Odd Bits Salvaged
at Random

Activities of the Munday Moguls since last September remind us of the saying: "Always a bridesmaid, never a bride!" Twice they have "knocked at the door" of the championship, but failed to gain admittance.

k-k

In football, it was the Holliday Eagles instead of the Moguls. Although we defeated the Eagles, they became champs by virtue of our loss to Iowa Park and tie with Archer City. In basketball, the Eagles barred the door to the championship for the Moguls by beating them twice in the two-out-of-three games for the district crown. Better luck next year, Moguls!

k-k

What we need now is a dashing rain—now a downpour or big washing rain that'll wash things away—but enough to make the draws, gullies and creeks run and give us stock water in the tanks. Then, too, we could use a little order of this to wash the dirt off the pavement.

k-k

That three-day total of .50 which came during the three days of the week end was the same kind that we've appreciated since the rains started—the good, slow, soaking type that soaked in the ground and made us feel good "way down deep," although it made things sloppy around town. It'll be a long time, yet, before we become tired of wading mud.

k-k

But they started "cutting potatoes" again last Monday, which means the boys are going to make another effort to get some of the spuds in the ground. The spud is cut in quarters, halves, or however you have to cut them so there's some "eyes" in each piece that will sprout and come up.

k-k

Patches of wheat—big patches and small patches—look pretty good all the way from here to Stephenville. We took a sashay down into that country, accompanied by our sister, during the week end to see a brother whose heart had kinda flickered on him recently. We couldn't help but admire those nice patches of green along the way. They looked promising, right promising.

k-k

We got up for breakfast at the regular hour Monday and started our first of the week routine. Our muscles felt sore and tired, we could have enjoyed two hours longer in bed, and we felt just a little bit envious of our Bud. He plans to stay in bed another two weeks, like the doctor ordered, so there he was, seemingly very comfortably propped up in a hospital bed with radio and TV in his room, with a wife and ten-year-old daughter to wait on him! Sometimes it takes a heart flicker to bring us around to taking life a little more easy.

k-k

Every so often, an error insists on getting into a newspaper, and manages to get hid so it will escape the eyes of proofreaders and everybody concerned. Usually, too, it's in the biggest type that just stands out and slaps you in the face after it's been discovered too late. Such was our experience last week when late Thursday afternoon we found Purasnow Flour in Atkinson's ad at \$1.39 for a 24-lb. sack—when the price should have been \$1.89.

k-k

Those who couldn't be made to understand this was an error got some mighty cheap flour—and our face became as red as a Harvard Beet! There's just one consolation. Just make one of those glaring errors, and you'll find people really do read the home-town newspaper!

k-k

Those little red hearts have made their appearance in Munday stores—which means the "Heart Drive" is under way. The strides made in the past 10 years on heart disease research really merit your contribution to help carry on further study.

GOREE DINNER

The Goree Cemetery Association will sponsor a dinner at the Memorial building in Goree, Friday, March 1. Turkey and dressing and all the trimmings will be served. Serving will begin at 11:30.

Oil Activities

Reported Wednesday were the following completions in the county:

Nortex Oil and Gas Corp. of No. 1 Mrs. I. M. Douglas, one-half mile north of Munday, which flowed 168 barrels of 38.6 gravity oil per day from pay perforated at 2012-26 feet.

Union Oil Co. of California No. 1 L. D. Offutt, 1 1/2 miles north of Munday, flowed 84 barrels of 33.5 gravity crude per day from perforations at 2005-15 feet. Hole was bottomed at 2029.

Lomax and Maxwell of Dallas No. 7 L. K. Johnson, two miles west of Munday, pumped 62 barrels of 36 gravity oil per day from pay perforated at 1963-69 feet, with total depth at 2049.

Magnolis Petroleum Co. No. 6 Mamie Summers, one mile west of Munday, pumped 72 barrels of 36 gravity crude per day from perforations at 1949-62 feet. Hole was plugged back from 1695 to 1963 feet.

Lisle and Gray of Olney reported two completions in the Goree Field. No. 6B. Coffman, one-fourth mile east of Goree, flowed 98.48 barrels of 39 gravity oil in 12 hours from pay perforated at 1707-15 feet. Total depth was 1742. No. 7 Coffman flowed 96.37 barrels in 12 hours from pay perforated at 1721-33 feet. Hole was bottomed at 1772.

Grace-Ford Oil and Gas Co., Inc., reported a daily pumping potential of 25 barrels of 33.5 gravity oil for No. 1 Fort Worth and Denver, one-half mile east of Goree. Production is from perforations at 1714-24 feet. Total depth was 1781.

Bobby M. Burns finished No. B-1 Smith in the Knox City (Tannehill) Field, two miles northwest of Knox City, for a 24-hour pumping potential of 49.81 barrels of 35 gravity oil from pay perforated at 2300-06 feet. Hole was bottomed at 2501.

G. M. J. Oil Co. of Burkburnett has made location for No. 1 Mabel Wilson, five miles northeast of Knox City, to drill to 2300 feet.

Lomax and Maxwell of Dallas has staked No. 1 J. C. Kuhler, five miles northwest of Goree, to drill to 2000 feet.

Rev. and Mrs. Bob Cannon of Bellingham, Wash. spent the last two week ends with Mrs. G. M. Roden and family. Bob is Mrs. Roden's grandson. Guests during the week end were her children, Mr. and Mrs. A. L. Roden, Mr. and Mrs. Carl Booe and children of Munday, Mrs. Orville Roden of Seymour and Mr. and Mrs. Charles Roden and son of Jean.

J. W. HAMILTON

DR. JOHN McFARLAND

DR. GASTON FOOTE

CONVENTION—Leaders in the Oilbelt District 7 meeting to be held in Vernon on March 8 and 9 are: J. W. Hamilton, superintendent of the Seymour schools and district president, who will preside at the opening session Friday morning; Dr. John Mc-

Farland, superintendent of the Vernon schools, who will bring the welcoming address, and Dr. Gaston Foote, minister of the First Methodist Church of Fort Worth, who will bring the principal address at the evening session at 7:30 p. m. Friday.

About 2,000 teacher and administrators from 23 West Central Texas counties are expected to register for the annual convention. Munday's schools will close Friday, March 8, so local teachers may attend the meeting.

Moguls Drop Deciding Game For Cage Championship At Seymour Sat. Night

After downing the Holliday Eagles here last Thursday night 50 to 54 to even things up in the two of three play-off, the Munday Moguls lost the championship game to Holliday, 50 to 67, Saturday night at Seymour.

In the local game, Munday trailed Holliday, 9 to 16, at the end of the first period, but pulled even, 28 to 28, at the half. At the end of the third period, the Moguls had a one-point lead of 41 to 40 and remained out front until the game's end.

Munday's Girls Win 11-A Title

The Munday girl's basketball team edged out Archer City's girls, 49 to 46, at Megargel last Tuesday night to capture the district 11-A title. The game was the third of a best of three series.

The local girls will play Bridgeport at Midwestern University in Wichita Falls next Monday night for the bi-district title.

Margaret Vandell and Becky Clark netted 21 and 20 points respectively for Munday, while Carolyn Schenk sank 23 points for Archer City.

The score by quarters:
Munday 10-32-37-49
Archer City 11-22-31-46

Funeral For Mrs. Tom Cobb Held Tuesday

Funeral services were held at 2:30 p. m. Tuesday from the First Baptist Church in Lubbock for Mrs. Tom Cobb of Lubbock, wife of the president of Cobb's Department Stores, who died at 3:30 a. m. Sunday in Baylor Hospital in Dallas following a long illness.

Dr. J. Ralph Grant, pastor, officiated and burial was in Tech Memorial Cemetery in Lubbock. Mrs. Cobb was reared in Seminole. She attended Wayland College in Plainview, Texas Christian University and North Texas State College. She was married to Mr. Cobb in 1930.

Survivors include her husband; one daughter, Mrs. Bert Nelson of Dallas; two sons, Tom, Jr., and Joe Paul Cobb, both of Lubbock; a brother, Gordon Cobb of Seminole; three sisters, Miss Ira Cobb and Mrs. Dorothy Hargrove, both of Seminole, and Mrs. Roy Davis of Lubbock; and two grandchildren.

Cobb's store in Munday was closed all day Tuesday in her memory, and Royce Hardy, local manager, attended the funeral services.

Public Invited To Inspect New Band House Sunday

Work has been completed on the new band house at the Munday Public Schools, it having passed its final inspection this week and will likely be approved by the school board at their meeting Thursday night.

W. C. Cox, superintendent of schools, announced Tuesday that open house for this new building will be held next Sunday from 3 to 5 p. m.

The entire public is invited to visit this new building and inspect the facilities now available for Harold Jackson, band director, and his band students.

Mr. and Mrs. Troy Denham and children of Lueders were Sunday guests of her parents, Mr. and Mrs. Leland Hannah.

Moffett, Cloud File Bills Forming Water District For West Texas Area

Bills to enable seven West Texas cities to form a water district were introduced Tuesday of last week in the Texas Legislature by Senator George Moffett of Chillicothe and Representative Ed Cloud of Rule.

The measures would permit Goree, Haskell, Knox City, Mun-

day, Rochester, Rule and Seymour to co-operate in construction of a dam and reservoir on Miller Creek in the southwestern part of Baylor County.

After passage of the enabling legislation, the cities will have local option elections to see if voters favor participation. If enough cities want the project, a permit for the dam will be sought from the Board of Water Engineers.

Each city would have two directors on the governing board for the district, which would be known as the North Central Texas Water Authority.

Tentative plans call for most of the cost to be paid from sale of water.

Moffett said the extended drought has lowered underground water tables to an extent that areas dependent on wells are threatened with a serious water shortage.

New Bridge Due At Rhineland

A new \$120,000 concrete bridge should span the Brazos River just north of Rhineland in the next 12 months, taking place of a one-way steel overhead structure built by Knox County many years ago and later taken over by the State Highway Department. It is now on Farm-Market Road 267, or old F.M. 222.

Presently the bridge is prohibited to trucks of 10,000 pounds and over. About two years ago a sinusoidal dump leading up the bridge on the north side of the river was badly washed and asphalt taken off, during an unusual freshet on the stream.

The county years ago built the one-way bridge at a cost of about \$10,000. When the SHD took over and paved the road between U. S. 82 and the Munday-Knox City Highway, it improved the structure with a wooden floor with asphalt surface.

L. A. Parker, Knox County Judge, says three other highway department projects in the county should get under fair headway before the end of 1957.

One of these, a F.M. Road, would spur off the Munday-Knox City Highway about five miles. (Continued on Last Page)

Goree School To Name 2 Trustees

Goree Independent School District will elect two trustees in the election to be held on Saturday, April 6, it was announced this week by J. B. Lawson, superintendent.

Those whose terms expire are T. J. Trainham and Billie Hutchens. Hold-over members are George Hunt, Reuben Bates, J. D. Hicks, Lee Patterson and Melvin Cunningham.

Any person desiring to have his name placed on the official ballot as a candidate for the office of a school trustee shall at least ten days before the election, file a written request with the county judge, requesting that his name be placed on the official ballot; or five or more resident qualified voters in the district may sign a petition requesting the county judge to certify names to be placed on the official ballot.

The last day for filing in either case will be Tuesday, March 26.

City Maintains 25 Pct. Credit On Fire Insurance

A recent letter from Mark Wentz, state fire marshal, and Eugene Sanders, director of fire prevention and assistant fire marshal, notified the Munday Fire Department that its records during the past year maintains the 25 per cent credit on fire insurance, which is tops for any town.

The letter showed Munday as having premiums of \$36,522 and fire losses of \$1,273 for 1956, thus meriting the 25 per cent credit.

"We appreciate the effort on the part of all members of your local fire department and your local fire marshal to control fire," these men stated in the letter. "We truly believe that education is the best approach to the fire control problem."

BIRTH ANNOUNCEMENT

T/Sgt. and Mrs. Emil Hoff of Biloxi, Miss. are announcing the arrival of a daughter on February 18th. She weighed 4 pounds and 8 1/2 ounces and has been named Pamela Nanette. Pamela has 2 older brothers, Chris and Darcy, who are very proud of their new sister. Grandparents are Mr. and Mrs. Terry Harrison of Munday and Mr. and Mrs. L. W. Hoff of San Diego, Calif.

Shop In Munday On Dollar Day

Several of Munday merchants are continuing to bring "Dollar Day" values to their customers and people of the Munday trade area with another day of bargains for next Monday, March 4th.

Although not on as wide a scale practiced a few months last year, these merchants believe in continuing these values which their customers appreciate and have become accustomed to.

"We appreciate the fact that many people of our area believe and practice trading at home," they said, "and we want to continue bringing them values just as great as can be found elsewhere. Many of our customers look forward to 'Dollar Day' each first Monday."

A special invitation to visit Munday on Dollar Day has been extended by Cobb's Department Bertha's Babyland, Kemtze and Carl, Ben Franklin Store, The Fair Store and Perry Bros.

Vera Students Must Have More Credits

Starting next fall, Vera High School students will be required to have 17 credits, and the next year 18 credits, to graduate from high school. The Vera School Board adopted the new requirements at the last meeting.

The basic state requirements for all state accredited schools are 16 credits completed to graduate. The basic subjects now required for Vera students to graduate are as follows:

Four credits in English, two in math, two in science, three in social studies, and the remainder elective subjects.

All junior and senior students will be permitted to carry five subjects their last two years.

HEAD HEART DRIVE

Charles Baker of Munday and Allen Hester of Knox City head the Heart Fund Drive for this area. The drive, which got under way this week, will continue for two weeks. Contributions to this worthy project are urgently requested.

NONE ARE TOO YOUNG to be struck down by heart disease. Texas Tech President E. N. Jones, who is chairman of the current 1957 Texas Heart Fund, is shown visiting 14-month-old Marshall (eq), a heart patient in Methodist Hospital in Lubbock. The infant is the son of Mr. and Mrs. Alfonso Marroquian of Post, Texas. Dr. Jones, in urging support

BOOK REVIEW IS SLATED FRIDAY

A review of the book "Miracle in the Mountain," will be given by Mrs. L. E. Dudley of Abilene on Friday afternoon at the First Methodist Church, being sponsored by the Munday Study Club. Tea will be served to guests at 3:30 p. m., and the review will begin at 4 p. m. Tickets are being sold by Study Club members at 50 cents each, and the public is invited to attend.

Mrs. A. L. Smith visited her son, Waymon Smith at Baylor University in Waco, and with her daughter, Mrs. Tommy Parker and family in Taylor this week.

WASHINGTON X-RAY—Such famous chests as those of Senate Majority Leader Lyndon Johnson, Speaker Sam Rayburn, Senator William Blakley and Congressman Homer Thornberry and Clark Thompson were X-rayed in

Washington recently in the annual chest X-ray survey set up by that city's tuberculosis association and the U. S. and city public health services. The service was available so all personnel employed on Capitol Hill and was

held in the New House Office Building. Senator Johnson is shown being placed in position at the X-ray machine. Others, left to right, are Congressmen Thornberry and Thompson, Speaker Rayburn and Senator Blakley.

MOLLY-CODDLING NO ANSWER

As everyone who reads or listens to news accounts knows, juvenile crime has become a problem of grim dimensions in this country.

A leading authority, J. Edgar Hoover, of the FBI, has devoted a signed editorial to it in a recent issue of that organization's law enforcement bulletin. He says, "Recent happenings in juvenile crime shatter the illusion that soft-hearted molly-coddling is the answer to this problem." And he asks, "Are we to stand idly by while fierce young hoodlums—too often and too long harbored under the glossy misnomer of Juvenile delinquents—roam our streets and desecrate our communities? If we do, America might well witness a resurgence of the brutal criminality and mobsterism of a past era."

Mr. Hoover also demolishes the idea, held by some people, that there isn't any more juvenile crime than there used to be—that it's just better publicized. In the past four years, the population of 10-17 year olds has risen 10 per cent. In the same time, arrests of individuals in that age bracket have increased at twice the rate.

Finally, Mr. Hoover makes a strong case against the common custom of not publishing the names of young criminals. As he puts it, "Publicizing the names as well as crimes for public scrutiny, release of past records to appropriate law enforcement officials and finger-printing for future identification are all necessary procedures in the war on the flagrant violator, regardless of age."

We have tried the soft-hearted approach, and it has failed. In the name of self-preservation, it is time to toughen up.

"NOTHING SELLS LIKE NEWSPAPER ADV."

"At the retail level, nothing sells like newspaper advertising if the product has newsworthiness, is priced right, and if in-store promotion follows through."

That statement was made the other day by a Philadelphia advertising man, speaking at a sales forum. He gave the example of one of his clients, who gained \$8 million in retail sales over a three-month period for an advertising expenditure of less than \$100,000. He added: "The real payoff of this promotion came as the result of newspaper advertising."

The other and newer media have their place—but they can't supplant the newspaper. That goes for the papers in the little towns no less than those in the great cities.

NEW CHAPTERS

Europe, along with other overseas areas, has developed a hearty and growing appetite for U. S. coal.

Last year shipments of coal abroad reached over 48 million tons—a record high. This year, estimates indicate another record of about 55 million tons is due to be established.

Europe needs U. S. coal for a variety of reasons. One is that industrial development there is in high gear, and has created a strong demand for more sources of energy—a field in which coal is basic. Another is that many of the European mines were old and have become inefficient from natural causes. Still another is that in many countries governments own or control the coal industry—and political management has produced lethargy, labor dissatisfaction, and short production. Still another is that the American coal industry not only can produce coal in any quantity desired, but can "tailor" coal to most economically and effectively meet special needs.

Coal has a long history—and important new chapters are being added all the time.

SHORT END OF THE STICK

The Advertiser, of Calais, Maine, points out that in many parts of the world socialists are worried because workers prefer jobs in private industry as against jobs in nationalized industry. It cites two examples. The private building industry in Soviet East Germany has been taking the more efficient workers away from state-owned companies. And Bolivia's experiment in government operation of the tin industry failed primarily because of low worker productivity—they worked harder for private owners than they did for the government.

This is not surprising. Workers can bargain with private industry and get improved wages and working conditions. But when government is the boss, it calls the tune as it sees fit, and anything resembling equality of bargaining is impossible. The moral: The masses of working people always get the short end of the stick under socialism.

KNOXVILLE, IOWA, EXPRESS: "The big question today is not whether a lot of men try to beat the government. It is whether the government can beat you with vicious taxation, inflation, etc."

MODERN HOMEMAKING

Recipes . . . Household Helps

By Julia Hunter

HOME ECONOMICS DIRECTOR, LONE STAR GAS CO.

Potatoes deserve their daily place on the menus of American families. A significant source of Vitamin C, they also provide other vitamins, minerals, protein, and they are rich in energy-giving carbohydrates.

Because potatoes are richest in vitamins and minerals just below the skin, peel them paper thin if they must be peeled.

While there hundreds of recipes for potatoes, certain dishes seem to remain the favorites day in and day out, year after year. Mashed, baked, stuffed, scalloped, hashed brown, au gratin, American fried and French fried, stay at the top of the list.

To have light fluffy mashed potatoes, don't spare the beating. Add really hot milk to boiled mashed potatoes and beat hard. A few drops of onion juice, a little minced onion, a springling of grated cheese or a few snips of minced parsley add flavor variety to mashed potatoes. One pound or about 3 medium potatoes will make approximately 2 cups mashed potatoes.

So skins of baked potatoes won't be left on plates, scrub them dry potatoes thoroughly and rub

them well with fat before baking. This keeps skins tender-soft and gives them delicious flavor. Bake potatoes in a hot oven, 425 degrees F. for about one hour for large ones. Break the skin immediately upon removal from oven so steam may escape and potatoes won't become soggy.

For delicious creamy scalloped potatoes, cook thinly sliced peeled raw potatoes and onions 5 minutes in 1 inch boiling water in a covered saucepan. Meantime, make a thin white sauce. Drain the potatoes and onions, saving the water for soup or sauce at a later date. In a greased casserole, arrange a layer of potatoes and onions, then a layer of sauce so there are layers of potatoes and onions and three layers of sauce. Bake in 400 degree F. oven. Four-and-one-half cups potatoes, 1 1/2 cups onions and 1 1/2 cups white sauce will make six servings. Bake in a 1 1/2 quart casserole 35 minutes.

If you prefer old fashioned scalloped potatoes, arrange a layer of thinly sliced peeled raw potatoes in a greased casserole. Sprinkle potatoes with chopped onion, salt, pepper and flour and

THE LAST WORD

The Tenth Amendment says that all powers not given to the United States government shall belong to the states or to the people.

In any showdown, one court—the Supreme Court—says whether the federal or the state governments (or nobody) can do certain things. Hence the case of the sturdy Captain Gideon Olmstead, the first man who tested this court power. And what a time he had!

In 1778 the British ship Active captured Captain Olmstead's fishing boat upon the open sea and took his three-man crew aboard to help sail a war cargo to New York. But Olmstead and his three men drove the British below deck.

While Olmstead headed for New Jersey his men kept up a battle with the crew below. After two days the American brig Convention hove to and took over and its captain, Thomas Houston, claimed the Active as a prize since there was still fighting going on.

Olmstead protested, but the brig brought in the prize to Philadelphia.

Under the Articles of Confederation states like Pennsylvania had set up admiralty courts to decide claims arising at sea. The Philadelphia court gave Olmstead only one-fourth the prize.

So Olmstead appealed to the committee of the Continental Congress named to review all cases of capture at sea. It decided for Captain Olmstead. The Pennsylvania court at once denied the committee's right to upset its jury's verdict.

Meanwhile, we had given up the Articles of Confederation and adopted the Constitution which lodged admiralty powers in the federal government.

For thirty-one hard-fought years the case shuttled between state and federal courts. Everybody got into the act—the governor, the legislature, Congress,

and even President Madison.

In 1809 the U. S. Supreme Court upheld a lower court which had decided that the Committee of Congress was right. This was a victory for Olmstead.

In this showdown Pennsylvania called out her troops. Rebellion spread. The U. S. Marshall swore in a 2,000 man posse to take over the prize money for Olmstead. Finally when President Madison himself said the Court had the backing of the U. S. Government, the Pennsylvania legislature gave in.

Poor Olmstead at 83 got his prize money, but he won a bigger case for the Supreme Court before the American people. As so often happens, a Supreme Court case involves justice for one man, in this case a humble fisherman. But the issue was national in scope.

(This column, based on Federal law and prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

World's Largest Oil Reservoir

UPON DISCOVERY THAT THE CLAY at Amuay, Venezuela, was impermeable enough to hold oil without any appreciable loss from seepage, the U. S. owned Creole Petroleum Corporation, with the help of experts from Massachusetts Institute of Technology, has drastically cut storage costs in the construction of this 8,800,000 barrel earthen storage reservoir—the largest in the world. Covering nearly 29 acres, it is 60 feet deep and has an earthen dam 275 feet wide at base around two sides. This type of storage, built at a cost of \$2,800,000, cuts cost to about 35 cents a barrel compared with \$1.65 to \$2.00 for conventional tank storage.

Weekly Health LETTER

Issued by Henry A. Holle, M. D., State Health Officer of Texas

AUSTIN—Increased rains, no more freezes and an early spring are welcome news to farmers and the rest of Texans.

However, Dr. Henry A. Holle, commissioner of health, warns that the abundance of rainfall and warm weather means an early attack of the yearly onslaught of flies and mosquitoes on the Texas scene.

Much sickness can be caused by these winged creatures, in addition to bringing a bothersome nuisance and unsightly conditions if the proper safeguards are not taken early enough to offset the heavy numbers expected with the coming of warmer weather.

One disease, which has taken on new significance in Texas is encephalitis, sometimes called "sleeping sickness." There are others.

Several outbreaks have been reported in Texas during the past few years, and scientists have shown that the main culprits are two types of mosquitoes common to Texas, the culex tarsalis and culex quinquefasciatus.

Flies, too, wreak havoc with the health of human beings, often causing dysentery and other gastrointestinal disorders.

The Texas State Department of Health recommends that steps be taken now to head off the attack of warm weather insects.

Check your garbage cans for leaks and corrosion, replacing them if they are worn or damaged. Garbage cans and containers should be washed weekly to keep them clean and dry.

Always replace the lid when depositing refuse. If the lid does not fit, fix it or get a new one. Also, the cans should be on a concrete slab four inches high.

If a concrete slab is impractical, build a wooden stand 18 inches high. This will protect against corrosion and maulers. A fly or mosquito will starve to death if it can't eat.

Inspect the house and grounds carefully for stagnant water catchers. Vases and flower pots inside the house are frequent offenders as are old tires, wood piles, tin cans and empty jars in the yard.

Use a good residual-type spray on all outbuildings, walls, ponds, shrubbery (use a water base spray) and septic tanks. Also clean out the weeds and close shrubbery around any ponds.

Repair worn screens and use a space or ascosol bomb to rid the house of flying pests, being careful to cover exposed food and eating ware.

Take these precautions now and keep them up all summer and through next fall, and the fly and mosquito population will be the only loser.

LOCALS

TO BROTHER'S FUNERAL
Kirby Fitzgerald was in Houston from Thursday until Saturday, where he attended the funeral of his brother, J. T. Fitzgerald, on Friday. Mr. Fitzgerald passed away in a Houston Hospital on Wednesday afternoon.

Mr. and Mrs. Guindell Ritchie

and son of Wichita Falls were week end guests of her parents, Mr. and Mrs. Omer Cure.

Mrs. Don Wardlaw, Mrs. Freddie Morrow, Mrs. Don Boyles and Mrs. Tom Morton were visitors in Abilene last Friday.

Mr. and Mrs. Detroy Trammell and daughter of Purcell, Okla., spent the week end with his parents, Mr. and Mrs. Frank Trammell.

Mr. and Mrs. A. E. Richmond and children of Lubbock were guests of her parents, Mr. and Mrs. Charlie Haynie, Sr., over the week end.

Mr. and Mrs. Durwood Thigpen of Abilene visited friends here last Sunday.

Mr. and Mrs. O. R. Mitchell and son spent the week end in Weatherford visiting with their daughter and family.

Lee Bowden, of Texas Tech in Lubbock was a week end guest of his parents, Mr. and Mrs. Levi Bowden.

Miss Glenda Yeager of Abilene visited her parents, Mr. and Mrs. E. F. Yeager, over the week end.

Sied Waheed and Abraham Choucair visited relatives in Lubbock the first of this week.

Mrs. J. L. Warrick of Wellington spent the week end with her brother and wife, Mr. and Mrs. Aaron Edgar. She and Mr. Edgar went to Stephenville last Saturday to visit a brother, Zeddie Edgar, who suffered a heart attack on February 10th.

Junior High School Invites Parents To Program, Reception

The student body and faculty of Munday junior high school will observe Public School Week with a program and reception in the Sunset gym from 1:30 to 2:30 p. m. Thursday, March 7.

The theme "The Citizenship Club in Action" will feature the four standing committees of the club. Led by their respective chairmen, they will present through talks and skits phases of school life and student activities which have been of value to the progress of the school during the year. The program includes the following:

Devotional, led by Wayne Resell, program committee; "Our New Equipment," led by J. L. Hunter, building and grounds committee; "Operation Safety," led by Sara Offutt, health and safety committee; "Democracy in Action," led by officers of the Student Council; parent reception directed by Sharon Cypert, good manners committee.

New equipment, including maps, reference books, stage furnishings, gym improvements, charts and other items of interest, will be on display in the gym. Following the program, refreshments will be served by the good manners committee.

The faculty and students urge all parents and friends of the school to be present on this occasion.

Vera To Observe Public School Week

The following program will be held at the Vera Public School in observance of Public School Week:

Tuesday—Grade school special program will begin at 1:30 p. m. and program will be held in each room until 3:30. Demonstrations by students of their skills in classroom work and contests will be given by each classroom. The high school homemaking department will serve refreshments during the afternoon.

Wednesday—A community spelling bee will be held in the high school study hall. Everyone is invited to enter. One division will be for adults, one for school students and one for grade school. The champion for the Times Publishing Co. contest to represent Vera School will be decided at that time. A first place trophy will be awarded the adult, and medals given to all other first place winners.

Thursday—at 1:30 p. m., parents of the junior-senior class are invited for a conference on vocational guidance, dealing with tests showing the abilities of their children, their interest and aptitudes.

Friday—School will be dismissed all day so the faculty may attend the Oil Belt District teachers meeting in Vernon.

FUMIGATE GARDEN SOIL TO CONTROL ROOT KNOT DISEASE

Root knot disease can be controlled in garden soils by fumigation. Extension Plant Pathologist Dr. Harlan E. Smith says the fumigant should be applied from 10 days to 2 weeks before planting and soil moisture should be adequate for germinating seed. More moisture is required in sandy soils.

Before fumigating, remove from the area to be treated all plant trash and infected roots. Prepare a good seed bed as if for planting. Use a hoe or plow to open furrows 6 to 8 inches deep and 12 inches apart. Apply the fumigant from a fruit jar.

Two holes should be punched in the jar lid, one to let in air and the other for distributing the fumigant. Make the application by walking along the open furrow and dribbling the fumigant into the bottom of the furrow. Smith advises covering the furrow immediately to prevent loss

58 Years of Automotive Pioneering

DETROIT, MICH.—The first vehicle built by Henry Ford for sale was a truck, sold to a company here in 1899. Above it is compared to the latest 1957 Ford truck, the new styleside pickup. The 1899 model chugged along on an eight-horsepower engine. In contrast, the 1957 pickup has up to 171 horsepower. Compared to last year's pickup, the new Ford is three full inches lower, has three inches more elbow room in the cab, and was completely redesigned and restyled. The styleside pickup box is standard equipment.

of the fumigant gases.

He says a pint of the material should cover about 150 feet or row space. It is a good idea, he adds, to test first with water in the jar to determine how fast to walk in order to make the proper distribution. He says Garden Dowfume, D.D. Solfume 60-40, Isobrome 40 and Bromofume 40 are all effective as garden fumigants.

Severe injury may result if the fumigant application is made closer than two feet to growing plant roots. Keep the material out of the eyes and mouth and should it be accidentally spilled on the hands or clothing, remove it immediately with soap and water or kerosene, cautions Smith.

Since such warm weather crops as tomatoes, peas, cucumbers and okra are more susceptible to root knot damage, the specialist suggests fumigating the rows where

they will be planted. Finally, he adds, don't mix treated and untreated soil and use disease-free transplants.

Cotton Diseases Cut Texas Yield Around 10 Pct.

Estimates place the loss to Texas cotton producers during the past five years from diseases at more than 2,000,000 bales. About 20 percent of the total is charged to seedling diseases.

THE TONGUE

"The boneless tongue, so small and weak, can crush and kill," declared the Greek.

"The tongue destroys a greater horde," The Turk asserts, "than does the sword."

The Persian proverb wisely saith: "A lengthy tongue—an early death."

Or sometimes takes this form instead, "Don't let your tongue cut off your head."

"The tongue can speak a word whose speed," Say the Chinese, "Outstrips the steed."

While Arab sages this impart, "The tongue's great storehouse is the heart."

From Hebrew wit the maxim spring, "Though feet should slip, ne'er let the tongue."

The sacred writer crowns the whole, "Who keeps his tongue doth keep his soul."

NEW famous fully guaranteed VICTOR ADDING MACHINE

As advertised in Saturday Evening Post, Time and Business Week

Low monthly terms. Small down payment. COMPARE WITH OTHER MAKES COSTING AS MUCH AS \$25.00 MORE! Practical for small stores, shops, restaurants, farms, homes, offices, filling stations. Ideal as a "second machine." Lists 5 columns, totals 7. Choice of key-boards. Portable, easy to use. Call today for a free trial.

Munday Times

News Of Munday F. F. A. Chapter

Angular leaf spot or bacterial blight, root rot, boll rots, fusarium wilt, verticillium wilt, root knot, nematodes and rust, says Dr. Harlan Smith, extension plant pathologist, are other diseases of great economic importance.

The loss during the last five years amounts to about 10 percent of the total yield but last year's loss was 11.5 percent, the highest on record for the state. The increase last year is attributed to the widespread appearance of verticillium wilt in the High Plains and Pecos areas and (apparent) increases in cotton root rot in the Lower Rio Grande Valley and in the Pecos, Fort Stockton, Bakersfield areas of West Texas. Too, rust was found in South Texas for the first time since 1943 and fusarium wilt in west Texas for the first time ever. Losses to root rot in the Central Blackland area last year were less than usual. This loss normally ranges from 10 to 25 percent annually, says Smith.

In addition to the direct loss of stands and plants, cotton quality is often lowered because of disease damage. Angular leaf spot and boll rots each are often cited as the reason for lowered cotton grades.

Smith urges cotton growers to give more attention to practices which can be used in cutting these losses. These include seed treatment, planting disease resistant varieties, crop rotation and the use of chemicals. Local county agents, he adds, can supply information on the control practices.

Mrs. Rusty Doran of Odessa came in last Monday to spend the week with her parents, Mr. and Mrs. W. C. Bevers.

The boys of the Munday chapter are beginning work on various judging contests. Eliminations for the livestock judging team has been made, and the team is composed of Robert Beck, Joe Decker, Gayle Gulley and Lloyd Welch.

They went to Wichita Falls and participated in the judging contest at the calf show, doing pretty good for their first time. Elimination for other judging teams will be made in the near future. Projects for the Munday chapters this year consists of feeding out 29 dry lot calves, using about 100 tons of silage which the boys put up last summer, supplemented by cottonseed meal, and salt minerals. 33 hogs and 48 lambs are also being fed out.

The boys have moved their feed lots two miles south of town and have done well, considering that a bunker silo had to be built, a well dug and pipelines laid for the feed lots, which were also fenced. The boys are doing well with their stock.

The parent-son banquet will be held Tuesday, March 5, at 8:30 p. m. in the school lunch room. Glenn Shelton will deliver the address, and the boys hope every parent will be present.

The soil conservation grain and fertilizer drill which has been under control of the Munday chapter has been repaired and is now in good shape. If you need to use a drill, see or call E. R. Ponder. Also call him if you need hens culled.

It's time to treat peach trees for borers.

Collis Michels of Texas Tech in Lubbock spent the week end with his mother, Mrs. Leona Michels.

Mrs. W. G. Leflar visited her sister and husband, Mr. and Mrs. R. C. Kendrick, in Waco over the week end.

State Honors for 4-H Citizens

Linda Terry, 16, of Roby, and David Kuperman, 15, of Breckenridge, were named the 1956 Texas winners in the 4-H Citizenship program. Each was presented with a certificate of honor recognizing their good citizenship. The award is made in honor of Thos. E. Wilson, Chicago, veteran backer of 4-H youth.

Linda Terry David Kuperman

Linda, a seven year 4-H'er, believes that an interest in politics will make her a better informed voter, and that the character 4-H builds is a way of life that makes good citizens. David, a Club member for four years, appeared on radio in behalf of the March of Dimes polio fund. As a community safety measure, he staged a one-man clean up campaign around his farm home.

Throughout their 4-H careers, these citizens of tomorrow encouraged younger members to think and act like good citizens today.

The 4-H Citizenship program is conducted under the direction of the Extension Service of Texas A. & M. College with the U. S. Dept. of Agriculture cooperating.

Local Youth To Attend SMU Camp

Miss Margaret Yandell was recently chosen as delegate of the Stamford District, Methodist Youth Fellowship, to attend the senior conference on student churchmanship to be held at Southern Methodist University in Dallas on March 2 and 3.

The conference will include about 50 delegates from over the south-central jurisdiction.

The program will begin at 10 a. m. Saturday, March 2. The theme of the conference is "Serving Christ Through Learning."

Miss Yandell will register in the lounge of Kirby Hall, in the quadrangle of the Perkins School of Theology, Saturday morning. She will be roomed at the university dormitory.

NEWS FROM VERA

Mr. and Mrs. Louis Clark, Gayle, Dwight and Deryl Max of Olton visited over the week end with her parents, Mr. and Mrs. Edd Allen.

Mr. and Mrs. Jack Matthews and family have moved to Corsicana after having lived in this community for the past year and a half.

Mr. and Mrs. Gene Wilson of Pecos are the parents of a son born recently. Mrs. Wilson is a daughter of Mr. and Mrs. Alvis Petty.

Mr. and Mrs. Clifford Boone and girls visited recently with her mother, Mrs. Viola Sanders and sister, Mr. and Mrs. Carl Kuehan and Barbara.

The Vera high school boys and girls volley ball teams went to Rhineland last Tuesday where they played the Rhineland teams. The girls lost all of their games but the boys won two out of three of their games.

Mr. and Mrs. Robert Brown of Seymour visited Sunday with his parents, Mr. and Mrs. J. T. Brown.

Mr. and Mrs. Clyde Beck and two children of Memphis spent

the latter part of last week at their home here in Vera. Buster Jackson accompanied Clyde to Dallas Thursday and Friday on business.

Mr. and Mrs. Calvin Campbell and family of Fort Worth were visitors in the A. M. Bradford home over the week end.

Mr. and Mrs. Bill Townsend accompanied Mr. and Mrs. Billy Kinnibrugh of Gilliland to Wichita Falls last Wednesday, on business.

Mr. and Mrs. Raymond Carol and family of Louisiana spent the week end with her grandparents, Mr. and Mrs. H. H. Gore.

Mr. and Mrs. Travis Gore and son of Wichita Falls spent Sunday with his parents, Mr. and Mrs. H. H. Gore.

Mrs. Jess Trainham accompanied Walter Trainham of Benjamin to Jacksboro last Saturday to get Mrs. Walter Trainham, who had been helping entertain a new grandson, Charles David, son of Mr. and Mrs. Charles Jones.

Mr. and Mrs. Lee Wayne Feemster and Mr. and Mrs. Pierce Rogers of Abilene visited recently with Mrs. R. C. Spinks Sr. and Mr. and Mrs. Lee Feemster.

Mr. and Mrs. Byron Hughes of Eunice, N. M. visited Friday thru

A Pole-Type Barn on 'Installments'

FIRST STEP: 24-foot, clear-span building with high gable.

ADD LATER: 14-foot lean-to

Build the basic unit on poles treated with penta, then expand it or add to it whenever the time, labor or money is at hand. Use each "installment" as it is built.

Newest idea in farm buildings since the introduction of pole-type construction is the erection of these pole-type structures in "installments" through the use of standard parts and details.

Many efficient building sizes and shapes are possible in this "multicombination" construction, introduced recently by the Agricultural Experiment Station at Oregon State College, Corvallis, Ore. More important, however, is the fact that any of the buildings can be:

1. expanded as the need arises.
2. built when the labor is at hand.
3. budgeted and built in "easy stages".
4. used while you wait to expand it or add to it.

Details of the "installment" construction of the pole-type buildings are described by Leroy Bonnicksen, assistant agriculture engineer of the college, in Station Bulletin 557.

Specifications call for poles with a minimum top diameter of five inches, treated against termites and decay. Splatter boards and other wood in contact with the soil should be treated with a preservative such as penta. In fact, the bulletin states: "It is cheaper to use treated lumber (which has a higher first cost but longer life) than untreated lumber."

Tuesday of last week with their son, Mr. and Mrs. Maurice Hughes, Challa and Byron.

Rev. S. A. Wolfe, pastor of the Vera Methodist Church has announced the Spring Revival will begin Sunday, March 3rd and continue thru the following Sunday. Everyone is invited to attend. Services will begin at 7:30 p. m. Rev. Wolfe will do the preaching.

Mr. and Mrs. Charles Russell and son and Mrs. Mattie Russell of Fort Worth visited with relatives here last week end.

Rev. Marshall Rhue, district superintendent of Stamford district, preached at the evening services at the Methodist Church last Sunday.

Mr. and Mrs. Bill Shipman of Seymour visited last Monday with Mrs. Tom Hurd.

Mr. and Mrs. Pete Feemester of Weatherford spent last week end with her mother, Mrs. W. P. Allen. Mrs. Brown is the former

Hurd.

Mr. and Mrs. Clifford Roberson and Mr. and Mrs. Bobby Roberson and daughters visited Mr. and Mrs. Robert Trainham of Santo, Texas last Saturday. Sunday the group went to Stephenville where they visited with the Floyd Hill family. This is an annual get-together for the families celebrating the same wedding anniversaries for the Robersons and Trainhams. Also present for the occasion were Mr. and Mrs. Joe Wayne Roberson and Gilda of Irving and Mr. and Mrs. Charles Roberson and children of Dallas.

Little Clay Mitchell Brown of Abilene spent the week end with his great grandmother, Mrs. Jim Hughes, and great grandparents, Mr. and Mrs. Ed Allen. He was accompanied by his parents, Mr. and Mrs. Jerrell Brown and grandmother, Mrs. Clarence end with her mother, Mrs. W. P. Allen. Mrs. Brown is the former

PUBLIC SCHOOLS WEEK

The need for the public school never changes, but times and conditions may change or require to be changed methods and practices of public education. This is inherent with anything that grows, for growth is the result of change.

Our Texas public schools were created 103 years ago. In 1854 the first law passed establishing the public school.

It is a healthy thing in our democratic way of life to have intelligent understanding of the important functions of our basic institutions. This is especially true of the schools. The initiative and resourcefulness and the wisdom and leadership that our schools are inculcating in the youth of today are the answer of the problems of citizenship in the years ahead.

Yes, "bring me men to match my mountains." That is the need of our times and must come from the public schools—schools that are strong in virtues required for building strong men and women.

We can be assured of this and do our part in understanding and helping the public schools to fulfill their great obligation to our times by being a participant in

the annual Public Schools Week, March 4 through 9. Schools will hold open house; accept their hospitality, and you will enjoy the experience of going back to school—if but for a day.

Fishing's easy with a new custom float. A heavy waterproof canvas cover fits over large truck tube. The float is equipped with a built-in, adjustable canvas seat, shoulder straps, and a roomy zipper tackle pouch. A chest-high waterproof cover-all keeps the fisherman dry, and "paddle pushers" (steel fins fastened to aluminum heel cups) enable him to move through the water.

By John C. White, Commissioner

AGRICULTURE AND THE FIFTY-FIFTH LEGISLATION

The Texas Department of Agriculture owes its existence and operation to members of the Texas Legislature, past and present. The only major state agency created by statute, the department's every function has been directly dependent on the state's lawmakers from its earliest beginning.

This year with the meeting of the 55th Legislature, important agricultural legislation has been set before the lawmakers either

for passage, amendment and passage, or rejection.

The men whose direct responsibility is the consideration of these measures, which include a proposed egg grading and standards, law, strengthening of seed controls and other regulatory measures, are the standing committees on agriculture in the House of Representatives and the Senate.

Agriculture committee members are in most instances legislators representing areas where agriculture is an important industry. They are directly concerned with helping the economy of their constituents and are vitally interested in and well-informed on Texas agriculture and its problems.

A cross-section of these legislators shows representatives from every section of the state. We are fortunate in the 55th Legislature to have the experienced and cautious as well as the young

and aggressive on our agriculture committee.

Chairman of the Senate Committee on Agriculture in Sen. George Moffett of Chillicothe, senior member of the upper chamber whose record stands out as one of hard work and honesty.

Assisting him as vice-chairman is Sen. Culp Krueger of El Campo in the heart of Texas' vital rice belt. Other agriculture committee members include Sens. Carlos Ashley of Llano, Neville H. Colson of Navasota, Frank Owen III of El Paso, Andy Rogers of Childress, Jarrard Secrest of Temple, Preston Smith of Lubbock and Doyle Willis of Fort Worth.

Heading the companion House Agriculture Committee is young and enthusiastic Rep. Harold Parish of Taft, assisted by L. L. Armor of Sweetwater, vice-chairman. Additional members include Reps. Paul Brasher of Cisco, Ed J. Cloud of Rule, Carl C. Conley of Raymondville, W. T. Dungan of McKinney, Bill Hollowell of Grand Saline, L. L. Holstein of Pandora, J. C. Hooks of Livingston, John Huebner of Bay City, Moyne L. Kelly of Afton, Harold G. Kennedy of Marble Falls, Glenn H. Kothmann of San Antonio, Truett Lathimer of Abilene, George W. McCoppin of Texarkana, Grainger W. McIlhany of Wheeler, C. T. Matthews of Yoakum, Walter C. Schwartz of Brenham, Hershel Sherrill of McDade, Sam E. Wohlford of Stratford and Herman Yezak of Bremond.

Champion Better Government Bills

Rep. John Lee of Kermit and Sen. Preston Smith of Lubbock, left to right above, were among the first of many Texas legislators to introduce one of the "Better Government" Bills sponsored by the Texas Press Association. TPA has prepared 15 Bills for legislative action. Each bill is designed to correct evils that exist in present Texas laws. "Had the TPA bills been in effect there would have been no veterans land or Duval County scandals," said Senator Smith. "Loopholes in present laws have made possible the scandalous events of the past few years, wherein public monies have been misappropriated," stated Representative Lee. The two Legislators are urging the public to back them in their determination to effect passage of the TPA Legislation. Lee's bill is HB-38. Smith's bill is SB-55. Both bills are known as The Mandatory Publication Act. They do not create any new publication requirements. But they do call for removal from office of any public official who refuses to publish financial reports called for under existing laws.

man's shoulder to grasp Brown's hand and said, heartily, "How are you, Mr. Brown—and how's the meat market?"

Later, the befuddled Brown asked a friend, "Who was the fellow who called me by name? I don't remember ever having met him." The friend replied, "That was Dr. Charles Hillman Brough, the governor."

The early-day Southern orator, Seargent S. Prentiss of Mississippi was making a speech and while he was discussing the development of the North, a man on horseback shouted, "D—the North!"

Prentiss said, "Major, the horse on which you ride came from

Gov. Chas. H. Brough, who was Arkansas' chief executive from 1917 to 1921, had a remarkable memory for names and faces. He could meet a man one time and then, months later, when they met again, could call him by name.

I had this little story from Congressman Will Driver of Osceola many years ago. In Osceola there dwelt a butcher named Brown. One afternoon as he was closing for the day, Brown noticed a crowd at the station, so he strolled down. The train arrived, a distinguished-looking man alighted and began greeting citizens. He reached across a

Strong Cattle Trade Again This Week

FORT WORTH—Smaller numbers of cattle and calves were reported Monday at Fort Worth and all around the major livestock marketing circle. Prices firmed at all points, and the Texas market was further stiffened by the improved moisture conditions in the past week in many areas of the Southwest.

Clearance was completed by mid-morning at Fort Worth, with fed cattle fully steady to strong, bulls fully steady. Cows, slaughter calves and stocker and feeder cattle and calves were strong to 50 cents higher.

Comparative prices: Good and choice steers and yearlings \$17.00-20.50; plain and medium grades \$12.00-17.00. Fat cows \$12.00-13.50; canners and cutters \$8.00-12.00. Bulls \$10.00-14.50; good and choice fat calves \$17.00-19.25; cull, common and medium sorts \$11.00-16.50. Stocker steer calves \$16.00-21.00, heifer calves \$18.50 down; stocker steer yearlings \$20.00 down; feeder steers and yearlings \$19.00 down; replacement cows \$9.00-13.00.

Move-Off Day Nears For Grain Fielders

Large numbers of cattle and calves will be forced off present grain pastures before March 15, and the prospects for good grain yields have been enhanced by the recent moisture. In response to requests of farmers who will market cattle off their fields, the Fort Worth Livestock market is advising buyers from all parts of the United States to gather at Fort Worth Friday, March 15 for a special display of these grain pasture cattle and calves.

The Market Institute has set aside March 15th as "Move-Off Sale" day, since the mid-March day is most common the date when contracts call for livestock to be taken off the grain, to permit it to mature.

Cattlemen estimate 3,000 to 4,000 of the grain fielders will be offered at the market on the special day, and orders buyers

reports Western and Cornbelt feeders interested in flying in for the sale. Most of these cattle will be carrying some flesh which makes them attractive to feedlot operators for further finishing.

The fact that large numbers will be on hand at one time will enable the farmer with just a few head to capitalize on the extra selling power of the large numbers at one time.

Packer support assures strong prices on the aged cows, and other classes not suitable for further feeding.

Fat Lambs Again Are Strong To Higher

There was additional strength in the lamb trade as the market at Fort Worth opened with a relative small supply on hand. Woolled fat lambs topped at \$20 downward, and shorn lambs with No. 1 and Fall shorn pelts sold from \$19 and \$19.50 downward; lambs with No. 2 pelts sold from \$18 and \$18.50 down; and lambs with No. 3 pelts sold from \$17.50 downward. More recently clipped sorts sold from \$16.50 down. Cull to medium slaughter lambs cashed at \$12 to \$16.50.

Good and choice stocker and feeder lambs sold from \$17 to \$18.50. Old ewes drew \$6 to \$8, and old wethers sold from \$12 downward. Yearling muttons sold from \$16 down.

Hogs Avoid Lower Bids In Opening Session.

Fort Worth hog salesmen were faced with 75 cents lower bids Monday as the buyers began their rounds and tried to narrow the spread of 75 cents to \$1 that has estimated between Fort Worth's hog top and that at most cornbelt markets.

However, salesmen dug in and it was near noon before the market was finally established at mostly steady with spots 25 cents lower. Choice hogs topped at \$17.75 to \$18 and lighter weights and medium grades cashed at \$15 to \$17.50. Sows drew \$15 to \$16, a few choice lightweights to \$16.50. Stags cashed at \$8 to \$11.

Southwest Ignores Northern Markets.

Market men and stockmen at Fort Worth Monday were agreeably surprised at the way livestock prices in the Southwest have failed to follow trends in other parts of the country. The rise in prices has been brought on by improved moisture conditions in most of the territory and some restocking sales are making for strength in the trade.

Best of Texas 4-H'ers Win Honors, Awards

Four Lone Star State 4-H Club members have completed a very satisfactory year in their major project work by winning state honors and valuable awards. Their 4-H records were judged by the Extension Service of the Texas A. & M. College which directs the 4-H programs in cooperation with the U. S. Dept. of Agriculture.

James Covington Ray Schneider Marilyn Wood Leland Gill

The national 4-H Forestry program is particularly important to James Covington, 16, of Nacogdoches. In addition to receiving state honors, he acquired valuable information and knowhow about conserving, building and marketing forest resources. This marks his sixth year in 4-H Club work. His reward was an attractive fountain pen and pencil set presented by the American Forest Products Industries.

Jim now has 4 1/2 acres of trees grown from seedlings. His father set them out, and when Jim became a 4-H member he took over the management of the tree crop. The oldest trees are now 14 years, and cover three acres. The younger trees range from one to three years. Jim won a county award for his three year old trees in 1954.

Top performance in carrying out the objectives of the 4-H Meat Animal program won state honors for Ray Schneider, of Seguin. He received a handsome watch appropriately inscribed from Thomas E. Wilson, who has supported 4-H work for 27 years.

Ray owns three registered Herefords, five Jerseys, four dairy cattle and 16 steers. With this livestock he has won 136 ribbons and five trophies. He won ribbons at the major stock shows in Houston, San Antonio, Dallas and the county stock shows and fairs. At the county fair he won

the particular strength, as range conditions improve, is expected to center around cows and heifers. Some market observers believe that the spread between heifer calves and steer calves this Summer is apt to be much more narrow than for the past three years.

During the last three or four years it was common for stocker heifers at sell \$2 to \$4 under similar quality steers. Should normal rainfall come, many observers at Fort Worth believe that heifers will not likely be discounted more than one or two dollars, and perhaps even less.

News From The U. S. Congress

Most everyone is acquainted with the fact that the population growth in this country has amazed almost everyone who has tried to predict our rate of increase. Just recently we passed 170,000,000 people in this country which is a growth of about 94,000,000 since 1900 or a little over 121% increase. We are continually told that this population increase will mean great economic prosperity because of the many new demands that the added population will create. Accompanying this great growth also will be many problems. For instance, a rapidly growing population demands more and more

staff, and within 90 to 120 days study the 1500 page Budget that the Bureau has been working on for 12 months and to make substantial reductions in it. It seems to me that it high time that the whole budgetary set-up be made responsible to Congress so that the Members and the Congressional Committees could have the information and the help that is necessary to make reductions in our Federal expenditures.

Visitors from home this week were Mr. M. J. Weaver of Olney, Mr. and Mrs. Wayne Hales of Newcastle and Mr. and Mrs. William L. Hudson of Electra.

BENJAMIN NEWS

Mr. and Mrs. L. J. Johnson of the air force base in Abilene visited relatives and friends here over the week end.

Mr. and Mrs. Tom Brook Hudson of Amarillo visited his parents, Mr. and Mrs. Grady Hudson, one day last week.

Mr. and Mrs. J. W. Herndon of Knox City visited friends here Sunday afternoon.

Kenneth Isbell of Pawhuska, Okla. visited his mother, Mrs. Leola Isbell, over the week end.

Mr. and Mrs. Freddie Louis Crenshaw of Abilene spent the week end with his grandparents, Mr. and Mrs. D. W. Crenshaw.

Mr. and Mrs. Ode Tennison visited his mother in Alvord recently.

Week end guests of Mrs. Lillie Ryder were Mr. and Mrs. Melvin Ryder and children of Eden and Mr. and Mrs. Edwin Jones and children of Winters.

Mr. and Mrs. Ocie Turner and children of Midland visited Mrs. Anna Hurd over the week end. Mrs. Minnie Hatfield returned home with them.

Mr. and Mrs. George Kilcrease of Pampa were guests of Mr. and Mrs. J. D. Brown and Mrs. Rebecca Kilcrease last week.

Mr. and Mrs. Wylie Joe Meinzer of Olney visited his mother, Mrs. Myrtle Meinzer, recently.

Mr. and Mrs. A. A. Pierson and son of O'Brien visited in the home of Mr. and Mrs. B. C. Wampler last Sunday afternoon.

Ollie and Sandra Kirk of Abilene visited their grandparents, Mr. and Mrs. O. L. Kirk, last Sunday.

Mr. and Mrs. Olen McMean and sons of Plains visited in the home of Mr. and Mrs. Lavel Brown recently.

Mrs. Muriel Johnson returned

Sunday from a three weeks trip to San Antonio where she visited her mother, Mrs. Hattie Casetleman and other relatives.

Judge and Mrs. L. A. Parker were business visitors in Haskell last Saturday.

Mrs. W. A. Barnett and Omlene visited Mrs. E. L. Howard and Mrs. Alice Dutton in Knox City Sunday.

Mrs. Clarice Mitchell and Annette of Munday spent the week end with Mrs. Sue Bumpas and sons.

Mr. and Mrs. Jack Waldron and son of Fort Stockton are here visiting his mother, Mrs. Zena Waldron, and family.

Mr. and Mrs. Paul Sams of Petersburg accompanied his mother, Mrs. Emma Sams, to Lubbock last week where she will make her home.

Mrs. Thelma Glover of Colorado is visiting her son, Stanley Glover, and other relatives here this week.

Van Earl Sams of Vernon visited his mother, Mrs. Fannie Sams one day last week.

Mrs. Bertie Littlepage left last Thursday for Houston where she will spend several days with her daughter, Mrs. Floyd Herndon, and family and Mrs. Jack Shipman and family.

Mrs. D. W. Crenshaw is at home from the hospital and she wants to thank the Methodist church for the beautiful flowers.

Visiting in the home of Mr. and Mrs. Roy England last week were Mrs. England's parents, Mr. and Mrs. C. W. Gill, Sr., of Brownwood and Mr. England's father, George England, of Santa Anna.

Sunday guests of Mr. and Mrs. D. V. Gilbert were George Allen of McKinney and Jerry Allen of Vernon.

Mr. and Mrs. Bennie Melton and daughter of McAllen are visiting relatives and friends here this week.

Power Units
For Your Irrigation Needs

There's a big difference between rolling a car over a smooth highway with frequent starts and stops and plenty of coasting, and dragging a heavy stream of water up from the depths of the earth, hour after hour, day after day and week after week.

That's why it pays, when laying out your irrigation program to choose power engineered and built for the really tough jobs.

Goree News Items

GOREE P-TA TO MEET TUESDAY, MARCH 5TH

The regular meeting of the Goree P-TA will be held on Tuesday, March 5, at 3 p. m. in the school auditorium.

Since this is Public Schools Week in Texas, members of the Masonic Order will visit the P-TA and have charge of part of the program.

The eighth grade students, under the direction of Mrs. H. L. Moore, will furnish the program and have charge of exhibits of the grade school which will be on display in the auditorium. Come early, enjoy a social hour and see the work of the children.

Mr. and Mrs. E. T. McAnear and three children are new residents of Goree. They live in the residence formerly occupied by the A. L. Hords.

Mr. and Mrs. Wayne Peek of Houston visited his mother and brother, Mrs. Bessie Peek and Tommy, over the week end.

Mr. and Mrs. J. C. Daniels and baby of Clovis, N. M., were recent visitors with Mrs. Daniels' parents, Mr. and Mrs. John Bates and family.

Mr. and Mrs. Lewis Hutchens and family have returned to Goree to make their home. They moved here from Oklahoma, where they had lived for several years.

Mr. and Mrs. H. L. Perkins and son of Dallas spent Saturday night and Sunday with her parents, Mr. and Mrs. W. O. Barnett.

Mr. and Mrs. Herman Caldwell and family of Vernon visited in the home of Mr. and Mrs. W. R. Caldwell last Sunday.

Mr. and Mrs. Wesley Wright and baby, Mark, of Abilene spent the week end with their parents, Mr. and Mrs. Bill Wright and Mr. and Mrs. P. O. Blankinship.

Mr. and Mrs. Charley Edwards and family of Graham visited Mrs. Ammie Edwards and Waymon last Saturday night and Sunday.

Bob Cooke has returned to Fort Worth after a visit with his parents, Mr. and Mrs. Lynn Cooke. Mrs. Bob Cooke and baby remained for a longer visit with her parents, Mr. and Mrs. Roy Mayo.

Mrs. Keith Chamberlain of Wichita Falls visited his mother, Mrs. Bobbie Chamberlain, and Gaylon over the week end.

Mrs. Floyd Yates, Shirley and Patsy of Wichita Falls visited Mr. and Mrs. George Crouch and Mr. and Mrs. Buster Latham last Thursday night and Friday.

Mr. and Mrs. Max Donoho and baby of Escondido, Calif., are visiting their parents, Mr. and Mrs. D. R. Donoho and Mr. and Mrs. Roy Smith.

Miss Johnnie Hutchens of McMurry College in Abilene spent the week end with her parents, Mr. and Mrs. Billy Hutchens.

Doug Beaty of Hardin-Simmons University in Abilene spent the

week end with his parents, Mr. and Mrs. Jack Beaty.

Mr. and Mrs. Ira Stalcup visited Mr. and Mrs. Talmadge Falls in Throckmorton last Sunday.

Mr. and Mrs. Pete Beecher and daughters visited Mr. and Mrs. Tommy Greenwood and daughter in Dimmitt over the week end.

Miss Mona Mobley of Hardin-Simmons University in Abilene visited her mother, Mrs. Ferris Mobley, and Gaylia over the week end.

Mr. and Mrs. Jack Barger and children of Boyd, Texas, visited Mr. and Mrs. Everett Barger and his mother, Mrs. Mary Turner and Sharon over the week end.

Rev. C. R. Mathis is reported to be doing satisfactorily since his return home from the Knox Hospital last Monday. He was taken to the hospital after having suffered a heart attack.

Mr. and Mrs. Ebb Coffman of Lubbock visited his parents, Mr. and Mrs. John Coffman last Sunday.

LOCALS

Lt. and Mrs. Billy Joe Brown and children of Lubbock visited his parents, Mr. and Mrs. S. E. Brown, over the week end.

Jerry Scott and Barney Robison of Pampa, both students in Texas Tech in Lubbock, spent the week end with Jerry's parents, Mr. and Mrs. J. B. Scott.

Miss Debbie Gresham of Wichita Falls is spending this week with her grandparents, Mr. and Mrs. H. D. Henson.

Week end guests in the home of Mr. and Mrs. A. R. Boe were their daughters and families, Mr. and Mrs. Jackie Cox and Rickey of Colorado City and Mr. and Mrs. Chester Hodgkin and Gary of Haskell.

Misses Nancy and Mary Patterson of Colorado City visited their brother, Robert Patterson, and family, and their sister, Mrs. Harold Honeycutt, over the week end.

Mr. and Mrs. Floyd Searcy, Mrs. Jack Clowdis, Margaret and Debbie visited relatives in Abilene last Sunday.

Mrs. Joe Jackson of Santa Rosa, N. M., was a Monday guest of her sister and husband, Mr. and Mrs. A. B. Warren.

Billy Ray and Glen D. Henson of Texas Tech in Lubbock were week end guests of their parents, Mr. and Mrs. H. D. Henson.

Mrs. Billy Joe Pruitt of Wichita Falls spent last week here with her parents, Mr. and Mrs. H. D. Henson.

HEALTH HORIZONS

New Hope For The Arthritic

No chronic disease is more widely spread on the North American continent than arthritis. Fortunately, the majority of the victims represent moderate or light cases only but, nevertheless, they are often severely handicapped and suffer considerable pain. It is, therefore, exciting to learn that specialists describe a new drug as "of great value in the mild to moderate arthritic."

The preparation, Cordex, combines one of the oldest of anti-rheumatic drugs, aspirin, with the most recently discovered and most powerful of all the hormones which have proven to have an effect on arthritis and the related rheumatic diseases. This substance is prednisolone, a derivative of one of the hormones secreted by the adrenal glands.

From Arthritis Clinic of St. Elizabeth Hospital in Youngstown, Ohio, Drs. M. M. Szucs, Vitalij Holonko, K. M. Forster, and Dario Nalagan reported a collaborative study in which the drug was employed in 400 patients. In describing their findings in the Ohio State Medical Journal, the physicians wrote that the treatment resulted in "notable improvement... with a minimum of side effects." In no group of patients did the therapy fail. Results were described as "fairly good" in rheumatoid arthritis, and "good" to "very good" in those forms of the disease which are called osteoarthritis - very widespread in older people - gouty arthritis, and non-specific arthritis.

Cordex, the physicians explained, represents a "new therapeutic approach to the treatment of arthritis" which combines the traditional efficacy of salicylates, such as aspirin, with the advantages of modern hormone therapy. "The ad-

vent of this combined therapeutic approach," they continued, "has given the physician a new tool in the treatment of the many cases of mild and moderate rheumatic diseases not adequately controlled by salicylates alone."

The specialists also have begun to use another preparation, Cordex-Forte, for the more serious cases of arthritis, in which the dosage of prednisolone is tripled. In 100 trials with this drug, "a marked improvement was noted with minimal side effects." Both Cordex and Cordex-Forte used in these studies were supplied by The Upjohn Company.

Mr. and Mrs. Raymond Hargrove and Virginia and Miss Billie Jean Scott to Lubbock spent the week end with Mr. and Mrs. Ralph Weeks and the A. H. Hargroves in Goree.

Jot Tynes was a business visitor in Wichita Falls last Monday.

Mr. and Mrs. Harold Grimes of Amarillo were Sunday guests of Rev and Mrs. J. F. Michael.

Governor Shows Concern Over Traffic Fatalities On Texas Highway System

Not often do the people of Texas experience the concern of a governor over traffic safety as is shown by Governor Price Daniel.

In the few short weeks since January 15, Governor Daniel has indicated that his office will carry through with a vigorous traffic safety program that will do everything possible to reduce the present highway mayhem.

In his first message to the Fifty-fifth Legislature, Governor Daniel made recommendations for improving the highway construction program and strengthening of the Texas Department of Public Safety.

Members of the Fifty-fifth have been quick to respond to the state's traffic control needs and are now considering numerous bills designed to bolster the attack on traffic accidents.

However, Governor Daniel recognizes that the problem cannot be whipped by public officials alone. The enormity of our annual traffic toll—the 2600 lives

Miss Ginger Hargrove and Miss Billie Jean Scott of Lubbock visited Miss Joan Lain last Sunday afternoon.

Mrs. Lawrence Warrick of Wellington was a guest in the home of Rev. and Mrs. J. F. Michael last Friday afternoon.

Mr. and Mrs. Roy Ford and Joe Howeth of Fort Worth visited his parents, Mr. and Mrs. Buster Ford, and other relatives over the week end.

lost, 110,000 injuries sustained and a direct financial loss in excess of \$200 million—indicates it will take the combined efforts itself, working in unison, to make progress.

Thus, the Governor has asked the Texas Safety Association, a public-support organization, to make its widespread facilities and information available to his office.

A non-profit organization, TSA directs the energies of public-spirited citizens who want to help in the fight for a reduction of accidents, in all areas, into channels where their talents will do the most effective job.

The Association, currently operating under the leadership of President E. C. McFadden, Dallas, and its General Manager, J. O. Musick, has its central offices in Austin. There, a staff of six furnish voluntary Vice Presidents and their committees, in the sixteen regions of Texas, with statistics and other pertinent information. They also aid in conducting varied safety seminars and conferences, besides lending assistance to safety councils and offices.

TSA, therefore, fills Governor Daniel's needs for an organized public-support group which will reach out to the "grass roots" and provide a close-to-home approach to the traffic accident problem.

The one important, remaining task is to interest the public. Figures reveal that where there is an aroused, safety conscious citizenry, traffic tolls are reduced.

Helpful Hints On Fighting Insect Pests Available

Entomologists of the Texas Agricultural Extension Service have prepared informational guides covering measures for the worst offenders in the insect world.

The recently released series includes L-217, Stored Grain Insects; L-218, 1957 Texas Guide for Controlling Cotton Insects; L-219, Ways to Fight the Pink Bollworm and L-245, Texas Guide for Controlling Insects and Diseases on Fruits and Nuts.

The publications are available through the offices of local county extension agents or from the Agricultural Information Office, College Station, Texas. All have been prepared to save time for those needing information on control programs or practices for combating the losses which insects cause each year. The control measures are listed in chart form along with the recommended chemicals for dusting and spraying.

The entomologists point out the great need for careful handling of insecticides as well as using control measures before insect infestations become so heavy that control is made difficult and expensive. Too, the entomologists point out that the recommendations given in the new publications are based on research and field findings which not only cover the insect-killing power of the chemical but also such items as residues, safe handling practices and methods and rate of application.

Knox Prairie Philosopher Wants His Cows Brainwashed Into A State Where One-Strand Fence Holds Them

Editor's note: The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek has a brand new idea this week, but it sounds impractical.

J. A.

Dear editor:
If there's one thing I don't know anything about, and to tell the truth there's a lot more than one thing I don't know anything about, it's brainwashing.

But I was reading in a newspaper last night about an expert who had been studying the Russians' system of brainwashing in Korea and he said it was so successful "a single strand of barbed wire could hold hundreds of prisoners without any trying to escape."

Now understand I'm not in favor of brainwashing, on human beings, that is, but I've been thinking what couldn't I do if I knew how to brainwash my cows into believing one strand of bobwire would hold em.

In fact, the idea is one of the newest ever thought of in the cattle business, and I would like to see you use your influence to get the agricultural experts to working on it.

You can get plenty of information on how to build a stronger fence, with properly anchored corner posts, pull posts, tight wires, sheepproof wire at the bottom, bobwire at the top, how

to treat posts to keep them from rotting, etc., but all the fence-building information I've been able to get puts all the burden on me. It seems to go on the supposition that cows are cows and always will be, but this idea of a single strand of wire, opens up a vast new territory for economical ranching.

If you ask me, the psychologists have been spending too much time on human beings and ignoring cows and horses.

KEEP THIS AD!

Over 20,000 Arthritic and Rheumatic Sufferers have taken this Medicine since it has been on the market. It is inexpensive, can be taken in the home. For Free information, give name and address to P. O. Box 522, Hot Springs, Arkansas.

You have to be prepared for taxes, but death is even more certain! "...It is appointed unto men once to die, but after this the judgment." Hebrews 9:27. What will you do when this deadline arrives. Let us help you prepare your Form at our Church this Sunday.

New Bridge—

(Continued from Page One)

east of Knox City, going south a mile and merging with U. S. 277 Highway below Munday. It would be 7 miles in length. Some right-of-way on the route has been secured. Another Market road proposed would go south out of Goree and join the F-M road that ties Munday and Throckmorton together, a distance of 5½ miles.

The third market road project would start east of Gilliland, turn north 3½ miles and tie into the F-M road running from Crowell to Seymour, a distance of 6.5 miles.

"With all these farm and market road extensions Knox County will be pretty well supplied with a network of paved roads," Judge Parker said.—Hamilton Wright in Abilene Reporter-News.

DANIEL PROCLAIMS MARCH 2-9 4-H CLUB WEEK IN TEXAS

It is official. Governor Price Daniel has proclaimed March 2-9 4-H Week in Texas. The state's 4-H members for weeks have been making plans to tell others what 4-H has meant to them, and they will join with the more than 2,000,000 members in the nation in observance of the special National Week.

Governor Daniel in his proclamation said, "Activity, achievement and adventure await the 117,257 4-H club members who participate in this program in

Texas.

4-H Club work is the youth phase of the Agricultural Extension Service. This voluntary youth program has a nationwide enrollment of more than two million members, and 51 foreign countries now have organizations similar to 4-H Clubs.

The Texas program is directed by members of the Agricultural Extension Service, which is a part of the A & M College System. County extension agents in the 254 counties work with 4-H members, their parents, volunteer leaders and friends of 4-H to develop the future leaders of our State mentally, spiritually, socially and physically.

As Governor of Texas, I urge that due recognition be given to this fine organization which aids young people in useful, happy living by helping them to help themselves."

County 4-H councils, say the state 4-H leaders, are perfecting plans for the local observance of National 4-H Week. To be honored are local adult leaders, parents, friends of 4-H and the members themselves. The 4-H story will be told many times with special emphasis on the character building side of the now world wide rural youth organization.

4-H has grown from the boys corn clubs and the tomato clubs for girls of half a century ago into an organization that today involves every phase of farming and homemaking. Boys and girls who are not now 4-H members may obtain information on how they may become members from county extension agents or other 4-H members.

Seymour Youth Killed In Crash

Funeral services for Thomas Gene Davidson, son of Rev. and Mrs. Rollo Davidson, pastor of the First Methodist Church of Seymour, were held from the First Methodist Church in Seymour at 2 p. m. Tuesday.

The youth was killed last Sunday afternoon in a two-car collision near Cross Plains. He was a popular McMurry College student and editor of the college newspaper. He was born December 30, 1936, at Wink and graduated from Seymour High School in 1954.

Services were conducted by Rev. Marshall Rhue of Stamford assisted by Dr. Harold G. Cooke, president of McMurry College in Abilene. Members of his music fraternity in McMurry served as pallbearers, and burial was in Masonic Cemetery in Seymour.

The youth was killed when his car collided with another occupied by Mr. and Mrs. Benny Pierson of Big Spring, both of whom received minor injuries.

He is survived by his parents; one sister, Marie Davidson, and one brother, Morris Davidson, both of Seymour; his grandparents, Mr. and Mrs. J. C. Garrett of Cross Plains and Mrs. T. H. Davidson of Plainview.

The youth's father is a brother of Rev. Don Davidson of Leveland, former pastor of the Munday Methodist Church.

Tax-Man Sam Sez:

Some taxpayers who were expecting a tax refund have been notified they are undergoing a "Pre-Refund Audit". The internal Revenue law requires the tax folks to select tax returns containing probable errors for audit prior to paying the taxpayer's refund.

Many thousands of returns are audited each year because the taxpayers don't follow instructions. A "Pre-Refund Audit" takes a lot of time and delays the taxpayer's refund check. It pays to read the instructions and avoid making errors that will cause an audit.

Leroy Leflar returned home Tuesday evening after attending a short course of Texas Aerial Applicator's Conference on pest control at A & M College in College Station.

Introduce Better Government Bills

Sen. Doyle Willis and Rep. Howard Green, both of Ft. Worth, have joined with other legislative leaders in sponsoring the Texas Press Association's "Better Government" bills. Willis (left) and Green (right) have introduced legislation in their respective houses calling for removal from office of any elected public official who hides behind the fifth amendment and refuses to testify concerning the conduct of his official duties. Willis and Green are pictured as they discuss TPA's Better Government bills in Sen. Willis' office in the State Capitol building in Austin.

E Bond Sales Show Increase During January

E Bond sales in Texas during January increased 5.4% over the same month in 1956.

This announcement was made today by Mr. Nathan Adams, Chairman and Mr. Ed Gossett, State Co-Chairman, of the Savings Bonds Committee for Texas. Total sales for the month were \$17,607,189 which is 9.1% of the state 1957 goal of \$193,100,000.

W. E. Braly, Knox County Chairman, reported that sales in this county amounted to \$17,126 during January. "By purchasing U. S. Savings Bonds the people of Knox County not only help themselves but also help in the Nation's battle against inflation," Chairman Braly stated.

Drive carefully. The life you save may be your own!

GROUND OBSERVER Corps posts range from Manhattan building tops (above) to remote desert and forest country. Seventeen thousand posts and 400,000 skywatchers provide U. S. Air Force and civil defense personnel with the vital visual identification of low-flying planes needed to supplement radar warning data. (N.Y. Daily News Photo)

Library Adds Two New Books

The two newest best sellers in fiction to be placed on the Munday Public Library shelves are "The Scapegoat" by Daphne Du Maurier and "Blue Camellia" by Frances Parkinson Keyes.

"The Scapegoat" is the story of an Englishman who met a Frenchman identical in voice and looks. He was trapped into taking the place of the Frenchman, who was head of a large family and master of a chateau. The story is full of suspense, entertainment and shrewd observations of human nature that are characteristic of Miss Du Maurier's former writings. If you like "Rebecca", you will find "The Scapegoat" an entertaining reading.

"Blue Camellia" has its setting in the Cajun country around Crowley, Louisiana. A true and moving love story of the old South for which Mrs. Keyes is recognized by her thousands of readers.

"The F. B. I. Story" by Don Whitehead, at present a bestseller in the non-fiction field, is on the shelves, also 35 books given by friends of the Library. These books include both fiction and non-fiction for children and adults.

Munday H. D. Club Meets Wednesday

The Munday Home Demonstration Club met with Mrs. J. O. Tynes Wednesday afternoon, February 27.

Mrs. Joe Patterson, club president, was in charge of a business session, after which a program on Civil Defense was given. Mrs. Fred Lain gave a talk on "Civil Defense Through the Ages" and Mrs. Patterson talked on "Mobil Unit".

After delicious refreshments were served the club adjourned at 3:30.

PLENTIFUL FOODS LIST TOPPED BY BEEF AND EGGS

Beef and eggs top the U. S. Department of Agriculture's plentiful foods list for March. These two popular and nutritious food items got the top spot after the regular monthly check on food stocks in local trade areas revealed that supplies of both were much heavier than usual for this season.

In addition to beef, good supplies of lamb and hens as well as frozen fillets of perch and halibut are also available. The only vegetable on the March list are potatoes, canned sweet corn and pinto beans.

Mr. and Mrs. C. A. Womack of Olton were guests of Mr. and Mrs. L. W. Hobert last Tuesday night and Wednesday.
