Now You Can "Bank Around The Clock"

All facilities are now ready for our customers to make deposits at any hour of the day or night. Envelopes and attached deposit slips have been placed in our 24-Hour Depository, on the northeast corner of the bank building.

You simply secure one of these envelopes, make out your deposit, print your name and address on the receipt form, seal in envelope and drop in depository vault.

Your deposit is necessarily accepted subject to verification. For your protection and ours, it will be opened in the presence of two tellers, and final credit is subject to bank's count and acceptance.

This is another service of your bank—that you may make deposits any hour of the day or night, and on holidays.

2-Millionth Ford **Assembled In Texas** At Dallas Tuesday

A major milestone in the history of Texas commerce and industry was reached April 23, when the 2,000,000th Ford vehicle came off the assembly line in Ford's Texas assembly plant in Dallas

Dwight C. Key, owner of Key Motor Co., said the milestone car was built at 7:30 p.m. The Dallas assembly plant's production sche dules were so carefully regulated that the company was able to predict the exact hour when the unit would be finished.

Ford Motor Co. first became a business and industrial citizen of Texas in 1909 with establishment of a sales, service and parts headquarters in Dallas. Assembly operations on a limited basis started in 1913 and in 1914 Ford completed Texas' first automobile assembly plant in Dallas. The present plant was opened in 1925.

Production of the milestone car is being celebrated through out the state by Ford dealers. At Dallas, a dinner was held for 100 civic leaders headed by Mayor Bob Thornton, and they watched the 2,000,000th car "Built in Texas by Texans" as it was completed step by step in Ford's hugh Dallas plant.

This hugh number of cars and trucks staggers the imagination. If all of them could be placed end to end, they would form a line 6,818 miles long . : . enough to go completely around the borders
