Kracker Krumb's Odd Bits Salvaged at Random

Our little Lucy of "I Pass" was interrupted last Friday night at about 9 o'clock by the unfamiliar scream of "Screaming Lucy."
We had seen her on the city hall lawn that afternoon and workmen later working with her on top of the city hall, but we didn't think she was going to raise such a fuss about it that soon.
k-k
We knew from Lucy's mournful cries that the whole town was burning up. As we rushed into the street in front of our home, we couldn't see a fire truck move out and was somewhat puzzled. Our bewilderment became more intense as Lucy started her racket a few minutes later. We came to town to investigate, but still all fire trucks were comfortably housed in their stalls. People from about five miles out came in, too, but Lucy was just trying out her voice.
k-k
Screaming Lucy is our new 400-pound fire siren. She replaces "Big Bertha," who served us for many years, but who just burned out her innards a short time back. After Bertha became incapacitated, it was quite difficult to give a fire alarm. Mrs. Bivins would get on the phone and call several firemen, and Chief Bivins would run the old Mac truck outside and turn on its siren—but that didn't get the job done very well.
k-k
So Lucy is up there to stay, we guess, and from reports of some of our "city fathers" her voice can be heard as far away as six miles. We hope she serves us well but won't be pressed into service very often. Hereafter when Lucy screams it will likely mean disaster—except at the noon.
k-k
Our impulse was to yell "Thief! Police!" last Monday morning when we saw Postmaster Lee Haymes coming from toward the bank carrying one of those pretty bouquets of flowers. He did have a kinda sheepish look on his face as he asked us not to tell Mr. Braly, but in the conversation he said the bank force was sharing their pretty flowers with others and he was going to pretty up the post office for a while.
k-k
It wasn't long after that Mrs. Braly came into our office bringing a lovely pot plant and said they were sharing them with friends. We accepted it with gratitude and told her we imagined its final destination would be at our house instead of the office. That's where it is.
k-k
The bank bunch was plumb gratified at the lovely flowers sent by friends all the way from New York to Munday for their formal opening, but the trouble was that when they got down to business Monday morning there were too many flowers for them to turn out their work efficiently. A fine idea it was to share them with their local friends—and we're glad we were counted among them.
k-k
We had as much fun as the other fellow at the bank's celebration. With the money locked safely away, we were given free rein of the building during the two days—in the main lobby, the president's office, the tellers' cages, even in the vault, the bookkeeping department, or just anywhere we wanted to go.
k-k
We mingled with the bankers Saturday and with the general public Sunday. We snapped some 28 pictures with our little camera—some good ones, some bad ones—and the celebration seemed just about as much ours as the bank's. It was an event that probably won't happen again in another 34 years.
k-k
We solved the mystery of the Munday school bus being parked on the city hall lawn so long simply by remembering to ask Lee Bivins about it. The bus was donated by the school to the local Civil Defense unit, and will soon be converted into a Civil Defense bus with all types of emergency supplies and equipped to serve meals. The gift is appreciated, too.

Increase Made In Social Security Tax On January 1

Tax rates under the Federal Insurance Contributions Act (Social Security) and filing requirements under the Federal Unemployment Tax Act have been changed by recent amendments to the law, according to G. D. Dixon, Administrative Officer of the Wichita Falls office.
New F. I. C. A. rates on wages paid on or after January 1, 1957 will be 2 1/4 percent each for employers and employees, a total of 4 1/2 percent, Mr. Dixon said.
The changes in the Federal Unemployment Tax Act, he explained, provides that employers who had four or more employees on at least one day of each of 20 calendar weeks during 1956 will be required to file Form 940 by January 31, 1957. The filing of Form 940, Annual Federal Tax Return of Employers, was formerly required of employers who had eight or more employees.
Mr. Dixon said that copies of this return have been sent to most of the employers in this district. However, he suggested that employers who have not received this form by January 9, obtain copies from the local Revenue office at 312 Post Office Bldg.

Hundreds Attend Opening Of Bank Over Week-end

It's all over now, and all bank employees are settled down to the regular routine of work in their new quarters.
Formal opening of the First National Bank in Munday was held last Saturday and Sunday, when over 1,000 visitors came to view the beautiful new building and the new banking facilities.
Saturday afternoon was for

and banking friends, and an estimated 100 bankers and their wives from over the area passed through the newly remodeled building. They came from Wichita Falls, Dallas, Fort Worth, Abilene, Knox City, Rufe, Seymour, Quanah, Haskell and Stamford, and possibly other places.
All employees of the bank were on hand both days to show vis-

Key Motor Co., Newly Authorized Ford Dealer In Munday Open For Business

DWIGHT C. KEY

Key Motor Co., Dwight C. Key, owner, is now open for business as the newly authorized Ford dealer for the Munday area, the owner stated Monday morning. Several new 1957 Ford cars are now on display. The new agency is located in the building formerly occupied by Reeves Motor Co.

Mr. Key and his family have been residents of Munday since 1947, moving here from Olney, and Mr. Key has been engaged in farming and ranching during this time.

In announcing his appointment as Ford dealer, Mr. Key said: "I know present conditions in this area and will try to operate my business according to these conditions. We will have all necessary shop equipment and personnel to give you a complete automotive service, including washing and greasing, and we will certainly appreciate your patronage."

Associated with Mr. Key in the dealership are Donald Hobert, well known Munday man, as assistant manager; Coy B. Jennings as mechanic and Ed Ussery as parts manager. Both of these men are also well known here, having lived in Munday for a number of years.

The formal opening of the Ford agency will be held later this month, it was stated.

Harrell Named City Secretary

E. W. Harrell of Munday was named city secretary at a recent meeting of the city council, and he took over his duties on Tuesday, January 1.

Mr. Harrell, who has been employed in the city secretary's office for several months, succeeds Harvey Lee, who resigned several weeks ago.

Lee, whose resignation became effective January 1, has not announced his plans for the future.

Mrs. Russell Penick was elected at Mr. Harrell's assistant. She also assumed her duties last Tuesday.

E. R. Hobert, 95 Long Time Area Resident Dies

E. R. (Grand-dad) Hobert, one of the area's oldest pioneer citizens, passed away at the Knox County Hospital at about 8 p. Monday. He had been in poor health and a "resident patient" in the hospital for over two years and was seriously ill for several months.

Mr. Hobert was born in Eggington, Ill., on August 29, 1861, and was 95 years, four months and two days of age. He was the last of 11 children in his family.

Truly a pioneer, he came to Knox County in the 1880s, before the county was organized, and settled on a section of land north of Goree. For many years, he was one of the area's most successful and progressive farmers and saw the county develop from the raw prairie into a progressive farming and ranching area. He acquired other land in addition to that on which he settled.

Until his health failed, he lived alone at his Munday residence after the death of his wife in 1932. He loved to visit with friends and talk of early days in the county, and his memory was an accurate history of those early days.

He is survived by three children, Mrs. Cora Plumlee of Cisco, Mrs. Bessie Harper of Richmond, Calif., and L. W. Hobert of Munday; 8 grandchildren and 18 great-grandchildren.

Funeral services are scheduled for 2:30 p. m. Thursday from the Church of Christ in Munday, with J. E. L. Harrison of Sonora and Payne E. Hattox of Munday officiating. Burial will be in Johnson Memorial Cemetery under the direction of McCauley Funeral Home.

DAVID BRUCE RODEN IS SOMETHING SPECIAL

For goodness sake I'm only another boy but for all the excitement you'd think I was the one and only boy. Well, I am for Mr. and Mrs. A. L. Roden, Jr., my parents, and for Rhonda Jean my big two year old sister. I made my arrival at the Haskell County Hospital at 8:30 Saturday night, December 30, 1956. I weighed 7 pounds and 13 ounces, and have been named David Bruce.

My grandparents are Mr. and Mrs. Joe Zelisko of Haskell and Mr. and Mrs. A. L. Roden, Sr. of Munday.

TO SON'S BEDSIDE

Mr. and Mrs. Carl Green received word this week that their son, Harold Green of Whittier, Calif., was very ill and in a Whittier hospital. Mrs. Green left Wednesday night, accompanying her sister and husband, Mr. and Mrs. E. L. Snelson of Fort Worth, to attend her son's bedside. The nature of his illness was determined at that time.

A. H. Mitchell, Local WTU Manager, Dies Of Heart Attack Monday In Dallas

A long career of service with West Texas Utilities Co. ended last Monday for Arthur H. Mitchell, local manager, who died of a heart attack in Dallas.

Mr. and Mrs. Mitchell had accompanied Mr. and Mrs. P. V. Williams to Dallas, where Mr. Mitchell was to have a medical examination, and they planned to see the Cotton Bowl football game. Mr. Mitchell suffered a heart attack in a downtown Dallas store and was dead upon arrival at a Dallas hospital.

Mr. Mitchell began his long career with WTU in Baird, and just last May completed 35 years of service with the company. His first job was as a deliveryman on an ice wagon. During the next six years he worked at various jobs in Baird, including that of serviceman.

In 1927, he moved to Moran where he had his first experience as a local manager, and during the next 12 years served as local manager at Rising Star, Cross Plains and Ozona.

"Mitch", as he was familiarly known, came to Munday in May, 1939, as local manager. He soon became active in church and civic affairs. Many termed him as "one of the best men to do business with I've ever known."

His health and a number of operations through the years forced "Mitch" to be less active, but he continued his duties with his company and kept an interest in the town and area. He served two terms on the city council in recent years. He was a member of the Methodist Church and past member of the Board of Stewards, the local Masonic Lodge, the Chamber of Commerce and the Munday Country Club.

"Mitch" was born June 2, 1902,

"MITCH"

and was 54 years, 6 months and 29 days of age. He was a graduate of Baird high school, and was married to Muriel Dickey of Baird on December 2, 1923.

Survivors include his wife; one daughter, Mrs. Michael E. Sloan of Midland; two grandchildren; two sisters, Mrs. Sam Gilliland of Baird and Mrs. O. D. Preddy of Houston, and his mother, Mrs. Joe Mitchell of Houston.

Funeral services were held from the First Methodist Church in Munday at 2 p. m. Wednesday with the pastor, Rev. J. F. Michael, and a former pastor, Rev. Doyle Ragle of Canyon, officiating. Burial was in Johnson Memorial Cemetery under the direction of McCauley Funeral Home. The body was laid to rest with Masonic rites at the graveside, with E. T. Goss of Seymour in charge of rites conducted by his Brother Masons.

THE FEMININE TOUCH— To The First National Bank's activities is given by this group of employees. They are, left to right: Mrs. Freddie Morrow, proof machine operator; Mrs. Tom Morton, bookkeeping department; Miss Arletha Moore, bookkeeping; Mrs. Don Boyles, secretary; and Miss Maxine Henson, bookkeeping.

B-K Electric To Expand Services

Senator Price Daniel's office in Washington announced Saturday the approval of a \$634,000 REA loan to the B-K Electric Co-operative in Seymour for expansion of its lines and services.

The money is to be used to build 84 miles of new transmission lines and to bring service to 334 new customers in Baylor, Knox, Archer, Foard, Throckmorton, Wilbarger, Haskell and King Counties.

Baptist Revival Begins Jan. 13th

Robert H. Lloyd, pastor, announced this week that a revival will begin at the First Baptist Church in Munday on Sunday, January 13, continuing through Sunday, January 20.

Dr. Joe W. Burton of Nashville, Tenn., who was reared in Munday, will be the evangelist for these services. Dr. Burton, now editor of "Home Life", church publication at Nashville, was in a meeting here several years ago. He is well known to many local people who will want to hear him during this revival.

S. W. Prestidge, Jr., of the Baptist Temple in San Antonio, will direct the song services.

Services will be held at 7:30 a. m. Monday through Friday, and at 7:30 each evening. The pastor and congregation extend a cordial invitation to everyone to attend all the services.

Tax-Man Sam Sez:

A lot of ordinary citizens will become conscious of being taxpayers right after Christmas. Having the Christmas bill probably makes us feel worse over filling an income tax return at this time. The Internal Revenue folks mail a set of instructions and tax returns to every taxpayer on record the day after Christmas. If you've moved from the address they have, you won't get your instructions and tax returns.

A lot of taxpayers would like more information about paying income taxes and Uncle Sam has a booklet called "Your Federal Income Tax—1956" which you can get from the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C. for 30c. It is my horseback opinion that if every reader of this paper paid 30c for this booklet and carefully studied it, and followed the advice contained in the booklet, it would be worth a hundred times (on the average) the cost.

TO HAVE PART IN MOVIE PRODUCTION

Mrs. Glenn Weaver received word from her husband, A/1c Glenn Weaver, that he had been chosen to play the part of a radar operator in RKO's new movie "Escapade in Japan". RKO is making this movie in Kyoto, Japan, in color and wide screen. The stars are Teresa Wright and Cameron Mitchell.

Mr. Weaver stated that the stars were very nice and had taken him out for dinner. The premier of this show will be in New York in July.

THE PAYOFFS

The following editorial is reprinted from the New York World-Telegram:

"The United States government has put into motion long-considered plans to ship more oil to Europe to help make up the deficit caused by the closing of the Suez Canal.

"U. S. production of crude oil, now about 7.1 million barrels a day, may be upped by 800,000 to 850,000 barrels a day to meet the new Western European needs.

"This will be possible because of the enlightened self-interest of the oil producing states and the oil industry.

"Long ago they realized the immense value of our exhaustible resources of oil and gas. They finally put into operation an extraordinarily effective conservation program . . . This conservation program is a bulwark of our national defense. And now, in these troubled times, it is going to assist our friends in Western Europe who are already experiencing gasoline and oil rationing.

"Over the years, federal tax laws have contributed to the present-day abundance of American oil. The percentage depletion allowance given the oil industry has been condemned by the unknown as a dangerous and unfair loophole. But the fact is that without some tax-advantage allowance, the industry would have been able to carry on the wildcatting that provided us with the crude oil reserves from which we are about to draw 800,000 more barrels of oil each day.

"The combination of a free oil industry, working with skill and imagination, of good conservation laws and farsighted tax statutes, has paid off for America.

"Now it's paying off for our Western European friends, too."

INMAN, S. C., TIMES: "Free enterprise system" is a term generally accepted but little analyzed. It is a term which refers to our basic way of living, but one which can be easily forgotten among the jumble of "isms" and varied proposals of a new way of life.

BROOKVILLE, PA., AMERICAN: "A new long range flood control program . . . to spot emergencies before they become acute and thus forestall disasters in chronically disabled areas, will save millions of dollars in property loss and alleviate human suffering."

DON'T BUY THE BROOKLYN BRIDGE!

Half a century or so ago swindlers preyed ruthlessly on fresh-off-the-boat immigrants to this country. A great coup was to sell one of these innocents the Brooklyn Bridge.

Times and techniques have changed. Nowadays swindlers have subtler rackets—one of them being fraudulent and worthless stocks. Mounting complaints against unscrupulous stock salesmen led the Securities and Exchange Commission and the New York State Attorney General to work out, with the aid of stock exchanges and reputable brokerage houses, a guide to prospective stock buyers. It has now been issued, and it is as sound as it is simple. Here are the basic rules:

Think before buying. Deal only with a securities firm which you know. Be skeptical of securities offered by telephone by a firm or a salesman you don't know. Guard against high pressure sales methods. Be particularly wary of promises of quick and spectacular price rises. Be sure you understand that there is a risk of loss as well as a prospect of gain when you buy securities. Get all the facts—never buy on tips or rumors. Request the person offering securities over the phone to mail you written information about the corporation, its operations, management, financial position, etc., and save this for future reference. If you don't fully understand the written information, consult someone who does.

Follow this guide—and you won't be buying Brooklyn Bridges!

MONOPOLIES ARE ALWAYS BAD

A well-known Orgeon editor, Giles French of the Sherman County Journal, writes: "It is probable that labor will always have trouble with racketeers as long as membership is compulsory. If honest laborers could join a union of their choice and quit a racketeer-led union, it would improve conditions. Monopolies are always bad."

We passed tough laws to get rid of industrial and financial monopolies long ago. Now we have labor monopolies which are as powerful or even more powerful. We will continue to have them so long as the union shop or the closed shop is lawful. The only solution lies in the right-to-work principle, which guarantees the worker freedom of choice, and protects him against coercion by either the employer or the union.

—SAY YOU SAW IT IN THE TIMES—

WHAT DOES THE BIBLE SAY?

What We Find When We Go Back To Jerusalem?

Suppose one should take the New Testament and go to Jerusalem on Pentecost, the place and time of the establishment of the church. What would he find? He would find Peter, freshly baptized in the Holy Spirit, using the "keys of the kingdom of heaven" (Matt. 16:19). A short time before this the Lord had said, "Upon this rock I will build my Church" (Matt. 16:18). After his resurrection and before his ascension he had given the world wide commission saying, "Go ye into all the world, and preach the gospel to every creature. He that believeth and is baptized shall be saved" (Mk. 16:15-16). Simon Peter, a servant and apostle of Jesus Christ, now presents infallible proofs to a vast and astonished multitude that Jesus Christ has indeed risen, and that God hath made him both Lord and Christ. Thousands believe him and cry out for mercy. "Now when they heard this, they were pricked in their hearts, and said unto Peter and the rest of the apostles, men and brethren what shall we do? And Peter said unto them, re-

pent, and be baptized every one of you in the name of Jesus Christ for the remission of your sins, and ye shall receive the gift of the Holy Spirit" (Acts 2:37-38).

The Results Of This Sermon
 "Then they that gladly received his word were baptized: and the same day there added unto them about three thousand souls" (Acts 2:41). "And the Lord added to the church daily such as should be saved" (Acts 2:47).

What now do we have? The church of Christ. He had promised to build it and now that promise is fulfilled. What is the church of Christ? It is the body of Christ. Eph. 1:22-23. Consisting of all the Christians in Jerusalem, all the Christians in the world at that time. Were there any Christians in Jerusalem who did not belong to the church? You can not find a single one. The line is clearly drawn between the church and the world, between those who were the Lord's and those who were not. And the same was true of other congregations as they were established in various places throughout the world.

INCOME TAX INFORMATION

Under the provisions of the federal Internal Revenue Act, all persons who have a gross income over \$600 must file income tax returns, except if the taxpayer is older he need not file a return unless he has gross income over \$1,200. This is because persons who are 65 or older have two exemptions which automatically eliminate any tax liability for in-

come under \$1,200. All federal tax returns for individuals must be filed on or before April 15. Although many persons believe that a tax return need only be postmarked by the due date, such is not the intent of the statute. Tax returns are supposed to be in the office of the Internal Revenue Service by the due date specified.

Tax forms and instructions will be received by most persons during January. The instructions being distributed this year contain the following statement: "The Internal Revenue Service will mail Form 1040 ES, as far as is practical, to each person who may need it. Anyone else required to file should obtain the form from an Internal Revenue Service office in time to file by April 15, 1957."

Declarations of estimated tax are required from all persons who expect gross income of more than

accoutal tile ceiling and tile floors, all new fixtures, draperies and interior decorating.

The two-story structure features Roman brick in a pink shade on the exterior of the first floor and a light buff brick on the second floor, trimmed in dark red brick. The building had year-around air conditioning.

All offices and equipment are on the first floor except the book-keeping department which is at the rear of the second, or mezzanine floor. A winding stairway leads to the second floor.

Except for the air conditioning and storage rooms, the remainder of the second floor is vacant. "We hope to make it a community room to be used for receptions and the like," Mr. Braly said, "but that is still in the future."

"We have been waiting a long time to have a new banking home," Mr. Braly said, "and naturally we are proud of it. We planned the remodeled building some three years before construction began."

Officers of the bank are Braly as president, M. L. Wiggins vice-president; J. Weldon Smith, cashier, and Paul B. Pendleton assistant cashier. The officers and C. L. Mayes, J. C. Borden and R. D. Atkison, all of Munday, make up the board of directors.

The W. D. Collins Bank Fixture Co. of Denison was contractor for the remodeling work. H. A. Bauder was general manager of construction, and his son, Bill Bauder, was architect. The contract was let March 22 and work got under way the latter part of April.

During the construction period, the bank set up temporary quarters in the building owned by Mrs. Roger Williams of Weather-

ford, just across the street north of the bank building.

History of Bank

The First National Bank of Munday traces its history back to January 4, 1904, when it was organized with the late W. A. Baker as its first president. Names connected with the bank during its early include Mr. Baker, C. E. McCutchen, chairman of the board of the First National Bank of Wichita Falls; A. M. Miller vice president of the Wichita Falls bank; M. H. (Homer) Lee, now director of the Wichita Falls bank; Tom Isbell, J. F. P'Pool, H. A. Pendleton of Munday, Fred Broach, Edwin Heald, B. H. Cartwright, Ben I. Guinn and Dr. William P. Farrington.

Mr. Lee was the second president, C. L. Mayes, long associated with the bank, was elected president in 1932 and served until July 9, 1935, when Lee again became president. He served until Sep-

tember 27, 1939, when Mr. Braly became head of the bank.

New Charter in 1932

The bank operated under its original charter until 1932, when it was liquidated and began operation under a new charter combining the First National Bank of Munday and the First National Bank of Goree, which also had been liquidated.

Operations began under the new charter with \$30,000 including \$25,000 capital and \$5,000 surplus, and the structure now tops the \$300,000 mark with \$100,000 in capital stock, \$100,000 surplus and around \$100,000 in undivided profits. Deposits approach the \$4 million mark.

The bank has operated in three buildings, the first being a temporary wooden structure which was long ago torn down. The second building was erected in 1924, and this one was remodeled into the present beautiful structure.

Mr. Braly has completed 17 years as president. He was employed by the Goree bank and moved to Munday when the bank began operation under its new charter in 1932.

Long Banking Experience

He was born in Milam County, the son of Mr. and Mrs. W. T. Braly, and was reared on a farm there. He later moved to Haskell, where he was bookkeeper for the F. G. Alexander & Sons mercantile store, moving from there to Amarillo where he worked in a bank for five months before returning to his old job in Haskell.

Mr. Braly moved to Mineral Wells at the age of 26 and began working for the old First National Bank there, starting in the bookkeeping department. He left the bank as cashier.

He married the former Alma Collier of Mineral Wells on March 12, 1920. She was employed as a bookkeeper for another Mineral Wells bank, and after coming to Knox County worked at the Goree bank, then for a time in Mun-

day.

The Bralys are members of the Presbyterian church. He has been a director in the West Texas Chamber of Commerce more than 20 years and has served many years as chairman of the Knox County Hospital board. He has been chairman of bond drives for the county since the early 1940's. He is a member of the Masonic Lodge and past master of the Mineral Wells lodge.

He attributes the growth of the local bank to development of the town and area. This has been largely due to agriculture, ranching and oil, with cotton being the major agricultural crop. The growth in irrigated crops during the past three years and recent oil development are also contributing factors.

The bank employs ten persons. Besides the officers, the staff includes Mrs. Don Boyles, secretary; Mrs. Freddie Morrow, proof operator, Miss Maxine Henson, Miss Arletha Moore and Mrs. Drucilla Morton, bookkeepers, and Mrs. India Beal, porter.

Mr. Wiggins, vice president, has been associated with the bank since 1935. He started in the book-keeping department and has been promoted to assistant cashier, cashier and vice president. He served four years with the Army during World War II and was with the 36th Infantry Division in Europe.

He married the former Clara Bouldin of Munday in 1949, and Mrs. Wiggins is employed by the J. C. Harpham Insurance Agency.

Mr. Smith, cashier, came to the bank in 1944, starting as assistant cashier. He married the former Zada Wiggins of Springtown in 1941. Her father was associated with the bank at the time of his death. They have two children, Linda and Kenneth.

Mr. Pendleton, assistant cashier, came to the bank in 1941. Son of Mr. and Mrs. H. A. Pendleton, he is a native of Munday, and his father was associated with

the bank during its early days. Paul served in the Air Force from 1942-46 and saw service in the Phillipines. He married the former Nina Spencer of Pittsburgh in 1938, and they have two children, Jan and Paula. Mrs. Pendleton teaches in the local schools.

Mr. and Mrs. Pete Vinson and children visited her parents, in Comanche over the holidays.

Mr. and Mrs. Gene Floyd and son visited friends in Abilene last Sunday.

Ben Thompson probably was the most intelligent of the gun-fighters of the Southwest. He was a man of some education—in fact, he had been a printer until he turned to gambling as an easier means of livelihood. He was marshal in Austin for one term and there wasn't a single killing in that city during his tenure in office.

He is credited with having made two of the most amazing shots that Texas ever saw.

The owner of a saloon and his bartender opened fire on Ben

who proceeded to shoot and kill the proprietor. The bartender ducked under the bar and Thompson, estimating where his head was, fired and put a bullet through it. Radar could not have done better. (This was in Austin).

The other fact was in San Antonio. Thompson, outside the swinging half-doors of a saloon, could see, reflected in the bar mirror, the owner of the place coming down a stairway with a shotgun. Ben fired and the bullet ricocheted off the wall and killed the saloon-man. (If one were inclined to jest about a matter so serious, it could be said that Thompson did it with mirrors).

When drinking, Ben was quarrelsome and extremely dangerous. He shot up a dinner at a cattlemen's convention and, after the Austin editor had criticized this, Thompson wrecked the newspaper office.

He met his end when he and his friend, King Fisher, were watching a variety show in San Antonio, in the same establishment where Thompson had killed the owner with the ricochet shot.

Volleys poured into the box where Thompson and Fisher sat. Both bodies were riddled. Apparently, neither fired a single shot.

If you were an old-time gun-fighter, you died, sudden and very permanent.

I guess I'm an old grouch—but I don't like to be passed in line in a cafeteria. I've never seen why somebody who wants to spend a nickle for a cup of coffee should jiggle the elbows of those who are investing in a full meal. And 11 times out of 9, the cup-of-coffee buyer winds up by fouling up the line and slowing down everybody else, because he has to get a spoon, a paper napkin, a creamer and a glass of water.

Soil Testing Should Be Included In '57 Farm Plans

High acre yields are more important than ever. Grain and forage supplies on most Texas farms and ranches are at a very low level because of the prolonged drought. Top yields are needed from next year's crops and pastures not only to replenish these supplies but also to help whip the cost-price squeeze, says M. K. Thornton, extension agricultural chemist.

To get the best possible production from crops and pastures,

Leslie Polson of San Diego, Calif., Mr. and Mrs. Raymond Melton and daughter of Garner, Mr. and Mrs. John Brown and daughter of Weatherford; Mrs.

Audie Menges of Dallas, Dale Polson of Fort Worth, Mr. and Mrs. Colonel Polson of Burk Burnett, Mr. and Mrs. A. G. Jones of Swenson, Mr. and Mrs. Walter Glasgow of Elgin visited the Polson families over the holidays.

Mr. and Mrs. Cecil Temple and family of Borger visited his mother, Mrs. Dan Donohy, during the holidays.

Mr. and Mrs. V. E. Moore and children visited his sister and family in Marshall over the week end.

Students from Texas Tech in Lubbock who spent the holidays here with their parents and other relatives were Glenn D. Henson, Palmer Campsey, Scotty, Dicky Ponder and Claude Larry Hill.

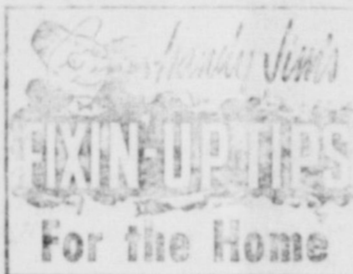

Dr. and Mrs. D. B. Lloyd of Longview visited with their son and family, Rev. and Mrs. Robert Lloyd and children, the latter part of last week.

Guests of Mr. and Mrs. Steve Kubena during the holidays were Mr. and Mrs. George Moeller, Jr., Mr. and Mrs. Felix Klose and family, S. R. Moeller, Mit and Walter Moeller, Mr. and Mrs. Alton Peiser and family, all of Haskell Mr. and Mrs. C. Thompson and family of Throckmorton and Mr. and Mrs. Eugene Teichelman and family of Sagerton.

Joe Lynn Floyd of Mesa, Ariz., spent the holidays with his mother, Mrs. Annie Floyd, and other relatives.

Marlite Give Glamor.

GLAMOR in a basement is relatively simple to acquire nowadays. The main elements needed in transforming an ugly area into an attractive recreation room is a wall covering and a new ceiling.

Marlite planks and blocks are ideal for such a conversion, because they are economical in cost.

simple to install and self-maintaining. They never need redecorating, as they have a plastic finish over a durable Masonite hardboard base. Occasional wiping with a damp cloth is all that's needed.

Planks in the illustration are one of the handsome woodgrains available in Marlite plank and block. Ceiling blocks and those in the area over the fireplace are one of the pastel shades, also available in a large variety.

These planks and blocks are wonderful for the do-it-yourself craftsman. Tongue and grooved edges and metal clips make their installation easy and quick. A simple nailing method holds the paneling securely in place over old walls or furring strips. The convenient size of the planks, 16" x 8", and blocks, 16" square, makes it simple for one person to apply the materials. All nails are hidden.

Weekly Health LETTER

Issued by Henry A. Holt, M. D., State Health Officer of Texas

AUSTIN—In 1956, the ratio of hospital births to home births has more than doubled over the 15 years, according to Texas State Department of Health statistics.

Live birth hospital deliveries increased from 42.4 percent to 90.1 percent during the period of Texas' greatest growth.

Also, the ratio of 1956 live births to deaths in Texas was well over three to one, while statistics 15 years ago indicate the ratio was only slightly in excess of two births per death.

Baby's chance of surviving the first year of life has more than doubled since 1940.

Mother, too, has reaped even greater medical benefits. Fifteen

Mr. and Mrs. J. E. Dyer and son of New Deal and Fred Wiggins visited Mr. and Mrs. R. W. Raynes and Mr. and Mrs. Bobby Hutcheson over the holidays.

years ago, the risk of death at childbirth was nine times greater than it is today.

Dr. Henry A. Holle, commissioner of health, announced that the reporting of births and deaths and the percentage completeness of registration to the Vital Statistics Division of the health department, was greater than ever before in Texas history.

In addition, Dr. Holle pointed out that the actual records received were more complete and correct than ever before.

By contrast, in years gone by, birth records received in the department would often omit the name of the infant. Death records were often incomplete, especially in the early days of state record keeping.

Mr. Don Carroll, director of the Division of Vital Statistics, gave much credit for the increased accuracy to local registration officials.

"Without a doubt, 1956 records show that births are on the increase, death rates on the decrease, and Texans healthier than ever," Carroll said.

But just in case the trend should ever reverse itself, the Vital Statistics Division's improved techniques and vigilance will serve early warning.

Letters From The People

Editor's Note: The following letter to L. B. Patterson is written by Roy F. Saunders, former Munday resident. His address is Bondongan Complex 45-C, Bogor, Java, Indonesia:

Dear Mr. Patterson,
Just a few lines to let you know that we still think of you as one of our best friends and would like to be there to talk it over with you. You think you have problems over there, but I can tell you they are minor. Most of the people here are illiterate, and those that can read and write just can.

We have been here nine months, and we are enjoying it with the

exception of being away from our family and friends. The climate is just about ideal. The temperature range is from 60 to 80 degrees. We brought fans, but have not used them. We sleep under cover every night. It rains an average of 170 inches annually in Bogor. This is one of the highest rainfall areas of Indonesia. The rain usually comes in the afternoon or night and interferes with activities very little. It soaks right through this volcanic ash and is non-sticky.

We have a nice modern brick house, well furnished, and three servants. Food is abundant, excellent and reasonable in price, so I am having trouble keeping my weight down.

Lillian usually goes to the market to trade, but she can buy anything she wants at the front door from peddlers.

This is a very rich country. The average farm is about two

acres. The land is cropped the year round. Rice is the main crop, and the irrigated land produces two crops with a catch crop between crops. Bananas, coconuts, papayas, etc., grow in most every yard. I have never been out of sight of banana or coconut palms since I came here.

Flowers of every kind grow in profusion. Orchids can be bought at the door for less than a penny a blossom. Other flowers can be bought much cheaper. We keep our house full of cut flowers all the time.

I am organizing a planting seed program at the present time. It is the biggest and most difficult job I have ever undertaken. It is hard to make progress in a big country like this with so many difficulties. I will tell you more about it when I return.

This leaves Lillian and I in excellent health and enjoying all the comforts of life. I am hoping it finds you and your family the same.

Your friend,
Roy.

March Of Dimes Drive For County Is Opened With Coffee Thursday Morning

Knox County's annual fight against polio opened with a March of Dimes coffee for workers at 10 o'clock Thursday morning at Roy's Cafe in Knox City. Material for the campaign was given to the chairmen of each community for distribution.

During 1956, the following was spent in Knox County out of funds raised during the last drive:

Ralph Barry Burt, Vera, \$52; Robert Wren, Munday, \$564; Donna Truissdall, Knox City, \$141.50; Jerrilyn Kane, Munday, \$60; Vickie Bell, Munday, \$64.50; Tony

Sosa, Munday, \$291; county drive expenditures, \$227.81, making a total of \$1,400.81.

Half of last year's drive, which was \$1,639.91, went into the county fund and the other half to March of Dimes head quarters at New York. Money collected last year did not exceed expenditures too much.

"It is hoped that we can do just a little better this month," those in charge stated, "because one never knows who will be struck by polio next. It could be you, so give generously and help finish the job."

Knox Prairie Philosopher Starts The Year Off Right With A Brand New Proposal: Rain Gauge Taxation

Editor's note: The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek takes a fresh start for the new year, his letter this week implies.

Dear editor:

Here is is 1957 and naturally a thinking man's thoughts turn to Congress and the new session. I've been noticing in a lot of papers lately where all sorts of proposals are being offered to Congress, from farming to hydrogen bomb problems, and since my interest is more along farming lines than hydrogen lines, I've been working on a plan for us farmers.

As I understand, labor for example has worked out a system where it gets an automatic raise every time the cost of living goes up, and while I haven't been able to figure out a system that would work for farmers along this line, I have hit on a minor angle that might help a little.

It's a farmers' taxes. Under the present system, a farmer's taxes are based on the value of his land and how much income he makes, but land values are no longer very dependable. That is, land is no good without water. It's not how much land a man has, it's how much rain, that counts.

Consequently, I am proposing

that Congress pass a law just as soon as it gets through appropriating its salary funds, stamp fund, office fund, etc., basing a farmer's taxes on his rain gauge.

Every farmer knows what the average annual rainfall is for his area. Say it's 30 inches, just for an example. Any year he gets less than 30, he gets 10 per cent off for each inch he's short. Based on 30 inches for a year, if he got 29, he'd get a 10 per cent discount on all his taxes, land and income taxes to boot. When he got down to 20 inches, you can see he wouldn't owe any taxes at all.

But my plan goes further than that. When he fell below 20 inches, having then reached zero in taxes due, he'd also get a 10 per cent bonus for each inch he fell short below 20.

This would go a long way to

equalizing the effects of a drouth. The way I see it, there's no sense in a man in a prolonged drouth not being able to enjoy all the pretty weather he's having, and this new law would help him do it.

If you think this Rain Gauge Tax and Rebate System has any chance of passing, I hope you'll throw your influence behind it, and in the mean time, while you are looking for it, I'd appreciate your sending me a map showing the driest parts of the country and letting me know whether there's any land for sale there.

Yours faithfully,
J. A.

Mr. and Mrs. Gaines Schultz of Maryneal and Capt. and Mrs. O. V. Milstead, Jr., of Camp Polk, La., spent the week end with their parents, Mr. and Mrs. O. V. Milstead, Sr. Other visitors in the Milstead home Sunday were his brothers and families, John, Robert and Rand Milstead, all o Abilene.

Sunday guests of Mr. and Mrs. Joe Bailey King were Mr. and Mrs. A. M. King, Sr. and Mr. and Mrs. A. M. King, Jr. of Abilene.

Oil Activities

J. L. Stodghill and C. P. Baker have completed the No. 1 Charlotte Farrington, three miles northeast of Munday to pump 42 barrels of 35 gravity oil daily through perforations at 1,934 to 1,944 feet.

McMahon and Bullington No. 1 Walter Mooney, two miles northwest of the Goree pool, has been completed to pump 20 barrels of 36 gravity oil daily from 1860 to 1876 feet.

Magnolia Petroleum Co. reported a 24-hour potential of 99 barrels of 37.5 gravity oil for its No. 3 Sophia Sheedy, one mile north of Munday.

Tex-Star Oil and Gas Corporation has completed the No. 1 Oia McCarty, four miles west of Munday. Drillstem test at 2030 to 2036 feet recovered 1800 feet of gas, 35 feet of oil, 45 feet of mud-cut oil, 15 feet of mud and 65 feet of salt water in 1 1/2 hours.

Ray Smith Drilling Co. of Dallas has staked three wildcats seven to nine miles northwest of Benjamin. They are: No. 1 Fant Estate, No. 2 Fant and No. 3 Fant.

A. H. Brunet and Co., Dallas, staked two Tannehill operations in the county, the No. 2-A F. J. Redder, eight miles northwest of Munday; No. 1 Duesterhaus Unit, five miles north of Munday.

The Virginia Company, Fort Worth, is drilling the No. 1 Vojkufka et al, a half mile southeast of the Voss Tannehill pool.

Kenneth J. Rich et al, Dallas, cemented surface casing in their No. 1 Bessie McStay, three miles northwest of Goree.

Among wells abandoned recently were Katz Oil Co., Abilene, No. 3 McFaddin, six miles west of Benjamin; Tom B. Meeders, Wichita Falls, No. 1 Winnie Ferguson, 2 miles west of Munday, at 2354 feet; Jack C. Staley, Wichita Falls No. 1 Georgia Mae Good, 2 1/2 miles west of Munday; Perkins Prothro Co., Wichita Falls, No. 1 R. H. Howell, 1 1/2 miles north of Munday; Tex-Star Oil and Gas Corp., Dallas, No. 1 Florence Bowden, plugged at 2200.4 feet; Kenneth J. Rich et al, No. 1 Jamison, 3 1/2 miles northeast of Munday, at 2072 feet; Strange & Sauder No. 1 Anna Urbanczyk, six miles north of Goree, at 2003 feet.

Two drillstem tests were run recently in the Tannehill sand at Perkins-Prothro Company, Wichita Falls, No. 1 C. L. Mayes, four miles northeast of Munday.

One hour test at 1912.17 feet recovered 70 feet of heavily oil-cut mud. One hour test at 1913.23 feet had gas to the surface in eight minutes. Recovery was 760 feet of oil, 180 feet of heavily oil-cut mud and 20 feet of slightly salty water.

A 2,500-foot wildcat five miles northwest of Truscott is W. E. and D. T. Walker No. 1 T. M. and T. G. Westbrook.

A deep test in Knox county's shallow producing area is Paul Raigorodsky and Harry Snebold No. 1 H. M. Michels, north of Munday. Contract depth is 5,850 feet.

Arnold P. Bruner spotted three ventures in the county: No. 1 Anton Brown, five miles east of Munday; No. 1 Florence Burnett, 3 1/2 miles west of Vera, and No. 1 Frank Knapp, four miles north of Munday.

Two miles northwest of Munday, McMahon and Bullington staked the No. 1 J. B. Roberts as a 2100 foot test, and the No.

OLD TIMERS—C. E. McCutchen, left, chairman of the board of the First National Bank in Wichita Falls, and Homer Lee, director in the Wichita Falls bank, are old

timers with the Munday bank. McCutchen started his banking career in Munday, and Mr. Lee was the local bank's second president. Both were here for the formal opening Saturday.

Supply of Grain Available Under Emergency Program

Wilburn A. Satterwhite, County Supervisor, Farmers Home Administration, has announced that applications are now being taken through February 15, 1957, for a supply of grain under the Emergency Feed Grain Program to carry basic livestock through March 15, 1957, in Knox County.

The Knox County FHA Committee, B. E. Smith, Earl A. Burgess and John H. Atterbury, must determine the eligibility of each applicant, the eligibility requirements are as following: Subject to the following conditions, any established farmer or stockman (partnership or corporation) whose principal occupation is farming or ranching and whose financial condition is such that he requires assistance under this program in order to maintain his foundation herd of livestock and confine his livestock operations, is eligible for assistance under the Emergency Feed Program. The fact that the purchase of hay or other feed at regular prices may not be profitable to the applicant is not sufficient to qualify him for assistance. The principal occupation from which he received at least one half of his net income for the calendar year next preceding the date of his applications, or the occupation to which he devoted at least one half of his time during such year, provided that partnerships or corporations will be eligible only if at least one half of their net income for such year was derived from farming or ranching.

All applications must actually be signed by the individual who is to receive the feed, the signature of a ranch foreman, a relative, or some other person cannot be considered.

SON BORN TO THE LAWRENCE HOLUBS

He was almost a Christmas baby, this David Lynn Holub, who made his appearance at a Dallas hospital on December 26, and he's just as welcome as Santa Claus. He weighed eight pounds, 2 1/2 ounces, and his parents are Mr. and Mrs. Lawrence Holub.

Grandparents are Mr. and Mrs. Emil Holub of Bomarton and Mr. and Mrs. C. H. Herring of Rhineland.

The annual Texas Dairyman's Short Course is scheduled for December 6-7 at Texas A&M College. All meetings will be held in the Memorial Student Center and subjects of great importance to the state's dairy industry are up for consideration. All persons interested in the industry are invited to attend.
