Don't overdo sports and exercise.
7. Rest after eating. And don't eat excessively in hot weather. It can be dangerous.
8. Watch out for other people when fishing. Be careful of hooks. Learn proper casting techniques.
9. Be alert to any special vacation hazards such as poison ivy or snakes.
10. Select boats carefully. No standing, overloading or horseplay. Stay ashore in bad weather. Always carry life preservers. If the boat overturns, stay with it!
11. Wear protective clothing when camping. Watch out for impure drinking water. If in doubt, boil it. Be careful with cigarets and matches. Keep fires small and guarded. To make sure it's out, cover fire with sand or dirt.

Miss Smith

Key Motor Co.

Authorized Dealer

Formal Opening February 1st

Our formal opening on Friday, February 1st, will be a big day for people of this area. Watch for our announcement next week, and plan to visit us during our formal opening!

We now have a complete line of Ford parts in stock, which will enable us to give you a complete service.

Bring us your cars for prompt and efficient automotive repair work, including washing and greasing.

Your patronage appreciated.

Knox Prairie Philosopher Warns Washington Just Not To Look To Him For Balancing The National Budget

Editor's note: The Knox Prairie Philosopher on his Johnson farm on Miller Creek has gotten word of the national budget, his letter this week indicates.

Dear editor:

The other night during that cold spell after I'd gotten my chores done, well, they weren't actually done according to some standards but they were by mine, which is to say I just let em slide, I was sitting by the fire reading the news from Washington in a copy of a newspaper I'd found earlier in the day on the road near my house where it'd blown off the radiator of a car where somebody had tied it to keep his block from busting, and I got interested in President Eisenhower's budget for this year.

As I understand it, he says we'll have to spend more money but won't have to raise taxes. He says it will take about 72 billion dollars to run the government for the next twelve months, which is an increase of about 3 billion over what it took last year, and while I'll admit it doesn't make much difference to me, I don't know the difference between 69 billion and 72 billion anyway, they lost me way back there, I did notice that Ike's advisors were telling him that the increase wouldn't throw the government

in the red, even without a tax increase, because they were figuring there'd be more money coming in this year because of more income tax payments because of higher incomes, and thus the budget will stay balanced.

Well, now, I'll tell you, I sure hope Ike ain't basing his plans for a balanced budget on any increased earnings on my part. I don't believe I can swing it. I'd sure like to help him out, but if the United States government is counting on me increasing my income in 1957 to balance the budget, they better re-figure the whole thing.

If the Washington experts are counting on me to keep me out of the red, my advice is to stop counting their chickens before their eggs are hatched. In fact, they'd

better check up on the eggs too. My hens haven't been laying much.

Understand, I'd like to help balance the budget, be proud to, but any spending program in Washington which is based on the assumption I'm gonna make more money in 1957 than I did in 1956, just ain't being realistic. I'd like to help Ike balance his budget all right, but I haven't ever gotten around to balancing my own yet.

Yours faithfully,
J. A.

CARD OF THANKS

We take this means of expressing our gratefulness for the many acts of kindness at the death of our husband, father and brother, Bud Collins, and for the words of consolation, the beautiful floral offerings and food. May God richly bless you all.

Mrs. Bud Collins and children; Brother and sisters, H. R. Collins, Mrs. Mary Ines, Mrs. W. O. Lewis, Mrs. Pearl Lackey, Mrs. Ada Blackstock, Mrs. J. J. Smith, Mrs. G. C. Brockett and families.

Tourist Industry In Texas Ranking Next To State's Annual Cotton Crop

AUSTIN—"A Check on the 1955 Texas Tourist Industry" was released today in Austin by the Texas Highway Department. The survey shows that 9.9 million out-of-state tourists visited Texas last year, an increase of 1.2 million persons over 1954.

In cash value the tourist industry ranks next to the state's annual cotton crop, with cotton listed at \$700 million and tourists at \$412 million for the year just past.

"Texas has been slow to realize the potential value of the tourist industry as a source of cash income," D. C. Greer, State Highway Engineer stated, "but the steady rise of out-of-state visitors since the end of the war indicates that people in other states are be-

coming increasingly aware of the state's many attractions as a vacation spot."

Annual tourist expenditures in 1955 were set by the Department at \$276 million. By 1955 this figure had increased by \$136 million. During the same period the number of tourists had increased from 8 million to 9.9 million.

Mr. Average Tourist of 1955 spent 5.5 days touring the state and spent \$7.53 daily for food, lodging, and other expenses. "We believe this daily expenditure for a vacation is substantially less than is necessary in some of the other 'big' vacation states, thus allowing our out-of-state visitors to stay with us longer and see more of Texas," Greer said.

The seven Highway Depart-

ment Travel Information Bureaus located at the state line were able to increase the itinerary of out-of-state visitors by assisting in planning and routing trips to include points of interest throughout Texas, Greer said.

In addition to this direct counseling of travelers, the bureaus and the Austin office during 1955 answered a total of 356,506 requests for information on Texas from potential visitors.

"In spite of the limitations imposed on us," Greer stated, "we in the Highway Department are doing everything known to bring Texas to the attention of vacationers from other states. We believe that we have only begun to tap this source of direct cash income, and in years to come we expect to see tourism move even higher on the scale of top Texas industries."

The Department also takes advantage of every opportunity to furnish out-of-state newspapers

Magazine To Have Pictures Of Texas Citizens

"The Oil Folks at Home," a witty study of the Texas oil families appears in the February issue of Holiday magazine. The text, by Cleveland Amory, and the pictures, by Slim Aarons, present a colorful view of many of the state's leading citizens.

The author asserts that of the ten richest men in the country, at least five of them are Texans, and if persons with inherited wealth are excluded, the proportion is even higher.

The article includes many anecdotes and sketches of men like Haroldson Lafayette Hunt and Clint Murchison of Dallas, Hugh Roy Cullen, of Houston, and Sid Richardson of Fort Worth. These men, according to Amory, are the big four in Texas Oligarchy. Amory describes Glenn McCarthy as a man whose life would make an ideal movie script and claim that D. Harold Byrd, of Dallas, once issued a dinner invitation to all those within hearing distance at the Cotton Bowl Game.

"Though the emphasis in Texas is on the male," he continues, "many of the women do not know they are dowdier." He mentions Mrs. Al Meadows as wearing the largest diamond in the state, and Mrs. Robert L. Gerry, Jr., of Dallas, as stating that "money is IT in Texas Society."

Amory contrasts the comparatively simple life of Houston and Dallas with Amarillo, the "spend-the-most town", and Midland, which he describes as "the richest."

The article concludes with a tribute to Everett Lee De Goyler, of Dallas, the father of petroleum geology. "He is," the author writes, "a man of remarkable humility, open-mindedness, humor and naturalness."

Employers Urged To Distribute All W-2 Forms Early

District Director of Internal Revenue Ellis Campbell, Jr. is asking for the cooperation of all employers in the early distribution of withholding tax statements, Form W-2, to their employees. The forms must be issued by January 31, 1957, and penalties are provided for employers who fail to distribute them on time.

Director Campbell explained that the Form W-2 is a necessary part in the filing of a Federal income tax return by an employee. Taxpayers who have these forms at an early date will be able to file their returns well before the deadline of April 15. Returns resulting in refunds will receive special handling to expedite the refunds.

Blank Forms W-2 are available at the Internal Revenue District office located at Room 312 Post Office Building, Wichita Falls, Texas. The form is to be made out in triplicate, showing the wages paid to the employee during 1956 and the amount of income tax withheld from his wages. Employers are reminded that they must issue a Form W-2 to each employee whose income was subject to withholding and also to any employee who would have been subject to withholding if he had only one exemption.

Veterans To Get 56 Land Tracts

AUSTIN—Texas veterans were reminded Friday that they have only until Feb. 5th to submit bids on 56 tracts of land which the Veterans' Land Board has for sale.

Land Commissioner Earl Rudder, who is chairman of the VLB, explained that—unlike normal procedure in the Veterans' Land Program—veterans are not required to obtain an application number to purchase any of these tracts.

The lands to be sold, which are located in all sections of the state, have been forfeited by original owners who purchased the property through the Veterans' Land Program.

Commissioner Rudder urged veterans who are interested in this sale to inquire immediately of the Veterans' Land Board in Austin for information.

Small grain producers can increase grain yields from 25 to 30 percent through the use of nitrogen fertilizer as a sidedressing.

M. K. Thornton, extension agricultural chemist says demonstrations conducted over a period of years have proved the value of this practice. In the area south of Waco, from now until mid-February is the time to make the application and those to the north of this area should make the application by March 1 or not later than March 15.

If present indications are carried out, the 1957 turkey crop could exceed the record crop of last year. Producers are urged to study the demand and supply situation in planning for the year ahead.

Couple Injured In Car Accident Enroute To Munday

Word was received Monday night that Mr. and Mrs. Jackie Cox and 2-year-old son, Ricky, of Colorado City were in a car wreck near Sweetwater while enroute to Munday to visit her parents, Mr. and Mrs. A. R. Booe, and sister, Mrs. Gene Floyd, and family.

Mrs. Cox was driving the car and while trying to go around a truck, met an oncoming car. Unable to get back in her line, Mrs. Cox took to the bar ditch and the car overturned 5 times. All were hospitalized but none thought to be seriously hurt. Little Ricky did not receive a scratch. Mr. and Mrs. Cox are both being kept in the hospital for observation, according to Wednesday's reports.

Mr. and Mrs. Gene Floyd and A. R. Booe went Monday night and remained until Tuesday noon. They brought Ricky home with them for a few days.

Defensive System of B-52 Intercontinental H-Bomb Carrier Is World's Toughest

One Gunner on Largest Bomber Replaces Six Bomber Replaces Six

Defends Way for Accurate Target Approaches—Fights Way Back Home

The eagle-eyed aerial gunner, often called the fightingest sharpshooting man aboard our bombers aloft, has been given an electronic brain. His counterparts of World Wars I and II probably never thought it would come to this. But, the pitifully short combat life of some of World War II gunners foretold it. And, the era of expecting gunners, by themselves and unassisted by modern systems science, to lead and track and shoot down an attacking fighter is now ancient history.

The development of the speedy jet bomber and supersonic jet fighters forced a change in the weapons systems of American aircraft. A coldly calculating electronic brain has not only lessened the number of gunners needed per plane, but also has given a longer life expectancy to those that are needed. During the years between the two big wars the only change in a bomber's defensive system was the application of twin mounted machine guns on a swivel and enclosed in a glass turret to protect the gunner against the elements.

Then came the second scrap. The B-17 "flying fortress" and the B-24—both four-engine bombers—were developed for what was then called "high altitude" bombing. The weapons system on each of these planes consisted of six gunner positions manned by six men firing the heavier fifty caliber machine gun. These crack shots took a heavy toll of Japanese Zeros and Nazi Messerschmitt fighters. After all, they had the good eye and practice it took to knock down a 370-mile an hour fighter roaring in at three o'clock high. Enemy fighters dreaded them... gunned for them in particular... got so many that in some position assignments these stout defenders could expect to live no more than 30 seconds in combat.

The gunner in today's Air Force is a man trained to monitor an electronic system, which increases its effectiveness to the maximum of present day science. Generally his work is of a higher order. He is not called on for the manual skills by which his predecessors defended the bomber's way. But, at will, he can take over manually. He has a vastly advanced gun-sight to aid him then. And, in either this so-called "optical mode" or in the fully automatic "radar mode," the system with its electronic brain will out-think an enemy.

jet pilot and out-shoot an attacking fighter.

Actually, the gunner of today fights his bomber's way to the target and defends its return to base by watching the "scope"—a unique TV-screen device. This signals him target warning, on target, fire, whereupon he squeezes a hand grip which sets off a booming tune of four-barreled destruction to the attacking fighter.

The new era of aerial gunnery, called a defensive or weapons system, built gunnery systems around these small black boxes that could out-think and outperform the human brain with split second efficiency.

The "brain" in reality controls a robot killer—the bomber defensive system of tutored rapid firing automatic weapons. Radar picks up the enemy plane, passes the information to the gunner who in turn just watches until the electronic brain, having computed all the needed distance and speed information, tells him to let loose the

With this system installed, the intercontinental bomber, indeed has become the mistress of its sky way. Independent of fighter protection—protected by a defensive system of advanced design and expanded capabilities—America's fleet of intercontinental bombers can respond whenever and wherever national defense demands it.

tem, began in the laboratories of the ARMA Division of American Bosch Arma Corporation, located at Roosevelt Field in Garden City, Long Island, New York. They were tossed this problem by the U. S. Air Force: Develop a defensive weapons system for medium and long range jet bombers that will track, lead and destroy attacking enemy fighters.

ARMA did just that. With a background of pioneering the development of precision gyroscopic systems, airborne, surface and underwater fire-control systems and automatic navigation and position plotting systems, ARMA engineers put their knowhow to good use.

They had to start on the premise that high speeds would make it virtually impossible for the human eye to spot attacking jet planes until too late, that high altitude battles would probably take place at night during long range missions and that the speed of American bombers and enemy fighters will continue to increase. "Now," added the Air Force Research and Development Command, "develop a weapons system that will operate under all of these conditions."

The electronic brain was the key to the solution. ARMA engineers

building gunnery systems around these small black boxes that could out-think and outperform the human brain with split second efficiency.

The "brain" in reality controls a robot killer—the bomber defensive system of tutored rapid firing automatic weapons. Radar picks up the enemy plane, passes the information to the gunner who in turn just watches until the electronic brain, having computed all the needed distance and speed information, tells him to let loose the

With this system installed, the intercontinental bomber, indeed has become the mistress of its sky way. Independent of fighter protection—protected by a defensive system of advanced design and expanded capabilities—America's fleet of intercontinental bombers can respond whenever and wherever national defense demands it.

tem, began in the laboratories of the ARMA Division of American Bosch Arma Corporation, located at Roosevelt Field in Garden City, Long Island, New York. They were tossed this problem by the U. S. Air Force: Develop a defensive weapons system for medium and long range jet bombers that will track, lead and destroy attacking enemy fighters.

ARMA did just that. With a background of pioneering the development of precision gyroscopic systems, airborne, surface and underwater fire-control systems and automatic navigation and position plotting systems, ARMA engineers put their knowhow to good use.

Mother Of Local Man Dies Sunday At Big Spring

Mrs. Mattie Griffin of Rising Star, mother of Bert Griffin of Munday, passed away at 5:15 p. m. Sunday at the home of a daughter in Big Spring. She had lived at Munday for a number of years before moving to Rising Star.

Mrs. Griffin 82 had been visiting her daughter, Mrs. G. W. King. She was born July 14, 1875, in Madison County and had been a member of the Methodist Church since the age of 14.

Funeral services were held at Rising Star on Tuesday with burial in the Rising Star cemetery.

Survivors include three sons, Claude of Rising Star, Bert of Munday and Murel of Bowie; two daughters, Mrs. King of Big Spring and Mrs. Ola Burnett of Wichita Falls; a brother, John Nanny of Haskell; two sisters, Mrs. E. F. Darnell of Wichita Falls and Mrs. Bertie Pierce of Austin.

The Brushy Cemetery Association will hold a meeting at 7:30 p. m. Monday, January 28, in the Brushy Church. All members are urged to attend.

Former Resident Is Buried Sunday

Funeral services were held from the First Methodist Church in Munday at 3 p. m. Sunday for Mrs. Lucille Newman, 43, former resident here who died in an Electra hospital last Friday afternoon a long illness.

A resident of Electra for one year, Mrs. Newman went there from Abilene and had been living with an aunt, Mrs. Walter Baggett. She was born in Waco and lived in Munday several years before moving away in the early 1940's.

Rev. J. F. Michael, pastor, officiated at the service and burial was in Johnson Memorial Cemetery under the direction of Trotter Funeral Home of Electra.

Survivors include a son, Phillip E. Newman of Springfield, Mass.; her father, Jack Ladd of Lamesa, and two aunts, Mrs. Baggett and Mrs. J. W. Hogan of Anson.

FREE DELIVERY—To Weinert, Goree and Rhineland on pot plants and funeral work. Munday Flower Shop, phone 3111. 27-1fc

BIRTH ANNOUNCEMENT

Mr. and Mrs. G. D. Lowrance of Monahans are announcing the arrival of Deena Kay on January 14, weighing seven pounds and three ounces. She is welcomed by a brother, Stanley Dean, and sister, Brenda Lynn, who will help entertain her. She is the granddaughter of Mrs. J. F. Lowrance.

Good lawns don't happen. They are the product of considerable time and effort, says extension agronomist E. M. Trew. He lists a fertile soil, adapted lawn grasses and drainage along with proper watering, fertilization and mowing as essentials for establishing an attractive lawn.
