# **Revival To Open** Next Sunday At **Baptist Church**

Dr. Otis Strickland, president of Decatur Baptist College, will be the evangelist for the revival meeting which opens next Sunday at the First Baptist Church in Munday, Rev. Robert Young, pastor, has announced. The re-vival will continue through Sunday, January 29.

Dr. Strickland is one of Texas' most outstanding Bible scholars and evangelists. He has been president of Decatur Baptist College since 1950, and was pastor of the First Baptist Church in Cisco before accepting the

position of president and teacher of the Bible department in the college. He has also done outstanding work in the field of evangelism.

Dr. Strickland has made an extensive study of the book of I Corinthians, and will be teaching the book during the morning services. His evening messages will also be based on the same book

Jack Smith of Houston will be directing the music. Mr. Smith is a graduate of Baylor University and is now doing graduate work at Southwestern Baptist Theological Seminary in Fort Worth.

The public is invited to attend each service. Morning services at 7:30 p.m. The nursery will be provided for each service.

#### SOCKING THE MOTORIST

Just about every motorist, at one time or cident-prone. another, kicks about the "high price of gasoline." What he should be kicking about is the "high price of gasoline taxes."

Today - with the allegedly "temporary" fourth cent that was added to the federal gas tax eliminate them. last October-the combined national average of federal and state taxes is more than 10 cents a gallon.

nationwide basis, 48 per cent of the retail price of the users that the ultimate responsibility falls. regular grade gas, 62 per cent of the wholesale price, and 85 per cent of the refinery price. Taxes actually amount to more than half of the retail price of the fuel in 20 states, and in some areas equal the refinery price. Such luxuries as fur coats and jewelry carry far smaller excise taxes and no other necessity is comparably treated.

Moreover, here is a tax which is demonstrating the validity of the law of diminishing returns. The swing toward smaller, more economical automobiles, foreign and domestic, is largely due to their thrifty fuel consumption. These cars account for more and more of our total automobile population. So gas tax revenues will decline because fewer gallons will be burned. Then, no doubt, it will be urged that taxes be further increased to make up the loss-and so the spiral can go on, ad infinitum.

The solution would seem to be a wave of protest by motorists-a category which includes ports a leading economist as saying that "claims most of the voters.

#### BABY-SITTING TRACTOR DRIVERS

> "Never Take Counsel **Of Your Fears**"

Fear is a bad adviser, particularly when your health is concerned. Some people are afraid to consult a Physician when sick. They fear they may have a serious trouble and are afraid to find out the truth.

A Physician can soon relieve fear, by accurately diagnosing the cause of the sickness, which then probably can soon be cured. Even if the sickness were one of the few incurables, an early diagnosis and proper treatment would make it easier to live an almost normal life. Depend on your Physician and the medicine he will prescribe.

And let us accurately and quickly supply you with medications prescribed by your Physician-however new or rare they may be.

Growth Unlimited AND "LAYS MONEY ON THE LINE"

#### Why is our faith backed by dollars?

Very simply, it is because the Southwest is growing 25% fastee than the nation, and the WTU service area is the CENTER OF THE SOUTHWEST.

As a result, one of our major projects is designed to stimulate this growth, and another is designed to add service facilities to meet it. These projects are described briefly below. We will keep you informed of their progress as we go along, since they are of vital importance to this community

It is our conviction that with faith, vision and cooperative effort on the part of all of us, the Center of the Southwest has a sound foundation for GROWTH UNLIMITED in the years ahead.

OUR AREA DEVELOPMENT PROGRAM PROMOTES

Growth Unlimited

For many years we have been engaged in a program designed to inform business executives about the industrial advantages of the Center of the Southwest.

This activity is being continued in 1961 with an expanded area development program.

It includes a new series of ads running in a number of national publications, which depict the growth potential of this area and the states it serves.

The national advertising schedule, the information brochures we are publishing, the trips we will make to industrial centers, and the fine cooperative spirit of communities like this one, all combine to promote GROWTH UNLIMITED.

\$50 MILLION EXPANSION PREPARES FOR

Growth Unlimited

On the shores of Oak Creek Lake in Coke County, construction is progressing rapidly on a large new WTU generating station.

It is tangible evidence of the expansion being made in our general ing and distribution facilities, in anticipation of coming growth the Center of the Southwest.

It b proof that here & GROWTH UNLIMITED.

### **First Baptist Church**

January 22 Through January 29th

We have just completed moving Opal's Beauty Shop to its new location in the new building on the Wichita Falls highway.

We are not completely straightened out, yet, but are ready to serve our customers in this new modern place. We plan to have you all for "Open House" in the near future.

Our Merle Norman products are now displayed in a separate and complete booth, and you'll enjoy shopping there.

### **Call 5651 For Appointment**

Our experienced operators will be glad to give you an appointment and give you courteous and efficient service.

Visit us soon at our new place

**OPAL'S BEAUTY SALON** 

Mrs. Pat Elliott of McMurry College in Abilene came in last Wednesday to visit her parents, Mr. and Mrs. O. O. Putnam, over the between semester holidays.

Medical costs per person are ver 1.5 times more for older han for younger farm families, ecording to the U.S. Department of Agriculture. A nationwide survey indicated medical costs for farm families in which the farm operator was 65 or older averaged \$92 a year per person while those of all others averaged \$59.

Fourteen years ago the average grocery bill for a year was \$767. Of this amount, the farmer got less than \$400. Today the grocery bill has been estimated to exceed \$1,100, and the farmer is still getting about \$400 for his part.

#### CHURCH ANNOUNCEMENT

There will be special singing, music and preaching every Sunday afternoon at 2:15 at the rock church, formerly occupied by Rev. Johnson.

Doris Anderson, Church of God pastor of Rochester, will do the preaching and praying for the sick. This is the place where you will find a hearty welcome. The public is cordially invited to attend. Spanish people are wel come
