## Munday Wins From Goree Sunday To Gain Top Standing

After having dropped a game to Rhineland last week Monday had to come back Sunday and beat Goree, the league leaders, to again come back into first place in the percentage table. Abbott went on the mound for Monday and held the league leaders to 1 score until the fifth inning, when he began to weaken and was taken out in the seventh to be replaced by Joe Bailey King, who just couldn't find the slab and was pulled after having walked two men, one of which forced in a score. McGraw then went to the relief of Skipper Burton's outfit and yielded only two hits for the remainder of the game. Blankinship started for Goree, but was taken out of the game early in the second inning to be replaced by Moore, who fared but little better than Blankinship. The thrill of the game came in the ninth inning when the scant lead which the Munday lads had maintained all throughout the game faded away and the score tied 10-10, necessitating an extra inning. In the first half of the tenth J. Myers went out swinging, King flied out to second and Pogue drew a walk. With two out Boley came to bat and doubled to left, scoring Pogue, McGraw doubled to right scoring Boley and Abbott grounded out. Goree came to bat determined to do their stuff, but were unable to get past second base, and the game was over. And what a game.

## Rhineland News

Our enrollment this week is nearly perfect. The students are doing very good work. The short summer vacation is being appreciated more and more every year by the faculty, because it is very evident that not nearly so much time must be devoted to re-teaching. This result must be checked with the important ones when appraising the value of summer school in cotton growing states. Mr. Floyd Anglin and family and Mrs. Albert Decker of Mountainaire, New Mexico, are visiting with relatives and friends. On last Tuesday morning, Rev. Alphonse O. S. B. Mrs. Jno. N. Albus, and Mr. and Mrs. Peter Loran left for Lindsey, Texas, to participate in the 34th annual convention of the Catholic "Stadverband" of Texas, which will take place on August 10, 11, 12.

## Thinking Out Loud

By J. A. K.

The presiding elder of this column together with Mrs. Kennedy and the boys, and Mr. and Mrs. Ash Cockerell of the Times force, went over on Miller creek Saturday afternoon on a fishing expedition, however, when we arrived there we did little fishing, as we found upon our arrival that our hosts, Mr. and Mrs. Roy Cockerell, had looked after that little detail in advance, as well as all other minor details.

Prior to our arrival Mr. Cockerell had caught a large number of fine channel cat and had them all iced down and ready for the frying pan, while Mrs. Cockerell had baked cakes, fried chicken and prepared other good things until it was unnecessary for our lunch to unpack our ham and onions.

At supper there were in addition to our party and Mr. and Mrs. Roy Cockerell and three children, Mary Katherine and Elizabeth and son, W. T. Mrs. Cockerell's parents, Mr. and Mrs. W. B. Self, Mr. and Mrs. Walter Self and Burnett Self, and after we had fried a large dishpan of fish to add to the many other good things that had been prepared by Mrs. Cockerell the entire party feasted to their heart's content.

Uncle Bill Self, being one of the old-timers of Baylor county, and knowing more about camp cooking than anybody present, insisted upon frying the fish, and with the aid of the presiding elder we fried them to a golden brown, and if you haven't eaten fish fried like Uncle Bill and the editor of this moral guide can fry them, you've lost out, and that's just your hard luck.

But don't get the idea that the eating was the only enjoyable feature of the trip, for we've never met an old Simonsen democrat with whom we have enjoyed talking with more than Uncle Bill. He, like the cyclops of this column, was firm in the belief that thousands of good democrats were erring when they strayed off to the Republican party back in '28, and we are sure that if Messrs. Roosevelt and Garner could have heard our praise of the party we would both be in line for democratic patronage.

And if the Cockerells and Selfs don't wait us to come back down that way they had better not extend us any other invitation, for such old-time western hospitality is becoming so scarce that one cannot afford in these modern times to enjoy an occasion like that.

And, speaking about teamwork, if you'll notice in the account of the Bomarton-Rhineland ball game this week you'll see a double-play that runs like this: Kuehler to Kuehler to Kuehler—and there's still another on the team, and all of them are just about as good as the best.

Prof. Maples, Skipper Burton's coffee sleet, had a group of prosperous looking patrons the other day and after having dined Prof. called their attention to the delicious pies, cakes and iced watermelon for dessert. When they refused to buy any of the suggested items Prof. walked around the counter to the cash register and registered up "no sale."

Everything looks beautifully on the Self ranch at the present time. The fields of grain and cotton look good and the herds of fat herefords grazing in the valley meadows would provide inspiration for an artist.

But things down that way are not always so favorable. Sometimes they are swept clean by high waters, sometimes the grasshoppers inflict heavy damage, but the waters of Miller creek provide an unlimited supply of stock water at all times, and the ranch provides an opportunity for diversification, contentment and happiness, and, after all, what else could be asked.

## Funeral Services Held Friday For Mrs. R. F. Horan

Funeral services were held Friday afternoon at Johnson cemetery for Mrs. Winnie Mae Horan, wife of R. F. Horan, who died early Friday morning at the home of her mother, Mrs. G. M. Bryan, after an illness of some fourteen weeks, during which time she had undergone treatment for a month in the Knox County Hospital at Knox City. Funeral services were conducted by the Rev. W. H. Albertson, pastor of the Baptist church, after which interment was made in Johnson cemetery.

In addition to her husband deceased is survived by four children ranging in age from two to eleven years, her mother, Mrs. G. M. Bryan, one brother, Curtis Gollaborn of Munday, three sisters, Mrs. C. C. Barnett of Colorado, Texas, Mrs. Ina Greer of Cisco, and Mrs. Leta Snelson of Munday. The grief-stricken husband has requested that we extend to the many friends who have been so kind and generous in extending aid the heartfelt thanks of himself and children.

## Syrup Mill New Asset to Munday Trade Territory

With a view of further encouraging and fostering the "live at home" idea H. A. Hendon and C. A. Eiland have installed a new and modern syrup mill in Munday for the use of farmers of the Munday trade area and the installation of this section to make their own syrup, which together with the vast amount of other foods that have been canned should go a long way toward bringing about the complete independence of our people insofar as foods are concerned.

The mill is located in the south part of town along the highway and is new in every detail. A screen inclosure has been built around the cooking vats and an experienced syrup maker has been procured for the operation of the plant. It will be operated on a toll basis and farmers who have cane suitable for making syrup will benefit from its installation, as hundreds of dollars are sent out of this territory each year for syrup which might as well remain here.

Mr. and Mrs. John Lane and daughter, Miss Maxine, went to Lubbock for a brief visit first of the week.

Boley and McGraw didn't damage their standing in the hearts of Munday fans a particle Sunday afternoon when they hammered in the two runs that meant victory over Goree.

It was a jubilant group of business men who gathered around a radio Monday morning when the cotton report came in estimating a crop of 11,200,000 bales, and sent the market upward. The meaning of these figures during the coming few months will be the difference between success and failure, so why shouldn't we all be vitally interested?

## County Agent Gives Formula for Killing Cotton Leaf Worms

W. E. Jones, county agent, was in town Monday and stated that leaf worms were working in some parts of the county and gave the following formula for poisoning them: 2 1/2 pounds of calcium arsenate to 50 gallons of water for spray, and care should be taken to see that the calcium arsenate and water are kept well stirred at all times while being applied to insure proper distribution. Mr. Jones warns against the use of pure white arsenate due to the fact that it will burn the leaves and damage the plant.

## HASKELL TO HAVE COUNTY FAIR THIS FALL

(From Haskell Free Press) At a meeting of interested citizens and former directors of the Haskell County Fair, it was decided definitely yesterday afternoon to stage the annual exhibition again this fall. The exact dates have not been set, but the Fair will be held some time in October. According to the opinion of most of those present, the first week in October is the most likely time.

The details have not been worked out, but a free gate is being advocated and this plan may be adopted if the financial side of the show can be handled without this source of revenue being necessary to assist in taking care of the operating expenses.

## PUTTING ONE ON YOUR UNCLE SAM

Stamford Leader: The West Texas Utilities company has inaugurated its own delivery service for their monthly statements to consumers of electric current. This system was motivated by the recent increase in postage on first class mail matter, the company having used the mails up until the first of this month. Savings effected in Stamford alone is estimated at about \$20.00 per month after deductions have been made for labor required.

Mr. and Mrs. Frank Coufal of Seymour were guests on Tuesday in the home of Mr. and Mrs. Edwin Foytik.

## Hoot Gibson's Rodeo Is Booked At State Fair

From Dallas News. Negotiations were completed Monday afternoon for the appearance of the Hoot Gibson Golden State Ranch Rodeo as one of the attractions at the State Fair of Texas, Oct. 8 to 23. The final arrangements were made between Otto Herold and Roy Rupard, president and secretary respectively of the State Fair of Texas, and Hoot Gibson and his Los Angeles attorney, M. M. Willner. The Western star arrived in Dallas Sunday afternoon and immediately went into conference with Fair representatives on the possibility of bringing his rodeo show to Texas for the 1932 State Fair. With all arrangements completed, Mr. Gibson and his associate, Mr. Willner, will leave Dallas at noon Tuesday returning to Hollywood, where Gibson will begin work on his next motion picture.

Mr. Gibson's rodeo will be seen twice daily during the sixteen days of the fair, Mr. Gibson said Tuesday, and that there probably would be an extra rodeo offered on children's day. The screen cowboy will bring many of the performers in his own ranch show and contests will be staged in which Texas cowboys and riders will be featured. Mr. Gibson also will bring sixty head of horses and thirty head each of calves and cattle. The events of the rodeo to be featured will include bull-dogging, calf roping, fancy riding and bronco-busting.

## New Veteran Legislation

Several World War veterans in Knox county may now borrow on their "bonds" or adjusted service compensation certificates, under the terms of a bill signed by President Hoover. Previously, only those who had had their certificates for two or more years were entitled to borrow 50 per cent of the face value. The new law permits 50 per cent loans on any certificates, regardless of the length of time since it was issued.

The new law reduces the interest rate on loans from 4 1/2 per cent to 3 1/2 per cent. All bonus loans will henceforth draw interest at the new rate.

Miss Alice Rogers is visiting in the home of her sister, Mrs. Bernard Stodghill, at Hobbs, New Mexico.

## Orville Bullington Chosen Republican Nominee for Gov.

DALLAS, Aug. 9.—Orville Bullington of Wichita Falls was nominated as the republican candidate for governor at the republican state convention here today. The nomination was by acclamation. In nominating Bullington the convention approved a recommendation of the nominating committee, which by a vote of 25 to 5 had endorsed him.

The above item in Wednesday's daily newspapers was received with applause by members of the party throughout this section of Texas, as Mr. Bullington is generally considered one of the strongest men in the party. Mr. Bullington was formerly a citizen of Knox County, having served the county as county attorney in 1908-1909, and engaged in the practice of law in Munday prior to going to Wichita Falls in 1910 where he has been one of the leaders in the development of that city.

## Names of Pioneers Wanted For Wichita Falls Golden Jubilee

WICHITA FALLS, Aug. 11.—Names of all "old timers" of northwest Texas and "Southern Oklahoma" are being sought by the Pioneer Registration Committee of the "Golden Jubilee" to be held at Wichita Falls September 26, 27, and 28. T. J. Waggoner Jr., chairman of the committee, states many honors will be accorded such pioneers and that registration blanks will be sent to any whose names are received by him. To date, he has registered nearly 500 persons who lived in this section in the early days. The registration office is in the Waggoner Building in Wichita Falls and all names should be sent to Mr. Waggoner at the address.

In commenting on plans for the jubilee, Mr. Waggoner said, "The citizens the greatest entertainment in the city's history. Famous speakers, such as Will Rogers, John Garner, and Pat Hurley will be here. There will be a complete exhibition of old time objects, pictures, and documents. A famous star from Hollywood will participate in the historical pageant, in which more than 1,000 persons will take part. A real wild west rodeo will attract world's champion contestants. Troops from Fort Sill will participate in the parades and in other events. Sunrise religious services will be held each morning under the leadership of eminent divines. Wichita Falls will be a riot of color during the three days.

"Hospitality House" will be the headquarters for all "old timers." It will be located in the heart of the business section and will be provided with all comforts and conveniences. Appropriate badges will be given all early settlers who accept the invitation to attend the "Golden Jubilee" as official guests."

A cordial invitation is extended to the public to attend the program.

## Duck Season Extended

Washington.—The open season for hunting ducks and geese has been extended from one to two months, for the coming fall by President Hoover at the recommendation of Secretary Hyde.

The lengthened season, it was said, for the department of agriculture, is made possible by improvement in the situation in which became serious for water-fowl after drought on their breeding grounds in 1931.

The earliest open season in any states will be Oct. 1 and the latest opening date Nov. 16, with the exception of Florida, where the season will open Nov. 20. The new season for ducks, brant and coot in Oklahoma is from Oct. 16 to Dec. 15. In Texas it is from Nov. 1 to Dec. 31 in the western and northern part, and from Nov. 16 to Jan. 15 in the southern and eastern part.

### LEST WE FORGET.

The results of the July primaries has left only one West Texan in the running for Congressman-at-large, which three are to be elected from Texas. The single survivor of the

battle of ballots is Pink L. Parrish of Lubbock.

He is opposed by George B. Terrell of Cherokee county, who has held office in Texas for about thirty years, first as representative in the legislature from Cherokee, later as Commission-

er of Agriculture, and again as representative from Cherokee.

It is evident that Mr. Terrell had an eye on one of the Congressman-at-large places while serving as a member of the legislature, as he consistently voted against every re-districting bill offered, as by defeating the re-districting bills he had a part in robbing West Texas of its just representation in the Congress of the United States, since this area was entitled to two of the three members.

It is indeed seldom that The Times delves into politics to the extent that we urge the defeat or election of any candidate, but in this instance we believe we are justifiable in urging the defeat of Mr. Terrell and the election of Pink Parrish—a West Texan who has always been on the firing line for every move for the advancement of West Texas, and who incidentally was a cowhand in Knox county more than thirty years ago, having worked on a ranch in the Trassett country during his youth.

Let's vote for Pink Parrish in the run-off and prevent East Texas and Dallas having all the representation in Congress to which West Texas was justly entitled. Pink Parrish is competent and worthy and West Texas should line up solidly behind him on August 28th.

Stamford Leader.  
 Elbert Burgeon, 28, of Luaders died at a local sanitarium August 2.

His death resulted from perforated gastric ulcers, followed by the death of his wife by two weeks. Mrs. Burgeon, 22 years of age, died unexpectedly July 19, of a heart attack. A three-year-old daughter survives.

The Altman murder case was transferred from Stonehall county to Haskell county the first of the week by District Judge Clyde Gossett and has been set for trial on October 3rd.

Altman is charged with the murder of Sam Tanner on or about February 25, 1931. He was tried at Aspermont the following March and was sentenced to ten years in the penitentiary. The case was recently reversed by the higher courts on evidence discovered after the trial. The case was transferred to Haskell county at the request of both the state and defendant.

William Gold Denson, age 18, son of Mr. and Mrs. A.M. Denson of this city died Tuesday night in the Stamford sanitarium after an operation.

### Seymour Banner.

Friends of the family were greatly grieved to hear of the tragic death of Hon. Edwin McMath of Plainview, who was killed last night about 9:00 o'clock near Vernon in an auto accident. Mr. McMath and two other Plainview men were in a light sedan, when they collided head on with a truck parked on the side of the road. The impact overturned both truck and sedan, pinning two of the men under the car. Mr. McMath and Wallace E. Settoon, both being instantly killed. Another approaching truck was forced to take the ditch in order to avoid participating in the accident.

Mr. McMath, who was about 39 years of age, was the son of the late E. A. McMath, and the family lived in Seymour when the children were small. Edwin was an attorney at Plainview, being partner with A. B. Martin, and was just launching into a successful law practice. He was the nephew of George, C. H. and Nick P. Mitchell and Mrs. L. W. Dalton of this city.

Mr. Bill Lee of Seymour and Miss Alice Witty of Bomarton were married at Frederick, Oklahoma, June 6th. The ceremony was performed by Rev. Graham, pastor of the Methodist church at that place.

The young people did not give out news of this happy event until last Saturday, when the bride came down to Seymour to live. She and her husband will make their home for the present with the groom's parents in North Seymour.

# CRAZY CRYSTALS

"We want to let you know how much CRAZY CRYSTALS have done for us. My husband has been sick for one year and a half with rheumatism and his father for six months with the same. I was the only one able to work. I was beginning with pains in my knees, then we heard over the radio about CRAZY CRYSTALS, so we got one box. They helped me a lot. I feel better than I have for a long time. My husband feels better than he did when he took baths and medicine. His father is 70 years old, but feels better than he has for three or four winters. We are going to get another box tomorrow.

# THE COMMERCIAL USE OF TEXAS HIGHWAYS IS A PRIVILEGE, NOT A RIGHT

The highways of Texas are the property of its citizens. They constitute a system of nearly 200,000 miles of road of which 20,000 miles are designated as State highways and the remainder are county roads. All types of road are represented in this system, less than 5% have so-called "permanent" surface.

The total cost of these highways is unknown but it amounts to many hundred million dollars. From 1917 to 1930, inclusive, counties and road districts of the State issued \$243,592,834 in bonds for the construction and improvement of roads and bridges. In the two-year period ending August 31, 1930, the State Highway Commission expended \$89,082,825, of which \$22,488,426 was for maintenance of the State highways.

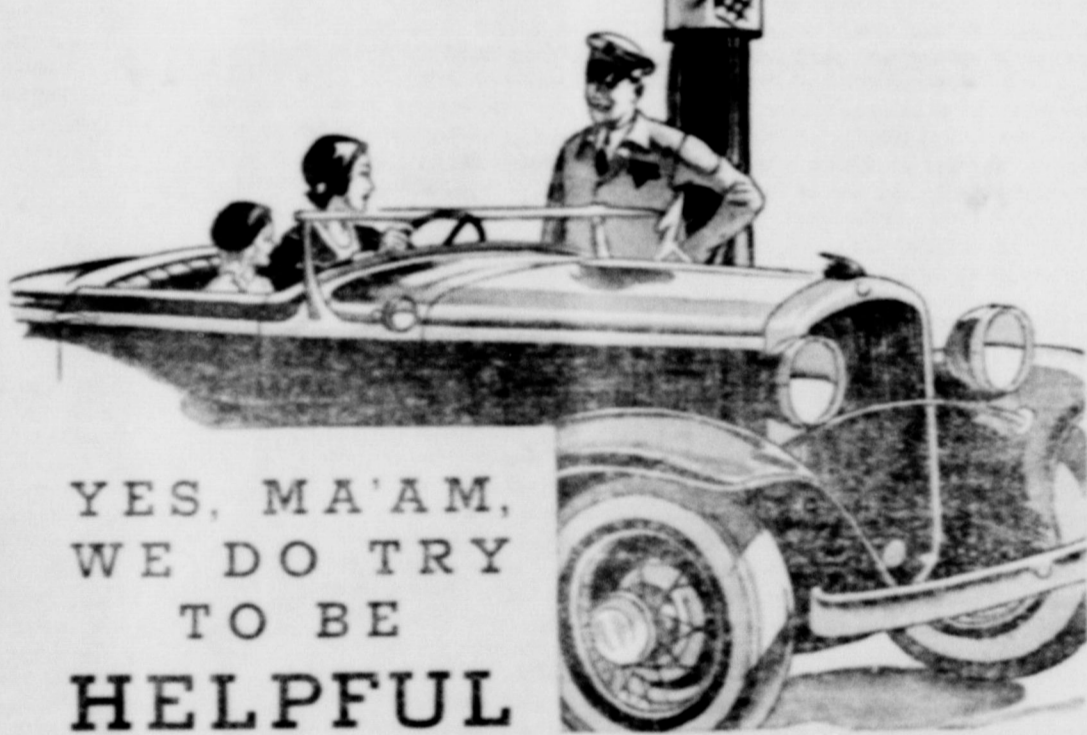

In view of these tremendous costs the preservation of our highways from rapid wear and destruction is a matter of very vital interest to their owners, viz., the public. It is especially important that they be made to outlast the life of the bonds, which run from 20 to 30 years.

The use of the public highways for commercial purposes is not a right but a privilege which may be withheld or granted subject to such restrictions, regulations and charges as the Legislature may see fit to impose. Such regulations are intended to promote safety, preserve the highways and safeguard the interests of the public.

Texas Railroads, which pay the entire cost of construction and maintenance of their own roadbeds and, in addition, make substantial contributions to the cost of Texas highways, are thoroughly regulated with respect to their services, rates, methods and practices. There is no good reason why commercial users of the highways, built and maintained at the expense of the public, should not likewise be regulated to such extent as the public interest requires and pay such charges as will represent proper compensation for the privileges granted them.

The statutes governing highway transportation as enacted by the Forty-second Legislature represent the wishes of the citizens of this State and express their desire to give equal rights to all and special privileges to none. These statutes should be given a fair trial and their value ascertained. Unless this is done, a chaotic condition in transportation as a whole will surely ensue.

Women who patronize Conoco Service Stations are delighted with the courtesy and helpfulness of Conoco salesmen. There is nothing forward or obtrusive about their service, but it has the little touches of respect and thoroughness that make it pleasing.

Conoco men always see that your windshield is polished clean, that your tires are checked accurately and that the radiator is filled . . . without splashing. They are glad to furnish battery water, if you desire.

Women are especially pleased with the spotless, plainly marked Conoco

**Your Electric Power Supply MUST Be Flexible**

Electric power, to serve any community adequately, must be flexible. It must meet all requirements, large or small - from a large factory to a small household - at any time and any place.

Small local plants serving single communities lack this flexibility... they lack the variety of volume and demand which enables a larger system, serving a wide area by transmission lines, to operate efficiently.

The transmission line delivers larger amounts of power at once without the delay of installing additional equipment. Thus it clears the way for a rapid and permanently expanding industrial growth.

The present day industrial progress of small communities is based in a large measure on the ample and economical power supply which resulted when transmission systems replaced inefficient and expensive small local plants throughout the nation.

The West Texas Utilities Company, through its widespread 2,500 mile transmission line network, makes available to 125 progressive West Texas cities and towns over 100,000 horsepower of electric energy - ready at the turn of a switch.

### Bomarton Grabs Big End of Score From Dutch Kuehler's Lads

Lefty Rhames had the hard-hitting Rhineland aggregation of Dutch Kuehler all mystified in last Sunday's game and let them down with only five hits, while his teammates were hammering the offerings of Moore and Kuehler for eleven hits, which netted them ten runs. It was anybody's game until the eighth, when the Bomarton lads went on a hitting spree and registered six runs before they could be rebuffed.

### Motion Pictures Open New Field for Musical Development

NATHANIEL SHILKRET

### Nathaniel Shilkret Makes Famous Musical Score

New York City—Jazz, the step-child of the arts, is at last to find a place in the hall of musical fame, not heaven, the concert hall, but the cinema palace.

Motion pictures, according to Nathaniel Shilkret, the country's most famous musical director, have taken jazz under their wings and have given it the opportunity to be accepted as serious music. Heretofore our modern American music has been confined principally to dance orchestras and a few concert pieces. Now it is being used to tell a complete story.

When Mr. Shilkret wrote the score for "Lilac Time," a Colleen Moore picture, he didn't at first realize that he was opening the door for jazz to climb the heights. His work revealed for the first time the possibilities of a score in modern rhythm. The story is told by music and by camera at the same time.

"Jeannie I Dream of Lilac Time," the theme song for the picture, is remarkably developed in fifteen moods and eighteen different arrangements. Heretofore pictures have usually been scored with compilations of foreign classics. This meant trying to tell an American story in a foreign language, Shilkret in "Lilac Time" has told a foreign story in an American idiom. He has interpreted a French story for Americans in their own musical language.

"The greater works in modern American music will make possible greater developments in picture scoring," Mr. Shilkret comments. "Our music is too new for us to know what we can really do with it. Our children and our grandchildren who have absorbed the American jazz idiom will probably be able to do the real thing. Pioneers as we may, we still have certain foreign musical influences which we cannot and do not want to leave behind. The next generation will have shed this."

Nathaniel Shilkret is a native New Yorker, and has been a professional musician since the age of seven. He plays every instrument in the modern orchestra, and is probably the greatest musical arranger this country has produced. His earnings are far greater than those of any composer here or abroad.
