Freak Punt Paves Way For 6-0 Lueders Win Friday; Circuit Tilt

Moguls Have Two Straight Open Dates Before Entertaining Mattson Eleven Here October 15; New Men Expected Soon

Penalties coupled with a poor punt from the toe of Hollis Barnicoat paved the way for a touchdown by Lueders newly organized Hornets and a 6-0 victory on the Hornet grid last Friday afternoon.

Both teams played fairly even football through most of the game, with Munday taking the lead in offensive play on more occasions than Lueders.

Twice Munday started drives that seemed headed to pay-dirt, only to bog their own drives down by drawing penalties of 15 yards. Barnicoat led the offensive play of the Moguls but was handicapped greatly by the soft field that had just been worked over.

In the third period the Moguls made a first down and were well toward another when a 15 yard penalty was drawn for holding. Barnicoat dropped back to punt and the ball sailed straight up falling back towards the goal. Lueders covered the ball on the five yard line.

Munday held the Hornets, throwing ball jugglers for losses three consecutive times, but on the last down Willingham slithered through the Munday line and managed to fall over the goal when he was pulled down by Mogul tacklers. Conversion from placement was wide.

Munday scored 8 first downs to 6 for Lueders, gained 101 yards from scrimmage to 85 for Lueders. Munday lost 9 yards to 15 for Lueders and received 50 yards in penalties to 20 for the Hornets. Passes netted the Moguls 10 yards and 60 yards for Lueders on two completions.

The Moguls have an open date this week, and Coach Cobb is working the boys lightly. New men are expected to fill in two of the lighter boys in the line by next game.

Atkeison's Food Store Purchases Farmers Produce

In a business transaction consummated Tuesday, Atkeison's Food Store became the owner of the Farmers Produce concern across the street from the Ford Motor company here, Dick Atkeison, manager of the food store, announced.

Atkeison recently added a produce department to his large grocery firm, and the purchase of the Farmers Produce was made to care for the large volume of business. "We can carry on our produce business on a larger scale, and care for our increasing volume of business," Atkeison stated.

Atkeison pointed out that his firm was in the produce business to stay, and that the highest possible prices will be paid for all produce, at all times. See the Atkeison Food Store advertisement on page eight, this section, for complete announcement.

Laws on Highway In Regard Tractors Given by Nesbitt

Farmers are not required to have license plates on farm tractors or lights, providing they do not drive them at night, Chief of Police Tug Nesbitt announced today.

Many farmers of this section have made inquiries regarding the need of license plates and lights, in view of the drive to eliminate highway hazards brought about by unlighted tractors and trailers.

Many farmers have purchased reflectors and lights for their tractors and trailers in response to the plea of local and state officers to comply with state laws.

"Good lights are the cheapest insurance obtainable," Nesbitt stated. Information regarding highway laws and regulations will be gladly given by the local police force.

Paul Hangerford and wife of Walters, spent Monday with A. R. Montgomery, field man of the State Employment Office.

It is not necessary to tell of the high rank that Betty Crocker recipes command in the kitchens of American homes.

9-6 WIN GIVES HASKELL TITLE WICHITA LOOP

Pittman Hurls Indians League Crown Over Mogul Nine

THIRD STRAIGHT INDIAN VICTORY

Smith Allows One Hit In Eight Innings Relief Role

Haskell retained the championship of the Wichita Valley baseball league for the 3rd consecutive year when they defeated Munday at the Haskell field last Sunday 9-6 to make a clean sweep of the series. The game was weird in one respect and for the most part was an excellently played game. The first inning found Haskell blasting Red Nichols' offerings all over the lot to shove over nine men. Nichols was relieved by Smith, who retired the side without further damage.

The first farms saw the only scoring for the Indians. Smith allowed but one single for the remaining eight innings to turn in one of the outstanding hurling performances of the season.

In the second frame Munday suddenly jumped all over Archie Pittman and shoved over six runs. Like Haskell, they failed to score again. Pittman was in trouble several innings but managed to pitch out of each hole.

Pittman was the "iron man" of the series. He hurled the Indians into the title series by beating Hamlin's Oilers in two successive games, then turned on Munday for three straight wins and the crown. Pittman, oddly enough, was only a fair hurler during the regular playing season, and even though he was hit hard, he managed to go the full route of each game.

Lions Club Has Regular Meeting Wednesday Noon

The Munday Lions Club met in regular weekly noon luncheon Wednesday at the Eiland Hotel with 16 members present.

The entire hour following the luncheon was devoted to a business meeting in which a round table discussion was heard concerning the major club objective for the year's work. The committee appointed to gather data on securing a lighted football field for Munday high school was retained for further information to be presented to the club at a future date.

Committee chairmen were read and each will begin discharging his duties for future work in the club. Dr. Bass was put in charge of the program for next Wednesday, at which time a talk will be given on the constitution and by-laws of Lions International.

Mrs. O. C. Fritz, Abilene, and Mr. and Mrs. H. M. McCelvy and Mr. and Mrs. Hugh Jones and family visited in the John Ed Jones home the first of the week.

Increased Water Minimum for Summer Months Will be Lifted October First

The summer water minimum, which is increased during the summer months without additional cost to consumers was lifted by the city council this week, Riley B. Harrell, city secretary, announced.

During the past summer the minimum was raised from the regular 6,000 gallon limit to 10,000 gallons

HE'S WELL NOW!

Just 11 years ago John DeLee above, appeared destined to go through life as a hunchback. However, through proper care at the Scottish Rite hospital he has been saved a future as a cripple. The Scottish Rite will hold a free clinic for crippled children soon. See story on back page, section two.

BETTY CROCKER RECIPE SERVICE TIMES FEATURE

To Appear Weekly in Columns of Times In Future

In furthering efforts to give readers of the Munday Times a bigger and better newspaper, THE MUNDAY TIMES is pleased to announce that the famous recipes and menus of Betty Crocker will appear weekly in the Times, the first appearing this week.

A \$200,000 home economies research bureau, which has been maintained and respected for more than 15 years, tries, tests, and experiments with all recipes before they are given out for public use.

This huge laboratory records and keeps complete records of why different preparations and foods will not cook for some ladies, enabling this institution to answer queries of American housewives. Each year, incidentally, more than 1,000,000 women ask for information and recipes from the Betty Crocker service.

Weeks menu prepared by Betty Crocker, may be obtained each Monday by women readers of the Times from this office free. We urge that you take advantage of this opportunity to eliminate from your mind the worry of "what to prepare for the next meal."

Leg Injured In Auto Crash Here

Joe Hernandez, Mexican, received three major breaks in the right leg, when a machine driven by him crashed into a car driven by the son of John Little.

It is reported that the Mexicans were driving without lights when the accident occurred.

Hernandez was taken to the Knox County hospital at Knox City where he received medical attention.

No arrests have been made to date, according to officers.

MOFFETT LEAVES FOR AUSTIN AND SPECIAL SESSION

Special Session Called To Raise Revenue For New Acts

SESSION OPENED MONDAY AT NOON

Opinion of This District Invited By Representative

Representative George Moffett of Chillicothe left for Austin Sunday night to be present at the convening of a special session of the Texas Legislature, which was called to meet at noon, Monday, September 27. Before leaving for Austin Representative Moffett sent the Munday Times the following statement:

"The Governor has called the Legislature into special session for the purpose of raising several million dollars in new taxes. I do not think the Legislature will levy as many new taxes as the Governor desires, as most of the members are opposed to additional taxation; however, it is my judgment that more revenue is needed to care for the Old Age Pension fund, and that the Legislature should take care of the two constitutional amendments voted by the people about a month ago, for the vote was very definite on these amendments.

"A strong movement is getting under way, headed by Senator Holbrook of Galveston, to induce the legislature to pass a very strict law relating the collection of delinquent property taxes. As West Texas has received very low prices for farm products within the past few years, and as we had several record-breaking droughts, I do not favor the bill proposed by Senator Holbrook.

"There is much division of opinion of taxation, and therefore I would welcome an expression from the folks back home on these matters at an early date," Moffett stated.

O'Brien Man To Face Charge On Drunken Driving

J. W. LaDuke, O'Brien, faced charges of driving while intoxicated following an accident in which the vehicle driven by LaDuke, run down the two-year old child of Mr. and Mrs. Charlie Hill of O'Brien last Friday evening.

The small child was taken to the Knox County hospital at Knox City where medical aid was given. Hospital attendants reported that her condition was not considered as dangerous.

LaDuke and Elbert Griffin, occupants of the cars, were arrested following the accident by deputy sheriff Mart Clifton and were placed in the county jail of Haskell county. It was alleged LaDuke was driving the machine at the time of the accident. His bond was placed at \$1,000.

Griffin was fined \$25 on a charge of drunkenness, but was later re-arrested when the check he gave for payment of the fine proved worthless.

Rexall Store Runs Four Page Section In Today's Issue

A four page section appearing in this issue of the Munday Times has been devoted to the Rexall Drug Store, advertising different lines of merchandise featured at that store.

The store, managed by A. L. Smith, handles a complete line of Rexall drugs and preparations, along with other outstanding lines carried in that line of business.

RCA, Philco, and Sentinel Radios, Electrolux Servel refrigerators, both gas and kerosene, and many other electrical appliances are sold by the firm. It will pay you to read closely the advertisements in Section Two, of today's paper.

Accepts Position
Ben E. Harper, Quannah, has accepted a position doing special work with the Broach Implement Company. Mr. Harper began his new duties Monday.

Agricultural Program For '38 Is Announced

NEW DRY GOODS FIRM OPENED IN CITY LAST WEEK

R. L. Mankovsky Will Open the Globe Dry Goods Store Friday

R. L. Mankovsky opened the Globe Dry Goods Store in Munday last Friday in the building next to the Atkeison Food Store.

Mr. and Mrs. Mankovsky moved to Munday from Bryson, Texas, where they have operated a like firm for the past six months. Previous to their Bryson venture they had successfully operated a store in Italy, Texas, for the past 26 years.

Their stock had been closed out as far as possible before making the move, and the remnants together with a large shipment of new merchandise will be presented to the consumers in the Munday trade area.

The Mankovskys and their son have already moved to this city to make their new home. See their opening advertisement in this issue.

C. of C. Luncheon Held on Thursday Noon Terry Hotel

The Munday Chamber of Commerce met in the Terry Hotel lobby for their regular semi-monthly luncheon Thursday noon with 25 members present.

Committee reports were heard during most of the meeting and much business was passed by the organization, and several new committees were appointed.

The community banquet slated for Rhineland, at which time Mr. and Mrs. J. W. Zeissel will be awarded the silver plaque for Master Farmer awards by the Progressive Farmer, will be held October 14, Thursday night, at Rhineland community hall. Tickets will be sold for the affair to business men here within the next week. W. E. Braly and Leland Hannah are in charge of ticket sales.

Christmas lights, the new highway through Rhineland, Christmas tree, and street lighting were among the more important things discussed during the business meeting.

Witness Exposition
Bob Layne, Cecil Cooper, Bob Green, Jerry Cain, all of Munday, and Carl Stephens, Alton Caddell, and Welford Farmer, of Weinert were visitors to the Pan-American Exposition in Dallas the past weekend.

W. A. Baker and son, Pitzer Baker, were in Weinert attending to business matters recently.

West Texas Free Fair Opens October 4th For First Time in Seven Years

Abilene, Sept. 30—West Texas Free Fair opens shop once again Monday, October 4, for the first time since 1930 with a program of entertainment and exhibits outstripping any previous fair week in the years past.

Not just a county fair any longer, the entertainment decked program offers West Texas six days of fun, frolic, and above all a glimpse of this section's 1937 prosperity.

All available exhibit space, inside and outside buildings, has been contracted for, and much to officials' delight, the oldest building on the fair grounds, the Exhibitors building, has been opened to stem the demand for exhibit space.

To single out any one event of the West Texas Free Fair Week would not give credit to the other events. But the occasion expecting to attract state wide attention, the Texas Cotton Festival and Coronation of the Texas Cotton Queen and King Cotton, slated October 5 and 6, will probably lead the week's attendance record. Close behind comes the gigantic pageant, "Arabian Night," the championship rodeo, horse races, and countless exhibits of every description.

Twenty-four Texas cities and

Acree Goals for all Cash Crops Will be Set Up Under Plan

The 1938 Agricultural Conservation Program will set up acreage goals for cash crops which are smaller than the established bases, according to Geo. Slaughter, chairman of the Texas Agricultural Conservation Committee, who has recently returned from Washington, where representative farmers were called confer with AAA officials as to the program.

The 1938 program is in most respects quite similar to the 1936 and 1937 program, Slaughter said. The range program, developed during 1937, will be continued.

Chief differences in the new program from previous plans is the provision for national goals for major soil-depleting crops to provide adequate supplies for consumption and export, but such as to keep down burdensome surpluses, according to Slaughter. He explained that each state will be given its share of the national goal, and each county will be given its share of the state goal. The county goal will be distributed among the farmers of the county.

In 1938, the maximum payment for each producer will be calculated at the beginning of the crop year and the attainments of soil depleting and soil building goals will be set as conditions for full payment.

The division of payments between landlords and tenants will be the same as the division of the crops, Slaughter said.

The new program was hailed by Slaughter as by far the most uniform in application to all regions that has yet been developed. He stated that it is the plan of the Agricultural Adjustment Administration to inform each farmer as to the acreage in each of his crop goals before planting time in the spring of 1938.

WPA Sewing Room Moved to Larger Working Quarters

The Munday sewing room moved to larger quarters to comply with requirements of the WPA during the past week. The department, now housed in the old grade school building, was formerly situated in the City Hall.

The ladies occupied two small rooms in the city building, one on the first floor and another on the second floor. A third room was used for storage of completed garments.

The move was made when it was learned that the WPA would discontinue the sewing room here if adequate working space was not furnished the organization.

W. A. Baker and son, Pitzer Baker, were in Weinert attending to business matters recently.

OCTOBER TERM COURT CALLED NEXT MONDAY

District Court Opens Six Weeks Session At Benjamin

GRAND JURORS TO CONVENE MONDAY

County October Term To Open October 18; Docket Heavy

The October term of district court will open Monday at the Knox County courthouse it was announced today from the county seat.

Judge Isaac O. Newton, Seymour will preside over the coming session, hearing criminal cases first it was intimated. The grand jury will convene Monday morning and will hear witnesses and cases. It will probably take most of the week to select jurors.

The second Monday will more than likely start the first hearing. Civil cases will follow the criminal docket, which is reported to be reasonably heavy for this term.

The October term will be the last district session for the year, the next coming in February.

County Court Soon
Judge E. L. Covey announced today that the county court will start their October term Monday October 18, at Benjamin.

This, like the district court, will be the last called session for the year, the next coming in January.

The criminal docket is fairly heavy and the civil docket for the county session is heavier than usual.

Meeting Night of Boy Scouts is Set For Tuesday Night

At the regular meeting of the Munday Boy Scout troop on Monday night at the Methodist church, the troop decided to change the meeting night from Monday to Tuesday night. The hour for the meetings to be called to order was left unchanged, remaining at 7:30.

The troop will take their first over night hike Thursday night, October 7, when they go to the Brazos river. All Scouts that attend must have passed their tenderfoot tests, and have paid in their registration dues.

Field Representative Elliott of Wichita Falls was here Monday, and officially registered the troop, and announced that a Scout training school will probably be held in the near future for the Baylor-Knox district. The meetings will probably be held in Munday, Seymour, Benjamin and possibly a few other cities and towns in the district.

Fifteen Arrested During Past Week

Fifteen persons paid fines in Corporation Court over the week end and one paid a fine in justice of peace court, according to court records.

Eight of the fines were paid on charges of drunkenness and two paid fines for fighting. Matt Kreitz, Rhineland constable, made one arrest, and the remaining arrests were made by Chief of Police Tug Nesbitt and officer M. J. Franklin.

Six of the fines were paid for violation of traffic laws, running the total of arrests up to 28 for a three weeks period. Special attention is being given to traffic regulations during the busy days.

Dr. and Mrs. J. H. Bass spent the week end in Fort Worth and Cleburne visiting relatives.

Mrs. Robert Segro of Haskell visited her parents, Mr. and Mrs. Jim Isbell, one day last week.

SOMEONE RECEIVES TWO PASSES TO THE SUNDAY OR MONDAY SHOW FREE IN THE WANT-AD SECTION.

Is Roosevelt Right?

"When the President is doing the obviously correct and popular thing all water runs to his mill, but, let him once step out and bruise the toes of the modern wallers at the wall of 'lost patronage'—then he must return home by the weeping cross.

Some people have been talking about Roosevelt usurping power to the point of near dictatorship, when in reality it has been going on at the White House ever since the 'birth of our great nation.'

Lincoln during the hectic days of the civil war, had several Maryland legislators arrested, fearing disloyalty. The Supreme Court ruled he could not hold them—but he did. Lincoln also voided the right of habeas corpus, caused certain newspaper offices to be raided and many publications suspended—in open defiance of the First Amendment. He raised armies and carried on wars against seceding states, in spite of the fact that this power is vested in Congress under the Constitution.

President Wilson took a like course during the World War.

American histories teach that America purchased their possessions, when in most cases territories were acquired through conquest—instigated by presidents.

In fact, if certain politicians would check over the various powers of dictators, figurehead kings, and presidents of other nations he would find that the President of the United States has more power than any living man, among the world powers, and has had since Declaration of Independence. He would also find that America has had the greatest line of leaders, (presidents) that any nation can boast.

Historians rank Lincoln, Wilson, Jefferson and Washington at the top four among our presidents. The major portion of Franklin Roosevelt's administrative program is picked up from policies advocated by these men. Still, the 'politicians' who are fighting Roosevelt, laud these same men to the highest pinnacles as statesmen. Secession and rebellion could not be tolerated—Lincoln was right. Hunger, unemployment, depressed prices can not be tolerated—Roosevelt is right.

More conservative legislative acts were passed under the first term of Roosevelt's tenure of office than during any other like period in American history. And yet, some of our 'so-called' statesmen condemn FDR and his policies. Borah, whom his own party failed to bestow national honors—Cope land, tool of Tammany Hall who was overwhelmingly defeated for the mayorship of New York—losers of patronage, lead the fight.

Improving Texas Cotton

We have long believed that one of the most valuable services given the people of Texas by any institution or group of men was that given by the extension service of Texas A. & M. college through the county agents.

These services have to do with agriculture and livestock raising and have resulted in great improvements in recent years. They have been administered by earnest and intelligent men who know how to work with people.

Just now a campaign is under way all over Texas to improve the quality of Texas cotton. Meetings are being held in all the cottongrowing counties. Farmers, ginners, oil millers, compress managers, bankers, merchants, vocational teachers and other interested persons are being invited to attend these meetings.

The equality of Texas cotton has deteriorated to the point where short cotton is hard to sell and many spinners, in placing their orders for cotton, specify no cotton from Texas or Oklahoma be included in the sale. This is stated here on the authority of E. A. Miller, agronomist of A. & M. college.

The extension source of the college has accepted the responsibility of doing everything possible to correct this situation which so vitally concerns the welfare of the state. All agencies connected with the cotton industry in the state are uniting in the drive for quality cotton, according to Miller, who said he was receiving helpful cooperation everywhere cotton meetings were held.

Property Loss of \$1,250,000,000

ASTOUNDING—when the huge loss figure of \$1,250,000,000 is attributed solely to highway accidents. It is more astounding when that figure covers loss for one year—1936.

Property can always be replaced, but what about replacing the 38,000 persons killed in a ruthless lust for speed, reckless driving, intoxicated drivers, and hit-and-run drivers. Add to the 38,000 killed in highway accidents another astounding figure—1,000,000 injuries ranging from minor, and serious to permanent injuries. Millions were spent in hospitals by persons not fatally injured.

When you read this it should help to create a spirit of cooperation between citizens and officers of Munday in the present traffic drive to eliminate traffic hazards on our streets.

The first two weeks of the drive saw 22 persons pay fines for traffic violations. Six paid fines over the past week end, and fines will be collected as long as local traffic laws are violated, is the promise of city officers and court justices.

Four have paid fines for reckless driving.

THE SAME OLD BAIT

expected us to get paid on all of it. Mack don't know it, but his district has been left out in the cold. Most of the government bounty and loan will go to farmers east.

So much on the point of personal privilege, and for our congressman's edification. Now with the editor's kind permission I will discuss the issue briefly.

The United States Government is already controlling the production of cotton, if production control means to reduce acreage in Texas and the South. E however, has not controlled production in Mexico, Brazil, Mesopotamia, or any of the countries outside of the United States. It has not reduced production in New Mexico, Arizona or California. The outlawed AAA gave to these three states the privilege of raising all the cotton they wanted to raise. Also the Bankhead bill did not apply to two of these three states. World production of cotton is reliably estimated at thirty-five million bales for 1937.

I am only an oldtimer who has lived in Mack's district all his life and in Knox County for over fifty years. Of course I cannot have the influence that Mack has, but I asked in Seymour and I ask again, why should we reduce cotton production when all the rest of the world increases as fast as we reduce, and when it has been clearly demonstrated that reduction on our part does not help the price of cotton? Isn't it time for us to try something else?

Ross Bates, Goree, Texas

NOBODY'S BUSINESS

BY JULIAN CAPERS JR.

Austin.—All set for the opening next Monday of the great three-ring political and legislative circus; the special session of the 45th legislature—the cast, which includes members of the house and senate, and most of the elective state officials, this week finished the innumerable preliminary moves, and awaited the starter's gun.

Chief performers in the three rings will be, respectively, the senate and the governor. The governor has asked the legislature to raise \$15,000,000 of new revenue thru taxation—an increase of approximately 60 per cent over the present general fund. He has recommended increasing taxes on oil, gas and sulphur, on pipelines and public utilities, a luxury tax.

As a counter suggestion, the senate investigating committee, headed by the veteran conservative, Tom Holbrook of Galveston, has compiled a list of alternate proposals which include reopening of appropriations, with the hope of reducing them substantially, for the current biennium; abolition or consolidation of several of the newer state bureaus, notably the liquor control board, which costs \$1,000,000 a year to maintain; the old age assistance commission and the other social security agencies, including those to administer aid to dependent children, the needy blind and teachers' retirement.

WOULD SHIFT FUNDS

There is also material in this record available for diverting some excess revenue from oil, cigarette and sulphur taxes, now going to the school fund, back to the general fund. The constitution allocates one-fourth of these levies to the schools, but the legislature, by statute, has allocated one-half the oil tax yield, more than half of sulphur taxes, and a third of the cigarette taxes. Precedent for such a switch of revenues is the message of Gov. Allred himself, who in his

The WEEKLY CONSTITUTIONAL

Only Right Makes Right

Are the principles of our government right because they are in our Constitution? The ten commandments are not right because they are in the Bible. They are in the Bible because they are right. With this in mind, let us see whether the following principles of our Constitution protect us against despotism:
1. Our Constitution makes the people master and the government our servant;
2. It grants the government only such powers as are listed;
3. It distributes these powers among three separate and independent departments instead of concentrating them in one department;
4. It declares our Constitution to be 'the supreme law' and provides that only the people can amend it;
5. It creates a Supreme Court to see that both the people and the government obey our Constitution as the supreme law of the land.

FOR SALE

We are offering for sale a tract of land near town at \$35.00 per acre, sandy land, improved and you will say it's worth the money.
200 acre farm on Knox Prairie, all in cultivation, fair improvements. See us for price.
320 acres, all in cultivation, excellent quality land. Will sell 160 or 320 to a purchaser. Federal Land Bank Loan. If you are interested in a real farm together with location, see us. Priced to sell.

'The REST Of the Record'

BY JAMES V. ALLRED Governor of Texas

Austin.—The opening week of the second extraordinary session of the 45th Legislature has arrived and again the legislative chambers of the capitol are filled with the people's representatives.

As Governor, I felt it imperative to convene the session in order that the Legislature might pass laws levying taxes to raise revenues sufficient to provide adequately for:

1. The wiping out of the deficit in the general fund and to make income equal to outgo from said fund.
2. To provide additional funds to be allocated for old age assistance.

3. To provide for aid to the needy blind, the dependent, neglected and needy children, and to take care of the state's portion under the teachers' retirement act.

Let me briefly review these points of the call:

First: The general fund of this state at present is operating under a deficit approximately fifteen million dollars with the income into the fund lacking four and a half million dollars per year of equaling its outgo. The legislature at the recent regular session increased appropriations approximately four million dollars per year without providing a single penny of additional revenue to care for either the deficit or the increased appropriations.

It seems only good business—for a state or an individual—that income should equal outgo and that a deficit should be wiped out.

Second: At the regular session last January I recommended that additional moneys be placed in the old age assistance fund. That fund is now in debt \$1,626,000.00 on outstanding warrants and the Board of Control estimates that in addition we need to allocate approximately two million dollars annually to this fund. In my opinion, the old Legislature should provide this additional revenue for the old age assistance fund in order to care for the actual needy.

Third: At a special election held

on August 23, 1937, the people adopted amendments to the Constitution to authorize the state to aid the needy blind and provide help for the needy, neglected and dependent children of this state under provisions of the National Social Security Law. The amendment providing for this participation by the state under the social security program required the state's share not to exceed \$1,500,000.00 per year.

The regular session of the 44th Legislature submitted a constitutional amendment providing a teacher retirement system for Texas which the people approved by popular vote. The 45th Legislature passed a law to make the amendment effective. State Auditor Tom King has estimated a minimum need of \$1,360,550.00 and a maximum of \$1,683,750.00 as the state's share in matching contributions by teachers for their retirement system.

In previous releases of 'The Rest of the Record,' I have stated my position in limiting this session to revenue raising purposes only. No one can deny that it is my duty as Governor to recommend a revenue program to finance the people's program.

It is the duty of the Legislature of this state to provide revenues for the operation of the government, and in my opinion, it is certainly the duty of the Legislature to provide revenues to take care of the appropriations they have made themselves and to carry out the people's will as manifested in the adoption of these constitutional amendments.

No other session has offered a more patriotic opportunity for the people's representatives. In the interest of the six million whom we represent, I fervently hope that the members of the 45th Legislature will face squarely the issues and pass the revenues necessary for the people's program.

Weinert Duchess Abilene Fair Named

Miss Mattie Louise Cantwell, senior of the Weinert Schools, was named to represent Weinert as Duchess at Abilene for the West Texas Free Fair for the crowning of the queen and king at the Cotton Festival.

Miss Louise Wade was named as her lady in waiting. Miss Wade is an instructor of the Weinert schools.

Announcement of the two selections came last Friday by Supt. Duff.

LETTERS FROM THE PEOPLE

Editor of Times

The Hon. W. D. McFarlane in a communication to your valuable paper, which was printed in your latest issue says that at Seymour, Texas, Ross Bates of Goree made a bitter speech in opposition to production control of cotton.

In 1932 when the cotton farmers of this congressional district were saying, 'Six cent cotton and forty cent meat, how in the world can a poor man eat?' Mr. McFarlane claimed to be with them and did not even by inference condemn them for any bitterness they might feel because of existing conditions.

Then six cents would buy a good deal. Flour was 65¢ a sack, overalls 69¢ a pair. Now flour and overalls are three times as high. The six cents were getting then would buy more in any market in the world than our six cents will buy now, or even 7-8 cents. It would even pay as many taxes for taxes were much lower. True, Tom Connally and Marvin Jones managed to get an appropriation through to grant a bonus of three cents per pound and a loan of 6¢ per pound on cotton.

The administration, however through Mr. Roosevelt's appointees, ruled that only middling or better cotton of 7-8 staple would be eligible for the 9¢ loan. Now Mack don't know it, but two-thirds of the cotton raised in this part of Mack's district, on an average year, grades below middling and a large part of the 1-3 that grades above middling is half and half.

This year a large part of the will buy now, or even 7-8 cents. It is so short because of the drought that compresses are afraid to guarantee it to the government as 7-8 cotton. In addition to all this Mr. Roosevelt is demanding a rigid crop control bill, a bill that will allow the government to force a further drastic reduction in cotton acreage in this district. Before we can get the bounty voted by the Congress and put through mostly by the efforts of the men who refused to pack the Supreme Court, and put through against the desires of the administration, we must agree to let Mr. Roosevelt's appointees tell us how many acres of cotton to raise next year, and then we will only get paid on a part of our cotton when Congress

IMPORTANT REASONS ON "WHY GO TO SCHOOL" GIVEN IN ARTICLE

Opens Way to All of Leading Professions of Life

It pays, in dollars and cents, to go as far as one can in the kind of school. One who leaves school early is shut out from all the professions to begin with. He can not be a lawyer, a doctor, a teacher, a dentist, without preparation in school.

Of course almost anybody can work with his hands and feet, and we think that everybody should do some work of that sort; but the boy who quits school early is pretty surely condemning himself to work only with his hands and feet all of his life. A girl may secure a place in the ten-cent store as soon as the law allows her to leave school; and the boy who finishes the eighth grade can strike the level of mixed drinks at the soda fountain—both respectable jobs for a summer vacation.

Few important business positions go nowadays to young people with less than high school training. The over-crowding of every American university shows pretty clearly that even college education pays. Whatever the general future we dream about, beyond the wheelbarrow and the retailing counter, schools can shorten our road. It can be fairly shown that every day in the four years of a complete high school course has been worth to an average student about ten dollars. It is work with the head that pays.

But the best reward of going to school are not in dollars and cents. Training of the right sort gives a world-wide range to our interest in facts, makes us reluctant to accept mere hearsay, shows how to test information and appearances. Culture cannot be bought and sold, but must be lived through. The big danger of leaving school too early is the danger of personal littleness; of losing part of life itself. College do more than others for mental freedom and taste. When we come along toward the end of our journey, we know that no part of the way toward the goal of higher education has been in vain.

Initiation New Members of Home Economics Club

The formal initiation for the new members of the Home Economics Club was held Tuesday night, September 21, at the Home Economics Cottage. The Spirits of Home Economics lighted the candles of six rainbow colors which represented the ideals of the Club. From her white candle she lighted the candles of nineteen girls who took the pledge of the Club. Doris Howell, president of the Club, welcomed the members into the organization, and then refreshments were served to thirty-nine girls.

The girls in Home Economics II made apricot and pineapple conserve and grape jelly last week. From the results it seems they are improving in their cooking. This food will be used in the department throughout the year for luncheons and dinners served by the girls.

The work done on the fish pond by the freshmen girls during their informal initiation enabled the club to have their goldfish back in the pond. The fish pond is quite an attraction on the school ground.

Newspaper Writing Studied by English Class For Seniors

For the past week the senior English class has been studying the newspaper. After giving each section of the paper a thorough discussion, we invited Mr. Boyde Carley, editor of the Munday Times, to visit the class. His talk was the most interesting talk on the "Life of a Newspaper" that has ever been given to a senior class here.

After the study of the editorial section of a paper had been completed we practiced what we had learned by writing our own editorial. Two selected from the group follow:

Student-Teacher Cooperation
BY MARY MOORE

When a teacher feels that a student is going to do his best for her, work with her, and help her, then the student will usually sense the teacher's attitude and do his best also. This is the great association known to our minds as the student-teacher cooperation. We all feel that it exists whether we say so or not.

Cooperation with our teachers includes more than classroom activities. We should cooperate with our teachers in the afternoons and evenings, and give some of our time to study and thought instead of play and pleasure.

A most important fact to remember is this: when we get angry with our teachers, we should cooperate with them by understanding that they, too, get angry with us.

Our schools would be better if we, the pupils, had an absolute understanding with you, the teacher, or what is expected of each of us.

Safety in the School
BY LORAIN FINLEY

To promote safety in the school should be the first thought of each individual. There are thousands of children going to school each day, and many of these are injured because of carelessness. What would happen if the few precautions that are taken to make school safer were destroyed?

All school buildings should be located so that the children will have to be in the street as little as possible. The buildings should all be made of fireproof materials and have very good fire escapes.

JUNIOR REPORT

The Juniors are progressing rapidly in Spanish. We have learned two songs and are learning another. We have a great many things planned for this year, and we are eager to accomplish much.

In English we have been learning how to be able to speak well and the importance of being able to write and speak more effectively. Our knowledge of the American Revolution is also being renewed.

Leaders of Pep Squad Announced

The leaders of the Pep-Squad wish to thank the members of the Pep-Squad for working so hard to find ways for everyone to go to Lueders. If it were not for the efforts of the girls, all of us could not have seen the Moguls play Friday afternoon. We also want to thank all those who helped us in any way to get there. We appreciate the attitude of the Munday people in cooperating with us. LaVerne Eiland is leader of the Mogulettes, and Mary Moore and Geneva Smith are assistants.

Most Newspapers Contain One-Half Mile of Printing

Imagine yourself covering half a mile daily in hops of a sixteenth of an inch.

That is what your eyes do when you read newspaper, according to M. J. Julian of the Better Vision Institute. The average metropolitan daily contains approximately half a mile of print, exclusive of illustrations and advertisements, and the average detective novel that you read in the evening is about the same length. Full length novels are three-quarters of a mile longer; works like Hervey Allen's "Anthony Adverse," reach almost five miles of print. Little wonder that the delicate eye muscles sometimes feel a strain at such a burden of exercise!

Many people believe that the eyes glide smoothly over the lines of print, so that travel is not at all difficult for them, Mr. Julian says. On the contrary the eye reads by a series of small jumps taking in groups of letters or small words in a single jump. Speed in reading varies with training, size of print, light, the difficulty of the text and the efficiency of the eye. Four people in ten being unacquainted physically to read as rapidly as they should. If you cannot read easily and rapidly when ordinary print is held from twelve to fourteen inches from your eyes, it is high time for you to visit your eyesight specialist, Mr. Julian says.

The Texas Planning Board's public health committee has enlisted the aid of the State Department of Education in its drive to stamp out preventable, infectious and parasitic diseases. Teachers and students will be taught the fundamentals of good health and the proper measures which should be taken to prevent epidemics.

CHURCH NEWS

FIRST BAPTIST CHURCH

October Third to Sixth is ALL-CHURCH WEEK observed by all the Baptist Churches in Texas in the interest of State Missions, and then a special program at the church Monday, Tuesday and Wednesday night at eight o'clock. Come and help us make these meetings worthwhile. Sermon subjects for Sunday: morning Counting the Cost; evening, Are Our Troubles the Result of our Sins?

W. H. Albertson

APPLE JELLY

Use tart apples that are barely ripe, or slightly underripe. Wash and cut the fruit in slices about 1-8 inch thick, leaving the peel on. Add water to cover, about 2 cups to each pound of fruit. Cook about 15 or 20 minutes, or until soft. Strain through a cheesecloth bag and then through a flannel one. Add 3-4 cup sugar to each cup of sour apple juice or 2-3 cup sugar to each cup juice of moderate acidity. Boil to the jelling point and fill into glasses.

Pay on 750,000 Employees

Eleven thousand and nine hundred employees are now contributing on the wages of 750,000 employees under the Texas Unemployment Compensation Act.

Less than one-third of the State of Texas has been accurately mapped, according to the Texas Planning Board's mapping committee which is now engaged in devising means of obtaining an accurate map of the state.

Oil Stove Explosion Causes Slight Damage

An oil stove explosion in the home occupied by C. L. Garrett, Weinert, caused considerable damage to the kitchen of the home before the blaze was extinguished. Aid of neighboring citizens, who formed a bucket brigade, kept the fire from spreading to other parts of the house and causing serious damage.

Model for eight states is the Texas Unemployment Compensation Commission. Chairman-Director Orville S. Carpenter was called to Washington early this month to tell of the Texas set-up as it is regarded so favorably by the Federal Social Security Board that it will be used as a guide in forming the organizations of other states.

RECOMMENDED RECIPE FOR TODAY

A Novel Meat Loaf

In France the left-over odds and ends of vegetables go into the soup kettle. Mighty good soup it is, too. But here's a real American way to use raggle-taggle ends of carrot and spinach in a succulent meat loaf. It's an ideal combination for children who have to be coaxed into eating their daily quota of vegetables. Even adults who claim they don't like vegetables, demand second helpings of this tender juicy Novel Meat Loaf.

Novel Meat Loaf
2 tbs. all-purpose flour
1 1/2 tbs. salt
1/2 tsp. pepper
1/2 cup drained cooked spinach, chopped
1/2 cup ground or grated raw carrots
1/4 cup tomatoes
1 lb. ground beef
1 egg
2 tbs. meat drippings

Mix flour, salt, pepper, spinach, carrots and tomatoes with the ground beef. Stir the well beaten egg into the mixture. Pack into a baking pan containing meat drippings. Bake. TIME: Bake 1 hour. TEMPERATURE: 350° F., moderate oven. AMOUNT: 6 servings. SIZE OF PAN: 1 loaf pan 4 by 8 inches across the bottom (2 1/2 inches deep).

Question: What makes meat balls dry and hard?
Answer: Cooking in too much water and cooking too rapidly is apt to produce the dryness. This may sound strange, but we have found that in cooking meat balls we must be careful not to allow the juice to escape from the meat. Therefore we brown and sear the meat balls quickly in hot drippings or bacon fat, first on one side and then on the other. This searing of the meat helps to retain the juice in them. Then add very little water, just enough water to produce steam, and cover the pan tightly, turning down the flame so that the meat will cook very slowly, steaming this way. When the meat is cooked through, remove the meat balls, add a little more water to the pan and if you wish you can thicken it for gravy.

Question: Does cooking beans with a little soda added to preserve the color destroy the vitamins?
Answer: Members of the green vegetable family—green beans, spinach, Swiss chard, turnip greens, beet greens, and asparagus—will turn an ugly dull grayish color if they are cooked too long or too slowly. Green vegetables will keep their color and flavor best when they are cooked rapidly and as briefly as possible in a kettle of hard water. If you have only soft water—you may add a tiny pinch of soda to make the water more alkaline. But be careful not to add too much, for the soda does destroy the vitamins. An over-dose of soda will turn vegetables a violent green and make them disagreeably soft. If you use hard water, or artificially softened water—avoid using soda entirely.

Question: What do you do with your knife and fork when you're through eating?
Answer: At the close of the dinner or at the close of the course, the knife and fork should be laid side by side a little above the center of the plate, fork with the tines up, knife with sharp edge nearest the fork. If you keep in mind the position of the hands of a clock at "ten minutes to four" you will never have any difficulty remembering this. This should be the signal that the guest has finished the meal—or the course—and is ready to have his plate removed.

Question: How can one substitute yolks for whole eggs?
Answer: It is quite safe to use two egg yolks in place of one whole egg, but in doing so, be sure to add a tablespoon of water to the two egg yolks, because two egg yolks, plus a tablespoon of water, are considered equivalent to one whole egg.

Simple Meals Save Time For Summer Sunshine

Sandwiches for All Occasions
By Betty Barclay

Sandwiches are what we make them. They may be make-shift bites, with little to be said in their favor, or dainty morsels that bring bursts of praise to the hostess whenever they are placed before guests.

It is far too easy to put a piece of ham or cheese between two slices of bread and call it a sandwich. We are likely to get into this food rut if we do not watch ourselves.

But the woman who prepares her sandwiches as carefully as she bakes a cake will be repaid amply in respect and compliments. Sandwiches should be dainty—whether for the school or factory lunch or a buffet lunch.

Combination sandwich fillings should be cultivated. Instead of using plain cheese use a combination of cheese and mustard pickles. As a matter of fact, the pickle

shelf can be used the whole year round to build up attractive sandwiches for the lunch box. When you do not desire to include pickles of some kind in the actual filling, two or three pickles wrapped in waxed paper may be thrust into a corner of the lunch box and you may rest assured that they will seldom, if ever, come back to you at night—or for a buffet lunch, various kinds of pickles may be placed near the sandwich tray.

Here are several recipes showing how pickles of various kinds may be used in sandwiches.

Spicy Celery Sandwich
2 large sweet pickles (1/4 cup), finely chopped
1/4 cup celery, finely cut
1 tablespoon mayonnaise
2 teaspoons catsup
Combine chopped sweet pickles and celery. Blend with remaining ingredients. Spread this on slices of buttered bread.

Hot Ham Sandwich
Have ready hot buttered toast, two slices for each sandwich, and lightly broiled sliced ham cut very thin. Arrange a slice of the ham on a slice of the toast. Add a bit of prepared mustard and cover with minced sweet pickles. Put the top slice of toast in place. Serve at once.

NOW BREAD CRUSTS TURN INTO DELECTABLE COOKIES WITH MAGICAL SPEED

By Betty Barclay

The modern youngster won't believe you if you say that crusts make the hair curl. But the modern mother gets rid of heels of bread just the same. She rolls them into crumbs, combines them with sweetened condensed milk, and in less than 15 minutes, has a jarful of such delectable cookies that the children gobble them up as fast as they can get them. Crusts, or any other stale bread, for that matter, should be crushed with a rolling pin or put through a food grinder to make crumbs, and kept in a covered jar until needed.

Magic Chocolate Crumb Cookies
2 squares unsweetened chocolate
1 1-3 cups (1 can) sweetened condensed milk
1 cup toasted bread crumbs
Few grains salt
1-2 cup walnut or pecan nut meats
24 walnut or pecan halves (optional)

Melt chocolate in double boiler. Add sweetened condensed milk and stir over boiling water 5 minutes or until mixture thickens. Add toasted bread crumbs, salt and nut meats which have been chopped. Blend thoroughly. Drop by spoonfuls on buttered baking sheet. Press half a nut meat into each cookie, if desired. Bake in moderate oven (350 degrees) 10 minutes, or until brown. Remove from pan at once. Makes about 24.

Nut Strudels
1 cup nut meats
1 1-3 cups (1 can) sweetened condensed milk
1 cup dry bread crumbs
1-4 teaspoon salt
1 tablespoon cinnamon
pie crust dough

Force nut meats through food chopper. Blend with sweetened condensed milk, bread crumbs, salt and cinnamon. Roll crust out in ob-

Successful extraction of "fats" from southern pine trees, recently accomplished by Dr. Charles Herty, points to a new southern industry, says the All-South Development Council.

The fats are useful in making a soap used by the mining industry in the flotation of ores, they contain linoleic acid used in paint manufacture, and can also supply the medical profession with quantities of cheap oleic acid for experiments.

Fig canneries, which started in Texas in 1903, by 1936 were well out of the depression, according to the All-South Development Council, and were using 25,000 pounds of fresh figs per day.

Basketball Captain Named

Don Rankin of Springtown will lead the Plowboy basketball squad of John Tarleton college next year. The plowboys will be out to extend Tarleton's world's record of 78 consecutive wins on the court.

Although Texas leads all southern states in acreage, production and value of cotton, the All-South Development Council points out, her yield and quality have fallen far behind the pace, as indicated in the fact that, while Texas planted 40.3 of all southern cotton acreage in 1936, the state produced only 25.1 per cent of the crop, and that yield brought even a smaller share, 24.3 per cent, of the total

Why Newspapers Ask For "Early Copy"

The Advertiser Is Unfair to Himself When He Sends His Advertisement to the Newspaper Office Just Before the Dead-Line

Early "Copy" Late "Copy"

- | | |
|--------------------------------|---------------------------------------|
| 1. Better position. | Risk of poor position. |
| 2. No errors. | Risk of typographical errors. |
| 3. Time for store corrections. | No opportunity for store corrections. |
| 4. Good typography. | Risk of poor typography. |
| 5. Prompt delivery to reader. | Risk of late delivery. |
| 6. Fair to mechanical staff. | Unfair physical and mental strain. |
| 7. Advertisement well written. | Advertisement hurriedly written. |
| 8. Advertisement inserted. | Risk of omission. |
| 9. Overhead normal. | Often cause of rate increase. |
| 10. Illustrations correct. | Risk of misplaced cuts. |

- While a newspaper is a marvel of mechanical efficiency, there are limits on what can be done by a given force of printers, steryotypers and pressmen in a short, crowded period of stress.
- There is plenty of time to give every advertiser good service when early copy is sent in.
- The Times believes that its advertisers desire to be fair to the printers, steryotypers and pressmen who serve them as well as to be fair to themselves.
- Visitors to the mechanical department are invited so that the process of handling advertising may be thoroly understood and the mechanical problems fully realized.
- Your co-operation will be greatly appreciated by the entire personnel of The Times.

Business and Social Meeting For M.E. Society

Monday afternoon the Methodist Missionary Society met at the church for a business and social meeting with Mesdames S. E. McStay, Deaton Green and Doris Rogers as hostesses.

Mrs. Green gave a chapter from the mission study book, "Rebuilding Rural America." Mrs. Green's discourse was followed by a business meeting presided over by Miss Shelley Lee. A short social hour was enjoyed by the group at the close of the business session.

Refreshments were served to Mesdames J. T. Lee, H. A. Longino, Lee Haymes, M. F. Billingsley, S. A. Bowden, G. L. Pruitt, W. G. Gafford, G. W. Dingus, J. C. Borden, Giddings, P. V. Williams, Austin Caughran, Henry, G. R. Eiland, and Miss Shelley Lee.

Parent Teachers Association in Initial Meeting

The first meeting of the Munday Parent Teachers Association was held Wednesday, September 22, in the elementary school building. Mrs. G. A. Blanton was in charge of the program.

The theme chosen by the organization for the year is "Guidance of the Child in His World." The subject for the opening meeting was "Family Cooperation for Health and Safety," with the following numbers on the program:

"Health, the First Essential for the Normal Living of the Child," by Mrs. Clyde Nelson; piano solo, Mrs. Jim McDonald; "Safety in the Home, Street and School," by L. M. Palmer, principal of the elementary school.

The room count was taken and the awards went to the 4-A room taught by Mrs. J. H. Bass of the grade school building, and to the Junior class of the high school division.

Young Women's Circle Met At Mahan Home

The Young Women's Circle of the Methodist Church met at the home of Mrs. Wade Mahan Monday evening in regular weekly meeting.

Mrs. Bounds opened the meeting program with a prayer. The subject for study during the meeting was "Pioneers of Africa," given by Miss Joardis Park.

Merle Dingus discussed "The Congo Mission," and Mrs. B. B. Bowden gave a topic on "Worship and Meditation."

Two new members of the circle were announced at the meeting. They are Miss Joardis Park and Mrs. Porter.

Double Wedding is Performed For O'Brien Youths

A double wedding was performed at Haskell last Saturday for members of four well known O'Brien families.

Rev. R. N. Huckabee, pastor of the Methodist church of that city performed the ceremonies for Miss Marie McGregor to become the bride of Rufus G. Andrews, and Miss Ida Bell Hewitt was married to Herman Robertson.

Following a brief honeymoon trip the newlyweds will make their new homes in O'Brien.

Visit Billingsleys

Dr. and Mrs. E. E. West of Abilene, former residents of Munday, spent the past week-end visiting in the home of Mr. and Mrs. M. F. Billingsley and family.

Miss Sarah Smith Married to Lonnie Offutt Sunday

Miss Sarah Smith of Munday, a teacher in the Hefner school, was married to Mr. Lonnie Offutt of the Sunset community Sunday afternoon September 26, at 4:30 o'clock in Jacksboro, Texas. The quiet ring ceremony was read by Minister Choice A. Bryant of that city.

The couple's only attendants were Eva Jones of Goree and Elkin Warren of Dallas.

Mrs. Offutt is a former student of North Texas State Teachers' College of Denton.

She wore an attractive dress of brown taffeta trimmed with velvet ribbon of the same hue. Earth accessories completed her costume.

Mr. Offutt is a well known farmer of the Sunset community and also has a position with the Moutray Service Station.

Mr. and Mrs. Offutt will be at home in the Hefner community for the school term.

Their great circle of friends wish them a high way of happiness and serenity.

CHURCH NEWS

METHODIST CHURCH

We appreciate the fine spirit that prevails throughout the church and the increased attendance both in Sunday School and church services. It seems that renewed interest has come to all parts of the work. Good attendance at the Young People's meeting Sunday evening and the Hi-League got a good start with their first Sunday service with twenty odd present.

If this spirit continues throughout the winter months as it should, there certainly will be great demand for more room. The choir has already outgrown their corner. And do you like that singing?

This Sunday mornings service is a "double header." It is our regular communion day and also the first day of the new Sunday School year. The new officers and teachers will be presented at the close of the Sunday School hour. We are asking that everyone assemble in the main auditorium for this service immediately following the lesson period of the various departments.

The evening service will be held at 7:30 instead of 8:00 as formerly. More time is allotted to the choir at this service than is possible at the morning hour. Come and hear them sing.

You can get your copy of the "Upper Room" Sunday. The supply is limited but we will assure a copy for everyone that wants one. "The metal of a man's soul is made to ring, not whine."

H. A. Longino, Pastor

Texas in 1936 produced 13,400,000 of the nation's total mohair crop of 15,976,000 pounds, or 83.8 per cent. The Texas "per goat" clip average of 4.5 pounds is topped only by Utah's angoras, which average 4.6 pounds, says the All-South Development Council.

Fire Inspection Started in City Tuesday Morning

The Munday Fire Department started their fire inspection tours to eliminate fire hazards in the city this week. Six blocks of the business district were checked for defects Tuesday and Wednesday.

Investigating firemen reported that chief among the most dangerous hazards was faulty wiring. Most of the wiring that was found faulty was due to improper insulation and wires being left open.

Pennies and wiring around in switch boxes to care for blown fuses were found frequently and reported to property and store owners.

Ranking next to wiring as fire hazards in the business district was the improper burning of trash and paper. Business firms have inadequate facilities for burning of trash, and in most cases, it is burned in the open.

Fire boys stated that the business men have cooperated to the fullest in eliminating these hazards and that many have been eliminated by the merchants this week. Fire Chief Hawes again stated "We had rather prevent a fire than fight it."

WASHBURN NEWS

Mrs. C. N. SMITH, Correspondent

Health in the community is very good at this writing.

Miss Estellen Gulley has returned from Wichita Falls where she has been working for several months.

Mr. and Mrs. Claude Hill and family of Thorp visited relatives here last Sunday.

Mrs. D. C. Wardlow, who has been visiting her daughter, Mrs. J. A. Hill, left last Sunday for her home in California.

Geneva King of Weinert is visiting her brother, Revel King, this week end.

None Injured In Boiler Explosion

More than a score of persons escaped serious injury in Knox City last Thursday when a boiler explosion demolished the rear of the City Tailor Shop. The blast, heard for several miles, scattered debris over a wide area of the business district.

The boiler was hurled into the air more than a 100 feet and landed in a cotton yard over 200 yards from the tailor shop.

A plate glass window of a hardware firm was blasted out by the explosion, and no other damage was reported, except to the tailor shop building.

NOBODY'S BUSINESS

BY JULIAN CAPERS JR.

Rep. Emmett Morse of Houston hopes to get the issue of sale of whiskey by the drink, killed in this regular session, up again this time, on the theory that it would be a tax measure and within the governor's call. . . . Texas banks, seeking to restore the pre-depression good will they enjoyed, are again pointing to their willingness and ability to serve their communities in their advertising. Typical of the trend is this line from Chauncey Parsons, "your singing neighbor" on a recent radio program of the Mercantile National bank of Dallas: "The platform of this bank is to deal humanly with our clients; to share the common interests of our friends; to serve with a generous understanding on a common ground with our patrons. After all, there can be friendliness in business" . . . Another effort to submit the constitutional amendment providing for a state advertising campaign to attract tourists and industry to Texas will be made at the next regular session. The amendment failed to get out of committee last session.

None Injured In Boiler Explosion

Miss Hester Reagan returned to her home in Wichita Falls following a visit in the home of her parents at Bomarton, the past week.

Mrs. K. C. Mosby and daughters, Katherine and Mary, and Miss Sarah Stringer, all of Wichita Falls visited Miss Mildred Mosby, employee of the First National Bank, the first of the week.

ODDITIES—LAND, SEA AND AIR By C. V. Renick

THERE ARE NO LIONS IN ASIA AND NO TIGERS IN AFRICA
The lion is a native of Africa and the tiger's home is Asia.

DR. PEDEN OF FREDERICKSBURG, TEXAS, APPROACHED A DEER THAT APPARENTLY HE HAD KILLED, ONLY TO HAVE THE DEER JUMP UP AND HOOK ITS ANTLERS IN HIS BINOCULARS AND DISAPPEAR WITH THEM.

MA-NA—WHAT COULD A DEER DO WITH BINOCULARS?

WHILE HUNTING HE CARRIED THE BINOCULARS AROUND HIS NECK.

FORMER MUNDAY GIRL SUCCUMBED TO TUBERCULOSIS

Ill For Past 18 Months; Graduate of Goree High School

Ravages from an eighteen-month siege of tuberculosis proved fatal to Miss Bernice Cleo Reagan, 28, Wednesday morning, September 22, at the home of her parents, Mr. and Mrs. Guy Reagan of Bomarton.

The Reagan family formerly lived in the Munday trade area. Miss Reagan was born September 7, 1910 at the Reagan farm home near Munday, and resided in this area until four years ago when they moved to Bomarton.

The deceased girl attended school at Hood, Cartwright and Goree, graduating from the latter school.

Miss Reagan spent six months at the state sanitarium at Sanitorium, Texas, returning home recently.

Funeral services were held at the First Baptist Church in Goree, last Wednesday, with Rev. Shade Stevenson, pastor, officiating. Interment was in the Goree cemetery.

The young lady became affiliated with the First Baptist Church in Goree in 1927.

Survivors include the parents, Mr. and Mrs. Guy Reagan, six sisters, Hester, Georgia, Clodell, Jeanette, Hattie, and Mrs. Opal McAfee, and two brothers, Lee, Fort Warren, Wyo., and George, Wheeler Springs, California. Both brothers were unable to attend the services.

The Unemployment Fund of Texas is now \$13,232,486.88, of which \$6,506,000 was collected on 1936 payrolls. Weekly deposits to this fund usually amount to about \$400,000. The Commission estimates a \$20,000,000 fund by January 1, 1938.

PEEP SHOW FOR LADIES ONLY —BY— MIGNON

I'm fired again, and do you know it twice in one short summer The gal that beats that record Has got to be a hummer Old Simon, who had many slaves Whose last name was Legree Had nothing on that boss of mine Who up and canned poor me.

Don't believe that, gals. I have been promoted to a much, much better position. All I have to do now is play house, ride herd on two youngsters and see if I can finesse a few editors. Of course there is the little matter of cooking, scrubbing, waxing the floors and playing tag with dust. Who knows in my spare time I may invent a bathing ring remover and papa might find a few of his sox no longer ventilated? There's a lot of things an old horse turned out to pasture can do besides crop grass.

For Sale: Good Alarm Clock, slightly caved in but clicking just as well as it did twenty-two years ago. Handy to throw and easy to dodge. Preference will be given buyers who have to live with postmasters.

No more voice throwing on Friday morn I'll be so lost, almost forlorn I'll have to get an almanac To keep me straight, now that's a fact. That nice new skipper treats me swell But his hair is red—you never can tell.

"Trail Blazers" by Nina L. Pond, Medford Printing Company; Girls it is all we expected and more. I told you it would be here and sure enough it came Sunday morning. From a printers standpoint it is a very artistic piece of work, well setup, a good print, attractive bindings and the work of a real craftsman as to format. But open the pages and revel in the store of inspirational thoughts therein and it is a masterpiece. Mrs. Pond has compiled a book that will be a wealth of information, inspiration and help to those who are traveling through the woods of life and are looking for signs of better living. Many of the loveliest and most thought provoking medita-

tions are Nina's own. It sells for sixty cents and can be purchased from the author at Medford, Oklahoma. It is with pride and a deep appreciation that I place this autographed volume on my Oklahoma shelf.

A Bible reading outline prepared by Gladys Alling, teacher of Guthrie, is one of the outstanding features. There are readings for each day of the week for every school week and are consistent in subject matter. There is also an outline on "Things to Teach a Child About Morals and Manners." There is also a detailed outline for the study of the life of Jesus.

Well known writers represented are: Helen McMahan, Gertrude A. Roberts, Richard Clare Gardner, Mabelle Flint, the late Rev. J. M. Rinkle, Daisy Elder Thomas, Dorothy Thomas, Vera Holding, Tipton, Bessie Truett, Emilie Blatter, Gertrude Faulkner, Alice Sutton McGeorge, Theresa D. Black, Julia Thompson, Maude Engle, Meta Shultz, Velma Troxel, all of Enid; Elsie Fern Allwhite, Blackell; and Rev. J. Vernon Jacobs, Sand Springs.

Out of state writers who contributed are: Rev. Charles Sheldon, Topeka, Kansas; Grenville Kleiser, Herman A. Heydt, Leander Litner, New York City; Benjamin Musser, Atlantic City, New Jersey; Ruth Smelzer, Holly, Colo.; Caroline Cain Durkee, Augusta, Kansas; Pauline Heckard Foulton, Wichita, Kansas; W. Roy Breg, Washington, D.C.; Caleb-Marshall Field, Chicago, Ill.; H. F. Henriehs, Litchfield, Ill.; Myrtle G. Burger, Washington, Mo.; Beatrice Plumb, Coconut Grove, Florida.

Unemployed Benefitted
The Texas State Employment Service will seek positions for the unemployed in lines benefitting their individual experience and talents, and in which the wages are average for employment of that class. Location of work and healthful conditions will also be considered.

We are going to see that poultry, eggs and cream bring what they are worth.—Atkinson's Food Store. (adv.)

ANNOUNCEMENT CIVIL SERVICE EXAMINATIONS

The United States Civil Service Commission has announced open competitive examinations as follows:

Medical social worker, \$3,800 a year, associate medical social worker, \$3,200 a year, and assistant medical social worker, \$2,600 a year. Children's Bureau, Department of Labor.

Crop Control
There is considerable appearing daily in favor of the radio as a crop control legislative measure. Those who profit most from the reduction of large crops such as the railroad compresses, spinners, busy fighting further cotton production. The price has been annually 10 cents per year after year 1 he has been forced to crop annually at far cost of production, he same sound business adopted by big b through organization them to control and the demand at a fi: entirely convinced t business methods ad farmer will pull hi depths and place hi road to prosperity. The farmer and h determined that a s tute for the AAA le; Congress in order t to properly control t of their basic crops, and his friends know itician, who tells in o he favors such legi the next breath tell is opposed to any Supreme Court that such legislation is bl cold and is not foot The farmers are be realize more than ev friends really are a realize unless and i sonnel of the Supr changed to permit th compulsory legislati can no hope to re price for their produ ity prices for cotton per pound, based u farmer has to pay fo he buys.

Cotton Classi
It is imperative t erment have con classifiers to grade cotton at the time th loan. It is unfair to have his cotton private classifier an forced to pay a cor to the Government roneous classificatio farmers with whom l should classify all time the applicator that all arties conce by this classificatio ture.

Farm Mee
Last Friday night farm meeting in the am of the Wichita (Iowa Park for the p ing the sentiment o on a cotton control writer fully discusse Court issue and it lationship to the pre the farmer and labo the close of the me was unanimous in crop control legislat expects to hold sir throughout the Dist meetings will be h Monday evening, C day evening. Olne; evening, Newcastle; evening, Loving.

Next week farm be held as follows:

Crop Control Legislation
There is considerable agitation appearing daily in the press and over the radio against further crop control legislation. Naturally those who profit most by the production of large crops of cotton, such as the railroads, the cotton compresses, spinners, etc., are all busy fighting further control of cotton production. The real friends of the farmers who know how he has been annually robbed in the price he has received for his cotton year after year and know how he has been forced to produce his crops annually at far less than the cost of production, realize that the same sound business principles adopted by big business which through organization has permitted them to control and produce to fit the demand at a fixed price are entirely convinced that the same business methods adopted by the farmer will pull him out of the depths and place him on the high road to prosperity.

The farmer and his friends are determined that a suitable substitute for the AAA legislation must be enacted at the next session of Congress in order to permit them to properly control the production of their basic crops. The farmer and his friends know that the politician, who tells in one breath that he favors such legislation and in the next breath tells them that he is opposed to any change in the Supreme Court that has nullified such legislation is blowing hot and cold and is not fooling them at all. The farmers are beginning to realize more than ever who their friends really are and they fully realize unless and until the personnel of the Supreme Court is changed to permit the enactment of compulsory legislation that they can not hope to receive a parity price for their products. The parity price for cotton today is 17c per pound, based upon what the farmer has to pay for the products he buys.

Cotton Classification
It is imperative that the Government have competent cotton classifiers to grade the farmers' cotton at the time they apply for a loan. It is unfair to the farmer to have his cotton graded by a private classifier and later to be forced to pay a considerable sum to the Government due to an erroneous classification. The many farmers with whom I have recently talked believe that the Government should classify all cotton at the time the application is filed and that all parties concerned be bound by this classification for the future.

Farm Meetings
Last Friday night we held a farm meeting in the main auditorium of the Wichita County Fair at Iowa Park for the purpose of getting the sentiment of those present on a cotton control program. The writer fully discussed the Supreme Court issue and its direct relationship to the present plight of the farmer and laboring man. At the close of the meeting the vote was unanimous in favor of rigid crop control legislation. The writer expects to hold similar meetings throughout the District. This week meetings will be held as follows: Monday evening, Graham; Tuesday evening, Olney; Wednesday evening, Newcastle; on Thursday evening, Loving.

Next week farm meetings will be held as follows:
Monday and Tuesday in Archer County; Wednesday and Thursday in Clay County; Friday and Saturday in Montague County.

FALL WOOLENS....

Made to Your Measure

• The satisfaction in a good suit of clothes, tailored exclusively for you, from the finest wools, is a treat you owe yourself. See our New Fall Woolens, new patterns, new Fall and winter colors. . . . If you order now it will be ready for a full season of wear.

J. Arthur Smith

Following the discussion of the farm program at each and all of these meetings moving pictures will be shown, showing different parts of the Administration's program. These educational films have been prepared by the different

Departments of the Government, and are furnished as a part of the Government's educational program.
60,000 Workers Unlisted
Sixty thousand employees, or

one-tenth of the covered workers in Texas, were listed with inaccurate or no Social Security Numbers for the past three months. Unless their employers supply these numbers, the employees will

receive no credit with the Texas Unemployment Compensation Commission for work performed.
Benefits are Announced
To be eligible for unemployment

benefits, payable January 1, 1938, an employee must have worked for a "covered" or subject employer for a period long enough to have earned sixteen times the amount of his weekly benefit payment.

Mr. and Mrs. Edgar Beecher of El Centro, Calif., who have been visiting friends and relatives here for some time will leave for their home this week end.
IT PAYS TO ADVERTISE

Do you like to take PHOTOGRAPHS?

cash prizes

for indoor photos showing heating appliances

This sample photo illustrating a radiant circulating type gas heater was taken in the home of one of our customers.

5 Simple Rules of the "Heating Photo Contest"

1. All photos must include a view of the gas heating equipment used to heat the room or adjoining room in which the photo is taken. (See sample)
2. The house in which you reside must receive its gas service from one of the companies of Lone Star Gas System and all photos submitted in the TEN WEEK CONTEST must be taken in a home served gas by one of the companies of Lone Star Gas System. These companies are: Lone Star Gas Company; The Dallas Gas Company; County Gas Company; Community Natural Gas Company; Texas Cities Gas Company.
3. Employees of any company of Lone Star Gas System and their immediate families and professional photographers or persons engaged in the business of making photographs for commercial purposes are not eligible to enter this Heating Photo Contest.
4. All photos submitted must have your name and address (including the town) PRINTED PLAINLY ON A SEPARATE PIECE OF PAPER AND PASTED TO THE BACK OF EACH PHOTO ENTERED IN THE CONTEST.
5. All photos submitted should be delivered to your local gas company office or mailed to LONE STAR GAS SYSTEM, ADVERTISING DEPARTMENT, 305 S. HARWOOD ST., DALLAS, TEXAS.

The contest is for a TEN WEEK Period from October 11, 1937 to December 18, 1937 (inclusive). All photos submitted will become the property of Lone Star Gas System to be used as desired by the company. Photos entered in the contest will not be returned and weekly prize winners will be advised by letter. At the close of the ten week contest a complete list of prize winners will be available for your inspection at your nearest gas company office.

Your gas company and national manufacturers of gas heating appliances wish to obtain photos or "snapshots" illustrating gas heating equipment used in homes of this section.

We want to buy one hundred photos showing interior views of living rooms, dining rooms, bed rooms or any other room in the house. All photos submitted to the judging committee must conform to the rules of the contest and must include a view of gas heating equipment. Also, every photo or "snapshot" submitted in the contest must be taken in a home served gas by one of the companies of Lone Star Gas System and the person submitting the photo must reside in a home receiving gas service from one of these companies. (See Contest Rule No. 2 for details)

Nothing to Buy . . . No Letters to Write!

We are interested in photos ONLY. Include any type of gas heating appliance such as a gas floor furnace, a gas circulating heater, a gasteam radiator or an individual room heater of the gas radiant type. Select a view of a room that shows some type of gas heating appliance and

send it in. There is nothing to buy, no letters to write, to make your entry eligible for a prize. Read the five simple rules of the contest carefully and send your entries promptly each week. The contest extends from October 11, 1937 to December 18, 1937, inclusive.

CASH PRIZES

Ten weekly prizes of \$10.00 each will be awarded the best photos submitted each week. A total of one hundred prizes of \$10.00 each for the best one hundred photos submitted during the TEN WEEK CONTEST. At the close of the Photo Contest additional prizes of \$100.00, \$75.00, \$50.00, and \$25.00 respectively will be awarded the four photos selected as the best entered during the TEN WEEK CONTEST.

ALLRED WARNS AGAINST FALSE PROPHETS IN TAX MESSAGE TO JOINT SESSION OF LEGISLATURE

Carry Out the People's
Program Allred
Urges Solons

MONEY MUST BE
RAISED FOR ACTS

"I Am For It" Govern-
nor Tells Houses
In Message

Austin.—Warning the Legislature in joint session Monday of "false prophets" who declare additional revenues are not needed, Governor Allred urged the members to "carry out the people's program" and vote taxes to finance old age assistance, aid to the needy blind, dependent children, and the teachers' retirement act.

"It's a self-evident fact that there is not enough money in the old age assistance fund to adequately provide for our needy old folks," the Governor said. "Unless some additional money is put into this fund by January 1st, they are going to suffer even more. You and I are either for or against adequate and additional funds for these old people. I am for it! Where do you stand?"

"There is no dispute whatever that not a single penny had been provided for the blind, for dependent and neglected children, or for our share of the teacher's retirement act. The Texas people have made their wishes known at the ballot box. You and I must meet this challenge, or stand indicted for breaking faith with the people.

"Let me caution you against those who say there is no necessity for additional taxes, we denounce old age assistance as paying a dole. Whether they know it or not, those who say these things are but playing into the hands of selfish interests, of haughty men who think that because they have acquired great wealth they should be given special privileges. Although able to pay, they are unwilling to bear their share of the burden.

"It's easy in an 'off-election' year for organized powerful groups to propagandize members of the Legislature to the effect that we do not need any new taxes; when they know, you know, I know, we do. It's easy for those who are basking in luxury and ease to say that 'everything's all right' and that we need no new taxes for those in want.

"These people had just as well understand here and now that there is not going to be any turning back. The people have ordered this social security program. Since certain reactionary forces insist that we do not need any new taxes for these purposes, I take my stand with the old folks, with the underprivileged children, with the blind, and with those who have suffered and now suffer social injustices. For them I shall continue to fight."

The Governor said that the "people's social security program" needed a total of \$6,928,000.00 of new revenue. Of this total, the Governor recommended two million dollars annually for old age assistance, a million and a half for aid to the blind. Approximately one and a half million dollars annually was estimated as the state's portion of the teachers' retirement fund. He said the state owed \$1,626,000.00 on past due old age assistance warrants.

The deficit of the general revenue fund, according to the Governor, exceeded fifteen million dollars and would be increased to twenty million at the end of the fiscal year.

For solution to the tax problem, the Governor pointed to his recommendations for increased natural resources taxes; franchise taxes; taxes on the earnings of pipeline companies, utilities and other corporations; and income taxes. He reiterated his opposition to a general sales tax.

TINER'S COLUMN

Mrs. Willmore Trotter Jones, of Madison, Ga., has found and saved thousands of four-leaf clovers. Nevertheless, she has been in five automobile wrecks, has lost three husbands, and has suffered so many misfortunes that the neighbors call her "Calamity Jane."—Denver News.

Mrs. Neville Coleman refused to eat at a table set for thirteen people. She waited until the rest were through, and then sat down alone. Halfway through the meal, she was stricken with a fatal heart attack.—N.Y. Times.

Lightning struck the barn of John Ingram, of Sheridan, Ark., destroying the structure and two mules. Putting faith in the old saw that lightning never strikes twice in the same place, Ingram rebuilt the barn, in the same location. Four weeks later, lightning again struck the barn, and destroyed it and the new mules.—Baltimore Sun.

Munday, Texas

FIRE FAN BUGS URGED TO KEEP OUT OF ZONES

The Munday Fire Department has a large following, when there is a fire. And, they don't seem to care whether the fire truck gets to the fire or not.

Two weeks ago a fire broke out in a small home across the railroad tracks. By careful maneuvering and outspeeding some "firebugs" driver Buel Bowden managed to get the big truck to the scene. However, after he had arrived at the home, fire boys dropped off to string the hose, only to find that the truck had to slowly wend its way back to the fire plug. Thoughtless "firebugs" had followed the big machine right up to the home, cutting it off from the fire plug. Fifteen minutes later the boys had water on the blaze, when it would have taken only three to five, had citizens "kept their distance."

Truck Blocked Out
Close on the heels of the big truck the little fire truck followed, but not for long. Excited fire fans cut in front of the machine and completely blocked it off from the fire. When the fire was extinguished, the little truck was still sitting about 3 blocks from the blaze.

The fire boys are going to start driving as though no one was in front of them—as was demonstrated last night. The little truck came out of the station and forced one car to the curb with screaming brakes.

Lives and property are endangered by thoughtless driving of Munday's "fire fans." ALL CARS MUST STOP AND PULL OVER TO THE CURB—or drastic action will be taken by the city police department, officials warned today.

W. J. Swain, of Munday, returned last week from a 30-day visit in Robbins, California, in the home of his father, who moved from this city more than 16 years ago.

FOR SALE—Good brown Jersey milk cow, will be fresh in 30 days. J. E. Reeves at Reeves-Burton Motor Co. 11c

Servant Quarters Billingsley Home Damaged by Blaze

Fire, thought to have started in bedding of the servant house on the M. F. Billingsley property here destroyed all furnishings of the negro occupants and gutted the walls of the structure.

The blaze was started while the occupants of the house were away from home. The family garage of the Billingsleys which joined the servant quarters was damaged heavily.

A Ford V-8 belonging to Mr. Billingsley was saved from the blaze by its owner, after the flames had gained much headway. A quick run by the local fire department quelled the flames, that seemed certain of razing the building.

Mr. and Mrs. Sam Roberts, of Haskell, J. W. Roberts of Hollis, Oklahoma, were week end guests in the Grady Roberts home.

IT PAYS TO ADVERTISE

County Surveyor Oliver Lee and crew returned last week end from the Bateman ranch in King county, where they made a survey of part of the north portion of the Frank Patton ranch, formerly the Frank Patton ranch, which is being sold to T. B. Masterson of Truscott. Mr. Masterson's JY ranch borders the Bateman ranch on the north and some 17,200 acres of land went to Mr. Masterson in the deal.

Iron and steel making, pulp and paper and other chemical developments, and food processing have been leading factors in a 41 per cent increase in value of southern manufacturers since 1933, reports the All-South Development Council. Expenditures for materials have grown by 51 per cent in the same period.

County Assessor-Collector Earl Sams announced the dates for collecting and receiving county and state taxes in Knox County this week.

Seven communities and towns will be visited by Sams for the purpose of making these collections. Two days will be spent in Munday and Knox City and one day each will be spent in Rhineland, Vera, Goree, Truscott and Gilliland.

Dates for each place follow:

West Texas Free Fair Opens Soon

(Continued From Page 1)

out fair week. An automobile show, showing the latest models; horse and mule show; a dairy products show; and last but not least, the new Central West Texas industry, oil, will have several exhibits.

The final three days of the fair will see the horse races, and the championship rodeo. The races are slated for the afternoons and the rodeo at night. Over \$3000 in purses have been offered for both events. Handicap races will feature the race meet while the rodeo's big attraction will be the top-notch entrants.

Admission to the West Texas Free Fair is without gate charge, giving West Texans a big free show. One of the largest fair crowds to ever attend such an event west of Fort Worth is expected to pass through the turnstiles during the six days.

Date To Receive Taxes Announced

County Assessor-Collector Earl Sams announced the dates for collecting and receiving county and state taxes in Knox County this week.

Seven communities and towns will be visited by Sams for the purpose of making these collections. Two days will be spent in Munday and Knox City and one day each will be spent in Rhineland, Vera, Goree, Truscott and Gilliland.

Dates for each place follow:

Knox City, November 12 and 13; Truscott, Nov. 16; Gilliland, Nov. 17; Goree, Nov. 18; Munday, Nov. 19 and 20; Rhineland, Nov. 23 and Vera, November 24.

Jeff Dean Bowden, Gail Reynolds and Drusilla Jones, who are attending Hardin-Simmons University in Abilene, returned to Munday to spend the week-end.

The total value of mineral production of the South in 1936 was \$1,414,163,000 (billions), more than 38 per cent of the national total. Petroleum products, according to the All-South Development Council, accounted for 46.8 per cent of this southern total. Since 1910 the South's mineral output has increased by 283 per cent while the rest of the country shows a gain of but

REXALL PLAN SAVES FOR BUYER

MOTION PICTURE CAMERA FOR HOME NOW POSSIBLE FOR EVERYONE

Motion picture cameras for the home are possible for everyone, A. L. Smith, manager of the Rexall Drug Store, stated this week.

The new 1938 models are best machines ever made and the price range has been reduced to as to be within the reach of the slimmest pocketbooks.

Two outstanding kodak and projection machines are carried in the

large stock of this store, Univex projectors, and Eastman Kodaks.

One of the new home motion picture machines, electric and automatic in operation, will film 16 minutes of continuous pictures.

Amateur cameramen will find a varied assortment of camera supplies for special kodak work. Special lenses, screens, filters and films.

Rexall Fountain Is Equipped With Modern Apparatus

Thirsty. You can "drink a bite to eat" at the modern equipped Rexall Drug Fountain.

Ice cream in three price ranges, giving you three grades. frozen malt, brick and package cream and double cream cones. If you like bottled Coca Colas, we can give it to you in a glass served over our fountain mixed by our new Coca Cola pressure automatic mixer. It's fresh, mixed with the same pressure that the bottle companies give you.

Dorothy Hendricks and R. C. Spinks are waiting to serve you.

Glenn Bailey of Weinert was in the city transacting business Monday.

Survey 200,000 Acres

Tabulations regarding the district-wide soil conservation project in the Lubock district of the National Youth Administration, sponsored by the Agricultural Extension Service, showed that more than 200,000 acres of land in 13 counties of this area had been surveyed by NYA youth preparatory to terracing, contouring, and construction of other conservation structures, A. V. Bullock, district supervisor, has reported to J. C. Kellam, State Youth Director.

Assist Orphans Home

Negro youths working on an NYA work project at the Del Pelchin Faith Home in Houston are assisting the various departments heads in caring for 125 dependent children in Harris county. These youths work in the laundry, hospital, cafeteria, nursery, and dormitories at the home. J. C. Kellam, State Youth Director, stated that an off-the-job training program, consisting of actual classroom work in child care is conducted for the youths.

Day and Night Service On Prescriptions

If a person is ill, they want service when they order medical supplies and medicines. They also want more than service—they, as well as the attending physician, want the best that can be had in their compounded prescribed medicines.

The Rexall Drug Store can and has for 30 years, furnished citizens of the Munday trade area both service and quality.

We have one of the largest and most complete prescription departments in this section, stocked with only the best medical compounds that money can buy.

Parke-Davis, Upjohn, Lilly, and Abbott head the world medical supplies when it comes to quality. They make their preparations with only one aim in view, to give the best that medical science has developed. Each company has large laboratories that are manned by the world's greatest medical scientists and developers of medicines.

"We must put quality first because we carry only quality products," A. L. Smith, manager, stated. "Another feature in using our prescription department is day and night service and free delivery service."

MIDDLEMAN IS ELIMINATED IN REXALL BUYING

Means Saving to Local Consumers of 15 To 25 Percent

GUARANTEE IS MADE BY STORE

A. L. Smith Manager Of Munday Rexall Drug Store

Person who must purchase drugs, medicines and other drug store items can save money, money that will amount to dollars over a short period of time by purchasing Rexall products.

This fact was made known through what is known as "The Rexall Plan." What we mean when we say "Rexall Plan," A. L. Smith, manager of the local Rexall store commented, "is that there is no jobber connected with Rexall products."

Rexall merchants purchase their merchandise direct from the factory, eliminating the middle man, so common in other merchandising lines, who must have their profit, just as the factory and local merchant must have. By eliminating the middle man in process of buying and selling, the public is saved from 15 per cent to 25 per cent on every drug store item purchased.

Another outstanding feature to be found in all Rexall stores is the guarantee that accompanies their products. The factory guarantees their products to the local merchant, and in turn the local merchant places his personal guarantee on the product sold to the consumer.

That feature is well worth considering, Smith stated, in that the local merchant will sell his merchandise with a money back guarantee, thus eliminating having to send in to the company headquarters for a refund, or new merchandise. The local firm will reimburse the consumer and the factory reimburses the merchant which saves time.

The world's largest, complete line of drugs, sold at a lower price, with quality featured in preference to quantity, is the principal reason for the growth of Rexall.

Fine Assortment Of Pipes Shown At Rexall Store

Lovers of "pipe smoking" will find what they want at the Rexall Drug Store. Five outstanding brands of pipes, nationally known, and made of the best materials, are accessible to those who desire pipes, at this store.

One of the best smoking and lightest pipes sold, Meerschbaum, is stocked at the Rexall, Kaywood, Smoke Master, Bakelite and Yello-Bole are also popular sellers on display at this store.

One of the new 1938 features in pipes is the Yello-Bole Carburetor smoker.

Filters, cleaners, lighter flints, wicks, and fluid are carried to make pipe smoking a pleasure for Rexall patrons.

ELECTRICAL APPLIANCES FOR HOME SOLD BY REXALL FIRM IN MUNDAY

Complete Supply Of Cosmetics in Rexall Firm Here

For cosmetology and beautification applications, ladies will find their every need in the cosmetics department of the Rexall Drug Store.

Large variety of shades to blend in with your complexion in powders and other facial beautifiers.

of men and women become desperately ill or lose their lives because of this misconception of the doctor's limitations or because of an unjustified self-reliance to meet sickness conditions themselves.

"The family physician cannot fulfill his whole duty to the public until his dual function is appreciated and the services for which he is so eminently qualified to perform are promptly applied. It must be understood that personal health is just that. It cannot be entirely delegated to public health doctors, sanitary engineers

General Electric And Servel Electrolux Lines Are Sold

Modern homes demand modern electric appliances. Comfort, and real home happiness can be increased by shopping the electrical appliance department of the Rexall Drug Store.

Heating pads, toasters, percolators, irons, washing machines, refrigerators, by General Electric, and Servel Electrolux gas and kerosene ice boxes are a few of the many devices that will make home a "castle."

To add diversion, entertainment, and musical programs to your home a trip through our radio department will solve your needs. Radios priced to go into the homes of everyone.

RCA, Philco, Sentinel and Motorola radios for home and your car. We have a modern repair shop, with Melvin Strickland in charge, and carry parts and tubes for your radios. The new 1938 models are now on display.

Mr. and Mrs. R. R. Davenport spent Sunday in Electra, Texas, visiting friends.

and research laboratory workers. And personal health means first, the prevention of disease or its early discovery; and second, the cure of an existing illness.

Mass Control For Prevention, Care Disease Gaining

Past 35 Years Have Seen Great Strides in Applied and Preventive Medicines

"In the last thirty-five years great strides have been made in applied and preventive medicine. Never have mass controls for the prevention of disease and the medical and surgical treatment for illnesses been so highly developed as today. Unfortunately, however, the significance of this forward movement is not yet generally appreciated by the average individual. Though science, by way of the family physician, stands ready to preserve individual health, personal indifference, self diagnosis, and self-treatment represent barriers to the helpfulness available in the doctor's office," states Dr. Geo. W. Cox, State Health Officer.

"Unfortunately, the vast majority of people still consider their doctor merely as an emergency aid. So long as they are well or are not conscious of any physical impairment, they imagine a physician's services are not required. Moreover, there are many who, even though ill, permit themselves or their friends to diagnose the trouble and prescribe some bottled or tablet medicine for the supposed condition. For this group interest in the family doctor only becomes acute when the self-prescribed remedies fail to cope with the situation. It can be frankly said that thousands upon thousands

Knox County Boys Listed Among 4-H Fed Beef Projects

Northwest Texas 4-H club boys are showing a great interest in feeding beef calves to exhibit at livestock fairs and have a large number of calves on feed at the present time, reports from county agricultural agents in that territory indicate.

In Knox county, 30 calves are being fed out by 4-H club boys, and the county agricultural agent predicts a commendable showing at calf shows next year. Joe Dean Clough of Munday is feeding an Angus and a Hereford calf and reports a daily gain of 3 pounds for each calf during the past month in spite of the very hot weather. The Angus gained 110 pounds in 32 days and the Hereford gained an even 100 pounds for the same period.

Plan School Pilgrimage to Exposition

L. A. Woods, State Superintendent of Public Instruction, visited the Pan American Exposition in Dallas last week, with members of his staff, and joined with Exposition officials in outlining plans to bring 500,000 Texas school children to the World's Fair before its close October 31. Railroads are running scores of special trains for school children and the movement will also be by automobile and bus. "The public schools of Texas should make the Pan American Exposition a field event this year," Superintendent Woods (right) tells Assistant Director General Frank N. Watson.

NOVEL AMATEUR PHOTOGRAPHERS CONTEST WILL BE SPONSORED BY LONE STAR GAS COMPANY SYSTEM

Nothing to Buy Nor Letters To Write In The Contest

A novel contest for amateur photographers which reverses the usual order of such competitions is announced by Lone Star Gas System in an advertisement appearing in this issue. Instead of asking the contestant to buy something or write an essay about a product, the gas company announces that it wants to buy from its customers one hundred good photographs of gas heating equipment. "There is nothing to buy, no letters to write, in this contest," the company explains in announcing the contest which opens October 11 and will close December 18. "Your gas company and national manufacturers of heating appliances wish to obtain photos or snapshots illustrating various types of gas heating equipment used in the homes of this section. We need one hundred good photos or snapshots of home interiors that can be used to illustrate gas heating appliances. We want to buy these 100 photos from our gas customers and will pay \$10 each for the ten best submitted each week during the ten week contest. At the end of the ten week period grand prizes of \$100, \$75, \$50 and 25 will be awarded for the four best entries submitted during the contest."

In explaining the reason for the contest, company officials said: "One of the most difficult things to obtain is an interior view showing gas heating equipment in natural home surroundings. We have a definite need for such pictures, for experience has shown us that it is difficult for customers who wish to buy heating equipment to visualize how the appliance they are considering will look in their home. It will heat comfortably, but will it harmonize with other furniture, they wonder? The photos we hope to obtain through this contest will be of great assistance in helping them decide

just which type of heating appliance will look best in their own home."

The contest is open to anyone living in a home supplied gas by any of the Lone Star Gas System companies with the exception of professional photographers or others who may take pictures for commercial purposes, and Lone Star Gas system employees and their immediate families. Companies participating in the contest include Lone Star Gas Co., the Dallas Gas Co., County Gas Co., and Community Natural Gas Co. Entries may be submitted at the nearest gas company office or mailed directly to Lone Star Gas System Advertising Department, 305 South Harwood, Dallas. Folders giving complete information on the contest and showing sample pictures similar to those desired may be obtained from the gas company.

Old Formations Studied
On geology field trips, students at John Tarleton College inspect formations ranging from 50 million to 100 million years old. Formations near Lipan, Patillo, and Thurber in northern Erath and southern Palo Pinto counties represent the Pennsylvania epoch in geological time of 100 million years ago. In other parts of Erath county formations of the Cretaceous period, 50 million years ago, may be found.

Assist in Hospitals
Eighty NYA youths in Dallas are serving as hospital assistants in the Parkland City-County Hospital preparing and serving food, acting as maids and orderlies, and assisting in routine hospital duties. C. P. Little, Jr., district supervisor, has reported to J. C. Kellam, State Director.

Miss Lorene Newsom, manager of the Munday telephone exchange, spent the week-end in Wichita Falls

Approximately \$200,000,000 of Public Works Contracted in Texas Since 1936

Conditions of Business Termed "Good" Due to Construction

Austin, Texas.—Old Man Texas has shown his confidence in the future by contracting for around two hundred million dollars worth of public works in the past two and a half years.

This amount in bonds issued by local units of government has been approved during that period by Attorney General William McCraw, he announced here today.

Calling the bond issue approval department of the Attorney General's office his "official economic barometer," McCraw called particular attention to the fact that a considerable portion of the \$200,000,000 in bonds has been approved since early in 1936—"after the Federal Government's 'pump priming' had ended.

"Contrary to expectations, the building program has gone steadily on. Through 1936, through these eight months of 1937, Texans have continued right ahead on projects which have meant thousands of jobs for workers and jobs for other thousands of persons who make materials.

"There has been no abnormally large building program reflected by these issues; it has been of the type normally to be expected in a stable, prosperous state, whose people were confident of their present condition of future prospects.

"The construction activity, as shown by the bond issues, has been confined to no section, but spread broadly over the land. It has not been concentrated at any season, but has been a steady flow which leads me to believe that inherently it reflects better business and economic conditions all over Texas. People do not sanction money for public works when they themselves are in need of money.

"I am convinced that approval of two hundred million dollars worth of bonds in the period of about two and a half years reflects a very healthy business condition for the state of Texas and the governmental units which make up that state."

--BUILD MUNDAY--

30 Years of Service Built Rexall Business

Thirty years of continuous satisfactory service has built for the Rexall Drug Store one of the largest volumes of drug business in this section of Texas.

Each year the store has increased its lines of merchandise, and accordingly increased their volume of business. During the past three years the firm has been under the management of A. L. Smith, former Weimans druggist.

He is still connected with the Weimert firm.

Smith pointed out, that the fact that "Rexall" products are sold, was enough reason to cite for the steadily increasing business volume

enjoyed by his firm.

The Smith family includes three children besides Mr. and Mrs. Smith. A. L. Jr., 8 years old, Gwynalee, age five and Wayne, one year old.

The family takes an active part in civic enterprises, Mr. Smith being a member of the Lions Club, and the Munday Chamber of Commerce. They are affiliated with the First Baptist church.

Athlete Receives Award

Another blow to the "athletes are dumb" prejudice came recently at John Tarleton College when John H. Buckner of Cleburne received the engineer's award for the highest ranking junior student in the engineering department. Buckner played guard on the Tarleton Ploymboy eleven last year.

The combined flow of the New Braunfels and San Marcos springs amounts to 295,000,000 gallons per day, or enough to supply nearly one third of the water consumption of New York City, according to Texas Planning Board engineers.

Home Education

"The Child's First School is the Family"
By Dr. James E. Pope

THE CHILD AND HIS HOBBY

"PAGE THE POLICE"
Jack Wooten

In her zeal to find bargains, Mrs. Wilson had lost Tommy, her five-year-old son. While she was frantically searching for the child, Policeman Bates was trying to console the distraught boy who had slipped away and wandered a block up the street from the department store where his mother was shopping. But the officer was not making much headway, for Tommy was "scared almost to death." He was frightened both because he was lost and because he was face to face with that "bugaboo" his mother had taught him to fear. "Don't do this," and "Don't do that," Mrs. Wilson had told Tommy hundreds of times. "If you do the policeman will get you and put you in jail."

Tommy had believed. That was the reason why policeman Bates was having so much difficulty in getting the barest information out of the boy as to who he was, where he came from and why he was aimlessly wandering around by himself.

Finally, the officer gave up and sent the youngster to headquarters in the hope that the chief might get better results.

The child was even more frightened when he saw the police official. Those brass buttons, instead of being a consolation, almost threw him into hysterics. He shrank away from the kind man as if he had been a huge monster and the golden braid on his coat a symbol of destruction.

The more the chief tried to con-

sole him, the more terrified Tommy became. His sobbing reverberated throughout the room, and when the officer made a move to touch him he screamed, as if he were coming out of a dreadful dream.

Mrs. Wilson herself was not afraid of policemen. Once when a burglar had entered her home, she had immediately thought of the "cops." In making her own way in a strange city one day she had promptly sought the aid of a "blue coat."

And so, after vainly searching for her lost child and nearly losing her mind with the thought that something terrible had happened to Tommy, she finally remembered that she was a taxpayer and that the police were servants of the public. Accordingly, she went to police headquarters, and there found Tommy.

Now, of course, all the misery that poor Tommy had suffered would have been avoided had Mrs. Wilson taught Tommy to admire and trust policemen instead of teaching him to dislike and fear them. In her eagerness to make the boy behave and in order to stifle some minor annoyances, she has destroyed his confidence in one of the chief mediums of civilization's protection.

Parents are shortsighted indeed who impress in their children the idea that officers of the law are "big, bad wolves" or that they are pitiless men whose business it is to punish little boys and girls. It is very much worth while to teach them that the kindly policeman "with his gold braid and big brass buttons is their friend."

FORMULA FOR FALL GARDEN SUCCESS GIVEN BY A. & M. HORTICULTURIST

College Station, Sept. 1—"Fresh vegetables, as supplied by fall gardens, are necessary to supply variety in the fall and winter diet," says J. F. Rosborough, horticulturist of the Texas Extension Service, who gives a series of suggestions which will make the fall garden more successful.

Rosborough divides vegetables into three groups on a basis of maturity. South Texas gardens may contain all three groups, early, medium and slow maturing plants. Central and North Texas gardens may carry the medium and early maturing plants. Only the early group can reasonably be expected to mature in the Panhandle and Plains section.

Included in the early group are mustard, radishes, turnips, leafy lettuce, and similar vegetables which will be ready for harvest in around 45 days. The medium group is made up of Irish potatoes, beets, onions from sets, Swiss chard, collards and the like, which will mature in 60 to 70 days. The slow maturing group includes spinach, cabbage, carrots, beans, and similar types, which require about 100 days to reach maturity.

Summer weeds should be cut and removed from the garden site, Rosborough said, as they will dry out the soil through heat generated by decay. From three to four wagon loads of well rotted manure over half acre of garden will hold moisture and help growth.

Rosborough warned that fall gardens should not be planted until rains had provided plentiful soil moisture. To insure a fair stand of fall vegetables under favorable conditions, fall sown seed should be planted at a much thicker rate than is necessary in the spring.

Install Fly Catchers "There are no flies on me!" There are no flies on me! So, if hogs could sing, the hogs at John Tarleton Agricultural College farm at Stephenville might sing soon. For electric fly catchers installed at the Tarleton hog barn omnivorously draw flies, promptly electrocute them.

Faculty Head is Composer William P. Grant, recently named to the faculty of the John Tarleton College department of music, has fifty compositions to his credit. Several of these are for full orchestra. Two movements of one of Grant's symphonies will be presented this fall by the Rochester Symphony Orchestra at Rochester, N.Y., under the direction of Howard Hanson of the Eastman School of Music.

The volume consists of Southwestern poetry. Contributions welcomed. Enclose return postage. Address: Wm. T. Tardy, publisher, Liberty Bank Building, Dallas.

LACKING!
No children in the spacious house,
Nor on the well-kept lawn,
Where flower blooms are undisturbed,
Till summer days are gone.

No little feet to run and play,
Or scamper through the hall,
No voices raised in eager talk,
Of dolls and games and ball.

The grass is neatly trimmed and sheared,
No path across its sod,
For the little feet could not remain,
They went back home to God.

—Vernon Hartmann Lawrence,
Houston, author of
The Brimming Cup

SONG FOR A WOMAN
We went by and the road went by;
She was a vision saved for me—
Halfway down the little wood
And halfway up the raftertree.

She was a dream I had alone
And no one else was given to see,
There in the dusk where no house
stood
And dusk was a thing that had to be.

House in the hollow and woody hill
And field to sum the snares to three—
House in the hollow and woody hill
And woman between for a riddle-key.

—Siddie Joe Johnson, Corpus Christi

YOUR WORDS
Your words, my dear, your words!
Even the dresser clock
Has gone to saying them, too.

The dresser clock?
Why, yes, they came so thick and fast
They had to go somewhere.

Go somewhere?
Go somewhere, I should say,
When every room is too full to hold.

Too full to hold?
Too full to hold:

Youngster Traces His Recovery From Life As Cripple

Eleven years ago, John DeLee, 1653 Lucille, Wichita Falls, was thought to be destined for the life of a hunchback. John was only two years old at the time and physicians had diagnosed his case as being tubercular spine. Three vertebrae were affected, and the bones were protruding and bending outward.

The boy's parents were financially able to have the best physicians in the world for their son, and the first place where John was taken was to the Carrell-Driver-Girard clinic in Dallas.

Recovery Starts

According to Mrs. DeLee, they spent a large sum of money at the clinic and were well satisfied with the treatment. One of the first things the physicians did was to put the boy in a frame, similar to the torture rack of medieval times. Sun baths, proper diet, proper rest and constant application of the straps on the frame against the effected parts were about all the treatment given the boy.

In the beginning the physicians told the parents that they would have to take good care of the boy, that treatment would last for more than ten years, and that an almost complete cure could be effected if the directions were followed minutely.

Then the Depression

For several years this treatment went on in the clinic. As in the case of many other people, money was not as plentiful as it had been, and the parents were almost desperate. They asked Dr. Carrell what should be done, and he recommended that John be placed in the Scottish Rite Hospital.

To their surprise, John was more contented in the new place, although the treatment was not as expensive. The only difference in the two hospitals was the fact that the new home didn't have a swimming pool, but there were more youngsters there and he was better satisfied, because he had more playmates, and he couldn't swim anyhow.

Mrs. DeLee in telling of the treatment received in the Scottish Rite home, said it has the same staff of doctors with identical equipment, who devote as much time to one hospital as they do to the other. In telling of the treatment and

of the almost miraculous cure of her son, Mrs. DeLee was endorsing the Crippled Children's Clinic to be held in Wichita Falls on Oct. 3. Dr. Carrell, Dr. P. M. Driver and Dr. Jim Girard will all be in Wichita Falls for the occasion, and every crippled child in the territory will be given a free examination and in many cases the child will be given a new hope in life—the hope that some day useless limbs will be used again in work or play. To be sure, there are few complete cures, and here are only a few cures as nearly complete as John DeLee's, but even partial use of a paralyzed leg or arm is worth all their effort.

The clinic will be under the sponsorship of the Wichita Valley Scottish Rite association and Maskat Shrine Temple, but this does not mean that children must be from Masonic parents or have relatives who belong to the Masonic lodge.

No child who is crippled and needs attention will be barred from the clinic. Race, creed or color are not taken into consideration. Just the fact that children need help is enough to qualify them for the first examination and the curable cases will be sent to the Scottish Rite hospital where they will receive treatment from the staff of physicians who charge large fees for their private practice.

Another feature of the clinic will be the fact that all Masonic lodges in the 22 counties that comprise the Wichita Falls territory will furnish free transportation to any child in their county who otherwise is unable to come to Wichita Falls on that date.

In addition to the Dallas physicians, the Wichita County Medical society and the Wichita Falls Graduate Nurses association will assist in the work.

CARD OF THANKS

We wish to thank each and every one for the loving kindness shown us during the long illness and death of our beloved daughter and sister, also for the beautiful floral offering.

Especially do we want to thank Prof. Evans and wife and Dr. L. A. Barber. May God bless each and everyone of you is our prayer. Mr. and Mrs. Guy Reagan and family.

Mrs. J. J. Morgan, Sipe Springs, is visiting her daughter, Mrs. J. O. Bowden and family this week.

"Magic Island" At San Francisco Dredged Up From Sea

The 430-acre site of the Golden Gate International Exposition shown above is literally a magic island for it was made of material dredged up from the sea. After the exposition in 1939 it will be transformed into a fine municipal airport.

Half of the sea wall for the island was transported by CMC trucks from the quarry to sea-going barges that dropped the big boulders into place. Photos below show the trucks at work in the quarry and loading one of the huge barges.

Examinations of Schools Children For Tooth Defects

Austin, Texas.—Ninety-five out of every 100 school children have decayed teeth, estimates State Health Officer Geo. W. Cox, the average pre-school child of six years has three or four cavities.

Dr. Cox this week urged Texas parents to have their children's teeth examined now by the family dentist in order that mouth defects might be corrected early and with the least possible ill-health, pain and expense.

"It isn't possible to say definitely how much time is lost in school attendance through tooth troubles and neglected teeth," Dr. Cox said. "But it is an admitted fact that if every school child could start the

school year with teeth free from defects and well cared for the attendance would be materially improved. At the same time, the child would be spared the unnecessary suffering that comes from neglected teeth.

"Individual care of the teeth is of special importance in maintaining mouth health—and incidentally in keeping in perfect health. Eating proper food, and a thorough cleansing of the teeth, twice a day, plus gum massage, are essential for the preservation of mouth health.

"As a matter of fact, more parents should see to it that their children use their tooth brushes properly," Dr. Cox stated. "The mere fact that a child goes through the motions of brushing his teeth does not mean that his teeth will not decay. Cleanliness, not mere brushing, is the thing to be emphasized. The proper way to brush the teeth is to brush the upper

teeth downward and the lower teeth upward, sweeping across the gum in between the teeth, thereby reaching the areas most susceptible to decay."

And finally, sensible people have formed the habit of going themselves and taking their children to the dentist every six months, whether they notice any evidence of trouble. Periodic inspections enable the dentist to detect the beginning of tooth decay, which may be repaired before expensive damage is done. He can forestall threat-

Knox County Boys Listed Among 4-H Fed Beef Projects

(Continued From Page 1)

This gain was possible, Joe Dean says, because the calves had a cool stall which is screened fly proof and is kept clean at all times. Fresh grain feed and clean water are kept before the calves at all times, causing them to eat just a little more than is customary at this time of the year.

A beef calf club with 32 members has been started in Howard county. The members all raised feed crops last winter and their crops ranged from three to 10 acres each. Therefore the only feed they will have to buy is about 400 pounds of cottonseed meal for each calf. About one-half of the calves will be fed from trench silos.

Richard and Gerald Young and Weldon and M. S. Reynolds of Fisher county have been heading maize on shares to get feed to feed out their choice dry lot Hereford calves. They will harvest enough so that they will not have to buy any additional feed except protein supplement.

Repair City Park

A group of NYA youths in Abilene are renovating and repairing the City Fair Park for the annual Fall Fair of Taylor County. They have built a fence around the park area and race track, repaired exhibit halls, and improved the park grounds.

ening gum infections by appropriate treatment, and also, he has an opportunity to give advice about special care which may be indicated.

NO MATTER WHERE YOU LIVE YOU CAN HAVE Modern City Refrigeration

- Protects food perfectly
