Odd Bits Salvaged  
By The Editor

What happened at our house last Sunday was a coincidence.

k-k

Following our week end custom, we kept the covers pulled up later than our week day getting up time, had a late breakfast; and, consequently, a delayed noon-day meal.

k-k

Finishing lunch and the chore of cleaning up dishes that followed, we settled down to watching the Pro Bowl football game—possibly the last of the season—while the Mrs. retired to the quiet of the living room to read her two favorite weekly newspapers—the Memphis Democrat and Quannah Tribune-Chief.

k-k

She'd gotten pretty well settled when the door bell rang, and she discovered Mr. and Mrs. W. R. Cabiness and Mrs. Cabiness's sister, Mrs. Noreen Guiles, all of Abilene waiting to be admitted. She announced our company, and we proceeded to make ourselves presentable.

k-k

We hadn't more than shook hands with "Cab" and his wife, when he said: "Look what I found," and exhibited the copy of the Memphis paper.

k-k

Mr. and Mrs. Cabiness and the Mrs. knew each other in Memphis before our marriage, and "Cab" enjoyed a hurried glance at the paper. They were also in Munday when we married, and after establishing residence here, we had some pleasant visits in each others homes before "Cab" was transferred out.

k-k

"Cab" was manager of the local West Texas Utilities Co. office about the time "Reddy Kilowatt" came into the limelight, and many people around here called him "Mr. Kilowatt." One of the big town projects during his sojourn here was lighting of the local football field.

k-k

We enjoyed their brief visit immensely, and protested when they left so quickly to call on Mr. and Mrs. E. W. Harrell. We learned Monday that they could have stayed with us longer, since they didn't find the Harrells at home.

k-k

Mr. and Mrs. Cabiness are both retired, and "Cab" said they get along fine in their retirement—her hearing is somewhat impaired, and he just stays out of hearing distance!

k-k

A 12-page section of the Dallas Morning News last Sunday was devoted to National Printing Week, January 14-20. Throughout the nation this week printing associations are celebrating the 25th anniversary of the birth of Benjamin Franklin, patron of American printing. The industry groups use the occasion to reflect on the progress of printing and to stress its importance to all sectors of the American economy.

k-k

Benjamin Franklin, who became one of the world's first truly creative printers, took pride in printing. He was born in 1706, and, as every schoolboy knows, was a man of many talents, statesman, philosopher, scientist and writer. But, above all, Franklin considered himself first and last . . . a printer.

k-k

Although he won many proud titles in a long life of outstanding service, he chose to be remembered above all else as a printer. His own epitaph starts out: " . . . B. Franklin, Printer."

k-k

Closely akin to printing, of course, is advertising. There are dozens of different ways to advertise. We've heard it said that "a satisfied customer is the best advertising," and we'd add that the printed word is second best. To supplement this belief is the fact that many printing machinery and paper supply houses carried ads in this special section.

k-k

A salesman called at our place just recently looking for ads of his product. He said: "I notice it's the bigger and better stores that always advertise."

k-k

A unique bank advertisement we ran across recently said: "Carry all your money in a fountain pen!"

k-k

A pasteboard box in this office is collecting those old specs the Munday Lions want to collect. Bring yours in, dump them in the box, and leave! You don't even have to say "Howdy" unless you want to!

## Stone Announces Candidacy For Knox Sheriff

Sheriff H. C. Stone has authorized the Munday Times to announce his candidacy for the office of Sheriff of Knox County, subject to the action of the voters in the 1962 primaries.

Sheriff Stone was appointed to the office of sheriff by the county commissioners last year when Sheriff H. T. Melton accepted an appointment by Col. Homer Garrison to the Texas Rangers.

In announcing his candidacy, Sheriff Stone had the following to say to the voters of Knox County:

"As I have been in the sheriff's department here for the past nine years, I honestly feel I am qualified in seeing that the office continues to function in the same efficient manner in which you have all become accustomed.

"Since my appointment, I have tried to do my very best to run the office in an honest, efficient and business-like manner.

"If elected to the office, as your sheriff, I solemnly promise that I will do my best to keep this high standard throughout my tenure.

"Due to the duties connected with the sheriff's department, it will be impossible for me to contact each and every one of you personally, but I will try to see as many of you as possible before election.

"Meantime, your vote and influence, will be appreciated if you honor me with a return as sheriff."

RETURNS HOME

Sied Waheed, who underwent surgery in the Hermann Hospital in Houston December 22, returned home last Friday and reports that he is doing fine and was really glad to be home.

John M. Stockton of Benjamin has authorized the Munday Times this week to announce his candidacy for the office of County Treasurer, subject to action of the voters in the 1962 primaries.

Mr. Stockton is a long-time resident of Knox County, having lived in Vera for 17 years and Knox County for 20 years.

Mr. Stockton was in the grocery business in Rochester for 10 years.

In his announcement, Mr. Stockton had the following message for the voters of Knox County:

"As you know, the office of County Treasurer is a very important office in the county, as a record must be kept of all money received and spent.

"I have been a business man, farmer, and have been a licensed real estate dealer. Naturally, I have had the responsibility of keeping books and records throughout my business associations.

"I feel my past experience in the business world will be of utmost importance to me and to the people of Knox County.

"I will make an honest effort to see and talk to everyone in the county before the election.

"Your vote and influence will be greatly appreciated."

J. C. (CARL) WHEATLEY

## Wheatley Seeks Second Term As Representative

J. C. (Carl) Wheatley announced that he will seek re-election as Representative of the 83rd District, Mr. Wheatley, Democrat of Haskell, is presently serving in the special session of the Legislature which was called by Gov. Price Daniel.

Mr. Wheatley announced for his second term despite the repeated urgings of his friends in the State Legislature that he should seek the post of Congressman-at-large.

"I feel that I can better serve the people of my district by remaining in Austin," Mr. Wheatley stated. "The 83rd District has many problems, and we are in the process of finding solutions now. If I should yield to the requests of my friends to make a statewide race, the progress we have made here would be hampered. For those reasons, I am asking my people for re-election to the State Legislature."

"My friends accorded me a high honor by asking and urging me to seek election to the Federal Legislature, but I feel that my first obligation is to my friends at home," Mr. Wheatley said in making this decision. "Most of my people know my platform, but there are new voters in the 83rd District, and I will issue the base for my campaign for re-election."

## Making Survey On Fallout Shelters

James H. Wheeler, Jr., and William Early of the architect firm of Boone and Pope, Abilene, were in Munday the first of this week making a survey of places suitable for fallout shelters for the town. They were looking principally for buildings with basements that could be used for this purpose.

They spent Tuesday afternoon and Wednesday in Munday, and plan to make surveys of other towns in the county.

The children of Mr. and Mrs. A. C. Boggs of Munday will honor them with an open house in the Boggs home on Sunday, January 21, in observance of their 25th wedding anniversary.

Open house hours will be from 2 to 5 p.m., and all their friends of this area are invited to attend.

## Lions Club to Boost Poll Tax Payments

"I Am An American Day" will be observed by members of the Munday-Lions Club on Friday, January 19, at which time they will be making an all-out effort to get Munday and area citizens to pay their poll taxes and be eligible to vote in the 1962 elections.

In order to save time and a trip to Benjamin, poll taxes may be paid in Munday in the Chamber of Commerce office. Mrs.

Don Combs, secretary, has been duly sworn in and will perform this service for local people.

A person does not pay for the privilege of voting. Of the \$1.75 paid for a poll tax receipt, \$1.17 is paid to the state and is used to support the public schools. Only 25 cents of the fee is kept in the county to be used for general county budget expense.

If you were 21 years of age after January 1, 1961, you are to apply for an exemption. If you

Charlie Scruggs, associated editor of The Progressive Farmer, is featured guest speaker for the fourth annual Farm and Ranch Day here next Wednesday.

## Farm and Ranch Day Set for Wed., Jan. 24

What has become one of the outstanding programs of the year, the fourth annual Farm and Ranch Day, will be held at the Munday school auditorium on Wednesday, January 23, it was announced this year.

This outstanding program is co-sponsored by the Burlington Railroad and the Extension Service of Texas A&M College and coordinated locally by a citizens planning committee cooperating with Jack Moore, Knox County agent. A program similar to this has been held the past three years, with interest and attendance increasing each year.

This Farm and Ranch Day program has been planned so that it will be of interest to every person in the county, whether he is

a rancher, wheat farmer, cotton farmer, or businessman. The invitation is extended, not only to Knox County people, but to those living near Munday in Haskell County.

Outstanding speakers who are specialists in their fields will take part on the program. An interesting feature, too, will be the free lunch served around 1 p.m.

Speakers lined up for the program will speak on such subjects as recent developments and trends in beef cattle; production, marketing, growing and harvesting cotton, soil fertility, etc.

Two special programs of interest to women will be at 11:30 a.m. on soil fertility for home lawns and gardens, and at 2 p.m. on insect control in home and yard.

The program for this annual event was planned in late November by a special planning committee at a breakfast at the Shamrock Cafe with Macyl Orman, agricultural agent of the Burlington Lines and Jack Moore county agent.

Sponsoring the event locally, as well as the free noon-day meal are the following Munday firms:

Chamber of Commerce, West Texas Utilities Co., First National Bank, City of Munday, Knox County Farm Bureau, Stamford P. C. A., Knox Prairie Seeds, Inc., Paymaster Gln, Farmers Co-op Gln, Agricultural Chemicals, Inc., and Cottonseed Delinting Co., Inc.

## C. A. Bullion Announces For County Judge

The Munday Times has been authorized by C. A. Bullion of Truscott to announce his candidacy for the office of county judge of Knox County, subject to the action of the voters in the Democratic primaries, and has made the following statement:

"By occupation, I am a farmer and stockman, and a few years ago I served this county for ten years as a county commissioner.

"I believe it is our duty as citizens of the county and communities in which we live to obey and enforce the laws, as they are for us to live by, and we should exert our efforts in doing this.

"With reference to the business affairs of the county and in regard to its current operations and obligations, I believe this should be, and I would like to see it, operated on a cash basis insofar as possible to do, and I believe a commissioners court should work with this as one of its principal objectives.

"This county is not large enough and in position to operate in this manner in relation to public building programs, purchase of machinery for road construction and maintenance, highway right of way purchase, and matters of this nature, which is generally a known fact. Bonds or warrants are usually required for financing such operations.

"I believe the county should pay a fair wage to the people whom you elect to serve and to the others who work for this county. This should be an amount commensurate with the duties performed and in keeping with the ability of the county to pay for it. Non-essential items should be eliminated.

"If elected, I pledge my best efforts to work with the foregoing in view, and to work for the best interests of the county. Upon this basis I solicit your consideration of my candidacy for this office, and I respectfully ask for your vote and support."

## Goree Juniors To Present Comedy

The junior class of Goree High School will present the comedy play, "A Womanless Wedding," on Thursday evening, January 25, at the Goree school auditorium.

The curtain rises promptly at 7:30 p.m., and everyone is urged to come out for an hour of fun.

## Gilliland Youth Shows Grand Champion Steer In Livestock Show Saturday

The calf was bred by Beaver's Ranch of Benjamin. The Hereford was the only entry in the wet lot class.

Old Specs Needed!

Got any old specs that you've "outgrown" or don't fit your eyes, anymore?

The Munday Lions Club is aiding Lions of District 2-E in collecting a total of 2,400 pairs of eye glasses which are to be sent overseas. The Munday Times has been selected as collection point, so bring them in and drop them in the box.

Glasses must be in by January 25. They will be packed for shipment January 27 at the midwinter conference in Stephenville.

Water Authority Hires Collector

At a called meeting of the board of directors of North Central Texas Municipal Water Authority on Tuesday night, January 16, the board entered into a contract with Mr. Edgar Taylor, a special tax collector, for the collection of delinquent taxes due the Authority. The services of Mr. Taylor begins on February 1.

Reports from James N. Nichols, engineer for the Authority, were that all plans and specifications have been completed pertinent to construction of the dam and pumping facilities of the Miller Creek project. Actual construction has been held up due to the litigation involving J. E. Walling, Jr., and the Authority.

To date, the expense to taxpayers in defense of this suit has amounted to \$7,182.62, it was reported.

The Authority has been tied up in this litigation for more than a year. In the last trial in November, the presiding judge ruled in favor of the Water Authority; however, an appeal has again been made and a date for further hearing has not been set.

Breeder of the 720-pound Angus was Herman Scheer of Henrietta. The steer won first in the dry lot class.

The grand champion fat lamb is owned by Freddy Smith, 17, son of Mr. and Mrs. Bill R. Smith of Knox City. Reserve honors went to Danny Fisher, 16, son of Mr. and Mrs. Jack Fisher of Knox City.

Both winners are members of the Knox City FFA and were working Saturday and could not attend the show. Smith's lamb was shown by his brother, Glenn. Bill Cornett showed the reserve lamb for Fisher.

Grand champion barrow in the swine division is owned by Ronnie Worley, 14. The son of Mr. and Mrs. L. V. Worley, he is a member of the Knox City FFA.

Another Knox City FFA member, Derrell Marion, 15, had the reserve. He is the son of Mr. and Mrs. E. L. Marion. Both boys showed Hampshires.

Grand champion female in the swine division was a sow owned by Bill Donaldson, 16. He is the son of Mr. and Mrs. O. C. Donaldson of O'Brien and a member of the Knox City FFA.

The reserve champion female also won first in gilts six months and under. It is owned by James Welch, 15, FFA member and the son of Mr. and Mrs. J. L. Welch of Munday.

### PUBLIC-BEDAMNED GAS TAX

There's one thing you can say with certainty about the motorist. He isn't the forgotten man! The tax collectors—state and federal—remember him with a vengeance.

According to U. S. Bureau of Public Roads estimates, tax receipts on motor fuel accounted for 64 per cent of total state highway-user taxes during the year that just closed. In terms of dollars, they came to \$3.5 billion. And this wasn't all by any means—for the federal tax, of four cents a gallon, added up to a handsome \$2.4 billion.

There is, however, a very definite question as to just how long this goose is going to give ever-increasing golden eggs. While state and federal taxes on gasoline have risen 50 per cent in the last decade, the rate of increase in gasoline consumption has, in late years, shown a substantial decline. For instance, when the federal tax was increased in 1956, there was a growth rate decline in 40 states. The same thing happened almost identically when the latest increase went into effect in 1959—39 states reported a consumption fall-off.

So what we seem to be witnessing is an example of the ancient and irrevocable law of diminishing return. The combined federal-state gas tax now averages more than 10 cents a gallon. So motorists drive less, or shift to the smaller cars. And government in the long run is a major loser.

### ENOUGH SAID!

As a feature article in a recent issue of U. S. News & World Report observes, all kinds of charges were aired in the Senate investigation of the ethical-drug industry — "There were allegations of fixed prices, of excessive profits, of monopoly on 'wonder drugs', of gouging of the public."

An examiner for the Federal Trade Commission was appointed to make an exhaustive investigation of these extremely serious charges. The FTC file on the case—which covered six of the principal pharmaceutical companies—filled 1,200 pages, along with the transcript of hearings running to 11,000 pages and 8,000 pages of exhibits. This, it would seem, is about as thorough as one can get.

Result: The examiner recommends that all the charges against the companies be dismissed. In his words, as quoted by U. S. News: "Under the economic system in our country, it is apparent that profit is essential for the survival of the system. Economically, a company or an industry cannot exist without profit . . . Consequently it seems evident that a desire to make a profit, and unilateral decisions aimed at that goal, cannot justify an inference of price fixing or a conspiracy to eliminate competition."

Enough said!

### THE NEW "TYCOON"

The New York Stock Exchange recently issued one of the studies it makes at periodic intervals. This revealed that institutional investors account for more than a quarter of all the trading done there—an all-time high.

Institutional investors consist of insurance companies, mutual funds, foundations, and so on. And in one of her columns, Sylvia Porter tells of the increasing significance of these investors in the stock market. They are a stabilizing influence. They invest for the long-term, and are not interested in short-term price fluctuations. They buy only on a cash basis. And they concentrate on the highest quality of stocks.

In Miss Porter's words, "The 'tycoon' of our era well may be not the wealthy individual but the manager of a pension fund or insurance company portfolio. We are beginning to grasp the implications—financial, political and philosophical—of this huge new power in our markets."

No one—individual or institution—can guarantee that the value of any stock will not decline. But the expanding role of these institutional investors, who represent legions of people with savings accounts and insurance policies, is a good augury for stability.

From the Great Falls Montana, Tribune: "The pre-eminent position of the United States among the nations of the world in the development of electricity from atomic sources, and the contribution of investor-owned electric companies to that development have gone largely unrecognized. Yet, the advance of nuclear power technology during recent years is probably as important to the future of the people of America as the latest experiments in space travel . . . There are now six nuclear power plants in operation in this country. Electric companies are operating five of them. So far as we know, there are more nuclear power plants in the United States than in any other nation in the world . . ."

Big business is looking for more executives now than at any time since 1959, according to a survey of major companies made by a leading management recruitment firm. It finds that within the next few months some 138 companies, with annual sales averaging \$133 million, will have to fill about three managerial positions each, at salaries ranging from \$10,000 to \$75,000.

The Air Transport Association of America estimates that the domestic trunk airline industry suffered a net loss of \$30 million last year.

## CHURCH OF CHRIST

GOREE, TEXAS

### One Bible Faith

We often hear it said "One faith is as good as another," and that "It makes no difference what one believes just so long as he thinks he is right and lives a clean moral life." But this is not true. The Bible says there is "ONE FAITH." (Eph. 4:4-5).

### What Is The One Faith?

The faith in God's word is the 'one faith'. When Abraham believed what God told him, it is said that he "Believed God." (Gen. 15:1-6). "For what saith the scripture? Abraham believed God, and it was counted unto him for righteousness." (Rom. 4:3). "Was not Abraham our father justified by works, when he offered Isaac his son upon the altar? Seest thou how faith wrought with his work, and by works was faith made perfect? And the scripture was fulfilled which saith, Abraham BELIEVED GOD, . . ." (James 2:21-24). Believing God is believing that all things will be just as God said they would be. (Acts 27:25). The "ONE FAITH" comes by hearing the word of God (Rom. 10:17), not what man says.

### All Believe Alike

Since there is only "ONE FAITH," all are to believe alike. The word of God does not produce the many different faiths as man would have us to believe, telling us it make no difference what we believe. God is not the "author of confusion . . ." (1 Cor. 14:33). The New Testament does not contradict itself by teaching different faiths, or what is the same different religions. It does not cause one to believe one thing and another something entirely different. All false beliefs come from the ideas and doctrines of men. Christ said "In vain do they worship me, teaching for doctrines the commandments of men." (Matt. 15:9).

### Faith Of The Gospel

Those who revealed unto us the gospel were inspired by the Holy Spirit, and guided into all truth (Jno. 16:13). They did not teach it different ways (1 Tim 1:3). If any man teach it a different way to what it is revealed, he shall be accursed (Gal. 1:8-9).

How could we obey the command to "strive together for the faith of the gospel." (Phil. 1:27), if we could not believe alike. All must believe and obey the gospel or be condemned. (Mark 16:15-16; 2 Thes. 1:7-9).

## Joe Reeder, Jr. Makes Statement

I would like to take this opportunity to make this statement in regards to my candidacy for the office of County Judge of Knox County, Texas. I was born in Knox County and have spent all my life here with the exception of the five years spent in the Army in World War II. My grandfather came to Knox County in 1886 and was a member of the first Commissioner's Court of Knox County, and was a commissioner when the first Court House was erected. I have a B. A. Degree from Texas Christian University and a Law Degree from Southern Methodist University. I have been a practicing Attorney in Knox County for the past 21 years, and have served as both County Attorney and District Attorney.

I feel that the office of County Judge is one of the most important offices in the State of Texas; this office handles all probate matters, and the County Judge is head of the Commissioner's Court. If you see fit to elect me as your next County Judge, I will exercise the leadership of all matters pertaining to the County Business and will cooperate with the Commissioner's Court in all of their undertakings, and will follow the letter of the law in all instances. I will have regular office hours in the Court House of this County and will be available at all times to handle the duties of County Judge.

Because of the complex duties of this office, I feel, as do many others, that the County Judge should be an attorney. The next few years will be very important for Knox County, and it needs someone at the head of its County Government to represent the best interests of all its citizens.

I would like to take this means to solicit your vote for the office of County Judge of Knox County, Texas, and pledge to you that if you see fit to elect me to this office I will devote all my time and energies to making the best County Judge in the history of Knox County.

Your hometown merchant is your friend. Patronize him first!

## Writer Says Peccary Not Too Dangerous

The javelina or collared peccary is a potent but not necessarily a dangerous game animal for hunters, according to Dar Klepper, outdoors editor of the San Antonio express-News, writing in the current issue of TEXAS GAME AND FISH magazine.

Klepper describes the hunting of the javelinas west of San Antonio, with dogs and 22 rifles and pistols.

"The stories about javelinas 'treeing' hunters usually are nothing but exaggerations of the truth or incidents involving hunters thoroughly unfamiliar with the animals," Klepper says. "In most instances when these near-sighted pigs burst from cover in all directions, two or three invariably race toward the hunter, who doesn't realize that this is a natural occurrence."

Klepper also thinks that after the hunter has retold the story a few times it has been embellished quite a bit to make the javelina look much more dangerous than it really is.

Although the season is closed on javelina in many counties now, there are still some areas in the state where shooting the javelinas is permitted.

Mrs. E. M. Owens returned home last Saturday from a three weeks visit with her children and families. Mr. and Mrs. Al Robertson and son and Mr. and Mrs. Perry Mayfield and children in Fort Worth. Mr. and Mrs. Robertson and son brought her home and remained over Sunday for a visit.

## Knox Accidents Cost \$34,933.00

At the stroke of twelve midnight December 31, 1961, "Old Father Time" quietly slipped away. But the resounding echoes and visions of his destruction of grinding metal bodies, crashing glass, torn and broken limbs and smashed lives will live long in our memories. His record in Knox County has been an expensive one.

For the entire year of 1961 in this county there were 64 crashes

resulting in 4 persons killed, 36 injured and an estimated property damage of \$54,210.00. In comparison of the year 1960 there were 58 crashes resulting in 1 persons killed, 13 injured and an estimated property damage of \$34,933.00.

For the month of December the Texas Highway Patrol investigated 11 rural traffic accidents in this county according to Sergeant Frank Jirek Highway Patrol Supervisor for this area.

These wrecks accounted for two persons injured and an estimated property damage of \$14,535.00.

The veteran Patrol Supervisor cautions all motorists not to be guilty of negligence in permitting their windshields and window glasses to be covered with any form of frozen precipitation while driving. This enhances your chances of an accident many times.

## Weekly Health LETTER

Issued by the State  
Health Department

AUSTIN—Over 12,000 general hospital beds, 550 beds for mental patients, and 350 nursing home beds have been made available to ailing Texans by virtue of a financial partnership in which the state has participated since 1947.

The opening of a cerebral palsy treatment center in Houston in mid-1961 brought to nearly 200 the number of projects completed in Texas under the Hill-Burton hospital and medical facilities survey and construction program.

Established by the Hill-Burton Act of 1947, the program is a unified local-state-federal effort to provide financial assistance to areas with the greatest need for supplementary hospital and medical facilities.

Guided by the 9-member State Board of Health, the program is administered in Texas by the Division of Hospital Services at the State Department of Health, under plans recommended by the State Advisory Hospital Council.

Fund grants up to 50 per cent of total construction costs for general, mental, tuberculosis and chronic disease hospitals, public health centers, diagnostic and treatment facilities, rehabilitation units, and nursing homes may be made under the program. The balance of construction costs must be provided locally.

To be eligible for Hill-Burton assistance, a facility must fulfill a community need and must be sponsored by a private nonprofit organization, or by a city, county, state or other political subdivision. Projects may consist of completely new buildings or the remodeling or enlarging of existing facilities.

Texas began its participation

STATE SENATOR CRAWFORD C. MARTIN of Hillsboro has announced his candidacy for lieutenant governor in the Democratic primary. The 45-year-old attorney is serving his fourth term in the Texas Senate. Martin said the basic plank in his platform would be to get the state on a sound financial basis.

In the program with the construction of the Demmitt Memorial Hospital in Carrizo Springs, a 28-bed general hospital which opened September 3, 1949.

Since then, construction has been completed on 162 nonprofit hospitals with the assistance of Hill-Burton fund grants.

In addition to these finished projects, nine rehabilitation units, 12 public health centers, and nine diagnostic and treatment centers have been put into operation.

The program has also provided financial assistance toward the purchase of special equipment for five laboratories and hospital improvement projects.

His parents are Mr. and Mrs. Don Waheed of Houston and his big four year old sister, Laura, is oozing with pride over her little brother. Sied Waheed is the grandfather.

### RETURNS HOME

Mrs. Joe Pearce returned home last Friday from the General Hospital in Wichita Falls. Mrs. Pearce underwent eye surgery about two weeks ago. She is recuperating nicely at her home here.

Mr. and Mrs. Avery Hayes and daughter of Dallas spent the week end with Mr. and Mrs. J. A. Hill.

Mr. and Mrs. Parker New and children of Paris visited relatives and friends here over the week end.

High production per cow is one of the most important factors in profitable dairying. A recent study of 1959 Texas Dairy Herd Improvement records by Joel Prater, extension farm management specialists, shows that increasing the size of the dairy herd does not always mean an increase in profits but increased income does result when the per cow production is upped.

This "CANDIDACY FOR OFFICE" IS MOST SPECIFIC IN CALLING FOR RESIGNATION UPON ANNOUNCING FOR ANY NON-JUDICIAL OFFICE. THE OFFICE OF CONGRESSMAN IS OF COURSE LEGISLATIVE!

while not required to surrender his rights or opinions as a citizen, it is inevitable that suspicion of being warped by political bias will attach to a judge who becomes the active promoter of the interests of one political party as against another.

If a judge should decide to become a candidate for any office not judicial, he should resign in order that it cannot be said that he is using the power or prestige of his judicial position to promote his own candidacy or the success of his party.

## Knox Prairie Philosopher Wonders What Would Happen to the Government If Congress Operated Like A Bank

Editor's note: The Knox Prair-  
ie Philosopher on his Johnson  
grass farm on Miller Creek gets  
into a complicated financial dis-  
cussion this week, and leaves it  
complicated.

Dear editor:

I'm not saying we need more  
bankers in Congress, but if we  
had more Congressmen as bank-  
ers, things would certainly ease  
up for me and a few others I  
could name.

What I'm talking about is an  
item I read in a newspaper last  
night about a request the Secre-  
tary of the Treasury has made to  
Congress. He said he would like  
for Congress to increase the na-  
tional debt limit by a couple of  
billion dollars right away, as the  
government will need more  
money to operate on.

Asked why, he said the govern-  
ment's income is uneven, it  
doesn't flow in steadily, and even  
if the budget is balanced on a  
12-month basis, there are months  
when expenses far exceed income  
and the debt limit ought to be  
raised.

Only a few of us financial ex-  
perts can understand this mat-  
ter, but Congress indicated it  
would go along with the raise,  
strictly on a temporary basis.  
Actually, the debt limit is 285  
billion dollars, but Congress each  
session has raised it a little, tem-  
porarily only, till the govern-  
ment can work out of its finan-  
cial difficulties, which takes a  
little time, and the limit has now  
been raised to 298 billion, with  
2 more billion expected to be ad-  
ded shortly.

This is why I say I would like  
to see more Congressmen as  
bankers. The United States Treas-  
ury and my own financial situa-  
tion are exactly alike. My income  
doesn't flow in steadily, it has its  
up and downs, and I don't want  
to go further into debt perman-  
ently, just temporarily. But it's  
hard to find a banker with Con-  
gressional ideas. When one of  
them fixes your debt limit, that's  
it until you increase your assets  
enough to justify the increase.  
Sometimes it's hard for me and  
impossible for the government to

operate on these terms.

Come to think of it, though, it's  
probably better like it is, with  
bankers running banks and Con-  
gressmen running Congress. If  
you think there is a crisis in Ber-  
lin and Africa, think what kind  
there'd be in Washington if the  
Secretary of the Treasury had to  
confront a Congress run like a  
bank. On the other hand, think  
of how much fun I could have if  
I could find a bank run like  
Congress.

Yours faithfully,  
J. A.

J. A.
