### SET THE FARMER FREE!

In a lashing editorial on the folly and failure of our government's agricultural policies, publisher Tom Anderson of Farm and Ranch writes: "Government control will work only in Heaven where they don't need it or in hell where they already have it. Let's get the government out! Let's set the farmer free!"

It is argued, of course, that government supports and controls are essential to the very existence of farming, and that chaos would reign if they were dropped or even materially reduced in size and scope. But those arguments have a mighty tenuous base so far as fact is concerned. All the evidence indicates that the surplus problem has been the direct and inevitable result of long-established government policy. Instead of producing to meet public demand, farmers produce to meet a political condition.

For example, Dr. Herrell De Graff of Cornell, who is one of the most highly regarded agricultural economists in the country, has said this: "Over the past 35 years, during which so-called surpluses have been almost chronic, a modest 2% increase in livestock could have eaten up all of the surpluses. This would have happened had agriculture been free." Other agricultural economists are now emphasizing the need for an expanding animal agriculture — which, incidentally, is free market agriculture.

Meat animals convert grains into foods which practically everyone wants, needs and likes. It would certainly seem high time the government thought in terms of putting crops to productive use — instead of into storage. That will be done if we set the farmer free to produce what consumers will buy.

### GOVERNMENT-OWNED INDUSTRY CRUSHES STRIKE

Labor has the most to lose when the government nationalizes industry.

Recent action by the Mexican government to break up a strike involving a jurisdictional fight for control of the oil worker's union, is a good example. Strikers had demonstrated before the headquarters of Mexico's oil monopoly.

President Adolfo Ruiz Cortines ordered the Labor Ministry to seek quick settlement of the intra-union dissension.

Tear gas was the answer. No more strike — and 50 persons in the hospital.

### MYSTERIES OF THE ATOM

New discoveries and developments almost always bring new problems with them. The greater these discoveries and developments are, the greater are the problems.

This generality is certainly true of electric power production from atomic energy.

There are all manner of technical problems and mysteries connected with the atom. No one knows which type or types of reactors will prove most economical and efficient. The utility industry, in co-operation with the Atomic Energy Commission and other interested agencies and commercial organizations, is deeply involved in research and experiment designed to ultimately banish the fog and supply the answers.

On top of that, as a utility spokesman recently pointed out, it will be necessary for the regulatory agencies to exercise restraint in applying traditional accounting procedures when dealing with atomic energy. There are extraordinary expenses involved in such matters as plant construction, security measure, and waste disposal facilities. The economic situation here is vastly different than in the case of electric systems using the conventional fuels.

In sum, all concerned — the power companies, the government agencies, and the regulatory bodies — have much to learn about the atom. Notable progress is being made — but this job can't be done in a hurry.

### BUT WE STILL NEED A LABOR LAW

"This is a painful year for Labor Day orators. The misdeeds of the Teamsters and other union racketeers, as brought out in the McClellan hearings, have brought to a climax a record of labor gangsterism that attacks the moral and social health of the whole Country. Crooked labor runs wider, deeper and dirtier than anyone had suspected. . . ."

"Congressmen and candidates will soon go before the people. They should do so with one ear cocked toward the McClellan hearings. It is the business of every voter to exact a pledge from each man running for Congress to go to Washington next year and vote for a labor law — better than the Kennedy-Ives if possible and with more teeth in it." — Life Magazine, Sept. 1, 1958.

"It is much better to sit tight than to attempt to drive in that condition." — Commerce

## MODERN HOMEMAKING

Recipes . . . Household Helps

By Julia Hunter

HOME ECONOMICS DIRECTOR, LONE STAR GAS CO.

The golden yellows, the bright oranges and the creamy whites of cheese seem to speak of fall. They are so in tune with nature's fall colors. October is Cheese Festival Month and grocers will be featuring all kinds of cheese.

There are so many kinds and flavors of cheese to choose from with grocers offering a wider variety than ever before. Cheddar, Swiss, cream and cottage are most often used, but now is the time to become acquainted with other varieties.

Parmesan is probably a familiar one for sprinkling on spaghetti, but try it too, on asparagus, broccoli, cauliflower and green beans. It adds delicious flavor to a tossed green salad. Add a tablespoon or so to soft butter or margarine. Whip them together lightly and spread on thick slices of French bread. Wrap in foil and heat in a moderate gas oven (350 deg. F.) about 15 minutes. The ideal bread for casserole meals.

Gouda and Edam are easily recognized by their bright red wrappings. Both are semi-hard cheeses, mild in flavor and smooth in texture. Gouda is slightly creamier in texture. Edams are shaped like round cannon balls and Gauda like a flattened sphere. Both are wonderful addition to hot fruit pies. Center a fresh fruit tray with a whole cheese, cut in wedges, bright red covering left on to add beauty to the tray. Serve wedges on the side with fruit pie, red covering on, or top the pie with wedges with the red covering removed.

Gruyere is similar to Swiss, nutlike and slightly salty in flavor. It is a firm cheese usually packaged in small wedges. Stir cubes of it into hot cooked rice along with onion and celery that have been cooked until just tender in a small amount of hot fat.

mixer or rotary beater until smooth and fluffy. Stir in 1/4 teaspoon Accent, 1 teaspoon grated onion, 1/2 teaspoon liquid smoke, dash of garlic salt and 1/2 cup minced ripe olives. Chill in gas refrigerator. Makes about 1 1/2 cups. Note: For a mixture of spreading consistency, reduce cream to 1 tablespoon.

Drive carefully. The life you save may be your own.

### 104,543 Doves Killed In Hunt Of Whitewings

AUSTIN — A good seed crop of white-winged doves has been left in the Rio Grande Valley, following a two-day hunt in mid-September, according to the director of wildlife restoration of the

Game and Fish Commission.

It is estimated that hunters during the two half-day shooting periods killed 104,543 birds of both whitewings and mourning doves. Of this number 43,631 were mourners.

The hunters only recovered 82,769 birds, however. Of the total kill it was estimated that 23,774 were mourning doves, indicating a successful breeding in the nesting area during the summer.

### Fuel Economy Accented in 1959 CHEVROLET PICKUP TRUCK

Better fuel economy, new two-toning and larger brakes are among improvements in the 1959 Chevrolet Fleetside pickup, one of 139 truck models in the company's new line. An economy six engine gives up to 10 per cent better fuel mileage, with higher torque at normal speeds. A further economy carburetor-rear axle option is available on six-cylinder half-ton models.

A count indicated there were 5,115 automobiles in the hunting area, carrying 16,303 hunters.

Much of the shooting was at high fliers and during severe rain storms. As a result there was a 20 percent admitted loss, amounting to 21,774 birds not recovered.

The count was made possible by cooperation of the hunters in placing feet of the dead birds in paper bags which had been deposited at crossroads throughout the area.

"This can be termed a satisfactory hunt," the director said. "It is unfortunate so many birds

were shot down and lost. The percentage was high because of the weather. However the hunt indicates the nesting of white-winged doves on this side of the Rio Grande is increasing as habitat is acquired, and citrus groves planted after the 1951 freeze reach maturity."

Boyd Lynn Meers and Collis Michels visited Bob Cude at Tarleton State College in Stephenville and all visited Dickey Morrow at Texas University in Austin over the week end and attended the Texas and Texas Tech football game on Saturday night.

Mrs. Lola Cartwright returned home last Sunday from two weeks visit in Lubbock and Kress. She visited her son, Keith Cartwright, and family in their new home in Lubbock and with Mr. and Mrs. Ollie Stark and Mr. and Mrs. Bun Stark and other relatives in Kress.

Terry Harrison visited his father, J. E. L. Harrison, in Iradell over the week end. Mr. Harrison, who has been a patient in the Scott and White Hospital in Temple since August 22, was able to be taken to his home in Iradell last week.

### CATTLE OPEN UNEVENLY, COWS 25-50c LOWER

Fort Worth, Oct. 6 — Cattle prices were uneven. Hogs showed the first strength in more than a week. Sheep and goats were steady at Fort Worth Monday.

Offerings of cattle and calves were near 10,000 below a week earlier around the major market circle. Hogs at 12 major markets were 16,000 below a week earlier. Sheep numbers were up 2,500 around the circuit.

Cattle and calves were slow. The receipts included a big percentage of mixed grade and classes and one factor in the slow movement early in the day was the extensive sorting that was necessary.

Fed beeves were scarce and about steady. Cows faced lower offers from slaughter interests from the opening gong and averaged 25 to mostly 50 cents lower by the time a clearance was completed. Bulls were steady.

Slaughter classes ruled steady. Stocker and feeder classes were unevenly fully steady to somewhat lower. There was very strong demand from farmers of the area on types suitable for winter pasture operations but buyers with northern connections were talking lower prices following the \$1 lower close in the north late last week. High grade stockers were relatively scarce.

Good and choice slaughter steers and yearlings cashed at \$24 to 28, the higher figure for some baby beef type heavy calves of light yearling weights. Medium and lower grades sold from \$23.50 down.

Fat cows sold mostly from \$18.50 to \$22 and canners and cutters drew \$14 to \$19. Bulls sold from \$18 to \$22.75.

Good and choice slaughter calves sold mostly from \$24 to \$28, with a few heavies higher. Cull, common and medium calves sold from \$16 to 24.

Good to choice stocker calves cashed at \$29 to \$33 and heifer calves ranged from \$30 downward. Stocker steer yearlings sold from \$31.50 downward, with heavier yearlings 27.50 downward. Stocker cows sold from \$18 to 21.50. Some weighty feeder steers sold from \$22 to \$25.50.

### HOGS RALLY AFTER LAST WEEK'S PRICE COLLAPSE

Last week hog prices took a drubbing all over the country, and as they dropped from the \$22 range to the \$20 range, they lost a total of \$2 to \$2.50 in just three days of last week. However, at Fort Worth Monday, the trend was up for the first time in more than a week.

Butcher hogs were 50 cents higher and packing sows were 50 cents or more higher here Monday. Choice butcher hogs cashed at \$20 to \$20.25. Medium to good butcher hogs sold at \$18.50 to \$19.85. Sows were reported from \$18 to \$19.50. Boars

drew \$8 to \$9. Stags cashed at \$12 to \$15.

### SHEEP AND LAMBS SOLD STEADY, FAT LAMBS \$22

Sheep and lambs were steady at Fort Worth Monday. Medium to good slaughter lambs sold from \$20 to \$22, some shorn lambs with No. 1 pelt and some woolled lambs at the top of \$22. Good slaughter yearling wethers cashed at \$18 to \$20. Slaughter ewes sold from \$7.50 to \$8. A few nanny goats sold at \$7.50. Stocker and feeder lambs cashed at \$18 to \$21.75.

### LOCALS

Dr. and Mrs. Delmon E. Alexander and daughters visited Mr. and Mrs. Kenneth Searcey and son in Dallas over the week end.

Mrs. Muriel Mitchell visited her daughter and family, Mr. and Mrs. Michael Sloan, Sandra and Susan, in Muenster over the week end.

Mr. and Mrs. Ray Lynn Hardin, Mrs. J. T. Voss and Mrs. Gladys Loer visited Mr. and Mrs. Tommy Gage and Mr. and Mrs. Bob Hastings in Dallas over the week end.

Week end guests in the home of Mr. and Mrs. Gus Brown were Mr. and Mrs. J. L. Koonce and Mr. and Mrs. S. O. Riley of De Leon.

### 1958'S HIGHEST PRICES PAID AT FORT WORTH'S SHOWS & SALES

Highest gross and highest average commercial cattle sales in Texas this year were the double-header stocker-feeder events at Fort Worth. Compare! Our September sale grossed over \$532,100 on 3,743 calves and yearlings.

Our Fall roundup time special will be October 16-17. Trophies and dozens of special prizes. Here's what they say:

Mr. T. J. Peysen of Scotland, Texas, says, "The growth of these sales and the good prices the cattle command proves they are a good thing. We hope they continue and were well pleased with our sale last time."

The cream of the nation's cattle buyers will be in Fort Worth, Texas, Oct. 16-17. Display your cattle before them under most favorable sale conditions. Cash in on proven successful shows and sales. Show and sale both days.

For details or information contact members of the Market Institute or the Institute office, Ted Gouldy, manager, Livestock Exchange Bldg., Fort Worth 6, Texas.

### Three Groups Of Bluebirds Are Formed Here Recently With Membership Of 33

Three groups of Bluebirds, a junior brand of Campfire Girls, Inc., have completed their registration, and have started their activities in Munday this week. These groups represent the first girls organizations in this locality and will be affiliated with the National Campfire Girls of America. They will operate independently of any District for the first year of operation, and work under their own local Council. This Council will be made up of group leaders and their respective sponsors together with the assistant leader of each group. The Munday Study Club has voted to give their support to these groups and a sponsoring committee has been named from that organization.

The Bluebird Program is designed to help girls grow through a variety of constructive experiences — such as music, games, handicraft, dramatic play, homecraft, trips into the community, and guided social relationships with the group. It is an educational-recreational program which encourages every girl in the application of her religious, spiritual and ethical teachings to her daily living; a love of home and family that grows as she grows; pride in woman's traditional qualities — tenderness, affection, and skill in human relationships; deep love of her country, the practice of democracy, readiness to serve; the capacity for fun, friendship, and happy group relations; the ability to take care of her self, to do her work skillfully, and to take pleasure in it; interest and hobbies she can do with others and alone; love of the out-of-doors, and skill in indoor living; a happy heart that will help her find beauty and adventure in the common things of daily life. These are some of the objectives adopted by the National Council for Blue Bird and Camp Fire Girls Inc.

The three groups that are organized as of this date are divided according to school grades. They are listed below with their leaders and sponsors. Each group will set their own date for their meetings. They are as follows:

**2nd Grade, Happy Bluebirds**  
Mrs. Bill Hulse, leader; Mrs. Keith Burnison, assistant; Mrs.

Tommy Harper, Study Club sponsor; Donna Allen, Diana Allen, Sharon Boggs, Pamela Bryan, Jean Burnison, June Burnison Sherry Carpenter, Lana Harper, Kathy Cypert, Linda Hulse, Jackye Leflar, Judy Lowe, Mary Sue Mitchell, Martha Moore, Donna Patterson and Parry Partridge.

The program committee will be made up of mothers of second grade girls and each shall work actively with the program for three months, during which time various phases of activities will be planned and sponsored.

**3rd Grade, Friendly Bluebirds**  
Mrs. Robert Patterson, leader; Mrs. Donald Hobert, assistant; Mrs. C. P. Baker, Study Club sponsor; Linda Hobert, Ginger Searcey, Karen Tomlinson, Bobby Patterson, Martha Pape, and Nancy Moore.

**4th Grade (To Be Named Later)**  
Mrs. Don Combs, leader; Mrs. Varney Moore, assistant; Mrs. M. H. Reeves, Study Club sponsor; Marsha Moore, Janet Bullington, Sherry Pruitt, Paula Snyder, LuAnn Combs, Mickey King, Paula Thompson, Cheryl Jetton, Violet Vinson, Trena Howland and Sue Kane.

At least two groups of Campfire Girls are in the process of being organized. They will be announced at a later date.

B. E. Smith and Mrs. William Browning and Chucky attended the funeral of Albert Rushing in Mineral Wells last Tuesday.

Mrs. Willie Snelson of Clovis, N. M., is visiting relatives and friends here this week.

During the business meeting district officers were elected. Kegley and Richards were elected voting delegates. Plans were made for the next meeting which will be held at Newcastle, when they will present their FFA sweethearts that will represent them in the contest.

A leadership contest has been set for Nov. 8 at Olney.

#### JOHNSONS ENJOY TRIP TO WISCONSIN

Mr. and Mrs. Wylie B. Johnson recently enjoyed a wonderful vacation trip to Wisconsin where they visited Wylie's sister and family, Mr. and Mrs. Paul Schaedick in Wabeno. The Johnson's daughter-in-law and little granddaughter, Mrs. Don Johnson and Julie Irene, came from El Cajon and accompanied them as far as Marshalltown, Iowa, for a visit with their parents and grandparents, Mr. and Mrs. Earl Bousum, and other relatives. Julie Irene

celebrated her first birthday while visiting her grandparents in Marshalltown. Grandpa and grandma Johnson really enjoyed her on the trip.

#### JOE PATTERSONS HAVE A GRANDSON

Rev. and Mrs. Gerald Doyle of Gould, Okla., are the proud parents of a son. He made his arrival at the Memorial Hospital in Altus Friday, October 3, 1958. He weighed 7 pounds and 10 ounces and has been named Chad Patterson. He has a big sister, nearly two, Marla, who is very proud of her new brother. Grandparents are Mr. and Mrs. Joe Patterson of Munday and Mr. and Mrs. H. E. Doyle of Vernon. This is the first grandson for the Pattersons. Mrs. Patterson left Munday afternoon to visit and help take care of the little fellow.

Mrs. Sam Jones of Corpus Christi and Mrs. Ralph Wetherbee of Yorktown visited their sister and family, Mr. and Mrs. Oscar Cypert, Melvin and Cathy, last Sunday and Monday.

Mr. and Mrs. J. C. Smith of Mineral Wells and Mr. and Mrs. Ed L. Smith of Jacksboro were guests in the home of Mr. and Mrs. B. E. Smith several days last week.

#### Knox City Wreck Injures 7 Persons

Seven persons were injured in a truck-car wreck here about 9 a. m. Sunday. A truck driven by Manuel Esponosa collided with a Mercury auto driven by Max Perez of Rochester near the south city limits on U. S. Highway 283.

Perez and Esponosa underwent surgery Sunday afternoon at Knox County Hospital. Esponosa

was the most seriously injured with head injuries.

Five braceros, whose names were not known, were also taken to the hospital. They were passengers in the Perez auto.

Highway patrolmen George Garrett and Bill Jones of Seymour investigated.

Mr. and Mrs. R. E. Higgins of McAadoo visited Mrs. Higgins' sister, Mrs. Jeff Mitchell, last week and they attended the two day centennial in Throckmorton.

## Moguls To Play Henrietta Team Friday Night

Humbled by the superior onslaught of the Paducah Dragons last Friday night, the Munday Moguls are continuing workouts this week, preparing for entertaining the Henrietta Eagles at Henrietta on Friday night.

The Eagles also fought a hapless battle last Friday night, being downed 20 to 0 by Archer City, so both the Moguls and Eagles will be fighting to gain a rung up the ladder. The game promises to be an interesting one, and Mogul fans will continue to turn out and support their team.

In smashing the Moguls 51 to 0 in a District 11-A game, the Dragons scored in every period of the game, racking up 19 points in the first stanza. They were led by Charley Johnston, who passed for one touchdown and ran for four. He pitched to Jackie Biddy for a total of 59 yards and galloped for runs of 38, 20, 61 and 60 yards on his touchdown jaunts.

Fighting gallantly in the face of these odds, the Moguls were completely subdued by the visitors and never threatened a score.

## Weinert Exes Elect Officers

Raymond Mathison is the new president of the Weinert Homecoming Association.

Other new officers, named at the reunion last Saturday, are Mrs. R. C. Liles, vice president and Mrs. Wanda Vojkufka, secretary-treasurer.

Next homecoming is set for two years from now, the first Saturday in October 1960.

Saturday 430 exes and visitors registered for the party.

Two queens were crowned during halftime at the football game. Joella Weinert, a teacher in Snyder schools, was elected homecoming queen by those attending the reunion. Erlinda Alexander, who was elected earlier by the student body, was crowned high school queen. Their escorts were Elmer Adams, captain and Luther Rainey, co-captain, of the football team. Crown bearers were Callie Sue Garrett and David Dunnam.

## Mrs. Jerry Scott Honored At Shower On Tuesday Night

Mrs. Jerry Wayne Scott, nee Donna Phillips, was honored with a wedding shower Tuesday night in the home of Mrs. Chalmers Hobert.

Greeting the guests with Mrs. Hobert were the honoree, her mother, Mrs. John Phillips, and the mother of the groom, Mrs. J. B. Scott. Miss Shirley Nell Phillips registered the guests.

The serving table was covered with a band crocheted cloth made by the bride's grandmother, Mrs. Press Phillips that has honored the tables of all the family traditional affairs, and centered with an arrangement of pink and white roses with greenery. Wedding bells were tied with pink ribbon on the arrangement. Pink candles were on either side. Appointments were in crystal. Serving alternately were Misses Carolyn Hobert, Brenda Gass and Dianna Gaither. White roses and pink dahlias completed the house decorations.

Hostesses for the occasion were Mmes. Chalmers Hobert, Boyd Moore, Worth Gafford, Chancey Hobert, Tommie Harper, Bill Gaither, L. W. Hobert, H. T. Cunningham, Donald Hobert, David Robnetta, Fidelia Moylette, Robert Hosea, Gene Brown and Misses Carolyn Hobert, Diana Gaither and Brenda Gass.

## Former Munday Woman Beaten In W. F. Robbery

Mrs. Mattie Finley, 58-year-old Wichita Falls waitress and former Munday resident was brutally beaten last Monday night in a robbery of the Minute Lunch Room in Wichita Falls where she was employed. She is recovering in a Wichita Falls hospital, where she is being treated for 11 lacerations of the head, inflicted by the attacker with a claw hammer.

Mrs. Finley told officers a young man carrying what ap-

peared to be several textbooks entered the cafe, went to the back and told her something was wrong with the ice machine. When she bent over to check the machine, she was struck from behind. The attacker then kept hitting her, she said.

Her attacker ran from the cafe, after taking some \$69 from the cash register, still carrying his books. He had not been apprehended late Tuesday, but police found a blood-stained hammer at Sixth and Lamar Streets after having traced his path of flight.

Mrs. Finley lived in Munday a number of years before moving to Wichita Falls.

Mr. and Mrs. J. J. Johnson of Auburn, Wash., are visiting his

brothers, Wylie B. and Edd Y., and their families this week. The Wylie B. Johnsons met them in Fort Worth last Saturday where they all visited with the boys' sister, Mr. and Mrs. W. B. Hudson. The J. J. Johnsons are making the trip by train and had visited his sister and family, Mr. and Mrs. Paul Sheadick in Wabeno, Wisc., and her brother and family, Mr. and Mrs. Robert Moore in Russellville, Ark. From here they will go to California for a visit with her brother and family, Mr. and Mrs. Clifford Moore in El Centro.

**TEXAS GRAIN SORGHUM BOOM SPARKS INCREASE IN STORAGE FACILITIES**

The five-year boom in Texas grain sorghum production is reflected in new grain warehouse licenses and the upsurge in construction of additional grain storage facilities over the state. A total of 691 warehouses have been licensed by the Texas Department of Agriculture in the first months of the current licensing year which began June 1. This compares with only 589 licenses issued during the entire 1957-58 period and 200 licenses

for the first year the Texas Grain Warehouse Law became effective in 1953. Storage space has always been scarce during harvest, resulting in millions of bushels of grain being poured on the ground at a great risk to owners. Licensed Texas warehouses to date have a capacity of 322,460,671 bushels and more space is needed for the coming season. Preliminary estimates show a harvest of 427,906,400 bushels of grain this year, most of which will require storage for varying periods of time. To meet this de-

mand, the number of licensed warehouses in the state will likely increase to about 775 before the year's end, upping our storage space to over 400 million bushels.

The big boom for grain sorghum crops was partly triggered by cotton acreage restrictions which drove farmers to find new ways to utilize their soil. In addition, the high cost of cotton production has caused many farmers to switch to the less expensive and troublesome grains.

Prospects for a continued increase in grain production in coming years have caused more than 300 Texas warehousemen to double their storage capacity in the past 12 months.

The Texas Grain Warehouse Law, which requires in part that warehouses be licensed by the Texas Department of Agriculture and be bonded to protect farmers against theft and other losses, was enacted following national scandals surrounding misappropriation of stored grain. A force of 17 TDA inspectors constantly check licensed warehouses and checks to assure compliance with the law.

you wish to sell your house and you engage a real estate man to handle it for you. He is a special agent who represents you in this transaction alone.

On the other hand if you were to be absent from the city for a long period of time and have business affairs to be cared for, you might grant a power of attorney to your lawyer or a close associate of yours, to act in your stead as fully as if you were present.

He would be your general agent and could use his own judgment and discretion in conducting your affairs without consulting you as to what should be done with any old or new problems that might arise.

However, the principal is responsible for the conduct of his agent, either general or special. If the agent is in the process of doing what he has been hired to do.

Thus, if the agent is acting within his "scope of authority," and someone is injured through the agent's negligence, the principal is liable.

Very often difficult legal questions arise as to whether the conduct of the agent was within the "scope of his authority," and thus binding upon the principal.

For example, suppose the grocer's delivery boy, while enroute to a customer's home and despite the grocer's instructions to stick to business while on deliveries, decides to go a mile or so out of his way to see his girl about a date that night. He drives through a stop sign and hits a pedestrian. Is the grocer responsible for this?

The law of agency is designed to regulate these relationships between principal and agent and third party and to protect the just and proper interest of each. Though this is one of the areas of the law that can be very complex, at the same time it is one of the areas of the law where fairness, common sense and common understanding are most important.

(This column, prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved because a slight variance in facts may change the application of the law.)

Friday guests in the home of Mr. and Mrs. Joe Patterson were her brother and family, Mr. and Mrs. J. W. Floyd and daughter of Houston and her father, J. N. Floyd of Rotan.

**AGENTS NECESSARY IN CONDUCT OF BUSINESS**

Without the idea of agency, business as we know it would stop. Practically all business transactions of every kind depend upon the services of agents of one kind or another.

Your insurance man is an agent and so is the man who sells you real estate, or delivers your groceries, or drives your bus. These are just a few examples, and each under the law of agency, are somewhat different.

But each have in common the idea that, in some way or another, they represent or act for someone else. The person or corporation for which they act is known as the principal.

Generally speaking, there are two broad classes of agents — special agents and general agents. For example, suppose

Drive carefully. The life you save may be your own!

There may be some truth in the reports that Russia caught us reading science fiction instead of science manuals, but I just don't believe we're exactly dullards in the field. Personally, I used to sit with glazed eyes in physics and chemistry classes, and still haven't the remotest idea of the "how". But then, I figure we all have some speciality and that's what makes the world go round. So just because I don't understand scientific things, I know for a fact there are those, and many of them, who are, as some teenagers say, "way out there".

Like most unscientists, I'm fascinated with some of the everyday marvels I just can't comprehend. But

count on. For instance, we have an RCA Whirlpool Imperial, a room air conditioner, that is tucked in the window and when called upon, brings a mountain coolness from the hot outside air into an even hotter room, operating on a little electricity yet! Electricity has always been associated with heat to me, and heat and coolness just don't mix. But it's obvious that notion is wrong. Anyway, all we have to do is set a dial and down goes the temperature. If the weather turns chilly for a few days, another swipe at the dial, and a warm and temperate air comes through. The instrument (and I chose the word) will also control humidity. Now if this isn't scientific miracle, I'd rather not know what is. My money is on American science every time. Now then, I wonder how many of the RCA Whirlpool technical people can keep house efficiently. That's my speciality.

## New Publication On Beef Cattle Is Now Ready For Producers

The success of a beef cattle producer may well be determined by the success of his breeding program.

The practice of mating outstanding bulls with outstanding cows, used by early breeders to establish our present beef breeds, is still the best method of improving beef cattle.

Use of production information, such as regularity of calving, weaning weight, gaining ability, conformation, finish and carcass information, makes it possible for a breeder to select animals that are, (1) outstanding producers, (2) will develop into outstanding producers or (3) select matings that should result in animals capable of outstanding production.

The Texas Agricultural Extension Service has released two bulletins that can be very helpful to anyone desiring information and advice on developing an aggressive breeding program. The bulletins are B-908, "Breeding Programs for Commercial Beef Herds", and B-909 "Breeding Programs for Registered Beef Herds." Authors are L. A. Maddox, A. L. Smith and U. D. Thompson, extension animal husbandmen.

These publications discuss selection of cows, selection of bulls, evaluation of calves and yearlings and other related topics. They are available from local county agents or the Agricultural Information Office, College Station, Texas.

### SEASON'S CLIMAX CATTLE SALE ON OCTOBER 16-17

The finale of our most successful season of special stocker-feeding cattle sales at Fort Worth. This is the BIG ONE at Fall roundup time! Our double-header sale in September grossed over \$532,100. Get in on these better sales at Fort Worth.

Trophies and dozens of special prizes. All breeds of commercial stockers and feeders eligible. Show and sale both days.

Here's what they say:

Mr. Paul A. Hill of Sweetwater, Texas, says, "I was amazed when my commissionman informed me we had such a successful sale. Our \$36 champion carload of calves was a pleasant surprise. These sales deserve a lot of credit."

The cream of the nation's cattle buyers will be in Fort Worth, Texas, Oct. 16-17. Display your cattle before them to the best advantage, and cash in on proven successful shows and sales.

about acne — the scourge of teenagers since early times.

There has been much study of acne as a skin disease, but the exact cause is still undetermined. The body's hormonal balance, nutrition, the climate, and certain organisms all play a part. However, there is little doubt that the changes of activity in a youth's physical makeup as he attains adolescence is a major contributor to the problem.

Excess oil is emitted, combining with an overgrowth of skin about the pores, thus obstructing the openings so that oil gland canals become plugged with dried, fatty material causing a local skin obstruction ranging from a tiny blackhead to tender inflamed cysts containing pus.

The two main goals of skin care are improving appearance for psychological reasons and preventing permanent scarring. A good cleansing with hot soapy water and a gentle massage with the finger tips for five to ten minutes each night should be a rule. Never scrub the skin vigorously or roughly as this injures

## Buffet Dinner Is Enjoyed By Goree Study Club Members

The initial meeting of the Women's Study Club of Goree was a buffet dinner on Friday evening, October 3, in the home of the president, Mrs. Orb Coffman.

Invocation was given by Mrs. C. R. Mathis, and Mrs. Barton Carl led in the pledge to the flag. Mrs. James Carver led the group in singing "America" and "State Federation March." Special music, a solo, was rendered by Mrs. John Broach.

Mrs. Coffman welcomed club members and guests and gave a resume of the year's activities. Mrs. Sam Hampton, first vice president, talked about the year-books and announced special days, the theme for the year being "In Step With the Times." Other members of the program committee are Mmes. W. M. Taylor, J. B. Lawson and Alma Reeves.

The club, which was organized in 1915 and federated in 1916, is a member of the first district, Texas Federation of Women's Club. It now has a membership of 20.

Members and guests present for this lovely affair included Mmes. H. D. Arnold, John Broach, Barton Carl, James Carver, Henry C. Adair, Sam Hampton, J. B. Lawson, Georgia Mapples, C. R. Mathis, Walter Mooney, Alma Reeves, W. L. Stewart, Garland Thiebaud and Jack Coffman.

The Gilliland Home Demonstration club met on Wednesday, October 1, in the club room of the school building. Mrs. W. T. Cook called the meeting to order, and one game was enjoyed by the members.

Mrs. Orb Miller gave the devotional. The club is to have a bake sale on Saturday, October 11 in the Cook Cafe. Family night will be observed on Saturday night, October 18.

Mrs. Miller gave an interesting demonstration on "Drying Flowers." Mrs. Emil Navratil was hostess to Mmes. W. T. Cook, Charlie Groves, Dwight Burgess, Orb Miller, Homer Martin, Arthur Hornsey, J. W. Pendilton, Sam Stone, L. D. Welch, Arnold Navratil, John Thompson, Hewitt Simmons, and Grady Duncan.

Mr. and Mrs. A. J. Beaty and Mrs. Coy Tuggle attended the State Fair in Dallas over the week end.

Wesleyan Service Guild Meeting Is Held On Monday

Twenty members of the Wesleyan Service Guild met Monday night, October 6, at the Methodist church for its second study of "Concerns of a Continent." Mrs. R. M. Almanrode is the director of the study. Those discussing different countries were Mrs. Levi Bowden, Mrs. John Spann, Mrs. J. T. Offutt, Mrs. Muriel Mitchell, Miss Ruth Baker and Miss Florence Gaines.

Mrs. Oscar Spann closed the meeting with a devotional and song "Open Thine Eyes."

Plans are being made for the second bazaar the Guild has sponsored, to be held November 25 along with the annual bake sale.

## Gilliland Club Meets October 1st

Mr. and Mrs. Stanley Wardlaw, Jerry Jetton, Roger Bell and Billy Frank Fitzgerald visited relatives in Fort Worth over the week end and attended the S. M. U. and Notre Dame football game in Dallas on Saturday night.

## Knox Prairie Philosopher Amazed To Find Out Russian People Like Money Just The Same As Rest Of Us

Editor's note: The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek believes he has found out something new about Russia, his letter this week indicates.

J. A.

Dear editor: When it comes to Russia, I don't know any more about it than the foreign policy experts in Washington, but I was reading an article in a newspaper last night that has me stumped.

According to it, the Communist bosses in Russia have discovered that they get more production from individual workers when they give them a pay boost for extra work or for taking on more responsibilities.

"It is now maintained here that more and more problems can be settled with offers of cash rewards," Premier Krushchev announced.

This bowled me over, or would have if I hadn't been stretched out on a couch when I read it. You mean to tell me that the Russian people are after all human? You mean to say they like money the same as us capitalist Americans?

Up to now, I had been led to believe that the Russians worked strictly for the satisfaction of seeing a five-year plan completed, and as soon as they got one finished they were miserable until their bosses announced another one. As I understood it, a Russian wasn't interested in getting his hands on any money of his own, all he wanted was a place to work, a picture of his dictator hanging on the shop wall, and a pallet to sleep on at night, where he could dream happily about how much bigger their satellite was than ours.

But if the Communists are finding out money talks in Russia like it does around here, this opens up a brand new field of speculation. You start letting people have money, and the first thing you know the women will be going to beauty shops and swapping gossip, families will be demanding bath tubs and hot water, boys will start playing football, girls will start getting style-conscious, men will start buying fishing tackle, and before long somebody will turn up in the

neighborhood with an automobile and then the dam has busted.

If the Communists ever let the people get a taste of money and the advantages of getting ahead, the game is up. Scientific production is fine, but living is more fun.

And to tell you the truth, despite how hard the Russian farmers worked the state land, I've always suspected most Russian farmers would swap all the satellites Russia will ever launch for one piece of land they could call their own.

Yours faithfully,  
J. A.

**BOYCE HOUSE**  
*Gives You Texas*

Hollywood re-visited (in the summer of 1958) after six years: A sign, "Fine Funerals, \$95 to \$4,800";

Poetic name for a business concern: Fantasy Lighting Company;

Casa Verde hotel is yellow — perhaps someone should tell the owner that the name means "green house";

Horse-O-Scope Company — I suppose its patrons are race-track devotees;

A sign, "Merrill Lynch, Pierce, Fenner & Smith" — Smith! What about Bean?

In an old book store window, a copy of an exciting volume I read when I was a boy in Brown-

wood, Texas, in 1906 and I hadn't seen a copy since: "Thirty-One Years on the Plains and in the Mountains" by Drannan — but it was Sunday and the place was closed.

The inscriptions in the concrete at the Chinese Theater are still there, with some recent additions — but I noticed that several of the older visitors looked with most interest at those which went back the furthest, such as Tom Mix (1926 or 1928, I don't recall which), Marie Dressler and Wallace Beery.

Gone is a landmark that looked old even in 1939 when I first visited Hollywood: a rambling, several-storied frame hotel with wide porches where middle-aged folks sat, surveying the passing world in comfort from rockers and swings in late afternoons and after darkness had fallen.

As the train stopped en route to Los Angeles, I looked out the window and saw a sign at the station, "Palm Springs." A signboard stated that Palm Springs has more than 1,000 swimming pools and 289 hotels. Doubtless, you can get clean — and cleaned.

I almost got to visit the famous desert resort in the winter of 1939-40 while serving as technical advisor and writing consultant for "Boom Town." The genial director had a cold which was hanging on and so, at a story conference, the producer, Sam Zimbalist, remarked, "If your cold doesn't get better, we ought, all of us, to run up to Palm Springs for a few days."

Unfortunately, the cold got well right away.
