VOL. 55

MUNDAY, KNOX COUNTY, THURSDAY, AUGUST 13, 1959

NO. 4

Kracker Krumb's

Odd Bits Salvaged
By The Editor

We were somewhat disappointed last Saturday when we arrived back in Munday around 6 p.m.

k-k

You see, we had been away for a couple of days taking in events of the West Texas Press Association convention in Big Springs, which closed with the noon meeting Saturday.

k-k

We headed homeward as soon as the meeting was over and we got clearance papers at the hotel office. Along about Roscoe, we saw evidence of rain having fallen since we traveled the area Thursday. On into Sweetwater and it had rained. Water was standing in the terraces north of Sweetwater. Between Hamlin and Stamford, where some two inches or more fell water was standing everywhere.

k-k

It wasn't quite so wet in Stamford, where .94 of an inch was reported; then the farther north we came the lighter it got. We had discussed around the Hamlin area that we'd likely run out of the rain area before we got to Munday. "We've still got quite a few miles to go," our wife remarked as we were rejoicing over viewing the wet dirt. And, sure enough, there was no evidence of rain in the old home town.

k-k

But it did get as close to us as Rule to the southwest, and farmers in the Gilliland area also reported a "good shower" last Saturday.

k-k

We were relating our disappointment to Joe B. Roberts after church last Sunday, and he said: "I sure did want to reach out and catch hold of that cloud and pull it over this way." Joe is one of those boys with some good cotton that's going down hill, now, and his irrigation wells aren't furnishing enough water to do the job.

k-k

When conditions reach the stage they're in right now, we are reminded of the town half-wit where we lived a member of years ago. We were in the same shape then that we are now. Mid-summer heat and dry weather were taking their toll of crops. This fellow walked up to a group of us and said in earnestness: "Boy, a good rain would be worth a hundred dollars to this area right now!" And we'd bet it would be worth at least half that much to Knox County right now!

k-k

A good deal of the convention had to do with "closed door sessions" of governing bodies of the state that are elected by we, the people. Newspapers, of course, are pulling for open sessions where the taxpayer is welcomed and the public being informed of what goes on. County governments, city governments, school board meetings, etc., were cited—and a slight reference was made to the reported "closed meeting" of the Munday school board last Thursday night.

k-k

Now, we don't believe any member of our school board is trying to "pull the wool over our eyes" regarding matters of the Munday schools. If this was a closed meeting, we believe it was being conducted not for the purpose of keeping the public from being informed, but because decisions to be reached were such as could be reached better by the board members alone, rather than before a bunch of onlookers.

The purpose of a recent public meeting was to inform the public regarding conditions of our schools, and we believe that when the school board iron out matters enough to present a plan to the public, then the public will again be informed, and in detail.

k-k

Supt. W. C. Cox assures us that no effort is being made by the board members to pull the wool over anybody's eyes; that the position of the Munday schools is being "played up" too much; that other schools of the area have faced the same problem in the past, and that the local school is in no immediate danger of losing its accreditation as long as some efforts are being made to seek the necessary improvements.

Many farm pond drownings can be avoided if safety equipment is provided and if children are taught to swim and at the same time respect water, says the Texas Farm and Ranch Safety Council.

B-K Electric Cooperative's Annual Meeting Set Thursday, August 20

The board of directors of B-K Electric Cooperative, Inc., of Seymour announce this week that the annual meeting of members will be held in Seymour on Thursday, August 20, with registration beginning at 6 p.m. This annual affair has been widely attended by members during the past, and another large crowd is expected this year.

The "Bill Mack Show" of Lubbock is scheduled for an appearance at this meeting and will be the entertainment feature. The regular business meeting will also be held.

David Hamill of Washington, D. C., administrator of the Rural Electrification Administration, will be the principal speaker. The general public is extended an invitation to come out and hear him. The meeting will be held at the football stadium. Attendance awards valued at approximately

\$1,800 will be given members.

Bill Mack has won national acclaim through his radio and television shows and also via his Starday and Imperial records. Appearing with Bill will be his band, The Saddle Pals. This is the same band that accompanies Bill on his records and on his Friday night television show on the West Texas Television Network. Incidentally, this is the only network country music show originating in Texas. The show is carried by several stations in Texas and New Mexico.

Bill was voted as one of the top ten country disc jockeys in the nation in 1957. He is heard daily over KDAV in Lubbock.

Bill has also had some forty record releases. Many of them national hits. He currently records for Starday Records of Nashville, Tennessee.

Also on the Bill Mack Show will be the lovely and talented Raina English. This personable young lady is talented with one of the best popular singing voices in the nation.

The Bill Mack Show will feature music, comedy and fun for all.

Plans were shaping up Tuesday for a benefit style show, featuring "Back To School" wear from kindergarten to college, which will be held at 8 p.m. Thursday, August 20.

The show will be held at the home of Mrs. Helen McClure, 1225 South 13th St. Sponsors are the Munday Study Club and a number of Munday merchants.

Merchants will feature dresses, shoes, jeans, and all items of merchandise suitable for "Back To School" and early fall wear. In addition to school wear, many items for adults will also be modeled.

The beautiful back yard of Mrs. McClure will be transformed into a huge "outdoor showroom" where people may gather, enjoy refreshments and see the style show.

Sponsoring merchants include The Hat Shop, The Fair Store, Jean's Specialty Shop, Kemletz and Carl and Munday Department Store. Still others may be included before the date for the show.

Steam Locomotive 409 will run again, taking a trainload of excursionists to the all-star West Texas-Oklahoma high school football game in Childress on Saturday, August 15.

Being one of two serviceable steam locomotives remaining, the Fort Worth and Denver Railway Special from Dallas and Fort Worth will re-enact history of three and four decades ago when their pride, The Colorado Special, was pulled across buffalo and Indian country of West Texas by huff-puffing steam billies.

At Childress, the Army Air Force Band will lead a parade of 44 beauty queens. The Fort Worth Sheriff's posse will ride. A buffalo barbecue chuck wagon dinner with all its romance will be served to all aboard the train. Pre-game and half time activities will include drawings for gate prizes, a Studebaker Lark automobile, Indian War Dances, a go-buggy race, crowning of "The Queen." A Childress High School reunion will be held at the same time.

Announcement was made Monday that O. V. Milstead has leased his welding and blacksmith shop to Dow Flippin, who comes here from Pampa.

Mr. Flippin took over the business on August 3, and has moved his wife and two children to Munday. He formerly lived in Haskell; Mrs. Flippin is a former Seymour girl, and they are known to quite a few local people. Mr. Flippin has had several years of experience in this business and is anxious to serve the people of this area.

Mr. and Mrs. Milstead, who are on vacation this week, will continue to make their home in Munday.

Mr. and Mrs. Milstead, who are on vacation this week, will continue to make their home in Munday.

Mr. and Mrs. Milstead, who are on vacation this week, will continue to make their home in Munday.

Former Munday Resident Dies At Baytown Aug. 6th

Funeral services were held at 10 a.m. Saturday at the First Baptist Church in Baytown for James Hardy Frazier, 52, former Munday resident and veteran pharmacy owner of Baytown, who died Thursday at his home in Baytown.

Mr. Frazier was employed at Eiland's Drug Store for some two or three years after 1928, after which he attended pharmacy school. He married the former Margaret Ann Keel of Munday. They went to Baytown in 1935, and Mr. Frazier worked for Lockhart and Cone Pharmacy. Later he, D. A. Mears and L. R. Woods bought the Tri-City Pharmacy. After two years, Frazier and W. W. Bunting formed a partnership which continued until 1954. When it was dissolved and Frazier became sole owner of the Frazier Pharmacy.

He was born October 2, 1906, in Coolidge. He was a member of the First Baptist Church, the Houston Knights Templar, Houston Arabia Temple Shrine, Baytown Club and the Rochester Masonic Lodge.

Survivors are his widow, Mrs. Margaret Ann Frazier of Baytown; a son, James Keel Frazier of Baytown; his mother, Mrs. J. D. Frazier of Baytown; a brother, Billy P. Frazier of Houston; and three sisters, Mrs. Dean Smith of Bay City, Mrs. N. B. O'Grady and Mrs. M. V. Berry, both of Baytown.

Rev. Robert Cheek, pastor of the First Baptist Church in Baytown, officiated at the rites, assisted by Rev. Grady Allison of the Wooster Baptist Church. Burial was in Cedar Crest Cemetery.

Active pallbearers were Dr. William E. Sharp, Dr. Clyde Fuller, Fahy Godfrey, Hack Hart, V. B. Dickerson, ohny Brunson, Monroe Pryor and Charles R. Blakey. Shriners and members of the Men's Bible Class of the First Baptist Church were honorary pallbearers.

At a called meeting of Lowry Post No. 44 of American Legion last Thursday night, new officers were elected for another year. They are as follows:

J. E. Reeves, post commander; Kirby Fitzgerald, first vice commander; W. C. Cox, second vice commander and child welfare officer; Elmer Kuntz, adjutant; Russell M. O'Brien, chaplain; R. F. Horan, sergeant-at-arms, and T. W. Bullington, historian.

The next officers will be installed at a meeting on Tuesday night, August 25.

The regular meeting of Munday chapter, Order of Eastern Star, will be held on Tuesday night, August 18, at eight o'clock in the Masonic Hall.

A special program will be presented at this time honoring Dr. Rob Morris, founder of the order. Members are reminded to bring their gifts to the bazaar to be held at the O. E. S. home at Arlington on Saturday, August 29.

Announcement was made Monday that O. V. Milstead has leased his welding and blacksmith shop to Dow Flippin, who comes here from Pampa.

Mr. Flippin took over the business on August 3, and has moved his wife and two children to Munday. He formerly lived in Haskell; Mrs. Flippin is a former Seymour girl, and they are known to quite a few local people. Mr. Flippin has had several years of experience in this business and is anxious to serve the people of this area.

Mr. and Mrs. Milstead, who are on vacation this week, will continue to make their home in Munday.

Mr. and Mrs. Milstead, who are on vacation this week, will continue to make their home in Munday.

Mr. and Mrs. Milstead, who are on vacation this week, will continue to make their home in Munday.

Mr. and Mrs. Milstead, who are on vacation this week, will continue to make their home in Munday.

Mr. and Mrs. Milstead, who are on vacation this week, will continue to make their home in Munday.

The Rev. Clyde Cook, pastor of Trinity Baptist Church in Stamford, will be the evangelist for the summer meeting at Gillespie Baptist Church, beginning on Sunday, August 16, and continuing through Sunday, August 23. Morning services will be held at 10:30 daily. Evening prayer services will begin at 7:30 p.m., with the preaching service at 8 o'clock.

Rev. Cook, who formerly was pastor at Bushy, Hodges, and Santa Cruz, California, attended school at the University of Oklahoma, Hardin-Simmons, and Southwestern Seminary. He is married and has two daughters.

Music director for the services will be Joe Earp, with Mrs. Bill Everett and E. G. Parkhill serving as pianists.

The Gillespie Church and its pastor, Marvin E. Burgess, cordially invite the public to attend this series of meetings.

Time To Claim Refund On Farm Used Gasoline

Farm operators have until September 30 to claim a refund of the federal gasoline tax on all gasoline used on the farm, according to Tom E. Prater, extension farm management specialist.

The refund applies to the three cents per gallon federal tax on gasoline which was purchased from July 1, 1958 through June 30, 1959. Those who filed a claim for refund in 1958 will receive form 2240 through the mail. Others who wish to make a claim should ask the Internal Revenue Service to send them one.

The claim should be sent to the Office of the District Director, Internal Revenue Service, Austin or Dallas, Texas, depending on whether you live in the southern or northern part of Texas. Claims made after September 30 will not be paid and no more than one claim can be filed for the twelve months period, states the economist.

Farmers who file claims for refund should keep sufficient records to certify the accuracy of the refund claimed. The records should show the purchase dates, the gallons bought and the gallons used on the farm during the twelve months period. Also the gasoline used by custom operators doing custom work for a farmer should be recorded and can be included in the claim for refund, Prater notes.

Excise taxes paid on diesel fuel or special motor fuels for farm purposes can also be recovered. The farmer should ask the dealer to repay the taxes on the fuel bought. The dealer should be furnished a signed statement, showing the name and address of the purchaser, the date of purchase and gallons purchased, adds Prater.

Mr. and Mrs. Frankie Jenkins are announcing the arrival of a daughter at 12:19 p.m. August 5, 1959. She made her arrival in the Haskell Hospital weighing 7 pounds and 6 ounces and has been named Teresa Kim. Her grandparents are Mr. and Mrs. R. W. Raynes and Mr. and Mrs. Homer Jenkins all of Weinert.

Mr. and Mrs. Canido Ybarra, Munday, a daughter.

Mr. and Mrs. D. Alcola, Munday, a daughter.

Mr. and Mrs. Frankie Jenkins are announcing the arrival of a daughter at 12:19 p.m. August 5, 1959. Munday School To Open Monday, August 31st

Supt. W. C. Cox announced Tuesday that the 1959-60 term of Munday Public Schools will begin on Monday, August 31, with registration of students. The opening will be preceded by a faculty meeting on Saturday, August 29, he said.

In a meeting last Thursday night, the school board elected two new teachers, Mr. and Mrs. Charles R. Coffey. Mr. Coffey will teach history in junior high school and Mrs. Coffey will teach high school English.

Another teacher, Mrs. Vada Eggleston, was selected this week to teach high school mathematics. Unless there are other re-signations, this completes the school faculty, Mr. Cox said.

Board members also discussed plans for making necessary improvements to the school last Thursday night, meeting with several architects, but no definite decision or plan of action was taken at this time.

School holidays for the year were also announced Tuesday by Mr. Cox. They are as follows:

Monday, September 7, Labor Day; November 26-27, Thanksgiving; for Christmas, school will dismiss on December 18 and resume classes January 1; March 11, district teachers meeting; Easter, dismiss Thursday before and resume classes the following Tuesday.

E. W. Harrell has been named school tax assessor and collector, succeeding Harvey Lee, who has resigned, and tax records will be maintained in the city secretary's office in the city hall.

Knox County Hospital Notes

Patients Dismissed since August 3rd.

Mrs. Clelan Russell, Vera; Dora Alcola and Baby, Munday; Mrs. Margia Sargent, Munday; Mrs. Martin Smith, Knox City; Mrs. John Scoggins, Rochester. Mrs. Tom Hurd, Vera; Debbie Hudson, Seymour; Mrs. Jessie Smith, Goree; Mrs. Ben Hunt, Goree; F. G. Offutt, Munday; Mrs. Laster Skikes and Babies, Knox City; Mrs. Clyde Hendrix Jr. and Baby, Munday; Mrs. James Smith and Baby, Munday; David Boyd, Knox City Ruby Kenard, Munday; Mrs. J. L. Carlisle, Knox City; Ruben Gomez, O'Brien; Rosemary Lerma, O'Brien; Mrs. Clifton Mooney, Seymour; Harvey Burt, Knox City; Mrs. Canido Ybarra and Baby, Munday; Jerry Leaverton, Benjamin; Mrs. Mabel Pyeatt, Knox City; Boyce Cox, Knox City; Charles Jennings, Benjamin; Jimmie Seal Dutton, Knox City.

Coy Tuggle, Munday; J. E. Faubion, Ireland; Andy Hutchison, Munday; Mrs. W. H. Waggoner, Knox City; Mrs. Algerene Logsdon, Knox City; Mrs. G. L. Hunter, Munday; Jim Bateman, Knox City; Mrs. Thelma King, Munday; Mrs. S. P. Keny, Munday; Mrs. Maggie Smith, Munday; Pricilla Bouldin, Rochester.

Raynes and Mr. and Mrs. Homer Jenkins all of Weinert.

Many Approved Conservation Practices In Knox County Reported By A. S. C.

J. T. Gilpin, A.S.C. Office Manager in Knox County, reports that through his office the government has shared the cost of carrying out approved conservation practices as follows in 1959:

1. Establishment of additional acreages of vegetative cover in crop rotation to retard erosion and to improve soil structure, permeability or water holding capacity. Five farms participated in this practice establishing 135.9 acres.
2. Improvement of an established vegetative cover for soil or water shed protection by seeding adapted grasses on pasture land. Six farms improved their established covers amounting to 421.0 acres.
3. Improvement of vegetative cover on range land by deferred grazing of pasture. 1,380.2 acres on two farms were deferred.
4. Controlling competitive shrubs on pasture or range land by spraying, grubbing, or root plow.

Rev. Robert Young To Preach Sunday At Baptist Church

The Pulpit Committee of the First Baptist Church has announced that Rev. Robert Young of Rush Springs, Okla., will preach trial sermons at the local church at both services on Sunday, August 16.

Rev. Young is a prospective pastor for the Munday church, and has been fully endorsed by members of the Pulpit Committee.

The entire membership is urged to attend these services and hear Rev. Young.

Vernal Zeissel Harvests First Maize For Area

The first load of 1959 maize to be harvested in the Knox County area was taken to Porter and White Feed Store in Knox City on Wednesday of last week.

The 15,320 pound load of vernal E56A was harvested by Vernal Zeissel of the Rhineland community, and was sold for \$1.40 per hundred.

Sam White said the maize brought in Wednesday was the earliest date he could remember. With continued "open weather," harvesting of the bumper maize crop will be in full swing within a few days, White believes.

The maize harvest got under way in the Munday area this week with several loads being brought in to local elevators on Tuesday. The harvest is expected to be in full swing within the next few days.

Farm Bureau's Queen Contest Set August 21

Friday, August 21, was set for the annual Knox County Farm Bureau queen contest at a meeting of officers and members on Monday night, August 10, in the local Farm Bureau office.

All girls entering the contest, or who are interested in entering are asked to meet in the Farm Bureau office at 8 p.m. Thursday, August 13, at which time the place for the county contest will be decided.

J. Omar Cure, president, suggested that the Farm Bureau sponsor a safety meeting in each of the schools of Knox County, which would be conducted by members of the Texas Highway Patrol.

Gene Kissinger tendered his resignation as county service agent, and asked to be released in September. The Kissingers are moving to Sherman to make their home.

Troy B. McKnight of Munday was recommended to take Mr. Kissinger's place as service agent for the organization.

Mr. and Mrs. Glen Meeks of Abilene are announcing the arrival of a son at 6:30 p.m. Monday, August 10, 1959. He weighed 7 1/2 pounds and to date has no name picked out for him. His three year old sister, Melinda, is so very proud of her little brother. Grandparents are Mr. and Mrs. Mervin Meeks of Abilene and Mr. and Mrs. R. C. Partridge of Munday. Mr. and Mrs. Partridge visited with them the first of the week and brought Melinda home with them for a visit.

Eighteen farms controlled 2,744.7 acres.

5. Constructing dams, pits or ponds for livestock water. There were ten tanks on ten farms amounting to 48,101 cu. yds.

6. Establishment of permanent sod waterways to dispose of excess water without causing erosion. One farm participated establishing 1.4 acres.

7. Constructing terraces to detain or control the flow of water and check soil erosion. Four farms constructed 50,729 feet of pipe was used on 15 farms.

8. Reorganizing farm irrigation systems to conserve water and to prevent erosion. 27,931 feet of pipe was used on 15 farms.

9. Levelling land for more effective use of irrigation water and to prevent erosion. Two farms levelled 36.0 acres.

10. Establishing winter legumes in the fall for winter protection from erosion. Two farms established 107.0 acres.

11. Establishing summer legumes for protection from erosion. Three farms participated establishing 80.0 acres.

12. Deep plowing sandy cropland to protect soil from blowing. Ninety-two farms have carried out this most popular practice to the extent of 4,253.5 acres.

13. Application of Cotton Burs to cropland for the control of wind erosion. Cotton Burs were distributed over 70.0 acres on 3 farms.

14. Subsoiling cropland to improve penetration and prevent erosion. Twenty farms subsoiled 1,361.4 acres.

The government paid 50% of the cost for ten of these practices and 70% of cost on four practices, therefore, each farmer has considerable investment in all practices carried out on his farm. This shows that most land owners are very much interested in keeping our soil production not only for themselves but to give future generations a high standard of living as we have had.

Funds for A.C.P. practices are exhausted at the present time, however, we hope to have additional funds in the near future.

Mrs. Frank Stulir Of Weinert Dies; Rites On Tuesday

Mrs. Frank Stulir, 61, resident of Weinert for 52 years, passed away last Monday morning at the Haskell County Hospital after a long illness.

Funeral services were held at 4 p.m. Tuesday from the First Methodist Church in Weinert, with Rev. P. L. Wilson, pastor, officiating. Burial was in Weinert Cemetery.

Mrs. Stulir was born Annie Gerick at Fayetteville, Texas, and came to Haskell County in 1907 with her parents. She married Frank Stulir in Haskell in 1917. Mr. Stulir, who was engaged in farming near Weinert, died in 1942.

Survivors include one son, Adolph Stulir of Weinert; one daughter, Mrs. Charlie J. Urban of Weinert; two sisters, Mrs. Mary Peter of Haskell and Mrs. Lillie Bubela of Old Glory; one brother, Adolph Gerick of Bartlett, and three grandchildren.

Rhineland K. C. Installs Officers

Officers of the Knights of Columbus, Council 1766, were installed recently at the Rhineland hall with ceremonies conducted by District Deputy Joe Pachacok and District Warden Louis Pastusek. They are as follows:

A. J. Kuehler, advocate; Rev. Anthony Schroeder, chaplain; A. C. Loran, trustee; Marvin Zeissel, lecturer; Maynard Moore, financial secretary; H. G. Carnahan, guard; Alvin C. Michalk, deputy grand knight; Wilfred Bellinghausen, trustee; Calvin Steinback, warden; Robert Hertel, treasurer; Vernal Zeissel, grand knight; P. F. Homer, trustee; Bernard Brown, chancellor; Jimmie D. Farber, recorder, and John Ed Wilde, grand.

Quarterback Club To Meet Tuesday

Announcement has been made that an important meeting of the Munday Quarterback Club will be held at 8 p.m. Tuesday, August 18, in the elementary school building. All those interested in furthering activities of the club are urged to be present.

POLITICAL ELEPHANTIASIS

Ever hear of "political elephantiasis"? That's the apt term that the president of one of our electric utilities applies to the federal government's role in the realm of private business.

He cites a recent Budget Bureau report showing that the government engages in some 20,000 commercial business enterprises — each of which could be handled by a private, investor-owned business.

An outstanding example is the electric industry. The government is up to its neck here, through TVA and other such agencies. Yet there is no needed power development that private enterprise is unable or unwilling to undertake. As an example, the taxpaying utility companies have more than \$35 billion invested in plant and equipment. This year they are increasing their construction expenditures by more than 25% over 1957 — whereas industry as a whole has reduced its expansion budget by 17.4%. And the nation's investor-owned companies pay approximately 23% of their total revenue in taxes as compared with a mere 2.4% for governmental-owned or financed projects.

The great domestic problem of the time is how to stop inflation, balance the budget, start reducing the debt and, as soon as possible, cut taxes. A huge step would be taken in that direction if all government business operations were, first, placed on a self-sustaining, taxpaying basis — and second, gradually sold at the best possible price to private enterprise, to operate on the American instead of the socialistic plan.

Ralph T. Moore writes in the Oregon Voter: "National labor control laws has been moving into local areas so completely as to virtually preempt all labor controls. Now-a-days, if one's business establishment chances to have a migrating robin light on its roof it becomes interstate and so amenable to federal rather than state law."

According to a Newsweek feature article, our mail often travels no faster than it did 99 years ago. The magazine calls "staggering" the post office's use of hand labor, and reports that every piece of mail must be picked up, read, and put somewhere an average of 12 times. Many post office methods stand untouched from the day when Benjamin Franklin was sworn in as the first Postmaster General in 1775.

TO A "T"

A new bill is in the legislative works which sets new precedents in the area of federal regulation over wages and hours. And one thing is sure — if it becomes law, we'll have a new wave of price inflation.

Retail trade has always been exempt from the wage-hour law — one good reason being that retailing is a local business, in which a unit of the largest chain system must compete purely on the local level, and so should be regulated by the states, if at all. The new bill, however, would apply the federal minimum wage to all retailers doing an annual volume in excess of \$750,000. And it would also apply the wage to any retailer doing less than \$750,000 but who is in competition with anybody affecting interstate commerce.

That means that the proposed law would cover almost every main street in the country. No less an authority than AFL-CIO President George Meany said that he could think of no retail establishment "which was not engaged in competition with another retail establishment affecting commerce."

If the American people want more inflation, and if they also want a further destruction of state and local rights, this bill should suit them to a "T".

ALWAYS IN FOCUS

William I. Nichols, editor and publisher of This Week, a magazine of huge circulation, has something to say about newspapers. Here are his words: "Newspapers are the most powerful force in public opinion today because:

"1. The newspaper is the only medium which talks directly to each reader in terms of himself, his family and his community.

"2. The newspaper is the only medium which remakes its product every day.

"Hence, newspapers are always in focus — always in direct immediate and intimate touch both with people and with changing times, and 'his is what gives newspapers their tremendous influence and efficiency."

The newspaper is one of the oldest forms of communication. New competitors have come in to being and found their place. But the newspaper's pre-eminence as an influence remains.

The practice of branding livestock was brought to America by the Spaniards over 400 years ago.

The Spanish government granted and recorded brands which guaranteed the exclusive ownership of such marks to certain individuals. This system was adopted in Texas by the early settlers, and brand records were kept in the courthouses as they are today under present State Laws.

The purpose for branding livestock is to establish proof of ownership. Tattoos and ear marks have been used alone and with brands, but brands have proved to be the most effective means of identification.

Brands and marks were designed to discourage theft of livestock by providing a ready method of identification. Today Texas brand inspectors have estimated that only about 25 percent of all cattle now going to market are branded.

As early as 1848, Texas cattlemen realized that a brand inspector was needed to cover movement and marketing operations to prevent theft of cattle. The state enacted legislation which authorized such an inspector to operate in each county. The Texas and Southwestern Cattle Raisers Association and other livestock associations hired their own brand inspectors to protect the herds of their members. These men today do most of the brand inspecting, since the number of county inspectors has declined.

In 1943, a statute was enacted to bring about a current record of all legally used brands and marks. Therefore, at the present, all marks and brands recorded since the first day of October

1943 are the only legally used brands and marks in the state.

The Texas and Southwestern Cattle Raisers Association provides field inspections for livestock belonging to their members departure from farms, ranches or shipping points. The field inspectors carry special commissions as Texas Rangers, which gives them full authority for law enforcement. They search for strayed or stolen animals, check shipping points and try to locate thieves when theft is reported. They are present at the loading of cattle moving out of their areas. And they inspect brands to determine whether the shipper has title to all cattle offered for shipment.

In order for the country dealer or trader to legally take possession of the livestock he has bought, he must have a written transfer or bill of sale. The bill of sale requires that the brands and marks be listed and recorded in the county clerk's office. The seller and the country dealer or trader must inspect the animals exchanged to obtain all the marks of identification for this required record.

Although some of the brand laws in Texas are obsolete and the enforcement machinery in most cases is inadequate, the wise stock raiser would do well to brand or mark his stock to prevent any future question of doubt as to ownership.

WHY DO WITHOUT A LITTLE LUXURY LIKE THIS... LET ALONE THESE BIG CHEVY VIRTUES!

greater roominess
 Automobile Manufacturers Association records carry the facts on this. In a Chevy sedan, for example, you've got more front seat head room than all but one of the high-priced cars! And Chevy's front seat hip room spreads up to 5.9 inches wider than comparable cars.

bigger savings
 Here's solid proof that Chevrolet squeezes more miles out of a gallon: In the famous Mobilgas Economy Run, two Chevrolet sixes with Powerglide took the first two places in their class. Winning mileage: 22.38 m.p.g. And that, friends, took top honors for Chevy from every full-sized car!

full coil ride
 You're the expert on ride, so you'll want to try Chevy's easygoing smoothness for yourself. MOTOR TREND magazine can give you a hint of what you're in for: ". . . the smoothest, most quiet, softest riding car in its price class." And Full Coil springs, of course, never squeak, never need grease.

bigger brakes
 Bigger, yes, and built with bonded linings for as much as 66% longer life. And how's this for proof that Chevy's a real stopper: in a NAS-CAR*-conducted test of repeated stops from highway speeds, Chevrolet outstopped both of the "other two" time after time.
 *National Association for Stock Car Advancement and Research.

award-winning engines
 The NASCAR Outstanding Achievement award goes to Chevrolet! Chevy wins for "the creation and continuing development of America's most efficient V-type engines . . . for the establishment of new levels of V8 compactness combined with outstanding smoothness." And you can choose among eight V8's and the Six that won the Mobilgas Economy Run for its class.

fresh styling
 POPULAR SCIENCE magazine gave Chevy's styling a thoughtful look, then said it this way: "In its price class, Chevy establishes a new high in daring styling . . ." You'll find your own happy way of saying that Chevy's the only unmistakably modern car in its class.

higher trade-in
 N.A.D.A.* Guide Books prove that your Chevrolet will keep its value. Chevy used car prices last year, for example, averaged up to \$128 higher than comparable models of the other two cars in Chevrolet's field.
 *National Automobile Dealers Association.

See how much more Chevy has to offer—visit your local authorized Chevrolet dealer!

PHONE 4611 — MUNDAY

Your duties. You need your creditor's OK firmly to assign your debts to another.

You can sell what you own, all right, but you can't shake a debt merely by getting somebody else to promise to pay it for you. Your creditor — who is a party to your contract — has something to say about who takes over your obligations.

Thus, your cousin, say, borrows from you and promises to pay the money back. He can't get out of it by getting his neighbor to say he will pay you for him unless you agree — and this takes a written contract.

Suppose you bought Abel's house on time for \$15,000 and had paid off \$5,000. Then, with 10,000 left to pay, you get Joe Blow to buy the place.

How could Blow pay for it? Well, for Blow it would be just dandy for you to let him take over the \$10,000 debt, pay you back your \$5,000 equity, and then pay off Abel the rest of your \$10,000 debt. Blow would save the cost of a new loan — if his credit was good enough to get one in the first place. So you set it up that way.

One day Blow blew; and you hold the bag. True, you could turn over your equity to Blow

without Abel's consent.

But your agreement with Blow to pay the balance is not binding on Abel. He can hold you to your original deal. Pay up \$10,000.

Don't let someone "assume" your loan unless you protect yourself by an agreement with your lender, or unless you are willing to risk holding the sack.

Your buyer is often a good enough risk for you to let him assume the loan—but don't do it thinking you are free of your debt.

(This column, prepared by the State Bar of Texas, is written to inform — not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved because a slight variance in facts may change the application of the law.)

UNDERGOES SURGERY
Coy Tuggle underwent surgery in the Knox County Hospital last Monday morning. He is reported to be doing fine.

Mr. and Mrs. Paul Wright of Cisco were week end guests in the home of Mr. and Mrs. Joe Voss.

BOYCE HOUSE
Gives You Texas

(Reminiscences of the winter 1920-21)
The Travelers' Hotel in Cotulla set a good time and so the traveling salesman who made the territory regularly would arrive in time for supper, spend the day calling on their customers in the area and get back for another supper.

Among the regular patrons of the dining room was a rancher of about my age. He was nice-looking, with a quiet way about him and a pleasant smile. He was busy with his cattle—riding, roping branding, driving them in to market.

Had one been a "bookie," if asked to quote the odds on which would live longer, the stalwart rancher or the frail newspaperman the bookmaker would have set the figure at 50-to-1 in favor of the rancher. Yet such is the

uncertainty of life, the rancher died, years ago.

Back to the traveling men—When they found that the new guest was a newcomer to Texas and therefore had not heard the Texas stories, they proceeded to enlighten and educate me.

The very first story, or saying, was General Sheridan's remark, "If I owned Texas and hell, I'd rent out Texas and live in hell." Then someone quoted Senator "Pitchfork" Tillman's utterance, "Texas has more trees and less timber, more rivers and less water, more cows and less milk and you can see further and see less—than any durned country in the world."

Someone quoted the saying, "Nobody but fools and newsmen predict the weather in Texas" and that evoked the story of the farmer who set out for town in a wagon drawn by a yoke of oxen; on the way, one froze to death and, while the owner was skinning the animal, the other one died of sunstroke!

Then someone chimed in with the saying that there is nothing between Amarillo and the North Pole except a barbed wire fence—and that when Admiral Peary reached the North Pole, he exclaimed, "Gee! I'll bet it's cold

in Amarillo today!"

These and many more were told and the youthful newspaperman stored them in his mind; later added to them as a hobby, and one day had the idea, "I know enough Texas jokes to write a book."

"I Give You Texas" was the result — and —it began with those after-supper sessions in the Cotulla Hotel lobby.

LOCALS

Mr. and Mrs. Alvin Hollar and sons and little Rickie Ford of El Cajon, Calif., visited with relatives in Fort Worth over the week end.

Mr. and Mrs. E. R. Ponder of McLean were guests of Mrs. L. J. Hill last Friday night.

Mr. and Mrs. Scotty Ponder and son, Michael, of Lubbock visited her mother, Mrs. L. J. Hill, over the week end. Michael remained for a visit with his grandmother this week while his parents are vacationing in south Texas.

Mrs. Ruby Kethley of Abilene was here last Friday to attend the funeral of Mrs. John Cure.

Tax-Man Sam Sez:

Believe it or not, the U. S. Internal Revenue Service is looking for 4,000 taxpayers in the Dallas District with good news for them.

Uncle Sam, in the form of the Dallas District of Internal Revenue Service, has thousands of dollars in the form of refund checks which rightfully belongs to Dallas District taxpayers.

These are checks left over from the recent filing period. The checks, ranging from \$1.00 to \$4,000.00 have been returned in the mail for lack of proper addresses.

Ellis Campbell, Jr., Director of the Dallas District, announced the figures today in kicking off "Operation Remail."

He said a group of his employees have been searching telephone directories, contacting employers and attempting through othersources to find the correct addresses of the taxpayers to whom the refunds are due.

Now Director Campbell is asking taxpayers to do themselves and his office a favor. In an appeal to readers of this newspaper, he said:

"If you are entitled to a refund check on the tax return you filed this year and have not received a letter from the Internal Revenue Service advising you that your return is being examined, then write me at 2101 Pacific Avenue, Dallas 1, Texas, or call RI 8-5611, Ext. 2572."

"When writing or calling, a taxpayer should state his or her name and address exactly as it appears on his or her return," Mr. Campbell said.

"Your social security number and the amount of the refund also will be helpful," he said. "Of course, don't forget to give us your new address."

Baptist Youth Camp At Lueders Opens August 17

District 17 Baptist Youth camp will be held at the Lueders Baptist Encampment, August 17-20. Theme for the camp will be "Jesus Christ is Lord."

Rev. Ed Crow, pastor of the First Baptist Church, Cisco; Rev. Mart Hardin, pastor of First Baptist Church, Merkel; and Rev. M. D. Rexrode, pastor of the First Baptist Church, Haskell are the camp directors.

Other personnel include Rev. Jim Hester, pastor of the Belaire Baptist church, Houston will serve as camp pastor; Rev. Morgan Beech, Albany, teacher of Baptist Doctrine class; Rev. Frank Dubose, Breckenridge, missions program director; Mr. Hank Keahy, Cisco Morning Watch leader; Sammy Seifres of H-SU, Music; and Rev. Crow will direct the recreation.

A well-planned program has been scheduled beginning at 6 a.m. with an early morning swim (optional), reveille at 6:30 followed by morning watch at 7:00. The day's schedule has a time for worship, fellowship, choir practice, conferences, recreation, swimming etc. with "lights out" at 11:00 p.m.

Each local church should have an adult sponsor for every seven young people attending. Ages thirteen through young people age are invited; the cost is \$6.50.

A camper-of-the-week will be selected from among the boys and the girls. Rev. Lawrence L. Trott, District 17 Missions Secretary, will present each of them a Bible. This presentation will take place in their home church at a later date.

Methodist Youth Set Convocation

The National Convention of Methodist Youth will be held on the campus of Purdue University, Lafayette, Ind., Aug. 24-28.

Theme for the five-day convocation is "Man's Need And God's Action."

Six thousand youth, adult workers with youth, students and student workers will gather at Purdue. Every district of the five Methodist conferences of the State of Texas will have several representatives.

In morning and evening sessions in the mammoth Edward C. Elliott Hall of Music, delegates will observe two major themes unfolding: in the morning the theological convictions of the church about God's action through addresses by Carl Michelson, James Thomas, Melvin Wheatley and Chester Pennington.

In the evening will follow an exploration of the present human situation through drama,

IN THIS NUCLEAR AGE

CD's a Vital Part of Farm Safety

Civil and Defense Mobilization Director Leo A. Hoegh in a Farm Safety Week statement urges farmers to accept Rural Civil Defense as a vital part of farm safety in this nuclear age.

Mr. Hoegh pointed out that fallout from nuclear attack on key military, metropolitan and industrial centers could cover hundreds of thousands of square miles of the United States.

"EVERY FARM family, no matter how remote it may be from a target," he said, "should build a family fallout shelter and stock it properly. This means providing a two-week supply of food and water, a battery radio, a first-aid kit, flashlights, bed-

ding and other items that would be essential to your survival."

Mr. Hoegh said Farm Safety Week, July 19-25, serves to remind farmers of the need to recognize and support the objectives of the Farm Division of the National Safety Council.

He said: "This nation cannot survive and recover from attack without its farmers. Rural America has always carried a heavy burden in times of national emergency. In this nuclear age, it is more important than ever before."

Mr. Hoegh pointed out that fallout is one menace of thermo-nuclear attack against which

simple protective measures can be taken.

"It need not kill," he said. "It is up to you to take action. Nobody can do it for you, any more than they can ship you a packaged civil defense from a factory."

"SURVIVAL WILL always be a personal thing. What you know and do will determine whether you—and your family—will live to help the nation survive."

Director Hoegh said free plans and designs for various shelters can be obtained by writing to OCDM Rural Civil Defense, Battle Creek, Mich.

Gems Of Thought

"POWER"

No power is strong enough to be lasting if it labors under the weight of years. —Cicero

The moral question always comes in when we ask, in respect to the man who has power: What will he do with it? —William Graham Sumner

Responsibility walks hand in hand with capacity and power. —J. G. Holland

All power and happiness are spiritual, and proceed from goodness. —Mary Baker Eddy

The discipline that is identical with trained power is also identical with freedom. —John Dewey

The joy of life is to put out one's power in some natural and useful or harmless way. —Oliver Wendell Holmes, Jr.

jazz, dance, the arts and important personalities such as Eleanor Roosevelt, Theodore Gill, Harold Stassen and Roger Ortmyer.

In the afternoon there will be more searching through involvement in interest groups, the arts and conversations with the bishops of the church.

The Southern Methodist University Choir of Dallas, will furnish all choral music. Dr. Ortmyer, professor of Christianity and the Arts in Perkins School of Theology of SMU, has written and will direct the opening program for the Convocation.

Mrs. John M. Harper of Livermore, Calif., visited her sister-in-law, Mrs. Cliff Moorman, several days last week.

Quail Need Ample Cover For Winter

Texas' bumper crop of quail may not lead to good hunting in some areas unless sufficient winter cover has already been provided, reports the Director of Wildlife Restoration of the Game and Fish Commission.

If farmers and rancher have not taken steps to supply the quail with some sort of permanent woody cover and food, they can expect to find fewer birds this winter than are in their areas now.

"The natural fall shifting will account for some of the move-

ment." Al Springs, Commission Wildlife Biologist, said, "but the first freeze will cause quail to begin searching for new places with protection from predators and the weather."

Some brush pile cover added now might help keep quail, Springs added, but attention should have been given to this phase of quail management earlier for a good fall hunt.

Reports over the state still indicate this will be the best quail season in several years. The season is from December 1 through January 16, except in special regulatory areas. The law provides a bag limit of 12 a day and not more than 36 a week or in

possession. "Proper wildlife land management is the only presently known method of keeping quail in an area," the Director said.

The "hog-butcher of the world" is also known, to its citizens, as "The Garden City." The World Book Encyclopedia reports that Chicago set up park commissions in 1869 to plan the city's 166 parks.

Mr. and Mrs. Lynn Ford, Mike and Cheryl, of Cisco visited in the home of Mr. and Mrs. Buster Ford and Helen last Sunday.

Drive carefully. The life you save may be your own!

Game Magazine Presents Report On Water Birds

"Relatively little information is available on water bird production in South Texas and still less on the degree of late nesting," write Dr. Clarence Cottam and W. C. Glazener in the August issue of Texas Game and Fish, according to the Director of Information and Education, Game and Fish Commission. Their study stresses the importance of environment to bird production.

Both interesting and educational, the article describes habits of several "late nesters" such as the blue-winged teal, the purple gallinule, and the pied-billed grebe. The authors tell surprising stories, of a flimsy nest that didn't hold eggs and of a second story nest in which a tiny gallinule was trapped.

Some of the eggs located in the study were not even incubated by the parents, but the warmth and humidity combined to hatch them.

Other articles to be found in the August issue of the magazine cover everything from white-tailed deer to water spouts and a shrimp fleet blessing. A special fishing tournament section shows photographs of the large catches taken from Texas waters. Reported in the section are events held at Freepport, Port Mansfield, Marine Creek, Port Lavaca, Bay City, Texas City, and Lake Corpus Christi.

Guests in the home of Mr. and Mrs. A. L. Ressel last week and over the week end were Mrs. Ressel's sister and husband, Mr. and Mrs. Jim Arnold of Albuquerque, N. M., Mr. Ressel's sisters, Mrs. A. H. Hackfield of Knox City and Mr. and Mrs. W. E. Nichols of Littlefield and his brother and family, Mr. and Mrs. T. R. Ressel and children of Benjamin.

Billingsley Talks To Munday Jaycees

The Jaycee meeting held at the Farm Bureau office was addressed by M. F. Billingsley, prominent local attorney. Mr. Billingsley addressed the local young men's club on the subject of wills. He stressed the importance of every person having a will to save their heirs considerable time and expense in settling an estate. In several instances it was cited that heirs have lost considerable sums of money by the deceased not having a will.

A representative of the Quarterback Club Herbert Stodghill, was a guest at the meeting and presented a conflict in meeting nights and asked the Jaycees for an answer to their problem. The Jaycees agreed to hold their meetings during the football season at 7:30 p.m. so there will be no conflict.

Booe Family Holds Reunion On Sunday

Mr. and Mrs. L. M. Melton and little granddaughter, Linda Williams, of Peaster visited with Mrs. Melton's parents, Mr. and Mrs. J. B. Booe, Sr., and other relatives here over the week end.

On Sunday all of the Booe Children met in the J. B. Booe, Sr., home for a family reunion. Others present besides the Meltons were Mr. and Mrs. James Borger, Mr. and Mrs. Jack Stewart and children, Mr. and Mrs. J. E. Hunter and children, Mr. and Mrs. Carl Booe and son, Mr. and Mrs. J. B. Booe, Jr. and daughter and Mr. and Mrs. O. C. Roden and daughters of Seymour.

Mrs. Sam Elsey and children of Peru, Indiana are spending this week with her sister, Mrs. Carl Wallace, and family.

Mr. and Mrs. Rex Roten of Wichita Falls came in last Tuesday for a few days visit with Mr. and Mrs. A. L. Ressel.

Speaking of Public Safety: MONEY IS WASTED ON UNLIGHTED HIGHWAYS

CLEVELAND, O.—Night traffic tolls being so much worse than daylight, it is unthinkable that new highways may be built without adequate lighting.

"Experiences on all types of roadways, including the most modern turnpikes, toll roads, and expressways, prove that a highway that is not lighted at hazardous locations is a death trap at night," Edmund C. Powers, educational director of the Street and Highway Safety Lighting Bureau said here.

"It's utterly inconsistent," Powers said, "to widely publicize safety as the watchword in the new Federal-Aid Highways and then leave hazardous locations unlighted. Highways so constructed will be obsolete the day they are opened for use."

"The comment that 'there won't be hazards on our new highways' disregards the difference between daylight and darkness," he went on.

He said there are 10 locations which can be designed for safe use in daylight but when night falls it's an entirely different story. Not lighted, these locations invite disaster — drivers' vision is reduced to the danger point. Death and destruction occurs because the hazard was seen too late.

"It follows, then," he concluded, "that the taxpayer who finances all highway construction is short changed when a highway is not adequately lighted. The unlighted highway cannot be used as comfortably and as safely at night. The limited use, thus, cuts the yield on the investment."

UNDERGOES SURGERY

Mrs. Tom Martin underwent surgery in the Haskell Hospital last Friday. She is reported to be doing fine.

Retail Sales On Increase In Area

Retail sales in West Texas last year increased over 1957 at a rate 19.7 per cent greater than the rest of the state, according

to a story in the July issue of West Texas Today, official publication of the West Texas Chamber of Commerce.

Based on copyright figures reported by Sales Management, Inc., the article also reveals that the 132-county region of the WTCC

recorded an increase for the year of \$245,616,000 in effective buying income.

Rev. and Mrs. Rex L. Mauldin and children are visiting relatives in Amarillo several days this week.

Glen Amerson left last Sunday for Lubbock where he is attending a three weeks training program at Texas Tech College.

Mr. and Mrs. H. F. Jungman returned home Tuesday from several days' visit in Mineral Wells.

B-K Electric Cooperative's ANNUAL MEETING

The members of the B-K Electric Cooperative, Inc., will hold their annual meeting on Thursday, August 20th, 1959, in the football stadium in Seymour, Texas.

The Administrator of the Rural Electrification Administration of Washington, D. C., David Hamil, will be the speaker at this meeting.

The members cordially invite the general public to come to the meeting and see and hear Mr. Hamil.

Entertainment will be furnished by Bill Mack and his band, "The Saddle Pals", also on his show will be the lovely and talented singer Ralna English. This entertainment will be furnished before the regular business session. Bill Mack has won national acclaim through his radio and television shows.

The first 500 members who register will be given attendance awards. Gifts will also be given the children.

Registration of the members will begin at 6:00 o'clock P.M. and the business session will be held at 8:00 o'clock P.M.

Don't forget the date, Thursday, August 20th, 1959.

Board Of Directors

New Water Safety Act Requires All Boats To Be Registered By March 31

By J. O. MUSICK
General Manager

Texas Safety Association
The phenomenal growth of interest in motorboating and other water sports, during the past few years, has brought about a concentration of statewide problems that were, heretofore, little more than a nuisance with only occasional dire results.

Today, however, the leading problem has been one of how to foster accident prevention with a minimum of regulations and a maximum of protection and freedom for all water sport enthusiasts, i. e., fishermen, swimmers, skiers and just plain pleasure craft operators.

Texas' new Water Safety Act is the first statewide attempt to promote safety in water sports by broad legislative means.

In brief the Water Safety Act hits at the problem in three general ways: By specifying minimum safety equipment and operation (Part I); Providing penalties for unsafe operation, or non-compliance with the Act, and a means of enforcement (Part II); Finally, by making provisions for boat identification through a numbering system.

A condensed explanation of this system is the duty of Part III.

On August 11, of this year, the Texas Highway Department will begin administering all provisions of the Act. However, boat owners have a March 31, 1960, deadline to make application for a Certificate of Numbers (registration). The deadline for dealers and manufacturers is April 1, 1960, after which time each boat manufactured and sold must be complete with numbers.

The Act requires that the number painted upon or attached to the hull be of block characteristics of good proportion, not less than 3 inches in height, and read from left to right. The number must be displayed on each side of the bow and kept in a legible condition. Each Texas number will carry the prefix: TX.

CLASSIFICATION AND FEES
Each of the following classes of boats will be registered for a

three year period for the fees shown:

Class A: Less than 16 feet in length, \$1.00.
Class 1: 16 feet and over and less than 26 feet in length, \$5.00.
Class 2: 26 feet or over and less than 40 feet in length, \$10.00.
Class 3: 40 feet and over in length, \$12.50.

All motorboats of 10 horsepower or under are exempt from the numbering provisions of the Act. Although it should be pointed out to boat owners in this category that the Certificate of Number system offers a good, inexpensive means of positive identification for proof of ownership purposes.

APPLICATIONS

Applications must be made on a form approved by the Texas Highway Department and be accompanied with the proper fee. Upon receipt of the application, the Department will maintain a record and issue him a Certificate of Number stating the number awarded the motorboat and name of the owner.

If the owner transfers any or all of his interest in a motorboat registered in his name, or if the boat is abandoned or destroyed, he must notify the Department, within a reasonable time and surrender his Certificate of Number.

A person who buys a motorboat that has been previously registered under this Act, must make application to the Department for a transfer of Certificate of Number. The application must be accompanied by proof of evidence of ownership, name, address and \$1.00 transfer fee. Owners must also notify the Department of any change in address.

DEALERS - MANUFACTURERS
All new boats manufactured for sale in Texas after April 1, 1960, must carry a manufacturer's serial number stamped on or laminated into the structure of a boat before the owner can obtain a Certificate of Number.

The Act makes special provisions for dealers and manufacturers in the use of boats for demonstration purposes and for selling boats with a temporary facsimile Certificate of Number. The 3-year fee for a dealer or manufacturer is \$25.00.

EXCESS FUNDS

Sportsmen will be pleased to learn that excess funds accrued from boat registration fees, above administrative costs, must be used for purchasing access ways to public waters, boat ramps and for their maintenance.

Mrs. John Dimler of San Antonio visited with Mr. and Mrs. George Zeissel and other relatives over the week end.

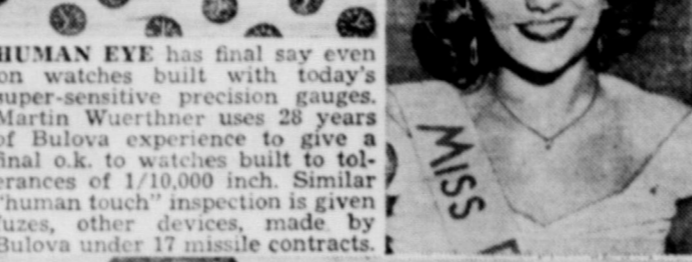

People, Spots In The News

HEAP O' HEAPS in this boneyard for obsolete Air Force jet fighters at Tucson, Ariz. They'll go to a blast furnace for reclamation of their metal.

PENNSYLVANIA'S entry in Miss America contest is Lois Janet Piercy, of Springfield.

HUMAN EYE has final say even on watches built with today's super-sensitive precision gauges. Martin Wuerthner uses 26 years of Bulova experience to give a final o.k. to watches built to tolerances of 1/10,000 inch. Similar "human touch" inspection is given fuzes, other devices, made by Bulova under 17 missile contracts.

BAD NEWS for American League batters: Gary Cooper Wilhelm (right), 23, has been signed to pitching contract by Baltimore Orioles. At left is his big brother Hoyt, 35, flutball artist. Gary's best pitch is, like Hoyt's, a knuckler.

Weekly Health LETTER

Issued by the State Health Department

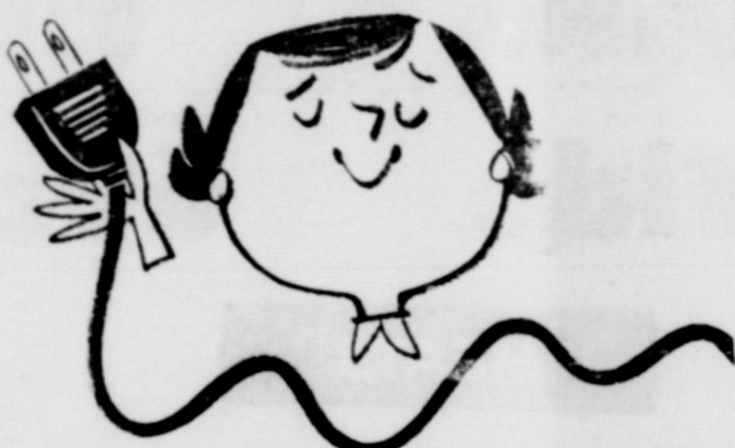

People who know say a single rat can wade through \$2 worth in field burrows. Soon though,

of dry corn without any trouble whatever, and despoil another \$20 worth in the process.

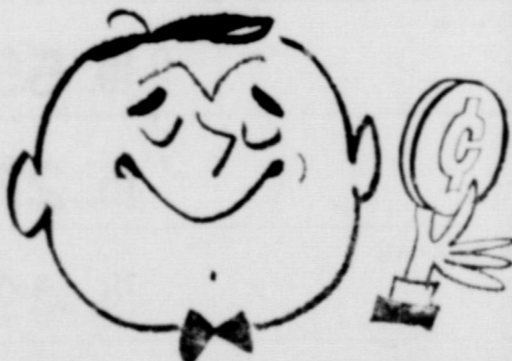

They're mighty expensive critters to tolerate in town or country, both by virtue of the food they eat and the some 27 diseases — including typhus fever and bubonic plague — they are known to spread.

This time of year rats will be

so much

...for so little!

Miss Jean Orsak, And Allis Schumacher Married At Rhineland On Saturday

Nuptial vows repeated Saturday afternoon at 4 o'clock in the St. Joseph Catholic Church in Rhineland united Jean Orsak and Allis Schumacher in marriage.

The double ring ceremony was performed by the Rev. Anthony E. Schroeder, pastor.

The bride is the daughter of Mr. and Mrs. W. L. Orsak of Goree and the bridegroom is the

son of Mrs. Emma Schumacher of Rhineland.

Wedding music was presented by the Rhineland choir and Mrs. Leo Fetsch, organist.

Assisting with the nuptial mass were Billy Fetsch and Henry Fetsch, and Wayne Birkenfeld.

Given in marriage by her father, the bride was attired in a floor-length original gown of imported chantilly lace and tulle over bridal satin. It was designed with a scalloped sabrina neckline and molded bodice coming to a point at the waistline. The bouffant skirt was accented with ruffled panels forming scallops around the hem.

Her four-tiered veil of French illusion was attached to a Victorian cap of matching lace, embroidered with seed pearls forming tear drops.

She carried a colonial bouquet of cascading white roses centered with a white orchid.

Maid-of-honor was Irene Kunetka of Louise. She wore a dress of light blue chiffon over taffeta. A lace jacket piped with satin accented the shirred bodice. She wore a white headdress matching lace gloves and carried a colonial bouquet of blue carnations.

Samye Bates of Goree was bridesmaid and wore an ensemble identical to that of the maid of honor. She carried a colonial bouquet of white carnations.

Albert Schumacher, brother of the bridegroom, was best man.

Groomsman was Billy Pedder. Ushers were Maynard Moore of Rhineland and Ernest Orsak Jr., of Seymour.

A reception was held in the Knights of Columbus Hall followed by a dance in the Rhineland Parish Hall.

Betty Lou Kunetka of Louise registered guests.

The couple will live in Canyon where Schumacher will be employed and Mrs. Schumacher will attend West Texas State College.

The bride is a 1958 graduate of Goree High School and the bridegroom is a 1957 graduate of Rhineland High School.

Tax-Man Sam Sez:

Internal Revenue Service's documentary film, "Since the Beginning of Time," covering our Federal tax system has been made available for local organizations' use.

This is a 27-minute, 16mm. film. This film has been accorded two high honors. It is one of the few documentary films from the United States selected for showing before the International Film Festival in Edinburgh, Scotland in August, 1959. It will compete for international recognition. The film has also been selected by TV stations as one of the fifty outstanding 1959 documentary productions. TV stations telecast "Since the Beginning of Time" 201 times before an estimated audience of more than 40 million viewers. This included 14 telecasts in the Dallas district.

The film can be reserved by writing Jim Hodges, Chief, Administration Division, Internal Revenue Service, 2101 Pacific Avenue, Dallas, Texas.

MOTOR MAIDS

You Can Help Accident Rate

By Martha Johnson
Dodge Safety Consultant

SACRAMENTO, CALIF.—When driving in California, whether you are a resident or tourist, you had better be extra cautious and conscientious about obeying all traffic laws.

Bradford M. Crittenden, new commissioner of the California Highway Patrol, is a calm, soft-spoken man, but he also is a very determined man. He's determined to reduce traffic deaths and injuries in California.

Commissioner Crittenden admits he's facing a big chore. There are more than 7,500,000 licensed drivers in California, not to mention the thousands of tourists visiting the state each year. But he has faith in people.

"We are trying to persuade California's motorists to use 'self-enforcement' tactics while driving. This means, simply, to obey voluntarily all traffic laws at all times."

He wants motorists to cut down on speeding, failing to yield the right of way, making improper turns and driving on the wrong side of the road.

"Because people do cause accidents, we know that only through the action of people can we reduce traffic accidents. We can't expect perfection, but if we can reduce such violations to the minimum, we could dramatically reduce our traffic deaths and injuries."

Miss Linda Garrett Honored At Shower On Monday Night

A bridal shower honoring Miss Linda Garrett, bride elect of Arthur Cundiff, was held in the home of Mrs. Harold Paden last Monday night.

Mrs. Paden greeted the guests and presented them to the honoree, her mother, Mrs. Frank Garrett and Mrs. Molley Cundiff, mother of the prospective groom. Mrs. John Peterson registered the guests.

The table was covered with an ecru cutwork linen cloth centered with a miniature bridal bouquet of pink and white verbenias. Assisting in serving were Misses Jimmie Del Peysen, Carolyn Hobert, Margaret Clowdis and Mrs. Jerry Scott.

Hostesses for the affair were Mrs. Harold Paden, Lee Bruce, Bill Gaither, Leslie Phillips, Jerry Scott, Dennis Morgan, A. C. Boggs, Vera Patterson, Ben Yarbrough, Daisey Looney and Misses Carolyn Hobert, Jimmie Del Peysen, Margaret Clowdis and Tennie Montandon.

Notice

To The General Public

This is to inform my friends and loyal customers that I have leased my shop building, including all machinery, welding apparatus and equipment to Mr. Dow Flippin, who comes here from Pampa, Texas.

Mr. Flippin is an experienced welder and general repair man, having had several years of experience. He has moved his wife and two children to Munday to make their home. He has lived in Haskell; his wife is a former Seymour girl, and they are no strangers to this territory.

I wish to thank all of you for the patronage given me during the past 21 years. We plan to continue making Munday our home, since we know of no better place to live, or better people anywhere.

Come in and get acquainted with Mr. Flippin, who is anxious to serve you.

Again thanking you.

O. V. Milstead

Vegetable Crops Can Be Damaged By Weed Killers

Weed killers, which annually save Texas farmers many thousands of dollars in weeding crops, can cause much damage to vegetable crops growing in the same area if improperly used, says Clyde C. Singletary, extension horticulturist.

The principal offenders are the hormone type weed killers, 2, 4-D and 2, 4, 5-T, he said. Nearly all vegetable crops can be damaged at some stage in their life cycle by their drift or vapor. The more susceptible crops are tomatoes, peppers, snap beans, cucumbers, melons, lettuce and many others which can be injured by very small concentrations of 2, 4-D. Sweet corn and potatoes are less susceptible, he notes.

A major problem involved in weed killer damage is the tremendous volumes of air involved above a cornfield, for example, that has been sprayed with 2, 4-D. A 30-acre field would involve more than 7 and 1/2 million

cubic feet of air, the specialist says, assuming that spray particles are suspended in a column of air 6 feet above the soil surface. Wind movement can send this air mass over nearby vegetable crops.

Farmers using herbicides should do everything possible to confine the tiny spray particles to the sprayed area, the horticulturist cautions. Increasing the amount of water applied per acre, increasing the nozzle diameter to obtain larger particle size, reducing the pressure, and not spraying when the wind is blowing toward susceptible crops are points to watch when using herbicides.

The amine of low volatile forms of 2, 4-D should be used in place of the more volatile ester forms. Recently several new herbicides have appeared that can be used near horticultural crops with little hazard, Singletary adds.

LOCALS

Mr. and Mrs. Bobby Broach and daughter of Riverside, Calif., visited his mother, Mrs. Fred Broach, Sr. this week.

Mr. and Mrs. J. J. Keel and Leona and Mrs. Trudie McDonald and Jimmy of Midland left last Thursday for Baytown upon receiving word of the sudden death of Jimmy Frazier, husband of the Keel's daughter, Margaret Ann. They returned home Sunday night. Funeral services for Mr. Frazier were held in Baytown on Saturday morning.

Mr. and Mrs. Wayne Smith of Irving visited their parents, Mr. and Mrs. Joe Massey and Mr. and Mrs. A. L. Smith, over the week end.

Dr. R. L. Newsum accompanied by Lee and Karen Pippin of Haskell left last Monday for Estes Park, Colo., for a vacation. Dr. Newsum will be back in his office on Saturday morning, August 15.

Mr. and Mrs. Guy Hardin and children of Shamrock visited their mothers, Mrs. W. G. Leflar and Mrs. J. C. Campbell, over the week end.

Mr. and Mrs. Paul Fetsch of Muenster visited relatives in Rhineland over the week end enroute home from a visit on the

plains. Guests in the home of Mr. and Mrs. Otis Simpson last Monday were his brother and family, Mr. and Mrs. F. B. Simpson and daughter, Flora, of Burleson.

Mr. and Mrs. James Simpson and children of Abilene were Sunday guests of his parents, Mr. and Mrs. Otis Simpson.

Miss Sammie McClellan of Hardin Simmons University in Abilene visited friends here over the week end.

Mr. and Mrs. J. C. Rawlins of Goree and Miss Verna Lee Rawlins and Mrs. Leon Johnson and Laura attended the Bartlett fam-

ily reunion held in the MacKenzie State Park in Lubbock last Sunday.

Mrs. Oscar Cypert and Cathy and Mrs. Ed Jetton and Sheryll were visiting in Wichita Falls last Thursday.

Mr. and Mrs. W. B. Neill visited their daughter and family in Merkel and with their aunt in Hamlin last Sunday.

Rick and Sue Whitworth of Tulsa, Okla., are here for a three weeks vacation with their grandparents, Mr. and Mrs. D. E. Whitworth.

Drive carefully. The life you save may be your own!

Knox Prairie Philosopher Has A Novel Idea Of Just What To Show Khrushchev On His Visit To U. S.

Editor's note: The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek has gotten wind of Premier Khrushchev's visit to the United States, his letter this week reveals.

Dear Editor:
Right now, me and Washington are doing a lot of thinking and planning about the forthcoming visit of Premier Khrushchev, the Russian dictator, but we're thinking and planning in exactly opposite directions.

Here's the situation: Khrushchev has never visited the United States before, all he knows about the country is what he's heard, and he's heard that from his fellow-Russian propagandists who are notorious for telling about how down-trodden we are over here, how half the country is starving, and all the wealth is owned by two or three families. And a bunch of Washington thinkers are getting ready to open his eyes.

For example, Khrushchev says he wants to visit an American farm. What will the Washington experts do? They'll pick out a big, modern farm, owned by a man who's probably a bank director or a grain dealer on the side and has the last word in equipment, and Khrushchev will look it over and go back home and tell his slaves, all right, get to work harder, America is way

ahead of us in agriculture. Now what Washington ought to do is pick out a farm that's, well, a farm sort of like mine, all right, pick out mine and Mr. let Khrushchev come out here and look around. Let him see a pasture full of weeds, fences that're falling down, crops over-run with Johnson grass, bony cattle, a 20-year-old tractor with two flat tires, etc.

Then Mr. Khrushchev will go back to Russia and say, Take it easy, we got nothing to worry about, American agriculture is on its last legs, we got em whipped already. This is a fine opportunity to win a great propaganda war, but I'm afraid Washington's not up to this type of advanced thinking. What it'll do is try to dazzle him, and it will, but he won't resign his job and take up residence here and join the Republican party. What he'll do is go back home and drive his slaves harder.

But if Washington should switch and decide to show Mr. Khrushchev my farm, let me know in advance. I want to let the air out of the other two tires on my tractor.

PLANNED HUMBLE BUILDING IN HOUSTON — This model shows Humble Oil & Refinery Company's proposed 14-story office building to be located in downtown Houston. Morgan J. Davis, president of Humble, said the building will enable the company to bring its 3,300 home office employees together in one central location. Present plans call for a building with approximately a million square feet of usable space. Initially, Humble expects to use more than half of the building for its offices and to sub-let the remaining space to other tenants.

229 Persons Are Killed In Texas In Traffic Accidents

AUSTIN — "Honestly now, what's your hurry?"

This question was put to Texas motorists today by J. O. Musick, general manager of the Texas Safety Association, as he sought public support for TSA's current Slow Down and Live campaign.

Musick reminded drivers that 229 persons were killed in Texas traffic accidents during August of last year.

"Each Texan can give the Slow Down and Live campaign a boost by simply becoming safety conscious. Most of us are familiar

with the laws, rules and courtesies of the road, but all too often there is a tendency to forget them. At this point we are most vulnerable to an accident," Musick said.

He reminded motorists that traffic officials are doing all they can to protect drivers and pedestrians by maintaining a firm enforcement policy, but that the final responsibility rests with the individual.

"Surely it is a matter of deep concern to all of us that the traffic accident toll is on the increase in Texas (the Texas Department of Public Safety reports an increase of approximately nine percent for the first six and a half months of this year), thus we owe it to ourselves to our family,

friends and neighbors to accept the moral responsibility of practicing safe driving habits.

INCREASE INCOME

At a number of cotton gins in Texas last year, growers increased their income from cotton by cooperating with the ginner in a seed cotton grouping program. Fred C. Elliott, extension cotton specialist, says a moisture meter was used to determine moisture content of the seed cotton in the trailers. The trailers were then grouped on the gin lot according to moisture and trash content or method of harvesting. This enabled the ginner to adjust drying equipment and machinery for the groupings. The result a better ginning job.

Three Men Fined On Liquor Charges

Fines and costs totaling \$2,121.20 were levied against three Goree men on Thursday of last week on liquor violation charges filed before County Judge L. A. Parker. All reportedly pleaded guilty.

Bob Elliott, a farmer, was fined \$1,000 plus court costs of \$32.90 on a charge of selling whisky in a dry area.

Antonio Sanchez, farm worker, was fined on three charges of selling beer in a dry area, \$100 and costs of \$32.10, \$100 and costs of \$26.30 and \$500 and costs of \$26.30.

Zeferio Ortis, 18-year-old step-

son of Sanchez, was fined on two charges of selling beer in a dry area, \$150 and costs of \$26.30 and \$100 and costs of \$26.30.

The charges were filed following joint raids by agents of the Texas Liquor Control Board and officers of the Knox County Sheriff's Department.

September 30 is the last day to claim a refund of the federal tax you paid from July 11, 1958 to June 30, 1959 on gasoline used for farm work, reminds Tom E. Prater, extension farm management specialist.

"Juvenile delinquency was unheard of back in the days when studies were taught to the 'tine of the hickory stick'."

Registration Of Boats To Be By Highway Dept.

AUSTIN — State Highway Engineer D. C. Greer said Monday that registration of boats would go into effect in October. The new boating act requiring registration was recently passed by the Legislature.

Greer assured boat owners that no penalties or convictions will be involved for this delayed registration date, particularly in view of the fact that the final boat-registration date is March 1, 1960. Other features of the act went into effect Tuesday.

Greer explained that boat registration was a little foreign to the ordinary function of the Texas Highway Department, but that the Department was already well experienced in handling this type of operation.

"We have been registering motor vehicles for more than forty years. Nearly four and a half million motor vehicles were registered by the Department this year. The Texas Legislature, cognizant of the experience of the Highway Department, gave us the job in order to take advantage of existing operations and to cut cost. The Texas Department deals solely with registration in this boating bill; we have nothing to do with the safety aspect," Greer said.

The appropriation bill passed last week provides funds after September 1. These funds enable the Texas Highway Department to print the necessary forms and place into operation the procedures invested in the Highway Department by the act.

Greer estimated that the registration forms and blanks would be printed and in the hands of boat dealers, county offices, Highway Department offices, and other public offices in October. Ample notice will be given when these forms are available.

Traffic Is More Deadly Than War

CHICAGO — Modern traffic is more deadly than war.

This is revealed in the 1959 edition of "Accident Facts," statistical yearbook published by the National Safety Council.

The booklet shows that 1,265,000 persons have died in this century in motor vehicle accidents.

By comparison, 604,773 Americans have been killed in battle or died of wounds in all this nation's principal wars — from the Revolutionary War through the Korean conflict.

If you are trying to make money out of hogs, keep them cool, says T. D. Tanksley, extension animal husbandman. When the temperature is 90-100 degrees a hog eats twice as much to put on the same gain as he does when the temperature is 60-75 degrees, he adds.
