NAZI—Aim, equality

I spent several hours the other evening with an old friend, an American citizen who has lived for many years in Germany.

"What is at the bottom of this revolutionary movement in Germany?" I asked him. His answer was prompt and concise.

"The Treaty of Versailles," he replied. "The German people feel that they have been placed in a position of inferiority ever since the war. They are a proud people. They believe themselves superior to all other peoples. The present generation refuses to pay the price which its parents accepted to end the war. It took only shrewd leadership to arouse them to a new sense of nationalism. Everybody in Germany is in uniform. The military spirit is being cultivated. When the right time comes there will be another war unless the nations whom Germany regards as its enemies yield their rights under the Versailles treaty."

Other observers have told me the same thing. I think they are probably right. But I also think that the United States will not itself be drawn into another European war.

GOATS—Were needed

"What is the motive behind the anti-Jewish activity of the Nazis?" I asked my friend.

"What was the motive behind the anti-Hoover activity in America?" he countered. "The people were in trouble and they needed a scapegoat. Mr. Hoover was elected the goat. It was easy for people to lay the blame for everything on him. Just as the Nazi movement needed a goat, why not the Jews? They were not numerous enough to set up serious resistance, only two per cent of the population; but they were the bankers, merchants, industrialists, against whom it is always easy to stir up the populace of any nation. Nothing is easier than to arouse the poor and the lazy against the well-to-do and the industrious.

"So Hitler and his aides made the Jews the scapegoats for Germany's troubles. It makes no difference that the German Jews have for centuries been more patriotically and devoutly German than the Germans themselves. The appeal was to the ignorant masses, and the Jew had to suffer."

I may be wrong but I imagine it will not be easy for Germany to finance its next war.

Production Credit Association Formed At Haskell Meeting

The completion of an organization for the application of the Farm Credit Administration loans was perfected at Haskell Wednesday for Knox, Haskell, Jones and Stoneville counties, at which time R. C. Montgomery of Haskell was elected as chairman of the organization and Virgil Meador of Haskell was elected secretary. W. E. McNeill, Jack Idol, and Ed Rector were chosen as directors for Knox County and W. A. Baker was appointed as inspector.

Applications for crop loans under the Farm Credit Administration may be made through Jones & Eiland of Munday, W. W. Coffman of Goree, Roy Smith of Knox City or T. W. Templeton of Benjamin.

Cox Air Circus To Give Exhibit At Rule Sunday

Mrs. Faye Lucille Cox, famous parachute jumper with the M. C. Cox Air Circus, was here Thursday and announced that they would give another performance on the Rule-Sagerton road Sunday afternoon, February 18th, at which time she will make another of her sensational jumps from the clouds and M. C. Cox will do a trapeze act from a plane.

This is the same organization which gave an exhibition west of Munday recently in which Clarence Steffen, a stunt flyer, was killed, and this will be their first performance since the unfortunate incident.

Ben Browning of Los Angeles, California, was here recently visiting in the home of his parents, Mr. and Mrs. C. H. Browning.

CWA Workers Must Register Names at Benjamin For Work

C. R. E. Weaver, county relief officer, with offices at Benjamin, has received orders from C. B. Braum of Austin to the effect that all those desiring work on CWA projects must register their names with the Benjamin office to be eligible for this work.

Mr. Braum's orders to the local county offices were as follows: "In order that we may have accurate information as to the number of unemployed persons seeking work through our local offices, effective immediately, applicants will be required to notify your office in person once every thirty days that they are available for work. If an applicant fails to notify your office during the thirty day period, his application card will be filed inactive and he will not be considered for employment."

Mr. Weaver therefore stated that it was imperative that all those desiring work should notify his office either in person or by postal card or letter, advising him that you are still seeking work or will be available for employment, otherwise your card will be filed in the inactive file until you have given such notice.

Mr. Weaver further stated that the fact that your card has been filed in the active file does not insure you work, but this information in the office is essential in order that you be placed in line for employment.

Munday's Bid For Recreational Park Receives Setback

Munday's hopes for a recreational park received a setback the latter part of last week when Mayor J. A. Kennedy received a letter from the State Advisory Board stating that Munday's application for a loan of approximately \$25,000 had been rejected. The letter, however, stated that the money for this project would be available and forthcoming if the city cared to issue warrants of bonds in the amount needed; however, this plan will not be given serious consideration at this time.

The application for the loan had been made solely on the basis of a self-liquidating project, incurring no obligation whatsoever on the city other than the managing of the project and the agreement to apply all net profits toward the liquidation of the obligation incurred.

Baseball Meeting Wichita Valley Is Called For Sunday

President H. F. Barnes of the Wichita Valley Baseball League has called a meeting of all those interested in forming a circuit for the coming season to meet at the Tonkawa Hotel in Haskell Sunday afternoon, February 18, at 1:30 o'clock, and in addition to the towns that were included in the last year season, which included Goree, Munday, Haskell, Stamford, Rule and Hamlin, incidents have gone out to fans at Throckmorton, Seymour, Anson, Knox City and Peacock and it is likely that the loop for the coming season will include at least eight towns.

John Albus Suit Against Gas Co. To Federal Court

The suit for damages filed recently in the 50th District Court at Benjamin against the Stamford and Western Gas Company has been transferred to the Federal Court of the Northern District of Texas at Wichita Falls upon the plea of diversity of citizenship filed by the defendants. Through their attorneys, their petition, it is said, pointing out that the Stamford & Western Gas Company is a New Jersey corporation.

Mr. Albus recently filed suit for personal damages in the sum of \$27,000 as a result of an explosion which completely wrecked the building of the Rhineland Mercantile Company, of which Mr. Albus was manager, and resulted in his sustaining severe burns from which he has not yet recovered, and as a result of which he will be partially disabled for life.

IN AND AROUND THE CAPITOL

Not only the people of the 23rd District but those of the entire state have an able and conscientious representative in Senator Ben G. Oneal. This fact was evidenced forcibly when Governor Ferguson signed the new motor vehicle registration license bill on February 10. The bill, as originally passed by the House of Representatives, was defeated in the Senate, receiving only 14 votes. The substitute bill received 29 votes. Senator Oneal is the author of the substitute bill, which became the law.

As pointed out in the debate in the Senate by Senator Oneal, the purposes of the bill are threefold: First, to make it the permanent policy to give the owner until March 31st each year to pay his auto license fee. Under the old law he had until February 1st. Taking into consideration the Christmas holiday spending, and the taxes required to be paid in January, that month is a very hard one in which to pay auto license fees. March payment comes at a time when few if any other taxes fall due. However, for those who prefer to pay earlier, there is no obstacle; they may pay.

Second purpose of the law is to make the year for which a license plate may lawfully be used the same period as that for which the license fee is paid. Under the new law the license fee is paid for a period to run to and including March 31st of each year. And the plates issued through March 31st. Under the old law the fee was paid from January 1st to and including December 31st. But the owner could lawfully use the old plate until February 1st, or for one month after the date for which it was paid. Hence, there were hundreds of thousands of motor vehicles on the highways each January lawfully using the license plates of the year before.

Under a provision of law which permits the owner to make an affidavit that the car has not been on the highways since January 1st, and thus have to pay for only the remaining part of the year, many owners were reported to be using their cars in January and then paying for only eleven months instead of twelve. Because so many old plates were in lawful use in January it was practically impossible for the officers to check up on these "chiselers." But under the new law provided for by the bill, a law which is in effect after the last day of period it is paid for, the officers can easily keep check on the would-be chiseler.

Third purpose of the act was to make a fair adjustment for the present year so as to treat all alike; not to give one paying late any advantage over the man paying in

Funeral Services For Wm. Chaudoin Held Here Sunday

Funeral services for William Chaudoin, 79, who died Saturday at the home of his daughter, Mrs. W. F. Worden, south of Munday, were held at the Warden home Sunday afternoon with Rev. W. H. Albertson officiating, and the remains were laid to rest in the Weichert cemetery.

Mr. Chaudoin was born in Llano County, Texas, April 7, 1854, and resided in that county continuously until some six years ago when he came here to make his home with his daughter, Mrs. Worden, and had spent a major portion of his time here since that time. In addition to his wife he is survived by another daughter, Mrs. J. W. Kilgore, of Granger, Texas, and a step-son, S. B. Ruth of Fort Worth, Texas, 10 grandchildren and 9 great-grandchildren.

J. Horace Bass Is Re-elected As Head of Schools 2 Years

At the meeting of the school board on Thursday evening of last week Supt. J. Horace Bass was re-elected superintendent for a two-year period, and at the same time L. S. Hardegreave was re-elected as principal of the high school.

In announcing the re-election of Mr. Bass members of the board have expressed themselves as feeling that in so doing they have taken a step toward raising the standard of the schools here, and having been elected for a two-year term he is better enabled to make plans for the betterment of the system.

Goree Editor To Make Campaign For Office Co. Judge

E. L. Covey, editor of the Goree Advocate, stated while in Munday Wednesday that he would make the race for County Judge of Knox County, and would later issue a formal statement of his candidacy, setting forth his purposes and aims should he be elected to this important office.

Mr. Covey has served as Representative in the Legislature from this district and is thoroughly familiar with the legal phases of the duties imposed upon the occupant of this office and is thoroughly familiar with the affairs of the county generally.

January; and yet giving a chance to those who could not pay on time. For that reason and to accomplish that purpose, the law makes all license payments of full year fee tendered April 1st good for time from January 1, 1934, to March 31, 1935.

Trees Being Put Out On Highway 30 In Knox County

W. V. Favors, county highway foreman of Knox County was here Tuesday and made arrangements with the City of Munday to provide water for the putting out of trees along Highway 30 from the Baylor County line to the Haskell County line. Mr. Favors stated that the work was being done under the supervision of J. B. Nabors, division engineer with headquarters at Childress.

Mr. Favors stated that the Highway Department was depending solely upon public-spirited citizens in the communities where this work is being done to provide native trees, such as paradise, elm, hackberry and other varieties which do well in this country. Mr. Favors stated that shrubbery would also be put out at points along the highway where it could be cared for and watered through the dry season and a general program of highway beautification is being carried on. He estimates that approximately 300 trees will be required for the 13 miles of highway within Knox County, and those who will contribute trees may notify this office of the approximate number and variety and we shall be glad to pass the information on to Mr. Favors who will supervise their digging up and will also see that the ground is replaced in perfect condition after the trees are taken out.

RHINELAND

Our school is progressing nicely. We are well on our road in the second semester. Barring occasional repercussions, the first semester has taken its place among the dead. Everybody seems to "let the dead past bury it's dead" and appears to be really in earnest to make the best use of the remaining months of school. The attendance is excellent. The Rhineland Junior Band began its regular rehearsal last Thursday night. Rhineland is the only community in Knox County having a musical organization of this kind.

The 4-H Club held its regular meeting last Friday at one o'clock. Mrs. Maylette attended the meeting.

A pump is being constructed for the parochial school well, patterned after the pump placed on the public school well. This type of pump is proving a success.

Messrs. J. C. Kuehler and son, Edmund, Fritz Kuehler and daughter, Petronella, Frank Kuehler and daughter, Loreta, and Ansel Kuehler and son Reinard, went to Groom, Texas, on Tuesday to attend the funeral services of Mr. George Kuehler, whose death was caused by pneumonia.

Willfred Bellinghousen, who has been quite ill with pneumonia, is recovering nicely.

Messrs. William Kuehler and Geo. Wilder motored to Wichita Falls last Sunday.

Mr. Peter Herring and son, Herman, made a business trip to Pop. Texas, last Sunday.

Miss Frances Bruckner spent the week end as the guest of Miss Helen Houser in Vernon, Texas.

Miss Mary de Aguirre was the week end guest of Mr. and Mrs. Paul Kelly in Seymour, Texas.

The following made business trips to Wichita Falls: Messrs. John Herring, Sr., John Michels, Francis Albus, Peter Loran, Albert Loran and Ralph Loran.

George W. Baccus, Vernon, Candidate For Congress, Here

Geo. W. Baccus of Vernon, candidate for Congress from the 13th Congressional District, was here meeting friends Tuesday. Mr. Baccus made the race in the old 13th District two years ago and made a creditable showing, and since that time Knox, Hardeman and Ford counties have been added to the district, which is now served by W. D. McFarlane of Graham. Mr. Baccus is well known over this country, having done business with Knox County citizens for many years.

Mr. and Mrs. T. G. Henge left Wednesday for Mineral Wells for a few days.

Lem Bellows and Frank Davis of Seymour were here on business Wednesday.

Ed Jones Tosses Hat In Ring For Co. Commissioner

The Times is authorized to announce Ed Jones of Hefner as a candidate for County Commissioner, Precinct No. 4, Knox County, subject to the action of the Democratic primaries.

Mr. Jones who is 45 years of age has been a resident of Knox County since 1900. He has made his home on a farm in the Hefner community during the entire time with the exception of two years when he lived on a farm in this county south-west of Munday.

While never connected with the county government and never an office holder, Mr. Jones is well acquainted with the affairs of the county and believes that he can handle the affairs of the office in a business way and to the best interest of the people of the county. He says if elected he will work for the best interest of Knox County and every part of precinct 4. His platform will be honest efficient service and full value for every dollar of taxes paid.

Mr. Jones solicits the support of every voter in the precinct and will call and see you later.

Mrs. Guy Rutherford and son of Quannah are visiting relatives here this week. Mr. and Mrs. Rutherford are being transferred to McCamey and will leave songs for their new home.

Farmers Union To Pay Members \$3.20 Per Bale Ginned

One of the most "juicy" melons ever to be cut in the history of the organization will be sliced here Saturday afternoon when the local Farmers Union Gins declare a dividend of \$32,000.00 among its 405 members, which represents a dividend of \$3.20 per bale on cotton ginned for the past season, and the dividend will represent a per capita distribution of approximately \$79.00. These figures were given out this week by J. E. Edwards, secretary of the organization.

While most of our people are familiar with the organization and methods of the Farmers Union in the operation of its local gin plants, for the benefit of those who are not, let us say that the organization had its beginning back in 1914 when a few farmers personally obligated themselves for a gin plant here which was privately owned with the understanding that when the earnings from the plant had repaid their loan the plant would become the property of the Farmers Union, and its earnings each season would be distributed among its members at the close of each season on a basis of the number of bales ginned. By capable management and close cooperation among its members the organization since that time has been enabled to return to its members in this community over \$300,000 in dividends—dividends which have accrued and been paid without the investment of one penny by the beneficiaries.

And in addition to the dividends that have been paid to members since the inception of the plan back in 1914 the organization owns three plants that are clear of indebtedness and which are conservatively appraised at \$60,000.00.

For the past five years the plants have been under the able management of Emmett Partridge, and in addition to the dividends that have been paid the organization through Mr. Partridge has liberally contributed to every cause for the good of the community, and the entire organization is pledged to work and contribute toward all movements that have for their purpose the betterment of the community in every way, and their accomplishment here is one that should swell the chest of every farmer who has had a part in its achievement, with pride.

J. D. Henderson, who is president of the State organization, is also president of the local union, and was one of the men who foresaw the possibilities of such an organization back in the days of its beginning, and he is still vitally and actively interested in putting the accomplishments of the local farmers before the farmers of the entire state that they too may benefit by this spirit of cooperation.

FOUNDATION PATTERNS
 "I have never made a dress without my foundation pattern, either for myself or anyone else, since I finished it," said Mrs. J. E. Cure, Class I wardrobe demonstrator for the Hefner Home Demonstration Club in discussing plans for furthering this work in the club and community in 1934.
 "I kinda begrudge the material I put into the pattern, 2 yards of domestic, at first, but money could not buy it now," she also stated. "I find it is a great pleasure to use an individually fitted pattern as well as a great saving. I can buy more ma-

terial for dresses rather than have to spend so much on commercial patterns and I can even feel dressed up in print dresses, they fit so well."
 "I hope to get to attend the school next week, to be conducted by Mrs. Dora R. Barnes, Clothing Specialist, and learn more about using these patterns."

4-H BEDROOM IMPROVEMENT
 "The best thing about my room is the natural lighting and ventilation," said Margaret Westbrook, 4-H bedroom demonstrator in the Truscott club, who has 5 windows and 2 doors in her room. "I plan to put my room in the best possible condition by cleaning the woodwork and floors, papering the walls and painting the woodwork. I have a closet in my room that will have to have some shelves and a shoe rack before it will be complete. My furniture will be cleaned and rearranged so my room will be more attractive and restful."
 "I have learned that to have a room that is easily cleaned, I must remove all the unnecessary articles from the room, such as pennants,

paper flowers, and uninteresting pictures. This room is to be all my own so I want it to meet all my particular needs," said Margaret.
 Pictures were taken of Margaret's room before she made improvements and others will be made when she has completed her work. These pictures will be used in her story of her work, helping her to show more clearly what improvements she made.

THE GILLESPIE HOME DEMONSTRATION CLUB FIRST OF SPRING

Before the fields are emerald Or the maples turn to red, There are golden heads up-thrusting From my garden bed.
 While the dusky sky is sober And the sodden earth is dun, The crocus lights it's candles For a signal to the sun.
 —C. W. Avery.

Spring is in the air. We are feeling unusually gay and happy. The perfect weather for a garden. How well our garden seeds could be growing in the early warm weather. Do we have all the seed we could use? I notice that there is being offered entirely free a big new, 136 page Garden Guide. Such a catalogue can be gotten by writing a postal to the H. G. Hastings Co., 283 Hastings Ave., Atlanta, Georgia. Probably some usable information could be obtained from such a guide.
 Mrs. E. M. Almanrode is looking forward to a nice garden. With a very large hotbed, I'm not surprised at her already having set out a number of asparagus crowns.
 Mrs. R. L. Myers will surely be having some fine early friers from the incubator she has now setting. These farm women are daring spring to come!

Our club meets again next Wednesday, February 14, at the home of Mrs. Wombie. Miss Faulkner will demonstrate how to make and lay sub-irrigation tile. "To know how to do is the beginning of doing," surely such an invaluable demonstration will not be missed by a single member.
 We are extremely sorry that Mrs. W. C. Kinsbrough is quite ill. We wish for her a rapid recovery.

RHINELAND 4-H CLUB HOLDS MEETING

The Rhineland 4-H Club met Friday, February 9, in the school auditorium, with the majority of the members present. The following new members were received into our club: Misses Jane Decker, Rosa Lee Chandler, Mithaldia Kueher, Bridget and Lucie Petrus, Margaret Koenig, Mildred, Maxie and Marie Petach. Mrs. Moylette was introduced as our sponsor. "Any time one of you girls have a problem in club work that you cannot solve, just let me know and I will do my best to help you," says Mrs. Moylette. "I am sure that we have selected a lady for our sponsor who will do every thing in her power to help each and every club member."
 Miss Faulkner showed the girls

how to make a bed properly. Every girl was eager to acquire the knowledge.
 Our next meeting was announced to be the fourth Friday in February.

SENIORS

We, the Seniors of '34, want to thank the merchants who helped up on our expenses for the Senior play. Also do we especially want to thank those who endeavored themselves in the making of what our play really was.

for the use of the furniture and the scenery used on the stage; and anyone else who helped in any way in the production of our current play. May we be permitted a second time to say, "Thanks."

THE GOLD RUSH OF '34

Everybody's broke; nobody's happy. Everybody's sad and blue, For when your wallet has gone on a picnic There's nothing left to do but to say: "Gallivantin' is no longer a hobby; Lady Killers have gone on a strike"

Heavy dates are ancient history. For the dollar has gone on a hike. Wool has dropped to nothing. Kids are a dollar per head. Fems, they ain't worth chasin'.

SOPHOMORES We enjoyed the Senior play very much, and we think that the Junior play will be just as good because, of course, some of the Sophomore girls are in the chorus.

HOOD H. D. CLUB MEETING

The Hood H. D. Club met on its regular meeting day, February 9th, at the home of Mrs. A. L. Roden. Miss Faulkner gave an interesting demonstration on tile making.
Mrs. Roden plans to make and lay about 100 feet of tile for tomato raising.
She has made a hotbed about 3 feet square for tomatoes, pepper and cabbage plants.

THE NEW THINGS FOR THE NEW SEASON

Never have we shown a more complete stock of Spring merchandise than we have for your inspection now. We have received large shipments from all the leading markets, and our stocks are complete in every department, and we are anxious to show you.

Our Piece Goods Department is showing all the new and wanted patterns for Spring dresses and apparel. Our Shoe Department is jammed with the newest things in footwear including the new light shades in pumps, straps and oxfords. Our Ready-To-Wear Department is delightfully filled with the new and approved garments for Springtime, and a visit to our store will reveal to you the newest things in Spring apparel.

And best of all, our prices are absolutely in line with conditions, as we believe in small profits and large volume, and for that reason our store is jammed full of merchandise. Our merchandise cannot be excelled and our prices cannot be beaten.
