

## Kracker Krumb

Odd Bits Salvaged  
By The Editor

We understand there were some poor golf scores in the club tourney last Saturday afternoon. A number of people were out on the course, golfers and spectators, when those twisters started playing around in the clouds. Jittery golfers said it was a difficult matter to keep the eye on the ball and on the twisters, too.

Some three or four of the destructive fellows were sighted from the golf course, as well as in town, and for some players the golf game was over. Only one twister touched the ground south of Munday, but the one that commands attention and demands distance struck in an open field and no damage was reported.

We used to think that Oklahoma was the tornado-breeding state, but we believe Texas is taking the honor this season. Seems we can have dryer drouths, more rains, more floods, and more twisters than any state in the union. Anyway, some local people saw their first tornado Saturday, and were glad to be at a safe distance while watching it.

Fifty-five years in one town might seem long enough for a fellow to get pretty well rooted down, but it isn't always the case. Buel Bowden, who came here in December, 1901, and his family are making plans to move this summer. They are going to Andrews, where Mrs. Bowden has accepted a position in the math department of the Andrews schools. Bet Munday will still be "home" to them for quite a while after they're gone.

Remember the old cedar pencil that used to write so well. We would be issued one when starting to school with the admonition to take care of it. A nickle pencil was a rare item with us. And it's getting rare again. "There ain't no more nickle pencils," a salesman told us recently. Sure enough, the old Mirado we've been selling for a nickle now costs us 55 cents a dozen, plus postage.

Noticed where the Mayflower II is still sailing the high seas, making about 6 knots a hour. It's a replica of the original Mayflower that set sail way back yonder with a purpose. We don't know about this one!

Other residents of long standing took leave of our town during the week end. The Winston Blacklocks have moved to Longview, where Winston has taken a "higher up" position with Southwestern Life. They'll be missed in our town's business, civic, school and church activities.

Our guess is that when the Little Leaguers get into the full swing of the baseball season, we'll be glad such a league was sponsored and organized in Munday. Other towns having the league report that those future Babe Ruths in action draw large crowds, and their game is by no means a sloppy one. If you're at all interested in the formation of a Little League here, be at the meeting next Monday night at the school auditorium.

"It's the most beautiful morning I've ever seen," one farmer remarked Wednesday as he came into town with the sun shining brightly. It was a welcome sight to those who have wheat and oats to cut, cabbage to cut, taters to dig, and cotton, feed, cantaloupes, etc., to plant. By nine o'clock, however, the drifting clouds again began blotting out the sun.

Still we have some fellows' sure-fire sign it's going to clear up: "The guineas are hollering and the roosters are crowing!"

## MUNDAY MAN GRADUATES IN AUTOMOTIVE REPAIR

Pvt. Bennie R. Brazell, 19, son of Oma V. Brazell of Munday, was graduated May 24 from the 16-week automotive repair course at the army's ordnance school, Aberdeen Proving Ground, Md.

Brazell arrived at the proving ground from an assignment at Fort Chaffee, Ark. He entered the army last September and completed basic training at Fort Bliss.

## Farmers Receive \$402,195 In Loans From F. H. A. For Farm Operations

More than \$402,195.00 has been loaned to farmers in Baylor, Knox and Throckmorton counties during the ten months ended April 30, 1957, by Farmers Home Administration, the agency's county supervisor, Wilburn A. Shatterwhite, announced this week.

The heaviest demand has been for credit to finance farming equipment, refinance, operating expenditures, land purchase, and soil and water development.

## Eastern Star To Hold Installation

Mrs. R. M. Almanrode will be installed as worthy matron of Munday Chapter, Order of Eastern Star, in installation ceremonies at 8 p.m. Thursday, June 6, at the Masonic Hall.

Installing officer will be Mrs. Ruby Enloe of Bryan, grand associate matron, Grand Chapter of Texas. Assisting her will be E. T. Goss, marshal, and Mrs. Earmae Bartlett, organist, both of Seymour; Mrs. Annie Mae Davis of Haskell, chaplain, and Mrs. Sue Bowden, secretary of the Munday chapter.

A reception honoring the installing officers will be held from 7 to 8 p.m., and the public is cordially invited to both the reception and open installation.

## Meeting Called For Monday Night To Organize Little League Baseball Club

Interest in the formation of a Little League Baseball Club for Munday, which has been growing in the past few weeks, has culminated in the calling of an organization meeting next Monday night. The meeting will be held at 8 p.m. in the school auditorium.

All parents of prospective players and all boys 12 years of age and under who are interested in playing in the league are urged to attend this meeting. Little Leaguers will be boys 8 to 12 years of age, but it is planned to also form teams of "Yannigans," which will be boys under 8 years of age.

Interest in the league was started in the Munday Lions Club several weeks ago, and the following committee has been working on league prospects: J. C. Harpham, Joe Canafax, Gene Thompson,

F. A. Robinette, Jr. will replace J. A. McCrum, Jr., as district manager for General Telephone Company of the Southwest, effective June 1, according to Mills Roberts, division manager at Memphis. McCrum will become manager for the Company's Westlaco District.

Robinette, who is now serving as plant supervisor in Dickinson, has been associated with General of the Southwest and its predecessor company since 1929 when he was first employed as a lineman and stationed at Lubbock. He also served as construction supervisor at Lubbock and as district manager in Guyton and Robstown before serving as district manager in Seymour from 1945 until 1954. He has been located in Dickinson since 1954.

Twenty exchanges are included in the Seymour district, some of the larger ones being Seymour, Haskell, Olney, Aspermont, Crowell, Knox City, Munday, Newcastle, Rochester, Rule, and Throckmorton.

He is a member of the Lions Club in Dickinson and is married and has one son.

to some 18,500 Texas farmers and ranchers for a total of \$54,773,000, the agency's State Director, Walter T. McKay, reported. This is an increase over the same period for last year of about \$6,500,000. This increase is due primarily to the demand from family type farmers for credit needed to place their farming operations on an efficient basis," McKay explained. "In fact," he added, "agency records reveal that there has been a slight decline in the demand for emergency credit so far this year. Long-term credit, to develop balanced systems and make full use of resources available, has been extended to a number of operators of family-type farms who previously obtained emergency loan assistance."

McKay and members of his staff are meeting this week with National Administrator Kermit Hansen to go over agency operations for next year. This meeting is preparatory to training meetings to be held for county office staffs throughout the State. The objective of these meetings will be to insure that maximum service is rendered to Texas farmers and ranchers promptly and efficiently.

## HAS OPERATION

H. J. Michels was taken to the General Hospital in Wichita Falls last Friday, and submitted to surgery on Monday morning. He is reported to be doing nicely.

Doris Dickerson and Vern Frost. This committee recently selected temporary officers for the league. These are: Dr. Delmon E. Alexander, president; J. C. Harpham, vice president; J. W. Weldon Smith, secretary; Paul Pendleton, treasurer, and Joe Canafax, manager of the player pool. These officers must be approved at the general meeting in order to become permanent officers.

It is hoped to organize four complete teams, composed of from 48 to 60 players, with workouts starting soon after the organization meeting. An application for a Little League charter was made last week.

This would furnish wholesome activities for boys during the summer months, and all those interested — parents, players and boosters — are urged to attend Monday night's meeting.

## Lemley Graduates In Repair School

FORT MONMOUTH, N. J.—Pvt. Jerry A. Lemley son of Mr. and Mrs. Bill Lemley of Munday was graduated here May 1957 from the Carrier Equipment Repair (Field) course in the Wire Division of The Signal School.

The 19-year-old Signalman was graduated from Munday High School. He entered the service in October 1956.

Graduates of the Wire Division of The Signal School are capable of installing, maintaining and repairing telephone and teletype-writer systems and associated equipment under combat conditions.

This 25-week course is one of the more highly specialized phases of Signal Corps training.

Pvt. Lemley will be reassigned to utilize his training with the Army Field Forces.

## Weather Report

For seven days ending 7 p. m. June 4, 1957 as compiled by H. P. Hill, U. S. Weather Observer.

1957		19.10 in.
Precipitation to date,		
1956		4.20 in.

TO TEXAS TECH—Coach DeWitt Weaver of Texas Tech has announced the signing of all-state quarterback Glenn (Amo) Emerson of Munday to play with the Red Raiders next season.

Amerson, 6-1, 181, made the Fort Worth Star-Telegram's all-state first team last year and was twice all-district and all-Ablene area. In basketball he made all-district three years, being selected for the all-state team in 1956. As a track man, Amerson last year was second high in jump and the 400-yard ran on the winning mile relay team at the regional meet.

## Relative of Local People Suffer Loss In Oklahoma Tornado

Mrs. Tom Phillips received word that her daughter and husband, Mr. and Mrs. Ross Johnson, who live between Walters and Lawton, Okla., lost everything they had in a tornado which struck their home last week.

They escaped to the cellar before the twister struck. The cellar door was torn off, their home demolished, and their car blown away. All they had left was an old tractor.

Mr. Johnson is a brother of Mrs. Elmer Dickerson and Mrs. Clay F. Grove.

## Wheat Growers To Decide Marketing Method For 1958 Crop In Vote June 20

Wheat farmers will decide whether they want to use marketing quotas for their 1957 wheat crop when they vote in the referendum on June 20, 1957. H. H. Partridge, Chairman of the Knox County Agricultural Stabilization and Conservation Committee, said today.

Recent proclamation of marketing quotas for the 1958 crop of wheat conforms with legislative directives, the Chairman explained. Under the governing legislation, the Secretary of Agriculture must proclaim marketing quotas for the next wheat crop when the available supply is 20 per cent or more above normal. The estimated supply of 1,825 million bushels available for the 1957-58 marketing year is actually 56 per cent above the normal supply of 1,170 million bushels, thus requiring a marketing quota proclamation for the 1958 wheat crop. (The normal supply is based on estimate domestic consumption and exports, plus a 20-percent carryover allowance). The quotas do not become effective, however, unless at least two-thirds of the producers voting in the referendum favor the use of the quota. The outcome of the referendum will decide the level of the available price support for the 1957 crop, as well as whether quotas and penalties on "excess" wheat are used for the crop.

## Rain Competes With Bible School At Gillespie Church

On preparation day, 62 were present for the Gillespie Vacation Bible School. On that day they flew kites and ran races and had a picnic spread for all Friday, May 31, was the first day of the school and most of the enrolled were present. Rain on Monday cut attendance and there was discussion of postponement but on Tuesday 61 showed up for V. B. S. so it goes on, rain or shine.

The junior group are making planters out of plaster, tape and cans. The beginners are making rock gardens out of coal and chemicals. An enthusiastic spirit prevails.

The fathers meet on the ball diamond for ball games with the members and games are played between the showers.

## Seymour Host To Area Bankers

Around 175 bankers and bank employees gathered in Seymour last Thursday for the annual meeting of the Seven-County Bankers Association.

E. A. Syptak, cashier of the First National Bank of Seymour, was chairman, and Lynn Holman, assistant cashier of the Farmers National Bank of Seymour, served as secretary of the group.

Principal speaker of the day was Dr. Arthur A. Smith, economist and vice president of the First National Bank of Dallas.

At noon the two Seymour banks served as hosts to the convention with a fish fry at Lake Kemp.

The association is composed of bankers from Baylor, Haskell, Jones, Knox, Shackelford, Throckmorton and Young counties. John W. Bray, Jr., assistant vice president of the First National Bank of Albany, was elected president for another year, and Bill E. Read, cashier of the Moran National Bank was named president. The group voted to hold their 1958 convention in Shackelford County.

## Masons Name New Officers

New officers for Knox Lodge No. 851, AF&AM, were elected last Monday night at the regular meeting of the lodge. They are as follows:

Aaron Edgar, worshipful master; Gene Brown, senior warden; Ralph Cyert, junior warden; Fletcher Gates, treasurer; M. T. Chamberlain, re-elected secretary; J. W. Massey, re-elected chaplain, and Pete Vinson, tiller.

Appointive officers are: Terry Harrison, senior deacon; Jack Clowdis, junior deacon; Dorsey Collins, senior steward, and Buster Pape, junior steward.

New officers will be installed at the regular meeting Monday, July 1.

A called meeting of the lodge was set for 7:30 Friday for the purpose of conferring the master's degree. All Masons are urged to attend this meeting.

## 2 Twisters Sighted Near Here Saturday

The weather "cut capers" here Saturday afternoon, giving people of this area a good view of how twisters cut up in the clouds. For many, it was their first view of a tornado in its travel.

Some three or four funnels were sighted south of Munday between 3 and 3:30 p.m., with the larger of the group hitting the ground on the H. D. Henson

EDITOR TO SPEAK—Herbert Brucker, editor of the Hartford (Conn.) Courant, oldest newspaper of continuous publication in America, will be principal speaker at the Texas State Bar's annual meeting, July 4-6, in Fort Worth.

He will speak on "The Free Trial Versus The Free Press" at the annual banquet at Fort Worth's Riddle Country Club at 8 p.m. July 5.

## Rally Day Slated At Lueders Camp

Dr. E. S. James, editor of the Baptist Standard, and Dr. Lindell Harris of Hardin-Simmons University, will be speakers for the annual Rally Day of Lueders Baptist Encampment on Monday, June 17.

Activities will open at 9:30 a.m. and continue through the afternoon. Lunch and supper will be served at the cafeteria.

Official opening of the new swimming pool has been set for 2 p.m. The pool is one of the major undertakings of the past few years and largest building project in many years.

Rev. Byron Bryant, pastor of the First Baptist Church at Breckenridge, president of Lueders Baptist Encampment, will preside.

## BOY ADOPTED BY THE CLAUDE ROGERS

We don't know what color his hair is nor do we know the color of his eyes, but we do know he is a boy and that he weighed 7 pounds and 4 ounces and that he made his arrival Friday, May 24, and we do know that he started making his home with Mr. and Mrs. Claude Rogers, Jr. in Lubbock on Tuesday. Mr. and Mrs. Rogers have named their little bundle from heaven Randall Brian and they are ever so happy over having him come live with them.

## REYNOLDS GRADUATES WITH HIGH HONORS

DENTON—Donald Eugene Reynolds of Munday was one of eight students to graduate with high honors in commencement exercises at North Texas State College Sunday night.

Bachelor's degrees were awarded to 526 seniors, the largest number in the history of the college. In addition, 46 received master's degrees and two the doctor of education degree.

Reynolds, the son of Mr. and Mrs. W. E. Reynolds of Munday, received the bachelor of arts degree in history.

Mrs. Stephen Harrison and children of Montgomery, Ala., are spending the summer months with her parents in Haskell and with Mr. and Mrs. Terry Harrison.

Drive carefully. The life you save may be your own.

farm, about 2½ miles south of town.

Mr. Henson and his wife and son, who watched the funnel dip into an open field about a half-mile away, reported that it stayed on the ground "about two or three minutes" before receding into the cloud.

The smaller funnels accompanying the big one acted like yo-yos, it was reported, dipping down, then receding again, but never touched the ground before they disintegrated.

The funnels were watched by a number of people in town, by golfers at the golf course, while others in town didn't know of the activity until it was over. Only a light shower of rain fell here.

## Rev. J. F. Michael Is Returned To Local Church

Methodist and local townspeople were happy to learn Saturday that Rev. and Mrs. J. F. Michael were returned to the Munday Methodist Church for another year. Appointment was made at the annual session of Northwest Texas Conference which was held in Amarillo.

The session opened on Tuesday night and closed on Friday night, a departure of a long custom when the Conference opened later and continued through Sunday. A number of changes were made over the Conference and the Stamford District.

Rev. Walter Hadley, pastor at Goree, went to Happy; Rev. Rollo Davidson of Seymour, to Childress. Rev. Luther Kirk, a former Munday pastor, continues as superintendent of the Plainview district, and Rev. Don Davidson was moved from Levelland to Andrews. Rev. Doyle Ragle was returned to Canyon.

Rev. Michael has just completed his first year at Munday, and started on his second year last Sunday. His congregation is pleased to have "the jolly Irishman" and his wife returned to Munday.

Appointments for the Stamford district, which includes Munday, are as follows:

District superintendent, Marshall Rhow, Albany; W. V. O'Kelly, Aspermont; Rex L. Mauldin, Avoca; Henry Sally, Elbert; Charles Sargent, Goree; Robert D. Harris, Hamlin; Faith, H. C. Adair and First Church, Edmund W. Robb; Haskell-Paint Creek, Oscar Bruce; Jayton, Carl Hudson; Knox City, Walter L. Driver; Longworth, William Davis; Lueders, Luther Walker; McCaulley, David Stephens; Moran, S. A. Wolfe; Munday, J. F. Michael; O'Brien-Benjamin, A. T. Mason; Roby, E. R. McGregor; Rochester, Davis B. Edens; Rotan, J. Alvis Cooley; Rule, Robert W. Brown; Sagerton-Tuxedo, Vernon Mayfield; Seymour, Clarence Stephenson; Stamford-St. John, W. A. Appling; Sylvester, Joe Yohe; Throckmorton, Oran D. Smith; Vera, Gene Louder; Weinert, J. P. Cole; Westover; Phillip Widmer, and Woodson, Kenneth Halgrove.

Forthcoming summer camps for Baptist groups of the district will be described.

## 260 Enrolled In Band School

Two hundred and sixty were enrolled in the summer band school, which has been in progress here for the past two weeks. The school will be climaxed by a band show, which will include every member of the school, on Friday night, June 7, at 7:30 o'clock at the school gym.

Courses offered in the school are: Advanced, intermediate and beginner band, stage band, advanced, intermediate, beginner and tiny tot twirling, fundamental marching classes and individual instruction.

During their free periods, the students had access to many recreational facilities, such as ping pong, horse shoes, baseball and volleyball.

The program Friday night will consist of: Twirling, ensemble and solo, a variety of music presented by the various bands, specialty acts which will include

### THEY'D LOSE THEIR JOBS

"The most effective way to hurt millions of retail workers — and everyone else too — would be to scrap the provision of the Fair Labor Standards Act which specifically excludes them from its coverage." Thus writes Godfrey M. Lebar, editor of Chain Store Age. He goes on to explain what would in all probability result if the retail exemption were eliminated from the Act, which is commonly referred to as the federal wage-hour law.

First of all, it would hit at the people it is supposed to help — those at the bottom of the wage totem pole. Here's why: "Not all store help is indispensable. Included are those who earn less than \$1 per hour in localities and under conditions where their pay meets their needs and is all merchants can afford to pay for such work as they do. Requiring merchants to pay at least \$1 per hour to all employees would hurt many irreparably. They would lose their jobs!"

Second, all other workers would be hurt too, because of the spur to inflation that extension of the law would bring about. Mr. Lebar cites past experience, when the minimum wage has been increased and further shrinkage of the dollar's value has followed. To quote him again: "And who can doubt that the dollar will continue to shrink at an accelerated pace if Congress is so ill-advised as to make far-reaching changes in FLSA at a time when checking further inflation should be our prime national concern?"

All retailing is a local enterprise, governed by local competitive conditions and other local factors. If wage-hour legislation is needed, it is a proper function for the states.

### A LESSON FROM THE ROBINS

During a hot day in May two robins were fighting at a bird bath, thus preventing each from bathing. Then something happened. They quit fighting and bathed side-by-side.

Free men living in a union of friendly states have learned that more is gained by working together, but in many parts of the world men are still fighting.

In two minutes the robins discovered fighting is futile — men take longer to learn.

"Tight" money affects the government as well as businesses and individuals. According to U. S. News & World Report, a new Treasury note pays 3-5/8 per cent interest — the highest rate since 1933.

**PUBLIC DEBT IS NOT LIKE PRIVATE DEBT**  
 Most of us know that the federal debt is about \$275 billion. But few have any concept of what that means — it's just a figure, almost beyond human comprehension.

Senator Byrd, writing in the National Review, gives a vivid picture of the debt. That \$275 billion, he says, "is the equivalent of the assessed value of all the land, buildings, mines, machinery, factories, livestock — everything of tangible value in the United States."

Then he goes on to say something that must be far better understood than it is now if this country, as we know it, is to survive: "Public debt is not like private debt. If private debt is not paid off, it can be ended by bankruptcy proceedings, and maybe not many people are hurt. If public debt is not paid off — paid off with taxes — the result is disastrous inflation or repudiation. Either would destroy our form of government."

The proposed new budget is the largest in our peacetime history. According to the estimates, there will be a small surplus if this budget is approved. But is evident that even a very moderate decline in the business boom, with the effect that would have on tax revenues, would eliminate such a surplus and put a deficit in its place.

Senator Byrd believes the budget can be cut by more than \$6 billion without harm to an essential federal function. If we cannot do that now, with the economy running at peak speed, when can we?

### CONTROL GOES WITH MONEY

The plan for having the federal government provide \$2 billion in federal aid to the nation's schools over a four-year period drew this comment from Senator Knowland: "My practical knowledge of Washington leads me to the conclusion that nothing terminates in four years. And I have never seen the Federal Government contribute money without wanting to exercise control."

National Review says: "Sales were up in the first quarter of 1957, but profit margins lower as stiff competition kept prices down while manufacturing and distribution costs rose with almost automatic wage increases."

A group of Boston businessmen staged a realistic re-enactment of the Boston Tea Party, in protest against high taxes and government spending. Tea chests labeled "waste," "big budget" and so on were thrown into the harbor.

## People, Spots In The News

**TILT-WING** plane that can take off and land vertically by tilting wings and motors was unveiled by U.S. Army. With wings and motors horizontal it'll fly like conventional plane.

**TIGHT-lipped**, indeed, was witness Joseph McHugh, appearing before Senate rackets committee probing labor activities.

**GOLD CROWN** in hands of Eileen Wardlow of Sheaffer Pen company isn't for a May queen. It's a crown-shaped rack loaded with 14-karat gold pen points ready for plating with palladium, a precious metal that adds hardness and wear-resistance to point.

**NEW MATE** of Rajah, circus lion, is Madras (right). She joined him in cage at Madison Square Garden one day after he'd clawed to death his previous mate, Ila, as 15,000 watched.

 By John C. White, Commissioner

### SESAME IN TEXAS

About five years ago, an ancient plant never before grown commercially in this country was introduced to farmers in the cotton producing areas in Texas.

It was Sesame, a plant that grows under conditions favorable to cotton. It produces tiny seeds from which vital oils are extracted.

At the time, Sesame was hailed as a new cash crop for those areas where cotton production was curbed by allotments. But a big obstacle to profitable production was the Sesame plant's tendency to shatter its seeds.

The Texas Research Foundation at Renner was primarily responsible for development of the crop in Texas. And after much research, the Foundation has been able to produce a "nonshattering" variety.

This new variety produced a amazingly high yields, particularly where irrigation is applied.

On the High Plains, Sesame has been termed the No. 2 money-maker for irrigation farmers, who last year averaged \$121 per acre in gross returns — second only to cotton.

The Texas Sesame Seed Growers announced that the 1956 Sesame crop totalled 3,300,000 pounds. The crop was sold for \$341,880. TSSG is a production and marketing organization composed of farmers. It handles the bulk of the U. S. Sesame crop.

Sesame production runs as high as 1,200 pounds per acre. Last year's crop sold for \$10.34 per hundred pounds.

Sesame seed is used in a variety of ways. But its chief market advantage is that the oil becomes rancid much more slowly than most oils and therefore is used in the food industries.

The five-year-old crop continues

## MODERN HOMEMAKING

Recipes . . . Household Helps

By Julia Hunter

HOME ECONOMICS DIRECTOR, LONE STAR GAS CO.

For convenience in preparing salads and desserts, keep canned freestone peaches on the pantry shelf. Sliced or in halves, this plump golden fruit lends itself to the simplest of recipes as well as to the more complicated ones. Make a colorful salad of drained, canned sliced peaches and sliced avocado. Drain the peach

slices well, then dip them in lemon juice. Alternate peach slices and avocado slices of the same size on a bed of salad greens or in a lettuce cup. Serve with a topping of any fruit salad dressing; poppy seed dressing is good. Such a salad may accompany a meat and vegetable course, or it may well be the center of

attraction on a fruit plate for a ladies' luncheon.

To complete the plate, add drained canned pineapple spears, sprinkled with minced mint leaves whole unstemmed strawberries and cottage cheese balls rolled in chopped nuts. Pass hot rolls or assorted crackers and finish off with sherbet and tiny cake squares for dessert. Easy to prepare, easy to serve, as pretty as a picture and as good as it looks, this makes a highly successful party meal.

Canned peach halves, well drained, placed cut side up in a serving dish and centered with a ball of chocolate ice cream sprinkled with flaked coconut make a praise-worthy dessert. If freezer space permits, scoop up the ice cream balls in advance, roll them in flaked coconut, place them on a sheet of aluminum foil and store them in the freezer. At serving time, pop ice cream balls into peach halves and dessert is ready. If the ice cream balls are stored in the freezer for a number of hours, cover them with foil or other freezer wrapping so crystals will not form on the surface.

Cut well-drained canned peach

halves in half-inch pieces and fold them into sweetened whipped cream with chopped toasted almonds and semi-sweet chocolate pieces. Fill cream puffs with the mixture or use it to top cakes of angel food or pound cake.

### Recipe Of The Week PEACH MERINGUE FANCY:

Combine and beat until foamy, three egg whites, one-half teaspoon cream of tartar, one-half teaspoon vanilla and a dash of salt. Add one cup sugar very gradually, beating constantly and until egg whites are stiff and stand in peaks. Fold in one-half cup fine saltine cracker crumbs, one-eighth teaspoon cinnamon and one-half cup chopped pecans. Spread the mixture in a greased and floured 9-inch pie pan making the sides one-inch thick and bringing them just to the rim of the pan. Bake in low gas oven (300 degrees F.) 40 minutes. Remove from oven and cool. Whip one-half cup whipping cream. Spread whipped cream evenly over cooled meringue shell. Chill several hours or overnight in gas refrigerator. Just before serving, fill shell with drained canned peaches cut in half-inch pieces. Top with whipped cream,

if desired. With sharp knife, cut into wedges and serve. Makes eight servings.

## News From The U. S. Congress

The designation of Robert B. Anderson of Vernon as Secretary of Treasury brings back into public service a popular and extremely competent Texan. This appointment has been very well received in Washington. Bob Anderson, who formerly served as Secretary of Navy and Deputy Secretary of Defense, convinced everybody here of his outstanding ability. He will be taking over the Treasury Department at an extremely difficult time; however, there is no doubt but what he will do an outstanding job.

The Congress continues to make substantial reductions in the President's Budget. This week the Defense appropriations were reduced some Two and One-Half Billion Dollars below the Presidential request. Despite all that has been said to the contrary, these cuts were made without effecting our overall defense program or diminishing our armed strength. There can be little question but what further reductions must be made in the expenditures proposed by the Administration so that it may be possible to have some general tax reduction. Tax rates are at such staggering levels that they are working an undue hardship on individuals preventing the growth and development of many businesses. The people cannot be expected to bear this tax burden indefinitely, and it is high time that Congress take action to bring some relief. This relief in the tax rates can only come by effectively reducing our Government expenditures. This necessarily will mean that many programs which some people believe necessary must either

be postponed indefinitely or substantially curtailed. The present determined drive on the part of Congress to hold the line on expenditures should be continued.

The chances of enacting legislation that would free producers of natural gas from Federal control which is so important to every person associated with the oil and gas industry whether they be producer, land owner, or employee, continue to grow dimmer and dimmer. Much of the confusion that exists concerning this legislation has been brought about by the failure of the Administration to make its position clear on this matter.

Visitors from home this week

were Mr. Charles Barry, Mr. Herbert Story, Mr. N. A. Moore, Mr. Gene Pullum, all of Wichita Falls.

Shower  
the bride  
with

*Lifetime  
Gifts*

Give her gifts of steel

When a special friend or relative is taking that important step from Miss to Mrs., show her your delight. Give her gifts of steel. For steel gifts are stylish gifts that last a lifetime.

When you buy them for a shower or wedding, you're giving the bride much more than just an expression of your affection. You're giving gifts that will endure as long as she needs them.

Showering the bride with gifts of steel means choosing from countless items made to give stylish service—from coffee makers to canisters, folding chairs to flatware, trays to toasters, clocks to cutlery. No matter what you choose to give, she'll appreciate your good taste and thoughtfulness.

And any bride would glow with pleasure to see the lustrous quality shining through every gift of steel. And she can be assured these good-looking items will go to work in a thousand ways to prove their lasting value. For only steel can do so many jobs so well.

So when you shower the bride, make it a Steel Shower. And when you shop for the bridal gifts, make an investment that is fashionable and practical. Look for the store displaying the Steel Shower symbol—and get the gifts that will last a lifetime.

This symbol identifies the store that's a Bridal Center, where you can get a variety of gifts styled in steel . . . to last a lifetime.

## Moral Code In Traffic Is Just As Essential As In Home Or In Church

The driver who professes his religion in church, but doesn't practice it in traffic is a highway hypocrite.

This indictment of careless drivers was made today by J. O. Musick, General Manager of Texas Safety Association, as he discussed the moral responsibility of motorists. Highway morality is emphasized in the spring phase of the Back the Attack on Traffic Accidents campaign.

"Morality cannot be put on or taken off at will like an optional

accessory on a late model car," Musick said. "It's basic character equipment. The moral person is just as moral on the highway as he is in his office, his home, or his church.

Musick pointed out that the driver who cheats on traffic law observance or fails to safeguard his own or the other person's life in traffic is revealing poor character.

"If there is need for a moral code anywhere today, that need is in traffic," he said. "The

spectacle of 2611 traffic deaths in Texas during the past year is dramatic proof of this."

"The responsibility for his own safety and the safety of all he meets in traffic rests on the driver. This responsibility includes the obligation to do all in his power to prevent an accident even when danger is occasioned by the wanton carelessness of another," Musick said.

He urged all drivers to be a positive force in the Attack on Traffic Accidents by driving defensively — that is, driving in such a manner as to avoid accidents by anticipating and allowing for hazards created by the unsafe acts of others and by adverse traffic and weather conditions. "In doing so," he said, "they will be discharging their responsibility to God and their fellow man."

### HIGHWAY DEER SLAUGHTER GETS NEW NAME—DOR

AUSTIN—A new alphabetical name is supplied in the June issue of Texas Game and Fish, in an article by Theron D. Carroll, according to the Director of Information and Education of the Texas Game and Fish Commission.

The new name is DOR which means Death on Roadside. Last year, according to the article in the official publication of the Commission, there were 98 deer killed on the roadside in Kimble County. The records were kept by Warden Bob Evins of Junction.

Of the 98 deer killed, 67 or 74 per cent, were does, indicating a heavy sex ratio of does to bucks in Kimble County.

Financially, the damage to each car averaged in excess of \$200, with a total repair bill on 93 cars amounting to \$18,600. Five of the automobiles were not so badly damaged.

Wardens and sportsmen of the area are cooperating to reduce this DOR figure, according to the article.

A carefully planned and conducted mowing or chemical control program is the only efficient answer to the pasture weed problem. Extension Pasture Specialist E. M. Trew advises mowing when the worst weeds start blooming since they are most easily damaged at this stage and are prevented from producing a seed crop. Local county agents can supply details on mowing and chemical weed control programs.

## World Beauty a Credit to Her Name

THE new 46,000-ton Niarchos tanker, WORLD BEAUTY sails on her maiden voyage. Largest tanker ever built in the United States, she has been called "the handsomest ship since the days of sail." The keel of the record vessel was laid a year ago by Madeleine Carroll, famous actress and wartime sweetheart of the merchant marine, who also launched the ship in January. Capable of carrying 16,500,000 gallons—enough gasoline to drive to the sun and back twice, or 13,000 times around the world—the WORLD BEAUTY is first of a six-ship \$90,000,000 order placed in America by shipowner Stavros Niarchos.

### STAIN REMOVAL FROM "SPECIAL FINISH" FABRICS . . .

Special finishes now being used on many cottons, linens and rayons give wrinkle-resistance, extra sheen and body to these fabrics.

Problem now is, how to remove stains from fabrics that have these special finishes. Chlorine bleaches may be used on some, according to extension clothing specialists. Other finishes are damaged by such treatment because special resins in the finish absorb and retain chlorine.

Best rule to follow, according to the USDA Agricultural Research Service, is to look for directions regarding use of bleaches on the garment. If no information is given, avoid use of chlorine bleaches on fabrics with special finishes.

Some stains cannot be removed without bleaching. In such cases use sodium perborate of a powdered bleach that contains it. Soak washable colorfast fabrics for several hours, or overnight if needed, in a warm solution containing one to two tables of sodium perborate to a pint of water. Another method is to sprinkle spot, then dip in a pan of very hot water for a few minutes.

This reminder from the clothing specialists — Always check garments for stains before laundering, and remove. Otherwise hot water may set stains.

Mr. and Mrs. James Burk and sons of Davidson, Okla., visited her uncle and aunt, Mr. and Mrs. C. V. Williams, last Saturday.

M/Sgt. and Mrs. Doyle Baker and family of Savannah, Ga., visited his parents, Mr. and Mrs. J. Baker, and other relatives over the week end.

Mr. and Mrs. Welton Higginbotham and family of Fort Worth were week end guests of Mr. and Mrs. George Beaty.

Mrs. A. E. Bowley and Mrs. Joe Frank Bowley took little Joey Bowley to Wichita Falls Wednesday afternoon where he entered the General Hospital. He underwent eye surgery Thursday morning at 7:30.

Mrs. Muriel Mitchell and Mrs. Freddie Morrow visited relatives in Abilene over the week end.

Mr. and Mrs. Robert Gains of Dallas visited his parents, Mr. and Mrs. Jim Gains, over the week end.

## Slaton Girl Wins 1957 Scholarship

Beverly Ann Bland, Slaton High School senior, has been awarded the West Texas Press Association's 1957 scholarship.

Miss Bland was selected for the honor from a field of nine entrants representing high schools in cities and towns throughout West Texas.

Runner-up in the judging and named as alternate was Ruan Owen of Colorado City High School.

Boht the scholarship winner and the runner-up are among the top students in their respective schools, and both have been active in student affairs, particularly in the field of journalism.

Miss Bland edited the Slaton High School newspaper, "The Tiger's Cage," during her junior year, and has worked part-time for The Slatonite, the city's newspaper.

Miss Owen also has worked on her high school paper, serving as an editor.

Both plan to major in journalism in college.

The West Texas Press Association started its scholarship pro-

gram in 1956. A West Texas High School senior is selected each year by the WTPA scholarship committee. The scholarship pays the student \$100 per year for four years. The scholarship winner, in turn, must major in journalism, if the college attended offers such a major. Otherwise, the student must minor in journalism. The WTPA scholarship may be used at any of the following schools: Abilene Christian College, Howard Payne College, Hardin-Simmons University, McMurry College, Midwestern University, Sul Ross State College, Texas Technological College, Texas Western College, Wayland Baptist College and West Texas State College.

Other applications for the scholarship this year were received from Lubbock, Mineral Wells, Seminole, Morton, Meadow, Fredricksburg and Rankin.

Mrs. Red Thompson and son, of Kress visited her parents, Mr. and Mrs. Elmer Dickerson, and other relatives several days this week.

## Glenda Gail Guffey Weds Wendel Moore In Church Rites Here May 25th

Glenda Gail Guffey, daughter of Mr. and Mrs. R. A. Guffey, and Wendel Moore, son of Mr. and Mrs. Johnny Moore of Goree, exchanged wedding vows in the First Baptist Church here May 25.

W. D. Decker, minister of the church of Christ of Goree officiated at the double ring ceremony before an archway of greenery and white gladioli. Baskets of gladioli and candelabra burning white tapers completed the scene.

Mrs. Jerry Cobb of Knox City, soloist, sang "At Dawning," "Always" and "Because," accompanied by Mrs. Pauline Myers, Anita Tidwell played the organ.

The bride, given in marriage by her father, wore an original gown of white chantilly lace over slipper satin. The skirt, with side fullness, was waltz length. The fitted bodice featured a scooped neckline, and the waist line was accented with a pleated cummerbund of satin. Her nylon tulle veil fell from a fitted lace hat sprinkled with rhinestones. She carried a bouquet of white carnations atop a white Bible borrowed from Mar-

garet Yandell. Her jewelry was a pearl choker belonging to her grandmother.

Margaret Yandell was maid of honor and Mrs. Donnie Yandell and Mrs. James Amerson were bridesmaids. They were dressed in ice blue crystalene dresses styled similar to the bride's dress. They wore white short gloves and carried bouquets of pink gladioli. Their headdresses were of blue flowers.

Candlelighters were Diana and Donga Guffey, sisters of the bride, Connie Thompson, niece of the bride, was ring bearer.

Jack Stewart was best man and Jim Stewart and Don Mervier were ushers.

Reception was held in the home of the bride's parents. The table was covered with a lace cloth over blue, and centered with white candles and the attendants bouquets.

Punch and cake were served by Mrs. Don Collins and Mrs. Howard Thompson, sisters of the bride. Guests were registered by Juanita Welch.

The couple will live in Borger where Moore is employed with Phillips Chemical Plant.

## Gray Family Reunion Held At Cisco Park

Despite the rainy weather that prevented a large number from attending, the annual Gray family picnic and basket dinner was held Sunday, June 2, at Cisco Park. The following members made the trip, and an enjoyable time was had by all:

Mr. and Mrs. R. D. Gray, Mr. and Mrs. Howard Gray, Lynn Bobbie Carolyn, Mr. and Mrs. Melvin Gray and Debra Joe, Mr. and Mrs. A. H. Gray and grandchildren, Joe David, Jean and Julie, all of Munday; Mr. and Mrs. D. G. Gray, Hale Center; Mrs. Sallie Nutt, Selma, Calif.; Mr. and Mrs. D. R. Buochman, Mike and Tim, Lufkin; Mrs. A. O. Carr, Donald Lee and Joan Young, Mr. and Mrs. Frank Huffman, Mr. and Mrs. W. D. Huffman, Wayne, Janie and Nancy, all of Clifton;

Mrs. Murry Haseldere, Fort Worth; Mrs. Lillie Holland, Mr. and Mrs. Claud Cook, Shirley, Betty and Tommy, Dallas; Mrs. Myrtle Harmon, Mr. and Mrs. Burl Williams, Tommy and Linda, Mr. and Mrs. Bob Jones, Mr. and Mrs. Harold Cain, Mrs. Juanita Sewell, Morris Dean and Phillis, Mr. and Mrs. Jack Gray, Linda and Robbie, all of Big Spring;

Mr. and Mrs. Jack Henderson, Weldon Giles, and Press Henderson, all of Seymour; Mr. and Mrs. J. B. Gray and Dianne, Mr. V. S. Gray, all of Kaufman; Mr. and Mrs. Jim Davidson, Mr. and Mrs. David Stevens, and Mrs. Zona Swinford, all of Fort Worth.

## LOCALS

Mrs. A. L. Salsbery and Mr. and Mrs. Howard White of Lubbock spent a few days with relatives here last week.

Mrs. S. A. Bowden and Chester Bowden attended a homecoming near Rising Star over the week end.

Mrs. L. J. Hill and Mrs. J. D. Crockett visited relatives in Lubbock over the week end.

George Spann left last Monday for Lubbock to enter Texas Tech for the summer semester.

## Methodist Youth Enjoy Fishing At Lake Kemp

The M. Y. F. of the First Methodist Church went to Lake Kemp last Friday for a fishing and outing trip. The fact that no fish were caught did not prevent a lot of fun.

After supper, songs were sung, and a Vesper Service was directed by Mrs. J. H. Bardwell. Mr. Bardwell led the prayer service.

Those attending were Shirley Cammock, John Walter Massey, Melvin Cypert, Mickey Jackson, Jerry Bowden, Allen Eiland, Linda Kay Smith, Jerrilynn Kane, Barbara Kirshner, Nancy Cowan, Donna Kay Partridge, Joann Partridge, Pat Putnam, Martha Kay Elliott, Bobby Partridge, Janet Cammack, Patty Partridge and Mike Putnam.

Sponsors were Mrs. O. O. Putnam, Mrs. Geneva Cammack and Mr. and Mrs. Herbert Partridge.

## The Dorcas Class Meets May 30th With Mrs. Parker

The Dorcas Sunday School Class of the First Baptist Church met on Thursday, May 30, in the home of Mrs. C. R. Parker for a business and social meeting.

Mrs. Bertha Fincannon gave the devotional, and Mrs. Lena Owens led the opening prayer.

After the business meeting, a social hour was enjoyed, at which time secret pals were revealed. The meeting closed with Mrs. W. O. Mays leading the closing prayer.

The hostesses served delicious cake and cream to 18 members and two visitors, Mrs. Ann McClaran and Mrs. Lena Owens.

Mr. and Mrs. Howard L. Yandell and Barbara of Lubbock were week end guests of his parents, Mr. and Mrs. H. L. Yandell.

Johnny Alexander of San Angelo is visiting his brother, Dr. Delmon E. Alexander, and family this week.

Week end guests of Mr. and Mrs. Charlie Haynie, Sr. were their son, Don Haynie, and grandchildren, Neil and Mary Jo Richmond, of Lubbock.

Mr. and Mrs. Jerry Kane took Jerrilynn to Gonzales Warm Springs for a check-up the first of this week.

Olen Coats of Dallas was a Sunday guest in the home of Mr. and Mrs. E. H. Nelson. Mrs. Coats and son, who spent last week here, returned home with him.

Joe McGraw of Denver, Colo., brought his mother-in-law, Mrs. Cal Stevens, home last Thursday and remained for a week end visit. Mrs. Mary Poore and son, Wink, returned to Denver with him for a visit. Mrs. Stevens had been visiting the McGraws for several weeks.

Mr. and Mrs. M. L. Wiggins and Mrs. Etta Webb visited Mr. and Mrs. Tom Webb in Ballinger over the week end.

Miss Lutrelle Milstead of Hardin-Simmons University in Abilene spent the week end with her parents, Mr. and Mrs. O. V. Milstead.

Benny Ledbetter of Texas A&M came in last Monday to spend the summer months with his parents, Mr. and Mrs. Runt Ledbetter.

Noble Flenniken, who has been attending Texas A&M, is here to spend the summer with his parents, Mr. and Mrs. Elmo Flenniken.

Mr. and Mrs. Dorris Tuggle and sons of Brownfield visited their parents, Mr. and Mrs. Ben Tuggle and Mrs. T. H. Armstrong, over the week end. They and Mrs. Armstrong and children attended the Armstrong family reunion in Bowie on Sunday.

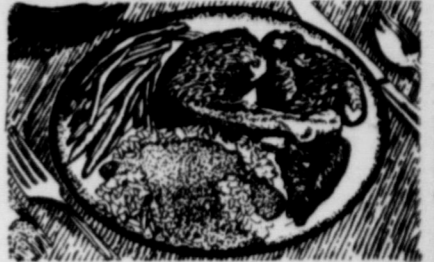

Robert Bowden of Texas A&M is here to spend the summer months with his parents, Mr. and Mrs. Buel Bowden.

Mr. and Mrs. H. A. Medford of Grand Prairie visited friends here over the week end.

Mrs. Della Parnell left last Friday for a visit with relatives in Abilene and Dublin.

## Get in the fine-car swim at the low Ford price!

America's favorite convertible is one of 21 Ford models for 1957

There's no need to pay a "fancy price" to enjoy fine-car luxury. Ford is lowest priced\* of the low-price three, yet offers values you'd expect only in cars costing far more!

To start with, you can easily pay twice the money, and not find lines that can hold a candle to Ford's for lowness, loveliness, or just plain good taste.

But step inside. That's when you'll find the real evidence of Ford's quality!

And, on the way in, note that Ford offers door checks that hold doors open in either of two positions—for easy entrance or exit. A little thing. But, in a fine car, why not? Then, inside, notice how comfortable those plush, foam-rubber seats are. They'll stay that way. And on long trips. For they're scientifically contoured over non-sag springs. Your rear-seat passengers are treated

extra kindly, too—with spring assists to help them open and close the doors—with the most leg room in Ford's field!

Fine cars are smooth—and that's another place Ford really shows its stuff!

Ford delivers its famous V-8 power smooth as a whisper. That's because only Ford takes the pains to electronically balance each engine while running under its own power. Not even the makers of the most expensive automobiles go this far to bring you super-smooth performance.

Ford rides fine-car smooth and quiet, too. You can thank the new "Inner Ford" for that. Ford, for instance, has

a swept-back front suspension that actually "rolls with the punch" of every road bump.

Ford's rear springs automatically adjust to give the right ride for every road. And Ford keeps things quiet, with the most sound insulation in its field.

Fine cars are built to stay solid. So's Ford!

Ford has the only frame in its field to make use of rugged tubular steel beams. No car at the price offers so many roof-strengthening beams. Expensive cars aren't built of thicker body steel or with sounder engineering skill. They, of course, in Ford you can have all the power assists and other conveniences found in fine cars. And they cost far less in Ford.\* Yes sir! In every feature, every part, Ford is the fine car at half the fine-car price. Come in and see!

Get in on the fun and savings now

**IT'S THE LAW**  
in Texas

**MAYFLOWER II**  
Recently the Mayflower II began to retrace the voyage its

namesake made 337 years ago from England to the New World. The other day it made news when it was reported almost becalmed in mid-Atlantic, having covered only thirty sea miles in 24 hours. Besides its 102 Pilgrims and 25 sailors, do you know one of the most precious things the original Mayflower carried to America? The idea of government by contract, by the consent of the governed, the basis of our Constitution. Men have always wondered just what claims to obedience the laws have on us. From earliest times in ancient

Greece some have thought that men entered a contract to set up laws among themselves and obey them to keep the peace. But not until 1620 had anybody ever actually written out and signed anything like the Mayflower Compact — the granddaddy of all written constitutions. Said they: "We — do by these presents solemnly and mutually in the presence of God, and one another, covenant and combine ourselves together into a civic body politic, for our better ordering and preservation — and by virtue hereof to enact, constitute and frame such just and equal laws, ordinances, acts, constitutions, and offices from time to time as shall be thought most meet and convenient for the general good of the colony, unto which we promise all due submission and obedience. In witness whereof we have subscribed our names at Cape Cod on the 11 of November . . ."

In 1788 is the same spirit the world's first, oldest, and most successful written constitution came into being, starting out by saying: "We, the people of the United States, in order to form a more perfect Union — do ordain and establish this Constitution of the United States of America." (This column, based on Federal law and prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

friends, the Earps, as they advanced to the field. The occasion offered action and Holliday seized the opportunity. Doc's renown spread throughout the West. Fort Griffin was the wildest town in the country — crowded with buffalo-hunters, traders, wagon-drivers, soldiers, Indians, outlaws. In a saloon, a bartender was threatening a customer. A stranger spoke up on behalf of the customer. The bartender and his friends menaced the newcomer. The latter backed to the wall, drew a six-shooter and, coolly confronting the crowd, said: "Gentlemen, the name is Holliday — Doc Holliday. Who wants the honor of being first?" At this grimly-famous name, the threatening looks vanished and the bartender forgot all about being mad. Then Doc finished his interrupted drink. A few days after the Jeffries-Johnson fight for the world's championship, a store in Memphis, Tenn., displayed a pair of boxing gloves with a sign that could be read across the street, "These Gloves Were Used in the Jeffries-Johnson Fight." But when one stopped, he then saw, in very small letters between "were" and "used," the word "not."

Sunday guests in the home of Mr. and Mrs. W. E. McNeill were Misses Alma and Bertha McNeill of Wichita Falls, Mr. and Mrs. Roy McNeill and children of Charleston, W. Va.; Mr. and Mrs. Hazen Carlson and children of Dallas and Mr. and Mrs. Earl McNeill and daughters of Munday. Mrs. Hazen and Nancy remained for a visit this week. Mr. and Mrs. Roy McNeill and

children of Charleston, W. Va., visited his parents, Mr. and Mrs. W. E. McNeill, and other relatives from Tuesday of last week until Thursday of this week. Mr. and Mrs. W. E. Combs of Plainview were guests of Mr. and Mrs. Don Combs and Luann several days last week. Mr. and Mrs. Ezra Smith of Weatherford visited relatives here last week.

**LOCALS**

Mrs. Muri Feemster of Midwestern University in Wichita Falls is home to spend the summer months with her parents, Mr. and Mrs. Earl McNeill.

Mr. and Mrs. A. E. Bowley visited Mr. and Mrs. Joe Frank Bowley and children in Midland over the week end. Mrs. Bowley and children returned home with them for a visit.

Mr. and Mrs. James A. Smith and children of Weatherford visited her parents, Mr. and Mrs. O. R. Mitchell, and family over the week end. Cloyce Mitchell returned home with his sister for several weeks visit.

My favorite among the gun-fighters of the Old West was "Doc" Holliday. Others killed for pay — or for the purpose of holding up banks and trains, which after all, was another form of pay — or for the love of taking life. But Holliday seems to have been motivated by friendship — but of course not friendship for the ones he killed. Doc was a dentist, hence the nickname. He was consumptive, hence his contempt for peril — a man who has little of life to risk thinks little of risking it. Holliday was versatile. He would just as soon kill you with a sawed-off shotgun or a knife as with a six-shooter. He was equally skilled with all three. His most famous performance was in the wagon-yard at Tombstone, Arizona. The officers, led by Wyatt Earp, had been challenged by a lawless group and Holliday, who had no particular stake in the matter, joined his

... Chevrolet with Turboglide!

Chevy's come up with the newest, sweetest, smoothest automatic drive—Turboglide. It's the first and only triple-turbine transmission!

Turboglide is something really new and different in automatic drives. In the first place, there's only one forward-speed position on the control panel. There's no "Low" needed. Turboglide handles everything with the oil-smooth action of triple turbines. You travel from a standstill to top cruising speeds with never a lurch or lag to mar your motion.

When you see a steep downhill stretch ahead, you set the selector at "GR" (Grade Retarder) and Turboglide helps slow you down. Try Chevy's new, nothing-like-it automatic drive. It's optional at extra cost—and worth it.

GENERAL AMERICAN LIFE INSURANCE CO.

strong performances at Fort Worth Monday. In the cattle yards the offering was cleared early and fed steers and yearlings were steady to strong, as steers averaging 1,010 pounds from Wynnewood, Oklahoma, scored \$24, and fed heifers from McClung Land & Cattle Company of Johnson County, topped at \$23.

Cows sold on a stronger basis, and bulls were steady to 25 cents higher. Fat calves were strong to 50 cents or more higher as choice kinds brought \$21 to \$22 freely. Stocker and feeder cattle and calves again sold on a strong to 25 or 50 cents higher basis.

Comparative prices: Good and choice slaughter steers and yearlings \$20 to \$24, and common and medium butcher sorts \$13 to \$19. Fat cows \$12.50 to \$16, and canners and cutters \$8.50 to \$12.50. Bulls sold from \$11 to \$15.75.

Good and choice slaughter calves cashed at \$18.50 to \$22, while plain and medium butcher kinds sold from \$14 to \$18. Cull and common sorts sold from \$10 to \$14. Good and choice stocker steer calves cashed at \$19 to \$23, good steer yearlings sold from \$21.50 down. Plainer stockers sold from \$13 to \$17.50. Stocker heifer calves ranged from \$21 down. Stocker cows bulked at \$10 to \$14.

**HOGS TOP AT \$22.25, BEST PRICE SINCE JANUARY HERE**  
Choice butcher hogs cashed at

\$20 and \$20.25 at Fort Worth Monday, the best price since January at which time the top was \$20.50. This January price was the highest on hogs here since June, 1955.

Medium grade butchers sold from \$16 to \$19. Sows sold from \$15 to \$17.50, and stags cashed at \$9 to \$12.

**SPRING LAMBS TOP AT \$23; OLD CROP SELL AT \$18 DOWN**

Spring lambs of good and choice grades sold Monday at Fort Worth at \$20 to \$23, and the trade was 50 cents or more higher than at week's close. Old crop shorn wether lambs cashed at \$18 down, but strictly choice kinds were considered eligible to top that figure somewhat. Old sheep, stockers and feeders sold steady.

Comparative prices: Good and choice milk fed lambs \$20 to \$23; and cull to medium spring lambs sold from \$14 to \$19. Feeder spring lambs sold from \$19 down. Late last week some fancy crossbred feeders at 65 pounds topped at \$20.25.

Good and choice shorn lambs cashed at \$16 to \$18, and cull to medium old crop lambs drew \$10 to \$15. Stocker wether old crops sold around \$15 down, and stocker ewes shorn old crops sold from \$18.50 down, with cross bred blackfaces quotable to \$20.

Slaughter ewes cashed at \$5 to \$7, and aged bucks sold from \$4 to \$5. Old wethers cashed around \$12 down, and some two-year-old wethers sold from \$16 down.

**FREE BOOKLET OFFERED ON MARKET REGULATIONS**

The Packers & Stockyards Division of the Agricultural Marketing Service of the United States Department of Agriculture has prepared a booklet of questions and answers regarding the application of the Packers and Stockyards Act of 1921 as Amended, and how it serves the livestock producer.

This is the regulatory act that governs all livestock markets under USDA control. A free copy of this booklet will be sent to the readers of The Munday Times upon written request addressed to: LIVESTOCK MARKET INSTITUTE, 122 East Exchange Avenue, Fort Worth 6, Texas. The booklet is free on request, postage paid.

It is full of information important to livestock producers. A

**TRACTOR GENERATOR** is demonstrated for rural civil defense officials as a source of supplementary power when regular electric lines are knocked out by storm or attack, or when located some distance from the farm buildings wired for electric service. The generator can furnish electricity for such chores as sawing wood, post-hole digging or welding. In an emergency, the generator would be invaluable for running milking machines, incubators, refrigerators, deep freezers, water pumps and lighting.

typical Question is: "Who benefits from the Act?" Answer: "Farmers and ranchers, for it protects their interests when selling livestock at a market subject to the Act by preventing stockyards, market agencies, dealers and packers from carrying on practices that would injure livestock producers. General Public, for it protects the community with a financially sound and stable outlet for livestock and a good source of meat supplies. Market operators, for it protects their interests from those operators who may be lax in handling their responsibilities.

**Weekly Health LETTER**

Issued by Henry A. Helms, M. D., State Health Officer of Texas

**AUSTIN**—For the past two weeks the Senate-House Atomic Energy Committee has been holding hearings in Washington in an attempt to unravel one of the knottiest problems of the day—the dangers of mass radiation exposures in this Atomic Age. The committee is interested chiefly in the effects of radioactive "fall-out" from nuclear weapons tests, but there is much more to the story than that. The very nature of radiant energy makes it at once a boon and a peril to human health. Let's look at the "boon" side first.

For 60 years radiating devices in the skilled hands of technicians have been tools of unparalleled importance in diagnosing and treating various diseases. X-ray and fluoroscopic machines actually permit the physician or dentist to "photograph" the interior of the human body, and "aimed" beams of deep penetrating rays—sometimes pushed by 2 million volts of electricity—have long been among the most effective ways of treating disease in practically any body organ.

With the harnessing of the atom, the physician of A.D. 1957 can remove tumors without surgery by using isotopes of radioactive materials, and other tumors can be accurately located with still other isotopes.

And while the medical field was jumping on the isotope bandwagon, industry was climbing in to the driver's seat. Isotope uses in industry have grown to phenomenal proportions. In commercial art they give truer copy than a photographic print. Oil men use them to locate underground leaks. With isotopes engineers can accurately test the strength of structural steel or measure the life expectancy of cutting tools. The efficiency of washing machines can be checked with isotopes. So can the rate at which plants absorb phosphorus from fertilizers.

These endless advantages are the reasons for possible peril. Radioactivity can accumulate in the body, so little exposures from day to day may add up to big exposures after weeks or months. However, physicians take total exposures into account when they use radiation.

Since last September the State Health Department has controlled radiation exposure by requiring registration of all radiation devices and materials used within the state. So far more than 1,500 devices have been registered, some 1,400 of them in the realm of medical practice and research.

Meanwhile, there are two sources where you can get information on the hazards of excessive radiation—your family physician or the State Health Department. From either you will get some common sense advice, and common sense is the most important commodity in the world

**BENJAMIN NEWS**

Mr. and Mrs. Vernon Benson have returned to their home here from Flagler, Colo., where they have been employed farming for the past several weeks.

Mr. and Mrs. Theodore Ressel and family visited her mother, Mrs. Hattie Castleman, other relatives and friends in San Antonio last week.

Mrs. W. A. Barnett and Omiline visited Mrs. Alice Dutton in Knox City Saturday. Her mother, Mrs. E. L. Howard, who has been staying with her daughter in Knox City, returned home with them for an extended visit.

Mrs. Myrtle Meinzer was in Wichita Falls one day last week to meet her grandchildren, Greg and Pam Meinzer of Oklahoma, who will spend the summer with her and their father, Walter Buck Meinzer.

Mr. and Mrs. Dutch Young and children have moved back to Benjamin from Wichita Falls for a while.

Mr. and Mrs. Donnie Hertel and sons of Wichita Falls were week end visitors of their mothers, Mrs. Nora Hertel and Mrs. Leola Isbell, other relatives and friends.

Kenneth Isbell of Pawhuska, Okla., has been visiting his mother, Mrs. Leola Isbell, the past few days.

Mr. and Mrs. Willard Terry and Mr. and Mrs. Kenneth Dixon of Blue Ridge were week end guests of Mr. and Mrs. Von Terry and Vickie.

Tom Tat Bivins of Christoval visited his brother, Leon Bivins, and family, other relatives and friends during the week end.

Mrs. Lee Snailum is in Weatherford to be at the bedside of her mother who is seriously ill.

Mrs. Fay Jones and children of Colorado City are visiting in the home of her mother, Mrs. Lillie Ryder, other relatives and friends.

Joe Ballard spent last Saturday night in the home of his daughter, Mrs. Boyd Morrison, and family in Gore.

Mr. and Mrs. John Chilcoat and family, Mrs. Myrtle Jones and Myrtle Lou were in Jacksboro over the week end to visit Mr. and Mrs. Charlie Jones and son.

Mrs. Lillie Ryder, Bill Ryder and Donnie were in Knox City Monday to visit Mrs. Ryder's brother, George Myers, who is ill in the Knox County hospital.

Mrs. W. A. Barnett and Omiline visited in the home of Mr. and Mrs. Tom Hamilton in Truscott one day last week.

Mr. and Mrs. Leon Bivins were visitors in Seymour last Sunday.

today.

Next week you will learn how joint effort of physicians and health departments make radiation safer for you.

**LOCALS**

Mr. and Mrs. W. E. Reynolds and Mrs. Ralph Watkins of Wichita Falls attended the graduation exercises of Don Reynolds last Sunday night. Don received his B. A. degree from NTSC in Denton.

Mrs. Jim Johnson of Plainview visited friends here several days last week.

Mr. and Mrs. Deaton Moorhouse and son, Charles, of Amarillo were guests of Mr. and Mrs. Chas. Moorhouse several days last week.

Little Miss Dianna Kay Eiland of Dallas is here for a visit with her grandparents, Dr. and Mrs. D. C. Eiland.

Week end guests of Mrs. Lucille Stodghill were Mr. and Mrs. Lee Lemaster and son, Bill, of Lake Jackson and Mrs. Jimmy Peek and little son, Jimmy, of Pasadena.

Mr. and Mrs. Cecil Stephens and daughter of Orange came in last Sunday for a visit with her mother, Mrs. Kate Browning, and other relatives.

Bob Ballinger of Texas Tech in Lubbock was a Sunday guest of his grandparents, Dr. and Mrs. A. A. Smith.

Mrs. Maurayse Blacklock and daughters, Sandy and Mrs. Doug Moore, visited in Lubbock over the week end.

Mrs. Homer Woods of Harrah, Okla., spent the week end with her mother, Mrs. T. I. Phillips and brother, Roy.

Mr. and Mrs. Vernie Reynolds of Okmulgee, Okla., visited his father, G. E. Reynolds, and other relatives over the week end.

M/Sgt. and Mrs. Dell Riddle and Larry of Carswell Air Force base were week end guests of Mr. and Mrs. Don Wardlaw. Her mother, Mrs. J. S. Wardlaw, returned home with them for several weeks visit.

Mr. and Mrs. V. E. Moore and children attended market in Dallas the first of this week.

Miss Bera Fae Spann, who has been attending McMurtry College in Abilene, accompanied by her mother, Mrs. Oscar Spann, left Saturday for Levelland where she will do youth councilor work for the summer.

Mrs. Jim Hughes and Mr. and Mrs. Wesley Trainham were in

**BIRTH OF A TORNADO** occurs when a cold and a warm air mass collide, and the heavier cold air is deflected above the lighter warm air. In this topsy-turvy situation, a tongue of cold air dips into the warm air, which in turn moves upward to fill the void thus created. As the warm air rushes upward in a spiral motion, other warm air is sucked upward from lower levels, until the ground is reached. The funnel is made visible by condensing moist air, dirt and debris. As the twister leaves its trail, Red Cross, civil defense and other public services rush in to care for victims, while the Federal Civil Defense Administration stands ready with financial aid to assist in temporary repair of devastated public facilities in a major disaster. (Courtesy A. Leydenfrost and the New York Times Magazine)

Justin last Saturday where they attended the wedding of Miss Nita Hughes, daughter of Mr. and Mrs. Lindal Hughes, to Kenneth Clark of Denton.

Mrs. Mary Carroll of Gatesville is spending this week with her sister and husband, Mr. and Mrs. Gill Wyatt.

Chris and Tim Wardlaw of La Marque are spending their vacation here with their grandparents, Mr. and Mrs. Stanley Wardlaw, and other relatives.

Mr. and Mrs. Stanley Wardlaw were business visitors in Wichita Falls last Tuesday.

Mr. and Mrs. Glen Selbo and children of Midland visited their parents, Mr. and Mrs. D. E. Whitworth, over the week end. They were enroute to Mesquite, Wis., where Mr. Selbo has accepted a position as coach and math teacher in the school.

Don Whitworth, who is stationed in Norman, Okla., spent the week end with his parents, Mr. and Mrs. D. E. Whitworth.

Miss Jo Ann Duke of Lovington, N. M., came in last Thursday for a vacation visit with her grandparents, Mr. and Mrs. A. B. Warren, and other relatives.

Monday guests in the home of Mr. and Mrs. Ed Thompson were their daughter, Mrs. Lester English and son, Paul, of Hereford, and their granddaughter, Mrs. Hoppy Hopkins and daughter, Jamie Glynn, of Canyon.

Mr. and Mrs. Boyd Moore and daughters, Linda and Nancy, of Pampa, visited her parents, Mr. and Mrs. A. M. Moore, Sr. and his brother and wife, Mr. and Mrs. Troy Moore, from Friday until Tuesday.

Mr. and Mrs. Manson D. Waits and children of Lubbock visited relatives here a few days this week.

Mrs. Paul Pendleton and daughters and Misses Nancy Penick and Clara Harpham left Wednesday for a weeks visit with relatives in Pittsburg. Miss Ruth Baker accompanied them as far as Van and visited with Mr. and Mrs. L. M. Palmer.

## Combines

We now have the Gleaner-Baldwin Combines — and with a good stock of parts — especially the older models.

A complete stock of parts for Allis-Chalmers Combines.

Refilling and collecting money from bulk machines in this area. To qualify you must have a car, reference, \$360 cash to secure territory and inventory. Devoting 4 hours a week to business your end on percentages of collections should net approximately \$175 monthly with very good possibilities of taking over full time. Income increasing accordingly. If applicant can qualify financial assistance will be given by Co. for expansion to full time position with above average income. Include phone in application. Munday, Box 218.

**REAL ESTATE SPECIALS**  
206-acre ranch, will carry 100 cows, 200 cult., \$50 per acre. Will take in good grain farm on this ranch. Will loan one-half.  
480 acres, 160 cult., 320 good grass. Possession July 1. One-half royalty, non-participating. \$90 per acre. Baylor Co.  
240 acre farm in Knox County, 222 cult., 20 pasture, good well water. Mixed sandy loam. One-half royalty, non-participating. \$83 acres cotton. A real buy at \$175 per acre. Will loan \$75.  
280 acre farm near Mattson school, 125 cult., 155 pasture. One-half royalty, non-participating. A real bargain, \$70 per acre.

I have three homes in Goree that are good buys. Better look quick, for property is advancing in price every day due to the oil boom. Also houses to be moved. Don't wait, come and look.

I have one of the very best irrigated farms that can be had in this area. Has one 8-inch, one 6-inch well. Don't wait. Priced very reasonably.

I have 380 irrigated farm, has 3 8-inch and 4 6-inch wells, with all irrigation equipment. Has nice, modern 3 bedroom home. It made 2½ bales cotton, 68 bushels wheat, 100 bushels oats last year. Will trade for a good ranch. This one is the very best.

See me if you are interested in real estate anywhere.

## Knox Prairie Philosopher Claims Agricultural Scientists Are About To Break The Surplus-Ridden Farmer

Editor's note: The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek may be mixed up in his thinking, his letter this week indicates, but then again he may not be.

J. A.

Dear editor:  
The trouble with farming is that science won't leave it alone. For example, I was reading last night in a newspaper which an insurance salesman left out here yesterday, he didn't sell me any insurance but I think I sold him on taking my name off his prospect list, where scientists at an agricultural research center in Indiana have developed a pill which, when you feed it to livestock they gain a lot faster on less food.

In one test on cattle, steers showed "11 per cent improvement in gain and 9 per cent improvement in feed efficiency."

The scientists immediately hailed this as an important step forward, but that's not the way I see it, and if Sec. Benson is on his toes instead of the farmer's for a change he won't see it that way either.

If cows are going to gain 11 per cent faster and use 9 per cent less feed doing it, anybody who knows arithmetic can see this means a 11 per cent increase in the meat supply and a 9 per cent increase in the feed surplus.

Also, not only are scientists getting cows to use less feed, although I've got one old cow out here I don't believe would respond to their treatment, they're teaching farmers how to grow more per acre.

What this means is that every time a scientist succeeds in growing two bushels of corn or maize or wheat or what not where only one grew before, somebody has to put up two warehouses to store it in where only one was before.

You keep this up for any length of time and you can see what'll happen to the surplus, which is already bigger than the national budget.

As I see it, scientists are the worst enemy of the farmers, and if they can't do any better, they ought to give up agricultural research and work on the hydrogen

bomb or space ships.  
What the farmer needs is a pill which will slow down, not speed up agricultural production. What he needs is something that'll make a cow eat twice as much as she's eating now and take three times as long to get ready for market, with of course an adequate price to take care of the long-drawn-out process. What he needs is a chemical to spray on his seed to make cotton for example take two years to mature instead of six months. As for corn, with a two-year supply already on hand and another crop on the way, something in the nature of a century-plant type corn, which makes ears every ten years, would be ideal. The same thing would apply to practically everything else grown on a farm.

The way it looks from here, agricultural research is about to bust not only the warehouses but the farmers to boot.

Yours faithfully,  
J. A.

Jerry and Gary Stevens of Abilene are spending this week with their grandparents, Mr. and Mrs. Cal Stevens.

Drive carefully. The life you save may be your own!

**BAPTISTS BELIEVE ...**

**GOD LOVES EVERY PERSON**

During the war a young soldier was seriously injured in battle. He lingered a long time in the hospital and finally was discharged to go home to die. He waited cheerfully, having committed himself wholly unto God. When the waiting was over his parents went to sit by his body in the funeral home. Scores of friends came offering words of love and sympathy. One of the last to come was an unthoughtful woman whose lack of faith was well known. She said to the boy's mother, "Where was God when your son died?"

For a moment the mother was overwhelmed. How could she answer that question in so tragic an hour? Then the answer came. She said kindly: "I'll tell you where God was when my son died. He was at the same place he was when his son died, in heaven reaching out in love and compassion for my son and your son."

Few stories could illustrate so well as this one the meaning of the teachings found in the Bible. God's book tells of God's love. It tells of the place of his Son in proving that love. And the Bible tells that life is far from futile, and that death is only a door to the life to come for those who live within the circle of God's love.

The Bible plainly teaches that

"God is love" (1 John 4:8). For example, John, the disciple who followed Jesus as he taught and healed people, also tells us, "Hereby perceive we the love of God, because he laid down his life for us" (1 John 3:16); and records for us the words of Jesus, "Thou lovest me before the foundation of the world" (John 17:24). God loved us as sinners, for he "commendeth his love toward us, in that, while we were yet sinners, Christ died for us" (Romans 5:8).

Yes, these are the great truths that God's word teaches. Through his word, God speaks personally to you. "God so loved the world, that he gave his only begotten Son, that whosoever believeth in him should not perish, but have everlasting life" (John 3:16).

Have you ever tried putting yourself into that verse? Try it now by substituting your name for the word "whosoever."

If you will do that in faith you will begin to understand the abiding love of God that makes sense out of the puzzles of life. All things work together for good to them that love God, to them who are the called according to his purpose" (Romans 8:28).

Yes, this is what the Bible teaches, and this is what Baptists believe. Would you like to know more? We invite you to attend a Baptist church convenient to you or call its pastor.

### Oil Activities

Three oil well completions for Knox County were reported last Friday, as follows:

Union Oil Co. of California No. 178 Mrs. W. P. Farrington in the Voss (Tannehill) Field two miles north of Munday for a calculated daily potential of 288 barrels of 34.6 gravity oil, based on 5-hour flow of 60 barrels. Flow was from pay perforated at 1831-33 feet. Total depth was 1980, and gas-oil ratio was 250-1.

King Oil Co., Inc., reported a daily potential of 61.40 barrels of 39 gravity crude for No. 1 L. N. Smith in the Plumlee (second Tannehill) Field, two miles north of Munday. Production is from perforations at 2016-26 feet with hole bottomed at 207.

D. D. Drilling Co. et al of Olney fished No. B-5 P. V. Cartwright in the Goree Field for a daily pumping potential of 25.32 barrels of 36 gravity oil from open hole at 1613-14 feet. Producer is one-half mile east of Goree.

Wildcat failures reported at the same time were: Ted A. Norwood et al No. A-1 J. H. Hackfield et al, three miles north of Knox City, at 2396 feet; Jack Mercer of Nocona No. 1 M. J. Goss, seven miles northwest of Goree, at 1975 feet; E. B. Clark Drilling Co. No. 2 Roy Day, four miles northeast of Knox City, at 2150 feet.

Christie-Stewart Drilling Co. No. 4 McAfee is a 2250-foot wildcat nine miles northwest of Munday.

Another completion was King Oil Inc., of Wichita Falls No. 1 Lucille Neff Smith, 2 1/2 miles northwest of Munday. Daily potential was 61.4 barrels of 39 gravity oil, which flowed from perforations at 2016-26 feet with total depth of 2076.

Tennessee Gas Transmission Co. No. 1 Roscoe Partridge was spotted in the Peppers (Tannehill) Field 7 miles northwest of Munday, to drill to 2300 feet.

Grace-Ford Oil and Gas Co., Inc., of Wichita Falls staked two locations on Goree townsite. Both are slated for 2000 feet and are on the Fort Worth and Denver Railroad lease.

Cities Service Oil Co. completed No. 3-C Thompson in the Voss (Tannehill) Field one mile west of Munday, which flowed 43 barrels of oil in 14 hours through 24-64-inch choke from the Tannehill. The company also spotted No. 4-C Thompson in the same location.

Six miles west of Knox City, a Walker (Tannehill) Field project was spotted as Arnold H. Bruner & Co. of Dallas No. 3 P. E. Walker, slated for 2750 feet.

A. R. Dillard, Jr., and Sabre Drilling Co. of Wichita Falls staked No. 2-I C. Hamilton as a 2600-foot rotary test five miles southwest of Benjamin.

Five miles west of Munday, Bridwell Oil Co. of Wichita Falls spotted No. 1 R. R. Jarvis, scheduled for 2500 feet.

J. F. Hardwick of Wichita Falls No. 1 O. McCarty is a 2300-foot wildcat seven miles west of Munday.

R. W. Gutzler of Dallas staked No. 1 A. I. Boyd as a 2300-foot wildcat four and one-half miles northeast of Vera.

Staked in the Goree Field was D-D Drilling Co. and Lebus of Olney No. 6-B P. V. Cartwright.

### Band School—

fire baton routine, dance routine, and others.

There will be no admission charge, and the public is cordially invited to attend.

Students will be entertained before the program with a swimming party and picnic.

Harold Jackson, Mogul Band director, was director of the school, and instructors are: N. A. Lee and E. L. Rickard and Ted James; head twirling instructor, Dale Robins, head drum major of the Kilgore Junior College Band, and Miss Gayle Littlefield and Mrs. Harold Jackson, twirling instructors.

Towns represented in the school are: Benjamin, Crowell, Goree, Knox City, Olney, Rochester, Seymour and Munday.

Linda and Wonda Guinn have been named lead drummajors for the Mogul Band. The girls are identical twins, 15 years old, and have been in band for three years. They will be sophomores next year.

Head majorette is Cheryl Matthews, and majorettes are Sandy Brown, Kathlene Michels, Shirley Howry and Ann Moorhouse. Shirley Phillips is alternate.

Drum majors and twirlers were chosen Wednesday by Dale Robins, head drum major of Kilgore College Band; E. L. Rickard, director of the Crowell Band; N. A. Lee, director of the Seymour Band, and Harold Jackson, director of the Mogul Band.

Mr. and Mrs. Owen Smith and Mrs. Oversale of Shawnee, Okla., visited relatives here last week end.

Mrs. Andy Hobid and daughters, Cindy and Sherry returned to their home in Corpus Christi last Sunday after a visit with Mrs. Hobid's mother, Mrs. C. N. Smith.

A 1900-foot rotary project, Ajax Oil and Development Co. has staked three 2200-foot wildcats 5 1/2 miles northwest of Munday. They are No. 5, No. 6, and No. 7 J. D. Wright.
