Underweight Children

Need More Iron in Their Blood!

Children who are thin and pale and who lack appetite are usually suffering from a deficiency of iron. When the blood lacks iron it becomes thin and ioses appetite and becomes still thinner and weaker -- and easy prey to disease! To build up your child, give him Grove's Tasteless Chill Tonic. It contains iron which makes for rich, red blead. It also contains tasteless quinine which tends to purify the blood. These two for young and old. A few days on Grove's dess Chill Tonic will work wonders in your child. It will sharpen his appetite improve his color and build up his pep and energy and increase his resistance to disease. Grove's Tasteless Chill Tonic is pleasant to take, Children like it and it's absolutely safe for them. Contains not ing harmful. All stores sell Grove's Taste less Chill Tonic. Get a bottle today and see how your child will benefit from it.

Can't Eat

Can't Sleep

Can't Work

A Sign You're Rundown!

When your appetite has fled and you're

When your appetite has fled and you're to tired and nervous you can't even work, much less sleep, it's a sign you're rundown. It may be due to overwork, worry or sickness, but whatever it is, your condition calls for a good tonic. There is nothing better than Grove's Tasteless Chill Tonic, for it is iron and tasteless quinine combined. Iron, as you know, is a noted blood builder, while quinine tends to purify the blood. Thus you get two effects of vital importance in any rundown condition.

Old and young find new appetite, new strength and energy in Grove's Tasteless Chill Tonic. Try it for just three days and see the difference it makes in you. You feel like a new person. Grove's Tasteless Chill Tonic is pleasant to take and contains absolutely nothing harmful.
