

THE MUNDAY TIMES

Volume XXVI.

Munday, Texas, Thursday, February 5, 1931.

Number 4143

Three Months Time Is Granted For Tax Payments

At a special meeting of the city council on Monday afternoon the time limit for paying city taxes was extended for three months from February 1, or until May 31, however, the delinquent taxes will draw interest from February 1st at the rate of 10 per cent, with no penalty attached if paid before the expiration of the extension granted. While only about 53 per cent of the city taxes were paid up to February 1, the city's finances are in fair condition, and it is the opinion of the council that many will be able to meet their taxes within the three months period extended.

No action has yet been taken by the school board with reference to school taxes, of which about 68 per cent were paid on February 1st, and it is estimated that the schools will require approximately \$11,000 additional taxes in order to keep the current expenses paid up to the close of the term. The school board will hold a meeting on Thursday evening at which time some steps will likely be taken with reference to tax matters as pertinent to the schools.

Move Started To Help Unemployed Situation Here

Citizens of Munday and vicinity are urged to assist in solving the unemployment situation in this community. There are a number of men out of employment through out the Munday section and there are many citizens who can find a few days work around their premises. If those who wish to have work done around their home or elsewhere will report the fact to Dr. E. M. Ammons, the Rev. W. H. Albertson or the Rev. W. C. Howell, they will make an effort to get you a man for the job.

Look around and see if you cannot find one or more day's work that needs to be done around your place and thereby assist some unemployed man in providing the necessities of life to himself and family. Remember, many men would go mighty hungry before they will ask for charity, and it is this type men that an effort will be made to find employment for. Do your part toward helping the unemployment situation in this community.

Attendance Needed For Securing of Council Credits

The Womans' Missionary Society met last Monday afternoon at 3:00 o'clock, the usual hour of meeting, and took up the "Kingdom Extension Book" for study and will continue the same for the month. The attendance was wonderful, and the hour was interestingly spent. Really, there was not a dull moment and the ladies joined heartily in the discussion.

The society hopes to make this look a Council Credit and will if the women of the church respond in as great numbers as we are hoping for. The Council credit can be given only on condition of percentage of attendance. So we are appealing for a most hearty response from the women of the church during this period of "Church Loyalty."

—Reporter.

Church Loyalty Is Urged By the Rev. W. C. Howell

January and February are "Church Loyalty" months. And up to this date the pastor is well pleased with the spirit of church loyalty manifested by the good people of Munday.

Yet I am thinking of a large body of Methodist whom I know and see on the streets most every day and yet have not seen them in the church house, even until now. Say folks, let's make it unanimous next Sunday and all come to church. What do you say? Let's make our membership mean more.

"If you think your church the best, Tell 'em so. Help it grow. When there's anything to do Let them always count on you. You'll feel good when it's through. Don't you know?"

So let us have the privilege of your smile and happy hand-shake next Sunday.

—W. C. HOWELL, Pastor.

Farmers!

I am prepared to furnish your Tractor fuel and lubricating oils on fall terms. If you need this help see me quick.

U. R. HOUSER, At Orient Service Station.

When the Red Cross Calls—Give!

By Albert T. Reid

You Can Help In This

During these depressed times there are many men with families dependent upon them who would be driven only by grim necessity to ask for charity. These are the type of citizens we should all want to help in time of need, and most of them are willing to do most any kind of honest labor to provide the necessities of life for their loved ones and themselves.

A man told us the other day that he had gotten only one day's work last week—at \$1.00 per day—and unless he secured work he would be compelled to ask for something for his family to eat. He is willing to do any kind of honest labor, and will ask for charity only as a last resort.

Most everyone has some little work that needs to be done around his home—garden work, yard work or putting out some trees, repairing fences etc. Why not do it now and make your dollars do double duty—help the appearance of your home and help some needy man to provide the necessities of life?

Look around for some job—a day or more—and let the committee that has been appointed to care for this work provide you a man, or if you prefer, hire your own man. The big idea is to help those who need help the most, any you will feel better after it is done.

If you have a day's work or more, notify Dr. E. M. Ammons, Rev. W. H. Albertson or Rev. W. C. Howell. These men are on the look-out for needy men who need work and can supply you a man for the job.

This appeal does not apply to citizens of the town of Munday exclusively. Farmers can find odd jobs as well as those in town, and should do all within their power to relieve the situation. Many of those in need come into town from the country. Let everybody join in this movement to relieve the situation and the unemployment problem will be solved in this community.

THINKING OUT LOUD

BY J. A. K.

TOL accompanied Leroy Ballenger and Bob Alexander up to Wichita Falls last Friday afternoon to hear Will Rogers, and when you have heard him you can easily understand why he is the most popular humorist in these United States.

Any man who can keep several thousand people completely spell-bound for almost three hours, as did Will Rogers, has a gift that is unusual.

Will expressed his disappointment at the small audience given him in Dallas, but stated that this was partially appeased by a promise from Amon Carter of Fort Worth that the negroes of Fort Worth would contribute more to the cause than did Dallas—and they evidently did, for the Fort Worth folk broke all records.

In his Texas appointments Rogers raised more than \$90,000 for relief work, which will provide food and clothing for a goodly number of those in distress.

This fellow, E. J. Roberts, Sr., who has grown weary of the humdrum life in Fort Worth and is moving to Munday, has arrogantly spread the report that TOL has added out of playing golf with his through fear of defeat, but the real facts are that TOL is a little leary of strangers, especially those from the big cities.

We've had dealing with these city fellows in years gone by, and have found them unreliable. In fact, we have dealt with them in games when we were sure the peas was under one shell when, to our chagrin, we discovered it to be under another.

And, hereafter, we're going to be more cautious with whom we play games, even golf, for believe it or not, there are some funny tricks in that game.

Dr. and Mrs. Farrington have called TOL's attention to a little poem which they ran across recently, and which is all too applicable to many of our folk. It runs like this:

Fortune came and loudly knocked At my door with cherry hail, But, alas, for Fortune's labors, I was over at my neighbor's Pouring out a hard-luck tale.

There's lots of food for thought in these few lines, for we know there are many folk who seem to enjoy talking about and magnifying the seriousness of conditions.

The best way to forget the depression is to get busy and stay busy at something. Quit talking hard times and try to set your think-tank to working in an optimistic mood.

In fact as we have stated before, we of the Munday country have little to complain of by comparison with most other communities in West Texas. We have not had to call upon the Red Cross to feed us as a number of communities have. We have prospects of returning to real prosperity at least twelve months in advance of most of the communities in West Texas, so let's forget all about the depression and get busy working out our individual problems.

Let's be busy and at home when Fortune hammers at our door.

Funeral Services Held Sunday For Mrs. Hilton Hogan

Munday folks were shocked on Sunday morning when news was spread over the town of the death of Mrs. Hilton Hogan at her home in Electra, which occurred about seven o'clock Saturday evening. When news of her sudden and unexpected death came a number of relatives and friends here left for that city and returned on Sunday morning with the remains.

While Mrs. Hogan was not in the best of health, she seemed to be in better spirits on the day of her death than usual and had gone to the refinery where Mr. Hogan was working and accompanied him home at quitting time. While about her work after supper she was stricken with a coughing spell, which brought on a hemorrhage. Mr. Hogan assisted her to a bed and before medical aid could be summoned she was dead.

Vera Opal Wadlington was born April 17, 1902, at Marysville, Cook county, Texas, and came to Munday with her parents, Mr. and Mrs. D. M. Wadlington in 1908, and it was here that she grew to womanhood. In 1921 she graduated from the Munday High school and was married to Hilton Hogan, a sweetheart from her childhood, on October 22, 1927. During the past few years they have resided at Rule until some months ago they moved to Electra, where Mr. Hogan was employed in one of the refinery plants.

Opal was converted in 1925 during the A. B. Little revival here and became a member of the Primitive Baptist church at Gillespie, to which she was ever faithful. While she has long been in failing health she was ever optimistic and always wore a smile and scattered sunshine along the pathway of life.

In addition to her husband she is survived by her father, D. M. Wadlington, of Electra, three sisters, Miss Lura Wadlington of Indianhook, Oklahoma; Mrs. Prince Whittemore and Mrs. M. H. Reeves of Munday.

The remains were brought to Munday on Sunday morning and funeral services were conducted Sunday afternoon at 2:30 at the Baptist church by Elder Henry Cash of Charlie, Texas, assisted by the Rev. W. H. Albertson, following the services the remains were laid to rest in Johnson cemetery.

The active pallbearers were J. C. Campbell, C. D. Hopkins, Leland Hannah, E. L. Blacklock, Phil Lowry and Oscar Spann. The honorary pallbearers were Bob McKinney, Waco; George Spann, Abilene; Jack Cartwright, San Antonio; Hugh Lott, Abilene; Dee McStay, Munday; Hershel Burgess, Houston; Lavoy Burton, Haskell; A. C. Foster, Rule; B. M. Stodghill, Hobbs, N. M.; C. J. Reese, Fort Worth and C. J. Tye, Selma, Ala. The Times joins the many friends of the family in extending sincere sympathy in their great sorrow.

Results of Basketball Tournament Held Last Week

By Gilbert Myers

Last Thursday night, Friday night, Saturday, and Sunday night, was a lively time at the high school gym. An invitation basketball tournament was staged, in which quintets from thirteen different schools participated. Each game was watched by large crowds who were brought to their feet time after time by unusual plays.

This tournament accomplished two things. It brought the several different schools together and made them better acquainted and molded new friendships among the students. It also helped to prepare the boys for the hot competition of the county and district tournaments, which will be played soon. The Knox County Tournament will be held Friday and Saturday, Feb. 6 and 7, at Gore.

When Saturday night came there were only two remaining games to be played. O'Brien and Mankins were to combat for championship, and Munday and Knox City were hot rivals for consolation winners.

Mankins and O'Brien quintets were on the court when the crowd was admitted to the building, and the time was not long until the whistle blew. After a hard and well-matched game O'Brien proved to be the winner of a very nice trophy, which was awarded as a token of honor to the champions. Following the Mankins and O'Brien game the old rivals came

Iowa Park Officials Make Inspection of Sewage Plant

A party of Iowa Park officials and citizens composed of Mayor T. J. Pace, Aldermen Fenton Dale, Curtis Sewell and M. R. Mills, Editor C. C. Hudson of the Iowa Park Herald and B. S. Coleman, were here Wednesday morning for the purpose of inspecting Munday's sewage disposal plant, and in company with D. T. Mauldin and J. A. Kennedy were shown over the plant.

Iowa Park is facing somewhat similar conditions as were faced by Munday some few years ago with reference to their disposal plant, and Mr. Coleman, who is one of the complainants at Iowa Park stated that Munday's plant was in perfect condition and that this city had solved the problem that is now facing Iowa Park, and the gentlemen gathered a number of ideas pertaining to the operation of the operation at Iowa Park.

Editor C. C. Hudson accompanied the officials here in order to study the problem and pass on the methods used in solving the problems to the citizenship of that city, and while here paid this office a very pleasant fraternal visit.

County P-T. A. Will Meet here Tuesday, Feb. 10

The county Parent-Teacher association will meet in Munday on Tuesday afternoon. The program will start with a 30-minute program by the children of the grammar school. The meeting will be held at the Methodist church.

Among the interesting features that will be on the program will be a talk by Mrs. T. S. Edwards of Knox City, on "Education of Parenthood." Mrs. J. D. Kethley will discuss "Do We Have Enough Music in the Public Schools," while Mrs. Ethie Lee P'Pool, county superintendent of schools, will discuss "Rural Schools."

Haskell Ass'n of B. Y. P. U. Meet Here On Sunday

The Haskell B. Y. P. U. Association will meet here February 8 at three o'clock. Now let us make Sunday a record breaking day by doing what Gore did at Haskell January 18, by being one hundred per cent!

I am sure that every one that was fortunate enough to hear the program rendered by Haskell January 18 was inspired to attend every meeting of the association this year, and to do better work for the Lord.

Now, a meeting that will do just these two things is worth your efforts put forth to attend it. A good program has been arranged for the meeting Sunday, so be at the church at three o'clock, and let us make this "1931" year the best year that the Haskell B. Y. P. U. Association has ever had.

Baptist Church

All services at the usual hour next Sunday.

Sunday afternoon at three o'clock the Associational B. Y. P. U. will meet with our church. The local church furnishes the program. It is a good one too. We want a good crowd from our church.

The Sunday School and preaching services are all holding up well. There is a fine spirit manifest in all work. You are welcome to any or all of our services.

W. H. Albertson.

Miss Christine Chapman, who is a student in Texas Woman's College at Fort Worth, was a weekend visitor in the home of her parents, Mr. and Mrs. W. H. Chapman.

forth in purple and gold, and red and blue. It was then that the hottest and best matched game of the tournament took place. The Moguls were playing their third game since noon and they were tired and worn out, but refused to stop until they had nosed the Greyhounds out by two points, even though they were forced to play five quarters to do it. This made Munday High also winner of a cup.

Piggly Wiggly Is Now In Charge Of New Owners

The Piggly-Wiggly store in Munday, which has been owned for several months by Fojtk Bros., of Seymour, has been purchased by Edwin Fojtk, a brother of those composing the Seymour firm, and Chas. A. Foyt, who has been manager of the store since it has been under the ownership of Fojtk Bros.

Edwin Fojtk and family are this week moving here from Seymour and will occupy the old J. T. Lee residence near the school buildings, and he will be actively associated with Mr. Foyt in the business here, and hereafter the store will be a home-owned institution.

Mr. Fojtk has been associated with the Cook-Hoosier Chevrolet agency at Seymour for several years and is inexperienced in the grocery business, however, with the aid of Mr. Foyt he will soon acquire a thorough knowledge of the business, and we are pleased to welcome this new family to Munday.

Grissom-Robertson Co. Inaugurates Big Closing Out Sale

The Grissom-Robertson Company on Wednesday opened a Close-Out Sale of their big stock in Munday, and the opening day of the sale witnessed one of the greatest rushes for bargains that has ever been witnessed in Munday, and the store was packed from the opening hour until the closing hour and those in charge of the sale were highly pleased with the starting off of the sale. The Times plant printed several double-page circulars which were distributed over this entire section.

Poultry Show To Be Staged Here In Near Future

In the very near future Munday will have a poultry show. This show is being sponsored by the Chamber of Commerce, the Department of Vocational Agriculture of the High school, the county agent and the Munday Hatchery. Just what date the show will be held is not known at present, and just as soon as the details are worked out an announcement will be made through this paper and circulars will be mailed out.

In connection with this show we are going to hold a Rooster Day, everyone who has a rooster that he wishes to swap for another be sure to bring him along and swap.

The Vocational Department of the High school is going to have some pins illustrating the Laws of Genetics, (mating for increased egg production. Also illustration on balanced ration feeding, for egg production.

In addition we expect to have two good speakers, poultry experts, to lecture at night long the line of feeding, culling, breeding for increased production.

A small fee will be charged those exhibiting birds, this charge will be only large enough to take care of the feed and hand bills. Birds will be cared for by vocational students at no charge for this service.

E. D. Ralls.

Vocational in tractor Munday High School.

Relatives and friends here have received announcements from Mr. and Mrs. Thomas H. Oliver of the arrival of Tobias Horace, on Sunday, February 1st, at Alvarado, Texas. The young man weighs eight and one half pounds, and here's hoping he grows up and makes as good a musician as his dad.

Mrs. R. E. Alexander and Mrs. R. L. Ballenger are in Dallas buying goods for The Hat Shop.

CURRENT TO BE OFF 9:30-45; 4:00 TO 4:50 SUN.

Electric current will be off in Munday on Sunday from 9:30 to 9:45 Sunday morning and from 4:00 to 4:50 Sunday afternoon, for the purpose of making necessary repairs on the local distribution system, and patrons will please arrange accordingly.

Want to buy or sell, trade or exchange anything? Times Want Ads will do it for you.

HERE'S FULL INFORMATION ABOUT \$45,000,000 FEDERAL CROP PRODUCTION LOANS

Here is information which farmers, bankers, county or community committees, and others, will want to know in connection with the \$45,000,000 federal loan fund.

The committee that will have charge of the loans in Knox county is composed of C. A. Ellard, Munday; W. W. Clark, Truro; and John Smith, Knox City.

1. Those eligible for loans are farmers who have exhausted all their collateral. If they have any collateral which banks or others might accept they are not eligible.

2. The state committee has recommended the following per acre loan basis for cotton seed, \$1 for spring cotton, \$1.50 for garden seed, \$1.50 for grain sorghum seed, 25 cents for peanuts, \$1.50. Certified cotton seed has been offered the committee at \$1.50 per bushel and that will plant one and one-half acres.

3. Feed for a work animal is computed at \$1.50 per acre. If a tractor is used, \$1.50 per acre.

Mortgage, Interest, Release

4. Applicant for loan will give the government a crop lien, and when his debt is paid he gets a release.

5. Interest rate shall be 5 percent.

6. Limit of loan for one applicant probably will be \$600, to be advanced to him in installments as specified in the application.

7. If mortgagor (applicant) shall fail to care for his crop in a businesslike way, agents of the government may enter his premises take charge of the crop and charge the mortgagor with the expense of the action.

8. If mortgagor fails to pay his promissory note or breaks the contract in any way, the government shall have the right to take possession of the crop and without suit sell all or the necessary part to satisfy the debt in full. The mortgagor will get the balance.

Waiving First Lien
9. Holders of prior mortgages on any applicant's crop shall waive first lien to the government, the federal debt to be satisfied FIRST.

10. The application blank requires a statement of amount of loan sought; number of acres of each crop for which seed is to be purchased; amount desired for feed and number of work animals to be fed; legal description of the land; statement of acreage of these crops grown by applicant in preceding year (1930); agreement to use money for purposes ONLY as set up in the act.

11. Penalty for false representation of any character shall be a fine up to \$1,000, imprisonment up to six months, or both.

12. Can a tenant obtain loan? Yes, if his landlord signs a waiver under terms of his state law.

13. When is the money advanced? It will be paid to the applicant on receipt of completed documents, and approval of his application by designated representatives.

14. When and how is the loan to be paid? Not yet announced.

15. If applicant is a tenant, or is farming under a so-called crop contract, or has given prior mortgage on his 1931 crop, he must secure waiver of the actual owner of the land, his landlord, or all prior mortgage holders.

16. If applicant is owner of the land and farms it with tenants or share croppers, waivers of such tenants or share croppers must be secured.

17. If applicant leases land from another, and in turn operates it with tenants, or share croppers, waivers of both the actual owners of leased land (unless rental of said land has been paid) and of said tenants or share croppers, must be secured.

Sales Not Allowed
18. No transfer, assignment, hypothecation or sale of mortgage shall be permitted without written consent of the federal representative.

19. An applicant living near a county line will be allowed to put his application up to the local committee living in the community where he does business, even if the committee is in the next county; but the loan will be handled ultimately by the county committee of the county in which his land is located.

20. No certified county is being given an arbitrary allotment of the fund. This is flexible, quotas to be fixed generally on the number of needy families per county, with no fixed minimum or maximum for any county.

21. How shall the amount of a loan finally granted be arrived at? That will be largely up to the county or community committee, but the final decision will be made by the director in St. Louis, Mo. These committees are expected to scrutinize each application closely to consider the moral risk and make a confidential report to St. Louis as to that phase and to be as conservative as possible, under the circumstances, as to the amount of loan recommended. The idea is to make the appropriation go as far as possible.

Note: The regulations here given may be subject to change, as they are based on the federal fund appropriated to farmers in a group of southeastern states, last year. But no substantial changes are looked for.

Bladder Weakness

If Getting Up Nights, Backache, frequent day calls, Leg Pains, Nervousness, or Irritation, due to functional Bladder Irritation, in acid conditions, makes you feel tired, depressed and discouraged, try the Cysto-Treat. Works fast, stops circulating thru the system in 15 minutes. Prescribed by thousands for rapid and positive action. Don't give up. Try Cysto-Treat (Proprietary) today, under the Iron-Clad Guarantee. Must quickly allay these conditions, improve restful sleep and energy, or money back. Only 60c ad.

LOVELESS DRUG CO.

A Few of This Week's Offerings In Real Estate

No. 1. 80-acre sandy land farm, plenty improvements. \$50.00 per acre. \$1,065.00 loan in very small payments. \$2,000 cash and \$935 second lien notes will handle this deal. You can grow anything on this farm and it is cheap at the price.

No. 2. 60-acre farm, a dandy home, well improved, close in and will suit one working in town—only 1 mile from square in Munday, and the price will surprise you. No trade—takes the cash.

No. 3. 160-acre sandy land farm about 6 miles from Munday for \$55.00 per acre. Small cash payment and good terms on balance. You will like this farm.

No. 4. 260 acres black land, well improved. Owner wants to trade it for 320-acre farm on the Plains. It has a small loan on easy payments. If you are sick of the Plains here is the place to get well.

No. 5. 100 acres on the Plains, well improved, all in cultivation, small loan. To trade for a small farm near Munday. The loan runs for 35 years. You will like this for a home. What have you to offer?

No. 6. 120 acres 7 miles of Munday, good sandy land farm, good improvements. The owner wants to trade it for small farm near Brownfield. Small loan and good terms. A good farm well located.

No. 7. 240-acre farm near Portales, N. M., 100 acres in cultivation, well improved, irrigation plant throws 1000 gallons of water per minute, 90-foot well. Will exchange this for good revenue-bearing property. All this land is good, tillable land. Small loan to assume and the balance in trade.

No. 8. 177 acres of raw land to trade for 160-acre farm near Munday, and have the cash to pay the difference. Prefer land north or north-west of Munday.

No. 9. 1,600 acre farm on the Plains, 1,200 in cultivation, 8 sets of improvements, one set cost \$4,000, others are 4-room houses, plenty of water wells and mills, barns, fences, etc. This land is clear of all debt and owner wants to trade for a ranch and will pay as much as \$40,000 or \$50,000 difference. Here is a good chance for some one to get loose from a ranch.

I have quite a number of other propositions and can match a deal from a town lot up to 300,000 acres, in price from 85c per acre up to \$250.00 per acre. If you have anything to trade list it with me and I will try to match you a deal. I have a few cash buyers for the right kind of propositions, but the man with the cash is after a "snap" and if you have one let's have it.

We have at last received our radio, and believe us, we certainly are proud of it. Every morning when we enter the study hall we are greeted by sweet music, and the problem of programs for assembly period has been solved. Of course, the entire student body will benefit by the radio, but probably the agriculture and home economics classes will use it more than any other, since many programs of that type are broadcasted at all hours of the day.

TASTE AND BASTE CLUB

"As our girlhood is now, so shall our womanhood be." The Taste and Baste club met at the home Economics Cottage Monday evening. There are six cubes of life as we live it; the physical side, the intellectual side, the social side, the spiritual side, the economic side, and the personal side. Is your cube a perfect one or are some of the sides larger than others, so that the whole is forced out of shape?

The personal side of the cube was discussed in our meeting last night.

Our club is also making a study of the twelve most famous women of America, issued monthly by the "Good Housekeeping" magazine. Jane Adams was the first woman of the series.

Orders for the club pins were taken. Home-made candy was enjoyed by the girls.

SENIORS

The Seniors took their half holiday Friday, and went on a picnic to the Vera bridge. Some may not know why we got this half holiday, but it was because we won the queen contest. The Seniors raised about twice as much money as the other classes, so we think we deserved it. The Seniors did not go on this picnic half-heartedly, but we were there in body, mind and spirit.

The Seniors are planning many other good times, so, lower-classmen, watch out.

JUNIORS

The great event that you have been hearing so much about the last few weeks, has at last come to pass. Can't you guess what it is? Why, the Junior play, of course! The name of the play is "Kicked out of College", and take it from us, it's good!

The Juniors have been given the honor (if you want to call it that) of entertaining the Sophomores some time in the near future. We are sorry that some other class could not have had a lower tarry and absence record than we did, but nevertheless, we feel sure that we will enjoy having the Sophomores as guests.

The Junior class had an old classmate, Fayette (Hayden) Edwards, back with us Friday afternoon, and he was a treat to the eyes. We are glad to report that he is making a success in San Antonio but we cannot help wishing that he were back with us in Munday High.

SOPHOMORES

The Sophomore and Junior classes feel honored because they won the contest in selling magazines to get the radio. We have not yet been entertained, but know we will be as soon as the weather will permit.

Listen, folks, the Sophomores won the tarry contest. We have proven to you what we can do, when we half try.

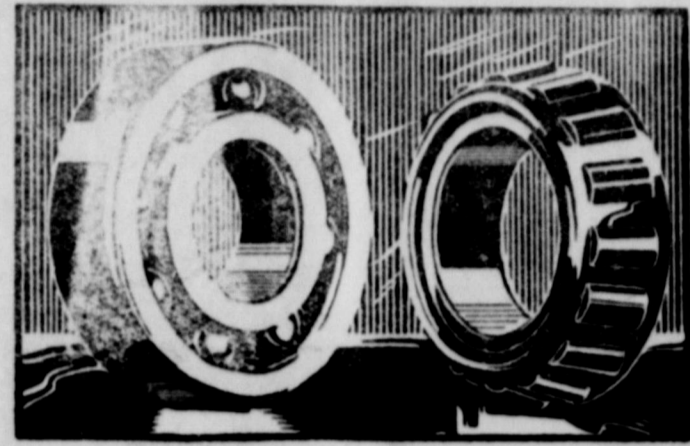

The honorable Juniors are to entertain. Rah! Rah! Rah! for the Sophomores.

FRESHMEN

Did you hear us hollering Saturday night? We had a wonderful time at our party given to us by Virginia Bess Atkinson. The home was decorated nicely for the event. After enjoying ourselves in games of "42" we played other games out side. This event was great. Although we are sorry to say that the majority of the class was not there, the ones who were present had a splendid time.

We are proud of our basket ball

FORD SMOOTHNESS

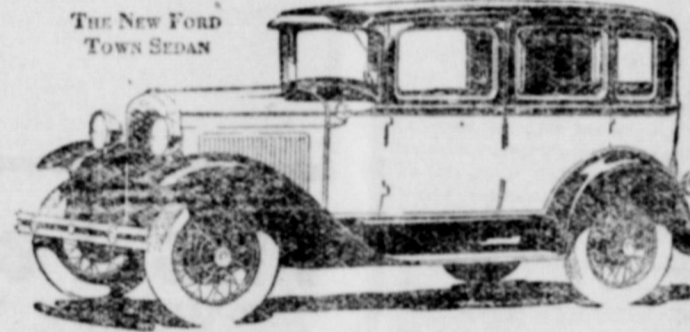

The new Ford has more than twenty ball and roller bearings

EVIDENCE of the high quality built into the new Ford is the extensive use of ball and roller bearings. There are more than twenty in all — an unusually large number. Each bearing is adequate in size and carefully selected for the work it has to do.

At some points in the Ford chassis you will find ball bearings. At others, roller bearings are used regardless of their higher cost. The deciding factor is the performance of the car.

The extensive use of ball and roller bearings in the new Ford insures smoother operation, saves gasoline, increases speed and power, gives quicker pick-up, decreases noise, and gives greater reliability and longer life to vital moving parts.

Other outstanding features that make the new Ford a value far above the price are the Triplex shatter-proof glass windshield, silent, fully enclosed four-wheel brakes, four Houdaille double-acting hydraulic shock absorbers, aluminum pistons, chrome silicon alloy valves, three-quarter floating rear axle, Rustless Steel, the extensive use of fine steel forgings, and unusual accuracy in manufacturing.

THE NEW FORD TOWN SEDAN

LOW PRICES OF FORD CARS \$430 to \$630

team for they played wonderfully during the tournament. If any one boy on the team played his part well, it was Earl Nichols, a boy which the Freshman class is proud to have.

GRAMMAR SCHOOL NOTES
The Grammar School Glee Club and the Junior Choral Club assisted with the high school chapel program Friday morning.

The Grammar school girls have been having many interesting baseball games. Louise Thomas and Pauline Russel are the able captains of the team.

After two disappointments the seventh graders have received their pins. We are all very proud of them. Florene Kendall will not button her coat even though she is cold as she always wants her pin in evidence.

Grade 6 A, assisted by Miss Desaisie Kennedy and their room mother, Mrs. Neff, was hostess to

Grades 6 B at Mrs. Neff's home Saturday January 24. Joe Lynn Kethley was so unfortunate as to break his wrist before all the guests arrived. He has been able

Goree Man Produces Butterfat at 5 1/2 Cents Per Pound, He States

Considerable interest was aroused among dairymen by a little article published in Farm and Ranch relative to a cost record for butter fat made during the month of July. The Texas Extension Service, in its farm notes, published a report that C. B. Warren, of Goree, Knox county, Texas, had produced butter fat at a cost of 5 1/2 cents per pound. This statement was immediately challenged and Farm and Ranch was criticised for giving it space. We are now able to publish a statement direct from Mr. Warren regarding the matter. The following letter was written C. C. McFarland, of Boern, Texas, who had questioned the accuracy of the report, and forwarded to Farm and Ranch on the request of Mr. Warren.

Goree, Texas, Dec. 29.
"First, I am not running a dairy but have only a farm herd of four cows on which I am keeping a record, and am assisted by the county agent. Labor is not charged against the cows as I believe the manure will pay for this. The published article was not a year's average, but only for the month of July. I do not belong to any Herd Improvement Association.

"The following is the data for the month of July: Average pounds of milk for each cow, 1,034. Average per cent of butter fat 5.5, Babcock test being used. Butter fat sold at 31 cents. Skim milk sold at 40 cents per 100 pounds. Cottonseed was fed at a cost of 90 cents per 100 pounds for the month. Sudan pasture was charged at \$2 per head."

Signed—C. B. Warren.
From this report it is evident pounds of milk per cow for a month

to attend school, however.

Mrs. Ingram's studio was the scene of a gay Seventh Grade party Monday night. Various games were played and delicious refreshments were served to the members of the Seventh grade and the following guests: Mrs. Ingram, Mrs. Carol, Miss Desaisie Kennedy, Mr. and Mrs. Palmer, and several boys from the sixth grade.

Mr. and Mrs. E. J. Roberts, Sr., of Fort Worth, have moved to Munday, and Mr. Roberts will be associated with his son in the ice business. Both Mr. and Mrs. Roberts have visited Munday a number of times, and we are glad to welcome them as citizens of this city.

is better than the average production for the United States, although there are many cows that will greatly exceed this record. Just how many months this production is maintained we have no knowledge, but in our opinion Mr. Warren has some 8,000 or 9,000-pound cows, which are far above the average, but not exceptional in many dairy States. He evidently knows how to take care of his cows and appreciates the value of Sudan grass pasture.—Farm & Ranch.

MIKADO

A Charming Hostess

You'd never think she had cooked that delightful meal, would you? She looks so fresh and dainty, so untired and gay—and she said she's been at a matinee all afternoon!

The seeming mystery is so easily explained.—She's a modern Home-Manager, profiting by the use of Electric Cookery. She prepares the meals at any convenient time, entrusting the actual cooking to the dependable and automatic Electric Range.

Why don't you experience the delights of this modern method of cookery? It's so inexpensive, so convenient, and the results are so unusually good, you'll wonder how you managed when kitchen responsibilities tied you to the old-fashioned cook stove.

A Trained Representative is waiting to explain and demonstrate the modern Electrical Cook. He will also show you how the Convenient Budget Plan and the new Home Comfort Rate make Electric Cookery doubly economical.

OF MUTUAL IMPORTANCE

IN LINE with the various urgent appeals on unemployment, made from official Washington and numerous organizations, here is something we home-owners can do about it, that will result in all round benefit.

Isn't it so, that right now in your neighborhood, there are men whom you would help greatly by giving a few days work? Suppose you employ one or more to put your HOME GROUNDS in shape. Have them help you fill in the bare spots with shrubs and hardy plants. Or what better time to plant an orchard or any fruit-bearing trees or vines.

A few days extra work for a worthy one, plus the planting, is an investment which will yield you immediate dividends in satisfaction; besides giving your property an increased value. It's a well known fact that property with a good orchard and an attractive planting is worth more, and sells much more readily. We have a complete line of Nursery and Floral stock and will be glad to assist you in any way possible.

It will be necessary for you to see our stock to appreciate the values. Come to see us or drop us a card telling us what you need and we will be glad to call on you.

Conveyors Carry Ford Car Parts

Trains unload in the plant. Bodies starting through the shop.

Conveyors carry wheels with mounted tires over a line on which cars pass to completion. The highly important part played by conveyor systems in all Ford Motor Company manufacturing and assembly plants is graphically shown in the above three pictures taken in the recently opened Edgewater, N. J., plant. One of the pictures shows how parts may be unloaded from freight cars within the plant only a few feet from the various assembly lines. Another picture shows automobile bodies starting their trip on a conveyor while the third view is of the conveyor system used to bring wheels to the chassis which are also moving on a conveyor. As indicated in the picture, a constant flow of wheels on which the tires have already been mounted moves around and over the chassis assembly line. As a chassis enters the section, workers, in groups of four, each take a wheel from the hooks and fasten it to the chassis.

RABBITS ARE KILLED. WILL BENEFIT NEEDY

Wellington, Collingsworth Co., Texas, Jan. 30.—An intensive drive staged during the last week netted slightly more than 1,400 rabbits for the needy families of this community, according to Austin O'Neil, district game warden, who was in charge of the undertaking and who appointed twelve squad captains to direct the hunt.

Although plans for the rabbit drive were not formulated until Wednesday morning of last week, response to the plan was unanimous upon the part of Wellington sportsmen, and the quota, set at 1,200 was more than reached before the drive was brought to a close.

The rabbits, placed in cold storage, are being issued to the needy families of this community.

Lions Club Host To Workers of Various Societies

The regular semi-monthly luncheon of the Munday Lions Club held on Thursday noon at the Munday Hotel and there a number of guests present as well as a good attendance of members. Among the guests present were Mrs. W. P. Farrington, president of the local chapter of the Red Cross; Mrs. M. H. president of the Parent-Teacher Association; Mrs. F. N. V. secretary of the Parent-Teacher Association; Mrs. Oscar Spann, president of the Woman's Missionary Society of the Methodist Church; Mrs. A. U. Hathaway, president of the Baptist church; and a number of other visitors.

Mrs. Farrington announced that she had received the Red Cross to extend aid to the community, a news was received with gladness by the local club who are interested in this phase of the work.

Mrs. Reeves told of the work done by the Teacher association along with providing food and clothing for the children in the public school for the winter carrying on their work. Her organization has made no funds this year and the organization has been handicapped for many months.

Mrs. Spann and H. told of the efforts of the various organizations to render a service to the community and the various revealed the fact that several dollars worth of clothing have been distributed to the organizations during the winter months.

G. R. Eiland made a report of the work that he had handled through the Co. Chest, and expressed his regret over the fact that the Munday had not responded to the appeal for a liberal response would be the future. Mr. Eiland had talked with men in the community who had expressed the hope that they would do any kind of work at all in order to provide food for the families but who refused to do any work at all and would not unless it was absolutely driven to do so. This is the club's striving to do a full extent local work and to make materially better. Mr. Eiland called attention to the statement made to him by a man recently to the effect that the folks in our county are less than we are have expressed their sentiment that the citizen community which is referred to West Texas, as being the best of the West, a statement which we have not heard in offering relief that we could easily make any great sacrifice. Eiland quoted the statement made to him by a man recently to the effect that the folks in our county are less than we are have expressed their sentiment that the citizen community which is referred to West Texas, as being the best of the West, a statement which we have not heard in offering relief that we could easily make any great sacrifice.

Mr. Eiland called attention to the statement made to him by a man recently to the effect that the folks in our county are less than we are have expressed their sentiment that the citizen community which is referred to West Texas, as being the best of the West, a statement which we have not heard in offering relief that we could easily make any great sacrifice.

This gave those present a chance to think about the statement made to him by a man recently to the effect that the folks in our county are less than we are have expressed their sentiment that the citizen community which is referred to West Texas, as being the best of the West, a statement which we have not heard in offering relief that we could easily make any great sacrifice.

Following Mr. Eiland's report of the work that he had handled through the Co. Chest, and expressed his regret over the fact that the Munday had not responded to the appeal for a liberal response would be the future. Mr. Eiland had talked with men in the community who had expressed the hope that they would do any kind of work at all in order to provide food for the families but who refused to do any work at all and would not unless it was absolutely driven to do so.
