I feel better than I have for a long time. My husband feels better than he did when he took baths and medicine. His father is 70 years old, but feels better than he has for three or four winters. Until 1780 or thereabouts the standard language had no broad "a." Benjamin Franklin, who recorded in 1788 the pronunciation of his day, knew no "ah." Evidence indicates that it appeared again in London speech between 1780 and 1790. There is no basis for the statement that it originated with the Irish.
