

Kracker KrumbS

Odd Bits Salvaged
at Random

We've said a number of times, since the advent of the grain combine and the mechanical cotton picker, that the time may come when cotton is harvested in the fields, just like grain. Last Sunday we were attracted by a picture in one of our daily papers of the cotton combine that harvests and gins two rows at a time. And guess who invented the thing—a cowboy!

k-k

That would solve the burrowing problem in Munday, but we imagine it would take a fair-sized cotton crop to pay for the contraption.

k-k

You may be happy to know, we read in looking through some of our "File 13" mail from Washington, that there is again before the Congress of the United States a bill to permit the weekly editor to take a couple of weeks off every year without sacrificing his second-class mailing privilege on the altar of exhaustion." Whew! Hurry up with that bill. We're nearly exhausted, now!

k-k

If we could select our two weeks—with all duties and obligations abandoned for good and forever without recourse—we'd take the two weeks including the deadline date for paying income taxes!

k-k

We, like everybody else in Munday, recently received a bar of soap through the mail. Some kinda expressed offense at the gross insinuation that they needed a bath, but not us. We crawled into the bath tub one evening, reached into the soap dish and came up with this new bar. We came out of the tub feeling as clean as a hound's tooth, as slick as a bowl of okra, and smelling like a petunia at a Christmas ball.

k-k

Trouble with this bar, like most other brands, it just wears out too quickly. Like a Methodist preacher said in a revival here several years ago, "You don't use up soap in this Munday water—your just wear it out."

k-k

This column doesn't want to get in the habit of correcting errors, but there's one we forgot last week. In a recent announcement of Pete Beecher's resignation at the Goree post office, we stated Mrs. Bobbie Chamberlain was conducting the affairs as "acting postmaster." Mrs. Chamberlain is not acting postmaster, but postal clerk.

k-k

That old drouth that's been sticking his nasty head into our affairs for several years is getting to be a puny looking specimen in these parts, although he's pretty vicious in other parts of the state. That .70 of an inch we received early Saturday morning was "bad medicine" for Mr. Drouth!

k-k

"Of Cabbages and Kings," we believe, is the name of a story we were familiar with in our school days. And from the amount of cabbage plants being placed in the ground during the past week, we might do well to dig up that story and familiarize ourself with it again. Reports now are that the cabbage may occupy a space of over 100 acres on farms of the Munday area.

k-k

The "Feeding of the Multitude" was re-enacted here in Munday on a smaller scale on Tuesday of last week. A group of McMurry faculty and students were going to Seymour for the Davidson funeral. It was learned they would be in Munday at the noon hour, and a local couple started preparing on short notice to feed them at the Methodist Church. When the group, thought to be small at first, reached almost 75, volunteer help was solicited and all were fed. Sunday, the pastor read a letter of appreciation to the church, and especially to Mr. and Mrs. Oscar Spann, for their thoughtfulness.

k-k

Now that Jeff Mitchell has his cafe open, he's thinking of advertising his bed for sale—says he likely won't have time to sleep any more! An interesting picture in connection with the new cafe is one of Mrs. Mitchell's father, the late J. D. Mounce, and his lively stable back in the early days of Throckmorton. Reminded us of Munday's Golden Jubilee.

City Grill's Open House To Be On Saturday

Mr. and Mrs. Jeff Mitchell have announced that open house for the City Grill, their new cafe in Munday, will be held all day Saturday, March 9, and they invite the public to visit their new place and inspect the new fixtures and equipment.

The City Grill, which opened for business Thursday morning, will serve free coffee and doughnuts to all visitors Saturday.

Everything is entirely new, except the name, under which the Mitchells operated in Munday several years ago. The building has been remodeled and redecorated, new counters were constructed and new booths and equipment installed throughout.

"We have returned to Munday to serve you in every way possible in the cafe business," the Mitchells stated, "and we invite your patronage and good will."

Oil Activities

Several recent completions were reported for the Munday area this week. They are:

Manatee Oil Co. of Wichita Falls No. 2 J. W. Gaither, 1½ miles southwest of Munday, for a daily pumping potential of 100 barrels of 40 gravity oil per day.

Completions in the Voss (Tannehill) Field included: Lomax and Maxwell of Dallas No. 8 J. Johnson, which pumped 52 barrels of oil per day from pay perforated at 1968-76 feet; Youngblood and Youngblood of Oklahoma City No. 1 J. E. Nelson, two miles west of Munday, which flowed 46.4 barrels of 35 gravity oil per day from perforations at 1950-55 feet, and McMahon-Bullington Drilling Co. No. 1 Clyde Yost, two miles northwest of Munday, which had a daily pumping potential of 48 barrels of 36 gravity crude per day from pay perforated at 1924-41 feet.

GMJ Oil Company of Burk Burnett has staked 2,300-foot tests, 6½ miles northwest of Munday. They are No. 1 C. G. Yost, No. 1 S. E. Williamson and No. 1 J. Wilde.

Six new drilling projects were announced last week for oil fields in Knox County.

Glenn W. Cooper of Seymour staked No. 1 E. Golden as a 2000-foot rotary project three miles east of Goree.

In the Murdock Area four miles north Goree, Shell Oil Co. spotted No. 1 Truman Winchester as a 1900-foot rotary project.

Darnell Oil Co., Inc., et al. of Lubbock staked No. 1 R. V. Robinson et al. at a 2100-foot rotary project in the Voss (Tannehill) Field, three northwest of Munday.

McMahon Bullington Drilling Co. of Wichita Falls staked three locations on the A. J. V. Johnson lease, two miles northwest of Munday, all slated for 2,500 feet. They are No. 4, No. 5 and No. 6 Johnson.

Nortex Oil and Gas Corp staked five 2000-foot wildcats last Thursday in the area one-half mile north of Munday. They are: No. 1 H. B. Douglas, No. 5 Mrs. I. M. Douglas, No. 6 and No. 7 Mrs. Douglas and No. 1 Mrs. Ruby Foster.

Corvette Oil Co. of Fort Worth No. 1 J. J. Foshess is a 2500-foot wildcat three miles northeast of Knox City.

TO AIRCRAFT SCHOOL

Mr. and Mrs. M. H. Dean received word this week that their son, M. H. Dean Jr. of Keller, was in New York where he is attending school. He was flown there March 1, by Consolidated Air Craft of Fort Worth and will attend their school for two months. He has been employed with Consolidated for 16 years.

MRS. MAURyce BLACKLOCK

DR. J. L. BUFORD

MRS. ELSIE PARNELL

OTHER TEACHERS — Taking part in the 16th annual convention of Oilbelt District 7, Texas State Teachers Association, on Friday and Saturday at Vernon are: Mrs. Mauryce Blacklock of Munday, president of the Knox County unit, who will be a plat-

form guest at Friday evening's session; Mrs. Elsie Parnell, immediate past president of the Oilbelt Association, and Dr. J. L. Buford, superintendent of Mount Vernon, Ill., schools, who will be the principal speaker at 10 a. m. Friday.

Munday schools and others of Knox County will be closed Friday, and all teachers will attend the convention.

Knox County Hospital Notes

Patients in the hospital Monday, February 25:

Mrs. Bill Thomas, Knox City; T. C. Bevel, Rochester; O. O. Putnam, Munday; Bany Kenneth Reneau, Munday; Lee Denning, Benjamin; Charlene Denning, Benjamin; Riley Bell, Munday; Mrs. Ross Mac Oliver, Knox City; Mrs. Betty Walker, Rochester; Gaylon Watkins, Knox City; J. L. West, Munday; Mrs. Lucy Day, Knox City; Mrs. Rebecca Kilcrease, Benjamin; Mrs. James N. Smith, Munday; Jim Tidwell, Knox City and Pete Rocha, Knox City.

Patients dismissed since Monday, February 25:

J. W. Cowan, Goree; G. Pruitt, Munday; T. D. Cummings, Knox City; Mrs. Bertha Perry, Knox City; Mrs. Victor Contares, Knox City; Mrs. Jimmy Morrow and Baby, Rochester; Mrs. Andy Wilfong and Baby, Abernathy; Billy Gene Johnston, Knox City; Clyde Smith; Knox City; Mrs. Howard Thompson, Munday; Buddy Angle, Knox City; Mrs. J. F. Dinnam, Knox City; Mrs. Horace Edwards, Knox City; Mrs. O. I. Tibbets, Rochester; Mrs. Rhodes Allen and Baby, Munday; Teresa Lynn Hodges, O'Brien; M. G. Nix, Munday; Danny Pose, Rochester and J. V. Hawley, O'Brien.

Births:
Mr. and Mrs. Andy Wilfong, Abernathy, a son; Mr. and Mrs. Jimmy Morrow, Rochester, a daughter; Mr. and Mrs. Victor Contares, Knox City, a daughter and Mr. and Mrs. Rhodes Allen, Munday, a son.

Clothing Leaders Study Patterns

Clothing leaders studied pattern selection and alteration when they met Monday morning, February 25 in the assembly room of the courthouse in Benjamin. They have been selected by their home demonstration clubs to conduct a series of workshops in their communities. Each leader expects to teach from two to six other women who are interested in the problems of clothing construction.

A study was made of the different ways of determining the necessary pattern alteration before cutting a garment and patterns were checked by each individual.

Those attending were Mrs. J. G. Adock, Truscott; Mrs. Bill Dodd, Benjamin; Mrs. L. D. Allen and Mrs. Fred Wiles, Vera.

Attend Teachers' Meet In Haskell

Around 200 school representatives from 23 counties of this area met Wednesday night of last week in the school auditorium in Haskell to discuss pending legislation affecting schools and the teaching profession.

Most of those present were members of the legislative committee of the Oil Belt District, Texas State Teachers Association. Attending from Munday were Mrs. Mauryce Blacklock, Miss Juanita Smiley, Joe Canafax, C. C. Brown, Jack McCall and Supt. W. C. Cox.

CABBAGE, TOO—Herbert Partidge is shown holding a basket of cabbage plants above as transplanting of this vegetable got underway Wednesday, February 27, at the Doris Dickerson farm west of Munday. Workers are shown

separating the slips before they are placed in the transplanting machine. Jack Idol of Benjamin is shown standing in back watching operations. Between 75 and 100 acres of cabbage will be grown on irrigated tracts this year, it was stated.

Mogulettes Drop Bi-District Game To Bridgeport In Overtime Period Monday

The Munday Mogulettes maintained a lead during most of the game, only to see the bi-district title snatched from their grasp last Monday night when the Bridgeport cagers defeated them by the slim margin of 44 to 43 in an overtime period.

Joyce Haney fired in two quick layups for the victors in a two-minute overtime period. More than 500 frenzied fans witnessed the thrilling contest.

The Munday girls speed to a 22 to 14 lead at halftime on the

fine shooting of Margaret Yandell, but Bridgeport rallied after the intermission to know the score, 40 to 40, at the end of regulation play.

Haney sprang loose under the basket for two crisp shots in the overtime, offsetting the three points scored by Yandell, and the game was over.

Yandell led all scores with 32 points, while Haney notched 28—all field goals—for Bridgeport.

Bridgeport girls will enter the regional tournament at Denton on Friday and Saturday.

Munday's girls finished the season with 20 wins and five losses, while Bridgeport had a 28.5 season record.

Spelling Bee Set March 23

The Knox County spelling bee will be held at the elementary school in Knox City at 10 a. m. Saturday, March 23, Merick McGaughey, county superintendent, announced this week.

Each school is to select one contestant, whose name should be in the county superintendent's office by March 18.

The county winner will compete in the district contest in Wichita Falls on April 20, and the winner of the district will be eligible to compete in the national contest at Washington, D. C. on June 6.

Rules in the contest will be announced later, McGaughey said. Counties comprising the district are: Archer, Baylor, Foard, Knox, Hardeman, Cottle, Young, Montague, Jack, Wilbarger, Haskell and Wichita, in Texas, and Jefferson, Cotton, Jackson and Tillman, in Oklahoma.

RECEIVES DISCHARGE

Don Johnson, son of Mr. and Mrs. Wylie B. Johnson, received his discharge from the U. S. Navy on January 29, 1957, after serving four years, most of which time he was a machinist repairman aboard the USS Dixie. Don is now employed by Gas Electric in San Diego, Calif. and his wife is employed at the Grossmont Hospital in La Mesa, Calif.

Free Polio Vaccine To Be Given To County People Up To 20 Years Of Age

At a meeting of doctors of Knox County in February, it was decided to try to vaccinate everyone between the ages of six months and 20 years against polio, it was announced Wednesday by Dr. D. C. Eiland, county health officer.

The inoculations will be given free of charge through the facil-

ities of the Knox County Hospital and with such volunteer help as may be required. The vaccine will be furnished free by the State Health Department, Dr. Eiland said, and doctors and nurses will also give their time free.

This county-wide move is expected to go far toward keeping down attacks of polio among the residents.

Written permission from parents will be required before the child is vaccinated. This permission will be requested ahead of the dates set for giving the polio shots.

Dates for the inoculation for various communities of the county will be announced later, Dr. Eiland advised.

Tax Collector To Issue Car Tags

John A. Smith, tax assessor and collector, this week announces his schedule for visiting communities of Knox County for the purpose of issuing 1957 license tags.

"We are making these visits," he said, "for the convenience of those who wish to register their cars without making a trip to Benjamin. We ask that you bring your 1957 registration receipt and certificate of title when you come to register."

The schedule of his visits is as follows:

Monday, March 11: Truscott in the morning and Gilliland in the afternoon; Tuesday, March 13, Knox City; Wednesday, March 14, Goree and Friday, March 15, Munday.

Last Rites For I. L. West, 88, Are Held On Tuesday

I. L. West, 88, resident of Knox County for over 40 years, passed away at 9:50 p. m. Sunday in the Knox County Hospital. He had been seriously ill for the past three weeks.

Mr. West was born November 17, 1868, in Tennessee and was 88 years, 3 months and 7 days of age. He came to Texas as a small boy, settling at Weatherford, Parker County.

He moved to a farm near Munday in August, 1916, and was engaged in farming for many years. He was married to Mary Loftis on February 6, 1887, and the couple recently observed their 70th wedding anniversary.

Funeral services were held at 2:30 p. m. Tuesday from the First Baptist Church in Munday with Rev. Jimmy Dobbs, pastor of Hillside Baptist Church of Weatherford, officiating. He was assisted by Rev. Alton West, pastor of Pool Baptist Church near Meadow.

Burial was in the Goree Cemetery under the direction of McCauley Funeral Home.

Survivors include his wife; two daughters, Mrs. A. A. Clark of Dallas and Miss Lennie West of Munday; four sons, M. B. West of Long Beach, Calif.; H. V. West of Meadow, L. H. West of Weatherford and W. D. West of Seymour; 32 grandchildren and 29 great-grandchildren.

Three File For City Council

Three names have been filed for places on the City Council to take the places of the three whose terms expire, according to E. W. Harrell, city secretary.

The deadline for filing was Saturday, March 2, it was stated. The three whose names will appear on the ballots are: J. B. Scott, Ralph Cybert and Don Wardlaw. Councilmen whose terms expire in April are: Gene W. Harrell, J. E. Reeves, Jr., and J. W. Massey.

Pastor Attends Willson Lectures

Rev. J. F. Michael, pastor of the Munday Methodist Church, and Mrs. Michael left Tuesday for Abilene to attend a portion of the Willson Lectures at McMurry College, then on to San Angelo to visit Mrs. Michael's father.

Rev. Michael announced that regular services will be held at the local church Sunday, with Rev. J. W. Baughman of Goree preaching at the morning services and Rev. E. L. Hill of Munday conducting the evening services at 7 p. m.

Munday To Name Three Trustees

Three trustees for the Munday Independent School District will be named in the trustee election to be held Saturday, April 6, it was announced this week by W. C. Cox, superintendent.

One new trustee will be elected to fill the unexpired term of Travis Lee, who resigned; and the other two will take the places of Gene Thompson and J. T. Offutt, whose terms expire this year.

The election will be held in the city hall at Munday, and 5 p. m. Wednesday, March 20, has been set as the deadline for filing. Any qualified voter may file for a place on the ballot by filing in the required form, which may be secured by contacting Harvey Lee at the school building.

Judging Contests On Land, Grasses Slated For Area

The Wichita-Brazos Soil Conservation District is to sponsor FFA and 4-H Club land and grass judging contests, Saturday, March 16th.

Knowing grasses is like knowing livestock, it is a fundamental part of the business of ranching. All grasses are not the same. Some are heavy forage producers and others are not. Some make most of their growth in winter, others in summer. Some are liked by livestock and others are not. These are some of the characteristics of grasses the boys will be identifying in the contest.

Grasses to be used in the contest will be ones that are commonly found in the district. The plants will be mounted on cardboard and the boys will be given 45 seconds to identify each plant and check whether it is an annual or perennial, cool season or warm season, native or introduced, and whether it is good, fair, or poor grazing.

The land judging will be conducted in the field. The boys will identify each site selected according to the depth, texture and permeability or the capacity of the soil to transmit water and air. After these are determined, the boys will identify the site into a slope and erosion class. From this information the boys are able to determine the land capability class for the site selected. The next step the boys will select the proper land treatments needed to conserve soil and water and maintain or improve productivity.

District supervisors believe that by holding contests such as these, that it will help to better prepare the ones who are to be the farmers and ranchers of tomorrow.

Six Candidates In Knox City Races

Six candidates have filed for office in the city election at Knox City for April 2.

Barney Arnold, mayor for the past two years who is seeking re-election, is opposed by Otis Harbert, hotel man.

In the aldermen's race, Ottis Cash and Russell Boyd have announced for re-election. They will be opposed by Vaughn Grubben and W. P. White.

MOVE TO LUBBOCK

Mr. and Mrs. S. E. Brown left last Saturday for Lubbock where they will make their future home. Mr. Brown will be employed with the Paymaster Gin there.

RESEARCH FOR THE FARMER

Research is at the heart of American industrial progress. Huge sums are spent on it each year, and marvelous fruits result. And the farm equipment industry, to the ever-lasting benefit of agriculture, has been one of the leaders in this field.

The president of one of the equipment companies reports in 1956, after allowing for change in the value of the dollar, his concern's spending for research was 2,470 per cent greater than at the start of World War I. Figures for the industry as a whole are not available, but this is believed to be indicative of the general trend.

Research, he went on, takes several directions. It is used to produce developments the farmer himself says he wants or needs. It is used to find "what the farmer wants in farm equipment before he knows, himself, that he wants it." It is used to keep abreast of a rapidly changing market in the farm field itself—as exemplified by the fact that farms have declined in number even as they have increased in size. Finally, still another reason for expanded research is covered by one word, and that word is competition. As this executive put it, "The object is not only to make progress, but, whenever possible, to make it first before competitors."

Between 1940 and 1956 agriculture's investment in machinery jumped 360 per cent, measured in dollars of constant value. And the machines get better all the time.

THE CAPACITY OF THE STATES

An all-out campaign is on to persuade Congress to give huge grants to the states for school construction, on the theory that the states are incapable of meeting the need.

Yet in December, 1955, the White House Conference on Education, which was the largest and most representative gathering of its kind we have yet known, reported: "No state represented has a demonstrated financial incapacity to build the schools it will need in the next five years."

BAY CITY, MICH., VALLEY FARMER: "... 'Big Business' is not the predatory monster that the 'Hate-Big-Business' zealots would have us believe. As a matter of fact, the weight of evidence tends to prove that 'Small Business' is really helped by its big brother—that both are essential cogs in our American production machinery."

A LOCAL BUSINESS

Ever since the federal minimum wage law came into being, certain service enterprises, retailing among them, have been exempted. Periodically efforts have been made to extend the law to retailing, and that is the case again this year.

The reasons for the retail exemption are sound, and nothing has happened to change the situation. For one thing, retailing is a local business, governed by local needs and conditions—including local living costs. It is obvious that a blanket law, covering the great cities and the little towns indiscriminately, cannot be just to all.

For another thing, retailing is a business which can provide jobs and training for marginal workers whose value is very small. If a high federal minimum wage is imposed by law, retailers will have no choice—they will pare that kind of employment to the bone. Then beginners will look in vain for the jobs which would help prepare them for future positions requiring skills and offering good pay.

It has been proposed that the minimum wage law be extended to cover only the larger retailers, such as the chains. But this begs the issue. For, to repeat, retailing is a 100 per cent local business—and an outlet of the biggest chain must still compete on the local level, and adapt its operations to local conditions in every respect.

Congress, recognizing such facts as these, has always refused to eliminate the retail exemption. In that, it has set an excellent precedent for the present and future.

STAGGERING PROSPECT

U. S. News & World Report points out that, under the proposed new budget, \$14 billion a year will be spent for welfare activities—as against \$3.2 billion 10 years ago. And that doesn't count the programs for aiding veterans and farmers which, together, will come to \$10.5 billion more.

This is the situation in an era of record employment, record incomes, and a record gross national product. What would happen if there were even a moderate down-turn in business activity and a consequent drop in tax revenues? The prospect is staggering.

BEAVER FALLS, PA., NEWS-TRIBUNE: "With literary standards what they are in some circles today it's difficult to know whether to wash Johnny's mouth out with soap when he picks up bad words, or to buy him a typewriter."

MODERN HOMEMAKING

Recipes . . . Household Helps

By Julia Hunter

HOME ECONOMICS DIRECTOR, LONE STAR GAS CO.

Woe is he who misses breakfast, for nutritionists agree breakfast is essential to a balanced diet. With a breakfast that supplies 1/3 to 1/2 the day's calories and nutrients, you will have a better day. Extensive studies have definitely proved that skipping

breakfast means less work output, decreased mental alertness and fatigue. This applies to adults and children. From the evening meal until breakfast time is usually 12 hours, a long period without food, so to perform efficiently the body needs refueling.

If you are counting calories to take off a few pounds, be sure to include breakfast in the day's meals. A good breakfast is the key to a successful reducing plan. The food you eat at breakfast is used efficiently and you are not as apt to store it as fat. Eat breakfast and you are not inclined to indulge in between-meal snacks or to overeat at the other two meals of the day.

Add interest to breakfast by adding variety. Make it a looked-forward-to meal. Breakfast eggs don't have to be fried or scrambled. Try them poached, baked, creamed, whipped into a fluffy omelet or gently simmered in their shells. While it is hard to improve on the combination, eggs don't have to be served with bacon, ham or sausage. Corned beef hash, Canadian bacon and deviled ham take well to eggs. For an occasional treat, split English muffins, toast the cut side, then spread with one or two tablespoons deviled ham and top with a poached egg.

Cereal can take on a new dress in a matter of seconds. Just before cooked cereal is ready for serving, stir in raisins or finely cut dried apricots, peaches, prunes or figs. Try brown sugar or mix a little nutmeg and cinnamon with the white sugar sprinkled on cooked cereal. If you haven't served cooked cereal a la mode, you are missing something. The ice cream does wonders for a child's breakfast interest.

A scoop of applesauce on corn flakes gives a delicious flavor as do cooked apple slices on crisp cereal. Make the apple slices pink and pretty by adding a cinnamon candy or two when they are cooking.

Just varying the bread in a standard breakfast menu gives a seemingly complete change. Cinnamon fingers are attractive and are nothing more than white, whole wheat or raisin bread toasted, spread with butter or margarine, sprinkled with sugar and cinnamon, broiled until the sugar melts, then cut in three strips.

For quickie jelly roll, split ham-

Attack Warning Net Now 'First Line'

Twentieth Century Paul Reveres may some day play a vital part in saving your life and that of the nation just as the original Reveres' timely warning helped preserve the life of the American Colonies.

In this age of nuclear weapons, intercontinental bombers and some day, perhaps, long-range guided missiles, hours and even minutes of attack warning time can be of vital importance.

AN ARMY of professionals and volunteers man the radars, scan the skies and operate the military and civil defense circuits to pass along word of danger. They range from scattered outposts in northern Canada and radar picket ships far at sea to the man who sounds your home town air alarm.

This network is tested constantly, both in the Air Force phase of initial warning, and the civil defense phase of spreading the warning from air defense division control centers to the general public.

In a very real and personal sense, this warning system is the first line of defense for every American as he goes about his daily life under the threat of ever-possible attack.

Week end guests in the home of Mr. and Mrs. Joe Pierce were Mr. and Mrs. Tony Hawkins of Graham, Mr. and Mrs. Lush Jungman and children of Aspermont and Art Jungman of Knox City.

 America's "hot" car
 —officially!*

Chevrolet Wins Coveted Manufacturers' Trophy at Daytona Beach as "best performing U. S. automobile!"

Want facts about performance? Then look at the official figures from NASCAR's* internationally famous Daytona Beach competition for stock cars. Here's what you'll find: Chevrolet, in two weeks of blistering competition, proved itself as America's Number One performance car. Nothing in the low-price field could touch it.

No other car, regardless of price, scored such a sweep. And Chevy walked away with the famous Manufacturers' Trophy, hands down! The 1957 Chevrolet is, by all odds, the most astonishing performer ever produced in the low-price field. Best of all, this superiority isn't limited to just a few extra-cost high-performance models. Every type of Chevy—from the six-cylinder models right up to the 283-horsepower "Super Turbo-Fire" V8's, from the single-carburetor V8's with Powerglide to the stick-shift "270's"—is a championship car. *National Association for Stock Car Auto Racing.

Agriculture
Released by
The Texas Department of Agriculture

By John C. White, Commissioner

Protecting Our Parity Formula

The parity formula may be in trouble. A plan by Secretary of Agriculture Ezra Benson to "improve" the present means of establishing fair prices for farm products is expected to meet with heated debate in Congress.

The present plan establishes the same purchasing power for farm commodities which they had in the years 1910-1914 when prices paid and received by farmers were considered in good balance. This base period ratio is adjusted

to reflect average price relationships over the most recent 10 year period.

Benson's recommendation, submitted in a report to congress would change the selected base period to the years 1947-56 in figuring the ratio. This would enable Benson to lower price supports without actually lowering percentages of parity rates.

The wider, more recent base period would involve a complete change which finally would be down to this: an over-all two per cent reduction in price supports.

DISCUSS RESEARCH—Two Texas farmers are shown discussing the need for an expanded agricultural research program in Texas with Gov. Price Daniel (right).

They are B. J. Gist (left) stockman and cotton farmer of Abilene, and Loys Barbour, grain and hog farmer of Iowa Park. Barbour is secretary and treasurer of the Texas Farm Bureau, and Gist is a director in the organization. The TFB is seeking an appropriation of \$10.5 million for agricultural research in Texas over the next two years.

The 1947-56 period is one in which agricultural prices fluctuated widely. It reflects changes in administrations and in farm programs.

If Congress keeps this in mind, which it undoubtedly will, this plan is very unlikely for the law books.

Land which has been placed in the Soil Bank, either the Acreage Reserve or Conservation Reserve, is still eligible for Federal cost-sharing in carrying out practices under the Agricultural Conservation Program (ACP). County ASC committees can supply information on the practices available in your county.

IT'S THE LAW
in Texas
A public service from the State Bar of Texas

HANDLES

Not until the Fifteenth century did Europeans put much stock in last names. Most had none. If need be, they used their given names, and now and then their fathers' given names (like John John's son) or their home towns' or neighborhoods' (like Thomas of Aquinas).

But mostly they went by their given or baptismal names. Some churches today still call their members by their first names (Sister Joan and Brother Albert) like royalty (e. g. Queen Elizabeth). In certain European countries you can register a child's name if it is, one of an approved list. High nobility goes by its last name (de Medici, Marlborough), but knights take their given names (Sir Winston).

Since people had little property interests in their last names, English and American law gave them little or no protection. Trade names, of course, are another matter.

But in France and Germany the law gives one a property interest in his name; you may get a court to keep somebody from

adopting your name by showing it would harm you. But not as a rule in America or England.

For instance, on the ground that by his writing he had earned a property right in his name, Samuel Clemens (Mark Twain) once sued a man for printing a work called "Sketches by Mark Twain." But the court ruled that Mark had no sole right to use either his own or his pen name, except on his own books.

As a rule you can change your name at will even without going to court.

But a court action to change your name puts the public officially on notice that you have a new one, and it saves you endless trouble in collecting debts, indentifying yourself, getting credit, inheriting property, selling your home, getting insurance, Social Security Benefits, etc.

Some people change their names too much for their own good by using nicknames, middle names, and various ways of spelling the same name. It may cost real money to prove that John Jacob Smith is the same as Jack Smith, Jake Smith, J. J. Smith, or J. Jake Smythe.

Decide on a good name to put on legal papers, checks, contracts, auto licenses. Stick with it unless you have good reason to change it.

(This column, based on Federal law and prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

This built-in regulator is a tiny maze of nerve cells in the mid-brain. If the day is hot, it reroutes blood from internal organs to skin capillaries, diluting the flow with fluids drawn from skin and muscle tissue and from the liver. Sweat glands on skin surfaces dilate and exude perspiration. Body temperature is reduced by the dilution of blood and exudation of sweat. When the sweat evaporates your skin cools off.

If the day is cold the thermostat concentrates the blood and diminishes the flow through skin capillaries. Sweating is minimal and the blood coarses through internal organs deep within the body. Result: you feel cold and have to put on a coat or an extra blanket to stay comfortable.

As a fact of human physiology, body temperature of warm-blooded animals remains unchanged at 98.6 degrees, even though the air temperature might vary from zero to over 100 degrees.

Provided the air is perfectly dry, a man can maintain normal temperature in an atmosphere that will actually grill a beefsteak. There are experimental cases on record where human subjects, by drinking great quantities of water to sustain perspiration and stripping to the waist to facilitate evaporation, have withstood temperatures up to 260 degrees for extended periods without ill effects.

But the subjects would be in serious trouble if they tried to endure 120-degrees in a damp, humid atmosphere. Sweat evaporation is influenced by the extent to which the atmosphere is already saturated with moisture. In high humidity sweat merely drips from the skin and in no way increases heat loss.

As a Texan, accustomed to hot weather, you are probably most comfortable when the humidity is about 65 per cent—that is, when the air is 65 per cent saturated.

The fatter a person is the better he can withstand cold. Fat acts as a blanket. Conversely, fat people suffer more in hot weather.

And if you're a man you're more susceptible to cold than your wife. You both have insulating layers of fat but hers is naturally thicker. Therefore, while it may be socially gallant it is physiologically foolish to relinquish your coat to your wrapless lady when you are both caught out in the cold. You need it worse than she does.

Weekly Health LETTER

Issued by Henry A. Hollis, M. D., State Health Officer of Texas

AUSTIN—If you think you can't do anything about the weather you're dead wrong. Ask the State Health Department. They'll tell you all of us, assuming normalcy, are constantly doing something about it.

We are all equipped with our own private thermostat. When atmospheric temperatures rise or fall from the 98.6 degrees which is normal body temperature, the thermostat goes into action.

"Let us show you!
**YOU'VE NEVER SEEN
SO MUCH FORD...**

even in our lowest-priced models!"

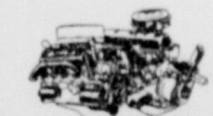

The Custom Tudor... over 16 elegant feet of spacious sedan

WHATEVER YOU WANT, YOU CAN GET IN A NEW '57 FORD

Take your pick of 2 big sizes

Ford's longer, lower cars come in two big sizes this year — over 16 feet long for Customs, over 17 feet for Fairlanes. With 21 fine models to choose from—including five longer, heavier station wagons, it's easy to pick the model right for you!

Choose your power

You get mightier, more responsive performance no matter which new Ford engine you choose—the savingful Mileage Maker Six, most powerful six of them all, or one of Ford's dynamic V-8's with horsepower ranging all the way to 300 in the Thunderbird 312 Supercharged V-8!

You get an all-new Inner Ford

Ford's new clear through this year... with a completely new "Inner Ford" that's heavier, stronger... with extra quality in every inch. New suspensions, front and rear, new insulation—the most in Ford's field—are designed to give you the smoothest, quietest ride ever in a car priced so low.

Let this be your year to own the finest low-priced car ever built!

Miss Janice Herring And James Albus Marry in Recent Rites At Rhineland

Miss Janice Herring, daughter of Mr. and Mrs. C. H. Herring of Rhineland, became the bride of James Albus, son of Mr. and Mrs. Peter Albus, on February 9, at St. Joseph's Catholic Church. The Rev. John Walbe officiated at the double ring ceremony.

The altar of the church was banked with arrangements of white gladioli.

Miss Arleda Moore, cousin of the groom, attended the bride as maid of honor. Other bridal attendants were Miss Mary Janelle Albus and Miss Linda Carol Kuehler, both cousins of the groom.

Rheinart Albus of Pep, cousin of the groom, served as best man. Groomsmen were Clarence Herring, Jr., brother of the bride, and Howard Herring of Roswell, N. M., cousin of the bride.

Vickie Ann Jungman, cousin of the bride, was flower girl and Rickie Herring, brother of the bride, was ring bearer. Ushers were William Hertel and A. J. Kuehler.

The bride was given in marriage by her father. Her floor length gown was of silk alencon lace and white tulle over taffeta. The model was fashioned with a fitted bodice featuring a scalloped neckline outlined with sequins and long sleeves pointed over the hands. The bride's finger tip veil of imported illusion was caught to a shell pillbox of lace encrusted with seed pearls and sequins. She carried a cascade bouquet of white carnations over a mother of pearl prayer book.

All attendants were attired in identically designed bouffant models of peacock blue crystal.

Vera H. D. Club Meets February 26 With Mrs. Hardin

At the regular meeting of the Vera Home Demonstration Club on Feb. 26th at the home of Mrs. Grady Hardin, plans were discussed by clothing leaders, Mrs. L. D. Allen and Fred Wiles for a course in dressmaking and fitting.

Sewing sessions using new methods of fitting and adjusting patterns are planned by eighteen members. Two groups were formed and these will have three lessons directed by the clothing leaders and their helpers. Those with fitting problems will find these sessions instructive.

Mrs. Grady Hardin presided. Mrs. L. D. Allen led in prayer. "No One Cares for Me Like Jesus" was sung by Mrs. Bobby Robertson and Mrs. J. A. Fuller accompanied by Mrs. L. W. McGuire. Mrs. Gaylon Scott of the Consumer Education Committee gave a report on surplus canned corn and other products that can be bought at a saving.

We had two visitors, Mrs. K. B. Richie and Mrs. J. O. Archer. Refreshments were served by hostesses Mrs. Hardin, and Mrs. Bill Feemster to the following: Mesdames: Mike Albus, Allen, Fuller, Levoyn Kinnibrugh, McGuire, Loran Patterson, Clelan Russell, Scott, Wiles, Maurice Hughes, Earnest Beck, Jr., Richie, Archer, Claudell Bratcher and Roberson.

On Tuesday, March 12th at 2 p. m. club will meet at the American Legion Building in Vera.

lite and carried colonial bouquets of pink carnations.

A reception followed immediately after the ceremony in the Rhineland Parish Hall. The bride's table was laid with lace over white. A three tiered cake centered the table. Appointments were crystal and silver. The cake was served by Mrs. Lawrence Holcub, sister of the bride, punch by Mrs. Ray Harlan, sister of the groom, and the coffee by Mrs. Larry Kuehler. Miss Glynda Mae Herring, sister of the bride, registered the guests.

Mr. and Mrs. Albus attended Rhineland High School and are making their home in Rhineland.

Over 100 Guests Hear Book Review Here On Friday

The Munday Study Club presented Mrs. L. E. Dudley of Abilene as guest reviewer for its Texas Day Tea in the Methodist Church Friday afternoon, March 1. Mrs. Dudley reviewed "Miracle in the Mountain" by Harvett T. Kane.

Mrs. W. O. Rathliff, club president; Mrs. J. C. Harpham, Mrs. J. S. Shannon and Mrs. Don Combs greeted guests in the church foyer and directed them to the reception room. Guests were registered by Mrs. R. M. Almanrode.

The two serving tables were centered with arrangements of grapes which encircled the punch bowl. Crystal and silver appointments were used. Miniature Texas flags carried out the Texas Day theme. Mrs. H. F. Jungman and Mrs. M. H. Reeves ladled punch, while Mrs. Tommy Harper, Mrs. Paul Pruitt and Mrs. Hugh Beatty served. Mrs. C. P. Baker was chairman of the host committee. Piano selections by Mrs. Dwight Key provided a background of music.

Mrs. L. R. Frost welcomed guests and introduced Mrs. Dudley, immediate past president of Texas Federation of Women's Clubs.

Mrs. Dudley's review highlighted the opening of an extensive building fund drive by the club members.

Over one hundred guests from Abilene, Knox City, Goree and Haskell attended.

Tax-Man Sam Sez:

If you have been waiting until April 15th to file your tax return, you may be costing yourself money. The tax folks think you ought to take time to study the instructions, take time to check your records. Sometimes there are several ways to figure your tax and you are entitled to use the best method for you.

The fellow who starts working on his tax returns on April 14th is liable to make costly mistakes, he also risks being delinquent and having to pay a penalty. Start figuring now.

CARD OF THANKS

We wish to thank each of you who played in the basketball game last Thursday. Your cooperation was greatly appreciated. We made \$93.30 for our class fund.

The Sophomore Class

Fabulous Footwork

Rhinestone bedecked solid stainless steel shafts form the fabulous "Chandelier heel," a creation by Delman of New York inspired by the brightwork on the new 1957 automobiles. Introduced this season at the New York Auto Show, they are destined to be seen glamorizing sophisticated ladies in sophisticated places this Spring.

4-H Girls Study Dairy Products

The Knox County 4-H girls have been studying about dairy products in their food program this year. But whatever your age milk is the best food you can get.

It is outstandingly important for three nutrients—calcium, vitamin B2 (riboflavin) and protein. Without a sufficient amount of milk or dairy foods, it is hard to get enough calcium or vitamin B2 in the daily diet. Throughout life, the body needs protein to build and repair tissues and muscles, glandular organs, skin, hair and nails. Calcium is needed for proper development, growth and maintenance of bones and teeth. Riboflavin of vitamin B2 helps in promoting good eye sight and a feeling of general well-being.

The easiest way to get your milk each day is to drink it—plain, in a cold, frosty glass or "dressed up" with fruits, syrups or ice cream.

The best guide to egg quality is the U. S. grade mark indicating that the eggs were graded according to federal standards.

Marcy Lee DRESS

the parthenon

To get the tall, slim, stately "feel" of a Doric column... wear this! Marcy Lee's Greek-keyed straightliner in Fuller's Southampton*... special-blend rayon... looks like linen but makes history with its long-resistance to wrinkles. Zippered front. White on red, navy, royal, toast. Sizes 8 to 18.

Easter Seal Campaign To Open March 15

Dates for the 1957 Easter Seal Appeal in behalf of crippled children and adults are March 15-April 21, Euclid Hudson, president of the Texas Society for Crippled Children and Adults and chairman of the Appeal in Texas, announced today.

The 24th annual Appeal is expected to be the most extensive campaign in the history of the Texas Society. Easter Seals will reach more than 1,000,000 Texas homes. Mailing will begin around March 18.

Hudson said that the Society seeks a total of \$300,000 in 1957. Easter Seal funds in 1956 totaled \$270,000.

"The once-a-year Appeal gives Texans an opportunity to contribute funds for maintaining and expanding services badly needed to help crippled children and adults, right in their own communities," Hudson said. "Support of the entire state will be needed to attain the goals set for 1957."

"It is the increasing awareness that a crippling accident may strike any of us at any time in today's world that has led to a steadily increasing support by Texans of the Society's work and made possible that 30 strategically located Easter Seal treatment centers established in Texas since 1946—more than in any other state."

The rapidly growing Texas population, coupled with soaring accident rates and an increasing proportion of accident survivors saved by modern surgical procedures and drugs unknown even a few years ago, explains the need for increased funds, Hudson said.

He said that over two-fifths of the patients seen in Easter Seal treatment centers today have been crippled by accidents.

"This is in sharp contrast to the birth-deformities and disease-caused crippling which formed the bulk of our cases when the Society was founded," Hudson said, "and points up the need of facilities for physical restoration and rehabilitation of the crippled in every community."

Falls are the home's greatest hazard, claiming a total of 14,000 lives annually in the nation, says the Texas Farm and Ranch Safety Council. Burns are second, causing about 5,400 deaths annually while poison and carelessness with firearms each take about 1,000 lives yearly. Better keep the danger sign up around the house and see that accident hazards are removed, warns the Council.

Mrs. Dub Gresham and children of Wichita Falls spent last week with her parents, Mr. and Mrs. H. D. Henson.

Texas Girls are Top 4-H Dairy Foods Demonstrators

Cinda Ellis

Karan Prechel

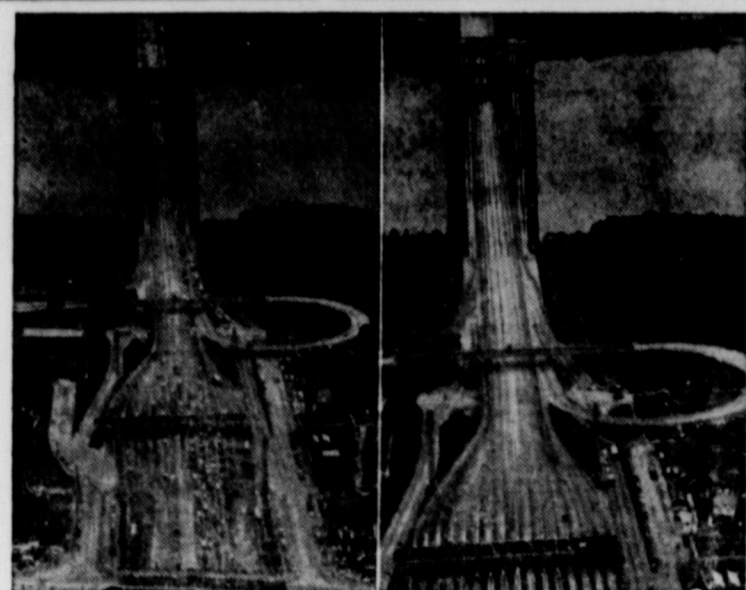

Outstanding ability to use and demonstrate dairy food products brought individual state honors in the 4-H Dairy Foods Demonstration program to Cinda Ellis, 15, of Lancaster, and Karan Prechel, 17, of Iowa Park. Each girl was awarded a beautiful inscribed wrist watch by the Carnation Company.

Cinda's demonstration was called "Cheese Pie," and Karan's was entitled "A Dip to Delight a Teen-age Appetite."

The Extension Service of the College of Agriculture, University of Texas, directs the program with the U. S. Dept. of Agriculture cooperating.

ATTEND WEDDING

Mr. and Mrs. A. M. Moore, Arleda Moore, Mrs. Opal Brewer and son, Bob, attended the wedding of Mrs. Moore's nephew, Johnnie Don Fecher, to Miss Eleanor Mae Goforth in Wichita Falls last Friday evening. They also visited Mrs. Moore's brother-in-law, Frank V. Fecher, who has been very ill.

ATTACK WARNING effects are graphically illustrated in the two aerial views of New York's George Washington Bridge above. The left picture shows normal mid-afternoon traffic, while the right photo shows the same scene a few minutes later on July 20, 1956, after civil defense sirens had blown to test New York's ability to take cover quickly. In general, a large city populace would be told to take cover from impending attack only when there was too little warning time to evacuate. (New York Daily News Photos)

GET A SPECIAL PACKAGE OF COURTESY!

Courtesy is a wonderful thing—what a heck of a world it would be without it.

Actually, though, it is too bad we don't have to buy courtesy. Times are pretty good just now and most of us could afford at least a perfunctory collection of courteous manners.

We could, for example, buy a ten cent supply of "smiles" for those we meet each day; presumably a dime's worth would last indefinitely. Then how about a nickel carton of "thank you's," or "you are welcome's." And, of course, we would need an everyday amount of "pleases."

One of the most useful and money saving purchases of all could be made in the huge, large giant, economy sized package of AUC (All Purpose Courtesies). This package would be complete with a how-to-do-it kit, and could be carried with you wherever you

go; ready for use without a moment's loss. Naturally there would be an ample amount for you to pass on to other members of your family.

It would be difficult to estimate the cost of APC, but it is safe to say that we could afford it if we wanted to.

Let's suppose that everyone in Texas had bought a package of APC from the Texas Safety Association at the beginning of last year during their perennial safety sale. If they had, then about 2600 more people would be looking forward to Spring in Texas today. Too, approximately 110,000 fewer persons would probably have not suffered traffic injuries. And, Texans would have been more than \$150,000,000 better off. Heck! We could not only afford the huge, big large, giant, economy size APC, we couldn't afford to be without it.

Drive carefully. The life you save may be your own.

NEWS FROM VERA

(Mrs. Thelma Lee Coulston)

Mr. and Mrs. Tom Bowdoin visited over the week end with their son, Mr. and Mrs. Johnny Bowdoin and daughters in Ralls. Also visiting with the Bowdoins in Ralls were Mr. and Mrs. Cone Magee and Mrs. Ruth Hickey and Charles of Monahans, Texas.

Mr. and Mrs. Carlton Struck and family spent Saturday and Sunday with the A. E. Struck family in Mineral Wells.

Mr. and Mrs. Geard Baggett and family of Haskell spent Sunday with his mother, Mrs. Ina Murphree and Oga D.

Mr. and Mrs. Ferman Dowd, Nelda and Joe Carol visited Sunday with Mrs. Dowd's parents, Mr. and Mrs. A. J. Caldwell in Holliday.

The Vera high school boys and girls defeated the Benjamin teams in a volleyball game in the Vera gymnasium last Friday night.

Fourteen members of the Freshmen and Sophomore classes of the Vera school, with their sponsors, Supt. and Mrs. Milton Kirby and Ferman Dowd, attended the Midwestern Calvacade of Melodies in Seymour last Friday evening.

Virginia Jackson and Jeanie Beasley of Midwestern University, visited in the home of their parents, Mr. and Mrs. Buster Jackson and Mr. and Mrs. Sutton Beasley, over the week end.

Mr. and Mrs. A. M. Bradford, Donnie, Travis and Garland, spent the week end with Mr. and Mrs. Calvin Campbell and family in Wichita Falls.

Guests in the home of Mr. and Mrs. Ed Allen were Mr. and Mrs. Roy Allen, Mrs. Fitzgerald and son, Carl, and Mrs. Miller Laird and children.

Mr. and Mrs. Charles Trainham

and Bobby visited with the Ed Trainhams in Holliday last Sunday.

Mrs. Johnny Gore and Douglas visited last week end with Mr. and Mrs. Wallace Gore and family and Mr. and Mrs. Jerry Gore in Hobbs, New Mexico. They were accompanied home by little Patty and Ginger, children of the Wallace Gores.

Mr. and Mrs. L. D. Allen and Johnny spent last Saturday and Sunday with Mrs. Allen's mother, Mrs. John Welch of Dickens.

Mr. and Mrs. Wesley Trainham spent Friday and Saturday with their son, Mr. and Mrs. Jerrell Trainham in Wichita Falls.

Rev. and Mrs. S. A. Wolfe visited with their son, Mr. and Mrs. Cloyce Wolfe and children in Wichita Falls, one day last week. Their grandson, Danny, accompanied them home for a stay.

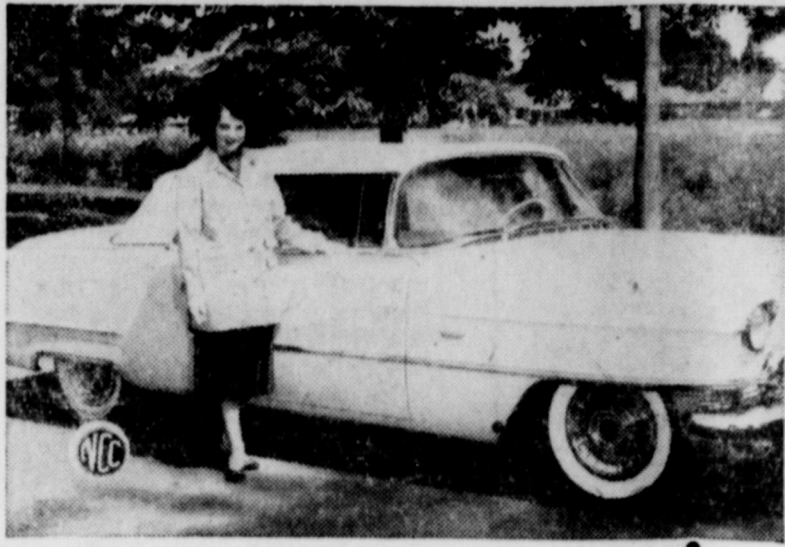

Members of the Vera Future Homemakers of America attended the Area IV meeting at Stephenville last Saturday, March 2nd. Those attending were Elizabeth Brown, Riddle Lou Parham, Ruby Jean Petty, Patsy Peddy, Barbara Kuchen, Donnie Gay Hardin, Barbara Weiss, Nelda Dowd, Jan Richards and Barbara June Townsend. The group was accompanied by their Homemaking teachers, Mrs. Douglas Benham, their 1957 F. H. A. Beau, Billy Hardin and their last years beau, Jim Frank Coulston.

Jim Frank Coulston has been a patient in the Baylor County Hospital.

The fifth annual training school for managers of farmer cooperatives will be held at Texas A & M College from March 18-21. Meeting place is the Memorial Student Center.

Dee Allred and son, Gaylon, visited his sister, Mrs. Bowman, in Wichita Falls last Monday.

FASHION FIRSTS IN MOTORING

Car coats of cotton poplin are making fashion news this fall. Also in the news is the fact that cotton is tops in convertible tops. The National Cotton Council reports that a new vinyl-coated fabric is now being used in 95 per cent of convertible tops. Synthetics, which held 40 per cent of the car top market in 1954, failed to give performance while research helped cotton stage a comeback in this 10,000-bale-a-year market.

Letters From The People

Editor's note: The following letter from a Munday man in service overseas was received Saturday:

Dear Mr. Edgar: While re-reading my copy of "The Munday Times" for the third time today, it occurred to me that it would be fitting to let you know how much I appreciate my home town newspaper.

During the past eleven years that I have served in the Army, Mom and Dad (Mr. and Mrs. D. E. Whitworth) have endeavored

to furnish me a copy of "The Munday Times" every week, either by subscribing for me, or sending their copy.

There have been a few instances when my newspaper did not reach me due to the frequent transfers we receive in the Army. Perceivably, when my weekly home town newspaper did not arrive, it was sorely missed.

I would like to emphasize that reading "The Munday Times" is almost as pleasant as a weeks stay "down home" in Munday. As I read, it seemed like the folks in and around Munday were saying hello to me even though about six thousand miles separates us.

If you would give them all my regards, it would give me much pleasure and I would certainly be grateful.

I expect to return home about

the first of May, this year.

Sincerely,
Dick Whitworth
Richard W. (Dick) Whitworth
Sergeant First Class
United States Army

DANGER IN THE HOME!

Not many housewives would put a DANGER sign over their front door! Yet, unless more people suddenly become "safety-conscious" that sign wouldn't be a bad idea at all. Home accidents can kill! Carelessness and negligence in the home cause a death every 16 minutes and produce some disability every four minutes, reports the Texas Farm and Ranch Safety Council.

Falls are the home's greatest hazard, claiming a total of 14,000 lives annually. Burns are next in the grim order and about 5,400 people die yearly as a result of them. Poisoning and carelessness with firearms each cause slightly over 1,000 deaths a year, and almost 6,500 people annually succumb to a list of varied causes.

More children under 14 are killed by home accidents than by any single disease. Here's how to minimize the dangers to children in your home. Label all medicines and store them out of children's

reach; make sure all firearms are unloaded and stored safely; keep matches and knives out of reach; and don't leave scissors, pins, and sharp tools within children's grasp.

How safe is your home? Check yourself on these questions asked by the safety council. Are too many electric appliances running from any one outlet? Are rugs kept from curling and slipping? Do you immediately wipe up water or grease spilled on the floor? Do you have a safe can opener such as the swing-away wall type? Is there a nonslip floor in the shower? Are all flammable liquids labeled and sealed?

Keep a first aid kit handy at all times. Remember—someone is hurt in the home every seven seconds.

More children under 14 are killed by home accidents than by any single disease. The Texas Farm and Ranch Safety Council warns that all medicines should be labeled and placed out of reach of children; firearms kept unloaded and stored in a safe place; matches and knives should be out of reach of youngsters; and scissors, pins and sharp tools are no good as playthings for children.

HOME FROM HOSPITAL

Mrs. J. F. Simpson of Haskell, former Munday resident, was returned home from the hospital last Monday after receiving treatment for a broken arm and pneumonia. Her son, Otis Simpson, reported her improving.

Legal Notice

NOTICE OF TRUSTEE ELECTION

At a called meeting held in the grade school building on February 22, 1957, the Munday School Board called a Trustee Election to be held in the city hall, Munday, Texas, on Saturday, April 6, 1957, for the purpose of electing three trustees—one to fill the unexpired term of Travis Lee, who resigned, and one each to fill the expiring terms of Gene Thompson and J. T. Offutt.

Any qualified voter may file for a place on the ballot by contacting Harvey Lee in the superintendent's office in the Munday Grade School building and filling in the required form, which Mr. Lee will have on hand. Wednesday, March 20 at 5 p. m. is set as the last day for filing.

33-35-chg.

Golden Esso Extra

has the highest octane rating of any gasoline.

Modern cars, especially the 1957 models, have engines with very high compression ratios (9 to 1, and higher!).

These engines require a gasoline that's better than the best of "premium" gasolines, better than the "supers."

The one gasoline—the only one—that permits every high compression engine to deliver its full power output is Humble's Golden Esso Extra.

It is the world's finest automotive fuel . . . with the highest octane rating of any gasoline.

Protect the value of your automobile investment—use the gasoline that gives you added value from full performance. Fill up at the golden pump under your neighbor's Humble sign.

If you answer yes to any one of these questions, you should try Golden Esso Extra—world's finest gasoline.

- Does your car knock on "premium" gasoline?
- Is your car air-conditioned? (On an average the engine pulls a 3-ton air conditioner.)
- Does the engine have a compression ratio of 9 to 1, or higher?
- Does your car have more than one carburetor or a "Power-Pack"?
- Is the engine rated at 200 horsepower or higher?

(These points become even more important as you add miles to a new car. Anti-knock requirements increase when you pass the break-in period.)

Don't let a "knock you can't hear" rob your car of power!

Engineers call it "trace knock," a knock so faint that only a trained technician can hear it. But like all knocks, it robs your engine of power, forecasts engine damage. If yours is a modern car in any price class—especially if it's a 1957 model—prevent "trace knock" with Golden Esso Extra, the gasoline with the highest octane rating ever.

News From The U. S. Congress

Many times people don't realize just how many different bills are introduced in the House, and the volume of legislation seems to be growing each year. For instance, from the beginning of the session up to the First of March, 3500 bills were introduced in 1953, and 4500 in 1955, and 5500 in 1957. Each of these bills is referred to a standing Committee for its consideration before it comes to the Floor of the House. The Committee on Ways and Means of which I am a member had 450 bills referred to it as of the First of March, 1953, and 455 bills on the same date, 1955, and almost 800 bills so far this year. It is just physically impossible to consider every measure that is introduced in Congress; therefore, many bills have to be reintroduced three or four times before they can be heard by the Committees and acted on in the House.

At long last it seems that an agreement has been reached between the Army and the Interior Department over what will be done with the Wichita Mountains Wildlife Refuge. This great Wildlife Refuge and recreational area is widely used by all people in Southern Oklahoma and Northern

and Northwestern Texas. It now appears that an agreement has been made between the Army and the Fish and Wildlife Service so that the Army will not get title to the 10,700 acres out of the southern part of the Refuge that they have long been seeking, and that the Wildlife Refuge will be kept intact. This Wichita Mountain area is famed as a reserve for wild turkeys, and oddly enough, Texas longhorn cattle as well as buffalo and other Southwestern wildlife. The people interested in wildlife have indicated that they are happy over the agreement and that full protection will be given to the Wildlife Refuge, and the people will maintain the right to use it.

Recent House Committee action practically assures the granting of authority to the Treasury Department to raise the interest rate on Government savings bonds from 3 to 3 1/2%. This action is made necessary on account of the great increase in interest rates; however, it is hoped that this raise in the rate of Government securities will not indirectly force another round of increases in all interest rates.

It is interesting to note that it is estimated that 30,000 people work in the Pentagon which houses the Department of Defense. This is greater than the population of many Texas counties.

The current crisis in the Near East will prove whether the United Nations can function in such a way as to really preserve world peace. Even though it seems that some temporary solution of the problems in that area has been reached, there can be no real settlement until the United Nations can find a way to settle the basic differences between Israel and Egypt. This is the most serious problem that has faced our

State Department and the United Nations since World War II.

Visitors from home this week were Mr. A. Oren Beall, Seymour; Mr. Jewel Mara, Decatur; Mr. E. Bruce Street, Graham; Mr. Henry L. Sullivan, Lewisville; and Mr. E. B. Fincher, Mr. Dwight M. Ross, Mr. O. T. Freeman, and Mr. Rhea Howard, all of Wichita Falls.

Jennings Bryan (when he was Secretary of State).

When I finished high school, however, it was necessary that I go to work, so the ambition to become a lawyer was side-tracked, temporarily. What could I do? I wasn't husky enough for physical labor and didn't have special training for a position in a store or an office. I had always made good marks in English. I had found composition so easy that I didn't con-

Hospital Stay

A prescription costs less—far less—than a single day's stay in the hospital!

Today, in most cases, just one or two prescriptions are all that a patient needs to get well. But years ago, he would have had to go through a long, expensive session at the hospital.

That's why we say . . .

Today's Prescription Is The Biggest Bargain In History!

Eiland's Drug Store

BOYCE HOUSE

I didn't intend to become a newspaper. My boyhood ambition was to become a lawyer and to go into politics. During school days, I read Greenleaf on Evidence and Caruthers' History of a Lawsuit and spent much of my spare time in courtrooms viewing the drama of cross-examination and argument to the juries. And whenever a candidate for governor or United States Senator came to town, he could always count on my being in the crowd.

This was in Tennessee and among the campaigners I heard were Senator (and former Governor) Bob Taylor of "Fiddle-and-Bow" fame; former Gov. Malcolm R. Patterson, Senator Luke Lea, former Gov. Benton McMillan, Gov. Ben W. Hooper and William

Goree News Items

Principal James Carver has announced that the election of school favorites has been held. Mr. and Mrs. G. H. S. were selected which is one of the highest honors among the students.

Miss Gaylia Mobley and Jimmy Routon, seniors, received these honors for the '56-'57 term. They are both outstanding G. H. S. students.

Senior favorites chosen were Glenda Thornton and Colbert Haskins; Junior class favorites were Sharon Hunt and Jerry Brown; Sophomore favorites were Jeanette Routon and Waymon Edwards; Freshman favorites were Ruby Hammons and Gerald Kinman.

Mrs. Ammie Edwards and Wayman Doyle Edwards visited Mr. and Mrs. Charley Edwards and family in Graham over the week end.

Miss Norma Railsback of Wichita Falls visited her parents, Mr. and Mrs. Charley Railsback, over the week end.

Visitors in the home of Mr. and Mrs. R. M. Tucker over the week end were Mr. and Mrs. Claxton Tucker of Lubbock and Mr. and Mrs. Wesley Darilek of Megargel.

Mr. and Mrs. Raymond Caldwell of Wichita Falls visited Mr. and Mrs. W. R. Caldwell last Sunday evening.

Mrs. Don Jones of Wichita Falls is reported to be doing fine after an operation on her hand. The baby is staying with her grandparents, Mr. and Mrs. Menyard Smith.

Visitors in the home of Mr. and Mrs. Buster Latham Sunday were Mr. and Mrs. Charles Holder and children of Pitchfork Ranch, Mr. and Mrs. Buster Styles of Seymour and Mr. and Mrs. Terry Edwards and children of Munday.

Mr. and Mrs. John Powell of Aiken were visitors in the home of Mr. and Mrs. Orb Coffman the past week end.

Mr. and Mrs. Leo Prater and family of Anson visited Charley Lane last Saturday.

Mr. and Mrs. Glen Owens are new residents in the home of Mrs. Lessie Jackson.

Mr. and Mrs. Luther Jackson and Mrs. Tom Harmon and daughter of San Angelo are visiting Mr. and Mrs. Felton Jackson and family.

Mr. and Mrs. Carl Kinard of Lamesa visited Rev. and Mrs. Charles Mathis last Tuesday.

Charles Gaither of Commerce visited his parents, Mr. and Mrs. Everett Gaither, over the week end.

Mrs. Mary Kennedy of Wichita Falls visited Mr. and Mrs. Melvin Cunningham last Saturday and Sunday.

Bobby Denham of Amarillo visited his parents, Mr. and Mrs. Al Denham, last Tuesday night.

Van Thornton attended the sale at Burkburnett last Monday.

Goree Homemaking Girls Hostesses To Mothers, Teachers

On Thursday, February 28 at 10:00 a. m. the Sophomore class of the Goree Homemaking Department was hostess to a tea for their mothers and teachers.

They displayed an interior decorating project, a house built to scale (one inch to the foot); a miniature of the home of Mr. and Mrs. W. O. Ratliff of Munday. The house was papered and painted by the girls. They also made all of the furniture, curtains, etc., in the home and built swings, barbe-que pit, and patio in the back yard. The color pink was carried through out the house.

The frame of the house was constructed by the agricultural teacher, Mr. Simpson, assisted by Wayman Edwards, F. F. A. Reporter.

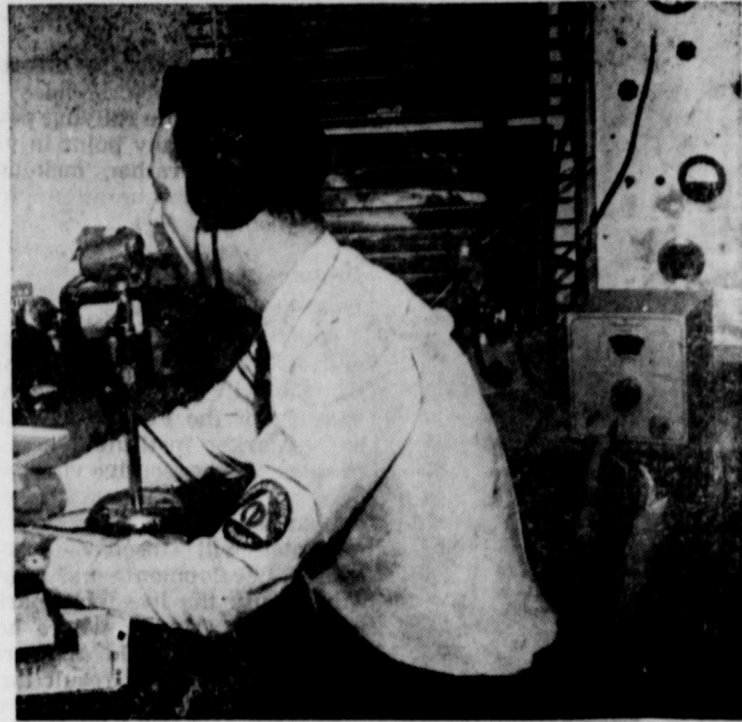

Hot spice tea, cinnamon rolls, and kabobs were served to the guests after the display of the house.

At 1:00 p. m. of the same day, the Freshmen homemaking class also gave a tea for their mothers.

Miniature bedrooms made by each of the girls were on display. The entire furnishings of the bedrooms were made individually by the Freshmen homemaking class.

The girls served tea sandwiches bon-bon cookies and mints to their guests.—F. H. A. Reporter.

Feed grain prices generally are expected to average slightly higher than last year for this winter and continue into spring, says John G. McHaney, extension economist. Prices of oats and grain sorghums are expected to continue higher relative to corn than in 1955-56, due to smaller production of these grains and a larger U. S. corn crop.

AMATEUR RADIO "hams" play a key role in alerting civil defense units to natural disasters, and maintaining vital communications when telephone lines are down. This Marion, Ind., operator flashed the first word of that city's tornado to Indiana civil defense headquarters, which immediately rushed aid. Most "ham" operators are linked to civil defense through the Radio Amateur Civil Emergency Service, sponsored by the Federal Civil Defense Administration to supplement regular channels. (FCDA Photo)

BENJAMIN NEWS

Mr. and Mrs. Donnie Hertel and sons of Wichita Falls visited their parents, Mrs. Leola Isbell and Mrs. Nanny Hertel, over the week end.

Mrs. Paul Pruitt and sons, John Bruce and Glen, and Mrs. D. D. Clough visited Mr. and Mrs. Charles Finch in College Station over the week end.

Mr. and Mrs. Carl Patterson and Mrs. Jewel Stark of Fort Worth spent the week end with relatives and friends.

Visiting in the home of Mr. and Mrs. Lee Snallum last week were Mrs. Nickie Leverton and son of Merced, Calif., Mrs. Floyd Nunley and children of Midland, Mrs. Charles Snallum of Fort Stockton, Mr. and Mrs. Dan Snallum of Silver, Mr. and Mrs. Billie

Snallum of Abilene and Rev. Carol Desgrange of Fort Worth.

Cattle Trade Opens Slower

FORT WORTH—Cattle trade opened at Fort Worth this week to weaker bids from most interests in view of somewhat larger supplies. However, only a few sales were definitely weaker in view of moderate supplies and stronger prices at Northern points.

Since the recent rains in much of the territory most cattle and calf prices had moved up sharply to position in many cases higher grade for grade than at Northern points, and the trade Monday featured efforts of major buyers to try and work the list back into focus with other parts of the country.

Calves were again active and fully steady. Comparative prices: Good and choice slaughter steers and yearlings \$17 to \$21, the top for a lot from the Spur Experiment Station. Common and medium offerings sold from \$12 to \$17. Fat cows drew \$10 to \$13.50, and canners and cutters cashed at \$8 to \$12.50. Bulls sold from \$10 to \$14.50. Good and choice slaughter calves cleared at \$17 to \$20, and common and medium sorts sold at \$14 to \$16.50. Culls cashed at \$10 to \$13. Good and choice stocker steer calves brought \$18 to \$21, and good and choice stocker steer yearlings sold at \$17 to \$19.50. Replacement cows drew \$9.00 to \$14.00.

Grain Pastures Putting Good Gains On Cattle. Reports reaching Fort Worth

this week indicate that in most sections of the Central Texas, East Texas and North Texas areas the recent rains have developed grain field grazing amazingly fast and cattle and calves on these fields are putting on big gains. Some difficulty with bloat has been reported in some areas due to the lush growth.

Visitors to the market report that in view of the good gains in recent weeks, a good portion of the calves and yearlings will be carrying considerable flesh when taken off these fields around the middle of March. Some areas report red spider and green bugs making inroads on prospective grain crops.

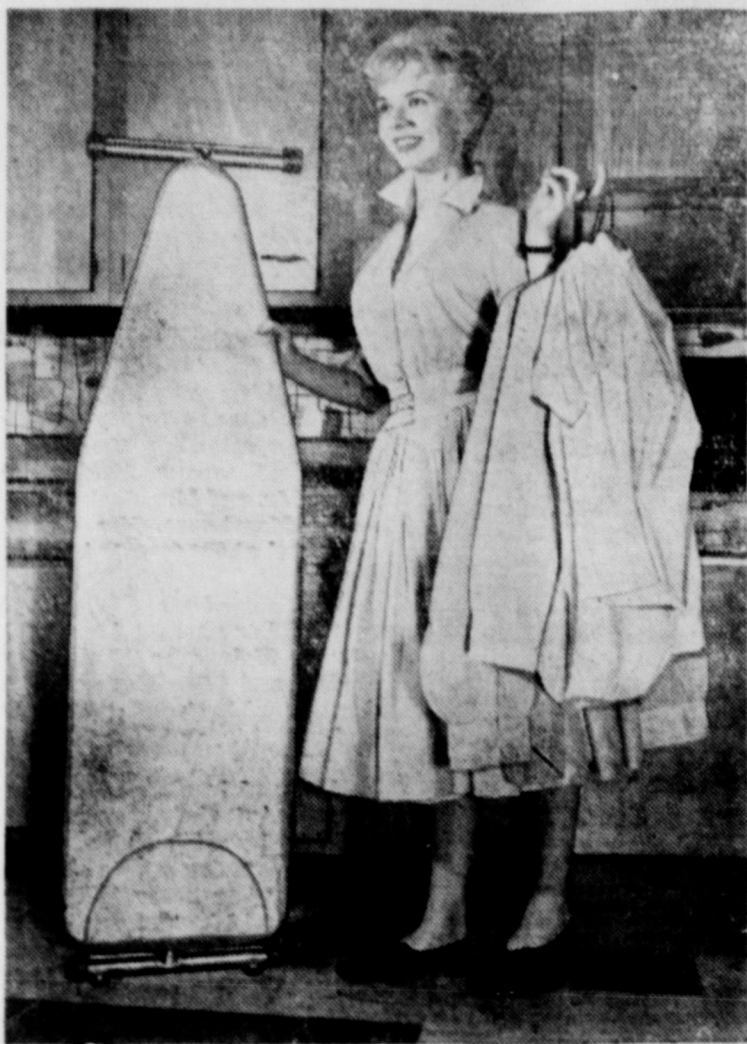

Many of these cattle reportedly will carry enough flesh to take a short stay in the feedlot and come out as fat cattle. This situation has focussed the attention of feedlot buyers on the special Move-Off at the Fort Worth Market March 15th. Buyers from Western States especially are reported in these "near fat" kinds of cattle for placement in feedlots there.

Sheep Run Biggest In Over A Month.

The near 4,500 sheep and lambs that arrived at Fort Worth represented the largest offerings since January there. Trade opened slowly, as packer interests sought lower prices following the recent sharp advances. However, strong demand was uncovered in the feeder buyer and shipper outlets and the trade soon developed steady on slaughter classes and strong to 50 cents higher on feeders. Both feeders and fat lambs topped at \$20 and \$20.50, the latter the highest of the season on feeder lambs. Older sheep were very scarce, fully steady.

Good and choice slaughter lambs in the wool sold from \$19.50 to \$20.50 down; Fall shorn and No. 1 pelts sold from \$19 down; No. 2 skin lambs \$18.50 down; No. 3 skins \$18.25 down; and re-

Merrily It Rolls Along

Her ironing finished, the homemaker easily glides her ironing table toward a storage place because it's on wheels! She never has to lift this new Arvin ironing table, as it has two wheels for its ride into and out of storage and two more which allow her to roll the board back and forth lengthwise while she's ironing.

cently shorns \$17 down. Cull to medium killers \$12 to \$17.

Stocker and feeder lambs \$17 to \$20.50, choice shearing lambs at \$20.50, and most offerings from \$20 down. Slaughter ewes drew \$6 to \$8.50. Old wethers \$12 down. Yearlings \$16.00 down. Aged bucks \$6 down.

Hogs Show Little Rallying Power

Butcher hogs sold mostly steady with last week's close at Fort Worth Monday, as choice meat type hogs scored 17.25 and \$17.50. Sows at \$15.75 were also steady with last week's close. Medium grades and lighter

weights sold from \$14 to \$16.50. Stags drew \$7 to \$11.

Despite a moderate offerings at Northern points Monday the trade showed little rallying power on live hogs at any point in view of continued rather lack-luster wholesale meat quotations from major centers.

Prominent Market Men Due At Fort Worth.

Gene Gunter, Wichita, Kansas, and R. J. (Bob) Riddell, Peoria, Illinois, will address the annual meeting of the Fort Worth Livestock Market Institute. They are president and executive vice president of the National Livestock Exchange.

Gunter will discuss current market developments and Riddell will discuss the livestock market situation in Canada, where hogs are virtually all sold on a result farm-grade basis and as a result farmers have found returns highly unsatisfactory.

The Market Institute is the educational foundation for the livestock market at Fort Worth, and at the meeting leading livestock representatives of press, radio and the land grand colleges will be guests.

LOCALS

Mr. and Mrs. J. E. Richardson of Lorenzo and Mrs. Hattie Williams of Abilene were week end guests of Mr. and Mrs. D. E. Holder. Mr. and Mrs. Holder took Mrs. Williams home Monday.

Mr. and Mrs. Deaton Moorhouse and son, Charles, of Amarillo were week end guests of Mr. and Mrs. Chas. Moorhouse. Mr. and Mrs. Moorhouse returned home with them for a few days visit.

Mrs. L. A. Allison of Houston visited her father, E. H. Nelson, and other relatives here over the week end.

Mr. and Mrs. Bob Gray and son and Mr. and Mrs. Ivan Prosser of Lubbock were guests of Mr. and Mrs. Hoyt Gray over the week end. Mrs. Gray and little son remained for a longer visit with them and with her parents, Mr. and Mrs. Weldon Floyd.

Mr. and Mrs. Don Boyles visited friends in Levelland over the week end.

Mrs. Muriel Mitchell visited her aunt, Mrs. G. E. Culter, in Abilene last Friday night and both visited with Mr. and Mrs. Michael Sloan and daughters in Midland on Saturday and Sunday.

Mr. and Mrs. Burns Ray and June were business visitors in Wichita Falls last Monday and remained for the basketball game between the Munday girls and Bridgeport.

Dr. and Mrs. Delmon E. Alexander and children were in Abilene last Saturday afternoon where Dr. Alexander attended a dental meeting. They went on to San Angelo and visited with his brother and family Saturday night and Sunday.

Mr. and Mrs. L. C. Sweatt and Mr. and Mrs. Faye Killian visited in the Houston Sweatt home in Lubbock last Sunday. The Killian's son, Bobby Faye, who is attending Texas Tech, was also a guest in the home.

Mrs. H. B. Stubblefield returned home on Wednesday of last week after several days visit with her daughter and husband, M/Sgt. and Mrs. Glenn Ray Morrow in Altus, Okla. Mrs. Morrow underwent minor surgery on Saturday.

Mr. and Mrs. M. H. Dean spent the week end with their daughter, Mrs. Bill Rippetoe, and family in Lubbock.

Alfred Guinn of Wichita Falls spent the week end with his mother, Mrs. Bess Guinn, and other relatives.

Mr. and Mrs. Bill Newman and Tommy and Mr. and Mrs. Billy Newman of Lawton, Okla., were Sunday guests of their niece and husband, Mr. and Mrs. Earl Little.

Mr. and Mrs. Robert Patterson and children and Mrs. Harold Honeycutt visited relatives in Seymour last Sunday.

"NO MAN ALONE IS WISE ENOUGH"

One of the most important discoveries of this miracle age of new medicines is the right use of Vitamins. Properly taken, they are a blessing to mankind.

Be cautious about the claims made for their use by un-trained door-to-door salesmen and stores that sell them under the name of food supplements. Compare the potency, prices and quality of the Vitamins they sell with the reliable brands we Pharmacists offer.

Be wise, ask your Physician or Pharmacist for the answer to your Vitamin questions. We both are dedicated to consider your health more important than quick profits.

For accuracy and dependability, let us fill your next prescription. Our prescription room is as modern as any in the State.

Alexandria Daily Town Talk Orchid to the Railroads

Railroads serving the Southwest's drought belt, and particularly the Texas and Pacific, have found it necessary and advisable to buy newspaper space to tell America a little something about their

Bales Shoring Brass February 5, 1957

Since the day of Sam Bass, when many Texans approved his robbing of trains, robbing the railroad has been popular. While many have operated about freight rates, others have complained of rates and the officers have ended the rail lines with more than their share of losses.

Golden Deed, Indeed!

The nation's railroads through the years have been good neighbors in most instances—extending aid, financial and otherwise, to their friends and neighbors and to their country in times of emergency.

Railroads Render a Vital Service

The Texas and Pacific Railway Co. deserves a lot of credit for its current advertisement that explains the railroads' \$25,000,000 good deed for the drought year.

Class of Service

This is a full-page Telegram of good news, which is a national appeal above or preceding the address.

Western Union

The Blue line shows in the blue line on telegram and day letters a STANDARD TIME as point of origin. Time of message in STANDARD TIME as point of destination.

Western Union

Only the railroads, in addition to the region they serve, have the government points out

BIG SPRING DAILY HERALD Thanks For A Big Good Turn

All the banks in the sub-subsided areas of the West and Southwest were asked by President Eisenhower to make a 50 per cent reduction in interest rates on their loans to farmers and ranchers. It could be considered most unusual.

Farmers Praise Railroads For Reducing Freight Rates On Drouth Hay Shipments

Railroads serving the drought area in emergency. Actually they were so generous that \$25,000,000 by the railroads during the period Oct. 1 to the present time. They have been reduced more than \$25,000,000 in drought relief loans.

The Longview Daily News

While thinking about good deeds (this being Guy Scott's week and Scouts being famous for good deeds) we thought of the railroads and ranchers of the west as we like a right stable good deed.

The Galveston Daily News

President Eisenhower on three times the past four years has asked the railroads to make a 50 per cent reduction in their rates on hay or other

Western Union

When the railroads reduce the freight rates on hay, they are doing a good deed for which they receive no credit. But they are entitled to be considered.

When the railroads reduce the freight rates on hay, they are doing a good deed for which they receive no credit. But they are entitled to be considered.

\$25,000,000 Contribution ...to Farmers and Ranchers

Within the past four years the railroads have contributed to the farmers, ranchers and dairymen, through a 50% reduction in rates on hay and other feedstuffs, 25 million dollars.

Both the Congress of the United States and the Legislature of Texas, by resolution, have expressed their

thanks to the railroads for this substantial contribution. Through the years the railroads have always extended a helping hand to their neighbors in times of disaster. To us this is a basic responsibility of good Americans.

Mr. and Mrs. Hollis B. Moore and two daughters of Harrison, Ark., and Mrs. Lee Faulkner of Bowie were guests of Mrs. Frank Meers last week and all visited friends in Lubbock one day. Mrs. Faulkner is a sister of Mrs. Meers.

Mr. and Mrs. Press Phillips, Mr. and Mrs. Nolan Phillips and Mrs. Edgar Morgan visited relatives in Clinton and Foss, Okla., last Sunday.

Knox Prairie Philosopher Agreeable To Taking Aid, But Not Technical Aid, From The Experts In Washington

Editor's note: The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek probably has been reading too much international news, his letter this week indicates.

Dear editor:
I was reading in a newspaper last night which a banker friend in town handed me yesterday, some people have the idea bankers are tight-fisted but this one just handed me the paper without asking me to sign a thing, where some experts in Washington are urging the Federal government to extend financial and technical aid to depressed areas in the United States the same as it gives to some foreign countries.

As I understand it, the aid to foreign countries is given on the understanding the countries, now sort of tottering a little, will build up their strength against Russia and won't spend any of the aid money for Russian goods.

I believe I can meet those terms satisfactorily. I'm tottering a little, have been for years, and I will be glad to build up my strength against Russia and I guarantee I won't spend any of the money for Russian goods. In fact, I'll go even further, I'll guarantee to spend it withing a 25-mile radius of my farm, within two weeks after I get it.

However, there is one point I'd like to clear up. I notice the experts are proposing both financial and technical aid for depressed areas like my farm.

I can save the government some money. It won't be necessary to send any technical aid out here to me. I'm a democrat. I don't want any preferential treatment. Just treat me like King Saud. As I understand it, they're fixing to give him a couple of hundred million dollars and ask him to ignore the Russians. Those are the kinds of terms I'm interested in.

As for technical aid, I guess a technician could be of some use on this place, if he knew how to swing a hoe, grease a tractor, fix a flat, patch the roof, repair the back door step, and things like that, but my informa-

tion is that most technical aid comes on paper, and me and King Saud ain't very interested in that kind of help.

It's the cities that need technical aid, I don't have any parking problems out here on this farm, and when the government gets around to figuring out the kind of assistance a depressed area like this needs, it can skip the technical part and just send me the money. I'll keep it out of the hands of the Russians.

Yours faithfully,
J. A.

Charles Michael of Goodwell, Okla., spent the week end with his parents, Rev. and Mrs. J. F. Michael.

Jerry Lindsey of Baylor University in Waco was a week end guest of his parents, Mr. and Mrs. Troy Lindsey.

Waymon Smith of Baylor University in Waco spent the week end with his parents, Mr. and Mrs. A. L. Smith.

BAPTISTS BELIEVE . . .
THE CHURCH OF THE LIVING GOD

Baptists believe that a visible church is a congregation of baptized believers, associated by covenant in the faith and fellowship of the gospel; observing the ordinances of Christ; governed by his laws; and exercising the gifts, rights, and privileges invested in them by his word; that its only proper officers are bishops or pastors, and deacons, whose qualifications, claims, and duties are defined in the New Testament.

Baptists believe that the church with all that pertains to it is strictly a New Testament institution.

The Baptist view of the constitution and polity of the church is that each church is a free, independent, and self-governing body. It is made up of regenerate men and women, believers in Christ, who have been immersed upon a profession of their faith in Him. It is based on and embodies the spiritual principles of Christianity. There is no way to classify believers in the church other than as spiritual equals.

The pastor and deacons are not ecclesiastical superiors. They perform certain functions and discharge certain duties, but they are the servants of the church. The church is responsible directly to Christ within the limits of its own life. The church is the final authority on all debated questions. But, in its decisions the church is directly responsible to Christ and must look to the New Testament as the law of Christianity by which it is to be governed.

Christ organized the church so that his followers would have a divine institution through which to co-operate in the work of preaching the gospel of repentance and remission of sins to all nations. The church is ideal for co-operation. In it the followers of Christ are joined together in an organization with divine sanction—a brotherhood of kindred spirits made one in Christ by the regenerating power of the Holy Spirit—for the purpose of making Christ known to the world.

Accepting the New Testament as the inspired revelation of Christ, a church must strive to follow its teachings and to observe its requirements in worship and unity of organization. Baptism and the Lord's Supper, the two divinely instituted ordinances, must be kept true to the New Testament pattern.

Baptists believe that to be a true New Testament church a local church organization must (1) require personal acceptance of Christ and scriptural baptism by immersion before membership, (2) be self-governing and democratic, (3) maintain its purity by making Christ supreme, (4) commit itself wholeheartedly to carrying the message of Christ to all the world.

Conservation Practices Can Be Carried Out On Land Placed In The Soil Bank

Land which has been placed in the Soil Bank, either the Acreage Reserve or Conservation Reserve, is still eligible for Federal cost-sharing in carrying out practices under the Agricultural Conservation Program (ACP), Tom Prater, extension farm management specialist, reminded Texas farmers this week.

But, he said, applications for cost-sharing for conservation practices must be filed with the county ASC committee before any practice is undertaken. Too, the county committee is the best source of information on practices which have been approved for ACP cost-sharing in the county for this year. Approved practices vary by counties, therefore, checking with the county committee is very important.

Applications are now being received for the 1957 ACP at most county offices. All applications for approved practices that are received in time for inclusion under this year's program will receive equal consideration, said Prater.

If ACP practices are carried out on land placed in the Soil Bank, the Soil Bank provisions of no grazing and no harvesting must, of course, be met. Some practices which are not eligible for assistance under the Conservation Reserve land if approved by the county ASC committee. Assistance, however, cannot be given under both programs for the same practice on the same acres.

The safe bet, said Prater, is to contact the local ASC committee and find out what is available for helping conserve and build up your farm land.

BIRTH ANNOUNCEMENT

Mr. and Mrs. Bob Gray of Lubbock are announcing the arrival of a son on February 14th. He weighed 8 pounds and 5 ounces and has been named Charles Robert. Grandparents are Mr. and Mrs. Weldon Floyd and Mr. and Mrs. Hoyt Gray. Mrs. Gray was with them until last week helping take care of the little fellow.

Death Claims Bertha Sweatt On Wednesday

Miss Bertha Sweatt, 77, passed away at her home about 8 miles west of Munday at 3 a. m. Wednesday. She had been seriously ill for several weeks.

Funeral services were scheduled for 3 p. m. Thursday from Gillespie Baptist Church, with the pastor, Rev. Marvin Burgess, officiating. Burial will be in the Gillespie Cemetery under direction of Warren Funeral Home of Knox City.

Miss Sweatt, a resident of Knox County for many years, was born October 31, 1880.

She is survived by two sisters, Miss Flora Sweatt of the home and Mrs. Ed Herndon of McKinney; three brothers, Gordon Sweatt of Kress, Lloyd Sweatt of Munday and Cecil Sweatt of Lovington, N. M.

MUSICADE TICKETS

Advance tickets are now on sale for the Mogul Musicade which will be on March 15 in the Grade School Auditorium at 8 o'clock.

Tickets may be purchased from any band student, at the Chamber of Commerce office or from Mrs. Bob Brown at the Rexall Drug Store.

Mrs. A. A. Smith and Mrs. Doug Moore were business visitors in Abilene one day last week.

Mrs. Jerry Guinn and daughter, Jan, visited relatives in Tulla over the week end.

Jot Tynes was a business visitor in Big Spring the first of this week.

H. B. Stubblefield and Charley Haynie, Jr. were business visitors in Fort Worth over the week end.

J. C. Harpham was a business visitor in Eagle Pass the first of this week.

Mr. and Mrs. Ray D. Ford and children visited her mother in Seymour last Sunday.

Little Eddie Broach of Dallas spent last Monday with his grandmother, Mrs. Nora Broach.

Mrs. Shelton Phillips visited

Heart Campaign Runs Into March

Volunteer workers for community chapters of the Texas Heart Association in many areas of the state are continuing their 1957 Heart Fund campaign past the end of February. It has been announced by Dr. D. D. Warren of Waco, THA president, and Howard Walker of Lubbock, THA board chairman.

"Inclement weather in many parts of the state in early February, as well as on Heart Sunday, February 24, has caused numerous local chapters of the Heart Association to continue their efforts during early March," Dr. Warren explained.

Dr. E. N. Jones of Lubbock, president of Texas Technological College and chairman of the 1957 Heart Fund in Texas, pointed out that "contributions still may be made to volunteer workers of community Heart Association, or may be mailed to 'Heart,' care of the postmaster of the donor's community."

Results of the record-setting Heart Sunday staged in many communities on February 24 still are being tabulated, Texas Heart Association officials reported. Early reports from local chapters throughout Texas indicated that "more communities than ever be-

Mrs. A. B. Warren and her mother, Mrs. J. W. Medley of Haskell, and her sister, Mrs. Joe Jackson of Santa Rosa, N. M., visited their sister, Mrs. Frank Burton, and family in Whitehouse from Wednesday until Friday of last week.

fore took part in the 1957 Heart Sunday campaign and that Heart Sunday contributions in 1957 will reach a new record total," Dr. Jones said.

Majority of the funds contributed to the 1957 Texas Heart Fund will remain in the state and the local community for use in furthering medical research into the causes and possible cures for heart ailments, for medical and lay educational work and for community heart programs, Dr. Warren pointed out. Remainder of the Texas contributions to the Heart Fund will be used by the American Heart Association for similar work, the Texas Heart Association president explained.

GARDENING HINTS

Has the gardening fever hit you yet? If so, you will have lots of company in Texas because there are some half a million gardens planted in our state each year.

Why do so many people gar-

den? Here are the main reasons. Quality—This is the big selling point. You simply can't beat garden fresh vegetables picked at the peak of quality.

Saving—A good home garden can mean a sizable saving on family food budget. The estimated average saving is \$100.00. Then, of course, you will just naturally use more good vegetables in your meals. And this could help bring about better health for the whole family with an additional saving.

Fun—Gardening provides an enjoyable hobby, a chance to relax and a release from tension.

If you plan to raise your tomato plants here are some varieties which the Texas Agriculture Experiment Station at Iowa Park recommend for our area: Red Cloud, Bounty, Firesteel, Danmark, and Vallant. All of these are large fruited types. Then there is the Improved Porter which is a smaller tomato.

Power Units

For Your Irrigation Needs

There's a big difference between rolling a car over a smooth highway with frequent starts and stops and plenty of coasting, and dragging a heavy stream of water up from the depths of the earth, hour after hour, day after day and week after week.

That's why it pays, when laying out your irrigation program to choose power engineered and built for the really tough jobs.

Allis-Chalmers Power Units
Cheaper to Maintain — Cheaper to Operate — More Dependable!
