## Look To The East

By AARON EDGAR

We learned something about bees from him!

Not that the information is going to benefit us to any great extent, because we still maintain the idea that the least we have to do with bees the better off we are. It really sends us into a dither if one "sits down" on us!

On the morning of March 22, 1975, we teamed up with M. L. Waggoner to motor out to the home of Mr. and Mrs. Joseph Decker in Rhineland to get a picture of Joseph working with his bees.

This was an experience within itself, since we had always managed to steer clear of a bee hive. We didn't want the occupying insects to get disturbed and become angry.

We found Decker and two of his grandsons, Joe and Ricky Williams, working among the 20 bee hives that formed a long row of white boxes not far from his residence.

Joseph explained that the two boys, 17 and 14 years of age at the time, represented the fifth generation of beekeepers in his family. His grandfather was a beekeeper "back in the early days," and his father, Joe Decker, brought bees to Knox County back in 1899.

We guess Joseph kinda likes to mess with bees! He started in business in 1954, securing some of his stock from houses in the area, then purchased others to give him a good start.

We found the three well dressed for the undertaking of adding extra honey boxes to the hives. All exposed parts of the body were protected by gloves, long sleeves, and a sort of hooded headgear encircled with wire screen to protect their faces. A sort of "skirt" was attached to the screen that could be tucked around their collars. They carried "smoke boxes" that emitted smoke through a small funnel, this to pacify the bees if they became angry or unruly. They quickly shied away from the smoke.

When bees fill a "starcomb", Joseph explained, they seal it over with wax. When the honey is extracted, Decker keeps the beeswax. He said at the time it was worth 60 cents per pound on the market.

He also sells, or gives away, all the honey his bees can produce.

When we were there, they didn't have any of the extracted honey, so Mrs. Decker gave Marion and I each a "hunk" of honey in the comb.

We have spoken to and passed words with Joseph on many occasions since then. We guess he'd had time to forget giving us the honey.

A short time ago, we ran across him in the grocery store. After exchanging pleasantries for a spell, he said: "I believe I owe you some honey." We inquired why, remarking: "I don't know any reason why you should owe me anything," and told him he'd already given me the comb honey.

"Well, come out to the car, and I'll give you a jar, anyway," he said. The jar was larger than expected and contained enough honey to last us a long spell.

This was after Joseph had already told us he'd left us a yellow-meated watermelon at the Courier office, and hinted that we could share it with the other employees—if we wanted to!

We shared it, and everyone enjoyed it!

He said he'd been raising that same type melon for 70 years, starting out in 1911. He didn't know if it ever had a brand name or not. Our guess is that he picks out a likely specimen each year and saves the seed for replanting so he can maintain the original stock. It sure would be a disaster if he should run out of such a tasty delight as this melon was!

Mr. and Mrs. Decker live comfortably in a large, roomy two-story house known in the Rhineland community as "the sisters' house", since it was once used as home for the sisters when the parochial school was in operation.

So our long period of friendship with Joseph Decker has resulted in us being the recipient of a big batch of delicious honey and a tasty yellow-meated melon. We think we'll continue this friendship, because the Deckers are nice people to know!

PICTURED ABOVE ARE HOMECOMING QUEEN CANDIDATES as snapped on an ordinary school day. One of these students will be crowned Homecoming Queen during half-time activities at the Knox City-Munday homecoming game Saturday night. Each class selects two nominees, and the student body then votes for the candidates. They are from left, Deede Kuehler, senior, daughter of Mr. and Mrs. Alfred Kuehler; Mary Jane Kuehler, freshman, daughter of Mr. and Mrs. Alfred Kuehler; Kristi Smith, junior, daughter of Mr. and Mrs. Richie Smith; and Lori Kimmel, senior, daughter of Mrs. Sheila Kimmel.

### Quarterback Club Issues Special Welcome To All

Members of the Munday Quarterback Club are extending a special invitation to all the people of the community to attend their meeting on Tuesday evening at 7:30 p.m. in the high school cafeteria and view a film of the Knox City-Munday game in color. The half-time activities will also be shown in color.

A new camera has recently been purchased out of necessity, and the group felt filming the homecoming game and half-time program would make very enjoyable viewing for everyone.

Quarterback Club members are now selling bumper stickers and jackets, and will sell caps later on, with all proceeds going toward the cost of the camera. Donations of any amount will also be appreciated since this was a sizeable - but necessary - purchase in order to get the Mogul games on film.

## History Books To Be Available At Homecoming

A supply of Munday's new history books, "My Home Town", will be available for purchase by ex-students and others at Munday's Homecoming '81 next Saturday.

A booth will be conveniently located in the foyer of Munday High School on Saturday, September 19, and all homecoming personnel desiring to purchase one or more of the books may do so at the time of registration or any time during the day.

The booth will be manned by M. L. Wiggins, chairman of the historical committee; Aaron Edgar, or other volunteers.

Distribution of the books has been slower than expected thus far, and the historical committee has experienced a financial bind, in that all expenses of publishing the history book were paid at the time of delivery.

## Efforts Continue To Secure Local Doctor

The Munday Chamber of Commerce and Agriculture is actively pursuing a medical doctor for Munday.

At a recent "town hall" meeting approximately 150 interested citizens voiced support of the Chamber in the plan of operation adopted by the Chamber. W. O. Smith, chairman of a special Medical Search Committee appointed by the Chamber Board of Directors, advised the Board of the results obtained thus far. He stated the Chamber had engaged the aid of the Texas Doctor's Group, Inc., Austin, Texas to lend their professional expertise in locating doctors who will be interviewed by telephone and in person.

As of this date, four prospects have indicated an interest in locating in Munday. A travel schedule is being arranged for their initial visits at their convenience. Funds are now being solicited from interested persons throughout the county who desire to contribute to travel expenses, meals and lodging for the prospects. Pledges are being sought also for the long-range aid in guarantees for

the first year of operation for the doctor.

Approximately \$12,000.00 is needed at this time for travel, rent on the local doctor's office, and one-half of the fee for the professional assistant to the Texas Doctor's Group. More than \$7,000.00 cash was raised at the town hall meeting with pledges toward the guarantee amounting to an additional \$8,000.00.

Since that time, the fund has increased to \$9,260.00 in cash and \$15,060.00 in pledges. In order to ensure each contributor that his or her contribution will be tax-deductible, checks should be made payable to the Munday Industrial Foundation, Inc.

Munday has been without a doctor for almost three years, since Dr. Newsom retired.

County and area residents who wish to support the efforts of the Munday Chamber of Commerce in this effort are requested to call the Chamber office at 422-4540 or write to P. O. Drawer L, Munday, Texas 76371.

"OUTA MY WAY!" That's what Quarterback Chris Moore (12) seems to be saying, as he heads toward the goal in Saturday night's game. Other Moguls taking part in the action are: Robert Murray (31), Stan Decker (80) and Lester Adams (78). It was a 20-0 victory for the Moguls, their second in a row.

**Moguls Trounce Windthorst 20-0**

Failing to get things together in the first quarter, the Munday Moguls hit their stride in the second period and went on to shut out the Windthorst Trojans by a 20-0 score Friday night on Trojan Field.

The Trojans had complete charge of the first period, racking up 47 yards rushing and 26 yards passing for a total of 73 yards. They held the Moguls to only 12 yards during this period.

The Trojans then wilted under the mighty Mogul attack in the second and following periods. Munday had three first downs in the second and put seven points on the scoreboard, as they held the Trojans to only three yards rushing.

In the third stanza, the Moguls gained 105 yards and 13 points, while holding the Trojans to only two yards.

The final period was scoreless, but the Moguls added another 51 yards and backed the Trojans to a minus 15. Windthorst could not overcome the outstanding defensive efforts of Munday's front four—Robert Murray, Gary Adams, Victor Shields and Lester Adams.

A strong south wind hampered offensive play of both teams as they tried to operate against the wind.

Munday's first score came in the

second quarter on a 28-yard pass from Chris Moore to Lawrence Collier. Collier also added the extra point.

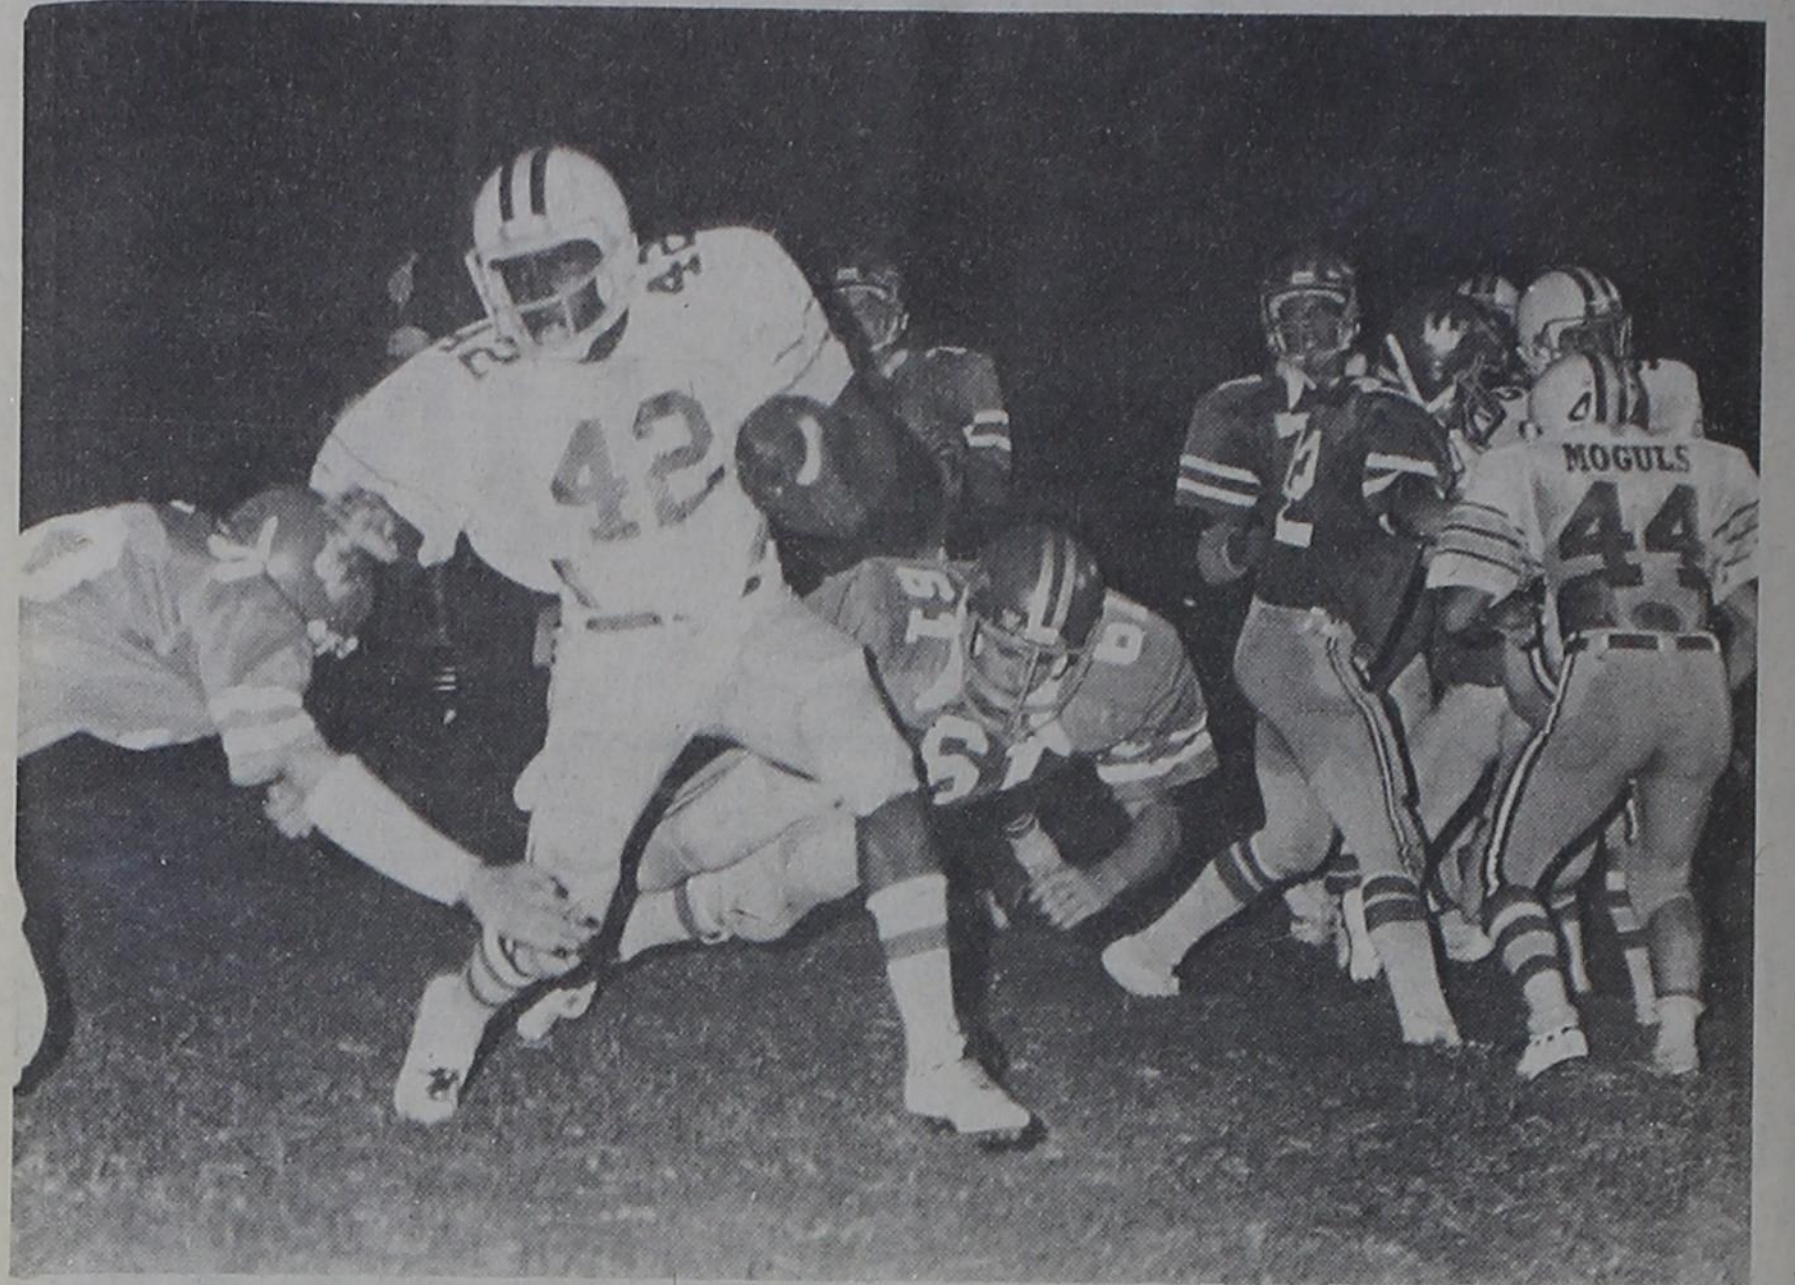

Munday scored twice more in the third quarter to seal the victory. The first score came on a five-yard run by Collier, and the extra point failed.

Chris Moore tacked on six more points on a three-yard touchdown spree, and this time Collier's toe sent the pigskin through the uprights. The fourth period was scoreless, and the Moguls were ahead by a 20-point margin.

Leading rusher for the Moguls was Moses Dena, with a total of 75 yards. Leo Huff led the defensive charge for Windthorst, but the Mogul attack prevailed.

**Game Location Changed**

**Coach Lankford Comments**

Our 20-0 victory against Windthorst was another excellent game on defense. Our top defensive players were Gary Adams, Terry Hendrix, Lester Adams, Chris Moore and Robert Murray.

Our offense was very sluggish in the first half, but came back in the second half to mass a total of over 250 yards. Lawrence Collier scored on a 30 yard pass in the first half and kicked the extra point for a 7-0 halftime lead.

In the second half Collier again scored, this time on a five yard run. The extra point was no good. Chris Moore scored the final touchdown on a three yard run. Collier kicked the extra point. Quincy Adams also had a touchdown, but it was called back on a penalty.

We were still a little disappointed with our offense. However, when the defense holds our opponent scoreless, we know that our offense can put some points on the board.

Our game, of course, is

with Knox City here Saturday night. This is always a game in which you can throw all statistics and predictions away.

The Moguls and Greyhounds are both 2-0 coming into the contest. I'm sure both teams expect to win when they come on the field. Knox City has a balanced attack on offense - running and throwing with equal skill.

They have several players who weigh over 200 pounds each, and they have good speed in the backfield. If we play the type ball game we are capable of playing, this should be an exciting game for the Mogul fans.

**Teams Play This Week**

After open dates for both, Goree and Benjamin teams will be out on the field this Friday night. Goree will face Woodson on the Goree field. Benjamin will travel to Bryson for their game on Friday evening.

Both teams defeated their opponents in the games played September 4.

After being out because of injuries, the Weinert Bulldogs are scheduled to be guests of McCauley Friday night.

## Area Grid Results

**Knox City Adds Another Victory**  
Knox City's Greyhounds hosted the Seymour Panthers last Friday night, and added another victory to their 1981 schedule. They racked up a 25-12 score over the Panthers.

The Hounds took an early lead in the first quarter on a 14-yard pass, then opened

the second quarter with another early score. Stafford scored another before the half ended. Their fourth and final score was by Watkins.

For Seymour, quarterback Mark Machen tossed touchdown passes to end Tommy Sullivan for 32 and 18 yards for their 12 points. They out-gained Knox City 248-220

yards, but lost four fumbles during the melee.

Knox City now stands 2-0, while Seymour is 0-2.

**Throck 'Hounds Down Archer City**  
The Throckmorton Greyhounds rallied from behind to defeat their host team, the Archer City Wildcats, by the close score of 7-6.

Danny Davis, halfback, scored on a 20-yard run in the third period, and Toby Andrews added the extra point which spelled victory.

Archer City had scored early in the first quarter, but the conversion kick was blocked.

**Northside Blanks Woodson Cowboys**  
The Vernon Northside Indians donned warpaint and invaded the Woodson Cowboy territory to hand the Pokes a 48-7 defeat in six-man action.

Woodson's lone score came on a pass in the final period. Brockman kicked the extra point.

Northside's Lloyd Williams scored three TDs, Dennis White added two, and Williams gained a safety. Woodson is 0-2, while Northside is 1-1.

**Indians Fall To Hamlin Pied Pipers**  
Hamlin roused Haskell's Indians in a thriller Friday night to the tune of 20-15. A last minute interception

spelled victory instead of defeat for the Pied Pipers.

Down five points with time running out, Haskell was moving downfield late in the game. The interception came with 48 seconds left, and Hamlin ran out the clock.

Hamlin's Lakry and Haskell's Johnny Hise went standouts in the game.

**Motley County Beats Rochester**  
Motley County's Matadors ran over their hosts, the Rochester Steers, 49-0 Friday night to give a reason for being a top-ranked Class A team.

The Steers exhibited a first defense that didn't give up, recovering six of the Matadors' fumbles, but were not able to cross the goal stripe.

Matador was 42-0 at the half, scoring four times in the first quarter.

**Rule's Bobcats Win Over ACHS**  
The Rule Bobcats, having played Abilene Christian High School in a close battle, received the benefits of a penalty to gain momentum in the third period and chalked up a 27-13 victory.

An Abilene Christian score was ruled invalid because the offensive player threw the ball in a defensive player's face. ACHS was penalized 15 yards for unsportsmanlike conduct, and another 15 for making comments to the referee.

**Paducah Dragons Dub Chillicothe**  
The Paducah Dragons, fired by a 494-yard offensive attack, ripped the Chillicothe Eagles 58-6 Friday night on Dragon Field.

The Dragons cruised to a 19-0 halftime lead, then put the game out of reach with a 32-point burst in the third period.

Chillicothe's only score came in the opening seconds of the fourth quarter, when Tommy Johnson returned a Paducah kickoff 82 yards for the touchdown.

**Indians Fall To Clarendon Broncos**  
Quanah's receiver tight end piled up 123 yards in catches, but his fine performance was to no avail as the Clarendon Broncos eluded their visitors in an easy 35-8 triumph.

Clarendon led at the half 15-8, then left the Indians behind, scoring 20 points in the second half.

ANDY SEARCEY

**Listed Two Years In Publication**

Andy Searcey, son of Mr. and Mrs. C. E. Searcey of Munday, was selected as a junior and senior at Munday High School to represent his church and school in The Society of Distinguished American High School Students.

Andy was nominated by his sponsor, Keith Davis, Music and Youth Director at First Baptist Church. He demonstrated academic excellence and leadership in extracurricular and civic activities to receive this award.

With a group from First Baptist Church, Andy went to Equador on a crusade in the summer of 1980 as a lay missionary. He has also served in this capacity with other mission projects from his church and is a faithful member.

As a high school student, Andy was active in FFA, on the tennis and golf teams, and the library staff, and maintained a high academic record.

He is enrolled as a freshman at Southwest Texas State University in San Marcos where he plans to pursue a career in some form of science.

**Cattlemen Are Expanding Herds Despite Market**

Despite poor prices and market uncertainty, cattlemen continue to expand their herds.

That observation comes from Dr. Ed Uvacek, Jr., economist in livestock marketing with the Texas Agricultural Extension Service, Texas A&M University System.

Uvacek notes that the latest figures show the total number of cattle and calves on farms and ranches in the United States up 2 percent or almost 2 million head from a year ago. That puts the nation's cattle herd at 125 million head, as of July 1.

Beef cow numbers rose 1 percent and heifers being held for beef cow replacement rose 7 percent from a year ago.

Dairy cows also were up 1 percent, with 6 percent more dairy replacement heifers, reports Uvacek.

While most figures show increased cattle numbers on July 1, steers 500 pounds and over were down 2 percent from a year ago, reflecting reduced cattle feeding and increases in calf and non-fed cattle slaughter.

The big surprise was this year's short calf crop, says Uvacek, which was up only 257,000 head over the 1980 figure. This evidently was due to the severe drought last year which substantially lowered calving rates.

This small increase in calf numbers plus big increases in calf slaughter and non-fed cattle kill so far this year could result in tight feeder cattle supplies this fall, speculates the economist.

## Farmers Make Decisions On Their Part In Crop Insurance

Between now and September 30, Texas farmers can study the All-Risk Crop Insurance Program for wheat and barley to decide how it can fit into their 1982 plans.

"Basically, the program works the same as before. The producer signs up for protection now. After the crop is planted, they file a report of planted acres which becomes the basis for their protection.

"If the crop is damaged by an unavoidable natural hazard at any time during the growing season, an indemnity is paid on the difference between the producer's guarantee and the actual or appraised production," explained Ben A. Jordan Jr., FCIC Regional Director. "Payment of premiums is not required until after harvest."

The program is set up so every producer can work out an insurance plan that fits his or her needs and budget. For wheat and barley, the producer selects a guarantee in bushels per acre from one of three levels which reflect approximately 50, 65 and 75 percent of their average yield.

The producer also selects one of three price elections.

This year's options are \$2.50, \$1.50 and \$4.50 per bushel of wheat; and \$2.00, \$2.25 and \$2.60 on barley, according to the Regional Director.

Another feature of the program is that producers can count on the government paying up to 30 percent of the premium and the rest is tax deductible.

Those producers who establish good insurance experience also receive additional discounts of from 5 to 50 percent of the regular premium.

"While it is still a government program, it is available

in most communities from private insurance agents. Some companies call it comprehensive or multiple peril rather than all-risk, it's still the same policy with the same protection and the same cost," said Jordan.

## Comments On 1981 Farm Bill

As Congress gets back into session this week, attention will again turn to provisions of the 1981 farm bill.

This legislation needs to be completed by Oct. 1, reminds Dr. Ron Knutson, economist in marketing and policy with

the Texas Agricultural Extension Service, Texas A&M University System. Some very interesting yet conflicting forces have developed during the recess, however, Knutson adds.

"First, bills reported out of the House and Senate Agriculture Committees are not consistent with the Reagan farm bill proposals. Major inconsistencies include target prices and, in the case of the House bill, a milk price support of 75 percent of parity which is considered too high," Knutson explains.

While the Administration may be willing to accept the target price concept, it wants to lower wheat target prices from \$4.20 per bushel to about \$4 and also lower corn and cotton target prices. The Administration believes that with low farm prices, the Reagan farm program spending limits will be exceeded, the economist says.

"Low farm price prospects bring us to the conflicting force. During the Labor Day recess, the USDA announced that 1980 farm income was only \$19.9 billion - down 40 percent from 1979. And USDA admits that 1981 income may not be much better," Knutson says.

Many rural congressmen, concerned about their reelection prospects, are now keenly aware of the impact of declining farm income on the financial position of farmers. Lubbock Congressman Kent Hance, for example, has indicated he is going back to Washington to advocate an increase in the cotton loan rate from the proposed 55 cents per pound.

### Changes In Law Effect State's Sales And Use Tax

State Comptroller Bob Bullock Friday said persons and businesses who buy and sell items subject to the state's sales and use tax should be aware of changes in the law that are now in effect.

He said persons who have issued a resale certificate or an exemption certificate to acquire an item can now donate the item to a non-profit charity, religious or educational organization and not be liable for the sales tax on the item.

"This means a merchant can take items from inventory and give them to any organization that's exempt from the sales tax and the merchant doesn't have to report the gifts as taxable purchases when they file their sales tax return," Bullock said.

Bullock pointed out that the Legislature expanded the categories of organizations that qualify for an exemption from sales tax if they are exempted from federal taxes by the Internal Revenue Service.

Provided the organization has a letter from the IRS saying it is exempt from federal taxes, Bullock said the categories now exempt from the state's sales tax include:

--Organizations such as Rotary, Optimists, Kiwanis, Junior Chambers of Commerce, Lions and Garden Clubs and some property owner associations that are exempt from federal taxes under Section 501 (c) (4) of the Internal Revenue Code (IRC).

--Fraternal societies such as Masons, Elks, Moose, Knights of Columbus, DeMolay and the Eastern Star that are exempt under

Section 501 (c) (8) or Section 501 (c) (10) of the IRC.

--Organizations formed to benefit veterans such as the Air Force Association, American Legion, Veterans of Foreign Wars and Disabled American Veterans that are exempt under Section 501 (c) (19) of the IRC.

Bullock said another change in the state law affects the amount of tax due when a person has issued either a resale or an exemption certificate to purchase an item and then uses the item for personal benefit for some period of time.

Instead of tax being due on the purchase price of the item, the amount of tax due will be equal to the amount that would be due if the person had rented the item for the period of time it was used for personal benefit, he said.

## United Fund Drive Plans Under Way

Keith Davis will serve as the Drive Chairman for the Munday United Fund Drive this year. This announcement was made by the United Fund Board of Directors at a meeting on Tuesday, September 8, 1981.

Mr. Davis is Music-Education Director for the First Baptist Church in Munday and has lived in Munday for three years. In the next few weeks he will be organizing his staff to conduct the drive.

The drive will be held throughout the community October 13-27, 1981.

At the meeting on September 8, the Board of Directors also adopted a budget for 1982. The agencies and the amount of support approved for each are:

- Munday Little League
  - 1. Munday Little League
  - 2. West Texas Rehab Center, Abilene, Texas...600.00
  - 3. NorCenTex Council of Girl Scouts...500.00
  - 4. Northwest Texas Council of Boy Scouts...1000.00
  - 5. The Salvation Army...990.00

  - 9. United Way of Texas...50.00
  - 10. United Service Organizations...175.00
  - 11. Campaign Expenses...750.00
- Total 1982 Budget \$7265.00  
The amount of the budget for 1982 is 6.8% above the amount raised for 1981. "We

KEITH DAVIS  
Drive Chairman

feel this increase is small when we consider the rate of inflation which affects service organizations and groups as well as our own finances," the Rev. Ivan E. Allen, Chairman of the board of directors, said. "We trust the people of our community to give a little more to help the agencies and groups supported through our United Fund."

Many of the people in the community are familiar with the agencies supported through the United Fund. However, we plan to include in our publicity some information about each of these.

If you have questions about any of these, or the function of the United Fund in Munday, please feel free to contact the board of directors. These are: Rev. Allen, chairman; Mrs. Jerry King, Executive secretary; Bob McWhorter, Clyde Yost, Bill Kingston, Mrs. Jeff Anderson, George Cotton, Nor-

## FACTS ABOUT THE Boll Weevils

Boll weevils can literally eat the shirt off your back. These little critters are responsible for destroying untold bales of cotton each year in Texas. Cotton growers in the Rolling Plains, with help from the Texas Agricultural Extension Service, have found one way to deal with these hungry pests... starve them!

By using uniform planting dates with an effective pest management plan, farmers enlisted the help of Mother Nature to delay cotton fruiting long enough to keep the hatching boll weevils' only source of food in short supply. As a result, new larvae starved before they could chew on cotton bolls.

This is another example of how the Texas Agricultural Extension Service is "helping people to help themselves."

**TAX FREE STARS SAVERS CERTIFICATE**

It helps you where it counts . . .

On October 1, 1981, Big Country Savings offers the STARS SAVERS CERTIFICATE (Big Country Savings' All Savers Certificate). It allows savers to earn up to \$2,000 tax-free interest for married couples filing jointly or \$1,000 on an individual return. This means that the tax-free dollars you earn with the STARS SAVERS CERTIFICATE will benefit your bottom line when compared to the after-tax earnings from other savings plans (see table below).

Only \$500 is required to open an account. And your tax-free STARS SAVERS CERTIFICATE is insured by the F.S.L.I.C., an agency of the Federal Government. The STARS SAVERS CERTIFICATES earn an interest yield equal to 70% of the investment yield for 52 week U.S. Treasury securities. The yield you earn will be established on the date your certificate is purchased and will remain unchanged for one year until maturity.

We want to help you make the very most of your money. Come in now and we'll answer any questions about the STARS SAVERS CERTIFICATE. It helps you where it counts . . . on the bottom line.

## New Bishop Ordained For Ft. Worth Diocese

Father Joseph Patrick Delaney was ordained as Bishop of the Roman Catholic Diocese of Ft. Worth in ceremonies beginning at 4:30 p.m. September 13 at Tarrant County Convention Center. The ceremonies were open to all.

Consecrating bishop was Archbishop Patrick Flores of the Archdiocese of San Antonio. Bishop John J. Cassata, founding bishop of the Diocese of Ft. Worth,

and Bishop John Fitzpatrick of the Diocese of Brownsville were co-consecrators.

Father Delaney's appointment to the diocese was announced July 14 by Pope John Paul II. The 46-year-old native of Massachusetts was ordained a priest in Rome on Dec. 8, 1960, for the Diocese of Fall River, Mass. He came to the Diocese of Brownsville in 1967, and was incardinated into the Diocese of Brown-

sville in 1971. During his years here he has served as assistant pastor of the parishes in Pharr and McAllen, and pastor of parishes in Brownsville. He has also been superintendent of schools for the diocese and chief judge of the marriage tribunal. At the time of his appointment he was serving as chancellor of the diocese.

Father Delaney will be second bishop

of the Diocese of Ft. Worth, succeeding Bishop John J. Cassata, who was installed as first bishop of the diocese in 1969. Bishop Cassata announced his retirement September 16, 1980, and has served as apostolic administrator since that time.

The diocese includes 28 north central Texas counties, and has a Catholic population of 91,500.

## Cancer Society Sponsors Quit-Smoking Contest

Larry Hagman, star of TV's "Dallas" series, is asking people this month to write to him describing original ideas on how to quit smoking cigarettes as part of the American Cancer Society's Great American Smokeout.

The Larry Hagman Quit-Smoking Letter Writing contest is an advance buildup to the Society's fifth annual Smokeout, set for November 19th this year.

Some 40 units in Texas have already begun contest preparations whereby participants may write - in letters of 100 words or less - their original ideas on how to quit smoking. Judging them will be done on a local, state and national level based on these criteria: Originality, Practicality and Clarity. The contest is open to residents of the United States except employees and Board and Committee members of the American Cancer Society.

Texas judges for the contest are Elbert D. Glover, Ph.D., chairman of the Health Education Department at TCU; Penny Reeves, Smokeout chairperson; and Leon Hale, columnist for the Houston Post. These judges will review the five finalist letters from each participating ACS unit and select from these the three state finalist letters for national competition.

As an added incentive to all Texas participants, the Larry Mahan Boot Collection in El Paso has arranged to present each of the three Texas finalists a pair of western boots made from exotic leathers.

The national prize features an all-expense paid three-day trip for two to Hollywood to have dinner with Hagman, which has been underwritten by a national sponsor. The national judges are William G. Cahan, M.D., of the

Memorial Sloan-Kettering Cancer Center; Camille McMennamin of the McCaffrey and McCall, Inc. advertising agency; and John Mack Carter, editor-in-chief of Good Housekeeping magazine, all of New York City.

Both state and national contest winners will be announced prior to the Smokeout.

Hagman's involvement with the Smokeout is only part of his interest in the anti-smoking activities of the ACS. According to Ms. Reeves, Hagman plans to

Local independent school districts will be in the best position to re-evaluate their current programs, and the Committee will provide a forum for cooperation and communication relating to public education in Texas.

"High quality education for the citizens of Texas is a major public concern, and a large portion of the State's total budget is appropriated for education. Over the next biennium, there is a \$2.6 billion increase in state funding for education. Munday School District will receive an estimated \$487,913 in additional state funding for 1981-82," Farabee said.

## Shortcourse Set For New Fruit Growers

Anyone interested in trying his hand at commercial fruit production needs good insight into exactly what is involved. The Texas Agricultural Extension Service, Texas A&M University System, can provide just that.

A special new Fruit Growers Shortcourse is set for October 5 at Rudder Center on the Texas A&M Campus. This will be a three-hour session starting at 6 p.m. that outlines the basics of fruit production in Texas.

"The shortcourse will deal with planning and developing a complete orchard management program," points out Dr. Tom Handwerker, Extension horticulturist.

Information will be presented on variety selection, planting, weed control, water management, training and pruning plants, insect and disease control, economic investments, cash flow and estate planning.

"Many people interested in commercial fruit production are often not familiar with the expense and hard work involved in establishing a new orchard," says Handwerker. "This shortcourse is designed to answer many questions that potential fruit growers may have and to give them some idea of all the details involved in commercial fruit production."

Following the shortcourse for new fruit growers will be a two-day Texas Fruit Growers Conference for those already in the business. The latest information on various phases of fruit production will be presented by growers, researchers and Extension staff.

Registration information on both the New Fruit Growers Shortcourse and the Texas Fruit Growers Conference is available from Handwerker, Extension Horticulturist, Texas A&M University, College Station, TX 77843 (telephone: 713-845-7341). A \$20 registration fee covers both programs, proceedings and membership in the Texas Peach and Plum Growers Association.
