Appropriation Bills

The appropriations bills continued to occupy almost the complete attention of Congress during the week beginning February 4th. Monday the appropriations committee reported the \$98,000,000 State, Justice, Commerce and Labor appropriation bill to supply these four departments with funds for the coming fiscal year. Wednesday, the House began its debate of this bill and devoted most of the entire day to the discussion. Thursday the debate was continued and the reading of the bill began. The reading of the bill was completed Friday, together with final actions on the amendments and the bill was passed without a record vote.

Possibilities of a veto of the Independent Offices by the President arose Friday, February 8th, because of the clause restoring the five percent pay cut to Federal employees and pensioners on April 1st. The conference report on this bill was agreed to Monday and the measure sent to the President who immediately referred it to the Budget Bureau and various portions of other bureaus. No opposition to the pay restoration had been registered by the Administration's leaders in Congress and a veto seemed highly improbable. However, at a press conference Friday the President refused to make any definite statement on this bill other than that he would take some action on it within the next few days.

Patronage

Democratic patronage this session of Congress has continued one of the big problems for the Democrats in this administration. Friends of Congressmen back home cannot understand why their requests for positions are completely ignored. They find many people being employed and are blaming the members of Congress when in most cases the members had nothing whatever to do with such appointments. Most of these appointments have been made through different employees in Washington, not on a basis of efficiency but primarily to further certain political ambitions. The writer circulated a petition some time ago to call a caucus to discuss Democratic patronage. This caucus was held Thursday, February 7th, at 4 P.M. and resulted in the unanimous adoption of a resolution offered by the writer reading as follows:

"Resolved that the chairman of the Democratic caucus shall appoint the committee already appointed by the Democratic Steering Committee, a committee of seven members, to investigate the distribution of patronage, departmental personnel and other affiliated matters and that the said committee shall make a partial report back to the Democratic caucus within two weeks from date of adoption of this resolution, on such information and findings as they may have secured, a full report to be made to the Democratic caucus at this session of Congress as soon as possible."

This committee, consisting of the following: Joseph W. Byrns, Speaker of the House; William B. Bankhead, Majority Leader of the House; John J. O'Connor, Chairman of the Rules Committee; Edward T. Taylor, Chairman of the Democratic Caucus; Democratic Steering Committee; Adolph J. Sabath, Chairman of the Steering Committee; and W. D. McFarlane, met Friday and are now busily engaged in securing the information requested by the above resolution. Charges of graft, corruption, and nepotism have frequently been made against employees on Capitol Hill and in the various departments. These questions will promptly receive the careful attention of this committee.

Bonus

Bonus legislation still awaits hearings before the Ways and Means Committee with hearings promised next week. The committee must decide between the Patman bill providing payment without further expense and the Vinson bill providing payment through a bond issue. A partial poll of the House indicates that a majority are favorable to the Patman bill.

Mr. and Mrs. A. C. Brock, Miss Onella and Clifford Brock and Mrs. Mattie Moore were called to Wellington Sunday by the death of Mrs. Brock's nephew, Roy Moore, who died in the Wellington hospital after a short illness. He was ten years old and besides a father and mother, he leaves a twin sister. The funeral was held Monday.

Farmers Union To Pay Members \$6,000 Saturday

More than \$6,000 will be paid to members of the local Farmers Union here Saturday afternoon when the Union will issue checks to members on a basis of \$3.25 per bale on the more than 2000 bales that were ginned at the Union plants the past season.

Atkinson's Moves To New Location In Record Time

The Atkinson Food Store closed its doors Saturday night at the usual hour and opened for business in its new location bright and early Monday morning. The job was done by the combined forces of the local store and those of the other two stores operated by the concern at Haskell and Rochester, and with the aid of several other helpers.

The new store is one of the most attractively arranged stores in this section. A complete new set of market equipment has been installed in the new location and the increased floor space has enabled them to arrange the stock most artistically, and they naturally want their many old customers and friends to pay their store a visit.

Mrs. Fitzgerald was one of the pioneer citizens of Munday, having come here with the first settlers of the Knox prairie, and was universally loved by all who knew her in those early days. She was born in Arkansas on November 8, 1844.

Mrs. Fitzgerald is survived by two sons, Will F. Johnson of Whitesboro, Texas, and James L. Fitzgerald of Fayetteville, Arkansas.

Dollar Rate To Be Extended To March 1 by Times

Due to the bad weather the past few days and the liberal response we have had to our dollar per year offer, we have decided to extend the period until March 1.

Indeed we are gratified with the response we have had to this offer and wish to thank those who have responded, and ask that those who have not one so place their subscriptions in advance so that we may save the embarrassment of taking your name off our list. This action is made necessary by conditions over which we have no control and we solicit your cooperation.

Those who have responded to our offer since last week are: Clyde Nelson, T. J. Thompson, W. A. Lyle, Mrs. A. N. Newsom, J. Horace Bass, J. A. Decker, D. C. Fritz, Abilene, J. A. Caughran, A. J. Manuel, Seymour, G. H. Offutt, H. P. Hill, Howell Barton, E. C. Rappe, Martin Schumacher, J. J. Keel, R. H. Howell, Harold Partridge, Denton, T. A. Miller, Fort Worth, R. C. Partridge, J. D. Henderson, Joe. Carvey, M. L. Joyce, Mrs. James Partridge, Mrs. H. T. Maples, Robt. Myers, R. R. Davenport, Russell Matson, J. R. Walden, Ed Whittemore, Mrs. Louise Ingram, F. L. Decker, Childress, Ambrose Worthington, Levelland, J. E. Tomlinson, Mrs. W. S. Ledbetter and J. D. Reddell.

Interest Already Being Shown Here In City Politics

Interest is already being taken in the coming city election in April, and friends have a move on foot. It is said, to place the names of W. H. Atkinson, R. G. Campbell and Tom Hany on the ballot for aldermen.

The terms of H. F. Barnes, J. C. Campbell and Alex Jones expire in April and no statement has been procured from these gentlemen concerning the election except from Mr. Barnes, who has stated that he would not again be a candidate.

Times Dollar Rate Extended to March 1

Due to the fact that a number have requested that we extend the time limit on our Dollar Rate, we are extending the time until March 1, at which time the rate will be changed back to \$1.50, as it has been for many years.

We are indeed pleased with the manner in which our subscribers have responded to this Dollar Rate. However, in looking over our list we find that there are still a large number in arrears, and we would like to have the list cleaned up perfectly by March 1.

If your home paper isn't worth the dollar it isn't worth reading. Indeed, Times readers save many times the price of the paper each year by watching the ads.

We want to thank those who have responded and ask that those who have not do so between now and March 1, as the rate will not be extended after that date.

State employees enjoyed a half holiday Saturday due to the fact that the Texas Legislature had recessed the day before to accept an invitation from Representative Pat Dwyer of San Antonio to be his guests, along with State officials, at Alamo Downs races.

The Business and Professional Women's Club of San Antonio was hosts to the clubs of this district at the same time, which we wished very much to attend, but, to complicate matters, Guy Lombardo and his Royal Canadians were to play for an All-University dance Saturday night and as we had looked forward to hearing this band for some time "The Sweetest Music this Side of Heaven" won and after hearing them we have no regrets whatever.

It was estimated that fully fifteen thousand people attended and it was surprising the many, fully half the number who were content to just listen to the music and after standing for more than four hours packed almost as close as the sardine shouted for more Lombardo music.

Wish to acknowledge a visit to the capitol of J. C. Nelson, of Munday, who enters the Medical department of the State University this week. In this respect we wish to acknowledge a visit from Prof. J. Lyndal Hughes of Knox County, who attended the State meeting of county superintendents held in Austin recently. From Assistant State Superintendent W. E. James we learned that this was one of the most enthusiastic and, he believes, beneficial meetings this organization has ever had. At the same time we had a visit from a cousin, Bob Lyon, superintendent of Hidalgo County.

Messrs. E. L. Covey and Marvin Chamberlain, judge and clerk respectively, were also present.

Poll Tax Payments In County Fall Off Almost 50 Per Cent

The fact that this is an off year politically is reflected in the poll tax payments in the county, which are off almost 50 per cent from last year. The total payments this year were 1559, as compared with 2910 last year.

Following is a tabulated list of the poll tax payments in the various precincts in the county for the two years:

Voting Precinct	1933	1934
Benjamin	325	153
Truscott	184	106
Gilliland	155	92
Vera	262	155
Gaves	296	151
Munday	695	363
Rhineland	155	122
Sunset	211	128
Knox City	529	267
Hefner	143	63
Brook	26	24

Poll tax payments in the Munday precinct were divided almost equally between the two precincts, South Munday paying 104 and North Munday 149.

Eugene Tonn To Be Head Wichita Valley League

At a meeting held Sunday afternoon at Hamlin Eugene Tonn of Haskell was chosen president of the Wichita Valley League for the coming year and was given authority to select a secretary for the organization.

Retiring President Bender named the manager of each of the clubs in the circuit as a rules committee for the season with Lee Haney as chairman, and this committee will hold another meeting at the Tankawa hotel at Haskell next Sunday afternoon.

Figuring at the present rate of depreciation, examination papers can be had two for a nickel. Isn't that so, Mick?

A phrase we have heard quite frequently is "the bonds of matrimony . . ." our advice to the forlorn but anticipating old maid is that she had better not postpone her womanly wiles until leap year. She might get left. Do your shopping early and avoid the disappointment.

Examinations are swiftly approaching again. We don't dread them, because we are accustomed to such "things" as those.

Those high school boys are really champion wheelbarrow pushers. Several hundred loads of dirt were put in their volley ball court last Friday while the girls mended their nets. Then bright and early Monday morning they thoughtfully fixed the girls' courts. In showing appreciation the girls displayed their skill in candy-making Tuesday at noon and gave it to the workers.

The Freshmen girls bravely challenged the Soph. Junior and Senior girls to a game of volley ball last Tuesday.

They did not loose their good spirits on account of their ignominious defeat, but said they would play again. Speaking about volley ball, the girls certainly have prospects of a good team this year.

Stage Is Set For Chamber Commerce Banquet Tuesday

Everything is all set for the annual banquet of the Chamber of Commerce, which will be held in the show-room of the Moore Chevrolet Tuesday evening, according to Dr. E. M. Ammons, president of the organization. The stage will be erected for the entertainers by the Musser Lumber Co., and the West Texas Utilities Company has cooperated to the extent of providing lights and current for the event. The banquet will be served by the Home Economics Class of the Munday High School.

As stated last week the address of the evening will be delivered by the Rev. P. D. O'Brien, former pastor of the Baptist Church here, now of Colorado, Texas, while the famous American Legion Tickville Band of Ranger, Texas, will provide entertainment, and the event will be one of the most elaborate that the local organization has attempted in many years.

Tickets will be placed on sale Friday, and everyone who plans to attend is urged to buy tickets early in order that the arrangements can be made in providing the number of plates required.

Rainfall Totalling Nearly Two Inches During Past Week

Rain during the past week has brought the total rainfall to date during February to a total of 1.80 inches, and farmers and business men are jubilant over the outlook as compared with that of a few days ago. All of this rain has fallen slowly and soaked into the earth and will be of far more benefit than a heavier rainfall coming in torrents.

INVESTMENTS . pictures, books
J. P. Morgan sold half a dozen paintings from his collection the other day for \$1,500,000. He did not state how much he or his father had paid for them but there is little doubt that he made a very handsome profit.

For anyone who has capital that he can afford to tie up for a period of years there is probably no more profitable investment than in rare pictures and rare books. Of course it is not easy to acquire them necessary expert knowledge to make such investments intelligently, but I know of many instances in which men have taken out several hundred times what they put in after only a few years.

One friend of mine who died a number of years ago had the walls of his house, even the stair walls, covered with paintings by George Innes, which he bought at low prices while Innes was alive, figuring that after the artists death they would command high prices. He also spent several years and about \$50,000 buying autographed presentation copies of first editions of the famous New England authors of the 19th century.

On my friends desk this collection of books was bought by J. P. Morgan for \$350,000 and the Innes paintings, into which he had put about \$100,000, were ultimately sold by his estate for nearly a million.

BOOKS sometimes live
Nothing is more true than that a good book never dies. I have a friend who is at the head of the circulation department of one of the branches of the New York Public library. He tells me that they cannot supply the demand for the standard English classics, Dickens, Thackeray and other old favorites, and that Mark Twain's books are in greater demand than ever. Mark Twain's publishers told me not long ago that they pay his daughter, Mrs. Ossip Gabrilovitch, more money in royalties every year than he father ever got when he was alive.

My friend, Charles H. Compton of the St. Louis public library, has lately been checking up on the kind of people who read the so-called "high-brow" books and finds that they circulate among people of every walk of life and every degree of education.

We hear more about the popular books of the day that sell 100,000 copies or more; these are often quickly forgotten, while the old stand-bys, which really reveal people to themselves because their authors had a deep understanding of human nature, live forever.

TROLLEYS their span
The other day they ran the last trolley car on the world's oldest street car line. Modern buses replaced the rolleys on the Fourth and Madison Avenue line in New York. I saw the trolley cars begin and I am seeing them end. Interurban lines are rapidly giving place to bus lines and now the city trolleys are quitting. Less than 50 years ago, when I was a boy in Washington, the Richmond & Danville Railroad used to run cheap Sunday round trip excursions from Washington to Richmond so that the people could go down to the capital of Virginia and see the first electric railway ever built. It was the eighth wonder of the world, and the man who built it, whom I later got to know very well, Frank J. Sprague, died in New York just a few weeks ago, just as his great invention had come to the end of its life also.

A world can make a great many revolutions in one man's life-time.

STAMPS for collectors
To folks who are not familiar with the tremendous prices which stamp collectors pay for rare or unique specimens, it may sound absurd when the newspapers talk about half a million dollars as the value of certain, unguessed, unperfected stamps which Postmaster General Farley is reported to have given some of his friends. It is easily possible that a single small block of such stamps may have a collector's value of \$50,000 or more.

Few people realize that a large source of profit to the government for many years has been from the sale of first issues of new stamps in sheets to collectors and dealers. Mr. Farley has done more in this line than any of his predecessors. Soviet Russia is said to make a profit of over \$2,000,000 a year from the sale of collector's stamps and one of the smaller Latin-American nations, for several years, paid nearly getting out limited issues of special

4-H CLUB

The Sunset 4-H Club met February 5 with our sponsor, Mrs. R. C. Partridge, and our new county agent, Miss Burchard.

The business was attended to, our work boxes, gardens and the dresses we are to make were discussed.

The 4H Club girls have made and sold sandwiches and have started a bank account with \$6.25. This money will be used in sending members of our club to the short course at A. & M. this summer.

As there was no more business before the house, the meeting was turned over to the president and adjourned.

HOWARD'S EAGLE CRY

The Gores senior boys defeated our senior boys 22-23 Saturday night. This defeat made the sixth defeat that our boys have faced this season. We hope it is their last one.

Our junior boys are doing nice work this season. They defeated the Gores junior boys 17-16 Saturday night.

Remember that the County Basketball Tournament that is to be held at Sunset is the 14th and 15th, this Friday and Saturday.

The girls are planning a trip to Roby to the Girls Invitation Tournament there. We don't blame them in that they had rather go to Roby and see probably the best teams in the state and play themselves than to stay at Sunset and play Knox City the fifth time for the County Championship. The girls have defeated Knox City four times. They have won twenty games, lost two, and tied one.

SENIORS

Putting all jokes aside we do have a very good bunch of Seniors. If you do not believe us, we'll prove it. This week we will let you know about Miss Edna Frances Hudson.

Crazy Edna
 Edna Hudson was born July 12, 1916, in Hill County. She stayed in Knox County when she was three years old. Her 318 days were spent at Gillespie, until Sunset came on the map. She entered in every sport that they would allow her to. She has played basketball four years and volleyball three years. Here are the facts about her:

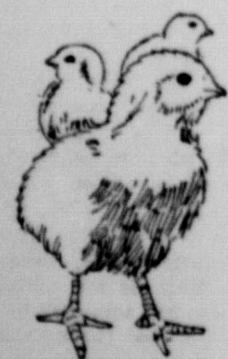

Motto: "There's always another one on the next corner."
 Ambition: "Find a real ho-man."
 (Tall, dark and handsome.)
 Weakness: Min, with black, curly hair.

Sport: Playing ball and swimming.
 Byword: "Skip it."
 Favorite subject: None.
 Favorite song: "I Saw Stars."

JUNIOR REPORT

Six weeks examinations are next week and the juniors are putting forth every effort this last week to be eligible when the county meet comes off. I am sure the juniors will carry off high honors for Sunset.

VALENTINE GREETINGS

(To Certain People)
 To all old maids whose wistful looks
 And trite affairs seem rather stupid,
 Who gather up from sedate books
 The things they know of Cupid,
 To quiet girls and girls who weigh
 More than they should and girls who wear
 Horn-rimmed spectacles every day
 And little girls who have straight hair,
 We send this hearty Valentine,
 We pen herewith this pulsing jingle,
 Though in its way love may be fine
 There are worse things than staying single.
 —Walt Cousins.

BASKETBALL TOURNAMENT

This week end the County Basketball Tournament will be held on the Goree court. All teams will participate—the junior boys, the senior boys and girls. The positions of the Mogul boys will be as follows:

- Seniors**
 Forwards—Joe Barnes and Joe Kethley.
 Center—William Eiland.
 Guards—Everett Pruitt and Ralph Lays.
Juniors
 Forwards—Winston Blacklock and Joe Kethley.
 Center—Charles Haney.
 Guards—Earl and Boyd Meers.
 Substitutes: W. R. Moore, Louis Warren, Clifford Pippin, Hal Pendleton, Doyle Bowin and D. E. Holder.

Last week the Rochester Quintet defeated the Munday Moguls 14 to 11. The game was played on the home court Friday night. The junior team won their game with a score of 11 to 4.

INTERSCHOLASTIC LEAGUE

At a recent meeting of the school officials of this county plans were made for the Interscholastic activities that will be held this spring. The directors, elected to the several offices in the County organizations, who will have charge of the League events are:

- Director General—J. H. Bardwell, Goree.
 Director of Debate—J. H. Parker, Munday.
 Director of Declamation—A. F. McMinn, Truscott.
 Director of Extemporaneous Speech—Vernon Brewer, Benjamin.
 Director of Spelling—T. E. Holcomb, Vera.
 Director of Ready Writers—Onetta Blanton, Sunset.
 Director of Athletics—Jack Wetzel, Knox City.
 Director of Music Memory—J. J. Hoffman, Rhineland.
 Director of Picture Memory—Ivan Bargees, Gilliland.
 Director of Rural Schools—Lyndal Hughes, Benjamin.

Declamation

"There is one feature of Interscholastic League work which comes down to us from old pioneer days, and that is declamation," said a director of declamation.

"Who is there among old-timers who does not remember the Friday afternoon of the pioneer school when the children were required to 'say pieces'?" Many will remember, also, the "exhibitions" at the close of school when the best speakers declaimed "Curfew Shall Not Ring Tonight" and "The Old Oaken Bucket."

"In the declamation contests of the Interscholastic League we have a survival of this very fine school activity. Children learn by heart worthwhile selections in prose and poetry which they are trained to deliver as if they were their own. Emphasis is placed upon straightforward and sincere delivery, hence two very important ends are served; first, the learnings of the selection contribute to the mental enrichment of the child; and, second, the child gets valuable training and skill in public speaking which will be of use to him all his life.

"This contest is one of the most popular in the League. Tens of thousands of children all over the State participate in this activity. There are divisions for rural schools, for ward schools, and for high schools, and also separate divisions for boys and girls. There is a further division on an age basis. This insures healthful competition."

SENIOR SCRAPBOOK

This week the two boys who wear high honors in school averages will be presented to you in biographical sketches.

 Fat folks should take one half teaspoon of Kruschen Salts in a glass of hot water every morning before breakfast—a quarter pound jar last four weeks—you can get Kruschen Salts at any drug store in America. If not joyfully satisfied after the first bottle—money back.

 Watch it bubble up, then drink it. You will be amazed at the almost instant relief.
 It is called Alka-Seltzer because it makes a sparkling alkaline drink, and as it contains an analgesic (Acetyl-Salicylate) it first relieves the pain of every-day ailments and then by restoring the alkaline balance corrects the cause when due to excess acid.

Are YOU HAPPY After Meals?
 Or Do Gas on Stomach and Sour Stomach make you Miserable?
 Too much food, or the wrong kind of food, too much smoking, too much beer, make your body over-acid. Then you have distress after eating, gas on stomach, heartburn, sour stomach.
ALKA-SELTZER relieves these troubles promptly, effectively, harmlessly. Use Alka-Seltzer for Headache, Colds, Fatigue, "Morning After Feeling," Muscular, Sciatic and Rheumatic Pains.
 Alka-Seltzer makes a sparkling alkaline drink. As it contains an analgesic (Acetyl-Salicylate) it first relieves the pain of everyday ailments and then by restoring the alkaline balance corrects the cause when due to excess acid.
 Alka-Seltzer tastes like carbonated mineral spring water—works like magic. Contains no dangerous drugs... does not depress the heart... is not laxative.

FOODS TASTE BETTER When Cooked Electrically
 Electric Cookery brings out the flavor in foods. Only a small amount of water needs to be used to cook vegetables, as they are practically cooked in their own delicious juices. Meats shrink very little cooked electrically, as there is no excessive dry heat to rob them of juices and flavors.
 The results are foods taste better and retain the vitamins because the flavors and health properties are not destroyed by excessive cooking or drowned in excessive water to be poured down the sink. Of course you can look for better health from this modern electric cookery. Before you buy your next range... investigate the electric way of cooking.
 Do you know that your increased use of Electric Service is billed on a surprisingly low rate schedule... and adds only a small amount to your total bill?

eral's department, Colonel H. H. Carmichael as Assistant Adjutant General and Tom Hickman as a Captain in the Ranger forces. Hickman will be stationed in Fort Worth. When you consider the fact that some eighteen hundred applied for places on the Ranger force you can appreciate this. For days the capitol was crowded with men wearing ten gallon hats and boots, along with other requisites, but strange to say, the two above mentioned did not.

It will be of interest to the Times readers to learn that Gaynor Kendall, formerly an assistant attorney general, is connected with the State University.

We felt quite a thrill last week as we discovered Highway Patrolmen stationed at every entrance to the capitol, in the rotunda, in the elevators and on each floor. Upon inquiry we were informed that five thousand unemployed were to make a visit to the capitol to make demands upon the legislature. However this number dwindled to about fifty who demanded relief measures and there was no trouble reported.

Saw Bill "Alfalfa" Murray of Oklahoma when he made a visit to Austin and, upon invitation, spoke before a joint session of the legislature. Now there is a move on foot to get the University to hire him as a professor.

CIGARETTES . . . they grow

Twenty years ago, in 1915, there was just one respectable restaurant in New York in which women were permitted to smoke. In the mezzanine gallery of the old Cafe Martin, at 20th Street and Broadway, lady might light a cigarette but she would be thrown out of any other restaurant or hotel in New York if she dared to light one. To smoke a cigarette in public was regarded as a public confession of immorality. Respectable women just didn't do it.

I saw some figures the other day indicating that as a result of the spread of cigarette smoking among women the United States is now consuming eight times as many cigarettes as 20 years ago and only half as many cigars. We smoke 2.8 cigarettes per person per day. We also drink 2.8 cups of coffee per person per day. Whether there is any relation between the consumption of coffee and of cigarettes I am not sure but I am inclined to think that the stimulating effect of coffee breeds a desire for the relative effect of cigarettes.

I have not seen any recent figures on chewing tobacco but that is one use of the weed, to which the ladies never did take kindly, although in my youth it was far more widespread than smoking either cigars or cigarettes or pipes.
