

Kracker Krumbs Odd Bits Salvaged At Random

A shaped covering for the head, now esp. one with a crown and brim, made of various materials, and worn by men and women.

That, our friends, is Webster's definition of a hat!

There's generally quite a distinction between men's hats and women's hats. We've seen some women's hats that didn't even have a crown.

We've seen some men's hats that appeared like the crown had been grossly mistreated.

We've seen a good many women wearing men's hats, but it's a rare occasion when men wear women's hats.

Some women can make a hat—or covering for the head—out of most anything; take for instance, a bandana, a strip of silk cloth wound around the head and tied with a knot at the rear, or most anything.

Most women wear hats when they dress up.

Some men don't wear hats at all. But they have more hair on top of their heads than we do, which forms a sort of protection against the sun's rays.

But most of us were content with Webster's definition of a hat until some enterprising merchant initiated "straw hat day" and "felt hat day."

Along about time for opening of school, the trend of thought seems to drift from straw hats to felt hats for men. Then along about time for closing of school in the spring, the trend completely reverses itself.

It seems the change comes along about the time merchants are stocked up with hats—either straw or felt—that they need to sell to people!

Easter is generally "new hat day" for the women. Our woman says about the only reason we go to church on Easter Sunday is to get a good laugh at the women's hats.

But men don't pay a big heap of attention, locally speaking, to the trend from felts to straws, or vice versa.

The change come about when, for obvious reasons, the old hat has just about served its purpose.

Upon departing for the office one day last week, we were asked the question: "How long are you and Jimmie Harpham going to wear those straw hats?" "Mine's gonna be worn until October 1," we says, "don't know about Jim."

But it was hot on October 2, so we changed from our old every-day straw to our not-so-old Sunday straw. We seemed a little more dressed up.

But we got to noticing hats more, and lots of others people were still clinging to their old straws.

At the football game Friday night, we overheard Jim Harpham counting the men's straws in the crowd. We concluded that about the same conversation as we quoted above must have taken place at his home!

To us a hat is pretty much like a shoe—it just begins to get comfortable about the time it gets old and worn out and ready to be discarded.

But Chester Borden declares he's always glad for felt hat season to come back. Those old straws just ain't comfortable to him.

With hats on our mind, we came to work Tuesday morning. It was rather interesting to note the dress of those who come to the post office after the mail.

Men with coats and jackets on—but staying with those straw hats.

(Continued on last Page)

Cotton Controls Lifted For '51

Rigid government planting and marketing restrictions which went into effect in 1950 will be withdrawn for the 1951 crop and farmers will be free to grow all the cotton they want next year. Announcement of lifting of cotton controls was made Tuesday by Secretary of Agriculture Brannan in Washington.

Prospects for a short supply of some grades of cotton led the secretary to free the crop from government controls, it was stated. This year's production was far short of expectations, due largely to the fact that farmers did not plant all the land they could under the allotments, reverse weather conditions, and damage by insects. The short supply has contributed to a cotton price advance of about a third in the past 12 months.

The 1950 crop will be covered by government price supports however, Brannan did not say at what levels the prices will be supported.

Under the law, price supports must range between 80 and 90 percent of parity, which is a level calculated to be equally fair to the producer and the purchaser.

The nation needs at least 16,000,000 bales next year. Such a crop will compare with this year's unusually small one of 9,637,000 bales.

Commenting on the possibility of overproduction, the secretary said it was in the "public interest" to have too much rather than too little.

Several weeks ago, Brannan announced a 1950 wheat program calling for a larger crop next year to assure the country of ample supplies in connection with the national defense program.

Tuesday's action announcing that there will be no acreage allotments or marketing quotas next year applies to both upland and long staple cottons.

Control Laws Attacked
Brannan said acreages planted by farmers next year will be considered as a part of individual farmers' base acreage in establishing any future cotton acreage allotments.

Brannan said the fact that neither marketing quotas nor acreage allotments will be in effect for next year's crop will help insure production of at least the 16,000,000 bales needed to take care of increased domestic and export demand and to avoid depleting reserves.

The secretary's statement took a slap at cotton acreage control laws. He said acreage allotments under present legislation would not be satisfactory or realistic.

Moguls Play Anson's Tigers Here Friday

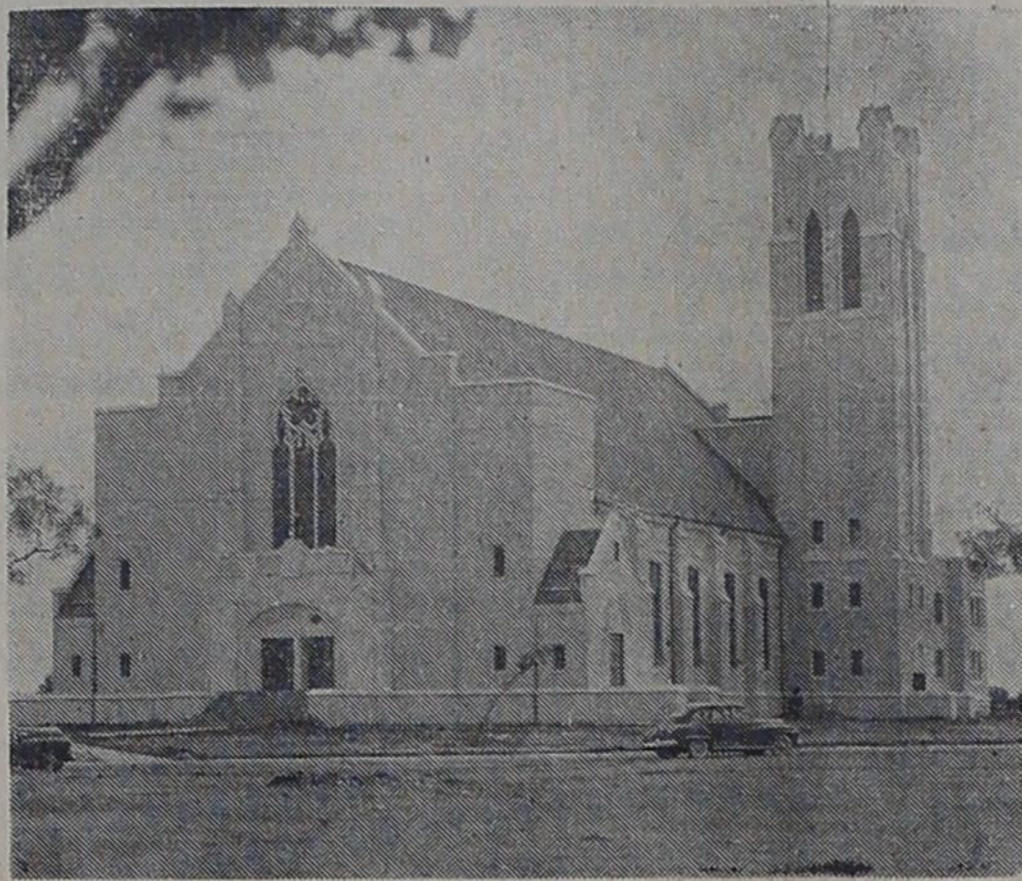

Another home game is on the schedule for the Munday Moguls next Friday night when they meet the Anson Tigers on Scruggs Field.

The game will be of secondary interest for football fans of the district, since a highlight of the district play will be at Haskell, where the marching Haskell Indians meet the Stamford Bulldogs. That game is expected to attract many fans from over the district.

Since the Moguls broke into the win column last Friday night by trouncing the Rule Bobcats to the tune of 26-0, they are expected to hold the interest of most of Munday's fans. The Mogul-Tiger tilt has been an outstanding one for several years, and there is expected to be no let-up in football tactics and fight when the two teams meet here on Friday night.

Coaches Green and Stewart have dished out the usual "menu" for the Moguls this week—that of stiff training and hard scrimmaging—in an effort to continue to "iron out" the rough places. The local team has shown much improvement over early-season games, and they will likely be in top form for the game Friday night. Game time is 8 p. m.

McMurry Student Life Center

Formal opening at McMurry College of the Radford Memorial Student Life Center is scheduled during the Dedication program October 10 and 11. Result of a \$600,000 gift by Mrs. J. M. Radford of Abilene, the building with its 110-foot tower, is already a part of the Abilene skyline. A 1,300 capacity auditorium will be used for both religious services and entertainments. A smaller auditorium, game rooms, and meeting rooms are provided for social events. President Harold G. Cooke expects 10,000 persons from West Texas and New Mexico in Abilene for the program.

Funeral For Mrs. Rebecca A. Layne Held Sunday

Mrs. Rebecca A. Layne, a resident of Munday for a number of years, passed away at the family residence here on Saturday, September 30. She had been in ill health for about two years.

A native Texan, Mrs. Layne was born Rebecca Isbell in Tarrant County, Texas, on January 28, 1878. She was 72 years, eight months and two days of age.

Surviving her are a sister, Mrs. Mary Adelia Johnson of Abilene, and four brothers, who are: Lee Isbell of Munday, J. F. Isbell of Bayard, New Mexico; C. C. Isbell of San Angelo and A. O. Isbell of Roswell, New Mexico.

Funeral services were held from the First Baptist Church in Munday at two o'clock last Sunday afternoon, being conducted by Rev. Huron A. Polnac, pastor. The body was laid to rest in Johnson Memorial Cemetery, with the Mahan Funeral Home in charge of arrangements.

Pallbearers were Wallace Reid, Andy Hutchinson, Kirby Fitzgerald, Bob Jarvis, J. C. Borden and Herbert Stodghill.

Work Begins On New Post Office

Work of setting the forms and getting ready for construction of Munday's new post office building was started the first of this week. Shortage of cement is holding up actual construction work.

Completion of the new building will be rushed when cement and other materials arrive.

The building, being constructed just north of the Munday Locker Plant, will have ample parking space for customers of the post office, and it will be easily accessible for loading and unloading mail.

1.33 Inches Of Rain Falls Here

"The drops were pretty thick," said H. P. Hill Tuesday when asked about the amount of rainfall we received in the flash downpour here Monday afternoon. He reported 1.33 inches.

The rain came rather suddenly, although it had been threatening most of the day. Along toward five o'clock Monday afternoon it started, and in about an hour's time it was over.

The heavy rain was pretty well localized, however, it was reported. It became lighter to the east, and only a shower was reported at Vera and other points in the county.

Moguls Win From Rule 26-0 Friday Night

Showing a better brand of football than in any of their previous games, the Munday Moguls took the Rule Bobcats to count last Friday night, 26-0, on the local field.

The charges of coaches Green and Stewart started their scoring in the first quarter when Jim Bell went over from the one-yard line. A passing attack by the Moguls paid off for two of the four touchdowns.

Following Bell's crossing of the pay stripe, Scottie Ponder kicked goal for the extra point to place the Moguls in a 7-0 lead.

Ford caught a 25-yard pass from Ponder in the second quarter to add another six points, but this time the try for extra point failed.

Scottie Ponder added the third counter when he ran over from the 4-yard line in the fourth period, then he added the extra point.

Late in the fourth, Coach Green sent in his second stringers, full of pep and enthusiasm. These boys soon drew a 5-yard penalty for offsidings and a 15-yarder for clipping. Ponder and Ford went back into the game, and in a fourth down try, Ponder heaved another pass to Ford for forty yards, and Ford fought his way over the goal line. Again the try for extra point failed.

Rule made several threats, the most serious one coming in the third quarter when the Bobcats got within five yards of pay dirt. Their drive bogged down short of the goal line. First downs were 13 for the Moguls to nine for the Bobcats.

New Sunset Drive-in To Open Thursday, Oct. 12th

Winners Named For Swine Show Held Saturday

The Annual Knox County 4-H Sears Pig Show was held Saturday, September 30 on the City Hall lawn in Munday. This show was sponsored by the Community Development Association of Munday. Judge for the occasion was Jack Idol, manager of the League Ranch at Benjamin. The Champion gilt was shown by Doyle Dodson, of Knox City. Other winners in the County Gilt Show were: 2nd, Donald Hill, Sunset community; 3rd, Kenneth Day, Knox City; 4th, Truman Brown, Benjamin; 5th, Bobby McBeth, Knox City; 6th, Randolph Barnett, Benjamin; and 7th, Kenneth Hubbard, Knox City.

Vernon Winchester, of Goree, was first place winner in the Pen of Three fat hogs contest. Billy Henson, of Munday, was second place winner. Prizes for this event were: 1st, \$17.50; and 2nd, \$12.50.

Prizes for the County Gilt Show were: 1st, \$8.00; 2nd, \$7; 3rd, \$6; 4th, \$5; and 5th, \$4.

The above mentioned prizes will be given in the form of merchandise for the improvement of the Swine Program, awarded by the Sears-Roebuck Foundation.

The first place gilt, pen of three fat hogs, and the county boar by Joe Swearingen, of Knox City, will be shown at the Texas-Oklahoma Livestock and Oil Exposition Show, which will be held in Iowa Park on Saturday, October 7.

Medical Society Meets Recently In Seymour

A meeting of the Baylor-Knox-Haskell Counties Medical Society was held recently in Seymour, when dinner was served at the Club Cafe to doctors of the society and their wives.

Dr. C. G. Marward of Rochester, president of the society, presided over the meeting. Featured speakers were Dr. Ivan G. Mayfield, diabetic specialist ofubbock, who gave a paper on diabetes, and Dr. Allen T. Stewart, president-elect of the State Medical Association, also of Lubbock, who gave a lecture on "Assignment and Procurement."

Present were: Dr. and Mrs. C. G. Markward, Rochester; Dr. and Mrs. Tom Bunkley, Dr. and Mrs. Ike Hunter, Dr. and Mrs. Tony Selman, Stamford; Dr. E. T. Heard and Dr. W. M. Taylor, Goree; Dr. Robert Newson and Dr. Mrs. Ben Bowden, Munday; Dr. Ivan G. Mayfield and Dr. Allen T. Stewart, Lubbock; Dr. T. S. Edwards, Knox City; Dr. and Mrs. E. H. Balch, Dr. and Mrs. C. M. Randall, Jr., and Dr. and Mrs. J. W. Foy, Seymour; Dr. and Mrs. T. W. Williams, and Dr. and Mrs. Frank C. Scott, Haskell.

Drive carefully. The life you save may be your own!

Knox County Hospital Notes

Patients dismissed since September 25th:

Mrs. J. C. Golden and baby, Benjamin; Lucar Pachua, Knox City; Mrs. Minnie Olson, Gilliland; Jack Walker, Weinert; Mrs. Dave Caram and baby, Knox City; Mrs. Sam Breeden, Haskell; Mrs. Freeman Smith, Knox City; Mrs. L. G. Cook and baby, O'Brien; Mrs. Earl Pruitt, Munday; Clelland Russell, Vera; Mrs. Fred Warren, Lubbock; Mrs. Earl Hughes, Knox City; Herbert Sams, Benjamin; Mrs. B. H. Jones, Weinert; Leonard Norman, Munday; Robert Perdue, Goree; Juan Ramirez, Knox City; Mrs. Rex Patterson, Benjamin; Mrs. Dave Jetton, Munday; L. J. Hill, Munday; Mrs. R. P. Barnard, O'Brien; Mrs. C. A. Barnard, O'Brien; Mrs. J. F. Redder, Munday; Mrs. Roy Sterns, Rochester; Mrs. D. K. Carmack, O'Brien; Mrs. Ray Petty, Benjamin; Lawrence Reed, Gilliland; Mrs. F. H. Robinson, Truscott; Mrs. C. A. Bullon, Truscott; Thelma Oliver and baby, Munday.

Patients in the hospital October 2nd:

Mrs. W. C. Armstrong, Munday; W. N. Robinson, Weinert; Mrs. Susie Butler, Rochester; Mrs. John Ed Wilde, Munday; Mrs. W. D. Norman, Rule; T. C. Merrill, Munday; Mrs. R. W. Fitzgerald, Goree; Mr. and Mrs. G. D. Jones, Goree; Betty Taylor, Benjamin; Jack Burnison, Munday; Mrs. Walter Townsend, Snyder; Mrs. C. J. Duncan, O'Brien; Mrs. A. J. Waters, Rochester; Mrs. J. McMahon and baby, Rochester; Mrs. Rhodes Allen and babies, Munday; W. M. Hedrick, Benjamin; Mrs. Beulah Rivers, San Angela; Mrs. W. L. Donaldson and baby, O'Brien; Betty Morton, Knox City; Darrell Strickland, Haskell; Herbert Sams, Benjamin.

BIRTHS

Mr. and Mrs. Dan Caram, Knox City, a son.

Mr. and Mrs. Rhodes Allen, Munday, twin girls.

Mr. and Mrs. J. C. Golden, Benjamin, a daughter.

Mr. and Mrs. Arnold Wilde, Rhineland, a daughter.

Mr. and Mrs. J. McMahon, Rochester, a daughter.

DEATHS

Sophia Rodriguez, Munday.

Mrs. Henry Cooner, O'Brien.

FUNERAL SERVICES FOR WASHINGTON INFANT ARE HELD ON TUESDAY

Funeral services for Louis Washington, Jr., infant son of Louis and Minnie Lou Washington, colored, were held at the graveside at 2:30 o'clock Tuesday.

The child, who was about seven months old, died at the family residence early Tuesday morning. Services were under the direction of Mahan Funeral Home.

MOVE TO KAUFMAN

Mr. and Mrs. F. H. Russell, long-time residents of Munday, left the first of this week for Kaufman to make their home. They lived at Kaufman before coming to Munday.

Mrs. Ralph Bernard and children of Lubbock came in the latter part of last week for a visit with Mrs. Bernard's parents, Mr. and Mrs. W. R. Moore, and other relatives.

The newest entertainment center for this area—the Sunset Drive-in Theatre—will hold its grand opening Thursday night, October 12, it was announced this week by P. V. Williams of Munday and Clyde Williams of Knox City, owners.

The opening program will feature the technicolor picture, "Take Me Out to The Ball Game," starring Frank Sinatra, Esther Williams and Gene Kelly. In addition, there will be a color cartoon and a short feature, "Tom and Jerry."

The drive-in is in the final stages of completion this week, with all electrical equipment being completed, the ramps and driveways graveled, etc. It is being equipped with the very latest in projection and sound equipment, and the huge screen is situated so it can be easily seen from any parking point along the ramps.

Constructed on a 7-acre plot of ground, the new drive-in is one of the best in this section, and is also equipped with 300 in-car speakers. There is also an up-to-date confectionary and snack bar, where you may purchase cold drinks, sandwiches or other refreshments at any time during the show.

"America living, working and playing on wheels created a demand for a place of amusement where the family could go as a group in one automobile, with no parking worries, and remain in the car and be entertained," the owners stated, "and we believe we have fully met that demand for this area."

"The Sunset Drive-in Theatre is a place where you may go, dressed in your work clothes or any way you wish, and see a good picture. We invite you to bring the kiddies in their pajamas. They won't miss a minute's sleep. Here you can eat, refresh yourself with a cold drink, smoke at your leisure, and enjoy a good picture."

The theatre will feature two shows nightly—rain or clear—and will run as far into the fall as weather will permit. The owners expect to operate for several weeks before the weather gets too cold for patrons to sit in their cars.

Bill Morris On Sales Force For Reeves Motor Co.

Announcement was made this week that Bill Morris, well known local man, has joined the sales force at Reeves Motor Company, taking up his duties last Monday.

Mr. Morris will serve as sales manager for the local firm and will sell new and used cars and trucks, or what have you. He has "peddled" new and used cars, combines, etc., to people of this area for some time and is well known to people of the Munday trade area.

Bill invites his friends to visit him at his new "hangout" and to see him any time he can be of service.

MEXICAN INFANT IS BURIED WEDNESDAY

Sophia Valdez Rodriguez, infant daughter of Manuel and Maria Rodriguez, was buried here on Wednesday, September 27. The child, two months and two days of age, died on Tuesday at the Knox County hospital.

Burial was in the Johnson Memorial Cemetery under the direction of Mahan Funeral Home.

ON McMURRY SQUAD

ABILENE—Richard Bickley of Knox City, a tackle, will play for the McMurry Indians in their first home game of the season, against Mississippi Southern College, at 8 p. m., Saturday, October 7.

Mr. and Mrs. Albert J. Brown have returned to Tulsa, Okla., where they are attending the University of Tulsa, after a visit with their parents, Mr. and Mrs. Anton Brown of Munday and Mr. and Mrs. Parks Norris of Benjamin. Mr. Brown is a junior in the College of Petroleum Sciences and Engineering, while Mrs. Brown is a freshman majoring in Homemaking Arts.

 act of Congress, March 2, 1879.

OUR NEEDS FOR 1950

1. Completion of our portion of the Throckmorton road, giving the farmers of that area an all-weather outlet.
2. A farm-to-market road to the north and east of Munday, possibly connecting with the Hefner road.
3. A U. S. Federal building. Munday needs new post office home.
4. More homes in Munday. We did a good job in 1949, but there's still a housing shortage.
5. A new telephone system, giving the town adequate telephone service and tapping the rural area surrounding the town.
6. Greater cooperation of business man, farmer, and citizen toward long-range development for our community.

THE COUNTRY PRESS SAYS

ALBANY, OREGON, DEMOCRAT-HERALD: "The rank and file of the American people who pay the taxes pay little attention to national government. This has encouraged wastefulness to degree which has become alarming."

DENVILLE, N. J., HERALD: "The elaborate tables prepared by the New Jersey CIO on the voting records of the state legislators don't say directly whether a senator or assemblyman voted 'yes' or 'no'; they list him as having voted 'right' or 'wrong' on the utility anti-strike law because they voted to extend the law and thereby give the public some measure of protection against sudden irresponsible action by the leaders of utility unions."

CHEWELAH, WASH., INDEPENDENT: "The Hoover survey showed that the U. S. government owned 848,567 typewriters which are being used by 235,000 persons. The difference between government and private business is that private business would dispose of 613,567 of the typewriters while the government will employ 613,567 persons to run the idle typewriters."

WAKEFIELD, MASS., DAILY ITEM: "Curious to know how the female bathing-suit industry is to comply with the government's desire to have us get along with less of everything."

FAIRFIED, IOWA, DAILY LEDGER: "We better return to the Constitution instead of trying to plunge any deeper into the muddle of totalitarianism which is as far removed from our way of life as the North Pole is from the South Pole."

NAZARETH, PA., ITEM: "The women who pay the increased costs, the men who work to make the money to buy the higher priced goods, are voters. Maybe they are voters who figure that if our government, through Congress, can create inflation, as it did four years ago, it can prevent inflation, as of today."

FRANKLIN, INDIANA, REPUBLICAN: "Social security is paid for by payroll taxes exacted from workers and employers; hence bigger ben-

efits spell higher levies."

ITAY, TEXAS, NEWS-HERALD: "What fools these mortals be that cannot learn from European socialists that government ownership means inefficiency, scarcity, low pay—and most important, no remedy for the laboring man!"

GO TO THE POLLS

An important contest is being conducted by the American Press, a publication devoted to the affairs of country newspapers. The purpose of the contest is to get-out-the-vote. Participants are rural newspapers. Awards will be given to those weekly newspapers, semi-weekly and tri-weekly newspapers which, in the opinion of competent judges, do the most between now and November 7 to stimulate voting in their communities.

The editors of American Press have undertaken a fine project. It is gratifying to note that the contest is receiving congressional endorsement. The comment of Senator A. Willis Robertson of Virginia is typical: "I congratulate the American press on its sponsorship of a contest which will give recognition to a weekly or are rural newspapers. Awards will be given between now and November to get out the vote in this year's election. There never has been a time in history when it was more essential for all of the people to accept the obligation of citizenship—and impressing this obligation upon them certainly is a primary function of our free press."

The thousands of country newspapers scattered throughout the length and breadth of the land are a powerful force for free expression that will always command respect. They are a protection and an asset possessed by no other nation.

DON'T BLAME THE WAR

"... Prices on almost every building material have risen since January, and are still on the climb," says Wendell D. MacDonald, regional director of the United States Department of Labor Statistics in Boston. These increases, contrary to public opinion, are found to be due to the heavy consumer demand for housing and increasing wage levels, rather than to the present Korean conflict.

In spite of all fine-spun arguments to the contrary, wages and salaries are the major costs in production. Improved methods in manufacturing, distribution and retailing have reduced operational cost to a bare minimum. During the current inflation, both chain and independent stores are holding prices down constantly by increasing efficiency. But efficiency alone cannot do the whole job.

If the domestic activities of the Federal and state governments were operated as efficiently as industry, our taxes and cost of living would be lower and we would have better than a fifty-cent dollar.

Uncle Sam Says

Farming today requires great skill on the part of the farmer. Not only must he know soils, fertilizers, and seeds, but he must be an expert mechanic to operate all types of farm machinery. In other words, a farmer works hard for his money and in a highly speculative business. He should make that money work for him—in a non-speculative and safe investment. U. S. Savings Bonds, guaranteed by our government, is a crop that NEVER fails. It's always ready when needed. Savings Bonds are a good place for the farmer's crop money. They grow, rain or shine. See your banker or postmaster on the next trip to town.

U. S. Treasury Department

The last of the "show boats" which used to ply the rivers of the South is at the foot of the levee in St. Louis—the "Goldenrod", presenting an old-time melodrama nightly.

St. Louis is a most interesting city—(this observer spent several days there recently, incidentally seeing my first big league baseball games). The old court house in which the Dred Scott case was tried—(remember the "Dred Scott decision" which helped bring on the Civil War?)—is still standing. On the lawn is a stone marking the beginning of Daniel Boone's trail, the first into the wilderness.

Across the street is an aged building with a spiral fire escape, of graceful, delicately-wrought ironwork. The structure houses the picturesquely-named Log Cabin Fur Company, which circumstance reminds one that St. Louis was founded by the French, who were interested in the fur trade, and the city hall is still the largest fur-processing center in the world.

Oldest building is "The Stone House" where John Jacob Astor was active when he was laying the foundation for one of America's greatest fortunes—which was founded on fur trading.

St. Louis is the world's leading city in the making of shoes also beer.

You can see the spot where a former Army officer living in obscurity prior to the Civil War has his real estate office. His name was U. S. Grant.

Then there is the house which the famous financier, Jay Gould

James A. Stephens, Attorney-at-Law

OFFICE IN STEPHENS BLDG. BENJAMIN, TEXAS

Have prosecuted and defended many criminal and civil cases in the trial and appellate courts. The records of the courts in many counties tell the story. Fees reasonable.

built so that his daughter could entertain her friends during the great World's Fair of 1904.

And there is the narrow three story brick house in which Eugene Fields was born. Manuscripts in a small, neat hand; elaborate dresses of his wife; an ax presented him by Gladstone, the English statesman who chopped down trees for exercise; and many quaint articles of furniture—all these make the author of "Little Boy Blue" seem very real.

St. Louis has few traffic lights. At some of the busiest intersections, policemen are on duty in the middle of the street, making their signals with hands encased in white canvas sacks for the sake of increased visibility. At some crossings, you watch for an opening and then run. You may have to sidestep, pivot and change pace to get across. Doak Walker could keep in practice as a broken-field runner in St. Louis.

The Union Station is an immense affair, first a building, then a semi-open waiting room, then the gates and train sheds. In the station are numerous business establishments, including a hotel. Trains are arriving and departing every few minutes.

At one booth are greeters in Oriental headgear and with gold-fringed badges, welcoming delegates to a Negro fraternal convention. Another booth is the point of assembly for many lovely and laughing girls from all over the nation on their way enroll in a famous Missouri college for women.

Hundreds of people rush to and from, tide never pausing;

LOCALS

Mr. and Mrs. Bill Dingsus visited with Miss Merle Dingsus and Henry C. Dingsus last Sunday. They were enroute from Freeport to Pampa, where they are establishing their home.

Mrs. W. W. Pusey and little daughter of Lexington, Va., are here this week for a visit with Mrs. Pusey's mother, Mrs. J. R. Smith, and with other relatives and friends.

William Hertel and Eugene Kuehler, who are attending St. Edwards University in Austin, visited with home folks here over the week end.

and there is the sea-like murmur of men's voices. It is like a Hollywood super-production with "a cast of thousands". What hopes, joys and griefs would be revealed if one could know the stories of those who embrace or shake hands in greeting and the others who smile and maybe shed a tear in parting, in the endless drama of St. Louis Union Station!

Knox Prairie Philosopher Wants To Farm The Same Hours N. Y. Cotton Exchange Is Open, Four Hours A Day

Editor's note: The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek apparently doesn't recognize the vast difference between producing and marketing, his letter this week shows.

Dear editor:
I read in a copy of a newspaper I picked up out here the other day because it was hung on a bobwire fence and I could reach it without stooping over where the New York Cotton Exchange voted to change its closing time on Saturdays from 12 noon to 12:30, because otherwise it would be open only one and one-half hours on Saturday, since it don't open till 10 o'clock in the morning, and even I can see a hour and a half ain't exactly no full day's work. Also, I notice the Cotton Exchange on the rest of the week opens at 10:30 and closes at 3, which is 4 and one-half hours a day, with I suppose, a hour off for lunch.

As I see it, ain't no chance of them New York fellers having a nervous breakdown from workin long hours, and what I want to know is why cotton farmers don't get up on the same level with the Cotton Ex-

change? If we could raise cotton on the same hours it's sold, you'd see me plantin more of the stuff.

As it is, here a regular cotton farmer works from ten to twelve hours a day, but I have figured it the men who sell the stuff ain't gonna work but three or four hours a day, ain't no sense in me stretchin out my hours, don't want to glut the New York market and force them birds into longer hours.

I used to work long hours, years ago, but I got to noticin I wasn't no further ahead after a year of hard work than I was after a year of takin it easy, noticed my wife nagged about the same, year in and year out, and it wasn't no effort at all for me to figure out which course to follow. Of course I ain't recommendin this policy to everybody, and will compromise if the hard-workin folks won't recommend their policy to me.

I been toyin with the idea of rotatin the whole system of farming and sellin in this country, let the farmers farm one year then swap places with the sellers and let them farm, but so far I ain't gotten no where with it. Ain't found a single feller willin to swap.

Yours faithfully,
J. A.

Mr. and Mrs. E. O. Tuggle and daughter, Sandy, of Fort Worth, visited in the home of Mr. and Mrs. Dee Mullican over the week end. Mr. and Mrs. Ben Tuggle, who have been visiting in Fort Worth, returned to Munday with them.

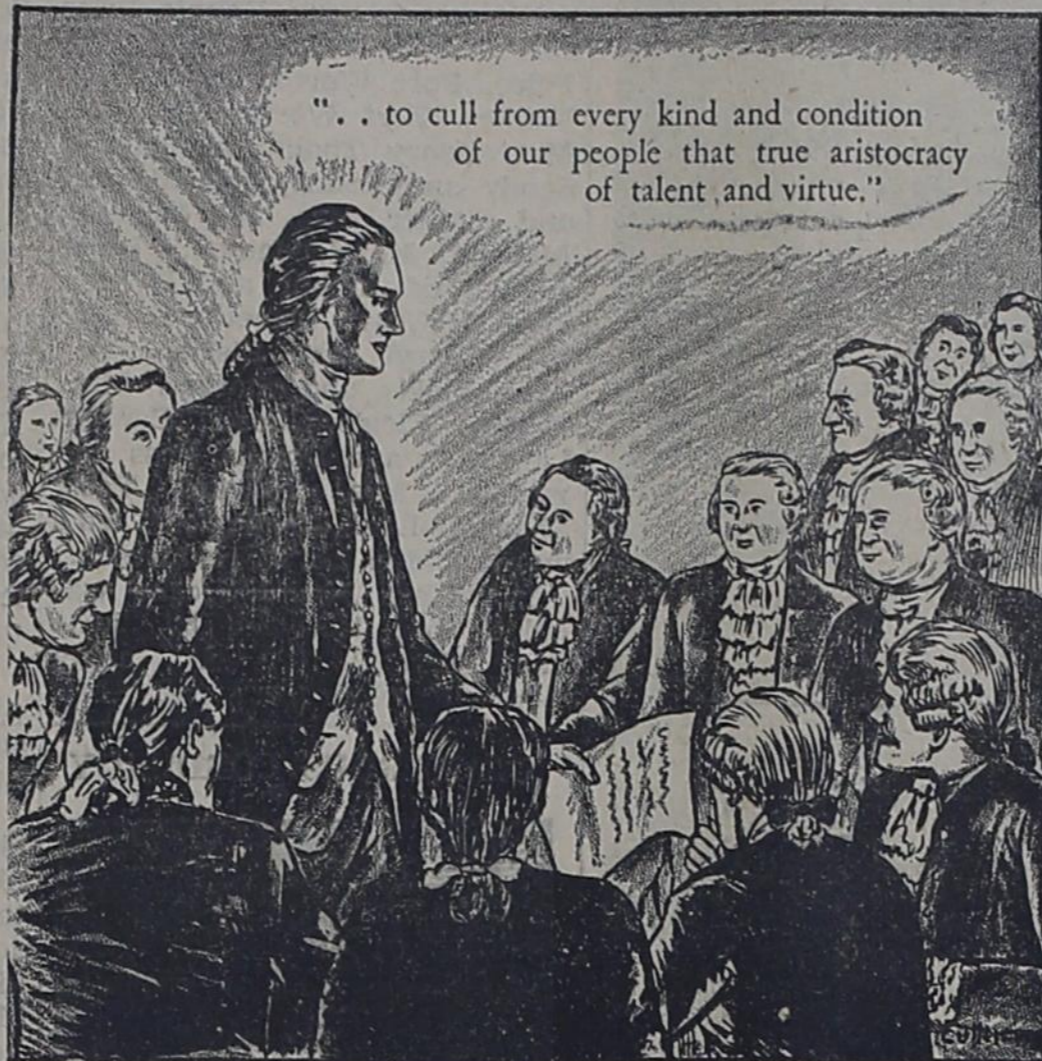

Mr. and Mrs. Zane Franklin visited in the home of his parents, Mr. and Mrs. Will Franklin, in Rule over the week end.

Texas Venture

In Education • 1876-1951

Our first state college—Texas A. and M. is now in its seventy-fifth year

The idea of tax-supported technical colleges, offering higher education at a cost which the sons of all economic classes could afford and teaching men how to make better livings in such ordinary fields as agriculture and industry, grew out of the American Revolution. Thomas Jefferson was one of the first to see that the old type of college, in the ivory tower tradition, could not serve the needs of the newly-created democracy. It was not enough, he said, to educate the sons of wealth for the professions of medicine, the ministry, teaching and literature. Men needed more practical training, and it must be available to the sons of all economic groups. "The true function of education in a Democracy," he declared in one famous speech, "is to cull from every kind and condition of our people that true aristocracy of talent and virtue." It was on this philosophy that the A. and M. College of Texas was founded, a hundred years later.

Mr. and Mrs. Fayette Hardin left for California last Monday to visit in the home of their son,

Mr. and Mrs. Ray Hardin and family. They plan to be away for two weeks.

Huge Gas Range Exhibit State Fair Feature

Thirty-six different brands of gas ranges—all lined up to form one of the largest displays of its kind ever assembled under one roof—may be seen at the Natural Gas Building during the State Fair of Texas to be held in Dallas, October 7-22. This mammoth presentation of modern gas cooking equipment for the home will be housed in the "Big Room" of the building where radio and television stars will entertain with song and piano numbers at a free show.

The exhibit will present all makes of gas ranges sold in the Southwest, thus helping a visitor find the range of her choice without shopping from one store to another. Natural Gas Building representatives point out that persons attending the exhibit will be free to inspect the ranges and literally "tear them apart" if curiosity prompts.

One range will be completely equipped for actual cooking should a person have the urge to put a range to the extreme test. However, that person must supply the food to be cooked, it was pointed out. Attendees will be available for demonstration and explanation of the cooking equipment but they will not attempt to close sales on the exhibit floor, the building representatives stated.

Jimmy Jeffries, "round man of radio", top-flight entertainer and connoisseur of good food, will present his ideas on what it takes to make good food and food good. His "medicine show" woven around the advantages of modern gas cookery will be held in the "Big Room" and will include Claire Stewart and Gloria Yates, radio and television

stars, who will sing and play the piano.

"Lone Star" rookies, made from a new recipe prepared by members of the home economics staff of the Lone Star Gas Company, will be served at the conclusion of each show. Copies of the recipe for the cookies, baked in the form of a Texas star, will be available to visitors. Other features in the Natural Gas Building will be two "New Freedom" all-gas kitchens introducing the three new colors in kitchen decorating: terra cotta, morning blue and dusk blue; an array of model floor plans built around gas aid conditioning for small and large homes; a model laundry room equipped with a gas clothes dryer, automatic gas water heater, large clothes hampers and ample shelf space; forced air central heating plants and floor furnaces and a display of gas refrigerators.

Spacious lounges, comfortable chairs, free ice water and clean rest rooms will be available to Natural Gas Building visitors. The building is air conditioned by gas units that use the same flame to produce either

COTTON SHEETS PROVED SUPERIOR

Tests of bed sheeting indicate that all-cotton sheets are superior in breaking strength, resistance to abrasion, shrinkage and stretching to sheets identical in construction but woven entirely or in part of viscose rayon staple.

Dr. Suzan Davidson, Bureau of Human Nutrition and Home Economics of the U. S. Department of Agriculture, reported on results of the sheet tests to a research meeting of the American Hohe Economics Association at Boston recently.

Tests simulating actual household use were conducted on three sheetings. One was manufactured of all-cotton, another of all-rayon, and a third of a cotton and a rayon fiber mixture. They were manufactured alike in every respect except fiber content.

Mr. and Mrs. Rhea Chamberlain visited with relatives in Lovington, N. M., over the week end.

cooling or heating by the "flick of a tiny switch."

Munday Study Club Opens Year With Dinner Friday

The Munday Study Club opened the new year with a seven o'clock dinner, September 29th. The setting was at the new Homemaking Department of the Munday High School.

The banquet tables were beautifully decorated with autumn fruit and dahlias. Miss Eugenia Robertson and her homemaking students served a baked iced dinner.

The dinner was preceded by a welcome from one of the hostesses, Mrs. C. P. Baker, and the invocation by Mrs. Huron A. Alnae.

The new president, Mrs. W. Sharp, presided and greeted thirty-eight members and a visitor, Mrs. C. H. Giddings.

Mrs. G. R. Eiland gave the story of the club federation and the Munday Study Club in highlights of the past.

The year's program were outlined and presented to the club by Mrs. A. L. Smith. The topic chosen for the year is "The World and Its People."

A short business meeting was held after which the club was adjourned by the benediction of Mrs. J. O. Bowden.

The hostesses for this dinner were: Mrs. C. P. Baker, J. C. Harpham, C. C. Harpham, Leonard Hannah, A. E. Richmond, and D. C. Eiland.

Miss Louise Speigelmire of Arlington State College visited and Mrs. Lee Haymes last week.

Mrs. C. H. Giddings Honored Tuesday In McStay Home

Mrs. S. E. McStay entertained members of the No. 8 Luncheon Club and several guests with a dinner on Tuesday evening at seven o'clock at the City Grill, honoring Mrs. C. H. Giddings of Dalhart, former resident of Munday, who has been visiting friends here.

After dinner, the ladies were entertained in Mrs. McStay's home with games of canasta. The entertaining rooms were very colorful with arrangements of fall flowers.

Those enjoying this delightful evening were: Mrs. Giddings, C. B. Baker, and Fred Broach, Sr., guests, and the following members: Mrs. P. V. Williams, H. F. Jungman, T. G. Benge, Georgia Maples of Goree, G. R. Eiland, D. E. Holder, Sr., A. H. Mitchell and the hostess.

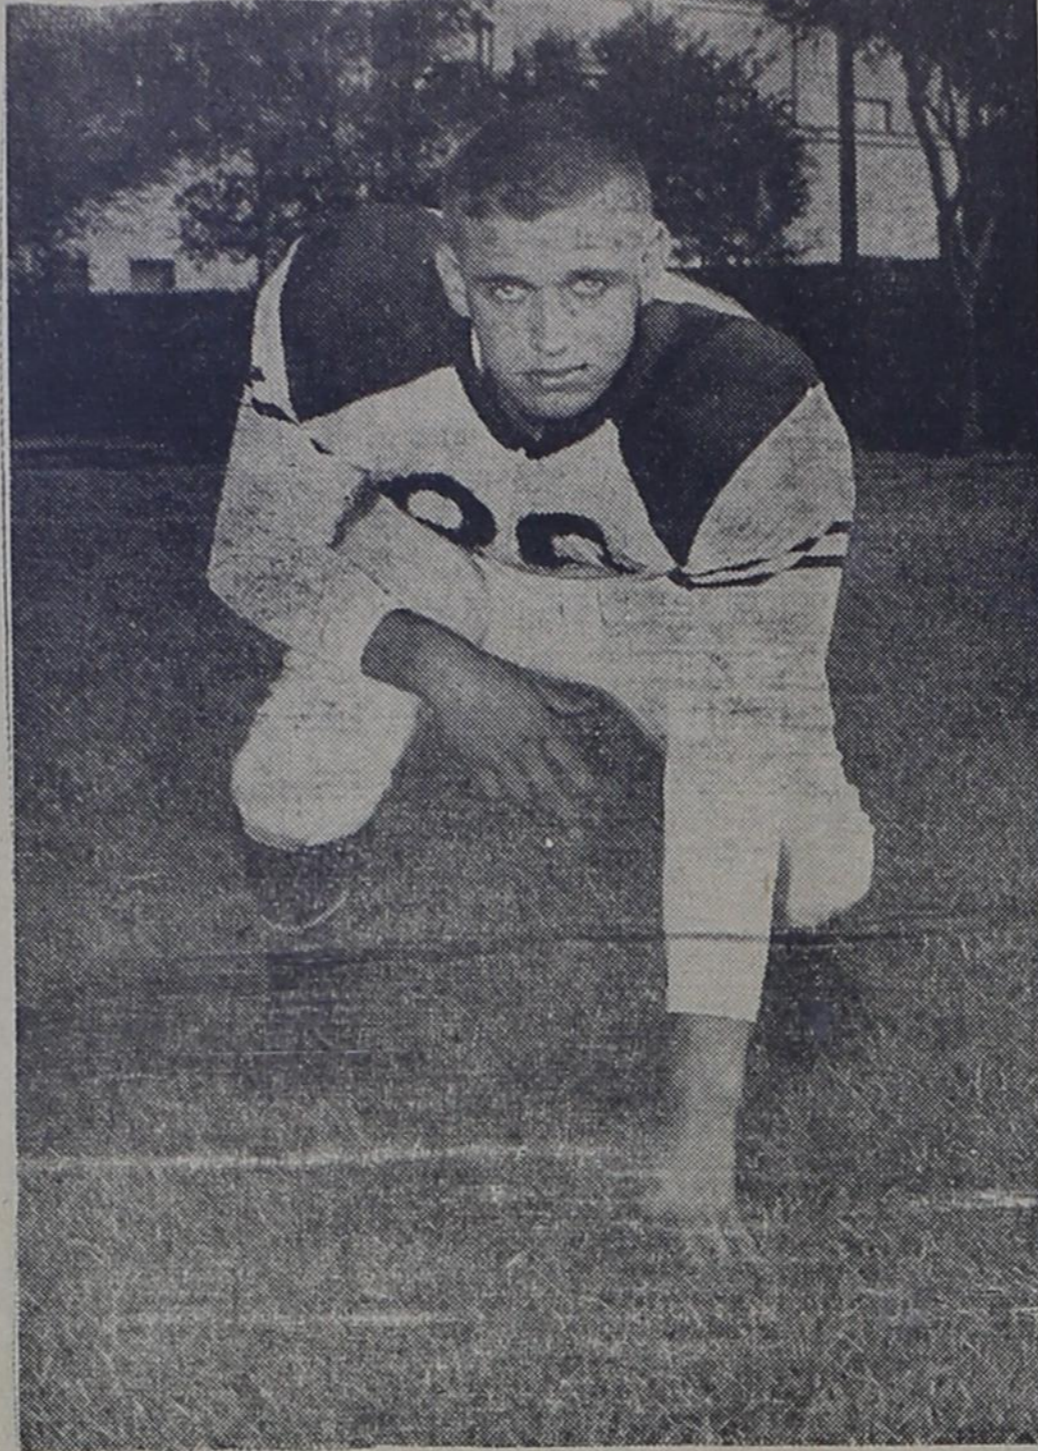

Mr. and Mrs. E. W. Harrell visited in Anson last Sunday.

CARD OF THANKS

We take this means to thank each and every one, who in any way contributed their services during the illness and death of our sister and aunt, Mrs. Rebecca Layne. We want to especially thank the Veterans of Foreign Wars for the use of the Hospital Bed, and the ladies of the First Baptist Church for serving the food. May God's richest blessings be with you for every thought, deed or act of kindness.

—The Relatives.

Still Holding End Position

CANYON—Joe Spann, Munday, junior, is a starting end on the powerful West Texas State Buffaloes and is one of the main reasons why the team is currently pacing the field in the rugged 9-team Border Conference.

Twin brother John is a reserve guard for Coach Frank Kimbrough, and will see much action this season.

Munday H. D. Club Meets Wednesday With Mrs. Bowley

The Munday home demonstration club met Wednesday, September 27, in the home of Mrs. Frank Bowley. Mrs. Buel Claiborn acted as secretary in the absence of Mrs. Fred Lain.

Mrs. Joe Patterson gave the council report, and Mrs. Walter Mooney gave a report of her meeting with Miss Hodge, district vice-president. At this meeting, Miss Hodge gave demonstration on making U. N. flags. These flags are to be flown in connection with our U. S. flag in each school and community in the U. S. in school programs on October 24.

A demonstration on "chicken 'n' cornbread rings" by Mrs. J. C. Collehon and Mrs. Joe Patterson, and these were later served on the refreshment plate with cookies and fruit punch.

Eight members were present to witness this demonstration. The next meeting will be held on Wednesday, October 11.

Robert Henry Gaines, who is attending N. T. S. C. in Denton visited his parents, Mr. and Mrs. Jim Gaines, here over the week end.

Joe and John will be seen in action next against Texas Tech in Lubbock, Saturday night, Oct. 17, in an important conference tilt.

Mrs. Followill Honored At Bridal Shower Saturday

Mrs. Dorman Followill, the former Patsy Matthews, was honored with a lovely bridal shower on Saturday afternoon, September 23, in the home of Mrs. R. F. Reeves of Munday.

Hours were from three to five o'clock. The bride received many lovely and useful gifts.

Refreshments of cake and punch were served to the guests who called during the above hours.

Mr. and Mrs. Sidney Lee of Fort Worth visited their mother, and brother, Mrs. O. W. Lee, and Harvey Lee, last week end.

Mrs. J. O. Tynes returned Monday from a visit in the home of her son, Mr. and Mrs. Jot Tynes, in Big Spring.

Mrs. C. H. Giddings left Wednesday on return to her home in Dalhart after a week's visit with friends here.

Alton Hunter and Jackie Bookout of Wichita Falls visited with friends here over the week end.

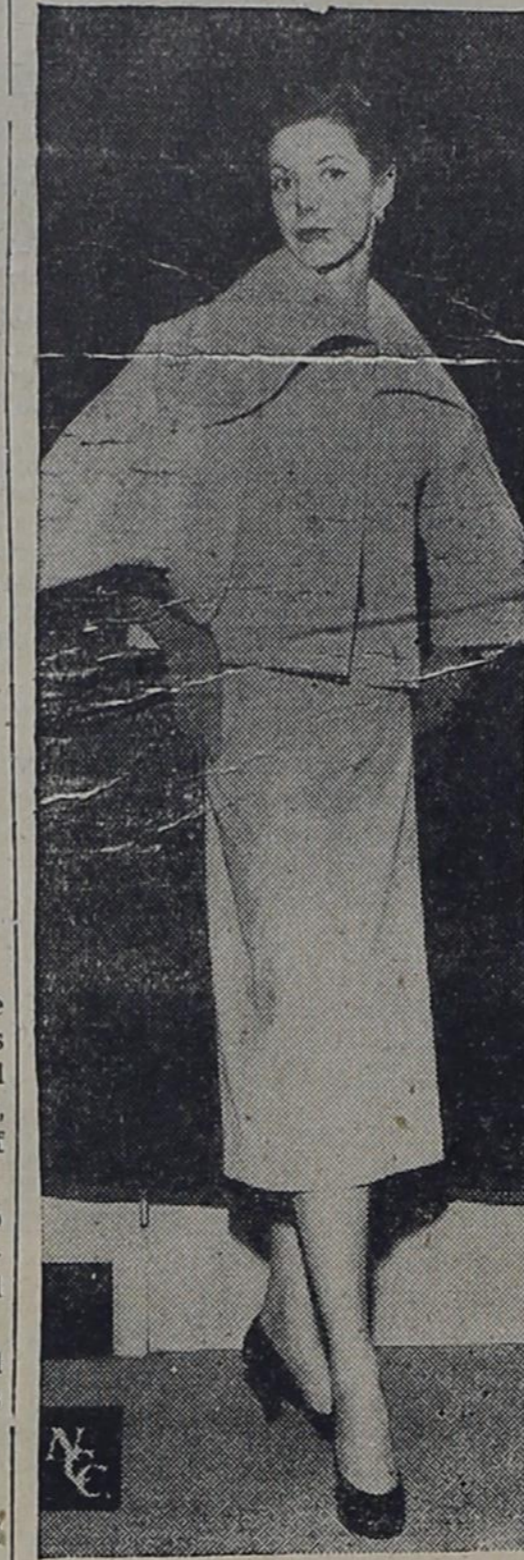

Donovan Cheek Is Honored At Party On First Birthday

A birthday party honoring Donovan Cheek, who was one year old September 29, was given at his home last Saturday afternoon.

His guests were Ronnie Price and parents, Mr. and Mrs. Jim Price, Fort Worth; Mrs. T. A. Walker, Fort Worth; Mr. and Mrs. Henry Thompson, Aledo; Sandy and Rodney Joe Morrow and mother, Mrs. Joe Morrow; Mrs. M. M. Henderson, Linda Ann, Fred Arthur and Patricia Faye McGraw, Annette Henderson, Cheryl Jean Fisher, Barbara Fields and mother, Mrs. Dessie Fields; Joan Carolyn Lain, Sue and Donnie Voss and mother, Mrs. Howard Voss; Sharon Lee Henderson and mother, Mrs. Leroy Henderson.

Donovan's birthday cake was baked and decorated by Mrs. Joe Morrow. It was angel food with white icing, and "Happy, Birthday, Donovan" was spelled out in pink letters. The tiny candle was white.

GLAMOROUS CORDUROY

This glamorous cotton corduroy suit-dress was modeled recently in a showing of outstanding fall and winter corduroy fashions by Crompton-Richmond. The distinctive styling of this chic two-piece corduroy designed by Jean Patou features huge sleeves that give it almost a cape-like effect. The wide, wide collar buttons with two giant buttons at the edge of the sleeves.

Early Mistakes Of U. S. Blamed For War In Korea

DALLAS—Owen Henderson, member of the military government sent to Korea at the close of the war, says in the current Southwest Review, published at Southern Methodist University, that our lack of a definite policy in dealing with Communists in North and South Korea fostered conditions which led to the present war.

An example of the muddled handling of Korea at the beginning of our occupation is the fact that the 500 members of A. M. G. sent to set up a civil government had no training in the Korean language nor any information as to what the U. S. policy was to be. The resulting uncertainty and confusion played into the hands of the Soviets in the North, who had set up without hesitation a strong

government headed by Moscow-trained Communists, and were organizing at that time the "People's Army."

The U. S. answer to these very apparent military preparations was a South Korean constabulary, supplied with outmoded weapons, and trained in a more or less perfunctory manner by the U. S. officers, some of whom proved incapable of other commands.

Another serious mistake, Henderson says, was our failure to inform the South Koreans of our aims and long-range plans for their country. They could see, or were told, that north of the 38th parallel there was a smooth-running government headed by Koreans—though Communist educated and controlled—while to the south American officials were allowing various political parties to organize and hold elections. These parties were later to hinder the establishment of a government strong enough to deal with political and economic conditions, the later of prime importance to a country squeezed dry by twelve years of Japanese occupation.

Capt. C. O. Layne of Beaumont visited his mother, Mrs. Addie Layne, and Mr. and Mrs. A. U. Hathaway on Tuesday night and Wednesday. He was enroute to Amarillo for a meeting of highway patrol captains.

Goree News Items

Mrs. C. C. Maloney of Seminole, and Milam Diggs of Haskell were Goree visitors last Thursday.

Mr. and Mrs. Orb Coffman returned home a few days ago after visiting Mr. and Mrs. Jack Coffman and baby of Floydada.

Mrs. George Hunt is in the Haskell hospital receiving treatment for a virus infection. She

is reported to be doing nicely.

Mr. and Mrs. Louis E. Blankinship and children spent the week end in Fort Worth visiting relatives. Louis has received his call back into the Armed Service. He will report October 18. He spent some two and one-half years overseas in World War II.

Mr. and Mrs. John Coffman returned Tuesday from visiting their son, Ebb Coffman and family in Abernathy.

Mrs. George Crouch returned home Saturday after spending several days in the home of her daughter, Mrs. Charles Knefelty, of Abilene. Mr. and Mrs. Knefelty remained here for the week end visiting relatives.

Mrs. William Lane of Megargle spent Wednesday with her mother, Mrs. T. J. Peek.

Mr. and Mrs. J. J. Peek and children left Friday for their home in Kansas City after visiting his mother here.

Clyde Taylor spent two or three days in the Haskell hospital this week for medical treatment. He returned home Tuesday.

Mrs. Dora M. Rouse of Modesti, Calif., is visiting in the home of Mrs. Orb Coffman this week. She also visited Mrs. Lucille Marlow of Haskell.

Mr. and Mrs. Ira Owen of Anton visited friends and relatives here recently.

Visitors in the home of Mrs. M. Moore during the week end were her sons, Mr. and Mrs. Ross Madole, Littlefield; Jewel Madole and Lucian Madole, both of Beaumont.

Mrs. S. E. Stevenson and Mr. and Mrs. Rex Allen were recent Wichita Falls visitors.

Mrs. S. Y. Allgood is in the Haskell Hospital this week, receiving medical treatment.

Mr. and Mrs. Sam Hampton and Jackie, and Mrs. Kenneth Phillips visited Royce Jones in a Sweetwater hospital last week where he underwent and appendectomy. Royce returned home with his aunt Sunday to spend a few days recuperating. They also visited Royce's father, Philip Jones, in an Abilene hospital.

Mr. and Mrs. Orles Lambeth and son of Clenton visited his parents, Mr. and Mrs. R. L. Lambeth, Monday and Tuesday. They also attended the funeral of Mrs. Kooner in O'Brien Tuesday. Mrs. Kooner was the mother of Mrs. Homer Lambeth and Billy Hutchens. A large number of Goree people attended the services in O'Brien, and graveside services in the Goree cemetery.

Recent visitors in the home of Mr. and Mrs. W. R. Couch were Mr. and Mrs. Wayne Couch of Pampa, Mr. and Mrs. Bob Couch and sons, Hobbs, New Mexico, and Mrs. M. S. O'Neal of Glenwood, Ark.

Mr. and Mrs. Ira Stalcup visited Mr. and Mrs. Beverly King and little son, Kelly Bert, in

CHURCH OF CHRIST

Munday, Texas
J. B. Barnett, Evangelist
"WHICH CHURCH DID CHRIST ESTABLISH?"

The Savior said, "Upon this rock I will build MY CHURCH; and the gates of hell shall not prevail against it. And I will give unto thee the keys of the kingdom heaven; and whatsoever thou shalt bind on earth shall be bound in heaven; and whatsoever thou shalt loose on earth shall be loosed in heaven. (Matt. 16:18, 19)

In previous articles we proved that the church of the New Testament had its beginning on the first Pentecost after the resurrection of our Lord, in the city of Jerusalem, in the year of 33 A. D. (See Acts, chapter two). The question immediately arises which church, of the great number throughout the land, did Christ establish? There are several hundred religious bodies, each claiming to be a branch, or a denomination of the church of Christ, this is a fact too plain to be denied. (Incidentally, I might state that "the church of Christ" is not a denomination, nor akin to any of them.) Furthermore, that all these religious bodies disagree with each other in DOCTRINE and PRACTICE is also plain to anyone who wants to see. Did Christ establish all of these bodies? If so, why do they disagree, seeing they all have the same Bible? Did he establish any of them? If so, which one? How many? The apostle Paul said, "For God is not the author of confusion, but of peace, as in all churches of the saints." (I Cor. 14:33). Hence, if Christ established them there would not be all this division among us today, but we would all be speaking the same thing, walking by the same rule, being of the same mind and the same judgment. (I Cor. 1:10; Phil. 3:16). Note further, the prayer that our Savior prayed when he was in the shadow of the cross was for UNITY. (Read John, chapter seventeen). Paul admonished that we "Endeavor to keep the unity of the Spirit in the bond of peace." (See Eph. 4:3-6). You can help Christ's prayer to be answered and to keep Paul's admonition today by UNITING upon God's word. Thus which church did Christ establish? The answer is, THE ONE that wears his name, "The churches of Christ salute you." (Rom. 16:16). Said Paul again to the Ephesian elders, "Feed the church of the Lord, which he hath purchased with his own blood." (Acts 20:28 R. V.). Christ's church is divine in ORIGIN, scriptural in NAME, TEACHING, WORSHIP and PRACTICE. Read about it in your Bible.

TEXAS FREEDOM CHIEF

Lieut. General Preston A. Weathered, Dallas, prominent attorney of the Southwest and retired former commander of the 36th Infantry Division, Texas National Guard, has been appointed Texas State Chairman of the Crusade For Freedom by General Lucius D. Clay, national chairman of the movement.

General Weathered said that he was pleased to take the post of directing the Texas program for the Crusade For Freedom, which will include an intensive nation-wide, six weeks campaign in September and October. Plans are being made now for a strong Texas executive committee to lead the campaign in every section of the state.

Designed to halt communism and to save freedom, the movement will enroll millions of Americans on "Freedom Scrolls," to be permanently enshrined in the base of a 10-ton, 8-foot high "Freedom Bell" to be erected in Berlin next October. It also will support a vigorous and continuous series of radio programs to pierce the Iron Curtain of Communist Russia and its satellite countries.

General Dwight D. Eisenhower and General Clay, who was American Military Governor of Germany during the Berlin airlift, together with a group of outstanding business, professional and civic leaders of the nation, are heading the National Committee For A Free Europe, the organization sponsoring the Crusade.

Defoliation Is More Effective By Airplanes

Defoliation of cotton, either naturally or with chemicals, is a must if the crop is being harvested with machinery. And even if the cotton is picked by hand, the speed of picking is increased and a higher percentage of the crop is harvested when the plants are defoliated.

The specific defoliant to use and the method of applying it will depend on the growth of the cotton plants and the weather conditions according to F. C. Elliott, cotton work specialist for the Texas A. & M. College Extension Service.

When dust defoliants are used plenty of moisture in the air and a heavy dew on the plants should remain on the leaves for at least three hours after the dust has been applied. Elliott says that the dust may be applied ahead of dew.

Dusting by airplane usually gives better results than applying the defoliants with ground dusting machinery, especially when the cotton plants are large.

In an experiment recently completed at the Weslaco sub-station of the Texas Agricultural Experiment Station, research specialists found that defoliants can be applied effectively with a ground spray machine that in wind velocities too high for the application of dusts. Fenders were used in front of the tractor wheels to prevent damage to the cotton plants, and the spray machine did an excellent job of covering the leaves with defoliant in a ten mile per hour wind.

Elliott advises applying the chemical defoliants after the youngest bolls are 25 days old, but at least two weeks before the first frost is expected. When the cotton is being grown under irrigation on light, sandy soils, the defoliants are applied about 15 to 18 days after the final irrigation. On the heavier soils, 21 to 30 days the final irrigation is best.

If calcium cyanamide dust is being used for defoliating cotton, Elliott recommends that it be applied only when adequate dews are present or expected. Apply at the rate of 30 to 40 pounds per acre.

The spray defoliants are prepared by mixing the chemical powder with water at the rate of one pound of powder per gallon of water. Sprays can be used effectively in the absence of dews and when there is very little moisture in the air.

Ammonium thiocyanate may be used for defoliating fully mature cotton at the rate of ten gallons of spray per acre.

When potassium cyanate is used, Elliott recommends that it be applied at the rate of seven to ten pounds per acre in seven to ten gallons of water.

Six to seven gallons per acre of a pound-per-gallon solution of sodium chlorate with sodium pentaborate solution is recommended for defoliating with this chemical spray.

Defoliation with sodium monochloroacetate requires five to nine pounds of the powder per acre in five to nine gallons of water.

Elliott recommends that cotton growers who use the chemical defiliants check with their local county agents or with the chemical supply representatives in regard to the recommended applications per acre. An over-dosage of some of the defoliants will freeze the leaves in the cotton plants, and an under-dose also gives poor defoliation.

He also warns cotton farmers to take necessary precautions when applying the chemicals to prevent the rusting of machinery, damage to other nearby crops, and injury to the operator's eyes, skin and lungs.

Mr. and Mrs. Bob Haymes and children of Irving were visitors in the home of Mr. and Mrs. Lee Haymes over the week end.

Mr. and Mrs. Worth Gafford spent the week end visiting Mr. and Mrs. W. C. Cunningham in Mineral Wells.

Let's Talk Livestock

(By Ted Gouley)

FORT WORTH, Oct. 2.—Stocker trade shows a few timid signs of coming out of the doldrums at Fort Worth Monday. In one of those unaccountable developments last week the trade on stockers and feeders at central markets in the country points simply died on its feet and seemingly virtually 100 percent of the buying side of the trade jumped on the "bearish" bandwagon and left the market rather confused.

Monday, buyers were taking hold a little better, indicating some renewed inquiry. Current factors behind the slump seem to be several. For one thing, the smashing of the North Koreans in such short order toned down inflationary psychology. Another factor is that Cornbelt buyers slowed down, partly due to increased offerings of grass cattle and partly due to the fact that lots of corn appears it will cure normally and less soft corn than had been feared will be made. This will permit corn farmers to store and get loans on larger amounts of corn.

Carry-over of meat in packers' hands last week end was the largest in some time, in some cases twice the volume carried over the previous week end. Packers feel and they are

in a position to know, that the worst of the meat shortage is over. Lowered prices for safety's sake in view of the expanding meat supply, is imperative from their point of view.

Today in Chicago at the meeting of the American Meat Institute, John F. Krey of St. Louis predicted further expansion of meat supplies. He said 1950 meat production will be about 22.4 billion pounds. The 1951 production is expected to be 23.5 billion. Highest production on record was about 25.0 billion during World War II, so next year's meat supply should be the second largest on record.

Krey estimated that when we have three million men under arms next year, it will take a little less than one billion pounds of meat to feed them, or only about four percent of the available supply.

"The big supply of feed and foods now available and in prospect obviates, the necessity for the government to consider price controls and rationing," Kraye said.

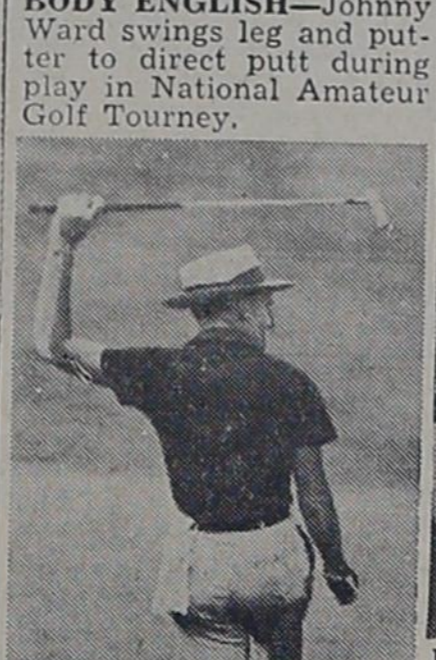

Hogs broke again Monday by 25 cents to 50 cents per hundred at Fort Worth. The top of \$19.75 to \$20 was the lowest top here since last June. You'll recall last year's hogs sank to around the \$18 level at times.

Sheep and lambs continue to be the "runaway" creatures in the market picture. New record prices set Monday and last week end at Fort Worth showed no signs

The Munday Times

of weakness as trade opened Monday.

Some 391 choice fat 83-pound alfalfa grazed lambs from Leon Farms, Corp., Fort Stockton, topped at \$29.50. A new record for feeder lambs was set late last week when R. S. Sproul Estate, Fort Davis, marketed 133 head averaging 62 pounds at \$29.25. They also had a string of 90-pound ewes at \$16.50. Some fat ewes reached \$17 and fat aged wethers up to \$18. Feeder and fat yearlings reached \$23, a new high.

Lambs and sheep look like the best bet, what with numbers small in all sections of the country, a solid demand for the meat, the prospect of extremely strong demand and high prices for the wool.

Stocker cows trade was more active Monday after being a pretty dull affair last week. A load of good around 900-pound cows sold at \$24.50 and a load of thin, plain quality cows, drew \$24.25. Some fat cows sold for stockers at \$23, that weighed heavily.

There will be an expert on Market Analysis on the program at the Fort Worth Livestock Roundup November 2 and 3. J. Howard Doane, St. Louis, widely read and recognized farm and ranch economist, will occupy a place on the program. His facts and figures are widely used by the livestock and farming industry and his talk will be of great interest to all concerned. Be sure to visit Fort Worth November 2 and 3. The program will be chock full of interesting things that may

Uncle Sam Says

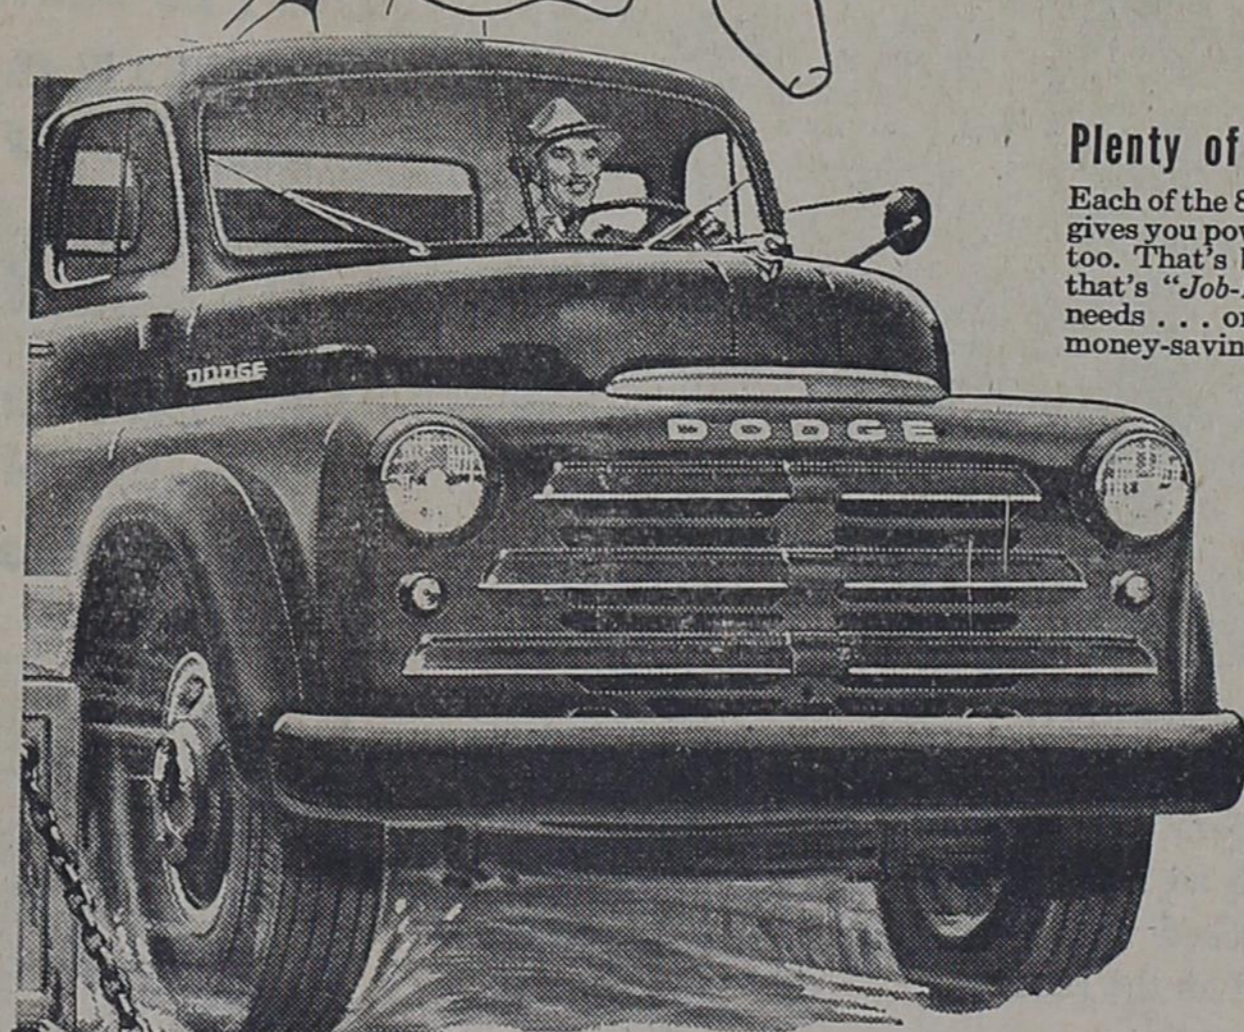

TODAY'S LESSON: HOW TO SAVE

More of my young nieces and nephews will be in school this fall than ever before. One of the important lessons they will learn is that America is a free country with Liberty for all. They will also learn that there are two forms of Liberty—political and financial—and that one of the best ways of preserving these is to purchase U. S. Savings Stamps through their School Savings program. Parents are now realizing that the early teaching of the habit of thrift will bring dividends of success in later years.

U. S. Treasury Department

PLENTY ON THE BALL!

DODGE "Job-Rated" TRUCKS

Plenty of Power!

Each of the 8 great Dodge truck engines gives you power plenty—top economy, too. That's because you get an engine that's "Job-Rated" to fit your hauling needs... one that's jam-packed with money-saving, long-life features.

Plenty of Payload!

You'll profit from bigger payloads without overloading axles and springs—thanks to Dodge "Job-Rated" weight distribution. More truck weight on the front axle means more payload on the rear axle.

Plenty of Protection!

You'll ride safety-sure in a welded all-steel cab with the biggest windshield of any popular truck! You'll have the finest truck brakes in the industry... a hand brake operating independently on propeller shaft on all models—½-ton and up.

Plenty of Performance!

In city traffic or on the open road, you'll enjoy performance plus! Dodge trucks are "Job-Rated" for easy handling, too! You can turn 'em in shorter circles, back 'em up and park 'em faster—with less effort.

Now! glycol Fluid Drive!

Available on all ½-, ¾- and 1-ton models. Lowers upkeep costs, prolongs life. Ask us for interesting Fluid Drive booklet.

Plenty Low in Price!

With all their extra value, Dodge "Job-Rated" trucks are priced with the lowest. Come in and ask us to show you a truck that will start saving you money the day you buy it!

See us for a Good Deal!

Newly elected officers of Better Texas Pastures, Incorporated, receive files of the organization from Governor Allan Shivers, far right, who recently proclaimed a pasture decade for Texas and appointed a state wide pasture committee which formed the new club. The officers are, left to right, E. L. Boston of Angleton, Treasurer; Dr. Bruce McMillian of Overton, Secretary; Tommie Brooks of Camp San Saba, Vice-chairman; Clyde W. Voyles of Austin, Chairman; and Governor Shivers. Purpose of the newly organized group is to assist all agricultural efforts in improving Texas pastures.

FARM PROGRAM NEWS
From the County PMA Committee

CONSERVATION IN THE PUBLIC INTEREST

According to J. C. McGee, chairman of the Knox County PMA Committee, the Agricultural Conservation Program was established to assure continued production from our land and not as a means of distributing funds to farmers. Its primary purpose is to safeguard the ability of our land to produce the food and fiber needed by our present population of 150 million people and by possibly double that number within the life span of people now living.

As the chairman sees it, the protection of our freedom from poverty and want, which would follow a wasting of soil and water resources, is basic to the preservation of all our other freedoms.

The program is necessary, he explains, because often it does not appear to the farmer's direct advantage to do the things which will safeguard the future food supply. Using up as quickly as possible the minerals essential to plant growth may often seem to provide the greatest short time gain to the individual farmer.

As the chairman expresses it, under our form of government we do not require farmers to build terraces, seed grasses and legumes or plant trees, but we have found a way to get these things done through the ACP. It is essentially a means of protecting the interests of each of us and of future generations who will depend on our limited land for food and fiber.

"If our land is to continue to produce enough, it is necessary that our farmers carry out essential soil and water conservation practices. Through the ACP we have found a way of providing assistance to individual farmers to aid them in carrying out these practices. It is the most efficient, economical and effective method yet found of getting the job done."

FLOWERS IN BLOOM

Flowers are in bloom everywhere this spring, even on glamorous cotton formal. Floral prints are popular for fresh, appealing evening frocks for dancing on warm summer nights. This charming evening ensemble combines a dinner blouse of crisp white broadcloth and a dramatic floral print skirt of Bates cotton, the National Cotton Council says.

Young Men Are Needed As Drivers License Examiners

The Driver's License Division of the Texas State Department of Public Safety has openings for a number of Texas' young men as Driver's License Examiners.

Homer Garrison, Jr., Director of the State Safety Department, announced today that his organization is accepting applications from qualified men to fill existing and potential vacancies caused by a number of License Examiners being called into the armed services. He urged that men who meet the requirements and who are interested contact their nearest Driver's License District Office or write directly to Chief A. F. Temple of the Driver's License Division at Austin for application blanks, immediately.

Garrison listed the following qualifications as necessary for appointment to the positions: 21

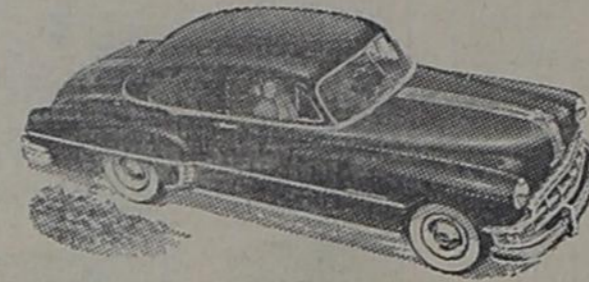

to 35 years of age, inclusive; a minimum height of 5 feet 8 inches; weighing not less than 2 pounds or more than 3 pounds per inch of height; good physical condition, a citizen of the United States and a resident of the State of Texas for at least one year immediately prior to appointment; and, subject to an extensive moral and character investigation.

Applicants will be notified later of the dates and places where written and oral examinations will be conducted, according to

Garrison. Base pay for Driver's License Examiners, the Director stated, is \$240.00 monthly, with the added advantages of two weeks annual leave; low cost Departmental insurance and group accident and sickness insurance for members and dependents; and benefits of the State Employees Retirement Plan.

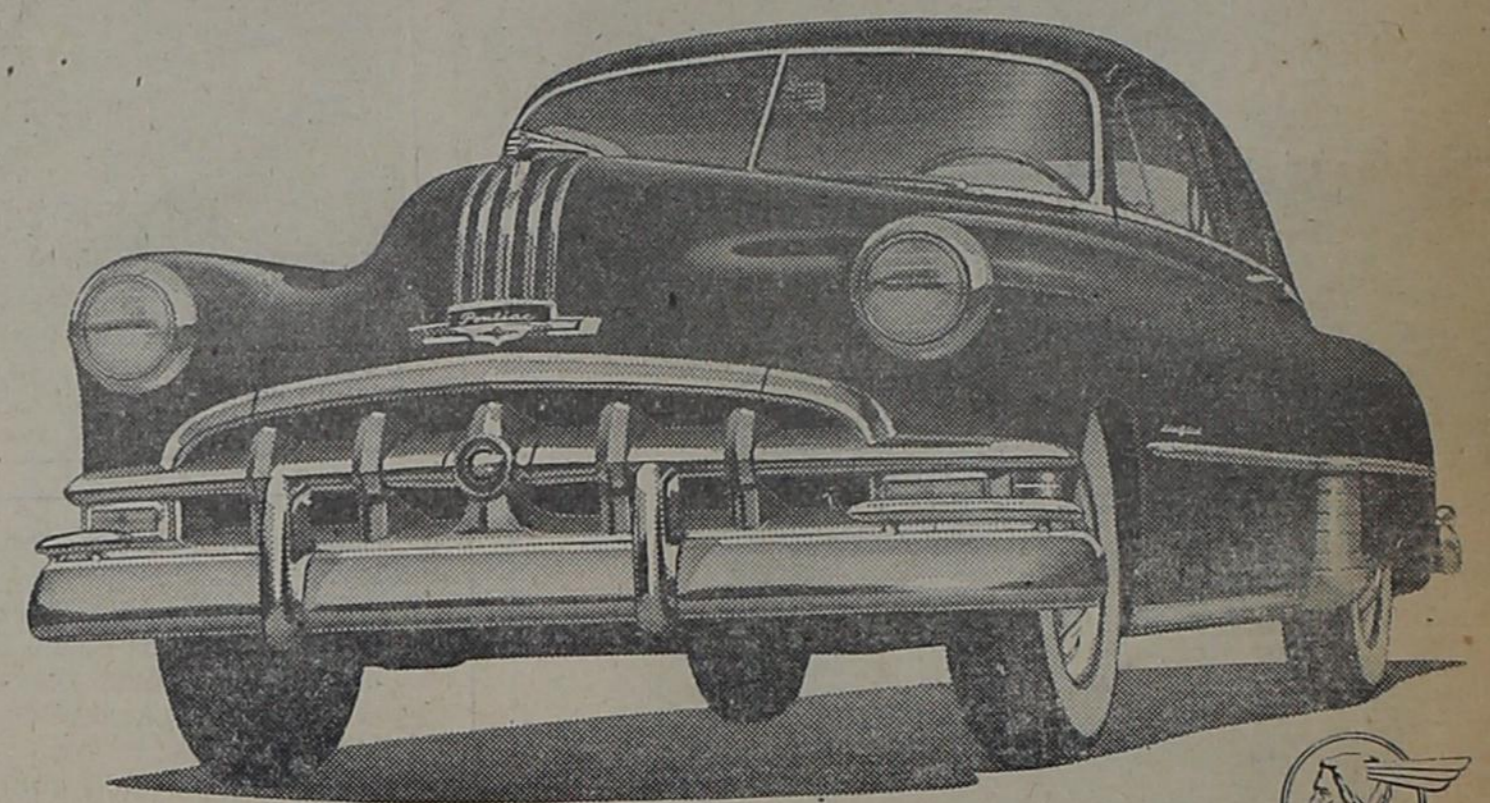

Bobby Winchester, who is attending school in Abilene, spent the week end with his parents, Mr. and Mrs. Tolby Winchester.

BROACH EQUIPMENT

Don't Be Satisfied With Symptomatic Relief!

HADACOL NOW MAKES IT POSSIBLE TO RELIEVE THE CAUSE OF YOUR SICKNESS

Neuritis Pains, Stomach Disturbances, Indigestion, Gas, Constipation, Certain Nervous Disorders and a General Run-down Condition

When due to lack of Vitamins B₁, B₂, Iron and Niacin in your system!

Read How These Folks Benefited Who Had Such Deficiencies

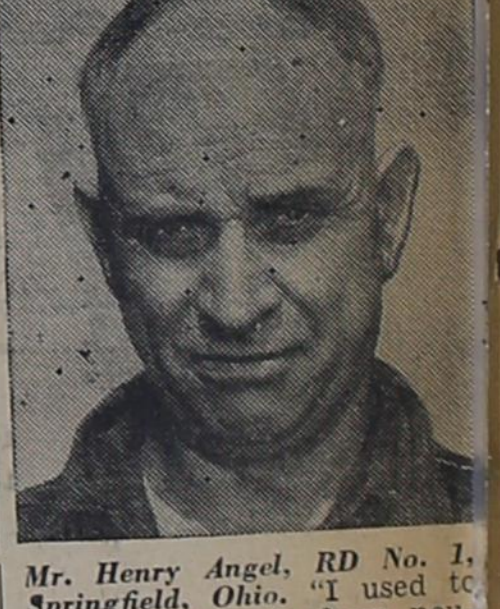

Mr. Anthamatten, 4731 South 32nd West Ave., Tulsa 7, Oklahoma, suffered from stomach distress for quite some time. He had spent much money trying everything possible for relief and was in bad health when he started taking HADACOL. He says, "After taking three bottles of the \$3.50 size, I've gained 27 pounds and now eat anything I desire and positively have no trouble." (HADACOL gives such wonderful results because it actually relieves the REAL CAUSE of stomach distress [gas pains, heartburn, indigestion after eating] due to such deficiencies. And continued use of this great HADACOL helps prevent such distress from returning.)

Mrs. Mabel Kitchen, 1650 Amsterdam, Cincinnati, Ohio, "Before I started taking HADACOL I had aches and pains of neuritis in my shoulders, my back and arms. I could hardly move without having those terrible pains. Then I heard about HADACOL. After the second bottle the pains and aches were about gone. I'm now starting my fourth bottle and am on top of the world. I eat well and, best of all, the aches and pains are completely gone." (Mrs. Kitchen is a very smart woman because she relieves the REAL CAUSE of her neuritis pains due to such deficiencies. HADACOL often brings a wonderful improvement within a few days' time.)

Mrs. J. Scieszinski, 514 Kruger, Ottumwa, Iowa, writes: "My daughter, Marilyn Sue, is 5 years old and for some time lacked pep, had a poor appetite, was generally run-down. Since giving her HADACOL, we have noticed wonderful results . . . she has a much better appetite, eats everything on the table and doesn't seem tired like she used to. Incidentally, she likes to take HADACOL, too." (HADACOL is a great 'builder-upper' for sick, nervous, puny kids whose systems lack precious Vitamins B₁, B₂, Iron and Niacin. A big improvement in their well-being is often noticed within a few days' time after taking the great new HADACOL.)

Mr. Henry Angel, RD No. 1, Springfield, Ohio, "I used to suffer great pain from neuritis aches in all parts of my body, especially in my legs, arms and shoulders. I never got any real relief until I tried HADACOL. After taking several bottles, my pain is all gone. And I'm working every day." (Now there's a HADACOL man! Mr. Angel took HADACOL and relieved the REAL CAUSE of his neuritis pain because they were due to such deficiencies. HADACOL is helping thousands upon thousands of grateful men and women troubled this way. Why don't you give HADACOL a chance to help you? Start taking it today!)

IMPORTANT!

Why don't you get that wonderful HADACOL feeling everyone is talking about? In this modern age, wise folks are no longer satisfied with symptomatic relief — because now it's possible to relieve the cause of such deficiency sickness with that wonderful new HADACOL. HADACOL not only supplies deficient systems with extra quantities of

Vitamins B₁, B₂, Iron and Niacin but also helpful amounts of potassium, phosphorus and manganese—vital elements every human body must have to maintain good health. You owe it to yourself to try HADACOL a fair trial. Many doctors recommend this great HADACOL. It's sold on a strict money-back guarantee. Trial size, \$1. Large family or hospital size, \$3.50.

West Texas C. Of C. Convention Set October 19

ABILENE—John B. Shepperd, Secretary of State, and Hubert M. Harrison, General Manager of the East Texas Chamber of Commerce, Longview, will be the main speakers during the annual convention of the West Texas Chamber of

Commerce in Mineral Wells, October 19-20, according to announcement by J. M. Willson, Sr., Floydada, WTCC President. Shepperd, former president of the United States Junior Chamber of Commerce, will address the luncheon meeting, October 20. Harrison will address the banquet or barbecue the preceding evening, at which local chamber managers in the West Texas region, and their wives, will be honor guests.

Shepperd is a member of the State Tax Board, Texas representative to the board of managers of the Council of State Governments, is secretary of the Texas Economy Commission. Now 34 years of age, he was named "Outstanding Young Texan" by the Young Democrats of the state and was selected one of the nation's "Ten Outstanding Men of 1949" by Future magazine. Shepperd is a former chairman of the board of the First Christian Church at Gladewater, former president of the Gregg County Bar Association, past president of the Gladewater Chamber of Commerce and has held high offices in the Lions International and American Legion.

Harrison, long-time chamber of commerce executive, has served as General Manager of the East Texas Chamber of Commerce for more than 20 years. He went to the post from his former position as General Manager of the Wichita Falls Chamber of Commerce. He has headed a regional organization in East Texas which has been acclaimed one of the most outstanding in the nation. He is widely known in commercial organization circles throughout the United States.

Clyde C. Westfall, Stamford, chairman of the convention program committee, says the 1950

At Roxy, Tues., Wed., and Thurs.

Dan Dailey and Betty Grable are a song and dance team in the technicolor production "My Blue Heaven."

Weekly Health LETTER

Issued by Dr. Geo. W. Cox M. D., State Health Officer of Texas

AUSTIN—A new service has been established with in the Bureau of Sanitary Engineering at the State Department of Health to handle the thousands of radiation hazards an atomic bomb burst would bring, State Health Officer George W. Cox has disclosed.

It will perform six vital functions, all dealing with finding and decontaminating dangerous radioactive areas, Dr. Cox said. He listed those functions as:

1. Pre-distaster training program. Men and women will have to be trained in the use and interpretation of radioactivity detection instruments. Of course the training program will have to be started immediately, so they will be ready to handle their jobs if and when an atomic bomb is dropped anywhere in Texas.

2. Detection device distribution. Those men and women will naturally need instruments to detect radioactivity and to protect themselves. Getting such times as geiger counters, ionization chambers, pocket chambers, and film badges—all radioactivity detection instruments—will be the job.

3. Monitoring crews, rescue workers, doctors, and nurses will have to have protective clothing such as hoods, gloves,

WTC convention program promises to be most outstanding in many years. He says citizens all over the region have begun to make reservations for the 2-day meeting in Mineral Wells, October 19-20.

The 1950 convention is designed toward establishment of the pre-war type of three-day convention which the organization used to sponsor.

Member of Westfall's committee are Buell Orr, Graham; L. D. Aston, Cleburne; Anthony Fenoglio, Nocona; and J. B. Thomas, Fort Worth.

COTTON RANKS TOPS IN ECA PURCHASES

OF FARM PRODUCTS Cotton was the leading agricultural product in Marshall Plan purchases for the fiscal year, 1950, the Economic Cooperation Administration has announced.

In total purchases of all types of products, cotton ranked second only to machinery and equipment.

During the fiscal year, the total dollar value of purchase approvals for ECA recovery goods and services amounted to \$3,592,100,000. Machinery and equipment accounted for the greatest part of the total with purchase approvals of \$670,200,000. Cotton was second with \$449,400,000, followed by bread grains totalling \$407,300,000.

Mrs. Bud Reynolds, Mr. and Mrs. Don Wardlaw and Mr. and Mrs. Leo Guffey visited in Wichita Falls over the week end. Mrs. Reynolds visited Mr. and Ralph Watkins, and others visited Mrs. Wardlaw's father, Mr. Reynolds, who is in the hospital.

with the tricky gamma rays, and Alpha and Beta particles. Monitoring squads and rescue workers will have to be cleansed when they come in from the field.

6. Exposure histories. The radioactivity to which emergency workers have been exposed will have to be recorded. This can be told from readings on film badges and pocket chambers. If workers get more than their maximum allowable lifetime "dose" of radioactivity, they will have to be kept from getting any more or it could be fatal to them, Dr. Cox said.

Mrs. Gene W. Harrell and son returned home last Sunday from Tulsa, Okla., and Joplin, Mo., where Mrs. Harrell has been attending the bedside of her mother, Mrs. Sue Purkisher. Mr. Harrell and Natalie met them in Tulsa.

Bobby Jackson, Robert Hogan and Melvin Gray, all of Weatherford, visited friends here over the week end.

Miss Carolyn Hannah visited with friends in Abilene over the week end.

Attention, Farmers

See the new Ranger fifth-wheel industrial and farm wagons before you buy. Located on corner of Munday Ave., across from Farmers gin plants.

Wherever there is a hauling job large in bulk or heavy in weight, the Ranger fifth-wheel farm wagon is the answer. Users are finding these wagons to be extremely economical because of four outstanding features:

- (1) They combine at less cost the hauling service of two or three ordinary wagons.
- (2) Durable construction assures long life.
- (3) Fifth wheel reduces turning radius to a minimum.
- (4) Bearings, wheel alignment, tracking and fifth wheel combines into a maximum maneuverability that permits a minimum of pulling power. The wagons will bring to their owners a pride in their dependable performance. Electric welded, nice finish and good appearance. Standard Temkin bearings, standard Alemite fittings. Telescoping reach, cold rolled steel spindles. Wheels are standard 6,000 lb. cap., wagon has 16x4.50 or 15x5.00 tires and wheels.

10,000 lb. capacity, with or without tires.

"With the Ranger heavy load, just keep rolling along."

An announcement by Henry J. Kaiser

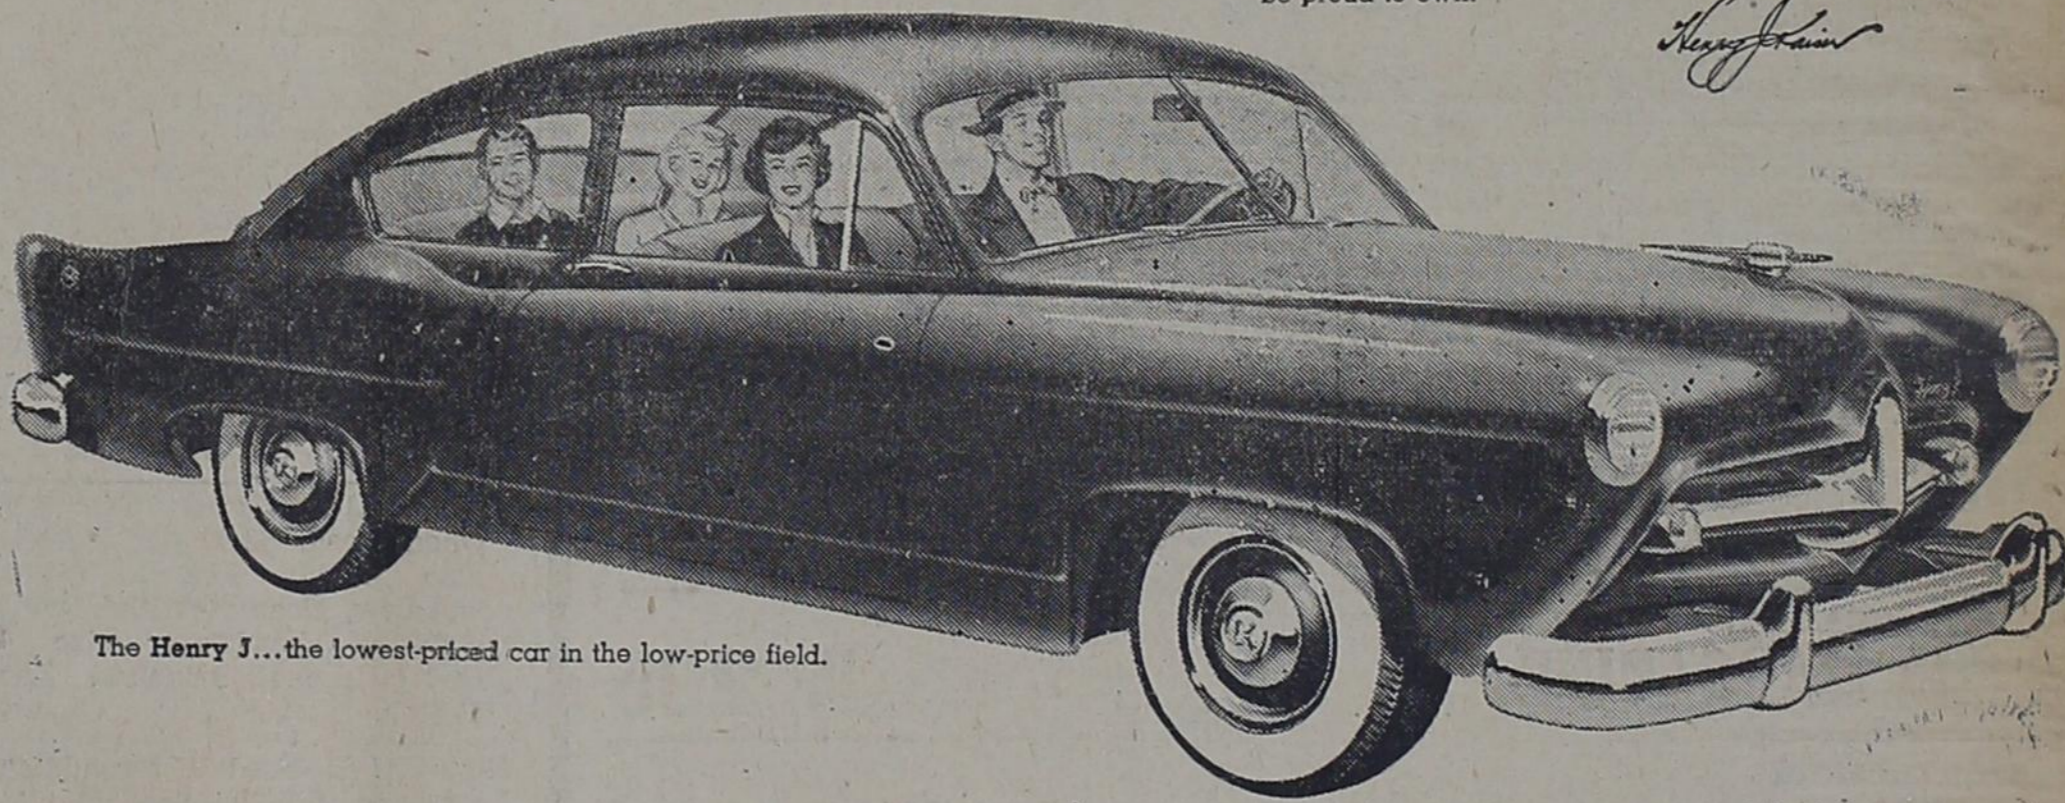

Today, at your Kaiser-Frazer dealer, you will see what we believe to be the most important car that America has produced since the automobile became a necessity of daily living.

It fills the needs, the wants, the purchasing power of all America as no other car has done in the last ten years.

It is rugged. It has outstanding maneuverability, handles and parks easily, and is powered with our new Supersonic Engines which deliver up to 30 to 35 miles to the gallon.

The Henry J is the lowest-priced car in the low-price field. It has the full, generous proportions to which Americans are accustomed. We have given it the best combination of performance, comfort, styling, and economy of operation.

It is the car that you and every American family can afford to buy, to operate, to maintain... and be proud to own.

The Henry J... the lowest-priced car in the low-price field.

The most important new car in America!

Here today... The

Henry J

Available in two models: Henry J (as illustrated above), Henry J DeLuxe (six-cylinder at additional cost).

Important because... It's Smart! Smart to look at... smart to own! Notice the extra-wide doors... front seat 58 inches wide... head room and leg room galore! And—look! The back of the rear seat folds forward, giving you 51 cubic feet of storage space, almost double that of the largest sedan trunk compartment!

Important because... It's Tough! Husky, Double-Channel Frame, reinforced like a steel bridge! The rear axle Hypoid geared, as in most expensive cars. Extra-wide windshield and windows give you the largest vision area in any low-priced car... short turning radius permits the easiest parking.

Important because... It's Thrifty! You get 30 to 35 miles per gallon from the quiet, responsive Supersonic Engines. (Henry J—4 cylinders, Henry J DeLuxe—6 cylinders.)

Lower first cost... lower maintenance... lower repair bills... lower insurance... lower operating cost. Your savings, in just two years, can more than total the down payment on the Henry J.

Built to Better the Best on the Road!

Costs less to buy...less to drive...less to maintain!

Kracker Krumbs—

(Continued from Page One)

Men dressed just like we were: in sport shirts, and wearing those felt toppers!

Yep, we dug out our last winter's hat that never did fit very well, anyway.

Our friend, E. E. King at Cobb's has approached us several times about a new fall hat.

We told him we wouldn't be interested until the fair. We've worn a new felt hat to the fair before. It nearly always rains at the fair.

Yes, it's our intent and purpose to go help them open the state fair at Dallas Saturday. But before we go, we want to close with the admonition of

some well-known hat manufacturer whose name we can't think of right now.

"Look at your hat, everybody else does!"

Relatives Here For Funeral Of Mrs. Rebecca A. Layne

Among out-of-town relatives who attended the funeral of Mrs. Rebecca A. Lane here last Sunday were the following:

Mr. and Mrs. A. O. Isbell, Mrs. Lela Isbell, Mr. and Mrs. Glenn Isbell and Mr. and Mrs. Robert Ballew, Roswell, New Mexico; Mr. and Mrs. J. F. Isbell, Bayard, New Mexico; Mrs. George Isbell, Mr. and Mrs. Hubert Isbell, Mr. and Mrs. Jack Tidwell, Mr. and Mrs. Bob McKinney and Mrs. Roy Hollar of

Abilene; Mr. and Mrs. Carlton Browder and daughter and Fred Browder, Truscott; Mrs. Minnie Tapp, Granite, Okla.; Tom Bursey, Crowell; Mr. and Mrs. J. H. Isbell, and C. C. Isbell, San Angelo; Mrs. Neta Jackson and G. F. McClain, Benjamin;

Mr. and Mrs. R. A. Phillips, Fort Worth; Mr. and Mrs. Tom Newberry and Mrs. Bobbie Layne, Hollis, Okla.; Mr. and Mrs. John Hart, Stamford; Mr. and Mrs. John Scott, Paducah; Mrs. Delbert Hollar, Dumont.

Charles Baker, who is serving with the armed forces and stationed at Camp Hood, visited his wife and children and other relatives here the first of this week.

Mrs. Worth Gafford and Mrs. Ben Yrabort were visitors in Wichita Falls last Monday.

Barger Infant Dies Sept. 20th In Fort Worth

On Wednesday, September 20, the death angel came for little Beverly Jan, daughter of Mr. and Mrs. Jack Barger of Fort Worth. Only two short weeks had been the span of her life on this earth, but the love borne for her can not be measured by time.

The parents, the little brother and all those near to her can be comforted in the knowledge that their baby has gone to be with Him who said: "Suffer little children to come unto me," the one who is waiting to receive us all in that house of which he said "Whither I go, there may ye also."

She was laid to rest in Johnson Memorial Cemetery in graveside rites conducted by Rev. Johnson, pastor of the First Presbyterian Church in Munday.

Both Mr. and Mrs. Barger were residents of Munday until two years ago, when they moved to Fort Worth. Mrs. Barger is the daughter of Mr. and Mrs. N. A. Howeth. Other grandparents are Mr. and Mrs. Carl Bar-

ger of Goree. To these, and to the little brother, Jimmie, and to other relatives go the heartfelt sympathy of the many friends of the family, and the hope that they may find consolation in knowing that although she may not return, yet all may go to her in that land where all hurts are healed and all tears are dried.

Mrs. J. F. Bowley and Butch returned to their home in Big Spring last Thursday after a visit here in the home of Mr. and Mrs. A. E. Bowley.

Ray Willis of Knox City was a business visitor here this week.

Mr. and Mrs. S. J. Warren spent several days last week in

Wink, visiting their son and daughter-in-law, Mr. and Mrs. Troy Warren.

Mr. and Mrs. John Phillips spent the week end visiting his brother, Mr. and Mrs. Ralph Duke, in Wichita Falls.

Mr. O. B. Glover returned home Tuesday after a visit to Chickasha, Okla.
