Baseball Season To Open Sunday Afternoon Study Club Presents New Tennis Court To Youth Of City

Tennis Court Presented To Young People of Munday and Vicinity By Munday Study Club With Ceremony

A brief but pretty little ceremony was presented on Tuesday afternoon when the Munday Study Club through its president, Mrs. E. M. Ammons, presented to the young people of the community the new tennis court recently completed by that organization through the cooperation of D. T. Mauldin and funds made available through the Federal Finance Corporation. The court is located on the Study Club's lots just north of the C. L. Mayes building on the northwest corner of the square.

In the presentation program Mr. Mauldin served as master of ceremonies and presented Mrs. Ammons, who in a few well chosen words, presented the court on behalf of the club, and at the conclusion of her presentation talk, christened the playground by breaking a bottle of clear, sparkling city water on one of the posts. Mrs. Ammons' presentation was couched in rhyme, and was as follows:

A great occasion indeed is this,
'Tis one all of Munday should not miss,
For the Munday Study Club, especially so,
It's heart with pride is all aglow.
This court we planned with skillful care;
Expense and material we did not spare.
The work has all been supervised
By one capable, alert and wise,
Dave Mauldin did his level best,
As the court will prove by any test.
We scouted over all the town
To bring you players of renown.
Among them is a tennis shark,
Others are merely for a lark,
Some play daily at the game,
But some of them will sure be lame.

County Officials Get Salaries Cut By Commissioners

The commissioners court of Knox County last week applied the pruning knife to the expense of county government, according to Judge D. C. Osborne, who was here on Monday, after being confined to his home at Goree for several days on account of illness. Mr. Osborne stated that the session of the court reduced the pay of the commissioners themselves to \$300.00 per month, the county judge was reduced from \$125.00 to \$112.50 per month. While the salary of the sheriff was left as it has been, the court dispensed with the salary of the deputy sheriff at Knox City and gave the sheriff one deputy at Benjamin at \$50.00 per month. The county treasurer came in for the heaviest cut, his salary having been reduced from \$2,000 per year to \$1,200. The county attorney was reduced to \$45.00 per month.

Grady Beck Helps Keep Wheels Going When Breaks Come

Last week our big Babcock newspaper press was "down." Things looked gloomy around here for a while. While we had discovered the break and ordered new parts from the factory, we found when we had it dismantled a large portion of it that the wrong parts had been sent and were therefore useless to us. We carried our grief to our good friend, Grady Beck, who at first glance stated that he could not make the part. However, after going into a huddle with him he decided that he could do the job—and did, and within a few hours our big press was humming and singing and that issue of the Times was going beautifully through the big machine.

This isn't the first time that Grady has used his skill and machinery to get us out of deep trouble, and we are sure that many other local business institutions who depend upon machinery have had a like experience, and we often wonder if everyone appreciates the convenience of having a modern machine shop here in our city. With his big lathes, drills, acetylene torches, and tools of almost every conceivable kind, together with his unexcelled skill, that bird can make most anything out of iron, brass, copper, or what have you, and when he does the job it's just like it would be if it came from the factory, and Grady isn't paying us a thin skin, we've eaten dime to say these things either. A shop of this kind is an asset of great value to any community.

Aaron Blanton Is Proprietor Of New Business In Munday

The Cash and Carry Cleaners is the name of a new business which opened in Munday on Tuesday of this week, and as the name implies, it is a clothing and pressing establishment and will be operated by Aaron (Big A) Blanton, who has had a number of years experience in the business, and worked in local tailor shops prior to moving to East Texas some three years ago. The new shop is located in the Tull building formerly occupied by J. D. Kethley and is equipped with modern machinery for cleaning and pressing. Mr. and Mrs. Blanton's many friends are indeed glad to welcome them back to Munday and sincerely trust that they may meet with a full measure of success in their new business venture.

Mrs. Earl Owen and little son of Vernon are here visiting in the home of her parents, Mr. and Mrs. R. B. Dwy.

Golf Tournament Will Begin Here Monday

On Honor Roll at Tech

Miss Francis Diersing, daughter of Mr. and Mrs. A. H. Diersing of the Rhineland community, who is a student in Texas Tech, at Lubbock, was on the honor roll for the winter term with an average grade of B-plus on 16 term hours work, according to an announcement received from the college. Miss Diersing served during her senior year in the Rhineland school as Times correspondent and was active in other phases of school work.

Postmaster J. B. Reneau contends that he is giving us Democrats good old-fashioned Republican service, and to prove his contention a large shipment of baby chicks arrived on the afternoon train the other day for one of the rural patrons, and rather than keep them in their confined quarters during the night the obliging postmaster put them in his car and delivered them poco-pronto. Such service is more like Democratic efficiency.

"Mammy" Is Dead, Says Jolson Who Supported Her For Years

"Sonny Boy" Also Permitted to Fade into Limbo as Star Drops Black Face and All Its Trappings

Mammy's song is ended, so far as Al Jolson is concerned. Her memory lingers on, but she will be permitted to rest in peace. Minus blackface and definitely alienated from Mammy, Sonny Boy, and other of his old standbys, the screen and stage star will make a new bid for character acting honors in his United Artists picture, "Hallelujah, I'm a Bum," which comes to the Roxy Theatre on Sunday, Monday and Tuesday, April 23, 24, and 25.

New Role More Modern

Although Jolson isn't a comedian with a Hamlet complex, he says the trend, even for comedians, is toward down-to-earth, believable characters that audiences can understand and sympathize with as well as laugh at. Jolson's new role, he says, is geared to the times. His character, and practically all the other characters in Ben Hecht's original story, haven't any money, but they refuse to let depression, politics and other worries of the day, get them down.

Jolson will sing, but it won't be about Mammy or Sonny Boy, and he won't face the audience on bended knee even once.

It is twenty years since Jolson started making the world Mammy-conscious. He has seen armies of Mammy singers come and go since he first warbled about the dear old colored lady in a Winter Garden show in New York. And now Jolson, who introduced her and did the most to popularize her on the stage and screen, wants to report her demise and pay respect to her memory.

Made Evans the Girl

In his new venture, Jolson will have a love affair with Madge Evans, but lose her to Frank Morgan.

Two veteran comedians, Harry Langdon and Chester Conklin, are returning to the screen after a long absence to appear with Jolson.

Easter Services Well Attended at Munday Church of Christ

Three Men Are Chosen As Elders In Church At Services Sunday

As the spring weather has come, the depression apparently being on the wane, the churches and church-going people are looking up, so to speak. The Church of Christ reports the best day for their Easter services they have experienced in many months. To show their appreciation of their efficient minister, J. Porter Wilhite, he, Floyd Warren, and James B. Scott were set apart as the overseers or elders of the congregation, and every one seemed to be well pleased. In fact, there was much rejoicing, as they fully believe they are on the road to sure victory for their cause.

They believe these are three deserving men and feel that they will be able to do a great work for the congregation, therefore they are backing them with a record of one hundred per cent.

After Brother Wilhite had preached on the duties and qualifications of the elder at both morning and evening services, it was announced who the congregation wanted to act as elders, and amid much rejoicing the congregation gave them the hand of endorsement, bidding them God speed, and promising to cooperate with them to their full ability. Large crowds were present, and all went away rejoicing, hoping that it might be possible to have another season of rejoicing as we see the church growing and doing no much for the cause of the Master.

J. Milam Diggs Is Named Postmaster For Haskell Office

Announcement has been made of the appointment of J. Milam Diggs, former postmaster here, as acting postmaster at Haskell. The appointment is a temporary one pending the regular appointment for which a number of applicants, including Mr. Diggs, have taken a civil service examination. The appointment of an acting postmaster was made necessary by the resignation of the postmaster there, whose term would have expired within a short time.

Mr. Diggs served as postmaster here for eight years under the administration of Woodrow Wilson, and should be come within the list of eligibles in the examination, he should stand an excellent chance of winning the appointment for the full four year term.

New Road Building Equipment Arrives And Is Put In Use

Commissioner D. C. Osborne has received a brand new 65-horsepower Caterpillar tractor which he recently purchased and also a new 12-foot grader which weighs 11,000 pounds, and the new equipment has been put into use on the roads in this community. Judge Osborne traded the old equipment in on the new and states that he will also replace the maintainer which has been in use for several years in this precinct in on a more powerful equipment, and the new equipment will enable him to keep the roads in first class condition.

Easter Hunt and Singing Featured At New Hope Church

Easter tide was a banner day at our church. After the morning service lunch was spread picnic style in the yard of Mr. Hediker's home and there were 2 Easter egg hunts for lunch for the kiddies and the youngsters. During the afternoon the young people entertained the older ones with old-time gospel songs, there being about a hundred present. The B. Y. P. U. and evening services closed the day.

Next Sunday is Church Day. Sunday School at 10 a. m. Sermon at 11:30. "The True Church. Evening sermon—"The False Church—the Scarlet Woman." B. Y. P. U. as usual. Come early if you want a seat. We are bringing an interesting sermon Sunday evening on Prophecy.

April 29th Final Date For Securing Federal Seed Loan

April 29th will be the final date for accepting an application for crop production seed loans, according to T. L. Miller, field supervisor, who was here Monday. Mr. Miller stated further that applications must be approved by the county committee and be in the mail not later than May 2nd to be considered, and he urges those in this community who desire loans to file their application and make the required report to Miss Bertha McNeill at the Pendleton gin prior to Saturday, April 29th.

THE FRESHMAN NEWS

We have just about five more weeks of school, so you see it is time for us to put in a little bit of studying. It is getting so that we are all busy. In Home Economics we have started our dress which will be due about May 17.

Sylvia Barnes and G. E. Eiland, who represented the High School Juniors, lost out in district, but we are very proud of them.

Mary Anna Burnison went to Austin last week and stayed a few days. We surely did miss her. I mean Louise and Inez did.

King and Meyers Are Selected To Start Argument

Many Merchants Of City Make Donations To Baseball Fund During Week

Joseph Bailey King, from dov Weirner way, will likely be Munday selection to start the argument he Sunday afternoon in the opening game of the series in the Wichita Valley League against Haskell, and his offerings will be received by Big Jay Meyers, who will again emerge from hibernation among the Gilliland hill to perform with the Munday aggregation, and a roster of the Munday team will reveal that there are also a number of other members of the team who in reality reside in other communities, but who have chosen to cast their lot with the Munday outfit. Especially has the Rhineland community been liberal in its contribution to the personnel of the Munday line-up, and when we say contribution we don't mean maybe, for when the Wichita Valley aggregation contacts some of those hard-hitting birds like Dutch, Lennie and Short Kuehler, Tony Peysen and some others who will be in the list of eligibles they will know what we are talking about, and here at home we will have either one or two of the McGlothlin lads in the list of eligibles, as well as Jimmie Rayburn et al, and you may consult your Webster's unabridged and find that the meaning of this is that the Munday aggregation will offer some stubborn resistance to the other contenders during the coming season.

The opening fields the home guards all dolled up and no place to go brand new uniforms having been ordered for the entire aggregation, and the lads are ready and rearing to get their stuff and an enthusiastic fan base is just as anxious to get in behind them and get them well on the way toward the championship. The team will be directed by the old skipper, Howell Burton, with the assistance of James Eayburn as first manager and John Ed Jones as business manager, and with this kind of backing we're predicting that Munday will make them all sit up and take notice.

Not only will the boys have new togs, but they will go out on a brand new field, the baseball park having been transferred to the farm of Mrs. S. A. Bowden one mile east of town where plenty of automobile parking space is available. The club has made a slight change in admission price for local games. Admission for adults will be 15 cents or two for 25 cents, while children will be admitted for 10 cents.

Financial Aid Given

The buying of new uniforms and other expenses incident to the opening of the season has necessitated a small outlay of money, and the local fans and business concerns have very liberal in their contribution. We give below a list of those who have contributed to the team together with the amounts:

SENIOR BIOGRAPHIES

By Mildred Burnett

Inez Marie Parks

Now gather 'round and get all of this. Here's someone that even I (sounds big, doesn't it?) could not obtain that so-called low-down. Oh, well, there's nothing like an attempt.

First of all Inez was born between Breckenridge and Cisco on Doc Wharton's ranch—sounds interesting, doesn't it? She moved at the age of three out "Where the Sand Dots Blow (In Spring)" and she's drifted to Munday schools ever since she entered.

I warned you in the beginning that there was very little history in this. Marie, as all of her teachers will vouch, knows her history (what kind?) English, Physics and Spanish with marked ability (if that's the right words.) Boy! can she sing and can she draw? Her talents seem to run along this line to such an extent that she keeps her friends and classmates amused and entertained.

To get to that thing called low-down, here it comes.

Favorite sport—Volleyball.
Favorite Movie Star—Eddie Cantor.
Favorite Subject—Spanish.
Favorite Speaker—"Couchy" and "Mash."
Weakness—Gray eyes.

Ambition—To get married — the sad part of it she's keeping us in the dark ("Willow Weep for me.")
Career—Housewife—can you cook, ole deah?

That tells the tale and like everything else (good or bad) it has an end. So long!

Geraldine Burnison
You have two good reasons for reading this "stuff." It gives you the low-down on none other than "Jerry" Burnison, and it gives you an idea what an interesting character she is. You "romance addicts" might go for this one for poor "Jerry" has her share of—teasing (Ha! fooled you, didn't it?)

That isn't getting us anywhere, so if you're in favor we'll begin with April 2, 1915, when she first made her sensational appearance in (this is the awful part) Knox City! Um, um, ain't that sumpin'?—says Amos. She soon discovered her mistake and moved to Haskell (almost as bad) but as the truth always comes to light to the extent that Munday is the better, and here she is!

If you are speaking of a bird (the kind that sings) we have one right here in the senior class. "The Girl With the Golden Voice." Yep, you're right, she can sing (and you wonder why mothers are gray?) She took four years of Choral Club, music two and one-half years, and art about two months. The odd thing about it,

some people have all of the breaks; she can master any of these three professions with unusual proficiency.

Geraldine plans to go to Texas University next year and major in Home Economics (Oh, she can already sew and cook.)

Here's a heaping dish of dirt topped with "an gram" "Peanut." (Ahem, remember the purpose of this—history?)

Favorite sport—Riding horses.
Favorite subject—Something in Austin.

Favorite study—Home Economics.
Favorite speaker—Jonesey.

Favorite singer—Geraldine—who said she didn't have a staunch fan?

Favorite pastime—Reading those 5c postage due letters.

Hobby—Answering letters.

Ambition—To graduate.

Weakness—Brunettes—do you wonder?

E. W. McGlothlin, Jr.

"The sun was shining brightly and it rained all day that night." We're speaking of the day this Jr. started life off with a bang in Bornarton, Texas. E. W. resided there until he reached the age of ten years, five months, twenty-five days, six hours and three minutes, even up! From there he moved to Munday and now he's a large senior.

He's another bug that makes the poor reporter's mind weaken (if it's possible.) He's a different type of fellow though. He isn't athletic, yet he's a lady's man. In fact, some name his type "Heartbreaker."

E. W. has "It" when it comes to grace and you'll find him always at ease—ask him if he's ever been excited. We've never known him to ever lose his head (maybe it's too insignificant, eh?)

I've told all of the history I know about him except his favorites, and here they are as submitted to me. Consider them:

Favorite of favorites—E. W., Jr.
You're wrong if you think he's egotistical. Why not say something funny?

Favorite song—Frankie and Johnnie. (Where's Jack Williams?)

Favorite subject—Nawthin!

Favorite speaker—Papa Mc.

Favorite pastime—Day dreaming.

Favorite burg—Goree, near there at least. Now what?

Ambition—To be an aviator.

Worst habit—Saying "Oh, yeah?"

College—Texas Tech. (Oh, yeah?)

Ideal girl—Any of 'em.

Hobby—Collecting souvenirs. Who knows, you might find a heart among them. (Hey, young fellow!)

Ruth Weeks

Ruthie was born December 10, 1915, in Munday, Texas—what a coincidence! She entered school with the rest of these "yabutes" and she's been a loyal classmate.

Now Ruth is such a quiet, sweet girl that I could find very little about her. She must be different if she's quiet! She has a loving and generous nature that acquires for her many true and loyal friends. Sounds like a dream book, doesn't it? She's the type who has "oodles" of friends and no enemies. What excellent qualities!

Well, I've racked my weary brain for some dirt, but it's difficult to find any on a nice girl like Ruth. However, I offer this evidence after long

and thoughtful consideration:
Favorite sport—Hiking—she doesn't need to reduce, maybe it is for pleasure.

Favorite speaker—Mr. Jones.
(Wonder if she takes history?)

"Wuff" can sing and sleep in Physics—not so difficult, eh, Ruth?

Favorite singer—Norene Bowden.

Favorite song—"Home."

Favorite study—Typing.

Planned career—Stenographer.

Favorite pastime—Reading and I can't find evidence to show she doesn't.

Weakness—Brunettes—this is so sudden!

Hobby—Studying.

Ambition—To grow taller—naughty, naughty! You want to wear mom's dress.

Worst habit—Oversleeping—yet, she's never late.

P. S.—Ruth is dying to get even with Allene for some unknown reason.

Shelton Phillips

Shelton was born in, around, out, or near Munday, Jan. 7, 1914. Anyway, he's here 100 per cent strong. Oh, what a man. "Skeleton" entered school here and like all nice boys he's been good "enuff" to remain here.

Now, if you wonder at girls being quiet, here's a fellow who has us all in the dark. We know nothing about him only that he's a nice, quiet boy—maybe. That's what I know. Have you another story?

Well, at any rate Shelton played football three years and entered track one. He succeeded in winning third place in half mile run.

Let's see something of his favorites starting with

Favorite sport—Football.

Favorite speaker—Mr. Jones.

Favorite singer—Mrs. Palmer.

Favorite song—"How Dry I Am."

He likes the harmony, as "he" says.

Favorite author—C. B. Sexton.

Favorite poem—Annabelle Lee.

College he plans to attend—T. C. U. at Fort Worth.

Career—Good husband. Here's someone's chance—there's few good ones on the market.

Ambition—To always be nice—why doesn't he tackle something that would be a little hard for him?

Occupation—Snoozin' in Physics class.

Weakness—Strawberry blondes—he calls her a blonde because he likes to be a gentleman. Oh, those men!

Worst habit—Chewing—books.

If you've ever heard that famous Phillips quartette you already know what a "songster" Shelton is. We feel at some time in the future he will make his name "re-sound"—let's hope so!

This family's bill of \$7.06 for a month's natural gas service lists 9,600 cubic feet, used from March 3 to April 3, which included considerable heating weather. If these purchases (for family of four) for cooking, house heating and water heating could be itemized, this is about the way they would look:

- \$1.20 to cook 72 meals (had guests five times, with extra good dinners).
- .26 extra bakings (cakes, cookies and gingerbread).
- .30 for bathroom heater for average of two hours per day.
- 1.25 hot water for 75 dish washings, for laundry, shampoos and incidentals.
- 3.53 for three room heaters (running living room heater too high on several occasions, keeping room at 74 degrees).

.30 hot water for 60 baths.

.02 hot water for 24 shaves.

.11 high flames (unnecessary) on range burners.

.09 small leak in dining room heater connection. (Gas man discovered that the wall cock was a cheap lightweight one, the kind that almost always does leak.)

WICHITA FALLS WILL BE SCENE OF BIG RODEO APRIL 28-30, INCLUSIVE, UNDER AUSPICES AMER. LEGION

Tom L. Burnett of Iowa Park, Texas, will personally have charge of the three big days of championship rodeo competition to be staged in Wichita Falls, Texas, April 28, 29 and 30, under the auspices of Pat Carrigan post of the American Legion. All profit from the Rodeo will be used for the entertainment of the State American Legion Convention in Wichita Falls in August.

Mr. Burnett has already secured five World's Champions along with dozens of near, past and future Champions.

Contracts have been made with McCarty and Elliott of Cheyenne to bring their famous string of buckers here, headed by Midnight, 5 Minutes to Midnight, Miss Minnie, King Tut, Headlight, Jr., and 75 head of other explosive outlaws; these are all in the feed lot now so that they will be in as good or better condition than the Cowboys that have to ride them. The Brahma Bucking Steers that were used at the Fat Stock show this year have been bought. Steer riders declare that they are the toughest, buckinest, fightinest steers that they were ever unlucky enough to have to ride.

The Brahma Calves secured for the roping will tax the calf ropers to the best of their ability. Shirts, pants, and liniment will be furnished for the ropers. This goes for the Bulldoggers that have a desire to do a little nooking with the Mexican long-horns.

Three afternoon shows are planned, each starting at 2:30 o'clock, at popular prices. Box seats will be \$1.10, reserved seats \$.85 cents and grandstand and bleachers \$.55 cents.

A wrestling card is arranged for Friday night, April 28th, and some of the fastest boxing available will be put on Saturday night.

Sunday afternoon will be championship day at the Rodeo. All the Cowboys that haven't been eliminated in the two previous shows will fight it out with the toughest of the horses, steers and calves to see who gets the final prize money and the championship.

Tips on Taxes

AUSTIN—The Legislature is now in the fourth month of its regular session. Under the constitution the \$10 per day compensation lasts 120 days. Extension of the session beyond this period is possible, but the pay of the members will be reduced by half. It is not likely that the session will be prolonged much beyond May 9 when the four-month period of high pay ends, though some members believe it will last until the latter part of May. There is strong sentiment among many leaders to bring the session to a close as early as possible, due chiefly to the fact that there seems to be an almost hopeless lack of harmony on many important subjects with little prospect of composing these differences.

Up to this time, efforts to levy new taxes have failed, with the single exception of an income tax, which has House approval. But there will be a determined effort during the closing days of the session to revive the sales tax, principally on the plea that it is necessary to keep public schools open. Laws strengthening enforcement of the cigarette tax and gross production are expected to stop leaks that caused a loss of \$5,000,000 last year. There is also a possibility that all of the cigarette tax will be diverted to the school fund. Many observers contend that stoppage of leaks and reasonable reorganization of the school system in the interest of economy make any new tax unnecessary.

The general economy program depends upon what is done within the last few weeks of the session. With a weary Legislature anxious to finish its work and go home, some measures may win approval that earlier in the session would have had no chance of adoption. These citizens who wish to obtain substantial reductions to their tax bill would do well to watch the proceedings closely and not hesitate to let their representatives know their wishes. A good start has been made in the direction of economy, but this can be quickly offset in a last-minute stampede. If this doesn't come it will not be due to lack of effort on the part of tax consumers. They are on the job and will not quit until adjournment is taken.

The income tax bill follows many provisions of the Federal income tax. As amended it exempts \$2,500 of the income of married persons and permits an exemption of \$500 for each dependent. The rates graduate from one per cent on the first \$1,000 of net income for individuals to seven per cent on incomes in excess of \$11,000. The corporation rate is from two per cent on the first \$1,000 to six per cent, on incomes in excess of \$6,000. Passage by the Senate is regarded as doubtful.

The Senate has passed the four major appropriation bills. The House has passed three and is yet to act on the educational appropriations. The judiciary appropriation bill has passed

both branches of the Legislature and has been signed by the Governor. The eleemosynary and departmental bills are in the hands of free conference committees to adjust differences between House and Senate measures. The appropriation bills call for reductions from 25 to 35 per cent below figures of the past two years.

A bill is pending in the House raising the scholastic age from six to seven years. Its adoption would reduce the number of claimants on State school funds by about 135,000 and would result in savings to the schools estimated at upwards of \$2,000,000, depending on the amount of the State apportionment. This would be in addition to savings in local funds through the resultant decrease in school enrollment. The measure is House bill No. 243.

The constitutional amendment limiting total State expenditures to \$22-50 per capita per biennium, already approved by the Senate, has been reported favorably in the House. This is a very important measure. If approved, it would be impossible for the Legislature to continue increasing State expenditures. The authority of the Legislature to increase appropriations is limited only by the bill to find sources of taxation. The amendment would provide an absolute limit, where there is now virtually none.

DIRIGIBLES important I hope the fate of the airship Akron will not throw Congress into such a panic that it will refuse to appropriate funds for further development of lighter-than-air craft.

I have long believed that the dirigible is a far more valuable military arm than the airplane. We don't stop building airplanes because scores of brave young officers are killed every year when military planes crash. The safety of the nation is more important than a few lives.

The time will come when the airship will be perfected to the point where it will be the principal means of passenger transportation all over the world. Of that I am firmly convinced. But no private concern can spend the money necessary to the perfection of the dirigible. It must be done by Government, and the expenditure justified by the airship's value as a means of national defense.

ARMY too expensive A high officer of the Army has had the courage to tell the world that the Army costs too much.

Major General Johnson Hagood, commanding the Eighth Corps Area, says: "It takes three hundred million dollars a year to run the Army under its present organization. We can get a better organization for less."

That is a slap in the face for the bureaucrat who has builded up fat-of-fice jobs in Washington for Army officers who ought to be out in the field or working at something else.

There is nothing the United States needs less than it needs an expensive Army. General Hagood admits that he has twice as many staff officers and clerks as he needs, but he can't get rid of them under the present set-up.

The danger of a large standing Army is that its dangers too often are inclined to forget that they are the servants of the people and to assume that they are the masters.

GOVERNOR right man Frank Murphy, Mayor of Detroit, who is going to the Philippines as Governor-General is one of the progressive young men who are coming to the front in America's public affairs.

He is not going to have an easy job as successor to Theodore Roosevelt, Jr., in Manila. But Frank Murphy doesn't care about easy jobs.

Congress has voted to give the Philippines independence, if they behave themselves, in the course of a dozen years or so. The Filipinos themselves are divided on the question whether or not they want independence. Some are afraid that once Uncle Sam reneges his protecting arm Japan will jump in and grab off the islands. The new Governor-General will have a lot of conflicting ideas to reconcile, and it is not at all impossible that he may have to keep a pretty close eye on Japan himself.

Last Lord's Day was by far the best day we have had since I have been in Munday, and we are very thankful. However, we are not satisfied to quit with one good day. We want another next Sunday. Come early and get a comfortable seat, take your time and enjoy the services. With such a spirit as prevailed last Lord's Day we can't help but win. Next Sunday morning we hope to study "Great Lessons From Little Things," based on Proverbs 30. Evening subject—"Preparedness." We are preparing for greater things, so let's work together and do our best. Don't forget the week services. They are always good. We study the first half of the seventh chapter of Romans next Tuesday at 3 o'clock.
