

Kracker Krumb's

Odd Bits Salvaged
By The Editor

"Did you get any cigars?" someone asked last Sunday night. "I dunno," replied Rev. J. F. Michael, "but I got something there I can trade for cigars, I betcha!"

k-k

Methodists, ever since we can remember, have been great on "pounding" the preacher and his family. Said pounding used to be in the form of gifts of food, including shortening, coffee and a bunch of edibles.

k-k

Sometimes, we've seen several pounds of coffee among the items, and sometimes such gifts were to pastors whose families were not heavy coffee drinkers. Sometimes, too, we've seen enough shortening to last through two weeks camp meeting if all the congregation was being fed.

k-k

So we guess such things like that are getting Methodist away from the old-fashioned pounding, and the event last Sunday night was more in the form of a gift shower — things to wear and things to use in the house. It's Methodists' way of welcoming a new pastor or welcoming back the new pastor, and we reckon after Sunday night Rev. Michael and his wife can feel welcomed back to Munday — if they hadn't already felt that way.

k-k

The fellows who ordered hot, drying weather should be satisfied with that dish out to us last Sunday and Monday. We kinda doubted that it could get so hot so quick after so much rain, but it just goes to show what Texas weather can do.

k-k

It's given a lot of people an opportunity to become busy people. Cabbage being gathered and processed, onions being gathered and processed, wheat being cut and brought to the elevators, cotton being planted, as well as maize and other agricultural crops. We rather expect some spuds to be harvested by the end of the week.

k-k

Stem rot, we believe, is what they say is wrong with cabbage being grown in lots of places, but we got reports Monday that very few heads are being culled out here because of this fault, and the quality continues to be good.

k-k

The wheat, we believe too, is better than in lots of other places. We saw patches east of Crowell last Sunday that had already turned black, and we got reports of much of the wheat sprouting in the head. It seems we have very little of this in our area.

k-k

"Pulay Ball." That familiar summertime yell is being voiced in Munday, as the Little Leaguers begin to get under way. A good crowd attended the organization meeting Monday night, at which 32 boys indicated their desire to join the Little League play — almost enough for four complete teams. The boys started practicing Tuesday evening, and all the things necessary for the Little League are being put on paper. Indications are that interest will be great.

k-k

Thursday night, June 13, is the 27th anniversary of the big 1930 flood in Munday, when local people traveled down Main Street in row boats, some milked their cows on front porches, water got into buildings, etc. The event was repeated in a little smaller measure in 1941. Chances are we'll never see the town flooded that way again, with paved streets aiding the runoff and with our drainage ditch heading off much water that used to run through town. Anyway, folks like to reflect on the big flood.

k-k

People used to meet us on the street and in a somewhat pleading voice would say, "I wish you would order us a rain." Wednesday morning, after that rain and blow that brought us almost a half-inch of moisture and stopped all wheat and vegetable harvest, a farmer met us in the post office and disgustedly asked: "You didn't order this, did you?" It just goes to prove that you can't please all of the people all of the time!

Mr. and Mrs. Ben Tuggle received word last week that their son, Bobby Joe, had been promoted to Sgt. first class. Sgt. Tuggle is stationed in Korea.

Knox County Hospital Notes

Patients in the hospital Monday June 10th:

Wesley Dotson, Knox City; Mrs. S. W. Bryan, Munday; Mrs. Carolton Blackwell and baby, Knox City; Mrs. Carolyn Mitchell, Goree; Mrs. Florene Welborn, Benjamin; Mrs. A. T. Mason, O'Brien; Elvira Rios, Knox City; Homer T. Melton, Benjamin; Mrs. J. R. Wooley, Knox City; Mrs. S. P. Keny, Knox City; John Wilde, Munday; S. E. Strickland, Rochester; Buck Propps, Knox City; Geo. Myers, Truscott; Mrs. Hugh Webb, Knox City; Mrs. J. H. McGee, Knox City; Joe Rojas, O'Brien; Samudio Ignacia, O'Brien.

Patients dismissed since Monday, June 3rd:

Mrs. C. L. Hamilton, O'Brien; Frank Frazier, Rule; Mrs. J. A. Choucair and baby, Munday; H. A. Patterson, Vera; Mrs. L. L. Hamilton and baby, O'Brien; M. G. Nix, Munday; J. R. King, Munday; S. M. Claburn, Munday; James Ray Allen, Goree; Ned Herr, Guthrie; Shirley Jean Dixon, Goree; Ruby Freeby, O'Brien; Mrs. Buddy Angle and baby, Knox City; W. C. Herring, Haskell; Buddy Laynd, Goree; Mrs. F. F. Reeves, Munday; Mrs. James Albus, Munday; Mrs. L. Wickware and baby, Rochester; Mrs. Mary Sharp, Goree; Mrs. R. L. Headrick, Benjamin.

Births:

Mr. and Mrs. Buddy Angle, Knox City, a daughter; Mr. and Mrs. L. Wickware, Rochester, a daughter; Mr. and Mrs. Carolton Blackwell, Knox City, a daughter.

Goree Masons Name Officers

New officers for Goree Lodge No. 1027, AF&M, were elected at the regular stated meeting of the Lodge on Tuesday night of last week. Elected were the following:

Mack Tynes, worshipful master; Felton Jackson, senior warden; J. R. Hill, junior warden; Homer Moore, secretary; Dr. W. M. Taylor, treasurer; Rev. J. W. Baughman, chaplain, and J. H. Blankinship, tiler.

Appointive officers will be named before installation, which will be at the regular meeting in July.

JOHNSON WORKS FOR FLOOD CONTROL

Senator Lyndon B. Johnson said Sunday he is urging the Army Engineers to survey every river in Texas and recommend steps that would prevent a repetition of the current flood damage.

"I have had a major ambition since I have been in Congress," Senator Johnson said. "It is to live for the day when every river in Texas is controlled against flood damage insofar as we have the knowledge and the intelligence to control it."

Senator Johnson spoke over his weekly radio broadcast in which he answers questions sent to him by Texans. He said the current flood damage has driven home the lesson of "too little and too late."

Dams already constructed, he pointed out, have saved Texans millions of dollars in property and many lives.

SEARCH IS ON FOR FARM BUREAU QUEEN

The pleasant process of scouring the Texas countryside to find the fairest and most charming young farm or ranch girl to receive the title "1957 Texas Farm Bureau Queen" has begun.

The search . . . already under way in some counties . . . will culminate with the crowning of the queen November 18 at the state convention in Dallas. The winner will attend the American Farm Bureau Federation convention in Chicago with all expenses paid.

Last year's queen was Joann Vaughn, daughter of Mr. and Mrs. Marshall Vaughn of Tulla.

HOME FROM HOSPITAL

Otis Simpson returned home last Thursday from the Haskell Hospital, where he underwent treatment for several days.

TO MARKET—With drying weather, the cabbage harvest got under way again last week. Pictured above, upper right, is a worker unloading cabbage from a truck at the local processing shed. Below is the cabbage in the shed, ready to be sacked. At upper left, Don Bowman has just weighed out a 50-pound sack, ready for shipment.

According to O. B. Southern, who is here with Trautmann Bros., Munday is growing a superior quality cabbage. Before the rains halted harvest in late May, the cabbage was bringing \$45 per ton and netting the farmer \$29, Mr. Southern said.

The crop was making from 8 to 10 tons per acre with single rows, and around 18 tons with two rows to the bed.

The cabbage shown above was grown by Bill Clark, west of Munday.

Swimming Pool To Have Periods For Men And Women

Tuesday nights, 6:30 to 9 p.m., will be "stag nights" at the Munday Municipal Swimming Pool, it was announced this week by Coach Troy Stewart. The pool will be open to men only, those over 18 years of age.

"This is an experiment," Coach Stewart said, "and if the crowds don't justify continuation of stag night, the pool will again be open to the public during these hours."

Ladies' morning will also be observed. Each Tuesday from 9:30 a.m. until 12 noon, the pool will be open to adult women, those over 18 years of age, only.

The next session of swimming lessons, starting July 8, will be different, Stewart said. Only one beginners course will be offered, from 9 to 10 a.m. Advanced courses will be from 10 to 11 o'clock and will include additional strokes, plus instruction in life saving. From 11 to 12, a course will be offered in diving instructions to those who have advanced this far.

KLEMENTS ARE NEW RESIDENTS OF MUNDAY

Mr. and Mrs. Wilfred Klement are new residents of Munday and are making their home in the apartment of Miss Shelly Lee. Mr. Klement, entomologist, has been hired by the local farmers and is making his headquarters at the Chamber of Commerce Office. Mrs. Klement is employed at the First National Bank.

TO GULF MEET—Gulf dealers of Knox County recently attended the annual sales clinic conducted by Gulf Oil Corp. at tonWibe by Gulf Oil Corporation in Wichita Falls. Pictured above are Jerry Kane, Munday; Rip Collins, Sr., Knox City; Jimmy Bell, Munday; P. V. Williams, local Gulf consignee, and Little Rip Collins of Knox City.

The increasing number of changes made to the automobile have caused the dealer to be ever

Onion Harvest To Close This Week

Harvesting of the Munday area's first crop of onions is expected to be completed the latter part of this week, according to Jack Renfro, who is here to process and market the crop.

Approximately 30 acres of onions were grown in the area this year. Harvesting started early this week.

The yield is from 300 to 500 50-pound sacks per acre, Renfro stated, and the current price is \$3.50 and more per bag.

Attend Round-up At Texas A & M

John Reneau, Jr., of Munday and Edward Moorhouse of Benjamin were selected by the County 4-H Council to attend the state 4-H Roundup at College Station on June 11-12 and 13. Representing the girls are Janelle Jackson of Vera and Sherry Cook of Gilliland.

This is the annual state-wide meeting of 4-H delegates and contestants, and about 2,000 are in attendance. District winning teams are competing in the various contests, and delegates are attending special training meetings.

A chuck wagon barbecue, followed by a special entertainment program, are highlighting the meeting.

WANT AD GETS THE JOB DONE

"It really got the job done, and I could have sold three more," stated Mrs. Fred Broach, Sr., as she called in to stop her want ad.

Her ad, scheduled to run several times, was to sell a large galvanized cistern, but only one time was all that was necessary to do the selling job.

A want ad in The Times will "get the job done" for you, too. Give those "big little ads" a trial.

Spanish Course To Be Offered By McMurry College

Dr. Rockover Cecil, dean of the school of business administration, McMurry College, has announced that a course in agricultural conversational Spanish will be offered in Munday by the extension department of the college.

Classes would be held two nights per week for three hours over a period of five weeks, and if enough interest is shown they will continue for a second 5-weeks period.

Enrollment fee will be \$20 per person and at least 15 persons must enroll before the course will be taught. Those desiring to take the course are asked to leave their checks at the Chamber of Commerce office.

Classes will be started soon after the required number have enrolled, possibly by the latter part of this month, it was stated.

Munday Man And Trailer Pictured

John Nelson, Knox County farmer, is pictured with a transport trailer he built for irrigation pipe in the July issue of The Progressive Farmer magazine.

Nelson spent \$18 for 90 feet of 2-inch pipe. The rest of the material came mostly from junk. The trailer will carry with ease 1,200 to 1,500 pounds of aluminum pipe.

Lt. Roy Bouldin of Perrin A.F.B. in Sherman spent the week end with his mother, Mrs. M. L. Wiggins, and Mr. Wiggins.

Weather Report

For seven days ending 7 p. m. June 11, 1957 as compiled by H. P. Hill, U. S. Weather Observer.

Notes From Knox Farms, Ranches

By Roy England, Knox County Agent

Agriculture Secretary Benson has set June 20th as the date for a referendum to determine producer approval or disapproval of marketing quotas. If marketing quotas are approved by growers, the national average support available to eligible producers in the commercial area will be not less than \$1.78 per bushel. Growers who stay within their allotments will be eligible for price support on their entire production.

If marketing quotas are disapproved, there will be no restrictions on wheat marketing. Acreage allotments will remain in effect as a condition of eligibility for price support at the 50 percent of parity rate required by law when quotas are disapproved.

Several factors, including stem rust and too much moisture during the ripening stage, have adversely affected the quality and test weight of much of the wheat being harvested over the county.

Weeds are also causing considerable losses by grading down the quality and hindering storage following harvest.

Oil Activities

Superior Oil Co. has completed No. 1 P. C. Phillips in the Plumlee (second Tannehill) Field, three miles north of Munday. The well flowed 62.64 barrels of 36.7 gravity oil per day from pay perforated at 2033-39 feet.

In the Voss (Tannehill) Field, Magnolia Petroleum Co. has completed No. 11 Mamie Summers, one mile west of Munday, for a daily pumping potential of 11.18 barrels of 35.5 gravity oil from perforations at 1956-61 feet. Hole was plugged back from 2150 to 2120 feet.

Bridwell Oil Co. spotted No. A-1 R. R. Jarvis as a 2500-foot exploration five miles west of Munday.

McMahon and Bullington Drilling Co. of Wichita Falls has staked No. 11 A. J. V. Johnson as a 2250-foot rotary project, northwest of Munday, and the firm is also drilling No. 12 Johnson.

Katz Oil Co. of Abilene No. 1 O. A. Green was staked as an east offset to the discover well in the Wylie (Strawn sand) Field, two miles west of Knox City. It is slated for 5,000 feet with rotary.

Arnold H. Bruner and Co. is asking a discovery allowable for No. 1 F. E. Walker, completed as a Tannehill sand discovery six miles west of Knox City. The well pumped 75.75 barrels of 38 gravity oil per day from pay perforated at 2412.22 feet. Total depth was 2475.

Three more wildcard locations were made in the county recently. They are: ABB Drilling Co. No. 1 J. T. Murdock, 4 1/2 miles north of Goree, to 1850 feet; the same firm's No. 1 Truman Winchester, in the same area, to 1850 feet; Tom B. Medders No. A-1 G. W. Montandon, 7 1/2 miles northwest of Knox City, to 2600 feet.

Drive carefully. The life you save may be your own!

Moffett Sponsors Bill Aimed To Help Vegetable Growers

On June 4th Governor Daniel signed a bill by Senator George Moffett of Chillicothe which provides that wholesale buyers of fruits and vegetables (unless they pay cash) should be licensed by the State Department of Agriculture and provide a bond with the department to insure the payment for vegetables and fruits bought from Texas growers.

There has heretofore been a similar law which applied only to the citrus fruit areas in the southern part of the state. The new bill by Senator Moffett broadens the law to cover all counties in Texas.

During the 1956 season shipments of cantaloupes and other products by growers in Knox County and adjacent areas were made to out of state consignees, and reportedly no payments were received upon some such shipments. The new law will protect growers of fruits and vegetables against future losses in such transactions.

Harold Paden New Minister Of Local Church

Taking over his duties in early May, Harold Paden is now serving as minister of the local church of Christ. He succeeds Payne Hattox, who is now serving in the missionary field at Stockholm, Sweden.

Mr. Paden comes to the local church from Milano, Italy, where he spent some eight years doing mission work. His experience in the mission field is proving of great benefit to the local congregation in carrying on the work of the local church.

Prior to going to Italy, Mr. Paden served churches at Tahoka, Texas, and at LaHarbra, Calif.

Mr. and Mrs. Paden and family are occupying the minister's home. They have four children, two of whom were born in Italy. The older two are of school age.

Electric Shock Kills Hetrel Child At Wichita Falls

Donald Dale Hertel, 17-month-old son of Mr. and Mrs. Donald William Hertel of Wichita Falls, was electrocuted Sunday afternoon when he came into contact with a shorted air conditioner at his home. The child was pronounced dead at 5:15 p.m. Sunday at Wichita General Hospital.

Ralph Davis, justice of the peace, said the child was electrocuted when he came in contact with the air conditioner on the south side of his home. Water dripping from the unit had caused the short, Davis said.

The boy's father was installing another air conditioner in another part of the house when his wife discovered the body. Hertel felt an electric current as he picked his son's body from the ground.

Survivors other than the parents include a six-month-old brother and his grandparents, Mr. and Mrs. Donnie Hertel of Knox City.

C. W. Day, 86 Dies On Sunday

C. W. Day, 86-year-old local resident, passed away at 12:05 a.m. Sunday at the home of his daughter, Mrs. W. O. Mays. He had been in failing health for some time.

Mr. Day had made his home here for the past 14 months.

Funeral services were held at the Riddle Funeral Home in Mexia last Monday afternoon, and he was buried beside his wife, who preceded him in death, at Kirk.

He is survived by the daughter, Mrs. Mays, three sons; two granddaughters, Mrs. Joe B. Roberts and Mrs. M. A. Masters, both of Munday.

Local Firemen Make Two Calls

Munday firemen got two work-outs this week, as two runs were made to extinguish fires. Firemen helped put out a grass fire at the O. V. Milstead property at about 12:45 p.m. Tuesday.

At 10:30 Wednesday morning they were called to the Elmer Dickerson farm, west of town, when a labor shack caught fire. Firemen reported the roof of the building was practically destroyed and considerable damage done to the interior before the flames were extinguished.

Meeting To Begin At Local Church

A week of gospel services will begin next Sunday at the Church of Christ, 319 9th Ave., it was announced Wednesday.

John R. Freeman of Lubbock is the evangelist. Mr. Freeman is here this week doing personal work, and will begin the meeting with 10:30 services Sunday.

Services will be held at 8 p.m. daily through next week, and the public is cordially invited to attend.

MILITARY TEAMWORK BEST

Our first Secretary of Defense, James Forrestal, said: "Whether it be business, government, or military operations, I mistrust the principle of relying on a single genius to make all basic decisions."

The assertion that a single chief of staff system is efficient, economical and desirable from a national standpoint is not supported by history, fact, or experience. The concept has fatal defects from military, political and economic standpoints.

Our Joint Chiefs of Staff organization has in practice demonstrated the genius of American people for democracy. This system has solved the problem which has long plagued democratic republics, the difficulty of being military strong without becoming militaristic. Other advantages of this system are many and certain.

It has demonstrated that where speed of decision is required, it can meet the test.

It assures our nation that vital decisions are arrived at after sound deliberation process. Our national survival is based, not upon the whim of an individual, but upon the decisions of the best military minds our nation has available.

The Joint Chiefs of Staff organization assures the proper development and employment of our land, sea and air forces.

YOU CAN'T CLIP A TV PROGRAM!

Dorothy Kilgallen, the columnist and television star, recently had something pleasant to say about newspapers as reading matter.

"You can read on a train crossing the desert or on a plane at 17,000 feet above the Atlantic—no static, no fading, no blips," says Miss Kilgallen. "You can read in a bathtub or while hanging onto a pole in a crowded bus. You can read as much or a little as you want, as fast or as slowly as you want."

"And if you read something you like, you can tear it out and save it to read again some day. I enjoy radio and television, and I am gainfully employed by both, but I must admit they have their drawbacks. Did you ever try to clip a television program and paste it in your scrapbook?"

Here's why the newspaper holds its dominant place in the homes and hearts of Americans. And here is why—to touch on the world of commerce from which all of us draw our livings—the newspaper remains an unsurpassed means of advertising goods and services.

THE WELL-NOURISHED CHILD

Do you think that a fat child is necessarily a well-nourished child? If so, you are wrong.

The authorities on nutrition have learned that a plump youngster can actually be suffering from malnutrition. That is because useless weight is gained if the child's excessive calories come mainly from foods low in protein and in vitamins.

Sound nutrition can come only from a well-rounded diet, containing the proper share of proteins, vitamins and minerals, along with an adequate but not excessive amount of fat.

Here is one of the reasons why the scientific attitude toward meat has undergone an important change in recent years. It is now known that meat is essential to the mental and physical health and well-being of people in all age groups, from the very young to the very old. It is also of great value in many illnesses and post-operative situations. Meat is one of the most valuable of all the sources of high quality protein, the B vitamins, and various beneficial minerals. It is an interesting fact that the superior endurance of American soldiers in World War II is believed to have largely resulted from a diet high in meat content.

Last, but not least, most people find meat one of the most satisfying and attractive foods. We can eat it with relish every day. There is no adequate substitute for it.

QUINCY, MASS. PATRIOT LEADER:

"Americans snicker when the Russian Government repudiates all payments on its savings bonds but their own government has not repaid its bond holders in terms of the purchasing power since World War II . . . No one who buys a U. S. savings bond has to worry about getting his money back plus interest. There is no element of risk involved here. He should, however, take into consideration the factor of inflation — something that continues to penalize thrift."

WEST POINT, MISS. TIMES LEADER:

"The United States will participate officially in a trade fair behind the Iron Curtain for the first time this summer — at the Poznan Fair in Poland — The Exhibit is designed simply to show the people of Poland what typical Americans wear and what they pay for their clothes, but the revelation may explode a chain reaction of dissatisfaction when these people starved for consumer goods weigh their lot with Communism and ours under private enterprise."

By John C. White, Commissioner

A NEW APPROACH TO THE SCREW-WORM PROBLEM

Texas stockmen will be keenly interested in a new procedure for eradicating the screw-worm now being tested in the Florida cattle country.

In a joint Federal-state operation, a project is now underway involving the use of male flies hatched under laboratory conditions and sterilized through radiation exposure to cobalt gamma rays.

It is believed that when the steril male flies are released in a screw-worm infested area, a marked decrease in reproduction will result when many eggs produced by female flies in the area fail to hatch.

The Florida experiment, which is being directed by R. C. Bushland of the Entomology Research Division at Kerrville, is not an attempt at eradication of the screw-worm but merely a test to see if it can be accomplished.

The research project grew out of a similar operation held on the Caribbean Island of Curacao in which a complete eradication was accomplished. In the Curacao project, 400 male screw worm flies per square mile were released. The Florida experiment will employ a release of 500 males per square mile each week for four months. This will re-

quire a total of about 2,000,000 lab-reared flies a week when operations reach their peak in the area to be treated, which is 40 by 50 miles.

The screw-worm is the larvae, or maggot, of the fly *Callitroga hominivorax* which developed from eggs laid on open wounds on animals. The screw-worm has been known to exist in Texas since 1842, probably coming up from Mexico.

Because of the heavy Mexican infestation which migrates northward through Texas, the time eradication measure being tested in Florida presently would not be too effective in the Southwest.

However, if tests should prove successful in the Southeastern project, Texas cattlemen can look forward to a time when the ever-present screw-worm problem is relieved.

LOCALS

Miss Virginia Hargrove of Lubbock is spending two weeks with her grandparents, Mr. and Mrs. Ralph Weeks. She is also visiting Miss Joan Lain in Knox City and with her grandparents in Goree.

Mrs. David Eiland of Dallas visited Dr. and Mrs. D. C. Eiland several days this week. Her little daughter, Dianna Kay, who has been visiting her grandparents the past two weeks, returned home with her.

Mr. and Mrs. Dale Williams and children of Plainview visited her mother, Mrs. Lucille Stodghill, and other relatives here over the week end.

Mrs. Jim Johnson of Plainview visited Mrs. Eva Ray Estes over the week end. Her daughters, Miss Becky and Cheryl Jameson, who have been attending band school, returned home with her.

Darla Karen Scott of Tulsa, Okla., spent last week end and is spending this week with her grandparents, Mr. and Mrs. J. B. Scott.

HOME ECONOMICS DIRECTOR, LONE STAR GAS CO.

Perhaps you have confined the use of strained or junior baby foods to the serving of babies. If you haven't a baby in the house, perhaps you haven't used these canned foods at all. Too bad in either case, for these foods, so

carefully prepared and canned, make delicious dishes for adults. Keep a supply on your emergency shelf and you can quickly prepare dips, sandwich spreads, main dishes and desserts.

The convenient sizes are handy for quick measurements. The 4 1/2-ounce size measures 1/2 cup, the 6 1/2-ounce size measures 3/4 cup and the 8-ounce size measures 7/8 cup. The 3 1/2-ounce size of strained or junior meats measures 7 tablespoons.

Combine two 3 1/2-ounce cans strained liver and bacon, one cup creamed cottage cheese, two tablespoons chili sauce, one teaspoon prepared mustard and 1/8 teaspoon garlic powder. Beat until smooth and presto — you have a savory dip to serve with crackers, chips and raw vege-

tables. This makes about 1 1/2 cups.

Make a tasty sandwich spread by combining and beating until creamy two 3 1/2-ounce cans strained chicken, one 5-ounce jar relish cheese spread, one teaspoon grated onion, a few drops Tabasco and one teaspoon Worcestershire sauce. Chill thoroughly in gas refrigerator. Makes about one cup.

Here is a delicious lamb dish. Combine, mixing well, one cup junior lamb, one cup junior carrots, two tablespoons junior egg yolks and ham, 1/2 teaspoon salt, one teaspoon Worcestershire sauce and 1/2 cup soft bread crumbs. In a separate bowl, combine 2 1/2 cups cooked rice, 1/4 teaspoon salt and four tablespoons tomato sauce. Line a 2-quart greased baking dish with the rice mixture. Fill with lamb mixture. Top with additional bread crumbs, if desired. Bake in moderate gas oven (350 degrees F.) 20 to 30 minutes or until hot and bubbly. Makes four servings.

If you need cookies in a hurry, combine 1 3/4-ounce package cookie mix, one-half cup strained applesauce, one cup semi-sweet chocolate pieces and one cup chopped nuts. Mix well and drop by teaspoon on ungreased cookie sheet. Bake in moderate oven (375 degrees F.) 12 to 15 minutes. Makes about four dozen.

Recipe Of The Week

ORANGE NUT BREAD: Combine three-fourths cup brown sugar, firmly packed, and one slightly beaten egg. Combine one cup strained sweet potatoes and one-fourth cup strained orange juice and add to the sugar mix-

ture with one-fourth cup grated orange peel and one cup chopped walnuts. Blend well. Stir in three cups biscuit mix. Beat vigorously 30 seconds. Turn into well-greased 9-inch loaf pan. Bake in moderate gas oven (350 degrees F.) one hour. Remove from oven, let cool in pan 5 to 10 minutes. Remove from pan.

News From The U. S. Congress

For the last two weeks the House has been debating the "civil rights" bill, which is probably the most important piece of legislation that will come before Congress during this session. The bill under consideration is one that was largely written by the Attorney General, Herbert Brownell, and is being vigorously supported by the Administration as well as the Northern Democrats. It is extremely difficult to understand how such a proposal can be made in the name of civil rights. In the first place, it would deny the right to trial by jury in all cases of criminal contempt in which a civil rights question was involved. We have established here in this country great basic safeguards to protect all Americans from bureaucratic and judicial tyranny. This "civil rights" bill under consideration will completely destroy one of these greatest safeguards which is the right of every citizen to a speedy public trial and the right to be tried by a jury of his peers. Under this proposal, the Attorney General or one of his Assistants

acting in the name of the United States, could swoop down on any citizen and accuse them of either a violation or attempt to violate or actually even almost a thought to violate the Civil Rights Statutes and whisk them away to any State within the Federal appellate circuit that they resided in. For instance, someone in North Texas could be taken to Tampa, Florida, for trial. Also, the Attorney General under this monstrosity of a proposal could bring a legal action in the name of a person whether that person agrees to the use of his name or not. Any ordinary lawyer that would attempt to do this would be subject to being disbarred. Passage of this bill will mean the breaking down of the present concept of our Anglo-Saxon judicial system and would be the turning of this Government over more and more to the whims and fancies of one individual which, in this case, would be the Attorney General.

We have come to look forward here to the annual visit of the Bowie Travel Club. This year Mr. Paul Taliaferro had a group of approximately one hundred young people. Senator Lyndon Johnson, Speaker Sam Rayburn, Congressman J. T. Rutherford of Odessa, Congressman Tom Murray of Tennessee and I met with this group in the Speaker's Dining Room of the Capitol for a visit. I think trips such as the Bowie Club takes each year are of great educational benefit to these youngsters, and I wish more of our high school groups were able to take such trips.

Other visitors from home this week were Mr. and Mrs. Flynn Stewart and children, Mr. Otis Nelson, General and Mrs. E. H. White and son, Jim, Mr. and Mrs. Stanley O. Shelton and son, Mr. and Mrs. Curtis Cook, Miss Mary Ellen Wegeman, Miss Gloriann Wegeman, Mrs. Will Wallace and daughter LaRue, all of Wichita Falls; Miss Carole Lynn Cook of Oklaunion; Mr. W. J. Stone, Mr. J. W. McCall, Mr. Joe Janeway, Mr. E. J. Johnson, all of Nocona; and Mrs. C. W. Wallace of Louisiana.

Rev. Charles Peters and Rev. Baxton Bryant of Gainesville are here with a group of young people of the Whaley Memorial Methodist Church. I am looking forward to a visit from this group later today.

While I have not as yet heard from Mr. R. F. Thompson of the Department of Vocational Agriculture of Nocona, he was scheduled to reach Washington Thursday, June 6th, with twenty-three Members of the Nocona FFA. I am also looking forward to visiting with these young men while they are here.

See You In Church Sunday

LOCALS

Mr. and Mrs. Nolan Phillips and Shelton Phillips visited relatives in Foss, Okla., last Sunday.

Mr. and Mrs. Riley Bell, Donna and Vickie were in Abilene last Saturday for Vickie to receive a medical check-up. Vickie, who had polio, is reported very much improved.

Miss Barbara Carver of Hardin-Simmons University in Abilene is here for several weeks visit with her parents, Mr. and Mrs. Bud Carver.

Sammy and Dickey Walling of Odessa are spending their vacation here with their grandparents, Mr. and Mrs. Mahlon Boggs.

Mrs. Clayton Wren and Erwin, Mrs. Drucilla Morton and Gaston Welborn visited friends in Ballinger the first of this week.

Week end guests in the home of Mr. and Mrs. Austin Tomlinson and family were Mrs. M. L. Jacobs and Mr. and Mrs. R. B.

Jacobs of Lubbock and Mr. and Mrs. Walter Sommerville and son of Wichita Falls.

Mrs. Jack Timberlake of Leveland and Mrs. J. M. Roberson of Vera visited Mrs. Dee Mullican last Thursday.

Guests of Mr. and Mrs. Chas. Moorhouse over the week end were Jerry Moorhouse and children, Frances and Collins, of F. Paso; Mr. and Mrs. Deaton Moorhouse and son, Charles, of Amarillo, Mr. and Mrs. Collins Moorhouse and Mrs. Ada Moorhouse of Benjamin and Mr. and Mrs. Wallaco Moorhouse and children, Bill and Ann, of Munday.

PERSONALS

I AM NO LONGER
RESPONSIBLE FOR
MY WIFE'S ACTIONS

(Since she got her
new kind of Ford)

"If she is unbelievably happy at 7:00 A. M. every morning, I now hold her 1957 Ford responsible. If she is off for the day at 7:02 A. M., I suggest that it is the power of Ford's Thunderbird V-8 engine. If she appears vastly more style-conscious, it is the longer, lower lines of her new kind of Ford that have made her so.

"If she arrives home remarkably refreshed, I refer you to the lower, more comfortable seats, the wider wrap-around windshield and the other peace-of-mind features of her new "Inner Ford." If she's just a bit more spoiled, don't blame her. With optional power steering, power brakes, power windows and seat—who wouldn't be?

"And if she is constantly raving about the savings her new car brings her, she's merely confirming what I've been telling her about Fords for years! Sure, we're a two-Ford family now. But even having one Ford in the family was more fun than you can imagine! Try a new '57 Ford at your house. It's Terrific!"

Miss Shirley Ann Yost Married To Austin Man In Church Ceremony Here

Miss Shirley Ann Yost became the bride of Lt. Jerry Lee Anderson of Austin last Saturday evening in a double ring ceremony at the First Baptist Church in Munday.

The bride is the daughter of Mr. and Mrs. Clyde Yost. Parents of the bridegroom are Mr. and Mrs. C. L. Anderson of McAllen.

Pre-nuptial wedding music included a violin duet by Mrs. Travis Lee and George Houston of Knox City. Organist, Mrs. E. Q. Warren, played the traditional

wedding selections and accompanied soloist, Mrs. Carol Nunez of Beaumont, who sang "With This Ring" and "I Love Thee."

Arrangements of pink majestic daisies flanked the altar archway entwined with greenery and daisies. Ronald Clyde Yost, brother of the bride, and James Reid lighted the white tapers. The Rev. Grady Allison officiated.

Mrs. Richard McConnell of Austin was matron of honor. Ann Nelson of Dallas and Mrs. Ruel Hudspeth of Arlington were

SHIRLEY YOST

bridesmaids. They wore chiffon dresses in double shades of pink. Portrait necklines were draped in back from a deep V cut. Their headresses were chenille dotted veils of petal pink. They carried pink carnation bouquets.

Given in marriage by her father, the bride wore an original gown of hand clipped chantilly lace designed with scooped neckline outlined in seed pearls. Her bouffant skirt was floor length with a suggestion of a train. Her tulle veil was caught to a head-dress of lace sprinkled with pearls and sequins. She carried a white orchid bouquet.

James Holcomb of Crane was best man. Ushers and groomsmen were Richard Preston of Dallas, Dr. Thomas R. Williams of Harlingen, Lt. Kenneth Lester of Memphis.

Social hall of the church housed the reception. The bride's table was laid with a cutwork cloth over pink and was decorated with the bouquets of the attendants.

Mrs. Jack Reese cut cake and Mrs. Nunez and Mrs. Felton Raynes laddled punch.

Guests were registered by Mrs. Doug Moore. Gail Littlefield played piano background music. Other members of the houseparty were Mrs. Wallace Reid, Mrs. Jack McCall, Mrs. Don Wardlaw, Mrs. C. C. Jones, Mrs. Clyde Nelson, Mrs. A. L. Smith, Mrs. Clifford Cluck and Mrs. E. T. Cluck.

Mexico City was destination for the wedding trip. To begin the travels, Mrs. Anderson wore a navy suit of imported silk with white hat, navy shoes and bag and her orchid corsage.

After June 17, they will live at 407 W. 18th St., Austin. She received her degree from North Texas State College and did graduate work at the University of Texas. Lt. Anderson is a graduate of the University and has also done his graduate work there.

La Nonne Proctor And L. H. Blevins Marry In Dallas

A/C L. H. Blevins and La Nonne Proctor were married Tuesday evening in a double ring ceremony in Dallas. La Nonne is the daughter of Mr. and Mrs. L. R. Proctor of Dallas and L. H. is the son of Mrs. Joycie Blevins of Honey Grove.

After a brief honeymoon L. H. will return to Chula Vista, where he is with the Navy Air Force. Mrs. Blevins will remain and continue her job in Dallas until September, when she plans to join her husband in Chula Vista.

Mahlon Boggs and A. C. Boggs attended the funeral of an uncle, John Barnett, in Gatesville last Saturday.

Club At Goree Closes Year With Safety Program

The Woman's Study Club of Goree met recently and closed the year's study with a program on safety.

Mrs. John Broach gave a discussion on highway safety with emphasis on vacation hazards. Mrs. James Carver reported on progress of the women's federated clubs and the bar associations in their efforts to improve highway safety and prosecution of violators.

In business session, the club voted to donate fifty dollars to the youth center for game equipment and other needs.

Mrs. H. D. Arnold finished her term of office, and turned the meeting to Mrs. Orb Coffman, president for next year. Mrs. Coffman reported on the district convention which she attended.

Mrs. Sam Hampton will serve as yearbook chairman for next year.

BENJAMIN NEWS

Mr. and Mrs. Glenn Hall of Orla spent last week with their parents, Mr. and Mrs. C. A. Parham and family and Mr. and Mrs. Hester Hall and family. Janice Hall and Becky Parham returned home with them for a visit.

Mr. and Mrs. Matt Brown and Becky left last week to visit relatives and friends in Tennessee.

Mr. and Mrs. John Cure of Goree were business visitors in Benjamin one day last week.

Mr. and Mrs. Jerry Moorhouse and family of El Paso visited in the home of Mr. and Mrs. Collins Moorhouse, other relatives and friends here this week.

Mr. and Mrs. Herbert Sams visited relatives in Dallas a few days last week.

Week end visitors in the home

of Mrs. W. A. Barnett, Omitine and Pete were Mr. and Mrs. Ollie Howard of Smyre, Mr. and Mrs. Arch Horton, Mr. and Mrs. Buford Hayes all of Whitheral, Mr. and Mrs. Carl Howard of Lubbock and Mr. and Mrs. Homer Howard of Seymour.

Mr. and Mrs. James Grady Hudson and daughters of Cotton Center spent the week end with his parents, Mr. and Mrs. Grady Hudson.

Mr. and Mrs. Carl Tennon and baby spent last week in Muleshoe visiting her parents, Mr. and Mrs. Talland, and his sister, Mrs. J. D. Lovell and family.

Mr. and Mrs. Marvin Brown and Mrs. Glen Langston and son of Fort Worth were week end visitors of Mr. and Mrs. Lovel Brown and family, other relatives and friends.

Mr. and Mrs. Ray Skidmore and daughters moved to Abilene last week for the summer months while Mr. Skidmore attends college.

Business visitors in Knox City Saturday were Omitine Barnett, Mrs. Von Terry, Mrs. Maurine Stephens, Mrs. W. E. Ryder, Sr., Mrs. P. H. Pierce and Mrs. Edith West.

Mr. and Mrs. Malcolm Shipman returned to their home last week from Flagler, Colo., where they have lived the past several months.

LOCALS

Mrs. Joe Combs and children, Cindy and Joe Craig, of Grand Prairie are spending this week with her parents, Mr. and Mrs. D. E. Whitworth.

Miss Dianne Hobert left last Sunday for Wichita Falls where she will attend Draughn's Business College for the summer months.

Miss Trivella Butler of Lubbock visited Miss Joyce Voss over the week end.

Wesleyan Service Guild Meets With Mrs. Joe B. King

Members of the Wesleyan Service Guild held their regular meeting last Monday night, June 10, in the home of Mrs. Joe Bailey King.

A very inspirational program on "God Hears and Answers Prayer" was directed by Mrs. King. Taking part on the program were Mrs. John Rice and Mrs. C. P. Parker.

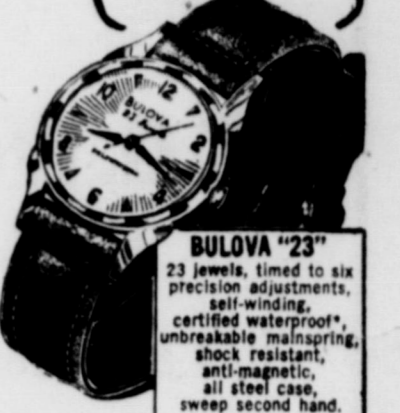

Nineteen members were served refreshments by the hostess, Mrs. E. R. Ponder.

Wichita-Brazos Soil District News

FARM AND RANCH POND SPILLWAYS

By Cave Wann, Agricultural Engineer

Water under the bride is seldom a problem but water over or through a spillway almost always causes damage. Spillways are primarily emergency structures designed to protect dams against floods of prolonged duration or extreme intensity — both types of storms are common in the Wichita-Brazos Soil Conservation District. As such, spillways are designed to carry the expected maximum runoff from the watershed that will normally occur only once, in 50 years. Abnormally hard, short showers or a prolonged series of light showers will produce flow through a spillway but usually much less than the maximum designed capacity. It is desirable however to select pond site and watershed combinations which do not produce frequent flows through the spillway, thereby avoiding many of the maintenance jobs that usually are

needed from such flows. Since farmpond spillways are principally of the vegetated type and usually on very steep slopes they require special attention both in establishing and maintaining an adequate cover of grass. It is seldom possible to select a naturally vegetated spillway site that will not require maintenance. When it is not necessary to shape a spillway adequate vegetation can usually be obtained by fencing the spillway area in order to control grazing. Fencing is also necessary in many cases to increase the stand and vigor of existing grass cover since increased grazing usually results near watering places. Fencing also keeps cattle from trailing up the spillway, thus causing gulleying and eventually a major repair job. Also roads should never cross spillways except at the top or entrance to the spillway. In many cases it is necessary to cut and shape a spillway. Usually spillway construction can be done at the same time the dam is constructed. In all cases topsoil should be placed on all cut areas and seeded or sodded to secure cover as soon as possible. Spillways for ponds on large watersheds must be established to vegetation prior to pond construction. Repairs to vegetated spillways should be made immediately after rains if possible and preferably while the surface of the soil is still wet. Holes or overfalls developing in the spillway should be repaired by filling holes with compacted soil and sodding, or by re-shaping the overfall to stabilized grade and covering with new sod. Net wire staked flat over newly placed sod has proved a valuable aid in retaining sod in the event of additional rains which produce flow through the spillway. A "trickle tube" placed through the dam below spillway

ERRATIC TRAIL left by the twister which hit Flint, Mich., on May 12, 1956 is typical of tornadoes as the funnel weaves and bobs over the landscape, generally in a southwest to northeast direction. Civil defense rescue squads, trained to dig persons out of bombed-out buildings in wartime, find their training equally useful in this type of disaster. (Flint Journal Photo by Russ Scott)

Judy Shropshire Honored Recently With Coke Party

Miss Pat Putnam entertained recently with a coke party honoring Miss Judy Shropshire, formerly of Llano, who is now making her home in Munday. Judy, daughter of Mr. and Mrs. L. H. Shropshire, graduated from high school this year and plans to attend John Tarleton College in the fall.

Refreshments were served to Gayle Littlefield, Dianne Hobert, Shirley Cammack, Mrs. Carla Smith, Kathleen Michels, the honoree, and the hostess.

level and emptying into the watercourse below the dam will prevent most of the scour damage to spillways, reduce maintenance costs, and eliminate the need for fencing in some cases.

Coron Powers Missiles

FUEL OF THE FUTURE? That's what scientists in the fields of chemistry, physics, and transportation are asking themselves about the element, boron. Boron is one of the most promising sources of power for guided missiles and supersonic jets, and is currently being tested in numerous "exotic" fuels at special installations. Recently boron became available throughout the Midwest in a motor fuel. Production of borax, the most commonly found form of boron, has doubled in the U. S. during the past 10 years. Frequently called the "wonder" element, boron seems destined to influence other industries as much as it already has affected the manufacture of gasoline. (Photo — Martin, Baltimore)

Outlook Good For '57 Edition Of Cowboy Reunion

Things are really looking up for the Texas Cowboy Reunion to be held at Stamford on July 2, 3, and 4 since all West Central Texas has been blessed with wonderful rains, giving the setting a beautiful green look after several years of parched pessimism.

Twenty-seven years can be a mighty long time if it is spent in the "pokey" or paying installments. But for the thousands of persons who attend the Rodeo and Reunion, it is only a short time for recalling memorable events and a wonderful vacation. Despite the drought the past few years, 538 contestants participated in the show and more are expected this year. Spectators will enjoy the thrills and spills again of such events as calf roping, bronc riding, wild cow milking, bull riding and the cowgirls' clover leaf barrel races just as they have since the beginning of the show in 1930. Many of the contestants are sons and daughters of those who took part in the very first reunion.

The big parade will open this year's show at 11 a.m. on the morning of July 2. The world famous Hardin-Simmons Cowboy Band will be on hand to add color and spirit throughout the three

day celebration. President W. G. Swenson has announced that the special G. I. roping event will be held again this year with the top 10 ropes who are G. I.'s or ex-G. I.'s will compete in the arena the last night for a beautiful saddle.

Wheat Growers To Vote June 20 On Referendum

Wheat farmers will decide by referendum on June 20 whether or not they want marketing quotas on the 1958 wheat crop.

According to R. G. Shrauner, chairman, Texas Agricultural Stabilization and Conservation Committee, the recent proclamation of marketing quotas for the 1958 crop of wheat conforms with legislative directives. Under the governing legislation, the Secretary of Agriculture must proclaim marketing quotas for the next wheat crop when the available supply is 20 percent above the normal supply. The estimated supply of 1,825 million bushels available for the 1957-58 marketing year is actually 56 percent above the normal supply of 1,170 million bushels. The normal supply is based on estimated domestic consumption and exports plus a 20 percent carryover.

The quotas do not become effective, points out the chairman, unless at least two-thirds of the producers voting in the referendum favor the quotas. The outcome of the referendum will decide the level of the available price support for the 1958 crop, as well as whether quotas and penalties on "excess" wheat are used for the crop.

All wheat growers are eligible to vote in the June 20 referendum who will share in the 1958 wheat crop from a farm in the commercial wheat area on which the wheat acreage to be harvested, plus any acreage to be placed in the Soil Bank's wheat Acreage Reserve will be more than 15 acres.

Ballots in the referendum may be cast at local polling places which will be announced prior to June 20.

Shrauner urges all eligible wheat growers to vote and suggests if they have questions regarding wheat marketing quotas, that they get in touch with their local county ASC office.

Mr. and Mrs. Troy Denham and children and Arla Walls of Lueders were guests of Mrs. Denham's parents, Mr. and Mrs. Leland Hannah, last Monday night.

Miss Shirley Yost Honored At Shower Held In McAllen

McAllen, May 24—Miss Shirley Yost of Munday, bride-elect of Lt. Jerry Anderson of McAllen, was honored at a luncheon and kitchen shower in the Azalea Room of Coughran's Cafeteria given by Mrs. Helen Harrison, Mrs. M. P. Wilson and Mrs. E. W. Tyle.

The large luncheon table was centered with a "kitchen bouquet" consisting of "lillies" made of red, white, and red-and-white hot dish lifters, "chrysanthemums" made of copper pot cleaners, the red

and white handles of various kitchen cutlery and spirals of fusilli macaroni and Boston fern, arranged in an electric pop-corn popper, the gift of the hostesses to the honoree. Red and white checked gingham steamers ran from the center piece down the middle of the table.

The honoree's place card was a recipe file, in which each guest filed a copy of her favorite receipt. Guests place cards were red plastic clothes pins, tied with red and white checked gingham bows. The honoree and Mrs. C. L. Anderson, mother of the prospective groom, were presented with "kitchen corsages" of red radish roses, shell macaroni, fusilli macaroni backed with a

copper pot cleaner and tied with red and white checked gingham bows.

Others present for the courtesy were Mmes. Lancer Bevil, Don Holland, Dorance Holland, Orville Hess, E. W. Pile, Jr., A. S. Myers Arthur Wiley, Stanley Etnier and Ruby Smith.

That evening Miss Yost was complimented at a buffet supper and miscellaneous shower given by Mr. and Mrs. Alfred Myer and Mr. and Mrs. Artur Wiley in Firemen's Park in McAllen. The gift table was covered with a pink cloth and decorated with an arrangement of pink geraniums and apple blossom oleander. Sixty guests were present.

YOUR CHILD AND THE DOCTOR

It's a good idea to give written consent for necessary medical care if your child leaves home for a visit or a camping trip, or if you plan to be away for any length of time.

For example, a summer camp nurse may bring a boy into a hospital with an acute case of appendicitis. But the doctor may well hesitate to go ahead and operate without the parents' consent.

Is the doctor arbitrary, and is such permission just a legal technicality? No, he is well with

in his rights, though he may give first aid — but only for emergency treatment where a child's health or life may be at stake. He is likely to put off follow-up care until he can reach the child's parents. A relative or baby sitter generally cannot grant consent for a child's treatment.

Even an adult must request treatment and grant consent to medical care on his own before a doctor can give it to him. Children cannot do this.

By going to your doctor you show your willingness and consent to accept his treatment. Your consent is assumed also when you ask for a house call by the doctor, or if as a result of an accident you come to a hospital for emergency treatment. If you are unconscious, the doctor may well give you emergency care, yet later he should get your consent to further treatment.

Minors cannot consent to medical treatment, and except in dire emergencies their parents or guardians must give it for them.

The consent should not be broadly or loosely phrased, but should be as specific as circum-

stances permit. The principal reason for having the consent in writing is to avoid later misunderstandings. It is a protection both to the patient and physician.

(This column, based on Federal law and prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

In the early summer of 1925, as staff writer for the Fort Worth Record, I accompanied a motorcade from Brady which was extending an invitation to the annual Sheep and Goat Raisers convention.

I was the sensation of the trip — well, not exactly me, but I caused it. Not knowing as much about the weather as I do now, I took a raincoat. It was strapped on the outside of my suitcase. There hadn't been so much as a shower in that territory for months so everybody grinned when they saw the raincoat.

There was one man on the trip who took special pleasure in kidding me about it.

The last night of the journey was spent in the picturesque town of Sonora. There were so many of us that the hotel fixed up cots on a big porch. Because we were virtually outdoors and because Sonora has an altitude of 2,000 feet or more, when the heat of the day died, the temperature cooled rapidly. The night became downright chilly, so I found use for that raincoat, after all, I threw it over my feet.

Next morning, when I awoke, the raincoat wasn't there. I looked over at the next cot. The occupant was sleeping soundly. Over his feet was my raincoat which he had reached over and taken while I was asleep. And the man who was "guilty" was the one who had been joshing me about the raincoat!

A man ran a hamburger stand in a Texas oil boom town. He was accommodating and good-natured and was popular with his customers. He decided he would like to get in the "oil game," so he obtained a lease and then raised money to drill from his customers, who understood that they were buying shares in the enterprise.

The well proved to be a gusher and then he said that the money had only been a loan — and he paid it back. There had been no papers drawn up and signed because they trusted him. That was his start. The ex-

hamburger stand owner became a multimillionaire. He was a very successful man by the world's standards. But he knew how he had laid the foundation for his "success." I wonder if he found himself very good company when he was alone in the darkness of night?

LOCALS

Mr. and Mrs. Ivan Bryant of Lubbock are spending this week with her sister, Mrs. L. J. Hill.

Mrs. L. J. Hill visited relatives in Lubbock over the week end and attended the wedding of Miss Shirley Chapman on Saturday night.

Dr. and Mrs. Delmon E. Alexander and children visited relatives in Waco over the week end. Mrs. Alexander and children remained for a longer visit.

New Cultivating Ease...

with an ALL-NEW Cultivating Team

ROLL-IN quick-hitching, a new feature, simplifies mounting the new 200 series 2-row cultivator on the new Allis-Chalmers D-14 Tractor... makes hitching easy and quick on this all-new cultivating team.

Set a wedge pin... turn a latch... connect pull and lift rods... and you're ready to go. No rods, ropes or bars to block the way as you step aboard to the D-14 seat... or block your view as you move down the field. Natural "see-ahead" vision lets you see what you're doing for better, faster cultivation.

Parallel linkage provides effective weed killing action by pulling sweeps into the ground quickly and maintaining the right draft line for constant working depth.

AIR CONDITIONING—TEMPERATURES MADE TO ORDER—AT NEW LOW COST. GET A DEMONSTRATION!

It's got the heart of a lion
 (but it's a lamb to handle)

To know a Chevy in all its glory, head one into the open—the more mountains the better. You'll soon see why so many people dote on that smooth sure Chevrolet response and stout-hearted power. Chevy's performance makes their dollars look big!

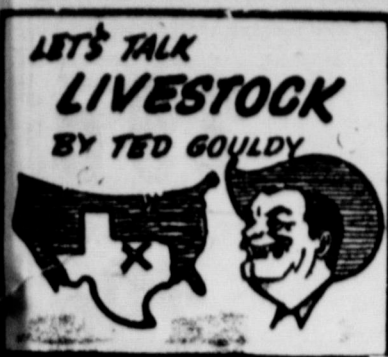

You don't have to urge this car along. A Chevrolet comes alive with the flip of an ignition key. The power is charged with gumption. The wheel responds in a twinkling to tight corners or turns. And on a back road a Chevrolet steps with ease over ruts that would look like barricades to lesser suspension systems. In short, a Chevy shows "savvy." You can, too. See your Chevrolet dealer!

CATTLE MOVEMENT UNDER WAY FOLLOWING FLOODS
FORT WORTH—The arrival of more than 11,000 cattle and calves at Fort Worth signaled the start of the summer shipping season, which has been hampered by rain, mud and flood in recent weeks. The big movement followed the first few days of dry weather following the record breaking rains of April and May. For the record it was the largest offering in four years and approached the numbers recorded October 21, 1946 before the day was over. Grass cattle prices weakened

under the impact, but strong stocker and feeder demand held the price break to relatively minor proportions. Grainfed steers, yearlings and heifers held steady. Bulls sold 25 cents lower. Cows, slaughter calves and plain to medium grade stockers were around 50 cents lower. Grasser yearlings and heifers shared the 50-cent decline. Good or choice quality stockers and feeders held firm.

Good and choice steers and yearlings bulked at \$19.50 to \$23.50, with a few individual steers to \$25. Plain and medium butcher sorts bulked at \$12 to \$18.50. Fat cows drew \$12.50 to \$15.50, and some heiferish cows reached \$16 and were consigned by C. T. White of Brady, who also had some young fat dry females at \$16.75, that weighed around 1,050.

Canners and cutters drew \$8.50 to \$12.50. Bulls ruled at \$11 to \$15.50. Good and choice slaughter calves cashed at \$19 to \$21.50, a few to the butcher trade to \$22. Common and medium offerings drew \$13 to \$18.50, while

culls bulked at \$10 to \$13. Good and choice stocker steer calves cashed at \$19 to \$23, and stocker steer yearlings bulked at \$21.50 down. Feeder yearling heifers sold from \$19.50 down, and stocker heifer calves ranged from \$20.50 downward. A few replacement cows sold from \$10 to \$11.

HOGS HIT NEW HIGH FOR YEAR: TOP \$20.75

The seasonal improvement of hog prices continued as cornbelt offerings were of moderate proportions on Monday. The top at Fort Worth was \$20.50 and \$20.75, and swine at the higher figure established a new high for 1957, and were at the best level since June, 1955.

Last week, and during January this year the top reached \$20.50 at Fort Worth. Medium butchers sold around \$16.50 to \$19.50. Sows sold from \$16 to \$17.50, a few smooth light sows able to get-by as No. 2 or No. 3 butcher sold into the \$18 field.

FAT LAMBS OFF 50c SHEEP SELL STEADY

Slaughter lambs averaged around 50 cents lower at Fort Worth Monday. Trade was uneven, with some spots off more and others off less. Feeder lambs were around 50 cents lower, with some sales \$1 under last week's best. Slaughter ewes and muttons sold steady.

Good and choice slaughter Spring lambs cashed at \$19.50 to \$21.50 and cull to medium Springers sold from \$14 to \$18.50. Stocker and feeder lambs sold mostly from \$15 to \$18.50. Shorn old crop fat lambs of good and choice grades cashed at \$16 to \$17.50, while cull to medium grades sold from \$10 to \$15. Slaughter ewes sold from \$5.50 to \$7, aged wethers drew \$12 down; and two's sold from \$16 down.

HEREFORD SALE AVERAGE IS RECORD \$102.20 PER HEAD

The special stocker and feeder show and sale at Fort Worth sent 906 stockers and feeders back to the country at a gross of \$92,592.88 and a record high average of \$102.20 per head. The quality of the Hereford calves and yearlings in the sale was very good straight through, and muddy pastures earlier in the week prevented larger numbers taking part in the event.

Previous high average in one sale was on the Angus calves and yearlings which sold July 12, 1956, and averaged \$88.43.

The next special stocker-feeder show and sale at Fort Worth will be July 12 for Angus cattle, and on July 19 for Herefords.

Mr. and Mrs. Woodrow Vernon and children, Kenneth and Linda, of Carlsbad, N. M., visited Mr. and Mrs. John Earl Nelson and children, Bobbie, Rose Ann and John Lee, and other relatives last week.

Small Business Health Vital To U.S.

The health of the four million small business concerns in this country is vital to the U.S. economy. But small business is ailing today and the illness can be fatal unless checked in time.

These are study findings reported by Dr. John W. Dargavel, chairman of the Bureau of Education on Fair Trade and executive secretary of the National Association of Retail Druggists.

Small business adds up to 95 per cent of all concerns operating in the U.S. today, he says. The small businessman provides the bread and butter for one out of every three people in America. "If small business is permitted to wither away, the livelihoods of millions of Americans will wither, too," he points out.

Crisis for Small Business

There are dangerous signs of withering right now. Despite peak prosperity, small business failures totaled 12,636, a 16% increase over 1955 and a post-World War II high. And 1957 has already chalked up more failures among small businessmen than in any year since 1939. By 1958, 13,000 small enterprises will be wiped out unless the present decline is halted. These failures are concentrated in retailing, small manufacturing and home building. Another grim note is a 25% decrease since 1950 in the number of new businesses opening each year.

What causes this crisis? Dr. Dargavel cites the diagnosis of the U.S. Senate Small Business Committee: the high cost of la-

bor, material and loans, too-heavy taxes, and cut-throat competition including bankruptcy prices on popular brands—the independent retailer's stock in

Dr. Dargavel

trade. The fair trade laws to prevent such unfair competition have been weakened by conflicting court decisions and a new law is needed to help preserve small business.

"If the American people want to save small business from extinction, they must let their representatives in Congress know they want action that insures fair competition in the marketplace," Dr. Dargavel warns.

LOCALS

Miss Jacqueline Clowdis of Midwestern University in Wichita Falls, visited her parents, Mr. and Mrs. Jack Clowdis, last week end.

Miss Margaret Clowdis is spending this week with her sister and family, Mr. and Mrs. O. H. Spann, Jr. and daughters in Sweetwater.

Farm Magazine Names Minister Of Year

DALLAS—The Rev. Robert L. Wimpee, Crystal City, Texas, was named "Texas Rural Minister of the Year" today by the Progressive Farmer magazine and Emory University, Atlanta, Georgia.

Editor Eugene Butler says the recognition is given Mr. Wimpee for his outstanding work last year as pastor of the Taylor's Valley Baptist Church in Bell County. The Progressive Farmer has presented Mr. Wimpee with a scholarship to Texas Rural Church Conference at College Station, June 24-26, where he will be given a recognition award. Too, he will receive a scholarship to Emory University for a three week's school for Town and Country Ministers.

During Mr. Wimpee's ministry, the Taylor's Valley Baptist Church was named first place winner in the Town and Country Recognition program of the Baptist General Convention of Texas. The congregation completed 54 projects to improve their church, community, and contribute to a better world.

Mr. Wimpee was educated at Texas A & M College, Baylor University, and Southwestern Baptist Seminary in Fort Worth. He has served pastorates in Brazos, McLennan, Bell and Zavala counties. Scholarships to the Texas Rural Church Conference have also

been awarded to the Rev. R. J. Weber, pastor of Zionville Lutheran Church, Washington County, and the Rev. J. Wilfred Carter, minister of Christian Churches at Troy, Holland, and Rogers in Bell County.

Mrs. Leroy Floyd and children of Marshall visited last week with her brother, V. E. Moore, and family. They all met Mr. and Mrs. E. B. Moore of Smiler at Silver Falls Park last Sunday for a day together.

Thirty years ago came the first "electric ice boxes" . . . costly, complicated, noisy, and gluttons for current. Two Swedish chemists decided there must be a better way and discovered The Little Flame that Freezes. A tiny gas flame made all other refrigerators old-fashioned! No noise! Nothing to wear out! They had discovered the refrigerator that was 30 years ahead! It still is!

INSURANCE

MUNDAY, TEXAS

FOUND—Pair of girl's glasses. Rims are green plaid top, solid color bottom. Willard's Garage, Goree. 47-3tp

FOR RENT—Room suitable for oil office at Willard's Garage in Goree. 47-3tp

REAL ESTATE SPECIALS

206-acre ranch, will carry 100 cows. 200 cult., \$50 per acre. Will take in good grain farm on this ranch. Will loan one-half.

480 acres, 160 cult., 320 good grass. Possession July 1. One-half royalty, non-participating. \$90 per acre. Baylor Co.

240 acre farm in Knox County. 222 cult., 20 pasture, good well water. Mixed sandy loam. One-half royalty, non-participating. 83 acres cotton. A real buy at \$175 per acre. Will loan \$75.

280 acre farm near Mattson school, 125 cult., 155 pasture. One-half royalty, non-participating. A real bargain, \$70 per acre.

I have three homes in Goree that are good buys. Better look quick, for property is advancing in price every day due to the oil boom. Also houses to be moved. Don't wait, come and look.

I have one of the very best irrigated farms that can be had in this area. Has one 8-inch, one 6-inch well. Don't wait. Priced very reasonably.

I have 380 irrigated farm, has 3 8-inch and 4 6-inch wells, with all irrigation equipment. Has nice, modern 3 bedroom home. It made 2½ bales cotton, 68 bushels wheat, 100 bushels oats last year. Will trade for a good ranch. This one is the very best.

See me if you are interested in real estate anywhere.

June is Dairy Month in the United States. According to Arch Meekma, extension dairy husbandman, over 2,000,000 farm families in the nation derive all or a part of their income from dairy cows. Dairy products furnish 30 percent of the nation's diet of animal proteins and account for 15 percent of total retail food sales, he says.

Mr. and Mrs. Ivan Bruce and Robbie of Dallas visited relatives here over the week end.

Mrs. Carl Jungman, Ida Jo and Mike, of Vernon visited relatives here last Monday.

Knox Prairie Philosopher Says That Moving Inefficient Farmers To Town Is No Solution To Problem

Editor's note: The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek discusses inefficiency this week, a matter he may be an undisputed authority on.

J. A.

Dear editor: I read a copy of a magazine in a barber shop the other day, you may be wondering what I was doing in a barber shop but it's no odder than some people I know visiting a bank, which set out to solve the farm problem.

According to it, the trouble with the farm situation is there are too many "uneconomic" farmers, by which it means farmers trying to make a living on too little land, or land that's too sorry, or because the farmers don't have enough initiative to farm anyway and if they have they don't have enough efficiency.

Therefore, the magazine concluded, these "uneconomic" farmers ought to move to a city and get a job there, the efficient farmers could take over, and the farm problem would end.

Aside from the fact I know some pretty efficient farmers and ranchers who've been having a little trouble the past few years, if borrowing money is any sign, the thing about this proposal that interests me is the idea of solving a problem by moving to the city, where they've already got more problems than they can handle.

The last time I was in a city it seemed to me there was already more folks on hand than the city could handle, and a lot of folks there were wishing they had more room. I understand also there are quite a few "uneconomic" people in town already, at least they just don't seem to be able to make ends meet.

The thing to do is to have the uneconomic people in the country move to town and the uneconomic people in town move to the country.

While this might not solve the farm problem or the crowded city problem, think how much it'd benefit the moving van business.

I'll tell you, if you're going to set up the rule that when a man can't quite make ends meet he ought to move some place else.

you're going to wind up with the biggest traffic jam in the history of the universe. Uneconomic farmers trying to move to town won't be able to get there for uneconomic town people trying to get to the country. A good portion of the population would have to live in trailer houses, so they'd be all set to move on every time the first of the month bills came in.

Nope, this big magazine will have to try again. It hasn't solved the farm problem yet, but ought to keep trying, and all I hope is that in the interest of entertainment nobody lets em on the secret there is no solution to it.

Yours faithfully,
J. A.

Weekly Health LETTER

Issued by Henry A. Hobbins, M. D., State Health Officer of Texas

AUSTIN—Last month an Austin State Hospital physician called the State Health Department to report that a radium needle, being used to treat a patient with skin cancer, had been dislodged or lost.

Did the Department have radi-

ation detection equipment with which the needle might be located? The Department did, and the needle was subsequently found in a gauze bandage.

This incident, one of many that take place every month, illustrates the manner in which the Department's Division of Occupational Health working in cooperation with private physicians and other agencies, is quietly going about the task of protecting citizens from the dangers of excessive radiation exposures.

A great deal has been said in recent months about the imminent peril the entire nation is facing from excessive radiation. Much of that information has been true in general, but some of it has been misconstrued to the point where people have cancelled much-needed x-ray treatments or examinations because of unjustified fear of radiation exposure.

One of the state's leading radiologists writing in the Texas Medical Association Journal, has summed up the situation by saying that curtailment of radiologic examinations would cause a failure in diagnosis that would result in many times the number of deaths than would theoretically occur from radiation accumulation in the population 20 generations from now.

There is no question but what the various source of radiant energy now in use - isotope usage in industry and medical research and the so-called "fall-out" from nuclear weapons testing - are potentially dangerous.

But the very fact that danger exists serves as a sort of safety valve. Persons engaged in peace-

time use of radiation equipment and materials, acutely aware of the hazards, act with extreme caution.

Competent physicians and dentists keep accurate records of their patients' radiation exposure level. Wealthy foundations have been set up to train technicians in the safe use of radiation devices. And federal and state governments — along with medical, dental, and engineering schools — have made considerable investments of money to insure the proper control of radiant energy equipment.

And as a sort of clincher, the Texas State Department of Health is one of five states which has complete regulations regarding the registration and proper use of all radiation-producing equipment and materials.

So while it is true that ever-increasing uses of radiant energy in national defense, medicine, and industry does demand that we exercise every precaution, that caution must be tempered with common sense. Radiation in controlled amounts can be more beneficial than hazardous.

Travel Map Of Texas Released By Highway Dept.

The official highway travel map of Texas completely redrawn to include 450 towns not shown in previous years, has just been released by the Texas Highway Department, D. C. Greer, State Highway Engineer, announced today. These maps are being dispatched as rapidly as possible to fill a backlog of thousands of requests, and new requests are pouring in daily, Greer said.

Each inch, the map - which is possibly one of the most widely known travelogues of the state - gives more travel guidance about the largest state in the Union than any comparable printed matter of such handy size. A new cartographic system employed to produce the 1957 map made possible the addition of thirty per cent more information. Multi-lane highways, farm-to-market highways and state and federal highways are indicated. Key altitudes also are noted, and roadside parks as well as state parks are indicated. The new map contains more detailed information than its predecessors.

All streams and public lakes of major size are shown, and cities with a population of fifty thousand or more are mapped as a city inset. Color photographs on the back side of the map picture Texas' recreational, industrial and landscape attractions. A running account of Texas history and the state's natural resources, climate, size, recreational facilities and industries are included in the backside information.

Greer estimated that approximately one-half of the map requests each year come from prospective out-of-state tourists. "Maps are available free," the State Highway Engineer commented, "and they may be secured either by writing direct to the Texas Highway Department, Austin, or to any of the Department's district offices or to the Travel Information Bureaus maintained by the state."

LOCALS

Junior Guinn is spending this week with his grandmother, Mrs. C. M. Warren, in Fort Worth.

Mr. and Mrs. Jesse Johnston had all their children home over the week end. Present were Mr. and Mrs. Victor Bitz and daughter of Wichita Falls, Norval Johnston of Lubbock, Mr. and Mrs. Melburn Johnston and children of Clovis, N. M., Mrs. Don Lewis and daughter of KallsPELL, Montana, and Mr. and Mrs. Wilbur Tabor and daughter of Idaho Falls, Idaho. The Tabor's have been visiting the past two weeks and left for their home Tuesday morning. Mrs. Lewis and daughter will remain for several weeks visit.

Mr. and Mrs. H. P. Hill left Wednesday for several days visit with their daughter, Mrs. Earl Nichols, and family in Littlefield and with their granddaughter in New Mexico.

Oil Activities

Union Oil Co. of California reported a daily potential of 83.16 barrels of 35.4 gravity oil for No. 278 Mrs. W. P. Farrington in the Voss (Tannehill) Field two miles north of Munday. Flow was from pay perforated at 1938-52 feet with total depth at 1990.

Also in the Voss (Tannehill) Field, Cities Service Oil Co. has finished No. C-3 Thompson, one mile west of Munday. During a 24-hour test, the well flowed 81.87 barrels of 34.6 gravity oil from perforations at 1948-64 feet. Hole was plugged back from 2000 to 1970 feet.

Two wells completed in the Goree, South (Tannehill) Field by Tom B. Medders are No. 2 J. L. Cloud, which pumped 86.23 barrels of 35 gravity oil per day from pay perforated at 1602-07 feet, and No. A-1 John W. Good, which had a daily pumping potential of 42.97 barrels from perforations at 1608-10 feet.

Two new wildcat locations in the county are: Fain and McGaha No. 2 Sybilla Andres et al, five miles north of Munday, to 2200 feet, and McMahon-Bullington Drilling Co. No. 1 D. C. Haslin, 7 miles northeast of Goree, to 2500 feet.

TO DRUM MAJOR SCHOOL

Mr. and Mrs. Wilkie Guinn took their twin daughters, Linda and Wanda, to Fort Worth last Sunday where they enrolled in drum major school at T. C. U. The twins were elected as drum majors for the Munday Mogul Band.

Tuesday guests in the home of Mr. and Mrs. L. W. Hobert were her brother and wife, Mr. and Mrs. Fred Warren of Lubbock and Mr. and Mrs. Clyde Warren of Seymour. They also visited Mr. and Mrs. S. J. Warren.

Watermelon growers are warned by Extension Plant Pathologist Harlan Smith to be on the alert for anthracnose. Weather conditions are right for the development of the disease and one serious outbreak has already been reported. If the disease is found, Smith recommends starting control measures at once. He suggests that the local county agent be contacted for details on a control program.

According to Senator Byrd of Virginia "There is not a department of this government that can't be cut by 5 to 10 per cent and still function in an effective way . . . except for those items that are fixed by their cost."
