

THE MUNDAY TIMES

Volume XXVIII.

Munday, Texas, Thursday, May 25, 1933

Number 50.

Riley B. Harrell Chosen Secretary of City of Munday

Riley B. Harrell, for the past several years science teacher in the Munday High School, was chosen as City Secretary at the regular meeting of the City Council.

The election of Mr. Harrell followed the resignation of D. T. Mauldin, who has held the position for the past twelve years. In handing in his resignation Mr. Mauldin stated to a Times representative that he had no plans for the immediate future other than to do some plain and fancy fishing for a few days.

Several other changes were made in the assignment of duties of city employees. Bill Shaw, who some weeks ago was assigned to the night police job was returned to the water and sewerage department, and Ed Johnson was given the place as night police, while Shannon Layne was retained in his position as Chief of Police.

The Council feels that the newly elected Secretary is particularly well fitted for the position to which he has been chosen, and it is their sincere hope that he may have the fullest cooperation in rendering efficient service to the city.

In leaving the service of the city Mr. Mauldin can truly point with pride to his accomplishments, having taken over the responsibilities of the position in the early stages of the more recent development of the city, he has supervised the installation of a modern and efficient system of conducting the affairs of the city, and in recent years many compliments have been passed upon the model records and systems of the office and the efficient manner in which the affairs of the city have been handled.

All of the above changes will become effective after an audit has been made of the City's accounts.

H. D. Club Women Will Stage Ball Game on Wednesday

Whether you are a baseball fan or not you will enjoy the ball game that has been arranged by the ladies of the Munday Home Demonstration club for Wednesday afternoon, May 31, at the cotton yard, in Munday. The ladies of the club have divided themselves into two groups, one under the leadership of Mrs. Frank Boley, and to be designated as the "Holey's Boomerangs" and the other under the leadership of Mrs. Ralph Weeks, and to be known as "Week's Witches," and they will make a test of their superiority at the great national pastime on the above date at the place named, the game is to be called at 3:30, and the admission price will be five and ten cents.

Following is the line up of the two teams, both of which have been doing some intensive practice in preparation for the game:

Boomerangs	Position	Witches
Pruitt	1	Lofler
Hobert	2	Matlock
Edwards	3	Jones
Bowley	ss.	Weeks
Hill	r	Foley
Harrison	c	Parks
White	1	Steele
Browning	p	E. Bowley
Howeth	m.	Crimes

Mr. and Mrs. Lavoy Burton and baby of Haskell were here Sunday visiting relatives and friends.

Six Knox Youths Seek Employment In Reforestation

Six Knox County youths were sent to Wichita Falls on Tuesday for physical examinations following their applications for enlistment in the Government reforestation work. The applicants are Chas. Williams, Truscott; Hubert Wardlow and Tyrus Blackard of Munday; Jot Tynes, Goree; Alfred Kilgore of Benjamin and J. C. Floyd of Knox City.

Of the nine that have been sent to Wichita Falls for examination to date by D. T. Mauldin, county enlistment officer, only one has been rejected, his rejection being on defective vision.

Programs Given Closing Exercises Sunset Schools

The second Commencement exercises of Sunset School will be held Friday evening, June 2, at 8:15 o'clock in the school auditorium. The following students will receive their diplomas: Olive Mae Partridge, Annie B. Resgan, Ruby Reeves, Hernalyn Freeman, Morrison Harber, Oliver King and Lucian Pevey. The following is the program that will be presented:

June 2, 1933
 Processional.
 Salutation—Oliver King.
 Chorus—Girls of Junior and Sophomore classes.
 Valedictory—Olive Mae Partridge.
 Address—District Attorney Grindstaff of Aspermont.
 Awarding of Diplomas.

Sunset School will have their Baccalaureate services Sunday morning, May 28, at 10:45 o'clock in the school auditorium. The following program will be rendered:

May 28, 1933
 Processional.
 Invocation.
 Announcements.
 Song—New Hope Quartette.
 Address—Reverend Mr. Albertson.
 Benediction.
 Recessional.

The Seventh Grade Commencement Exercises of Sunset School will be held Friday evening, May 26, at 8:15 o'clock in the school auditorium. The following program will be rendered:

Invocation.
 Salutation—Mary Helen Partridge
 Duet—Mary Helen Partridge and Margaret Shannon.
 Valedictory—Margaret Shannon.
 Address—Taylor Carter.
 Song—Class.
 Presentation of Diplomas—Wilburn Hill.
 Benediction.

Mr. and Mrs. Olda C. Ferguson and children spent Saturday in the home of Mr. Ferguson's sister, Mrs. R. D. Akeison. Mr. Ferguson lived here several years ago and is now living at Conroe, near Houston where he is employed by the Humble Refining Company.

Mr. and Mrs. E. S. McCord of Colorado, Texas, were week end visitors in Munday.

All of the sulphur mined in the United States comes from Texas. This Texas product happens to be a total of 85 per cent of the world's output of sulphur.

Little Pen-o-grams

THIRTY-SEVEN MUNDAY YOUTHS BID FAREWELL TO HIGH SCHOOL DAYS IN CEREMONY FRIDAY EVE.

Thirty-seven students bade farewell to their high school days in a very beautifully arranged program at the Methodist Church on Friday evening of last week, at the conclusion of which they were each presented with diplomas by Supt. G. C. Jones.

The Commencement address was delivered by H. H. Riley, superintendent of the Canton schools, and former superintendent here. Mr. Riley's return for this occasion was upon the invitation of the graduating class, it being under his supervision that practically every member of the class had completed their high school work up until the final year. Mr. Riley urged the members of the class to continue their efforts in securing an education, but above all he urged upon them the importance of work, honesty, body and character building and humanity toward all mankind, also stressing the importance of Christianity in rounding out a useful life.

Valedictory and Salutatory addresses were made by Mildred Burnett and Mildred Moore, respectively. Both addresses were excellently composed and delivered and gave credit to these two who have established the highest average for the class. Mildred Burnett's average for the year was 91 per cent. Mildred Moore won

the position of salutatorian with an 88 per cent average.

Two excellent talks were made by Supt. G. C. Jones, first in the introduction of Mr. Riley and a short talk before the presentation of diplomas. Invocation was made at the beginning of the service by the Rev. J. A. Laney, and the service was closed with a prayer by the Rev. H. C. Hand.

Those who received diplomas were: Adelaid Barton, Katie Beth Bowden, Norene Bowden, Mildred Burnett, Dorothy Campbell, Pauline Edwards, Barbara Eiland, Madeline Fritz, Betalou Greer, Lucille Hunter, Katherine Milan, Mildred Moore, Katherine Jones, Chloa Owen, Inez Parks, Virginia Reid, Ruth Rice, Rowena Russell, Frances Thompson, Ruth Weeks and Geraldine Burnison.

Doris Dickerson, James Gaither, Chalmers Hobert, Chauncey Hobert, Jesse George Kennedy, Arthur Laney, Marvin Myers, Johnnie Peysen, J. C. Phillips, Shelton Phillips, E. W. McGlothlin, Jr., J. B. Reneau, J. C. Rice, Lowry Rigby, Wallace Ross.

Mr. Riley was accompanied here from Canton by Mrs. Riley and children, and they enjoyed their stay here mingling with their many friends.

Sunset Receives Additional Credits

Word has just been received from the State Department by R. R. Davenport, Superintendent of Sunset Consolidated School, that the School has been granted four and one-half additional units as follows: English III, American History, Plane Geometry, Economics 1/2, Advanced Arithmetic 1/2, and Civics 1-2.

Credit has been granted in these subjects without the submission of any material, the credits being granted on the basis of the Supervisor's report and her judgement of the type of work being done in the school.

Mr. Davenport states that he hopes to be able to secure three and one-half additional credits in the following subjects by the submission of material: English IV, Early European History, Modern History, and Solid Geometry.

Sunset now has eleven and one-half units of work recognized by the State Department, and should the additional credit be received, would have fifteen units of work, the number of units required for college entrance.

Program Given For Federated Church Societies

Following is the program for the meeting of the Federated Church Societies to be held at the Baptist church on Monday afternoon at 3:30 o'clock:

Theme—Appreciating the Greatness of Small Things.
 Hymn—A Charge to Keep I Have.
 Prayer.
 Devotional—Matt. 25:14-30, by the learned, Mrs. C. A. Eiland.
 Duet—I Would Be True—Misses Ozella and Leila Brock.
 Talk—"Appreciating the Greatness of Small Things"—Mrs. J. O. Bowden.
 Prayer.
 Hymn—Give of Your Heart to the Master.

Ardell Spelce was stricken critically ill first of the week and his condition was such that he was carried to a Wichita Falls hospital Wednesday, where he will likely undergo an operation later. So critical was his condition that a number of friends volunteered themselves for a blood transfusion, which attending physicians deemed advisable. Among the friends who went to Wichita Falls Thursday were James Rayburn, Lyle Stodghill and Buel Bowden, and possibly others.

Many people in all parts of the state are availing themselves of the bargain five year tickets being sold by the State Fair of Texas. It comes in the form of a sustaining membership certificate, which entitles purchasers to a pass for one person and one automobile for the five year term. They are being sold on a monthly payment plan where desired and cost but ten dollars.

Munday Wins 10 Inning Thriller From Goree Club

Baseball fans got their money's worth Sunday afternoon on the Goree sandlot when Munday and Goree battled in saw-saw fashion and ended in the ninth inning with the score tied 7-7. Goree maintained the lead until the ninth inning when timely hitting enabled Munday to run in two runs to tie the score. In their half of the ninth Munday put over three runs while Goree was unable to get to the offerings of Chick Smith, who had gone into the game in the early stages to relieve August Loran, who, through lack of control, had allowed the Goree outfit to take a lead of five runs. Goree used Blankenship, Lambeth and Martin in their effort to stem the hitting spree of the Munday aggregation.

Stamford Here Sunday
 Stamford is scheduled to come here Sunday for their first game in this city, and local fans will likely have an opportunity to witness the performance of "Lefty" Hambright, one-handed, southpaw, the only man who has been able to beat out the Munday team this season, and is surprising how he can play the game in spite of his handicap.

Other games scheduled for Sunday: Goree at Haskell; Hamlin at Rule.
 Sunday's Results.
 Munday 10, Goree 7—10 innings.
 Hamlin 5, Rule 4—12 innings.
 Stamford 3, Haskell 2.

Rainfall for May 6.03 Inches Here

Rainfall for May to date has been 6.03 inches, according to H. P. Hill, who has maintained a rain gauge and kept a complete weather record. The record shows the following interesting facts concerning the weather and rainfall:

January—20 fair days, 6 partly cloudy days, 5 cloudy days, rainfall .55.
 February—16 fair days, 6 partly cloudy days, 6 cloudy days, rainfall .99.
 March—22 fair days, 3 partly cloudy days, 6 cloudy days, rainfall 2.49.
 April—23 fair days, 4 partly cloudy days, 3 cloudy days, rainfall 2.90.
 May—10 fair days, 9 partly cloudy days, 6 cloudy days, rainfall 6.03.

Rainfall to date for 1933, according to the above figures is 12.04.

First Baptist Church

The evening services have been changed to 7:30 and 8:30. Last Sunday was a good day. Both the morning and evening services were well attended. The interest was excellent.

Sunday morning the laymen will have charge of the service. A good program has been arranged. The pastor will preach Sunday evening. Workers conference at Pinkerton Monday.

W. H. Albertson
 Mr. and Mrs. Roy Maples and Miss Emma Reeves of Spearman, Texas, were here Wednesday visiting relatives and friends, and were accompanied home by Jack Williams, Jerry Kethley and Carl Maples, Jr. of Haskell.

Large Attendance C. of C. Banquet Despite Weather

Despite the fact that the downpour of rain came on Tuesday evening, starting about an hour before the time for the annual Chamber of Commerce banquet, the affair was largely attended and the event was pronounced a great success by all present.

As previously announced, the address of the evening was delivered by Ray H. Nichols, editor of the Vernon Record, who outlined some of the contributing causes of the depression through which we have passed during the past three years. The speaker warned against the centralization of power—in government—in church—in business and other lines of endeavor, pointing out that all down through the pages of history such a policy has ended disastrously, and in this connection he pointed out that one of the contributing causes of our plight during the past three years had resulted from such a policy on the part of businesses of all kinds.

Mr. Nichols predicted that in emerging from the depression that these great units of business would in a measure be broken up and reformed into smaller units, and that manufacturing, which has always heretofore been confined to the congested areas of the country would seek locations in the smaller and less densely populated communities of the country, and in this transformation in industry there would be a great opportunity for expansion for the smaller towns, however, the speaker pointed out that the acquisition of industries was not the greatest achievement for the smaller communities, but the building of character and maintaining of wholesome environment in which to rear our children was by far of greater importance.

In addition to the address by Mr. Nichols, brief talks were made by a number of visitors present from Seymour, including Joe A. Wheat, Geo. Plants, Gerald Davis, L. E. Lovelless and O. C. Harrison. These gentlemen, incidentally, together with Mr. Wilson, secretary of the Vernon Chamber of Commerce, who accompanied Mr. Nichols here, and who also made a brief talk, included all the out-of-town visitors, the rain having prevented delegations from other neighboring towns attending.

Music was provided during the evening by Mesdames Joe Davis and J. A. Kennedy and T. T. Tucker and Willard Bauman; and Mr. Tucker gave a mirth-provoking novelty number in imitations in which he faithfully reproduced sounds made by various birds, animals and other things. A duet, rendered by Miss Vivian Rogers and Troy Warren also materially contributed to the enjoyment of the evening.

President R. B. Davy, who presided throughout the evening, read the report of the nominating committee which was adopted, and in which the following officers and directors were elected for the ensuing year: Tom Haney, President, W. V. Tiner, vice-president, Directors: E. H. Bauman, Geo. Salem, R. D. Atkinson, J. A. Kennedy, U. G. Riehard, Chas. Foyt, G. R. Eiland and Paul Mansell.

WASHING and greasing.—R. B. BOWDEN.

NEW DINING CAR SERVICE WITH LOW PRICES INSTALLED BY DENVER

That the railroads are taking cognizance of a general public demand for a lower priced meal service on the dining cars is evidenced by the announcement that the Fort Worth and Denver City Railroad has installed a combination lunch counter and regular dining car service in its regular equipment.

According to F. D. Baggett, General Passenger Agent of the Denver Road, this new service, which is a distinct innovation, is already meet-

ing with the hearty approval of the traveling public.

Mr. Baggett states that combination lunch counter and regular dining car service is now being operated on the trains 1 and 2, passengers having a choice of lunch counter service where breakfast is served at a cost of 40c and lunch and dinner 50c. Those desiring regular dining car facilities can secure breakfast at 75c and lunch and dinner at 90c or, if they prefer, take advantage of a la carte selections.

Champion High School Orators of U. S.

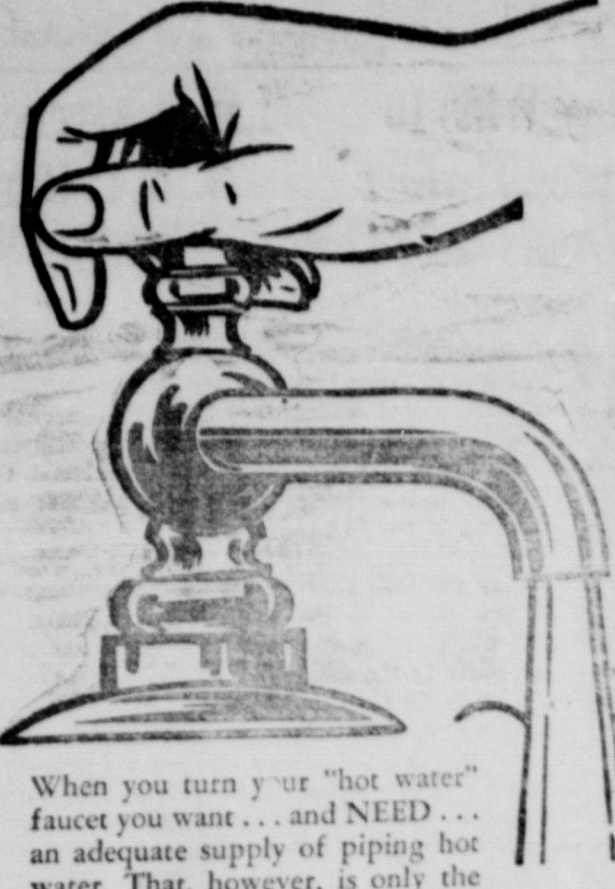

Here are the four champion high school orators of the United States for 1933, crowned at the national meet at Wooster, O. No. 1, Caryl Arnold, Grand Rapids, Mich. (humorous); No. 2, Harold Stark, Granite City, Ill. (oratorical); No. 3, Gene Davis, Cleora, Ill. (original oratory); No. 4, Robert Dunham, Sioux Falls, S. D. (extempore).

A Nation Pays Tribute To Its War Dead

MEMORIAL DAY... 1933

**LOW-COST
Hot Water ...
at the Turn
of a Faucet ...**

with a
**Modern
ELECTRIC
Water-Heater**

When you turn your "hot water" faucet you want ... and NEED ... an adequate supply of piping hot water. That, however, is only the primary requisite. If you can get this constant supply of hot water inexpensively, automatically and with perfect safety at all times, isn't that a perfect combination?

The modern ELECTRIC water heater gives you a surplus of hot water, and for good measure adds safety, cleanliness, health, dependability, quiet, comfort and convenience. Contrast these advantages with the flame noise, fumes, soot, smoke and odors of old-fashioned methods.

Ask a trained representative to show you the beautiful new electric water heaters now on display. They are equipped with emergency reliefs for both temperature and pressure ... they offer all the well-known advantages of modern automatic electric water heating ... they operate on the new "constant temperature service" plan that means LOW COST to you. Simplicity and terms are especially attractive!

Do you know that your increased use of Electric Service is billed on a graduated rate schedule ... and adds only a small amount to your total bill?

Company**

Gulf Refining Co. Puts "New Deal" Into Operation

Extensive Advertising Campaign Launched by Gulf Refg. Co.

Here's one of the most remarkable stories, as well as one that is of special interest to all the people of Texas. Three years ago the Gulf Refining Company engineers made a discovery of revolutionary importance to the oil industry. A discovery so advanced, so significant, that it made possible a finer, longer-lived motor oil than the industry has ever seen.

This discovery was an utterly new refining process—the now famous Alchor process, exclusive with Gulf. The oil made by it is called Gulfpride.

At first it was possible to produce only limited quantities of this new and remarkable motor oil. But so amazingly outstanding was its quality that—utterly without advertising and publicity—it's fame spread throughout the United States and all foreign nations. It came into universal demand wherever the finest motor lubrication was sought.

Gulfpride has now proved itself beyond question the finest motor oil in the world. This oil is manufactured in the Gulf Refinery in Port Arthur, Texas. It has established seventeen world's records! It has

CHICKENS—TURKEYS

Give STAR PARASITE REMOVER in their drinking water and disinfect all nests and roosts by spraying each month; It will destroy disease-causing germs and worms, rid fowls and the premises of all lice, mites, fleas and blue bugs tone their system, keep them in good health and egg-production and prevent loss of baby-chicks. Begin it now. Germs and worms always come with the hatching season. No trouble to use, cost very small and your money back if not satisfied. For sale by EILAND DRUG STORE. 40110

FOR SALE or trade, 2-row motor in good condition. R. L. Gaines, 9 miles south-east of Munday. 49-2tp.

surpassed every set of specifications ever issued for a motor oil, including U. S. Army, U. S. Navy and British Government.

Gulfpride is now in demand in all corners of the earth and shipped to all points from Port Arthur, Texas, where it is manufactured.

The current extensive advertising campaign of the Gulf Refining Company now appearing in Texas newspapers is stressing this oil and, too, the fact that Gulf stations sell three grades of oil and gasoline at three different prices, ranging from the buying power of the motorist who wants a low priced gasoline or oil, but wants the most possible value for the money, to the motorist who wants the very best regardless of the price.

Will Rogers can be heard on the air every Sunday evening on the Gulf Refining Company radio program at 7:00 P. M. and Irving S. Cobb on Wednesday and Friday evenings at the same hour. A weekly comic paper is distributed free to all Gulf stations.

SHERIFF'S SALE

THE STATE OF Texas, County of Knox.

NOTICE IS HEREBY GIVEN That by virtue of a certain Order of Sale issued out of the Honorable District Court of Dallas County, on the 20th day of March, 1933, by Mattie Lee Scott, Clerk of said Court, for the sum of Nine Hundred and Fifty Three and 11/100 Dollars and costs of suit, under a Judgment, in favor of J. R. Watkins Company in a certain cause in said Court, No. 102,522-B and styled The J. R. Watkins Company, vs. A. W. Lemley, et al. and placed in my hands for service, I, C. R. Elliott as Sheriff of Knox County, Texas, did, on the 15th day of April, 1933, levy on certain Real Estate, situated in Knox County, Texas, described as follows, to-wit:

FIRST TRACT: Abstract No. 1461. "All that certain lot, tract or parcel of land situated in Knox County, State of Texas, and being a part of the south one half Section No. 72, Block No. 2, D. & W. Ry. Co. Survey, and described as follows: Beginning at a point in the south

line of said section No. 72, 153 varas east of S. W. corner of the same for the S. W. corner of this tract; Thence North 7.2 varas pass a wagon thimble 726 1-4 vrs. to wagon thimble to N. W. corner of this tract; Thence East 431.4 vrs. a wagon thimble the N. E. corner of this tract; Thence South 726 1-4 vrs. to a point in south line of said Section No. 72, for the S. E. corner of this tract; Thence West 431.4 vrs. to the place of beginning, containing 55.56 acres of land, and being fully described in the deed from E. L. Goin and wife, Etta Goin, to Mrs. Mary Tompkins dated March 23, 1923, and recorded in volume 48, page 386, Deed Records of Knox County, Texas.

SECOND TRACT: Abstract No. 1466. "Being 320 acres of land, situated and described as follows: "In Knox County, known as the N. 1-2 of Sec. No. 72, Block 2, D. & W. Ry. Co. Cert. No. 171, on the waters of the Brazos river about 11 miles S. 40 E. of Benjamin, said land having been purchased and fully paid for in accordance with an act of 1895, and the amendments hereto by the act of May 19, 1897. "Beginning at a set stone the N. W. corner of the S. 1-2 of said Sur. No. 72; Thence E. with the

N. line of said S. 1-2 2020 vrs. to its N. E. corner; Thence N. with E. line of 72, 89 1-4 vrs. a set stone with the N. E. corner of 72; Thence W. 2629 vrs. a set stone for the N. W. corner of 72; Thence S. 894 1-4 vrs. to the beginning, being some land described in Patent No. 615, Vol. 35, recorded in Block 1, page 503, Deed Records of Knox County, Texas. Vol. G 585 and levied upon the property of J. K. Johnson and then on the first Tuesday in June, 1933, on the same being the 6th day of said month, at the Court House door, of Knox County in the Town of Benjamin, Texas, between the hours of 10 a. m. and 4 p. m., by virtue of said levy and said Order of Sale I will sell said above described Real Estate at public venue, for cash, to the highest bidder, as the property of said J. K. Johnson.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Munday Times, a newspaper published in Knox County.

Witness my hand, this 9th day of May, 1933. C. R. ELLIOTT, Sheriff Knox County, Texas.

"I have my choice with Gulf"

COME to Gulf and get a good oil at the price you want to pay. For Gulf makes 3 fine oils at 3 fair prices. Drive in—and take your choice!

Gulfpride... 35¢ (per gal.)

LITTLE FRANK NORRIS FROST DIES

Little Frank Norris Frost, four year old son of Mr. and Mrs. J. W. Frost of Munday, Texas, died Wednesday May 17, 1933, after a brief illness. He was born July 7, 1929. Age three years, ten months and ten days.

Funeral services were conducted at the home by Reverend Duff of Weinert, assisted by Rev. H. F. Gage of New Hope Baptist Church. Burial was made in the Munday cemetery. It is hard to give up our loved ones but God knows best and we must trust all things to Him who "doeth all things well."

We miss your pattering little feet,
We miss your sunny smile,
But in that land of Home Sweet Home,
We'll see you after while.
Everyone joins the parents and loved ones in mourning the loss of this dear child.

—Contributed.

OBITUARY

On last Wednesday afternoon the death angel visited the home of Mr. and Mrs. Jim Frost and took their little son, Norris, who had a relapse of the measles.

Frank Norris Frost was born July 7, 1929 and died May 17, 1933 at the age of three years, ten months and ten days. He was a singularly bright and loving child, and during his short stay on this earth his sunny, loving little face touched the hearts of all he met. His going left a vacant space in the lives of a number of people, but even though we miss him greatly, we should not wish him back, because we know he is in a far better world than this. Too, the Heavenly Father knows best, and if one believes and trusts in him, he never fails to comfort them.

Norris is survived by his mother and father, four brothers, three sisters, grandmother and grandfather Mayo, five uncles, four aunts, and a host of cousins.

We wish to extend our sincere sympathy to his immediate family, relatives and friends during their bereavement.

—A Friend.

WANT AD GETS RESULTS

C. R. Elliott last week inserted a small want ad in the Munday Times in an effort to locate a couple of strayed mules. He saw the Times man Saturday and asked that we discontinue the ad, stating that both the lost mules had been located and an additional mule had been brought in, all of which proves that Times want ads will get the job done.

Miss Cordell Smith returned home Sunday from a three weeks' visit with relatives at Olney and Wichita Falls. She was accompanied home by her cousins Mrs. Ed Holder and two children of Wichita Falls and Mrs. C. O. Holder and two children of Olney.

Think how much you save on the purchase price alone!

"You certainly got a lot of car for the money!"
"Don't I know it! You can't match these features in any other car at that price."

"Do you mean to say you get a Fisher body with No Draft Ventilation at that price? No wonder everyone I know is going in for Chevrolets."

"A new Chevrolet! I thought you were going to wait awhile."
"I figured I might as well start saving right away. And say, this Chevrolet is certainly a record-breaker for economy."

Once you start driving a Chevrolet, you're off on a long, non-stop economy-tour that saves you money every thrilling mile. You'll make fewer visits to filling stations—because Chevrolet uses less gas and oil than any other full-size car. You won't have to worry about repair bills, because Chevrolet is built right, and stays right! You won't have to think about trading it in, not for many tens of thousands of miles. ... Chevrolet stands up so well you won't want to! And all the while Chevrolet is saving you money, you're enjoying the thrill of driving one of the smartest, snappiest, most advanced cars on the road!

SHALL CITIES TAKE CONTROL?

Representative George Moffett sees in our present distribution of lawmakers, based on population, a real menace to the agricultural interests of Texas, and he has devoted much of his energies since first going to Austin fighting against this encroaching danger. The metropolitan dailies have not viewed his efforts with favor and have therefore had very little to say concerning his efforts, however, there is one exception and that is the Dallas Morning News, which has dealt fairly with the subject, and we publish the following story from that publication, written by Alonzo Wasson, staff correspondent:

Much Work on Moffett Bill

The Thermopylean band in the House that fought the Moffett resolution proposing a constitutional a-

ment that would discriminate against counties of large urban population in apportioning representation in the popular branch of the Legislature are hopeful that the Senate will keep it from being submitted. But they are more hopeful than expectant. Two years ago, substantially the same resolution fell short only two votes in that body.

It is seldom that a case is so well briefed and documented for the enlightenment of the Legislature as was this proposal. Mr. Moffett spent a good many of the hours since the Forty-second Legislature adjourned in gathering and assimilating the facts that were pertinent to the consideration of his proposal, and he was as one armed and armored going forth to battle with a defenseless man.

He presented his case with the utmost candor. To him it will be an unhappy day for Texas when a few

counties become dominant in the House of Representatives. And as he reads the census reports, that day approaches so fast that the method he proposes to stay it's advance is not premature.

During the last decade rural population increased by 9 per cent and urban by 57 per cent. There were sixty-nine rural counties which showed an absolute loss in population, and of the 1,161,000 total increase in the State's population, 32 1-2 per cent Mr. Moffett, found was registered in Houston, Dallas and San Antonio.

Fifteen Members Per County

From these and other figures, Mr. Moffett gets the apprehension that unless something is done to interfere, it will not be more than twenty years until there will be at least three counties in the State, each of which will have not less than fifteen members in the House. Add those who will come from other less but yet highly urbanized counties and, if one follow the argument of Mr. Moffett, the legislative power of the house will be dominated by the city folk which, as he sees it, would no more be good for the city folk than for the country folk. For, as distilled by Mr. Moffett at least, there is none of the countryman's antipathy for the city in the proposal.

When Mr. Moffett plumped this idea into the Forty-second Legislature two years ago there were those who were sure it was an exotic that had been smuggled in from perhaps the vicinity of Moscow. This time, Mr. Moffett came well armed against that suspicion. He had examined the Constitutions and laws of forty-five states and found that more than thirty of them in one way or another had made the urban vote count for less in electing members to the popular branch of their Legislatures than the rural vote.

How It's Done in Other States

Some of them do it much more arbitrarily and brusquely than he would have it done in Texas. One apparently popular method it to give every county at least one member of a fixed number that is only slightly larger than the number of counties. Arkansas is one of these. Every one of its seventy-five counties has by the Constitution's prescription at least one member of a House of 100 members, so that there is a surplusage of only twenty-five for distribution among the counties having populations in excess of the average. Texas, of course could not do that unless indeed, it were willing to reduce the number of its counties greatly; for otherwise it would almost double the size of a body that is already much too large. But in other ways it can inflate the political power of the rural vote or, what seems the same end, deflate the political power of the urban vote, and Mr. Moffett overwhelmed the opposition with documentary proof that if it did do it would be acting rather conventionally than radically.

The present districting was done 1921, both as to the Senate and the House. Another is overdue by two years, but it is not probable that

anything will be done about it by this Legislature. The uneven increase of population during the 1920-30 decade has given the ruralized counties about as much advantage as they would presently gain from an apportionment made in accordance with the prescription of Mr. Moffett's proposed amendment. It is not likely that a House which could rally 108 votes for that resolution would, pending action on it's proposal, supply the majority to pass a redistricting bill.

**TREASURY DEPARTMENT
OFFICE OF COMPTROLLER OF
THE CURRENCY.**

Washington, D. C. January 16, 1932.

WHEREAS, by satisfactory evidence presented to the undersigned, it has been made to appear that, "First National Bank in Munday," in the town of Munday, in the county of Knox and State of Texas, has complied with all the provisions of the statutes of the United States, required to be complied with before an association shall be authorized to

commence the business of Banking; Now, therefore I, J. W. Pole, Comptroller of the Currency, do hereby certify that "First National Bank in Munday," in the town of Munday, in the county of Knox and State of Texas, is authorized to commence the business of Banking as provided in Section Fifty one hundred and sixty nine of the revised Statutes of the United States.

IN TESTIMONY WHEREOF, witness my hand this sixteenth day of January, 1932.

J. W. POLE,
40-49 Comptroller of the Currency.

INSTANT STARTING
LIGHTNING PICK-UP

CONOCO
BRONZE GASOLINE

CONOCO BRONZE has greatly improved anti-knock quality... always the full-throated purr of rhythmic power... seemingly effortless in its quiet performance.

It has also instant starting, lightning pick-up, greater mileage and power. Try a tank full... and be convinced.

Henry Ford
Dearborn, Mich.

May 15, 1933

Time and again I am told—by my own organization and by others—that I penalize myself by quality.

Friendly critics protest our putting into the Ford V-8 what they call "twenty-year steel." They say such quality is not necessary; the public does not expect it; and that the public does not know the difference anyway.

But I know the difference.

I know that the car a man sees is not the car he drives—he drives the car which the engineer sees. The car which is seen, comprises beauty of design, color and attractive accessories,—all desirable, of course. The best evidence that we think so is that they are all found on the Ford V-8.

But these are not the car. The car proper, which is the basis of all the rest, is the type of engine and its reliability; the structure of chassis and body, ruggedly durable; the long thought and experiment given to safety factors; the steady development of comfort, convenience and economy. These make the car.

A car can be built that will last two or three years. But we have never built one. We want the basic material of our car to be as dependable the day it is discarded as the day it is bought. Ford cars built 15 years ago are still on the road. It costs more to build a durable car—but two items we do not skimp are cost and conscience. A great many things could "get by"—the public would never know the difference. But we would know.

The new Ford V-8 is a car that I endorse without any hesitancy. I know what is in it. I trust our whole thirty years' reputation with it. It is even better than our previous V-8. It is larger, more rugged and mechanically a better job all round.

I readily say this in an advertisement because I know the car will back it up.

Henry Ford

Itinerary of County Home Demonstration Agent May 29 to June 3

Monday—Score Girls Bedrooms.
Tuesday—Score Girls Bedrooms.
Wednesday—Expansion work.
Thursday—Collect material for the demonstration.
Friday—Union Grove Girls and women.
Saturday—Office.

HOME DEMONSTRATION CLUB WOMEN IMPROVING BEDROOMS

Bedroom improvement has not only attracted the attention of the 4-H club girls but also the Home Demonstration women who are achieving their goals very successfully.

"I have wanted to improve my room since before the depression started and am just now getting it done," said Mrs. J. M. Robinson, bedroom demonstrator for the Vera Home Demonstration Club.

Mrs. Robinson has a new bedroom suite and is going to get a new rug for the floor, make a hooked rug, paper the walls which are beaver-boarded now, and refinish the woodwork. There is no closet in her room now, but a door is to be cut out opening into the closet which joins the room.

Two hundred club women are busy improving their bedrooms, which means that they are clean, comfortable and restful.

4-H CLUB GIRLS' BEDROOMS NEARING COMPLETION

There are ten 4-H club girls bedroom demonstrators who have almost completed the work planned for improving their bedrooms and this accounts for the beaming faces that are seen in most every community in Knox County.

"I am surely proud of my room," said Lorita Wimberly, bedroom demonstrator in the 4-H Club at Union Grove. "It is so much nicer than I thought it could be."

Lorita started with a room that was almost barren and after papering the walls, building a closet, refinish the woodwork, floors and some furniture, making a table, bookshelf, washstand and dressing table, and adding new bed linens and curtains, has a room anyone would be glad to call their own.

"The room has cost but very little," said Lorita, "I used scrap lumber and boxes to make my closet, table, washstand, bookshelf and dressing table and my only expense has been paint, paper and bed linens."

This work has all been done by Lorita and her sister, Loreta, who is also a member of the club.

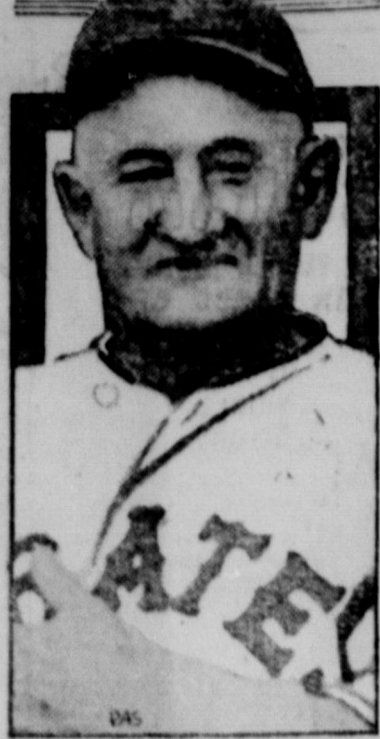

A Capon Show, one of the first ever held in Texas, will be one of the features of the poultry department of the 1933 State Fair of Texas, it has been announced here by W. I. Yopp, director in charge of this department. The capons will be shown for two days as features of the show and will be dressed and exhibited on the third day. Awards will be made on the dressed capons. A capon dinner is also planned as one of the features of the show.

Railroads are again working on record breaking rates for the State Fair of Texas season, Oct 7 to 22, according to information received from railroad officials. The 1932 rates to the State Fair of Texas were the lowest rates in the history of Texas railroads.

The 68,000 retail stores in Texas do an annual business of more than two billion dollars. The state ranks fifth in the number of retail establishments and seventh in the volume of retail business.

"Utility" will be expressed more in exhibits at the State Fair of Texas than ever before, it has been announced here by Otto Herold, president of the exposition. The superintendents of every department connected with the State Exposition are at work to make their particular shows of especial usefulness to the people of the State.

Flying Dutchman Today

Honus Wagner, baseball hero of another day, is this year again with his beloved Pirates, now in the capacity of infield coach. His first trip around the circuit has been a tour of triumph, fans turning out by the thousands to greet him.

Governor, Federal Reserve

Eugene Black, of Atlanta, Ga., is the new governor of the Federal Reserve Board, succeeding Eugene Meyer, resigned, upon the appointment of President Roosevelt. Mr. Black is the second Southerner to hold this important post, the other being W.P.G. Harding of Alabama.

Schmeling and Dempsey

Jack Dempsey, promoter of the heavyweight battle between Max Schmeling, Germany, and Max Baer, California, at New York, June 8, has been a frequent visitor to Schmeling's training camp as pictured here with the German battler.

GREASE BACK—R. E. BOWDEN.

A friend of mine once told me this story. He said that he had stopped into a little jewelry shop to have his watch repaired. On his way out he noticed a box of collar buttons on the counter, set up in a display carton with a sign on them "25c each." He lingered for a second but passed on out without buying.

A few days later he happened to run across a corner hawker, high up on a platform before a large and attentive crowd, selling the same identical collar button.

"Now folks," he cried, this here little collar button is just what you have been waitin' for fer years. Just watch me, folks. See how nice it lays an' in the neckband so' to let your tie ally easy? See the head is nice an' smooth so's it won't wear out the neck o' you're shirts. And it's suppose so's it won't roll under the bow tie and make you sneeze. It's soft gold plated and will last you a lifetime. Greatest little invention in the world! Worth a dollar of any man's money, but as long as my stock lasts I'll be 'em go for just half of that! Just 50c! Four bits! Yes sir, now, who's the first to buy one? Thanks, folks! And you, and you,

SPEED!

Time counts when you're in pain! Instant genuine Bayer Aspirin, not only for its safety but for its speed.

The tablet that is stamped Bayer dissolves at once. It is many minutes faster than remedies that are offered in its stead.

If you saw Bayer Aspirin made, you would know why it has such uniform, dependable action. If you have ever lined it, you know that the tablet stamped Bayer dissolves and gets to work before a slower tablet has any effect.

Stick to genuine Bayer Aspirin. You know what you are taking. You know it is harmless; nothing in it to depress the heart. You know you will get results for headaches, colds, neuralgia, rheumatism, the safe and certain relief is always the tablet stamped—

TODAY AND TOMORROW

GOLD—since 1493

According to the United States Bureau of Mines all the gold that has been mined in the world since any kind of records have been kept; that is, from 1493, the year after Columbus discovered America, down to date, amounts to a little over a thousand million ounces. At \$20 an ounce that is worth twenty billion dollars, and more than half of it is still in the form of money or gold bars held in banks as security for money.

In the United States, since 1792, we have mined about 226 million ounces, worth above \$4,600,000,000; and that, curiously enough, is just about the amount of monetary gold still in this country.

In the same 450 years of gold production the amount of silver mined in the world was a fraction more than fifteen thousand million ounces; and the ratio of silver to gold in the world's monetary system before silver was dropped by one country after another, was just about fifteen to one.

Silver is coming back as money, but it is more likely to arrive at a ratio of about twenty to twenty-five to one than the traditional "sixteen to one" of the old Populist days.

POPULATION—needed growth

The United States could support probably ten times the population we now have. It used to be all that nine-tenths of the population could do to produce food enough for the ten-tenths, now it takes the time and work of only a fifth, perhaps less, to feed everybody.

Population in the United States is almost standing still. Unless there is an unexpected upturn in the birth rate or we open our doors again to immigrants from Europe, we shall find ourselves still less dependent on the producers of food.

It looks to me as if food farming, on any important scale, will be a thing of the past in fifty or a hundred years from now. More people will live in the country, but fewer will be engaged in trying to make money out of growing food. They will get their cash from other forms of labor and of products of the land.

LAND—what it will earn

What is good farm land worth? An English friend told me not long ago that the best land in England, where the average production per acre of all crops is much higher than in America, the markets are at the door, the growing season is much longer and the climate generally more favorable, can be bought for \$100 or less per acre, when it can be bought at all. With an experience of two thousand years behind them, English farmers are pretty likely to know what values are.

I doubt whether any land in America can earn interest on a very much higher valuation than that, except in a very few highly favored spots and then only by intensive cultivation of high-priced perishable fruits and garden truck.

One of the principal causes of much of the present trouble of farmers is that they paid, or promised to pay, more for their land than it was worth, and their mortgages represent more than the actual value.

Land, like anything else, is worth only what it will earn.

and you. Yes sir, it's etc."

The same collar button—one at 25c with no buyers, and the other at 50c with plenty of buyers. The difference? One man was selling "price" and the other selling "performance."

—Fred Cornell.

CAR WASHING—R. E. BOWDEN.

Roxy Theatre

Munday, Texas

Friday Night, Sat. Mat. May 26-27

Gypsy Simon SMITH

... recommends ASPIR-MINT

"I was suffering from a bad Cold... Dr. Miles' Aspirin-Mint relieved me."

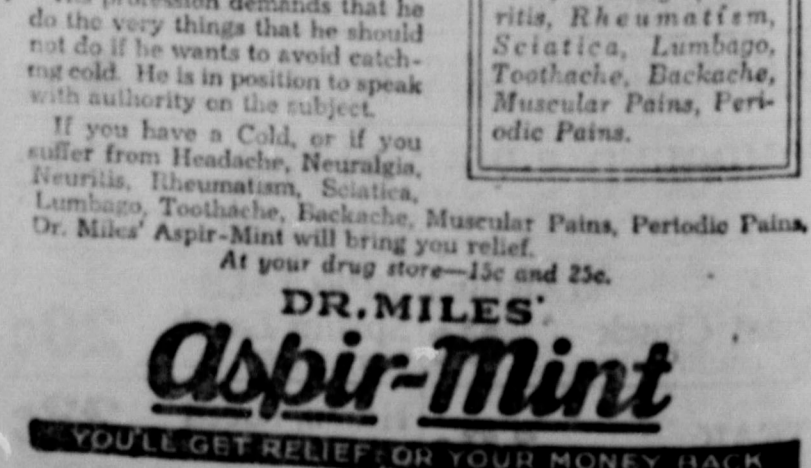

These two sentences are from a letter sent to us by Gypsy Simon Smith.

Mr. Smith spends his public life in the germ-laden atmosphere of crowds in hall, church or tabernacle. He goes from an overheated meeting place into the outer air, spiritually uplifted, but physically exhausted.

His profession demands that he do the very things that he should not do if he wants to avoid catching cold. He is in position to speak with authority on the subject.

If you have a Cold, or if you suffer from Headache, Neuralgia, Rheumatism, Sciatica, Lumbago, Toothache, Backache, Muscular Pains, Periodic Pains.

Dr. Miles' Aspirin-Mint will bring you relief. At your drug store—15c and 25c.

HOUSER'S EXCHANGE

We will have numerous other bargains in our grocery department and ask you to look our stock over, we'll try and save you money. Will also pay the highest price possible as usual for eggs.

DR. W. B. CALDWELL'S SYRUP PEPSIN A Doctor's Family Laxative

Get a bottle of Dr. Caldwell's Syrup Pepsin from your druggist and have it ready. Then you won't have to worry when any member of your family is headachy, bilious, gassy or constipated. Syrup Pepsin is good for all ages. It sweetens the bowels, increases appetite—makes digestion more complete.
