ALL NIGHT RUNS AT LOCAL GINS FOR TWO WEEKS

Sunday is First Letup Since Busy Season Opened Sept. 19

Local gins have been running 24-hour shifts for the past two weeks, working right through one Sunday and doing a lot of cleanup work one other Sunday, it was disclosed Monday by Paul Pendleton. At that time it appeared that a slight letup was in sight as Mr. Pendleton reported the first rest some time after midnight last Saturday.

Ginnings in both the Farmers Union Gin and the Pendleton Gin reached the 4884-mark Thursday noon. At the same time last week the figures were 3348, which indicates that 1536 bales have been handled during this past seven-day period.

JOE 'FLASH' GORDON
That rookie second-sacker for the New York Yankees and spark-plug in Marse Joe McCarthy's third straight pennant-winning combination, says it's all in a day's work. There's little doubt but what he will deliver the goods, if action is what it takes.

MATTSON NOSES OUT PAINT CREEK IN FIRST 'C' CONFERENCE GAME

Mother of Local Man Passes Away

Funeral services were held Sunday afternoon at 3 o'clock, in Byers, for Mrs. J. T. Yarborough, 86, mother of Ben Yarborough of Munday, who passed away at her home in Byers at 10 p.m. Friday, Sept. 30th.

Mrs. Yarborough, born at Hackneyville, Ala., in 1852, was familiarly known to her large host of friends as Grandma Yarborough. She had been a devoted mother to a large family, a good neighbor and a Christian woman, having united with the Methodist church when only a girl. Funeral services were conducted by Rev. T. H. Browning, pastor of the Cockrell Memorial Church of Dallas, and a former pastor of the Byers church, assisted by Rev. Stewart Odell, Methodist pastor at Byers.

Her husband died six years ago. She was the mother of 11 children, the following nine of whom still survive: Mrs. G. M. Hatley, Albertsville, Ala.; Mrs. J. R. Smith, Groom; J. M. and W. T. Yarborough, Byers; Mrs. J. G. Witter, Houston; Miss Iula Yarborough, Byers; A. P. Yarborough, Dallas; A. F. Yarborough, Wichita Falls, and Ben A. Yarborough of this city. Other survivors include 17 grandchildren, 22 great grandchildren, and one great-great-grandchild. Five sons and one grandson were pallbearers at the funeral, when the remains were laid to rest in the Byers cemetery.

Haskell Fair Is Set for Oct. 19-21

Haskell, Oct. 6—Haskell is planning the most outstanding parade ever staged to officially open the Central West Texas Fair, it was announced by Walter H. Murchison, president. The fair will open earlier than is customary this year.

The parade will begin at 1:30 Wednesday, Oct. 19. Outstanding among them all will be the royal float upon which will ride the king and queen of the fair and her attendants. Breaking away from the usual custom of having towns send cowgirls, cities this year will be represented by duchesses, who will be attendants to the Haskell queen.

The queen will be selected Thursday night, Oct. 6, at the "First Nighter," especially selected for this event at the Texas Theatre.

Grid Game Oct. 21
Football enthusiasts will come in for their share of the entertainment Friday night, Oct. 21, when the Haskell Indians will tussle with the Roby Lions here.

Rodeo pens are to be erected in front of the grandstand, for the staging of a rodeo on the final two days of the fair, Oct. 21 and 22. Events will include steer riding, bronc riding, bulldogging, calf-roping and exhibitions of trick and fancy riding.

No professional performers will be allowed to compete for the cash awards offered in the various divisions.

TO OPEN CHIROPRACTIC OFFICES IN THIS CITY

Dr. A. J. Bezner of Hereford, together with Dr. Rudy Warner were in the city Tuesday, making arrangements for the opening of the Dr. Bezner Chiropractic offices in Munday.

The new offices will be located in the Smith apartments north of the Reeves-Burton Motor Company and will be open for business Friday morning.

Lions Dist. Gov. Is Speaker Here

Dr. R. N. Richardson, educational vice president of Hardin-Simmons University at Abilene and incidentally District Governor of the Lions clubs of which Munday club is a part, surprised the local lions Wednesday when he walked in unexpected for the luncheon which was being served in the Hotel Eiland.

Following the fine luncheon, Dr. Richardson brought the local lions greetings from other clubs as well as Lionism in a general way. In his remarks the District Governor stated first, that a lions club should meet where men like to go, and a good lions club should have a good program committee bringing plenty of entertainment for all to enjoy themselves, creating a desire for members who might be more lax in attendance to want to be present at each meeting. A Lions club should also have a good tailtwister as well as other active members of the club, for after all a lions club is a real service club to aid and promote service.

Other guests at Wednesday's luncheon were, Roy Baker and Rev. Gogswell of Knox City, each bringing a few remarks and inviting the Munday club to put on their first program at Knox City for them on next Thursday night, which was gladly accepted. The local club will dispense with their meeting next Wednesday to go to Knox City on Thursday. The Knox City club just organized last week with the Munday club as its sponsor. They expect to have their charter night on November 3rd.

Dr. J. Horace Bass, superintendent of the Munday schools, gave a report on the past two football games, with Billy Cooper the coach giving an account of the players.

Bill Moore, president of the Club, was in charge of the meeting. The Munday club is making preparations to entertain the group meeting here on October 20th. This group meeting will consist of six towns with an attendance expected around two hundred.

Cottonoil Company Open Since Monday

The West Texas Cottonoil Company opened Monday of this week for the first time this season, and is running on full 24-hour basis, T. G. Bengel, manager, said this week.

The mill, which was established here in 1908, employs 55 men usually, and last year shipped about 100 cars of cotton seed oil to refiners. The oil is used in the manufacture of shortening, and other products of the mill are cake, meal, cotton seed hulls, and linters.

Output of the mill will probably be reduced somewhat this year, said Mr. Bengel, because the cotton crop is off. Operation was begun a month later than last year but at present it is running at capacity production.

ADS IN THE MUNDAY TIMES GET EXCELLENT RESULTS

Advertising in The Munday Times get excellent results, says the Creomulsion Company, makers of Creomulsion, a prescription for Coughs, Colds and Bronchial Irritations.

A consistent user of newspaper space for many years, the Creomulsion Company has again started a nationwide advertising campaign on their product with regular insertions in The Times.

Creomulsion, recommended by thousands of physicians and druggists, is sold and guaranteed by all drug stores.

Weinert Eleven Takes Rochester By Score of 15 to 6

In a game last Friday afternoon marked by consistent gaining for the hosts and sensational run for the visitors, Weinert defeated the Rochester High School football team, 15 to 6, on the Weinert field.

Weinert stepped into the lead early in the play, when they drove the visitors back to their own goal and scored a safety after blocking a punt.

They scored again in the second quarter when Herman Johnson plunged over for a tally, making the score 9-0 as the half ended.

In the third period, W. T. Johnson got away for a nice drive that netted another payoff and scoring for Weinert ended with 15 points.

Rochester took the game in hand from then on and Giddens, tossing from his own 15-yard line, dropped a pass to Wadeck on the Weinert 45, and he ran the 45 for a score just before the game ended 15-6.

Burwell Sessions Found Dead in Bed

Burwell Sessions, well-known local barber, was found dead in bed shortly after noon Thursday, at his apartment in the home of his mother, Mrs. J. E. Sessions. Cause of death had not been determined early in the afternoon, but it is believed that he died of a heart affliction.

Chester Burwell Sessions was born at Seymour on March 29, 1904. At the time of his death, he was 34 years, six months and seven days of age. His father was the late J. E. Sessions of Pilot Point, Texas, and his mother is owner of an apartment house in Munday.

He is also survived by his widow, Mrs. Prudence Sessions, Munday, and two children, Harmon Jarvis Sessions and Dorrels Prudence Sessions.

Funeral arrangements have not been completed, but services are expected to be held some time Friday, with Rev. J. W. Ballard, Church of Christ minister, conducting the services. Mahan Funeral Home is in charge.

Knox City Lions Club Organized

Twenty-five charter members and five transferred members made up the roster of the Knox City Lions Club at its organization meeting held Tuesday, Oct. 4, G. D. Thatcher, international representative of Lions Club, was present at the meeting when officers for the year were elected.

A. M. Whitits, will serve the club as president, and other officers are: O. W. Causey, first vice president; J. M. Ashcroft, second vice president; Vernon Bridges, third vice president; Rev. C. E. Cogswell, secretary-treasurer; Roy Baker, lion tamer; Jack P. Wetzel, tail twister, and T. P. Frizzell, H. P. Arledge, C. H. Keck, and J. C. Reeder, directors.

The Munday Lions Club is sponsor to the new organization. It will put on the first program at the neighboring city at noon, Thursday, Oct. 13. Following that date the club plans to meet each Thursday at 12:05 noon. Charter night will be November 3, 1938.

Man is Fined \$100 For Drunkenness

The price of being drunk on the stretches of Munday was raised to \$100 this week when Justice of the Peace G. M. Bryan assessed such a fine on a local man.

The charge was the sixth to be filed against him in the local court during the past year, and it was known that at least one charge had been filed in both Benjamin and Knox City courts during recent months. The man was placed in the custody of county officers when he professed his inability to pay the fine.

Justice Bryan was influenced in making his decision on such a stiff penalty, he told The Times, by his knowledge of several offenses that could be charged against the defendant. It is alleged that the man is involved in several check cases wherein local merchants have been made the goat, and it was hoped that his present sentence would give him time in which to mend his ways, officers said.

Clayton Wren left Tuesday for Weslaco in response to a message received Monday advising him of the serious illness of his mother, Mrs. G. W. Wren. The telegram stated that Mrs. Wren, who is 73, is not expected to live. She is well-known here, having resided two and one-half miles south of Munday for 25 years, until 1925, when she and Mr. Wren moved to Weslaco.

Farm Debt Board Will Meet Oct. 12

Hopes of farmers to pay obligations maturing this Fall have begun to wane on account of low prices for farm products and short crops due to insect infestation. Many of these farmers are already contacting the Farm Debt Adjustment Committees in hopes of arriving through them at an understanding with their creditors so that neither debtor nor creditor may suffer unnecessary losses.

Peter Loran, chairman of the County Farm Debt Adjustment Committee now serving under the Farm Security Administration, said today: "This condition creates desperate tension on the part of debtors and creditors alike, each of whom can be benefited in a superior way through the services of Farm Debt Adjustment. The Farm Security Administration, through its debt adjustment section, is constantly aiding farmers in debt distress to adjust their debts in a manner agreeable and beneficial to both creditor and debtor."

The County FDA Committee, composed of E. O. Jamison and Peter Loran will hold its next meeting at Benjamin on Wednesday, Oct. 12, 1938, at 3 p.m. This meeting will be under the immediate supervision of the County Rural Supervisor, who, together with the County Committee, is in position to offer the wisest and most constructive thought available in the solution of the farmers' debt problems. All farmers, therefore, in need of this service may immediately contact the County Rural Supervisor or the County FDA Committee member nearest them and give a complete listing of their debts, as well as their assets, so that the problem of debt adjustment may be handled in an intelligent and helpful manner.

Methodist Church Attendance Gains

There was a slight increase in attendance at the Sunday School hour last Sunday, over the previous Sundays during the summer. We are delighted to have new members and are insisting that, if you are not already attending some Sunday School, you make this the "Convenient Season" in which church-ward will be included in your week-end program. Not only does the church need her people but civilization needs the strength found in worship to meet the problems of our day and age. You need the church as much as it needs your support and cooperation. Let's give God a place in our every-day life.

For some fifteen years Judge M. F. Billingsley has been teaching the Men's Bible Class. He has done valuable and appreciated service in this capacity, as well as in other church work. The men are lending him to our "Young Adult Class" of both men and women. With his most interesting lectures and the enthusiasm of this fine class we are expecting an outstanding class to be built up in the near future. The men have another teacher that will "fill the bill," and approach the Bible truths from a different viewpoint. Every department of the Sunday School is now well-manned and anyone coming will find an interesting class with a congenial personnel.

Since the choir has been reorganized for the fall work and the members are returning from their summer vacations, this is becoming one of the attractions in the morning services. May we not have a full choir both morning and evening? If you sing, find your way to the choir next Sunday morning.

See the church bulletin for special announcements and hours of services.

H. A. Longino

MRS. KENNETH FRAZIER

Mrs. Kenneth C. Frazier of Dallas, is the newly-elected president of the National Consumers Tax Commission, with headquarters in Chicago. She predicts a membership of 2,000,000 women in the organization whose purpose it is to fight against hidden and unnecessary taxes.

NYA PROJECTS GIVE WORK TO 32 BOYS-GIRLS

Hospital and Hiway Plans Proposed at Recent Meeting

A meeting of the NYA Advisory Board of Knox county was held in the office of County Judge E. L. Covey at 4:30 p.m., Tuesday.

H. A. Zeigler, NYA district supervisor of Fort Worth, attended the meeting and introduced Ted L. Weaver, NYA area representative who will be located in Haskell and will have supervision of Haskell, Baylor, Knox and Throckmorton counties.

There was a general discussion concerning the development of the NYA program in Knox County. Local members of the advisory board are E. O. Jamison, Knox City; T. W. Harber, Munday; Emmett Partridge, Munday; Mrs. M. E. Ryder, Gilliland; Mrs. Oran Driver, Benjamin; H. D. Arnold, Goree; C. R. Elliott, Munday; J. Lyndal Hughes, Benjamin, and Glenn Burnett, Benjamin.

The regional project at Buchanan dam was discussed at length and the advisory board is planning to send several boys to this project about November 1.

Two projects are being submitted for Knox County; a hospital project to operate in the county hospital at Knox City, which will give employment to approximately 12 girls between the ages of 15 and 25 who are eligible for NYA employment, and highway beautification project which will be sponsored by the State Highway Department. This project will give employment to approximately 20 boys who are eligible for the NYA employment.

College Students Vote Health Test

Lubbock, Oct. 6—Student poll at Texas Technological College indicates that over 71 per cent favor adoption of Wasserman and Kahn tests for social diseases. Forty-two per cent would be willing to pay \$1 fee for such an examination, and less than 20 per cent of 1,150 students questioned disapproved of conducting the test. Two hundred forty-six of the 1,150 have already taken similar examinations at some time.

If the Tech student body adopts the test, it will be following the lead of students in other large institutions. Dr. J. W. Rolo, Lubbock health officer, and Dr. W. L. Baugh, Lubbock county health officer, heartily favor the movement.

MOGULS PUSH OVER THREE TOUCH-DOWNS IN GAME HERE WEDNESDAY

CHAS. H. BURG JOINS EMPLOYMENT WORK HERE

J. C. Miller, of the Texas State Employment Service, has been recalled by the department for work elsewhere, and Chas. H. Burg, of Houston, was sent to Munday, in a change made early this week.

I. D. Power, who came here with Mr. Miller, remains for the present and will work with Mr. Burg in the placing of cotton pickers and in aiding farmers to find pickers.

The employment service is doing a valuable work throughout the state and their service is offered pickers and cotton men alike, free of charge. Headquarters for the two men have been established at the city hall.

Third Son is Born

The third child, Joseph Byron, was born September 27 at the Stamford Sanitarium to Mr. and Mrs. Robert Purifoy. Baby and mother are doing nicely. The Purifoy's live in north Munday.

PEP SQUAD IS SENSATION AT FRIDAY GAME

Moguls Drop 32-0 Tilt To Albany Lions As 500 Look On

The Moguls Peppers, Munday holler girls led by Misses Alene Houser, Ann Atkinson, and Jean Williams, turned a very drab evening for local football fans last Friday night into an occasion worth going far to see—and hear.

Albany High School Lions, accompanied by a uniformed band and some 75 girls in the pep squad, put on a nice march before the

NO GAME FRIDAY

Football fans will have a chance to catch up with their delinquent knitting tomorrow (Friday) night as the Moguls are slated to rest, before meeting Anson in that city, the following week. The Anson game will be the Moguls' third conference contest.

game and during the half intermission, but their alleged cheers were drowned out by the rousing yells of Munday's most loyal supporters of football. They sported new megaphones and greatly increased attendance.

The Moguls had one of their nights off and the story didn't go like a novel in the book, because it didn't end up right, either. When the dust had settled and scoring was added up, the Lions were found to be carrying off the lion's share of glory, all 32 points that were scored during the evening.

Munday has suffered in every game through the loss of some of her best grid material, and this last contest was the climax with two more regulars incapacitated because of injuries. It was a new and meagerly trained band of Mogul warriors that bit the dust, but enthusiasm in the grandstand and on every side did not falter.

The defeat was erroneously reported as 33-0, scores were checked with Umpire Scruggs, of Abilene Christian College, and the 32-mark will stand, officially.

Opens With Pass
Albany kicked off to Munday's 20-yard line and there was no return. After a 5-yard line plunge and two tries that failed to gain, the local boys uncorked a successful 8-yard pass for a first down in two minutes and five seconds of play. Fear more line bucks netted another first down early in the season, but the Moguls had to kick, and it went out of bounds on the Lions' 30. In exactly four plays the Lions drew close to a 70-yard march that netted a touchdown and extra point when they kicked goal. The first quarter ended 7-0.

The second period opened up with the Moguls in charge on their own 28. A punt fell short and Albany took over on our 39-yard line. Three plays netted them 13 yards and a first down and the next play got in a bad way when two Moguls broke through, so the ball-toted tossed it wildly over his head of a waiting Lion on the 1-yard line. Here, the Moguls held for one down but when the Lion quarterback took the ball on the next play he had room to drive a tractor through the line. Albany again kicked the point and the half ended, 14-0 with the ball in Munday's possession on its own 40-yard line.

Munday kicked off as the third quarter opened and the Sons of Albany received the ball on their own 25-yard line, returning it 75 yards after a clever lateral for the third payoff. In their attempt to kick the goal, the ball hit the upright and scoring ceased some four minutes with the count of 20-0. Their next counter followed a 25-yard loss by the Moguls on a fumble, and a 26-yard pass by Albany, which, interspersed with tricky line plays, took them once more into the end zone of the Moguls' stronghold. The kick was low and the count moved up to 26-0. At this juncture, Pippin, Munday quarterback, gave the when he broke over right tackle for 16 yards. After another short gain the Moguls passed to the 11-yard line but it was intercepted.

"What a Man Does For Himself Dies With Him—
What He Does For His Community Lives On and On"—

WE LIVE AS WE THINK—NOT THINK
AS WE LIVE

The idea when a person is down and out that he is a helpless victim of circumstances and therefore should be taken care of by society, is one of the greatest of modern-day fallacies. That old saying that "You can't keep a good man down," wasn't born in an idle mind, any more than it is idle philosophy. The greatest characters of history have fought the hardest; the most noble men of the day have plumbed the depths before they climbed to the heights. Disappointment and misfortune are stepping stones for the consistent, and a death knell for the weak.

The bum who sleeps in a flophouse convinces himself of either one or two things. Either he is an unfortunate victim of circumstances beyond his control, or he is convinced that his ways of life are much better than those of the hard-working fellows with smug homes and families.

Whereas, the solvent and upright fellows despise or pity him, he has nothing but sympathy or contempt for them. He tells himself—until he is convinced—that he would not trade with them for anything in the world. In short, he won't work for a living. A working man doesn't fit in at the bottom of the ladder if he has the intelligence, also, to apply his labors toward the rounds by which men rise.

When failure overtakes any of us, we are prone to blame someone else, or to lay it to unfair conditions. In recent years, the unemployed have blamed the machine age; capital, big business, politics, and what-not. But the more diligent have taken a vigorous shake, laid loose the shackles and started climbing again.

Man can only think along the line of his own experiences. If his own life has been shallow, and his associates disreputable, he thinks that way and consequently comes to live that way. But if he seeks the better things, and strives for more noble company, his thinking wanders in that direction and slowly—but surely—his living will also.

All of which forces us to conclude that we live as we think; we do not learn to think as we live. A dissatisfied worker never makes a permanent employee any more than a man who is dissatisfied with his station in life will settle down to it without a struggle to the end.

ON OUR WAY

Many persons have been led to believe that the Federal government trimmed expenditures during the past year. Such is decidedly not the case. Expenditures have risen steadily (exclusive of the Veterans' bonds in 1936) for the past nine years. Of late, government revenues leaped to record levels, managed to narrow the deficit margin and thus create a financial illusion that is dangerously misleading, for normally, smaller deficits would indicate actual economy.

Take for instance the regular operating expenses of the Federal government, which include legislative, judicial and civil establishments. They rose from \$637,000,000 in '33 to \$814,000,000 in 1937. Likewise consider for a moment Public Works, which includes such items as public highways, reclamation, flood control, public buildings, etc. This rose without a halt from \$458,000,000 in 1933 to over \$1,000,000,000 in 1937.

And there is a popular belief that relief spending was recently rigidly curtailed. Yet official financial statements show that from 1933 to 1937, expenditures for unemployment relief, which include direct relief, work relief, and the Civilian Conservation Corps, also rose without halt from \$359,000,000 to \$2,466,000,000.

If you do not believe these figures take a look at the total estimated Federal debt for the end of fiscal 1939—\$38,528,000,000. Compare this to the total debt in 1931—\$16,801,000,000. It takes no mathematical genius to see where the country is headed. And at the rate we are going it won't take long to get there!

THE FOUNDATION OF SUCCESS

Seventy-five years later historians say that the Battle of Gettysburg was a mistake. Lee had no intention or desire to fight there, and neither did Meade. But the two armies, groping their way through Pennsylvania, came together, and one of the 10 most important battles of the world was fought.

Often momentous decisions cannot be made in advance. We all fight our way, more or less, through life, and our greatest opportunities come unexpectedly; sometimes suddenly. Success does not depend upon our chance-of-a-lifetime as much as it does our ability to take the matter in hand as it is presented.

Woodrow Wilson, a Christian gentleman and a scholar, said two things a person must have to be successful. First, he named character, and secondly, education. The young man or young woman who looks to these, cultivates them and gets ready for opportunity, seldom fails when the door of opportunity is opened. Without preparation through schooling and development of moral and spiritual character, a person faces a hard problem, indeed. We have yet to see the first person who is said to have "too much education."

The American home is a place where a person waits until the other members of the family get through using the family car.

The man who once caused a sensation by driving his car down the town street at the rate of 10 miles per hour would cause a near-sensation if he should do the same thing now.

Most of us get as many good breaks as bad ones, but we forget all about the good ones.

As a general rule, the man who gets along with his fellow-man here will have little trouble getting along with the angels in the hereafter.

THE MUNDAY TIMES

The Munday Times is Democratic, yet supporting only what it believes to be right, and opposing what it believes to be wrong, regardless of party politics, publishing news fairly, impartially.

NOTICE TO THE PUBLIC: Any erroneous reflection upon the character, standing, or reputation of any person, firm or corporation which may appear in the columns of this paper, will be gladly corrected upon due notice being given to the publisher, at the Munday Times office.

Our idea of a happy home is one in which the husband rules the house—and the wife rules the husband.

IT'S ALL FOR THE SHOW

Recently the topic of discussion among a group on the streets was a party given by a wealthy man in another city, costing upwards of \$20,000. The consensus of opinion is that it was a flagrant waste of money.

But the small bridge party, where the hostess goes in debt to the extent of a week's salary of her husband, gets by unnoticed . . . except as a social success. We wonder which is worse: for a man worth a million to throw away a trifling twenty thousand, or for a person with nothing, to spend twenty dollars of what he hopes to have?

The old social order, of trying to keep up with the Jones is fast being outmoded. We're too well acquainted with each other these days to fool anyone very much, and the leaders of our present-day society are those inconspicuous people who live within their means.

Meanwhile, it is well to remember that the violent contrasts between the rich and the poor are being corrected. The rich are not as secure as formerly; the common people not as lowly. The rich can't hire better orchestras than we hear every day on the radios in our homes. The same food that the rich man eats is now to be had by anyone in modern groceries. Poor people travel the same highways in cars that run just as fast and as noiselessly as the finest limousine, and we see more of the world in the picture show of any small town than most rich people ever see in a lifetime. That we live on less money is not to be denied, but money doesn't make good appetites, virile health, or the love which two people hold for each other when working out their problems together. And the rich man never knows that blessed feeling of rest and contentment at the end of a long hard day of work. He never experiences that joy of a vacation earned by a year's work and planning, or the exuberant feeling of satisfaction that comes at the end of a task well done.

The wise and just Creator of all mankind told the first two people who ever lived that man should live by the sweat of his brow and this order of things has never been changed. Those who try to do otherwise may live, but they never know the joy of living.

STYGIAN NOSTRUMS

What intriguing thoughts are conjured up by a recent article in the Ohio Medical Journal recounting the properties of a capsule which, taken by the motorist as night falls, will aid his vision and help him through the semi-blindness of night driving. The capsule, according to the Journal, will be fortified with carotene-in-oil, a rich source of Vitamin A, the vitamin that helps the eyes to function in the dark and strengthens them against the glare of on-coming headlights. It is claimed that the vitamin also reduces eye-strain and fatigue.

How much more engaging would be the prospect of some potion capable of deflating the ego of the road hogo or of quietly dispelling the illusions of self-conceived Barney Oldfields. What a blessing if some man of science would concoct a serum which, when injected into these cloddish anatomies, would suddenly imbue them with a rare acuteness; with reflexes not too many fractions of seconds behind the modern need. But most of all, and if we could have but that alone—a simple, homely pill, kept on the shelves at the corner drug store. A pill that would lend the slow careless brain a modicum of reason and judgment, courtesy and common sense.

LIGHTS SAVE LIVES

In this great campaign for safety on the highways, few people realize that wagon drivers can be of great help in reducing highway fatalities by simple cooperation with a law which is drawing more attention of late than ever before.

The state law requires some kind of lights or adequate reflectors on wagons when used at night. Wagon drivers should not consider that this law was enacted for the motorists' benefit. It is of even greater importance to those who ride in a wagon. The average automobile outweighs the average wagon about three to one, and its speed is usually fifteen times greater. In the event of a collision, the car is badly damaged, but usually the wagon is demolished and its occupants seriously injured or killed.

Cooperation with this simple law will mean much, and farmers, excused from buying annual licenses or paying gasoline taxes, should be willing to equip their conveyances at such nominal cost, for the results that are attained.

The honeymoon is that part of a girl's life between the lipstick and the broomstick.

A lot of men who are as sharp as needles never get through their work without being pushed.

Lessons in English

Words Often Misused

Do not say, "Four and three is seven." Say, "Four and three are seven"; there are two subject nouns. "Four plus three is seven" is correct, four being the singular subject.

Do not say, "I became enthused about it." Say, "I became enthusiastic about it." Enthused is characterized by some authorities as colloquial, by others as slang.

Do not say, "This is a secret between you and I." Say, "This is a secret between you and me," both pronouns being objects of the preposition between.

Do not say, "The affect of the news was remarkable." Say, "The effect of the news was remarkable." "Affect" was deeply affected by the news.

Do not say, "There aren't but ten boys in the room." Say, "There are but ten boys in the room." Not but forms a double negative.

Do not say, "I am going to try and see you next week." Say, "I am going to try to see you next week."

Do not add "Sr." to a man's name where he has a namesake who suffices "Jr." When a son is named Jr., that suffix becomes a part of his name, always, but the father was obviously never named Sr. A son born to one having the name Jr. and named after the father, would not be Jr., as that is the father's name, but would add the Roman numeral III, after his name.

Do not say "haven't got . . ." "I haven't the . . ." is much to be preferred.

Casual Comments

BY T. F. FRY

Signs on street busses in Texas read: "If you can't pull for Texarkana, pull out." A roadside poster near the outskirts of New Orleans bears the welcome: "You're welcome to drive over our streets—but not over 30." And the best one yet, between El Paso and Juarez, urges: "If you drink, don't drive. If you drive, don't run over the drunks."

A Wichita county farmer says that no one need ask him to cooperate with any program. "I cooperated with this and I cooperated with that, until now, I have nothing to cooperate with," says he.

A very similar case to that of a young woman who said the other day that when hard times came she and her husband had to pocket their pride . . . but now even the pocket is gone!

It may still be summer to some people, but the shower built for the Times employees last summer, gives that certain feeling that winter is near. Harvey, the lino operator, opines however, that a shower is one thing that you can get out of faster than you got in, and feel better for the experience.

Our thanks to Police Chief Jim Isbell for keeping the visiting planes out of the air during church services, Sunday morning. Numerous people have complained about their stunting on previous occasions during the morning sermons, and it didn't happen this time.

What we can't understand is the large number of pretty girls and young women who visit the local beauty shops. It seems that the ones who need 'em the most are the ones who never go.

A news item informs us that a freighter bound for Hamburg recently carried 150 Missouri mules and 50 tons of TNT. Those Dutchmen must be planning to kick up something, though this may be the throwing together of that immovable body and an irresistible force.

Borrowing money is the same as borrowing trouble, an economist recently told a state legislature. And it may be, but so far, we have never gotten to where we couldn't borrow more trouble.

Members of a Boy Scout troop in Oklahoma City have completed a perfect set of musical instruments grouped and carved from solid wood. Naturally, it won't play any music, so we vote to call it the latest thing in a swing band. None of them does.

To President Roosevelt goes the honor for the cleverest observation of the day. Mr. Roosevelt says he should be allowed to tell newspapers how to run their business, since they have been trying for four years to tell him how to be president.

But one thing we would like to know. How can this country support a war with anyone when it is having such a hard time supporting peace.

Hard times have not hit Munday yet, if all signs be true. We notice a local merchant advertising suits with two pairs of pants.

20,000 BALES OF TEXAS COTTON PUT IN QUALITY MARKET TEST

College Station, October 2.—The Government's 20,000-bale experiment, designed to demonstrate improved marketing practices and to acquaint foreign spinners with the high quality cotton being produced in one-variety communities, is under way. Texas cotton will be selected from three one-variety cotton community associations, Lone Tree in Victoria County; Seymour in Baylor County, and Munday, in

Knox County. F. E. Lichte, ginning specialist of the Texas A. & M. Extension Service, announced. These associations, selected as typical of the 213 one-variety communities in the State, all produce Acala cotton.

Must Be Cotton-Wrapped

The bales will be wrapped with cotton bagging and no cuts permitted and when compressed to high density the bale will be completely covered. Samples will be taken at the gin press box and information as to the variety, grade, staple and point of production will be made available to foreign purchasers.

"On many occasions in recent years, foreign spinners have complained that some American cotton was carelessly packaged and handled and that grade and staple in some bales was not uniform," Lichte said. "This program is an attempt to show that America is making an effort to produce and handle correctly a quality cotton."

The experiment came about by the recommendation of a special committee representing several bureaus of the United States Department of Agriculture and the Farm Credit Administration. These agencies, together with selected marketing firms, will co-operate in carrying out the plan.

The bales will be traced throughout their delivery to the spinners and arrangements have been made to check the reactions of the manufacturers.

Cotton Carefully Chosen

One-variety associations where the cotton will originate were selected by the Bureau of Plant Industry. Picking, handling and ginning recommendations were made by the Bureau of Agricultural Engineering. Individual bale selection, classification and information from foreign spinners will be handled by the Bureau of Agricultural Economics. The extension services of the various States will cooperate with all agencies.

In order to insure the selected cotton being available for this purpose, the co-operative marketing agencies will pay 10 points, or 50 cents a bale, above the local market or loan rate, whichever is the greater, for cotton of corresponding grade and staple. To offset this higher price and to compensate for additional expenses involved in special handling prescribed under the program, payments of \$3 a bale will be made by the AAA to the co-operating marketing agencies.

Few characters go bankrupt minding their own business.

Beware Coughs from common colds That Hang On

No matter how many medicines you have tried for your common cough, chest cold, or bronchial irritation, you may get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with any remedy less potent than Creomulsion, which goes right to the seat of the trouble and aids nature to soothe and heal the inflamed mucous membranes and to loosen and expel germ-laden phlegm.

Even if other remedies have failed, don't be discouraged, try Creomulsion. Your druggist is authorized to refund your money if you are not thoroughly satisfied with the benefits obtained. Creomulsion is one word, ask for it plainly, see that the name on the bottle is Creomulsion, and you'll get the genuine product and the relief you want. (Adv.)

AN ORDINANCE REGULATING PUBLIC DOMINO PARLORS; REQUIRING A LICENSE AND FIXING A FEE THEREFOR; AND FIXING A PENALTY FOR ITS VIOLATION AND DECLARING AN EMERGENCY.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF MUNDAY, TEXAS:

Section 1. Definition. By the term Public "Domino Parlor" as used herein, the same shall mean any place where dominoes are kept for the use of the public in playing games and for which a fee of any kind is charged, either directly or indirectly, provided that any dominoes used in connection with any place of business where cigars or other things of value are sold shall be regarded as within the terms of this ordinance.

Section 2. Hereafter it shall be unlawful to operate or keep open any public domino parlor between the hours of 11 o'clock P.M., and six o'clock A.M., except Saturday nights such places shall be closed from eleven-fifty (11:50) o'clock P.M., until six o'clock A.M. Monday morning following.

Section 3. It shall be unlawful to carry on the business of running a public domino parlor within the limits of the City of Munday, Texas, until a license as hereinafter provided shall have been granted for carrying on such place of business. Application for such license shall be in writing by the owner or manager of such domino parlor, and be presented to the City Secretary of the City of Munday, Texas, who shall in return refer the same to the City Council of the City of Munday, Texas, at its next meeting. The City Council, may at its option, refer such application to the Chief of Police of the City of Munday, Texas, to be by him investigated to determine whether the domino parlor sought to be licensed complies with the regulation, ordinances and laws applicable thereto, as hereinafter set out. The City Council at its next regular meeting shall consider the report of investigation of the Chief of Police, such Chief of Police will either orally or in writing give the information to the City Council derived from such examination, accompanied by a recommendation as to whether a license shall be granted or refused. In the event the Chief of Police refuses or neglects to present his written or oral recommendation at the next regular meeting of the City Council of the City of Munday, Texas, as heretofore provided, then the City Council of the City of Munday, shall act on said application and issue such license if they deem it advisable. The City Council of the City of Munday, Texas, alone shall have the power to issue said license. Each license granted herein shall expire the first day of January each year, and this license shall be posted in a conspicuous place within the domino parlor, for which it is issued.

Section 4. The annual license fee shall be \$25.00. This ordinance shall be printed in full, upon each license issued and each license shall by its terms be made subject to revocation as herein required, for a violation of any of the provisions herein.

Section 5. No license for a public domino parlor shall be issued by the City Council of the City of Munday, Texas, to the owner applying for such license, whose moral character and reputation is bad. Said license shall not be transferable.

The license of any domino parlor shall be forfeited or revoked by the City Council of the City of Munday, for disorderly or immoral conduct on the premises, or for the violation of the rules, regulations, ordinances and the laws governing or applying to public domino parlors, or public places. If at any time the license of a public domino parlor shall have been forfeited or revoked, at least six months shall elapse before any license or privilege shall be granted the owner thereof.

Section 6. The owner or lessee, or manager of any public domino parlor shall not permit any person under the age of eighteen years to enter or remain in such place of business for any length of time, without the written consent of the parent of such minor, or the person standing in the place of such parent, or permit any person under the age of eighteen to play dominoes in such place of business without the written consent of such minor's parent, guardian, or the person standing in such position.

Section 7. Any person, persons, or club, partnership or association of any kind who shall violate any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and shall upon conviction be fined not less than \$10.00 nor more than \$100.00 for each offense, and each day any domino parlor as herein defined shall be operated, shall constitute a separate offense.

In view of conditions prevailing in the City of Munday, with reference to domino parlors being operated without any regulation and the fact that breaches of the public peace occur therein, creates an imperative public necessity requiring ordinances to be read on three several occasions be and the same is hereby suspended, and this ordinance shall be in effect from and after its passage and publication as required by law, and it is so ordained.

Passed and approved, this the 26th day of September, A.D., 1938.
D. C. OSBORNE,
Mayor

HIGHWAY FATALITIES DECREASE AS INTEREST IN SAFETY GROWS

Drunken Drivers Get Full Share of the Blame

Austin, Oct. 6.—Texas gained its sharpest drop of the year in street and highway fatalities in August, when 112 persons were killed by this type of violence, only 83 of whom, however, were killed on the open highway; cities and urban traffic accounting for the balance, according to state police statisticians.

Although this was a saving over July of 27 lives, safety officials predicted that the death tolls will begin to rise after September's fatalities are counted. There has been a seventeen per cent decrease in deaths this year compared with the same period in 1937, when the all-time traffic record was made in the killing of 2,043 persons in the calendar year.

August records show that 1,282 persons received injuries in collisions, which was more heartening to state police, for July reports listed 1,454 injured persons. This indicated, safety experts said, that drivers are operating at lowered speeds causing less impact in crashes.

With all Texas schools in full swing a sharp warning was repeated by Captain Homer Garrison, Jr., assistant state police director, to drivers, pedestrians and school children to use caution in order to avoid a repetition of the many fatal vehicular assaults in the vicinities of schools last year.

State patrolmen, Captain Garrison declared, whose forces have been augmented with additional men since last June, will be particularly alert for reckless and drunken drivers going to and from football games and at other events that cause highways to be crowded.

Interesting Figures Given
According to a bulletin prepared by the State Department of Public Safety, more than one-fifth of all crashes on the highway occur between the hours of 12 midnight and 6 a.m. Of 93 deaths occurring in August, 20 were during that period of time, and next to that, 10 occurred between 8 and 9 p.m. Seven came between 2 and 3 p.m., and the same number between 9 and 10 p.m. These are considered the most dangerous hours, as next to them is 5 to 6, 7 to 8, and 11 to 12, with 6 in each hour. From 1 to 2 p.m. must be the safest time on the road, as no accidents were reported during these hours in August.

Woman's Vindication
Of 1739 accidents reported, 1462 involved male drivers, while the oft-accused woman driver figured in only 209, or only 12 per cent (sex of drivers was not reported in 68 of the crashes).

What Drivers Were Doing
In 1494 accidents where the cause was definitely determined, 1102 occurred to cars going straight through an intersection, 139 befell cars making left turns, 50 to cars making right turns, 42 to cars slowing down or stopping without proper warning, 32 to cars backing out of parking places. Forty-nine cars were struck while parked.

PARENTS DAY AT TEXAS TECH ON OCTOBER 8

Prizes To Be Given To Visitors With Sons In the School

Lubbock, Oct. 6.—Annual Parents' Day at Texas Technological College has been set for October 8, the date of the football game with Oklahoma City University. Invitations are being mailed from the College to all parents who have children in Tech this term.

Visiting parents will be asked to register during the day at the Women's Dormitory. Prizes will be given parents who travel the farthest to attend and also to those who have had the most children attend the college, including those now enrolled. These awards will be made between halves at the football game.

A reserved section in the west grandstand has been set aside for the visitors and a special price of \$1.15 each, including tax, has been made. Tickets may be reserved in advance by mail or may be secured the day of the game. Parents who have sons on the football team will sit on the sideline and wear numbers corresponding to the player's number.

The game will be called at 8:30 at night. The Gold Bugs of Oklahoma City University are expected to make it interesting for the Red Raiders.

discharges of nose, throat, ears, or abscesses of persons ill with the disease and those who are carriers of the infection. The handling of articles soiled by the patient may cause the disease.

"Children under ten years of age are usually susceptible to scarlet fever. Children becoming suddenly ill with fever, sore throat, vomiting and showing a fine red rash, should have medical attention and be immediately quarantined to prevent the spread of this disease. The appearance of scarlet fever in the home should be immediately followed by a rigid quarantine for at least three weeks. The public should be warned against exposing young children to those exhibiting acute catarrhal symptoms of any kind. Take no chances—be on the safe side.

Munday Music Club To Present Artists Program Oct. 18

Miss Williams Is Presented In Musical Event

Planning a new and different type of program for the first of two presentations held each year, the Munday Music Club has announced that three popular artists will appear here on October 18 at 8 p. m., to entertain music lovers of this section.

This program will be in the auditorium of the elementary school. Mrs. Gustav Fladger, of Honey Grove, has accepted an invitation to appear and will give several piano numbers. Mrs. Fladger is a niece of Mrs. T. G. Bengtson of this city.

Also appearing will be Mrs. B. W. Burford, soprano, of Dallas, and Harold Dye, Jr., ballet dancer of Bonham.

All these artists are recognized as having unusual talent and this is the first time that a program of this type has been planned for this city. The club presents two programs each year, and it is the hope that all music lovers of the town and community will avail themselves of the opportunity to hear these outstanding artists. Mrs. Louise Ingram, program chairman and vice president of the club, said this week.

Announcement was made here this week in a special bulletin from T.S.C.W., Denton, of the presentation of Miss Wanda June Williams, daughter of Mr. and Mrs. P. V. Williams of this city, in a special musical program last week at the annual county fair at Pilot Point.

Miss Williams, assisting the Campus Serenaders, jazz orchestra at the Texas State College for Women, appeared as guest entertainer, and her numbers received wide applause.

The trip was arranged by W. M. Loveless, business manager of the college. Miss Williams is a sophomore at the school, majoring in public school music.

Mrs. Betty Harper, of Nocona, aunt of Dr. A. A. Smith, is visiting here for a few weeks in the home of Dr. and Mrs. A. A. Smith.

Thomas Riggsby is in Abilene this week attending the fair.

Pitzer Baker and Mrs. Joe King, of the Baker-McCarty store, were in Dallas last Sunday and Monday shopping for the store.

Mr. and Mrs. F. H. Propps of Gilliland spent Sunday here with Mr. and Mrs. W. R. Moore.

Mr. and Mrs. Raymond Stapp and son, Maurice, visited Mrs. Stapp's mother, Mrs. C. E. Childress, and Mr. Childress, in Anson, Sunday.

Mrs. S. E. Robertson has just recently returned from Denison where she visited her daughter.

Mrs. Gordon Bell and son Gordon Wood of Crowell were in the city last Friday visiting Mr. and Mrs. H. L. Kimsey and son.

J. W. Brothers of Seymour is visiting here in the home of Mr. and Mrs. G. S. Beaver and working with Mr. Beaver in the OK Shoe Shop.

Jack Taylor and Earl Green, county commissioners of Hardeman county, and James Barnes of Quanah visited Grady Roberts here Wednesday, enroute home from a short trip to Abilene.

M. H. Post, of Haskell, was in this city a short time Tuesday.

HOW TO LAUNCH A CAREER

THERE is no better way of learning a business than by being a stenographer in that business. If you are good—and want stenography as an entering wedge—there is no reason why you shouldn't be the heroine of a success story.

"The average stenographer remains a stenographer, not always because further opportunities are lacking, but often through lack of ambition," says J. C. Furnas in the October issue of Good Housekeeping Magazine. "Company executives in all fields tell us that many stenographers know more about the confidential operations of a business than their superiors; that there are numerous cases of superb secretaries and stenographers who don't move up to better and more interesting jobs because they are too timid to go after them—that all too many stenographers suffer from an inferiority complex."

Presenting a cross-section of the entire stenographic field, Mr. Furnas gives a complete picture of what the commercial student may expect to face when she enters secretarial training and business. Which shorthand system shall she choose, Pitman or Gregg? How fast must one be able to write to get a decent job? What is the pay and how far can one go?

The picture is not a pretty one unless you are determined to be better than average, "because there are never enough jobs for the approximately 200,000 stenographers who finish their training every year," writes Mr. Furnas. "In fact, the stenographic field is always so crowded that your hopes of a job will be much better for any additional skill you can acquire. There is a better-than-average demand for girls who can double as telephone operators and business institutions are getting more and more mechanized."

"The trouble is that the secretary is getting scarcer these days because large institutions are replacing them with a 'stenographic pool' which serves executives on call," according to the article. The big bosses in such companies, of course, still retain individual secretaries. But the best way to get such a position is to forget your ambitions in that direction for a while and serve your apprenticeship as a stenographer in so efficient a way as to get any breaks that are coming.

"There are too confoundedly many stenographers who expect promotion without being well qualified in their own shorthand work," says one exacting executive. "A lot of them think stenography is beneath them. I say it is not. I say a smart stenographer who has taken the pains to be expert can go as far up the scale of business as her innate talents warrant."

LISTEN TO THIS

By TOM FIZDALE

The Saturday night radio fare gets a pleasing addition in the new Avalon Time program (NBC-Red beginning October 1) featuring popular guest artists and a regular company including Red Foley, singer of American songs; Kitty O'Neill, the laughing lady, the Neighbor Boys, the Rhythm Singers, a mixed chorus and a sixteen-piece orchestra. Aimed to please the great majority of listeners who like a well-balanced program of both modern and traditional American music, Avalon Time gives Red Foley his first chance to display his ability to sing both types. It is a program that should please listeners of all ages. Keep your eye—or your ear—on the Foley lad. He's going places.

Bea Wain

Larry Clinton's orchestra, the sensation of 1933, featuring Bea Wain as vocalist, will be heard regularly with Tommy Riggs and Betty Lou on their new variety show, also a Saturday night "must" (beginning October 1) on the NBC-Red network. Only 28 years old, Clinton is already established as the world's leading arranger and an outstanding composer of the decade. His orchestra, organized less than a year, has skyrocketed to popularity.

Bob Hope, now heading his own variety show on NBC and wowing them in pictures, is an inspirational example to anyone who has to fight his way to the top the hard way. Hope brings plenty of laughs to radio listeners now, but he knew discouragement, fighting against odds and plenty of hard knocks before he reached the top.

Adolphe Menjou, suave screen star, has his first regular radio assignment as master of ceremonies for the new Star Theatre on CBS, but television monopolizes most of his conversation. Menjou, with Bill Powell and Loretta Young, participated in one of the first name television programs in New York last spring and was so impressed that he's expecting regular television broadcasts to be announced any day now.

Betty Winkler, star of Girl Alone on NBC, is trying to become accustomed to her new status in life. She has been playing the role of an heiress who deserted her fortune to become a hard-working newspaper girl and now, after a couple of years, has decided to assume her proper station in life again. Betty says the working role was more in her line and she can't quite get used to the luxury of millions—even mythical ones.

Readers from the Atlantic to the Pacific and from the Canadian border to the deep south sent in questions they would like to ask Fibber McGee, in answer to our query a couple of weeks ago. We were swamped and right now we thank everyone who wrote. The question picked as the winner was submitted by Mrs. Clara H. Billingsley of Fort Smith, Arkansas. It is: "I believe if every country had a Fibber McGee to laugh with the world could think less of war and more of fun, don't you?" Fibber was a little bit flabbergasted (honestly) when we put that one to him, but he said that if his program could accomplish anything like that he would consider his life a success. Other winners are: The Kropf family, Los Angeles; E. S. Carpenter, Wauwatosa, Wis.; Miss E. M. Lutherman, Philadelphia; Mrs. Ora M. Newbery, San Francisco, and Mrs. W. Mancebo, Jamaica, N. Y.

Bill Adams, noted character actor who sounded so much like President Roosevelt on the March of Time, will be heard on Saturday Night Serenade this year.

Athletics and Music Important

Austin, Oct. 6.—Athletics and music are the two crying needs of modern schools it is indicated by records kept by Miss Miriam Dozier, secretary of the Teachers' appointive committee of The University of Texas. Since February 1, almost every call that has come to Miss Dozier for a man teacher has required that he be able to either coach some form of athletics to direct a band. Almost every call for a woman teacher required some type of musical training.

Miss Dozier received 1,193 calls from February 1 to September 25, or five more calls than for a similar period last year. Texas schools and colleges made the greatest number of inquiries concerning teachers, and Oklahoma ranked second. Numerous calls came from Louisiana, Arkansas, New Mexico and Arizona, and several from Ohio. Several inquiries from Latin American countries were revealed to the committee through the Department of Education at Washington, D.C.

HERE IS HOW TO MAKE GOOD COFFEE

If you drink only one cup of coffee a day, and can make forty cups from one pound of coffee, you have anywhere from one to sixteen coffee trees working for you.

In the October issue of Pictorial Review, Esther Kimmel describes "good coffee."

"After the coffee is in your kitchen," says Miss Kimmel, "remember three points:

- (1) Do not mix new with old coffee—the flavor of old, stale, coffee will permeate the new.
- (2) Keep the coffee-making device scrupulously clean—no mere rinsing will suffice. Wash with good, hot suds and scald with fresh water. An oil from the coffee may adhere to the pot and give the coffee a rancid flavor.
- (3) Measure the coffee; measure the water. These measurements have been given you so frequently there is no need to repeat them. The important thing is—do it!

Leland Burton, of Memphis, Texas, is visiting in the home of his father, W. T. Burton, this week.

Mrs. Addie Layne visited her son, Ralph Layne and wife, at Wichita Falls over the week-end.

Vance Favor, highway maintenance supervisor, was in the city Thursday.

Choral Club Guests Of Mrs. Pendleton

The Munday Choral Club met last Tuesday evening at 7:30 o'clock in the home of Mrs. H. A. Pendleton, in the second meeting of the year.

Several new members were taken in and increasing interest in the activities of the club is being shown. During a short business session, Mrs. C. H. Giddings was elected assistant director of the club.

The Christmas cantata, to be presented by the club, has been selected and practice may begin on it next week.

It is hoped that the club membership may be built up even higher than last year and those interested are urged to attend the next meeting, which will be held in the home of Mrs. W. R. Moore next Tuesday evening, at 7:30.

Mr. and Mrs. R. L. Burton and little daughter of Haskell visited relatives in the city Sunday.

News From County H. D. Clubs

HEFNER CLUB NEWS
The Hefner Home Demonstration Club met Tuesday, Oct. 4, with Mrs. Gene Payne.

The topic for discussion was "Achievement Events."

Roll Call, "Seconds meetings I have enjoyed most this year."

Plans were made for Achievement Day. We also planned what each one will furnish for the Cake Show on October 21-22, at Munday.

Mrs. W. M. Taylor had some suggestions on entertaining a house guest and on being a guest. All 15 members enjoyed cake and iced drinks served by the hostesses.—Reporter.

The home demonstration club women have their linen chest on display in the C. B. Jones building, and hope that the public will not fail to see it. Not all the articles are on display, but the women have them ready.

Novelties are being sold during this display. See one of the club members and buy your novelties now. Several members will be in the store Saturday to show the chest and contents. Stop by and see it.—Reporter.

All Day Singing At Mattson School

Singers from every direction gathered at the Mattson school house, 10 miles east of Weinert, on Sunday, Sept. 25, for an all-day sing-song and festival.

Quartettes from Wichita Falls, Iowa Park and Sweetwater entertained the group and an unusually large attendance was present throughout the day.

These song-fests are a monthly occasion in Haskell county and various schools are chosen to be hosts, while singers from everywhere are invited. T. C. Cobb was in charge of the recent affair, which was reported a success from every angle.

Rev. and Mrs. H. H. Burton of Martha, Okla., visited in the home of his brother, W. T. Burton and family, this week.

Mr. and Mrs. Riley B. Harrell and daughter, Joan, returned Tuesday from a vacation trip to Texas City.

Ray Willis, Knox City business man, was a visitor in the city Thursday morning.

News From County Texas Tech Has Two Big Bands

Lubbock, Oct. 6.—Largest Matarador band in the history of Texas Technological College makes music for Red Raider games in two units this fall. Band A, seated in the cheering section on the west side of Tech stadium, is composed of 90 members. Unit B, 85 strong, forms the nucleus of a new cheering section in the east stands. Six women musicians and 98 freshmen have been added this year.

About 100 bandsters and Director D. O. Wiley will accompany Red Raiders to Odessa October 22 for the Texas School of Mines tilt, and to Albuquerque November 2 for the game with New Mexico University.

Large Enrollment
Oct. 6.—A record fall enrollment for the North Texas State Teachers College of approximately 2,500 students is indicated by early-semester registration figures the office of the registrar has reported.

At the close of the tenth day since the opening of the school this fall, 2,327 students had paid fees and were officially registered in the college. This is an increase of 323 students over figures at the same time last year, or a gain of more than 16 per cent.

Judging by figures for preceding years, more than a hundred late registrations will probably come in before the end of the semester, college officials said. Increases in almost all departments have been noted in the campus, and a number of additions to the staff have been made to meet the growth.

The "Truth" About Barbara Hutton

At "Bab's" first wedding. At her right, her father; at her left, Husband Mdivani and Jimmie Donohue.

"Babs" Hutton, U. S. Heiress No. 1

In this Long Island mansion Barbara Hutton spent many summers, the usual sheltered life of one of the world's richest girls.

(Above) "Babs" and Husband No. 2, Count Haugwitz-Reventlow, before their recent rift. Since their separation the Count and numerous friends have tried to reconcile the pair.

WHEN Barbara Hutton came of age and took possession of her fortune of forty-odd million dollars she gave away eleven of these millions before her advisers could stop her.

On the very day of attaining her majority she gave five millions to her father as an expression of gratitude for his trusteeship and the other six millions went to charity and friends.

She settled fifty thousand dollars a year on her first husband the day they were married. Later she gave him gifts that ran into high figures but Count Court Haugwitz-Reventlow, her second husband, demanded no settlement.

In the October issue of Cosmopolitan Magazine, Elsa Maxwell has written the truth about Barbara Hutton.

For years the irrepressible Miss Maxwell has roamed Europe searching always for fun and entertainment. She is an intimate of crowned heads and the deposed

nobility of society and knows all about the people who make news.

"It was in the fateful summer of 1929 that I was lunching with some friends in Biarritz when I saw a short, plump girl of sixteen or so," Miss Maxwell relates. "While we were lunching a dashing Rolls-Royce drew up at the gate and the plump little Barbara stiffened."

The man in the Rolls-Royce was Prince Alexis Mdivani, one of a trio of Georgian princes who have dazzled European and American society with their brilliant money marriages.

The meeting of Barbara Hutton and Mdivani on the terrace of the Biarritz Hotel was the beginning of the first act of the most ballyhooed and certainly the most preposterous tabloid drama of our time.

The second act took place in Bangkok, Siam, several years later when the American consul general advised Mr. Franklin L. Hut-

ton via radiophone that his daughter Barbara, who had gone on a trip round the world "to forget" was about to marry Prince Alexis Mdivani. He had followed her around the world in order that the Mdivani clan could continue to live in the style to which they were not accustomed "way back in the Caucasus Mountains."

Reno followed, and a marriage to the Danish prince. Now they are separated and the name of another "gentleman" is being guardedly mentioned.

And so it goes with the five-and-ten princess. As a child she did not know you could go across the continent without a private car or to Europe without an entire steamer deck.

Miss Maxwell in her article analyzes the girl with millions, takes you behind the scenes in her private life, and for the first time makes public the reasons for many of the unusual happenings in the life of Barbara Hutton.

MARKETING SPECIALIST WRITES ABOUT FOREIGN COTTON PROJECT

I think we have all heard of the complaints of foreign spinners regarding the condition of American cotton. These complaints have been known for a good many years but recently they have become so common that the Bureau of Agricultural Economics assigned a man to make a first-hand investigation. Mr. Ferd Taylor has been in Europe for the past two years looking into the various complaints of European spinners.

The complaints appear to be of two general types—those pertaining to the exterior of the bale and those pertaining to the interior or to the contents of the bale. Spinners suffer considerable loss to the dirty, soiled, and stained cotton resulting from inadequate protection to the bale. There is also considerable loss resulting from "country damage." Most of this is due to the methods employed in packaging, handling, and grading of American cotton.

A second type of complaints include those pertaining to the lint of contents of the bale. Such complaints as "false pack," "mixed bales," "plated bales," "gin-out bales," and excessive moisture are most common. While complaints of this nature represent but a small percent of the total cotton produced, they are too common. When a spinner opens a bale of cotton and finds three or four hundred pounds of low-grade cotton concealed between two plates of high-grade cotton, he often loses his temper and talks and writes a good deal about the deterioration of American cotton. A few bales of this kind can do a great deal of damage to the good name of our cotton.

production and marketing cotton. I, therefore, prepared a memorandum under date of April 27 to Mr. L. A. Wheeler, in charge of the Foreign Agricultural Service Division. In this memorandum I suggested that the past work of the various Divisions and Bureaus along this line be combined into one program to produce, gin, and export cotton free of all grounds for spinner complaints. A copy of this memorandum is attached.

Assistant Secretary Brown assembled a committee consisting of representatives of six Bureaus of the Department and the Farm Credit Administration for the consideration of the suggestions contained in the memorandum. As a result of this meeting, a subcommittee was formed for the purpose of making specific recommendations. This committee submitted its report to Dr. Brown on June 16, a copy of which is enclosed. You will note the report recom-

mends the essential points suggested in the memorandum with the exception of certain physical equipment. Due to the question of time, the committee recommended that the program be put into operation without such equipment this season. The recommendations of the committee have been adopted by the Marketing Section of the Agricultural Adjustment Administration. An effort is now being made to assemble a maximum of 20,000 bales of cotton in accordance with the program. The details involved in the auditing, supervising,

and administering the program have been worked out in the Marketing Section of the Agricultural Adjustment Administration.

Seven cotton gins located as follows have been selected from which cotton is to be assembled: Mississippi, Hattiesburg, Hickory; Oklahoma, Lookaba, Greenfield; Texas, Victoria, Munday, Seymour.

Yours Truly,
P. K. Norris,
Senior Marketing Specialist,
Foreign Agricultural Service Division.

Smith: "No, I guess not. I passed the collection plate."

Haskell Road To Be Finished Soon

Haskell, October 6.—Additional funds for completion of Haskell county's most important highway project, an all-weather east and west road, was assured this week through state allotments.

County officials were notified that the state highway department had appropriated additional funds in the amount of \$9,659.10 for the completion of grading, drainage structures and caliche base on a 7.2-mile stretch of highway 120 to the Throckmorton county line.

The department had previously allocated \$32,866 for the project. This sum was supplemented by a WPA grant making available a total of \$78,600 for building the highway.

With completion of the final seven-mile gap, the highway will afford an all-weather road to Fort Worth and Dallas which will serve a wide section of West and Northwest Texas. The now road intersects highway 30, north-south traffic artery, at Haskell and highway 16 in Rule, giving an outlet to a large area in this section.

The Freshman class has not had any class meetings since the election of the class officers, but we will probably have one this week. The class secretary has been absent for quite a time. We hope she will be back soon so we can have all the class officers present for our meeting.

SOPHOMORE NEWS

Hi-de-hi and ho-de-hum. What little sophomore girls took a spin in the airplane Sunday and came out feeling a little worse than they did when they went up?

The Biology Department has been having an enjoyable time finding material to make a balanced aquarium. They will put snails, goldfish, clams, frogs and other water plants in it.

All the Home Ec II girls are busy trying to find enough things to do around the Home Ec Cottage to make a few points. The girl who gets the most points is the one who has a better chance of going to the State Home Ec Rally.

In history we have been studying the pre-historic man. I'm sure most of us find it very interesting.

The students in algebra are beginning to think they know equations very well, for we have been having them the last few weeks. Some of the students think them rather hard, but I guess it's just the way the world turns.

NEWS OF THE JUNIORS

The subjects this year are not hard to take.

Not if you're lively, and stay wide awake.

They will be interesting, and soon you will see.

What joy there be in store for thee.

In history we are studying how America began.

It proves to be interesting, rather than

A dry passage of reading which you can't understand.

For this is the kind that makes your knowledge expand.

English we are liking this year, we're studying something that we never did hear.

And in the future we will learn more and more.

Because in the end we want a good score.

But our other subjects too, we like them fine.

Although they occupy a part of our time.

But after we learn them, we'll try not forget.

Then we'll be ahead of the teachers and stay there, you bet!

FAMOUS QUOTATIONS

For age and want, save while

you may, no morning sun shall last all day.—Benjamin Franklin.

Experience is a dear school, but fools will learn in no other.—Franklin.

Better be an hour early than a minute too late.

The secret of happiness is not in doing what one likes, but in liking what one has to do.—J. M. Barrie.

It is easier to be critical than to be correct.—B. Disraeli.

LETTING GEORGE DO IT!

When you are given an assignment to do in any kind of work, do you do your own work or do you let the person near you do your work and his too? The assignment is given to you individually for your benefit. Doing it is where the benefit is derived. You may let George or anyone do it for you, but remember he cannot give you the benefit and experience he derives from doing it.

It seems that one is never quite sure how he is classified. One day we know we are seniors and the next we do not know whether we will compete in the "last mile" or not.

We are looking forward to plenty of excitement this year so we are compelled to get down to work in order to supply the much-needed funds that go with entertainments.

For the first time, to our knowledge, in history we are allowed to print the biography of that all-around character—Winston Blacklock.

Winston was born on October 9, 1921, in Munday. He has wandered away several times to towns including Floydada and Abilene, but each time he has returned to Munday.

Grade school life seems rather vague at present to Winston. All he remembers is that he had a lot of teachers and subjects, and the paper wads were enormous.

As a freshman Winston played a trumpet in Parker's Orchestra, and later in Miss Kennedy's.

Tennis and football are neck and neck as his favorite sports. He has represented MHS on the tennis squad in doubles two years and will probably be Thomas' successor for singles this year. He has been on the football team two years, playing several different positions. He is a native track member and has been for two years.

As president during our sophomore and junior years, he presided both efficiently and effectively at our class meetings and our banquet.

Last year Winston served as sports reporter.

This year he is one of our most outstanding classmates.

His ambition is to study medicine. He hopes to attend H.S.U. or A. & M.

He likes swing music and good-looking blondes.

His favorite subject is English. He simply cannot stand grouchiness.

CONTOUR ROWS LESS COST TO FARM TENANT

Only Sensible Way to Farm, Says A & M Specialist

College Station.—Contour cultivation results in the use of less fuel, and allows more work to be done.

"We hear a lot about terracing and contour farming saving the soil and holding the rain where it falls, and about better yields as a result," C. Hohn, specialist in soil and water conservation at Texas A. & M. College Extension Service has commented. "If we had ever stopped and thought, and used a little common sense, we would have figured out long ago what some tests in Kansas proved, that contour cultivation also saves time and power."

"We know that it is easier to walk on the level than up and down hill. It stands to reason that a team can pull a plow easier on the level, or that a tractor will do more work and use less fuel under level conditions. I imagine a lot of farmers in Texas could have told us that."

The experiments quoted by Hohn were conducted by the Kansas State College, and revealed that when wheat stubble land with an 8 per cent slope was plowed on the contour, 1.62 acres were turned in an hour as compared with 1.44 when the plowing was done up and down the slope. The actual fuel consumed was 11.6 pounds per acre when plowing up and down the hill and only 10.6 pounds per acre when the work was done on the contour.

"These tests showed that a man can farm on the contour and do about 15 per cent more work with about 9 per cent less fuel," Hohn pointed out. "It looks like it would pay us to work on the contour just from that angle, let alone the advantages of holding our rainfall and our soil."

The program is designed to improve marketing practices and to demonstrate to foreign spinners the high quality of American cotton being produced in one-variety communities.

The 20,000 bales of uniform, carefully picked and properly ginned cotton will be selected by the Bureau of Agricultural Economics. The bales will be covered with cotton bagging and samples will be taken at the gin press box and information as to the variety, grade, staple, and point of production will be made available to foreign purchasers.

The bales will be handled in accordance with the best accepted practices at the gin, at the compress, and in transit. In recent years foreign spinners have complained on occasion that some American cotton was carelessly packaged and handled and that grade and staple in some bales was not uniform, it was said. There has been persistent complaint, of course, over the general deterioration of grade and staple. This experiment is an attempt to show that America is making an effort to improve and handle correctly a quality cotton.

The program was recommended by a special committee representing several bureaus in the U.S. Department of Agriculture and the Farm Credit Administration, and these agencies, together with various commercial marketing, compressing, and exporting firms, will cooperate in carrying out the plan.

Since the enlarged student body fills the regular auditorium space, seats will be placed on the stage to accommodate townspeople and guests from surrounding cities.

Miss Pons, whose only other appearance in the state is scheduled for Beaumont on October 8, will come here from Georgia and Alabama and will continue her tour through Oklahoma, Nebraska and Colorado. At its conclusion she plans to be with the San Francisco and Los Angeles opera companies for a time, and will sing at the Chicago Opera Company in late November. Returning to the Metropolitan in mid-December she will probably be starred in the "Barber of Seville."

Noted Opera Star
Coming to TSCW

Denton, Oct. 6.—Preparations are under way for the arrival of Lily Pons, star of the opera, concert, radio and screen, at Texas State College for Women Tuesday night, October 11, for one of her two Texas concerts this year. She will be accompanied by Frank La Forge, famous pianist and teacher.

We wish to familiarize our friends and patrons with another new teacher.

Mr. W. D. Geer was born at Lesville, Texas, September 5, 1914.

Nearly all of his elementary and high school education was received at Olney, Texas. Mr. Geer attended North Texas State Teachers College at Denton, majored in industrial education and minor in math. He received his B.S. degree in 1938. While attending college at Denton, Mr. Geer was a member of the Industrial Arts of Education Club.

Mr. Geer is taking the place of which Mr. Ferguson, who, we are sorry to say, chose to teach at another place this year, was supposed to have filled.

Mr. Geer is coaching the basketball team this year, and we feel that even though we do not have very many experienced players, he can make a good team this year.

We feel that we are very fortunate to have such a talented man on our faculty.

The librarians, Mrs. Jackson and Mrs. Stark, have the library in first class condition. All the books have been numbered and placed in correct places. This year there are 1387 books in the library, of which 21 are new.

Besides the fiction books, there are 139 reference books.

For those who do not care to read books, the school has subscriptions to 15 different magazines. Among the most widely read are Life, Correct English, and Time. The Fort Worth Star Telegram is also kept on file in the library.

With all this reading material the students should have a better knowledge of what happens every day.

Senior Report

A week ago last Friday, the seniors entertained the rest of the school with an assembly program. Several interesting numbers were presented.

This first number was a pantomime of "Little Lady Make Believe," given by some girls. This was followed by a sketch "Common Clay," with member of the senior class as characters. Nathan Mitchell vocalized "A-Tisket, A-Tasket." The program was completed with a song, "When Mother Nature Sings Her Lullaby," by Polly Chamberlain, Melba Trainham, and Claudia Snailum. Music was furnished from our class musician, Thelma Lee Hughes.

Junior Report

We can hardly realize that the six weeks examinations are only two weeks off. Judging by the amount of red ink that Mr. Cunningham and Mr. Watson used on our test papers last week, most of us should get to work.

An interesting story about Mr. Cunningham was told to the Juniors last week. It seemed that he and a friend were renting a horse at a riding academy at Lubbock. When asked how long he wanted the horse, Mr. Cunningham replied, "You had better give us the longest one you have—both of us want to ride him."

We hope that our assembly program was a success Friday. We presented the one-act play, "Object—Matrimony." We found that we have a talented musician in our class—Carrie Neal Russell, who played two piano solos for our program.

Billy Joe Sams has been absent a few days with a sore foot. When asked what was the matter with his foot he made it understood that he stuck his foot into a nail, but we don't believe it because we have not yet seen the nail that would harbor a size 9 1-2 shoe.

We have three new members in our class. They are: Mary and Martha Higgs, who came from Paris, Texas, and Clyde Kendrick. Our class is now composed of 34 members.

The Juniors are sponsoring a program and cake walk in the High School auditorium, Friday night. Everyone is urged to attend what will be a joy giving moment in his life.

Sophomore Report

"I found it! I found it!" This was a familiar cry to the Sophomores last Friday night. After the noise had lifted, it was plain to see that the Sophomores were in the middle of a scavenger hunt.

The captains of the two groups were Clyde Edward Williams and Bettye Jo Crenshaw. After having a rather difficult time, Clyde Edward and his team brought in all the scheduled articles which declared this side the winner. No

prizes were given, but everyone present had a very good time. Refreshments were served at the Brookreson home.

Police to Require
Lights On Wagons

Drivers of wagons on public highways after dark without at least one lighted lamp and proper reflectors on the rear will be arrested, a bulletin from the State Police department this week, said.

The law reads, as follows: "All wagons or other animal-drawn vehicles shall carry one or more lighted lamps or lanterns displaying a white light visible under normal atmospheric conditions from a distance of not less than 500 feet to the front of such vehicle and displaying a red or yellow light visible under like conditions from a distance of not less than 500 feet to the rear of such vehicle, which light shall be kept lighted while the vehicle is upon a highway from one-half hour after sunset to one-half hour before sunrise."

In lieu of these lights, the law, which is quite lengthy, permits certain reflectors which will be visible in lawful car lights at a distance of at least 200 feet, but caution is mentioned that only such reflectors as are approved by the state highway department and bear that approval stamped upon same, shall be used.

Four officers of the state police force were in Munday last week, and wagons operating without lights at night are being stopped wherever encountered, it was said.

This law should act in the interest of safety and will probably mean greater protection to occupants of a wagon than to motorists, although the death rate from collisions between cars and unlighted wagons at night is about equally divided, being 2.7 of all highway accidents.

Gas Co. Builds Bridge For Line

Further strengthening Lone Star Gas service to Munday, the new gas suspension bridge to carry the company's big line from Texas Panhandle over the Salt Fork of Red River is being pushed to completion. This new and stronger link in the gas system's service is about 12 miles north of Hollis, Okla., and replaces a structure destroyed in last spring's flood when debris of five other bridges bore down on it.

Concrete for the anchors has been opured, the main piers are nearing completion and it is expected the bridge will be in operation before Dec. 1.

The new span, with an elevation of 1770 feet above sea level, is 28 feet above the bed of the river and the pier will be 16 feet above the high water mark set by the record flood of last spring.

Total length of the bridge from anchor to anchor is 1,034 feet with 600 feet between the piers. There are two main piers, each to be surmounted by structural steel towers 67 feet high to carry the main cables from which the pipe cradles are suspended.

Forty-seven feet of quicksand at the location of the north pier necessitated the sinking of this pier's caisson by air pressure. Two air locks were provided in the 50 foot long steel caisson which is seven feet in diameter. A compressor furnishes sufficient air pressure through an air hose to these locks to keep water out of the caisson as it is driven down. An experienced caisson pressure workman mans the centrifugal pump within the caisson, pumping water and sand out of the steel shell through a pipe provided for this purpose.

Golden Jubilee Fair Gates Will Open Saturday

Dallas, October 6.—Saturday morning, October 8, the gates will swing open on the largest and most attractive State Fair in all the half century of progressive effort, each year to outstrip the one preceding.

Early in the week but four small spaces had not been contracted for the 16-day event, with all indications these would be taken prior to opening day.

Approximately 175 towns, cities and organizations have reserved special days. Colorful bands will be on the grounds at all times.

In agriculture, livestock and poultry the State Fair has assembled the greatest showing in all its history. Sixty-seven counties, in all sections of Texas will display agriculture. In addition to this there will be individual ex-

FOOTBALL
 (Continued from Page One)

as the quarter ended, 26-0.

In opening up the fourth quarter, Albany had the entire second team on the field, and they kicked to Munday's 37-yard stripe. A nice pass slipped from Warren's fingers into the hands of Albany and again they were hammering at the very door of calamity. A five-yard penalty to Albany staved off the inevitable and the ball was getting back into safe territory again when the Moguls fumbled for 21 yards and recovered, only to punt right into the back of a Moguls half, and let Albany pick up the ball and trot over for six more points. On this touchdown Munday blocked the try for extra-point. Score: 32-0. During the last three minutes of the game Albany sent in 11 substitutions and their rally for another touchdown was cut short by the referee's whistle to end the game.

Out of the whole maelstrom of confusion and disappointment, the clean playing of Walton, 184-pound tackle, was worthy of more than passing notice. He got through the line on practically every play and hammered continually at the Lion's most dangerous man. Foytik played a consistent game, and Higginbotham, fly-weight back put all he had into the play.

Only one Mogul was caught short in the test of good sportsmanship and his grandstanding, toward the last, was excused in view of recent injuries and the ironic way that grand old woman (Lady Luck) has avoided those warriors of the Munday tribe. This drew no more criticism than did one Albany law who trotted alone behind a rolling punt, touching it up and pushing it farther along. Referee Norris ruled these tactics out, except in mumble peg.

Summary

	Munday	Albany
First downs	7	12
Yds. scrim.	89	146
No. punts	9	6

hibits, Negro farm exhibits, agricultural displays and showings by individual farmers.

Approximately 500 head of livestock have been entered, which includes every breed of livestock in the Southwest, and some of its leading herds.

The poultry show will present every variety, in new housing conditions, with the close confinement eliminated.

"The Fair is set to entertain the expected 1,250,000 visitors," Otto Herold, president said.

HEFNER NEWS

The Hefner school opened Monday, Oct. 3rd, with our new teacher, Mrs. Marlow, who we are sure will be liked by all and we are trying to make a much better school than ever.

The farmers are still busy gathering cotton and are proud of the fine weather we are having.

Several from Hefner enjoyed the airplane rides and seeing the parachute jump at Munday Sunday.

Mr. and Mrs. Billie Lytle visited Mr. and Mrs. Clarence Jones Sunday.

Mr. J. A. Brogden returned to Pep, Texas, last week after visiting his son, Paul Brogden.

Mrs. McCulloch of Rule visited friends in the Hefner community one day last week.

Mr. Floyd Phillips who has been living the past year in the home of Mrs. W. A. Harris received word last week of the death of his father.

er, Mr. Tom Phillips, of Little Rock, Ark. Deceased was a nephew of Mrs. Harris. Mrs. Willis of Munday visited Mrs. John Harris Wednesday.

Feed Grinding DEMONSTRATION

Next Saturday afternoon we will give another demonstration of the New McCormick-Deering Hammer Mill, using a No. 10-C unit, on the lot adjoining the sales room.

The new mill features traveling feed conveyor and as a great time-saver over the older types. It grinds wheat, oats, barley, rye, shell and ear corn, kafir, milo maize, hegari, feterita, constalks, hay, alfalfa, beans, peas, grain sorghums, both headed and in bundles, and other roughages. You do not have to cut the twine.
