Hot, ain't it?

Despite our feelings, that 103 degrees officially recorded for Munday on election day made us feel like summer was here, but that was not a fact.

We had a number of hot days prior to that time. It became hot enough in March that we hurried up and purchased a batch of caladium bulbs and quite promptly placed them in the ground.

Weeks passed, and we failed to see any sprouts coming through.

We thought of what Mrs. Charles Conner of Haskell told us one time: "You have to wait until the soil warms up to plant caladiums, or they'll rot."

Then it was that we spaded a bulb out of the ground to inspect its condition. No rot, as yet!

Finally, they began to peep through - little stems that would stay there for days without even opening up into leaves.

We then saw in a garden section of a paper that we should not plant caladium bulbs until May or June in order to get away from the fear of rotting before sprouting.

Now, most of them have emerged and are beginning to take on form and color. We pledge at this time to put a check-rein on our feelings when the first warm days of spring arrive next year.

We might forget this when the weather warms up and it gets close to our regular planting date: Good Friday. We observed this date this year, and some weeks later found ourselves doing some replanting.

It seems the weather is something that can't be depended upon in every detail.

All those hot spells during weeks just passed were just to remind us that the weather pays no attention to the calendar, in the main, that is. It possibly dished out some varied types of weather just as "teasers" for us.

What the weatherman really wanted to do was to get us started to adjusting our feelings and activities and become acclimated for what he would really dish out to us in the future.

You see, it wasn't officially summer until last Saturday. This was the longest day in the year, in that daylight lasted longer than any other day in the year.

The first day of summer sort of "backed off" of those scorcher-type days when we'd stay near cooling systems and give an occasional glance to see how much above 100 degrees the mercury had climbed.

Perhaps those earlier 100-plus days that came before summer means that they will let off a little earlier this year, no matter what the calendar allows.

Reminds us of a story C. R. Elliott used to tell. Meeting a friend on the street, he said: "Hot, ain't it?", to which the friend replied: "Yep, but it's the time of year for it, and kept on going!"

"Hope ever tells us tomorrow will be better".

Potato Harvest Is Going Strong

Potato farmers who had hopes of a better-than-average crop this year suffered a severe blow when devastating hail hit their crops in late May. The loss by hail and water was felt by a majority of farmers.

Potato harvest is well

under way this week, with most processing sheds in the area reporting about 50 percent of the acreage being harvested. Most of the damaged crops are being harvested, with the loss being "50% or less" in most fields.

"Trouble was," reported up to 50 percent on vines were destroyed. Processing at Colville and th and further maturing in Wilson shed was in full blast the spuds was stopped Monday morning, but work- They went to work, ers were culling out lots of ever, digging the damaged spuds as they went through the washing and salvage a portion of grading process.

4-H Fashion Show Set For June 30th

The Knox County 4-H members are very busy completing their garments to be modeled at the Fashion Revue on Monday, June 30, at the Benjamin Memorial Center.

A covered dish luncheon will begin at 6:30 p.m. The style show time is 7:30 p.m. Girls from Munday, Knox City and Benjamin are involved in this project.

Munday girls are Lynn Parker, Ann Parker, Cindy Maston, Bobbie Toliver, Kathy Booe, Molly Grimes, Julie Partridge, Christy Morgan, Cherie Welch and Amy Parker. Leaders are Frances Parker, Mary Huffman, Shirley Welch and Myrtle Everett.

Knox City members participating are Karen Daniel, Patricia Sanders, and Shana Chaney. Leaders are Ila Gross, Sheryll Daniel, Cindy Roberson and Glenna Sanders.

Girls from Benjamin are SuLynn Oxford, Stacia Ryder, Mitzie Lindsey, Lorrie Rolston, Sue Gideon, Kim Cash, Sherry Parker, Becky Griffith, Amy Griffith, Lori Griffith, Lauren Reed, Beverly Tolson and Debbie Bufkin. Benjamin leaders are Sue Oxford, Jan Rolston, Janet Conner, Susan Jones and Linda Griffith.

The public is invited to attend the style show to view the garments on the girls.

Baker Named Chairman Of Board At Local Bank

Charles Baker was elected Chairman of the Board of Directors of The First National Bank of Munday, at a regular monthly meeting held recently. He has served as director of the bank for approximately ten years.

He has been a definite asset to the board and to the bank's progress during the years he has served as a director. His commitment and past achievements in the business world indicated to the board his ability to serve as chairman. He has offered numerous innovative ideas to the board, tempered with his sound business knowledge which have proved useful. Baker served as committee chairman and was very instrumental in laying plans for the new drive-in bank facility.

Through the years, Baker has been very active in civic organizations and is always ready to lend a hand when involvement is needed to

help our community in any way. He has served as past president of Munday Chamber of Commerce and Agriculture. Baker was honored as Citizen of the Year in 1963.

He and his wife, Betty, have two sons, Bill of Azle and Bobby of Amarillo. They also have two granddaughters. In addition to spending time with these two little girls, Baker enjoys oil painting and playing golf.

Gary Schur, president of First National Bank, expressed his extreme pleasure in the election of Mr. Baker to this position. He and the other officers are looking forward to working with the new chairman.

Home Watch Offered By Local Police

Several years ago, a program was started by the Munday Police Department, to watch citizens' homes while they are away.

Police Chief Gerald Saffel reminds the people in the city limits of Munday that this program is still in effect. To take advantage of it, you should call the police number, 422-4223, and advise the exact date you will leave and return.

You will also be expected to give the name of someone in Munday whom they may contact if the home is found disturbed. The police need to know the name of a person having a key to your residence. It is necessary for you to inform them what lights, if any, are going to be left on.

If you desire this service, it is free for the asking, by calling the number listed above and giving these few pertinent facts.

Powder Puff Mechanics Class Turns Out 'Pros'

"It's been an experience I've really learned a lot." "I didn't know that!" All of these statements were made by ladies attending the Powder Puff Mechanics class at the Munday Ag Shop last week.

Co-sponsoring the school were Greg Rawdon, Ag teacher, and Mrs. Penny Winchester, Homemaking teacher. Mrs. Winchester was both a sponsor and student. She also provided

Knox County Hospital To Organize Auxiliary

added to benefit the Knox County Hospital! Through efforts of Director of Nurses Melba Pharr, a hospital auxiliary is in the process of being organized.

Refreshments each night. Ralph Cypert, local auto repair service owner, was kind enough to give his time and knowledge to instruct the classes. Mr. Rawdon assisted him in the teaching duties (that is to say, they were both badly needed).

"For many years, men have given their time and efforts to serving on hospital boards and foundations," stated Mrs. Pharr. "Possibly the beginning of hospital auxiliaries may have been the outgrowth of the desire for a common family interest."

Expressions such as "I've seen some of those before" were heard when Mr. Cypert brought forth the booster cables. However, when the demonstration was over, each lady knew exactly how to boost a car battery.

Mrs. Pharr explained that as the hospital and its services have grown, improving with more and better equipment and knowledge, there has also developed a changing order of hospital-care programs. All of these things have made more work for highly trained professional per-

Service rendered by hospital auxiliary volunteers cannot be valued in dollars and cents. One purpose of a hospital auxiliary is to promote public interest in better patient care for all the people. Another purpose of a hospital auxiliary is to assist the hospital in the development of this better patient care by providing volunteer services, promoting better understanding between the hospital and the community, and assisting in financing.

The auxiliary volunteer compliments the work of trained personnel so that the employee may have more time for the more technical job for which he or she is trained, thus increasing services to the hospital and broadening services to the patient. "The auxiliary volunteer does not replace any paid employee," Mrs. Pharr explained.

The auxiliary member or volunteer can be the hospital's best public relations medium. Active, well informed auxiliary members can do much to further good public relations by "telling the hospital story". The hospital auxiliary can be a vital link between the hospital and area communities.

The hospital auxiliary can do much to enlarge the services to patients and staff through fund raising projects. Many services may not otherwise be available if dependent entirely upon the regular programs or budget of the hospital.

Mrs. Pharr emphasized, (Continued on Page 2)

Opry Benefit Show Slated July 24

Opry owner Chisai Childs announced this week that the Grapevine Opry Road Show would be returning to this area Thursday, July 24, at 8:00 p.m. in the Munday High School Auditorium - this time to benefit the Knox County Hospital Auxiliary, an organization now in the process of being formed, to assist the hospital in voluntary services, public relations, and fund-raising projects.

Grapevine Opry band will also perform. In addition to City, they can be purchased at Knox County Hospital business office or at The Knox County News. Advance tickets will be \$5.00 for adults and \$3.00 for children twelve and under. Tickets at the door will be \$5.50 and \$3.50.

Opry fans who have traveled to Grapevine for the musical variety show, or who attended the road show last September in Benjamin, know what they have in store when the show unfolds for an evening of family fun and entertainment.

Tickets will go on sale within the next ten days and will be available at First National Bank and McCauley-Smith Funeral Home in Munday.

Miss Childs, who has expressed a desire to return to the area since appearing in Benjamin last fall, will co-host the show with Opry music director, Dave Tanner. Featured acts from the Grapevine Opry regulars tentatively scheduled to appear on the show include Joey Allen, The Angle Sisters, Marvin Short, Valerie Dacus, The Master's Four, and The Davis Brothers. Chisai, Tanner, and members of the fabulous

Club Championship Tourney Is Slated

Who will be the 1980 champion of Lake Cree Golf Club?

The first match will be played on either July 11 or 12, and these winners will play the second match on July 13, 14, or 15. Finals will be reeled off on July 16, 17, 18 or 19.

This will be determined in a matched play club tournament beginning on July 11, according to Jack Nuckols, tournament director. The championship will be determined by the winner of the most holes, rather than by score.

Entries must be turned in to Jack Nuckols, director, or Gary Schur.

Interest is already being shown in this instant tourney, and all members of the club are encouraged to enter. Each golfer will turn in his average score along with \$10 entry fee, July 8. Three flights anticipated.

Dana, Jason, and Andrea Haynie of Corpus Christi, spent last week visiting Mr. and Mrs. Robert Hertel, Mr. and Mrs. Gene Haynie and other relatives. Mrs. Marie Koehler of Corpus, accompanied Dana and her children to Munday, and visited Mrs. Loretta Albus.

Explanation Of Chemicals Used In Miller Creek Water

In March 1980 state approval was given to the water, at Miller Creek Reservoir. This is a definite asset to Munday and the other member towns. As each city strives to get the water approved inside their city lines, it is an obstacle crossed to have the state approved water flowing through the pipes from the North Central Texas Water Authority treatment station to the "city gate" of each town.

This is a list and brief explanation of the chemicals used in the water treatment process of the North Central Texas Municipal Water Authority. All chemicals used meet or exceed minimum quality standards as set by the American Water Works Association.

1. Chlorine - Disinfection is the primary concern of any domestic water supply and chlorination with chlorine gas prevails as the most effective and economical means available. Disinfection is accomplished by treating the water with 99.5% pure chlorine in the

gaseous form. Chlorine is introduced into the water at three points during treatment process - several points in the distribution system. This method is used to insure the proper level of concentration maintained throughout distribution system to produce a safe, potable water supply.

2. Ammonia - Anhydrous ammonia is used in water treatment as an aid chlorine in disinfection water. When ammonia and chlorine are used together they combine to form compound known as chloramine. While chloramine will not kill bacteria as fast as free chlorine, it will longer which aids in maintaining the proper chlorine level over an extended period of time.

HOSPITAL AUXILIARY

(Continued from Page 1)

"The hospital auxiliary will need support from all surrounding communities. An organizational meeting is scheduled in the near future and all interested persons are encouraged to contact me at their earliest convenience. Auxiliary seminars will be available," Mrs. Pharr continued, "as well as assistance by an invited representative with auxiliary experience."

The Texas Association of Hospital Auxiliaries works hand in hand with the Texas Hospital Association and auxiliary members participate in the THA conventions.

To help kickoff the Knox County Hospital Auxiliary, a benefit show by the Grapevine Opry Road Show will be held Thursday, July 24, at 8:00 p.m. in the Munday High School auditorium. More details of the show appear in a separate story elsewhere in this week's paper.

Emergency Fund Set Up

As the friends of Noraline Willoughby know, Noraline is confined to the Bethania Hospital in Wichita Falls. Her sister, Laura Moylette, lives in Wichita Falls. Dr. Moylette has been in Wichita Falls with her daughters since Noraline was first admitted to the hospital.

When you care about someone, you can send cards, flowers, pot plants, gifts of sleepwear, etc., but you want to do more. There have been a number of comments on this order made about Noraline.

There are so many expenses incurred, but not covered by insurance, when you are hospitalized. An emergency fund has been set up at the First National Bank in Munday for friends who are asking what they can do. You may contact any bank teller or Mrs. Ronnie Cude and they will be happy to assist you.

Members of Saint Joseph's Catholic Church in Rhineland, where Noraline and Dr. Moylette attend, have also chosen this way to let them know they love them and their thoughts are with them.

EXPLANATION

(Continued from Page 1)

treatment process is to lower the level of suspended impurities so that filtration and disinfection can produce a finished water. Liquid alum is a solution of dry alum which contains 49% dry alum by weight. The liquid form of alum offers convenience of handling and accurate application.

4. **Caustic Soda** - (sodium hydroxide, NaOH) Liquid caustic soda is a 50% solution. The liquid form is used because it permits safe handling of a highly corrosive substance with minimum exposure of personnel. In our application caustic soda is used in small quantities to adjust the pH of the water to a point of stability; such that the water is not corrosive or depositing excessive scale.

5. **Potassium Permanganate** - (KMnO4) Potassium permanganate is a strong oxidizing agent used in water treatment to control tastes and odors. It has some use as an algicide but it is primarily used to oxidize organic material found in untreated water which cause some types of tastes and odors.

City Council Minutes

The City Council of the City of Munday, Texas met on June 13, 1980, in regular session at the Munday City Hall at 9 p.m.

Members present: Mayor James W. Reid, and Aldermen Larry Smith, Ray Lynn Hardin, M. M. Booe, and Donald Hobert.

Members absent: A. Dale Selzer.

Mayor Reid called the meeting to order. Hardin led in prayer at the Mayor's request.

City Secretary Hertel read the minutes of the May 13th regular and May 30th, 1980 special meetings. Hobert moved for approval. Hardin seconded. All in favor.

After discussion, Hobert moved that a resolution be passed to authorize Mayor Reid to transfer all funds, records, duties and obligations of Johnson Memorial Cemetery, now being handled by the City of Munday, to the trustees of Johnson Memorial Cemetery Association; this is with the understanding that the Mayor Pro-Tem of the City of Munday is to be an automatic member of the Board of Trustees so long as any tax funds are required for maintenance of the Cemetery; and that money in the Cemetery Trust Fund be used only as designated when given, with principal to be placed in a secure fund to earn interest and only the interest may be used for maintenance of Johnson Memorial Cemetery.

The Resolution authorizes the transfer heretofore mentioned as soon as all legal papers necessary are submitted to the City and approved by the City Council.

Hardin seconded the motion. Voting for was Hobert, Hardin, Smith, and Booe, Noes, none. Carried.

After discussion, and in regard to recent hail damage, Hardin made the following motion:

1. That the ambulance offer of \$70.00 be accepted.

2. That M. Booe and Walter Hertel be given authority to settle:

a. The police car damage which includes damage to the radar antenna and light bar.

b. The City Hall roof damage for which a check has been sent, however, not officially approved by the City.

Smith seconded. All in favor.

Drainage problems were discussed. No reports have been received from COG or the Corps of Engineers at this time.

After discussion, Booe moved the Police Department be authorized to purchase a new fingerprint kit at a cost of app. \$235.00. Smith seconded. All for.

Mayor Reid next reported on the proposed airport contract with Jim Cottingham in which he would locate at Munday Municipal Airport. "I have talked with F.A.A. by phone," he said. "The contract with its recent changes is acceptable by FAA, except FAA will require a letter be submitted with the proposed contract stating that financing for the Operators proposed lease investment needs requires a 40 year lease period."

Chris Christensen met with the Council. He objected to the proposed location of another Ag-Flying service south of his lease. The FAA would not agree to a location closer than 1,000 ft. to the Municipal parking area at the time of his lease, he said. The FAA at this time has apparently modified its original ruling to: #1 - Secure more activity at the airport; #2 - To permit both operators to use the same slab and roadway constructed by the city for easy access to their respective leases.

Mayor Reid offered Mr. Cottingham a contract basically the same as the one you have, he said, except with the changes which are listed in the official minutes at the City Hall.

A letter, as mentioned in the Cottingham lease, stating that financing for the operators proposed investment needs requires a 40

year lease period will be required by FAA.

Mr. Christensen agreed to accept a contract the same as the one offered to Mr. Cottingham. He said he might accept the South site.

After discussion, Hardin made a motion that Christensen Aviation Inc. existing contract be modified through the use of a supplement to the original contract and its supplement, with said changes to make its contents identical to the contract offered to Petty Flying Service except for location, with the understanding that two years back payment of rental from this time be paid and new lease payment requirements be met. Smith seconded the motion. All members voted for.

After discussion, Smith moved the Munday Municipal Pool be opened as soon as possible. Saturday, June 21 was tentatively set as Splash Day. The pool is to be operated by Cindy Haynie on a part time basis until a full time certified operator can be found. Booe seconded. All in favor.

After discussion Smith made a motion that Mayor James W. Reid be authorized to write a letter stating that the City of Munday would like to have a Texas State Guard unit in Munday; also that a meeting place, with utilities furnished, will be provided. Booe seconded. Voting for was Smith, Booe, Hobert, and Hardin. Noes, none. Carried.

The executed agreement with Centex Cablevision Corporation for franchise extension was examined and found to be in order. It is to be filed with other Centex documents.

The Council next examined a letter from Pete Beecher, manager of North Central Texas Municipal Water Authority, requesting the City of Munday to appoint a director to serve on the Water Authority Board for a two year term.

After discussion, Ray Lynn Hardin moved that Clint J. Norman be re-appointed for a two year term which will run until May 31, 1982, as one of Munday's Directors of the North Central Texas Municipal Water Authority. Larry Smith seconded the motion. Voting for was Hardin, Smith, Booe, and Hobert. Noes, none. Carried.

After discussion Hardin moved that Mayor James W. Reid be authorized to appoint Dr. R. G. Howell as Munday's City Health officer for a one year term beginning July 15, 1980 and ending July 15, 1981. Booe seconded. All in favor.

The Council next opened bids on Lot 7, Blk. 152, Munday Development Co. Addition to Munday, Texas which has been advertised

for bid in the Munday Courier.

M. M. Booe submitted a bid for \$300.00 for the lot. No other bids were received.

Since the bid was higher than the "adjudged value", Larry Smith moved Lot 7, Blk. 152, Munday Dev. Co. be sold to M. M. Booe and a necessary resolution by the City and deed be authorized with Mayor James W. Reid to sign for the City of Munday; also that all other governmental entities be requested to pass necessary resolutions authorizing those persons in authority to sign the Deed for their respective taxing entities and that proceeds from the sale pro-rated comparable with the tax lien of each unit and with court costs to be paid first. Hobert seconded the motion. Voting for was Smith, Hobert and Hardin. Noes, none. Abstaining, Booe. Carried.

The audit was discussed. Full reading of the audit was tabled until it could be fully examined by the council.

Due to water tower repair, storm, and other costs experienced, paving, except Research Center road may be delayed until 1981. This road is to be seal coated if an interested contractor can be found.

Hobert moved bids be paid as follows: from Airport Fund, \$32.11; Ambulance Fund, \$242.37; Swimming Pool Fund, \$851.82; and Operating Fund, \$14,492.31. Booe seconded. All for.

Smith moved the meeting adjourn. Hardin seconded. All in favor.

Mr. and Mrs. Wes Kirschner have returned from a two weeks visit with her sister in Chicago, Ill. They went by Kansas to get Mrs. Kirschner's mother so she could make the trip with them. They attended the wedding of Mrs. Kirschner's niece while in Chicago.

Mr. and Mrs. Buddy Cypert, Cody, Jacy and James Stewart spent Friday night and Saturday with Tonya's sister, Pat Stewart, in Ranger. They all visited the Fort Worth zoo on Saturday.

Mrs. Hudson Chairman Of Local Cancer Crusade Will Be Held In July

The Lone Star Chapter of the Cystic Fibrosis Foundation announces the appointment of Mrs. Iola Hudson as Chairman of its 1980 Breath of Life Campaign in Knox City.

Mrs. Hudson will be recruiting volunteers within the community to help plan and carry out a CF Breath of Life Campaign this fall.

The purpose of this Campaign is to provide the community with information about Cystic Fibrosis and to raise funds to support research, education and care programs for CF patients.

The number one genetic killer of children, Cystic Fibrosis is inherited and incurable. An estimated one in 20 Americans is a symptomless carrier of the recessive CF gene. One in every 1500 babies born in this country is a victim of CF. Currently, half of all children born with CF will die before they leave their teens.

To volunteer for the Breath of Life Campaign, please contact Mrs. Iola Hudson.

Hicks To Be Math Teacher At Seymour

Glendon Hicks, a graduate of Goree High School, has been employed as mathematics teacher on the secondary level in Seymour schools.

He received his M.A. degree from the University of Montana and has done post graduate work at Texas Tech University and the University of Southwestern Louisiana. His teaching experience includes the Goree and Seminole public schools. He has been math instructor at McNeese State University at Lake Charles, La., for the past eleven years.

Hicks is the son of Mr. and Mrs. J. D. Hicks of Munday, and his wife is the former Sandra Land of Goree. They have four children.

The local drive for the American Cancer Society, chaired by Mrs. Shirley Amerson, will be held during the month of July. The American Cancer Society is not a part of the United Fund and of necessity, holds a separate drive. Funds given by Texans to the American Cancer Society are well spent. For every \$1.00 given in Texas, \$1.21 is spent in this state by the National Society.

To Attend Convention

Six members of the Munday Chapter of Future Farmers of America will attend the 52nd FFA convention in Houston on July 9-11, 1980, in the Astro-arena.

Members attending the convention are chapter president Gary Birkenfeld, Chris Moore, Danny Sloan, Greg Walling, Stephen Schumacher, and Danny Hertel. The boys will be accompanied by Greg Rawdon, advisor. Danny Sloan and Stephen Schumacher will be voting delegates at the annual meeting.

One of the highlights of the convention will be the awarding of the Lone Star Farmer degrees. Greg Walling will have the honor of receiving this degree.

Over 5,000 delegates and members are expected to attend the convention this year.

major Texas hospitals and medical schools and universities, .38 of each dollar is allocated.

Eighteen cents of every dollar contributed, is used in keeping physicians informed of recent developments in treatment of cancer; providing fellowships; supporting hospital cancer programs and professional conferences for physicians, dentists and nurses.

Twenty-three cents is set aside for public education. This is used to inform Texans of Cancer's seven warning signals so that they may guard themselves and their families against cancer. Free films, exhibits and pamphlets are available to all Texans.

Twenty-five cents of each dollar is used in providing cancer patients with comfort items, transportation, sick-room equipment, information and guidance and rehabilitation. Providing cancer detection through periodic screening programs for specific sites, is included in this expenditure.

Eleven cents is needed to provide Crusade materials for over 363 Unit campaigns which reach more than three million Texas families during the month of the Cancer Crusade; developing memorial, legacy and special project programs; and providing Crusade staff assistance.

It is noteworthy that only six cents of each dollar contributed goes to Administration costs.

In parts of Panama, one can see the sun rise in the Pacific Ocean and set in the Atlantic.

Offutt In Latest Edition of 'Who's Who'

George Offutt of Abilene, is listed in the latest edition of 'Who's Who in America', a publication of Marquis Who's Who Inc.

'Who's Who in America' has been published every two years since 1899. Although the number of listings has increased eight-fold since the first publication, the ratio of selected names to the total population has remained the same. Approximately three out of every 10,000 Americans are named for this honor.

Offutt, a Munday native, is a CPA in Abilene. He is currently chairman of the board of Mulberry Lumber Company, a manufacturer of wooden pallets with offices in Texas and Arkansas.

A Munday High School graduate, he received his degree from Abilene Christian University in 1961. He became a CPA in 1964 and worked for the Abilene accounting firm of Davis Kinard & Co.

Offutt is a member of the

Chamber of Commerce, a West Central Texas Oil and Gas Association member and a member of several professional groups.

His parents are Mr. and Mrs. Lonnie Offutt. He is married to the former Linda Guinn, daughter of Mr. and Mrs. Wilkie Guinn. George and Linda have two sons.

SS opened with Pastor Blue in charge. Suggested order of service: called to order, prayer, responsive reading. The order of service: Pastor Blue taught his class. Sis Honsby taught 2 and 3. Subject of lesson was our struggle to understand God's ways - beautiful lesson. No. 1 taught by Pastor Blue. Class no. 2, 3, by Sis Honsby. Bro. Honsby and Cloves and Decon Darking well spoke also Sis Chase had words on our lesson. And to you no love is greater we better have it and let us go to our Bible and get our lesson, Habakkuk 1:1-4; 2:14; 3:17, 18. And to let us pray for one another as He said and don't forget to pray for our good Dr. R. L. Newsom. You no God made all nations out of one blood and He died for us all when He went to the cross. I must say Sis Darkins sing beautiful yesterday morning after our Assistant pastor preached a beautiful sermon. Then they went to Espom out to 4th Sunday joint meeting. Pastor Blue is the president of northwest. He is the president 1st and 4th Sunday of the District. ***** Check with The Courier for all your office needs.

Hutchinson, Urbanczyk Wed In Ceremony Last Saturday

Phillis Lee Hutchinson and James Anthony Urbanczyk were joined together in holy matrimony on Saturday, June 21, 1980, at three o'clock in the afternoon, in a candlelit ceremony in Saint Joseph's Catholic Church in Rhineland. Rev. Brandan McGuire officiated the double ring ceremony.

Parents of the bride are Mr. and Mrs. Bobby Hutchinson. The groom is the son of Mr. and Mrs. Louis Urbanczyk of Goree.

Given in marriage by her father, the bride chose a gown of candlelight chiffon, with an embroidered Alencon lace bodice. The neckline was traced with clusters of seed pearls and sequins. The pleated chiffon skirt was accented with a lace tunic, trailing into a chapel length train. Her fingertip veil was of chiffon with a band of embroidered lace, fitted on a cap, covered with clusters of seed pearls. The bride's bouquet was ivory gardenias, blue roses and baby's breath, all designed of silk.

Mickie Hutchinson of

MRS. JIMMY URBANCZYK ...Phillis Hutchinson

soloist and guitarist, sang "Longer". "Always and Forever" was sung by Elva Lois Dipprey, Judy Underwood and Chris Underwood.

A reception was held in the Columbus Club Hall in Rhineland, following the ceremony. "Little Miss" hostesses for the reception were Missie Stewart, Angela Meers, and Holly Hutchinson, cousins of the bride. Serving were Lana Castleberry of Seymour and Tracee Herring. The reception was catered by Sue's Photography of Haskell.

The rehearsal dinner was in the home of Mr. and Mrs. Johnny Urbanczyk.

The bride is a 1977 graduate of Munday High School and is employed at Mid-West Texas Home Health Agency in Seymour. A 1976 graduate of Goree High School, the groom is a bricklayer.

After a wedding trip to Ruidoso, N. M., the couple will live in Munday.

Bride-Elect Is Honored With Shower

A bridal shower honoring Robin Elliott, bride-elect of Kevin Herring, was held in the home of Mrs. Tony Shawver, on Saturday afternoon, June 21, 1980.

Mrs. Shawver greeted the guests and presented them to the honoree, her mother, Mrs. Robert Wayne Elliott, and the groom's mother, Mrs. C. H. Herring Sr. Also in the receiving line were grandmothers of the bride-elect, Mrs. Adolph Bartos and Mrs. J. C. Elliott.

The table was centered with a beautiful arrangement of peach carnations and yellow daisies circled with three yellow tapers. Crystal appointments were used. Serving mints, cookies and punch were Misses Shanna Bryan and Philda Sloan. Miss Joy Shawver registered the guests.

Hostesses for the occasion were Mmes. Tony Shawver, Spike Bryan, Grady Phillips, Dan Sloan, Freddie Caram, Robert Hosea, Bob Winchester, Alvin Michalik, Ray Lynn Hardin, Ida Jo Adams, Bob Therwhanger, Marvin Zeissel, Elaine Gully, Philip Homer, G. W. Hawkins, Mickey Jackson, Boyd Lynn Meers, Charles Yost, John Ed Wilde, Garon Tidwell, Keith Davis and Walter Brown.

Extension Agent Reports

DON'T USE MICROWAVE FOR HOME CANNING

Never use home-canning "short cuts", such as a microwave oven which can explode jars or leave food unsafe to eat.

For proper home-canning methods, ask your County Extension Office about bulletins on canning or freezing.

Use either a water bath canner or a pressure canner for home canning - and know the difference between the two.

Water bath canners will safely preserve high-acid foods, such as tomatoes, fruits and pickles. These foods need only reach boiling point temperature for safe processing. On the other hand, pressure canners are a "must" for low-acid foods, meats and poultry.

Low-acid foods include all vegetables, except tomatoes.

Pressure canners are necessary for low-acid foods, because these foods must reach temperatures above 212 degrees F. (boiling point of water) - for safety.

Pressure canners process these foods safely when their temperatures reach 240 degrees F. - the temperature required to kill any botulism toxin-producing organisms which can thrive on low-acid foods if not destroyed in processing.

In addition, both water bath canners and pressure canners will equalize the pressure inside and outside jars during processing - to prevent explosion.

Microwave ovens cannot equalize pressure, so explosion likely will occur. Also, microwave ovens produce an uneven heat transfer, so jar centers probably do not reach a temperature high enough to sterilize food.

As a second safety step, heat all home-canned food on the stove top before eating - 10 minutes for pints of food, 15 minutes for quarts.

That will kill any botulism toxin that may have formed because of improper canning methods.

Do not use a microwave oven for heating home-canned foods, either. Research has not determined the time length necessary to kill botulism toxin in microwave ovens.

HOW TO DESTROY A WORN-OUT FLAG

A flag, if worn-out or unserviceable, should be destroyed in a dignified way, preferable by burning, and in private without ceremony. According to an approved custom, the Union is first cut from the flag; and then the two pieces, which no longer form a flag, are cremated.
