Odd Bits Salvaged By The Editor

We've started the second ha

The first half was somewhat hectic in many respects. It started off dry, and folks wondered if it would ever rain again. We offered the prediction that the drouth would be broken during 1957 .

that was sometime during the first half.

Then it began to rain! Looked like for a period of several weeks that it could rain at the least provocation. A few weeks ago, it kinda quit, and harvest and cotton planting got under way in a big way. The first half of the year closed out with 20.38 appearing on the juke boxes over inches of rain . . . 9.27 inches more than we received during all of

The second half has started Selective Service off hot. In fact, we hadn't had a day with 100 degree temperature until a few days ago. That Get Recognition 97 degrees on Tuesday, June 25, was the hottest until the latter part of last week. Then it blowed the lid off during the week end.

ing until we want it to rain July 9 at 2:00 p.m.

Monday we were burning down, right out loud wished it would lake come a freeze. We were thinking and didn't stop to come to the ed as board member from Baylor be played by a freeze here in

k-k

But any time you want to start a conservation, the weather furnished a mighty good topic. Unless, of course, you get sat upon like C. R. Elliott did one time. His story is that he met a man on the street and to open the conversation said: "Sure is hot, isn't it?" The man replied, "Yep, but it's the time of year for it," and kept going.

We've heard that once a person gets the smell of printer's ink and gets a good batch of it under his fingernails, then he's hopelessly gone. There's no cure for him.

Noticed an article in a trade magazine recently that seems to bear out that belief. Sam M. Braswell, whom we knew casually right after we got started TO TAKE VACATION in this business and when he was publishing the Clarendon News rustle of copy paper."

k-k age and with almost 50 years in such as Salt Laks City, Yellow the game before quitting, it Stone National Park, Seattle, seems the lure of the print shop Sam Braswell, who is taking a Canyon, before returning home dask at the Stephenville Daily around the first of August.

Noticed, too, in some "space we're better equipped than those in Harlingen in about two weeks. early women. When a little ulcer gets to bothering and our lower plate irritates the thing, we find ley were business visitors in Dalright fashionable and com las the first of this week. fortable spot in our pocket for our "artificials."

They may be little fellows, but the brand of baseball they'll be people, men and women, are enthusiatic about the Little League ball club, but they're not more enthusiatic than the boys themselves. You'll want to see the boys in action on Monday, Thursday and Friday nights. There'll be no admission charge - they'll be playing for their own and your entertainment. Names of the players are carried in a half-page ad this week, sponsored by local Precipitation to date.

Munday Girl Has Two Songs **On Recordings**

has two recordings.

The local songstress started out at the age of eight. She has appeared with several bands since that time, including Bill Mack's, Blue Sage Boys, Fox 4-7, Sid Foster and the Country Roundup, the Louisiana Hayride, Smokey Rogers and the Western Caravan and on the Larry Grayson Show in California. Most of these were also TV appearances. Her records, "Lou Lou Knows" and "Return My Love" have been

Here's why Chevy's best showroom is the road!

Because Chevrolet's sleek good looks, its advanced features, are only part of the story. The big bonus is its remarkable roadability, the crisp precision handling that has posted an entirely new standard for cars in every price class. There are reasons for this, of course: Chevrolet's balanced weight distribution that takes

Beauty in motion-Chevrolet Bel Air Sport Sedan with Body by Fisher

excessive loads off the front wheels, the wide stance of outrigger rear springs, Ball-Race steering, spherical-joint front suspension. Sure, you can admire the sculptured lines in the showroom. But Chevy's a car specifically designed for beautiful motion-you have to travel in this one to know just how terrific it is. Try it, this week!

quacy of the heat dissipating lation of air and encourage heat mechanism of the body. It occurs loss. A man, though, with a tie as a result of exposure to a hot, around his neck and belt around humid atmosphere such as is his middle — all topped off with common over most of Texas dura coat - is at a disadvantage in ling summer months. Sunstroke is a form of heat stroke, compli cated by an absorption of radiant energy from the sun which causes a temperature rise in local body areas, such as the brain, higher than the temperature of the resi of the body.

How do you avoid heat stroke? By doing what you can to keep heat loss and heat production in

The wearing of loose, airy a trial. clothing is known by physiologists to be among the best means of maintaining that balance. Open throat sport shirts and light trousers are of course more practical than heavy suits.

Excessive clothing causes excessive perspiration, and excessive perspiration means a loss of body fluids and salts. Unless the loss is compensated for by drinking additional quantities of water and consuming extra acramps can result.

During periods of high humidity, body perspiration doesn't evaporate. It clings and you feel lawyers keep within due limits in questioning witnesses in agriconstantly damp. Skin rash often developes at these times and the ing to the jury, and in their at last week. rash is liable to infection.

Since body temperature represents the balance struck between heat production and heat loss, a disturbance in the value of either will be followed by a temperature change. The most sensible ways of avoiding the effects of a rise are these:

Eat lightly, avoid exertion, drink plenty of water and eat extra salt, and stay close to the fan. Above all, keep your clothing

4-H Scholarships Increased to \$400

Scholarships in the national 4-H awards programs have been increased from \$300 to \$400, announced G. L. Noble, director, National Committee on Boys and Girls Club Work, Chicago.

achievement in

udged best by

Service. The

Approximately 170 college scholarships of \$400 each will be awarded at the national level to 4-H Club whose 1957

scholarships will be presented to the national champions next December during the 36th annual 4-H Club Congress, Noble said. Among the 4-H activities offering awards of scholarships as well as trips to the Club Congress are the Boys' Agricultural, Poultry, Garden, and Electric programs. Donors of the awards respectively are: International Harvester, Sears-Roebuck Foundation, Allis-Chalmers, and the Westinghouse Educational Foundation. All have supported 4-H work for many years through programs arranged and an-

tee and the Extension Service. Last year 4-H awards and leader training funds distributed through the National Committee amounted to \$469,397. A similar sum has been assured again this year from non-governmental sources, according to Mr. Noble.

News From The U.S. Congress

This week the House Committee on Foreign Affairs approved a resolution which would direct the President to revise the existing Executive agreements with foreign countries as well as existing treaties in a way that will assure American service men overseas trials in American courts in a way that is guaranteed to them by our Constitution. This whole question was brought toa head by the Girard Case in which the President agreed to surrender an American service man to the Japanese for trial in Japan. A Federal District Court h asrecently held that it was a violation of Girard's Constitutional rights to surrender him to the Japanese. The matter will finally be decided by the Supreme Court during the week of July 8th. It seems to me that from a legal standpoint the holding of the Federal District Court is a correct one, and I hope it is affirmed by the Supreme Court. The resolution that was approved for House consideration will probably be on the the week of the 8th of July. hope that it can be favorably acted on and that this whole matter can be settled at the earliest possible date. There can be little question but what it is a gross injustice to draft men and send them overseas without assuring them that their Constitutional

TOP TIRE SAFETY at low, low price

Gates Air-Float Deluxe

Tough NYLON cord (2 miles of it) makes this tire amazingly resistant to impacts of all kinds.

In a deliberate attempt to damage this tire it was driven at highway speeds over rocks, chuck holes, concrete blocks and angle irons. Ordinary tires would have been wrecked. This wonderfully safe tire wasn't hurt in any way.

In addition to this superb safety you get a tread of 100% cold rubber-the "miracle" rubber that far outwears natural rubber.

Gates NYLON Guarantee protects against blowouts,

bruises, rim cuts - in fact. against any tire failure - for the entire life of the tread.

NO TIME OR MILEAGE LIMIT

New 1957 Air-Float at economy price

- ★1st quality tread ★ high strength
- design * full tread width
- and depth
- tread fortified

* lifetime guarantee against any defect in workmanship or materials

Tax-Man Sam Sez:

Bromma, Sweden

You may not know it but in Texas the value of your property changes for income tax purposes We read it from the if either the husband or wife dies. This is best brought out by this example:

John and Mary Doe bought the old homestead for \$1,000 in 1920. Before John's death they had a tax base for \$500 for John and \$500 cost for Mary. If either John or Mary had sold their half of the community property homestead, they would have had to pay capital gains taxes on any amount above the \$500 cost. Suppose the old homestead was worth \$200,000 on the date of John's death, the children who inherit John's half of the old homestead have a tax base of \$100,000 instead of the \$500 that John had paid for the property.

A lot of people find it hard to believe (but it is still true) that Mary's half of the old homestead also increases, for income tax paying purposes, from \$500 to \$100,000 or whatever the fair market value of the property is on the date of John's death. This could read the Munday Times law pertaining to estates applies idnight without a light. The whether any Federal estate tax is due and paid or not. This law ty in the morning. We have is worth many tax dollars to Texy black shades over our as widows because of the tremenows which we pull closed dous increase in property values

The Munday Times

Editor's note: The Knox Prairie house. Mrs. Emma Mayo, ph. Philosopher on his johnson grass farm on Miller Creek seems a little worried this week, but we guess he'll get over it. Dear editar:

I don't mind admitting I'm pretty worried this morning. According to an article I read in a newspaper last night load. All work guaranteed. was so upset over what I read I don't even remember now where 484tp Eisenhower made a speech before a meeting of all 48 State Governors the other day and urged that the Federal government cut out some of its work and turn it over to the states.

> For example, he said, disaster relief ought to be paid by the states instead of Washington. Now I believe in state's rights

> all right, and I go further, I believe also in county rights, prebombshell in my thinking.

That is, if a man gets in finan- again.

cial trouble and calls on Wash ington, and Washington refers him back to his state, what's to keep the state from referring him back to his county, his county to his precinct, his precinct to his community, and his community telling him to help his own-

You can see what this would lead to. We'd be right back where we started, with everybody excinct rights, community rights, pected to look after himself, and and farm rights, and on this farm a whole generation of progress believe in husband's rights, but toward telephoning Washington Ike's proposal has sure thrown would go ou tihe window. This country just wouldn't be the same

It takes adequate fertilizer to produce maximum crops. Deficiencies are already showing up in the field. Tissue tests on the growing plants show serious phosphorus deficiency in many cases.

The newest approach to correcting phosphorus deficiency is the direct application of a neutral liquid phosphorus fertilizer to the leaves of the growing plant. Absorption is quicker, results more economical, because of a 5-times more efficient absorption of the phosphate applied in this manner.

There's No Time

To Waste!

Phosphorus in adequate supply promotes vigorous root development on young crops, reduces excessive shed of fruit on cotton.

We are prepared to make tissue tests and welcome the opportunity to show you the results you can obtain.
