Odd Bits Salvaged  
By The Editor

The deadlines are staring us in the face.

They will be beginning Monday February 1, which E. W. Harrell has announced as the deadline for paying city and school taxes without penalty. And the same date applies to payment of state and county taxes.

Another deadline comes on Monday, February 1, which is the final date for candidates to file for places on the ballot for the first Democratic Primary Election, which will be held on May 7th this year.

A little later will come the deadline for securing your 1960 auto license tags, as well as for getting those little safety stickers on your windshields.

The sticker business we've already attended to, since we had to have "the fues" fixed on our gas consumer last week. Someone remarked: "I thought chimneys had fues," when we stated why the auto was in the repair shop, but that's our name for exhaust pipes, tail pipes, etc., which our auto has a habit of burning out rather regularly.

Pretty soon — all too soon, perhaps — we'll be faced with another deadline, that of getting our income tax returns in to the Director of Internal Revenue. After juggling with figures during the week end until we thought we were getting cross-eyed, we finally got ours ready to be turned over to someone else to complete and give us the sordid details.

And while on the subject of deadlines, we got over the radio Monday the news that Senator Lyndon B. Johnson has paid his filing fee as a candidate for reelection to the Senate. The boon for president which has started for the Senator with Sam Rayburn as one of the "principal booners" hasn't seemed to deter Senator Johnson from his original statement made a good while ago: "I want to be a candidate for re-election to the Senate."

We've always had a yen to travel in one of those big airliners, but the Mrs. has a stronger yen for sticking to the ground. We almost talked her into taking the air to Houston one time, but after a checkup on the costs we both decided that was too much just for one week end. So we've never been in the air but one time, and that was as a kid when we rode in one of those old World War I tubs.

With all the air accidents lately, our yen is not quite as strong as before. Someone might deem the time we get on one of them as the proper time for blowing the thing up.

We reckon there is not much of a safe place to be these days. The highways surely are not safe — not nearly as much so as they should be. More accidents occur in the home, we've heard, than anywhere else. It's not really safe in your own boat out on the water. Burning a fire at home to keep warm in winter isn't safe, either. A number of persons lost their lives over the week end in such a manner. So for safety's sake — be careful!

"I think that proposed Boys Ranch for this congressional district is a good thing," J. E. Cure told us over the lunch counter last Friday. And if enough people think the same way and back up their thinking, the ranch will be assured. We've heard there will be no trouble in establishing the ranch — that people of Wichita Falls and vicinity will do that — if church people of the area will assure its upkeep and maintenance.

## Tommie Hall Opens Blacksmith And Welding Shop Here

Announcement is made this week that Tommie Hall, formerly of Benjamin, has opened a blacksmith and welding shop in the S. O. Riley building, across the highway from Wes-Tex Motel. Mr. Hall is experienced in this line of work, having operated a shop in Benjamin for many years. He appreciates the patronage of his old customers, and invites others of this area to give him a trial. All work is guaranteed, he stated.

## Soil Conservation District News

There were 19 Great Plains Conservation Program contracts approved in the Wichita-Brazos Soil Conservation District in 1959. These 19 contracts cover some 45,000 acres and 12 of the contracts are in Knox County and 7 are in Haskell County. The contracts are for a period of 3 to 6 years in length.

Some of the conservation practices planned to be carried out under the program are: Seeding cropland that is not suited for cultivation back to grass, brush control and seeding on rangeland, terraces, diversion terraces, ponds, waterways and deferred grazing.

Approximately 40 applications for entering into the program have been received covering over 100,000 acres.

Jerry Jetton, Melvin Cypert and Kenneth Parker were visitors in Wichita Falls last Sunday.

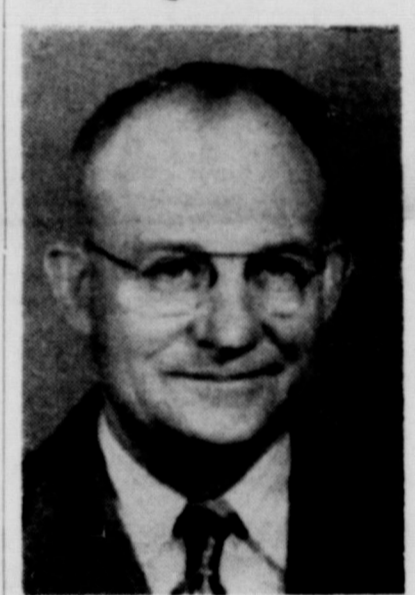

## Goree Man Serves Aboard Valley Forge

Carl Dwayne Hargrove, 19-year-old son of Mr. and Mrs. Arthur Hargrove of Goree, is a hospital corpsman second class aboard the U. S. S. Carrier Valley Forge somewhere in the Atlantic.

The carrier, slated to launch the world's largest balloons, had its operations delayed recently due to unexpected strong winds. The ship and crew will return to their home port at Norfolk, Va., in about 30 days.

Dwayne spent a 20-day leave with his parents in December, and also visited his twin brother, Wayne, in Wichita Falls.

## Supt., Mrs. Cox Quitting Schools

SUPT. W. C. COX

Supt. W. C. Cox announced Tuesday that he and Mrs. Cox are resigning their positions with the Munday Public Schools. Mr. Cox handed a Times representative the following statement:

Due to personal reasons beyond our control, Mrs. Cox and I have decided to sever our relations with the Munday Schools. This is entirely of our own volition and is done after careful deliberation. Our tenure of fourteen years has been pleasant and we take the step with regret. The people, among the best found anywhere, have been very kind. The Boards with which we have worked have been very cooperative, and kind enough to extend to us a vote of confidence each year of our tenure here. Since we are but human, certainly we have made mistakes. We have tried to be honest in our endeavor.

We have seen the schools grow from twenty teachers to the present thirty-three teachers and from a little over five hundred scholastic population to over eight hundred, including transfers. We have seen the physical plant grow with some much needed addition, some consolidation. We have felt that we were a part of the schools, not merely employees.

We leave our best wishes with the schools and the community as a whole, and hope sincerely that the teachers that follow us will enjoy the same type of cooperation from the community, the Board, the pupils and the faculty that we have enjoyed.

Their resignations are effective at the close of the 1959-60 school year.

## CHILI SUPPER FRIDAY

The Wesleyan Service Guild is sponsoring a chili supper Friday, January 29th, from 5 to 7 p.m. The supper will be held at the First Methodist Church and plates are \$1.00 each. Members of the guild are inviting the public to attend and you may buy your ticket before hand from members of the Guild.

## Otis Harbert Is Candidate For Commissioner

Otis Harbert of Knox City, has authorized the Munday Times to publish his name as a Candidate for Commissioner of Precinct one (1).

Harbert has been a resident of Knox City for thirteen years and during that time has served as President of the Knox City Chamber of Commerce, President of the Lions Club, and as Mayor for three years. Harbert resigned this month from the Mayor's office to make this campaign for Commissioner.

Mr. Harbert, is making his announcement, issued the following statement:

Most all voters are aware that the bulk of the duties as Commissioner are those in handling the management of County Business. Very few voters today believe that care of roads are the major function. I feel confident that my record proves me to be competent to do all the duties necessary to properly serve as your commissioner. When I am elected as your Commissioner I will make every effort to serve efficiently as your Business Representative. I will publish quarterly the expenditures of the tax money, along with the receiver of the tax money. I will seek, by competitive bids, the purchases of the Precinct and make all purchases within this County, when possible and when allowed by law. All operations of the County and Precinct will be an open, complete, and conclusive record of the County business, and open to inspection for any citizen.

I will endeavor to uphold the law governing the actions of the Commissioners Court, in every respect. I am a Democrat, and a true Democrat, of life long standing. Your vote and influence will be appreciated.

Otis Harbert at present operates the Harbert Hotel in Knox City, is 54 years of age a Mason, a Shriner, and member of the First Baptist Church of Knox City.

## Deadline Given For Paying Taxes

Monday, February 1, is the deadline for paying city and school taxes without penalty, it was announced Monday by E. W. Harrell, tax collector for both the city and school.

The deadline usually falls on January 31, which is on Sunday, and no tax payments will be received on that date.

The same deadline applies to payment of state and county taxes.

Mr. Harrell stated that his office in the city hall will be open Saturday from 8 a.m. to 5 p.m. for the convenience of taxpayers.

## NEW ADDITION TO THE ALBUS FAMILY

There's a new addition to the Albus residence. I am the son of Mr. and Mrs. James Albus and I made my appearance at the Knox County Hospital January 26, 1960. I weighed 7 pounds 12 1/2 ounces and have been named Jimmy Ray. My big sister, Cindy, is really proud of me. Grandparents are Mr. and Mrs. P. W. Albus and Mr. and Mrs. C. H. Herring.

Mrs. Gerald Tidwell and Cynthia of Abilene spent last week with Mr. and Mrs. Buck Tidwell and Mr. and Mrs. H. C. Yandell.

## Large Crowd Expected For Farm, Ranch Day on Friday

BYRON W. FRIERSON

HARLAN E. SMITH

Byron W. Frierson, assistant director of agriculture for the Texas Department of Corrections, Sugarland, will be guest speaker at the Knox County Farm and Ranch Day meeting which will be held at the Munday school beginning at 10 a.m. Friday. His subject will be "Farming in the Prison System."

Mr. Frierson's primary business interest since September, 1949, has been the rejuvenation and rebuilding of agricultural operations of the prison system. He has taken a system which was in the red and brought it to the point where it is not only paying its way but is providing food and fiber for many people who are not a part of the Texas Correction System.

## Knox County 4-H Gold Star Girl Has Completed Six Years In Club

SHERRY COOK

Miss Sherry Cook, 16-year-old 4-H Gold Star Girl for Knox County, is the daughter of Mr. and Mrs. A. L. Cook of Gilliland.

Miss Cook has completed six years of club work in the county and has held most of the offices in her local club. She is council delegate for the Gilliland senior girls' club this year, which entitles her to membership in the county 4-H council.

Some of Sherry's other accomplishments during the past year include the following:

First place county winner in early dairy foods and home improvement; blue ribbon winner in the county dress revue, and district winner in dairy foods. Projects which she has completed are: Leadership, food preparation and preservation, and home management — including the use of electricity.

## Oil Activities

Union Oil Co. of California has potentialled two oilers in the Voss (Tannehill) Field, 1 1/2 miles north of Munday, as the No. 12-27 and No. 8-27 Alice Lowrance.

No. 12-27 Lowrance flowed 194-88 barrels of 35 gravity crude per day from perforations at 1990-2010 and 2020-24 feet. Gas-oil ratio was 604-1, and hole was bottomed at 2080 feet.

No. 8-27 Lowrance pumped 53 barrels of 35 gravity crude, plus five per cent water, per day from perforations at 2021-25 feet, with bay being fractured. Total depth was 2080 feet.

Mrs. H. A. Pendleton visited relatives in Wichita Falls several days this week.

## 45 People At Bull Testing Program Wed.

Approximately 45 Knox County cattlemen withstood the cool winter weather Wednesday January 20 to attend the bull testing program held on the League Ranch at Benjamin.

Dr. Raymond Hander of Wichita Falls and W. H. Stewart of Munday presented the two hour program that included a thorough discussion of the procedure used in fertility testing and, the actual test of six bulls. Results of the test showed one of the six bulls infertile or incapable of settling cows.

Cattlemen in the county realize the value of the test and are beginning to test their bulls in an effort to cut down on feed cost and, most important, to increase calf crop percent. It was brought out during the discussion that the preferred time to test bulls was immediately prior to turning them out with the cows at breeding season.

The program was a result of the planning of the County Extension Livestock and Range Subcommittee, members being, Togo Moorhouse, Chairman, Lee Smith, Edgar Jones, C. C. Browning, and C. P. Baker. Included also in the planning was Jack Idol, chairman of the County Extension Program Building Committee.

Arrangements for Mr. Frierson's appearance at Farm and Ranch Day were made by County Agent Troy Jones and Macy K. Orman, agricultural agent for the Burlington Lines in Texas.

Also included on the program and discussing plant diseases is another top-notch speaker, Dr. Harlan E. Smith of the Texas Extension Service. In addition to his primary duty of working with plant diseases, he is in charge of the plant disease diagnostic laboratory at College Station and plant disease survey work throughout the state. He is well qualified to speak on this subject.

Smith was born and reared on a farm in Arkansas and finished his work for the bachelor of science in agriculture in 1948 at the University of Arkansas. He was plant pathologist with the Agricultural Extension Service in Arkansas for three years before coming to Texas A&M.

A large crowd of interested persons — farmers, ranchers and businessmen — from over this area are expected to attend the Farm and Ranch Day and hear these six speakers. A free lunch will be served in the school cafeteria at noon as a courtesy of several Munday business establishments.

## Leonard Parks Funeral Service Held At Goree

Funeral services for Leonard D. Parks, 35, of Rankin were held at 3 p.m. Tuesday from the First Baptist Church in Goree with Rev. C. R. Mathis, pastor, officiating. He was assisted by Minister Payne Hattox of the Church of Christ and Rev. H. Clayton Adair, pastor of the Goree Methodist Church.

Mr. Parks passed away at 8 a.m. Monday in an Odessa Hospital, succumbing to multiple head and internal injuries received in an automobile accident near Odessa on January 1. He had been in the hospital since the accident.

A native of Goree, he was born December 31, 1924, and was 35 years and 24 days of age. He had been living in Rankin, where he was employed as a mechanic for an oil field firm. He was a member of the Baptist church.

Surviving him are his wife, Mrs. Donna Ruth Parks of Rankin; a daughter, Karen Dale Parks of Iowa Park; his parents, Mr. and Mrs. A. T. Parks of Goree; four brothers, James C. Parks of Freeport, Roy A. and J. T. Parks, both of Odessa, and Belmont Parks of Goree; a sister, Mattie Jane Parks of Goree, and a half brother, R. P. Miller, in the U. S. Air Corps and stationed at Altus, Okla.

Burial was in Hefner Cemetery under direction of the Chapel of Ross in Odessa and McCauley Funeral Home of Munday.

## Band Boosters To Plan For Musicade

Plans will be made for the 1960 "Mogul Musicade" Monday night, February 1, at 7:30 when the Band Booster club meet in their regular first Monday night meeting. March 11 is the date that has been set for the musicade and rehearsals will start soon. This will include only the high school band and a Junior High Musicade is being planned for P. T. A. Thursday, March 21.

Booster members are needed to help in their part to make the event a success and if everyone will cooperate the members of the band under the direction of Jack Guyman will make the program part the best musicade Munday has ever had.

### TOMORROW'S AGRICULTURE

The Pacific coast area convention of Soil Conservation Districts was recently held in Portland, Oregon. Representatives of 403 farmer-run conservation districts attended, from five Western states, Hawaii and Alaska.

The meeting caused the Oregon Journal to say: "Some people may wonder why our soil conservationists are so concerned over better land and water uses and increased production in these days of agricultural surpluses, but they will better understand the pressing nature of the conservation problem when they realize that agricultural planning and future goals must be geared to an estimated U. S. population of 230 million people by 1975 and 370 million by the year 2010." And this must be done, the paper adds, "in an era when the competition for the land and water now available for farming with the demands of industrial, urban and recreational uses is keener than ever."

Farm surpluses, no matter what government policy of the future may or may not be, constitute a temporary problem. The inexorable pressure of population growth will see to that. Indeed, the problem of the future may be one of shortages, unless every care is given to the preservation and betterment of limited acreage of irreplaceable soil.

Luckily, we have both the knowledge and the instruments for this. The science of conservation has made enormous strides in late years. Modern farm equipment, from the tractor on, makes advanced conservation technique possible with a minimum of time and labor. Thus, agriculture can ready itself for the future.

### GET RID OF THE CHAINS!

Maurice H. Stans, Director of the Bureau of the Budget, has made this statement: "It is the general policy of the administration that the federal government will not start or carry on any commercial-industrial activity to provide a service or product for its own use if such product or service can be produced from private enterprise through ordinary business channels."

This policy is of limited scope, because of the phrase "for its own use." It does not cover government commercial activities which are aimed at the general public, such as electric power production. But the principle can and should be extended to all government commercial ventures

which compete unnecessarily with private enterprise.

The good that would come from such an extension has many facets. First of all, a substantial reduction in government spending would immediately become possible--socialized business commonly runs on a deficit basis, with the taxpayers picking up the check. Second, the government's tax revenues would automatically increase, as taxing private enterprise took over the production of the goods and services concerned. Third, and by far the most important, it would be a tremendous influence in checking the erosion of liberties brought about by the growth of monolithic, do-everything government. People who look to government to provide the things they can provide for themselves, either individually or collectively, are asking for chains.

### GUIDE POSTS

Shortly before the end of the year, Senator Byrd of Virginia made a speech in Chicago in which he urged a number of essential steps this country must take. He pledged his support to them to the fullest extent of his "capaciy and energy."

Three of this distinguished Senator's "musts" are: "1. Stopping expenditures in excess of our income by eliminating nonessential spending.

"2. Reducing the federal debt; this would be a great deterrent to inflation for the present and lift some of the burden we are loading on generations of the future.

"3. Curbing the excesses indulged in by labor leaders, without destroying the right of collective bargaining."

In this, Senator Byrd has clearly laid out guide posts for the future which must be followed if we are to remain a strong, solvent and stable country--and if free and representative government is to be perpetuated in the United States.

Secretary of Commerce Mueller, appearing on a radio program sponsored by Newsweek, predicted that this country's Gross National Product will hit an all-time high of \$500 billion by the middle of the year providing businessmen take the "opportunity to so accelerate business activity and employment." He also said there is an "opportunity for business, labor and the public to use so wisely our private enterprise as to block inflation and to provide the best year of our lives."

### REGIONAL MEETING FOR TEXAS

The 1960 annual meeting of the 14-state Southern Commissioners of Agriculture will be held June 17-20 in San Antonio, and the Texas Department of Agriculture

will be hosts for this important session.

The San Antonio gathering will mark the first time the Southern commissioners ever have met in Texas as a group.

The 1960 meeting of the commissioners will be especially significant because it will be held just in advance of the Democratic national convention and will, in effect, amount to a Democratic Party agricultural caucus. A list of nationally prominent speakers is stated to address the meeting, probably including a number of active or hopeful candidates for the Democratic presidential nomination.

Agriculture Commissioner S. E. (Si) Corley of Mississippi is president of the Southern commissioners, and the Texas Agriculture Commissioner is vice president.

There's nothing like a new car--and no new car like a Chevrolet. This is the Impala Sport Coupe!

# GO '60 GO CHEVY!

NOW - THE CAR THAT STARTS THE SIXTIES  
WITH SO MUCH THAT'S NEW,  
SO MUCH THAT'S DIFFERENT  
...AND SETS THE PACE WITH LOWER PRICES!

Chevrolet speaks of the Sixties like no other car--with a broad accent on spaciousness, stirring new concepts in styling and strong emphasis on spirit and thrift.

Step inside this superlative '60 and look at the worlds of room around you: head room, hip room, shoulder-squaring room. Note how Chevrolet's engineers have further flattened and narrowed the transmission tunnel to give the middle man more foot room. Chevrolet's greater roominess is inside where you want it--not outside in useless body overhang.

You'll find economy teamed with performance in a new standard V8, engineered to deliver up to 10% more miles for every gallon, or the strapping Hi-Thrift 6.

And riding comfort in the new one is a never-ending treat, thanks to Full Coil spring suspension. There are also thicker, newly designed body mounts that filter noise and vibration to the vanishing point, more rigid frame and many other engineering advances.

But you'll have to drive the Sixty sizzler yourself--that's the clincher.

Why not see your Chevrolet dealer now--for a drive and the happy details on Chevy's new lower prices.

### Dollars And Sense

(By Miss S. C. Kinsey, County H. D. Agent)

Outlook information for 1960 may serve as a guide for better home management.

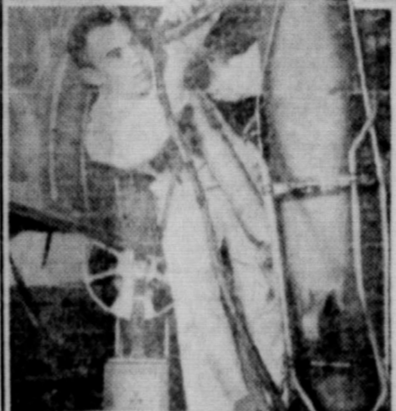

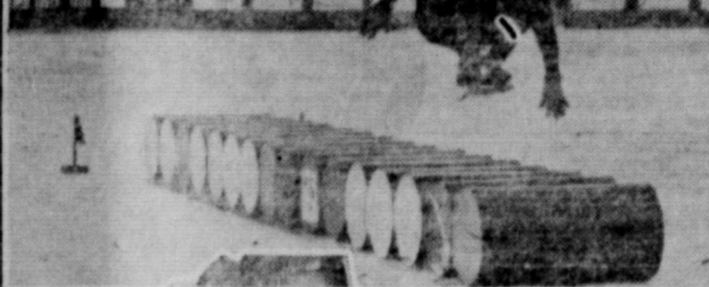

Lower prices for meat, vegetables and fruits are expected to reduce the retail food price index. Housing costs — for renters and landlords — are expected to reduce in some areas.

Prospective home builders may expect rises in prices of materials and loans for building purposes.

The general picture is for a continuation of rises in production, sales and retail prices of major household appliances and furniture in 1960.

3. You enter into other contracts. Promises, spoken or written, bind you if they call for a "consideration," something of value in return.

4. Someone threatens your rights. The law exists to defend them, but with some rights you must take action yourself for them to work for you.

When you can bring your lawyer "live" facts (e. g. unsigned contracts, vexing tax returns you haven't filed), he can do much more for you, and at a smaller cost than when you bring him "cold facts" (mistakes you have made which threaten trouble).

But above all, get both live and cold facts to him at once. For time may run out in many such situations. Your lawyer may be able to do something for you today, which he cannot do tomorrow.

Tell your lawyer what you want. Tell him all the facts, good or bad, and then keep him informed all along. He is sworn to keep what you tell in confidence, and he cannot serve you well without full knowledge.

## Mexican Banded Tetras Process Top Minnow For Bass

Experiments by biologists of the Game and Fish Commission have established that the Mexican banded tetras is a top fishing minnow, in areas where the water temperature does not drop below 55 degrees F.

Tests were made in a number of small lakes and ponds in south Texas, which indicates that the tetras will reproduce in those areas. However, it also was determined that the tetras is susceptible to cold water.

According to a report made by Alvin Flury, project leader, the increase in white and black bass population in Falcon Lake near Zapata has brought about an apparent scarcity of the tetras in that lake. In 1956, the prevailing price on tetras in Zapata went from \$2 to \$4 per gallon. By 1959 the price had climbed to from \$10 to \$12 per gallon. Because of the high predation on the part of both black bass and white bass, the supply of the minnow became so low that a number of the minnow fishermen were compelled to stop operation.

Experimental stocking of this minnow was attempted on 16 farm ponds in the south Texas area. These experiments included lakes that had contained black bass and other types of fish. It was shown in some of these experiments that the tetras can spawn and raise young in small ponds in the presence of young bass and even smaller numbers of adult bass. On one pond that had been stocked with 400 tetras from Falcon Reservoir in February, 1959, the owner trapped 32 gallons of the minnows by May of 1959.

"It is obvious from this pond that the tetras are able to live and reproduce successfully in ponds in this region, if they are not subject to predation by larger fish," Flury said.

**Jerry Lindsey  
And Miss Chapman  
Marry On Christmas**

From the Journal Messenger, Manassas, Virginia.

Miss Susan Barnett Chapman, daughter of Capt. Donald Barnett Chapman, USMC, and Mrs. Chapman of Woodbridge, became the bride of Jerry Lindsey, son of Mr. and Mrs. Troy Lindsey of Olney, Texas, in Calvary Baptist Church, Garfield Estes, on Christmas Day.

The double ring ceremony was performed by the Rev. Harold Moyer, pastor of the Woodbridge Church of the Brethren, at 4 p.m. The church was decorated with pine, white gladioli, and candles. Dick Kaufman was soloist, accompanied by Mrs. Davis at the piano.

Entering on the arm of her father, the bride wore a gown of white satin with chapel length train. The bodice, long sleeves and bottom of skirt were embroidered with seed pearls. Her shoulder length veil of illusion fell from a flat bow of white satin. She carried a white Bible topped with a white orchid and stephanotis in a shower of ribbon.

Mrs. Faye DePalma of Woodbridge, sister of the bride, was matron of honor. Her ballerina length gown was of pink marquisette over pink taffeta, and she carried sweetheart roses.

Miss Gwendolyn Anderson of Crosby, Texas, was bridesmaid. Her orchid colored gown was fashioned similarly to that of the matron of honor. She carried a bouquet of delicate pink roses.

Joseph DePalma of Woodbridge, the bride's brother-in-law, was best man. David Cleveland of Arlington ushered.

A large reception was held in the Sunday School room, decorated with festoons of pine and cedar and lighted candles. The bride's table was centered with the wedding cake decorated with white roses and a miniature bride and groom, and flanked with antique brass candleabra holding white tapers. Two silver bells tied with large white satin bows were suspended over the table.

Mrs. Leon Ingram was in charge of decorations; Mrs. Louise Tolson cut and served the cake; and Miss JoAnn Ingram presided at the punch bowl.

After the reception the couple left for Texas to visit the groom's parents before returning to Baylor University where both are enrolled as students.

Tommy Cunningham visited his parents, Mr. and Mrs. H. T. Cunningham during the between semester holidays. Tommy is a student at Texas Tech in Lubbock.

Mr. and Mrs. Jerry Kane and Jerrilyn were in Dallas last Sunday and Monday for a check up for Jerrilyn. The doctors have postponed surgery until after school is out.

**Matrons Club Of  
Weinert Meets In  
J. W. Liles Home**

The Weinert Matron's Club met last Thursday in the home of Mrs. J. W. Liles, who was also hostess for the occasion.

Mrs. W. A. King, director of the Constitutional Government program, quoted Daniel Webster, "God grants liberty only to those who love it and are always ready to guard and defend it." The Pledge to the Flag was given by the members.

Mrs. King presented Miss Eudora Hawkins of Abilene, who spoke on Constitutional Government. Miss Hawkins informed the members if they wished to know our American way of life read and study the preambles of our constitution and Bill of Rights. We are being governed by men instead of by law, stated Miss Hawkins. We are in a process of trading off our liberty for a government handout. Because we are not familiar with our form of government and the downfall of spiritual and religious life, socialism is creeping in. America get on your knees it is later than you think, concluded Miss Hawkins.

A film, America the Beautiful, was shown by Miss Hawkins. Mrs. C. T. Jones closed the program with a prayer.

The following members were presented with American Creed tracts and answered roll call with Our Rights as American Citizen: Mrs. W. B. Guess, C. G. Hamner, C. T. Jones, R. H. Jones, W. A. King, H. W. Liles, J. W. Liles, R. C. Liles, Fred Monke, G. C. Newsom, Russell Rainey, P. F. Weinert, C. G. Gary, and speaker Miss Eudora Hawkins.

## Fat Stock Show At Fort Worth To Open On Friday

Fort Worth is "Going Western" for the Southwestern Exposition and Fat Stock Show, January 29 through February 7. To publicize the Stock Show, citizens of Fort Worth are donating western wear, including bow ties with Fort Worth Stock Show printed on them, flashy vests as of old, ten-gallon hats and polished boots.

Local merchants are encouraging their employees to join the fun and wear western clothes. Booster trip personnel from Fort Worth Civic clubs are being presented the bow ties. Even downtown bank personnel are going western.

The Stock Show will open on January 29 with a mammoth western parade through downtown Fort Worth starting at 2:00 p.m. The parade will include hundreds of riders, numerous bands and horse drawn vehicles. The first trail ride for the Fort Worth Show will start in Teague on January 23 and arrive in Fort Worth in time to participate in the opening parade.

Rex Allen, "Mister Cowboy" of radio, TV, movies and recordings, will arrive in Fort Worth on January 27 and will be star of the show. Rex will have his beautiful horse KOKO and his musical group "The Men of the West" with him for an act especially designed for the Fort Worth Rodeo. Harry Knight of Fowler, Colorado, will again produce the Fort Worth Show. He has produced the show three times previously, as well as many other major shows.

## Tennis Tourney For Haskell, Knox To Start Feb. 29th

Tennis tournaments for Knox and Haskell county schools will open at Rule on the week of February 29 to March 5 in the first of four meets designed to increase interest in the sport.

## United Nations Day Is Every Day

At Cook County School of Nursing in Chicago's great Medical Center recently consular representatives from many countries were greeted by nurses from their countries. They had the opportunity to tour the school and Cook County Hospital, learning the educational advantages available to their compatriots.

The occasion was a colorful United Nations Tea at which the nurses of foreign origin wore the native dress of their country or the uniform of the school from which they were graduated.

The school has nurses of 36 different national origins on its staff; among them Sweden, France, Australia, British Guiana and the Philippines. There are also exchange visitors from Formosa, Korea and Liberia.

The student group includes young people from Panama, Iran, Israel, The Netherlands, Holland and Lebanon. Friendships between those of different national origins are common at Cook County School of Nursing, where every day is United Nations Day in study, work and recreation.

Mrs. Mahlon Boggs is spending this week in Fort Worth with her daughter, Mrs. J. B. Walling, and family.

Mrs. O. O. Putnam was a visitor in Wichita Falls last Thursday.

We should be freer in the expression of our appreciation of others.

Back in the 1920's when I was a visitor in Mineral Wells, on my acquaintance called my attention to a man wearing a dark overcoat in a hotel lobby, with the remark, "He wrote 'The Slow Train Through Arkansas'."

Thomas W. Jackson: I remember the name well, for as a small boy had I not read his book while actually traveling on a slow train in that very State? The jokes

were new to me; and how I chuckled over them; and re-told them.

My first impulse was to go over and tell him how much his books — for he wrote several others, including "Through Missouri on a Mule" — had entertained me; but then I thought, "He wouldn't be interested in meeting me," so I didn't. Now, years later, having written some books myself, I know that a writer is always glad for anyone to tell him that his writings have given pleasure.

When I was a little boy, our family lived in Benton, Ark. Our physician was Dr. Gann. He wore a silk hat — maybe it was just once, on some special occasion, but the circumstance so impressed my young mind that his memory is always associated with a top hat. He officiated when my sister, Marion, was born. One time, however, when I needed his services, he was out of town, so another doctor was summoned. I had fallen out of a small wagon and had cut my chin on the stump of a sapling in our yard. The wound left a scar and I remarked, "There wouldn't have been one if Dr. Gann could have been here."

Nearly 25 years later, I re-visited Benton on business and, having a little time before my train arrived, I inquired about Dr. Gann. He was still living but had retired. In giving the location of his home I thought I'd pay him a visit. There were several persons sitting in the yard, back on the porch, and, even in the gathering dusk, I recognized his silk hat. I recognized the elderly physician. Then came the thought, "He doesn't remember me and I don't want to be bothersome." So I walked on. Not many years ago, in driving through Benton, near the cemetery fence, the monument at his grave. Being older now myself, I realize he would have been glad for a former patient to have greeted him and by that act to show that a once-little boy still remembered him as a faithful physician.

We should be freer in the expression of our appreciation of others.

## Knox Prairie Philosopher Takes A New Slant On Idea We're Piling Up U. S. Debt For Children To Pay

Editor's note: The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek comes to the defense of parents this week, his letter reveals.

Dear Editor:  
Like most people, I haven't spent much time worrying about the national debt, it's sort of like worrying about the weather three states away while the kind you've got at home is giving you fits, but I'll admit this isn't exactly far-sighted or statesman-like.

What set me to thinking about this though was an article I read in a magazine last night which some publisher sent me in the hopes I'd subscribe to it. This article quoted President Eisenhower on the importance of holding the national budget down. "I believe our people have the determination to hold expenditures in check, to pay their own way without borrowing from their children," the President said.

Now I don't know about the national budget, but what throws most people's budget out of balance is not the parents, but the children, and the number of parents who are borrowing from their children in mighty scarce this vicinity.

Of course, I understand what the President is saying, he means the debt we run up will have to be paid off by our children and grandchildren, and he's right, but just in defense of us adults I'd like to underscore the fact that a lot of these debts we're running up can be traced directly to the children.

Take schools. When you go into debt to build a school, it's not for the parents' benefit. Most parents I know are already educated about as far as they intend to go. It may not be far enough, but most of them seem satisfied with it.

Or take roads. Of course parents use roads, provided their teen-age children are tied up with the mumps, and half the time when the parents are using roads, it's for hauling kids around who are too young to drive but loud enough to get their way.

And so it goes. Hospitals, parks, even national defense, whatever it is that goes with our national budget, the children are getting a pretty good slice of it and I for one am glad to be able to shift a little of the cost on to them when they grow up. One of the troubles with children now is that they expect everything to be handed to them free of charge. If we keep piling up the national debt, it looks like we'll get that notion out of their heads one of these days.

Yours faithfully,  
J. A.

## Questions Answered On Conservation Reserve, Objectives By Gaylon Scott

With many farm and town people asking questions about the Conservation Reserve, its objectives and how it fits into the national farm program, Chairman Gaylon C. Scott, of the Knox County Agricultural Stabilization and Conservation committee January 25th gave the following answers to some of the questions most commonly asked:

**Q.** What is the purpose of the Conservation Reserve?

**A.** Its main purpose is to withdraw cropland from production for the present and thus help check surpluses that hurt farm prices and income. At the same time it assures that the acre taken out of production are devoted to conservation uses.

**Q.** Is this the same program that is sometimes called the Soil Bank?

**A.** Yes. The Soil Bank originally had two parts. There was the Acreage Reserve, which applied to a few main crops, and the Conservation Reserve, which applies to total cropland. The Acreage Reserve was discontinued, and the Conservation Reserve is now the entire Soil Bank program.

**Q.** How is the program carried out?

**A.** Through contracts voluntarily entered into between farmers and the Government. The farmer agrees to hold specific land out of production and devote it to conservation uses. The Government makes an annual per-acre payment to the farmer for the life of the contract and pays part of the cost of establishing grass, trees, or some other conservation use on the land.

**Q.** Is all farmland eligible to be in the Conservation Reserve?

**A.** No. It must be classed as cropland and, generally speaking, must have produced a crop or been in a regular rotation during the year immediately preceding the first year of the contract.

**Q.** May a farmer put all his cropland in the Conservation Reserve?

**A.** Yes. In fact, that is encouraged because it leaves no cropland available on the farm and thus assures reduced production. The family may continue to live on the farm and use the non-cropland, such as permanent pasture or orchard land. The Government payment provides some income, and the family keeps full control of the management of the farm.

**Q.** What does a farmer do for the payment he receives?

**A.** To help check surpluses in the national interest, the farmer gives up the opportunity he might have to make more money by

farming the land. Also, he goes to considerable expense in carrying out a conservation practice on the land to protect it.

**Q.** Are many farmers willing to do this?

**A.** In each of the last two years, more farmers have applied for contracts than could be accepted within available funds.

**Q.** Does the program help non-farm people in any way?

**A.** Yes, it does. Accumulation of farm surpluses is wasteful for everyone — urban as well as farm people. The Conservation Reserve helps prevent this. It also protects the land so that consumers can be sure of abundant food and fiber in the future. An immediate benefit to urban people is the fact that the program encourages better conditions for wildlife and thus provides hunting and fishing for sportsmen.

**Q.** What about the cost of the program?

**A.** For all the land in the program through the 1959 crop season, the rental payment per acre averages \$11.53. Payments range from a low of about \$6 an acre to a high of \$25, and a substantial amount of high-producing land has been placed in the program.

**Q.** Is the program getting results?

**A.** The results to date are encouraging. The amount of land in the Conservation Reserve in 1960 will amount to more than 6 per cent of the country's total cropland and an even higher percentage of the land normally devoted to crops. A survey shows that this land would normally have produced large quantities of leading crops, especially corn, oats, grain sorghum, wheat, barley, and soybeans, to add to existing surpluses.

### Gilliland 4-H Club Girls Meet

The Gilliland 4-H club girls met on January 6, with twelve members present. Mrs. Arnold Navratil was the adult leader attending.

Miss Kinsey gave a demonstration on cutting and growing shrubs. She gave the members booklets on seeds and the care of shrubs. Names were then drawn for secret pals.

Lynda Navratil, Mary Nell Miller and Kay Cook received completion certificates for projects for the past year. Kay Cook, club reporter.

Clint Norman was a business visitor in Big Spring last Monday.

## Safety Clinic To Be Held Monday

### NEW CALIFORNIAN

My name is Don Wylie Johnson. I made my arrival in El Cajon, Calif., on January 22, 1960. I weighed 11 pounds and 6 ounces. My happy parents are Mr. and Mrs. Don Johnson. My big sister, Julie Irene, 2½, is real proud of me too as are my grandparents, Mr. and Mrs. Wylie B. Johnson of Munday and Mr. and Mrs. Earl Bousum of Marshalltown, Iowa.

Mrs. Daisy Loony and Mrs. Wilma Dean Griffith were visitors in Abilene last Tuesday.

Mrs. Leo Guffey of Lubbock is visiting relatives and friends here this week.

Mrs. Sied Waheed and daughter were visitors in Wichita Falls last Monday.

Mr. and Mrs. Tommy Gage and daughter of Dallas visited her grandmother, Mrs. J. T. Voss, and sister, Mrs. Ray Hardin, and family over the week end.

Mr. and Mrs. Joe Weinberg, who have been attending college in Denton, and are now making their home in Kilgore, are spending this week with her parents, Mr. and Mrs. E. B. Littlefield.

Harvey Lee of Fort Worth was a business visitor here the first of this week.

Mr. and Mrs. H. F. Jungman and Mrs. Aaron Edgar were business visitors in Wichita Falls last Tuesday.

Drive carefully. The life you save may be your own!

## Too Late to Classify

### TOO LATE TO CLASSIFY YES, ITS TRUE!

There are no "ifs," "ands," or "buts" about the Atlas Sewing Machine that will be given away entirely free to the lucky person at the Westinghouse Laundromat in Munday. No strings attached, nothing to buy, nothing to pay out. If your name is drawn Feb. 13, you walk out with the sewing machine all yours unless you prefer a vacuum cleaner instead. You do not have to be present to win. Remember WESTINGHOUSE LAUNDROMAT in Munday where we concentrate on good service, good washes, good drying, good friends — a good place to come. Around the east corner from the City Grill. 1c
