## Under the Dome at Austin

Julia A. Kennedy

Miss Arlene Kendall has accepted a position as secretary to Senator Ben G. ONeal. Miss Kendall's knowledge of law well qualifies her for this important position.

Judge D. C. Osborn of Munday was here last week in the interest of taxpayers of Knox County in protecting the highways from further encroachment of heavily loaded trucks. Judge Osborn appeared before the House of Representatives and made a speech against a bill to increase by seven thousand pounds that already allowed trucks. We enjoyed a visit from him while here.

W. A. Wyche, Jr., is a former Munday lad here attending the State University. He is a pre-law student and is a son of Mr. and Mrs. W. A. Wyche of Anson.

Raymond Brooks, writing under Texas Topics, says:

"Chain-store tax bills, of which four are under review of a house taxation sub-committee, are not primarily revenue-raising measures. They are regulatory, anti-discrimination proposals, designed to protect independent merchants and independent business generally.

They are companion bills to anti-distribution price-control bills, anti-"loss-leaders" and similar measures designed to stave off monopoly and the destruction of free enterprise and independent merchandise.

A chief question is whether the countless filling-stations shall be included in the chain-store bills. Some of the measures would cover them. If so many filling-stations can support their operators, and thus enable that many citizens to be self-supporting, independent units of business, they will prove their reason for being; but generally it is agreed that users of gasoline ultimately are having to pay for thousands of unneeded filling stations, whose sites are bought up and developed as part of the movement to deny any independent operator either a market or a satisfactory site.

Judge J. O. Keith, recently appointed by Governor Allred as a member of the Board of Pardons, comes from Stephenville and was district judge of that district when the Kennedys were employees of the Stephenville Empire. Needless to say we enjoyed talking over "them good ole' days."

## Tri-County Medics Hold Meeting With Seymour Profession

The Baylor, Knox, Haskell County Medical Society met in Seymour on February 12th, at 7:30 P.M. in Dr. Foy's office, with the following members present: Drs. J. A. Richardson, J. F. Bunkley, R. K. Lowry, J. C. Hennen, C. E. Johnson and J. W. Foy, all of Seymour; L. A. Barber of Bomarton; W. P. Farrington and Joe Davis of Munday; W. M. Taylor of Goree; T. W. Williams of Haskell; Drs. O. T. Kimbrough and G. R. Mancke of Wichita Falls were visitors, also Mr. K. G. Long of the Upjohn Company.

Dr. W. M. Taylor of Goree read a paper on "Furunculosis and Carbuncles" with report of cases treated with bacteriophage. This paper was discussed by all present.

Dr. Wm. P. Farrington, the Society President, appointed the following committees:

Board of Censors: Drs. J. A. Richardson of Seymour; T. S. Edwards of Knox City and T. W. Williams of Haskell.

Legislative and Public Relations: Drs. R. K. Lowry of Seymour; T. P. Frizzell of Knox City and E. F. Heard of Goree.

Dr. J. W. Foy of Seymour was elected as delegate to the State Medical Association, and Dr. W. M. Taylor of Goree was elected alternate.

Dr. O. T. Kimbrough of Wichita Falls, the Secretary of the 13th District was here completing plans for the District meeting to be held in Seymour on March 12th. This will be an all day meeting. The meeting will be held at the Seymour City Hall. Lunch will be served in the basement for the visitors and their ladies.

## TO THE PUBLIC

Request is hereby made that those using the stock-pen grounds as a dumping ground for rubbish and refuse discontinue such practice at once. Respectfully,  
Wichita Valley Ry. Co.

## Description Plans Of Knox County's New Court House

The building proper is rectangular in shape, having a ground dimension of 116 x 72 1/2 feet. There is a small basement, two main floors and a part of the building has a third floor. The basement is designed only for the housing of the heating equipment and general storage space.

On the first floor are the offices of the County officials with whom the Public comes most in contact. The County Clerk's department occupies one-fourth of the floor space on the southeast corner, and this space is constructed as a vault for fire protection. The Tax Assessor and Collector occupies the southwest corner and his space is similarly provided for as a vault in its entirety. On the northeast corner will be a liberal suite of offices for the County Judge, and to be used as a court room for the Commissioners where space is provided for spectators and visitors, and on the northwest corner are the offices for the Sheriff and County Attorney, which adjoin for convenience in the administration of their duties, and each has private offices and reception rooms. Adjoining the County Attorney's office is the County School Superintendent's suite, which also has a book room for the storage of State textbooks. The balance of this floor is utilized for a liberal assembly room, having a seating capacity of 150 for use in connection with the duties of the County School Superintendent, County Agent and Home Agent, and other community meetings. This room can also serve as an additional court room should it be needed.

A small demonstration kitchen is adjacent to the assembly room, fully equipped for canning demonstrations and general use in connection with the Home Agent's duties. There are also rest rooms on this floor for both men and women provided with modern toilet fixtures, for the convenience and use of the public.

There are stairways on either end of the building, leading to the second floor where there is a spacious court room 36 x 67 feet, and has a high ceiling. It is arranged for the conduct of the Court's business in a most convenient manner. The Court room is surrounded on two sides with corridors, making possible the circulation to the offices on the floor without passing through the court room. At the end of the court room where the Bench and Jury will be located, there is a private jury consultation room adjoining the jury box and from this the jury will have access by a stairway to the Jury Dormitory, which is located on the third floor. At this same end is located the District Judge's suite with offices for the court reporter. Across the hall there is a generous District Clerk's office with a vault and District Attorney's offices and rooms for witnesses and consultation in connection with the business of the Court. On the east end of this floor are large offices for the County and Road Engineers, Justice of the Peace, and an additional office which has not yet been assigned. There are also rest rooms provided for both men and women on this floor.

The central part of the building being three-story permits the additional ceiling height for the District Court room, and back of this is an entire floor which is located a Jury Dormitory of liberal size and with excellent ventilation, and this space is provided with toilet and bath facilities for the use of the Jury. There is also a Grand Jury room on this floor with witness rooms and a separate stair leading to the witness room below.

The interior of the building is modestly but substantially finished, having terrazo floor on the first floor and a serviceable soft tile floor on the second floor. The corridors have a marble wainscoting for protection against the wear and tear of the many patrons of the building. The walls are all neatly plastered, as are the ceilings except the ceiling in the assembly room and in the District Court room, which are specially insulated in order to afford proper acoustics. The building is entirely of fireproof construction and is built along the most modern lines of Court House building.

The exterior of the building is to be faced with Texas Limestone, which is to be quarried near Leaders and will be milled and faced in a smooth finish surface and neatly laid with small joints in order to give it that magnificent appearance of a stone faced building. This type of construction was decided upon by the Court on account of its permanence and since it could be obtained at very little additional expense. All

## Supt. T. W. Harber Re-elected Head of The Sunset School

At a recent meeting of the trustees of the Sunset Consolidated School district, Superintendent T. W. Harber was re-elected for the coming year, making Supt. Harber's fifth consecutive year of association with that school. Two years of that time were served as principal and three as superintendent. The school now has the heaviest enrollment in its history, and is in excellent financial condition, tax collections to date being almost seventy-five per cent of the assessments in the district. As a result funds are now in sight for a full nine months term.

At the same meeting W. C. Kimbrough, principal of the school, was also re-elected.

## Primary Teachers of County Meet at Sunset on Saturday

Primary teachers of the county held an interesting meeting at Sunset Saturday at which time there were eleven teachers present, as follows: Elizabeth Parris, Eula Mae McGuire, Gilliland; Elsie Graham, Ruth Rice and Grace Osborn, Knox City; Mrs. John B. Ingram, Washburn; Evalyn Williams and Ollie Bateman, Munday; Mrs. Cecil Burton, Miss Virginia Curry and Miss Gladys Williams, Sunset.

Since it has been planned to have no sit programs the teachers discussed various activities that have been completed and others that are to be undertaken through March. The teachers also visited the four primary rooms of the Sunset school and heard discussions on the activities they contemplate.

The next meeting will be held at Knox City on the first Saturday in March. Teachers who have good patterns or anything that has been of help to them are urged to bring it with them to this meeting as the teachers are planning a house-leaf scrap book for the primary division of the county which will enable them to pass around the material gathered. The teachers are also planning to have a want list which will enable patrons to secure patterns desired, and those having suggestions are requested to make them at the next meeting.

## UP AT THE METHODIST CHURCH

We had a good increase in the attendance at the Sunday School. We are having good crowds especially at the 11 o'clock hour. We have many members that are feeble in the evening.

Subject at 11:00 A.M. next Sunday: What a Christian should do and what he should refrain from doing.

Sunday is to be Book Day. In addition to the regular distribution of literature for the Church School and the young people's work, there will be distributed at that time and the week following, over 100 books to the various groups in the church. Our contact with the Haskell congregation will begin a week from Sunday and we want to beat that splendid group on church attendance. Come with us and we will do you good.

GEO. S. SLOVER.

Mr. and Mrs. Royal H. Porter and sons, Royal Jr., and Bob, of Dallas, were week end guests in the W. H. Chapman home. John McKenzie who has been in Dallas for the past two weeks returned with them.

Tommy and Connor Culver, 11 and 8 years of age respectively, will present cowboy selections and popular songs on a program hourly at the Alkeison Food Store Saturday. They recently appeared at the Queen Theatre in Abilene in connection with the screen showing of "West of the Pecos." Tommy is seated, Connor standing, in the picture.

## Uncle Tom Cowser Celebrates Birthday At Home Wednesday

Relatives and friends of Uncle Tom Cowser met at his home on Wednesday 20th in honor of his 81st birthday. Several nice gifts, including flowers, were presented to Uncle Tom.

Everyone enjoyed the delicious dinner, many cakes and pies with everything else to make an ideal birthday dinner, with the smallest cake being two inches in diameter and two layers, was a gift of little Maxine Harrison, and the larger a jam cake being about 12 inches in height, presented by Mrs. Betterton. After dinner Mrs. C. A. Tucker of Haskell read the 96th Psalm, which is Uncle Tom's favorite chapter, following the reading was a prayer by Bro. Tucker.

There were 66 relatives and friends present.

C. E. Elliott, Sheriff Knox County.

## G. R. Eiland Will Head Munday C of C For Ensuing Year

The annual banquet of the Munday Chamber of Commerce on Tuesday evening can easily be termed the most elaborate and successful event in the history of this organization, and despite the fact that more than 100 tickets were sold for the event there were many who were unable to procure tickets at a late hour.

The principal address was delivered by Rev. P. D. O'Brien of Colorado, Texas, and his talk was thoroughly enjoyed by everyone present.

The American Legion Tickville Band of Ranger provided the entertainment for the event and kept the audience in an uproar of laughter throughout their entire program.

R. B. Davy made the report of the nominating committee, which named G. R. Eiland as president for the ensuing year, and the following directors were named along with Mr. Davy: J. C. Campbell, W. R. Moore, A. L. Smith, J. A. Kennedy, M. F. Billingsley, John Ed Jones, W. H. Chapman, Tom Haney, J. C. Spann, Emmett Partridge, J. C. Borien and Dr. E. M. Ammons.

Mr. Eiland has a very constructive program in mind for the coming year and this promises to be the most successful year in the matter of accomplishments in the history of the organization.

## LET'S GIVE THEM A BETTER CHANCE

"I was so glad they made me Clothing Demonstrator," says Lela Mae Simmons, 4-H Clothing Demonstrator of the Sunset Club, "for the thing I like best and am most interested in is sewing. I not only make my own clothes but sew for others, even though Mother says I do not charge enough for my work. I have made 30 dresses since Sept. Sometimes when Youth does one thing free or at a very low cost, everyone expects this free accommodation to continue. Let's give 'em a better chance."

### MY FLAG AND YOUR FLAG

There are many flags in every land,  
 But the flag that we love best  
 Is the flag of the dear old United States,  
 That waves from east to west.

The stars and stripes a story tell  
 Of Washington so brave  
 And all the other heroes  
 Who fought our land to save.

It's your flag and my flag,  
 And if to it we are true,  
 We will love, obey and honor  
 The Red, White and Blue.

### SPORTS

The Munday Seniors won their first game in the basketball tournament, but lost the honor to Goree. Nevertheless, our Junior team was victorious in all their games. The games were played at Sunset last week end.

The Class Tournament began Tuesday afternoon with the Seniors and Sophomores playing the first game. We shall inform you next week as to the results of this battle of the classes.

Mr. Bass has lengthened the noon hour to 12:55 in order that we may take advantage of the weather and engage in some outdoor sport. Most of the girls are training for volleyball or baseball, while the boys play "shinny" and baseball or work out for track. The athletes of old M.H.S. are determined to win the 1935 Interscholastic League. Here's hoping they do!

### DEBATERS WIN HALF

The Debate Teams went to Seymour last Wednesday and carried off half of the honors. Although the boys were defeated, the girls won. We will have to admit that the boys had the most difficult side of the question—the affirmative. We hope to be able to report more victories.

### WHO WOULDN'T BE CRAZY?

The Seniors are presenting their play March 8. This extraordinary play March 8. This extraordinarily gay farce is as smart and frivolous as the latest Paris hit, and as old in its appeal as love and laughter. The interest is tense; each act has a big curtain; there are enough clever lines to jazz up three ordinary comedies. The parts are excellent in their distribution and appeal—the lovely, spirited Lois; the appealing Evelyn; three mischievous debs—Speedy's father; Penlie, a "chocolate colored angel;" the head nurse; the best of all speed makers, Jack; Inmates No. 1 and 2—eccentric, extremely funny, and not a little mysterious, especially when no one else is around; Pluribus, a colored boy in love with Penlie—and how! Reggie, well, he's Reggie; and McCafferty, the hard-boiled traffic cop, is one of the finest. Everyone's crazy—but WHO WOULDN'T BE CRAZY?

### CHAPEL

Last week was Mrs. Jones' time to present the program for chapel; since she is the freshman sponsor, she selected part of the program from that class.

The entire student body was honored by the presence of Dr. Slover, the Methodist pastor, who gave a

very interesting, as well as educational, talk about "Tact."

Louise Wallace, who withdrew from school this week, rendered two delightful piano selections entitled "Zwz etain etain" and one of them "Pink Elephants" and "Neighbors."

Mattie Marie Isbell, Wesna Thompson, Mary Moore and Margaret Tiner sang "A Little Street Where Old Friends Meet" and Mr. and Mrs. Is the Name."

### SENIOR SCRAPBOOK

A Senior has kindly given Maxine a week at ease and has written a biography of her life for this column.

### DIMPES

The stork lost control of a bundle of dimples during the month of December in the year of 1917, and it happened to fall in the home of Mr. and Mrs. John Lane of this little city. Why she was ever called Maxine Parks Lane we shall probably never know. However, we do know that the bundle of dimples left its marks on the face of a charming, well-dressed young lady, who is now rendering the news of our Senior Class to the Tom Tom.

Maxine began her long years of hard work under the eyes of school teachers at the age of six. Graduating from the grammar school here, she began work in the Munday High School four years ago and has profited with good grades each year. Maxine says she cannot remember when she was not going to school—it seems as if it were always. She wonders, however, if she might not be smarter if she had not gone to school at all. She does not know why she can't be as good in Spanish class as in the rest; too, she is running Mr. Coody wild.

This young actress, you know she is in our play, is like the rest—she talks all the time—but I could not get her to say anything about herself. Nevertheless, I do know that Maxine will some day be queen of all chewing gum chewers. She will probably marry within the next few years, but the lucky man "shall be an out-of-town Romeo," says the young deb. I think, too, that Maxine hopes to catch up with her sleep after leaving M.H.S.

P.S.—Maxine asked me to state: I went to school in Goree.

### GUESS WHO

—Wishes she were an ostrich?  
 —Was the happiest girl in town last Sunday?

—Thinks that a corsage is something to hold in the waist line?

—Thinks that the so-called "under-ground railways" were really tunnels for the escape of slaves before the Civil War.

—Does not intend to become an old maid, but she is determined not to marry?

—Mistook Hardegree for an angel?

—Got a box of Valentine candy?

### WHAT NOTS

Lady Macbeth: Have I told you about my apparition?

When asked what position he played in the basketball tournament, Hal replied, "Left out."

A skunk sat on a stump. The skunk thump the stump thump, and the stump thump the skunk thump.

And then there's Everett—he asked Miss Couch if there were any sym-

pathetic tenses in English.

Lucille: What shall we do tonight? Arthur: Spin a coin. Heads we go to the dance, tails the movies. If it stands on edge we'll study.

American colleges and universities have nearly 10,000 students enrolled from foreign lands.

It is estimated of every 1,000 adult Americans 23 are college graduates. Why don't we have a song, "Blue Monday."

Then there's the Scotchman who wanted to yell and make a lot of noise New Year's Eve, so he sold newspapers.

## AGA approved ASSURANCE gas appliances... for SAFETY . . . . QUALITY . . . . EFFICIENCY

Few industries maintain a laboratory for research and testing such as the American Gas Association Testing Laboratory. In this laboratory every kind of gas appliance is tested by trained engineers. For instance, a gas range is subjected to about 250 separate tests. These tests are grouped under such headings as: lighters, leakage, burner operating characteristics, combustion, fire hazard, thermostats, oven heat distribution and capacity, and many classifications pertaining to construction and strength. In every detail, a gas appliance, before A. G. A. approval is given, is made to comply with nationally indorsed standards for safe operation, durable construction and satisfactory performance.

When buying gas appliances look for this seal.

exterior windows are to be of steel and glazed with plate glass. The main entrance faces south and there are end entrances at the east and west ends.

This building is made possible through the issuance of \$75,000 in County Warrants at 4 per cent interest. Those warrants are purchased by the Public Works Administration at par and in taking advantage of the P.W.A. plan, Knox County is going to receive an outright grant of \$24,000, which was made available in the nature of a bonus to communities taking advantage of this construction plan under the P.W.A. The original application for loan and Grant was made by representatives of the Court who submitted their brief before the State P.W.A. board which met at that time in San Antonio, Texas. While many other communities in the State have taken advantage of the P.W.A. plan of financing, it is believed that this is the first new Court House project in the State to start actual construction.

The contract for the building, including plumbing, wiring and mechanical equipment, was awarded on November 17th to Delph-Batson Construction Company of Dallas, for the sum of \$28,327 and calls for completion within 100 working days. The Work Order has been issued by the Architects for the beginning of actual construction on February 20th, at which time the contractors will start wrecking the old building. The firm, Delph-Batson Construction Company is well reputed in this type of work and the Architects, who prepared the plans and assisted the Court in the consummation of the P.W.A. arrangements, are Voelcker & Dixon, Inc., of Wichita Falls, Texas. This firm were the architect for the Federal Post Office and Court House at Wichita Falls, Texas, and Court Houses at Baird, Midland, Paducah, Vernon, Longview and Sherman, Texas.

John F. Tevis, traveling freight and passenger agent for the M-K-T lines, with headquarters at Wichita Falls, was here looking after business matters first of the week.

Miss Elizabeth Kubala, daughter of Mr. and Mrs. Fred Kubala, who has been critically ill, is reported much improved and well on the road to recovery.
