

## Kracker Krumb's

Odd Bits Salvaged  
By The Editor

Back from Ruidoso, back from Colorado, back from California, back from Oregon and other points, back on the job from a week at home under the air-conditioner. The vacationers are returning to a hot and sultry country and back to their jobs for another 12 months.

It's wonderful to plan a vacation, we understand, but from some reports it's also wonderful to be able to return home. This we got in a round-about way from the household of Postmaster and Mrs. Lee Haymes, who returned Sunday from a trip to Oregon and other points with Dr. and Mrs. Joe Haymes of Lubbock.

Once they became adjusted to their jobs again, everything will be okay with those vacationers. You know, it's easy to get unadjusted to your work. Only a few days off makes you seem kinda sluggish on the job.

Being on the subject of vacations again reminds us of a short conversation we had with Ira Stalcup last Saturday morning. "People are coming back telling us about their two-weeks vacation," he said. "Some of these days we're going to come home and tell them about our two-days vacation. We'll leave here some Sunday morning and be back on the job Tuesday."

We plan our two days for August 9 and 10, at which time we expect to be attending the West Texas Press Association annual meeting in Lubbock, and if we're fortunate enough to get an air-conditioned room, we'll likely have two days relief from the heat.

Old Sol really beared down on us Monday. He shot his scorching rays on Munday with such fury that we heard late that afternoon that H. P. Hill, local U. S. weather observer, announced the mercury at 109 degrees — the hottest day of the year.

Heard it got to 107 in Dallas, and one man went to the hospital with heat prostration. Shucks, guess they just don't know how to take the heat there.

During our threats of thunderstorms last week, which brought showers all around us but none to speak of here in Munday, we met a small boy on the street. He was dressed only in shortie pants, bare from the waist up, but was carrying an open parasol to keep out of the sun, or rain, or something. "Sure looks like we're going to get a rain," he said as we passed.

All the engineering work, assembling and correlating the surveys and core drilling data to determine the cost, water yield and other pertinent information on the Miller Creek Reservoir should be completed by mid-December, according to engineers. Then we'll be ready for some elections . . . first of which would be to determine what towns in the area would be in the water district.

If construction can be started early next year, the Miller Creek dam could be completed by mid-summer of 1959, one who attended a recent meeting of directors of the North Central Texas Water Authority. Then's when we could cease to worry so much about the acute water shortages in the municipalities involved.

Epsom salt, we are told, takes its name from a mineral spring at Epsom, England. But the name lots of us give it when we have to take it comes from other sources.

That curve the West Texas Utilities bunch threw us Monday night had us bumfuzzled. We started to work at our usual time — 7:30 by the clock. En route to the office we noticed our watch said 8:05 and we ran it back 30 minutes, thinking it had stopped early the night before. We learned they'd cut off the town's juice at midnight, and we were running about 30 minutes late.

Supt. Cox learned Wednesday that driving an unfamiliar car can be embarrassing. Leaving this office, he drove Mrs. Bowley's car away, discovering his mistake when he reached the school

## Gospel Forum Will Open Next Sunday At Church Of Christ; Runs To August 11th

A gospel forum for the Church of Christ in Munday has been announced by Harold Paden, local minister, to open on Sunday, August 4 and continuing through Sunday, August 11.

The evangelist for this forum, Dean Brookshire of Richardson, is a well-known evangelist and is known to the local congregation, having been here before in gospel meetings. He is a powerful speaker.

A public forum will be held following each lecture, in which everyone is free to add to what has been discussed, ask questions, ask for clarifications, or point out his views, even contradictory views, to the theme, feeling free to converse in an open Christian and Democratic atmosphere these all-important fundamentals of Christian revelations.

"We of the Church of Christ are conscious of the basic American liberty — the freedom of speech," Minister Paden said. "It needs to be practiced to maintain a wholesome society. Religious matters are not excluded. Everyone is invited."

Services and study will be held daily at 7 a. m., and the gospel forum will be at the evening services at 8 p. m., following the lecture.

## Mrs. Walter Rice Killed In Accident Wednesday, July 24

Word was received here last week that Mrs. Walter Rice, wife of a former county agricultural agent of this county, was killed in an automobile accident in New Mexico on Wednesday afternoon, July 24.

Mrs. Rice and her daughter, Martha Elizabeth, were enroute to El Paso to get Mr. Rice, who had been on summer duty with an Army Reserve unit, when their car was sideswiped by a truck on a river gridge near Santa Fe. The car went into the river, and Martha Elizabeth swam to the bank. Mrs. Rice's body was found two hours later.

Mr. and Mrs. Rice were married while he was county agent of Knox County, and she and her daughter had visited friends in the county a few days before the accident. They had been residing in Fort Worth.

## Choir Concert To Close Encampment At Lueders Aug. 1

A public concert of choir music at Lueders Baptist Encampment grounds Thursday night, August 1, will close the state Music Camp, which is under way there this week.

Dr. Euell Porter of Waco will direct it. Final church camps of the season will be held at the Lueders Baptist Encampment grounds next week, giving the men and the women a day's camp each. The Brotherhood camp opens August 5 at 3 p. m. and continues until 10:30 a. m. Tuesday, August 6. The WMU camp opens at 8:30 a. m. Thursday and closes at noon Friday.

A fish fry is scheduled for the Brotherhood supper. Outstanding speakers will take part in both programs. Slated for the Brotherhood camp are Dean W. A. Stephenson of Abilene, state Brotherhood president A. C. Wimpey of Dallas, state RA leader; Clifford Leddy, district Brotherhood president; Dr. Dick O'Brien, Big Spring; Rev. Byron Bryant, Breckenridge, Encampment president; George Graham and Rev. Frank Royal of Abilene.

Dr. Finley Graham from the Near East Baptist Missions, Belrut, Lebanon, will be missionary speaker for the WMU camp at 8 p. m. on August 8. Rev. Byron Bryant will speak at 11 a. m. Friday and Mrs. Evan Reiff of Abilene will conduct the morning watch. A leadership course for directors and counselors of YWA, GA and Sunbeam work will be taught and awards given. Mrs. George Graham of Abilene is district WMU president.

## MOVE INTO MUNDAY

Mr. and Mrs. J. W. Cowan are now making their home in Munday, having moved into town last Thursday. They purchased the Jim Welch home and did some remodeling before moving.

DEAN BROOKSHIRE  
Richardson, Texas

## Oil Activities

Arnold H. Bruner and L. M. and C. E. Williams have reported four completions in the Plumlee (Second Tannehill) Field two miles north of Munday.

Their No. 3 L. W. Hobert pumped 76.91 barrels of 37 gravity crude per day from perforations at 2022-32 feet. Hole was bottomed at 2080, and gas-oil ratio was 350-1.

No. 5 Hobert had a daily pumping potential of 51.52 barrels of oil, plus 52 per cent water from pay perforated at 2022-30 feet. Total depth was 2080, and gas-oil ratio was 210-1.

No. 5 Hobert pumped 88.59 barrels of crude per day from perforations at 2017-23 feet with hole bottomed at 2035. Gas-oil ratio was 320-1.

A daily pumping potential of 174.23 barrels of oil was reported for No. 6 Hobert, with pay perforated at 1902-19 feet. Total depth was 2121, and gas-oil ratio was 400-1.

Superior Oil Co. finished No. 2 P. C. Phillips, three miles north of Munday, for a daily pumping potential of 72.20 barrels of 35.1 gravity oil. Pay was perforated at 2007-09 feet.

In the Voss (Tannehill) Field, Magnolia Petroleum Co. has completed No. 9 J. K. Johnson, 1 1/2 miles northwest of Munday. The well flowed 50.10 barrels of 36.5 gravity crude per day through 11/64 inch choke from perforations at 1956-62 feet. Hole was plugged back from 1965 feet. Gas-oil ratio was 880-1.

Locations were staked for three more wildcats in the county. They are:

Nebbett and Null No. 2 F. W. Franklin, one mile south of Goree, to 2000 feet; Tom B. Medders No. 1 Buster Coffman, 3 1/2 miles southeast of Goree, to 1900 feet, and Edward C. Harman of Dallas No. A-1 John W. Goode, three miles south of Goree, to 1850 feet.

Other oilers recently completed in Knox County are:

Glenn W. Cooper of Seymour No. A-6 Golden and Golden, two miles east of Goree, which pumped 118.43 barrels of 38 gravity crude per day from perforations at 1685 1/2 to 1700 1/2 feet. Hole was bottomed at 1752, and gas-oil ratio was 200-1.

American Trading and Production Corp. of Abilene No. 1-62 Lydia Seydler, also in the Goree Field, which flowed 33.6 barrels of 36 gravity oil in 14 hours for a daily potential of 57.6 barrels. Total depth was 1840 feet.

Tom B. Medders reported a daily pumping potential of 35.06 barrels of 36 gravity crude for No. 2 Winnie Ferguson in the Big Four (Tannehill) Field, two miles west of Knox City. Production is from perforations at 2164 to 70 feet with hole bottomed at 2231. Gas-oil ratio was 200-1.

J. L. Stodghill and C. P. Baker of Munday have started a new wildcat in No. 1 E. L. Tidwell, seven miles northeast of Munday, slated for 1995 feet.

## MUNDAY BOY IS ARMY GRADUATE

FORT CHAFFEE, ARK. (AH-TNC)—Pvt. William A. Redder, son of Mrs. Angela Redder, Route 2, Munday, recently was graduated from the Army's eight-week Automotive Maintenance School at Fort Chaffee, Ark.

He received instruction in the maintenance, repair and inspection of light and heavy duty military vehicles. Redder attended Rhineland High School.

## Knox County Hospital Notes

Patients in the Knox County Hospital July 29, 1957:

W. M. Rowan, Knox City; Ben Knight, Knox City; Mrs. J. H. McGee, Knox City; Mrs. Fred Reddell and baby, Munday; Mrs. Jimmy Bell, Munday; Edward McKinney, Munday; Dorothy Alexande, O'Brien; Michael Lewis, Knox City; Tim Silba, Rochester; C. M. Paul, Knox City; Carl Goode, Rochester; Mrs. Pete Perez, Rochester; Mrs. J. C. Angle, Knox City; Cecil Anderson, Knox City; Ben Smith, Goree.

Patients dismissed since Monday, July 22, 1957:

Jimmy Reed, Knox City; Mrs. Ida King, Knox City; Mrs. Jessie Acosta, Munday; M. G. Nix, Munday; Mrs. Dick Moore, Munday; Mrs. Jerry Ray, Knox City; Noe Perez, O'Brien; Tom Morton, Munday; Ronald Patton, Oklahoma; Pearl Coward, Knox City; Mrs. N. J. Richardson and baby, Goree; Mrs. David Rodriguez and baby, Knox City; Mrs. Ella Ratliff, Goree; Mrs. Rebecca Kilcrease, Benjamin; Abe Watson, Knox City; E. D. Morrow, Munday; Mrs. Albert Singletary and twin girls, Knox City; Joe Reyes, Knox City; Albert Singletary, Knox City; Mrs. Catherin Kuehler, Munday.

Births: Mr. and Mrs. Fred Reddell, Munday a daughter. Deaths: Mrs. S. H. Wade, Rochester.

## Sox Win First Game Monday; Defeat Yanks

The Rod Sox, a jam-up Little League team that had gone all season without winning a game, got a "shot in the arm" last Monday night by a smashing victory over the Yanks, who were leading in league standing. This was the first loss for the Yanks.

With the superb pitching of Freddie Smith, the Sox were giving the Yanks trouble, racking up two runs in the third inning.

Things began to pop in the fourth, when the Sox brought eight runners over home plate and practically had the game sewed up. The final score was 10 for the victorious Sox to 5 for the Yanks.

David Clark started on the mound for the Yanks, but was relieved by Pete Alcalá in the fourth when that Sox rally was going so strong.

Umpires were Lonnie Offutt, behind the plate; Dr. W. H. Stewart, on first; and Austin Moore, on third.

In other games last week the Yanks defeated the Cards 13 to 12 on Thursday night, while the Cards won over the Sox 18 to 8 on Friday night.

Games for the week are: Thursday, Sox vs. Cards; Friday, Yanks vs. Cards and Monday, August 5, Sox vs. Cards.

## Local Woman Goes To THDA Meeting

Mrs. R. M. Almanrode of Munday left this week to attend the Texas Home Demonstration Association meeting at the Rice Hotel in Houston.

As president of the Exes Club, made up of women who have served on the board of directors of the association, she was entertained with a reception in the president's suite on July 30.

The pageant, to be presented following the banquet August 1 will feature Mrs. Almanrode, who will give highlights of her term as president.

She has been active in home demonstration club work since 1925, has held all offices in her club and in the council. In 1926 she attended her first short course at A&M College, at which time the Texas Home Demonstration Association was organized.

In 1946, she was elected president of District Three, was state secretary in 1948, and state president in 1950.

Pvt. and Mrs. James Amerson left last Friday for Fort Smith, Ark., where they will make their home. Pvt. Amerson, who has been here on a ten day leave, is stationed at Fort Chaffee.

IN OIL BOWL—Munday's scintillating quarterback, Glenn Amerson, above, was the first quarterback picked for the Texas Oil Bowl squad to play in the 20th annual football classic between Texas and Oklahoma schoolboy stars in Wichita Falls on August 23. Tickets are on sale in the Kemp Hotel lobby.

Amerson won all-state honors last fall and was a triple threat sparkplug for the Moguls all season. He is headed for Texas Tech in September.

Amerson played both offense and defense and guided the Moguls to a fine season last year from his quarterback slot.

## Blacklock Grocery Sells To Benjamin Man, Who Takes Charge On August 1st

Announcement was made this week of the sale of Blacklock Grocery, which has been operated in Munday by B. L. Blacklock for the past 23 years, to G. E. Rodgers of Benjamin, who took charge of the business on Thursday, August 1. Agreement of sale was made several weeks ago.

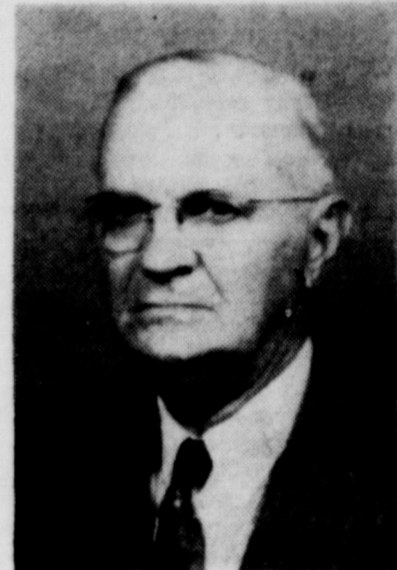

This firm has made much progress during the 23 years of its existence. Mr. Blacklock operated the store in the rear of the Baker-McCarty building for several years, and 10 years ago he constructed the modern new building which now houses the firm.

In retiring from the business, Mr. Blacklock expressed his appreciation to all the people of this area who "have been a part of our life" for the past 37 years — the time they have spent in Munday. He expressed the hope that all his customers would continue as patrons of the new owners.

Mr. and Mrs. Rodgers and their 16-months-old son are moving to Munday to make their home, having rented the R. B. Bowden residence.

The Rodgers are no strangers in this area, having lived in the Sunset community for a time, and Mr. Rodgers operated the Rodgers Grocery in Benjamin for some eight years.

He had his first grocery experience as a high school student in Stamford, when he was employed in the grocery department of Bryant-Link Co. after school

B. L. BLACKLOCK  
... thanks everyone

and on week ends. He is a veteran of World War II, having served four years in the Army.

"We like the grocery business," Mr. Rodgers said in taking charge of the store, "and it is our desire to serve the people of this area just as courteously and efficiently as possible. We shall try to have everything in the food line you need and want, and we solicit the patronage of everyone in this trade area."

"We want to become a part of the town and community and to do our part in its advancement and prosperity, as well as to serve you as best we can in the grocery business."

Mr. and Mrs. Blacklock have made no plans for the immediate future, and will continue to maintain their home in Munday.

## Notes From Knox Farms, Ranches

By Roy England, Knox County Agent

Perennial Sweet Sudan, a result of 15 years of breeding and selection, has been developed by the Texas Agricultural Experiment Station. This new plant, a cross between sweet sudan and Johnson grass, is very palatable and sweet like its sweet sudan parent, and perennial like its Johnson grass parent, though it is less likely to become a pest due to its shorter rhizomes that do not penetrate deeply into the soil. Certified seed will be available in the summer of 1958.

Right now would be a good time to look into a defoliation program if you plan to harvest your cotton with strippers or pickers this fall. Copies of the 1957 Cotton Defoliation Guide are now available at the county Extension Office.

Providing adequate shade, fresh water and ventilation for those poultry flocks and hogs during the hot days ahead will help to maintain production and mean more profit at market time.

## Mrs. Cox Undergoes Surgery On Knee

Supt. W. C. Cox, who with Mrs. Cox was in an auto accident near Decatur last week, returned home the first of this week and reported Mrs. Cox was getting along fine.

She was removed from Rogers Hospital in Decatur to Methodist Memorial Hospital in Fort Worth, where she underwent surgery on her left knee on Wednesday of last week. Her knee-cap was shattered, her right arm broken just above the wrist, and two finger bones in her right hand were broken. Both her left limb and right hand are in casts.

Mr. Cox stated it would be some time before she is able to return home.

## Meeting To Begin At Gilliland On Sunday, August 4th

Members of the Church of Christ of Gilliland will begin their annual gospel meeting on Sunday, August 4, it was announced Wednesday.

R. L. Wall of Medicine Mound will be the evangelist for this meeting.

Services will continue through Sunday, August 11, and the public is cordially invited to attend all the services.

## Aerial Mapping Has Been Completed On Miller Creek Reservoir Project

Directors of the North Central Texas Water Authority, meeting here on Wednesday night, July 24, were given a report of progress on the Miller Creek Reservoir project to date. The report indicated that plans and cost estimates on the proposed project would be ready for submission to voters within a few months.

Representatives from six of the seven towns included in the proposed municipal water district present at the meeting were advised by S. W. Freese, Fort Worth engineer, that aerial mapping of the Miller Creek watershed area had been completed. Ground crews started last week on making the ground surveys.

Next phase, core drilling of the reservoir area, will require an additional 30 days, Freese estimated.

Assembling and correlating the survey and core drilling data to determine the cost, water yield, etc., of the proposed Miller Creek Reservoir can then be completed, he said. He estimated all of the engineering work should be completed by mid-December.

The project then could be submitted early in 1958 to voters in the seven towns now in the North Central Texas Water District. All elections would be called by the State Water Board, directors explained.

First election would be to confirm entry of each town into the water district. Subsequent elections would be called in member towns to authorize issuance of bonds to finish the project.

If work can be started early next year, the reservoir could be completed around May, 1959.

Towns represented at the meeting were Haskell, Seymour, Knox City, Munday, Goree and Rochester.

## Flower Shop To Hold Its Formal Opening Sunday

Owners of the Munday Flower Shop announced Wednesday that the shop will hold its formal opening next Sunday from 3:30 to 6:30 p. m., celebrating its move into its new location on the east side of the square.

The people of Munday and surrounding area are cordially invited to visit the shop next Sunday afternoon. A free carnation will be given each visitor, and a lovely arrangement of flowers will be awarded at the close of the day.

The shop is operated by Mrs. Pete Vinson, Mrs. Bertha Perry of Knox City, and Mrs. Clovie Suggs.

## DARNELL TO TEACH IN KANSAS UNIVERSITY

Local friends of Jane Holloway Darnell, niece of Mrs. Lee Haymes, will be interested to know that she and her husband, Don Darnell, are moving to Wichita, Kans.

Mr. Darnell will be an instructor of English in Wichita University. Jane writes that it is a university of some 6,000 students.

Jane will teach in the public schools of Wichita. She has just completed two years work as "Miss Nancy," director of kindergarten for TV "Romper Room" program in Oklahoma City.

Mrs. Bill Hudson, Butch and Judy, of Bethany were guests in the home of Mr. and Mrs. Troy Moore from Wednesday until Friday.

### MEDICINES GOLDEN AGE

You as an American citizen, are living in medicine's golden age.

That is the striking point of an article by Robert P. Goldman, in Parade magazine. The record of recent medical achievement is almost incredible. According to Mr. Goldman, new treatments developed in a single decade have saved the lives of 1,240,000 Americans who would have died in any previous era. Doctors have twice as many medications to choose from as they had 10 years ago — and three out of four prescriptions written today call for drugs unknown before World War II. And more has been achieved in this decade than in the previous 50 years combined, especially in the war against infectious diseases.

Simple statistics, cited Mr. Goldman, tell the story. Between World War II and the present, death rates have declined as follows: From influenza, 91 per cent; from appendicitis, 76 per cent; from tuberculosis, 77 per cent; from kidney disorders, 60 per cent, and so on down a long list. Medicine — American medicine — is saving life on an unprecedented scale.

So much for the past. What of the future? Mr. Goldman quotes a medical researcher who told him: "Right now, we can say a million and a quarter lives were saved in the past 10 years. In the next 10 years, the number may well be doubled — or even tripled." The medical men stand on the verge of tremendous discoveries, in the fields of both mental and physical illness.

Mr. Goldman cites another fact — that there has been a revolution in the concepts of patient care. As he puts it, "Increasingly, doctors and their co-workers are recognizing the human factor in illness . . . the sick person needs care for his mind and body — to make him 'totally well'." This is a golden age indeed.

The hot debate over recent Supreme Court decisions led U. S. News & World Report to state: "What the country is seeing is a great and growing struggle between the three coordinate branches of the Federal Government. A comparable struggle has not been seen in this century."

According to Senator Byrd, this country's total debt — of the federal government, the states and local government, corporations and individuals — is \$325 billion. That represents an increase of \$200 billion — one third — in four years.

### OIL WELLS PLAY OUT

You can't plant oil. Only nature can do that, and it takes her million of years.

This simply means that when an oil well finally runs dry, as they all do, it must be replaced with a new well, if this country's known reserves are to be kept at the levels necessary to the national security and economic welfare. And replacement is a mighty expensive proposition. Since 1948, the cost of exploration has tripled — while, incidentally, crude oil prices have risen less than 20 per cent. To make matters riskier, of every nine wildcat wells drilled, eight turn out to be dry and worthless.

Under these circumstances, how do we encourage people to risk human and material resources in the search for oil? The answer is simple. We do it by offering incentives — that is, the assurance that, if a man is lucky enough to make a strike, his profits will be more or less commensurate with the chances he took.

Way back in 1918 Congress contrived such necessary incentive, and it has existed ever since. It is known as the depletion allowance. It allows an oil producer, before he figures his taxes, to deduct 27½ per cent of the gross income from the property during the taxable year. That allowance isn't given oil producers as a favor. It is given, instead, to make sure that the risky search for oil will continue, and that the ever-soaring demand for oil products will be met. It is given, in other words, in the public interest, to maintain oil production which couldn't continue without it.

### HOW TO DEAL WITH UNION BOSSISM

Washington Report, a newspaper published by the Chamber of Commerce of the United States, says: "The arrogance of union bossism, as demonstrated before Senator McClellan's Select Committee, finally has brought the nation to the verge of a Constitutional crisis . . . The issue becomes unbridled, monopolistic union power vs. the Nation, and Congress can deal decisively with bossism by taking two simple steps: (1) Passage of a national employee free-choice law, which makes union membership voluntary . . . (2) Application of the antitrust laws to unions . . ."

"Congress should act on the real issues involved and demonstrate by appropriate legislation that it is fearless of labor bosses."

— SAY YOU SAW IT IN THE TIMES —

Historians dispute if the building in Washington State Park, pictured above, is an accurate replica of the smithy shop in which the Texas Declaration of Independence was signed. Contemporary drawings differ. Close by is the restored home of Dr. Anson Jones, last president of the Republic of Texas. A large sign on State Highway 90, near its bridge over the Brazos river, shows the way to the park. Photo Courtesy Texas Highway Department

## MODERN HOMEMAKING

Recipes . . . Household Helps

By Julia Hunter

### HOME ECONOMICS DIRECTOR, LONE STAR GAS CO.

Colorful, fresh, crisp salads fit perfectly into summer menus. So easy to prepare, they give balance to meals in flavor and texture.

Whether salad is served as an appetizer, as a main dish accompaniment or as a main dish, serve a variety. The combinations of fruits and vegetables are limitless or the same basic ingredients may be used over and over with variety introduced in dressing.

Keep basic French dressing always on hand in the refrigerator. Combine in a jar, with a screw top, 2 teaspoons salt, 1 teaspoon sugar, ½-teaspoon pepper,

1 teaspoon paprika, ½-cup vinegar and 1½-cups salad oil. Adjust the top and shake until ingredients are well mixed. Makes 2 cups. Store in gas refrigerator. Always shake well before using. Vary the basic dressing now and then by varying the type of vinegar used. Use cider, malt or tarragon and occasionally try substituting lemon juice for the vinegar.

With basic French dressing ready, you can make dozens of different dressings. For fruit salads, add ¼-cup sugar, ¼-teaspoon celery seed and 1 tablespoon catsup to ½-cup basic dressing. Or if it is a pear salad, add 1 tablespoon chopped crystallized ginger to ½-cup basic dressing.

Vegetable salads take well to celery seed dressing, anchovy dressing and olive dressing. For celery seed dressing, add 1 tablespoon catsup, ¼-teaspoon celery seed and 1 clove garlic to ½-cup basic dressing. For anchovy dressing, add 1 tablespoon anchovy paste and 2 teaspoons grated onion to ½-cup basic dressing and for olive dressing, add 2 tablespoons chopped stuffed olives to ½-cup basic dressing. Mayonnaise is just as versatile as French dressing. Make delicious Thousand Island dressing by combining 1 cup mayonnaise, ¼-cup chopped celery, ¼-cup chopped ripe olives, 1 finely chopped hard-cooked egg, ½-cup chili sauce, ¼-cup sweet pickle relish and 1 teaspoon salt. It's good on head lettuce, but try it too, on meat and fish salads.

For head lettuce, try an egg dressing. Combine 1 cup mayonnaise, ¼-cup catsup, 2 coarsely chopped hard-cooked eggs and

We moved away when I was little from the town in Arkansas where I was born. After I had grown up, I returned to edit the paper. J. P. Potter, who was in the drug business, had been justice of the peace and had performed the marriage ceremony for my parents. When I moved back to Piggott, he said, "I want you to have Sunday dinner with me" but he didn't name a day. Several weeks later, he said, "Next Sunday will be the fifth Sunday in February and I want you to come to dinner then and you will always remember what day it was that you had dinner at my home." And I do — Feb. 29, 1920. A fifth Sunday in February comes once in about 28 years.

Uncle Jasper declared: "Whenever I read about a preacher leaving the ministry to go into the real estate or some other business, I doubt that he was ever called to preach in the first place but just took it up until something more attractive turned up."

When Sam Houston concluded his speech before Congress when the matter of censuring him for caning a Congressman was pending, he was greeted by the foremost actor of the day, Junius Brutus Booth, with "I yield my laurels to you."

Samuel Goldwyn, the movie producer, whose quaint expressions are almost as widely quoted as stories about Mae West used to be, is credited with having declared, concerning some proposition, "In two words — 'im possible'."

Back in the mid-twenties when Eastland County political campaigns were really exciting, Elzo Been was running for district judge. Been had lived in the county all his life. His opponent had come there just a few years before, drawn by the oil boom. Been had gone to school, or taught school, or picked cotton in just about every rural box in the county. One morning, someone asked the other candidate, "How did you come out last night?" He replied, "Not so well — we spoke in another one of Elzo's birthplaces." It is hardly necessary to add that Been was elected.

### Weekly Health LETTER

Issued by Henry A. Hooper, M. D., State Health Officer of Texas

AUSTIN—Summer-time is barefoot-time. One of the joys of summer vacations for small boys and small girls too — is to be

able to go about their business sans shoes.

What adult can say that he found no pleasure in mud coozing between his toes or the coarse grass tickling his feet?

However, shoes are basically a protective item of clothing, and when they are not worn, the protection is removed. For that reason each summer the incidence of foot injuries to children goes up.

These injuries are varied, but usually they are abrasions, cuts

or punctures.

Prompt action and a hurried trip to the doctor or first aid kit is usually all that is required to set things right.

But oftentimes there is a hidden spectre waiting to complicate what may appear to be a simple little glass cut or nail puncture. This spectre is tetanus, commonly called lockjaw.

Lockjaw is an acute disease of the nervous system caused by poisons from wounds infected

with tetanus bacteria. These organisms, Clostridium tetani, are found in the soil, especially in the feces of domesticated animals.

Contrary to popular belief, tetanus is not restricted to farm areas. Any domesticated animal, including cats and dogs, are capable of carrying the organisms.

The tetanus bacteria cannot survive well in open air, but thrive in closed wounds, which they enter through breaks in the skin,

establishing themselves in dirty wounds resulting from all sorts of accidents from highway accidents to the most trivial penetrating wound.

The incubation period ranges from two to 50 days after contact with the germ. The first signs are often stiffness in the neck and jaw, sometimes preceded by chills, fever and stiffness of the muscles near the original wound.

In time, if left unchecked,

tetanus causes severe spasms involving the entire body and may result in death.

Fortunately serious damage from the infection may be avoided through immunization with tetanus toxoid and should be included in the routine vaccinations of children, with an occasional "booster" to insure immunity.

Barefoot-time is happy time if your child is protected, but if he should suffer a foot injury from a cut or puncture, take him to the

physician. It may be worth his life.

**IT'S THE LAW**  
in Texas  
A public service feature of the State Bar of Texas

**State May Win Property When Will Is Lacking**  
Made your will? If not, the State of Texas may wind up as owner of your estate upon your death. Under our statutes, the estates of persons having no heirs who die intestate revert, or "escheat", to the State.

Such provisions have been carried over from the English common law. There, under such circumstances, the estate escheated to the British crown. The theory of the process is that the sovereign (or state), having been the original owner of all lands before they were parceled out to individuals, is entitled to a return of such lands when the possibilities of legal inheritance have been exhausted.

This idea has been expanded to include personal property as well as real estate. It also applies in the case of a person absent for a term of seven years and not known to exist who leaves no heirs and no will.

Presumably, there is hardly a person who does not have some individual or charity that he would prefer to have his estate, rather than have it go to the state by default, so to speak. Yet, surprisingly, estates worth many thousands of dollars do escheat to the various states from time to time.

Now, before you shrug the matter off with the idea that these statutory provisions could not possibly apply to you, better think a minute. Suppose you and your spouse have no heirs besides each other and your children. Many people do fall into this category.

In event of a catastrophe resulting in death for you and your entire immediate family, no legal heirs would remain. Therefore if you had no will, your property would go to the State. In preparing a will, it is possible to provide for such an eventuality.

In this hypothetical case, you would probably want to designate some friend as executor, to take care of all necessary arrangements and then distribute the estate according to your wishes.

On the other hand, if you have plenty of possible heirs, a will could be used to designate which of them shall participate in the division of the estate. And even if you wish your property to be distributed entirely in accordance with our statutes of descent and distribution as explained in previous columns, a will can perform useful functions. Among other uses, a will could provide for an orderly and economical partition of your property, preventing any waste of the assets by heirs impatient for a settlement.

What happens to the property which escheats to the State? Following certain required legal formalities and court proceedings, all escheated lands are set apart to the Permanent Free School Fund of the State, and may be leased and sold by the Land Commissioner under certain regulations. Escheated personal property is sold by the local sheriff under a court writ and the money received therefrom paid into the State Treasury.

This column, based on Federal law and prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.

## Miss Patsy Lain Becomes Bride Of George Spann In Church Rites Here

Miss Patsy Sue Lain became the bride of George Spann in a double ring ceremony, read by candle light, at the First Methodist Church in Munday on Saturday evening, July 27, 1957, at eight o'clock.

The bride is the daughter of Mr. and Mrs. Chester Lain and parents of the groom are Mr. and Mrs. Oscar Spann, all of Munday.

Vows were said before an altar of greenery flanked by candelabra of white tapers and large baskets of lilac gladiola. Rev. J. F. Michael, pastor of the Methodist Church, officiated.

Candlelighters for the ceremony were Sharon Lain, sister of the bride, and Sue Cypert, cousin of the bride. They wore identical dresses of lilac organdy with white polished cotton satin cummerbunds and back bows.

Mrs. Howard Smith of Munday played organ music during the ceremony including the traditional wedding marches. She accompanied O. H. Spann, brother of the groom, as he sang "Always."

Given in marriage by her father, the bride wore a ballerina length gown of white chantilly nylon lace and tulle over white net and satin, accented by a lilac taffeta cummerbund with back bow. Her tiara was of white seed pearls forming a crest for her fingertip veil of tulle. Her bouquet was a lilac orchid entwined with white baby carnations and white streamers.

Miss Juanita Welch, as maid of honor, wore a ballerina length dress of lilac chiffon over lilac net and taffeta. She carried a

bouquet of white baby carnations. Lee Bowden, cousin of the groom, was best man and ushers were Jackie Fitzgerald, cousin of the bride, and Ronald Coody.

The bride and groom are both graduates of Munday High School and he is a junior at Texas Tech in Lubbock, majoring in electrical engineering.

For a wedding trip to White Sands, N. M. and other points, the bride chose a pink tulle dress with white accessories. The couple plan to make their home in Munday.

### Jungman Family Reunion Held At Pep Last Sunday

The twenty-first annual Jungman family reunion was held at Pep, Texas, on Sunday, July 28, with 108 relatives and guests registering for the occasion.

Among those present were Rev. Fabian Diarsing of Lubbock and Rev. Fred Hyland of Pep.

Four of the nine remaining children of the John Jungman family were present. They are: A. G. and W. T. Jungman of Pep and W. A. and Herman Jungman of Munday.

Texas cities represented were Pep, Rogers, Munday, Corpus Christi, Buckholts, Rule, Bailyboro, Seymour, Morton, Littlefield, Plainview, Sudan, Lubbock and Carlsbad, N. M.

All officers were re-elected for another year, and members voted to hold the reunion in Munday in July of 1958.

IT PAYS TO ADVERTISE

STEPHEN F. AUSTIN STATE PARK has many reminders of the "Father of Texas," including this pictured replica of his home at San Felipe. The original was on the bank of Bollinger's Creek, which flows through the park. To reach the park turn off U. S. Highway 90 three miles east of Sealy and take a paved spur road which crosses the Katy railroad tracks.—Photo courtesy Texas Highway Department.

### Relatives Honored With Shower Held Here Recently

Mrs. Ralph Weeks and Mrs. Claude Hill honored Arthur Leon Hargrove and his new bride with a wedding shower recently.

Leon is a Goree boy, and now is a USN hospitalman third class of Portsmouth, New Hampshire, Naval Hospital.

They received many beautiful and useful gifts, which will be sent to their residence at Kittery, Maine. Gifts came from Fort Worth, Dallas, DeLeon, College Station, Amarillo, San Antonio, Big Spring, Rhame, Post, Lubbock, Morton, Vera, Goree, Stamford, Lorenzo and Munday, and from Davis, Okla.

### RELATIVES HERE FOR LAIN-SPANN WEDDING

Out-of-town relatives and friends who attended the wedding of Miss Patsy Lain and George Spann last Saturday evening were Mr. and Mrs. O. H. Spann, Jr. and daughters of Sweetwater, Mr. and Mrs. W. C. Lain and Mary Ellen, Walter Warren, Mr. and Mrs. Bob Fitzgerald and Jackie and Mr. and Mrs. Bob Fitzgerald all of Fort Worth; Mr. and Mrs. D. C. Link and Children, Andrews, Miss Bera Faye Spann of Levelland; Mr. and Mrs. Doss West of Seymour; Mrs. Clyde Morton of Goree; Mr. and Mrs. Dick Ford, Jr. and Mrs. Ruth Ford of Lawton, Okla.; Miss Ida Mae Spann of Wichita Falls; Mrs. W. E. Donald, Charles, Tommy and Janie, Mrs. Ernest Cherry and daughter of Azle; Mr. and Mrs. Dorse Clendennon of Springville, Tenn. and Mr. and Mrs. C. J. Reese of Knox City.

Pfc. Jerry Dan Morrow left last Thursday for Fort Hood where he will be stationed with Hq. Battery, 195th AAA Bn., after spending a thirty day leave here with his parents, Mr. and Mrs. Drew Morrow. Pfc. Morrow has been serving the past 16 months overseas, and was stationed at Landshut, Germany.

Visitors in the home of Mrs. G. P. Burns last week were Mr. and Mrs. Jim Price, Ronnie and Patti; Mr. and Mrs. Tom Walker, Mrs. Ann Cheek and Donovan, all of Fort Worth, and Mr. and Mrs. Tommy Roe, Bill and Thonda, of Burkburnett.

### Charles Michael, Miss Grace Dupus Marry July 30th

Charles Michael of Goodwell, Okla., son of Rev. and Mrs. J. F. Michael of Munday, and Miss Grace Dupus of Helen, Okla., were united in marriage on Tuesday morning, July 30.

The bridegroom's father officiated in the ceremony which was performed in the First Methodist Church of Munday.

After a short wedding trip, the couple will make their home in Goodwell, Okla. where Mr. Michael is attending Panhandle A&M College. He is a junior student in the college.

### CARD OF THANKS

I want to thank my many friends for the cards, letters and flowers while I was in hospital in Houston. May God bless you all.

Sidney Winchester. 1tp

### SUMMER SHEATH

Helen Landon, 1957 Maid of Cotton, wears a delicately pretty sheath by Tina Leser. The dress is white cotton broadcloth with an all-over floral design embroidered in yellow and green. On completion of her 50,000-mile tour this month, Helen will receive a brand new Ford car as a memento of the close working relationship between the cotton and automotive industries.

### Miss Patsy Lain Honored At Shower On Friday Evening

Miss Patsy Lain, bride-elect of George Spann, was honored with a lovely bridal shower on Friday evening, July 21, in the Fellowship Hall of the Gillispie Baptist Church.

Misses Carol Claburn and Shirley Cammack greeted guests as they arrived and in turn introduced them to the honoree, her mother, Mrs. Chester Lain, and Mrs. Oscar Spann, mother of the groom to be.

Lovely arrangements of white carnations, greenery and crystal candelabra centered the serving table which was covered with a white cutwork lace cloth over lilac, chosen colors of the bride-elect. Miss Pat Partridge and Mrs. Howard Smith provided soft music for the evening. Miss Joyce Voss presided at the register book where 75 guests registered.

Hostesses for the evening were Mrs. T. J. Partridge, Joe Grey, Lendon Walling, L. A. Parks, J. W. Massey, C. L. McAfee, C. C. Claburn, Fred Reddell, Jr., H. F. Newbrough, Marvin Burgess, Howard Voss, Virginia Smith, Roe Myers, Carl Booe, David Alexander, Howard Myers, Cotton Smith, Seth Yost, Bobby Owens, E. G. Parkhill, Sr., R. C. Partridge, Howard Smith, Misses Jacqueline Cloudis, Helen Ford, Juanita Welch, Bobby Nance, Sandy Blacklock, Anita Tidwell, Margaret Yandell, Carlene Morgan, Sue Voss and Joyce Voss.

### CARD OF THANKS

Our heartfelt thanks to all who extended comforting sympathy and help in our recent sorrow. For the beautiful service, floral offerings, and other kindnesses we are deeply grateful.

The family of R. D. Perdue. 1tp

## LOCALS

Miss Shirley Cammack spent the week end with her brother, Lt. Billy Cammack, and family in Lubbock.

Martin Bowman visited in Dallas over the week end.

Mrs. Elbert Knox of Hamlin was a guest in the home of Mr. and Mrs. Otis Simpson last Sunday afternoon.

James Glenn Elliott, son of Mr. and Mrs. E. C. Elliott of Aspermont, spent the past two weeks here visiting his grandparents, Mr. and Mrs. Otis Simpson.

Week end guests in the home of Mr. and Mrs. S. J. Warren were their son and wife, Mr. and Mrs. Marvin Warren, of Plainview.

Mrs. F. G. Daniels and Mrs. Earl Coffman of Littlefield visited friends here and at Goree last Tuesday and Wednesday.

## Refugee Children Spending Summer In Area Homes; Increase English Usage

An odyssey which began with the Hungarian revolution last fall will include a Haskell and Knox counties, Tex., chapter with the recent arrival of Joe Mori, Gene Kocsis and Imre Kocsis, and Joe's sister Priscilla.

The children have been placed with families in this area for the summer to increase their knowledge of the English language. The arrangements were made by the Rev. Michael Forgo, Catholic priest now stationed in Rhineland. Father Forgo is himself a Hungarian refugee, having spent three years in prison.

Priscilla, 14, is staying with Mr. and Mrs. Walter Kierepka in Haskell; Imre, 13, is staying with Mrs. Sibilla Andres in Rhineland; Gene, 10, with Mr. and Mrs. Albert Fitch in Rhineland, and Joe, 11, with Dr. Fidelia Moylette in Munday.

All the children's parents are living in Dallas now.

### In Nick Of Time

Priscilla, her parents and younger brother were among the first to leave Hungary following the beginning of the fighting, and believe that if they had been a half hour later, they would not have been able to cross the border.

With the Cistercian priest translating, Priscilla revealed the family was only three miles inside Austria when they heard the first shots at the border. After several weeks in Austria, the Moris came to America and arrived in Dallas Dec. 16, through efforts of the National Catholic Welfare Conference and the Hungarian Freedom Committee, headed by Dick McDonald of Dallas. Mori, a factory worker in Hungary, was employed by a Dallas advertising agency. Braniff Airways stewardesses found an apartment for the family and paid for the first three months' rent.

Priscilla and Joe entered Christ the King Parochial School Jan 12 in Dallas, and until the end of the school year received individual instruction in English from volunteer members of the school P-TA.

When the fighting began, Father Forgo reported, many of the Russian occupation troops refused to oppose the Hungarians. In his own village in western Hungary, the policemen wore armbands of national colors, and

joined the revolutionaries in a large demonstration, the priest said. When the Russians moved in the first of 40 divisions of troops to quell the rebels, the Hungarians realized that to resist would be suicide, the priest stated. The Russian tanks were the first to enter Hungary, but the tanks could operate only on the highways and roads due to muddy fields.

Father Forgo was able to escape Nov. 14, by riding across 20 miles of open fields on a motorcycle to the Austrian border. He was the last Cistercian priest to leave the country, it is believed.

Life in the Communist-dominated country was full of restrictions of the most extreme kind, he declared. Religion is not free, he stated. Frequently, people lose their jobs, just because they go to church. Pressure is put on men in the offices and factories to keep them out of church, he continued.

Father Forgo stated that in the schools the children are drilled in Russian materialistic doctrine. Sometimes parents are afraid to talk even in front of their children for fear the young ones will say something in school to get the family in trouble, he related.

Outside the family, one discusses government only with friends one has known long and well, he pointed out.

Since arriving in Rhineland six months ago, the priest has often been asked to compare a Hungarian village with one of the approximate size of Knox City.

The first and most noticeable thing for most Americans would be the lack of cars in the streets, Father Forgo said. In a village of 2,000 only one or two people would have cars, he added.

Even doctors are not allowed to have cars unless they can get a permit from the government. To do this, they must convince the government that there is extreme need for the car. Once he has a permit, he may buy an automobile, assuming he has the money, and of course the car will be an old one since there are no new autos available, the priest continued.

Everything belongs to the state, the priest pointed out, and families may own only small dwellings. The average worker must work a day to buy a pair of socks,

## Heedless Horsepower by O. Soglow

85% of the fatal accidents in 1956 occurred in clear weather.

and a month for a suit, he illustrated.

Father Forgo said his brother is a graduate of a Hungarian university in engineering. Yet, the priest said, his salary is the equivalent of \$50 per month, compared with the American way of life.

Although rapidly adjusting to their new way of life, the priest and children still miss their native land. One of their happiest discoveries in Texas is a dish of hamburger, sauerkraut and cabbage leaf called "Pig in a Blanket." Father Forgo said it is an old Hungarian dish.

The children are to stay in the area homes until school starts this fall.

—Abilene Reporter-News

### TEXAS EGG LAW BECOMES EFFECTIVE AUGUST 22

The Texas Egg Law, which becomes effective August 22, may be "just what the doctor ordered" to assure Texas consumers that high quality eggs are being placed on the market for sale.

The effect of the law will not only be felt by consumers, but by producers and other businessmen as well, according to F. Z. Beanblossom, extension poultry marketing specialist.

This law, says Beanblossom, provides primarily for inspection and careful labelling of all eggs that are to be sold on grade. The eggs are inspected primarily at retail outlets and if sold on grade are labelled according to size and quality. Ungraded eggs must be so labelled.

It shall also be unlawful to sell or advertise shell eggs below the quality of Grade A as "fresh," "selected," "cage," "infertile," "newlaid," or other words of similar import.

Producers of eggs who sell only the production of their own flock are exempt from the law unless they sell on the basis of grade, then their eggs must meet the standards specified by the law.

The deadline for obtaining licenses by dealers, retailers, wholesalers, brokers and processors is October 20. There is no fee to any retailer, as defined by the law — that is, any person selling or offering for sale, eggs to consumers only in this state.

Actual enforcement of the new law will start on February 17, 1958.

Mr. and Mrs. Lamoine Blacklock were business visitors in Roswell, N. M., the first of this week.

Miss Pat Putnam was a visitor in the home of Miss Darlene Ellison in Balmohera over the week end.

## LOCALS

# Agriculture

Released by  
The Texas Department of Agriculture  
By John C. White, Commissioner

## Weed Killing Operations Threaten Crops

Hormone-type herbicides such as 2,4-D and 2,4,5-T are among the most effective weed and brush killers available — but their very effectiveness calls for extreme cautiousness. These powerful and useful

chemicals can damage crops through careless handling just as easily as they can destroy plant pests. This fact is especially evident this year.

Damage to cotton by herbicides has increased alarmingly in unregulated areas of Texas this season. As many as 9,000 acres

in four West Texas counties suffered slight to severe effects from herbicides sprayed in adjacent areas during periods when wind drift was excessive. In contrast, not a single report of damage has been received from counties where the Texas Department of Agriculture regulates the sale and use of herbicides.

Some 125 counties are regulated by the Texas Herbicide Law. Permits must be obtained for applying herbicide chemicals in these counties and a Department of Agriculture inspector must supervise spraying operations.

The remaining 129 counties are exempt from the law and it is in these counties where crop damage has occurred.

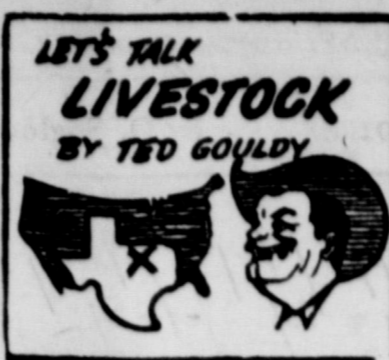

Inspectors make certain that spraying is not practiced within certain distances of susceptible crops — in relation to wind velocity. It is also important that clean equipment is maintained. Much damage has been done by poisoning cotton with equipment which has been used in making applications of herbicides.

Although the Texas Department of Agriculture does not have official jurisdiction in unregulated counties, farmers are urged to use extreme caution in applying weed and brush killing chemicals. Department inspectors or county agents should be contacted for further information on proper safeguards during spraying operations.

Copies of the Herbicide Law, listing regulated counties and material relating to proper usage, may be obtained by writing: John C. White, Commissioner of Agriculture, Austin, Texas.

Dr. and Mrs. A. A. Smith and Mrs. Effie Alexander were in Temple the first of this week where they went through the Scott and White Clinic for a check-up.

Mr. and Mrs. G. L. Nielson and daughters, Diane and Timmie Lee, of Nederland came in on Wednesday of last week for a vacation visit with her parents, Mr. and Mrs. C. M. Thompson, Rev. and Mrs. Milton Thompson and son, Michael Lynn, of Trudy were guests last Monday night.

## Cattlemen Resist Lower Prices, Market Better

FORT WORTH — The sharp break in cattle and calf prices of a week ago met with firm resistance from cattlemen who have the best water and grass conditions in a long time. The movement of cattle and calves to Fort Worth was less than half the numbers offered for sale a week earlier.

Result of the hold-off was an uneven market, however, changes were all on the upside of the price schedule.

Slaughter calves and stocker and feeder cattle and calves rebounded sharply with 50 cents to \$1 per hundred higher prices. Cows were strong to 50 cents or more above the low close of last week. Bulls ruled steady. Fed steers and heifers were in small supply and were steady.

Good and choice slaughter yearlings and heifers sold from \$20 to \$23, and medium and lower grades bulked at \$13 to \$19.

Fat cows cashed at \$12.50 to \$14, with few heiferish kinds to \$15. Canners and cutters cashed at \$8 to \$12.50.

Bulls scored \$11 to \$15, a few to \$15.50. Good and choice slaughter calves ranged from \$18 to \$21, and common and medium offerings cashed at \$13 to \$17.50. Culls sold from \$10 to \$13.

Good and choice stocker steer calves cashed at \$19 to \$23, and stocker steer yearlings sold from \$21 down. Feeder steers weighing up to 900 pounds sold from \$20.50 down. A few replacement cows sold from \$10 to \$13.50. Estimated supply of cattle and calves here Monday was 3,800 cattle and calves compared to actual salable receipts a week earlier of 8,068.

## Mrs. Martin's Calves Brought \$26.01 Average

We have had a number of requests for the average, straight across, on the stocker steer calves sold by Mrs. Gladys Sealing Martin of Bellevue, Clay County, Texas. These steers were the ones which swept the judging honors winning the ten, twenty and forty lot titles and selling at \$29, \$28 and \$26 respectively. The "cuts" sold at \$22.

These 88 steer calves averaged a fraction over 510 pounds in weight and the average straight across was \$26.01. The sale on July 19 was jointly sponsored by the Market Institute and the Texas Hereford Association. There will be another show and sale on August 16 at the market.

See You In CHURCH Sunday

## at Fort Worth. Sheep And Lambs Sell On Strong Market

The offerings of sheep and lambs cleared very early and prices were fully steady to stronger at Fort Worth Monday.

Top end of the price range got a rather poor test due to the very small numbers of high grade offerings in the run.

Good and choice slaughter lambs sold from \$20 to \$22, and cull to medium lambs cashed at \$14 to \$19. Stocker and feeder lambs sold from \$15 to \$18.

Good slaughter yearling wethers sold at \$16 to \$17, and strictly choice kinds were quotable above that level. Cull to medium yearlings cashed at \$11 to \$15. Stocker yearling ewes sold from \$18 down.

Slaughter ewes sold from \$7 to \$8. Aged wethers drew \$13 down. Two-year-old wethers sold from \$15 down. Aged bucks drew \$5 to \$5.50.

## Hogs Steady To 25 Cents Higher, Sows Steady

Butcher hogs were steady to 25 cents higher at Fort Worth Monday. A few closely sorted meat type hogs scored \$22.75, and other choice hogs sold from \$22 to \$22.60. Medium to good hogs sold for \$18 to \$21.50. Sows sold for \$17.50 to \$19.50.

## LOCALS

Mrs. Agnes Affolter and daughter, Georgia, and another daughter and family, Mr. and Mrs. Bill Early and children, all of Dayton, Ohio, came in last Tuesday for several days visit with Mrs. Affolter's sister and husband, Mr. and Mrs. George Zeissel.

## News From The U. S. Congress

Last week the House trimmed 750 Million Dollars from the bill authorizing the foreign aid program and then approved a 3.1 Billion Dollar bill. Now this measure will go to a Conference Committee to iron out the differences between the House and the Senate. Even with this three-quarters of a Billion Dollar reduction, it seemed to me that the bill still contained too many extravagancies and unnecessary expenditures to deserve support.

Also the House defeated the Federal aid-to-education bill by an extremely close vote. This measure was defeated after an amendment providing that no funds would be available in States having segregated schools was adopted. Chances are this action on the part of the House will kill this Federal aid program for sometime to come.

Problems that have grown up affecting agriculture all through this session only emphasize the hopeless split that has developed between the people interested in agriculture over a suitable program. Committees of Congress continue to seek a means of solving this dilemma and work out a more practical and effective agricultural program.

Consideration of the "civil rights" bill continues in the Senate. It seems that much good has come from the very fine debate of this measure that has been going on there. As has been indicated heretofore, there could be little doubt but if the people generally understood the effect of some of the provisions of the administration of the "civil rights" bill, they would oppose it vigorously. This was certainly proved by the fact that as a result of the fine debate in the Senate, Section III of the bill was stricken. This was one of the most objectionable parts of the proposal, and if enacted, would have made it possible for the Federal Government to use all kinds of force which, if used, would have violated every American concept of personal liberty.

Last week Comedian Jimmy Durante was a guest at the weekly Texas Delegation luncheon. He expressed confusion over the fact that so many more people seemed to be leaving the House Chamber than entering it. He said, in fact, it reminded him of the story of the tipsy miss who was stopped by a "cop" driving the wrong way on a one-way street. "Where are you going?" the officer thundered to the young lady. "I don't know," she replied, "but I must be late because everybody else seems to be leaving from wherever I am going."

Visitors from home this week were Mr. Jim Koethe of Wichita Falls, and his mother, Mrs. David Wirz of Seymour; Mr. and Mrs. Carter McGregor of Falls; Mr. John McGregor of Wichita Falls; and Ernest Griffin of Denton.

## Knox Prairie Philosopher Offers Himself In An Experiment To Prove Man Can Stand Up To Space Flights

Editor's note: The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek discusses of all things, space flight this week. It's hard to tell what conclusions he arrives at.

Dear editor:

Among a lot of things I never expect to take any active part in is a flight through space.

If anybody else wants to, it's all right with me, just as I have no objection to a man trying to run a mile in four minutes, so long as it's him trying it and not me, but a problem has come up in space flight that has the scientists worried and I don't mind giving them the benefit of my experience.

According to an article I read last night in a copy of a newspaper an insurance salesman left here about mid-afternoon while he was trying to beat my dog to his car, scientist are now worrying over what will happen to the mind of a man sailing effortlessly through space. In case you're wondering, the salesman won.

As I understand it, when man

J. A.

breaks loose from the pull of gravity and heads out into space, he becomes weightless, and the experts are afraid he can't stand the sensation of doing absolutely nothing while his rocket ship glides noiselessly through the silent reaches of outer space.

"Space fliers, cut off from all contact, may suffer a mental breakdown in a few hours," the experts said, and suggested an attempt should be made to "design a system in which the human operators are constantly occupied with meaningful and significant tasks."

I would like to inform these

### W. M. Rowan of Knox City Dies

W. M. Rowan, 69, retired farmer, died at 3.30 p.m. Tuesday in the Knox County Hospital after a long illness.

He was born in Garland County, Ark., on October 26, 1887, and came to Texas in 1926, settling near Rochester. He later bought land three miles north of Knox City, where he lived until his retirement 12 years ago.

Mr. Rowan was a former music director in the First Baptist Church and was active in the Masonic Lodge for many years. He was a 32nd degree Mason, a member of the Knights Templar, the Maskat Temple Shrine of Wichita Falls and of the Commandery in Haskell.

Funeral services were slated for 3 p.m. Thursday from the First Baptist Church in Knox City, with the pastor, Rev. Billy Frazier, officiating. Masonic rites are to be held at the graveside in Knox City Cemetery.

Survivors include his wife; one son, Milton O'Brien; two daughters, Mrs. Jack Tankersley and Mrs. Elwood Hackney, both of Knox City; a brother, J. H. Rowan of Amity, Ark.; a sister, Mrs. Maggie Triplett of Pine Bluff, Ark.; and eight grandchildren.

### MORE WHITEWING AREA IS LEASED

AUSTIN—An additional 650 acres of habitat for white-winged doves has been obtained in Hidalgo County, it was announced today by the Executive Secretary of the Texas Game and Fish Commission. The land was leased at \$50 a year for two years from the Missionary Society, Oblate Fathers of Texas of Bexar County.

The Commission has been interested in getting additional tracts of land in the whitewing area, having previously acquired two other tracts. In this way it is hoped to maintain native white-winged nesting areas until the new citrus orchards in the valley attain sufficient size to hold the birds.

### LOCALS

Mr. and Mrs. P. V. Williams returned home Monday night from a vacation visit with relatives in Tennessee.

Mr. and Mrs. Jerry Guinn and Jan attended the Tankersley family reunion held in the Legion Hall in Haskell last Sunday.

Mr. and Mrs. Albert Johnson and Joyce visited Mr. and Mrs. Parker New in Canyon over the week end.

Pam and Butch Gilliam of Nacona are spending this week with their grandparents, Mr. and Mrs. J. H. McNabb.

Mrs. Irene Meers spent the week end with her daughter, Mrs. A. H. Laid, in Wichita Falls.

Mr. and Mrs. Ed Broach and children of Dallas visited his mother, Mrs. Nora Broach, several days last week.

Mr. and Mrs. Troy Moore visited her sister and husband, Mr. and Mrs. Clarence Wenzel, in Fort Worth last Sunday.

### Perennial Sweet Sudan Developed

A synthetic, tetraploid of the sorghum species has been developed by the Texas Agricultural Experiment Station after 15 years of breeding and selection.

This tetraploid, Perennial Sweet Sudangrass, was obtained by doubling the chromosomes of Common Sudangrass by treatment with colchicine and crossing it with Johnsongrass. It has good forage qualities with sweet and juicy stalks, good fertility and seed production qualities, and a perennial root growth habit intermediate between Johnsongrass and Sudangrass. Its roots do not penetrate as deeply as those of Johnsongrass, so it is unlikely to become a pest.

A leaflet just released by the Experiment Station, "Perennial Sweet Sudangrass," gives pertinent information on this new grass. Included in the leaflet are sections on growth habits, palatability and productivity, forage qualities, seeding habits, its capabilities as a cover crop and sources of seed. Seed should be available for planting from commercial seed companies in the summer of 1958.

Copies of this leaflet are available at the Agricultural Information Office, College Station, Texas. Ask for L-346.

### GETS ASSIGNMENT

VAN NUYS, Calif. (AHTNC)—Army Pvt. David Jones, son of Mr. and Mrs. Walter Jones, of Munday, recently was assigned to the 551st Antiaircraft Artillery Missile Battalion's Battery C at Van Nuys, Calif.

Jones entered the Army last April and received basic training at Fort Ord, Calif. He was graduated from Dunbar High School in 1956.

Internal parasites can take a slice out of the livestock producer's profits, warns Extension Veterinarian C. M. Patterson. They lower the resistance of animals to diseases, cause animals to use feed inefficiently and lower the market value of infected stock.

Charlie Tuttle of Salina, Okla., spent last week with his sister, Mrs. Tom Phillips.

Harold Paden was a business visitor in Lubbock last Tuesday.

Mrs. Wilma Dean Griffith visited relatives in Abilene last Monday.
