## Munday Sluggers Take First Game Play-Off Series

Slugging the offerings of both Jones and Duncan to all parts of the cow-pasture, Munday took the first game of the three-game play-off for the second half in the Wichita Valley League here Wednesday afternoon to the tune of 19-2. Indeed what promised to be a good ball game was all salted down by the Munday aggression in the fifth frame when the home guard went on a hitting spree and with the aid of a few errors on the part of the visitors registered ten scores in the one inning, and with this lead coupled with the fact that "Lefty" Hambright was going good and getting perfect support the game was one of those one-sided events throughout the remainder of the game.

## Priceless Carving Of Last Supper On View at Fair

Chicago. —Exquisitely carved in mother of pearl, a presentation of the "Last Supper" is one of the priceless objects of ecclesiastical art on exhibit at the hall of religion at the Chicago World's Fair—A Century of Progress Exposition.

This masterpiece, which was carved by an Armenian artist, Ivaz, required twenty seven years of intricate labor to complete. It was finished about 170 years ago. The minute work necessary "was such a strain on the artist's ocular nerves that several months after the carving was completed he became totally blind.

The carving is the property of John Korenian, who is a direct descendant of the man who carved it. Christ and the Twelve Apostles at the Last Supper are shown in the carving. These detailed work is so meticulous that one can see not only the pattern of the tabicloth, but the eyelashes and facial expression of each person sitting around the table.

## New Hope News

Edwin Frasure has returned from Benjamin, where he conducted a ten day singing school. He has been invited to return there for their revival.

Rev. H. F. Gage is now conducting a revival meeting at Lake Creek school house which will run two weeks. He will not be able to fill his pulpit at New Hope the fourth Sunday.

Miss Maurice Patterson has returned from Abilene, where she made arrangements to enter Simmons

## Today And Tomorrow

By Frank Parker Stockbridge

**DISARMAMENT**—a new concept  
My friend Norman Davis, United States Ambassador at Large, is hopeful, that after seven years of discussion, international disarmament will soon get somewhere. When I talked with him a few days ago he was more optimistic about it than I have ever seen him.

Nobody is asking any nation to abandon its defenses. The program which is coming to be accepted most everywhere is that nations should not be permitted to provide themselves with the sort of weapons which are useful only for the invasion of another nation's territory.

If Germany had not had the great Krupp and Skoda guns it could never have invaded Belgium in 1914. Big mobile guns and big tanks would be abolished by an agreement as the nations at Geneva are talking about. Military men are coming to realize that aircraft alone can never win an aggressive war, and that it is not hard for any nation to protect its coasts against a foreign navy.

A few months ago there was a real fear of a new war in Europe. Now there is a genuine belief that permanent peace is close at hand.

**PROGRESS**—it is actual  
A hundred years ago Europe had a population of 180 millions of people most of them frequently on the verge of starvation. That was as far as the world had got in the 12 centuries since European civilization really began. Today Europe has nearly 500 million population, all of them sure of their food.

That is a lot of progress to make in a hundred years. People who talk of "the good old times" are talking about the lives of the small minority who lived in what was regarded as luxury while the common people were practically slaves. Few of us would care to live as uncleanly as the nobility and royalty did in the old days, without gas or electric light or even kerosene stoves, without plumbing or furnaces or even stoves.

Forks were introduced by Queen Elizabeth, only a little over 300 years ago, and soap was a novel luxury for the rich in her time.

When people tell you that the world is going backward and that the age of invention, beginning with the steam engine, has not improved human conditions, tell them to run along and read their history books.

**LAND**—for all  
There is land enough in the United States—nearly 20 thousand million acres—to give every family more than 60 acres, if it were divided up equally. If only ten per cent of the land is suitable for the growth of foods, there is an average of 6 acres per family of four.

What we are trying to do, of course, is to get more than a living; to get a surplus for the desirable but strictly unnecessary things of civilization.

Czecho-Slovakia is combining industry and agriculture, by making it possible for every industrial worker to have a piece of land to fall back on when industry is slack. I think we shall also come to that in America. It seems to me to be the only permanent way of insuring a good living to everybody.

**DOPE**—a world treaty  
The other day I had a visit with Captain Richmond Pearson Hobson, Spanish War hero and former member of Congress from Alabama, who has for years been devoting his life to the effort to stamp out the international traffic in narcotics, such as morphine, cocaine and hashish.

As a result of the work of the commission under Captain Hobson heads, organized under the League of Nations, 39 nations have just signed a treaty agreeing to limit the production of narcotics to actual medical requirements. In another twenty or thirty years, Captain Hobson believes, "dope" will be so hard to get that there will be no new crop of drug addicts and the old ones will have died off.

I think he is unduly optimistic, but I hope he's not. I have seen enough myself of the effects of the narcotic habit on men and women to realize what it does to them and to society, but also to realize how hard it is to break an addict of the habit.

University for the fall term.  
J. W. Frost is visiting friends and relatives in East Texas.

Word has been received here that Jim Dallas, who has been undergoing treatment in the Baptist sanitarium at Dallas, will be able to return home soon.

## Rule Wins Final Scheduled Game To Tie Standing

Rule defeated Munday on the local grounds Sunday afternoon to tie the standing of the two teams for first place in the second half of the season in the Wichita Valley League, thereby necessitating a three-game play-off series, the first of which was played here Wednesday.

Bill Duncan, Rule's ace pitcher, was going good and held the local outfit to half a dozen hits and two scores, while "Lefty" Hambright also pitched a creditable game, but was accorded rather poor support. Rule registered 10 hits and Duncan was credited with a dozen strike-outs.

Rhineland ginned its first bale of cotton on Tuesday. Mr. John Michael brought it in. He had 1800 pounds of picked cotton. The bale weighed 468 pounds. The Farmers Union Gin ginned the bale free of charge. No premium was paid.

## Officers Elected American Legion For Ensuing Year

At a recent meeting of the Lowry Post American Legion the following officers were elected for the ensuing year: Mart Hardin, commander; C. C. Pippin, adjutant; Dr. Joe Davis, vice-commander; Lee Haynes, chaplain; Chas. Haynie, finance officer; Ardelle Spele, service officer; J. W. Horan, sergeant-at-arms.

Louis Cartwright and Ardelle Spele were elected as delegates to the 15th annual convention of the American Legion, department of Texas, to be held at Wichita Falls on August 26-29, with Mart Hardin and Dr. Joe Davis as alternates.

Plans are being made for a last delegation of Legionnaires to attend the Wichita Falls convention from this place, and transportation plans will be worked out at a meeting to be held Thursday night.

## Munday Country Gets Good Rain This Morning

The Munday country received a fine rain on Thursday morning, which will be of inestimable value to crops. The rain came from the west and fell slowly, practically all going into the ground and cotton production over the area will be materially increased, also feed crops will be greatly benefited from the rainfall, which, according to H. P. Hill, amounted to one-half inch.

This is the second rain during the week, one-half having fallen on Friday of last week.

Hill Oates and W. H. Atkinson, Jr. were among the Haskell fans to see the Rule-Munday game Wednesday.

Mr. and Mrs. Jack Tidwell and little son of Haskell visited Mrs. Tidwell's parents, Mr. and Mrs. George Isbell, Sunday.

## RHINELAND

Our school is in its third week of work during the present summer session. A hundred per cent attendance of the expected enrollment for the term has been maintained since the opening of our school on August 7. The student body seems to realize the advantages given them by their parents and are, consequently, applying themselves diligently to the task of acquiring useful knowledge. The schools are expected to remain open for six weeks. The length of the summer session, however, is contingent upon the cotton picking season.

Thursday evening the members of the Jolly Eight club stole a march on hot weatherman, and chose Miller Creek for the spot in which to carry out their plans. After a plunge into the shaded pool, a delightful supper was served the following members: Misses Frances Brookner, Mary de Auirre, Leona and Geheviwe Albus, Mary Roddy, Leona and Veronica Schumacher, Miss Martha Loran of Wichita Falls was a guest.

Mr. and Mrs. Walter Jungman and family returned Sunday evening from South Texas, where they had been visiting relatives and friends. They were accompanied on their trip by Mr. Clarence Herring.

Misses Emma and Alice Birkenfield of Scotland, Texas, are visiting with Mrs. Henry Birkenfield and friends.

Miss Mary Striagl of Wichita Falls is visiting in the home of her parents, Mr. and Mrs. John Striagl.

Henry, Alfred, Rosalie and Mabel Herring of Henrietta are visiting with relatives and friends here. They were accompanied by Mr. C. K. Walsh, lawyer, of Wichita Falls.

Mrs. Jennie Saltz of Woodward, Oklahoma, is visiting in the home of Mr. Joseph Albus.

Mr. and Mrs. Ferdinand Fetsch and sons, Leo and Albert, and Mr. Leo Diersing, are vacationing in Hobson and other points in South Texas.

A group of young people were entertained at the home of Mr. and Mrs. L. Loran, Sunday night. Games were played and food watermelon was served.

—Reporter.

Mr. and Mrs. J. A. C. Swett have had as guests the family of their daughter, Mrs. Ed Herndon, of McKinney, Texas.

Mrs. Adrian Akers will leave Friday for Burk Burnett after spending several weeks here with her parents, Mr. and Mrs. E. E. Akers.

## Munday Goes To Rule Sunday For Second Series Tilt

Munday will go to Rule Sunday for the second game of the three-game series for leadership in the last half of the season, and the lads will be accompanied by a large number of ardent fans.

Chester Smith, Munday's fast-ball artist, is scheduled to start the argument with the Rule aggregation Sunday afternoon, while "Lefty" Hambright will be on hand in the capacity of relief pitcher. Rule will rely on the curves of Bill Duncan and Jones.

In a series of protests registered prior to the close of the scheduled season Rule was declared winner over Stamford of a protest of playing ineligible men. "Skipper" Lee Haney filed a protest against Rule's win over Munday last Sunday, which was disallowed, and therefore left the Munday and Rule aggregation tied for first place.

The third game of the series, if necessary, will be played at a place and time not yet agreed upon.

## Uncle Bud Rogers Celebrates 72nd Birthday on 13th

U. S. (Uncle Bud to you) Rogers celebrated his 72nd birthday on August 13th, at which time all of his children and grandchildren were present, and a most enjoyable day was spent within the family circle, with the following present: Mr. and Mrs. Joe Rogers and daughter, Patsy, of Fort Worth; Mr. and Mrs. Bernard Stodghill and daughter, Bernardine, of Hobbs, New Mexico; Mr. and Mrs. Lavoy Burton and daughter, Nancy Faye, of Haskell; Mrs. Gordon Swett and children, Burnice, Mozelle, and Hattie Joe, of Silvertown, Dorset, and Misses Alice and Vivian Rogers.

## "Nazarene" Famous Religious Painting, Is Shown at Fair

Chicago. — The internationally famous painting "Nazarene" which portrays Christ as a blond, blue eyed triumphant person, is on exhibition at the Hall of Religion of A Century of Progress—the Chicago World's Fair.

Col. H. Stanley Todd, painter of the masterpiece, in describing the painting said:

"From my earliest recollection an earnest desire possessed me to portray on canvas, our master, Jesus Christ. I desired to represent him as One who was sure He was about his father's business giving His strength and His joy to all.

"I have tried to produce a face that should hearten the sons of men, give courage and bring joy, lighten burdens and increase faith. If this is done my life desire will be fulfilled."

## Thinking Out Loud

By J. A. K.

Personally TOL has never been good in mathematics, and perhaps some of our consumers can help us out on a little problem that came to our attention a few days ago.

In a certain community in Texas, so the story goes, those in charge of R. F. C. work ran low on projects, so they conceived the idea of making a cotton crop with the R. F. C. labor.

The Government was called upon for a Federal Seed Loan with which to purchase seed.

The loan was procured and the seed purchased and the crop was started with R. F. C. labor.

Then along came the plow-up movement, and naturally the committee wanted to do its part in a big way, so they sold Uncle Sam half of the cotton acreage at so much per acre.

And of course this necessitated the plowing up of the cotton, so this work was done by R. F. C. labor.

The remainder of the cotton will be picked with R. F. C. labor, according to the plan laid out.

Now get your pencil and see if you can figure it all out. We've always been weak in mathematics.

The presiding elder of this column spent Friday and Saturday in Sweetwater attending the eighth annual convention of the West Texas Press association.

Somehow we always enjoy these West Texas meetings more than the larger meetings. We West Texans speak the same language, and West Texas towns and cities have a way of expressing their hospitality that makes one believe they mean it, and Sweetwater is one of the West Texas cities in which old-fashioned hospitality still abounds.

One of the most enjoyable features of the entertainment provided for the press gang at Sweetwater was a trip out to their big lake, which is formed by the damming of Bitter Creek, and from which the city will get its water supply. A chuck wagon dinner was served out there under the direction of John Hendrix of the Sweetwater Chamber of Commerce, and if you've never enjoyed a chuck wagon dinner from the Sweetwater chuck wagon you've missed an enjoyable event for these dinners are an institution with Sweetwater.

They serve you red beans and you like 'em. They serve you boarding house hash under the name of "son-of-a-gun" and it tastes good. They serve you plain stewed apricots and they are delicious. They serve you all these things in tin plates with pewter knives and forks, but you wouldn't swap the treat for the finest six-course banquet at the Bluebonnet, and best of all, they give you a welcome that leaves no doubt in your mind that they mean it.

## Rayburn Leads Team In Hitting During Last Half

James Rayburn, who scoops 'em out of the sand down second-base way, leads the Munday line-up with a batting average of .369. He is closely followed by L. Kuehler who trends on Rayburn's heels with an average of .361, only eight points behind his "strawberry blonde" teammate. The individual averages of the players are as follows:

Rayburn	.369
L. Kuehler	.361
A. Loran	.324
A. Kuehler	.312
Smith	.285
J. Myers	.277

## T. N. Carswell Is N. R. A. Speaker Here Wednesday

By J. A. K.

T. N. Carswell, general manager of the Abilene Chamber of Commerce, was here on Wednesday evening and delivered an address on the NRA on the lawn at the city hall to a large and attentive audience. Mr. Carswell's address consisted of giving a background and application to the NRA, and much interest was shown by the audience which heard him.

Mr. Carswell has been devoting much of his time to assisting communities over West Texas in organizing and applying the rules laid down by the NRA, and he came here upon the invitation of the local committee. Mr. Carswell pointed out that the application of the NRA was entirely up to the local committee, who is authorized under the terms of the NRA to adjust any differences which might arise and whose decisions are final to any business desiring to operate under the banner of the Blue Eagle. This local committee as named, is composed of E. W. McGlothlin, chairman, J. C. Campbell, Dr. E. M. Ammons, H. A. Pendleton, R. B. Davy, John Ed Jones and J. A. Kennedy. Riley B. Farrell was named as secretary to the board.

Mr. Carswell reviewed the condition of chaos with which our nation was confronted at the time President Roosevelt assumed his duties as President, and stated that the NRA is the culmination of his desire expressed at the Jackson Day dinner back in 1932 to make our government function for the benefit of the "forgotten man," and he stated that while he had been condemned for what was termed socialistic utterances, he is in the NRA attempting to return countless thousands to jobs that they may earn a living for themselves and families.

Mr. Carswell states that later in the program an intensive drive would be inaugurated in every community in the United States to enlist members of the NRA, and that every man, woman and child would be asked to cooperate, and upon signifying their willingness to do so would be given an NRA button. In assuming the pledge to cooperate the people will be asked to patronize only those firms displaying NRA signs.

## New Railway School Rates Are Effective Today

The railroads of the country have jointly adopted a new plan for the sale of tickets to students, teachers and others attending universities, colleges, preparatory schools and other educational institutions for the 1933-34 term. This new plan, announced by the Western Railway's Committee on Public Relations, provides for the sale of round-trip excursion tickets from any station to any point at which an educational institution is located, at a substantial reduction in fares.

These round-trip tickets may be purchased any day prior to the opening of the educational institution, commencing August 25th and continuing until October 5th. Tickets sold during this period will be good for return passage at Christmas-time, during the spring vacation, or at the close of school in June. In those cases where the tickets are used for return at Christmas, the students and teachers may obtain similar reduced-rate round-trip tickets between December 25th and January 10th, with the return portion good either during the spring vacation or at the end of the school year. Again, for those students or teachers who use the return portion of their tickets during spring vacation, similar tickets will be sold at the same reduced rates from March 15th to April 17th, 1934, these tickets being good for return passage when the educational institutions close in June.

This new plan adopted by the railroads permits arrangements to be made for travel requirements for the entire college year, with full information in advance to college authorities, teachers, parents and students. It is hoped that this plan will not only stimulate travel by rail but will also be of advantage to both students and educational institutions in attracting greater attendance from distant points through lower cost of rail transportation.

Tom Haney, H. A. Pendleton, Rid Campbell, R. B. Davy and J. A. Kennedy went to Wichita Falls Thursday to hear Congressman Joseph Weldon Bailey Jr., deliver an address on the Memorial Auditorium lawn.

**THE N. R. A.**

The general topic of discussion among business men during the past few weeks has been the NRA. Naturally, everyone has been vitally interested in the effect the code will have upon his individual business, and those who have adopted the code provided for their business are concerned as to the effect it will have.

In practically every code we have heard anything about the tendency is for higher prices. Indeed prices for various services have advanced from 25 to 100 per cent. Prices for merchandise are gradually scaling upward, and merchants tell us that when replacements are made they will be still higher, due to the advanced costs occasioned by the adoption of NRA codes calling for minimum wage scales and maximum working hours. The codes calling for higher wage scales and shorter working hours in practically all industries than have been adhered to in the past.

Certainly no one could object to these advances if the burden is properly distributed, but to us it seems that this is going to be a difficult problem.

We have not seen anything in the National Recovery Act that will fix the price of farm commodities on a par with these advances. While the price of wheat, cotton and other farm commodities are somewhat higher than they were last year, the small advance will not offset the advances in the prices of merchandise and services under the NRA code.

We are not given to viewing with alarm, but we have not yet been able to see how the great experiment can succeed unless the producer is given protection. The cotton farmer cannot pay the higher prices put into effect by the NRA and sell his cotton on a market that is manipulated by speculators and gamblers. To us it seems

that so long as the Federal Government is going to fix minimum wage scales and establish five day weeks for labor, it must also fix a price for hours in the cotton fields for their product.

**YESTERDAY IS DEAD**

You young fellows just out of school. You have had a tough time the last two years. You were anxious to get to work. Nothing opened up. You felt you were butting your heads against a stone wall.

The Star passes on to you a phrase it saw the other day—to you and to the others who will join your ranks this spring.

That phrase is, Yesterday is dead!

The country has been bogged down before. It is going to begin to pull out shortly, just as it has always pulled out. But mark this: Business is not coming back just as it was before. It never does after going through the wringer.

A lot of the old leaders and old methods have passed out. A new bunch of aggressive and resourceful young fellows will come stamping up to grasp new opportunities.

For yesterday is dead!

New opportunities, mind you. Not the opportunities of the last decade. Those are gone. If experience is a guide, recovery will not come in orderly fashion, along the old lines. Keen men will see business chances here and there even while things are at a low level. Chances that grew out of the depression with its changed demands.

Perhaps these will lie in new products of science, in inexpensive novelties, in house cooking, in cheap farm lands. Men who live in the past will overlook these opportunities. They will be thinking of things as they were in 1929. So they will fall to see the new conditions and take advantage of them.

But the alert young crowd will jump at the new chances, develop them, build up with them as business builds up.

Yesterday is dead!

Have you heard of the flu-flu bird that flies backwards? It wants to see where it has been. It doesn't give a darn where it is going. Don't be flu-flu bird.

You youngsters, seize any decent job that offers. But keep your eyes open. Be ready for new conditions, new ideas. Your humble job may have possibilities that the old order did not reveal.

**DAD'S ADVICE**

A young man contemplating matrimony wrote his Pa for advice and in reply received the following effusion:

My Dear Son:

"If you have at last found the one girl of your heart, by all means marry her. If she will be the guiding star of your life, like your dear mother has been to me, if her sweet companionship will be an incentive to your ambition, if her love and devotion will give you the needed strength and courage in the battle of life, her sweet presence fill your days with sunshine; if in short, she can give you one-quarter of the happiness your wonderful mother has given me, then, my son, waste no time, marry her and may God bless you!"

Your Loving Father,  
P. S. Your mother has just left the room! Don't be a fool, Stay Single!"

Herds that can be used profitably on any farm are the kind being sought for the 1933 State Fair of Texas Livestock Show, according to Frank P. Holland, director in charge of the department. Livestock on Texas farms is being urged to replace so many cotton acres.

A gala Dallas Day in which many cities and towns of Texas will be invited to participate in, is being planned for the 1933 State Fair of Texas, it has been announced here by Holmes Green, director in charge of the Dallas Day committee. A Huge Pageant is one of the special features planned for the celebration.

## Wake Up Your Liver Bile

—Without Calomel

**And You'll Jump Out of Bed in the Morning Rarin' to Go**

If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You have a thick, bad taste and your breath is foul. Skin often breaks out in pimples. Your head aches and you feel drowsy and out. Your whole system is poisoned.

It takes those good, old CARTER'S LITTLE LIVER PILLS to get those two pounds of bile flowing freely 'nd make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely.

But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Beware a substitute. Size at drug stores. ©1931 C. M. Co.

Miss Lela Brock and R. L. Boles  
United in Marriage

Sunday morning R. L. Boles and Miss Lela Brock motored to Walters, Oklahoma, and were married. The ceremony was performed at high noon by the Rev. Hutton, pastor of the Baptist church of that city, and following a brief trip they returned to Munday where they had previously provided household furnishings for their home.

The bride is a daughter of Mr. and Mrs. A. C. Brock of this city, and is a graduate of Munday High School. During her high school days she was one of the most popular members of the various classes, having two years represented the school in declamation contests in the district and having won each time. She is a graduate of the class of '31.

The groom is a son of Mr. and Mrs. R. S. Boles and has grown to manhood here and for some years has been associated with the Baker-Campbell company of this city.

The Times joins the many friends of these excellent young people in wishing for them a long and happy married life.

Mrs. J. A. Kennedy Honoree  
at Bridge-Luncheon

Naming Mrs. J. A. Kennedy who is leaving for Austin this week, as honoree, the Diversity Club entertained with a covered dish luncheon at the home of Mrs. W. H. Chapman on Wednesday of this week.

Summer flowers were used for decorations and bridge was the diversion.

As covers were being laid for the luncheon, a messenger from Western Union called at the door for Mrs. Kennedy, delivering to her a telegram from the Diversity Club, congratulating her on her new position in Austin and expressing regret at her departure, and also delivered a package to her which was found to contain gifts of beautiful handkerchiefs from the club members. In a few well chosen words Mrs. Kennedy expressed her appreciation for the gifts and the thoughtfulness of her friends in remembering her.

The following guests were present for this "in honor" affair: Meses. Wm. P. Farrington, H. F. Barnes, H. A. Pendleton, J. D. Kethley, D. T. Mauldin, P. V. Williams, J. C. Sparr, W. R. Moore, F. S. Broach, J. C. Borden, Tom Haney, Joe Davis, R. D. Atkinson and Riley B. Harrell and Miss Janelle Stodghill.

JOHN BORG, PUBLISHER OF THE HACKENSACK (N. J.) BERGEN EVENING RECORD, SAYS:

"Growth is the law of life and this immutable law also applies to business."

"There is no standing still; you either continue growing and live, or you stop growing and eventually die."

"There is a vast difference between a business-getter and an order-taker."

"Order-takers in business are usually only one jump ahead of the undertakers of bankruptcy."

"Business-getters do not sit around like Mr. Macawber waiting for something to turn up. They go out and bring it in."

"Buyers do not live in the stores and it is therefore quite essential that they enter them before the process of buying and selling can be consummated."

"One actual buyer in the store is worth a dozen potential buyers in the home or on the highway."

"Newspaper advertising converts buying possibilities into sales facts by attracting the buyer of merchandise to the seller."

"Advertising is as essential to successful merchandising as breathing is to a healthy body."

"TO ARREST EITHER OF THESE VITAL FUNCTIONS MEANS SUFFOCATION AND ULTIMATE DEATH."

Mr. and Mrs. L. S. Hardigree came in Thursday from Henrietta and have rented one of the Dan Weaver houses, where they will reside during the coming school term. Mr. Hardigree is principal of the high school.

Mrs. R. H. Neff and daughter, Miss Lucille, and Nolley Farrington were in Dallas the latter part of last week to drive home a new Tudor V-8 Ford purchased through the Bauman Motor Co. of this city.

Merchandise is advancing rapidly and we suggest that you buy a supply now, as our prices have not advanced except on a few items where special taxes have been applied. Recent Bride Entertained

Miss Eleanor Jungman entertained with a bridge-shower at the home of her parents, Mr. and Mrs. L. A. Jungman, Tuesday afternoon honoring Mrs. Weldon Parker, who before her marriage August 12 was Miss Louise Aycock.

The affair was a complete surprise to Mrs. Parker, as she was not aware of the party until her arrival when she was greeted by the guests and led to the living room where the many lovely gifts were displayed. Four tables were arranged for contract bridge, which was enjoyed until tea time when refreshments were served. Misses Vivian Rogers, Helen Frances

Ellard, Louise Atkinson, Jeannette Campbell, Alice Rogers, Virginia Bess Atkinson and Lenore Parker, Meses. Adrian Akers, Rex Holder, R. L. Boles, Aaron Blanton, Cobern Jones, Joe Mayes, J. E. McDonald of Childress, Roy Aycock and the honoree. Gifts were also sent by Meses. Christine Burton, Hazel Deane Ellard and Ozella Brock and Mrs. Glenn McGlothlin and Mrs. A. C. Brock.

Mr. and Mrs. W. F. Murphy and their son and daughter-in-law, Mr. and Mrs. Loyd Murphy, have returned from Brownfield where they attended the funeral of their little grandson and nephew, Samuel Deane, who passed away in a sanitarium at Lubbock August 16th.

Mrs. C. L. Mayes has returned from a visit of several weeks with relatives in Tennessee.

FARM AND RANCH LOANS

I wish to announce that The Munday National Farm Loan Association is now in a position to intelligently take applications for Federal Land Bank loans at 4 1/2% interest.

Also that I will take applications for Land Bank Commissioner's loans, which are based on 75% of the appraised normal value of the farm or ranch, and or chattel mortgages.

I have just had a conference with one who has the correct knowledge and information concerning both of the above kinds of loans, and feel now that I can take applications of the above kind with a maximum possibility of success, and the possibility of a minimum cost to the applicant.

NOTICE

Due to practically no collections from last year's crops, I request and shall expect, a very liberal payment on your notes and accounts, from your cotton reduction checks.

Wm. P. Farrington,  
M. D.

Within a few days The Times will receive a code prescribed by our Government under which we will operate our plant, and it is generally conceded that this code, like most other codes, will call for a substantial increase in the price of all printed matter. These new prices will be uniform the country over and no printing plant will be allowed to deviate from the prices set therein.

This code will call for substantial salaries for workmen and short hours. Naturally these changes will necessitate higher prices for all work, and this is to urge our patrons to place their orders before these conditions have been put into effect.

This plant is now operating under the blanket code, as are most other concerns, and we are striving to carry out all of the terms of this agreement, but the final code adopted for the printing industry will impose certain rules that will bring about an increase in the price of all printing, so we urge that you place your order for your requirements now.

S. L. Knight, of Stoneberg, Texas, official starter for the annual Brady July Jubilee Races has been secured to act as official starter for the Haskell Race Meet. Mr. Knight has acted as starter for many races all over Texas and in 1930 acted as starter for the International Exposition Races at San Antonio. Prior to the Haskell race he will act as starter at the Panhandle Race Meet and at the Amarillo races.

The committee has also secured the services of W. H. Caldwell of Brady to assist them in conducting their program of races and unless a conflict arises with the Victoria Races

### HAILS LEGION'S HELP IN REEMPLOYMENT DRIVE

WASHINGTON.—Gen. Hugh S. Johnson, National Recovery Administrator, has expressed deep appreciation of the enlistment of the American Legion in the fight for the President's reemployment program.

"It gives me a great personal thrill to hear that my comrades in more than 10,000 American Legion Posts are in the fight to make the President's plan a success," he said. "Legion members, always loyal, are particularly well equipped to help the President carry on. They are well organized, they have high standing in their communities, and they know how to strike hard for victory. It is a glorious battle which should enlist the heartiest support of all red-blooded Americans such as the Legionnaires. I knew they would be in the thick of it."

### A Story of What a West Texas Boy Finds at the World Fair

By Frank Morrow, Jr.

Chicago, Ill., Aug. 9.—Having been in Chicago for exactly one week I consider myself an authority on the World Fair; at least I can find my way out of it now, and there isn't one in a hundred who can accomplish that in less than four days. Knowing so much about this great Century of Progress, I feel that it would be nothing but a human deed to let my fellow Texans in on some heretofore obscure phase of this wonderful exposition.

If anyone has any doubts as to whether or not the trip up to the Fair is worth it, he might as well get rid of them; because that little 1500 miles won't even begin to compare with what he will walk in his first week here. It is at least five

John H. Mayer, Presiding Judge of the Southern Racing Circuit will act as Judge of Races.

To guarantee the purses offered in all races citizens of Haskell have during the week raised over \$800.00 which sum has been placed in a fund for that purpose.

miles from the fair to anything in sight, no matter how close.

Upon arriving in Chicago, one leaves the station and goes directly to his hotel, provided he knows which one it is and where it is, if he has one—which he hasn't. Upon arriving there he is promptly robbed of all the money he has saved up for ice cream cones, cold drinks, picture shows, and taxi cabs. After a good night's rest, interrupted only by elevated, street cars, ambulances, fire trucks, and people just getting in at an hour when Texans are just getting up, he jumps slowly out of bed, hunts for the shower, finds it at the front end of a long, long line, and then waits his turn.

With our hero feeling fine and ready to conquer Chicago, we observe him as he enters the cafe of the hotel in which he spent the night. Without a moment's hesitation he sits down and orders a mess of ham and eggs. The cook gets his order, the waiter gets the ham and eggs, and then the bill gets our hero's appetite.

Heartbroken and weary he then wanders on his windy way toward the world at small. Omitting all of the details of a disastrous journey, we again find young James, handing fifty cents to a pretty girl at one of the ticket booths of the Century of Progress Exposition. It's well worth fifty cents because there are places to rest inside.

James then crosses the bridge to the island, sees Lake Michigan, thinks "My Gawd, what a tank," and rushes to get a hamburger.

Close to the stand at which he got his hamburger was a beautiful building in blue and silver. James only spent the afternoon in it since it was two blocks long, and seeing time was short, he decided to take a sightseeing bus and tour the fair, he could at least find out what all there was to see.

By that time millions of beautiful colored lights had come out; the island had turned into a fairyland. After about an hour's journey in the bus, James decided to take a trip to one of the rocket towers, which mount 620 feet above the smooth waters of the lagoon, and see what the earth looked like from

Mars. He didn't know whether it was the height or the beauty that made him shaky, they were both new heights for anything he had ever seen but anyway he decided to go home and go to bed.

On his way back to the hotel James stopped at a small cafe for a piece of pie and a cup of coffee—even the best of boys go wrong, however, and James found himself washing down pretzels with big gulps of

beer. Upon observing that it was no good and nothing but nearer beer anyway, James retired to his room. There he counted 14 blisters on one foot, 123 booklets on different industries, countries, and states; twelve cents change from a twenty dollar bill; passed quietly out and dreamed sweet dreams of the good old days back in Texas where there was still a depression and a dollar was worth

If your elephant wants to ride on top IT'S ALL RIGHT WITH A CHEVROLET

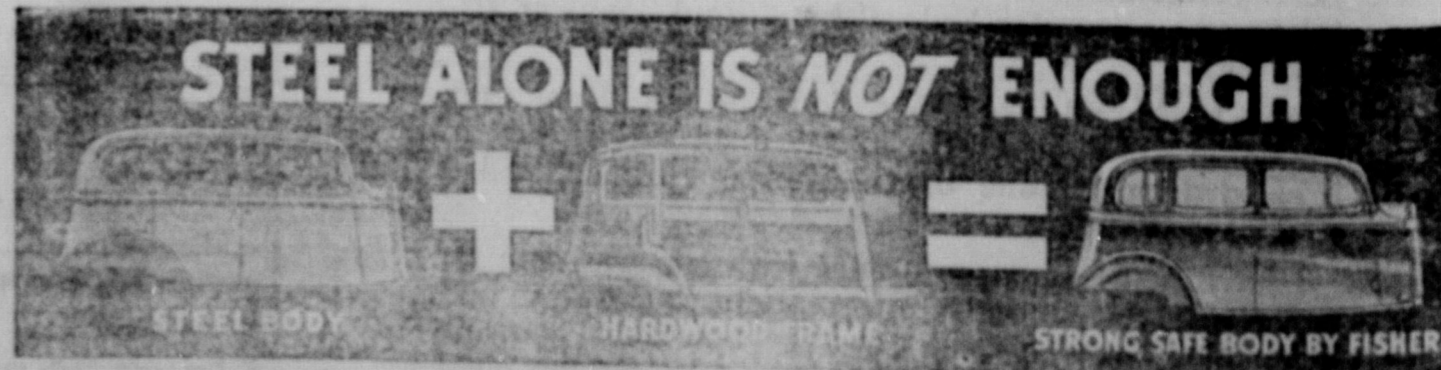

We didn't actually plan on elephants when we chose the bodies for the new Chevrolet. But we did choose bodies rigid enough, and strong enough, to support six tons of elephant or anything else you can name. Fisher bodies... steel bodies plus a hardwood frame... exactly the same type of bodies used on all 12 and 16-cylinder cars. Steel alone is not enough to make you as safe and secure as we want you to be in a Chevrolet. A steel body, welded into a solid wall of protection plus resilient hardwood reinforcing to take up stress, absorb shocks and

prevent the steel from following its natural tendency to buckle under pressure makes the sturdiest body of all—the kind used on the Chevrolet, and on no other low-priced car. Remember that when you buy a car. Be sure to get all you pay for... the super-safety of a steel-plus-wood Fisher body. CHEVROLET MOTOR COMPANY, DETROIT, MICH.
