Odd Bits Salvaged
By The Editor

Just ahead of our rain, which was apparently spawned by Hurricane Carla, last Monday an area farmer was in a local gin office when someone saw his truck pull in with a tarp fastened over it and evidence of rain on the sides of the vehicle.

The driver, a Mexican, entered the office and announced that one of those thundershowers hit the farmer's cotton field and hauled picking. "Boy! We need everything but that," the farmer replied.

And most farmers felt just that way. What was needed in this area more than anything else was more gathering of cotton.

We feel, however, as many others do, that Carla let us off rather light. Munday received less than .75 of an inch of moisture, while flooding occurred way up in Kansas. Cotton picking was resumed in a couple of days.

Carla was blamed in a way, too, for a somewhat light Bargain Day in Munday on Wednesday. Although the rain had stopped, shoppers had trouble in crossing Main Street to reach some of the stores.

You see, the highway department had started retopping the main street. Workers spent Monday hauling that topping stuff and unloading it in the center of the street. Around 6 a.m. Tuesday they started out to spread it, possibly with the idea of completing the project that day. They'd barely gotten started when the rain came.

All day Wednesday, Bargain Day, maintainers were reworking that topping stuff, trying to dry it out again and get it ready for spreading. At times, one had to walk over a large roll of it to get across the street.

After reading of all the destruction, evacuation, loss of lives, etc., as a result of Carla, we've decided we are right proud to be a West Texan. Although lots of people did during the "dust bowl" days, we have never been forced to leave home because of a sandstorm. We'll take them in preference to hurricanes and high tides any day!

Along towards the last of the week, we were asked if any concerted move was being made locally to aid the hurricane victims. We had heard of none.

Robert H. Young, pastor of the First Baptist Church, said his people were taking up donations of money, clothing, bedding, etc., for the victims. The move is not limited to the church alone, but is for anyone of the community. Church officials will issue a receipt for the goods and transportation to the hurricane victims, Rev. Young said.

The death in a place crash of Dag Hammarskjold, secretary-general of the U. S., is what we believe the world's greatest tragedy of modern times, and perhaps the greatest since the death in a like manner of the world's greatest humorist, Will Rogers.

The champion of peacemakers had led the nations in many critical times and was on another peace mission when his plane crashed in Africa. The full impact of his death will be keenly felt when the U. N. Security Council tries to get down to business.

Ben Ramsey, who has served as Texas' lieutenant governor longer than any other man, has resigned to take a place on the Railroad Commission, filling the vacancy created by the death of Olin Culbertson. We doubt if Ramsey will ever have the loyal following, especially among volunteer firemen, which his predecessor enjoyed.

On trading at home and patronizing door-to-door salesmen, Glenn Shelton had this to say Wednesday: "Not only is a consumer morally obligated to trade with the neighbor who pays taxes and helps support local institutions, but he is wise to realize that his neighbor is always close by to stand behind what he sells. A guy who is here today and gone tomorrow can promise anything." What will work in Wichita Falls will also work in Munday!

Your hometown merchant is your friend. Patronize him first!

Blood Drive At Knox City Is Termed Success

The Red Cross bloodmobile visited Knox City was proclaimed a success by George Clevenger, Wichita Falls blood center administrator, after a total of 63 pints of blood were donated last Friday.

The collection is an all-time high record by the bloodmobile outside of Wichita Falls, Clevenger said.

Credit for the success of the drive was given largely to Dr. Charles Markward, Knox City chairman. Mrs. Markward and her corps of workers solicited donors.

One of those donating blood was Everett Boulte who joined the "Gallon Club" Friday when he gave his eighth pint of blood.

Local volunteer workers were Mrs. Alton Fitzgerald, Mrs. Tom Campbell, Mrs. Joe Reeder and Mrs. Charles Markward, all registered nurses, and Mrs. Dick Marion, laboratory technician. Other volunteers were Mrs. Paul Clayton, Mrs. T. S. Edwards, Mrs. C. C. Hutchinson, Mrs. Guy Robinson, Mrs. C. J. Reese, Mrs. George Davis, Mrs. O. A. Green, Mrs. M. Johns, Mrs. Palmer Campsey, Mrs. J. M. Averitt, Mrs. O. M. James, Mrs. Lee White, Mrs. Lee Woodward, J. C. McGee, Mrs. C. E. Reed, Sam E. Clonts, Herbert Bellinghausen, Mrs. Jerry Guinn, Mrs. Paul Hoge, Mrs. C. C. Hoge and Mrs. Barbara Tankersley.

Dr. D. C. Eiland, county blood program chairman, announced that the next visit of the bloodmobile to Knox County will be in Munday on Nov. 16.

Motorist Killed On Thursday In Benjamin Wreck

A 72-year-old Fort Worth man died near Benjamin last Thursday night after his car skidded off U. S. 82, ran down a fence line and then crashed into a canyon in "the narrows" east of Benjamin.

Killed was Charles Word Leverett, of 1950 Hemphill in Fort Worth. He was identified by papers in his automobile.

Sheriff Homer T. Melton said Leverett's car was found by a state highway department worker at about 6:30 p.m. Thursday. He said investigating officers estimated the vehicle had been there about 30 minutes when it was found.

A tree about halfway down the canyon wall stopped the car and prevented it from crashing to the bottom of the deep gulley, it was stated.

Ross D. West, justice of the peace at Benjamin, pronounced the man dead at the scene, but withheld a verdict pending further investigation of the accident. Leverett was alone in the car, and there was no apparent cause for the vehicle to leave the road.

Survivors include a sister, Miss Ethel Leverett of Fort Worth.

Accidents Claim Two Lives In County

The Highway Patrol investigated 7 accidents on rural highways in Knox County during the month of August, according to Sergeant Frank Jirek, Highway Patrol Supervisor of this area.

These wrecks accounted for two persons killed, three persons injured, and a property damage of \$6,310.00.

The rural traffic accident summary for Knox County from January through August of 1961 shows a total of 35 crashes. As a result of these crashes there were 2 persons killed and 18 persons injured. The estimated property damage amounted to \$28,220.00.

With the starting of the school year, the State law regulating traffic in regard to school buses, "The driver of a vehicle upon a highway outside of the limits of any incorporated city or town upon meeting or overtaking from either direction any school bus which has stopped on the highway for the purpose of receiving or discharging any school children shall stop the vehicle immediately before passing the school bus, but may proceed past school bus at a speed which is prudent, not exceeding 10 miles per hour, with due caution for the safety of such children."

COFFEE TIME—Even following a hurricane, a soldier needs a cup of hot coffee and the Salvation Army was there to provide it. Shown above, right, is Lt. Lamar Foreman pouring coffee for PFC Jerome Cramr of Ganado, Texas, a member of the 36th Division National Guard following Hurricane Carla's devastation in Edna, Texas. More than 60 Salvation Army officers and 18 Disaster Mobile Canteens were in the Gulf Coast area to provide relief for storm victims.

First Baptist Church Takes Offering Of Clothing For Victims Of Hurricane

An offering of clothing, bedding and food for those in distress following the ravages of Hurricane Carla on the Texas coast will be taken on Sunday, September 24, at the First Baptist Church in Munday.

There are many who have good used clothing, bedding and non-perishable foods that will supply much of the needed relief to

those whose loss has been so great. Anyone who would like to help in this way is invited to do so. The need is immediate, so the things will need to be left at the church no later than Sunday.

Following are some suggestions for packing clothing, etc.

Clothing and bedding must be useable and clean. Quality, not quantity, is best. Do not send clothing that needs repairing.

Place size label on each garment. Be specific.

Pack men's women's and children's clothing in separate boxes and label the boxes. Do the same if shoes are given, and pack separate from clothing. All boxes must be strong and well tied.

Association missions and survey committee can not do this for each church. Please follow their instructions entirely, so the work can be done immediately.

Moguls Defeat Knox City 25-6 Friday Night

The Munday Moguls played the brand of football that drew admiration from their fans last Friday night as they staged a victory march over the Knox City Greyhounds.

Munday capitalized on two recovered fumbles for touchdowns and two more TDs on 15 and 10-yard runs by halfback Douglas McGrady resulted in a 25-6 victory over the Greyhounds.

The Moguls jumped off to a 13-0 lead in the first half before Knox City scored. McGrady scored from the 15 in the first quarter and Bruce Pruitt kicked the extra point.

In the second quarter, halfback Jerry Meers scored from the eight after Munday recovered a bobbled punt by the Greyhounds on the Knox City 20.

Eddie Williams, Knox City quarterback, passed 39 yards to end Jimmy Lea to draw the Greyhounds up to 13-6. Then the Moguls recovered another fumbled punt, this time on the Knox City 15. Ricky Couch, quarterback, passed 14 yards to Pruitt for the touchdown and a 19-6 half-time lead.

McGrady scored on a 10 yard run in the third quarter to cap a 60-yard drive.

The tense Moguls drew a total of 10 penalties for over 100 yards. Knox City was penalized 3 times for 35 yards.

Defensive standouts for the Moguls were center Jackie Booe and guard Roy Perez, while tackle Joe Tidwell and end David Denton stood out for the visitors.

Large Crowd Attends Opening Of New Gin Here

J. Omar Cure, manager, estimated that between 600 and 700 persons attended the formal opening of Knox Prairie Seeds new gin plant here last Saturday. The crowd included local people ginners and dignitaries from over a wide area.

People came and went at will during the day. Many watched the new gin in operation, visited a while, then left. A large number remained for the feed at noon.

Sen. George Moffett of Chillicothe was on hand early Saturday and visited with many friends. In his speech at the noon hour, Mr. Moffett complimented members of Knox Prairie Seeds in establishing this fine gin plant at Munday and said it was a boost to the cotton and pure seeds industry locally.

Ginners were present from many points in this area, including Stamford, Vernon, and Anson and several towns in Oklahoma.

Representatives in Continental Gin Co. present included A. L. Vandergriff of Birmingham, Ala., president; R. L. (Bob) Czerwiski, vice president; Richard Lackey, sales manager of the western district, and Lewis Grizzle, salesman of Vernon. Others included John Wilkes of Traders Oil Mill in Ft. Worth, John S. Davis, electrician of Stamford; Lawrence Crider, Stamford contractor, and Herman Gregg and two sons, seed breeders of Plainview.

Burglars Take Groceries From Knox City Firm

Burglars took \$105 in money, a large supply of groceries and an unknown amount of cigars from Roddy's Cafe in Knox City early last Saturday after forcing their entry through two back doors.

Headen Drayton, owner and operator, said \$75 of the amount was change, while \$30 was tax money. The bulk of Friday's receipts had been deposited. Drayton had just purchased his week end supply of groceries and didn't know exactly how much was taken.

Dayton discovered the loss when he came to work at 5:30 a.m. after closing at 12:30 a.m.

Sheriff H. T. Melton said the burglars broke a padlock off the rear screen door, then pried the lock from the inner door.

Sheriff Melton was assisted in the investigation by Deputy Sheriff H. C. Stone and City Marshal Jesse Hester of Knox City.

Broom Sale For Lions Club Set For October 4th

"Wait for the Munday Lions Club's annual broom sale!"

That's the cry that's been going out this week, as the local Lions prepare for their annual broom sale on Wednesday, October 4th.

Brooms made by the Texas Blind Shop Caravan will be sold by the Lions on that date. The caravan will be located on the city hall square, and four teams of Lions will work from that point making a canvas of the business and residential districts.

Proceeds from the sale will be used for sight conservation and other activities of the club. Principal project of Texas Lions is the crippled children's camp at Kerrville, but important sight conservation work is being done locally.

Featured in the sale will be quality brooms, ironing board covers and pad combinations, door mats, etc., all made by blind workmen of the state.

Get ready for the Lions to visit you. It's their most important project of the year!

Mr. and Mrs. Ernest Machen visited their son and family, Mr. and Mrs. Lynn Machen, Debbie, Ginger and Don Wayne, in Houston last week. They went at this time to get acquainted with the new grandson.

Mrs. Anna Urbanczyk took her daughter and family, Mr. and Mrs. Don Kimball, to Albuquerque, N. M., last week. They will make their home there. Lorene Brown accompanied them to Albuquerque.

Knox County Farm Bureau Sets Plans For Harvest Season Ideas, Convention

This is the harvest season for ideas in Farm Bureau, and local Knox County Farm Bureau members are being urged to participate in the annual process by which the organization decides its positions on local, state and national levels.

The process begins at the grass roots with discussion meetings attended by Farm Bureau members. The first official step in the process is the county annual convention at which county policies and recommendations on state and national issues are adopted after discussion and debate. The Knox County Farm Bureau annual convention will be held Oct. 2, 1961 in Goree, Texas.

All adopted resolutions pertain-

ing to county-level matters become policies for the local organization for the ensuing year. All approved resolutions dealing with state and national matters are forwarded as recommendations to the Texas Farm Bureau convention which will be held this year November 12-15 in Galveston. County Farm Bureaus send delegates to the state convention to adopt state policies for the coming year and to make recommendations on national issues for consideration by the national Farm Bureau convention to be held this year in December in Chicago. The number of delegates from a county is based upon the size of the membership of that county. For example, Knox County Farm Bureau, which had 383 members in 1960, was eligible to send four delegates to the state convention last year.

Finally, the policy development process is culminated at the national convention in December where delegates from 49 state Farm Bureaus (all except Alaska) adopt national policies for Farm Bureaus everywhere. Here, too, the size of state delegations is based upon number of members. Only three other states—Illinois, Indiana, and Iowa—have more voting delegates than Texas.

This, then is the Farm Bureau policy development process and it is open to each Farm Bureau member. It is with the individual that ideas, which finally become policies, originate.

Farm Bureau policies are not made by taking an opinion poll. An opinion given in such a poll represents one's ideas based on his total information and prejudices on a given subject. In Farm Bureau, it's different. To be adopted as a Farm Bureau policy, an idea must be sound enough to survive the rough-and-tumble arena of debate and free exchange of ideas. It is the collective knowledge of large numbers of Farm Bureau members that determines the organizations' policies. The more members that are involved, the more likely will the resulting policies be fair and reasonable and sound.

Dr. William O. Beasley, above, chairman of the Department of Religious Education at Hardin-Simmons University, Abilene, will fill the pulpit at the First Baptist Church next Sunday morning in the absence of the pastor, who is in a revival near Eldorado, Okla.

Dr. Beasley is an ordained minister and has served a number of churches in Abilene and the West Texas area as interim pastor. His message will be of interest to everyone.

Canafax New Counselor For County Schools

Joe Canafax, former principal of the Munday High School, is now serving as supervisor and counselor for the Knox County Schools. M. D. McGaughey, county superintendent, stated Monday. He is working with all the schools of Knox County.

Mr. Canafax, who holds an A. B. degree from Texas Wesleyan College and his master's degree in education from North Texas State College, has had about 25 years of teaching experience. He taught 17 years in Northside School in Wilbarger County before coming to Munday some five years ago.

He succeeds J. B. Anderson, who resigned this post with the county schools and retired.

Mr. Canafax has arranged his work so as to cover all the county schools each three weeks. He is working in Munday this week, will be with Goree and Benjamin next week, and at Knox City, Rhineland and Gilliland during the first week in October, Mr. McGaughey said.

He is interested in the schools and in helping youngsters of the county in improving their learning and job opportunities, McGaughey said.

Moguls To Play Panthers Friday

Next on docket for the Munday Moguls will be the traditional non-conference game with the Seymour Panthers, which will be at 8 p.m. Friday on Scruggs Field. This is the last game for the Moguls before they enter the tough conference play.

The Panthers, playing in Class AA, have failed to make an impressive record thus far in the season.

The annual game between the Panthers and Moguls usually draws a large crowd from both towns, and this year is expected to be no exception.

UNDERGOES SURGERY

Lee Burnison underwent surgery in the Bethania Hospital in Wichita Falls last Monday morning.

Paymaster Gins Begins Operation

Shelton Phillips, manager of the Paymaster Gin, got things to rolling last week at the gin after having been delayed several weeks by competing installation of new machinery.

The gin has been thoroughly overhauled, new machinery and equipment installed, and the plant is now in tip-top shape for the remainder of the ginning season.

During the time this machinery was being installed, the gin's customers were serviced by the Paymaster Gin at Weinert. Mr. Phillips estimated that some 250 bales were taken to Weinert to be ginned.

Firemen Attend Convention Sun.

Several local firemen attended the associational convention in Graham last Sunday. Results of the contests were as follows:

Attendance, Archer City, with 52 per cent of members present; 6-man hook-up, Archer City with 204 points; 2-man hook-up, Chico, with 14.1 points; water polo, Archer City.

The Munday fire department was awarded a citation from the Muscular Dystrophy Association at the meeting.

Attending from Munday were Mr. and Mrs. Gene Brown and Cindy, Chief George Beatty and family, Tommy Horton, M. M. Booe and family, Mr. and Mrs. Billy Cybert, Ralph Cybert and family, Raymond Carden and family, Ray Ford and family, Gene Haynie, Mr. and Mrs. Robert Hosea and Mr. and Mrs. J. B. Scott.

A delicious barbecue supper followed the meeting and hose races.

Knox City will be host to the convention in May, 1962.

GOOD WORDS—BUT

On May 25, in his Message on Urgent National Needs, the President said: ". . . if we are to preserve our fiscal integrity and world confidence in the dollar—it will be necessary to hold tightly to prudent fiscal standards . . ."

On June 6, Under Secretary of the Treasury Roscoe said: ". . . I cannot emphasize too strongly the harmful effects domestically and internationally of any indication that our government does not have its fiscal affairs under control. At home, undisciplined deficits are a prime source of inflationary pressures."

These are true words. But the sad fact is that they are not being matched by action.

The so-called "temporary" limit to the national debt is about to be raised by \$5 billion, to \$298 billion. The budget deficit during fiscal 1962 will be enormous. And much of the increase approved or proposed in federal spending, let us not forget, has nothing to do with national defense. It is for new expanded domestic programs of the welfare state nature.

High officials, the Secretary of the Treasury among them, urge that business and labor exercise restraint in seeking price and wage increases. This is important—but it still amounts to just more words unless government exercises restraint in spending. If deficits continue and grow, we will be courting a runaway inflation that could cut the value of the dollar in half once again, and knock the props out from under our economy and national security. The Soviets would like nothing better.

IF WE WANT GROWTH

Just about everyone, from the President on down, agrees that this country needs stimulated economic growth, in order to provide more jobs at home and to meet our military and related commitments.

One necessary ingredient for growth is greater investment of savings in productive enterprise. In a word, investment should be encouraged in every reasonable way. But, instead, investors are discouraged by the imposition of two federal income taxes on profits. First, these profits are taxed at the corporate rate of 52 per cent; second, any remainder distributed as dividends is subjected to the individual income tax, at rates ranging from 20 to 91 per cent.

Some years ago Congress provided a modicum of relief to the double-taxed investor. It permits shareholders to exclude the first \$50 of dividends from taxable income, and take a 4 per cent

credit on any remainder. That certainly is small enough. But it is now proposed to eliminate even this palliative. Should that happen, we'll see a smaller proportion of the nation's individual savings go into corporation securities—and economic growth will be retarded instead of being stimulated.

Actually, a compelling case can and should be made for an increase in dividend tax credits, not a decrease—if we really want our economic strength, which currently is our major weapon in the cold war, to reach its maximum.

THE ALTERNATIVES

Living within one's income is something of a problem to most of us. But we have to do it—if we want to keep out of the bankruptcy courts—even though it means doing without many things we'd like to have.

It's high time the federal government took note of this simple truism.

The government has lived within its income just six times in the last 30 years. It is more than \$290 billion in debt—and that debt is an obligation against every man, woman and child in the country. It works out to more than \$1600 per capita now, and more deficits, which will build the debt higher and higher, are foreseen for the future.

What will the results be? There are several alternatives. We can have higher taxes, or more inflation, or both. Or we can abandon the reticent welfare state philosophy, and cut non-essential government spending to the bone.

KLAMATH FALLS, ORE., HERALD: "It . . . is certainly the time to put all governmental spending under the public glare and start pruning those programs which are not of immediate importance to the overall problem of national defense."

"A sound defense is necessary, and we will gladly pay the cost. But let's not spend money as though it were going out of style."

WADESBORO, N. C., MESSENGER & INTELLIGENCER: "An American and a Dutchman were talking. 'What does your flag look like?' asked the American."

"It has three stripes," said the Dutchman, "red, white and blue. We say they have a connection with our taxes. We see red when we talk about them, white when we get out the bill and we pay till we're blue in the face."

"That's how it is here," said the American, "only we see stars, too."

WHAT DOES THE BIBLE SAY?

GOREE CHURCH OF CHRIST
 Box 147 Phone 436-2421
 PAYNE HATTOX, Evangelist

It Is Not Enough Just To Be Good:

Many well-meaning people have the idea that all is needed to inherit eternal life is to be good. They usually mean by this to be morally upright, to stay out of jail. But the Bible says it is not enough just to do the best you can by yourself. If that were enough then Jesus need never have come into the world. The cross was a tragic mistake and the blood of Jesus is of no importance.

The Bible teaches that "all have sinned and come short of the glory of God . . ." (Rom. 3:23). Jesus said: "It is written, man shall not live by bread alone, but by every word that proceedeth out of the mouth of God." James teaches us that if we sin in one point of the law of God we become guilty of all (Ja. 2:10). Again, the Bible says that "to him that knoweth to do good and doeth it not to him it is sin." Surely there is no one who thinks he is so good that he does every thing good that he knows to do.

The man who ignores Christ and the Bible is guilty of in-

gratitude. "Every good gift and every perfect gift is from above, and cometh down from the Father of lights, with whom is no variableness, neither shadow of turning" (Ja. 1:17). We are commanded to give thanks in every-thing (1 Thess. 5:18). The man who trusts in his own self-righteousness becomes guilty of pride. There is no place for human pride in the presence of God.

The best example of a good man who needed to be saved is Cornelius, the Roman centurion. Compare your virtues with his. He was devout. He feared God with all his house. He was well reported of by the Jews. He prayed to God always. He gave much alms. Yet, the Bible says he was not yet saved. He was commanded to send for Peter "who shall speak unto thee words whereby thou shalt be saved, thou and all thy house" (Acts 11:14).

Cornelius heard these words of the gospel, and was commanded to be baptized in the name of the Lord (Acts 10:47-48).

Birthday Dinner Given Sunday At Home In Seymour

The D. E. Patterson home, 111 Stratton Seymour, was the scene of a surprise birthday dinner honoring D. E. Patterson and his youngest grandson, Charles Patterson of Munday. The dinner planned by Mrs. Patterson, took place at 1 p.m. Sunday, September 17.

The table was covered with a white linen tablecloth edged in pink candles. The centerpiece, a huge white cake, was decorated with Mr. Patterson's favorite flowers, rosebuds. The names Granddaddy and Charles were written atop the cake with their ages in pink candles above each. On each side of the cake were tall pink burning candles.

Highlights of the day were a call from the only grandchild not in attendance, Mrs. Harold Honeycutt of Denver, Colorado, and the singing of the traditional "Happy Birthday" by Mr. Patterson's great grandchildren.

Guests attending were Mr. and Mrs. Clifton Patterson, Mary, Charles and Roger Bell, Mr. and Mrs. Robert Patterson, Bobbie Lynn, Donna, Debbie, Derrell, and Judy all of Munday, Mr. and Mrs. Charles Bellinghausen, Chucky, Loretta, and Paul; Mr. and Mrs. John Moore, Robert, Stephen, and Mike all of Hurst, Mr. and Mrs. Albert Patterson, Mr. C. B. Harris, and Mr. and Mrs. Hill Murrah all of Seymour.

Mr. and Mrs. Jimmy Henson and sons of Shallowater visited his parents, Mr. and Mrs. H. D. Henson, and other relatives here over the week end.

Miss Ella Mae Smith And Wallace L. Park Marry On Saturday

Wallace L. Park and Miss Ella Mae Smith were united in marriage at 5:30 p.m. Saturday, September 16, 1961 at the First Baptist Church in Knox City. Rev. Ogle Murrell Johns, pastor officiated.

The bride is the daughter of Mr. and Mrs. J. L. Smith of Knox City. The groom's parents are Mr. and Mrs. Fred O. Park of Quinton, Okla.

The couple are making their home in the apartment of Miss Shelly Lee. Mr. Park is employed as linotype operator at the Munday Times.

Nova Thomas Circle Meets On Monday

The Nova Thomas Circle of the First Baptist Church met at 3 p.m. Monday in the home of Mrs. R. E. Greenway with 13 members present.

The meeting was called to order and the prayer calendar for the day was read by Mrs. E. H. Nelson. Prayer was led by Mrs. C. M. Thompson. A short business meeting was held, and the last lesson from the mission book, "Christians Sharing of Possessions," was given by Mrs. G. E. Rodgers. The closing prayer was by Mrs. J. O. Bowden.

Refreshments were served to 12 members and one visitor, Mrs. E. T. Byrum.

Mr. and Mrs. L. H. Ford of Roswell, N. M., visited with relatives and friends here over the week end.

RECENT BRIDE—Pictured above is Mrs. David Charles Moore, the former Jimmie Del Peysen, daughter of Mr. and Mrs. John Peysen of Munday. The couple were married on Sunday afternoon, September 10, at the Church of Christ in Munday. They are making their home at 2131-2 13th Street in Lubbock.

Local F. F. A. Boys Elect Officers

The Munday chapter of Future Farmers of America met last Tuesday for the first time this school term. Officers were elected and committees were appointed. The new officers elected are as follows:

President, Rickey Couch; vice president, Clifford Straw; secretary, Jerry Meers; treasurer, Dewey Myers; reporter, Leon Looney; sentinel, Wayland Floyd. Gerald Morgan was appointed chairman of the program committee with Wayland Floyd and Clifford Straw as his assistants.

Bobby Masters was appointed chairman of the refreshment committee with Dowell Matthews and James Welch as his assistants.

The chapter has decided to have their monthly meetings on the first Thursday in each month except next month when the meeting will be held on Tuesday, October 3. This meeting will be the Greenhand initiation. The chapter also plans to elect their F. F. A. sweetheart at this meeting.

The chapter will be under the direction of a new advisor, Mr. Alvis, this year and it is thought that he will have a very successful year.

Mr. and Mrs. Earl Tayntor and son of Wichita Falls and R. S. Edwards of Weimert were Sunday guests of Mr. and Mrs. M. L. Raynes.

Weekly Health LETTER

Issued by the State Health Department

State health authorities are asking the public to help eliminate the trouble-some and dangerous traffic in "bootleg" oysters by buying only those shellfish products known to be produced under Texas State Department of Health certification.

The bootleg traffic involves perhaps 10 percent of the tens of millions of Texas-grown oysters which enter retail channels each year. The other 90 percent have pedigrees authenticated by departmental inspectors.

Most retail outlets — grocery stores, seafood houses, and restaurants—handle only certified products, the department emphasized.

Bootleg oysters may be grown in water of questionable quality, harvested under insanitary conditions and peddled by spurious dealers from house to house or at roadside stands. Buyers are urged to insist on knowing the source of the oysters offered for sale and to refuse them if their certification by the department cannot be readily established by the vendor or verified by local health officials.

Some 150,000 gallons of oysters are produced each year from Texas waters. That adds up to 1,500,000 consumer sized packages.

Approved canned or packaged

Larger V8 Engines and Diesel Debut in '62 Chevrolet Trucks

Diesel power for the first time, addition of two higher powered V8's, and lower hood lines for better road visibility highlight Chevrolet's 1962 truck line. New to most of the 1962 models are directional signals as standard equipment, single headlamps and longer life mufflers. New optional equipment includes alternating current generators, tinted glass and sliding rear cab window for better ventilation. Proved independent front suspension is retained with improvements.

Oysters can be quickly identified by a certification number issued by the State Health Department. On gallon cans the number is embossed in the metal on the side of the can. On smaller containers, the certification number is printed on the lid.

"Bootleg traffic in oysters isn't increasing or decreasing," a departmental official said. "This is just something we want to break up once and for all."

Reason for concern is that oysters fed by pumping water—as much as 25 gallons a day—through a complex system of gills which filter out suspended marine organisms and bacteria. When oyster growing water has been contaminated the shellfish themselves are subject to infection which can be passed on to a human.

The department's certification program includes sanitation surveys on drainage areas contributing to oyster growing waters to check for potential sources of pollution, extensive bacteriological analyses of the oyster growing water proper, and continuous inspections of oyster shucking establishments.

All water-borne diseases, including hepatitis and typhoid fever, can be transmitted via contaminated oysters. But the risk can be virtually eliminated if consumers refuse to buy uncertified products, the department said.

Officers Named For Munday Sophomores

The sophomore class of 1961 and 1962 elected class officers on September 13. They are as follows: president, Jackie Booe; vice president, Kenneth Smith; secretary and treasurer, Jerilyn Duke; reporter, Paula Horne.

On September 18, the class elected Mr. Bingham and Mr. Bowden as their class sponsors. They also elected a steering committee composed of five room mothers who are Mrs. Morrow, Mrs. Smith, Mrs. Rhoads, Mrs. Massingill and Mrs. Walker.

IT'S GREAT TO BE THE FIRST GRANDCHILD

I am the one and only grandchild for either of my grandparents so I plan to be quite a stinker, I betcha. I am Michael Alan Cypert and I made my arrival at 2 a.m. Monday, September 18, 1961 in the Haskell Hospital. I weighed 7 pounds and 6 ounces and am a real good looking boy. My parents are Melvin and Bobbie Cypert. Grandparents are Mr. and Mrs. John E. Nelson and Mr. and Mrs. Oscar Cypert. My mother and I hope we get to come home Saturday and if we do we'll be seeing you.

The Goree F. H. A. girls have elected officers for this year. They are president, Brenda Harrison; vice president, Pat Pace; secretary, Francis Warren; treasurer, Candy Haskins; parliamentarian, Marquerite Jackson; Sargent at arms, Janie Blake; reporter, Evelyn Howry; historian, Carol Jackson; song leader, Teresa Cooke; pianist, Jane Carl; and beau, Wayland Jackson.

Installation will be next Thursday in the homemaking room. Mrs. H. D. Arnold had word from her daughter, Mr. and Mrs. Billy Arlege and children of Galveston that they had survived the big storm. Mr. and Mrs. Arlege and their four children took refuge in the John Sealey hospital where Mr. Arlege was an electrician. He was on twenty-four hour duty with very little sleep. Karen, age 10, reports that they

were barricaded in their room part of the time because it was the maternity section.

The basement of John Sealey was filled with water to the stairs on the second floor. The corridors were very dark with only a candle or lantern here and there. After the water receded they waded home through "liquid mud." Their new home was intact, but the house they had just recently vacated was blown away. Their yard was a litter of torn shrubs, fences and other debris. On their way home they passed uprooted trees and one dead man. It was an experience which will probably never be forgotten.

GENERAL TELEPHONE COMPANY OF THE SOUTHWEST

Servis GYRO 60 STALK SHREDDER

3" stalks and brush—a cinch!

Heavy duty, for sure! Has been demonstrated on rows of 4" x 4" posts. Easily cuts tough growth like bois d'arc, salt cedar, broom corn. Yet, fits lighter tractors: 20 to 40 HP.

Fine shredding. Optional shredding attachment features patented intermeshing blades, makes fine litter of cotton and grain stalks to turn under for soil enrichment. Cuts 60" swath.

Fan-type blades available to lift light materials like corn stalks off ground.

A-shaped blade carrier and free swinging blades protect against stump damage. Extra heavy blades and carrier develop tremendous momentum, are the secret of the efficient "gyro action" cutting.

Also lift models and other sizes. 60" lift model fits all standard 3 pt. lift, 2 pt. Fast Hitch, and AC Snap Coupler. Larger models include 66", 84", 100".

New Motor Vehicle Registration Law Requires Registration Of Farm Trailers

The last regular session of the Texas Legislature amended the Texas Motor Vehicle Registration Law to allow farmers to register their farm trailers and farm semi-trailers for a \$5.00 fee providing the gross weight is not less than 4,000 or more than 10,000 pounds. Farm trailers weighing less than 4,000 pounds, gross weight, are still exempt from registration by statute. Those exceeding 10,000 pounds, gross weight, must register as a regular commercial trailer.

Captain J. L. Miller, License and Weight Service of the Department of Public Safety, advised however that any vehicle bearing the \$5.00 plate must not: (1) exceed 30 MPH, (2) be operated for hire, (3) have steel or metal wheels in contact with the pavement and it must be equipped with an adequate hitch to remain secured to the towing vehicle and be operated and equipped in conformity with all other provisions of the law. Violation of any of the above sections of the law nullifies the \$5.00 registration fee and the trailer will be subject to the regular registration fees and penalties as prescribed by law.

This does not change the existing law which requires that all trailers or semi-trailers having a registered or gross weight in ex-

cess of 3,000 pounds be equipped with clearance lamps, side marker lamps, and reflectors as well as a tail light and stop light, if the stop light on the towing vehicle is obscured.

Captain Miller further stated that all machinery type vehicles, other than machinery used solely for the purpose of drilling water wells and road construction machinery, must now be registered with regular license plates and title applied for. This includes oil field drilling and servicing machinery, regardless of whether such machinery is a unit within itself or is mounted on a conventional vehicle or chassis.

Water well drilling units and road construction maintenance equipment are required to have either the \$5.00 registration plate or a regular registration plate, depending upon how the equipment is used.

Captain Miller suggested that anyone needing further information should contact their county tax assessor and collector.

John Walter Massey left Sunday for Denton to resume studies at N. T. S. U. after spending the between semester holidays with his parents, Mr. and Mrs. Joe Massey.

Knox Prairie Philosopher Takes Exception To The Claim Farmer Has No Right To Advise President of U. S.

Editor's note: The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek seems to be standing up for his rights this week, part of the way, at least.

Dear editor: One thing about newspapers, you can be reading along on one, not taxing your mind and enjoying the fact so many people went to so much trouble to round up news from all over for you and deliver it to you in one handy package, without you even stirring off your farm, and then something will jump out of an article at you.

Like what happened to me yesterday. I was reading about an interview some reporters had with Ex-President Harry Truman, and along in the middle of it this jumped at me:

"Mr. Truman declined to make specific comment on the conduct of American foreign affairs, saying, 'No retired farmer from Missouri, like myself, has any business telling the President what to do.'"

Thunderation. Maybe ex-Presidents haven't got any right to tell the President what to do, but if a farmer, retired or active, hasn't got that right, there sure are a lot of them subject to arrest.

Telling the President what he ought to do, and especially telling him what he should have done after it's happened and you've got the advantage of hindsight, is a fundamental right that ought to be written into the Constitution if it's not already there.

If a farmer can't tell a President what he did wrong, this leaves a farmer staring at himself in the mirror when he has another bad year on his hands, and such a situation is worse than a drought or a plague of insects.

You might as well tell a football fan he hasn't got the right to tell a coach what he ought to do, might as well tell a taxpayer he hasn't got the right to tell a mayor how to run the city, might as well tell a parent he hasn't got the right to tell a teacher how to teach, might as

GROWTH

Keynote of the Center of the Southwest

West Texas Utilities Company's service facilities are growing as the area we serve grows.

This service area is the Center of the Southwest—the very heart of a five-state region that is growing 25 per cent faster than the Nation.

A multi-million-dollar growth program is now under way, and even more expansion is in the planning stages. Major examples are our new generating, transmission and distribution facilities, where much construction is now going on.

Our continuing growth program is seen also at the local level. Pictured here, for example, are three of our local offices which have been remodeled recently.

This Company is convinced that we face Growth Unlimited. The money we are spending for expansion today is our INVESTMENT IN THE FUTURE.

County Average Rate For Wheat Given

The average county rates per acre for wheat acreage diverted to conservation uses under the 1962 wheat program are \$16.30 and \$21.80, according to Gaylon C. Scott, Chairman of the Agricultural Stabilization and Conservation Committee.

Individual farm rates are based on these county rates, depending on the farm's productivity in relation to the county average, the Chairman said. He also pointed out that each wheat producer in the county with a 1962 wheat allotment, and also each producer without allotments who have grown wheat in at least one of the years 1959, 1960, or 1961, has received information on the 1962 wheat program, including two rates for his farm.

For the minimum payment, the rate is 45 per cent of the adjusted basic county support rate, multiplied first by the number of diverted acres, and then by the individual farm yield or productivity index.

The maximum payment rate is computed in the same way using 60 per cent of the adjusted basic county support rate.

Producers must use an acreage at least equal to 11.1 per cent of their 962 farm wheat allotment for conservation in order to be eligible for price support under the 1962 program and be in compliance with their 1962 allotment.

In addition, farmers may voluntarily divert an additional one-third of their 1962 allotment. The payment earned from this additional diversion is made at the maximum farm payment rate.

The diverted acreage must represent an additional amount over the normal conservation acreage and any acreage diverted to conservation uses for which payment is made under any other Federal program, such as the feed grain program.

If the payment rate you have received is incorrect based on actual production in 1959 and 1960, you may appeal to the County Committee for a correction. This will require that you furnish documentary evidence such as settlement sheets, scale tickets or other documents that will definitely prove your production.
