

COUNTY LOSES 42 PEOPLE IN TEN YEARS

Kracker Krumb's Odd Bits Salvaged At Random

It looks like a dial telephone system for Munday.

Plans are going in that direction. F. A. Robinette, district manager of the telephone company, said Monday that plans for installation of a dial system and expansion of cable and wire facilities are going forward.

It may be installed as early as April, 1950.

He met with members of the City Council Monday, when that body passed a resolution stating that it believes most of Munday's citizens want a dial system, and "are willing to pay charges necessary for such service."

In his news story this week, Mr. Robinette did not say what those charges would be.

But members of the city council reported they would be 25 cents a month above the present charges.

With the improvements and expansion program that's promised with the new system, the two-bits per month per telephone would be well spent, in our opinion.

Cable and wire facilities would be expanded in 1951 to for telephone facilities and take care of future growth.

Our outlets for long distance service would be increased.

Whereas we now have two wires leading out of Munday to Seymour and two to Haskell, under the new system we would have four to one town and three to the other, if we understood the situation correctly.

The resolution passed by the city council provides that at least 70 percent of the present subscribers must approve the new type of service and rates.

And how are you going to approve?

Robinette stated that letters would be mailed to each subscriber explaining the dial system.

A self-addressed postal card would be enclosed with the letter for the subscriber to indicate whether he does or does not want the dial service.

One member of the city council got the impression that the choice would be between a new dial system and the present system.

It seems that the dial system is the only logical and practical system for the company to install.

Our principal objection to the dial system would be that we will lose our operators.

Good, efficient, courteous operators like those who serve us under the present system are responsible for our service being the best possible with the present outmoded system.

The public in general has depended upon them for service "beyond the call of duty" and have received that service in many instances.

Yes, we hate to lose our operators. But the impression is left that there's no alternative under the new system.

At present, Munday has 486 telephones—and there's a number of persons wanting telephones who can't get them.

The company believes that the number of subscribers will increase to approximately 580 by 1953.

If 70 percent of present subscribers want the dial service and approve the new rates, and (Continued on Last Page)

C. D. A. Plans For Noon Feeds; To Start In July

Plans were virtually completed Monday night for regular noon-day meetings of members of the Munday Community Development Association.

Directors have been looking forward to having the entire membership in regular dinner-meetings for some time, and with the completion of the new First Baptist Church, the plans began to take shape.

The meetings will be held every other week, with dinner being served in the fellowship hall of the Baptist Church. Ladies of the Munday school lunch room will prepare and serve the meals during the school vacation months.

Members of the C. D. A. are meeting with a committee of the church to work out all details for using this spacious hall for the meetings. Full details are expected to be worked out this week, and the first meeting is scheduled for noon on Wednesday, July 5th.

Credit Reports
For some time, directors have been concerned about inaugurating some form of credit reporting system for merchants of Munday. The need of a system of checking up on credit ratings of persons unknown to local merchants who desire credit and of servicing delinquent accounts.

A committee is working on details of this system with the view of putting it into operation soon. This, it is believed, will be a valuable service to merchants who are members of the C. D. A.

Another move will be that of requesting merchants to see that all persons soliciting public donations of funds within the city have a letter of approval from the C. D. A. directors. It is believed this will eliminate much unworthy solicitations by "drifters" and for unworthy causes.

Mrs. C. J. Reese, Sr. Buried Saturday At Knox City

Mrs. C. J. Reese, Sr., 81 years of age and resident of Knox City, passed away on Thursday, June 8, at a hospital in Meridian, Texas. Mrs. Reese was visiting relatives in Meridian, and she suffered a heart attack, living only a short time.

A resident of this county for some time, Mrs. Reese was well known to many Munday people. She is survived by three sons, C. J. Reese, Jr., of Knox City; E. P. Reese of El Paso, and G. W. Reese of Morgan; seven grandchildren and five great grandchildren.

Funeral services were held at 3 p. m. Saturday, June 10, from the First Baptist Church in Knox City. Rev. Harthcock, pastor, officiated, and was assisted by Rev. C. H. Powell of Rule. Burial was in the Knox City cemetery under the direction of Warren Funeral Home.

TEXAS BOND LEADER

Fred F. Florence, who is Chairman of the Texas Advertising Committee, U. S. Independence Savings Bond Campaign, is President of the Republic National Bank of Dallas and a business and civic leader of the Southwest. He heads a statewide group of Texas newspaper publishers and advertising executives for a new advertising campaign in behalf of public purchases of savings bonds during the current drive, concluding July 4th. "Sale of U. S. Savings Bonds is essential to the stability of our country," Mr. Florence points out. "People who buy them are not only patriotic citizens doing a real service for their community and country, but are making a wise and sound investment for themselves."

Invitation Golf Tourney Slated On Local Course

Golfers from a large area surrounding Munday are expected here next Sunday and through next week for the first invitational golf tourney sponsored by the Munday Municipal Country Club. This is the first annual invitational affair for the local course, and it is likely it will be repeated from year to year.

Top-ranking amateurs from Wichita Falls, Stamford, Vernon, Crowell, Paduach, Haskell, Spur, Anson, Knox City and Munday are expected to take part in the meet.

Qualifying rounds are scheduled to be held June 18 through 23, and matched play will be held June 24-25.

A barbecue and Calcutta Pool will precede the tournament on the evening of June 23, it was stated.

Prizes for the tournament total around \$650 in cash values, according to club officials.

Masonic Bodies Name New Officers Tuesday Night

New Masonic officers for the Chapter and Council were elected last Tuesday night at the regular stated meeting of these bodies.

Officers for Knox Chapter No. 260, R. A. M. for the ensuing year are: Lee Haymes, H. P.; Aaron Edgar, king; M. D. McGaughey, scribe; M. T. Chamberlain, C. of C.; D. E. Whitworth, R. A. C.; H. R. Hendrix, master first veil; Sied Waheed, master second veil; L. A. Parker, master third veil; W. E. Braly, treasurer; G. B. Hammett, secretary; Weston Paris, guard.

New officers for Knox Council No. 195, R. & S. M., are: J. J. Collier, T. I. M.; Lee Haymes, R. I. D. M.; M. F. Billingsley, I. P. C. W.; W. E. Braly, treasurer; G. B. Hammett, recorder; J. T. Randolph, C. of G.; Aaron Edgar, C. of C.; C. R. Hendrix, sentinel; Sid Waheed, steward.

Revival Under Way At Goree Church

A revival meeting opened on Sunday, June 11, at the Four Square church in Goree, and will continue through all of next week, it was stated.

Miss Evelyn Vaden, evangelist, is doing the preaching. She is a well known evangelist in this denomination, and good crowds are coming out to hear her.

The public is cordially invited to attend each and every service and enjoy the good singing and preaching.

Dial Telephone System Likely For Munday

The Southwestern Associated Telephone Company's plans for installation of a dial telephone system and expansion of cable and wire facilities were announced today by F. A. Robinette, District Manager for the Company. The City Council, at its meeting on June 12, 1950, passed a resolution stating that it believes that most of the citizens of Munday wanted dial telephone service and are willing to pay the charges necessary for such service.

The resolution provides that at least 70% of the present subscribers must approve of the new type of service and rates. Robinette stated that letters would be mailed to each subscriber explaining the dial system and that a self-addressed postal card would be enclosed with the letter so that each subscriber could indicate whether he does or does not want dial service.

Cable and wire facilities are to be expanded in 1951 to take care of existing applicants and to provide facilities for future growth. At the present Munday has 486 telephones, and it is expected that the number will increase to approximately 580 by 1953.

If 70% of the present subscribers want dial telephone service and approve the rates, the needed equipment will be ordered. Robinette stated that the Company hopes to begin installation of the dial system during the second quarter of 1951.

Knox City Votes School Bonds

The \$90,000 school bond issue at Knox City met with approval of the voters last Saturday, as 134 persons balloted at the American Legion hall favoring the bond issue, while 14 persons voted against it.

Funds from the issue will be used to build eight new classrooms for the Knox City grammar school and for renovating the Knox City high school building.

The classrooms will be constructed in two sections of four rooms each. They will be built so that a maximum of sunlight can be utilized.

JIGGS THOMPSON GETS B. S. DEGREE RECENTLY

Among the 255 graduates receiving degrees from New Mexico A. & M. College recently was Robert Doyle Thompson of Munday. The son of Mr. and Mrs. Ed Thompson of Munday, he was granted a bachelor of science degree in agriculture.

MEN BEWARE!

Beware, brother, beware! The female of the species will take the shirt right off your back and put it on her own. The newest fad of the season among fashionable girls is to team a man's cotton shirt with shorts for playtime wear. This radiant young lady has swiped her husband's white shirt for wear on an outing during a Bermuda holiday.

Knox County Hospital Notes

Patients dismissed from the Knox County Hospital since June 5, 1950:

Mrs. Tim Silba, Rochester; Mrs. G. W. Montandon, Knox City; Mrs. J. E. Hunter, Knox City; J. L. Hunter, Knox City; Mrs. B. B. Hendrix, O'Brien; Linda Myers, Red Springs; Mrs. J. R. Rushings, and baby daughter, Knox City; Elmer Daniels, Crosbyton; Jane Valancia, Roswell, New Mex.; Baby Elizabeth Carlton, Truscott; R. W. Brown, Rochester; Mrs. J. D. Horne, Gilliland; Baby Frazier, Aspermont; Mary Walker, Weinert; U. B. Willis, Goree; Frances Nance, Munday; Mrs. Fleda Harris, Munday; Mrs. Wm. Griffith, Knox City; Mrs. H. Elliott, Benjamin; Mrs. P. W. Donnell, Knox City; Baby Boy Donnell, Knox City; Mrs. Lee Patterson, Munday; Mrs. D. A. Patterson, Rochester; J. W. Barker, Benjamin; Gary Franklin, Goree; Mrs. O. L. Knight, Knox City; Richard Buckley, Knox City.

Patients in the Knox County Hospital June 12, 1950:

A. G. Ilesung, Gilliland; Mary J. Valancia, Roswell, New Mex.; Mary K. Robinson, Seymour; Mrs. Frank Douglas, Aspermont; Mrs. M. A. Mitchell, Rochester; Mrs. J. W. Cox, Knox City; Mrs. A. C. Hawks, Benjamin; Mrs. J. W. Trainham, Vera; Patsy Webb, Rochester; Mrs. O. A. Green, Knox City; Mrs. A. R. Reeves, Weinert; Gilbert Martinez, Munday; Mrs. Howard Johnston, Knox City; Fannie Mora, Munday; Harold Alcock, Knox City.

BIRTHS
Mr. and Mrs. P. W. Donnell, a son, Knox City

Mr. and Mrs. Wayne West, a daughter, Benjamin

Tennis Tourney Slated To Begin Here On Monday

David Green, instructor of the youth recreation center, announced Wednesday that a city tennis tournament will begin Monday, June 19 through June 23, for all boys and girls interested in the program.

There will be six divisions in the junior division for boys and girls up to fourteen years of age, it was stated, and a division for boys and girls from fifteen to seventeen years of age. Those entering who are over eighteen years of age, will be classed in the men's division.

The tournament will be made up of singles and doubles and as many entries as possible to make it a successful city tournament are asked to enter.

Coach Green stated that all entries must be in by Saturday noon, June 17th. Schedules for the matches will be posted at the courts.

Wildcat Slated In Knox County

Sinclair Oil and Gas Co. has made a location for a 6,800-foot wildcat three miles north of Benjamin, and drilling operations are getting under way.

Sinclair staked its No. 1 G. H. Beavers, 330 feet from west and 1,500 feet from north lines of section 224, block 44, H&TC survey. It will be drilled with rotary. There is no close production.

UNDERWOOD BRINGS IN A NEW SHALLOW WELL

The Wisdom Palo Pinto lime pool of Knox County, 6 1/2 miles northeast of Goree, was extended one location south with completion of the R. Clay Underwood No. 3 Earl Wisdom, block 216, BBB&C Survey. The well was completed to pump 59 barrels of 33.3 gravity oil daily with pay from 1,687 to 1,703 feet.—Fort Worth Star-Telegram.

J. D. Gillespie Hits Nearest To City Population

A newcomer to our town—one who has been here barely a month—seems to know more about guessing the number of persons in a given locality than those who have "knocked about these beats" for some period. Many of them kinda had the "big eye" in regard to the population of Munday.

J. D. Gillespie, local field representative for the Production Credit Association, almost scored 100 percent on his guess.

He came in the Times office to register his guess some eight or ten days before the figures were announced. Lowering his head in deep thought for a moment, Gillespie set down his figure and went on his way.

In checking the guesses that were turned in, we found Gillespie had guessed 2,269. The population of Munday, revealed last Friday and which became substantiated by a letter from Ben E. Hausler, census supervisor of Wichita Falls on Saturday, is 2,270. Gillespie's guess was only one short. He gets a 3-year subscription to the Munday Times.

While a majority of the guesses remained in the 2,000 bracket, most of them were higher than the given population and a few were still below the 2,000 mark.

Other guesses nearest the official figure are: Mrs. F. H. Russell, 2272; Ardell Spelec, 2273; Claude W. Hill, 2278; R. H. Howell, 2286; Carl Gage, 2246; Mrs. Harry Russell, 2299 and Teddy Lain, 2225.

Guynn Hickman Announces For Commissioner

Guynn Hickman, well known farmer and rancher of the Truscott community, this week authorized the Munday Times to announce his candidacy for the office of Commissioner of Precinct No. 3, Knox County, Texas, subject to the action of the voters in the coming primaries.

"This is my first venture into politics," Mr. Hickman said in making the announcement, "and it's all new to me. I feel, however that my knowledge of the needs of our county, gained through 49 years of residence in this county and precinct, fully qualifies me to make you a good commissioner.

"If elected to this office, I pledge you my best efforts at all times. I will cooperate fully with other members of the Commissioners Court in all moves which I feel mean the advancement of the county and its people, being unbiased in my views and giving careful consideration to all matters pertaining to the precinct and county.

"Your vote and influence in the coming primary election is earnestly solicited and will be deeply appreciated."

Methodists To Open Bible School Monday

According to Rev. R. L. Butler, pastor of the First Methodist Church, the Vacation Bible School for Methodist youths will begin Monday morning, June 19th, at 8:30 o'clock.

The school will be in session for two hours, ending at 10:30 a. m. each morning for one week. The grade school building will be the meeting place.

Children from kindergarten age to intermediate age are invited to attend, Rev. Butler said. The school will close with a public program on Sunday night, June 25th. The time will be announced at a later date.

Bob Ballinger of Dallas is here visiting in the home of Dr. and Mrs. A. A. Smith, and other relatives and friends.

Munday, Knox City and Goree Show Increase

Following the trend of other counties in this area, Knox County has shown a decrease in population during the past ten years, according to census figures released last Friday by census officials.

Loses 42 Persons
Although the trend is downward, as are practically all counties of this area, Knox County's loss in population was not as great as many others for which census figures have been released.

The county lost only 42 persons in the last 10 years, according to the figures. The 1940 count was 10,090 persons, while that of April 1, 1950, was 10,048.

Towns Show Gains
Three towns in the county, Munday, Knox City and Goree—showed a gain in population during the 10-year period, while Benjamin, the county seat showed a loss of 68 persons.

The official report coming from Ben E. Hausler of Wichita Falls, district supervisor, as the "preliminary announcement" gave Munday's population at 2,270, as compared with 1,545 in 1940, a gain of almost 50 percent, or 725 persons.

Knox City with 1488 population showed a gain of 361 persons over the 1940 census, which was 1127.

Hausler did not give figures for other towns in the county, since they did not reach 1,000 in population. The unofficial count was:

Benjamin, 513 in 1950, a loss of 68 over the 1940 figure of 599.

Goree, 625, a gain of 200 persons from 1940, which showed 425.

"The figures are believed to be substantially correct," said Mr. Hausler, in making the announcement, "but are subject to revision after returns for non-residents are credited to their proper locality and other routine checks have been made.

Although material revision of the preliminary count is unlikely, it may possibly occur after careful examination of the returns. The official announcement of population will be made at a later date by the Director, Bureau of the Census, Washington 25, D. C.

Have You Been Counted?
Rex Howell, chief enumerator for Knox and Foard counties, stated Monday there is still time for anyone who was missed during the enumeration period to be counted in the 1950 census.

A diligent effort was made to count every person in the county, but there is a possibility that someone was missed. Mr. Howell requested anyone knowing that he hasn't been included in the enumeration to get in touch with him, and such names will be forwarded to Washington before the deadline.

Colored Boys To Play Ball Sunday

Come one, come all! See the big ball game!

Munday and Rule colored boys cross bats at 3:30 o'clock Sunday, June 18, one mile west of Munday on the Knox City highway. Admission 35 cents and 15 cents.

B. B. Thomas, mgr.
Doris Humphrey, capt.

Latham Home Is Destroyed By Fire

Word was received here last Friday that the home of Mr. and Mrs. Clyde Latham in DeLeon was completely destroyed by fire on Wednesday morning, June 7.

It was reported that the Lathams were away from home and that nothing was saved from the house.

Mr. Latham is a former coach in Munday High School.

Be careful. Obey state and local traffic rules.

Entered as second class matter January 4,
1919, at the postoffice in Munday, Texas, under
Act of Congress, March 2, 1879.

OUR NEEDS FOR 1950

1. Completion of our portion of the Throckmorton road, giving the farmers of that area an all-weather outlet.
2. A farm-to-market road to the north and east of Munday, possibly connecting with the Herner road.
3. A U. S. Federal building. Munday needs a new post office home.
4. More homes in Munday. We did a good job in 1949, but there's still a housing shortage.
5. A new telephone system, giving the town adequate telephone service and tapping the rural area surrounding the town.
6. Greater cooperation of business man, farmer, and citizen toward long-range development for our community.

WE STILL HAVE THE WAR TAXES

The House Ways and Means Committee has voted to make certain downward revisions in the wartime excise taxes. As an example, it halved the 20 percent admission tax on tickets to entertainments, and did the same thing with the tax on luggage. Other commodities and services came in for relief.

This is a step in the right direction, but it is not the end of the matter, whether or not the current Congress takes further action. The maintenance of these taxes, regardless of the percentage figure, is a breach of faith now that the war is long over. They are not "luxury" taxes. Applying as they do to commercial passenger transportation, a long list of commodities including baby oil and the most inexpensive cosmetics, they fall on many absolute necessities—and, for the most part, they are paid by people of small or moderate means.

It must not be forgotten that these taxes were strictly part of the wartime emergency legislation. They were imposed, not only for revenue reasons, but to discourage the manufacture and use of anything that did not contribute to the war effort. They came into being, in other words, at a time when it was necessary to sharply reduce civilian living standards and habits.

Now, with the shooting over, the continuance of these business-hurting taxes—with their adverse effects on employment and trade is inexcusable.

RETAILERS ARE THE VICTIMS

A spokesman for one of the principal retail associations of the country recently said that "retailers are being made the victims of an intolerable situation resulting from delays in final government action to eliminate excise taxes.

SUBSCRIPTION RATES
In first zone, per year ----- \$2.00
In second zone, per year ----- \$2.50

The Munday Times is Democratic, yet supporting only what it believes to be right, and opposing what it believes to be wrong, regardless of party policies, publishing news fairly, impartially.

NOTICE TO THE PUBLIC: Any erroneous reflection upon the character, standing, or reputation of any person, firm or corporation which may appear in the columns of this paper, will be gladly corrected upon due notice being given to the publisher, at the Munday Times office.

Stores are suffering serious sales losses on excise taxed merchandise, and these losses are mounting rapidly. . . .

Many prospective purchasers of taxed merchandise are postponing their buying in the hope that the taxes will be repealed. And in the meantime, the retailers are not the only ones who are adversely affected. Production is down in the factories which produce the goods—and employment suffers accordingly.

These excise taxes were 100 percent measures. It was widely said—and believed—that they would be promptly repealed when the war ended. Yet they are going on an on, years after the last shot was fired. They apply to many virtual necessities—transportation tickets, for example, baby oil, cosmetics, inexpensive as well as costly jewelry and watches, and so on. Each time we buy one of the taxed items or services, we must pay up to 20 percent more than the normal purchase price because of this levy.

Past Congresses have postponed consideration of excise tax repeal. This Congress is at last—but slowly—getting around to doing something about it. Some Congressmen feel that the taxes should be reduced by about half. However, elementary justice demands their total repeal—to the benefit of everyone.

GOOD PRICES FOR CATTLE

A new item in Country Gentleman says, "Although a record number of beef cattle are jamming feed lots, particularly in the Corn Belt, and prospects point to a liberal supply of good to choice fat cattle on the market this fall, both feeders and economists expect price to hold well, especially for the better grades." The magazine quotes a leading Iowa cattleman who observed, "Too many cattle have been going to market unfinished. Better grades will continue to sell at a good price."

As a matter of fact, production of most kinds of livestock is now on the increase, due to excellent feed prospects, an expanding consumer demand, and other favorable factors. Department of Agriculture economists forecast that this upward trend will continue for a considerable period of time. And the increase is not accounted for solely by the large producers. A great many smaller farmers are exhibiting a wider interest in livestock as one of the most dependable sources of cash income.

This is a nation of meat eaters. Recent medical discoveries have proven that a diet which is high in protein is essential to the health and stamina of the average individual—and protein in the whole state is found in meat, and in a very small number of other foods. Our per capita consumption of meat has been rising, and in all probability it will continue to do so. Livestock production, on a big scale or small, offers great opportunities to agriculture.

Uncle Sam Says

The revered Liberty Bell has been resurrected in tone, shape and size to become the symbol of the Independence Savings Bonds Drive which ends July 4. As the Liberty Bell rang out the theme of political independence, today's replicas of the Bell are sounding a message of financial security—"Save for your independence." Every \$3.00 invested in U. S. Savings Bonds will bring you \$4.00 in ten short years.

BOYCE HOUSE

My only experience as an actor was on a program put on by a Sunday School during my high school days. There was a comedy sketch in which a big, domineering woman was suing for divorce from her husband, who was a little fellow, on crutches and in bandages. I was the "lawyer" for the husband. The opposing "attorney" gave his speech and there was laughter all the way through. I had a speech which was equally funny—we didn't write the speeches; they were written by the author of the sketch. I decided the address would be most effective if delivered as a real lawyer would, only "over-acted" or over-done. So I spoke as pompously as I could, bellowed, pounded the table, strode up and down and waved my arms. There was not a single laugh from the audience while I was speaking—and at the close there was tremendous applause from the crowded hall. As a comedian, I was not.

"A Universal Want-Ad":

Wanted—man for hard work and rapid promotion, who can find things to be done without the help of a manager and three assistants. A man who gets to work on time in the morning and does not imperil the lives of others in an attempt to be the first out of the office at night.

A man who is neat in appearance, and does not sulk at an hour's overtime in emergencies. A man who listens carefully when he is spoken to, and asks only enough questions to insure accurate carrying out of instructions. A man who moves quickly and makes as little noise as possible about it.

A man who looks you straight in the eye and tells the truth every time. A man who does not pity himself for having to dig in and hustle. A man who

FARM PROGRAM NEWS

From the County PMA Committee

TRIGG DISCUSSES FARM PRICE SUPPORTS

In an address at Houston, May 17, Ralph S. Trigg, PMA Administrator and CCC President, told the National Cottonseed Products Association that a "busted" agriculture pulls down the whole economy and paves the way for depression.

Pointing out that cash receipts from farm marketing fell off from around thirty and one-half billion dollars in 1948 to twenty-seven and one-half billion in 1949—a drop of three billion, or about 10 percent, while the rest of the economy has held steady, he said:

"Here is the danger signal. Some downward adjustment from war-time levels in farm prices and income was to be expected . . . But there is a level below which farm income can-

not go without a direct impact on the national economy. And we cannot drop below it without serious consequences."

He called attention to a study made in the early thirties. In this study the 16 states east of the Mississippi and north of the Potomac were grouped as "Industrial." The other 32 states were listed as "Agricultural."

In a review of more than half a million freight waybills and waybill abstracts it was found that in comparing 1935 with 1932—general merchandise shipments increased 51 percent; heavy industrial good, 57 percent; general items such as furniture, 99 percent; and items used by farmers, 165 percent.

Commenting on price support activities of the U. S. Department of Agriculture, the Administrator pointed out that as of April 1, 1950 CCC has invested

No More Damp Cellars, Dusty Drives

Summer is almost here, and with all its easy outdoor living which homeowners look forward to, it also brings some discomforts. High on this list of discomforts is the damp, clammy cellar, that encourages rust, mildew and rot. Another is the dust from driveways and unpaved streets, that makes housecleaning constant and breathing distasteful. This is the story of a homeowner who decided to do something about these two summer bugaboos, and

came up with an amazingly simple solution for both.

A thirty-year veteran with Pittsburgh Plate Glass Company's Chemical Division, Frank Troha experimented with some of their calcium chloride to keep his basement dry. This chemical draws moisture from the air. He rigged up two or three containers for the chemical using burlap sackings supported by a broomstick rack, similar to the one shown in the sketch. He then placed them around his basement and waited. In a matter of hours the cellar was noticeably drier. He had

found an easy, economical way to keep his cellar moisture-free all summer. In doing so he made the cellar a more pleasant place to work, and saved the loss of rusting tools, mildewing cloth materials and rotting window and door frames.

As calcium chloride draws moisture out of the air it liquifies. To catch this liquid Troha placed containers under each bag. In experimenting with the liquid he discovered by putting it on his gravel driveway with a sprinkling can, it held down all the driveway dust, even on the hottest, driest day. For larger driveways, roads or playgrounds it may be applied as shown below.

In addition to the dust binding qualities of the liquid, Troha further found that if properly applied it would kill weeds. And if that isn't enough to qualify calcium chloride as a cure-all for the homeowner, this same solution

spread on walks and driveways in the winter will prevent ice from forming.

a total of a little more than 4 billion dollars of which more than 90 percent was in "storable" commodities. Only about 300 million dollars was in such commodities as dried eggs, dried milk, butter and semi-perishable commodities. He said that CCC's total realized losses on all price support programs from July 1, 1948 through March of this year were 385 million dollars.

He pointed out, however, that when everything has been done that can be done to hold markets at home and abroad, there still will be more cotton produced in this country than can be marketed. This, he pointed out, makes crop adjustment inevitable, and acreage allotments are the fairest way yet devised to make these adjustments.

FARMERS' AND RANCHERS' PROGRAM

Milam County P. M. A. Community Committeemen have visited some 2 thousand 800 farms and the farmer and the committeeman have gone over the farmer's plans to see what he intends to do about correcting erosion, depletion or other conservation difficulties. There are 800 farms in the county yet to

be visited.

This work is being done in connection with the "Farmers' and Ranchers' Conservation Program" which is being carried on in four Texas counties as a part of the Agricultural Conservation Program. Besides Milam County, the program is being carried on in Nacogdoches, Titus, and Childress counties. The program is being carried on in 73 counties in 33 states.

The first step in such a program is to get as complete information as possible about each farm, what needs to be done, what has been done, and what remains to be done in order to determine this the farmer and the committeeman visit every field on the farm. They note the texture of the soil, the topography of the field, and other features. They also enter what has been done in the way of conservation work. They then decide what needs to be done to each field. If they are not sure what should be done the committeeman notes that technical advice is needed.

When the farmer and the committeeman get through going over each field, they know what the needs are, what has been done, and what remains to be done. They list the practices in the order in which they will be put to work on the farm. Then

Ford Tractors Equipped With Proof-Meter

Ford tractors now being received by J. L. Stodghill, Ford Tractor and Dearborn Farm Equipment dealer in this area, are equipped with the Proof-Meter, an instrument which takes much of the guesswork out of tractor operation.

Actually five instruments in one, the Proof-Meter enables the operator to determine at a glance, the engine speed, tractor speed, power-take-off speed, belt-pulley speed, or hours of tractor operation.

The outer band of the Proof-Meter dial is the engine speed indicator. It enables the operator to operate at the correct speed for the job being done. It eliminates guessing at the engine speed, according to its sound.

The tractor speed indicator is important to efficient operation because it allows the operator to select the right speed and

year by year the farmer will know just what he is going to do with a certain field and can make his crop plans accordingly.

When such a plan is worked out for each farm in the county, the county P. M. A. committee can determine what the conservation needs are. This will aid them in their plans to get these needs met.

It is expected that this program will be extended to other counties in the future.

gear for mowing, spraying, planting, and many other farm tasks in which correct tractor speed is essential.

Correct power take-off speed for P. T. O. operated farm operated equipment is made possible by the P. T. O. speed indicator incorporated in the Proof-Meter.

Belt-pulley speed which must be regulated correctly for sawing, grinding, pumping and similar belt work is quickly determined by another band on the Proof-Meter.

Accurate records of tractor performance now are possible through use of the tractor hour record on the Proof-Meter. Not only can farm tasks be timed but the tractor servicing can be done at proper intervals.

Under modern farming conditions, when the tractor is called upon to do an increasingly large variety of tasks, the Ford Tractor Proof-Meter is designed to help get these jobs done efficiently and economically.

You can haul more loads . . .
more miles . . . for less . . .
with Chevrolet Trucks

Take time out to talk to some Chevrolet truck users. You'll find it revealing. You'll discover that Chevrolet trucks pay their way by hauling more loads—more miles—for less! And you'll find that this extra measure of value is even more apparent in the new Chevrolet models. Definitely, they're America's first-choice trucks. Heavy-duty units feature a brand-new 105-h.p. Valve-in-Head engine with the power to pull heavy loads and conquer steep grades. They offer new Power-Jet carburetion for smoother, quicker operation. They bring you the fast, safe shifting of Chevrolet's 4-speed Synchro-Mesh transmission. But whatever your hauling requirements, Chevrolet trucks are your best bet. See them in our showroom. You'll agree.

MUNDAY, TEXAS

Washington News Letter

By Congressman Ed Gossett

WASHINGTON, D. C., June 14, 1950—The most sensational news in Washington this week was made by the Supreme Court. On Monday the Supreme Court handed down numerous decisions, some of which will become historic.

In the Texas Tidelands Case the Court brushed aside all of our contentions and laid federal claim to all of the marginal sea within the described boundaries of Texas. It is my hope and belief that Congress will override the Supreme Court's actions in these tidelands cases. We will probably not get this job accomplished before the next session of Congress.

Three other cases decided by the Court give evidence of a social

Dodge Shipments at All-Time High

Dodge is setting new all-time high records in daily shipments of cars to dealers. Typical shipping operation is loading of Dodge cars on Great Lakes steamer shown above. The ship carries more than 500 cars to Buffalo for re-shipment to dealers points on the eastern seaboard.

cial revolution that is going on in this country. Congress will probably do little or nothing to stop this revolution. In the Sweatt Case the Court held that the University of Texas must admit Negroes to her Law School. In the Henderson Case the Court held that separate facilities on trains for Negroes was unlawful. In the McLaurin Case the Court held that Oklahoma University's separate seating of the Negro, McLaurin, in the classroom was discriminatory. In other words, these three cases in effect set the stage for outlawing all forms of segregation.

On the day following the Court's action on these three cases, under the one minute rule, I made the following statement to the house of representatives:

"MR. SPEAKER. Yesterday might well be called 'Black Monday'. Yesterday's Supreme Court decisions in the Tidelands Cases, the Sweatt Case, the Henderson case, and the McLaurin Case, mark a new low in Anglo-Saxon Court has definitely established itself as a political arm of those who would wittingly or unwittingly, destroy Anglo-Saxon civilization.

"In the absence of congressional action, the Tidelands Case legalizes the theft of property by a superior sovereign. This however is a minor evil compared to the destruction of character which portends from the State laws, and State constitutions are gradually being destroyed.

"If Solicitor General Perlman has his way, America will eventually be Communized. If the Perlman gang continues their successful attack upon American institutions, the Russians can one day take this country without firing a shot. The delivery of atomic secrets to the Russians by spies and traitors is of pured to the destruction of American principles by executive fiat and judicial decree. Our foundations are rotting and are being eaten away.

"Mr. Speaker, I hope the gloom and pessimism to which I now succumb is not justified. I hope there is enough integrity and intelligence left in this country to stem the tide that now threatens to overwhelm us.

However, Mr. Speaker, the inscription above the Supreme Court should be changed to read 'Gas Chamber of American Liberties.'

On February 22, 1832, speaking at a George Washington centennial birthday celebration, Daniel Webster had the following to say of constitutional government:

"Other misfortunes must be borne, or their effects overcome. If disastrous war should sweep our commerce from the ocean, another generation may renew it; if it exhaust our treasury, future industry may replenish it; if it desolate and lay waste our fields, still, under a new cultivation, they will grow green again, and ripen to future harvests. It were but a trifle even if the walls of yonder Capitol were to crumble, if its lofty pillars should fall, and its gorgeous decorations be all covered by the dust of the valley. All these might be rebuilt. But who shall reconstruct the fabric of demolished government? Who shall rear again the well-proportioned columns of constitutional liberty? Who shall frame together the skillful architecture

FATHER-SON APRONS SUGGESTED FOR DAD

For the man who has a workshop at home and likes to putter around the house with tools, an ideal Father's Day gift is a new father-son carpenter apron set. The pair of aprons, which have recently been put on the market, are made of sturdy cotton denim.

The denim aprons have roomy, workmanlike pockets with adequate space for equipment, pencil, ruler, and other paraphenalia. The larger man's apron and the smaller boy's apron are made identically.

Time-Saver Trick

When there's leftover rice in the refrigerator, mix it with a can of condensed vegetable soup a half can or so of water and some grated cheese. Put into a greased porcelain enameled pudding pan and top with buttered crumbs. Bake in a moderate oven until nicely browned. Serve from the clean-looking enameled baking pan.

Visiting in the home of Mr. and Mrs. Bob Jarvis over the week end was Mrs. Jarvis' mother, Mrs. Williams of Newcastle.

Gynn Hickman of Truscott was here Tuesday, visiting with friends and attending to business matters.

which unites national sovereignty with States rights, individual security, and public prosperity? No, if these columns fall, they will not be raised gain. Like the Coliseum and the Parthenon, they will be destined to a mournful, a melancholy immortality. Bitter tears, however, will flow over them, than were ever shed over the monuments of Roman or Grecian art; for they will be the remnants of a more glorious edifice than Greece or Rome ever saw, the edifice of consitutional American liberty?

New Instrument Aids Farmer

FORD TRACTORS now coming off the assembly lines at the Ford Highland Park, Michigan, Plant are equipped with the new Proof-Meter, an instrument which "takes the guesswork out of tractor operation." Actually five instruments in one, the Proof-Meter shows engine speed, tractor speed, power take-off speed, belt pulley speed and total hours worked by the tractor. The farmer in the picture is recording hours of tractor operation for use in determining his farming costs. In the lower right hand corner is an enlarged close-up of the Proof-Meter, which Dearborn Motors officials say is the first instrument of its kind to be made available on a farm tractor.

Creep Feeding Of Calves Practical

Many ranchers and stock farmers in the state have found that creep feeding for calves is a practical and economical practice to follow. According to U. D. Thompson, assistant extension animal husbandman of Texas A. & M. College, now is the time to start the young calves on creep feeders.

He says the feeders are easy to build and are not expensive. The enclosure or fenced area should be constructed with an opening large enough for the calves to get through but too small for older cattle. Place the feeder inside the enclosure and fill with whole grain. He points out that it is a good idea to confine an older animal in the creep pen as a decoy for the calves and also as an aid in getting them to eat from the feeder.

He points out that as much as 100 pounds of meat may be added to the calf's weight during the first six to eight months through the use of creep feeding. It has other advantages, too; permits marketing at an earlier age; the mother cows stay in better condition; calves are more uniform; shrinkage is less at weaning time; it shortens the feeding period after weaning and serves as a good market for home grown feed.

There are certain disadvantages that might make creep feeding impractical on some farms and ranches and Thompson points them out. Extra equipment may be needed and there is the problem of getting the calves to eat. Hogs, sheep and goats must be kept out of the feeders and it would be well to check the prices you can expect for the calves when they are ready for market, the extra cost of production might not be justified. Creep feeding doesn't work so well in pastures that contain more than two sections and sometimes the location of the creepers creates a problem.

Thompson suggests that you check your own situation and if the advantages outweigh the disadvantages, give the creep feeding program a trial. Your local county agent can help you with plans for the enclosure as well as plans for the creep feeder. He can give you a suggested ration or two for use in the feeders and can probably help clear up a lot of other questions that you might have on creep feeding.

Weekly Health LETTER

Issued by Dr. Geo. W. Cox
M. D., State Health Officer
of Texas

AUSTIN—It is a 50-50 bet that you have some sort of ringworm infection. Check to see. Chances are it will be in your scalp hair, on your groin, or on your feet—either on the soles or between the toes. If you don't find it, you're lucky, because while it isn't serious, its itching and persistence is very annoying.

A fungus—the same one that causes food to mold—causes ringworm. It's one of the world's most common ailments, with authorities estimating that half of the world's population is affected. It is more common this time of year than any other.

Animals get it, too. As a matter of fact, cats, dogs, rabbits, mice and fowls are frequently the source of infection in man. A child plays with an infected dog, the dog's hair brushes the child, and the child stands an excellent chance of ringworm infection.

The scales which are formed can cause new infections on the body, so an infected person has to be careful to keep it from

spreading. Advance cases exude a clear, runny fluid—it "weeps" as doctors say, and the fluid can cause breaking out on whatever part of the body it touches. Children are especially vulnerable to scalp ringworm. Epidemics are usually started in schools and institutions.

Swimming pools, locker rooms, and gyms are potent sources of infection. Everyone has heard of "athlete's foot." It is nothing more than a type of ringworm. So is the so-called "barber's itch."

Preventive measures call for avoiding persons and animals

known to be infected. Swimming pools, gyms, locker rooms and the like can do their part toward ringworm control by boiling towels, swimming suits and their other public facilities for 30 minutes. Foot baths are also worthwhile.

The best thing to do is to keep clean at all times. But if you happen to get ringworm, or if you have it now, it will be better for all concerned if you report to your family doctor immediately. He'll recommend medication designed to shorten the course and lessen the severity of the infection.

Miss Betty Stodghill left last Friday for Kansas City, Mo., where she is visiting her sister and family, Mr. and Mrs. Eugene Groce, for several weeks. She was accompanied by Wauricka, Okla. by Mrs. Lucille Stodghill, Miss Ruth Stodghill and Miss Charlotte Hannah.

Mrs. W. F. McMahon returned last Sunday from several days' visit with relatives in Ft. Worth and Arlington.

Mrs. Henry Stavinaho of Seymour was a business visitor in Munday last Friday.

Mr. and Mrs. Clinton Sherrill and daughter, Jan, of Tacoma, Wash. spent the past week end here visiting in the home of Mr. and Mrs. Clayton Wren and other relatives. While here they are also visiting relatives in Seymour.

C. R. Elliott and granddaughter, Ann Elliott, returned home Saturday from Corpus Christi, Waco, and Grand Prairie, where they visited relatives for about a week.

From where I sit... by Joe Marsh

Oh—My Aching Feet!

Other night just as I was settling down with a book and a mellow glass of beer, the wife calls down, "Joe—I almost forgot—you and I are going over to the High School and take dancing lessons!"

Now, I can waltz with the best of them, so I put up a quiet struggle against going but it was no use. Turns out it was the class in square dancing. And from the look on some of the other men I judged I wasn't the only one there who had been taken by surprise!

Miss Williams and Curly Lawson taught us what to do with our

feet, and before it was over, darn if I wasn't actually enjoying myself. Going back next week, too!

From where I sit, we sometimes get an idea into our head for or against something and then hang onto it for dear life. Whether it's square dancing, or the right to enjoy temperate beer or ale now and then, we owe it to ourselves as Americans to take an open-minded attitude—that's even after we make up our minds about it!

Joe Marsh

Dollar for Dollar— you can't beat a PONTIAC

A Wonderful Performer —at a Wonderful Price!

COME IN AND SEE FOR YOURSELF!

Almost everybody has a good word for the immensely popular Pontiac. The most enthusiastic spokesmen are those who own this great car. The facts behind this admiration of Pontiac are very simple—

Pontiac is America's lowest-priced Straight Eight. Pontiac is the lowest-priced car with GM Hydra-Matic Drive. Pontiac is the

most beautiful thing on wheels. And Pontiac is famed everywhere for its dependability and economy.

Those are the facts, and they are impressive. But they are a lot more impressive to the person behind the wheel of a Pontiac. He knows for sure that dollar for dollar, you can't beat a Pontiac!

Bridal Shower Given To Honor Mrs. M. Benner

The Munday Study Club house was beautifully decorated last Friday night with roses and gladioli and greenery for a bridal shower to honor Mrs. Marshall Benner of Abilene.

Mrs. Benner is the former Gloria Jo Smith, daughter of Mr. and Mrs. S. G. Smith of Munday.

Mrs. J. O. Bowden greeted the guests at the door and presented them to the honoree; her mother, Mrs. Smith, Miss Sammie Smith and Mrs. Willard Reeves.

Mrs. Don Wardlaw poured the punch while Mrs. Jim Reeves served the cake. White cake squares decorated with rose buds and pink mints were served the guests.

Miss Sue Hallmark and Miss Bernadean Suggs, accompanied by Miss Shirley Yost on the piano, gave several solo selections. Presiding at the bride's book was Miss Patsy Whitworth.

Hostesses for the occasion were Mrs. Don Wardlaw, Mrs. Ernie Reynolds, Mrs. Sidney Winchester, Mrs. Clarence Jones, Mrs. J. O. Bowden, Mrs. Port Suggs, Mrs. Jim Reeves, Mrs. Ben Yarbrough, Mrs. D. E. Whitworth, Mrs. Frank Nance, Mrs. Fidelia Moylette and Mrs. Ardell Spelce.

Mr. and Mrs. A. M. Searcey were in Roby last Friday and Saturday, visiting Mrs. Searcey's brother-in-law and sister.

Puts Vacuum Cleaner to Novel Use

BROOKLYN, N.Y.—Blowing up balloons is just one of the thousand-and-one uses to which this Lewyt vacuum cleaner can be put. Preparing for a Valentine party, this wise young homemaker has attached the wide end of a common kitchen funnel to the end of the suction hose on the vacuum cleaner. The small end of the funnel is inserted into the balloon, the current turned on and, presto, the balloon is blown. One of the major features of the cleaner, which has seven attachments, is that it has no dust bag to empty.

Munday H. D. Club Meets Wednesday; Seven Present

The Munday Home Demonstration Club met Wednesday, June 14th.

In the absence of the president and secretary, Mrs. Nora Broach acted as president, with Mrs. R. Hargrove as secretary.

The Munday club will serve as hostess at council June 23rd.

Mrs. J. C. Gollehon gave a demonstration on making blueberry muffins. These muffins were served on the refreshment plate.

Mrs. Nora Broach gave a report on her visit to the Wichita State Hospital. She delivered the clothing and quilt scraps and reported that the inmates were elated over receiving them.

Refreshments consisting of sandwiches, cookies, blueberry muffins, and cold drinks were served to Mrs. J. C. Gollehon, Mrs. Nora Broach, Mrs. Buel Claborn, Mrs. R. Hargrove, Mrs. Ralph Weeks, Mrs. Frank Bowley and Virginia Hargrove.

The next meeting will be June 28th with Mrs. Buel Claborn as hostess and Mrs. J. O. Tynes as co-hostess.

HERE FROM JERSEY CITY

Mrs. Victor Zagarola and little son, Stephen, of Jersey City, N. J. are here for a visit with Mrs. Zagarola's parents, Mr. and Mrs. C. C. Jones, and with other relatives. Mr. and Mrs. Jones met them in Dallas last Sunday.

Doc Burda of Brownfield visited with friends here the first of this week.

G. W. Hammons Buried June 8 At Knox City

Funeral services for George W. Hammons, 58, were held from the First Baptist Church in Knox City at three o'clock last Thursday afternoon. Rev. Ray G. Harthcock, pastor, officiated.

Mr. Hammons passed away Wednesday morning, June 7, at the Knox County Hospital, suffering a cerebral hemorrhage about a week earlier. He had been in ill health for 18 months.

He was born in Alabama on May 24, 1892, and came to Texas when he was 14 years of age. He married Miss Lulu Chadick on December 8, 1912, at Hico, and the family came to Knox County in 1926. He was a member of the Baptist Church.

Surviving him are his widow, one son, Doil Hammons of College Station; a daughter, Mrs. Glenn Marshall of San Marcos; four sisters, Mrs. D. H. Henry of Knox City; Mrs. R. H. Howell of Munday; Mrs. Joe Phillips of Hico and Mrs. Jerry Benson of Snyder, Okla.; one step-sister, Mrs. Jim Alexander of Stephenville; and four grandchildren.

Mr. and Mrs. Buster Latham and Mrs. Billie Jo Bates of Goree took their daughters, Linda Lee Latham and Patricia Bates, to a Wichita Falls hospital Monday, where the girls underwent tonsilectomies. They are reported to be getting along nicely.

Knox City Is Host At Postal Meet Tuesday

Knox City was host to the annual banquet of the Brazos Postal Association when it met last Tuesday night at the club house in Knox City.

Decorations were of spring flowers and the postal theme was carried out. As members and guests arrived, they "called for their mail" at an improvised post office. They each received a letter containing the program for the evening and a package containing their food.

Professor A. F. Edwards of Midwestern University in Wichita Falls was speaker. Postmaster Jeff Graham of Knox City was master of ceremonies.

Recorded music was furnished throughout the evening.

Approximately sixty guests and members attended the banquet. Those present represented Goree, Weinert, Sagerton, Haskell, Stamford, Rule, Benjamin, Munday and Knox City.

Mahlon Boggs spent the week end in Dallas with his brother, A. C. Boggs, who is in a Dallas hospital. He reported A. C. getting along fine following his operation and expects him to be brought home within a few days. Mrs. Mahlon Boggs accompanied him home Sunday after spending the week at A. C.'s bedside.

Mr. and Mrs. Bill Riddle and Mr. and Mrs. Rufus Basin and son of Denton; Mr. and Mrs. Jack Barger and son and Mr. and Mrs. Norris Barger and son of Fort Worth were week end guests in the home of Mr. and Mrs. N. A. Howeth and family.

Week end guests of Miss Lavonne Darter were Misses Jo Russell, Billie Reed and Runez Gregg of Gorman.

SUNBACK IS BACK!

The sunback-bolero combination that made such a hit with fashionable femmes last season is back again this year, more popular than before. Here is a typical sample of the smart cotton bolero-sunback ensembles you'll be seeing everywhere this summer. This capelet bolero and sunback are designed in cotton broadcloth with lace trim, the Miami Fashion Council reports.

Mrs. Tom Martin has been in Abilene for some time, attending the bedside of her son, Buddy Martin, who underwent a major operation in an Abilene hospital. Buddy is reported to be improving.

Mrs. Paul Pendleton and daughter, Jan, returned home last Saturday from Pittsburg, Texas, where they visited with Mrs. Pendleton's mother, Mrs. S. O. Spencer, and other relatives for about ten days.

Mrs. E. B. Littlefield and son, Eddie, were visitors in Stamford last Monday.

Mr. and Mrs. Ardell Spelce attended the funeral of a relative in Electra last Tuesday.

ON HONOR ROLL

Mrs. Patricia H. Denham of Munday is among the 111 students of Kansas State Teachers College, Pittsburg, Kansas, who made the spring semester honor roll, according to an announcement made by J. U. Massey, registrar.

J. L. Hill, Jr., of the Production Credit Association in Stamford was a business visitor here the first of this week.

GOES TO HOSPITAL

Mrs. S. E. McStay entered the Wichita Clinic Hospital the latter part of last week. She underwent a major operation several days later and, according to reports, she is doing fine.

Miss Maxine Hill of N. T. S. C., Denton, spent the week end with relatives in Cedar Hill.

Goree News Items

Mr. and Mrs. Clarence Moore and daughter, Brenda Kay, of Fort Worth spent the week end visiting his parents, Mr. and Mrs. Hute Moore.

Mr. and Mrs. James Carver have returned from a trip to the west coast and several of the western states.

Mr. and Mrs. Melvin Cooksey, Ward and Peggy, spent Saturday and Sunday in Dallas visiting relatives and also attended the Huntsville rodeo.

Mr. and Mrs. Ernest Smith and children of Fort Worth spent a few days last week visiting his brother, J. J. Smith.

Dr. and Mrs. W. M. Taylor and Mrs. Taylor's sister, Mrs. T. S. Hollis, and Dr. Taylor's nephew, Fred Thurman and wife and Mrs. Thurman's sister, Miss Millie Loughry, all of Atlanta, Ga., returned the first of the week from a very pleasant trip through New Mexico and points in Colorado.

Mr. and Mrs. Barton Carl and children, Jane and Cathy, left Sunday to visit relatives in Arkansas.

Mrs. Homer Moore left Wednesday for Fort Worth to visit her mother and other relatives.

Visitors in the Marion Jones home during the week end were Mr. and Mrs. Dalton Jones and children, Mr. and Mrs. Gene Russell, Mr. and Mrs. Robert Worley and son, all of Seymour, and Philip Jones of Sweetwater.

Mr. and Mrs. Virgle Cowsar and grandson of Abilene visited relatives in Goree Saturday.

Miss Virginia Anne Arnold left recently for Austin where she will attend school at the State University. Her brother, Charles Arnold and sister, Marjorie Arnold, both live in Austin, also.

Mrs. Odie Waddell and daughter of Abilene spent the week end with Mr. and Mrs. Cody West.

Mr. and Mrs. Bryan Lawson and daughters of Rule were visitors in Goree the past week. Mr. Lawson will move his family to Goree soon as he will be superintendent of the Goree public school next term.

Visitors in the W. O. Lewis and J. J. Smith homes during the week end were Mr. and Mrs.

R. D. Lackey and Mrs. Bobbie Adkins and baby of Haskell, Mrs. H. J. Hambleton and baby, Wichita Falls, Mr. and Mrs. G. C. Brockett, Jo and Kenneth, Miss Collen Brockett and W. C. Nance of Munday.

Mr. and Mrs. Buster Chamberlain and Mr. and Mrs. S. G. Hampton were among those to attend the postal employees banquet in Knox City Tuesday evening.

Mr. and Mrs. Wade Coursey and daughter of Wichita Falls visited in the home of Mr. and Mrs. Hervey Butler the past week.

Telephone Company Continues Expansion

With the installation of a new telephone in the home of Mr. and Mrs. H. W. Winslow at Carlsbad, New Mexico, the Southwestern Associated Telephone Company and its subsidiary companies are now furnishing telephone service to more than 100,000 company owned telephone stations. It was announced today by Mr. Roy Autry, President of the telephone company.

At the close of World War II Southwestern Associated Telephone Company served slightly less than 40,000 telephone stations. Since that time, the company has more than doubled in size by the installation of additional telephones and by the acquisition of more telephone property. The most recent acquisition was the Two States Telephone Company, which formerly had headquarters at Texarkana, and which will be consolidated with Southwestern Associated Telephone Company when details can be completed.

Mr. Autry pointed out that having reached 100,000 company owned telephones there would be no let up in the company's determination to install a continually increasing number of new telephones and to furnish present subscribers with the type of service which they desire.

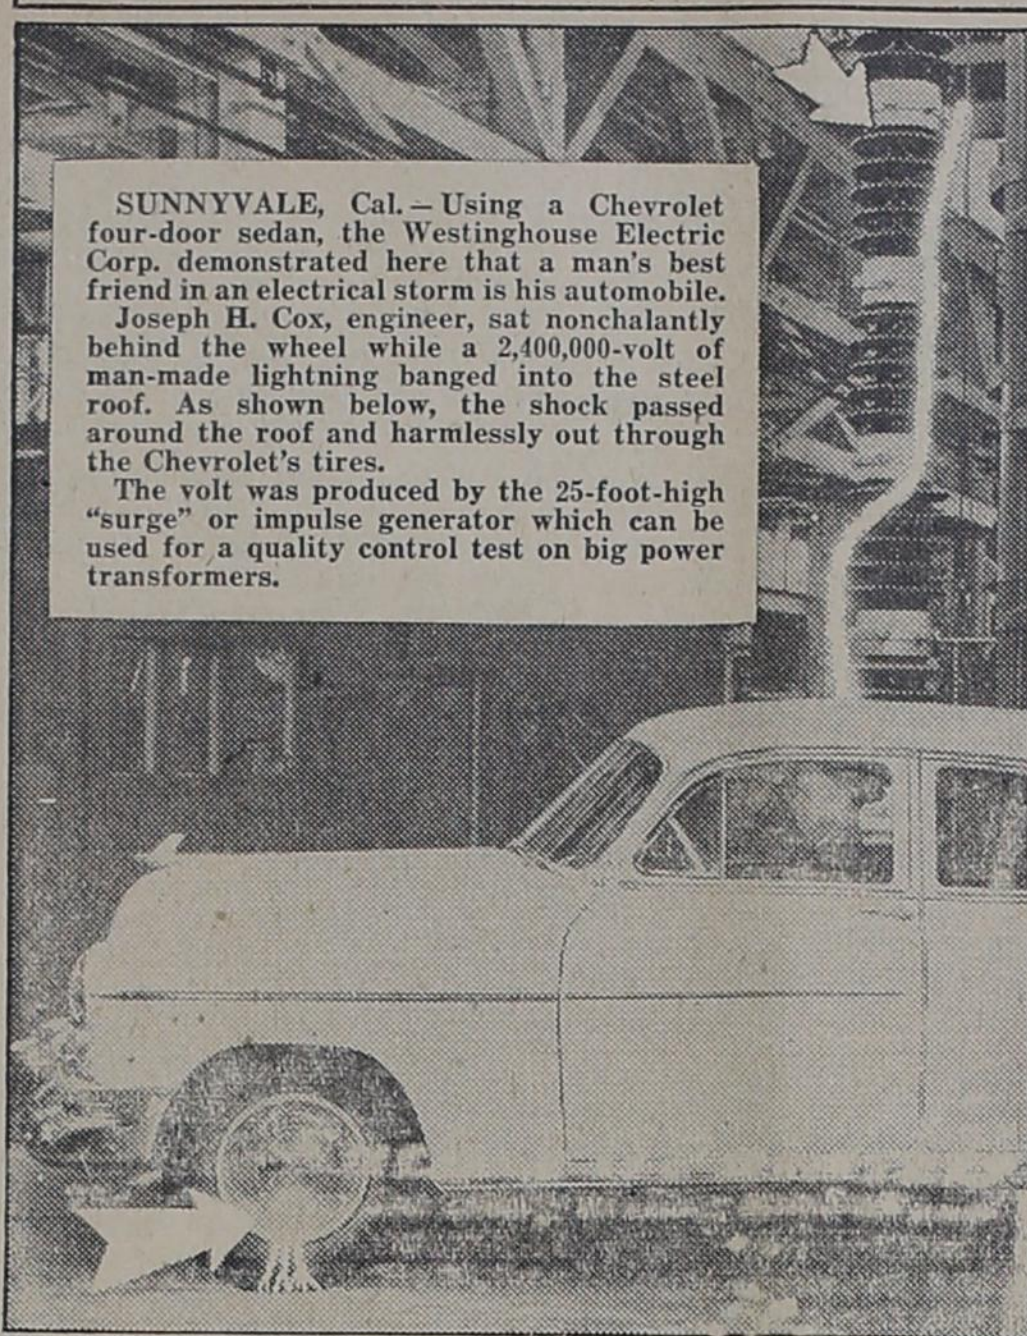

Southwestern Associated Telephone Company is one of the operating companies of the General Telephone Corporation system, the largest of the non-Bell telephone companies. Southwestern Associated Telephone Company is presently furnishing telephone service in five of the Southwest states, Texas, Arkansas, Louisiana, Oklahoma and New Mexico.

Lee Haymes is visiting his brothers and sisters in Lubbock, Plainview, Amarillo and other points this week. He is on vacation from his duties at the post office.

Sied Waheed of Lubbock was a business visitor here the first of this week.

E. E. King was a business visitor in Abilene last Monday.

Sedan Defies Lightning Bolt

SUNNYVALE, Cal.—Using a Chevrolet four-door sedan, the Westinghouse Electric Corp. demonstrated here that a man's best friend in an electrical storm is his automobile. Joseph H. Cox, engineer, sat nonchalantly behind the wheel while a 2,400,000-volt of man-made lightning banged into the steel roof. As shown below, the shock passed around the roof and harmlessly out through the Chevrolet's tires. The volt was produced by the 25-foot-high "surge" or impulse generator which can be used for a quality control test on big power transformers.

4-H Roundup Being Held At Texas A.&M.

The campus of A. & M. College is a beehive of activity this week. 4-H Club members from every section of the state moved in Sunday afternoon, June 11, to be on hand for the annual 4-H judging and team demonstration contests on Monday. The 4-H Roundup was held June 13 and 14, being followed by the annual conference, June 15-16, for all agricultural extension personnel.

The 4-H Roundup got under way Monday night with a get-acquainted program—a jeans and calico roundup. For the second year, Billy Triggs, minister of music, First Methodist Church, Wichita Falls, directed the group singing—always a favorite part of the program for 4-H delegates.

Director G. G. Gibson, Texas Agricultural Extension Service, welcomed the 4-H boys and girls to the college, and in rapid-fire order came introduction of officials of the A. & M. system. During the afternoon, visits were made to different departments of the college for special shows. The evening program was highlighted by the annual 4-H leaders banquet and the

state 4-H dress revue.

Featured on the Wednesday morning program was reports from the 1949 out-of-state 4-H trip winners. Lee Ruth Stevens, Dallas County; Beverly Runnels, Brazoria County; Harry Lee Schneider, Guadalupe County and Carter Gene White, Garza County, reported on the national 4-H club camp. Fred L. Sutton, Menard County, reported on the American Youth Foundation Camp, Danford Award. Betty Bernsen, Nueces County, and Alton Nelsen, Wharton County, 1949 International Farm Youth Exchange delegates from Texas, gave reports on their trips to Sweden and Denmark. Barbara Dean, Johnson County, described the activities of the 1949 National 4-H Club Congress.

This section of the program was followed by an address by President M. T. Harrington, Texas A. & M. College. The afternoon was devoted to special departmental shows on the campus.

The final night program on Wednesday featured 4-H talent and the presentation of awards to the winners in various contests. The talent show was in the form of a pageant and was held at Kyle Field.

Mrs. Claude Hill and children, Ed, Emogene and Claude, Jr., were visitors in Cedar Hill and Dallas over the week end. They attended the wedding of Mrs. Hill's niece, Traphene Parramore, and J. R. Hickman.

THE MUNDAY TIMES

GROWNUP girls, too, can remind the family of the poem "Sugar and spice and all things nice . . ." when these cookies are served. They're called *Spice Meringue Bars* and easy as breathing to make. Beat 2 egg whites until stiff. Then gradually beat in ¼ cup sugar and ½ tsp. vanilla. Blend in 1 package spice cake mix (the prepared just-add-water kind) with 1 cup lukewarm water. Grease a 7x11-inch pan with unsalted shortening, line with greased waxed paper. Pour batter into pan and spread meringue on top with spatula. Sprinkle with ½ cup chopped walnuts or blanched almonds and bake in preheated oven (350°F) for 35-40 mins. Cool in pan for 10 mins. before turning out. When cold, cut down center lengthwise and across in 1-inch bars. Yield: 22 cookies.

Because of high cooking temperatures, a type of oxide coating forms on the aluminum burner heads of your gas range. Just shine them up with ordinary aluminum cleaner.

The smoky type of cheese lends piquant taste to broccoli or artichokes. Melt cheese in double boiler, pour over the vegetable.

If there's a slight odor when feather pillows are drying in your gas dryer, don't worry about it. Feathers are animal fibers and the odor is caused by the high temperature needed to get the pillows thoroughly dry.

Protein in fish are what makes it so nourishing a food and which can be retained by cooking over a low gentle flame, never over high heat.

Elegant gravy for steaks: Boil two onions, press through sieve and use for thickening.

Hints Given On Home Freezing

Home freezers are fast becoming a part of the food preservation equipment in rural as well as city homes. This method of food preservation is enabling the homemaker to do a better job

of providing the family with fresh vegetables the year-round. A good supply of vegetables is needed for balancing the diet and according to Louise Mason, extension foods and nutrition specialist of Texas A. & M. College, home freezing or using a freezer-locker box to store surplus vegetables for later use is one sure way to have them when they are needed.

Miss Mason says there are several factors that will have a bearing on the quality of the frozen vegetables and these should be kept in mind when vegetable are being prepared for freezing. Speed is important and there should be no delays from the time the vegetables are gathered until processed and stored.

She points out that vegetables begin to lose food value and flavor as soon as they are gathered. During the summer months, she says, it is better to gather the vegetables early in the morning, but be sure they have reached their peak in flavor and texture, for freezing does not improve their quality.

It is necessary to scald vegetables in boiling water, before freezing, to prevent loss of quality and to preserve the vitamin content. Freezing alone does not stop the enzyme action in vegetables and if they are not scalded, this action will cause undesirable odors to develop along with the loss of flavor and color.

Each vegetable, she says, requires a different scalding time and she suggests that you see your local county county demonstration agent and get a copy of B-175, Frozen Foods. This bulletin is new and instructions

idly. A process containing furfural has been found an effective method of impregnating wood piling with a potent toxic agent. The foundation of buildings and posts can be treated by this process.

Petroleum refining requires a large quantity of furfural. It is said that more lubricating oil is refined by furfural than by any other single solvent refining process.

Biologicals

Still another use for furfurals is in disinfectants. The antiseptic properties of furfural are valuable in this biological field for disinfectants, bactericides, and fungicides.

Other uses for furfural are being found in this scientific field. Recently an agent has been made from furfural which is reported to be most successful in medical cases where antibiotics and sulfonamides have not succeeded.

GLOVES GIVE AID TO DISHPAN HANDS

There is a new remedy on the market to help fight dishpan hands—the occupational disease that troubles women most. A hand-softening treatment now comes in a pair of gloves. A softly-sueded cotton glove has fibers containing a combination of almond oil, glycerin, honey and wax.

The built-in oil treatment is said to keep the hands smooth and soft and to make the glove resistant to perspiration. The gloves can be washed with a special cream that restores the almond oil combination.

Some Facts You Should Know

- 1—Your local Production Credit Association office is a part of an eight county wide organization of Farmers and Ranchers, numbering about 1600 who own and operate the Association for their own benefit.
- 2—Full control of the organization is kept in the hands of farmer and rancher members through their ownership of all of the voting stock. Each member has one vote regardless of the number of shares owned, thus assuring that no one large operator will gain control of the Ass'n.
- 3—There is not one dollar Government capital in the Association, and we pay income and other taxes just as any other private owned business.
- 4—Our Association is able and willing to finance any sound agricultural operation needing short time credit.

STAMFORD PRODUCTION CREDIT ASSOCIATION

Valuable Industrial Chemical Now Coming From Cotton Seed Hulls

Cottonseed hulls provide a source of one of the most versatile, useful chemicals utilized in commercial products today. Industrial chemists have discovered.

Known as furfural, the comparatively new chemical is an oily, amber-colored liquid. It is valuable in the manufacture of a wide variety of products ranging from nylon hose to cigars.

Large manufacturers now produce furfural at less than ten cents a pound, according to the Progressive Farmer.

An important use for furfural

are given in detail on how each vegetable should be handled from the time it leaves are garden until it is ready for storage.

She says when vegetables are properly scalded, packaged, processed and stored at about 0° F., they will retain their quality for one year. The vegetables that cannot be successfully frozen are tomatoes and salad greens, such as lettuce, parsley, endive, cabbage, celery and onions.

is the manufacture of synthetic rubber products, including tires.

One of the earliest uses of the chemical was by cigar manufacturers as a conditioner for tobacco leaves. Furfural also also has been found to be of value in leather tanning.

Nylon hose require furfural in their manufacture. At the same time, furfural is a useful chemical in road building. Asphalt topping sticks to the gravel and rock bed longer and gives better service when furfural is used.

Furfural penetrates wood rap-

Heavy Rain Hits Game Bird Nests

AUSTIN — Possible loss of young quail particularly in coastal areas of southeastern Texas has been reported to the Game, Fish and Oyster Commission following recent heavy rains.

The Executive Secretary said the region west and southwest of Houston apparently suffered

some damage to the newly hatched birds. Game Warden Tom Waddell of Eagle Lake said a series of torrential rains, including one ranging up to ten inches, flooded large parts of his district, particularly in Colorado County. Waddell said he saw many quail sitting on fence posts, calling plaintively after their nests of their young broods had been destroyed by the high water.

The rains occurred at a crucial period in the nesting routine, according to the Executive Secretary. In the main, however, the game birds over the state apparently have been faring well. Scattered loss to young doves from hail has been reported but indications are that wild turkey, prairie chicken and other species have fared well this year.

The Executive Secretary said wet periods occurring when

Legal Notices

NOTICE

Notice is hereby given of a hearing before the County Court of Knox County, Texas, on the 23rd day of June, A. D., 1950, at the Court House of Knox County, Texas, on the application of Mrs. Mary Klug, Guardian of the Estate of Anna Klug, a person of unsound mind, for permission to execute a Mineral Lease covering the 1/14 Undivided interest of said ward in and to the following described tract of land:

Being, lot, tract or parcel of land situated in Knox County, Texas, and being all of Sub-survey Number Four (4), in Original Survey Number Sixteen (16), of the David C. Burnett Survey of Knox County, Texas.

MRS. MARY KLUG,
Guardian of the estate of
Anna Klug, a person of
Unsound Mind. lte

THE STATE OF TEXAS

To: G. A. Hernandez, Antonio, his wife, and her children, if any they have, and they wives and husbands, if they have any; whose names and residence are unknown to plaintiff and their heirs and legal representatives and all other persons claiming the lot in this suit, Defendants, Greeting:

You are hereby commanded to appear before the Honorable District Court of Knox County at the Court House thereof, in Benjamin, Texas at or before 10 o'clock A. M. of the first Monday after the expiration of forty-two days from the date of issue

of this citation, same being the 25th day of July, A. D., 1950, then and there to answer Plaintiff's Petition filed in said Court on the 5th day of June, A. D., 1950, in this cause, numbered 4783 on the docket of said court and styled F. H. Russell, Plaintiff vs. G. A. Hernandez and the others above state, as Defendant.

A brief statement of the nature of this suit is as follows, to-wit:

A suit in Trespass to try title and remove cloud from the Title to Lot 11, Block 4, Munday, Texas, as shown on the May recorded in Vol. 10, Page 368, of the Deed Records of Knox County, Texas, in the Office of the County Clerk of Knox County, Texas, which is sometimes now called West Munday, as is more fully shown by Plaintiff's Petition on file in this suit.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Benjamin, Texas, this the 8th day of June, A. D., 1950.

Attest:
OPAL H. LOGAN, Clerk,
District Court, Knox County, Texas. 46-4tc

Farmers and ranchmen should be on the alert for the next few weeks for the early hatches of grasshoppers. Control measures are most effective when used before the young 'hoppers leave the egg bed areas.

Cotton farmers in many sections of Texas last year reported savings up to 60 percent on their chopping and hoeing expenses by using rotary hoes.

quail are young sometimes are destructive particularly in the low areas where the soil is heavy. He explained that the soggy loam balls upon the baby quails' feet oftentimes continues to accumulate so that the young birds are unable to travel and either starve or are seized by predators.

Quail which lose their nests or lose their young, will nest again and frequently try a third time if the first two efforts are lost. Quail build their nests haphazardly and lay their eggs in low areas as much as on higher ground. Thus their re-nesting tendencies are indispensable to the annual bob white crop.

State Youth Join In 4-H Safety And Health Programs

Conservation of human resources, a prime objective of 4-H Club work, is being achieved nationally by members sharing in the responsibility of improving individual, family and community health, and safeguarding lives against accident.

Rural youth throughout the country are joining in the campaign by enrolling in the 1950 National 4-H Safety and Health programs. Both programs offer special awards for superior records to individual members and groups.

In the 4-H Safety program, sterling silver medals are pro-

vided by General Motors for five winning members in each county. Also, the county reporting the most outstanding 4-H safety program this year will receive a plaque of merit, appropriately embossed. The State champion will get an all-expense trip to the National 4-H Club Congress in Chicago next November. Eight national winners selected from the State champions will be awarded a \$300 college scholarship each.

In the 4-H Health activity, attractive two-color certificates symbolizing health will be given to a maximum of four clubs in each county conducting the best health improvement program.

In addition, \$20 cash awards to be used for health education will be awarded to the ten 4-H Clubs in the State which carry on the best program. The member making the greatest progress in health improvement will receive an all-expense trip to the National 4-H Club Congress. The national awards, also provided by Kellogg Company, Battle Creek, Mich., include a \$100 U. S. Savings Bond and a blue ribbon to each member of the Blue Award group. The bond is to be used by the members to start a fund for protecting and maintaining their personal health.

Both of these programs are conducted under the direction of the Cooperative Extension Service. Complete information may be obtained from County Extension agents.

Attention, Grain Farmers

Bring your dull discs in and have them sharpened, ready for breaking your wheat stubble, on a large size Scow disc roller.

The factory method. No cutting or grinding---just simply cold rolling. All work is guaranteed to give you entire satisfaction.

Knox Prairie Philosopher Says Television Likely Won't Stop Farmer From Quitting If His Mind's Made Up

Editor's note: The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek has some serious opinions on television, his letter this week reveals again.

Dear editor:
I must have television on my mind, since my letter to you last week was on that subject, but yesterday I found another newspaper which turned up out here which had another angle on television and its effects on farming.

According to this article, "Television is going to stem the tide of humanity moving from farms to the big cities—a flow of resi-

dents which has almost depopulated some farmland areas. Television takes to the farm the one big luxury of city life, entertainment, and that alone will make many farm residents hap-

Model Cars Take Final Shape

Dr. Karl T. Compton, of Massachusetts Institute of Technology, and W. S. McLean, secretary of the Fisher Body Craftsman's Guild, discuss model automobiles which hundreds of boys throughout the country are designing and building for entry in the Guild's 1950 competition. They have until July 1 to complete their models. Many of these boys will share in awards which total \$65,000 and at least eight of them will be awarded university scholarships. Dr. Compton has served on the Guild's honorary board of judges for the past nineteen years.

py with their lot."

Now I ain't familiar with much land goin to waste, and while I ain't familiar with many farmers who have thrown up their hands and moved to the city just to be near the kind of entertainment I understand you can get on a television set, there may be some who've done it.

But if you ask me, folks who leave the farm for the city don't leave for the entertainment values so much as the fact you don't drive a tractor up one row and down another in a city, don't work from sunup up to sundown. While I have heard farmers say they're givin up farm in order to get the advantages of the city, generally it works out it ain't the cultural advantages of the city they're interested in so much as the shade. It's them electric fans and air-conditioning in the summer and steam heat in the winter that does the trick, Nope, when a man makes up

his mind to quit farmin' ain't no television set invented yet that'll hold him there.

Farmin is a way of life, a fight between you and a plow and the soil, all by yourself, and is probably responsible for more bankers, teachers, lawyers, doctors, county agents, and store clerks than any other occupation.

Yours faithfully,
J. A.

Mr. and Mrs. Jeff Bowden and daughter of Wichita Falls visited in the home of Mr. and Mrs. J. O. Bowden, and other relatives and friends over the week end. They also visited Mrs. Bowden's parents in Knox City while here.

Mrs. Ruth Gunn of Seymour was a visitor here Sunday.

New Variety of Hegari Is Being Offered Growers

Seed of a new variety named Hi-Hegari has been released to certified seed growers for increase, R. E. Karper, agronomist in charge of Texas Agricultural Experiment Station grain sorghum investigations, has announced.

It is a tall variety of Hegari, bred and developed primarily for foliage and silage.

Karper says it has the high quality and palatable forage of Hegari and the same maturity and adaptation, but yields approximately 20 percent more forage.

The first grain sorghums were tall and late maturing. Hegari, one of the most popular, was imported from Africa in 1909, and was first grown at the Chillicothe station. In 1938 Texas sorghum breeders came up with Early Hegari, a dwarf, drought-resistant, early maturing type which is still the principal variety of Hegari.

The labor shortage during World War II, the demand for grain and the development of the double dwarf grain sorghums brought the combines into the sorghum fields. In 1949, more than 85 percent of Texas grain sorghums were combine harvested.

The popularity of the combine varieties in turn led to a shortage of bundle feed; the supply is expected to be shorter still in the future because of acreage reductions.

Plant breeders of the Texas Agricultural Experiment Station foresaw the need for foliage and silage and for the past several years have been working on the problem; Hi-Hegari is the result.

The entire supply of seed has been distributed for increase, and a fair amount of Hi-Hegari will be available for 1951 plant-

ing through regular trade channels.

Be careful. Observe state and local traffic laws.

It's the best—

Electric Cooking

has advantages for all!

Better for you

FAST . . . electric "speed-units" now cook faster than any other method. They bring food to cooking temperature with unbelievable speed, and cook it at just the right temperature for the most flavorful and nutritious results.

COOL . . . the heat goes directly into the food and not into the air and kitchen. The days of hot, stuffy kitchens are over when you use flameless, clean electric cooking.

SIMPLE . . . as turning on your kitchen light. A flick of the switch and you're ready to cook. Baking, broiling, roasting, surface, deep-well, and pressure cooking are all equally simple.

AUTOMATIC . . . you've got a thrill coming when you can take the afternoon off, and have your supper ready for serving when you return. Electric cooking's automatic timing will "chef" for you, turning your oven on and off at just the right time, while you are enjoying a game of Bridge or Canasta.

Better for your home

CLEAN . . . you have freedom from combustion. No smoke, soot, fumes, or odors can come out of an electric coil to make your kitchen walls dark and dingy. This clean, flameless heat helps keep pots and pans bright, too.

CONVENIENT . . . once you cook electrically, you'll wonder why you stayed so long with horse-and-buggy methods, as old-fashioned as flame lamps.

MODERN . . . electricity is as dependable a servant for cooking as it is for lighting your home. Yes, today, the modern way to cook is the "electric way."

LONG LIFE . . . your electric range is built to be a permanent part of your home. You have a right to expect—and you will get—many, many long years of cooking pleasure.

Better for your family

SAFE . . . no matches, no fire, no fumes to bring hazards into your kitchen. Since electric cooking is flameless, no oxygen is removed and the air is not over charged with nitrogen to sweat up the walls.

HEALTHFUL . . . less water is used when cooking electrically; foods cook in their own juices, retain garden-fresh flavor and food values which are so often lost and carried off with the fumes of combustion in other methods of cooking.

ECONOMICAL . . . there's no wasted heat with electricity. Faster than ever, electric cooking gets the job done quicker and low-cost electric cooking rates bring operating costs way down.

MORE FREEDOM . . . your electric range requires less attention from you in the kitchen; its automatic features free you to devote more time to your family, more time to the pleasures of life. Its gleaming porcelain is so easy to keep clean . . . you'll be out of your kitchen in a jiffy after mealtime.

Kracker Krumbs—
(Continued from Page One)

needed equipment will be ordered, Robinette said.

And the company hopes to begin installation of the new system during the second quarter

in 1951. Personally, we'll take the dial system in preference to the present. What do you want? Study the letter when it comes to you, then fill out and return the post card. Then the company will know where you stand and how to proceed.
