Number 4

Prohibition Speaking And Rally In Munday Saturday and Sunday

The issues of the impending prohibition campaign will be discussed in Munday Saturday afternoon at 3:00 o'clock, and at Goree at 8:30 Saturday afternoon, according to an announcement made this week by prohibition leaders in Knox county. The following announcement has been given out by local prohibition forces.

"On Saturday afternoon at about 3 o'clock in Munday and about 4:30 in Goree there will be a public speaking at which the issues of the prohibition campaign will be discussed. Sunday July 9th has been designated by the State Headquarters of the United Forces for Prohibition as the official date for the opening of the state-wide campaign to retain the 18th Amendment in the Constitution and the defeat of the return of beer to our state. Flying squadrons of men who will speak on the present day prohibition subjects will be in Knox County Saturday the 8th. Realists are planning to bring the local opinion question to the counties of Texas along with the other questions to be voted on in August. Light wines and beer have been side tracked by the wet camps for straight out repeal. There is much information on all these subjects that the citizens ought to advise themselves of before voting on any of the questions to be submitted August 26th."

On Sunday night a union prohibition rally will be held at the Baptist church in Munday, and at which time an able speaker will defend the Eighteenth Amendment and explain the issues to be submitted in the election of August 26, and everyone is cordially invited to attend this rally.

Plowed Up Cotton Land Can Be Used For Late Feed Crop

College Station.—Asked what farmers are expected to do with cotton land plowed up and retired from production, H. H. Williamson, vice director of the Extension Service of Texas A. & M. College, states that this land may be used for any pasture or cover crop to produce feed for livestock or to enrich the soil. "If and when the Farm Act as applied to cotton becomes operative," says Mr. Williamson, "Texas farmers will probably find that late Sudan grass crops or cowpeas may be sown to advantage for late summer grazing or for turning under. Probably many farmers will decide to let the land lie fallow until early fall and then sow such small grains as oats, rye, barley, or wheat for fall and winter grazing."

Thinking Out Loud

By J. A. K.

The presiding elder of this column has been doing some plain and fancy fishing the past week, and when we say plain fishing we mean just that.

Our first quest for the finny tribe was on Friday night of last week when we, together with the little, middle and big Kennedy boys and Editor E. L. Covey went over to Lake Kemp and joined Joe Glover, who just stays over there and fishes for the joy of fishing.

Returning home Saturday morning, we determined to make another fling at them on the Fourth in view of the fact that we were liberally rewarded for our efforts on Friday night, and again lady luck was with us, and we must admit that we have had our appetite for those luscious channel cat appeased.

But back to that plain fishing. If you've never fished for those lowly and disreputable German carp with dough bait you haven't gotten all the thrills you have coming, for when you snag one of those babies weighing around eight or ten pounds on a line you're going to have an argument with him.

Anyway, the kids got a thrill out of it, and some of the local colored population got a thrill out of our bringing several of them in and distributing them. Some folks call them nigger bass. Anyway, Mr. and Mrs. Jess Gordon who operate the Busy Bee Cafe for the colored folks had something different on their menu and Flop-Eye Simon had vittles on his table.

This Joe Glover and Lee Coffman are liberating on an island just off the old Vernon road, and with them fishing is an art. They seem to know just what the fish crave—and feed it to them.

Frinstance, when we were over there last week the fishes were scrambling for crawfish, so we assisted Lee Coffman in seining a large cargo of them for the expedition this week only to find after investigation that the fishes no longer craved crawfish, but instead had a very pronounced hankerin' for live, wiggling minnows, so we had to do some more seining in order to appease the appetites of the fishes and the Kennedys, and in both we were gratified with results.

We merely state these facts to counteract a report that was current here last summer to the effect that we were hopeless as a fisherman for the good and simple reason that the fishes were smarter. We've at last learned to do a little thinking too, however, we're glad our hankerin' for food isn't as changeable as that of a fish.

Anyway, we've always entertained a private opinion that the birds who have a box full of artificial wigglers, bugs, fishes, and what have you, ranging in price from \$1.50 upward, couldn't make much noise about fish being dumb.

Smith's Air-Tight Pitching and Four Errors Beat Haskell

The superb pitching of Chester Smith linked with untimely errors enabled the Munday aggregation to send the Haskell Indians home Saturday afternoon downhearted and sad in the knowledge that they must strive to live down an 8-0 defeat at the hands of the home guard. Only four hits were gathered by the Indians off the offerings of Chester Smith, who was given the very best of support by his team-mates.

Munday Wins From Stamford In July Fourth Attraction

"Lefty" Hambright, Munday's recently acquired southpaw, led his former team-mates down with four hits in a scheduled game at Stamford on July 4th, and enabled Munday to add another game to its percentage in its battle to hold first place during the second half of the season in the Wichita Valley League, and since Stamford was one of the strong contenders for leadership during the first half, the win brought joy to the hearts of local baseball fans. Rayburn led the hitting with four hits in his five visits to the plate.

The Munday team will go to Cisco Sunday for an exhibition game with the Cisco team, and it is likely that a number of fans will accompany them to that city. The Fourth of July game with Stamford was scheduled for Sunday but was changed by agreement. Munday's next scheduled game will be home on July 16th, with Goree.

Rev. H. C. Hand, pastor of the Methodist church is engaged in a meeting at Bomarton, this being the second week, and he reports good interest and is gratified with the results being accomplished. Rev. B. S. Ames is pastor of the Bomarton church. The meeting will close with the services Sunday night.

HE FLIRTS WITH DANGER

The above photograph shows "Bunny" Dryden, famous Texas Daredevil wire walker landing on wire after doing a double somersault.

High Wire Walking Act Arranged Here For Saturday Crowd

"Bunny" Dryden, Texas Daredevil Will Carry Mayor Across Street On Wire 30 Feet High and Give Thrilling Acts

Munday merchants have arranged with "Bunny" Dryden, famous daredevil high wire walker, to entertain the crowd of visitors to Munday on Saturday, and among the acts that will be performed by Dryden will be that of carrying J. A. Kennedy, mayor of Munday, on a tight wire stretched from the top of the city hall to the two-story Pendleton-Eiland building.

In addition to this act Dryden will do many other thrilling feats, including the turning of complete somersaults on the wire and landing upright, running, hopping and skipping on the wire just as one might do with their feet on the ground and all stunts will be performed on a wire elevated to the height of these two-story buildings. The merchants of Munday have contracted for this entertainment and there will be no collection taken, and every part of Dryden's performance will be absolutely free and open to the public.

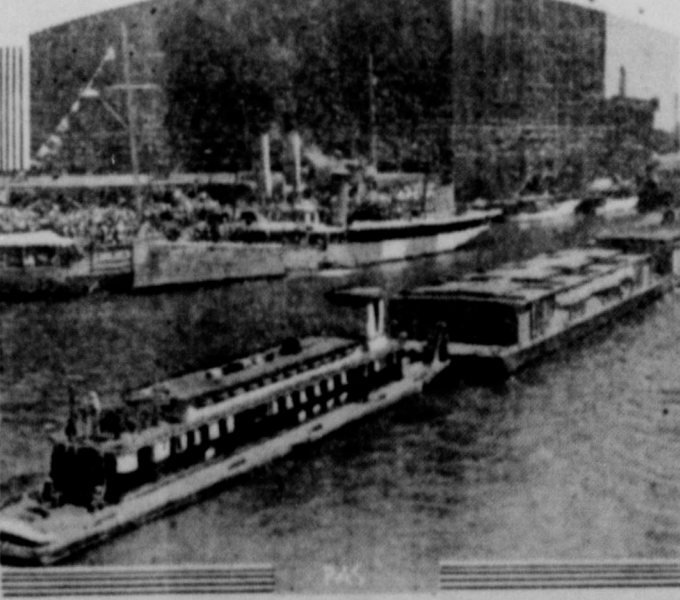

Dryden is a Texas product, hailing from the Rising Star community, and for many years was a performer with the famous Miller Brothers 101 Ranch Show, and he has with him a testimonial letter from Col. Zack Miller commending him as performer and gentleman of the highest type. Mr. Dryden also has letters showing that he will report to Ripley's "Believe It or Not Odometer" at the Century of Progress in Chicago within a few weeks and provide one of the hundreds of attractions for that wonderful show, performing "Believe It or Not" feats on a high wire.

The performer carries with him newspapers and clippings showing the comments that have been made upon his feats in other cities and towns, and from them we can guarantee that you will witness feats that will thrill you to a degree that no other feats have ever thrilled you, and his appearance here is being made possible through the generosity of the merchants of this city. Dryden has with him in the past few weeks given his performances in Cisco, Cross Plains, German and other towns, and in every instance his entertainment has won the highest praise, and we know that you will never witness a more thrilling exhibition of the kind than you will here Saturday. Dryden has announced that he will give a performance in the morning at 10 o'clock, and in the afternoon at 2:30 and again at 7:30.

M. Bruce Oates, agricultural agent for the Fort Worth & Denver and R. A. Craig, general agent for the Wichita Valley, were here Thursday looking after business matters.

Jasper Bevers came in this week from Wichita Falls and states that he will likely remain here indefinitely.

New Mid-Western Trade Route to the Sea

A new trade route has been opened to 22 mid-western states. It is the Great Lakes-Gulf of Mexico waterway now open to barge commerce. — the fulfillment of an inland dream of many years. Above is pictured the first large shipments crossing the official ship, USS Winnetta (background) at Michigan Link Bridge, Chicago, and inaugurating the first open to Lake Michigan shipments. It is said that twenty-two states in the Mississippi valley are to enjoy a revision of shipping rates from this new trade route.

County and Precinct Elections Are Sought On 3.2 Beer Question

7,300 Acres Cotton Retired To Date By Farmers of Section

The local offices in charge of the local committee appointed to assist farmers in making out contracts for the retirement of cotton acreage reported on Thursday morning that approximately 7,300 acres of cotton had been retired here and the office force is still engaged in making out contracts.

Saturday is the last day in which contracts may be filed and farmers who have not yet filed their contracts should do so by Saturday evening.

Today And Tomorrow

By Frank Parker Stockbridge

AGE—forget it
One of my country neighbors is a lady of 83. Last year she lost one eye and was otherwise banged up in an automobile accident. She's getting around again, but not quite as spry as she was. Her doctor thought maybe she'd better have her teeth out. She's still got all the teeth she ever had, and an X-ray examination showed there was nothing wrong with them.

"I've discovered what's the matter with me," she told her doctor the other day. "I laid awake last night thinking about it, and I've come to the conclusion that I'm beginning to grow old."

Refusal to recognize the passing years is what keeps some folk young at 80 past; turning one's thought on the past instead of the future make some old at forty.

FRANCE—in France
I saw in a Paris dispatch the other day that the French government has fixed 115 francs per quintal, or about \$2 a bushel as the minimum price for this year's wheat crop. France has long been far ahead of the rest of the world in regulating production, to insure agricultural prosperity.

There are a lot of things about the French people, especially French politicians, that I don't like. But I have to admire their unchanging devotion to the economic interests of their own people, regardless of what the rest of the world may try to get them to do.

DETERMINATION—wins
I wish the English language had a single short word to express the combination of qualities which enables some of us to fight our way to the top against heavy odds. I would apply that word to Frank Rents, who was born without any pupils in his eyes. When he was five a daring surgeon grafted the pupils from an animal's eyes into Frank's. He can see, dimly, but only with great effort can he focus his vision upon any object.

Yet Frank Rents, now 24, got his diploma as a Bachelor of Law at the University of Wisconsin law school the other day, and so little fuss had he made over his defective vision that hardly any of his classmates knew of his handicap.

That young man will get along in the world.

CLOTHES—Get Verdict
A young lawyer of my acquaintance came back from a trip to California with forty-five suits of new clothes and the same number of new shirts, neckties and other male adornments. He is a smart young lawyer but had always been careless about his clothes. His friends asked what had happened to him in California.

He had gone out there to try a lawsuit against a big oil company. It was a doubtful case that the head of his law firm had refused to touch. The young man took it on a contingent fee one-quarter of what he recovered for his client. He was confident that he could make any jury of reasonable men see his side of it. But when he got to California he learned that women customarily sit on juries.

"I didn't know a thing about feminine psychology," he said, "so I asked an experienced trial lawyer out there what to do. He advised me to make myself the best-dressed man in the courtroom. I didn't know anything about fashionable dress, so I put myself in the hands of the principal men's furnishing house. They fitted me out with a complete new outfit (Continued on back page)

Petitions asking that the Commissioner's Court of Knox County call an election to be held on August 26 are being circulated in the county with a view of determining whether or not the sale of 3.2 beer shall be legalized in the county, and still another similar petition is being circulated in Commissioner's Precinct No. 6 including Munday, Goree and Rhineland, praying that a similar election be held on the above date to determine whether the sale of the beverage shall be permitted within the bounds of that political subdivision. The idea in asking for the election on this particular date is that voters may pass on all questions at one time, thereby eliminating the necessity of holding additional elections, since the question will be decided at the polls on that date as to whether beer, wine, vinous and malt liquors containing such alcoholic content by volume is or shall be permitted to be sold within the State of Texas by the Federal Government.

Already the required 10 per cent of legal voters as prescribed by law has been secured on the petition, but additional names will be secured before the petition is presented to the court at its meeting early next week, at which time it will be acted upon.

The question to be passed upon in August by the voters of Knox county in the event that the county and precinct elections should be ordered is whether or not the sale of 3.2 beer and wines containing not more than 3.2 per cent alcohol shall be legalized, since congress has liberalized the Volstead Act only to the extent of increasing the alcoholic content to this degree, and voters should not confuse this election with the repeal or retention of the Eighteenth Amendment.

Presiding Elder To Fill Pulpit Here Sunday Morning

Dr. Geo. S. Slover, presiding elder of the Stamford district, will fill the pulpit at the Methodist church on Sunday morning and the third quarterly conference will be held Sunday afternoon.

There will be no services at the church Sunday evening, dismissing for the prohibition rally at the Baptist church.

"Big Jake" Myers Leads in Hitting During First Half

Big Jake Myers, Munday's hefty catcher, led the Munday aggregation in hitting the horsehide during the first half of the season in the Wichita Valley League with a percentage of 419, or 18 hits out of 43 visits to the platter. Glenn Mc-Glothin trailed along closely with a percentage to his credit of 411. Averages of all the team are given below:

	AB	R	Pc.
Rayburn	53	21	396
A. Loran	45	13	289
A. Myers	44	13	296
J. Myers	43	18	419
Leo Kuehler	26	10	384
L. Kuehler	41	15	371
C. Mc-Glothin	38	10	263
A. Kuehler	18	5	289
Smith	23	7	304

King	42	14	333
August Loran	7	1	143

Hefner H. D. Club Holds Interesting Meeting on Fourth

Plans for the women's encampment were discussed at the meeting of Hefner Home Demonstration Club held on Tuesday at which time the club held a business session and discussed new and unfinished business.

It was reported at this meeting that Mesdames R. J. Jones and G. W. Webber had attended the Baylor county dress contest held on the third. Ten members were present, including Mesdames E. J. Jones, J. E. Cure, R. L. Lambeth, C. B. Warren, Roy Jones, J. Jackson, G. W. Webber, I. N. Mobley, F. Lambeth and the hostess, Mrs. Homer Lambeth.

Our club was entertained on the 28th of June by the Sunset Home Demonstration Club, and our club will entertain the Vera club at an early date.

4-H Club Encampment Held For Baylor And Knox Counties

126 attended the Encampment held at Seymour Park, June 29 and 30 for the 4-H club girls of Baylor and Knox counties, who had completed their work up to date.

Seven of the ten girls clubs in Knox county were represented with an attendance of 68. The camp was divided into groups with the following as camp officers:

Aleta Atkins—Goree—President.
 Mary Edna Dial—Shawver—Secretary.

Lula Hurd—Vera—Recreational leader.
 Ethel Mae Chilcoat—Truscott—Song Leader.

At the close of the meeting, the Baylor county girls were given an invitation to come to Knox county for the 1934 encampment.

Those attending from Knox county were: Minnie Martin, Doris Stratton, Cora Fitzgerald, Pauline Eggleston, Sue Green, Sue Hall, Hazel Ratliff, Bonnie June Roberts, Ella V. Hutchens, Irene Little, Earline Payne, Jennie Sibyl Warren, Allyne Warren, Wilma Griffin, Frances Farmer, Aleta Atkins, Norlene Jones, Anna Mae Jones, all of Goree. Daisy Hayes and Ruth Shoopman of Cottonwood. Ruby Jo Trainham, Imogene Hardin, Mary Frances Smith, Irene Shipman, Mattie Key and Donie Bell Hardin of Lone-

star. Ethel Mae Chilcoat, Rachel Dea, Mollie Dea, Mattie Lee Dea, Marjorie Browning, Billy Barnett, Peggy Burnett, Margaret Westbrook, Imogene Storm, Anna Cathryn Holmes, Margaret Casey, Mary Frances Casey, Laverne Laquey, Toots Campbell and Mrs. Stapleton all of Truscott. Audrey Browning, Mildred Jackson, Beatrice Walton, Irene Norwood, Goldie Jackson, Billie Holder, Doris Lambeth and Mrs. John Bates of Hefner. Ina Pauline Hurd and Lula Hurd of Vera and Sibyl Spivey, Edith Spivey, Rosanna Shaw, Frances McGuire, Mary Edna Eshank, Geraldine Case, Mickey McGuire and Mrs. J. R. Spivey of Gilliland.

Literary of Jewell Faulkner, County Home Demonstration Agent, for the 2nd Week of July

Monday—Benjamin Court, women's club.
 Tuesday—Lonestar.
 Wednesday—Goree; Gillispie.
 Thursday and Friday—Women's Encampment; Scott Cottoning, Haskell county.
 Saturday—Office.

COMMON QUESTIONS ASKED IN CANNING

Why do beets turn white?
 1. You may not use the right kind of steel, use Detroit dark red.
 2. Your beets may be too old.
 3. Be sure the liquids and beets are the same temperature when put together.

Why do beets and beans have sediment along the side of the jars?
 1. The water is too hard.
 2. Using table salt will cause a sediment. It is better to use meat salt in canning.

Why do English peas turn cloudy?
 1. The water is too hard.
 2. The peas are too old.
 3. You may have used table salt.

Why do you have some mineral in your water that causes it?
 4. You have not graded your peas properly.
 5. You may have a flat sour.
 6. You may have a flat sour.

What causes flat sour?
 1. Holding the product too long after gathering before putting into container.
 2. Sealing the product in the container and having to wait too long before processing.
 3. You did not cool your product quick enough.

How can I keep the water in my jars?
 1. Pre-cook your product thoroughly. It will take drouth beans longer to pre-cook than those with plenty of water.
 2. Fill the jar to the first rim with the product and then add enough liquid to come to the second rim leaving an air space at the top.
 3. Follow all other directions as given in the canning bulletin. If you do not have one you may get one by calling at the office of the county Home Demonstration Agent.

CARD OF THANKS

We wish to express our sincere thanks to the neighbors for the kindness shown in the last illness and upon the death of our mother and grandmother.

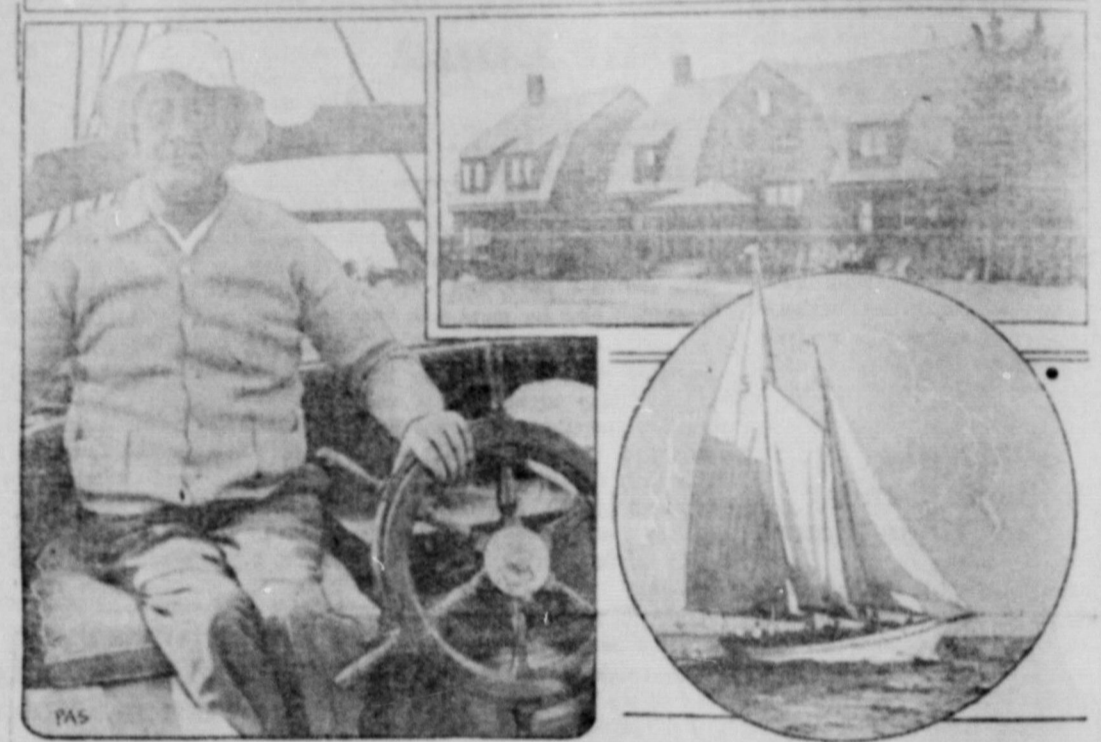

M. G. Gatiff and family.
 C. J. Gatiff and family.
 Tom Tuttle and family.
 Mr. and Mrs. Leroy Harper.
 Mr. and Mrs. John Hector.
 Lelloy Gatiff.

W. E. McNeill has been quite ill this week and for a time it was feared that pneumonia might develop, but we are informed that his condition has shown improvement.

H. A. Pendleton, Jr., Paul Pendleton, Harvey Lee and Vincent Lane spent the evening of the Fourth in Abilene.

Skipper Franklin Roosevelt Goes Down to the Sea

Sea-faring men along the New England coast thrilled to their toes when Skipper-President Franklin D. Roosevelt pointed the nose of the tiny sloop, Amberjack II, out of Marion Harbor, Mass., on the first leg of his well-earned vacation, which is to take him for a short stay at the Roosevelt home at Campo Bello Island, off New Brunswick, Canada. Photos show Skipper Roosevelt at the wheel; the Roosevelt home at Campo Bello ... and the Amberjack II under full sail in a stiff following wind.

Don't Fail To See "Bunny" Dryden

FAMOUS DAREDEVIL TIGHT WIRE WALKER in three performances

Saturday, July 8
Munday, Texas

Dryden will walk a tight wire stretched from the city hall to the top of the Pendleton-Eiland Building, a distance of 165 feet, and will perform numerous seemingly impossible tricks on the wire. This attraction will be absolutely free and no collection will be taken. Tell your friends to be here and see this wonderful performance.

PERFORMANCES AT

10:00 A. M.—2:30 and 7:30 P. M.

Don't Miss It!

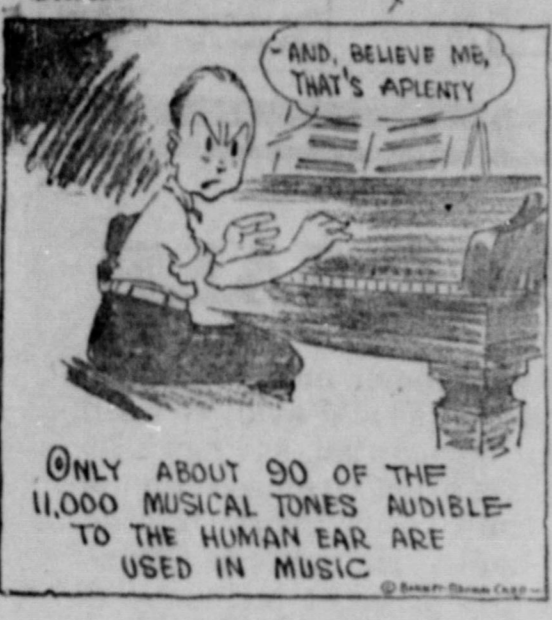

At the Century of Progress in Chicago one of the largest and choicest spaces has been reserved for the exhibit of the State of Texas. This space was reserved by a committee appointed by the Governor, but since reserving the space nothing has been done toward arranging the exhibit and Texans visiting the Century of Progress are humiliated at the sign which greets them in this location. It merely says "Closed."

The Texas Press Association has undertaken the task of arranging a creditable exhibit, and the committee appointed to perform the task has hit upon the plan of assessing the various weekly newspapers of the state one penny each for the population of the city in which the newspaper is published, based upon the 1930 census. On this basis our quota is only \$13.18, our population being 1318.

The Times will receive contributions to this fund and we shall be very glad to send in our quota at any early date. Leave your contributions at this office and it will be sent in and acknowledged.

This is the only appeal that will be made for this fund.

ODD—BUT TRUE

30-Cent Per Bushel Processing Tax Is Effective July 8th

College Station—An extra 30 cents per bushel is in store this fall for Texas wheat growers for that part of their crop that goes into domestic human consumption in the United States if the domestic allotment plan of the Agricultural Adjustment Act works out satisfactorily, says O. B. Martin, director of Texas A. and M. College Extension Service. Returning from a regional wheat conference for representatives of 9 Southwestern states last week he pointed out that it is the firm intention of the Administration to force wheat prices up to a parity with the general price level through distribution of a 30-cent-per-bushel processing tax proclaimed effective July 8th by the Secretary of Agriculture.

"On the other hand," says Mr. Martin, if the plans tentatively announced Texas growers would have to reduce their average average of 25% in order to participate in the benefits of a 20% reduction in order. In some counties growers might have to reduce average by as much as 50% to receive benefits. This is due to the fact that the five year average averages on which state and county allotments are based is not as high in Texas as the three-year average on which the individual farm allotment is based. This in turn is due to the newly settled wheat lands of the Panhandle. The same problem exists in Oklahoma, Kansas and Colorado. We are presenting a brief for Texas to the Agricultural Act officials pointing out the injustice and suggesting changes."

National campaign plans call for preliminary conferences as early as July 15th and an active contract signing campaign beginning early in August. Mr. Martin reports. Plans for the Texas campaign are being held up pending a satisfactory adjustment of the basis for computing the individual farm average. The extension service has been drafted to conduct the work of informing growers of the details of the plan.

As planned by the Administration, signers of the contracts would organize local county wheat production control associations which would handle the relief through direct contact with regional wheat offices. It is proposed to meet the local expense of administration in the counties by levies on farmers' benefits, estimated to amount to an average of the country over of about 2 cents per bushel.

The plan in brief consists of the grower signing a three-year contract to reduce acreage as directed by the Administration on the farm the remaining wheat acres in a workmanlike manner, in return for which the farmer would be paid each fall 30 cents per bushel for the portion of the expected crop that is estimated will go into domestic human consumption. Payments would be made in two installments, the first about September 15th and the other after seeding time. First payments would be made this fall, which means that in exchange for a reduced acreage for 1934 and 1935 the grower would receive three yearly payments, in the autumn of 1933, 1934 and 1935.

Of vital interest to Texans is the crop insurance feature which provides that payments will be made if the farmer fulfills his part of the contract even though the crop is destroyed by hail, wind, drought or insects.

On the other hand, a farmer must contract this year for three years and he may not withdraw. Failure to comply with the contract later this year or in the succeeding two years would result in the Government declaring the advanced payments a lien against future crops.

As the plan stands now farmers who have grown wheat one and two years would have to reckon their averages on a three year average which would virtually eliminate them. This provision is being protested by Texas and other states where new settlers have recently opened up farms.

"The plan for the relief of the wheat farmer is in a formative stage and may be modified later by direction of M. L. Wilson, United States wheat administrator," states Mr. Martin.

Mr. and Mrs. T. R. Haney and children left first of the week for Paris, and other east Texas points for a visit with relatives and friends.

AS SAFE AS HUMANLY POSSIBLE

Every American, during these trying times, has heard much of the safety of life insurance. He has been told that it reaches the highest possible degree of security humanly obtainable. He has wondered why a life insurance company should be so immune to failure.

The reason for life insurance safety can be largely summed up in one word, "reserves." Every old-line life insurance company has gigantic sums of money in investment reserves. Their sole purpose is to protect the policyholder. They are managed by men of the finest business acumen, working under rigid statutory laws, administered by state insurance officials whose duty it is to protect the policyholder against incompetent or dishonest management. Every possible safeguard has been created.

In addition, the non-speculative character of life insurance reserves places the industry in the enviable position of being able to hold securities when others must sell at ruinous prices. They have a backlog of government bonds, and a front rank of issues of private concerns—the best in the country. These securities may sell at temporarily low levels, may, for a time, pass dividends, but in the long run most of them will come back. Life insurance companies sit tight during the storm. There is no such thing as "absolute safety." But old-line life insurance comes as close to that status as is humanly possible.

TOURIST'S FIRST AID KIT

By DR. WILLIAM J. SCHOLZ

The roads are now crowded with automobiles of every size, make and description. Some are driving leisurely and carefully; some are dashing madly and heedlessly. Dad and the boy are sitting in the front seat; mother and the girl occupy the back cushion.

Suddenly there's a rear and a violent braking from behind. Mother tells dad to pull over to the edge of the road, which he had already started to do. A car comes rushing down the left side of the narrow concrete highway alongside them. The driver swings sharply ahead of them in his endeavor to avoid a collision with a car approaching from the other direction. A second more and he might have made it, but in that second three cars were wrecked and five people were injured.

First Aid to the Injured
What to do? A tourniquet should be placed about the bleeding limb of one to control the hemorrhage. An antiseptic should be applied to the bleeding scalp wound of another. A soothing lotion should be applied to the burns of a third. An improvised splint should be placed around the fractured arm of another of the victims. A supporting dressing should be placed about the badly sprained ankle of still another sufferer.

First Aid Materials
Every tourist should therefore provide himself with a little box of first aid supplies. In fact, such an outfit should have a place in every home. The contents of the box and indications for their use I should list somewhat as follows:

- Absorbent cotton (2 oz. package)
- Swab.
- Gauze dressing (5 yds.) Wounds.
- Bandages (1, 2 and 3 in.)
- Adhesive tape (5 yds. long—2 in. wide.)
- Iodine (1 oz.) Antiseptic.
- Floric acid (crystals—1 oz. Burns—1 solution.
- Rubber tubing (24 in. long, 1/4 in. thick) Hemorrhage.
- Boric acid (crystals—1 oz.) Wet dressing.
- Whiskey (8 oz.) Collapse.

This list could be extended to include ligatures, hemostats, etc. However, the use of such instruments and possessed only by a surgeon. Moreover, the services of a doctor are nowadays available almost anywhere within an hour. The important thing is to bridge that hour, and the material listed above will serve this purpose.

Are YOU HAPPY After Meals

Or Do Gas on Stomach and Sour Stomach make you Miserable?

Too much food, or the wrong kind of food, too much smoking, too much beer, make your body over-acid. Then you have distress after eating, gas on stomach, heartburn, sour stomach.

ALKA-SELTZER relieves these troubles promptly, effectively, harmlessly. Use Alka-Seltzer for Headache, Colds, Fatigue, "Morning After Feeling," Muscular, Sciatic and Rheumatic Pains.

Alka-Seltzer makes a sparkling alkaline drink. As it contains an analgesic (Acetyl-Salicylate) it first relieves the pain of everyday ailments and then by restoring the alkaline balance corrects the cause when due to excess acid.

Alka-Seltzer tastes like carbonated mineral spring water—works like magic. Contains no dangerous drugs... does not depress the heart... is not laxative.

Get a drink at your Drug Store Soda Fountain. Keep a package in your home medicine cabinet.

STEPS ON THE ROAD TO RECOVERY

Dollar wheat; ten cent cotton those figures are the best news that has come out in years.

Rising prices for agricultural products are the best evidence that the depression is over and recovery has begun. For agriculture is still the largest basic industry of America, and if its followers do not prosper the rest of the people suffer with them.

Increased farm buying power accounts for a great deal of the industrial recovery which is well under way. We are not back yet to the conditions of 1923 to 1925, which are regarded as the standard high level of non-speculative prosperity. But in March, industry was doing only 60 per cent of its normal activity, in April this rose to 67 per cent, and for the month of May, the Federal Reserve Board announces, industry in general was up to 76 per cent of its pre-depression production. And throughout June the figures were still rising.

The increase in business activity is largest in steel, automobiles, lumber, textile and shoes. We are beginning to build again, to replace worn-out cars with new ones, to buy new clothes and new shoes. Those are always the starting points toward recovery.

Employment is increasing steadily, but not as fast as production. About 61 per cent of employees are back at work. Payrolls still lag behind, being only about 42 per cent of normal, at the end of May. That is characteristic, too; wages don't come back until higher prices have been established long enough to bring in the money with which to pay the higher wages. Wages must always be proportioned to profits.

There is a good deal of talk about establishing a minimum wage, and many people have the idea that \$5 a day would be about right. But we notice that the cotton spinning industry in its new code of practice sets \$10 a week in southern mills and \$11 in northern as a fair minimum for machine-tenders. We don't know enough about the cotton business to judge, but we think too many people are expecting the "New Deal" to make everybody rich over night. As we understand it, folks will still have to work hard for a living and a little harder to get ahead.

CARS AND TRUCKS FOR SALE AND TRADE

- 1932 Model B Ford Truck, good 10-ply casings and closed cab, in tip top shape—\$500.00
- International One and one-half ton truck, in good shape for—\$250.00.

HANEY

FOR JULY

BY BETTY WEBSTER

DO YOU KNOW THAT:
 1. One tablespoonful of gelatin added to one quart of milk increases the food value 23%?
 2. A damp chamois skin is the best thing to use to polish windows?

It seems that a fresh collar and cuffs on a dress, no matter how old or wilted it has appeared, brighten it up remarkably and give a feeling of personal neatness to the wearer.

RECIPES

Some time when you have just a few strawberries left and an unexpected number of people to whom to serve them try the following:

Strawberry Fluff
 1 cup of strawberries, mashed.
 2-3 cup of granulated sugar.
 1 egg white.
 Mix ingredients and beat until stiff. This recipe will serve six people.

How to Prepare

Potato Salad
 Boil eight potatoes; peel and slice. Dice four slices of bacon and fry out slowly in frying pan. Add one tablespoonful of flour, two tablespoonfuls of sugar, one teaspoonful of mustard, one scant cup of water, salt and pepper to taste. Stir over slow fire until it thickens slightly. Remove from fire and add potatoes.
 Sliced onion, cucumber, tomato, celery and hard boiled egg may be added if desired.
 This recipe will serve eight to ten people.

Deviled Eggs
 Hard boiled eggs.
 Catsup.
 Salad Dressing.
 Butter.
 Halve eggs remove yolks. Mix yolks with catsup, salad dressing, and butter and rub to a paste with a fork. Fill the halves with this mixture; press together and fasten with toothpicks.

Mr. and Mrs. Cecil Jennings have returned from Lubbock where they visited in the home of Mr. Jennings' brother, V. O. Jennings, and while there Mr. Jennings entered the Golf tournament, qualifying for the third flight, in which he won first, and for which he was awarded a beautiful loving cup.

CARD OF THANKS

We wish to thank our friends for their kindness and the beautiful floral offerings during the recent illness and death of our husband and father, A. J. Birdsong.
 Mrs. A. J. Birdsong.
 Mr. and Mrs. B. E. McConnell and sons.
 Mr. and Mrs. H. L. Birdsong and daughters.
 Mr. and Mrs. J. C. Birdsong and family.

Car Thief Makes Another Visit Here Last Week

Haskell Free Press:
 A Ford roadster belonging to E. J. Turrentine, employee of the Haskell Telephone Co., was stolen from in front of the J. W. Martin home and pushed a short distance up the street and stripped of all four wheels. An attempt had been made to wire around the switch, but failed. Knox county officers also report a car stolen at Munday last night. A cushion from the back seat of the Munday car was found by local officers near the Turrentine car. The supposition is that the wheels from the car here were loaded into the Munday car and its cushion was switched.
 The car of Geo. V. Wimble which was stolen last week in a similar manner was recovered at Haverhill Wells the first of the week, but the driver escaped. The cushion from the rear seat and the spare tire and cover had been removed.

Immediate Relief For Texas Home Owners in Prospect

Dallas, June 29. E. Shelton, director of the regional home loan bank at Little Rock, outlined before the local estate board today the possibility of immediate relief for thousands of harassed home owners of Texas.
 He explained that the most noteworthy feature of the new home owners loan bank, which will be located here under the direction of James E. Shaw, banking commissioner of Texas, probably would be that citizens who already had lost their homes

CLEARANCE SALE

We are closing out all summer merchandise at greatly reduced prices, and you should avail yourself of this opportunity to make substantial savings. Included in this Clearance Sale are a large selection of Men's and Boy's Straw Hats, Men's Sport Oxfords, Linen Caps, Summer Suits, Ladies' Hats, White Gloves, Lingerie, Silk Dresses, Wash Dresses including all Marcy Lee and Nelly Don Dresses, Volies and Batistes and other summer merchandise. We are going to close out everything in summer merchandise at extremely low prices.

Prices are going up on all lines of merchandise as a result of various taxes on manufactured items and readjustments of labor problems by the government, and we urge you to buy now as in many instances the wholesale prices have already advanced higher than our retail prices.

THE FAIR STORE

Little Daughter of Mr. and Mrs. Hood Buried at Munday

Haskell Free Press:
 Funeral services for little Betty Sue Hood, fourteen months old daughter of Mr. and Mrs. H. M. Hood of the Post community were held at Munday, Texas, Thursday afternoon June 22, at the Primitive Baptist Church in that city. Rev. Sarrels of Anson conducted the services and the body was laid to rest in the Munday cemetery by the side of an only sister who died when an infant.
 Little Betty Sue had been ill only a few days. She was removed from her home Saturday to the Stamford Sanitarium and death came the following Wednesday. She is survived by her parents and four brothers.

Mr. and Mrs. G. E. Elland and children and Miss Hazel Deane Elland left the latter part of last week for Galveston for a vacation, and while there they will visit with Chase Elland, student in the medical department of the University of Texas, and with Andy Elland, another son of Mrs. D. A. Elland, who is undergoing treatment in a hospital there.

Mr. and Mrs. P. V. Williams and children left Monday morning for Tennessee, where they will visit with relatives. They plan to return by way of Chicago and see the sights at the Century of Progress.

From the Wichita Falls Clinic Hospital comes the announcement that a fine boy was born to Dr. and Mrs. E. M. Roberts on the 5th, and that both are getting along nicely.

LOW PRICE CARS VS. CHEAP CARS

We do not build a low-price car: the cost to us of building our car is pretty high.

But we do sell a high quality car at a low price.

Almost every new Ford V-8 car we have built so far this year, has cost more to manufacture than its selling price was. As you buy them at only \$490 to \$610, we have to depend on increasing volume to make up the difference.

The reason for this is simple: — a manufacturer who gives good value must expect to lose money on the first cars he sells because he cannot charge all his costs to the people who are first to buy.

But with the purchaser it is different — he cannot afford to lose anything on a car. It must give him full value from the first, and keep on giving him full value for years.

Two things make possible our combination of low prices and high cost quality:

1. Volume Production
2. Taking only one profit

First, we set our price at what would be fair to the public on the basis of economies we enjoy in volume production. Then, in order to justify and maintain our low price we must get volume sales.

Thus it comes that a car which is really high-cost to make, is also low-cost to buy.

There is a difference between a cheap car and a low-priced high quality car.

Ford prices are always fixed at a point which makes it profitable for a customer to buy.

Good and lasting business must produce profit to the buyer as well as to the seller. And of the two, the buyer's profit must be, comparatively, the larger one.

It pays us to sell the Ford V-8 because it pays you to buy it.
