DRIVE IT!

A pair of Corvairs recently recorded 27.03 and 26.21 miles per gallon in the 2,061.4-mile Mobilgas Economy Run. That's certified proof that Corvair skimps on gas costs. It saves other ways, too. Corvair is the only U. S. compact car that never needs antifreeze or costly radiator repairs. Come in and drive the compact car that outdoes them all.

Things Corvair gives you that America's other compact cars can't:

Practically flat floor . . . real foot room for the man in the middle. Fold-down rear seat gives 17.6 cu. ft. of extra storage space. Four-wheel independent suspension for a smoother, flatter ride.

Rear-engine traction . . . that comes with the engine's weight bearing down on the rear wheels.

You probably realize already that the mileage figures Corvairs recorded in the Mobil-

gas Run are higher than the average driver can expect. But because the cars met every kind of driving condition-rugged mountain grades, long country straightaways, congested city traffic-those mileage figures prove Corvair's inherent

ability to save. Operating costs take a nose dive the day you take delivery of

News From The U.S. Congress

By Congressman Frank Ikard

The following was written by Dan McCrary, a newspaper reporter, who is spending a year in Washington as a Congressional Fellow of the American Political Science Association. This Association provides funds to send about 15 journalists and political science teachers to the capital each year to learn more about how Congress functions. They divide their time working in Congressional and Senatorial offices. Dan, who is originally from Michigan, has worked in my office since late December. I thought you might be interested in some of his observations.)

Four former Texas 4-H Club members have been named state winners in the 4-H alumni recognition program for outstanding 'post graduate" work in applying the principles and ideals of 4-H in their adult lives.

Alumni of Texas 4-H Activities Honored

They are Roy B. Davis, 1901 29th st., Lubbock; Mrs. Woodrow Chervenka, Rt. 2, Rogers; A. W. Schaffner, Rt. 4, Cuero, and Mrs. Aaron McKinzie, Rt. 1, Dike.

Each received a burnished cop-per plaque donated by the Plant Food Division of the Olin Mathieson Chemical Corp. The program is conducted by the Cooperative Extension Service.

Davis, manager of the Plains Co-op Mill in Lubbock, became a 4-H member in 1918 when his family had a 160-acre farm near Lamesa in Dawson county. He continued his interest and

activity in 4-H work when he became a county agricultural agent in 1927 — serving successively in Gaines, Terry and Hale counties. Davis is still active in 4-H and other youth activity work and contributes considerable time and effort to further the various

He aids young 4-H members by extending credit on feed for the animals they raise as club projects. He also advises them on the best feeding practices.

Mrs. McKinzie has been a volunteer leader of the Dike 4-H Club for four years and devotes many hours each week to club activities. She provides advice, encouragement and occasionally transportation.

A housewife and mother of two children, Mrs. McKinzie is also active in P-TA and church work.

NOTICE

It has come to our attention so frequently in the past several months that a great many people are buying Hospitalization Insurance from door - to - door salesmen, which is often entirely worthless, that we feel obligated to call the matter to the attention of the general public.

There are plenty of honest insurance agents in our local communities who live here and are available in case a policy turns out to be not as represented. We, therefore, urge you to buy your insurance from people you know and can trust.
