

Kracker Krumb's Odds Bits Salvaged at Random

He has horses, a prospective oil well on his land, and peaches that are sort of unusual.

His horses are well known over the area, being some good blooded quarter horses.

Production of his second oil well was not determined early this week. His first one, completed several years ago, was kinda weak.

Last Saturday, so we heard, they thought they had something in the second well, and sent for the "big boys" to come.

However, those who went out Sunday thinking oil would be all over the place, found the drillers going on, with reports they would drill on into the Ellenburger.

So Dr. A. A. Smith brought us some peaches. They are unusual in that when one crop is ripe, there's another about half-grown crop on the same tree that comes on later.

Limbs from the tree showed the ripe ones and the smaller ones. Those already ripened were large ones, and pretty as a picture in the magazines. Two if them weighed slightly over a half-pound each on our postal scales.

They were quite different from the ones we grew, too. Ours were ruined by the peach tree borers. His were perfect beauties.

Now that we have a new street sweeper, it is the aim of the city council to try to keep our paved streets clean.

And they want your co-operation.

Reports from some of the councilmen are that citizens in both the business and residential districts are inclined to sweep their trash into the curbs.

Another objection, too, is to pile such trash and refuse at the curb and then burn it. This had the tendency of making the sweeper less efficient.

So the councilmen asked us to ask you to help them in keeping the streets clean.

In their estimation, sweeping the streets of the business section once or twice a week will be sufficient to keep them clean with the sweeper without the use of shovel crews.

Then once every two or three weeks in the residential section should be sufficient.

Of course, with rainy weather and cars coming onto the pavement from unpaved roads and streets will possibly cause some changes in the schedule.

Our mayor says there likely be an ordinance, or some ordinances, passed setting aside certain hours on certain nights when the business streets must be clear of parked cars.

This will be done so the sweeper can be operated unhampered during the clean-up nights.

Driving the thing along, sweeping the streets clean, then having to pull out and around a parked car leaves a spot that's a little on the unsightly order.

So with the new sweeper and the co-operation of the people, it looks like the town is going to be a cleaner place in the future.

When the "no parkin'" nights and hours are set, it is hoped that all people will co-operate in this matter, too.

HOME ON LEAVE

Sgt. Daniel Albus, who is in the Marine branch of the service is home on a 30-day leave to visit his mother, Mrs. Lena Albus, and other relatives. He recently returned from 20 months service in the Hawaiian Islands, where he was with the motor pool. At the end of his leave, he will report to Barstow, California.

Springfield Man Returns Here For Gospel Meeting

Mr. Oscar Ellison, of Springfield, Mo., is returning to preach in a gospel meeting for the church of Christ in Munday. Mr. Ellison was here last year for a series of meetings and was engaged at that time to return again this year.

He is a well known gospel preacher, holding meetings in various parts of the country. He is also the regular minister for a congregation in Springfield, Mo. He presents the gospel in a kind, yet forceful way.

The singing will be directed by John Phillips of Munday.

Services for the meeting are at 7:00 each morning and 8:00 each evening. The meeting begins August 20th and runs through the 30th.

Everyone is cordially invited to attend and enjoy the gospel sermons and the congregational singing.

Munday Youth Is Invited To Enter Model Plane Event

DETROIT — Invitations sent out today to model aviation's greatest event, Plymouth Motor Corporation's Seventh International Model Plane Contest, included the name of one youngster from Munday.

The International, which will be held at Detroit, August 19-24, is an invitational meet and only 500 of the world's outstanding model fliers receive the bids to attend. The young champions, who come from parts of the U. S. and abroad, are selected by a committee headed by John P. Mansfield, president, and William J. Bird, general sales manager of Plymouth Motor Corporation. Their invitations came as a result of records they made earlier this summer in local and state-wide contests.

At the International, the 500 contestants will vie for more than 200 trophies and medals, and a share in more than \$4,000 in cash awards.

Among those invited is Robert L. Bowden, 15, son of Mr. and Mrs. R. B. Bowden. He left early this week to be there for the contests which opened Wednesday. He is sponsored locally by Harrel's Motor and Equipment, local Chrysler-Plymouth dealers.

Oil Activities

Another failure for Knox County is the Humble Oil and Refining Company's No. E-1 McCadden Estate, four and one-half miles west of Benjamin, which was abandoned at 6,292 feet. The failure was eight miles northeast of the Buzzard Peak Field.

VISITORS IN PATE MEINZER HOME IN BENJAMIN

Visiting in the home of Mr. and Mrs. Pate Meinzer of Benjamin over the week end were Mr. and Mrs. George Hammons of Olustee, Okla.; Mr. and Mrs. Aaron Ballard and children of Munday, Charles Flanary of Haskell, Mr. and Mrs. Don Jacobs and children of Truscott, Mr. and Mrs. Archie Struck and children of Goree, Joyce Skides of Munday and Mr. and Mrs. Gordon Cole of Vera.

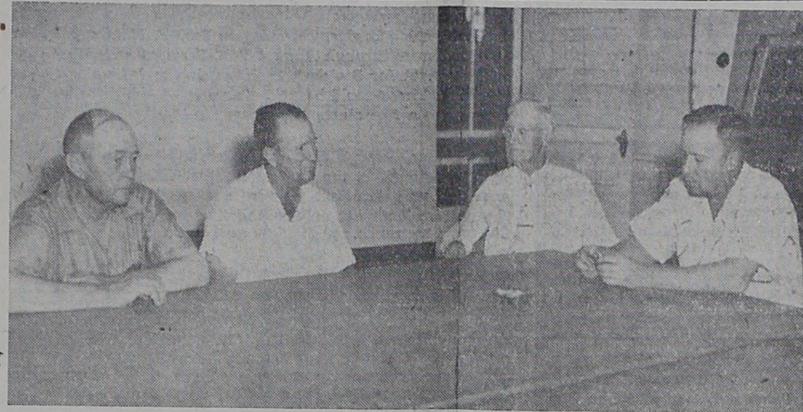

Knox County Is Again Soaked With Abundant Rain Over 6 Inches Here

Folks are convinced it can rain here!

All portions of Knox County have been thoroughly soaked by rains of the past several days, filling stock tanks and lakes which furnish water supplies, flooding local streets, and giving farm lands the most thorough soaking they've had in several years.

This period of moisture started Sunday morning with a heavy shower that brought almost three-tenths of an inch, and rain had come every day through Wednesday.

At first, an area to the east and south of Munday received only showers, but it is thought Wednesday's rain just about

Wiggins Named Chairman For USO Defense Drive

DALLAS—Mr. M. L. Wiggins, of Munday, has been named Chairman of Knox County for the Texas United Defense Fund, the state-wide group which will sponsor the USO campaign for \$775,000 in Texas this year.

Mr. Wiggins' appointment was jointly made by C. E. McCutchen of Wichita Falls, Regional Chairman, and Dudley K. Woodward Jr. of Dallas, State Campaign Chairman for the forthcoming appeal to carry on the familiar and welcomed USO services to the young men and women in the armed forces.

A major portion of the Texas goal will be included in Community Chest campaigns and other united fund drives throughout the state this fall.

Mrs. Hill Leases Hotel Coffee Shop

Announcement is being made this week that Mrs. Frank Hill, formerly of Benjamin, has leased the Hotel Yarbrough Coffee Shop from Mr. and Mrs. B. A. Yarbrough, taking charge of the business on Tuesday morning.

Mrs. Hill invites the continued patronage of people of this area, assuring them of her desire to serve them with well-cooked meals and special orders. She plans to make home-made pies a specialty of the coffee shop in the near future.

Mr. and Mrs. Yarbrough, who still continue to operate the Yarbrough Hotel, expressed thanks for the patronage given them while they were in charge of the coffee shop.

HOME ON VACATION

Mr. and Mrs. Archie Struck and children of Goree, Mrs. Ada Cole of Vera and Sue Ballard of Munday have returned from points in New Mexico, Colorado, Idaho, Oregon, Washington, Wyoming and Utah, where they visited relatives and saw many places of interest.

HERE FROM PALO PINTO

Misses Becky and Jane Arrot of Palo Pinto are here for two weeks visit with their uncle and aunt, Mr. and Mrs. Jeff Mitchell. Becky is also renewing acquaintances with her many friends here.

Five Injured In Car Accident Early Tuesday

The four Knox County men, above, are shown mapping a campaign to sell soil conservation to farmers of the county. They are, left to right, Clay F. Grove, Munday farmer; Charley B. Cape, SCS work unit supervisor, chairman; D. R. Brown, Rochester farmer, and Russell Penick, Munday implement dealer.

Three experienced men, B. D. Green of Cisco and Bill White of Dill City, Okla., and J. P. Phillips of Breckenridge, have executed a lease on the Munday Livestock Commission Company properties here, and will begin the auction sales in the near future.

The commission company which operated for several years by R. L. Ratliff and son, Wm. O. Ratliff, ceased holding the livestock auctions some time ago, and local people will welcome the news that they will be held again. The auction sales served a wide area and brought many people into Munday each Tuesday.

Both Mr. Green and Mr. Phillips are experienced livestockmen and now operate an auction barn in Cisco.

Mr. Green will serve as manager of the local sales, and Bill White, who served as auctioneer for the Ratliffs, will be auctioneer for the weekly sales. Livestock sales will be held each Tuesday.

The opening sale under the new managers will be held on Tuesday, September 1, it was stated.

Oil Bowl Grid Classic Set For Friday Night

WICHITA FALLS — North Texas and Southern Oklahoma will be well represented in the colorful 16th annual Oil Bowl football game in new Midwest Stadium at 8 o'clock Friday.

Nineteen of the all-stars—15 Texans and 4 Oklahomans—hailed from this section of the Southwest in the clash for glory and handicapped children.

Tickets are selling fast for the Oil Bowl game but good seats are still available at the Kemp Hotel lobby and the Oil Bowl office in Maskat Temple, Eleventh and Lamar, Wichita Falls.

Proceeds from the game after expenses will go for charity in North Texas and Oklahoma. The state-owned Oklahoma Crippled Children's Hospital at Oklahoma City will receive half of the receipts from the Oklahoma Coaches Association which co-sponsors the game with Maskat Shrine Temple which has 2,600 members throughout North Texas.

Children and adults throughout North Texas benefit indirectly via agencies in Wichita Falls which receive Oil Bowl funds and treat clients from this entire section.

Drive To Sell Conservation Of Knox County Soil Planned In Meeting Friday

Local Methodist Revival Showing Good Progress

Rev. Doyle Ragle, pastor of the First Methodist Church announced today that the revival meeting, now in progress, was making splendid progress with interest and attendance increasing with each service. There were eight decisions with three additions to the church Sunday, and others pledged themselves to unite with the church before the meeting closes.

Feature of the meeting has been a series of special services beginning with youth night service Monday night. Tuesday night was dedicated to the womanhood of the community while Thursday night was designated as men's night with an all male choir as a feature of the service.

Veteran's Night

Friday night has been named as Veteran's Night with the service honoring those who lost their lives in the service of their country and dedicated to the veterans of all wars. The local post of the American Legion has been invited to attend in a body.

Dr. Frank L. Turner who is bringing the messages, is a veteran of World War I, having served with the 90th Division in the American Expeditionary Forces. He speaks right out of his experience and has a message of interest to veterans as well as all others. The series of services will come to a conclusion with the service Sunday night.

DELIVERS CATTLE TO POINTS IN TEXAS

Charles Moorhouse has just returned from Seagraves, where he received 234 of the Slaughter Ranch calves for delivery to Roy Butler and son of Bomarton. He and Deaton Moorhouse also delivered 495 head of black Angus calves at Eldorado and San Angelo last week. They reported light to heavy rains over all the cattle country they visited, but in insufficient amounts at all points.

Cliff Combs and his nephews, Eugene and Bill Don Combs, of Hereford are visiting in the home of his brother, Don, and family and enjoying fishing at Lake Kemp this week.

The assistance of business and professional men of the county will be sought in a campaign to sell soil conservation to Knox County farmers, emphasizing the importance of planting cover crops this fall.

A committee headed by Charley B. Cape, work unit supervisor of the Wichita-Brazos Soil Conservation District, was named at a meeting of farmers, business men and district co-operators at Knox City last Friday afternoon. The group gathered to map a conservation selling campaign.

Cape's committee is composed of D. R. Brown, Rochester farmer; Clay F. Grove, Munday farmer; and Russell Penick, Munday implement dealer.

This group set to work immediately to map out the campaign and will report back to the main committee at a later date.

Tentatively, the steering committee members agreed that the first phase of the campaign would likely be resolved into an effort to educate business and professional men on what soil conservation really is, how it will benefit them, and how they can assist in getting more farmers and landowners to adopt soil conservation practices.

Few Farmers Sold

Cape told the group Friday that the Soil Conservation Service, County Extension Service, vocational agriculture departments and other professional agencies have done just about all they can to sell conservation.

"For some reason we have not been able to get the job done. Only a small per cent of the farms in Knox County practice soil conservation.

"I would hate to see us go through another fall and spring like we have for the last two or three years, with our valuable top soil blowing away," Cape told the group.

"If we can just get business men and farmers interested, we can get some cover crops planted which will hold the soil. Even if we can just get some sudan planted now, it will get enough growth by frost that the stubble will help immensely in cutting down wind erosion."

Demonstrate Value

The campaign to educate the citizens on the value of soil conservation tentatively agreed on will include actual experiences of the farmers who have co-operated, various demonstrations to show the value of conservation, stories and pictures on conservation projects which have proven valuable, newspaper advertising, window displays will stress the value of cover crops and conservation programs are to be given at civic and commercial club meetings.

Friday's meeting was presided over by Henry Smith, Weinert farmer and vice chairman of the Wichita-Brazos district.

Others attending the meeting, held in the old Knox City school building, included Smith, Cape, Brown, Grove, Penick, J. Omar Cure, Gilliland, C. C. Browning, Trucott; H. D. Gammill, Rochester; L. E. Groves, Knox City VA teacher; W. J. Bryan, Benjamin, Knox County's new farm agent; E. H. Nelson, Munday; J. C. Branch, Knox City newspaper publisher; Roy F. Saunders, Munday.

Reserved Tickets On Sale For Home Football Games

Reserved seat tickets for home football games of the Munday Moguls will be sold again this year, it was announced by members of the Chamber of Commerce athletic committee. The move is also approved by the school officials.

Tickets may be purchased at the Chamber of Commerce office. Fans may keep their present seats, or select other ones, it was stated. Tickets will be good for all of the six home games this season.

The need for additional football equipment has prompted selling reserved seats this season, and proceeds will be used to purchase new uniforms.

GRASS ROOTS OPINION

ABILENE, KANS., DAILY REFLECTOR-CHRONICLE: "Perhaps the best example of a handicapped person rising to great heights is Helen Keller, one of America's greatest ladies. Her recent trip to Latin America may have won more good will for her country than all of our diplomatic missions. She is the sort of person to whom the people in the countries she visits can open their hearts."

COATESVILLE, PA., RECORD: "The million non-operating rail workers of 15 unions, who have served new demands on 311 U. S. railroads, say they don't want more wages . . . the 'fringe' benefits they are now demanding include longer vacations, paid health and welfare programs, increased overtime rates for Sundays and holidays, and more liberal free transportation allowance. This may not be money to a railroad worker—but it would be to your scribe."

BALTIMORE, MD., DAILY RECORD: "Maybe we're wrong but we wonder if the post office deficit couldn't be cut quite a bit by eliminating a high percentage of the stuff that is franked by Congressmen and various governmental bureaus. The newspaperers today keep the public pretty well informed concerning matters in Washington and many of the franked matters seem superfluous."

FREEZE THE SOCIAL SECURITY TAX

The President, in his budget message, said that the increase next year in the social security levy, which under the present law will go into effect on the first of next year, should be postponed. The increase would raise the rate on both employers and employees from one-and-one-half to two per cent. It would, therefore, amount to an automatic jump in the income taxes of all the income taxes of all the millions of people under social security.

The case for freezing the tax rate is a very strong one. Social security reserves are enormous—some \$18,000,000,000. And annual collections are running greatly in excess of benefit payments and expenses.

Moreover, few believe that the present social security set-up is sound and equitable. The House Ways and Means Committee has established a sub-committee to make an exhaustive study of the entire social security system—a matter which will take considerable time. Other authoritative non-governmental studies have been started, including at least one which seeks ways for put-

ting social security on a pay-as-we-go basis. In the light of all this—to say nothing of the fact that the Administration is pledged to eventual tax reduction, not tax increases—the levy should be frozen. The danger lies in the fact that simply through inaction on the part of Congress, the automatic provision of the present law will be allowed to become operative and all of us will suffer another tax bite. Here's a case where only specific Congressional action to change the law can do a needed job.

BETTER PROFITS—BUT!

An association which represents thousands of department and variety stores in this country and Canada has analyzed their operating results during the first quarter of 1953 based on the experience of 244 stores whose total sales came to \$750,000,000.

It was found that the stores' net profit was nominally better than for the corresponding period last year. But, before leaping to the conclusion that America's merchants are getting rich at the expense of the helpless consumer, consider these figures: This year's profit was 1.6 per cent of net sales, as compared with 1.4 per cent the year before. In other words, out of each dollar spent with typical stores, the owners kept less than two per cent. All the rest of the money, more than 98 cents, was spent for wages, merchandise, rents, taxes and other unavoidable expenses.

The point unbelievable as it may seem to some people, is clear. If stores earned no profit at all, the difference to consumers would be hardly noticeable.

PRACTICAL COMPROMISE

On the subject of tax reduction, two views now prevail in Congress. One is that taxes should be cut at once, and Congress then trim its financial sails to fit its cloth. The other is that the budget should be balanced first, and tax reduction considered thereafter.

Senator Taft proposes a "standby tax reduction law." Under this law, tax reduction would go into effect automatically once the budget was balanced. If Congress failed to cut spending sufficiently to achieve this, the law would be inoperative.

It is certainly true that if a law were on the books making tax reduction mandatory once appropriations were reduced to a certain level, the people would demand action. Senator Taft may have a practical answer to the problem.

AN INVITATION

Dear Reader:

I am writing this, for the church, as a special invitation to you. We want you to be with us in as many services of our gospel meetings that you possibly can.

The meeting begins, Thursday at 8:00 P. M., August 20th and continues through August 30th. Services have been conveniently set for 8 o'clock each evening and 7 o'clock each morning. There could be no better way in which to get the day off to a fine start.

Brother Oscar Ellison is to do the preaching and John Phillips will direct the singing. Brother Ellison, you will remember, was here last year in our meeting. Those who heard him last year enjoyed the fine gospel sermons he delivered very much.

As last time, he will preach the truth in a plain and simple manner. I know that you will enjoy and appreciate knowing the way of the Lord more perfectly after you have heard him.

We are expecting to see you several times during the meeting. You will receive a cordial welcome. So, come and be with us.

Sincerely,
CLIFFORD WILSON

Weekly Health LETTER

Issued by Dr. Geo. W. Cox,
 M. D., State Health Officer
 of Texas

AUSTIN—Beat by the heat? Is this torrid weather sapping your energy from every body pore? Then State Health Officer George W. Cox has news for you.

"Observing a few simple hot weather living rules can mean relief from this sweltering heat," the doctor says. For instance:

Cut down on the amount of food eaten at any one time. Eat a few crackers or some fruit between meals if you get hungry. Many people feel better in hot weather if they eat fewer protein foods such as eggs, fish and meat. Fruit and vegetables in season makes fine "cool comfort" diets.

Water is constantly being lost through perspiration and has to be replaced or painful heat cramps will result. Office workers probably get enough salt through ordinary eating, but laborers may need 2 or 3 extra teaspoonsful each hot day.

Children who play hard and perspire freely need a little extra salt. Salted nuts or crackers in an agreeable way for them to get it. They won't object at all.

Don't wear clothes that hinder evaporation of perspiration, because that's the way body temperatures are kept normal. Wear loose, light clothing, preferably light in color. Suit you exercise to your strength. Swimming is unquestionably the best summer sport, since it cools rather than overheats the body.

Take a warm bath before bed-

time, and get eight hours of sleep regularly. An oscillating electric fan which keeps the air in motion without harmful direct drafts will make sleeping more comfortable and the next day's heat less oppressive.

Sun rays are most intense between 10 a. m. and 4 p. m. so stay out of their way during those hours if possible. If not, be sure your head is covered.

Observing these rules can make for summertime comfort. Dr. Cox points out. A June-to-October vacation in Alaska would help, too.

Week end guests in the Clayton Wren home were Mr. and Mrs. L. L. Williams of Ballinger and Airman 1st Class and Mrs. Kenneth Landers of Lake Charles, Louisiana.

Knox Prairie Philosopher Has New Idea For Helping Washington To Meet Its Obligations Without Any New Taxes

Editor's note: The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek has had some impossible ideas in his time, but this one must top the list.

Dear editor:
I was out here yesterday afternoon sittin in the shade worryin about the national debt, I find it's a whole lot more restful to worry about the national debt than the private debt, impersonal thinkin is a lot more effective and trouble-free than personal thinkin. I know lots of men who can come closer to settlin Washington's financial difficulties than they can their own, and along about sundown I noticed a cow sniffin at something in the weeds and when I got up to go home I walked over there and discovered it was a newspaper and I picked it up and put in my pocket and after supper I read where some emissary from Washington was just back from South America and he reported what that country needs is more

J. A.

cash from this country.
"If South America could manage a little financing from the United States, it'd be a big help in fightin Communism and buildin a stronger country," the representative said.
"I've been thinkin. Now South America ain't the only country which could use a little cash. As I understand it, the United States could, too. I notice that President Eisenhower is strugglin, with the problem of balancin the budget and has already found out we've promised to spend more money in the next few months than we got comin in

and a special session of Congress may be necessary to raise the debt limit so we can borrow a little just to meet our current obligations, until some new sources of revenue can be found or the expenses can be cut.
I know this may sound revolutionary and in some countries even inhumane, but what I'd like to know is why don't we try borrowin some money from a foreign country ourself.
We've had every kind of representative imaginable goin abroad to see which country needs to borrow from us, and now that we're a little had up for some ready cash ourselves, why don't we send out a borrowin mission of our own?
Or, to save a little money, why

couldn't we just wire the fel lows we already got abroad to stop lendin and start borrowin?
I know it would spread consternation abroad quicker than the news we'd discovered how to mass produce atom bombs at two-bits apiece and were gonna make practice drops clear around the world just to see what happens, or it might be like you announcin in your paper was gonna publish a list of all the past-due accounts owed all the stores in Munday next week, but in desperate times desperate actions sometimes are called for.
If you think this borrowin

Mary Joyce Jones, Claxton Tucker Are Married August 1st

Ceremonies performed in the First Baptist Church of Goree on Saturday evening, August 1, united Miss Mary Joyce Jones, daughter of Mr. and Mrs. John H. Jones, and Claxton Tucker, son of Mr. and Mrs. M. J. Tucker, in marriage. Rev. S. E. Stevenson officiated at the ceremony, performed against a background of pink gladioluses and an arch of greenery with pink trimmings.

Miss Dolores Mobley, pianist, accompanied by her sisters, Misses Mona and Gaylia Mobley, furnished the music. The trio sang "Always" for the audience of close friends and relatives.

Given in marriage by her father, the bride was attired in a dress of exquisite rayon, cotton lace atop nylon net and over attached on acetate taffeta. The lace bodice was buttoned closing from the Peter Pan collar to the pointed waistline, panels of lace extended the full, two-layer nylon net skirt. She wore matching lace gauntlets and fingertip veil of nylon net attached to a headpiece of starched net edged with seed pearls. Her bouquet consisted of white carnations mounted on a white Bible.

Miss Pauline Searcy attended the bride as maid of honor. She wore a pink ballerina gown with white accessories and a white carnation corsage. Miss Mary Francis Tucker, bridesmaid, wore a white ballerina gown with pink corsage and accessories.

Attendants of the groom included Floyd Eubanks of Lubbock as best man, and Johnny Jones, the bride's brother, as usher and groomsmen.

After the ceremony, the couple departed for Lubbock where the groom has been employed since his discharge from the army in May. The bride wore a going-away suit of blue two-piece dress with navy accessories and a white carnation corsage.

Mr. and Mrs. Lynn Ford visited relatives in Fort Worth during the week end.

Barbara Foshee And James Adams Are Married Aug. 14th

At 8 p. m. Friday, August 14, marriage services were performed in the home of Mr. and Mrs. R. E. Foshee to unite their daughter, Barbara, to James Adams, son of Mr. and Mrs. A.H. Adams, of Seymour. Rev. Keith Parks of Red Springs read the double ring ceremony.

The ceremony took place before a setting of white candles and fan shaped bouquets of pink gladioluses. The musical setting was provided by Miss Shirley Hill of Munday.

Given in marriage by her father, the bride wore a street length dress of white nylon net. The tiny veiled hat was trimmed with sequins. She wore a rhinestone necklace and ear rings with blue setting and carried a white Bible topped with a white orchid.

Matron of honor was her sister-in-law, Mrs. Ronald Foshee, who wore a street length dress of wood rose lace. Her corsage was of white carnations.

Best man was Billie Adams of Seymour, nephew of the bridegroom.

Immediately after the ceremony, a reception was held for relatives and close friends. Mrs. Joe Hill presided at the punch bowl. The tiered white and pink wedding cake was cut by Mrs. Ronald Foshee.

The bride is a graduate of Munday High School and attended Draughon's Business College in Wichita Falls. Mr. Adams is a graduate of Seymour High School.

The newlyweds left for Denver, Colorado, where he will be employed.

Mr. and Mrs. Harry Porter of Concord, N. C., and Mr. and Mrs. Gene Few of Fort Worth, recently visited Mr. and Mrs. W. A. Harris and Paul Brogden families of Goree.

Mr. and Mrs. Joe Lane and sons, Skip and Mike, returned home Tuesday evening from a weeks visit with his sister in Fort Davis.

So this is HOUSEKEEPING

Having just won a signal victory, I'm prepared to state that some simple experimenting in typing your mate will save many precious hours trying to persuade a husband to go somewhere, do something, buy something!

As mute testimony to prove my point, our house is now graced by a new Whirlpool clothes dryer to match my automatic washing machine in a beautiful set!

Over a period of days as opening wedges I tried:

Sly Hint: Me: "This is another of the 209 bad days the Weather Bureau says we can look forward to this year so I can't hang out the clothes and your shirts won't get done."

Jeff: "Doggone it, I've got to have a shirt tomorrow!"

(Only a few men will see the point without further prodding.)

Flattery: Me: "You're so much smarter than I am, explain something to me. One of the features of the dryer I'd like to get is that it automatically shuts off both the heat and tumbler when the door is opened accidentally or on purpose."

That's an important safety factor but I don't know how it works."

Jeff: "Sorry, I don't know either."

(Some mechanically-minded men will jump at this opportunity.)

Practical Approach: Me: "The new dryer I have in mind has all sorts of wonderful advantages like an ultra-violet lamp to keep clothes air-fresh, capacity of 20 pounds of wet clothes, an automatic safety thermostat, a smoother tumbler surface that's gentle on clothes, only two dials to operate..."

Jeff: "That's nice."

(Practically is the thing a number of husbands can't resist.)

Facts and Figures: Me: "Whirlpool Corporation is the world's largest manufacturer of home laundry appliances and they say that a clothes dryer actually saves 2,973 hours over clothesline drying!"

I needn't go into detail but it's the Facts and Figures that paved the way toward convincing my type spouse. Now that I know the format I won't waste time with hints, practical approaches or flattery. As I say, once you have him typed, the rest is easy!

Home Demonstration NOTES

By Mrs. Georgia Faye Perkins, Home Demonstration Agent

Last week, the agent visited in the home of an HD club member, who had devoted five years of her time and efforts to being an adult 4-H Leader for a girls' club in Knox County. She had made such wonderful accomplishments that I would like for you to know more about them. She is a respected mother of two children, a son and a daughter, a farmer's wife, and a responsible person in her community.

While a leader of the 4-H Club, the average membership was fifteen girls. One year, she ably led the girls while the county did not have an agent. Her club was the only one that was fortunate enough to have an adult leader that year. Every spring of the five years, she saw that her club girls were in a dress revue in the county or in her community.

"One spring," she said, "we did not have a county dress revue. So we made money at a Cake Walk at the School Carnival and the HD club helped us to buy materials for the girls' aprons, skirts and blouses. That spring we had a dress revue in our community. Eleven girls entered thirty-seven garments. We had three adult judges, and the girls were given first, second and third places on their garments."

The years that the county dress revues were held, this 4-H Leader always had blue, red or white ribbon winners. She has had a strong influence on her daughter's club work. Enough that she made an average of 96 on five garments, and won a gold achievement pin for the overall highest score in the county on Clothing.

"We always looked forward to

summer encampments," she said with great enthusiasm, "and I always went with the girls, either for a joint county camp or district camp."

"Then, to, I taught basket-making to Knox County 4-H club girls and to the women, and enjoyed it very much."

This dependable 4-H Leader was Mrs. Jim Welch, Gilliland Club, and mother of Juanita and Jimmie Welch. Mrs. Welch always accepts everyone very graciously into her home.

Notice, all 4-H Members! Don't forget to insist that your mothers come to our 4-H Picnic in the Seymour Park, August

25, starting at 3:30 p. m. A well-pleased Gilliland HD Club member is Mrs. Elton Carroll, president of the Gilliland HD Club, who made the statement last week:

"Before seeing the demonstration on Cooked Frosting this summer, I never did have good luck making cooked frosting, and after seeing the demonstration, I haven't had a failure in making it. In fact, I really enjoy making it now, and have used it several times."

Ermon Thomas was a business visitor in Fort Worth the first of this week.

Cottonseed Stored For Fifteen Years Still Germinates

Under controlled conditions, cottonseed has been stored for periods up to 15 years and germination was good at the end of the test period. The percentage of germination was most effected by moisture and temperature, says Fred C. Elliott, cotton specialist for the Texas Agricultural Extension Service.

Seed from two upland cotton varieties are being used in the tests which were conducted jointly by the Tennessee Experiment Station and the USDA. The seed were divided into lots and adjusted to moisture levels ranging from 7 to 14 per cent. Samples of each were stored in constant temperatures of 90, 70 and 33 degrees Fahrenheit. Similar lots were stored at normal uncontrolled air temperatures at Knoxville, Tennessee.

After 15 years in storage, Elliott says, seeds kept at 33 degrees Fahrenheit with 7, 19 and 11 per cent moisture still germinated well. Those stored at 13 per cent moisture showed some deterioration while those with 14 per cent moisture were all dead after 15 years.

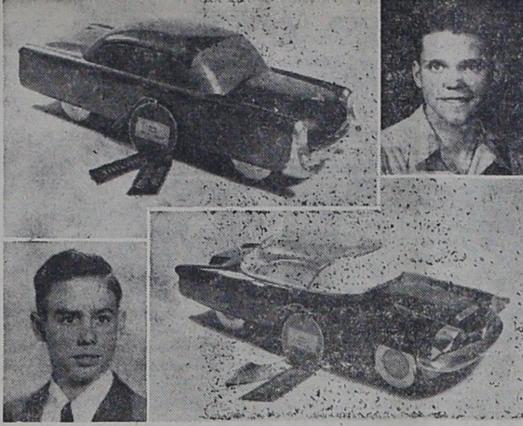

Seeds stored at 70 degrees and 7 per cent moisture for 15 years still showed 73 per cent of the seed capable of germinating. All lots stored at 70 degrees with more than 7 per cent moisture were dead at the end of the test period.

Seeds stored at uncontrolled air temperatures did not fare so well, says Elliott. Only those with a moisture content below 7 per cent survived beyond three years in storage and all lots were dead after 13 1/2 years.

Most rapid deterioration of seed occurred at 90 degrees. Those containing 14 per cent moisture were dead in four months and those at all other moisture levels were dead or badly deteriorated in three years, says Elliott.

Mrs. D. M. Groves and grandson, Jerry Ray Groves, returned last Friday from a three weeks visit with her son and family, Sgt. and Mrs. J. P. Groves of Harlingen.

Cure For Sick World Prescribed By Writer

"Medicine For a Sick World" is the title of a new book written by Dr. David Lefkowitz, above, famed Dallas rabbi, published this month by the Southern Methodist University Press. In the volume of essays the distinguished writer maintains that today's world sickness is brought on by materialism and can be healed only by spiritual values, brotherly love and understanding. An appreciative preface is written by Dr. Umphrey Lee, president of S.M.U., in Dallas, where Dr. Lefkowitz is a visiting professor at the Perkins School of Theology, lecturing on contemporary Judaism.

THE FIFTH PLATE
The present birth rate in the United States indicates that one extra person will be sitting at every American table for four by 1975. People are now asking: "Where is the food coming from to fill this fifth plate?"

If population forecasters are right, our agricultural production will have to increase 20 percent to feed the next generation as well as we are eating now. This means a big demand for additional food.

In the past, such demands have led to drastic changes in the lives of many people. When the Irish potato crop failed in 1845, hundreds of thousands left their native country to find homes in the United States. As the population increased in the eastern states, people moved west, opening new land and advancing the frontier.

In World War I, American farmers expanded their production by putting vast acreages of land into cash crops. And you all know the years of distress that followed when the war-time market collapsed in the 20's.

When the second World War again demanded the utmost of farmers, they increased production capacity at that time.

Today each farmer now raises enough to feed himself and about 15 others. And there are 7,000 new babies to be fed in the United States every morning of the year. New farmers and new farms can't be created fast enough to keep the ratio balanced.

If we have to raise our sights to feed a permanently expanding population, where shall we turn this time? There're no new frontiers of first-rate land to be opened up. Only a little more than one-fifth of our land area is now being used for crops, so millions more acres could be put into cultivation—but the investment for irrigation alone would be staggering.

The problem is not a new one. About fifty years ago, Thomas Malthus, a brilliant but rather short-sighted English economist, forecast starvation for the human race because the world population, he said, was outstripping agricultural production. But Malthus was wrong. He underestimated the farmer's ingenuity in constantly improving his crop raising methods.

The answer, then, lies in a greater application of science to man race because the world population, he said, was outstripping agricultural production. But Malthus was wrong. He underestimated the farmer's ingenuity in constantly improving his crop raising methods.

We must find new ways to apply research to agricultural production and teach approximately the present number of farmers to use new scientific knowledge on approximately the present area of cropland. We have nothing to fear from the "fifth plate" as long as the farmer continues to increase his per-acre yields, improve his soil conservation practices and work for better plant and animal breeding.

Shower On Friday Given To Honor Mrs. K. Landers

Pink and green were emphasized in the decoration for a shower honoring Mrs. Kenneth Landers Friday night in the home of Mrs. Clayton Wren. The table was covered with a white lace cloth and centerpiece arrangement of pink rosebuds and fern.

Hostesses for the affair were Mes. Clayton Wren, Claude Hill, A. M. Searcy, Tom Morton and W. G. Welborn. Miss Juanita Reed presided at the crystal

punch service and Mrs. Fred Searcy served the white angel food squares centered with pink rosebuds.

Mrs. W. G. Welborn secured names of the guests for the bride's book and Mrs. Tom Morton presented the gifts. Approximately thirty-five guests registered and sent gifts.

Misses Annie Hawkins and Margaret Wooten of Fort Worth were guests of Mr. and Mrs. G. W. Hawkins over the week end.

Mr. and Mrs. Bud Slagel of Red Springs were Sunday guests in the home of Mr. and Mrs. Herby Peek.

The man with 248,404 different names

Idly toying with pencil and paper, we just figured out what it would cost to buy yourself a certain electric manufacturing company. Complete with factories, machines, raw materials in the bins, and so forth.

Write your check for 2 billion dollars, please. (That's at recent price per share quoted on the Stock Exchange.) But don't send the check to the company. It doesn't own the stock:

You'd have to buy back the stock in bits and pieces from 116,000 women share owners. And 83,000 men. You'd have to get in touch with about 25,000 trustees and guardians. And a few thousand insurance companies, universities, hospitals and pension trusts to buy back the stock they own.

We wouldn't blame these people if they didn't sell to you. They don't have to, you know. Maybe they want the stock for the same reason you do.

Not even a thousand millionaires, each putting in a million dollars, could "own" General Electric. The "man" who owns General Electric has 248,404 names. There are that many owners on the books.

Simple mathematics can shoot a large round hole in the childish misconception that America's basic companies are owned by a few lucky people.

Suppose there were the fantastic total of 100,000 millionaires. Even they couldn't buy the "people-owned" businesses on which America depends for goods. But already six and a half million individuals have a direct investment in America's production.

The only thing bigger than America today will be America tomorrow. And the only collection of people rich enough to finance this growth and share in its success is the public.

You can put your confidence in—

and cutters and other boning types reflected to some degree the liquid condition of that portion of the market aided by government purchases of canned and ground meat. Latest reports indicated this program was taking five to six million pounds per week. (5,375,260 lbs. the week ended Aug. 10). Vast expansion of this buying is expected soon.

The government paid \$38.75 per cwt. for canned beef, and bought nearly a million and a half lbs. hamburger at \$33.34. (Fort Worth packers quoted hamburger to this writer at \$27.00 per cwt. the same week). Frozen carcass beef for Greece was bought at \$23.93 and frozen carcass mutton at \$14.70, delivered Port of New York.

While these prices may appear stronger than current wholesale levels, some of this is to be delivered in September and after all, it is bought in an effort to RAISE prices. This should do it.

Fort Worth's hog price Monday climbed back to the year's high of \$25.25-25.50 for top hogs. This was 25 to 50c higher. Sows were steady to 50c higher, selling \$18.00-21.50.

Sheep and lambs ruled steady at Fort Worth. Top lambs at \$20, indicated that strictly choice kinds could bring \$1 or \$2 more. Medium, good and choice fat lambs sold from \$14.00-20.00, cull to medium \$10.00-14.00. Feeder lambs were held around \$13.00-15.00. Old ewes \$5.00-6.00; solid mouthed ewes \$7.00-10.00. Old wethers \$7.00-10.00. Old bucks \$2.00-3.00. Two's \$10.00-12.00. Slaughter yearlings \$10.00-17.00.

Good and choice fed steers and yearlings \$18.00-23.50; common and medium grassers and shortfeds \$11.00-17.00; ranny yearlings \$8.00-10.00.

Butcher and beef cows \$9.50-12.00; canners and cutters \$7.00-9.50. Bulls \$8.00-13.00. Good and choice fat calves \$13.50-16.50, few higher. Common and medium butcher sorts \$10.00-13.00; culls \$7.00-10.00. (Grassy calves and yearlings are at the lowest time since the third week in June.)

Good and choice stocker steer calves \$13.00-18.00, heifers \$15.50 down and good and choice stocker steer yearlings \$13.00-16.00. Stocker cows \$8.00 to \$14.00.

Some criticism is being made of the food-making industry because of their stand against certain practices in the drouth feed program. Feed men are being pilloried by some producers for trying to get a program set up whereby the feed making industry can participate.

Much of this is grossly unfair. After all this program will bankrupt many small businessmen (feed dealers) in its present form. We can hardly blame an important segment of our national economy for fighting for its life.

Miss Gwen Groves of Wichita Falls was a week end guest in the home of her mother, Mrs. D. M. Groves.

CARD OF THANKS

We again express appreciation to all of you who gathered last Friday and worked out our crops. Your neighborly deeds will always be remembered in our hearts.

The biggest bargain that I found on this summer's trip to California was a bus trip from Los Angeles to Tijuana, the town made famous by its race track, which was the subject of entertaining short stories by Gerald Beaumont, 30 years ago. Tijuana is just across the boundary in Old Mexico and the track, Aguacaliente, is the scene of racing every Sunday throughout the year.

You board a special bus (one leaves every few minutes from 7:15 to 8:15 a. m.) in front of the Biltmore Hotel and go past thousands of orange trees; San Juan Capistrano, the mission renowned for the swallows, and 50 miles along the Pacific Ocean with its boundless green waves, bathers and campers in trailers or in cars, with tents and tarpaulins. (That night, coming back you will see fires of driftwood.) You go by Del Mar, the race track where "the turf meets the surf"—in fact, wisps of mist from the ocean hang like smoke across the track this particular morning; and through many pretty towns, past the harbor of San Diego, with its destroyers and cruisers.

At the boundary you leave the bus and are handed two tickets. You walk across the line and board a taxi to the track. The driver tears one ticket in two—the other half is for the return taxi ride. He steps on the starter and you are literally "off to the races"—in fact, the driver gives you a little racing down side streets, unpaved to avoid traffic and then zips in and out of the line of cars. You see the bull-ring, and off to one side, a slim tower that suggests the Moors in Spain—and then you are at the track entrance. The other ticket given you is admission, not just to the grounds, but to the clubhouse.

There, a scene right out of a South American technicolor musical presents itself to your enchanted gaze: a track surrounded by mountains, an infield of bright-hued grass, adorned with tropical flowers and shrubs; in front of the clubhouse, diners and sippers under big beach umbrellas of red, blue and pale gold, over the section of the clubhouse which extends out into the open, a canopy of red, white and green canvas. The clubhouse itself has tiled floors and an intricately-carved ceiling covered with gilt. Only Carmen Miranda was lacking!

This day, there are three races in the morning and 12 in the afternoon. There is little delay between races—at most tracks, in an afternoon there will be eight races, so naturally

events here are speeded up.) People are the most interesting sight at the track—as they are everywhere. At Tijuana, you see Mexicans, Chinese, Americans; tourists, in lurid sport shirts; a woman of India (or maybe Hollywood) in a robe; men with wide hats and boots, as at the Stock Show in Fort Worth; a few Mexican policemen, smartly garbed in gray-green uniforms; movie actors

and actresses; a giant of a man, over 300 pounds, in dark trousers and navy-blue sweater, his head sitting on bull-like shoulders; a woman in a picture hat, who reminds one of a duchess at Monte Carlo in an E. Phillips Oppenheim novel; a silent, lone man with slit-like eyes, swart face and the inscrutable expression of a Mayan image. Well, when you are ready to depart, you exchange your taxi

ticket for a ride back to town and walk past the U. S. immigration officer, who asks, "Where were you born?" You answer, "If he had asked, 'Why?' that might have been more difficult. Then the bus trip back to Los Angeles. Now what do you think the fare for the international journey was: over 300 miles, past missions, orange groves, lovely towns, San Diego harbor, taxi

and from the track and admission to the clubhouse? Four dollars! That was the biggest bargain of my California visit. (Of course, any losses at the track are extra). Mr. and Mrs. Curtis Gollehon and son, Tommy, of Amarillo are visiting in the homes of their parents, Mr. and Mrs. B. O. Norvill and Mr. and Mrs. C. Gollehon, this week.

Mr. and Mrs. Ben Yarbrough and Mr. and Mrs. Kirby Fitzgerald returned Thursday evening from a two weeks vacation to points in Washington, Oregon, Utah, Nevada, California, New Mexico and other interesting places. Joe Lanham Bevers of Dallas was a week end visitor in the home of his parents, Mr. and Mrs. Walter Bevers.

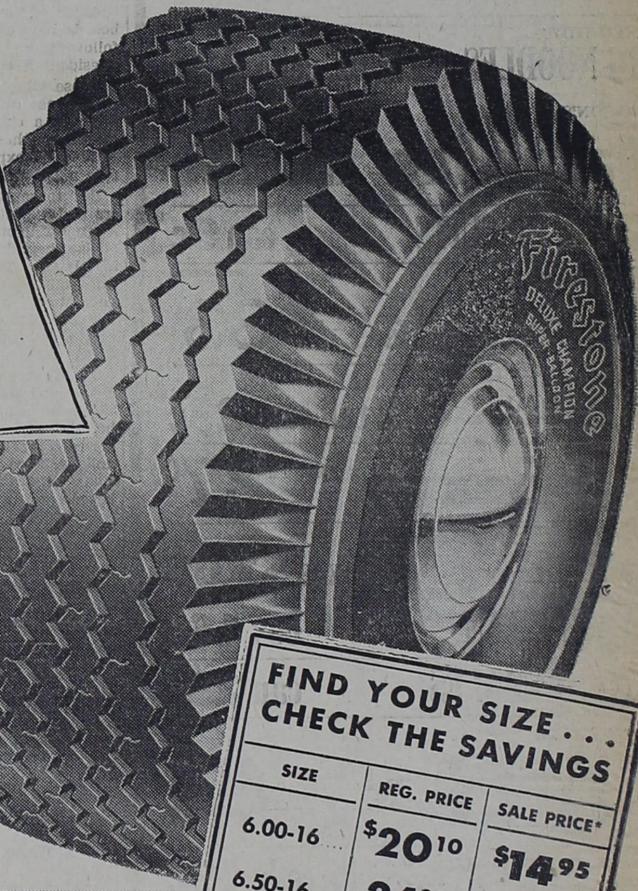

Mr. and Mrs. L. W. Haber and granddaughters, Shirley Carolyn and Dianna, returned Thursday evening from a vacation trip to points in Colorado and New Mexico. They visited the Earl Nichols in Tatum, N. M., on the way home. Miss Ilene McClaran of Wichita Falls was a week end guest with her mother, Mrs. Ann McClaran.

How to Start a Nail

AS MANY a youngster or amateur craftsman has learned by painful experience, there are several wrong ways of starting a nail. There also is a correct way, which will avoid smashed fingers.

In the illustrations by the National Safety Council, the wrong way is demonstrated in the upper

two pictures, with the painful result if the nail slips. Rule 1 is to avoid holding the nail by the thumb and finger near the point of the nail.

If the thumb and finger are held near the head of the nail, as shown in the lower illustrations, the digits will be knocked out of the way and will escape injury even though the nail slips. Of course, avoid having the thumb and finger snug against the head of the nail, too; otherwise the hammer is likely to strike them as well as the head of the nail.

TOP RODEO PERFORMER—Harry Tompkins, one of the world's top rodeo performers, from Dublin, Texas, is shown with three of the eight hand-tooled saddles awarded him at major rodeos over the nation. In immediate foreground is saddle presented Tompkins as world champion cowboy of 1952 by the Rodeo Cowboy Association. In background are a few of the 32 silver buckles awarded him for performances over the country. He will be one of the many star performers at Dublin's Pre-Madison Square Garden Rodeo, Sept. 2-3-4-5.

Brief Articles On The Draft Law And Regulations

VII
(Editor's Note: This is one of a series of short articles on the draft law and its rules and regulations.)

AUSTIN, Texas, August 10—Any young married man registers with a draft board had better be on the alert about reporting children in his family or expected birth of a child.

On August 25th and thereafter, fathers are not deferrable because of their children. Draft boards have this new regulation following an executive order of President Eisenhower.

Those who now have children and those who are expecting birth of a child, are deferrable; likewise, those who become fathers or expectant fathers before midnight, August 24th.

But these men who are fathers and expectant fathers before August 25th must act at once to advise their draft boards in writing. If they fail to perform this important duty required by draft regulation, they will be liable for the draft simply because they failed to advise their boards of the facts.

In the case of expectant fathers, certificate from a licensed physician must be secured stating that the child had been conceived, probable date of delivery, and evidence upon which positive diagnosis of pregnancy is based.

Brigadier General Paul L. Wakefield, state draft director, urges all married men who come under the provisions of this new regulation to act at once if they wish to retain their deferred status.

Lt. Col. and Mrs. Jack Williams and children of Midwest City, Okla., came in last Sunday for a ten day visit here with his parents, Mr. and Mrs. P. V. Williams. They and Mrs. Jerry Kane and girls visited Mr. and Mrs. Joe Bill Pierce and children in Midland last Tuesday and Wednesday.

O. B. Glover of Chickasha, Oklahoma was a business visitor here last Tuesday.

COTTON THEN AND NOW

Times may change, but cotton stays about where it was 35 years ago if one may judge from this clipping which appeared in a Beeville, Texas, newspaper dated 1916:

"Cotton is the overcoat of a seed that is planted and grown in the Southern states to keep the producer broke and the buyer crazy. The fiber varies in color and weight, and the man who can guess the nearest length of the fiber is called a cotton man by the public, a fool by the farmer and a poor business man by his creditors.

"The price of cotton is determined in New York and goes up when you have sold and down when you have bought. A buyer working for a group of mills was sent to New York to watch the cotton market, and after a few days' deliberation he wired his firm as follows:

"Some think it will go up and some think it will go down. I do, too. Whatever you do will be wrong. Act at once."

"Cotton is planted in the spring, mortgaged in the summer and left in the field in the winter.

"You can and you can't; you will and you won't. Be damned if you do and be damned if you don't.—Greenville (Miss.) Delta Democrat-Times.

Mr. and Mrs. Otis Simpson met their daughter, Mrs. E. C. Elliott and family of Claypool, Ariz., at Farmington, N. M., where they visited in the homes of two of their daughters, Mrs. D. E. Wood and Mrs. Cline Peterson and their families, also with their son and wife, Mr. and Mrs. James Simpson. One day while there Mr. and Mrs. Otis Simpson and their children and families visited relatives in Dove Creek, Colo. On their return trip home they visited relatives in Grady, N. M., and Lubbock. The Simpsons reported a wonderful trip.

Dr. and Mrs. Nollie Farrington and children of New Orleans, La., are spending this week in the home of his mother, Mrs. W. P. Farrington.

Mr. and Mrs. Peter Cowart of Hereford were Thursday guests in the home of Mr. and Mrs. Don Combs.
