Odd Bits Salvaged  
By The Editor

Fall is in the air, too! Those cool fronts that blow in, giving us days when the temperature range down below the 100 mark, are what we enjoy. To us, the best thing about hot, summer weather is when it gives way to fall and cooler days.

We couldn't very well get along without air-conditioning, but we don't like it—especially the blower, evaporative type. We like to enjoy reading our newspapers unmolested, and this can't be done with much pleasure with air from a cooler blowing them out of our hands.

Another indication of fall is the fact that cotton is being gathered to some extent. Gins both at Munday and Knox City have ginned their first bales, although the crop generally is late this year.

And that brings up the general lament, especially among those of us who think of farming without irrigation. "Oh, my! There's no telling just what one good rain about six weeks ago would have done for this country!" And that's the situation in much of our county at the present time—just one more good rain would have fixed us up in god shape.

Football fans will see the Moguls in action for the first time Friday night—another indication of fall. The Moguls open the season with Class AA Seymour, as has been the custom for several years. Seymour used to be in our class of football, but in recent years they seemed to have outgrown us and entered into a higher class.

The Quarterback Club will hold its first meeting tonight (Thursday), and Charles McCauley, who is heading the group this year, is anxious to have a good attendance. Wink Partridge, program chairman, has a film on the Baylor-A&M game which will be shown, and this isn't settling well with those Baylor exes because the Bears got beat in this game. Delmon Alexander is promising the members that he will have a game in which Baylor won! He's working on it now.

You've heard the old song: "There'll Be Some Changes Made." Well, that's what's taking place at Cobb's Department Store. Royce Hanna is leaving Munday for the Brownfield store, and Royce Hanna, who comes to us from Muleshoe, is taking his place as manager of the local store. We'll still have a Royce with us!

Lions Club members have been "raking the woods" for guests and prospective members. The move at this time is two-fold. One is to have as many as possible see the picture slides on Europe being shown by Harold Paden, and the other is to secure new members for the membership drive coming up soon.

The club has been divided into two teams. Barton Carl's team had guests for the meeting on Tuesday, and Ralph Cypert's group will be inviting them to the meeting next week. "Just scout around," says Prexy Charles Baker, "and you'll find lots of people who ought to be members of the club."

Joe Bailey King is getting well situated in his new building—King's Drive-in Cleaners—and a saunter through the new building will reveal to you that he has some new equipment and lots of new gadgets to get acquainted with, but which will be plumb useful to his bunch in the cleaning business.

A little over two months ago, we celebrated our independence as a nation, yet it is amazing how dependent we are as a people. That break in the gas line that put Munday and Goree out of gas showed just how dependent we are upon this little item. The break affected practically every business and household in the two towns, and a crew of 40 or more people worked far into the night to put this item back into use for our convenience.

Mrs. F. W. Pape, president of the P. T. A., has announced that there will be an executive meeting Thursday (tonight), at 7:30. All chairmen are urged to attend. The annual reception given for the teachers has been set for Thursday night, September 19, at 8:00 o'clock.

## Mrs. Etta Chamberlain Named Acting Postmaster At Goree; Beecher Resigns

Mrs. Etta L. Chamberlain has been appointed acting postmaster at Goree, and was officially installed on Friday, September 6. L. H. Schwoerke, post office inspector of Wichita Falls, was in charge of the transfer of postmaster.

Mrs. Chamberlain replaced Elmer (Pete) Beecher, who resigned to accept employment with Key Motor Co. at Munday.

Mrs. Chamberlain has had twelve years of experience in the postal service, having served 11 years as clerk and one year as acting postmaster. She was appointed acting postmaster in 1951 after the death of her husband, who was postmaster at Goree at the time of his death. In 1952, she was reassigned to her clerk's position upon her request.

Mrs. Chamberlain has two sons, Keith of Goree, and Gaylon of Pueblo, Colo. Her parents are Mr. and Mrs. W. L. Moore, who reside on a farm near Goree.

Mrs. Mable E. Hampton served the office as acting postmaster after Mrs. Chamberlain was re-

assigned to the clerk's position. She served one year, at which time Mr. Beecher received his appointment as acting postmaster. He served in that capacity until his resignation last week.

Beecher was an employee of Broach Equipment in Munday before becoming postmaster. He returns to Munday as general manager of Key Motor Co., and is ready to serve in most any capacity to supply the needs of motorists of this area. He invites the public to call on him any time he can be of service.

He resides in Goree with his family. He has three daughters, Gayle and Nell of the home and Mrs. Tommy Greenwood, who lives on a farm with her husband and two children. His parents are Mr. and Mrs. E. Beecher of Munday.

## Oil Activities

Nylon Oil Co. of California recently reported a daily potential of 144 barrels of 44.7 gravity oil for its No. 6-27 L. D. Offutt, in the Voss (Tannehill) Field. Flow was through 18/64 inch choke from perforations at 2008-18 feet, with 150 pounds of pressure on casing and 60 on tubing. Total depth was 2054 feet.

Tom B. Medders, Wichita Falls, has set casing at No. 1 J. V. Denton, one mile northeast of Knox City, for completion attempt in the Tannehill sand. Two-hour drillstem at 2234 to 2240 feet developed gas to the surface in 40 minutes and returned 284 feet of oil and 296 feet of salt water. The venture is 1 1/2 miles southwest of the Doy Day Tannehill pool and one mile east of the North Knox City Strawn area.

W. B. Omohundro has finished No. 3 L. W. Hobert in the Plumlee (Tannehill) Field, four miles north of Munday. The well pumped 47.64 barrels of 35 gravity oil per day from perforations at 1919-27 feet, with hole bottomed at 2109. Gas-oil ratio was 320-1.

Joe F. Canterbury of Kilgore reported a daily pumping potential of 55 barrels of 38 gravity oil for No. B-1 Irene Fowler in the Goree Field. Pay was perforated at 1750-60 feet, with total depth of hole 1790. The producer, which is in the Goree townsite, was treated with 200 gallons of acid.

Streeter Oil and Gas Company of Wichita Falls has spotted No. 1 H. J. Michels as a 2,200-foot project, four miles north of Munday and 1 1/2 miles southwest of the L-M Tannehill pool.

George Blaylock and John Stricker of Dallas have abandoned No. 1 F. O. Westmorland, five miles east of Truscott, at 2503 feet.

Akin and Dimock of Wichita Falls have spotted No. 1 W. M. Rowan, four miles north of Knox City. Proposed depth is 2,500 feet.

## Funeral Services For Mrs. Rushing Held At Knox City

Funeral services for Mrs. J. L. Rushing, 70, were held last Saturday from the Church of Christ in Knox City with Minister Travis Boyd officiating. Burial was in the Knox City Cemetery.

Mrs. Rushing died unexpectedly Thursday in Lubbock. She was a native of Kaufman County and moved to Knox City in 1918.

Surviving are two sons, Roy and Henry of Knox City; two daughters, Mrs. Dan Wills of Fort Worth and Mrs. Eldon Womack of Lubbock; a brother, James Gore of Vera; two sisters, Mrs. Fred Hill of Eunice, N. M., and Mrs. Alice Phillips of Muleshoe; nine grandchildren and seven great-grandchildren.

**CINDY SUE IS NEW IN THE HAYNIE HOME**  
Cindy Sue—that is the name of the new daughter at the home of Mr. and Mrs. Gene Roland Haynie. She made her arrival in the Knox County Hospital at 7:05 a.m. Thursday, September 5, 1957, weighing 6 pounds and 10 ounces. She has an older sister, Pamela Gene, who is very proud of her new baby. Grandparents are Mr. and Mrs. B. O. Norvill and Mr. and Mrs. Charlie Haynie, Sr.

## Royce Hanna New Manager Of Cobb's Store

Royce Hanna, who comes here from the Muleshoe store, has been named new manager of Cobb's Department Store in Munday. He succeeds Royce Hardy, who will move soon to Brownfield to assume duties as manager of the store there.

This change comes as a promotion to both men involved. The Brownfield store is considered the "home store" of Cobb's, since the firm had its beginning there. Mr. Hanna has been with Cobb's for about three years, having been employed at both the Morton and Muleshoe stores. He and his wife have moved to Munday and have established residence in the Eubank apartments. His experience with the firm well qualifies him as manager, and he comes highly recommended by the firm.

The Hardy family has been in Munday most of the time since 1951, when Royce started with Cobb's. They moved to Graham for a while, where he served as manager of the store, later returning to Munday as manager. The Hardys plan to move to Brownfield next week to make their home.

## Pep Squad Boasts Over 50 Members

The pep squad is back to boost the football team again this year bigger and better than ever with 50 members excluding the leaders.

Our first pep rally will be Friday morning and the public is invited so we are looking forward to seeing every one in the Munday gym Friday morning. Let's show the Moguls we are behind them all the way. The leaders this year are as follows: Ava Mary Taylor, head leader; Lorene Armstrong, Maurice Tidwell, Audrey Trammell and Sandra Harper. The officers are Nancy Patterson, president; Sue Smith, vice president; Shir-ly Cammack secretary and treasurer. Reporters, Jimmie Del Peysen and Gwendolyn Peddy.

## Miss Betty J. Corn To Teach Voice

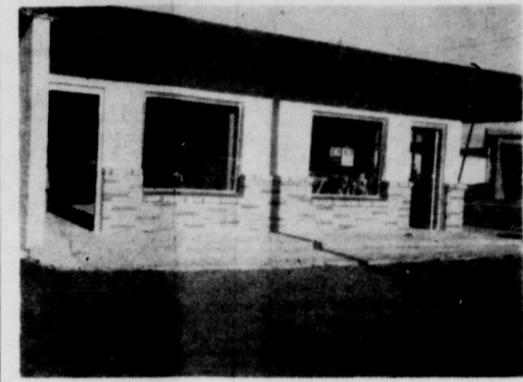

Miss Betty J. Corn, who's advertisement for voice students appears elsewhere in this issue, is a newcomer to the Munday area. She hails from San Antonio, where for the past two years she was employed by the Parks and Recreation Department of that city as director of a recreation center, while doing post-graduate work in music at Trinity University and Our Lady of the Lake College.

Miss Corn was graduated from Southwestern University, Georgetown, with the Bachelor of Arts degree. She has been a voice student of John Mizel and Gerald Ingraham, and studied interpretation with John D. Richards and composition with Sister M. Elaine, C. D. P. During recent years she has also been employed by various churches as soloist, among these are the Central Post Chapel, Fort Sam Houston, Kelly Air Force Base Chapel No. 2, Westminster Presbyterian Church and Laurel Heights Methodist Church.

**NEW HOME**—Of King's Drive-in Cleaners, front view, is shown above. Joe Bailey King, owner, and his helpers completed moving into the new building during the week end and started operations last Monday. The drive-in feature, where customers may leave their clothes without leaving their car, is located on the north side of the building. King has added many new features and new equipment to his shop; and, when all the new is worn off, they will be able to give better service than ever before. He does not plan a formal opening, but invites his customers to drop in and inspect the new building.

## Gillespie Baptist Church Is Winner Of Association Town-Country Achievement

DALLAS—The Gillespie Baptist Church at Munday has been named winner of the Town and Country Achievement Award sponsored by the Haskell-Knox Baptist Association, spokesmen said in Dallas.

The church is now competing with other associational winners in District 17 of the Baptist General Convention of Texas. Both district and associational winners will be recognized at the annual state convention in Fort Worth, Nov. 5-7, when the first state award will be made.

The Rev. Marvin E. Burgess is pastor of the Gillespie church, one of 335 Texas Baptist town and country churches participating in the competition this year. The award is designed to stimulate interest in small-church work, to recognize outstanding

achievements by pastors and churches and to help Texas Baptists broaden their concept of Christian responsibility.

Achievement competition is divided into three categories with points given for projects which help build a better church, community and world.

The association is one of 122 geographical areas in which the BGCT promotes such work each year. The denomination includes one out of every six persons in the state, with 3,754 churches and 1,524,000 members in Texas.

Approximately the two-thirds of the churches are classified as town and country congregations. Winning pastors in each district will receive a parchment scroll and the church a metal plaque which may be displayed in a prominent position outside the building.

Top state award last year went to Pastor Robert Wimpee and the Taylor's Valley Baptist Church in Bell County.

The same award was received by another Knox County church, the Benjamin Baptist Church, of which Rev. K. E. Wooley is pastor.

## Moguls To Play Seymour Friday

It's always been a good game, that season's opener between the Munday Moguls and the Seymour Panthers—and much of the time it's been a toss-up as to which team will win the game.

The Moguls will meet the Panthers next Friday night on Scruggs Field at Munday for the traditional opener of the season, which will test the possible strength of the two teams for the 1957 football season.

The Moguls have been going through strenuous workouts and practice periods for several weeks in preparation for the season, and they are expected to show good form in this opening game.

The Panthers, who have been playing Class AA football for the past several seasons, have earlier been cited as the team to watch for an upset in their district this year.

Tickets for the game went on sale early this week at the Chamber of Commerce office, and all fans who possibly can be urged to secure their general admission tickets ahead of the game in order to avoid too much congestion at the gate at game time.

## Miss Spann Attends Meeting Of Youth

Miss Bera Faye Spann, daughter of Mr. and Mrs. Oscar Spann, attended a meeting of Northwest Texas Conference Methodist Youth Council at Forrest Ranch near Slaton last Friday and Saturday. She serves as vice president of the organization being elected to the council at the annual youth meeting of the Conference Youth in Plainview in June.

This summer she worked as youth director in the First Methodist Church in Levelland. She will enter McMurry College in Abilene this week as senior student. There she is a member of Delta Beta Epsilon, social club, Alpha Chi Honorary Society Volunteers and will serve as treasurer of Christian Foundation, student religious organization. Her major is elementary education.

## Annual Drive For Salvation Army To Begin

The annual Salvation Army drive in Munday will begin next Tuesday, September 17 with a 7 a.m. kick-off breakfast at the American Legion Hall.

Dr. Delmon Alexander is the campaign chairman this year for Munday, Goree and Vera. He states that he will have ten team captains in Munday and each team captain will have four workers making a total of fifty people helping with the drive. Local campaign chairmen have not yet been appointed in Goree and Vera.

According to M. L. Wiggins, Chairman for Salvation Army work locally, "this has been the busy year for us, we have helped many more people this year than in any other twelve-month period."

Salvation Army work in Munday is set up to take care for immediate emergency welfare needs without any "red tape." All decisions as to who will be given help and the amount of help are made by the local committee. All of the state services of the Salvation Army are available to this committee when needed. These services include: 12 disaster canteens, home and hospital for un-wed mothers, summer camping program, prison parole, mens social service centers, and numerous other down-to-earth activities of The Salvation Army.

## Mrs. Castleberry Passes; Rochester Rites On Friday

Funeral services were held at 10 a.m. Friday from the First Methodist Church in Rochester for Mrs. Walker M. Castleberry, who died of a heart attack at 11:30 a.m. Wednesday at her home in Munday. Mrs. Castleberry, a former resident of Rochester, was 53 years of age.

Lester Rains of Stamford, zone servant of Jehovah Witnesses, officiated and was assisted by Rev. Davis Edens, pastor. Burial was in Rochester cemetery.

Mrs. Castleberry and her husband, a cotton gin operator, moved a short time ago to Munday, where he is operating a gin. She was born Feb. 11, 1904, in Johnson County, and was married to W. M. Castleberry in 1933.

Surviving are three sons, Jack Speck of Bula, Gerald Speck of Irving and Leroy Speck of Oklahoma City, Okla.; three daughters, Mrs. Paul Johnson, Mrs. Orban Tibbets and Mrs. Lunny Hollingsworth, all of Rochester; one brother, Fate Ryals of Madill, Okla.; one sister, Mrs. Olin Collins of Fort Worth; and 11 grandchildren.

## RHINELAND SENIORS SELECT CLASS RINGS

The seniors of Rhineland High School have selected their class rings for this year. They are oblong with slash of white gold across the top with the raised letters "RHS" in black. The numerals appear on the sides surrounded by scroll work. They are eagerly awaiting their arrival on November 1st.

**ENTERS HOSPITAL.**  
Mrs. Rose Jones was admitted to Bethania Hospital in Wichita Falls last Monday for examination and medical treatment.

Dr. and Mrs. Joe Nelson and daughter of Weatherford visited her parents, Mr. and Mrs. Clyde Nelson last Thursday.

### THE ENEMY ON THE HIGHWAY

This nation spends some \$40 billion a year to maintain its military defenses, in the hope that another war and the toll of death, destruction and human misery that would follow can be prevented.

Yet, each year, the toll of death, destruction and human misery caused by highway accidents — of which the major cause is excessive speed — rivals the casualty lists of wars of the past fought with conventional weapons.

It is true, of course, that a nuclear war would undoubtedly produce casualty lists infinitely greater than those of conventionally-fought wars. It also looks as if there is a percentage of drivers who are hell-bent on sending the highway toll up to the potential nuclear-war level. These are the drivers who make race-tracks of public highways — though they have none of the rare special skills of the accomplished race-driver, and are at the wheels of cars which, whatever their other virtues, have none of the special characteristics of race-cars.

The speeder is as much a menace as an enemy soldier bent on our destruction.

### THREAT TO FREE SOCIETY

Publisher Norman Chandler of the Los Angeles Times and Mirror-News has said that "big labor" doesn't disturb him as an employer — but it does disturb him as a threat to free society.

Mr. Chandler then made a series of proposals. One is that big labor be brought into legal line with the rest of American society, and be treated the same by the law. Another is to make all unions "free associations"—which simply means that no man could be compelled either to join or not to join. Another is that the union should be subject to the anti-trust laws, which apply to all other organizations.

Mr. Chandler's proposals are in no way extreme. They would simply put labor on the same legal basis as everything else in this supposedly free country. And what reasonable argument can there be against that?

FREDONIA, N. Y., CENSOR: "Mao-Tse-tung is now reported to have admitted that 800,000 people were liquidated by his regime up to 1954. The news seems cold in print. But it should be dwelled upon . . . How many regimes in all history have executed as many as 800,000 human beings?"

### SAFE ON THIRD

The batter who gets on first or second base has a chance to go places. But if he is to score he also must get past third.

The same principal holds for polio vaccination. Here's the way it works:

The Salk vaccine sets up protecting antibodies in the bloodstream that prevent the polio virus from destroying the nerve cells, thus paralyzing the muscles.

One shot of vaccine sets up antibodies in some people. Two shots set up antibodies in people who do not react to the first shot. Three shots set up antibodies in about 90 per cent of the people and provide maximum immunity—that is, the most protection for the longest time.

If you're one of the more than 70 million people who have had your first shot, remember this: THREE ARE ESSENTIAL. Like a baseball batter, you must be "safe on third" before you can score in the polio war. And if you're one of the 39 million under 40 years of age who have had no shots at all, you'd better go to bat at once.

In concluding an editorial quoting Mr. Hoover, the Portland, Oregon, Journal states a plain fact: "There will be no safety on the roads until motorists obey the laws willingly or are made to under sure and certain sentences to jail, if necessary. Fines and suspended sentences are a cruel hoax."

### POT CALLS KETTLE BLACK

The president of the United Steelworkers, while accepting a 15½ cent hourly wage boost for his members, criticized the U. S. Steel Corporation for raising prices to meet the \$1.24 a day increase in pay.

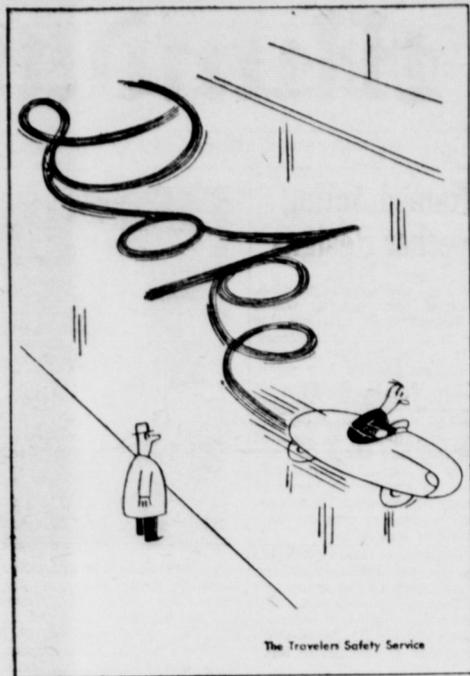

Every storekeeper, garage owner, barber or beauty parlor operator knows they have to raise prices if they increase wages \$1.24 a day.

The steelworkers set the pattern for the last round of wage increases and now the circle has started again.

When the president of the steelworkers said to the U. S. Steel Corporation, "I recommend that the corporation take a long, hard look at its pricing policies which can only have a damaging effect on the entire economy," he should have applied it to his own organization's policies — they both promote inflation.

It doesn't beautify the pot to call the kettle black.

## MODERN HOMEMAKING

Recipes . . . Household Helps

By Julia Hunter

HOME ECONOMICS DIRECTOR, LONE STAR GAS CO.

We are quite proud of an anniversary we are observing. This is the twenty-fifth anniversary of Lone Star's Home Economics Department. Ours was one of the first such departments to be established in a business firm in the Southwest. From a department started with one graduate home economist, we have grown to a staff of some 30 graduate home economists stationed at strategic points throughout Lone Star territory.

From the beginning, it has been the objective of this department to serve homemakers by assisting them with the many questions and problems that arise in the important job of homemaking. The many homemaker friends gained, the hundreds of pleasant experiences and the daily requests for assistance indicate accomplishment towards this objective. Since homemakers have contributed so greatly to growth and success of the department, they were called to select the anniversary cake recipe to be used in connection with the celebration. A recipe contest was conducted and hundreds of recipes were entered. There were white cakes, spice cakes, fruit cakes, chocolate cakes, pound cakes, butter-milk cakes, milkless cakes, eggless cakes, every kind of cake.

Judges for the cake contest had a tremendous task and a difficult one. Recipes were read and reread and cakes were baked, looked at, cut, sampled and dis-

cussed. Finally, a winner was selected. This lucky person, who received a 1957 thermostatically controlled top-burner gas range of her choice, was Mrs. Charles Williams of Gatesville, Texas.

The winning recipe makes a delicious and beautiful cake. While it was chosen as an anniversary cake, it is one that would suit any occasion.

### Recipe Of The Week

**Blue Flame Anniversary Cake:**  
 Cream ¾ cup butter or margarine and 2 cups sugar together until fluffy. Sift together 3 cups sifted cake flour, 3 teaspoons baking powder and ½ teaspoon salt. Combine ½ cup milk, ½ cup water and 1 teaspoon vanilla. Add the liquid mixture to the creamed mixture alternately with the sifted dry ingredients, beginning and ending with dry ingredients. Mix well after each addition. Beat 6 egg whites until stiff and fold into batter. Pour into three 9-inch pans lined with waxed paper. Bake in moderate gas oven (350 degrees F.) 25 minutes. Remove from oven, let stand in pans 5 minutes, remove from pans and place on racks to thoroughly cool. For the frosting, combine 3 cups sugar, 1 cup water and 1 teaspoon cream of tartar. Bring to boil over full gas flame and boil until sirup forms a firm ball in cold water (242 degrees F). Pour hot sirup slowly over 3 stiffly beaten egg whites, beating constantly until mixture is of

**IT'S THE LAW**  
*in Texas*

**THE U. S. MARSHAL.**  
The judge can make decisions, reach judgements, and issue orders, but somebody has to carry them out. On the state level, our sheriffs do this job, but for the United States courts the U. S. Marshal does the work—and busy men he and his deputies are.

The U. S. Marshal is a kind of federal sheriff named by the Attorney General for four years. He takes orders from the administrative office of the U. S. courts and the judge of the court he

serves.  
The Marshal, like the sheriff, has his deputies. They make arrests on federal warrants, serve papers in lawsuits in the federal courts, subpoena witnesses, summon jury men, and seize property on federal court writs.

The marshal also manages the money set aside for federal courts, paying federal judges, witness and jury fees, and the board and room of federal prisoners held in local jails.

Unlike the county, the federal government has only a few local jails. So the marshal keeps prisoners awaiting trial or commitment in county and city jails at federal expense.

For prisoners held a few hours while waiting to appear for trial or to make bond, the marshal usually has a small lockup in his office.

The marshal takes prisoners sentenced for "a year and a day" to a federal penitentiary, but those with a shorter term stay in local jails.

There is often excitement in the marshal's work, but mostly

he follows through for the courts. In the old days when much of the west was territories instead of states, he often had the job of local law enforcement now taken over by the police and county sheriff.

(This column, based on Federal law and prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

**Western Cattle Movement Hits New High Monday**

FORT WORTH—Despite the fact that cattle numbers going to market in the Southwest continue to be below normal this year, the other parts of the nation are proceeding to cash fully normal numbers. The nation's twelve major livestock markets reported over 143,000 cattle and calves Monday, the largest of the Fall season. Chicago with 25,000 and Omaha with 23,000 led in numbers.

Cattle prices were inclined to weakness at virtually all points and despite relatively light numbers prices at Fort Worth were lower on steers and cows. Fed steers closed 50 cents lower and cows closed 50 cents to \$1 off. Bulls were fully steady.

Slaughter calves and stocker and feeder classes of cattle continued to sell steady at Fort Worth.

Good and choice slaughter steers and yearlings sold from \$20 to \$23.50, and common and medium offerings sold from \$13 to \$19. Fat cows drew \$12.50 to \$14, and canners and cutters sold from \$8 to \$12.50, with some shelly lightweights attracting bids below \$8. Bulls sold from \$11 to \$15.50.

Good and choice slaughter calves bulked at \$17.50 to \$20, and common and medium offerings sold from \$12.50 to \$17.50. Culls sold from \$10 to \$12. Stocker steer calves of good to choice grades sold from \$19 to \$23; heifer calves ranged from \$21 downward. Stocker steer yearlings sold mostly from \$20 downward, a few lighter weights to \$20.50.

**Feeder Lambs Rally; Slaughter Type Lower**

There was a flurry of activity on stocker and feeder lambs at Fort Worth Monday, with some shearing type feeders getting to \$20, and the trade in general was 50 cents to \$1 higher on replacement lambs. Good to choice feeder lambs cashed at \$18 to \$20, those at the higher figure at 65 pounds. Some heavy feeders of near 80

**Electric Cooking is COOL**

It's truly an exciting song when you have an electric kitchen. You feel so thoroughly modern with electricity to help with every task. Electricity keeps and cooks the food, does the dishes, makes the meat and coffee and even stirs the cake. It's dependable too! Night or day, whenever you flip a switch, you know electricity is there, ready and willing.

Cool, of course it's cool, because the best cooks the food and not the cook. Electricity is so inexpensive you can use a lot of it.

### A GRANDSON FOR J. B. SCOTT FAMILY

And now the J. B. Scotts have a new grandson and they are very happy to announce his arrival. He is the son of Mr. and Mrs. Durwood Scott of Muskogee, Okla. He made his arrival Saturday, September 7, 1957, weighed seven pounds and six ounces and has been named Joseph Dwain. His big three-year-old sister, Darla, is very excited over the event. The boy's other grandparent is Mrs. Walter Stephens of Eden, who is with them helping take care of the little fellow.

### Munday H. D. Club Meets Wednesday In Almanrode Home

The Munday Home Demonstration Club met Wednesday, September 11, in the home of Mrs. R. M. Almanrode with the president, Mrs. Joe Patterson, presiding. The council report was given by Mrs. Almanrode.

In the business meeting the club voted to serve a meal on September 26th. The president appointed Mmes Almanrode, Tolby Winchester and Otis Simpson to make the menu and to assign each member her duties.

The report of the State meeting of the Texas Home Demonstration Association held at the Rice Hotel in Houston was given by Mrs. Almanrode, the only woman to go from the county.

Refreshments were served to Mmes. J. O. Tynes, Tolby Winchester, Otis Simpson, John Peysen, Joe Patterson, a visitor, Mrs. L. S. Partridge of Bowie, and the hostess.

The club will meet September 25 in the home of Mrs. Joe Patterson and officers are to be elected at this time.

### Wesleyan Service Guild Picnic Held On Monday Night

A patio picnic supper reopened the Autumn program for the Wesleyan Service Guild at the home of Mrs. C. P. Baker last Monday night.

The program was resumed with a very inspiring devotional by Mrs. Janie Almanrode.

Mrs. Francis Haynes, director of a four course study on Japan, brought to the group interesting facts on Christian education, customs and habits of the Japanese people. The main purpose of this study is to learn the great necessities of this country and how they can be helped by our contributions.

Twenty-one members and two visitors were present. Hostesses for this occasion were Muriel Mitchell, Francis Haynes, Ruth King, Julia Mae Hicks and Marie Baker.

Mr. and Mrs. E. Beecher returned home last Sunday after a weeks visit with their children. They visited their son, Edgar Beecher, and family in Dimmitt and their daughters and families, Mr. and Mrs. Leslie Halloway and Mr. and Mrs. Loy Dutton, in Lubbock. They also visited two granddaughters and their families. Mr. Beecher reported the prettiest crops he had ever seen and lots of fresh vegetables to eat. Mr. and Mrs. Beecher lived on the plains fifty-six years ago at Escado. The plains doesn't look now like they looked then he stated.

Mr. and Mrs. Virgil Yost and Phyllis visited Mrs. Yost's sisters and families in Lubbock over the week end. Mr. and Mrs. E. Beecher returned home with them after a weeks visit on the plains.

Mrs. Dessie Fields has returned home after a few days visit in Port Arthur to be with her mother who is ill and is in the St. Mary's Hospital. She reports her mother to be improving.

### HEAT WAVE

This little miss has her own ideas about cooling off on a hot day. The sidewalk may be just right for frying an egg, but her can of orange soda and costume help her ignore the heat.

### Party Honors Coy Tuggle On Fourth Birthday

Robert Coy Tuggle celebrated his 4th birthday on September 3 in the home of his grandparents, Mr. and Mrs. Ben Tuggle.

Door prizes were balloons and paper hats. Games were played and ice cream and cake were served to the following children: Debbie Armstrong, Carrol Allison, Gary and Jimmy Howerly, Mike, Rickie and Connie Sue Brazzel, Billie Sue Walker, Nadine and Jimmy Lee Bell, Donna Cyfert, Allan Tuggle and the honoree, Robert Tuggle.

Those sending gifts who were unable to attend were Judy Brown, Jan and Carol Hosea and Pat Hobert. Everyone reported a nice time.

### Gilliland Club Meets Sept. 4th; Officers Elected

The Gilliland Home Demonstration Club met on Wednesday, September 4. Mrs. W. T. Cook called the meeting to order, with Mrs. Dwight Burgess giving the devotional. Mrs. O. R. Miller directed two games, and Mrs. Sam Stone, food demonstrator, read a report.

The club elected officers for next year, as follows: Mrs. W. T. Cook, president; Mrs. Charlie Groves, vice president; Mrs. Leonard Welch, secretary and treasurer; Mrs. O. R. Miller, council delegate; Mrs. Arnold Navratil, alternate; Mrs. Dwight Burgess, reporter; and Mrs. W. L. Cook, 4th leader.

### Methodist W. S. C. S. Meets Tuesday In Church Service

The Woman's Society of Christian Service met in the church Tuesday, September 10, at 11:00 a.m. Mrs. J. F. Michael gave the devotional.

Mrs. W. R. Moore, Jr. was in charge of the program, "Missions Cinerama". Mrs. G. R. Eiland and Mrs. J. C. Rice were on the program.

A covered dish luncheon was served at 12 noon at which time Mrs. J. S. Shannon was presented a life time membership pin by the president, Mrs. W. R. Rodgers.

### Gems Of Thought

"Beauty Of The Good"  
Don't waste yourself in rejection, nor bark against the bad, but chant the beauty of the good. —Emerson

The man who tries to work for the good, believing in its eventual victory, while he may suffer setback and even disaster, will never know defeat. The only deadly sin I know is cynicism. —Henry L. Stimson

It is a sad thing to begin life with low conceptions of it. —T. T. Munger

I say frankly that above all I would rear children who have zest for life, who will see the world as interesting, dramatic and good. —Leslie Hohman

It seems to me we can never give up longing and wishing while we are thoroughly alive. There are certain things we feel to be beautiful and good, and we must hunger after them. —George Elliot

God is good, and good is the reward of all who diligently seek God. —Mary Baker Eddy

### Beta Chi Chapter To Meet Here Next Saturday Afternoon

Members of Beta Chi chapter, Delta Cappa Gamma, international society for women educators, will meet in the first meeting of the fall season on Saturday afternoon, in Munday High School Band Hall, with Munday members of the organization serving as hosts.

Mrs. Luther Burkett, president, will preside for the business meeting when reports of the chapter's work throughout the summer will be reviewed. Plans for the group's participation in the Regional meeting to be held in Wichita Falls will be announced by Mrs. Burkett. Mrs. A. D. Martin, first vice president from Aspermont, will reveal plans for year's course of study and committee chairmen will be named.

### Hallock Named To Atomic Energy Research Foundation

Houghton R. Hallock, who recently retired from the U. S. Army Corps of Engineers after 20 years service, has been elected executive vice president of the Texas Atomic Energy Research Foundation it was announced by Cal Young, WTU President and a Director of the Foundation.

The Foundation, organized last April by eleven Texas electric power companies, has contracted with General Atomic Division of General Dynamics Corporation for a joint \$10 million, four-year research program.

The objective of this long-range research program is to develop an understanding of the basic processes which may make possible the generation of electric power by nuclear fusion.

Colonel Hallock, who served from 1951 to 1954 at Fort Worth District Engineer, U. S. Army Corps of Engineers, returned in June from army duty on Okinawa.

### Tax-Man Sam Sez:

A lot of Texas widows pay the wrong income tax on the sale of community property after their husband's death. In community property states like Texas, the value of the property changes to whatever the fair market value is on the date of death of either the husband or wife.

If you are a widow or widower and you paid \$1,000 for some land quite a few years ago and it is worth \$200,000 on the date of death of your husband or wife, it could save you the tax on \$99,000 to look into the law on this.

Lt. Gerald Morrow of Bryan Air Force Base who has recently completed jet instructor school at Craig A. F. B., and his fiancée, Miss Peggy Rater, of Wichita Falls were recent guests of his mother, Mrs. Freddie Morrow.

### Munday, Goree Without Gas For Few Hours Tues.

People of Munday and Goree know what it is to do without one of its major utilities—natural gas. These towns were without gas for several hours last Tuesday.

A road grader in operation just west of Munday uprooted a four-inch main of Lone Star Gas Co. at about 4:30 p.m. Tuesday. This line supplies both Munday and Goree with natural gas, and service was entirely disrupted.

Crewmen of the gas company went into action immediately and by around 10 p.m. the meters were being turned back on. All meters in both town were turned off until repairs were made, then came the job of turning them back on and lighting all pilot lights. This was not completed until sometime Wednesday.

About 40 workmen from Seymour, Knox City, Stamford, Abilene and Munday were pressed into service to get service back to normal as soon as possible.

J. C. Doss of Stamford, transmission foreman, supervised repairing of the break. In the absence of E. L. Edwards, district manager of Seymour, who was in a meeting at Mineral Wells, distribution was supervised by Arthur Lawson, distribution foreman of the Seymour district.

O. F. Gates, local manager, set up an emergency kitchen in the Munday office to supply sandwiches and coffee for the workers, who remained on the job until 2:30 a.m. Wednesday, although they began turning meters back on by 10 p.m. Tuesday.

Phillips attended Munday High School.

### BIRTH ANNOUNCEMENT

Mr. and Mrs. Jimmy Peek of Pasadena are announcing the arrival of a son on August 26, 1957. He weighed 7 pounds and 6 ounces and has been named David Virgil. He has an older brother, Jimmy, who is glad he has a little brother. Grandparents are Mrs. Lucille Stodghill and J. L. Stodghill of Munday and Mrs. Bessie Peek of Goree.

### LOCALS

Mrs. Erin McGraw visited Mr. and Mrs. Orman Moore and daughters in Wichita Falls last Sunday and Monday.

Miss Henrietta Hertel, who has enrolled in school at Wichita Falls, spent the week end with her parents, Mr. and Mrs. W. C. Hertel.

Mr. and Mrs. Charles Sargent and Lou of Fort Worth and Mr. and Mrs. J. A. Hill, Sr., have been vacationing in Corpus Christi and Old Mexico for a few days.

Mr. and Mrs. W. B. Hayley and children of Fort Worth were Sunday guests of Mr. and Mrs. Jim Henslee and Mr. and Mrs. Leland Floyd and Carol.

Pvt. and Mrs. Joe Lynn Phillips left Tuesday for Fort Leonard Wood, Mo., where he will attend mechanic school. Pvt. Phillips spent his leave here with relatives.

Mr. and Mrs. A. B. Warren visited Mr. and Mrs. Joe Duke and Jo Ann in Lovington, N. M., over the week end.

Mr. and Mrs. Mahlon Boggs returned home last week from a ten day visit with their daughter and family, Mr. and Mrs. Randall Walling and children, in Cortez, Colo.

### Quarterback Club Will Meet Tonight

The first meeting of the Munday Quarterback Club will be held tonight (Thurs.) at the athletic field. Football players

and their parents will be guests at this meeting. Charles McCaulley, president, has announced. For entertainment, a film on the Baylor-A&M game will be shown. Refreshments will be served, and all members are urged to be present.

### RECEIVES HIS DEGREE

Ward Cooksey received his B. S. degree and commission from Hardin-Simmons University in Abilene on August 23. He and his wife have moved to Monahans, where Ward will teach mathematics and Mrs. Cooksey commercial

work. Ward is the son of Mr. and Mrs. Melvin Cooksey of Goree. Attending the graduation exercises from Goree were Mrs. W. Cooksey, Mr. and Mrs. Melvin Cooksey, Mr. and Mrs. Gerald Myers and Tommie Peek.

## Texas Mesquite; Curse Or Cure?

One of the outstanding developments to come of agricultural research in recent years has been the discovery that common mesquite wood can be made useful as an edible roughage for cattle.

During the past two decades, Texas farmers and ranchers have been fighting a common enemy in the die-hard mesquite which has spread in abundant growth from the Rio Grande Valley northward.

In an effort to reclaim the countless acres of grassland all but lost to dense undergrowths of mesquite brush, a number of eradication measures have been applied, varying from oil treatment to mechanical uprooting.

Then, just a few years ago, someone got the idea of grinding some tender mesquite into meal and analyzing the product chemically to determine its food value. The analysis showed that mesquite had a higher protein, fiber and calcium content than cottonseed hulls. Another essential nutrient not present in many dry roughages, Vitamin A, was also found in the mesquite meal. Fat

and carbohydrate content was slightly lower than in usual roughages.

In subsequent feeding tests at the Spur, Texas, Agricultural Experiment Station, the mesquite meal was mixed with other concentrates plus the important addition of molasses which serve to give the feed moisture, sweetness, and a more desirable odor. In every instance, cattle fed on mesquite meal not only suffered no ill effects but gained weight in similar ratio to cattle fed on other roughages.

This does not mean that all other meals and roughages should be thrown out in favor of mesquite, but it does mean that mesquite may prove to be a dependable source of rough feed during time of drought when feeds are scarce and high in price.

In the trial feeding periods, it was found that branches and stems with slick bark provided better feed than larger, dryer tree parts. Also, freshly-ground wood proved more palatable than dry wood and fresh supplies were ground weekly.

In order to prepare mesquite meal as a cattle roughage, a wood chipping machine costing about \$1,200 delivered in Texas, a heavy-duty hammer mill, and a molasses mixer are needed.

## Weekly Health LETTER

Issued by Henry A. ...  
M. D., State Health Officer  
of Texas

AUSTIN—A wise man once said, "Who would not give a trifle to prevent what he would give a thousand worlds to cure."

These words take on a great deal of meaning when viewed in the light of the many advances in medicine and public health made in the last 50 years in the United States and throughout the world.

Medical research has brought about many outstanding drugs and spectacular operations which save individual lives and relieve suffering, but most outstanding and spectacular are the advances in preventative medicine that have been made which stop suffering before it starts—the proverbial "stitch in time."

Economically speaking, preventive medicine has saved the people of the United States countless dollars. One example is retrolental fibroplasia, an eye condition marked by the formation of fibrous tissue behind the crystalline lens. It is seen in many prematurely born babies and causes partial or total blindness.

For years the disease was thought to be a result of premature births. However, a study supported by both federal and private financing, established the cause of the trouble as due to the faulty administration of oxygen, (used extensively in incubators for premature infants).

This study cost approximately \$50,000. Today there are about 5,000 blind children in the U. S. who are victims of retrolental fibroplasia. Each child will cost an estimated \$100,000 each for

education, training and support from birth to death—or a grand total of \$500 million.

Thus, the cost of care for 5,000 children will be, for our generation, 100,000 times the cost of the prevention for the future.

Advances in public health coupled with the discovery of wonder drugs raised the life expectancy for persons now born to over 70 years of age. In the 17 year period between 1937 and 1954, it increased 9.6 years.

This means that in 1955 alone, through this decline in the death rate, over \$770 million additional federal income taxes was received by the government, to say nothing of the earning power and productivity resulting from an increased span of life.

There is no doubt about it, public health and research pays off!

Senator Lyndon Johnson has been described as one of the most persuasive men Washington has ever known. If you think the description exaggerated, here is an incident:

In 1948, Johnson was running for the Senate. It was the last day of the campaign. The race was close—(actually, the margin proved to be only 87 votes).

I was in the office of a San Antonio businessman who was the hotel lobby, I'll see you right after the visit with Johnson. It won't take long. Then we can talk about that subject you want to write about."

Afterward, he told me about the interview with Johnson. "I never met a man who was more pleasant, more alert, more dynamic, more eloquent—and, as Dr. and Mrs. A. A. Smith left Sunday for Temple to visit Mrs. Effie Alexander at Scott and White Hospital a few days before bringing her home on Tuesday. She is reported to be getting along fine after undergoing surgery two weeks ago.

"I never met a man who was more pleasant, more alert, more dynamic, more eloquent—and, as

I listened. I found he was expressing my views to perfection. I promised to vote for him and to get my friends to do so."

I knew something had happened because when the man got out of the elevator, he had an expression as though he had been hypnotized. He looked right at me without the slightest sign of recognition and walked on out.

Two hours later, he telephoned to apologize and explain.

Since that time, I have never

questioned any statement as to Senator Johnson's ability to gain friends and influence people.

Ring Lardner once wrote about another author, Irvin S. Cobb: "Mr. Cobb is never as happy as when he is among his books—of which he has a complete set."

Theodore Roosevelt once spoke with pity for "those cold and timid souls who have known neither victory or defeat."

### Every Texas County Represented In Big Farm Show At State Fair

By ROY RODDY  
State Fair Agriculture Writer

Folks nostalgic for the country fairs of yesteryear with their mass displays of cotton, grain, vegetables, fruits and other farm produce will find much to cheer reminiscence at the State Fair of Texas in Dallas, October 5-20. For the State Fair, to live up to its name, must represent all Texas, and that means every one of the state's 254 counties.

That's a pretty large order, even for an exposition as big as the State Fair. To fill it properly, the State Fair would have to give all its 187 acres to the Agriculture Show alone. So the Fair has settled for mass displays of the major crops of the state's twelve Agricultural Extension Service Districts, those departments under which the county farm and home demonstration agents serve. In this way, every Texas county will be represented.

And the cotton, grain, vegetables and fruit will be there in abundance, just as if the Fair had tilled Nature's cornucopia and let the green and golden harvests pour into the exhibits. The exhibits will reveal the amazing bounty of Texas' good earth.

Shown from the Panhandle will

be wheat, grain sorghums, cotton, sugar beets, alfalfa, Irish potatoes, fruits and vegetables; from the South Plains, cotton, grain sorghums, alfalfa and commercial vegetables; from the Rolling Plains, cotton, beef cattle, wheat and grain sorghums; and from North Texas, dairy products, swine, cotton, small grain, grain sorghums, corn and peanuts.

Major crops of Northeast Texas on display will be livestock, fruits and vegetables; of the Big Bend, cattle, sheep and wool, goats and mohair, alfalfa, vegetables and long staple cotton; of the Edwards Plateau, goats and mohair, sheep, beef cattle, grain sorghums, small grains and poultry; and of the Heart of Texas, cotton, cattle, peanuts, corn, grain sorghums, vegetables, peaches and pecans.

Other districts will include the Piney Woods with its forest products, broilers, beef and dairy cattle, vegetables and swine; South Texas with its flax, broom corn, poultry and beef cattle; the Gulf Coast with its rice, cattle, fruits and vegetables; and the Rio Grande Plains with their citrus fruit, vegetables, grain sorghums and cotton.

### Letters From The People

#### REQUIREMENTS FOR GRADUATION FROM HIGH SCHOOL STIFFENS

More and more we are hearing something concerning requirements for high school graduation. Yes, the state is now considering the requirement of 20 credits for high school graduation. But at present only 16 credits are required for high school graduation and for college entrance. Twelve of the sixteen credits must be academic credits. Three credits in English, three in history and civics, three in mathematics, and two in science one of which must be general science. The other science may be satisfied by taking two years of vocational agriculture or two years in home making.

Other elective subjects, as band, speech, commercial subjects as typing, bookkeeping, shorthand, football and others.

Someone has started the rumor in the community that vocational agriculture and home making will not count toward high school graduation. This is an error. Vocational agriculture and home making are the only subjects which the state says may be substituted for science or any other subject. Practically all colleges accept them as such.

Agriculture means life to this community. Stop agriculture and the bank will close, the stores will close, the automobile shops will close. In fact we will have no town. Stop agriculture and the world will starve. Then why should a high school boy not take some credits in a subject that supplies more jobs for them than any of the others? Each year, 15,000 new jobs occur in the eight fields of agriculture. How many people depend on agriculture either directly or indirectly in your community?

Earl R. Ponder,  
Vocational Agriculture  
Teacher

#### BULLETINS ANSWER QUESTIONS ON SURFACE AND GROUND WATER

What is surface water? What is ground water? Is it lawful to use them for irrigation? If so, how much of this water can you use? Is a permit necessary?

These questions and others of similar nature are being asked by farmers relative to an individual's rights to use surface or ground waters for irrigation.

Robert Thurmond, extension agricultural engineer, has prepared two bulletins, MP-214, "Questions and Answers on Ground Water Laws in Texas for Irrigation," and MP-215, "Questions and Answers on Rights in Surface Water for Irrigation."

Persons interested in this subject will find these bulletins very helpful and informative. They may be obtained from local county agents or from the Agricultural Information office, College Station, Texas.

### Seating Of Mexican Nationals On Buses Outlined By U.S.D.L.

LUBBOCK—The U. S. Department of Labor has announced minimum seating standards for all buses used to transport Mexican Nationals, effective immediately.

Dempsey L. King, Field Representative for the Labor Department's Bureau of Employment Security here, said the standards, announced in Washington, had just been relayed to him by Regional Director Ed McDonald in Dallas.

At least 16 inches of seating space must be provided for each such passenger, and all seats are to be securely fastened to the vehicle, he said.

Aisle seats are prohibited on buses with a seating capacity of more than 10 persons, unless such seats are designed and installed so as to fold and leave a clear aisle when they are not occupied, he added. If aisle seats are used on buses with a capacity of 10 or less, they must be secured to the vehicle.

In lieu of this regulation, seating space requirements prescribed by the State in which the bus operates, or size requirements by the Interstate Commerce Commission may be followed, but in no case is the individual seating space be less than 16 inches.

Mr. King said he was particularly concerned with seeing that the new requirements were known and understood by all employers of Mexican Nationals in this area who do not use commercial carriers to transport their workers.

### MRS. ROBINSON HONORED ON 93RD BIRTHDAY

Mrs. Leah (Grandma) Robinson, former resident of Goree and mother of W. E. Robinson of Goree, was honored with a birthday party at Hayden, Ariz., recently on her 93rd birthday. She makes her home with a daughter, Mrs. Lela Pasco.

Grandma Robinson, pretty as a picture, was gay as any of her friends who attended the party at the Pasco home. Mrs. Fred Rees arranged the party and was assisted by Mrs. Key Gray and Mrs. W. M. Hughart, all of Hayden. She received a shower of greeting cards and good wishes from her friends. Each guest brought a sum of money, not exceeding 93 cents, to be presented to the crippled children's home in Mrs. Robinson's name.

A small cardboard replica of an upholstered wheel chair was created by Mrs. Rees to contain the coins, as "Grandma" blew out the candles on her birthday cake. She declared that the most precious gift in life was good friends, and she was very fortunate in having so many.

Present at the party were her son and daughter-in-law, Mr. and Mrs. Roy Robinson of Mesa; her daughter, Mrs. Lela Pasco, and a host of friends.

# Knox Prairie Philosopher Alarmed Over The Proposal To Find Out How Many Farmers Are Really Necessary

Editor's note: The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek probably is unduly alarmed about the matter he's discussing this week, but if it wasn't that it's something else.

Dear editor: I've always felt that while nobody in Washington can solve the farm problem, it didn't hurt to have them try, it's nice to have them talking about it, it's comfortable to know you're not forgotten, but now I've changed my mind. You can run this thing into the ground.

For instance, I was reading in a newspaper last night which somebody had used to stuff around a set of teacups my wife got through the mail from some of her kinfolks—only three of em were cracked, probably before they were packed anyway—where a committee in Washington is planning on making a survey to determine how many farmers this country needs. They've got the idea there may be entirely too many of us and if so maybe a good many ought to quit and move to town and try something

history of production, it has been found you are unnecessary and your name has been removed from the list of farmers in this country. Severe penalties for violating this order will be enforced."

You can see what this would do to me, and I think if I tried right hard I could name a few others in this vicinity.

Furthermore, if they found out this country has more farmers than it needs, what's to keep them from finding out it's got more filling stations than it needs? Or more grocery stores? Or more automobile dealers? Or more Congressmen? Or more newspapers? Or more women?

It may be true that 20 per cent of the farmers could quit and move to town and the country would still be well-fed and well-clothed and Sec. Benson would still have a surplus to worry about, but I have a notion you could shut down 20 per cent of the

filling stations and nobody'd have to go without gas, or even wait in line. Yet they're still putting em up in cities, every time they find a vacant corner lot. And it's possible, with a fifth less Congressmen, we still might get just as many laws turned out. Let's drop this whole thing. Yours faithfully, J. A.
