## Miss Faulkner Is New H. D. Agent For Knox County

Miss Jewell Faulkner of Canyon, Texas, has arrived in Munday and taken up her work as temporary county home demonstration agent, succeeding Miss Grace Nelson, who recently tendered her resignation to the commissioner's court of Knox county to become effective March 1st, and in the meantime Miss Faulkner is working with her in order to become acquainted with the women and girls of the county engaged in this work.

At a recent meeting of the commissioner's court a motion prevailed to dispense with the services of the home demonstration agent in the county, but Miss Faulkner has been assigned to the county by the Extension Service of the Texas A. and M. College with a view of completing some of the work that has been started by Miss Nelson, and at the expiration of one month's services by Miss Faulkner the matter of reinstating the work in the county will be presented to the court for action.

## Mother of Munday Pastor Succumbs At Canton Home

The Rev. and Mrs. J. Porter Wilhite have returned from Canton, Texas, where they were called some two weeks ago by the critical illness of Rev. Wilhite's mother, Mrs. J. H. Wilhite, familiarly known to the citizens of Van Zandt county as "Aunt Annie" Wilhite, who died on Sunday morning at the age of 92. She had been a resident of Van Zandt county for 82 years, and her husband, who preceded her in death some 33 years, was for many years district clerk of Van Zandt county.

Funeral services were conducted at the Church of Christ at Canton on Monday, with the Rev. Harding, pastor of the Church of Christ at Wills Point, officiating. In addition to the Rev. Wilhite she is survived by two other sons.

## AT THE CHURCH OF CHRIST

J. Porter Wilhite, Minister

After being absent from the local congregation for a couple of Lord's days, I am very anxious to see the entire congregation at each service next Lord's day. We hope to have a message for you that will be of interest to every one present, not only for the members of the church, or this church, but for all.

At the morning hour we expect to discuss the dying testimony of some of the greatest men that has ever been known, and at the evening hour I hope to go into details with some of the Apostle Paul's work while on earth. Come and enjoy the services. And when you come try to be in time to enjoy the class work of the church, more familiarly known as Sunday school.

There is a class for each member of the family. We begin that work at ten o'clock. We will also call your attention to the fact that we are having a very interesting class with the ladies on Tuesday p. m. We are studying the book of Romans. Whether a member of this church, or any church, you have a welcome. Some are coming who are not members, and we are glad to have them.

Lets make next Lord's day a banner day.

## Thinking Out Loud

By J. A. K.

The cyclops of this column assembled his golf club Sunday afternoon and played a round on the Munday club course, this being our first attempt in about a year, and while our game was not anything like it was when we were in good form, we believe we are capable of eliminating Editor O. C. Harrison of the Baylor County Banner in the forthcoming Tri-County tournament, if indeed that is anything to brag about.

Last week we were caught in a jam of work at press time and had to send out an S. O. S. call for help, and Mack Sweeney, who recently sold his Knox County Herald at Knox City came to our rescue. Mack is taking things easy until he is again located in the newspaper business, and it must be a grand and glorious feeling to wake up on Thursday morning and know that there are no ads to rack or no copy to set.

After being tied down fifty-two weeks every year for a number of years in this business, one can really appreciate getting out for a while, and we know the Sweeneys are enjoying their vacation.

This depression (if you don't like that word, use your own) has brought about a system of barter in many localities, and this in no exception. The farmers of the Bowie country are trading cord wood to Knox county for maize and other feedstuffs. The Bowie farmers have a surplus of cord wood and the farmers of this section have a surplus of feed. Since there is no profitable cash market for either, farmers are taking to the idea of barter, and it should prove helpful on both ends of the line.

One of our exchanges has pointed out that it cost more money last year to maintain the United States Department of Agriculture than the entire out and wheat crops of the country brought on the market.

Is it any wonder that farmers and business men are groaning under the load of taxation? If the purpose of this department is to teach the farmer to grow two bushels of wheat and oats where only one grew before, it would be well to dispense with the department until consumption can catch up with production.

Today, some fifteen years after he has passed from the political limelight, our nation has returned to the principle of government advocated by Joseph Weldo Bailey, who during his long public service stood for the principle of state's rights and against the centralization of government in Washington.

## Milk Route Will Be Sought By Munday Chamber Commerce

A delightful luncheon was served by Mrs. D. A. Eiland at the semi-monthly luncheon of the Munday Chamber of Commerce Thursday noon at the Munday Hotel, and a representative number of members were present at the luncheon.

President R. B. Davy stated that there was a possibility of securing a milk route through this section from a Wichita Falls concern, and W. R. Moore and John Ed Jones were appointed as a committee to investigate and see if Munday could be placed on one of the regular routes, as such a move would enable citizens of the community to dispose of their surplus milk to an advantage.

Numerous other matters were taken up and committees appointed, and the meeting was one of the most enthusiastic that has been held in some time.

Miss Adrian Akers of Barkburnett spent the week-end here visiting in the home of her parents, Mr. and Mrs. E. E. Akers. She was accompanied by Mrs. Ray Hill, who visited in the home of Mrs. W. C. Hill and other relatives here.

## All Towns of Knox County In Meet At Goree Feb. 16

The semi-annual meeting of Knox County Federation of Study clubs was held at Goree on Thursday, the 16th of February, in the home of the president, Mrs. W. M. Taylor, with luncheon at 12:30 o'clock, followed by a business session and a program featuring musical numbers by Misses Jessie Lenora Daniels and Elizabeth Farmer, a group of original poems by Mrs. E. M. Ammons of Munday, an address by the guest speaker of the day, Mrs. W. N. Roach of Seymour, who spoke on "The County Federation Place in the American Home Movement". Mrs. J. M. Brittain, who accompanied Mrs. Roach, gave a talk on Parliamentary Law. Mrs. Brittain is a former president of the First District.

The meetings are to be held quarterly after this, as the experiment of last year of semi-annual meetings do not provide adequate for the needs of the clubs.

A movement was started at this meeting for a county wide "Yard Improvement Contest" to cover a period of three years, closing with the Texas Centennial. It is hoped that some good sized money prizes can be offered in this.

This was one of the most enjoyable meetings the County Federation has ever held. Forty guests seated around the beautifully appointed luncheon tables centered with fragrant winter flowering stocks is a pleasure to linger in the minds of good friends.

The president, Mrs. Taylor, and the secretary, Mrs. E. F. Heard, of Goree, are to serve another year. A good representation was present from every club in the county.

## Nine Indictments Returned By Knox County Grand Jury

The Knox county grand jury recessed on last Wednesday until February 27th after returning nine indictments, all for felony. A number of witnesses were examined and members of the body report that there is very little evidence of crime in the county, and it is doubtful if there is a county of like population in Texas where there is less crime than in Knox county.

## Organization For Distributing Crop Loans Perfected

The organization for the distribution of the Federal crop production loans in Knox county is being completed and the organization will be in position to extend the facilities of this fund to Knox county farmers as soon as they receive full instructions from the governmental body in charge of the distribution of this fund.

The county board which will have supervision of the distribution of the fund is composed of H. A. Pendleton and E. W. McGlothlin, Munday, and E. O. Jamison of Knox City, while the local committeemen named to date in the various communities in the county are C. H. Burnett, Benjamin; M. L. Hughton, Truscott; W. B. Feemester, Vera; T. E. Robbins, T. P. Frizzell and B. M. Farmer, Knox City.

## Mrs. Hlavaty, 75, Died Saturday at Rhineland Home

Funeral services were conducted Sunday afternoon at St. Joseph's Catholic church at Rhineland for Mrs. Caroline Hlavaty, 75, who died Saturday afternoon at her home 6 miles north of Munday after a prolonged illness. The services were conducted by the Rev. P. Boniface, O. S. B., pastor of St. Joseph's church.

Mrs. Hlavaty was born in Moravia, now Czechoslovakia, June 9, 1855, and came to the United States some twenty-five years ago with her husband, the late Joseph Hlavaty, who died some eleven years ago. The family resided for a time in Wichita county, later moving to Haskell county, and some thirteen years ago moved to the Rhineland community, where they have resided continuously since.

Mrs. Hlavaty is survived by one daughter, Mrs. John Michalik, and nine grandchildren, as follows: Mrs. Frank Cerveny, Mrs. J. W. Zeissel, Mrs. Rudolph Michalik, Misses Louise, Annie, Sophie, Lillie, Alice and Vilma Michalik.

Following the services, which were attended by a large concourse of friends, the remains were laid to rest in St. Joseph's cemetery.

The Times joins the many friends of the family in extending sincere condolence to the bereaved ones.

## Tile Irrigation Is Demonstrated At Roe Myers Home

Two hundred and twenty concrete tile have been made by Mrs. Roe Myers for the sub-irrigation of her garden. The tile were dry and ready to be used in a demonstration of laying tile given in Mrs. Myers' garden by M. R. Bentley, agricultural engineer of the Extension Service, A. and M. College and W. E. Jones, county agent, Thursday, February 17.

Mr. Bentley, in his talk, gave the advantages of sub-irrigation over surface irrigation as: Little labor is involved in watering the garden, less water is necessary and the tendency of soil crusting is decreased.

The importance of all joints of the tile being made tight enough to keep the dirt out, that water free from sediment be used, that the feed pipe be kept covered when not in use and that each tile line be laid level from end to end was stressed by Mr. Bentley.

Those present to see this demonstration included Mr. Harber and his science class of Sunset School and a number of ladies.

Chief of Police Shannon Layne was in Stamford on official business Monday.

## Pneumonia Fatal To Hulén Smith; Rites Wednesday

Funeral services for Hulén Smith, 20, son of Mr. and Mrs. Ezra Smith of the Gillespie community, were held Wednesday afternoon at the Gillespie Baptist church, with the Rev. J. F. Curry, pastor, officiating, assisted by the Rev. C. B. Stovall of Knox City. Young Smith died on Tuesday morning at eight o'clock after a week's illness from pneumonia.

The church building was crowded to capacity and overflowing with sorrowing friends of the youth and family. Pallbearers were young men who had grown to young manhood with the deceased in the Gillespie community, and the flower girls were young ladies who were former schoolmates.

Hulén had resided in that community practically all his life and after graduating from the old Gillespie school attended and graduated from the new consolidated Sunset school when additional school work was made available to him. He was a young man of exemplary habits and unimpeachable character, and his untimely death is mourned by the entire community.

We join the many friends of the family in extending sincere sympathy to the bereaved parents and other relatives in their great sorrow.

## Funeral Rites For Mrs. H. F. Gage Held Thursday

Funeral services were conducted here last Thursday afternoon for Mrs. H. F. Gage at the Baptist church. The services were conducted by the Rev. C. B. Stovall of Knox City, assisted by the Rev. W. H. Albertson of this city.

Mrs. Gage was the wife of the Rev. H. F. Gage, who recently accepted the pastorate of the New Hope church, and her death followed an illness of only a few days duration from influenza. Both the Rev. and Mrs. Gage were students in Simmons University at Abilene prior to moving to the New Hope community.

Deceased was a niece of W. W. McCarty of this city, and following her death the remains were brought to the McCarty home here.

The Times joins the many friends of the bereaved husband and daughter and other relatives in extending sincere sympathy to them in their great sorrow.

Mrs. H. G. Gage

On last Wednesday another of God's redeemed souls fell in sleep when the death angel came and took Mrs. H. F. Gage to her eternal home. Let us remember the words of the prophet, "Refrain thy voice from weeping; there is hope in thine end, sayeth the Lord, that thy children shall come."

#### SENIOR SCRAPBOOK

We're here happy as ever, and just as exuberant and enthusiastic as ever. Boy howdy! Just "oodles" has happened since you last heard of us.

First of all, since business comes before pleasure, we have ordered our invitations and selected our diplomats,—we hope we meet requirements enough to acquire one! Next, for fear you haven't heard, we had the boy's class tournament last week. The seniors defeated the freshmen with quite a score. The game was "close" and more than exciting from the first whistle to the last—but all of this is the sports editor's job.

Here's the pleasure we spoke of: Saturday night the Seniors enjoyed a snappy party at the home of Adelaide Barton. Don't kid yourself if you think the seniors aren't a jolly bunch because they have the world beat when it comes to the various varieties of pep, mischief, laughter, and "spunk" that makes an appetizing mixture of a good time! Mr. Jones was out of town and therefore unable to be with us at this lovely entertainment, and we missed him a great deal. Now I am coming to the nice part: hot chocolate, sandwiches and cookies were served to those present—do you regret you aren't a senior?

Mr. Jones became very perplexed the other day while in the study hall over a buzzing, humming, sound. When he investigated the matter he made the amazing discovery that it was only Chalmers Hobert unconsciously humming "Rueben and Rachel." That's what a tournament has done to one of the seniors!

#### JUNIORS

Did we win or did we win? We ask you? You ask us what? To make a long story short, the junior boys

beat the sophomore boys, and then the senior boys, after whipping the poor fish were utterly defeated when they attempted to win the junior-senior game in the class basketball tournament. Our girls play the sophomores next week and here is a secret that the sophomores do not know—we are going to win that game. You are not supposed to tell them though.

If you want an editorial written see some of the juniors. Guess you do not know some of us are getting good along that line. Why? Because we've been studying journalism in English, and you either write editorials or you do not get a grade. We write editorials.

We're going around in circles if you catch what we mean. Well, some of us are getting so daffy that we sit in geometry class and try to figure out a way to draw perfect circles. We're getting rather "thin-brained" too—so we've been told.

#### FRESHMEN NEWS

Just think what fine basket ball players the freshman boys will be when they are seniors. You are right; they will be just about the best players out.

In home economics we are going to start our project plan in sewing. You can imagine girls who cannot even make a doll dress for their little sisters learning to make something for themselves. We are all about to feel sorry for Miss Clifford. Last Friday the class had a truth meeting about each other. We went down the roll, took each girl, and told her the way she could improve herself. So if you notice any difference in any of us you will know what struck us.

The freshman class had a class meeting last Thursday. We are to have a picnic this Thursday afternoon at 4:30.

### Grant, Bryan and President Arthur In "Silver Dollar"

Three characters of international fame, as well as scores of persons of national importance, are represented in the cast of Edward G. Robinson's latest First National starring vehicle, "Silver Dollar," which opens at the Roxy Theatre Sunday and is continued Monday and Tuesday, with Robinson playing the role of Yates Martin. These characters are all a part of the life and romance of HAW Tabor, Colorado's spectacular Silver King, whose sensational exploits started a nation late in the 19th century.

Tabor's flaming activity in the early days of Colorado's history forms the basis of the book by David Karsner from which the First National production was adapted by Carl Erickson and Harvey Thew. President Chester A. Arthur comes into Tabor's life when he and his cabinet officers, as well as members of the senate, the army and navy officers, attended the sensational wedding of Tabor and Baby Doe in the Willard Hotel in Washington. This is the memorable occasion when the upstanding Westerner smacked the dry president on the back and invited him to have a secret drink to the bride.

William Jennings Bryan, who named Tabor's daughter "Silver Dollar," visited the Silver King at his home to enlist him in the battle against the gold standard.

General Grant has a role as guest of Tabor at the opening of Tabor's million dollar opera house in Denver which he gave to the city. On that occasion, Tabor insisted on opening so many champagne bottles that Emma Abbott, the prima donna, refused to sing because the popping of corks annoyed her.

Emmett Corrigan, Walter Rogers and Niles Welch take the respective roles of President Arthur, Grant and Bryan. Bebe Daniels has the leading feminine role opposite Robinson, playing the beautiful second wife. Aline MacMahon has the role of Yates Martin's first wife, whom he deserted after the two had risen from poverty to riches together.

The picture deals with the wild and romantic days of the gold rush and eventual silver strike in Colorado with all the picturesque characters of the mining camps including poker Annie, Poison Pete and others. There is a strong supporting cast which includes Jobyna Howland, DeWitt Jennings, Robert Warwick, Russell Simpson, Marjorie Gately, Harry Holman, Charles Middleton and others. The picture was directed by Alfred E. Green.

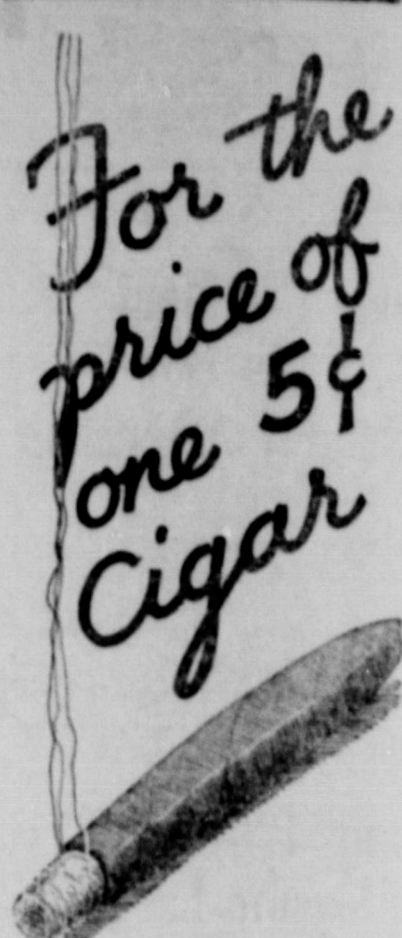

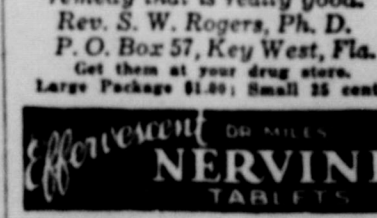

### NERVOUS? SLEEPLESS?

#### WILL YOU BE PREPARED?

Prosperity is "just around the corner."  
This slogan has been common for the past two years and now it looks as if the corner will soon be turned. But are you prepared for prosperity?  
When prosperity returns there will be an influx of business houses in every city.  
Those who have become discouraged, and acknowledged that they are licked, will enjoy no prosperity. It will take them too long to recover from a chronic depression, and unless they cheer up, dress up their places of business and go after the trade before prosperity enters with a bang, they will find that some more enterprising individual has captured their trade.  
Business will not be helped by continually harping on hard times. Such talk will frighten the buyer away from your place of business. Do not be too optimistic and try to create a false recovery of business, but play the game on the square and fight for your business, your town and your community.  
Do not be misled by the transient door-knockers who come into town offering bargains questionable merchandise, but trade with the local merchants, and preferably with those who think enough of your business to present their message through the advertising columns of the papers.  
Keep in training, and be ready to go at the drop of the hat when the whistle of prosperity sounds.—Fortales Valley (N. M.) News.

Assuming the Texas Legislature, now in session, will put into effect the constitutional amendment exempting homesteads from \$3000 of State taxation, the procedure for home owners to avail themselves of this exemption, is explained as follows by one of the county tax assessors of the State after a conference with the State Comptroller.  
According to this tax assessor the Comptroller has ruled that the homestead upon which exemption is claimed must be the place of residence of the owner. Under the homestead act as generally understood a farmer is allowed to claim 200 acres whether it is in new parcel or not. By the Comptroller's ruling he will be able to exempt only the land on which he lives.  
"Taxpayers will be required to ren-

der their homesteads in order to receive the \$3000 exemption," said the assessor of one of the largest counties in the State, "as this office will not accept the responsibility of assessing and allowing exemption".  
"Homestead owners will be required to designate their homesteads and sign an affidavit that the designated property is the place of residence."  
Each taxpayer availing himself of the homestead exemption will be saved \$20.70 a year of State taxes if his place is valued at as much as \$3,000 for tax purposes.  
The attorney general has ruled that the constitutional amendment combining the offices of tax assessor and tax collector will go into effect January 1, 1935, since the present occupants for these offices have been elected for the intervening years. In some of the larger counties of the State the homesteads exempted will reduce the State's revenue more than \$400,000 a year.—Exchange.

#### TAKING STOCK OF YOURSELF

Since my earliest remembrance some member of my family has been engaged in a business requiring at least a yearly inventory. These inventories are hard, grimy, irksome work.  
All stock must be taken from the shelves or bins or containers and counted piece by piece. A general house cleaning follows this tear-down and drag-out in order that the stock may be re-arranged in attractive and convenient array.  
There are two primary purposes of such an inventory; namely, to check what has been done during the year just closed; to plan intelligently what may be done during the year just beginning.

Wouldn't it be a splendid idea if each of us would take stock of himself? Some of us have little else to take stock of. But neither did our Pilgrim forefathers, and they built admirably. So can we build more securely in the future if we take stock of ourselves occasionally.  
We are prone to invoice our neighbors and relatives almost daily. We have a mania for changing and improving everything under the sun—except ourselves. Our smugness concerning our own perfection is kin to the woman who remarked "I am sure I could see my children's faults if they had any."  
Invariably we attribute our losses and set-backs to bad luck, unfavor-

able circumstances or the fault of another. But for once lets take a probing, searching inventory of self and acknowledge how much we have hindered our own progress in the past, how much we may facilitate it in the future.

We are likely to find several annoying leaks in our enterprise of life. Most of us will find one of varying size to be labeled Laziness.

A well known journal's refers so often of this besetting fault of mankind that he has aroused me to considerable thought concerning the matter. "Every one is lazy," he reiterates frequently.

At first I resented the idea. "I am not lazy," I flattered myself. "Don't I work from dawn till dusk?"

But the answer came to my mind quite clearly, "Yes, you work assiduously at what you choose to do. But you habitually shun the difficult tasks that would prove most beneficial and profitable to you."

Perhaps much of your well-intentioned labor trickles through a similar leak, leaving you always busy yet accomplishing little of value. Better chink up that little hole of Laziness as our fathers used to do by the mouse hole in the flour bin or the rat hole in the corn crib. For the waste may assume alarming proportions as time goes by.

Another leak which causes loss in effort and efficiency and material gain in every walk of life is lack of concentration.  
That foggy, listless wandering attitude of mind so common to us all causes the student to forget his assignment, the housewife to burn the dinner, the clerk to fail to answer an important letter, the lawyer to overlook a point of law on which his case hinges.  
If we would by earnest, sustained effort discipline our minds to attend

to the business in hand, instead of allowing them to flit away, will-o'-the-wisp fashion, after every attraction, we should greatly improve our chances of success in the coming years.

Then there is the loss in attainment beyond all means of human computation occasioned by lack of self improvement.

The world has advanced by leaps and bounds during recent years. One who learned his profession a decade ago and has not brushed up on the matter since is an antiquated as a feather duster or a mule-drawn street car. It just isn't being done that way any more.

For that reason adult education has come to have a new significance of late years. No longer does a college degree or a life certificate equip one for his remaining career. He must continue to learn, to improve, if he is to keep abreast in any line of endeavor. Some one has wisely said, "The true secret of not going backward is to go forward."—Selected.

There is no Masonic record to prove that Jefferson was a member of the Order, but there is collateral evidence which is taken and accepted Masonically as indicating that he was.

Mr. Taft was not a Mason before he was elected, but the Grand Lodge of Ohio made him a "Mason at sight," between his election and his inauguration.

Franklin Roosevelt is the third successive President to have double "o" in his name. He is also the third President whose surname is the same as that of one of his predecessors. We have had two President Adams, two Presidents Harrison, and now two Presidents Roosevelt.

Mr. Roosevelt is the third President of Dutch descent, Martin Van Buren and Theodore Roosevelt being the other two. He is likewise the third President elected in his fifty-first year.

## Get Rid of That SORE THROAT!

Any little soreness in the throat grows rapidly worse if neglected. Crush some tablets of genuine Bayer Aspirin in some water, and gargle at once. This gives you instant relief, and reduces danger from infection. One good gargle and you can feel safe. If all soreness is not gone promptly, repeat. There's usually a cold with the sore throat, so before gargling take two tablets to throw off your cold, headache, stiffness or other cold symptoms. Bayer Aspirin relieves neuralgia, neuritis, too. You may use it freely, it does not hurt the heart.

### RELIGIONS

President Roosevelt will be the ninth member of the Protestant Episcopal Church to be President of the United States. It is a curious thing that this small denomination should have had more representatives in the White House than any of the other branches of the Christian Church. There are less than two million Episcopalians in America compared with nearly eight million Baptists, but only one President, Harding, was a Baptist.

There are nearly twenty million Roman Catholics and none has ever been President. One President, Coolidge, was a Congregationalist, one,

Garfield, a member of the Disciples of Christ, one Hoover, a Quaker, two, Van Buren and Theodore Roosevelt belong to the Dutch Reform Church. Both the Adamses, Fillmore and Taft, were Unitarians. Johnson, Grant and McKinley were Methodists. Jackson, Polk, Buchanan, Benjamin Harrison and Woodrow Wilson were Presbyterians. The Episcopalians include Washington, Madison, Monroe, William Henry Harrison, Taylor, Pierce and Arthur.

I don't imagine it makes any particular difference to what Church the President belongs. Two of them, Lincoln and Coolidge had never been members of any church before they became President. But every President of the United States has been a deeply religious man, as every man must be if he is to command the confidence of the people.

## WINTER PLOTS A WICKED CRIME

**THE VICTIMS:** Those Motors Using Ordinary Oil that Drains Away from Heated Working Surfaces.

**THE TIME:** Those Cold Sweating Moments While Precious Motor Parts Melt from Dry at Working Speed Until Oil is Pumped from Below.

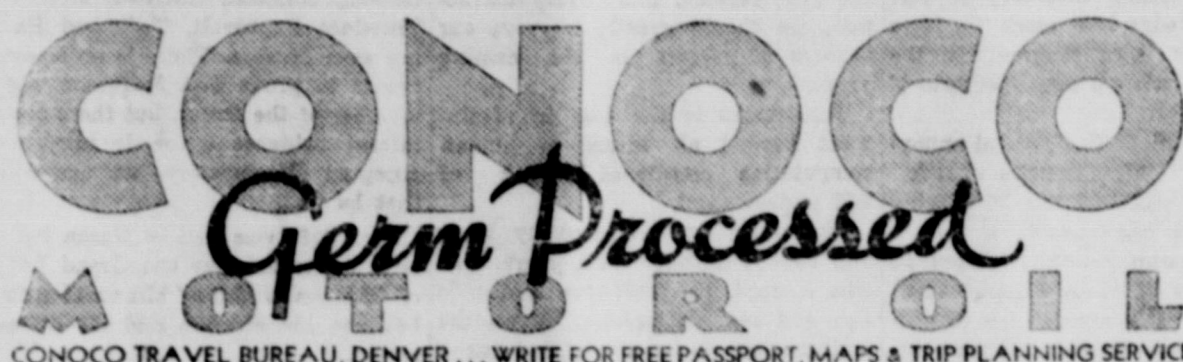

THE QUART THAT STAYS UP IN YOUR MOTOR AND NEVER DRAINS AWAY

The One Oil that Gives You Perfect Protection for Winter's Worst Days Ahead

Drip! trickle! drip! through long night hours, ordinary oil drains away. When the pump quits, ordinary oil quits, leaving the motor's parts high and dry. You touch the starter. The motor roars. The pump strains at the sluggish oil. It is only a few minutes till circulation is completed. But, in the meantime, working surfaces only partly lubricated are in contact, while the motor makes three to five thousand revolutions. This causes 50% of all motor wear.

Prevent this loss. Choose not merely a quick oil, but an oil that never leaves. Choose the oil with the "hidden quart that penetrates and combines with the metal surfaces of the motor itself. In the emergency of an empty crankcase, users have driven many miles, without damage, on this "hidden quart alone. This proves that your motor need never suffer while waiting upon the pump. Don't remain in doubt. Drain and refill with the "hidden quart oil today.

Indeed the Eighteenth Amendment has been a "noble experiment." In many sections of the country it has proven effective and workable, while in others, especially the great centers of population, it has created a condition in which racketeers and gangsters have and are dominating.

However, those who are elated at the prospect of having the privilege of again placing their feet on the brass rail may be disappointed, for he it remembered that Texas had state-wide prohibition even before the Eighteenth Amendment was adopted, and before Texas, and a number of other states can have legalized liquor these state laws will have to be repealed, and in the meantime those who have a thirst will have to content themselves with the bootleg variety.

again to their own border".

Mrs. Gage was the wife of Bro. H. F. Gage, our fellow-worker in the ministry, having recently moved to their new field of labor in the New Hope community. Mrs. Gage had completed three years of work in Simmons University, and we would say, speaking from human minds, that her work was incomplete, but God in his infinite wisdom knows no mistakes. He who doeth all things well said, "it is

finished, come on home". Thus we bow in humble submission to His will.

Funeral services were conducted at the Baptist church in Munday, C. B. Stovall, assisted by W. H. Albertson, conducting the services. Active pallbearers were Olen and Edwin Frasure, Clyde Yost, Homer Rowell, Jim Frost and Troy Turpen.

Those left to mourn her going are her husband and little daughter, Margie Eloise; father, B. H. McCarty of Knox City, and a brother, Henry McCarty of Abilene.

Those attending the funeral from out of town were Mrs. and Mrs. Henry McCarty of Abilene, Mr. and Mrs. Griffin of Memphis, Texas, and Mrs. J. F. Cunningham of Abilene.

We pray the blessings of God and consolation of the gospel on the bereaved.
