Number 34

Today And Tomorrow

By Frank Parker Stockbridge

DICKENS—New work

"Who reads Dickens any more?" I asked the head of the circulating department of the New York Public Library not long ago. "Everybody," was the answer. "Dickens' works are in constant demand. We have hundreds of sets of them, and they have to be re-bound on the average once a year."

There is an eternal human charm about the novels of Charles Dickens, and it will be good news to everybody who was brought up on Dickens, as I was, that a new Dickens' book is to be published soon. He died in 1870. His last surviving child, Sir Henry Fielding Dickens, was killed by a motorcycle in London just before last Christmas. With Sir Henry's death the man has been lifted against publishing the "The Life of Our Lord," Dickens' story of the life of Christ, written for his children.

No one can read Dickens without being conscious of his strong religious bent. Those who have seen the manuscript of this book say that it is the work of a devout Christian who wrote what is the greatest of all stories to the Christian mind in more simple, interesting fashion than anyone else has ever succeeded in telling it.

DATED—These Nira girls

I wonder whether all the girl babies who are being christened "Nira" are going to thank their parents when they grow up. It doesn't make so much difference with boys. Men are not likely to grow sensitive about their ages. I remember when I was a boy there were any number of middle-aged men who bore the initials "W.H.H." They had been named for William Henry Harrison, and that dated them as having been born within a few years of 1840. And there were many more, younger men, named "Elmer E." Something, which meant that they had been born in the early days of the Civil War and were named for Lieutenant Elmer Ellsworth, the first Northern officer killed in that conflict. Most of them came from Chautauque County, New York, where Ellsworth came from. But the girls named "Nira" today are going to be approaching forty in 1974, and it's a safe bet that most of them will have changed it to "Nora"—or more likely to something quite different—before then.

DIAMONDS—For farm
Hundreds of thousands of Americans must have heard the late Rev. Russell Conway deliver his famous lecture "Acres of Diamonds." Dr. Conway told the story of a man who spent a lifetime traveling to the far corners of the earth in search of fortune, only to come back home, broke and dispirited, and discover a diamond mine in his own back yard.

I was reminded of that story when I read the dispatch from Pretoria, South Africa, telling how J. J. Jonker, a poor prospector, had found a pure blue-white diamond as big as a hen's egg, which he sold at once for \$315,000. To be sure, he hadn't traveled very far, but he had been hunting for diamonds for eighteen years. Now, at 62, he says he is going to go into farming on a large scale, which is what he has always wanted to do.

Only three other diamonds larger than this one, which weighs 726 carats, have ever been found. The largest, the Cullinan, holds chief place among England's crown jewels. And if anybody thinks it is foolish to pay huge sums for a lot of stone, see how the money paid for the Jonker diamond goes immediately into circulation, for the purchase of livestock and land for Jonker's farm.

GOLD—In plowed furrow

One of the impelling reasons for a readjustment of the gold standard of money is the fact that the world's supply of gold is not increasing while the gold requirements for international trade have increased enormously since the last great "gold strike." But it is anybody's guess when and where another great gold deposit will be found.

The other day an Australian farmer dropped a wrench while plowing. Going over the plowed ground to hunt for the wrench he saw a piece of glittering quartz in a furrow. It had a streak of gold in it. He forgot all about his wrench but started to dig and turned up a gold-bearing quartz reef, from which he took out \$2,200 in two days.

Gold, as the old prospectors say, is where you find it.

Roy Bullington Is Candidate for County Judge, Knox County

We are authorized to announce the candidacy of Roy Bullington for the office of County Judge of Knox County, subject to the action of the democratic primaries.

Mr. Bullington has been a resident of Knox County for the past six years, and a major portion of that time has been devoted to the profession of teaching, having taught at Prairie View two years, at Washburn one year and one year at the Hallett school over in Haskell County, however, he has maintained his residence in Knox County at all times for the past six years.

Mr. Bullington wishes it distinctly understood that he is and has always been a Democrat since some who know of his relation to the late candidate for governor on the Republican party ticket, the Hon. Orville Bullington, might think that he is also of that political faith, but he states that he and all members of his family have always been affiliated with the Democratic party.

Mr. Bullington might be termed a native of West Texas, his parents having come to Abilene in 1882. He attended West Texas State Teachers College at Canyon and Texas Tech at Lubbock, specializing in civil government throughout his years in college, and he believes that the knowledge acquired in school particularly fits him for the office to which he aspires, since he has studied court procedure and other phases of work related to the office, and he promises to voters of Knox County that should they honor him with the position that he will give his best efforts in rendering a faithful and efficient service, hearing in mind always that this is a position of trust and should be regarded as such.

Geo. H. Sheppard State Comptroller Asks Re-election

George H. Sheppard, State Comptroller, has announced he would be a candidate to succeed himself, subject to the Democratic primary.

"My record as a public official speaks for itself," Sheppard said. "It is upon this record and a promise to continue the policies established that I ask for re-election."

"I have endeavored, both as an individual and as a public official, to assist and co-operate fully with all civic and state organizations to keep in the public mind a proper respect for the law. Especially have I worked with this in mind when supervising the collection of state taxes. "It has been my pleasure to assist the state to establish a co-ordinated system for collecting state revenues." Sheppard went to Austin from Sweetwater.

Tax Payments Here Much Better Than During Recent Years

Tax payments, both in the City of Munday and in the Munday Independent School District are much better this year than they have been during recent years, according to Riley B. Harrell, collector for both the city and school district.

For the current year, from a tax roll of \$11,960.73 total collections were \$7,724.59, or 64.6%, on city tax collections, while the school district collected \$8,929.17 on a total tax roll of \$12,544.26, or 71.2%.

In addition to the above collections delinquent taxes were collected prior to January 31 far better than they have been in a number of years, more than \$3,000 having been collected for the city and approximately \$4,500 for the school district.

At a joint meeting of the city council and the school board on Wednesday afternoon it was decided that tax payments that are delinquent will be received on the same basis as adopted by the state, which is 4% penalty flat. This arrangement will prevail in both city and school district until March 31, and those who are still delinquent will make a substantial saving by meeting their tax obligations between now and that date.

Mrs. M. T. Wilson of Roby is visiting in the home of her mother, Mrs. L. S. Jones of the Lake Creek community.

Judge and Mrs. J. S. Kendall, Miss Florene Kendall and Supt. J. Horace Bass will spend the week end in Austin.

WITH A TEXAS PHYSICIAN "DOWN SOUTH": Dr. Guy D. Shiray, Texarkana, medical and personnel officer of the Byrd Antarctic expedition, is shown here upon his recent arrival in Wellington, N. Z. Reading left to right, Dr. Shiray; Captain William F. Verleger, skipper of the S.S. Jacob Ruppert; the expedition flagship; Admiral Richard E. Byrd; Lord Bledisloe, Governor-General of New Zealand; and Lady Bledisloe. Dr. Shiray has been heard by his friends in Texas a number of times during broadcasts from the expedition brought to the nation's listeners every Saturday night at 10 o'clock, E.S.T., over the Columbia network.

Reg Robbins Will Again Visit City With Big Airplane

It was learned today that Reg Robbins has contracted to bring his big new \$60,000 Tri-Motor Ford plane to Munday on February 9th and 10th. Mr. Robbins is well known throughout Texas as the Fort Worth aviator who sometime ago broke the world's record for remaining aloft. Next summer he is to attempt another endurance flight, a non-stop flight around the world, and this will be his last appearance in Munday before starting on this trip. He has invited a number of local citizens to come to Seymour on the 9th and fly back with him. Those who will make the trip include H. C. Hawes, E. H. Bauman, R. D. Atkinson, J. A. Kennedy, John C. Spann, W. V. Timmer and others.

HICK POLITICIAN

Here is W. W. Halcomb, the "World's Worst Hick" and editor of the Castro County News at Dimmit, Texas, who is going to run for Representative from the 120th district. Halcomb is the fellow who got himself a taxi in Dallas to ride from a hotel to the Magnolia building across the street. His platform says the Legislature is a three-ring circus and that nothing would please him more than a ring-side seat, drawing \$10 daily. "Besides," adds he, "You'll know that the best joke you could pull on the rest of the state would be to send me to the Legislature."

Funeral Services For Geo. W. Yancy Held Wednesday

Funeral services for George W. Yancy, 60 years of age, were held at the Baptist Church here on Wednesday of last week, the services being conducted by Rev. W. H. Albertson, assisted by Rev. H. F. Gage, pastor of the New Hope Baptist Church, and the remains were laid to rest in Johnson cemetery.

George W. Yancy was born in Erath County, Texas, August 4, 1869, and was married to Miss Annie Grace on July 9, 1885, and to them nine children were born, six of whom survive. They are Henry, Albert, R. D. and Lee Yancy, Mrs. Jack Wood and Mrs. Joe Pierce.

The bereaved ones have the sincere sympathy of a large host of friends in their great sorrow.

John Albus Files Suit for \$27,000.00 vs. S.W. Gas Co.

One of the largest damage suits that has been filed in Knox County in many years was that filed on Monday when John Albus of Rhineland filed suit for personal damages against the Stamford & Western Gas Company for \$27,000.00. Judge D. J. Brooks, son of Benjamin is representing Mr. Albus in his suit.

The suit asks damages for personal injuries received by Mr. Albus some weeks ago when the store of the Rhineland Mercantile Company was damaged by a gas explosion and Mr. Albus was critically burned.

Pete Lowrance Is Killed In Wreck At Floydada, Tex.

J. F. Lowrance and son, J. F. Jr., and W. E. Lowrance and wife went to Floydada Tuesday in response to a message advising them that their brother and uncle, Pete Lowrance, had been killed in an auto-wagon wreck near that place on Monday night. Mr. Lowrance was driving a car and ran into a wagon, completely wrecking both the car and the wagon and injuring himself to such an extent that he died a few hours after the accident.

Mr. Lowrance resided in Knox County some nine years ago and is well known over the county. He was 41 years of age, and is survived by a wife and three children, a son and two daughters, his mother, three sisters and four brothers.

Haskell Telephone Company To Issue New Directory Here

The Times job department is this week printing a new telephone directory for the Munday and Goree exchanges, and hereafter, according to G. H. Williams, district manager, a new directory will be printed every six months, and these directories will be printed in the community served. The new directory will be ready for distribution within a few days.

Time For Signing Cotton Reduction Contracts Extended

The deadline for signing cotton reduction contracts has been extended to February 15, according to W. E. Jones, county agent, who was here Thursday morning. Mr. Jones stated that land having five year yield as low as 75 pounds of lint per acre will now be accepted. The same committees will continue to serve until the expiration of the extended period, Mr. Jones said.

Buel Bowden Takes Over Magnolia Gas Station 743 Here

After having been associated with the Gulf Refining Company for more than six years, B. B. Bowden has severed his connection with that concern and has become associated with the Magnolia Petroleum Company as manager of their station No. 743 here, which has formerly been under the management of L. L. Huckabee and others. Mr. Bowden has been duly checked in as manager of the station and solicits a share of the patronage that has been accorded him in his old location.

Air Circus Will Be Staged Sunday With Many Stunts

In this weeks Times, readers will see and advertisement of the Cox Air Circus, which is to be staged on a ranch west of Munday about half the ranch from the Munday-Knox City. It promises to be of unusual attraction judging from what press reports say of the Stunt Fliers.

There will be four planes on the field and performances will start on the field at 2:30 p.m., Sunday. This is a circus in fact, and the planes will be operated far in on the ranch from the Munday-Knox City Highway, and a small admission will be charged per car at the entrance.

Here is what the Anadarko, Oklahoma paper had to say about the fliers, especially Faye Lucille Cox, who stands in a class all her own as an Aviatix:

"Give most of the ladies a sack of flour and they will call for a sack of flour. Not so, Faye Lucille Cox. She wants a piece of silk and an aeroplane—and then the flour flies!"

Mrs. Cox, 108 pound, 24-year-old wife of M. C. Cox, owner of the six-act circus coming here Sunday, will leap from a plane 6,000 feet up, holding a sack of flour. Opening the sack of flour as she leaps, she pulls the cord on the "chute" when all the flour has emptied. A speed of more than 114 miles per hour downward is attained before the parachute is opened. She holds one of the only two government licenses given a woman for parachute packing. She will pack her parachute on the field Sunday.

This is not the only thrill in store for you. "Tailspin" Steffen, a Daredevil Stunt Pilot will give a demonstration of how an aeroplane should not be flown if the pilot desires to remain among the living. He will also perform his Spectacular Spin of Death with his tiny 65 horse-power monoplane.

Other stunts included in the show will be Bomb Dropping, Serpentine Cutting and a low altitude parachute jump.

And the show will go on at 2:30 without fail. Passengers will be taken up before and after the show.

Admission is to be 50 cents a car, regardless of the number of occupants.

Jack McGraw Makes Announcement For Office of Constable

Jack McGraw has authorized the Times to announce his candidacy for the office of constable of the Munday precinct, subject to the action of the Democratic primaries.

Mr. McGraw has had considerable experience as a peace officer, having served as night policeman here for some years, and feels that he is thoroughly qualified to render efficient service should he be elected, and he solicits the vote of the citizens of the community on the promise that he will do his utmost to render a faithful service in that capacity.

C. C. McDonald Here In Interest of His Candidacy for Gov.

C. C. McDonald former Wichita Falls attorney, was a Munday visitor Wednesday, and while here called upon a number of his political friends and made new acquaintances. Mr. McDonald served as Secretary of State under the Colquitt administration, during which time he studied law at the University of Texas, and since his admittance to the bar has become known as one of the state's most able lawyers.

Mr. McDonald is a candidate for Governor and is handing out leaflets containing his platform.

Avis Maples Will Manage Gulf Station On Campbell Street

Avis Maples has assumed the management of the Gulf Service Station on Campbell Street opposite the offices of the West Texas Utilities Company, and will continue the business with the same good service that has characterized the concern in the past, and he will appreciate a share of your patronage.

George Salem is in Dallas this week purchasing new spring merchandise for the Fair Store.

Thursday—Visit demonstrators.
Friday—Rhineland girls; Hood women.
Saturday—Office.

SUB-IRRIGATION IN KNOX COUNTY

The question of irrigation is coming into prominence in Knox County since so many home demonstration club members and non-club members are making plans for a "Live-at-Home" program in 1934. Food budgets are being made to meet each families needs for an adequate food supply with home-grown foods either fresh or canned, in the coming year.

To be sure of supplying this food, many in the country are planning to lay concrete tile for sub-irrigation. It has been found that this method of irrigation is much more profitable than the ordinary surface irrigation. It takes less water, little labor is required to water the garden, the soil does not crust so badly, and the yield is considerably greater.

This tile can be made at home for approximately one cent a foot; using one part of Portland cement to 4 parts of clean, sharp sand, with no pebbles too large to go through a 1-4 inch mesh screen, made into a so-called dry mixture.

Demonstrations will be given in each of the home demonstration clubs the latter part of February by the County Agents. A schedule as to the time and dates of each will be given later.

BEDROOM IMPROVEMENT

"I want my room fixed up to meet all the requirements of a standard room," said Lucille Jackson, Hefner 4-H Club demonstrator. "I am going to build a clothes closet, make a dressing table and a wash stand. I have a new mattress for my bed that my mother made. I lack a few slats having enough to have one under each row of coils in the springs but I plan to add enough," Lucille said.

"My walls will have to be papered and the woodwork painted. I know I will find many things, other than these to do once I get started to work. I will be glad, though, when I get the room all finished because it will be all my own and I am sure I wouldn't change with anyone."

"We have been planning on fixing this bedroom for a long time and now that it is to be done, I can hardly wait to start," said Mary Helen Partridge, 4-H bedroom demonstrator in the Sunset Club. "There are so many things that I plan to do, I hardly know where to begin. The walls need papering, the woodwork and ceiling painted, the screens fixed so they can be cleaned more easily, the furniture needs to be cleaned and rearranged in the room, and Oh so many other things will be needed to be done before it is like I want it," she further stated.

"I plan to have a standard bed. That is I want a slat for each row of coils in the springs, a spring and mattress cover, a mattress pad, at least three sheets three yards long and light cover. I plan to make a bedspread for my bed and since I have two beds in my room, I plan to have another spread made just like mine for that other bed."

"I have always wanted to fix a room up just for myself and now is my chance. I know I am going to enjoy doing the work and also enjoy the room when it is completed."

ENGAGEMENT TO KNOX CITY BOY IS ANNOUNCED

Mrs. Lawrence Kay of Rochester honored her daughter, Miss Francis, Wednesday afternoon, January 11th with an announcement 42 party. Following the games, Mrs. Kay served, plate favors being small cupid's revealing two names and a date, "Smith-Kay; February 19th."

Out of town guests included Mrs. Roy Baker of this place.

The "Smith" of this announcement is Mr. Reeder Smith of Knox City. He is manager of the Frizzell Drug Store and a registered pharmacist.—The Knox County Herald.

HUNTING AND FISHING

There has been a great revival of interest in hunting and fishing and outdoor life and sports generally in the past few years. The movement for the protection of wild game, by tending the cover of forest and brake in which they live and breed, has received a great deal of encouragement from President Roosevelt's reforestation program. There seems little doubt that the Civilian Conservation Camp movement will result in developing in many thousands of young men not only a taste for outdoor life, which they will strive hereafter to gratify, but an intimate knowledge of woodcraft and the ways of the furred and feathered denizens of the woods.

It is the dream of those who are most active in promoting the idea that some day all the poor farm land in the nation will again become a cover for game, or at least so much of it as is not turned into lumber-producing forest. Probably that dream will never be fully realized; dreams seldom are. But it is certainly true that a high percentage of so-called agricultural land is fit for nothing but a refuge for wild animals and birds. Nor is it necessarily unprofitable to let the brambles and brush overrun such unprofitable land. In many parts of the country farmers are getting a revenue from the sales of shooting permits over their land, and that idea is receiving a great deal of impetus and encouragement.

The American Game Association estimates that approximately 7,000,000 men take out hunting licenses in the various states every year, while more than ten million are interested in fishing. If the New Deal produces the larger leisure for every man which it promises, together with a surplus income with which to enjoy that leisure, the number of hunters and fishermen will be greatly increased. That will make the movement for the conservation and protection of wild life even more important.

COTTON ACREAGE REDUCTION

The latest estimate upon the world's cotton production issued by the Department of Agriculture should be of interest to the cotton farmers. According to this estimate the world acreage of cotton during 1933 was 74,700,000. Of this amount 30,144,000 was planted in the United States and 44,556,000 acres was planted in countries other than the United States. This estimate shows that while the United States cut acreage in 1933, the competing countries increased by four million acres the amount of land planted in cotton. The world, outside of the United States, raised almost two million bales more cotton in 1933 than in 1932.

These figures, to my mind, clearly indicate that when the United States decreases cotton acreage the foreign countries that raise cotton increase cotton acreage.

The raising of cotton is still the most profitable farming that can be done in most of the United States. If we abandon this business to the foreigner, West Texas will suffer a great loss.

ROSS BATES, Goree, Texas.

TOWN PROPERTY To trade for farm implements and place in farm for coming year.—TIMES OFFICE.

**Wake Up Your Liver Bile
—Without Calomel!**

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sunk as the world looks pink, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily.

If this bile is not flowing freely, your food doesn't digest. It just dumps in the bowels. Gas builds up your stomach. You have a thick, bad taste and your tongue is foul, skin often breaks out in pimples. Your head aches and you feel drowsy and sad. Your whole system is poisoned.

It takes these good, old CARTER'S LITTLE LIVER PILLS to get those two pounds of bile flowing freely and make you feel "up and up." They contain no harmful, greasy, vegetable extracts, amazing when it comes to making the bile flow freely.

But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Beware a substitute. Get it at drug stores. ©1931 C. M. Co.

THE ROOSEVELT ROSE
First Quilt Named in Honor of a President Since Lincoln

Revival of quilt-making by American women has been given fresh impetus by the quilt pictured above, which was designed by Ruth E. Finley, author of "Old Patchwork Quilts and The Women Who Made Them", in honor of the President. Presentation to Mrs. Roosevelt was made at the White House by Good Housekeeping, in the January issue of which Mrs. Finley describes the pattern. The quilt is called "Roosevelt Rose".

The "Roosevelt Rose" is an appliqued quilt in an "all-over" raised design—a reversion to the gorgeous baroque patterns of Colonial America, but made without the tedious old-time labor of "stalling" or "padding". The quilt presented to the President is a riot of magnificent color. A great variety of brilliant calicoes were used for the flowers of the wreath against a background of black satin. The quilt is lined and corded with lipstick red.

Mr. and Mrs. Jimmie Harpham spent the week in Dallas.

Mr. and Mrs. Hameed of Lubbock were guests Sunday in the home of Mr. and Mrs. George Salem.

Miss Moheba Ameen of Knox City is visiting in the home of her sister, Mrs. Siel Waheed and her aunt, Mrs. George Salem, this week.

THANKFUL

I take this method of expressing my gratitude to the people of Knox County for the honor conveyed upon me in voicing their approval and confidence in me by their loyal support in the past two elections.

I am grateful of each act of kindness or influence shown me.

The Constitutional Amendment voted at the last General Election combines the office of Assessor and Collector making it a very large responsibility, and I do not wish to place myself in line for that large responsibility.

Gratefully Yours,
Sarah Wright.

CARD OF THANKS

We wish to take this means of expressing our heartfelt thanks to our many friends for their kindness and assistance during the trying time we have gone through.

We wish especially to thank Father Boniface, for his many kind words and visits, also Dr. and Mrs. Farrington for their kindness and untiring efforts to help us.

The kindness and prayers of the dear Sisters will never be forgotten. Again, many thanks to all who assist us in any way whatever, your kindness will never be forgotten.

May God's blessing be your reward.

Mr. and Mrs. Jno. N. Albus and Family.

Mrs. E. M. Roberts and Mrs. Ike Huskinson were in Wichita Falls Saturday.

Mr. and Mrs. Sebern Jones were in Rochester Sunday visiting Mr. and Mrs. Joe Aycock.

Miss Helen Houser has accepted a position in Vernon and left for that place Saturday.

At Cuban Helm

WASHINGTON... The acceptance of the Cuban Presidency by Col. Carlos Mendicta, (above) was heralded here as a step which would permit United States recognition of Cuba and an early political quieting of the troubled little island.

Folks, I've Moved!

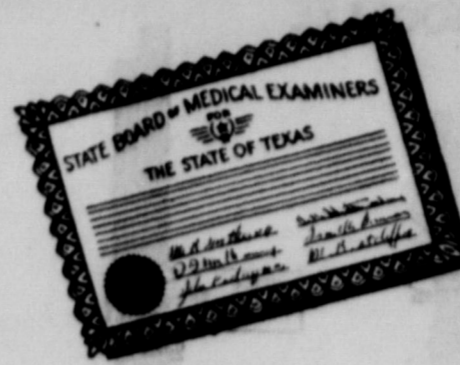

I wish to announce to my friends and the public at large that I have assumed the management of the Magnolia Service Station formerly operated by Mr. L. L. Huckabee, and will appreciate a share of your patronage.

Of course I will handle a complete line of Magnolia products, and will also make a specialty of washing, greasing and polishing cars. Give me a trial and you will be convinced that it is my aim to please you, and no one will appreciate your patronage more than I will.

R. B. BOWDEN, Mgr.

Avis Maples

Washing—Greasing—Polishing

CAUGHT between a top-heavy surplus and low consumption, the price of cotton to the southern grower has been squeezed unmercifully. Back in 1923 the carryover was not so heavy, and the price to growers was high. By 1926 the squeeze began to be felt. Though consumption had increased, the acreage and production had increased to a greater extent, and there was a carryover of nearly six million bales. By 1932, as the graph shows, the squeeze was painful. Consumption dropped by two million bales, and the carryover amounted to thirteen million. The price of cotton could not hold up under such conditions, nor can it be expected to recover until this carryover is lightened by an adjustment in acreage and production. The Agricultural Adjustment Administration will aid growers to make such an adjustment in the crop of 1934.

THIS article that cost a farmer slightly over one and one-half bales of cotton in the period from 1910 to 1914, cost him three bales in 1930. The large crop of 1931 caused cotton prices to fall still lower, and in that year the farmer had to pay five bales of cotton for the same list of articles. Large surpluses increase the "disparity" between cotton prices and the price of things the farmer buys. The way to restore the buying power of cotton is to eliminate the surplus. The Agricultural Adjustment Administration's program of production control provides a means to do this. Growers who cooperate with the Government will be helping to bring about the adjustments necessary to bring back the buying power of their crop.

Mrs. W. A. Cartwright

Margaret Geneva Cartwright, wife of Wm. A. Cartwright, died at Boerne at her home, Tuesday, January 16, 1934.

Mrs. Cartwright was born November 4, 1861, near London, Ontario, Canada, and at the age of five years migrated to Kansas with her parents, Mr. and Mrs. John Rutledge, who settled at Baxter Springs in that state in 1866.

In 1873 the family moved to Grayson County, Texas, where Mrs. Cartwright grew to womanhood. She was educated in St. Xavier's Convent at Denison, and later met and married Wm. A. Cartwright of Howe, the ceremony taking place at Sherman in 1882 and being officiated at by the Rev. Fr. Blum, a pioneer Texas priest.

Mr. and Mrs. Cartwright lived near Howe for three years, then moved to Clay County where Mr. Cartwright embarked in the cattle business, which was to prove their life work.

They moved from here shortly, to

Knox County, Texas, and settled in 1890 near where the towns of Monday and Goree now are. Here they lived for thirty years, and brought property and built their home, and the ranch they established became a landmark in that part of the State and became well known, especially to travelers, who knew that here was a welcome night's lodging in a region where lodgings were few and scattered.

They prospered by hard work and privation, and watched their adopted land grow from a fenceless prairie to a teeming, thickly populated farming country, and in 1926, on account of the hardships of their pioneer life and the infirmities resulting to Mrs. Cartwright as a consequence, they retired to Boerne, in Kendall County, Texas, where they built a home and lived until her death, after a lingering illness of several months.

Eleven children were born to Mrs. Cartwright, nine of whom are living. Of these all but one were present when she was laid to rest. Surviving children are: Mrs. Walter Shelton,

of Point Isabel; Rev. Sr. Mary Austin of Dallas; Joe Cartwright of Houston; Peter Cartwright of Boerne; Katherine Cartwright of Boerne; Louis Cartwright of Goree; Bernard Cartwright of Boerne; Jack Cartwright of San Antonio; James Cartwright of San Antonio. Other children were Monica, who died in infancy; and Frances, who died in 1924.

Another survivor beside her husband is a sister, Mrs. Mary Brown of Phoenix, Arizona. Interment was in the Boerne cemetery with Rev. Placitus Endler officiating.

Many items included in 9c Sale at Akers Dry Goods.

Miss Elizabeth Mounce was in Abilene Friday evening to meet her brother, J. D. Mounce, who had been to Perot.

9c NOTION SALE at Akers Dry Goods.

Pneumonia Spread By Careless Coughers

AUSTIN, JAN. 30.—Pneumonia is a seasonal disease, in that the incidence and mortality is much increased during wet, cold weather, according to Dr. John W. Brown, State Health Officer. It is more prevalent and serious in towns where contacts with people is more common. Pneumonia is always dangerous but it is especially so to persons in a run down condition. This account for the number of cases following illness with some other disease.

The germs that cause pneumonia are spread by careless coughers, sneezers, spitters and the things that they thus infect. The first symptoms are usually a severe chill, a very sick feeling, loss of appetite, rapid breathing, and a heavy sensation in the chest. Sometimes coughing brings up blood from the inflamed lungs. Any of these signs should be the signal for going to bed at once and sending for your doctor.

The familiar rules for the prevention of other respiratory diseases apply to pneumonia. These rules should become personal habits and not to be put on or off at times of prevalence or absence of disease. Persons should avoid careless coughers and sneezers; if you have to be rude, wash your hands thoroughly before each meal. Keep your hands, pencils, money and other such things away from your mouth and nose. Get plenty of fresh air day and night. Exercise and eat in moderation and wear suitable clothing for the weather.

Pneumonia ranks second as a cause of death in Texas, in 1932 almost six thousand persons died of this disease. It should be remembered that contagious and infectious diseases cannot be decreased or eliminated without the cooperation of the people and that means that people who are sick with contagious or infectious diseases should be isolated and visited as little as possible by relatives and friends.

CARTWRIGHT NEWS

Health is very good at this time. We have had some nice cold weather this week; several people killed hogs. Miss Esterline Gallely left this week for Frederick, Oklahoma, to visit relatives. Mr. and Mrs. Rogers were in Wichita Falls last week end on business. Mr. and Mrs. Kelton Kemp have moved to the Grasshopper community this week. Charley McAfee and family visited in this community this week. Claude Hill and family visited his brother Andrew Hill this week. Mr. and Mrs. Tom Wilson from Hefner visited Mr. and Mrs. C. B. Yates and family last Sunday. Mr. Olden King lost one of his work horses last week.

ON WITH THE BOX SUPPER!!!

February 22, 1934, in honor of Washington, the Faculty of Munday is sponsoring a Box Supper. This will probably take place at the Tabernacle or the Klan Hall. The location depends upon the weather.

A short program will be given before the supper takes place. If any admission is charged, it will be very, very reasonable.

All of the money will be given to the school fund to spend on various things. We have an athletic bill to pay and also some more finance for the library is badly needed.

So . . . women, out with your boxes; and men . . . out with your dough!! Men take notice!

P.T.A. SPONSORS "PADDY" AT THE ROXIE

Tuesday night, January 31, the P.T.A. sponsored the picture at the Roxie theatre which was "Paddy, the Next Best Thing." We hope that everyone who went to see the show on this particular night enjoyed it and we sincerely thank you for going, although you might not have known at the time that we were benefited.

DETENTION ! !

Mr. Hardegreer briefly stated in study hall that if we were detained after school three times in one month, we would be expected to automatically expel ourselves. The length of suspension will be determined by what we were detained for. So, boys and girls, WATCH YOUR STEP!!

Folks, February 22 is the Night!!

SAM'S SURVEY

Last Friday a team called Moguls, journeyed to a town, called Goree, to engage the team of said town in a bout of basketball. The first quarter consisted of fast and furious playing, Goree outdoing the Moguls by nine points.

During the entire game, Nichols was high-point man, making six points, King was next highest, scoring four; West, guarded by Charles Heard of Goree, was held down to three points; while Brock and Ralph Layne made two points each. The final score was 29-17 in favor of Goree.

STRAWBERRY ROAN

STRAWBERRY ROAN

-C.B.S.-

"Strawberry Roan," "Red," "John Henry," "Westy" or "John"; John Henry West will answer to any of them.

This unusual comedian made his debut in Goree, Texas, June 24, 1916. In case some of you do not know just where that is, it is on Federal Highway 277, State Highway 30, the Wichita Valley Railroad and some six miles northeast of Munday.

My! Here I go telling you about his birthplace and not even hitting high places in Henry's eventful career.

He started to school here in Munday and completed the sixth grade here, then he moved to Stealy, Texas, (ask him where it is!) He entered High School here, however, as a freshman, and has been a great asset, or liability to our class, ever since he came here, for all of you know "There's only one West."

He has the honor of being talented in various ways. He played football three years, and if he passes, he plans to come out for tennis the coming spring.

Here's some "dope" on "Westy." Some of you fans have never had the opportunity to appreciate: He is a good orator; in fact, on various occasions he will quote some poetry, for social gatherings. He needs no introduction as to his musical talent. "Strawberry Roan" has made him famous.

Here are his favorites:
 Radio artist: Roy Foxkner.
 Worst fault: Unconscious Ego.
 Sport: Baseball, football, basketball, he likes 'em all.
 Movie Star: Mae West and Buck Jones.

Expression: "Ain't but one West."
 Yell: "We want West."
 Ideal girl: One who appreciates love and nature.

Game: Playing matches.
 Pastime: Shooting slot machines.
 Singer: Lonesome Cowboy.
 Song: "Strawberry Roan."
 Author: Any Western writer.
 Hobby: Getting back at people.

Number: 13.

Subject: Geometry.

"DEPEND ON ME"

JUNIOR REPORT

Last Thursday night, January 25, the Juniors threw a party. We all met at Mr. Burton's and had a bowl of chili or whatever desired. My, how that hot chili tasted on that cold night. Several teachers were present and we were glad to have them along.

At the show we all forgot our blues because "Dr. Bull" certainly cured us of thinking of them. The whole party was good and again we thank Mr. Williams and Mr. Burton for their co-operation. We may do it again some time.

Our plays are going along nicely. For the vaudeville act we have asked others of the school body to help, and we thank these girls for the time they are giving. We have decided to wait until after the Senior play to give ours.

Clifford Brock made a daring suggestion in English the other day, stating that if he were teacher he would have regular class for the first fifteen minutes and let the students chew gum for the rest of the time. What a teacher he'd make and what a time we would have under Professor Brock.

Arthur Jr. is still riding cattle. He'll learn some day. We have two little girls in our class who have the Haskell Blues and one boy especially who has those Rochester Gals . . .

Mr. Hardegreer caught up with Duane by asking him if he chased rabbits in the afternoon while out driving the tractor. Well, Duane blushed.

Women: Bring that box and fill it full!

SOPHOMORES

We enjoyed our theatre party Thursday night. We all think that Will Rogers is a grand actor. I think that most of the Home Economics girls were shocked when Miss Clifford returned their quiz papers; at least they should have been for only three passed!

We've all had to give talks in English in order that we may become good speakers. We wonder if we ever will!

Robert makes a very romantic lover—that is he did when he was reading a play in English last week! Miss Clifford is a good peccan-bull digger, for she dug all the peccan hulla out of our conserves Friday. "Ah, ah, these fellow-mates, or sighs Inez, and her maiden-mates, seem to repeat the sighs very readily."

FRESHMEN

Some Fish surely can learn poems, (in about a week). We are getting to the poems in our new English books which are very interesting.

The Junior basketball team was beaten by Goree Saturday night. It seems they can't win for some reason or other. Ask Rupert.

The Fish are looking forward to the time of a class party. The freshmen do not seem to desire entertainment. We have had only one class party this year.

Mr. H.: "Why are you late?"
 Clifford: "Class started before I got here."

Laverne: (after voice lesson): "Do you think I can ever do anything with my voice?"
 Teacher: "It may come in handy in case of a fire."

TINER'S TICKLES

The meaning of the word "collision" was being explained by the teacher to the class of small boys and girls. "A collision," she said, "is when two things come together unexpectedly."

Immediately a small boy jumped up and said, "Please, teacher, we've had a collision at our house."
 "Whatever do you mean?"
 "Well, mother's just had twins."

A ROOSEVELT CALL

But when the President visits He comes in via air, The knob is on the radio, You offer him no chair.

He's prompt about arriving, He leaves when all is said; Why can't our other visitors Do like the nation's head?

Dying hair is often dangerous.

We heard of a man once who dyed his hair and married a widow with seven children.

Admirer: "I suppose your stories just flow from your pen."
 Author: (looking ruefully at his fountain pen): "Sometimes the whole story comes out at once."

Rupert: "Now what'll I do? I've spilt my ink all over the rug."
 Clifford: "There's no use crying over spilt milk."
 Rupert: "That's just it. If it were milk, the cat would lick it up, but this is ink and now mother will do the licking."

Rosalin, seeing her first baseball game: "Isn't that pitcher wonderful? He hits their bats no matter where they hold them."

The nearest approach to sleigh bells in these modern times is when a loose tire chain clatters against the fender.

Robert: "When you sleep your noble brow reminds me of a story."
 Darwin: "What story? 'Sleeping Beauty?'"
 Robert: "No; 'Sleepy Hollow.'"

Mr. Reed: "No! No! The reptile I refer to strikes with mathematical precision."
 Inez: (after much pondering): "Oh! He must be an adder."

From Our Own Dictionary
 Banana peel—food article that brings the weight down.
 Diplomat—a man who remembers a lady's birthday, but not her age.
 Etc.—sign used to make other people think you know more than you do.

Mr. Hardegreer: "Now is that problem clear?"
 Duane: "As clear as mud."
 Mr. Hardegreer: "Good, then it covers the ground."
 Joe: "You're so lazy you won't laugh when you hear a funny joke."
 Randolph: "Fish, that's nothing. You're so lazy that you won't ache when you have a pain."

What the tourist-deserted Europe wants is an enlargement of America's sea power.

Mr. don't forget that dough and that gail!

NOTICE

Your bills and notes are now due. A fair crop and 10c cotton should enable you to make substantial payments on your accounts. Please do not disappoint me in this matter.

H. C. HAWES, Agent

Free Action for all 4 wheels

plus the safety of a front axle and comfort of Cantilever Springs

A great deal of thought is being given today to springs. Various experiments are being tried in an effort to get independent action for an automobile's front wheels.

All of which is simply another tribute to the soundness of Ford engineering and the Ford V-8 for 1934. When you drive this car you get free action not only for the front wheels—but for all 4 wheels.

Ford transverse cantilever springs provide individual suspension for both front and rear axles. In the new Ford these springs have been made more flexible. This type of construction is not experimental and has the advantage of

comfort plus the proved safety of a front axle.

This new Ford combines V-8 power with gasoline economy—20 miles to the gallon at a speed of 45 miles per hour, in exhaustive road runs. It will do 80 miles an hour without difficulty. At 50 or 60 miles per hour it is actually running at ease!

This reserve power means acceleration unequalled by practically any other make of American automobile, regardless of cost. Before you buy any car at any price, drive the new Ford V-8 for 1934.

SOCIETY

Mrs. C. L. Mayes Honors Visiting Ladies

Naming Mrs. J. D. Moyer of Honey Grove and Mrs. Frank Hicklin of Weatherford as honor guests, Mrs. C. L. Mayes entertained with a party Tuesday evening at her home. Sweet pens and violets were used as decorations and turkey was served with the "trimmings." Bridge was the diversion of the afternoon, and those enjoying the hospitality were Mesdames W. A. Baker, T. G. Bengt, H. H. Langford, Fred Brough, Pitzer Baker, S. E. McStay, Roy Baker of Knox City, and the honorees, Mrs. J. D. Moyer and Mrs. Frank Hicklin.

Mrs. S. E. McStay Entertains

A party of pretty appointments was given by Mrs. S. E. McStay at her home on Saturday afternoon honoring Mrs. J. D. Moyer of Honey Grove. Pot plants and cut flowers were used for decorations. High score was held by Pitzer Baker and Mrs. Russell Matson. Pecan pie topped with cream and fruited tea were served. Messdames Oates Golden, Pitzer Baker, M. F. Billingsley, T. G. Bengt, Russell Matson, S. E. McStay, U. R. Houser, L. M. Palmer, Riley R. Harrell, W. H. Atkinson, Dr. and Mrs. W. P. Farrington, Dr. and Mrs. Joe Davis, Mesdames Louise Ingram, E. H. Neff, J. D. Moyer of Honey Grove, and J. A. Kennedy.

Bridge Party in Chapman Home Friday Evening

Mr. and Mrs. W. H. Chapman entertained a few friends Friday evening, placing seven tables for bridge. Pot plants and cut flowers were used for decorations. High score was held by Pitzer Baker and Mrs. Russell Matson. Pecan pie topped with cream and fruited tea were served. Messdames Oates Golden, Pitzer Baker, M. F. Billingsley, T. G. Bengt, Russell Matson, S. E. McStay, U. R. Houser, L. M. Palmer, Riley R. Harrell, W. H. Atkinson, Dr. and Mrs. W. P. Farrington, Dr. and Mrs. Joe Davis, Mesdames Louise Ingram, E. H. Neff, J. D. Moyer of Honey Grove, and J. A. Kennedy.

Munday Study Club Holds Meeting

The Munday Study Club met in the home of Mrs. W. E. Reynolds Friday evening with Mrs. J. C. Burdett as the featured speaker. An interesting program—study of Wells and his novel "Marriage," was given by the leader and Mrs. O. F. Greer with a round-table discussion following. An enjoyable feature of the afternoon was a piano solo by Vinton Tiner. A short business session concluded the program.

Monday Night Club Meets With Mrs. W. H. Chapman

Placing five tables for games of bridge, Mr. and Mrs. W. H. Chapman entertained the Monday Night Club on Monday evening. High score was held by Fred Brough and Mrs. Tom Haney. Refreshments were angel parfait and fruit cake. The guest list included Mr. and Mrs. H. A. Pendleton, Mr. and Mrs. Tom Haney, Mr. and Mrs. Fred Brough, Mr. and Mrs. W. R. Moore, Mr. and Mrs. J. D. Kethley, Mr. and Mrs. R. D. Atkinson, Mr. and Mrs. H. F. Barnes, Mr. and Mrs. L. M. Palmer, Mr. and Mrs. Carl Mahan of Abilene.

Federated Missionary Societies Holds Meeting

An interesting program was rendered Monday afternoon at the Baptist Church when the Federated Missionary Societies met. Mrs. S. E. McStay was elected president to fill the vacancy caused by the resignation of Mrs. O. H. Spans. The theme of the program was "Care of the Needy of our Town." The Missionary Societies from each church were well represented.

Workers Conference Meets At Knox City

The Workers Conference of the Haskell Association held their monthly program at the Baptist Church at Knox City on Tuesday, January 30. Those attending from Munday included Rev. and Mrs. Alherton, Rev. and Mrs. Shade Stevenson and little daughter, Mr. and Mrs. J. O. Bowden, Kate Beth and Arnie Joe Bowden, Mr. and Mrs. Clarence Jones, Mr. and Mrs. J. B. Bowden, Mesdames John White, C. R. Parker, C. Armstrong, A. C. Brock, Clyde Nelson, J. M. Pershau, Moore, Misses Eunice Perdue and Dessie Hammack.

Mrs. Doris Rogers and Miss Louise Atkinson Entertain

Entertaining with a dinner party Friday evening, Mrs. Doris Rogers and Miss Louise Atkinson were hostesses to a few friends at the home of Mr. and Mrs. Doris Rogers. The guest list included Mr. and Mrs. Jimmie Harpham, Miss Angel Jones, Miss Maxine Newsome and Messrs Lee English, Kenneth Edwards, T. P. Withrow, all of Knox City.

Amigos Feted in Reeves Home

An outstanding social event of the week was the buffet supper given by the Amigo Class of the Baptist Sunday School at the home of Mr. and Mrs. M. H. Reeves Tuesday evening. Cut flowers were used for decorations. Six tables were placed for the luncheon and "42" was the

The Sunset Glow

BY THE SUNSET CONSOLIDATED SCHOOLS

 Junior Class Reporter: JONEL WILLIAMS
 Sophomore Class Reporter: JEANETTE REDDELL
 Freshman Class Reporter: MARGARET SHANNON

Perhaps the readers of this paper have heard by now about the treat we are in for this week-end. The Sunset Consolidated School is offering something unusual in the way of an invitation tournament. Invitations were sent out to various schools to attend a girl's basketball tournament on February 2 and 3. Ten schools accepted, and the schools to be represented have the strongest teams in this part of the state. Among the schools to accept are the following: Quanah, Haskell, Rule, O'Brien, Knox City, Rochester, and others. You may depend upon seeing some of the best basketball games to be witnessed in Texas this year. People in the Sunset community especially should be interested in seeing this tournament because our own team, under the skillful coaching of Mrs. R. R. Davenport, has made an excellent showing in all games played this year. We are for the Sunset Eagles in every way.

The following is the first day schedule:

- 5 p.m.—Sunset vs. Bomarton
- 6 p.m.—Haskell vs. Vera
- 7 p.m.—Rule vs. Quanah
- 8 p.m.—Knox City vs. Rochester
- 9 p.m.—Wainwright vs. O'Brien

All day Saturday and Saturday night will be taken up with the playing off of the finals for first place and consolation.

SENIORS

Mid-term exams are over, but we are sorry to say that some of us were hardly able to make the grade. Because of this we have started a new semester with the determination to reach our goal. Here's hoping some of us are disappointed.

We are very glad indeed to have Dolly Nix back in school with us. She has been absent through severe illness.

Most of us are having to take Solid Geometry the last term. Mr. Harber, the teacher, was telling us in class this morning what a "pleasant and beautiful" subject it is. So far, none of us have given him credit for such an alluring introduction. Strange as it may seem, one Freshman wanted to drop Algebra I and take up Solid Geometry. The "fish" was told he would be taking castor oil in place of ice cream. He must have taken heed to the warning, for we have not seen him in class yet.

FRESHMEN

The freshmen had a bad week of it last week, but as we start a new semester, we are going to do better work and not make the end so hard on us as well as the teachers. The freshmen class wants to thank the teachers for their patience and helpfulness that they have shown us thus far. As we expect more in the future, we are going to show our appreciation by trying to be better students. Especially do we wish to thank Mr. Hughes, our sponsor, for what he has done for the best of the eighth grade.

We have two new freshmen students by the names of Maurine and Leo Gammill, from New Mid, Haskell Co. As they live where Clarence Jungman lived, a former freshman, we expect one of them to take his place, which means that they will have to be a student and the brightness thereof.

We notice by the new schedule that we will not have Miss Leath as a History teacher any more, wherein we are very sorry, but we are proud to announce the glad tidings of Mr. Kimbrough as our new teacher. A part of us will still have Miss Leath as a seventh grade arithmetic teacher in high school.

In our class meeting this morning we discussed many topics of importance to the freshman class. We are going to have a class play, a class social, and we are going to present a school flag in such manner that you'll hear it stand out on ends for surprise. This will give you some idea of the worthiness of this class, and maybe something similar to the ability of the freshmen will get into some of the other classes. Of course we are just proud of our class like you are of yours, but there is none like the Freshman Class.

JUNIORS

Exams are over! What a relief! (For some of us.) Now we may have a good time correcting papers. Mr. Hughes says he is still proud of his American History class, for we are still teaching him things.

A certain Sophomore girl had to ask her dad if she could go with Rogers to church Sunday night; but she asked Rogers—he was too bashful to ask her.

Howard and another Sophomore girl cannot think fast—it took them an awful long time to decide whether or not they would go to church last night. (They said it was only a few minutes, but you know how time flies when . . .)

We are glad to have Rex Howell back with us again.

We are all wondering why Velma and Edna enjoyed Sunday so much, that is, nearly every one but them. (Perhaps they have a good reason—who knows?)

Miss Leath says she knows several Juniors who seem to be night owls. (What we want to know is—How did she find out so much?)

Wednesday Club Entertained in Brough Home

The Wednesday club met in the home of Mr. and Mrs. Fred Brough Wednesday afternoon for five games of bridge. High score was held by Mrs. W. H. Chapman. The refreshment plate, a salad course, was especially attractive, with violet corsages for favors and table decorations of violets.

The following guests were present: Mesdames H. H. Langford, Whit Smith, C. L. Mayes, S. E. McStay, Joe Davis, T. G. Bengt, Pitzer Baker, W. H. Atkinson, W. H. Chapman, U. R. Houser, W. R. Moore and Mrs. J. D. Moyer of Honey Grove.

SOPHOMORES

Well, those exams are over, but don't ask us how. We sure are proud of our Spanish grades, aren't we? We, as sophomores, wish to thank you for the compliment, Mr. Kimbrough, and we will sure try to keep the record.

Miss Blanton may be disappointed because—oh, well, listen to this:

The other day she was trying to impress on her English pupils the value of originality. She asked Jimmy to repeat these words after her: "See the cow; the cow is pretty. The cow can run."

Jimmy answered: "Lamp the cow. Ain't she a beauty? Ad' say, baby, she sure can step!"

Miss Leath was driving along the highway when she suddenly saw several repair men climbing telephone poles.

"Such dumb men," she said, "they must think I never drove a car before."

Anyone wishing to have their fortune told, please see Jimmy Harber. Our new soloist is Mat. You should hear him sing "Shine On, Harvest Moon." His voice is sweet and flowing and we are unable to stop the flood.

Now to be serious. We intend to do lots better the next eighteen weeks. In fact several of us will have to if we expect to get full credit on the subject.

FRESHMEN

The freshmen had a bad week of it last week, but as we start a new semester, we are going to do better work and not make the end so hard on us as well as the teachers. The freshmen class wants to thank the teachers for their patience and helpfulness that they have shown us thus far. As we expect more in the future, we are going to show our appreciation by trying to be better students. Especially do we wish to thank Mr. Hughes, our sponsor, for what he has done for the best of the eighth grade.

We have two new freshmen students by the names of Maurine and Leo Gammill, from New Mid, Haskell Co. As they live where Clarence Jungman lived, a former freshman, we expect one of them to take his place, which means that they will have to be a student and the brightness thereof.

CARD OF THANKS

We wish to thank the dear people of Lone Star and surrounding communities for their kindness and goodness to us during the death of our dear wife and mother.

Our hearts are indeed filled with gratitude for the kindness and tenderness shown. The real service done, and sacrifice made by many to be a comfort and consolation to us, we pray that God will be your rewarder.

82nd Birthday Is Observed By Vera Man With Reunion

A family reunion celebrating his 82nd birthday provided a most enjoyable occasion for W. L. Savage on January 28 when members of the family gathered at the home of Mr. and Mrs. J. A. Savage of Weidert to observe the occasion. The senior Mr. Savage formerly resided here but now resides at Vera. The meeting was the first time the children had been together in twenty years, and only one member of the family was absent on this occasion, W. R. Savage of Sulphur Springs, Texas. Those enjoying the reunion were J. W. Savage of Plano, Texas; Mrs. J. C. Alexander of Dallas; G. E. Savage of Vera; Mrs. Emma Beaton of Munday and J. A. Savage of Weidert.

In addition to the immediate members of the family the following were present to partake of the delightful turkey dinner served on the occasion: Mrs. J. W. Savage of Plano; Mrs. G. E. Savage, Monty, Inez, Bettie Ray and Lee Lynn Savage and Miss Hughes of Vera; Mr. and Mrs. I. L. Hudson of Thor; Mr. and Mrs. I. L. Hudson, Jr.; William Beasley and Glavin Ann Hudson of Knox City; J. C. Beaton and mother, Mrs. L. S. Beaton; Miss Saxche Cooper; Mr. and Mrs. Grady Davis, Dineal, Loree and Dickey Loyd Davis of Munday; Mrs. J. A. Savage, Emma Jean and James A. Savage, Jr., of Weidert.

New "Knee-Action" Chevrolet Gives Passengers Ride Like a Glide

In the design and development of the new 1934 Chevrolet, particular attention has been given to driver and passenger comfort, all annoying vibrations of disagreeable sound and feeling having been eliminated. The upper photo shows the new Chevrolet coach with its long, sleek lines. Wheel rash has been eliminated by the Fisher No Draft Ventilators and the new streamlined body. Chevrolet's "Knee-Action" wheels enjoy the advantage of being completely enclosed in a weathertight housing the coil springs and shock absorbers ride in a bath of oil. William F. Holler, Chevrolet's general sales manager, is shown at the left holding a chart which shows the internal construction of the system. The radiator of the new car has added beauty through its graceful and sharply pointed design. Smoothness has been the theme in every line of this year's Chevrolet.

The driver and passengers in the new 1934 Chevrolet get a ride like the glide of an airplane. One of the main factors in improving the riding qualities of the new car is such a great extent is the "Knee-Action"—or independently sprung front wheels, to use the technical term.

So much has been written about independent springing that the public has doubtless concluded that it is something too technical to understand. As a matter of fact, there is nothing complicated about either the principle involved or the construction of the system. Chevrolet's "Knee-Action" enjoys the advantage of being enclosed in a welded weathertight housing in which the entire spring mechanism and shock absorbers ride up and down in a bath of oil.

An automobile gives a perfect ride when both the front and rear springs have the same "frequency," or tension. Actually this has been impossible to carry out in the past because the front springs had to be over twice as "stiff" as the rear springs in order to hold the wheels, shocks and brakes in place. In independent

springing, the wheels and spring mechanism are rigidly attached directly to the frame and there is no front axle. By relieving the front springs of the task of carrying wheels and axle, therefore, it became possible to make the front springs as "soft" as the rear springs. When the new Chevrolet strikes an irregularity in the road, both front and rear move up and down with the same frequency—there is no inclination on the part of the rear end of the car to leap into the air and throw the passengers forward and upward.

Chevrolet's "Knee-Action" has additional advantages all contributing to a comfort in riding never before thought possible in a motor car. There is a decided improvement in handling, steering, safety at high speeds and tire economy.

In design, the front spring is a neat, compact and efficient unit, as Mr. Holler points out in the above picture. The entire spring mechanism is attached rigidly to the frame. From this enclosed unit the wheels spring vertically at the ends of strong, steel horizontal arms.

New Spring Wearing Apparel

Yes, it's a little early, despite the fact we're having Springtime weather right now, but we have already received a large selection of—

New Spring Coats and Dresses

—also a full and complete line of newest shades and effects in—

Phoenix Hosiery

—and we invite you to come in and see our new goods. We are receiving New Spring Merchandise every day.
