FUNDAMENTALS FOR THE FARMER

The address made by Charles B. Shuman, president of the American Farm Bureau Federation, at that organization's recent annual meeting was notable by any standard.

Mr. Shuman laid down a set of fundamentals that are basic to a sound and successful agriculture. The first is freedom to change—to make shifts in farm operations in response to variations in supply and demand. That freedom, he then pointed out, has been restricted by government pricing and acreage control programs.

A second fundamental—and to many minds, this will seem the most important of all—is a free market for farm products, a market in which farmers " . . . are free to sell their products at any time, at any place, and in any quantity for the best price possible." One of the features of such a market, Mr. Shuman pointed out, " . . . is that it clears itself." And he gave as a concrete example of this: "During the past year, we have produced livestock and dairy products at an all-time high rate in a relatively free market, and yet we have little accumulation of surplus . . . Consumers have increased their consumption of meat, milk, and poultry products and farmers have marketed the increased volume at prices which have resulted in improved farm income."

Still another fundamental is the opportunity to accumulate capital and to own property. Here Mr. Shuman made a trenchant comment: "One of the greatest barriers to the accumulation of capital is high taxes, in turn, high taxes are a result of the public demand for more and more government services. Farmers have been as guilty as other folks in their demands for the subsidies and protection that big government offers."

This is but a brief summary of a long address that deserves the widest possible reading. Mr. Shuman pointed to the road that can lead to the greatest long-run material benefit for the farmer—even as he keeps his freedom.

NEWPORT BEACH, CALIF., NEWS PRESS:
"The Government Has No Money Except What It Takes From The People." That reads like a sage bit of wisdom which we might hope to find over the entrances of some of our government buildings in Washington, and which could be repeated on placards in every office of every federal government bureau."

POST OFFICE DEFICITS

Reports from Washington indicate a probability that Congress will approve raises in first, second and third class mail rates. Top officials in the post office department have advocated this, on the grounds that present rates are inadequate to pay the costs.

There is still another post office activity where—according to the Hoover Commission and other authorities—heavy operating deficits have been the common rule for a great many years. That is fourth class mail—which is the parcel post category.

The 1956 parcel post loss has been estimated at around \$65 million. And parcel post, unlike the carrying of letters, is directly competitive with taxpaying private enterprises of many kinds—from local cartage concerns to national and international express services. As originally intended by Congress, parcel post was to supplement the private services, not to supplant them, and it was supposed to pay its own way with an adequate rate structure. These sound stipulations have simply not been followed.

When Congress considers changes in post office charges, parcel post should be given high priority.

THE WHY OF "TIGHT MONEY"

You've undoubtedly heard of the "tight money" policy now being followed by the Federal Reserve Board—a policy which makes money more difficult to borrow and which tends to increase interest rates.

But you may have wondered why the Board should find such a policy necessary. U. S. News & World Report explains in these words: "There is at present a strong inflationary demand for credit. Industry is seeking record amounts to finance huge expansion programs. State and local governments have vast programs of public works. Builders are pressing for funds to finance more homes. Consumers are spending record sums, and want to borrow to keep on spending. Meanwhile, most of the labor force is already fully occupied and unions are demanding and getting wage increases. Many production lines are operating at capacity. With costs increasing and prices rising, the possibility of greater inflation threatens."

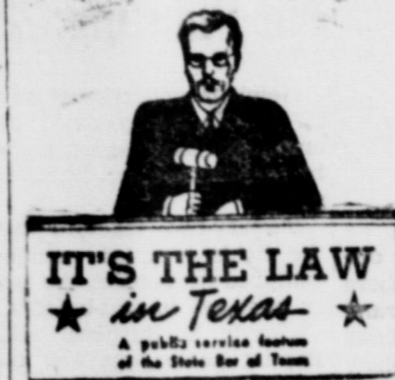

"The men on the Federal Reserve Board who shape money policy for the government are determined to keep this situation under control."

—SAY YOU SAW IT IN THE TIMES—

HEART MONTH — Governor Price Daniel has proclaimed February as "Heart Month" through Texas in official support of the annual Heart Fund campaign of the Texas Heart Association and its affiliated community chapters. Dr. E. N. Jones, president of Texas Technological College and Chairman of the 1957 Texas Heart Fund, announced that the annual campaign for funds with which to "combat the nation's Number One Killer—heart disease—will continue throughout February." In his proclamation designating February as Heart Month, Governor Daniel urged "all citizens to support the Heart Fund campaign and all schools, churches, scientific, civic, social and fraternal organizations and business establishments to lend this drive their cooperation."

The governor's proclamation pointed out that "heart and circulatory diseases account for more deaths each year in Texas and throughout the United States than all other causes of death combined. One among each 16 American citizens suffers from some form of these diseases, and 500,000 children are among the victims."

MAN-MADE LAW?

Some people find confusing our different state and national laws dealing with the same things. Income tax laws for an example. Surely, they say, you can have no real justice, unless there is some one "best way" to do each thing—to hold property, to manage traffic, to pay taxes, or to enforce contracts. So it bothers them. Why should Englishmen drive on the left side of the street? Why should married couples hold title under community property laws in some states and not in others? Is law merely a man-made contraption? Is it true that like good manners much law is man-made, growing out of custom or local problems. In card games you can play many different games with one deck. You merely change the rules. But as with cards and all games, the law goes deeper than convention into man's basic needs for order, for a grasp of the part he is to play, and for a way to settle disagreements. Law provides an orderly way to do things so that people can make long-range plans and work together. Its rules help you to find out where you stand—your rights and duties. And last, law has binding ways of settling disputes if need be, first to keep the peace, and then win people over by dealing with them in ways that satisfy their sense of fairness. You can find these traits of

Most Cattle And Calves Sell Fully Steady Monday

Trades was fairly active on cattle and calves at Fort Worth Monday, with some calves and some fed cattle a little stronger. Cows were barely steady. Bulls sold weak to 25 cents or more lower. Stocker demand was strong again.

Good and choice fed steers and yearlings cashed at \$17 to \$19.50 and common and medium offer-

ings cleared at \$12 to \$16.50. Fed heifers sold from \$19 downward. Fat cows cleared at \$11.50 to \$13, and canners and cutter cows sold from \$8 to \$11.50. Bulls sold mostly at \$9.50 to \$14.50, with a few individuals \$14.75 to \$15.

Good and choice slaughter calves drew \$16.50 to \$19 and common and medium offerings drew \$12 to \$16. Culls sold from \$10 to \$12. Stocker steer calves of good to choice grades sold from \$17 to \$20, some 325-pound weights at \$20. Stocker heifer calves ranged from \$17.50 down. Stocker steer yearlings sold from \$18 down. Stocker cows sold from \$8 to \$13.50, a load of Sterling County cows averaging 690 pounds at \$13.50.

Hogs Lose \$3.00 In Just Two Weeks!

Hogs opened steady to 25 cents lower at Fort Worth Monday and topped at \$17.50 to \$17.75, mostly \$17.50. This was \$2.75 to \$3, most-

ly \$3, below the high mark of the season established Tuesday January 29 at \$20.50. On Monday the lighter weight and medium grades sold from \$16 to \$17. Sows drew \$14.50 to \$16. Stags sold from \$8 to \$11.

The sharp drop in hog prices was credited to somewhat heavier supplies around the nation, and to strong resistance to rising pork prices at wholesale and retail meat trade levels. Texas hog prices on January 29 had far outstripped Cornbelt markets due to bad weather in this region. On that date the Fort Worth top of \$20.50 compared with a Chicago top of only \$19.25, so when a downdraft hit, the Texas price had a longer way to drop before getting in line with the meat trade.

Lambs Make Up Over 90% Of Monday Run.

Once again fed lambs made up well over 90% of the Monday offering at Fort Worth. Slaughter buyers took hold slowly and prices on killing types were steady to weak, spots 25c lower. However, feeders were fully steady. The few older sheep that arrived sold fully steady.

Good and choice wooled slaughter lambs drew 18 to \$18.50 and good and choice lambs with No. 1 and Fall shorn pelts also sold from \$18 to \$18.50. No. 2 pelt lambs sold from \$18 down; and No. 3 pelt lambs sold from \$17.00; recently shorn lambs sold from \$16 down. Cull to medium lambs sold from \$12 to \$16.

Stocker and feeder lambs cashed at \$16 to \$18.50, wooled feeders at the higher price. No. 1 pelt feeders sold from \$18 down. A few slaughter ewes sold from \$6 to \$8, and some breeding ewes drew \$10 down. Yearlings and two-year-old wethers sold from \$15 down. A few old muttons sold from \$12 down. Old bucks cashed at \$5 to \$6.

Mrs. Tennie Suggs visited her son, Cecil Suggs, and family in Arlington last week.

CARD OF THANKS

We take this means of expressing our gratefulness for the many acts of kindness at the death of our husband and dad, for the words of consolation, the beautiful floral offerings and food. May God richly bless each of you.

Governor Frowns On Livestock Sales Tax

FORT WORTH—Gov. Price Daniel told newspaper men last week that he did not favor any kind of "transactions tax" on livestock sales and legislative representatives in Austin reported they considered a bill proposing ten cents per head check-off on cattle sold through auction rings or terminal markets would probably never be introduced.

Governor Daniel said, "Our farmers and ranchers are having enough troubles now, and certainly I wouldn't consider loading them with any new taxes." He also professed to be unfamiliar with any bill which would project a livestock tax.

The check-off tax on livestock sales amounting to ten cents on cattle, three cents on swine, and one cent per head on sheep or goats sold through auctions or terminal markets, had been proposed by Chairman Frank Scofield of the Livestock Sanitary Commission of Texas, as means of fulfilling the demands of the previous Legislature that the livestock industry raise a portion of the money needed to operate the commission.

The check-off tax proposal met opposition from virtually all segments of the industry, as did the proposed ten cents per ton tax on feed. The proposal to tax feed met solid opposition, since it endangered passage of the new feed control bill which is now moving toward enactment without opposition.

Governor Daniel told Grover C. Lee, Jr., Strawn publisher, in a telephone interview, that "I am sure funds to finance an animal health program can be secured from other sources than from our drouth stricken farmers and stockmen."

Interested farm organizations and livestock associations are expected to plead for the needed funds to get the livestock program underway before House Appropriations Sub-Committee.

The need for getting the animal health program underway is urgent to protect Texas' out-of-state markets for livestock and poultry. On some phases of the program matching federal funds are also available.

Mr. and Mrs. Ed Jetton visited Mr. and Mrs. Ralph Geddie and children in Dallas over the week end and attended the funeral of Mr. Jetton's aunt, Mrs. Ed Hogue, in Fort Worth on Saturday.

• High Lint Percent (38% to 40%)
• Easy Picking—Hand or Machine
• 1 1/16 to 1 3/32 Inch Staple

D & P L-FOX
Breeder's Registered
• Fast Fruiting • Early Maturing
• Excellent for Machine Harvesting
• Moderately High Lint Percent (34% to 38%)
• 1 1/16 to 1 3/32 Inch Staple

DELTAPINE STAPLE
Breeder's Registered
• A new variety bred to give the highest Lint Percentage of any cotton of equal staple length. (34% to 36%)
• 1 1/8 Inch Staple.

A successful cotton farmer of Mounds, Louisiana, E. C. Woodyear, is a man who believes in the full use of mechanized farming methods — and equally important, the use of good planting seed — as a means of increasing his productivity of labor.

This field of cotton was planted in 1955 to Deltapine 15, the big brother in the family of fine cottons bred by Delta and Pine Land Company. From the 150 acres represented in this photograph, Mr. Woodyear actually harvested 375 bales of cotton — an average of 2 1/2 bales of top-quality cotton per acre!

Behind these Deltapine Cottons are many years of research aimed at developing varieties from which the farmer can expect to produce premium quality cotton under a variety of farming conditions and practices. Scientists at Delta and Pine Land Company have succeeded in matching the rapid advancements made in the cotton industry; they have developed cottons that are heavy yielders, adaptable for belt-wide production... cottons that are in highest demand by cotton manufacturers... cottons that can be profitably produced, with no sacrifice in quality, because of their high degree of adaptation to mechanized farming methods.

Plant Breeders Registered Deltapine 15, D&P L-Fox or Deltapine Staple... the cottons that are bred to make labor more productive and investments more profitable.

MODERN HOMEMAKING

Recipes . . . Household Helps

By Julia Hunter

HOME ECONOMICS DIRECTOR, LONE STAR GAS CO.

There's a record supply of canned sweet corn on hand in retail stores. This makes for a good time to purchase a large pantry shelf supply of this versatile food. Canned sweet corn knows no season, it fits into menus the

year round. Just heat and season or give it a special dress by making the all-time favorite, old fashioned corn pudding.

Corn fritters or corn pancakes served with melted butter or margarine, hot syrup sausage make a delicious supper for the family and guests. Just add a cup of well drained whole kernel corn to a fritter or pancakes recipe that makes four servings. Corn waffles are good, too.

For six servings of tasty succotash, combine a No. 2 can of whole kernel corn with half the liquid; a No. 2 can green lima beans with half the liquid and two tablespoons chopped onion cooked until tender in four tablespoons bacon drippings. Season with salt and pepper, simmer 20 to 30 minutes and serve.

'QUEEN OF HEARTS' IN THE HEART OF—Dinah Shore, chosen "Queen of Hearts" by the nation's disc jockeys for the 1957 Heart Fund now in progress across the country, is shown being welcomed to Texas and Dallas by Mayor R. L. Thornton, Sr., of Dallas. Miss Shore made her only Texas stop in Dallas on a 10-city tour, appearing in behalf of the 1957 Heart Fund of the American and Texas Heart Associations. In urging generous support of the annual drive for funds with which to fight the

tion's Number One killer-disease, the songstress pointed out that "heart disease has touched every one of us in some way." Miss Shore's mother died of coronary thrombosis, one of the forms of heart disease for which medical science still seeks a cure. Funds contributed to the annual Texas and American Heart Funds are used to further research into the causes and cures of heart disease, for medical and lay educational work and for community heart service programs.

Creole corn is a quickie made by combining canned whole kernel corn, chopped onion, chopped green pepper, salt, pepper and canned tomatoes. Simmer over a low flame about 30 minutes.

And if it's an Irish dish you're wantin', make it Corn O'Brien—it's Irish in name, anyway. Saute chopped green pepper until tender and add it with chopped pimiento to cream style canned corn.

Recipe Of The Week

OLD FASHIONED CORN PUDDING: combine one No. 2 can cream style corn, one tablespoon sugar, $\frac{1}{2}$ -teaspoon salt, dash pepper. Add two well-beaten eggs, one cup milk, two tablespoons melted butter or margarine or bacon drippings. Mix well and pour into greased one quart baking dish. Top with $\frac{1}{4}$ -cup bread crumbs. Bake in moderately low gas oven (325 degrees F.) 45 minutes or until set. Make 4 servings.

Weekly Health LETTER

Issued by Henry A. Hollister, M. D., State Health Officer of Texas

AUSTIN—February is National Heart Month. During this period most Americans will be made aware, through one way or another, of the tremendous strides made during the last few years in the battle against heart disease.

Recently, a nationally televised program dramatized an operation that replaced a damaged heart valve with a plastic counterpart—a modern medical miracle.

And yet diseases of the heart and the cardiovascular-renal system are still the number one killer of Texans and Americans today.

During 1955, over 32,000 Texans died from these causes alone.

This accounts for almost 50 percent of the total deaths from ALL causes in Texas.

Figures for 1956, not yet complete, appear to indicate a rise in this figure.

The exact causes of the conditions which produce the high death rate from heart disease are still unknown to medical and scientific researchers.

However, on one fact they all agree; early warning of heart trouble or physical conditions that could lead to heart breakdown, makes cure much simpler for the physician.

On those conditions where cure is impossible, early diagnosis usually makes it possible, with proper medical attention, for the patient to lead a long and nearly normal life.

The heart is the toughest, strongest muscle in the entire body and is more efficient than any man-made machine. It even had its own complete maintenance and repair system.

About the size of a fist, the human heart produces enough energy in its lifetime to lift a battleship 14 feet out of the water.

This reservoir of power is specifically intended for strenuous exertion because it must pump every drop of blood to body tissues and back, once every minutes.

The marvel of the heart is that it doesn't break down easier and more often. However, it does break down and often without warning.

Dr. Henry A. Holle, commissioner of health, urges Texans to check regularly with a physician and follow his advice, especially if they are past 40 years of age.

Take advantage of the free mobile chest x-ray unit provided by the Texas State Department of Health when it visits your community or neighborhood.

Chest x-rays, as well as uncovering chest cancer and tuberculosis, can also show up certain heart conditions in their early stages.

LOCALS

Mr. and Mrs. Walter O. Terry of Fort Worth visited her mother, Mrs. L. E. Ledbetter, and brother and wife, Mr. and Mrs. Runt Ledbetter, over the week end.

1957 FORD TRUCKS

New Ford Ranchero! More than a car, more than a truck—it's a completely new kind of vehicle. Carries work-horse loads—more than half a ton!

New Styleside pickups! Modern cab-wide bodies, standard at no extra cost. Biggest in the half-ton field! Available in 5 1/2' and 8 ft. body lengths.

FORD TRUCKS COST LESS...
Less to own... Less to run... Last longer, too!

New Ford Tilt Cab! America's most modern Tilt Cab line. Six completely new series, up to 60,000-lb. GCW.

- Come see how boldly modern trucks can feel. Come see the new Ford trucks for '57, featuring these three major truck firsts:
1. The first pickup to ride and handle exactly like a fine car—the exciting new Ford Ranchero. It's a work horse and a show pony, too!
 2. The first pickups with cab-wide bodies, standard at no extra cost. They're Ford's new Styleside pickups—America's biggest, smartest!
 3. The first completely new, completely modern Tilt Cab trucks in the low-price field.
- Come in now! See how deep-down modern design puts all '57 Ford trucks ahead with:

- NEW cabs**—completely new—roomier, stronger, smarter! New wider full-wrap windshield! New inboard cab step. New Hi-Dri ventilation.
- NEW hydraulic clutch**, standard in all models! Works like hydraulic brakes for easier operation, longer clutch life.
- NEW riding ease!** Completely new suspension with longer, softer-acting springs gives you a ride that's mighty close to that of a passenger car.
- NEW power advances!** New higher horsepower, freer breathing, higher compression! Only Ford offers modern Short Stroke design in your choice of V-8 or Six in every model!
- NEW chassis strength!** New frames, up to 13% stronger. New sturdier axles!

Goree News Items

Jackie Latham, Bride-Elect Is Honored At Party

Miss Jackie Latham, bride-elect of Buster Styles of Seymour, was honored at a gift tea in the home of Mrs. John Broach of Goree last Friday afternoon.

Hostesses were Mmes. Broach, Luther Williams, John L. Lambeth, J. C. Watson, Reuben Bates, C. R. Mathis, George Webber, Don Donoho, J. B. Justice, Felton Jackson, Clyde Morton, W. B. Flewhorthy, D. Barashear and Garland King.

Mrs. Mathis welcomed guests and presented them to the receiving line: Mrs. Buster Latham, mother of the honoree; Miss Latham, Mrs. D. F. Styles, mother

of the prospective bride-groom; Mrs. George Crouch, grandmother of the honoree; Mrs. Terry Edwards, sister of the honoree; Mrs. A. C. Styles, grandmother of the bridegroom, and Mrs. Kenneth Benson, sister of the bridegroom.

The serving table was laid with a white lace cloth, and the centerpiece was a blue heart bearing the names, "Jackie and Buster."

Mrs. Lambeth presided at the punch bowl, and Mrs. Flewhorthy served the cake. Assisting at the display of gifts were Mrs. Williams and Mrs. Webber.

Mr. and Mrs. Lewis Hutchens and family, formerly of Bochita, Okla., are visiting relatives and friends here for several days.

Mr. and Mrs. Lester Brown of Pilot Point visited in Goree last Tuesday.

Knox Prairie Philosopher Baffled By Expert's Opposition To The Drouth And Legislation That Might Not Work

Editor's note: The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek has been doing some drouth-stricken thinking, if you want to call it that, his letter this week indicates.

Dear editor: I was reading along in a news article out of Washington last night with my mind sort of idling when suddenly I went back over the same item because something in it had slipped up on me and shocked me awake.

There it was in the second paragraph. It was a statement by an agricultural expert who was opposing a drouth relief bill

in Congress on the grounds that it "would create more problems than it would solve."

This brought my feet down off the chair they were propped on and set me to thinking hard.

This is one of the strangest reasons for opposing anything I ever heard of.

If people are going to stop passing bills or thinking up inventions or doing anything else just because they'll create more problems than they solve, we might as well call off Congress, close up the state legislatures, shut down the colleges, and outlaw the automobile.

Take the automobile, for example. In view of the fact more people have been killed in car wrecks than in all the wars we've fought, who is there to say the car hasn't created more problems than it's solved? But also who is there to say the car ought to be outlawed, right when most people haven't got their half

J. A.

paid for?
Or take Munday. Anybody knows there are more problems on the piece of ground occupied by Munday now than there were when it was still in cultivation. Parking problems, traffic problems, fire problems, school problems, juvenile delinquency problems, tax problems . . . obviously the people who built Munday created more problems than they solved, but I have an idea you'd be the last person who'd be in favor of abolishing the place.

You set up the standard that every move mankind makes has to solve more problems than it creates and modern civilization will come to a halt.

Drouth legislation may create more problems than it solves, but to a man in the middle of a drouth, having some problems he can't solve is standard fare, nothing new to him in that, and if anybody wants to legislate in favor of a drouth-stricken man, you won't hear him complaining. It's pretty hard to take a long-range view on short-term credit.

Drive carefully. The life you save may be your own!

LOCALS

Mrs. Lola Cartwright and Mr. and Mrs. Al Cartwright and children visited Mr. and Mrs. Keith Cartwright and family in Abilene last Friday.

Abraham Choucair visited relatives in Lubbock the first of this week.

The larva of the heel fly, the cattle grub, is now appearing as a lump under the hide in the backs of dairy and beef cattle. Now is the time to control them. Local county agents can supply formulas for dipping, spraying and dusting, says C. F. Garner, assistant extension entomologist.

KEEP THIS AD!

Over 20,000 Arthritic and Rheumatic Sufferers have taken this Medicine since it has been on the market. It is inexpensive, can be taken in the home. For Free information, give name and address to P. O. Box 522, Hot Springs, Arkansas.

This is the Servel Ice Circle*

*** successor to the old fashioned ice cube!**

It's new and different! It's the modern look in ice cubes . . . sparkling, half-moon ice circles. They fit glasses better — they're bigger so they cool faster . . . and there's always plenty for any use!

Only Servel the gas Refrigerator gives you these important advantages

- 1. MAKES ICE CIRCLES AUTOMATICALLY—WITHOUT TRAYS**
No trays to fill, spill or forget to refill. Ice Server stops and starts itself and there's always a ready basketful of ice.
- 2. NO MOVING PARTS**
Nothing in the freezing system to wear out, become noisy, cause repair expense. A tiny gas flame does all the work . . . Safely—Silently—Dependably.
- 3. GUARANTEED 10 YEARS**
Twice as long a guarantee on the gas Servel's freezing system as on any other make! You save repair money and inconveniences.

MODEL 1179G

Take one ICE CIRCLE, or a bucketful . . . there's always plenty!

No other refrigerator can match these exclusive Servel advantages — and you also get all these:

- Automatic Defrost
- Color Balanced Styling
- Roll-out Shelves
- Trip Saver Door Handle
- Door Shelves, Egg Tray, Butter Keeper
- Continuous Cold
