

Kracker KrumbS

Odd Bits Salvaged
By The Editor

Old pictures bring back memories, as the letter we received from D. J. Brookerson of Seymour, pioneer attorney of this area, a few days ago. A copy came to us, and another to C. L. Mayes. Bet you'd like to read it. Here it is:

k-k

"I have just received my issue of the Munday Times, and am clipping that picture of the 5 founders of Munday.

"I knew them all well, and W. A. Earnest's picture looks very natural, as well as Walter Cousins and Frank McClelland. I had not thought of Carland Sherrod in a long time.

"Yes, I was in Knox County then, and I first taught school at Gillespie in the fall of 1901 and spring of 1902. There was not a post office south of the Brazos River, except at Rhineland. I received my mail at Kasoga in a private residence.

"I remember when they moved West Munday down to East Munday, and made Munday.

"I was elected county attorney of Knox County in 1902, when they did not have a primary and we ran until the November election, and the women could not vote, so there was less than 600 voters in the county. I think I met every voter in the county that year.

"They did not have a bridge over the Brazos River in Knox County, and I have swum it many a time on my old horse.

"Well, Charley, I congratulate you on being the survivor, and hope you may 'survive' for many years to come."

k-k

We received the royal horse

laugh in our absence last Friday. Before departing Thursday on our annual trip to Amarillo for a press convention, we conversed with a certain bank employee, when mention was made of the time being near for air-conditioned motoring. We rushed to a mechanic and had our little unit hooked up for the summer. When ice was coating the highways Friday, our banker pal wanted to wire us in Amarillo to inquire how the air conditioner was working.

k-k

Matter of fact, we used most of our car accessories during the 235-mile drive. We found the weather rather humid for 135 miles of the trip, hit a miniature sandstorm near Paducah, highway construction just out of Childress, misting rain around Clarendon when we used our windshield wipers, dropping temperatures along the way, and we pulled into Amarillo with our heater on. If there's anything we have in Texas it's variety, even to the weather.

k-k

"Shades of the historic past," we thought as the bearded gentleman walked in. He was tall, slender, erect and with the Abe Lincoln type of beard. We thought we recognized some features, but the foliage served as a pretty good disguise. Presently he introduced himself as Curtis Cook, managing editor of the Wichita Falls papers, and we'd seen him often enough in the past that we call each other by our given names.

k-k

That 28 degree low last Saturday morning did but little damage, apparently. The boys with potatoes in the growing stage report just a few outside leaves burned by the freeze, and we've heard reports there was no damage to the wheat, apparently. It seemed quite evident Wednesday that spring is really here. We can go ahead and plant, or re-plant our gardens, and hope for that good rain we are needing now to carry wheat on through.

k-k

This Saturday closing for the local post office may be short lived. Since Mr. Summerfield has gotten most of the money he said he needed—41 millions and just six millions short—normal mail service is expected to be resumed.

k-k

Think it over: "When you reach for the stars, you may not quite get one, but you won't come up with a handful of mud, either."

Last Rites For Mrs. Sallie Derr Held At Weinert

Funeral services for Mrs. Sallie Fances Derr, 86, resident of the Pleasant Valley community in Haskell County, were held at 3 p.m. Friday from the First Methodist Church in Weinert.

Mrs. Derr died at 10:30 a.m. Thursday in the Haskell hospital. Services were conducted by Rev. Gene B. Louder, pastor, who was assisted by Rev. H. G. Hammer, retired Baptist minister of Haskell.

Burial was in Pleasant Valley Cemetery under the direction of Holden Funeral Home of Haskell.

Mrs. Derr was born Feb. 21, 1871 at Paris. She married J. W. Derr in Dallas County. The couple lived in Dallas County before settling in Haskell County's Pleasant Valley Community.

Survivors include two sons, Vern of Weinert, and Bud of Haskell; four daughters, Mrs. Emmett Couch of Haskell, Mrs. Howard King of Portales, N. M., Mrs. J. R. Terrill of Wichita Falls, and Mrs. Frances Ford of Snyder; one brother, Don Kirk of Lancaster; one sister, Mrs. W. A. Carr of Dallas; 21 grandchildren and 39 great-grandchildren.

Pre-Easter Services Held This Week At Methodist Church

Rev. J. F. Michael, pastor, is conducting a series of pre-Easter services at the First Methodist Church this week, with services being held nightly at 7:30 o'clock. The services will close with the Easter service next Sunday morning at 11:55. At the close of this service, reception of children into the church, as well as others who desire membership, will be held.

The pastor is preaching inspirational sermons on the life of Christ up to His death on the cross and His resurrection. Services will be held Thursday and Friday evenings, but no service is scheduled for Saturday. The regular Sunday evening service will be at 7 p.m. the pastor stated.

REVIVAL AT GOREE METHODIST CHURCH

A revival meeting at the Goree Methodist is now in progress and will continue through Easter Sunday. Walter Hadley, pastor, is conducting the services. Services are being held each night at 7:30 and regular services will be held on Sunday.

Oil Activities

Several new producers in the county were completed last week, including the following:

Johnson and Newman of Plainview No. 9 Ross Bates, three miles northeast of Goree, pumped 80.17 barrels of 36 gravity oil per day from perforations at 1658-70 feet. No. 10 Bates pumped 83.65 barrels per day from perforations at 1657-69 feet. No. 11 Bates pumped 58.16 barrels per day from perforations at 1676-81 feet. Wells were bottomed at 1700-1743 feet.

Anderson Petroleum Co. No. 6 H. C. Hawes, 1 1/2 miles southeast of Goree, pumped 41 barrels of 35 gravity oil per day from perforations at 1822-30 feet, bottomed at 1865.

Fain and McGaha No. 3 Mrs. Naomi Johnson, two miles northwest of Goree, pumped 48 barrels of 37 gravity oil per day from perforations at 1908-10 feet, with total depth at 2106.

J. C. Mann Jr., et al No. 6 Emmett Patridge, northwest of Munday, pumped 63.25 barrels of 35.9 gravity oil per day from perforations at 2071-74 feet. Hole was bottomed at 2226.

Among the wildcats spotted were: Edward C. Harman of Dallas No. 1 C. J. Bahannon, 10 miles northwest of Munday, to 2400 feet; Harman's No. 1 John W. Goode, five miles south of Goree, to 1900 feet; J. A. Young et al of Seymour No. 1 John Spann, four miles southeast of Munday, to 2000 feet; Ajax Oil and Development Co. No. 1 R. C. Partidge, five miles west of Munday, to 2300 feet; A. R. Dillard Jr. and Sabre Drilling Co. No. E2 C. Hamilton, 1 1/2 miles southwest of Benjamin, to 2600 feet; (Continued on last page)

Knox County Hospital Notes

Patients in the hospital April 15, 1957:

Jim Decker, Goree; Mrs. A. R. L. Losya and baby, O'Brien; Mrs. Ruth Glover, Benjamin; Mrs. J. G. Adcock, Benjamin; Mrs. J. C. Angle, Knox City; W. W. Swearingen, Jayton; M. G. Nix, Munday; Mrs. J. A. Choucair, Munday; Mrs. Jack Stubbs and baby, Knox City; Mrs. Dara Huckabee, Munday; Mrs. Vernon Buckley, Knox City; Mrs. Claude Reynolds, Benjamin; W. H. Dutton, Knox City; Miss Cora Belle Kuykendall, Benjamin; Mrs. J. W. Rutherford, Vera.

Patients dismissed since Monday, April 8, 1957:

Pam Roberts, Benjamin; Bobby Stockton, Knox City; Charlie Bateman, Benjamin; Mrs. C. W. Case, Munday; Fred Glover, Benjamin; Mrs. Victor Thomas, Knox City; T. G. Thompson, Vernon; Ary Williams, Knox City; Jimmy Fitzgerald, Rochester; Ted Clary, Knox City; Mrs. Hershel Tankersley and baby, Knox City; Charlie Clark, Knox City; Lynn Clark, Knox City; Tom Hudson, Amarillo; Mrs. Josie Hester, Knox City; Mrs. Effie Pannell, Knox City; Mrs. John Lewis and baby, Knox City; Bill Faubion, Bakersfield, Calif.; and J. W. Shahan, Goree.

Births:

Mr. and Mrs. Jackie Byrd, Knox City, a son; Mr. and Mrs. Hershel Tankersley, Knox City, a son; Mr. and Mrs. Jack Stubbs, Knox City, a daughter; Mr. and Mrs. A. R. L. Losya, O'Brien, a son.

Youth Revival Set At Weinert

A youth revival is to be held in Weinert at the First Baptist Church on the 25, 26th, 27th and 28th of April. All services are scheduled to begin at 8:00 p.m. except the last which will begin at 3:00 p.m. on Sunday. All young people who are interested in singing in the choir should be there at 7:00 p.m. for the first three services.

Leading the meeting will be the Larry Walker Evangelistic team from Baylor University. The team is composed of Larry Walker, evangelist; Wayne Beckers, song leader; Bobby Taylor, pianist.

All youth of this area are urged to attend each of these services led by this inspiring team.

Annual Meeting Of Farmers Co-op Gin Set For Saturday

Members of the Farmers Co-op Gins of Munday will hold their annual meeting on Saturday, April 20, at 2:30 p.m. in the McNeil building in Munday, M. H. Brumley, gin manager, announced this week.

Guest speaker will be Robert W. Cooper of Texas A&M College. Directors will be elected, and dividends from last season's operations will be distributed. All members are urged to attend this meeting.

Brannon To Speak At Masonic Meet

Bruce Brannon, past grand master of the Grand Lodge of Texas, will be the principal speaker at the 91st District Masonic meeting in Seymour next Tuesday night. Mr. Brannon has traveled and studied extensively in the United States, as well as in foreign countries, and his address will be of interest to all Masons.

The meeting will open with a dinner at the grade school cafeteria at 6:30 p.m., and Mr. Brannon's speech will be in a tiled meeting. All Masons of the area are invited to attend.

FORMER RESIDENT DIES

Mr. and Mrs. Herby Peek attended the funeral of her uncle, Ira M. Owens, in Anton last Monday. Services were held in the Anton Methodist Church and interment in the Tech Memorial Cemetery in Lubbock. Mr. Owens, a former resident of Munday, passed away last Friday.

President Dwight D. Eisenhower, former North Atlantic Treaty Organization Supreme Commander for Europe, accepts a set of miniature flags of the 15 NATO nations from Admiral Jerold Wright, USN, Supreme Allied Commander, Atlantic "SACLANT", as the admiral's international ocean command is known, observed its fifth anniversary April 10. In visiting the NATO headquarters in Norfolk, Va., the President said he had long wanted to pay a call on this international command and express his appreciation for the valuable work it is doing "in maintaining control of the vital Atlantic life lines between the Western Hemisphere and Europe."

"Teen Town," Youth Center At Goree Opened; Many Activities Are Planned

"Teen Town," a youth center for students and ex-students of Goree High School, has been opened in Goree, although not yet completed. Membership fee will be \$1.00 per year, with high school students being active members and associate membership being extended to all ex-students.

A definite set of rules has been set up governing use of the center and conduct of its members. Members of the general board are as follows:

Mrs. Billie Hutchens, chairman; Mrs. Vernon Routon, secretary; Rev. Walter Hadley, treasurer; Vernon Routon, Mrs. W. L. Orsak, Merle Lambeth, Mrs. Curtis Seale, Mrs. Bryan Lawson, Mrs. Eva Rae Estes, Billie Hutchens, Neil Beecher, Calbert Haskin, Jerry Brown, Sharon Hunt, Waymon Edwards, Jeanette Rounton, Nanette Roberts, and Jo Ann Estes.

Members are expected to elect officers at an early date. The center is equipped with ping-pong tables, various table games, candy machine, juke box, Coke machine, miniature pool, and cafe booths. More equipment is needed, and donations of games, odd chairs, draperies, living room furniture and money will be greatly appreciated.

Scheduled to begin at 7 p.m., the 1957 muster program will be held in the corral building at fair park in Haskell.

The evening program will include a chuck wagon supper, regular memorial service, and a short business meeting for election of officers.

A muster is held each year by students and former students of A&M to pay their respects to fellow Aggies who have passed on and as an humble tribute to the Texans who won the freedom of the state at the battle of San Jacinto, near Houston, 121 years ago. All A&M men of this area are urged to attend.

Emergency Feed, Grain Program Being Extended

The following telegram, received last Friday from Congressman Frank Ikard, explains the extension on the emergency feed and grain program:

"Department of Agriculture has just advised that, due to blizzard and drought conditions, emergency feed grain program has been extended in Knox County to take applications through April 29 for supply to carry to May 15th.

NEW PREXY—Effective May 1, E. H. Danner, above, will become president of General Telephone Company of the Southwest to succeed Walter G. Wright, who has been elected vice president of General Telephone Corp. of New York.

Danner moved to San Angelo on April 1, 1956, from Sherman, where he was president of the Texas Telephone Co.

Salk Polio Vaccine Made Compulsory For Entrance Into Schools Of Munday

Action of the Munday School Board in its meeting last Thursday night made it compulsory for students to have the Salk polio vaccine before being admitted into the schools, according to a statement issued Tuesday by W. C. Cox, superintendent.

The action was by unanimous vote of the board, and will become effective with the opening

All Teachers Are Re-elected

Supt. W. C. Cox announced Tuesday that all teachers in the Munday Public School System were re-elected for another term Thursday night in a re-organization meeting of the Munday School board.

Should all accept, the faculty for the 1957-58 term is complete. This includes all teachers in Munday high school, elementary school, junior high school and colored school.

Ray Holcomb was re-elected president of the board, Weldon Floyd, vice president; J. D. Gillespie, re-elected secretary. Other members of the board are John Phillips, A. A. Smith, Jr., Bruce Burnett and Alonzo Cartwright.

Two Boys Invited To Play In Annual Greenbelt Game

Coach Troy Stewart has received an invitation to nominate a lineman and a back from among the seniors on last fall's outstanding Munday Mogul team to appear in the ninth annual Greenbelt Bowl game.

This all-star game will be held in Childress on Friday, August 16, and will feature the top players from many high schools in West Texas and Oklahoma.

Coaches for the game have not yet been named.

of the 1957-58 term of school, it was stated. In addition to polio shots, children must also receive inoculations for diphtheria, whooping cough, tetanus and smallpox by the time they become of school age.

Second Polio Shots
Dr. D. C. Eiland announced Monday that the second polio shots would be given at the Knox County Hospital on Wednesday, Thursday and Friday of next week.

Those of the Munday and Goree area will receive their shots on Wednesday, Knox City and the remainder of the county on Thursday, and those who wish to come from Haskell County on Friday.

The shots will be given in the same manner as the first ones several weeks ago, with the hospital, doctors and nurses all co-operating.

The county health officer emphasized that all those who did not receive their first shots may get them on the above dates, and dates for their second shots will be arranged.

Herring To Manage White's In Abilene

New manager of the White Stores, Inc. in Abilene is Weldon Herring, who succeeds W. R. Paine. Paine is being transferred to the White Store in Odessa.

Herring has been with White's for seven years, starting at Wichita Falls as a salesman and working up to the assistant manager's post. He was transferred to Dallas to be manager of a store there for four years.

Born and reared in Munday, he is married to the former Margie Cuddy of Munday and they have one son, Robert Lynn, 2. The family is living at 4090 Richmond Street.

Before becoming associated with White stores, Herring worked with the Blacklock Home and Auto Supply in Munday for four years.

Herring said the new White store in the River Oaks Village Shopping Center is expected to be completed in about 90 days.

Farm Bureau Meetings Set In Knox County

L. B. Patterson, president of the Knox County Farm Bureau, has announced a meeting at the Munday school lunchroom for 7:30 p.m. Tuesday, April 23.

The purpose of this meeting is to discuss current legislation affecting farmers that is pending at Austin. Cotton farmers are urged to attend and discuss the cotton program.

A 4-state meeting is being held in Dallas on April 24. This meeting is sponsored by the American Farm Bureau Federation and its purpose is to discuss whether cotton growers should have a wider choice of cotton programs to be voted on in the referendum next December.

Also present at the Munday meeting will be David Williams, district director of Group Hospital Service, Inc., who will explain the special reopening of the Farm Bureau Blue Cross group. This special campaign is designed to permit those who belong to the Farm Bureau, or who join during the campaign, to enroll for hospital and doctor prepayment without serving the usual six months eligibility period.

Mr. Patterson is urging all members, as well as non-members, to attend.

Other meetings will be held at Vera on April 25 and at Knox City on April 22. All meetings will begin at 7:30 p.m.

REV. MART HARDIN

Rev. Mart Hardin To Hold Revival At Gillespie

The Rev. Mart Hardin, pastor of the O'Brien Baptist Church, will be the preacher for the spring revival meeting at the Gillespie Baptist Church, April 21 through 28, announces the pastor, Rev. Marvin E. Burgess. Services will be held daily at 10:30 a.m. and at 8:00 p.m., with prayer meetings at 7:30 preceding the night services.

Rev. Hardin grew up in the Sunset community and attended school with many of those to whom he will be speaking next week. He is a graduate of Texas Tech and of Southwestern Seminary.

Music for the services will be under the direction of Fred Reddell, Jr., with E. G. Parkhill as pianist.

Notaries Public Will Be Appointed

Secretary of State Zollie Steakley has announced that he will reappoint persons now holding notary public commissions but that such persons must re-qualify by the filing of a new oath and bond with the County Clerk of his residence between June 1, 1957 and June 10, 1957.

Steakley emphasized that notaries public should not send requests for reappointment or for commissions directly to the Secretary of State. The law specifically requires the County Clerk to approve notary bonds.

Any person not now a notary who desires appointment should apply to his County Clerk between May 1, 1957 and May 20, 1957. Application during this period will assure prompt attention before the rush procedure of reappointing present notaries.

Secretary of State Steakley further pointed out that each person applying for a commission as a notary public must be at least 21 years of age and a resident of the County for which he is appointed. The exact name and permanent address of the applicant must be furnished the County Clerk.

Weather Report

For seven days ending 7 p. m. April 16, 1957 as compiled by H. P. Hill, U. S. Weather Observer.

SOUND, PRACTICAL SAVINGS

By Robert W. Lucas, Editorial Page Editor,
 The Denver Post.

Every so often someone rises up to protest the federal government's promotion of U. S. Savings Bonds. The citizen could earn more interest on common stocks or municipals, it is said. Or inflation overcomes the increments at maturity; and the government ought to issue "purchasing power" bonds to play square with the people.

U. S. Savings Bonds are, in principle and in fact, the soundest and most practical source of mass savings in the world today. Why? Because their earnings, though modest, are certain. They are promptly convertible. And even though one can point to a multitude of blue chip alternatives in today's salubrious economic climate, the Savings Bond is the real rock in heavy weather.

If every American were born with a built-in instinct of thrift; if all persons found easy access to comprehensible and honest financial counseling; if every man were endowed with a little "mad money" that he could afford to lose while breeding it with opportunity—that would be one thing. But such is not the case. So the people, the masses of the people, need inducements to simple and sure savings—bonds paid for by withholding, for example. And Uncle Sam, who would like to be on a cash basis but can't be, needs the money even though the taxpayers have to pay for it, even and including interest to themselves.

No, the people have confidence in their government beyond that which they have in some more remunerative investment. That's why more than 30 per cent of Americans' liquid savings are held in Savings Bonds. Ten million families bought bonds in 1956, and 60 per cent invested through payroll savings. They might have done better. They sure could have done worse. But what they did was safe, sane, and in the public interest—including their own.

We have no hesitancy in recommending, indeed urging thrift and preparedness through savings media provided by the United States government.

AMBRIDGE, PA., DAILY CITIZEN: "Religion, as a well known professor of philosophy once said, 'is a life of adventure, born in aspiration. It matures in purpose and comes to its fulfillment in commitment.' There is a lot of chewy intellectual meat in those words."

The Munday Times is Democratic, yet supporting only what it believes to be right, and opposing what it believes to be wrong regardless of party politics, publishing the news fairly, impartially.

NOTICE TO THE PUBLIC: Any erroneous reflection upon the character, standing, or reputation of any person, firm or corporation which may appear in the columns of this paper, will be gladly corrected upon due notice being given to the publisher at the Munday Times office.

EVIDENCE FROM THE RECORDS

The cost of building construction has just about doubled since World War II, and the cost of the furniture and other things inside our buildings has followed a comparable trend. That is simply a fact. But how many people have adjusted their insurance coverage to take care of this price inflation?

That's a very big question indeed—and, as prices continue to rise, it becomes bigger all the time. The magazine National Underwriter recently asked several fire insurance companies to check their records to find out just how adequate fire insurance coverage is today. The check was made, and widespread evidence of seriously inadequate coverage was revealed. Fire caused \$140,000 loss to an Illinois garage building—it was insured for \$24,000. An upstate New York fire caused a total loss of \$44,479 in a small store—insurance coverage was \$29,100. A dwelling fire resulted in a \$27,700 loss, and there was but \$15,000 insurance in effect. So it goes—such examples could be continued indefinitely.

The point is that millions of people just don't have enough insurance on either their homes or places of business. The policies may have been adequate when they were issued years ago, but they are inadequate now, often to a tremendous extent.

There is, of course, a ready solution to this problem. Carefully inventory your insurable property, missing nothing, and using the yardstick of current prices. Then see your local insurance agent—he'll know how to provide the protection you need at the most moderate cost.

HUNGARY HAS SHOWN THE WORLD

The people of Hungary have suffered the misery of a bloody rebellion, but this sacrifice has not been in vain.

Hungary has shown the world the heartlessness of Russian communism, and will perhaps go down in history as the nation that struck the death blow at government by terror and oppression.

"So far as our internal economic forces are concerned, I have no fear of a serious depression— if we can stop the march of inflation." . . . Herbert Hoover.

ABUNDANT LIFE BY ORAL ROBERTS

62-Year-Old Man Finds "The Best Way of Life"

Andrew and his friend were following Jesus from the River Jordan where John was baptizing converts. Jesus turned and asked them this question. What seek ye?

I ask you the same question: "What are you seeking? What are you looking for in life?" Naturally, you will answer, "I want to be happy."

The best question that would follow is this: "What will it take to make you happy?" And there our ways begin to divide. Some will say that to be popular is important, to others, a success in athletics, someone else will wish riches and another will seek fame. But again—granted that all of these things were yours, would you be truly happy? I think not!

All these "things" can contribute to your happiness, and whatever is right and honorable is certainly in order for you. I believe that God is pleased whenever you achieve anything worthwhile in your life. But there is something that is the real basis of happiness and everything else built upon it. Jesus said, "A man's life consisteth not in the abundance of things that he possesseth, for life is more than meat, and body more than raiment. But if you seek first the kingdom of God and his righteousness; all these things shall be added unto you."

May I tell you my outlook upon God and the relationship that he wishes for us in connection with the "things" that might be suggested that bring happiness? I believe that God is glad for us to have the "things" that will bring satisfaction. Why not? Can you think of any legitimate reason why health, strength, food, shelter, finance, joy, and achievement of any honorable goal would offend a father who really loves his children?

Read what Mr. G. P. of Coolidge, Mexico, has to say about this.

"I had an incurable heart condition and the second attack had almost taken my life. My doctor told me that I was living on borrowed time and asked me if I was prepared to go. I also suffered from stomach ulcers. "We attended your campaign in Long Beach, California. The second night of the meeting I knelt at my seat and repeated the sinner's prayer. A feeling that is indescribable came over me. I found healing for both soul and body! I am 62 years old. After all these years I have found the best way of life." Friends, life turns right-side up when you meet Jesus Christ. Try it. It works!

Wonder if they still teach in the schools that the Pilgrim Fathers came to America in search of religious freedom? That's what I was taught.

It is only a half-truth; and a half-truth can be worse than an outright falsehood.

The Pilgrim Fathers did not believe in religious freedom—except for themselves. They were as intolerant toward those who disagreed with them as their per-

secutors had been toward them.

Why is a young man so sensitive about being young?

When I was editor of the Piggott, Ark., Banner in 1920, I got into a controversy with the Editor Post and that paper commented:

"The young editor of the Ban-

BOYCE HOUSE
 Gives You Texas

Wonder if they still teach in the schools that the Pilgrim Fathers came to America in search of religious freedom? That's what I was taught.

It is only a half-truth; and a half-truth can be worse than an outright falsehood.

The Pilgrim Fathers did not believe in religious freedom—except for themselves. They were as intolerant toward those who disagreed with them as their per-

secutors had been toward them.

Why is a young man so sensitive about being young?

When I was editor of the Piggott, Ark., Banner in 1920, I got into a controversy with the Editor Post and that paper commented:

"The young editor of the Ban-

Dr. THERON A. BABER
 Optometrist
 Upstairs Over
 EILAND'S DRUG STORE
 —Fridays Only—

ner should take a few doses of soothing syrup."

This shot really hit the target and I retorted:

"The young editor of the Banner is happy that he has nothing more serious the matter with him than can be cured by a few doses of a simple household remedy, whereas—until science discovers a cure for lunacy—the editor of the Post must remain in his present hopeless condition."

Still reminiscing:
 In 1921, when I went to Eastland to edit the Daily Oil Belt News, the old courthouse had an

CHIROPRACTOR

Phone 4351
Dr. Fidelia Moylette

 Office Closed on Thursdays

iron stairway and I used to run all the way from the first floor to the third floor, two steps at a time.

I can't do that any more—the old courthouse isn't there.

Mrs. Everett B. Hosea and son of Sterling City are visiting with relatives and friends in Munday this week and with her parents, Mr. and Mrs. Elbridge Coffman, in Goree.

OLDSMOBILE

GEARED TO SOUTHWESTERN LIVING

"You'll like it even better when you drive it!"

Neighbor: Say, your new Olds sure looks like a lot of car!

Olds Owner: That's nothing, wait'll you take a ride.

(A few minutes later)

Neighbor: Man-oh-man, where'd all that power come from? I've never felt anything like that before!

Olds Owner: That's Oldsmobile's new J-2 Rocket Engine!

Neighbor: What's that? Tell me how it works.

Olds Owner: When you're driving under ordinary conditions, it uses only one carburetor. That means economy with a capital E. But when you need a sudden burst of power, for safety's sake, you just press the accelerator three-quarters of the way down—and two additional carburetors cut in!

Neighbor: In other words, with J-2, you can have economy when you want it and power when you need it. That's for me!

Olds Owner: Better see your Olds dealer. He's expecting you!

*Optional at extra cost on all models.

Employers Liable Under Revision Of Hot Check Law

AUSTIN—An amendment to the Texas "hot check" law that makes employers liable for paying their employees with checks that "bounce" has been signed into law by Gov. Price Daniel.

Charles T. Lux, executive vice-president of the Retail Merchants Association of Texas, said the new amendment closes a loophole in the "hot check" law. "Until this amendment was signed, a retail business or any other place of business that accepted worthless checks presented in good faith by workers had practically no legal recourse to recover its loss," Lux said.

"Now under the new amendment employers who give checks that prove to be 'hot' are subject to criminal prosecution and may be fined up to \$2,000 and sent to jail for 30 days if the amount involved is less than \$50. If the amount of the worthless check is more than \$50, then the penalty is from two to ten years in prison and a fine up to \$10,000." Lux said there were several hundred cases in Texas last year where employers paid off their workers with worthless checks causing the places that cashed these checks to lose many thousands of dollars.

Prosecution of these cases under the Texas "hot check" law was difficult because provisions did not cover checks given as wages or salaries for services. Lux said the new amendment was endorsed and supported by the members of the Retail Merchants Association of Texas.

Study Club Has Final Meeting Of Year On Friday

Mrs. A. L. Smith, Mrs. J. B. King and Mrs. Tommie Harper were hostesses for a coffee at the final meeting of the Munday Study Club at 9:30 a.m. Friday, April 12. The club rooms were beautifully decorated in spring flowers.

Coffee, nut bread and date bread were served from a coffee table covered with a pink linen cloth. The flower arrangement in the center of the table was purple iris and lilacs.

Mrs. C. P. Baker had charge of the installation of officers. The following were installed for 1957-58:

Mrs. W. O. Ratliff, president; Mrs. J. S. Shannon, first vice president; Mrs. A. L. Smith, second vice president; Mrs. Tommie Harper, treasurer; Mrs. Delmon Alexander, assistant treasurer; Mrs. Leland Floyd, secretary, and Mrs. B. B. Bowden, corresponding secretary.

After the installation, the president appointed the following committee chairmen:

Yearbook, Mrs. J. S. Shannon; Civic and Club House, Mrs. B. B. Bowden; Youth Activities, Mrs. L. R. Forst; Civil Defense and Public Welfare, Mrs. R. M. Almanrode; Fine Arts, Mrs. A. A. Smith Jr.; Library, Mrs. Don Combs; Health and Mental Hygiene, Mrs. J. O. Bowden; Parliamentarian, Mrs. J. C. Borden; Historian, Mrs. G. R. Eland; Federation Counciler, Mrs. R. D. Atkelson, and Reporter, Mrs. C. P. Baker.

Mrs. H. R. Hicks and Mrs. James Carden were extended membership.

The Study Club is planning a bake sale for Saturday, April 20. Contact Mrs. A. L. Smith if you would like to have a home made pie or cake.

Drive carefully. The life you save may be your own!

"GRANDMA'S PANTRY" exhibit in California shows typical amounts and items of food which might make up a meal for families ranging from two to eight. Food in the "Pantry" would be force a family to stay in shelter for days without outside help. (Stockton, Calif., Record Photo)

Mrs. L. D. McGuire Is Hostess For Vera H. D. Club

The Vera H. D. Club met April 9th at 2 p.m. in the home of Mrs. L. W. McGuire. Mrs. Bobby Robertson was co-hostess. "Preservation of Foods" (by freezing and pressure canning) was the program given by food leaders, Mrs. Gaylon Scott and Mrs. Claudell Bratcher.

Procedures for freezing vegetables and fruits were discussed. The importance of using fresh products and the proper packaging materials was stressed. Also the proper methods of blanching and cooling vegetables were brought out. Pointers were given on how long certain foods can be stored without affecting the quality. A demonstration on the cold-packing of vegetables to be canned with a pressure cooker was given.

Mrs. J. A. Fuller gave the opening meditation and led in singing the National H.D. Song. Mrs. Grady Hardin presided over the business session. A report of the District T.H.D.A. meet at Vernon on April 5th was given by Mrs. J. A. Fuller, Knox County Delegate. It was decided to sell vanilla to get a coffee urn for the club.

Refreshments were served by Mrs. McGuire and Mrs. Robertson to the following: Mmes. Levo Kinnibrough, Gaylon Scott, Fred Wiles, Calvin Christian, Ernest Beck Jr., L. D. Allen, J. A. Fuller, Grady Hardin, Sam Shipman, and Claudell Bratcher.

Remember the "42" Tournament being held each Saturday night from April 13th to May 4th. Admission is 25 cents each person. Refreshments free.

Donald Waheeds Are Honored At Dinner, Reception

A dinner and reception was held in the home of Sied Waheed Sunday honoring his son and wife, Mr. and Mrs. Donald Waheed, who have been making their home in Old Mexico.

Mmes. Sied Holloway, Kay Waheed, Sam Holloway, B. Hassen, and Frank Silman assisted Mr. Waheed with preparations of the oriental food and greeting of the guests.

Out of town guests were from Tulsa, Okla., Lubbock, Levelland, Killeen, Dallas, Houston, Sweetwater, Hamlin, Haskell, Rochester and Olton.

LEGAL NOTICE

Sealed bids will be received in the office of J. B. Justice, Tax Assessor-collector until Saturday, May 11, 1957 at 12:00 o'clock on 1942 Chevrolet School Bus being offered for sale. This equipment may be seen at school bus barn.

Board of trustees reserves the right to reject any and all bids.

Bus must be removed from school premises within thirty (30) days from date of sale.

Traffic Mishaps Are Results Of Human Failure

"Most traffic accidents are the result of human failure," J. O. Musick, General Manager of the Texas Safety Association, made that assertion today as this month's Know and Obey Traffic Laws program was inaugurated by the Texas Safety Association.

"Accident records bear this out," Musick said. "In four out of five fatal traffic accidents, a driver violated some traffic law, sign, signal or warning. Since this is the case, the best approach to reducing traffic accidents is to eliminate our failures."

Musick listed the six most frequent driver violations in fatal accidents as excessive speed, failure to yield right of way, failure to keep to the right of the center line, driving under the influence of alcohol, improper passing and disregard of an officer or traffic control device.

"The only solution to this problem is voluntary compliance by drivers and pedestrians," he said. "Most drivers and pedestrians do not knowingly violate traffic laws, but the well-intentioned but errant ones outdo the small percentage of willfully reckless or indifferent drivers in keeping traffic accident figures mounting."

Musick offered the following

rules for safe driving:

1. Know and obey all traffic laws.
2. Drive at a speed that is safe for conditions.
3. Never drive after drinking. Don't drink if you intend to drive.
4. When entering an intersection be prepared to yield the right of way to avoid an accident.
5. Never pass on a hill or curve or at an intersection and do not cut in sharply after passing.
6. Don't hog the road — stay in your lane.
7. Don't follow too closely. Allow plenty of room to stop.
8. Signal your intentions to turn or stop.
9. Read and heed the "Signs of Life."

10. Check your car for safety. Keep it in first class condition.

Highlights of the Texas Broiler Festival to be held in Nacogdoches on May 31 and June 1 will include the selection of a Texas Broiler Queen, a "Texas-sized" broiler barbecue, the awarding of many prizes, the presentation of an outstanding entertainment program and speakers of national reputation. Some 15,000 people are expected to attend the Festival. The Texas Broiler Council is backing the giant-sized affair with assistance from every segment of the industry and those related to it.

SENIORS HONORED BY STUDY CLUB

Members of the Women's Study Club honored the Goree High School seniors with a dinner on Tuesday evening, April 9, in the memorial building. The club president, Mrs. H. D. Arnold, gave the welcome greeting.

The theme of the party room was carried out in entertainment and decorations, which was "an all-round good time." Mrs. Reuben Bates was in charge of the recreation. A hilarious skit, "The Lamp Went Out," was presented by club members and their husbands.

Hosts and guests joins in the contests and games. Singing and a wish for the seniors closed the evening's entertainment.

Attending the party were husbands of club members, high school faculty members and their husbands and the following seniors and guests:

Sammye Bates, Waymon Edwards, Jimmy Routon, Gaylia Mobley, Calbert Haskins, Nell Beecher, Ruthann Beaty, Clifford Bradley, David Moore, Noel Neighbors, Martha Rodgers, Frank Bates, Tommy Harlan, Gaylon Chamberlain, Belva Jetton, Kenneth Searcey and Linda Alexander of Munday.

Mr. and Mrs. Heard Crouch and family of Wichita Falls were visitors in the home of Mr. and Mrs. George Crouch over the week end.

Jimmy Roberts of Wichita Falls spent the week end with his parents, Mr. and Mrs. Cannon Roberts.

Mr. and Mrs. Lock Atkinson visited Mr. and Mrs. Charles Atkinson and children in Houston recently.

Waymon Lane and Buster Lane spent the week end with Mr. and Mrs. Leo Prater and family in Sweetwater.

Douglas Beaty of Hardin-Simmons University in Abilene spent the week end with his parents, Mr. and Mrs. Jack Beaty.

Doyle Lowrance of Cisco visited his parents, Mr. and Mrs. Jeff Lowrance, last week end.

Mr. and Mrs. Rube Taylor of Throckmorton spent Sunday with her mother, Mrs. Jim Hammons and sisters Mrs. Ammie Edwards and Mrs. Al Denham.

Mr. and Mrs. Lock Atkinson and Mr. and Mrs. William Atkin-

GOREE SENIORS TO PRESENT ANNUAL PLAY

The senior class of Goree High School will present their play, "Hobgoblin House" by Joy Tobias, on Tuesday evening, April 30, at 7:30 o'clock.

The play is a mystery comedy which takes place in the Ozark foothills in the early Spring. James Carver, principal, is the director.

Members of the cast are Glenda Thornton, Ruth Ann Beaty, Martha Nell Rodgers, Gaylon Chamberlain, Sammye Bates, Kenneth Searcey, David Moore, Calbert Haskins, Nell Beecher, Jimmie Routon, Frank Bates and Gaylia Mobley.

son visited Mr. and Mrs. Fred Jones in Floydada over the week end. They returned by Roaring Springs and visited Mr. and Mrs. John King.

Bobby Denham, son of Mr. and Mrs. G. O. Denham of Goree and Miss Doris Loraine Varner of Jackson, Mich., were united in marriage on Saturday, April 6, in the home of Mr. and Mrs. Otho Denham of Amarillo.

The bride wore a pink linen sheath dress with white accessories. The couple will be at home in Amarillo, where both are presently employed.

Mr. and Mrs. W. F. Prater of Haskell visited in the home of Mr. and Mrs. Jeff Lowrance last Sunday evening.

P. J. Camp was admitted to the hospital last Monday afternoon for medical treatment.

Mrs. Homer Moore and daughter, Gloria, and Mrs. Tom Miller went to Midland last Tuesday to see Mrs. Moore's daughter, Mrs. Moore remained for a longer visit.

Coastal Bermudagrass continues to grow in favor with Texas farmers and stockmen. Extension Pasture Specialist E. M. Trew lists several advantages for the hybrid over common Bermuda. It grows earlier in the spring and later in the fall; is more resistant to drought, disease and nematodes and above all is a higher producer of forage. Local county agents can supply detailed information on Coastal Bermuda.

Drive carefully. The life you save may be your own.

MODERN HOMEMAKING

Recipes . . . Household Helps

By Julia Hunter

HOME ECONOMICS DIRECTOR, LONE STAR GAS CO.

Raw, cooked, canned or frozen vegetables are a valuable natural source of many vitamins and minerals essential to our daily diet. Good vegetables bring real variety to the modern homemaker's meals.

Shopping for vegetables early in the morning will probably give the best selection in choice products. When shopping, look for freshness to get full value. Leafy greens should have a crisp, bright, fresh look. Stems should be crisp and well developed.

Weight in comparison to size counts when shopping for lettuce and cabbage. Heads should be

firm and heavy. Avoid an excess of loose wrapper leaves.

Potatoes, sweet potatoes, carrots, turnips and onions should be selected for firmness and uniform shape. Avoid abnormal shapes and sizes, dried and shriveled skin, wilted tops or an excess of roots.

Flower family vegetables—broccoli, cauliflower and artichokes—should be checked for firmness, bright color and good shape. Seed vegetables such as peas and beans should be plump and well-filled.

Proper storage of vegetables is just as important as their careful selection. Green leafy vegetables keep best when slightly moist and stored in a ventilated container in the refrigerator. Remove outside wilted leaves before storing.

Root vegetables keep well in a dry, cool, well-ventilated spot. They keep best if the stem ends are left on.

To preserve color, flavor and food value in vegetables, observe two simple rules when preparing them. First, prepare vegetables as soon as possible before serving. Second, cook vegetables in just half-inch boiling water (only water that clings to the

leaves for spinach), in a covered saucepan. Bring them to a boiling point, reduce the flame to simmer and simmer the vegetable until tender.

Recipe Of The Week
TASTY SUMMER SQUASH: Slice and cook six medium summer squash in 1/2-inch boiling water in a covered saucepan over simmer flame 15 minutes or until just tender. Remove cover and continue cooking three minutes to evaporate part of liquid. Drain well. Mash with fork. Add one tablespoon bacon drippings, 1/2-teaspoon salt, 1/4-teaspoon pepper, 1/2-teaspoon grated onion and one tablespoon minced green pepper. Mix well. Pour into greased one-quart baking dish. Sprinkle with 1/4 cup grated American cheese. Bake in moderate gas oven (350 degrees F.) 30 minutes. Makes 4 servings.

jurisdiction, as in the case with diplomats' families and certain travelers.

In 1898 Chinese parents who themselves could then not become citizens became parents in San Francisco of a son, Wong Kim Ark. Years later this fact settled the whole thing for the U. S. Supreme Court—he was a citizen. Nothing else mattered: not his parentage nor blood, nor his race, color, creed or ancestry.

Not all American Indians used to be citizen—only those whose tribal treaties with the federal government included citizenship. But in 1924 Congress made all American Indians, no matter what tribes, United States citizens.

(This column, based on Federal law and prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

Given under my hand and seal of said court, at office in Benjamin, Texas, this the 15th day of April A. D., 1957.

A. E. Propps, Clerk
District Court, Knox County,
Texas

BETTER FRIED EGGS: Eggs stay warm and tender, no hard lacy crusts . . . no spattering grease.

TASTIER COFFEE: Coffee never boils over . . . the Burner with a Brain keeps it at right temperature.

IT'S THE LAW in Texas

YOU, CITIZEN

Proud men and women, ancient and modern, who fought free of tyranny, have taken the name of citizen. Others may call themselves subjects, denizens, slaves, etc.

For the Greeks, with rare exceptions, citizenship came by blood. You had to be born a citizen's child.

But the Romans, like us, found ways to make citizens of those who came up to certain standards: As Gibbon said, the Romans sacrificed "vanity to ambition; and deemed it more prudent as well as honorable, to adopt virtue and merit for her own wherever found—among slaves, strangers, enemies or barbarians."

American citizenship is an office which carries power, privilege, and duties. Only citizens can do certain things—for example, teach in many schools and colleges, become lawyers, hold certain political or civil service offices.

You are a citizen if naturalized or born in the United States (subject to its jurisdiction); and in certain circumstances if born outside the United States to parents of whom one or both are American citizens.

As in ancient Greece, citizenship in most lands comes through blood, but American citizenship comes chiefly by place—where you were born.

(So dig out your birth certificates or naturalization papers if you can find them, and put them away safely; you may need them for many reasons, for example, to travel in foreign lands under U. S. protection.)

The Fourteenth Amendment holds that place of birth fixes native citizenship—all persons born in the United States. Your birth in this country automatically makes you a citizen unless you are not subject to U. S.

Goree, With Royalty From Three Wells, Becomes Prosperous With Oil Activities

Editor's Note: The following story by Hamilton Wright appeared in a recent issue of the Abilene Reporter-News, and is being reprinted by request:

Goree sits atop the world, municipally speaking.

It gets one-eighth royalty from three oil wells producing an allowable of 108 barrels a day. The income goes into the general fund.

It sells everybody water at the rate of 10,000 gallons for \$2. Its bonded indebtedness is only \$13,000.

"And we've got enough with incoming taxes to pay it all off now," J. B. Justice, city manager, declares.

Goree residents may not get rich quick but they all stand a

prospective of sharing in the oil now being produced throughout the city. In the city limits of this incorporated town there are 14 producing wells. And a new city ordinance allows a well to be drilled on every city block. All property-owners in each block share equally in the oil royalty.

In the Goree Independent School District there are now over 100 producing wells, many flowing. The newly developed field begins southwest of town, "goes through and around the town," north and extending westward.

The city's modern sewer system has been paid out.

Recently, Justice says, the City issued two more permits for in-town drilling and several others are in process of being asked for. One thing that helps the city is that vacant lots that had been delinquent for taxes are now being cleared, Justice remarked. The wells average 1800 feet deep. Some flow. Some producers have potentials of 400 to 500 barrels per day.

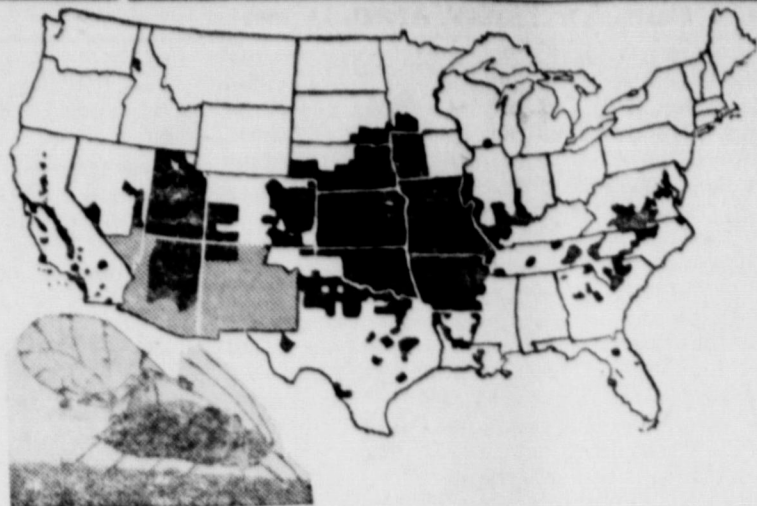

A Goree ordinance allows a well to each city block. Permit brings \$100 into the City's exchequer. Lease are bringing as high as \$1,200 a block.

Definitely, business has increased with all merchants and others.

The city pumps four water wells, 55 feet deep, which produce from 150 to 250 gallons a minute.

Mr. and Mrs. Bill Morris of Hereford visited friends here a while Tuesday.

Mrs. P. B. Baker was a visitor in Wichita Falls last Tuesday.

SPREAD OF — The spotted alfalfa aphid is shown on this map. The lighter area indicates the original infestation in 1954.

The black area shows how far the pest had migrated by 1956, and the enlargement in the corner shows the winged form of the pest on an alfalfa shoot.

NEWS FROM VERA

(Mrs. Theima Lee Coulston)

Mr. and Mrs. Harold Hurd spent Monday through Thursday of last week with his mother, Mrs. T. M. Hurd.

Mr. and Mrs. Lee Richards and Mr. and Mrs. Rube Richards visited relatives in Spur over the week end.

Mrs. W. T. Couch, Don and Dana of Seymour visited with Mr. and Mrs. Tom Hardin and boys Sunday.

Mr. and Mrs. Travis Gore of Wichita Falls spent Sunday with his parents, Mr. and Mrs. H. H. Gore.

Mr. and Mrs. Pete Feemster of Weatherford spent last week end with her mother, Mrs. W. P. Hurd.

Ernest Albright is recuperating at his home from a stay in the hospital in Seymour and Wichita Falls.

Mr. and Mrs. Paul Weiss, Barbara and Gary and Freida Wiles visited Sunday with Sonny Hrbacek in Lockney.

Mrs. Clyde Beck underwent surgery in the Baylor County Hospital last Wednesday.

Mr. and Mrs. Clifford Boone and girls visited over the week end with her mother, Mrs. Viola Sanders and Mr. and Mrs. Carl Kuchan and Barbara.

Rev. and Mrs. S. A. Wolfe visited one day last week with their son, Mr. and Mrs. Cloyce Wolfe and children in Wichita

Falls. Mr. and Mrs. C. W. Carmack of Comanche visited in the home of their daughter, Mr. and Mrs. J. H. Adkisson and family over the week end.

Sunday guests in the home of Mr. and Mrs. Alvis Petty were Mr. and Mrs. Roy Petty and boys of Benjamin, Mr. and Mrs. Jack Petty and children of Portales, New Mexico, and Mr. and Mrs. Jim Petty of Benjamin.

Mr. and Mrs. A. M. Bradford accompanied by their two sons, visited over the week end with Mr. and Mrs. Garvin King and family and Mr. and Mrs. J. N. Armstrong and family in Dallas. Elizabeth Brown was a week end visitor in the home of Mr. and Mrs. J. B. Williams and family in Lubbock.

Mr. and Mrs. Willis Peddy and Patsy attended the wedding of Jack Peddy in Lubbock over the week end. They also visited with their daughter and son, Mr. and Mrs. J. C. Shipman and family and Mr. and Mrs. Buster Peddy and family.

Bobby Trainham visited Sunday with the Ed Trainhams in Holliday.

Mr. and Mrs. Morris Christian and family of Seymour visited Sunday with his parents, Mr. and Mrs. Luther Christian and Diane.

Sunday visitors in the home of Mr. and Mrs. C. A. Parham were Mr. and Mrs. Tom Clark and Pat of Lubbock.

Mrs. Ina Murphree and Oga D spent the week end with Mr. and Mrs. Harland Boone and family

4-H'ERS TO TRY FOR SCHOLARSHIPS AND CLUB CONGRESS TRIPS

CHICAGO—Hard work and a determination to make the best better will earn college scholarships worth \$400 each for 18 national winners this year in the 4-H poultry, field crops and entomology programs, the Cooperative Extension Service announced today. In addition, 48 state champions will receive an all-expense trip to the 1957 national 4-H Club Congress to be held in Chicago early in December, and county blue award groups will get handsome gold-filled medals of honor.

The 4-H boys and girls who enroll in the poultry program will learn the latest methods in poultry and egg production, and in marketing. Last year 4-H Club members handled 9½ million birds, according to the Extension Service. The Sears-Roebuck Foundation will continue to provide all awards.

Incentive awards in the 4-H field crops program will be provided by the Arcadian Products Department of Allied Chemical and Dye corporation. More than 800,000 acres were cultivated, planted and harvested by 4-H'ers carrying the field crops project last year. Members are encouraged to demonstrate to others what they learn about soil nutrition and fertility, as well as recommended crop production practices for their particular locality.

Introduced to 4-H Club only six years ago, the entomology project last year alone helped 28,000 members. Knowing the difference now between an ant and a termite could save many dollars to homes and farm buildings later on, cautions an entomologist. And this is one of the many valuable lessons taught in the 4-H entomology program. The Hercules Powder company is donor of awards.

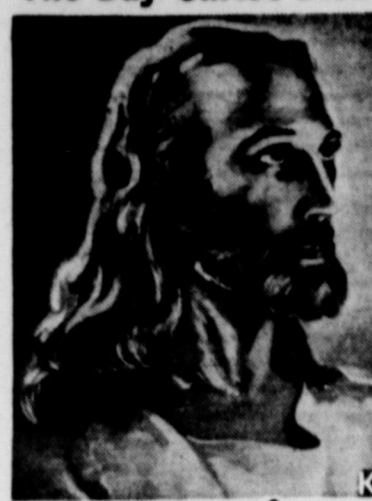

Arrangements with the awards donors were completed by the National Committee on Boys and Girls Club Work, Chicago. Details about participation in these national 4-H awards programs and others can be obtained from the state or county Extension Service office.

Drive carefully. The life you save may be your own!

in Seymour. Mrs. Joe Gray of Munday visited Sunday with her parents, Mr. and Mrs. J. T. Brown.

Vera High School was represented by Carol McGaughy, Floyd Brown, Lyndal Struck, Elmer Rutledge and Benny Carl Coulston at the Regional Inter-scholastic League in Lubbock, last Saturday. Benny Carl also visited with his aunt, Mrs. Vernie Horn and children in Lubbock.

The Day Christ Died

The first detailed hour-by-hour account ever written of Christ's last day on earth is now being told in McCall's magazine. The book, to be called "The Day Christ Died," is by Jim Bishop who wrote "The Day Lincoln Was Shot," last year's best seller. Bishop visited the Holy Land and interviewed religious experts of all faiths during the research for this new book. After publication this month in McCall's, "The Day Christ Died" will appear in book and movie form. Hollywood has bought the film rights for \$350,000, and serial rights have already been purchased in Sweden, France, and England.

Mrs. Ben Yarbrough, Mrs. Virgil Peddy and Mrs. Henry Moylette were visitors in Wichita Falls last Monday.

Wage Increases Given Phone Workers

General Telephone Company of the Southwest and the Communications Workers of America, Local 6180, have signed a 12-month contract after 31 days of negotiating, according to F. W. Hamper, Industrial Relations Director for the Company.

Highlights of the new contract include increased wages and benefits which amount to nearly one-half million dollars and a provision which will allow the company to schedule plant craft employees on other than a five consecutive work week.

Wage increases up to 12 cents an hour were granted depending upon the group and classification of the employee.

Some employees of the former Texas and Oklahoma Telephone Companies will receive additional wage increases in order to place them on the General Telephone Company wage schedules.

Mr. and Mrs. W. C. Hertel and Mr. and Mrs. William Hertel and son, Mark, were business visitors in Fort Worth the first of this week.

Mr. and Mrs. Sam Salem of Dallas visited relatives and friends her last Sunday and Monday.

A new age of automobiles begins with this car

Touch a button—in less than a minute the steel top disappears magically into the trunk—and you're in a supremely elegant convertible. It's two cars in one!

Here Today! The FORD SKYLINER—world's only Hide-Away hardtop

Once in a long, long while a car comes along that people remember and talk about for years after its introduction.

The first model "A" Ford was such a car...

The first Ford V-8 was such a car...

The first Ford Thunderbird was such a car.

Today Ford Division is proud to announce still another car that many say is destined to become the most famous Ford of all: The Skyliner—world's only hide-away hardtop.

If you plan to buy a new Ford, or already own one, the fact that Ford created this car is important to you. For all the exhaustive research, planning and testing that went into the Skyliner is evidence of the engineering skill you get in every Ford model.

The Ford SKYLINER, the only all-steel hide-away hardtop, is a car for history.

This is an old dream of Detroit, a dream of two generations of motorists.

And today Ford has made that dream come true—in steel.

But the story behind this dream is a story of men who refused to accept "no" for an answer in the Ford tradition they kept striving toward the goal long after others had given up the chase.

To understand this Ford spirit you must go back to 1908. That was the year

when many Detroiters smiled smugly as Henry Ford announced, "We will build a motor car for the great multitude... so low in price that no man making a good salary will be unable to own one."

And they did.

Today, nearly a half century later, Ford continues to cause the "experts" to change their tune. When you see this all-steel hardtop that retracts into a convertible, you'll be seeing a car that many said would never be mass-produced.

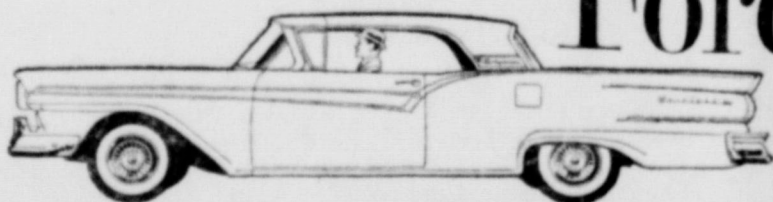

But Ford did it.

It was December 1956—after eight years of research, planning, experimenting and testing—when Ford unveiled this masterpiece... unveiled it amid all the pomp and splendor of the New York Automobile Show.

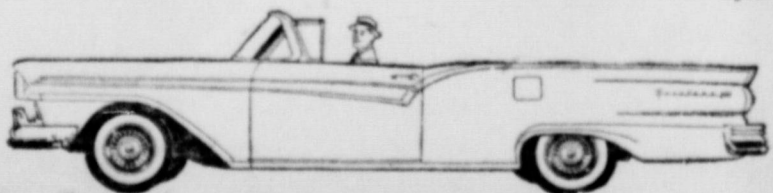

And now this history-making car, this prototype of a whole future generation of cars, is ready for your own personal inspection in the showrooms of many Ford Dealers.

Plan to see it soon. And ask your Dealer to show you the exciting advances in all models of the new Ford line for '57.

It's the newest new kind of **Ford**

1. It's an all-steel hardtop with sleek Victoria styling 2. Touch a button and presto! It's a sun-loving convertible!

Medical Milestones

New Fashions in Hospital Care

Hospitals are big business today. The 8,000 hospitals in America make up our fifth largest industry. But a hospital's business is people - its profits are measured in lives saved and bodies restored to health, not in dollars and cents.

A hospital turns its "profit" by serving the members of its community more efficiently and humanely. Mountainside Hospital, Montclair, N.J., is a fine example of a hospital showing a big "profit." In addition to its regular services, this 813-bed community hospital is constantly adding new facilities for the better care and comfort of its patients.

Here are some of them:

- Routine chest x-ray given each patient admitted.
- Bone, blood, and blood vessel banks and supplies of mother's milk immediately available. Mountainside is a member of the New York eye bank as well.
- Home-care service which brings the hospital into patients' homes. Beds, wheel chairs, special equipment are made available - doctors' and nurses' visits are arranged.
- Utilization of new techniques for performing necessary routines. The enema, an old stand-by, shows up in modern dress - in a disposable plastic bottle. The streamlined Fleet enema frees the nurse for more bedside care; it takes less than two minutes in contrast to 15 minutes in bygone days.
- A poison-control program for on-the-spot treatment of chil-

dren who have accidentally swallowed chemical compounds, drugs or household agents.

• A psychiatric service to speed the patient's recovery by helping him adjust to his illness and understand the treatment.

Hospitals throughout America are broadening their horizons in the same way as Mountainside. But a hospital is only as good as its staff and the people who support it. Each year one out of six people becomes a hospital patient. Getting behind the community hospital is the best kind of health insurance for a man and his family.

cate to P.T.A. will be given to a deserving person chosen by a committee appointed by the president. Three hundred dollars will be divided between the three schools according to student percentage and the faculty of that particular school will determine.

A recommendation was made for the consideration of the P.T.A. for one of the goals for 1957-58 that a \$100.00 scholarship be given to a worthy prospective future teacher from the senior class of the Munday High School.

The program was given by the Future Homemakers, modeling their garments that they had made under their homemaking instructor, Mrs. Joe Canafax. Other garments were on display.

Approximately 140 were served refreshments after the meeting which was prepared and served by the girls.

Drive carefully. The life you save may be your own!

Revision In Grade Standards On Wheat Given

Revision in grade standards for wheat is a major victory for wheat farmers and will materially benefit growers in this area, according to L. B. Patterson of Munday, president of the Knox County Farm Bureau.

The county farm leader said that the United States Department of Agriculture followed recommendations of the American Farm Bureau Federation "to the letter" in changing the official standards. He added that the recommendations were based on wheat farmers' benefit that the government's grading system should encourage production of quality grain, and maintenance of quality as wheat moves through trade channels.

The new official standards for wheat become effective June 15. In general the new standards

Local Couple Observe 53rd Anniversary

Mr. and Mrs. E. J. Brazell celebrated their 53rd anniversary on Sunday, April 14. A surprise reunion was held at the American Legion Hall. This was the first reunion since their Golden Wedding Anniversary.

Relatives attending were Mr. and Mrs. Bert Brazell, Mr. and Mrs. Leabert Brazell, Troy, Steve, and Renee, and Mr. and Mrs. Tom Brazell, Butch and Kay, all of Sunray; Mrs. Alton Garrett, Gailia, Alton, Jr. and Gerrie and Mr. and Mrs. O. O. Shue of Abilene; Mr. and Mrs. Gene Brazell, Betty, Virgel, Ronald and Louise, Mr. and Mrs. Otto Brazell, Janice, Janette and Julia, Mr. and Mrs. Frank Garrett, Brenda, Linda and Sue, Mr. and Mrs. Buddy Brazell, Rickie, Mike and Connie Sue, all of Munday, and Mr. and Mrs. Clifton Vaughn, Glenda, Ronnie and Keith of Anson.

Friends who attended were Minister and Mrs. Payne Hattox, Tommy and Laverne of Munday, Mr. and Mrs. Roy Fought of Haskell; Mr. and Mrs. Wayne Hix of Wichita Falls; Fred Wiggins of Munday and Robbie Henderson of Abilene.

reduce the limits on foreign material, shrunken and broken kernels and other classes of wheat in Grade 2. They increase the minimum limits of darks, hard, and vitreous kernels in the subclass hard winter wheat from "more than 25 per cent" to 40 per cent.

The USDA announced that there will be no changes in the method of expressing dockage which will continue to be in terms of whole percentage points, or in the present method of evaluating smutty wheat. The limits of moisture for the special grade "tough wheat" are unchanged for all classes.

Blight Resistant Cotton Variety To Become Available

Texas cotton growers looking for a blight-resistant, open boll cotton may obtain Austin variety commercial seed in 1958, according to Plant Pathologist Luther Bird. It is recommended for areas of the state where an inch staple is desired.

Austin is highly resistant to Texas' most damaging race of bacterial blight and tolerant to the number two race. Resistance is highest where adequate soil moisture and available nitrogen are present. Under blight-free conditions, Austin will yield as much as other open boll varieties grown in Texas. It will prevent 5 to 100 percent of yield losses under blight conditions depending on the degree of infection.

Tests conducted under Fusarium wilt-nematode conditions showed Austin with a 10 percent yield reduction while susceptible strains suffered a 50 percent reduction.

The new variety has performed

exceptionally well under irrigated and normal rainfall conditions. Although it yields satisfactorily under drouth conditions, the open boll may be extremely loose. Its fiber is suitable for yarn production and staple length is

larger than Deltapine types but is smaller than Empire. Austin seed are satisfactory for cottonseed products and the variety's normal lint percent is 36 to 40. Foundation seed are now available to individuals who wish to produce certified seed from the

Foundation Seed Section, Texas Agricultural Experiment Station, College Station. Commercial seed will be available next year.

Mr. and Mrs. Charles Baker visited friends in Fort Worth last week end.

LONE STAR Agriculture

Released by
The Texas Department of Agriculture

By John C. White, Commissioner

Agricultural Sidelights On Texas
TEXAS VEGETABLES may be slightly higher this spring, due to acreage cutbacks. Onions, already 16% higher than last year, and slightly higher prices on cabbage are due to reduced crops in the Valley and Winter-Garden Areas. Tomatoes are expected to continue to rise due to the short anticipated crop, one-fourth below last year's production. In contrast, bargains may result from big out-of-state crops such as Florida sweet corn, lettuce, asparagus, broccoli and cauliflower.

TEXAS EGG PRICES, already below 1956 price levels, will continue to sell cheap through the spring, but are expected to begin a market increase by mid-

summer. By early fall, egg raisers should be getting prices well above 1956 levels.

Pest Insect Repellent yet will be put on the market this spring. A product of agricultural research, the new repellent successfully defends against attacks by mosquitoes, chiggers, ticks, fleas and biting flies. The repellent, an organic chemical called diethyl toluamide, will provide long-lasting protection for outdoor laborers and sportsmen. Its pleasant lotion feel recommends it to picnickers and backyard gardeners.

One of its best features is that it can be used to impregnate fabrics, and can even be applied in dry cleaning processes. As a

matter of fact, it is even more effective when applied to trouser cuffs or stockings than directly to ankles. Not only is it more effective, but the new diethyl toluamide repellent last longer, giving protection for several hours.

GRASSHOPPERS will be with Texas again this summer, although if rainfall continues over West Texas and the Panhandle where most damage occurs, the threat will be lessened somewhat. Last year's bumper grasshopper crop was largely due to severe drought conditions, which always aggravate the "hopper menace".

—JOHN C. WHITE

Weekly Health LETTER

Issued by Henry A. Hollis,
M. D., State Health Officer
of Texas

AUSTIN—A California poultry-dressing plant disposes of its waste products in an oxidation pond. The wastes in the water and sunlight playing on it combine to make algae grow. Then the algae is harvested and fed to the plant's new crop of young chicks. It is the only feed they get.

Oxidation ponds are among the most recent developments in the science of domestic waste disposal. Not to be confused with haphazard sewage lagoons, oxidation ponds conform to regular shapes and uniform depths. They work on this principle:

When partially treated domestic sewage is discharged into shallow ponds, algae—a tiny vegetable growth—will flourish in the water. In the presence of sunshine, the algae releases oxygen into the water. The oxygen acts to convert organic matter in the sewage to carbon dioxide, which in turn is used by the algae in its growth processes.

State Health Department water pollution control engineers say oxidation ponds, besides creating favorable environments for biological treatment of city wastes are probably easier on the city's pocket book than any other method of sewage disposal. And they are at least a partial answer to Texas' perennial water shortages. Instead of risking stream pollution by discharging partially treated effluent into streams, why not capture that effluent in oxidation ponds and use it for irrigating feed crops or for cooling processes in industry?

More than 200 Texas cities are presently doing this very thing.

Lubbock is irrigating 1,860 acres of grass and pastureland. Big Spring and Amarillo supply several millions of gallons of water daily to local refineries for use in cooling. Brady grazes 100 head of cattle on 35 acres irrigated with reclaimed water.

Arizona, Wyoming, North and South Dakota, Missouri and other states are becoming increasingly interested in this method of sewage treatment and use, following Texas' lead.

While further research will be necessary before the use of effluent can be recommended for irrigating crops for human consumption, its value for feed crop irrigation is indisputable.

Besides their usefulness for waste disposal and irrigation, a move is afoot to see if the ponds can be used for fish culture. Since effluent can readily be made to support fish in limited numbers, State Health Department engineers and Fish and Game Commission biologists believe there may be a possibility of cultivating fish in sufficient quantities for commercial sale as dog and cat food and fertilizer. If so, the ponds could become an additionally important source of city revenue.

Drive carefully. The life you save may be your own!

Don't "Miss The Bus" On Benefits Of Social Security

Ever miss a bus or a train or a plane because you got to the station or terminal a few minutes after the time table said was departure time. That wasn't too bad in most cases, for there was another train, bus or plane coming along not too long afterwards that you could still take.

However, Erton Tate, Wichita Falls district manager for the Social Security Administration, reports that being late on some social security matters might mean missing out on thousands of dollars of protection against income loss by reason of death, disability, or old-age.

Space doesn't permit giving a detailed report on all such possibilities, but Tate suggests our readers give the following a thorough going-over and make certain to get in touch with his office if any of the items seem to apply to them.

1. Clergymen, if ordained before 1955, must file their waiver forms with Internal Revenue before 4-15-57, in almost all cases, if they expect to ever get any social security credits.

2. Persons severely disabled for

more than a year probably never benefit from the disability provisions of the law if they delay inquiry until after June 30, 1957.

3. Certain school district employees who do not have to have state certificates to hold their present jobs cannot get social security coverage unless the school district takes affirmative action before 6-30-57.

4. Persons receiving social security benefits who were under age 72 for part of 1956 must file annual reports on 1956 earnings if such were more than \$1200. Such reports filed after 4-15-57 may result in penalties.

5. Insured persons past age 65 who have not retired and who have annual earnings of less than \$2080.01 are losing money by not filing their social security claims now.

LOCALS

Mrs. Nora Broach attended market in Dallas the first of this week.

Mr. and Mrs. O. L. Anderson and Linda of Clovis, N. M., were week end guests of her parents, Mr. and Mrs. J. R. Burnison. Debra Anderson, who spent the past two weeks with her grandparents, returned home with them.

Mrs. J. B. Bowden returned home last Saturday from an extended visit with Mr. and Mrs. M. L. Joyce and Joe in Albany. While away, she also visited friends and relatives in Rising Star, Brownwood and May.

Now You Can "Bank Around The Clock"

All facilities are now ready for our customers to make deposits at any hour of the day or night. Envelopes and attached deposit slips have been placed in our 24-Hour Depository, on the northeast corner of the bank building.

You simply secure one of these envelopes, make out your deposit, print your name and address on the receipt form, seal in envelope and drop in depository vault.

Your deposit is necessarily accepted subject to verification. For your protection and ours, it will be opened in the presence of two tellers, and final credit is subject to bank's count and acceptance.

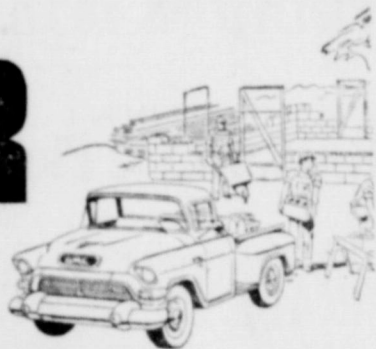

This is another service of your bank—that you may make deposits any hour of the day or night, and on holidays.

COSDEN
PETROLEUM CORPORATION

BY TED GOULDY
CATTLE TRADE STEADY,
STOCKERS STRONGER.

FORT WORTH—After a slow start prices on cattle and calves were mostly steady at Fort Worth Monday. Fed cattle were again in small supply. Stockers and feeders found demand broad at fully steady to stronger prices, quality considered, and the high grade offerings were very scarce.

COMPARATIVE PRICES: Good and choice slaughter steers and yearlings cashed at \$18.50 to \$22, the higher figure on two loads of heavy steers. High choice to price medium weight steers or yearlings were quotable above that range. Common and medium offerings sold from \$13 to \$18. Fat cows cashed at \$12 to \$14, while canners and cutters bulked at \$9 to \$12. Bulls sold from \$10 to \$15.

Good and choice slaughter calves sold from \$20 to \$23, and medium and lower grades from \$12 to \$18. Stocker steer calves drew \$16 to \$22, and were quotable above that range. Steer yearlings cashed at \$21 down. Stock cows sold from \$10 to \$14.

STOCKER COWS AND PAIRS
FIND STRONG MARKET

In the special sale of stocker cows and pairs at Fort Worth last week the total of over 1,900 head included 1,258 which went back to country as replacement and some 350 aged cows and fat heifers went into packer channels.

Most of the pairs ranged from \$140 to \$165, with a few as high as \$190 to \$200. Some sold by the pound and others by the head. Typical of the strong rates for the better kinds was the shipment of 17 pairs consigned by Ray Boothe of Sweetwater which sold with the cows at \$17 and the calves at \$29.

Buyers from all over the south and Southwest were represented and most of the cattle went back to Texas pastures. Many of the visitors expressed surprise at the number of very thin cows which appeared in the offering despite the improved conditions in many sections of the Southwest this Spring.

Next of these special sales will also be for all breeds, all ages, and will be sold on May 10. It is expected this event will attract a good many yearlings, as was the case a year earlier. The May 10 event will include a show, as well as a sale, with both the Texas Hereford Association and the Texas Aberdeen-Angus Association, judging entries of their breeds prior to the sale.

SHEEP AND LAMBS SELL FULLY STEADY TO STRONG

The offering of 7,800 sheep and lambs at Fort Worth Monday was cleared early at fully steady to strong prices. The offering was more than 75 per cent Spring lambs. Old sheep were very scarce, and relatively few old crop shorn lambs arrived.

COMPARATIVE PRICES: Good

and choice Spring lambs cashed at \$22 to \$23.50, and cull to medium Springers sold from \$15 to \$20. Some lightweight lambs sold as feeders in the \$18 to \$19 bracket. Good to choice shorn old crop lambs cashed at \$19 to \$21.50, those at the higher figure having No. 1 or No. 2 pelts. Shorter pelts sold from \$20 down. Cull to medium old crop lambs cashed at \$12 to \$18. Slaughter ewes drew \$5.50 to \$6.50.

HOGS OPEN STRONG

Choice butcher hogs scored \$18 and \$18.25 at Fort Worth Monday, this was an advance of 25 to 50 cents above last week's close. The less desired weights and grades sold from \$16 to \$17.75, and pigs drew \$10 to \$14. Sows cashed at \$14.50 to \$16.

CLAY COUNTY 4-H LAMBS BRING \$20.50 MONDAY

County Agent Bill Collier of Clay County was on the Fort Worth Market Monday with a group of 4-H boys and girls who sold their lambs at \$20.50, and made a profit, he reported. Collier reported the lamb project had been an interesting one for the group, and the trip to market was a fitting climax to their project.

In the group were Carol Lee, Linda Lee, Bobby Lee, H. B. Stallcup, Terry Butler, Morris Sears, and Cindy Cox. Adults with the group included Mr. and Mrs. E. J. Lee, Harold Lee and Hopper Butler.

LOCALS

Mrs. Bessie McStay left Tuesday for Vernon to spend the Easter holidays with her son and family, Mr. and Mrs. Dee McStay and John.

Mrs. Billy Joe Pruitt of Wichita Falls visited her parents, Mr. and Mrs. H. D. Henson, over the week end.

Mr. and Mrs. B. E. Smith were business visitors to points in east Texas over the week end.

Mr. and Mrs. R. L. Trammel and daughter, Terry, of El Paso are visiting his parents, Mr. and Mrs. Frank Trammel, this week.

Mr. and Mrs. Wayne Smith of McMurry College in Abilene visited their parents, Mr. and Mrs. Joe Massey and Mr. and Mrs. A. L. Smith, last week end.

BENJAMIN NEWS

Mr. and Mrs. Noah Gillentine accompanied Mr. and Mrs. Joe Gillentine and family and N. B. Gillentine to Dallas last week end to visit their son, Lloyd Gillentine, and family.

Mr. and Mrs. L. A. Parker were in Sweetwater one day last week to be with their daughter, Mrs. Jack Garrett, who underwent surgery. Their granddaughters, Sarah, Mary and Georgia, returned home with them for a few days.

Miss Judy Shipman of Seymour was a week end guest in the home of Mrs. Zena Waldron, Barbara, Pat and Mike.

Charles Dodd accompanied his grandparents, Mr. and Mrs. C. D. Hall of Crowell, to Fort Worth Friday of last week to visit relatives.

Temple Driver of Wichita Falls transacted business and visited with his father, Jay Driver, last Thursday.

Mrs. Thelma Glover of Colorado spent last week visiting relatives and friends here.

Mr. and Mrs. Vernon O. Benson left last week for Flager, Colo. to visit Mr. and Mrs. Malcolm Shipman and attend to business.

Mr. and Mrs. Jim Horton of Witharrel visited in the home of Mrs. W. A. Barnett, Omitine and Pete last Sunday afternoon.

Mrs. Myrtle Meinzer, who has been visiting in Memphis, Tenn. for the past several weeks, returned to her home here Friday night. She was accompanied by

her son-in-law, Gene Howse. Mr. and Mrs. J. D. Brown spent the week end in Lubbock visiting Mr. and Mrs. Curtis Brown and daughter.

Mrs. W. A. Barnett, Omitine and Pete were visitors in Vernon last Saturday.

Mr. and Mrs. Jess Boykin of Rule and Mrs. Susie Pitts of Wichita Falls visited Mrs. W. E. Ryder last week.

Mrs. Roy Green and son spent the week end in Hale Center visiting relatives.

Mr. and Mrs. Von Terry were business visitors in Seymour and Munday last Saturday.

Mrs. W. A. Barnett, Omitine and Pete visited Mr. and Mrs. Homer Howard and Mrs. E. L. Howard in Goree Sunday.

Mr. and Mrs. Jack Garrett of Sweetwater and Mr. and Mrs. Wilburn West and family of Lamesa spent Sunday with their parents, Mr. and Mrs. L. A. Parker. The Garrett children, who were visiting their grandparents, returned home with their parents.

Mr. and Mrs. Bryon House of Guthrie visited relatives and friends here Sunday.

Louann Melton of Lubbock is visiting in the home of her grandparents, Mr. and Mrs. Leroy Melton.

Coastal Berumgrass is a top notch producer of forage in areas where adapted and when given proper management, says E. M. Trew, extension pasture specialist. Local county agents can supply information on this relatively new hybrid grass.

Dalapon Controls Cotton Grasses

A field research worker examines cotton freed of grass infestations with spot applications of dalapon. Grass at left and in the background offers comparison between treated and untreated land.

Spot treatment applications of dalapon are now being recommended for the control of Johnson grass and other weed grasses in cotton, Dr. A. J. Watson reports. Watson is in charge of the field agricultural research station of The Dow Chemical Company in Greenville, Mississippi.

Dalapon has been tested by agricultural experiment stations in cotton producing states. In January the chemical's use in cotton was accepted by federal regulatory agencies. On this basis the chemical will be sold with directions for the spot treatment application in cotton printed on the label. Dalapon is marketed under the trademark, Dowpon.

The spot treatment method has been developed during years of research in the Cotton Belt by Dow and agricultural experiment stations. With this method, scattered clumps of grass are thoroughly wet with the spray. The chemical is taken in by the plant and kills from within the plant's system—ensuring effective grass control.

Cotton wet by the spray may be injured or killed as well as the grass, Watson points out. However, this loss is usually no greater than that from repeated hoeings, he says, and the Johnson

grass is killed rather than just "beaten back". The spot treatment consists of a three-spray program. First application is made when cotton is about two to three inches high and Johnson grass is six to 12 inches tall. The two additional treatments follow at two to four week intervals as needed to control resprouts or plants that were missed before. Applications can be made either with power or hand-type sprayers.

Watson points out that the cost of chemical treatment compares very favorably with the cost of hoeing cotton. The greater value of the dalapon treatment program is that this method kills the entire grass plant while hoeing gives only a temporary setback.

"For the first time farmers can now start moving toward the eradication of these weed grasses, while growing a good cotton crop," Watson says.

muscular tremors, especially around the face and muzzle. When symptoms of jaw and tongue trouble appear, the damage has already been done, say the scientists. Often the ranchman does not realize that he is in trouble until the mesquite beans are gone and he starts feeding hay.

The animals will gain weight on a good concentrate ration, but they cannot utilize hay. If lush green pasture is available, sick animals will apparently recover, but should be sold as soon as they are in good condition. Most, point out Dollahite and Anthony, will not be able to again digest dry roughage. It is advisable, therefore, to market cattle as soon as possible after the first symptoms appear.

Attempts at treatment have been discouraging, say the scientists. They are, however, continuing their work in an effort to find remedies. It is hoped that

additional studies will suggest supplements which can be fed with mesquite beans in order that this excellent source of range feed may be utilized without affecting the health of the animals.

Complete details of the investigations are given in Progress Report 1931 issued by the Texas Agricultural Experiment Station. It is available from the Agricultural Information Office, College Station, Texas.

Brown patch is a rather common lawn disease in Texas. Extension Plant Pathologist Harlan Smith says most lawn grasses are susceptible, but that San Augustine lawns are more often attacked. The disease first appears as small brown spots in the lawn but spread rapidly. Smith says avoid overwatering of the lawn and should a serious outbreak occur, fungicides should be applied.

TRANQUILIZER:

- No Prescription Needed
- May be Habit-forming
- Recommended By Physicians
- Not for Sale . . . It's Free!

Those statements may sound contradictory, but they're all true, for . . .

"THE PEACE OF GOD THAT PASSETH ALL UNDERSTANDING"

Unbalanced Diet Of Mesquite Beans Can Cause Jaw and Tongue Trouble In Cattle

Mesquite beans have long been considered "life savers" by ranchmen, especially during drought periods. But a condition, which was first noted in 1941 south of Pecos, is now prevalent along the Pecos River in Texas and New Mexico and in many other parts of Texas and Oklahoma. The condition known as "jaw and tongue trouble" has been reproduced by feeding large quantities of mesquite beans.

Dr. J. W. Dollahite and W. V. Anthony, both of the Marfa laboratory of the Texas Agricultural Experiment Station, have found through continued studies that mesquite beans was the one food consistently eaten by all affected animals. Too, the pastures usually contained either dry alk-

Knox Prairie Philosopher Sees Great Possibilities In The Idea Just Put Out By Postmaster General

Editor's note: The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek has heard about the post office controversy, his letter this week indicates.

I have always figured that two of the fundamental rights of every American was to occasionally get mad at the post office and the home town newspaper, and what brings this to mind is not anything that The Munday Times or Postmaster Lee Haymes have done lately, but the controversy brought on by Postmaster General Summerfield over the need for more money to keep the post office department functioning up to standard.

As I understand it, the Postmaster General threatened to close all the post offices on Saturdays, including rural free delivery, and to cut out some other post office functions if Congress didn't give the department 47 million dollars more money.

Mr. Summerfield said the post office was going in the red and the only choice was to get more money from Congress or curtail some of the services.

Now this is a new idea in government, and while I would hate to see the mail carrier fail to show up at my neighbor's mailbox on Saturdays, I'd like to say it has great possibilities.

For example, take foreign aid. Everybody knows it's costing us taxpayers a lot of money to keep the rest of the world happy, and if Sec. Dulles could come over to Postmaster General Summerfield's way of thinking, he could threaten to cut down on this aid unless Congress gave him more money. This might not make the rest of the world happy, but think what it would do to you and me.

Or take any other department of the government. Any time it got in the red, all it'd have to do is cut down on some of its operations, even to the point of letting some men off. I'll admit this is contrary to our way of life, that any time a country or a family is living beyond its income the thing to do isn't to cut down on spending but to borrow more and drag out the time payments

longer, but it's something to toy with.

However, it could be carried too far. Take farming. It wouldn't work there. When a farmer finds he isn't making enough, he doesn't cut down on his services. He plows longer and tries to multiply em.

Maybe the post office department can cut down on its services when it's going in the hole, but you apply that to a farmer and the grocery shelves in town would soon be bare.

Yours faithfully,
J. A.

Mr. and Mrs. Kenneth Harrison and daughter of Beaumont came in last Friday for a two weeks vacation visit with his parents, Mr. and Mrs. Terry Harrison.

Mr. and Mrs. Mahlon Boggs left last Sunday for Buchanan Lake to join Minister and Mrs. D. L. Ashley of Big Lake for a few days fishing and outing.

Mr. and Mrs. Lloyd W. Bridges and daughter, Bobbie, left last week for Terrell to make their home. Bridges, who was linotype operator for the Munday Times, is now with the Terrell Tribune.

BAPTISTS BELIEVE... CHRIST IS THE ONLY WAY TO HEAVEN

Have you ever lived at the end of the road? From such a place there is only one way out. The man who has sinned is at the end of the road in his personal life. For him there is only one way out. Repentance is the only road to peace and forgiveness from sin; it is the only escape from eternal punishment for sin. Christ warned that "Except ye repent, ye shall all likewise perish" (Luke 13:3).

How can we "repent and believe" as Christ demands? To repent, we must change our minds toward sin, toward ourselves, and toward God. We must turn from sin, and trust in Christ to bring forgiveness for our sins. When any sinner responds in repentance and faith to God's offer of salvation through Christ, God works a miracle in his heart. This miracle the Bible calls a "new birth" (John 1:12-13 and John 3:7). This transformation makes an individual a "new creation in Christ." The Apostle Paul wrote, "If any man be in Christ, he is a new creature; old things are passed away; behold all things are become new" (2 Corinthians 5:17).

Do you want to be saved from the ruin that sin brings? Then turn to Jesus, who said of himself, "The Son of Man is come to seek and to save that which was lost" (Luke 19:10).

"God so loved the world, that he gave his only begotten Son, that whosoever believeth in him should not perish, but have everlasting life," (John 3:16). Man becomes a Christian when he puts sin out and puts Christ in at the very center of his life. There is no other road to take. When we see how much God loves us we begin to see our sins and realize how much we need God's forgiveness. Our own experience confirms Paul's statement that "all have sinned" (Romans 3:23).

The prophet Isaiah who lived many years before Jesus, told us not only that all have sinned, but foretold the good news that God would provide his Son, Jesus, to bear for us the penalty of our sins. "All we like sheep have gone astray; we have turned every one to his own way; and the Lord hath laid on him (Jesus) the iniquity of us all," (Isaiah 53:6).

Jesus offers you this salvation from sin as his free gift and as an expression of divine love. You may accept it today. Are you refusing God's cure for sin that destroys spiritual life? He offers you eternal life on the simple conditions of repentance from sin and faith in the Lord Jesus Christ. Begin now with the prayer which Jesus promised God will understand, "God be merciful to me a sinner" (Luke 18:13). Believe, "Whosoever shall call upon the name of the Lord shall be saved" (Romans 10:13).

Oil Activities

(Continued from Page One)

McMahon-Bullington No. 1 F. E. Walker, six miles northwest of Knox City, to 2450 feet.

E. B. Clark, Jr., of Wichita Falls has staked No. 1 J. Michels, five miles northwest of Munday, as a 3,000-foot wildcat.

About 8 miles northwest of Munday, E. B. Clark Drilling Co. No. 1 W. Freeman is a 1,900-foot rotary project, and their No. 2 Freeman is a similar project. Same operator's No. 2 Ray Day is a 3,000-foot project.

Three miles north of Munday, Superior Oil Co. has staked No. 1 M. C. Kuehler as a 1,980-foot rotary project.

In the Goree Field, Consolidated Gas and Equipment Corp. of Plainview staked No. 3-B Reuben Bates as a 1,900-foot rotary project, while in the same field Ophelia Gogle of Abilene spotted

No. 1 W. O. Barnett as an 1,800-foot rotary project.

Mr. and Mrs. Billy Joe Henslee of Dallas visited their parents, Mr. and Mrs. Jim Henslee and Mr. and Mrs. Ed Whittemore, over the week end.

Mr. and Mrs. Paul Pendleton, Jan and Paula, visited relatives and friends in Dallas over the week end. Mr. and Mrs. L. M. Palmer of Van met them there for their annual get-together.

W. T. Boren of Heath, Ark., spent last week and is spending this week with his sister and husband, Mr. and Mrs. Lester Arnold.

Alonzo Polson of Oakland, Calif., Mr. and Mrs. A. G. Jones of Swenson, Mrs. Tommy Bramlett of Edmond, Okla., George Rawls of Hillsboro, Mr. and Mrs. Walter Glasgow of Elgin, Okla., Sid Polson of Graham, and Mr.

NEW WEAR-RESISTANT SPRINKLER DEVELOPED FOR THE HIGH PLAINS

A new sprinkler, with a wear-

and Mrs. Johnny Wright of Burkburnett visited with Mr. and Mrs. Colonel Polson and other relatives over the week end.

Mrs. Carl Jungman of Vernon and Mrs. H. F. Jungman were business visitors in Abilene last Monday.

Mr. and Mrs. Aaron Edgar were in Amarillo over the week end to attend the annual convention of the Panhandle Press Association. They also visited Mr. and Mrs. Ray Phy and daughters in Borger.

EASTER HOLIDAYS

No classes will be held in the Munday schools on Friday and Monday, in observance of the Easter holidays, Supt W. C. Cox said Tuesday.

resistant bearing, has been developed by RAIN BIRD. Designed especially for use in irrigation systems of the High Plains, the Model 30-TH Sprinkler resists abrasive silt or sand. Wearing surfaces of a brass bearing are protected by a replaceable wearing ring insert made of a wear-resistant plastic developed by DuPont. This bearing insert turns against a soft, neoprene rubber washer, forming a perfect seal against sand and other abrasive elements. All wear is absorbed by the easily-replaced, low-cost insert. The top of the bearing is protected from blow sand and abrasives by a tight neoprene hood. Field-tested under severest High Plains conditions, this new wear-resistant bearing has performed better than any other type bearing previously available. The new Rain Bird Model 30-TH Sprinkler also has two contact points which balance the drive and minimize wear. Greater diameter of coverage and more

uniformity of coverage is provided.

Complete details on the Model 30-TH are available at local Rain Bird dealers or from Rainy Sprinkler Sales, 609 W. Lake Street, Peoria, Illinois.
