The Munday Times is Democratic, yet supporting only what it believes to be right, and opposing what it believes to be wrong, regardless of party policies, publishing news fairly and impartially.

NOTICE TO THE PUBLIC: Any erroneous reflection upon the character, standing, or reputation of any person, firm or corporation which may appear in the columns of this paper, will be gladly corrected upon due notice being given to the Publisher, at the Munday Times office.

FIFTY YEARS

The world has changed more in the past fifty years than in 1,000 years before that.

Fifty years ago, if you are that old, your house did not have electric lights, telephones, electric heaters, gas stoves, electric irons or toasters, washing machines, aluminum ware, electric fans, radios, artificial ice or baker's bread.

There were no paved, graveled or graded roads in this vicinity. Printing offices did not have linotype machines, automatic presses, printer telegraphs or casting machines.

The automobile, motorcycle and safety bicycle had not been invented. Skyscrapers were unknown. Airplanes were figments of imaginations.

To repeat: Girls are inviting trouble who accept invitations to go on auto rides with unknown men. To the most elementary minds that would seem obvious, but that such a warning is required, is demonstrated by the many news items and court cases one sees or hears about.

Hospitals were rare and the country doctor found more babies to the pair than the work brings to a whole city block these days.

People raised or made most of the things they used and very little money was had or needed.

THE SABBATH

The Sabbath, once the day of rest, is now becoming known as the day of eternal rest.

The Sabbath was made for man, to be sure, but not for the exercise to his utmost folly.

There is compensation in life beyond mere sums of money. Hire is not alone paid in cash.

There are some newspapers that can present all news so as to neither offend nor harm.

LETTERS FROM THE PEOPLE

To The Times: The Government of the United States from its beginning to the present time has been a Government of limited powers.

Apparently reorganizing that Government is always the current administration. The Constitution safeguards itself against being interpreted to grant unlimited authority to Government by providing that Federal Judges shall hold office for life.

Some Munday people want us to leave out the writeups of local parties. There are church members present at various times who have the misfortune of winning a bridge prize and they rather it wouldn't be advertised.

The big thing the matter with the country is the fact that so much money has been borrowed, that was never repaid.

And yet the etiquette book doesn't forbid stopping the car at the front of the house and honking for her, that is, unless the police interfere, or irate neighbors throw a few bricks.

The one-lighter invites accidents. It never tells the truth about itself. You never know whether the one light it shows is on the inside of the road or the outside.

In this time of depression, it is especially necessary that a living wage be paid. All efforts to beat down wages are efforts to prolong the industrial depression.

Another thing which would help business take an upturn would be for everyone to pay his or her debts, or at least a part of them.

FIVE-MINUTE SERMONS

Is Life Worth Living?

"I hated life."—Ecc. 2:17.

More than 15,000 people in this country every year thus fall out with life, and proceed by one way or another to make an end of it.

The fight, precipitated by Sanderford, became a battle between Ferguson and Alford forces, with the former seeking to force the Alford administration into writing a record of increased taxes, increased state deficit, and no relief for taxpayers.

Still, 15,000 is an infinitesimal number compared with about 120,000,000 other people who do not commit suicide and who vote YES to the question at the head of this article, or who at least vote to go on with life.

It is a tragedy in any case, when one so far falls out with life as to hate it, and either to throw it away or to endure it as an unnecessary evil.

And it does not correct that fault, or make matters better—but rather infinitely worse—when one resolves to end his life. Let him resolve that he will make matters better, or more endurable, by changing his life.

The story is told of the man who had grown into the habit of complaining at his lot, making both himself and others miserable.

Vitality affecting the state's tax revenues in future was the decision of the U. S. circuit court of appeals at New Orleans this week, holding valid the intangible assets tax assessment of the state against pipeline companies.

State Wins Victory

With a government of unlimited powers the South would become an American Manchuko, ruled by bureaucrats foreign to its soil and probably foreign to the United States.

Let your Senator know that you are opposed to Roosevelt's court packing bill. If it passes Texas is at the mercy of the C.I.O.

MISS RATHER RESIGNS AS HOME EC INSTRUCTOR

Miss Ruth Rathert, home economics instructor in the local school system last year, resigned this week, Sept. J. H. Bass announced.

Miss Rathert's successor will be named at the next meeting of the school trustees.

NOBODY'S BUSINESS

Austin.—Controversy over the amount of the per capita school apportionment for 1937-38, which is certain to have important reverberations in the political campaigns of next summer, apparently was settled here when the automatic tax board overruled the state board of education emphatically.

With the Confederate pension and general fund levies fixed at the constitutional maximum, this makes a state tax rate of 49 cents the lowest in 21 years.

Political Aspects

The fight, precipitated by Sanderford, became a battle between Ferguson and Alford forces, with the former seeking to force the Alford administration into writing a record of increased taxes, increased state deficit, and no relief for taxpayers.

A grapefruit crop of more than three times that of 1936 was forecast for Texas in a report received by the Texas Planning Board from the U. S. Department of Agriculture.

Miss Merle Dingus and Miss Christine Burton spent Sunday in Seymour visiting Miss Rita Dingus.

have a disproportionately small share of this storage, with consumption steadily going up. With the bulk of storage being held by a few strong companies, Chairman Terrell pointed to the duty imposed upon the commission of protecting the consumer and added:

"It is not the policy of the commission to make oil scarce so as to make it high. We have slightly increased production to protect the consumer and replenish our depleted stocks."

Announcement of Lieut. Gov. Walter Woodul that he will run for attorney general and not for governor brought statements and reports from others indicating a crowded field in this race.

The fight, precipitated by Sanderford, became a battle between Ferguson and Alford forces, with the former seeking to force the Alford administration into writing a record of increased taxes, increased state deficit, and no relief for taxpayers.

Two young men in a kayak recently set some sort of a record by paddling from San Francisco's famous Embarcadero to Treasure Island, site of the 1939 Golden Gate International Exposition.

LET THE SPARKS FLY WHERE THEY WILL

The WEEKLY CONSTITUTIONAL

by MAX BERNS

The Federal Judiciary

What courts constitute the federal judiciary? Our Constitution specifies in Article III that "the judicial power of the United States shall be vested in one Supreme Court, and in such inferior courts as the Congress may from time to time ordain and establish."

There can be only one court that is Supreme and our Constitution provides for that. But as the number of inferior courts must be accommodated to the changing extent and population of the country, our Constitution leaves the establishing of these to Congress.

The Judiciary Act of 1789 established the first of such courts consisting of three Circuit Courts (now changed to Circuit Courts of Appeal) and thirteen District Courts.

to hear claims against the federal government, and the Customs Court which is empowered to hear appeals from the Court of Claims and appeals from decisions made by the patent office.

Move to El Campo Mr. and Mrs. J. G. McGlothlin and son, Charles Hilton, left for El Campo the first of the week where they will make their future home.

Advertisement for Community Natural Gas Co. with the headline 'A timely reminder' and sub-headline 'The tag end of summer warns that treacherous days of winter are on the way.' It includes text about gas stoves and a small illustration of a gas stove.

L119

FRIDAY, THE THIRTEENTH!

The Date May Be a Hoodoo for Some West Texans, But It's Tops for the West Texas Press Gang

Snyder, July 29.—The newspapermen and business program will be ready by late July.

Over at Sweetwater, the playground of West Texas, members and guests of the West Texas Press Association will add Friday the Thirteenth to their list of smashed superstitions.

It is on this late-summer date that at least 125 delegates from an area as large as several Eastern states will gather an orgy of recreation, business and conviviality that is popularly known as their annual convention.

This year, when their private coffers are somewhat more bulky than in several sessions, the Association membership has definitely demanded three things of its 1937 convention.

1.—Go strong on recreation, entertainment, and "just mixing with the boys and girls."

2.—Make the business programs pungent and brief.

3.—Use only honest-to-gosh newspapermen and women or their direct accessories on the program the best newspaper speakers that can be secured.

CONNALLY HOT OIL LAW SHOWS PROFIT OVER COST OPERATION

Government Income Is Near Million For Year 1936

(Reprinted from The Capitol Daily, June 24, 1937.)

The Connally "Hot Oil" Act, Public Law No. 145, which was extended for two more years when President Roosevelt signed it on June 14, is one of the few New Deal statutes to yield a profit over administration costs.

The expense of administering the Act is covered by excise taxes levied on oil production and refining. For the fiscal year 1936, these taxes amounted to \$1,237,000. Enforcement on the other hand, cost the government only about \$300,000 during that same period.

The Supreme Court first rapped New Deal knuckles by declaring unconstitutional the "hot oil" provisions of the NIRA. In less than two months after the Court's decision Congress replaced the invalidated NIRA section with the Connally Act.

"This section 9 (c)" the Supreme Court had said, in holding the NIRA provisions unconstitutional as an unwarranted surrender of Congressional powers, "gives the President an unlimited authority to determine the policy and lay down the prohibition, or not to lay it down, as he may see fit."

Under the Connally Act, the President has no such authority. Congress, after defining the term, declared that "contraband oil" may not be shipped in interstate commerce. The President was given authority merely to carry out and enforce the Congressional prohibition.

Like other New Deal legislation, the Connally Act was enacted upon an emergency basis and, by its terms, was due to expire June 16 of this year. The problem before Congress was whether the control under that Act should be made permanent or continued upon a temporary basis.

Laughing Around the World

With IRVIN S. COBB

Working by the Time Card

By IRVIN S. COBB

INDIANAPOLIS fairly radiates interurban car lines. From Indiana's capital city, in all directions, electric railroads carry Hoosiers to and from isolated farms and towns.

men of these lines mainly are products of the farms and graduate to these jobs. Everybody along the line knows them by their first name; their passengers very often are kinfolk.

The "Limited" for Lafayette had cleared the suburbs of the city and was running fancy-free through the corn fields of Boone County. The conductor was busy collecting fares, but for once in his life he had little to say and that little was said with chin raised and lips but partly opened.

17 STATE FIRMS FAILED IN JUNE

Austin, Texas.—Seventeen business houses failed in Texas during June, which represents an increase over the preceding month and over the corresponding period last year. It is shown by compilations of the University of Texas Bureau of Business Research. Reports from Dun and Bradstreet, Inc., show a total of seventeen failures in June, against eight in May and fourteen in June, 1936—increases of 112.5 per cent and 21.4 per cent respectively.

Approximately 50 to 60 percent of the 26,545 acres in Lubbock county on which contour and terracing lines were run by NYA boys would never have been reached this year had it not been for the help of these youths.

REDECORATING PALACE CAFE

George Keene, proprietor of the Palace Cafe, is redecorating the front of this business house this week.

The front of the structure has been painted a deep green and a white lattice work has been added to give the place an inviting appearance to cafe goers.

Keene will repaint and redecorate the interior of the business soon, he stated to the Times.

BROACH ESTATE PAINTING BUILDINGS HERE

Another part of the Munday business district took on a brighter appearance during the past week with the completion of re-painting the awnings and fronts of the buildings.

The Broach Estate buildings house the Tiner Drug, Haney Grocery, Coffee Cafe, and the Broach Implement Company. The building now standing vacant is being repaired and renovated throughout and has been rented to a new concern which will open for business here in the near future.

17 STATE FIRMS FAILED IN JUNE

A National Youth Administration work project at Stevens Park in Dallas which provides for the construction of a caddy house, erosion checks and retaining walls, five stone bridges, three tree shelters, a storm sewer, 345 feet of terrazzo walks, and 3,250 square yards of asphalt pavement has been approved.

YOUTH GENUINELY INTERESTED IN FARMING

Youths genuinely interested in farming who want to work on a project at one Texas agricultural school this summer and attend special agricultural courses may communicate with District NYA offices at Marshall, Dallas, Houston, Fort Worth, Waco, Austin, San Antonio, Amarillo, Lubbock, or San Angelo.

Hospital Patients

Patients who have entered the Knox county hospital for medical treatment and surgery this week are: Friday, Mrs. W. M. Trimmix.

O'Brien; Sunday, Mrs. J. N. Ballard, Rochester; Monday, Mrs. L. W. West, Benjamin; Mrs. A. A. Dunlap; Tuesday, Mrs. J. G. Pulte, Benjamin; Matt Ivey, Knox City.

Patients who had entered the hospital previously to this week are: Mrs. R. R. Rouse; Mrs. R. D. Merchant, Haskell, Mrs. A. A. Parker, Knox City.

Land is Donated To State College

El Paso Texas.—The College of Mines and Metallurgy here, a branch of the University of Texas, has been given one hundred and fifty acres of land adjoining the campus, Dr. D. M. Wiggins, president of the College, has announced.

The donor is the American Smelting and Refining Company the gift having been made through its El Paso manager, Brent Rickard.

The land is just north of the College of Mines athletic stadium and will be improved within short time, Dr. Wiggins said. Acceptance has been made by the Board of Regents of the University.

Mr. and Mrs. Wade Mahan spent Sunday in Abilene.

Here Are Some Ideas of the Pittsburger About  
**Flaming Youth, Taxes and Credit**

Yes, sir, I see in the paper where a Oklahoma man 92 years old is father of a new born son. Atta boy! And its just been a few years ago that a 87 year old kid named Hinderburg was elected President of Germany. And still there is a lot of saps over the Country who thinks this is the age of flamin youth altogether and that all that is worthwhile is being done by the kid crowd.

I am for the youngsters—God bless their hearts—for they make it worth tryin to keep on livin and lovin em and worryin about em and tryin to pay their bills, etc., but they ain't the whole works by a long shot.

**Lettuce Sandwiches**

This well known and much cussed and discussed depression, among other things, has knocked the turn-the-country-over to the youth idear into a cocked hat. It has also cured a heap of other silly fads and idears like lettuce sandwiches and twin beds, and has got folks back to the sound basis of sow-bosom and turnip greens. It has cured more cases of indigestion and swell-head than all the doctors of the country could do.

It seems tho that ever generation has to learn its own lesson in the bitter but effective School of Experience. We just won't learn from others. It ain't no wonder that man is a superior creature. He isthe only animal that improves (?) fas enuff for each generation to be ashamed of the old one. And a lot of us does the dumb act and makes a silly goose of ourselves trying to ape the younger set and attemptin to play the perpetual youth stunt.

When us present day fathers and mothers was kids we counted the distance from town to where we lived as 10 or 20 miles or whatever it was, but in the present day if we ask a modern youngster how far he lives from town he will tell you it is 30 filling stations, 12 sandwich shacks, 8 hotdog stands, and 238 billboards. If you live in town these days, instid of it being 4 blocks to the picture show it is 3 gas stations, 2 soda fountains and 1 candy store.

**What is a License?**

In our kid days when you spoke of a "license" everybody knew you meant a marriage license because that was all the sort of license there was. But now when you mention "license" it may mean car, hunter, fishing, dealers, campfire, peddlers, doctors, food-handlers, drivers, preachers, embalmers, teachers, plumbers, aviators,—or marriage. And it takes a whole raft of tax-supported bureaus, commissions, officers and inspectors to see after all these different sorts of licenses. This, and too many conflictin and over-lappin governments and officers is one of the present troubles and one of the main reasons we hear so much about heavy, unbearable taxation.

And when you mention taxes these days you have mentioned about the livest subject goin. The word "taxation" is used these days nearly as much as "depression." It is a subject of general interest because everybody is more or less a payer (or should be) of taxes. But there is two things that everybody should remember (but don't) about taxes. The first one is that we—the taxpayers—have voted about three-fourths of the taxes on ourselves. We done it by big majorities for such things as schools and we would do it again if it was to do over.

The second point is that tax money, for the greater part, is not throwed away, like throwin it in the sea or sunthin of the sort. Tax money circulates and everybody in both town and country gets a little of it back now and then. Our Federal and State governments hires a million workers but these million men and women supports homes and families and they buy food and clothin and furniture and gas and medicine and fuel and hundreds of other things just like the rest of us. The money they get soon finds its way back to the merchant, the farmer, the manufacturer and others. But taxes are goin to come down. They must. But it ought to be done sensibly.

**Positions vs Jobs**

We must remember that the tax business ain't the only big problem to be met. There is a heap of other big questions hinedin and breakin up of the rules of old man "Hard Times." One of the many difficulties in the way is that there is still lots of peepul lookin for positions when there ain't nothin but

jobs to offer. There is too many who can't afford beef steak but are still too proud to eat rabbit. They are still tryin to live on a basis where their appetite says "champagne" but their pocketbook says "beer." The main, big truble about the world when it was flyin so high was that it didn't give any thought whatever to the landin problem. Now, a heap of us is cryin because prosperity don't come on around the corner instid of us goin on around the corner ourselves and huntin for it. It is a fact that the Lord gives the bird its food, but He don't throw it in their nests. They have to go out and hunt and work for it.

There is a whole lot of fellers who wouldn't mind workin if it didn't take up so much of their time, and if they could do the job without having to get up before breakfast. There ain't very many things this country needs more rite now than somethin to take the shine off the seat of the trousers. Here lately you hear a heap about how tight credit is and how hard it is to get anybody to risk you for anything. Now, it may be that credit ain't uniform and equal for everybody and that there is lots of peepul who is worthy of credit who gets turned down, but just the same it is true that credit never was easier to get for a great many folks.

**Some Never Pay**

There is a world of fellers that a little inquirin about would reveal ain't worthy of credit for 5 cents worth of dog meat, but in spite of this they buy and buy and buy whatever their hearts may desire—and never, never, never pay. There is always a gang of dead-beats in every town that sails around on Courtesy Card gas, while there is another bunch who issues hot checks like handin out circulars. A short time ago a filling station manager told me about a bill that amounted to nearly two hundred dollars that was owed by a lounge-lizard that I would not risk for 15 cents unless I wanted to give away that much. Another bill I saw was for a still larger amount at a grocery store and it was owed by a feller who is notorious for bein bad pay. Still folks talk about credit bein hard to get!

Well, whenever we read and hear all the different cures and remedies that are bein proposed by the different supposed-to-be-smart men of the country it gets the average everyday man about as bad mixed up and confused as the young preacher who was tryin to preach his first sermon and got his Scripture quotations terribly crossed up. He said, "Yes, my friends, Jesus cast out the sick, healed the dead, and raised the devil."

Our leaders all seem to be so puzzled or lackin in understandin and co-operation until the remin us of the feller who swallowed the egg. He was afraid to move for fear it would break and he was scared to sit still for fear it would hatch. But there is a few things ever good citizen can do and feel safe and sure of his ground. We can do our level best with the light that is before us. We can keep our feet on the ground and use common horse sense. We can work together on advertisin great old Texas and in developin her wonderful resources and promotin her many interests. We can so live that when we see the end of this old world looking us rite square in the face we won't have to shift gears or grab for the emergency brakes.—Les Akers in "East Texas."

**CARD OF APPRECIATION**

We wish to express our deepest thanks and appreciation to our many friends and neighbors for their kind deeds and thoughts, and especially for work on our crops.

**Farm Program Submitted By Marvin Jones**

By MARVIN JONES, of Texas  
Chairman, House Committee on Agriculture

I have submitted to the Committee on Agriculture suggested provisions for general farm legislation. The measure containing these provisions is based largely on suggestions made by farmers and farm groups and by Committee members. Its major features are as follows:

1. It continues the present Soil Conservation Act as a basis. The present program has worked well and should not be abandoned.
  2. Its declared objective is to establish and maintain so far as is practicable parity prices for all farm commodities and parity income for all farmers, as well as to continue soil conservation.
  3. It provides an ever-normal granary, warehouse, or storage reserve for the five major non-perishable commodities which are ordinarily produced in surplus quantities. This would benefit both producer and consumer.
  4. The measure provides a graduated scale of soil conservation and benefit payments so that there will be a reduction in payments to large operators.
  5. It provides a fund for search for new uses and new markets for farm commodities and the products thereof, including a research laboratory for each major producing area.
  6. Provision is also made for the use of a fund for the purpose of disposing of our surplus commodities both at home and abroad. This would tend to promote world trade, in which the entire nation is interested.
  7. Another feature authorizes the Secretary of Agriculture to file application in behalf of farmers or cooperative organizations of farmers for adjustment in freight rate schedules. The freight rates on many farm commodities are out of proportion to the general rate schedules and absorb too large a part of the value of farm production.
  8. As to certain crops a market control provision as a further safeguard is provided.
- The committee is considering these suggestions together with the different suggestions made by the various farm groups, the three major farm groups having submitted or indorsed different measures. From these it is hoped that thoroughly practical and effective general farm measure may be worked out.

**NOTICE OF SHERIFF'S SALE**  
The State of Texas  
County of Knox

Notice is hereby given that by virtue of a certain Execution issued out of the Honorable Justice Court of Precinct 6, Knox County, on the 8th day of July, 1937, by G. M. Bryan, Justice of the Peace of said Justice Precinct No. 6, Knox County, Texas, for the sum of One Hundred Ninety and no-100 (\$190.00) Dollars and costs of suit, under a judgement in favor of J. C. Borden in a certain cause in said Court, No. 1035 and styled J. C. Borden vs. J. F. Cowser, placed in my hands for service, I, Lewis Cartwright as Sheriff of Knox County Texas, did, on the 10th day of July, 1937, levy on certain Real Estate situated in Knox County, Texas, described as follows to-wit: Being a part of Section No. 99, Block No. 2, D. & W. Ry. Company Survey, and partly out of Section 120, Block 45, H. & T. C. Ry. Co., Survey, described particularly as follows: BEGINNING at a point in the East Line of said Section No. 99, Block No. 2, D. & W. Ry. Company Survey, 246.3 varas South from its Northeast Corner, and being the Northeast corner of the Evans tract; THENCE North with said East line of said Section 246.3 varas to Northeast corner of said North half of Section No. 99; THENCE North 7 deg. 38' East 292 varas to point in South line of Section No. 23, Block No. 2, D. & W. Ry. Company Survey;

THENCE West 9547 varas passing the Southwest Corner of said Section No. 23, Block 2, D. & W. Ry. Company Survey, to a point in South Line of Section 128, Block 45, H. & T. C. Ry. Company Survey, for the Northwest corner of this tract; THENCE South passing the common lines of Section No. 120, Block 45, H. & T. C. Ry. Company and Section No. 99, Block 2, D. & W. Ry. Company Survey, a total of 535.5 varas to a stake, the southwest corner of this tract; THENCE East 915.1 varas to the place of beginning, and containing 89.4 acres of land, more or less, and levied upon as the property of Tuesday in September, 1937, the same being the 7th day of said month, at the courthouse door of Knox County, in the City of Benjamin, Texas, between the hours of 10 A.M., and 4 P.M., by virtue of said levy and said execution I will sell said above described Real Estate at public vendue, for cash, to the highest bidder, as the property of said J. F. Cowser.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in The Munday Times, newspaper published in Knox County.

Witness my hand, this 10th day of July, 1937.

Louis Cartwright,  
Sheriff Knox County, Texas  
By Orvel Capehart, Deputy

San Antonio has reduced its number of deaths from diphtheria almost 50 per cent since 1935, according to the Texas Planning Board's public health committee which reports that only 13 persons

succumbed from diphtheria in San Antonio in 1936 as compared to 23 persons in 1935.

People and Spots in the Late News

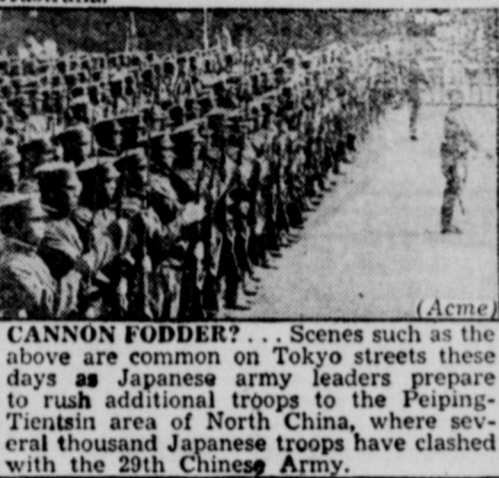

(Wide World) NATION'S LOSS... Democratic Senate Leader Joseph T. Robinson, staunch ally of President Roosevelt's policies, whose death in Washington at the age of 65 is mourned not only by New Deal partisans, but leaders in all walks of life.

(Miami News Service) A NEW TRICK in evening glamour is introduced by this summer vacationist at Miami, Fla. It is a mantilla-type veil in hyacinth blue chiffon to match her evening gown.

(Acme) CANNON FODDER?... Scenes such as the above are common on Tokyo streets these days as Japanese army leaders prepare to rush additional troops to the Peiping-Tientsin area of North China, where several thousand Japanese troops have clashed with the 29th Chinese Army.

(Acme) KING OF GOLF... Henry Cotton, tall, aloof English pro, annexed this title and \$2,000 when he defeated Denny Shute, United States P. G. A. titleholder, in single combat following Cotton's victory in the British Open at Carnoustie.

(Acme) LOUISIANA tobacco queen... Doris Martin, attired in tobacco products, is belle of the harvest of Perique tobacco, grown only in Louisiana.

METHODIST CHURCH

The first Sunday of each month is designated as Communion Day. We appreciate the increased attendance for this special service in the past and anticipate its continued interest. It is a fine time for extending courtesies to the aged people in assisting them to this service as they prefer this to most other services they might attend.

The evening services are held on the lawn. Chairs are placed and the cooled air makes the service very enjoyable. Late comers have held the services off in its beginning until 8:30. The services will start promptly at that hour. Come and bring a friend with you. I hope you have been attending the revival meeting being held at the Baptist church. If not there are a few more services in which you are privileged to attend. They will appreciate having you and it deepens the fine spirit existing. Our midweek service and evening service last Sunday was called in but the regular services will be held this Sunday morning and evening.

We appreciate the fine fellowship and friendly attitude existing with those attending but there are others that would be just as interested in the church if once they were induced to become regular attendants. Why not bring someone along with you and let them form the habit? Andrew found Peter and Peter became a valuable man to the Kingdom. This may be your part in the Christian service as finding Peter was Andrew's big contribution to the "Christian Life."

Diphtheria in '36 351 Deaths From

Texas loses more than three hundred of its children each year from one preventable cause, according to State Health Officer, Geo. W. Cox. Diphtheria, that ever present menace to children, was responsible in 1936 for 351 deaths.

No parent would allow his child to run in front of trains or automobiles, but many allow them to run the danger of contracting diphtheria. Prevention of diphtheria in children is a simple matter of inoculation with toxoid.

If you have a child six months old or more, take him to your family physician and ask to have a Shick test made to determine whether the child is susceptible or immune to diphtheria—for 75 per cent of children under twelve years of age are susceptible.

Information that as high as ninety per cent of all children under twelve are susceptible was gained from Shick tests carried out on thousands of children during the past decade, and indicates that young children should receive immunizing treatment against diphtheria without a preliminary Shick test. Such a test should, however, be carried out six months after preventive treatment, to make certain that immunity has been established.

In older children and adults, a preliminary Shick test is advisable, since immunity may already be present. Diphtheria immunization is accomplished by the injection of toxoid. Your doctor can tell if the immunization by giving you the Shick test four to six months after the last treatment of Toxoid. It takes that long for protection to develop.

There is no guess work about toxoid, it is a safe and proven preventive. The wise and cautious parent will take his child to the family doctor now, before school opens, and have him protected against the danger of contracting diphtheria, by immunization with toxoid.

Court Reform

On Thursday, the Senate Judiciary Committee voted to instruct Senator Logan, who was in charge of Senator Robinson's compromise court bill to make the motion in the Senate that this measure be re-referred to the Senate Judiciary Committee, with in-

structions that this measure be reported back to the Senate within 10 days, with amendments eliminating any change in the Supreme Court. This motion of Senator Logan carried by a vote of 70 to 20. The press has heralded this vote as the first major defeat of the President this session on a major subject. The Court question is not yet settled. The House has yet to pass upon this question and also the people of the United States.

It is believed the President will have more to say on this subject in the near future. It is known that the House will attempt to materially amend this measure and yet salvage worth while judicial reform of the Supreme Court on this legislation. In any event, the people are entitled to know how their Senators and Congressmen will vote upon real judicial reform. The decisions of the Supreme Court for more than 50 years, as Thomas Jefferson said regarding his fears concerning the Federal Judiciary: "The great object of my fear is the Federal Judiciary. That body like gravity, everlastingly, with noiseless foot, and unalarming advance, gaining ground step by step and holding what it gains is engulfing insidiously the special government into the jaws of that which feeds them."

Certainly their decisions nullify Congress' right to enact income tax laws after Bryan and other progressives fought through the 16th amendment to tax income under the provision:

"That Congress shall tax income from whatever source derived."

They have practically nullified the effect of this amendment and have exempted income from tax exempt securities, stock dividends, their own salaries and all Circuit and Federal District Judges' salaries and all state, city and municipal employees' salaries together with many other exemptions they have specifically made, through their decisions rendered. These decisions on taxation alone, it has been conservatively estimated, have cost the American people in loss of revenue to the Government, more than \$20,000,000,000. These decisions exempting great wealth, have thus forced the Congress to find additional revenues through sales taxes which are of course, not based upon ability to pay but upon

the consumption of goods used.

Many advocate a Constitutional amendment but as shown by the Court's decisions, the constitution is what these judges say it is and as the edd-judge on the court has demonstrated the past term of court when he changes his mind he changes the Constitution. The rights of 130,000,000 people should not be forced to rest on any such autocratic power. The many decisions I have previously quoted and have forwarded you in a recent speech shows clearly how easy the Court has nullified the income tax amendment and other provisions of the Constitution, and as well said by Thomas Jefferson. "Our case is the more desperate as the attempt to make the law plainer by amendment is only throwing out new amendments for sophistry." It is hoped that this Congress will yet be able to enact worthwhile legislation on judicial reform.

Dictatorship

The writer spoke last Monday and analyzed the real dictatorship in America, and he pointed out that less than 300 people largely own and control the moulding of public opinion in the metropolitan press, the three largest radio chains—NBC, CBS, and Mutual—and the eight sound motion picture companies. This is largely brought about because of their control of patents and cross licensing agreements based on these patents. Farm Interest Rates On Thursday the Senate by a vote of 70 to 19, overrode the President's veto and extended the

3 1-2 per cent interest rates on farm loans for one year, and commissioner loans to 4 per cent for two years. The House had previously passed this legislation by a vote of 260 to 98.

Senator Barkley Majority Leader Wednesday, the Senate in Democratic caucus, elected Senator Barkley over Senator Harrison by a vote of 38 to 37 to succeed the late Senator Robinson as Majority leader. Senator Barkley's voting record shows better support for Administration measures than Senator Harrison's.

Calendar

The writer circulated a petition to call a Democratic Caucus this week to determine the future policies of this Congress on legislation pending. It is now believed that this Congress can yet adjourn by September 1st, and enact important legislation pending, including Court Reform, Farm, Wage and Hour, Housing, and Tax Loopholes. The fight is on!

AUGUST GAMES PAN-AMERICAN FEATURE BOXING

Tourney Will Be Held August 12, 13, 14 At Cotton Bowl

Dallas, July 29.—With the first unit of Pan American Games acclaimed as an outstanding success, the Pan American Exposition's sports department this week turned attention to the events scheduled for August.

Tops on the program for next month will be the second unit of the Games—an international boxing tournament to be held August 12, 13, 14 at the Cotton Bowl.

Already on their way to the United States are 16 South American champions from Brazil, Argentina and Uruguay. They will arrive in New York July 28 and will be in Dallas a few days later. Meeting this group in fistic combat here will be an all-star squad of 16 U. S. boxers with a few Central Americans tossed in.

There will be 10 bouts on each of the two first night and eight championship bouts on the final night. Except for ringside seats, the boxing show, like the thrilling track and field soccer meet last week, will be free to Exposition itors.

Other sports events are on the August program. A national invitation wrestling tournament will be held at the amphitheatre August 6-7. Already listed as entries are several 1936 Olympic participants and national champions. A Pan American motorboat race regatta is scheduled for August 8 at White Rock Lake. The Pan American lake. The Pan American skeet tournament will be held August 14-15.

Approximately 50,000 people attended the four nights of the Pan American games recently. The 25,000 in the stands on the final night were rewarded by witnessing the breaking of a world record by Ol' John Woodruff, Pittsburgh Negro, in the 800 meters.

Return From Vacation

Miss Maurine Bevers of this city together with her sister, Mrs. Norman Koenig and Mr. Koenig of Wichita Falls, have returned from a vacation spent at Galveston.

TINER'S COLUMN

A Negro preacher concluded his sermon on "Wisdom" with the following statement: "It ain't the things you don't know what gets you into trouble. It's the things you know for sure what ain't so!"

Gly-Cas, a scientific compound of pure vegetable ingredients with glycerine, a box containing thirty-five tablets for \$1.00.

Doctors are now testing the theory that people might go to sleep twice as fast if they would count sheep jumping over a fence in pairs.

"Syrup Hypophosphites Compound" is a combination of the phosphites of potassium, iron, manganese, and calcium with the tonic alkaloids, quinine and strychnine, \$1.00.

The possibility also is being tested that people who have difficulty in staying awake at night might find it easier if they would count sheep jumping over a fence backwards.

DeWitt's "Compound Iron Tonic" in tablet form increases the reserve stock of iron and tends to improve the nutrition of the body. Persons suffering from a nervous dyspepsia will find this stomach tonic will improve their appetite and digestion. \$1.00.

friend of mine once asked his negro "Do you believe in prayer?" a servant.

"Yes, suh, Boss," was the quick reply. "Do you say your prayers very day?" "Yes, suh. I sure does."

"Well, Joe, does God answer all your prayers?" "Yes suh, Boss. He answers one way or de other."

That good old Banner Ice Cream is now being sold at the most popular prices—Pints, 10c, 18c, or 20c.

Your prescriptions carefully compounded! TINER DRUG COMPANY Munday, Texas Mr. and Mrs. W. H. Chapman, Greenville, Texas, visited friends and relatives in Munday the past week end.

DECLINE NOTED NEW CAR SALES

Austin, Texas.—Fewer new automobiles were sold in Texas last month than in June, 1936, although the number sold was somewhat higher than that of the preceding month, according to the University of Texas Bureau of Business Research. Registrations in fifteen representative Texas counties totaled 6,776 in June, against 6,012 in May and 8,458 in June 1936—an increase of 12.7 and a decrease of 19.8 per cent respectively.

"The largest increase over the preceding month and the greatest decline from June last year occurred in the lowest price group," the Bureau's report said. "The lower intermediate and highest price groups showed increases over both comparable sales."

"Aggregate sales in the fifteen counties during the first half year were 37,802, a decline of 3.8 per cent from the corresponding period a year ago."

98 Corporation Charters Granted

Austin, Texas.—New corporation charters granted in Texas in June numbered 98 and capitalization totaled \$1,573,000 according to a report of the University of Texas Bureau of Business Research. Reports from the office of Secretary of State show a decline in numbers of charters of 40.6 per cent from May and 33.3 per cent from June last year, the bureau's statement said. Capitalization declined 43.1 per cent from the preceding month and 27.2 per cent from June last year. During the first six months of the year 810 new corporations were chartered, a decline of 11.5 per cent from the 915 chartered during the corresponding period a year ago. Aggregate capitalization of these firms was \$12,826,000, an increase of 4 per cent over the first half of 1936.

Forty per cent of the students on National Youth Administration part-time Student Aid jobs at Texas State college for Women during the last school year were on the college honor roll, while only 18 per cent of the entire student body scored grades that high, W. M. Lovlace, business manager, reported to J. C. Kellam, Texas Youth Director.

**VISIT US**  
In Our  
**New Home**  
We extend a very special invitation to our many friends and customers to pay us a visit in our new home, located in the former Mayes Hardware stand.  
Our larger quarters enable us to render you a better and more complete service in shelf hardware, welding and blacksmithing.  
We will continue to handle the well known J. I. Case farm machinery.
