## Hunter Speaker Here Saturday

### Munday Club Adds To Strength With New Men Acquired

While the Munday club presented a much strengthened line-up Sunday afternoon, they saw what appeared in the earlier stages of the game to be a victory over the fast Gore aggregation dwindle before their very eyes and go glimmering over the horizon for a defeat. Joe Bailey King made his debut for the locals as a pitcher, and demonstrated his ability to keep the hard-hitting Gore outfit mystified for the first six innings, when he was relieved by A. Myers, one of Munday's new recruits from the Truscott country, and his failure to stop the hitting spree inaugurated by Gore brought Rogue McGraw into the argument, but too much hitting, too many errors, and too many breaks against the home-guards couldn't be overcome, and they went down fighting like Trojans.

The addition of the young Myers, referred to above, who will be found at short, and his uncle, J. Myers, who stands well over six feet and plays ball like he likes it, together with some shifting that will take place on the team, puts Munday's representation in the best position to make a real showing during the last half of the season that we have ever had, and with the backing of the citizens Skipper Burton will give the fans hereabout something to brag about in baseball during these latter part of the season.

Here is the box score and detailed information concerning Sunday's game:

A delegation of Breckenridge citizens composed of J. W. (Crestman), L. T. Woodall, R. V. Meador and A. M. Smith were here Tuesday in the interest of the candidacy of Judge J. E. Hickman for Associate Justice of the Supreme Court of Texas. Judge Hickman is now Chief Justice of the Court of Civil Appeals at Eastland and is asking for promotion.

Mrs. J. L. Phillips and little daughters, who have been visiting in the home of her father, J. P. Kennedy, left on Tuesday for Cisco, where they will visit relatives before returning to their home at Waco.

R. G. Campbell and M. F. Billingsley were visitors to Benjamin on Monday morning.

### Vacational Bible School Opens With Large Enrollment

The Vacational Bible school started off on Monday morning with a very gratifying attendance to the sponsors, the Rev. John H. Crowe, pastor of the Methodist church, and the Rev. C. A. Tucker, pastor of the Presbyterian church, and while the school is now under way those who might be interested in enrolling may still do so and derive benefits from the school, as the sponsors are well pleased with the faculty procured and feel sure that much good work will result from the school.

The following compose the faculty: Beginners—Helen Francis Eiland, Mrs. Francis Rutherford, Jeanette Campbell, Juniors—Misses Fannie Isbell, Ruth Womble and Billie True Hill, Primary—Misses Shelley Lee, Barbara Eiland, Lucille Hunter and Bettie Lou Greer. Intermediates—Meslames O. F. Greer and H. F. Barnes, Miss Maxine Pendleton, Jerry Kethley, Jack Williams, John and Arthur Lantry.

### Knox Commissioners Petition Governor For Extra Session

The Commissioner's Court of Knox county has petitioned Governor Sterling to call a special session of the legislature to enact a law diverting a portion of the highway funds to a fund to liquidate highway bonds falling due in 1932. The following petition was sent to the governor early this week:

Governor Ross Sterling,  
Austin, Texas.  
Hon. Sir:

We, the Commissioners Court of Knox County, do hereby petition you as Governor, to call the Legislature together in special session, to pass a law for the State to absorb the outstanding county and precinct road bond indebtedness.

We believe that a five day session would be sufficient. We are sure from the close contact that the Commissioners Court has with the taxpayers of Knox County, that such a law would meet the most hearty approval of 100 per cent of the people of this County.

Precinct No. 2 had to levy \$1.15 per hundred dollars valuator for 1931, and unless we can be relieved by the State, with the decrease in values that we have, it will necessitate a higher rate for 1932, and the people just cannot pay that much taxes in addition to the County State and school taxes.

Hoping that you will call a five day special session of the Legislature to relieve the taxpayers of this burden immediately.

We are yours to serve,  
J. W. MELTON,  
County Judge.

Wm. GRIFFITH,  
Commissioner Precinct No. 1.

W. C. GLENN,  
Commissioner Precinct No. 2.

J. W. CHOWNING,

NEIGHBORS WEDGE IN ON CANNING PLANT TO AID FARMER OCCUPIED IN SAVING CROP FOLLOWING RAINS

Since the recent heavy rains the farmers of the Munday country have been very much occupied in the task of saving their crops from grass and weeds, which have thrived as never before during the past few weeks in which the farmers have been kept out of their fields by the numerous and heavy rains, and one of the farmers who faced a perplexing problem was E. B. Frasure of the New Hope community, who felt that every minute of his time was required in his fields, and who at the same time felt that he should can some of the fine corn that is just now at the canning stage.

### Canning Plant Is Operating On 24 Hour Shift Daily

The chamber of commerce canning plant has this week been operated on a 24-hour shift since 12:01 Monday morning, and appointments have been made to fill all the time on this basis for the remainder of the week, and more vegetables have been canned than ever before in the history of this section. In fact, a traveling man in position to know stated this week that 150,000 cans had been shipped to Munday this season and one local hardware concern has a car-load shipment in transit at this time.

According to D. T. Mauldin, who is supervising the plant, the shifts are being arranged into twelve each day of two hours each, and by having everything in readiness 50 cans can be put up in this allotment of time, and by following this program the benefits of the local plant are divided among the largest number of citizens possible.

To date there have been canned 3,942 cans, divided as follows: beans, 607 cans; peas 1154 cans; corn, 2,065 cans; okra, 31 cans.

Mr. Mauldin states that there is still a big demand for cans on the fifty-fifty basis despite the fact that many citizens at distant points have taken advantage of the opportunity to buy cans on this basis, in fact, traveling men who reside in Dallas, Fort Worth, Wichita Falls and other points are buying cans for local citizens on this basis and having the canned foods shipped to their homes. If there are others who wish to procure canned corn, peas or other vegetables on this basis they should communicate their wishes to Mr. Mauldin, who will find someone to supply their needs by giving one who will furnish the cans.

To date there has been 113 separate cannings, indicating that many citizens of the community are deriving benefits from the plant.

### Jacksboro Man Is New Manager Here For Produce Firm

Carson Wells of Jacksboro, Texas, has this week been installed as manager here for the Munday Produce Company, and plans to be actively associated with the company here in the future. Mr. Wells has been engaged in the produce business for a number of years at Jacksboro, where he was associated with his father-in-law, and thoroughly understands every phase of the business, and asks that his firm be given an opportunity to figure with you when you sell produce of any kind.

Peter Loran returned Saturday from Falls county and other Central Texas points where he had been in the interest of a certain bagging concern which he represents. He plans to go to Lubbock this week in the interest of the concern.

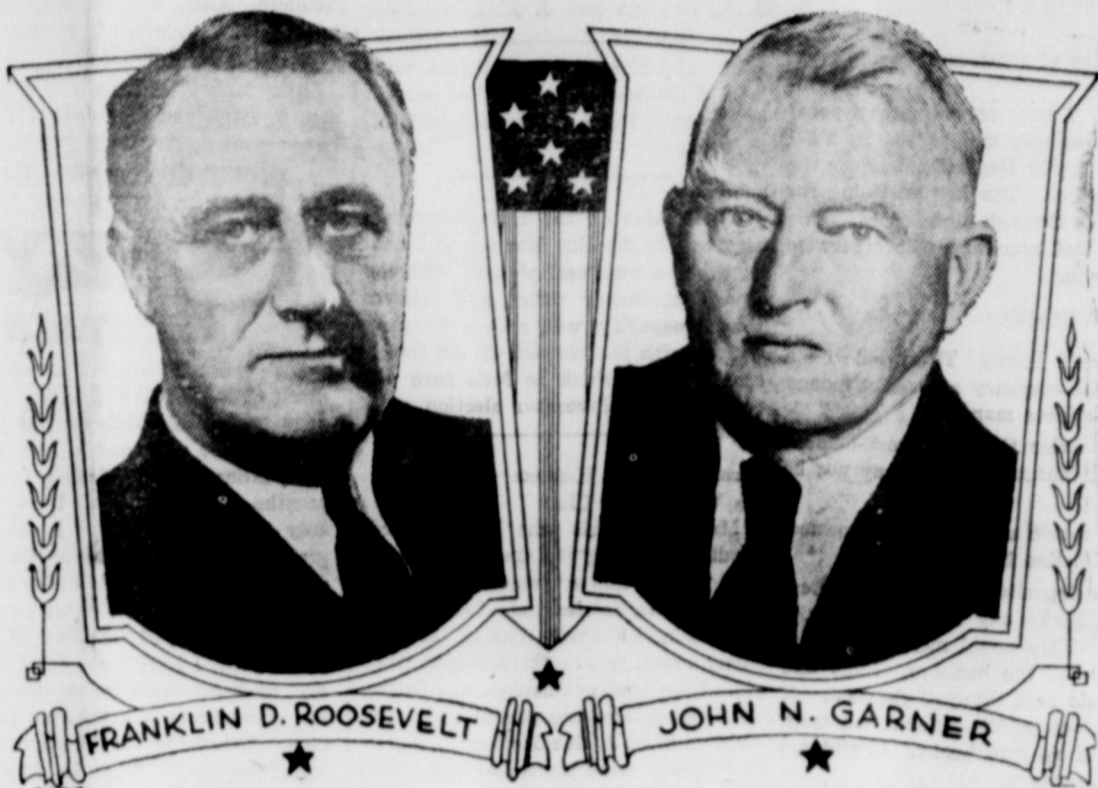

Judge J. W. Melton of Benjamin was here Saturday shaking hands with the voters in this part of the county.

This is just another of the determined efforts the citizens of the Munday country are making to put up all the foods possible and it is safe to say that the citizens of this section will face the coming year with mere food put away than they have ever had before in the history of the country.

Bill Dunwoody of Aspermont was through here on Saturday enroute home from Wichita Falls and stopped for a brief visit with the Times force.

Mr. Dunwoody was for a number of years publisher of the Aspermont Star, but some years ago sold his newspaper plant and entered other business, and is now a candidate for sheriff and tax collector of Stone-wall county, and is making his second campaign for that office.

### Thinking Out Loud

By J. A. K.

It's an awful good thing the Almighty didn't set himself to the task of pleasing everybody when He brings the rains and the sunshine, the winters and summers.

It hasn't been but a few days ago that we heard a fellow say that if it didn't stop raining the farmers would not make a thing. Just yesterday we heard him say that the hot sunshine was literally ruining the cotton because it was so full of sap, so on and so it goes.

We have been meandering around over West Texas for more than twenty years and we have never witnessed a more favorable year than we are having right now for crops, neither have we ever seen more beautiful crops than we have on the Knox prairie.

And with the great lesson the people of this section have learned about living at home, we can see no reason why prosperity isn't just ahead, even if they do elect Mr. Hoover, which is quite unlikely.

But the biggest step that the country can take toward getting back to normalcy is for everybody to quit looking toward Washington or Austin for relief for all their ills, and work out their own individual problems. Of course there are some things that the individual cannot remedy, but we can remedy most of the things that have caused us grief in the past.

When we quit selling maize for \$5.00 per ton one year and buying it back for \$30.00 per ton the next year we will have taken one big step. When we can take thousands of cans of corn at about 3 cents per can and quit paying some Yankee outfit 15 cents a can for it we have taken another long step, and so on down the line. We, of the Knox Prairie should be as near self-sustaining as any people on the face of the globe, and we will be when we learn to conserve and save all that we produce, and we are rapidly learning that important lesson, which will probably be worth as much to us as the depression has cost us.

Folks, let's quit blaming poor old Herbert Hoover and old man Andrew Mellon for all our troubles. Doubtless those birds haven't lost much sleep worrying about the great common herd, but they aren't to blame for all and a live-at-home program will bring us back to prosperity a darn sight quicker than even the Democrats can do it.

And Munday needs a weed-cutting campaign at this very moment. Mosquitoes and flies are going to be a menace to health unless united action is taken to get the weeds cut, so let's not wait for somebody else to start it.

Dee Mulligan and Rogue McGraw and possibly some others cut the weeds (Continued on back page)

### D. R. (Dan) Boone Will Present Claim of Tom F. Hunter

The claims of Tom F. Hunter, Wichita Falls gubernatorial candidate, will be presented to the voters of Knox county here on Saturday evening at 8:00 o'clock by D. R. (Dan) Boone, Wichita attorney, according to information received by the Times club.

According to the information received Mr. Boone has never made a political speech in his life, but like many other citizens of that city, he has interested himself in the candidacy of his fellow-townsmen and will give the citizens a close-up view of Mr. Hunter and his qualifications for making a capable governor.

Arrangements are being made to have the speaking on the city hall lawn, where some seats will be provided and those unable to procure seats may sit on the grass in the cool breeze.

An opportunity will be given all to present their claims to the voters, however, time will be limited in order that the speaker for Mr. Hunter may have an opportunity to present the claim of his candidate.

Reports from over the state indicate that Hunter's chances of going into the runoff are materially improving all along and his friends over the state feel confident now that he will lead the ticket by a substantial figure.

### Munday Fans Help To Maintain Ball Team In Last Half

In order that the Munday team in the Brazos Valley League might be strengthened during the last half of the season, which begins following next Sunday's games, John Ed Jones and Shenay Shubert this week circulated a subscription list among the business concerns and individuals of Munday and secured in contributions \$39.00 toward maintaining the team during July and August. This money will be used in paying traveling expenses of players living away from Munday to the games, and no player will derive any benefits whatsoever from this or any funds accruing to the game.

Those who have contributed toward the fund are: Piggly-Wiggly, M. System, J. A. Kennedy, John Ed Jones, Dick Dresser, Jack McGraw, R. A. Sadler, Roy Aycock, Worth Gafford, Lyle Stodghill, J. Dee McStay, T. E. Dickerson, Roy Easley, U. R. Houser, Fred Brauch, The Economy Store, John Spann Lane's Cash Grocery, The Recall Store, Haney Grocery, Tiner Drug Co., E. H. Bauman, Baker-Campbell Co., Eiland Drug Store, Chas. Haynie, The Fair Store, W. R. Moore, U. G. Richards, Muncie Bros., Guy Rutherford, Grady Thornton, H. F. Barnes, H. C. Haves, Roberts Ice Co., W. W. Potter, Harvey Hill, Farmers Elevator, D. T. Mauldin.

With the lift that has been given Skipper Burton feels that the team can make a good showing during the last half of the season, as there will be less shifting in the line-up, and the team's hitting has been materially brought out by the addition of the new men on the team.

### \$150.00 Appropriated For Purchase of Cans By Commissioners

\$150.00 was appropriated by the Commissioners Court of Knox county this week for the purchase of cans. This appropriation will supplement the appropriation of the Red Cross for a like amount, and the entire amount will be distributed over the county by Mrs. Chas. Moorhouse, county chairman of the Red Cross, and will likely be used along the lines of exchange that has been prevalent in this community, where one half the vegetables canned will be placed with the local Red Cross or other like agency to contribute for the cans used.

Among the out-of-town friends to attend the funeral services for little Mabry Thomas Wilson II here Wednesday were Mr. and Mrs. Fred Warren of Seymour; Mrs. Richard Lane, Stamford; Mrs. Cari Mahan, Abilene; Mrs. R. K. Russell, Winters; Mrs. Mark McWhirter, McAney, and numerous others whose names were not obtained.

Mr. and Mrs. W. E. Jones, County Agent.

TURN ABOUT  
Beverly Hills (Calif.) Citizen: The way lack to prosperity, as we understand some of our economists, is to spend the dollar we haven't got in order that the man who gets it can spend it with us. Reminds us somewhat of the old editor whose paper wasn't paying very well. Somebody asked him how he made it if he could not keep what was coming in equal to what was going out. "See that old man at the printing press? Well, he works for me until I owe him enough for him to take over the shop; then I work for him and get it back again."

### A. H. KING

FOR  
Congressman At Large  
PLACE NO. 3  
Throckmorton, Throckmor-  
ton County

TO THE PEOPLE OF TEXAS:

This announces my candidacy for the office of Congressman at Large, Place Number 3.

I am a farmer and have been all my life. I have served several years in the Texas Legislature. Among the laws introduced and passed by me I mention the following: The law placing the Highway Department under the control of the Legislature as to salaries and budget. The law providing for state payment of tuition for country boys and girls through high school. This law has and will help thousands get a high school education who otherwise would have gone no farther than the eighth grade.

IF ELECTED I SHALL ADVOCATE:

1. The immediate payment of the soldier's bonus. This would be a real relief measure as it would mildly inflate the currency and make money more plentiful and materially help the small business man.
  2. Regulation of the public utilities in order that the stock-holders may get a fair return on their investments and that the people may not be hijacked by unreasonable charges.
  3. Making it unlawful to sell grain or cotton unless actually owned. This would prevent the bear raids and drastic decline in prices.
  4. Requiring all banks to protect their depositors by a fair system of insurance. This would not cost the sound banks any big sum and the people who deposit money want no other kind. This would mean fewer and better banks and the business would be better for the bankers. Runs and busted banks with all the resultant distress would be a thing of the past. If this were done millions of money would come out of the ground, tin cans, fruit jars, pockets and safety deposit boxes and go into banks. Confidence would be restored and business would rapidly become normal again.
  5. Making it unlawful to collect more than eight per cent interest on any note or debt. The time has come when no farmer or business man can give and pay more.
  6. As there are now many millions of men unemployed, I favor a shorter work day and a shorter work week in order that more families may be kept from starvation.
  7. The immediate repeal of the two cent tax on checks and the 1 cent tax on gasoline recently levied by Congress. The tax on checks will cause thousands of people to withdraw their money from banks and some may have to close on this account.
  8. The reduction on Federal salaries, including members of Congress, in proportion to the decline in the cost of living during the last three years. The common sense way to balance a budget is to cut expenses.
  9. The door should be closed to European immigration and the key thrown away.
  10. I say to the farmers: Organized we eat, unorganized we hunger. Organize for protection, information and better prices.
  11. The people have a right to know what the candidates for Congress stand for. Blind voting without investigation is largely the cause of the present governmental troubles. This is not the time to vote for velvet-footed candidates for Congressmen at Large who have done nothing in the past and promise nothing constructive for the future.
- You may not agree with me in all I propose but if you agree in some of the important things I ask your support and promise you honest and faithful service.
- I received more than 300,000 votes for Commissioner of Agriculture in 1930.

A. H. KING,  
Candidate for Congressman at Large, Place No. 3,  
Throckmorton, Throckmorton County, Texas.

## Locals

Miss Francis Jones of Adamana, Arizona, and Miss Waine Pearl Byers of Livingston, New Mexico, are guests of Mrs. L. S. Jones.

E. L. Ballenger of Vernon was here Sunday and was accompanied home by Mrs. Ballenger and baby, who have been visiting in the home of her parents, Dr. and Mrs. Arthur A. Smith.

A delegation of Monday citizens left first of the week for Dallas to attend the State meeting of the Texas Farmers Union. Among those who attended from here were Mr. and Mrs. J. D. Partridge, Joe Koenig, J. B. Bowden, E. L. Bowden and J. E. Edwards.

Mr. and Mrs. Grover Sullivan were here Wednesday to attend the funeral of the infant son of Mr. and Mrs. M. T. Wilson.

Ross Bates of the Heifer community was in the city Monday and stated that he was well pleased with the Roosevelt-Garner ticket and believes that prosperity will return to some degree with the election of the Democratic ticket, which he feels sure will result in the November election.

Mrs. Joe Davis Hostess To Wednesday Club

Mrs. Joe Davis was hostess Wednesday morning to the Wednesday Bridge club and a number of guests. Sweet peas, daisies and other summer flowers added their charm to the living room, where three tables were placed for contract bridge, and in the series of interesting games high score went to Mrs. J. Dee McStay.

A lovely salad plate and food punch was served. Mrs. W. R. Moore, J. Dee McStay, E. B. Davy, T. E. Dickerson, J. A. Kennedy, U. E. Houser, E. H. Bauman, F. S. Broach, H. H. Langford, W. P. Farrington, John Eli Jones and Miss Wanda Langford.

## Funeral Rites For Mabry Thos. Wilson Held Here Wednesday

Funeral services for the infant son of Mr. and Mrs. M. T. Wilson of Munday, Texas, were held Tuesday afternoon at the home of Alex Jones, brother of Mrs. Wilson, with Elder J. E. L. Harrison officiating.

Following the services the remains were laid to rest in the Johnson cemetery.

News of the death came as a great shock to the many friends and relatives of the parents, who grew to manhood and womanhood here. Mrs. Wilson will be remembered here as Miss Clem Jones, a daughter of Mrs. Stanley Jones and a sister of Theodore, Alex, Grover, Edgar and Raymond Jones, who are pioneer residents of this section.

Little Mabry Thomas was born on June 9, 1932, and died July 11, 1932.

### IMPROVED THANKS TO

## CRAZY CRYSTALS

"We want to let you know how much CRAZY CRYSTALS have done for us. My husband has been sick for one year and a half with rheumatism and his father for six months with the same. I was the only one able to work. I was beginning with pains in my knees, then we heard over the radio about CRAZY CRYSTALS, so we got one box. They helped me a lot. I feel better than I have for a long time. My husband feels better than he did when he took boric and medicine. His father is 70 years old, but feels better than he has for three or four winters. We are going to get another box tomorrow."

Instead of bothering with trick guarantees, phony inducements and special deals, smart car owners ask themselves:

Why buy any  
SECOND-CHOICE Tire when  
FIRST-CHOICE costs no more?

Right now you car-owners are "sitting pretty" . . . You can buy more safe, comfortable, trouble-free mileage for a dollar than in any previous summer . . . You don't have to put up with second-choice tires for reasons of economy, because first-choice tires cost you no more! . . . Goodyear Tires—the kind we sell—are first-choice here, throughout the state, throughout the nation, by more than 2 to 1! . . . They outsell all others not because of any trick guarantees, or phony inducements, or special deals, but simply because they give people the biggest money's worth, and people know it! . . . Don't be argued out of the benefits to be had from the leading tires and our service.

## Modern Electric Refrigeration Will Help You Cut Expenses

Acclaimed for its great efficiency, its value as an essential health safeguard, and for the delicious frozen desserts and salads available through its use, modern Electric Refrigeration is a household necessity for yet another important reason . . . the substantial cost savings it will bring you.

With Electric Refrigeration, "left-overs" are not wasted . . . but safely and conveniently preserved for future use in novel and tasty dishes. And in addition to the economies realized in this manner (statistics show that over 10 cents a day is lost by throwing out usable "left-overs"), further savings can be made through the safe refrigeration of "bargain day" quantity purchases . . . through buying larger sizes of canned goods—at a much lower cost per ounce . . . and through the elimination of food-poilage.

These important savings are possible with Electric Refrigeration because the constant low temperature necessary for the safe preservation of perishable foodstuffs is maintained automatically.

Let Electric Refrigeration help you cut expenses. Ask a salesman to show you our new models . . . or see your nearest electrical dealer . . . Today!

Do you know that your increased use of Electric Service is billed on a surprisingly low rate schedule . . . and adds only a small amount to your total bill?

**REVENUE MEASURES.**

That the recently enacted revenue laws will in a large measure fail in their purpose, that of bringing additional revenue to the government, is evidenced by the various methods that have been adopted to evade payment. The two-cent tax on checks will likely fail by many thousands to bring into the coffers of the government what it was estimated to bring. The three-cent postage will likely curtail the sale of postage stamps to a degree that will bring to total derived below that derived for the two-cent letters, and decreased sales on all those things upon which a tax is placed will result in making the depression more acute in many lines, and the government will benefit but little, if any.

Aside from the fact that many who formerly paid their bills by check are now paying by cash, business concerns have found a way to evade the two-cent tax on checks by issuing drafts, which, according to a ruling from governmental channels, are immune from the tax.

According to the Abilene Morning News, two banks in Abilene have given notice to depositors that hereafter they will not mail statements but they may be had by calling for them at the bank. Heretofore these statements have been mailed under the two-cent rate, but none will be mailed under the three-cent rate.

and it is obvious that Uncle Sam will lose money by the change. Under normal conditions the public would have accepted the advanced rates without question, but under present depressed conditions everyone feels that they are justifiable in evading the payment of all taxes possible, and it is likely that the estimates placed upon the revenues from the various sources will be far short.

**Connally Raps Twine Award**

WASHINGTON, July 10.—Postmaster General Walter F. Brown was Saturday accused by Senator Tom Connally of Texas of betraying the cotton farmer of the South and "slapping the face" of Congress through his recent awarding of the Postoffice Department twine contract to the Ludlow Sales Company of Boston, importers of jute products.

Connally declared on the floor of the Senate that the policy of the Postoffice Department defies the spirit and intent of the law. The Texan made his attack after he learned that only this week the department had awarded a contract for \$142,400 to the Ludlow company. The contract calls for 1,600,000 pounds of twine. The Ludlow bid was 8.9 cents a pound while the lowest cotton twine bid, submitted by Granite Falls Manufacturing Company, North Carolina, was 9.15 cents.

Though bids were opened May 5, no award was made until Congress acted on the Postoffice Department appropriation bill. Through efforts of Congressman Olley J. Wilson, Louisiana, and other Southern Congressmen, a clause was inserted in the House bill requiring purchase of articles of "American growth, production and manufacture unless the difference in cost were excessive." When the bill went to conference the word "or" was substituted for "and" making it read "or manufacture."

It was contended that jute twine is manufactured in America and therefore the contract was within the law, though the raw material is produced in India and enters this country practically duty free. The purchasing office of the Postoffice Department today admitted that the difference in cost was not "excessive."

"It is a perfect betrayal of all of the administration's profession that it intends to use articles of growth and manufacture of the United States," Connally declared. "There was a great show of profession some time ago that it was the purpose of the administration and Postoffice De-

partment to encourage the use of articles of growth and manufacture in the United States. Now at a time when agriculture, one of whose chief branches of which is the cotton industry, is suffering a reduction of price, for 75 years, and when the American people are in distress, in the face of an almost obligatory demand of Congress, the Postmaster General finds this one little loop-hole, an infinitesimal hole through which he was able to crawl, and he awarded this contract to a foreign product which gives preference to foreign laborers in India and against the American farmer and producer.

"It is an outrage upon American agriculture and upon the American people and is an absolute snip in the face of the Congress which enacted the statute," Connally told the Senate. He said he had been informed the contract would have made possible the additional consumption of approximately 8,000 bales of cotton, and permitted two small cotton mills to reopen and operate.

**TEXAS RAILROADS PAY SUBSTANTIAL PART OF STATE'S TAX BURDEN**

● Taxes is one of the large fixed charges connected with the operation of Texas railroads. From the standpoint of the welfare of state, counties and communities, railroad taxes are of much importance. This annual obligation must be met from the earning capacity of the rail carriers.

In 1931 the railroads of Texas paid a total of \$8,303,108.47 in federal, state, county, municipal and miscellaneous taxes. The distribution of this amount to the various tax funds is shown below:

	Amount Paid	Per Cent of Total Tax Paid
U. S. Government	\$ 61,270.13	.74
State	1,954,435.47	23.54
County	1,146,669.97	13.81
Roads	1,699,764.15	20.47
Improvement Districts	175,606.87	2.12
Schools	1,437,152.74	17.31
Cities	1,792,994.61	21.59
Miscellaneous	35,214.59	.42
Total	\$8,303,108.47	100.00

It can thus be seen that railroad taxes represent an important and indispensable factor in the economic life of our state. They help in a large measure to pay the expense of our state, county and municipal government, build and maintain highways, pay the cost of drainage and other improvements, and support our schools and educational institutions.

It is the desire of Texas railroads to extend this helpfulness to Texas counties and communities in carrying this heavy burden. However, their ability to meet these obligations as they become due depends upon their ability to earn sufficient revenue with which to pay this and other heavy expenses connected with their operation.

● RAILROADS HAVE ALWAYS SHOULDERED THEIR SHARE OF RESPONSIBILITIES TO THE NATION, THE STATE, AND THE CITIES AND COMMUNITIES THEY SERVE, AND WILL CONTINUE TO DO SO TO THE EXTENT OF THEIR ABILITY.

**EATS ALL HE CAN AND CANS ALL HE CAN'T**

Our good friend, Uncle Andrew Jackson Van Buren Johnson brought us in a couple of cucumbers yesterday, one of which measured exactly 27 inches in length and weighed 3 1/2 pounds. Shortly after Mr. Johnson had brought them in Sied Waheed came into the shop and became interested in them immediately, stating

on the lot adjacent to the Sadler Hamburger emporium the other afternoon, and, believe it or not, they found a nice fat purse concealed in the high weeds. The eight dollars that was in the purse when it was lost had been taken out, but the other papers were intact, and it was returned to Grady Blake, who lost it some days ago.

But who knows but what there are other purses or other things of value concealed in the high weeds around town. It has even been suggested that a number of perfectly good stiffs might be uncovered in the weeds around town, so let's get busy.

And remember it's only one more week until election. The candidates are getting on the anxious seat and you continue there until the vote is counted.

**Veteran Publisher Says Prosperity To Come Thru Farming**  
 (Continued from front page.)

Immediately after Democracy takes over the reins on March 4th, despite the so-called "wet plank."

"Personally speaking," said Hawkins, "I do not want the vote of anyone who can see nothing more to me than the fact that I'm a dry. A fellow who is merely dry or wet, only that and nothing more, would do no real service for this country in congress."

Congressmen should be chosen because of their honesty and capability, rather than on account of their attitude upon any one particular subject," he said. My references include every reputable citizen of Erath County."

**Smallest "Gate"**

Max Schmeling, German defending champion and Jack Sharkey, American challenger, have at least one distinction for their world championship battle at New York, that of having drawn the smallest world title "gate" receipts—since Dempsey and Gibbons at Shelby, Tenn. 5-23.

that they were Serbian cucumbers and the seed were originally imported from his native land, where he states they grow to be four to five feet in length and never get bitter or tough like ordinary cucumbers and make fine pickles.

This canning idea isn't new to Mr. and Mrs. Johnson, who have for a number of years canned large quantities of home-grown vegetables and meats and while they have several hundred cans from last year's canning, they are putting up several hundred cans for the coming year, and on last Saturday Mr. Johnson stated that they had put up 543 quarts of vegetables and were still canning, all of which means that the Johnson household will not be lacking for the necessities of life. In addition to his canned goods Mr. Johnson brings in wheat and trades it for flour at the local mill. Those folks are going to get along and have plenty to eat the year round regardless of the low price of all farm commodities.

Sheriff C. E. Elliott was here on official business Thursday.

**Tourist Printer Rides Bicycle But Doesn't Shave Self**

The foolish question "Do you shave yourself or ride a bicycle?" would naturally come to one's mind upon seeing one J. J. Rodabaugh, tourist printer who visited Munday this week, for he came into town with his long beard floating in the air as he pedaled his way along on a bicycle of pre-war vintage, in fact, he stated that he had

acquired the bicycle some 25 years ago on an advertising contract and it had been his mode of travel since. Rodabaugh carries on the bicycle a complete camping equipment and a banjo, which provides him with diversion as he stops by the roadside and spends the night. With his long beard and the banjo dangling from his shoulder he attracts considerable attention as he travels over the country.

Rodabaugh was formerly engaged in the newspaper business at Collegeport, Texas, near Palsano, but when the town died he was forced to seek employment and took to the road, and has since traveled extensively on his bicycle. At one time he was also editor of a democratic newspaper in Logan county, Kansas, a strong republican district, where he was elected constable on the democratic ticket, but the monotony didn't suit the veteran printer, so he took to his bicycle and the road, and enjoys it.

# Work Weary "NERVES"

Do they make you Restless, Cranky, Tired, Sleepless, Dyspeptic, Head-achy? Do they spoil your pleasure and interfere with your work?

Tens of thousands have found a way to get relief from over-worked nerves—a way so simple, so pleasant, so low in cost, that we are constantly receiving letters that say, "If I had only found Effervescent Nervine Tablets sooner." Simon Brandt writes: "I was very nervous from over-work. I couldn't sleep well, appetite was poor, and I felt weak for a long time. "Used Dr. Miles' Nervine and now feel fifteen years younger and I am working the same as I did before—fourteen to fifteen hours daily. "Sorry I did not learn about this wonderful medicine sooner as I had tried everything I could hear of, without results, until Dr. Miles' Nervine put me back on my feet."

When you are nervous, try this—put a Dr. Miles' Effervescent Nervine Tablet into a glass of water. Watch it bubble up like sparkling spring water—drink it—enjoy the feeling of calm and relaxation that follows.

In Dr. Miles' Effervescent Nervine Tablets a splendid formula for soothing over-taxed nerves is combined with bicarbonate of soda and citric acid which tend to correct hyper-acid—insistent cause of nervousness.
