I saw a disturbing report on one of those daytime documentary shows last week that dealt with kids who have murdered other kids... for their tennis shoes! It was not just an isolated case. There were many incidents in which kids so coveted the brand name sneakers of their peers, they killed them and took their shoes.

When I mentioned the report to a friend of mine, she replied, "Well, I'm not really surprised. If a kid doesn't have Nike sneakers and Guess jeans, she's considered a "nobody" by the other kids."

Designer clothes have been coveted by kids for a long time. My Amy worked all summer at Trainham's Grocery and spent almost every paycheck on LA Gear sneakers, Guess jeans - all status symbols in a generation where brand names seem to determine who's popular and who's not. But, how is it possible for a kid to be so desperate as to kill somebody else for a pair of shoes? I'm sure these incidents involved kids who were a little unbalanced to begin with, but it still blows the mind to think of it.

Maybe we of the 'over the hill' generation were more fortunate than we thought. I can imagine my mother's reaction if I'd said, "Mother, I can't wear those shoes you ordered from the Sears and Roebuck catalog. The other kids will make fun of me."

You can be sure I would have worn those shoes and how I handled any ridicule from anybody would have been up to me.

I remember our high school banquets - we didn't have proms in Goree in the 50's - when some of the girls had formals from Lane Felker or McClurkens. The dresses were gorgeous and I suppose all of us secretly wished for them, but most everybody's dress was homemade - just like mine. Mother and my wonderful Aunt Maribelle would work for weeks on my dress and when I'd slip it over my head on banquet night, they'd stand by to zip and button - to fluff a ruffle and admire their handiwork, and I felt just as elegant as anybody else. As elegant, of course, as a girl could feel who was all knees and eyes and had been nicknamed "Olive Oyl".

Maybe because there were so many other things more important to my parents, we were just not ever conscious of brand names - but I don't remember that anybody was concerned with them. It makes one wonder where it's all going.

As a child, I remember playing in my grandmother's button box - stringing the buttons together to make the most wonderful toys while my grandmother sat pumping away on an old treadle sewing machine sewing her gingham dresses. Flour came in big sacks with bright colored patterns and I remember Mama Harlan saving those sacks and sewing them together to make "house dresses". Most of her dresses were made alike with short sleeves and buttons down the front to the skirt. She had one beautiful Sunday dress with little bouquets of yellow flowers on it.

Mama Beecher made her dresses long sleeved with high collars and one of her nicest dresses was a blue one the same shade as her exquisite eyes.

My grandmothers didn't worry at all that the women down the road might have "store bought" dresses for herself and her daughters. They were more concerned with making sure their kids' necks were all scrubbed and their hair was combed as they sat lined up in the church pews on Sunday morning. A tag in the neck of a dress was the least of their worries.

"Is she suggesting that mothers of today are more concerned with their (Continued On Page 2)

Munday Wins Double Class A State Track Title

Hard work, dedication, and a strong desire to win paid off once again for Munday High School athletes last weekend in Austin as both the Moguls and Mogulettes made a clean sweep of Class A state track titles.

It was the third straight state championship for the Mogulettes and the third victory in six years for the Moguls.

The Mogulettes racked up 92 points, winning three relays and three individual events, leaving second place finisher Bronte a distant 32 points behind. Detroit finished third with 30 points and Miles and Paducah tied for fourth and fifth place with 28 points each. Lindsey had 19 points for sixth place.

The Moguls' went into the final event, the 1600 meter relay, trailing defending champion Rotan by 10 points. In order to win, the Moguls had to finish in the top three of the event. Not only did they win the event, but came within four-tenths of a second from the meet record they set in 1988. The Moguls finished ten points ahead of Rotan with 56 points. Turkey Valley was third with 29; Calvert fourth with 28 and Detroit and Trinidad were fifth and sixth, with 27 and 26 points, respectively.

Mindy Myers closed out her four-

year high school track career by winning three gold medals on Saturday. She won her fourth straight 800 with a 2:17.7, her personal best this year. She again ran her best time of the year, a 5:26.5, in the 1600 to take her second victory in that event.

The 1600 meter relay team of Angie Offutt, Alicia Cook, April Offutt and Mindy Myers, captured a gold medal in that race, running a 4:00.5. That time, which was only one-tenth of a second off the state record, set another new record for Munday High School.

Angie and April Offutt, Kathy Wilde, and Alicia Cook, Munday's 400 and 800 meter relay teams took first place wins in both events, setting a new school record of 49.7 in the sprint relay and posting a time of 1:45.3 in the 800.

Kathy Wilde had her personal best time of 14.90 to win the 100 meter hurdles for the second time in three years.

The Mogulettes' only non-win was in the high jump, where Mindy jumped 5'2" for fifth place.

Contributing to the Moguls' team victory were Brett Bruce, who came up with his best shot put effort of the year, a 50'4 1/2" toss, to take second place. Bobby Dockins finished sec-

ond in the high hurdles, breaking the 15 second mark with a time of 14.6. Perry Collier ran a 48.6 in the 400 for another second place and Terry Collier's personal best time of 21.6 in the 200 meter earned him a fourth place finish. Terry finished third in the triple jump with 44'0", also a personal best.

These and other athletes will be recognized at the annual All-Sports Banquet set for 7 p.m. Friday, May 18 at the Munday High School gym.

kids' clothes than their morals?" somebody will say. And I really don't mean to suggest that at all. I'm just as guilty as anybody at using a credit card until it bulges at the seams to pay too much for designer clothes because we all want our kids to feel good about themselves.

It just sometimes seems that we get so caught up in trying to "keep up with the Jones", so to speak, we kind of lose sight of some more of the important qualities. How sad it is when a little girl who would make the best friend another girl could have is not given a chance because her sneakers happen to say *USA Flyers* and her jeans say *Wranglers*.

There's a little girl in our class at school who has the most beautiful big brown eyes and shy little smile. She tries so hard to do the very best she can possibly do all the time and this is after she has been responsible for getting her sisters dressed and to school on time. She wants her hair to be long and pretty, but she does it herself and since she's only eight years old, it usually needs a good brushing. Her clothes are so obviously second hand that the T-shirts often bear someone else's name.

But she's the first to offer to pick up all the pieces of the puzzle another kid has left out. She is very quiet but when she says something, it's always something friendly or intelligent. And when she earns the right to put a "sticker" on her chart for excellent work, the look of pride on her little face is enough to touch even the hardest heart.

She will probably never own a pair of *Adidas* sneakers unless they've been discarded by somebody else. But she is the most responsible little girl for an eight year old I've ever seen, and there's love in her heart, and there's compassion, and I think God must be very proud of her.

We are fortunate in our rural areas that it's not likely we have a kid who

would kill another kid for a pair of shoes. But, wouldn't it be great if we could all just like somebody for what's inside? Wouldn't it be wonderful if a kid was popular for her winning smile and her sincerity rather than whether or not there was a triangle enclosed question mark on the seat of her pants?

My grandmother's favorite saying was "Pretty is as pretty does," and if she were still living on this earth today, she would probably say, "It's not important what's on your jeans, it's what you do when you're wearing them."

(Note: I appreciate so much the cards, phone calls, food, visits and every expression of concern my wonderful friends have showered on me this week. I am especially grateful to, not only my own church, but all the congregations who lifted me up in prayer.)

My face still looks a little like Tommy finally got tired of my smart mouth, but actually the floor kind of came up and smacked me. The cardiologists say if I take one small pill every day for the rest of my life, I will probably get to stay around for a while. And God has given me a gentle reminder that I - like everybody else - need to take time to see the panoramic sunsets He paints for us every day.

I'm hitting on about 4 of my 6

cylinders now and that's not bad for an antique model. I expect to be 100% in just a few days and I do love you all for caring. - JG -

You've heard of fair-weather friends - the kind who flock to you when everything is going right, and disappear when things start going wrong. But have you ever heard of "foul-weather friends," the kind who cling to you when things are going badly, and ignore you when everything is running smoothly?

When you're face to face with a crisis, it's natural to cry out to God for help. But what about when things are running smoothly? When the wind is at your back...your health is excellent...there's money in the checkbook and the bills are all paid - what then? Trying singing and expressing your devotion to God in the good times as well as the bad!

See you next week, and remember: to the atheist, death is the end; to the believer, only the beginning.

WEINERT NEWS
By Mrs. Myrtle Phemister

We congratulate the Munday Mogulettes for their third straight Class A state track championship. And our congratulations to the Mogulettes for their third win also. Many area people were in attendance at the exciting state track meet held each year in Austin.

We will sing the birthday song this week to Cindy Guess, Mildred Guess, Woody Turnbow and Zachry Wood. Happy Birthday, all!

Our concern and prayers are for our sick, Bennie Horan who had to return to Humana with blood clots in her lungs and Betty Sanders who underwent a mastectomy last Wednesday at Hendricks Medical Center for a malignant tumor. She is hoping to be home by Wednesday.

Ernest McGuire was re-admitted to the Haskell Hospital last week.

R. S. Sanders is improving daily following hip replacement surgery several days ago.

Mary Murphy and Shanna were part of the crowd at the state track meet in Austin on Saturday.

Doris Walker was in Lubbock for a weekend visit with her mother, Hazel Dodson, and her brother's family. Doris was accompanied by her daughter, Deena Hacker and Jordan.

Buck and Helen Turnbow spent the weekend in Stanton with their daughter, Jeanene and Gene Perry, and enjoyed a family dinner in the new home of their granddaughter, Carla and Roger Brooks.

Mike and Laurie Byrd of Hamlin, the Turnbow's grandson, were also present for the Mother's Day celebration.

Margie and Pete Jordan of Hamilton made a brief visit with her mother, Frances Mahan, and brother, Leonard and Linda, on Sunday.

The Jordans were returning from Weatherford, Oklahoma, where they

At Your Service
Dr. Larry Fitzgerald
Minister, Church of Christ

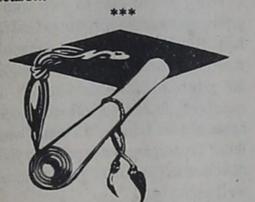

Q: What will our bodies be like when we go to heaven?

A: The Bible doesn't spell out all the details of eternity. It does give us some information, though. First of all, we will have memories and personalities. We will recognize each other (Luke 16:19-31). Second, we'll be just like the resurrected Jesus (1 John 3:2). This means that our bodies will be mature and perfect. No one will be deformed, mentally incompetent, or handicapped in any way. Nor will anyone be either infant or aged. Our bodies will be real like Jesus' resurrected body, not ghost-like (Luke 24:36-40). We will reflect the image of "the man of heaven" (1 Corinthians 15:49).

You may be interested to know that Christians on earth are changed by degrees into Jesus' likeness (2 Corinthians 3:18). That is one reason why regular attendance in the church is so important. Such participation in the earthly kingdom (Christ's Church) is preparation for the spiritual kingdom (Heaven) (see Colossians 1:11-14).

If you have a question for this column feel free to write Dr. Fitzgerald in care of Box 211, Munday, Texas 76371.

THE BEST RETURN ON YOUR MONEY IS PAYING OFF CREDIT CARD DEBT

The Tax Reform Act of 1986 changed the rules on consumer interest deductibility, but it's not clear that consumers have altered their credit habits accordingly. For 1989, only 20 percent of the finance charges paid on consumer loans will be deductible. In 1990, just 10 percent of the total will be deductible and in 1991, none of the finance charge will be deductible. That will mean that with the national average interest rate on credit cards currently 18.66 percent, every \$100 of debt costs \$18.66 a year in interest.

Investors would have to have spectacular returns on their investments in order to match the return on repaying debt. A person in the 28 percent tax bracket would have to earn \$25.92 before taxes from a \$100 investment in order to match it. Those in the 33 percent tax bracket would have to earn \$27.85 per \$100 before taxes in order to pay the interest on \$100 of credit-card debt.

The reality is that few people earn high yields without major risk. The average yield on a one-year bank certificate of deposit is around 8 percent currently. Paying off credit-card debt and other consumer loans makes mathematical sense, so much so, that some financial advisors are urging people to pay cash or forego the item.

Avoiding interest on consumer debt is not as simple as it sounds. To get maximum benefit, consumers would have to invest the money they would otherwise be spending on monthly payments. In the words of one advisor, "99 percent of the world

STAIN REMOVAL

Grass stains can usually be removed if they are treated as soon as possible after they occur. Pretreat or soak the stain in a product containing enzymes. This can be a presoak product, a detergent booster or a liquid laundry detergent. Wash the garment as usual. A chlorine or oxygen bleach (whichever is safe for the fabric) added to the wash will help remove any remaining stain.

When treating a spot using a stain remover, place the spotted garment face down on several paper towels. Apply the stain remover to the wrong side of the garment. The stain will be forced off the surface of the garment instead of through the garment. Replace towels frequently.

The Fishing Doc

By "Doc" Fitzgerald

Miller Creek Reservoir

Level: Full
Condition: Murkey, roads in excellent shape

Black Bass: Good. Hitting chrome lures. Rattle lures seem to be best. Some being taken on spinners, large bass minnows, and plastic worms.

Hybrid Bass: Good to 17 pounds. Hitting chrome trolling lures and rattle lures. Also taking large bass minnows, perch and some on spinners. Best near dam.

White Bass: Sandies are good to excellent on small jigs and minnows. Best at night on new docks under lights.

Crappie: Very good. Mostly small in creeks. Larger near dam and new docks. Taking shiners best. River minnows producing small fish. Very good on chartruse-combination tube jigs.

Catfish: Very good. To 50 pounds on trotline taking large minnows, goldfish, and perch and soft baits in cheesecloth. Best pole bait remains soft baits (Tan Bait, blood and Quannah).

Carp, etc.: Excellent. Best on Tan Bait, Quannah and cheese-punch.

Fishing Tip

Q: Can a person catch any other fish on a trotline other than catfish? What's the best bait to use?

A: Just about any fish will hook itself on a trotline at some time or another but you had better not keep a game fish. In Texas, it is illegal to keep bass (all species), crappie, trout or walleye that you find on your trotline. The rule is to release game fish. Only catfish and roughfish (carp,

buffalo, gar, etc.) are legal to take.

Concerning bait, some prefer whole or cut-up shad (caught with a throw net). Others use small perch, large minnows, crayfish, liver, shrimp, jackrabbit chunks, or just about anything "meaty". Also, one thing that works well is soft, dough-like baits (Tan Bait, Quannah, cheese-punch). To use this on a trotline, place a ball of bait in a piece of cheese cloth and tie with a rubberband. Hook the ball and cloth on the hook like you would any other bait. The smell attracts the cats very well.

TRUSCOTT-GILLILAND NEWS

By Mrs. Clara Brown

Even without a rain the countryside is still beautiful and green. The Indian blankets are blooming now, the bear grass is about to bloom, and the horse pasture out here on China Creek has dozens and dozens of Spiderwort opening their deep lilac petals every morning.

One sign of spring in a country home is the killing of the first rattlesnake. Not long ago Jack came in with the first set of rattlers for the year, but couldn't find the jar holding our rattlesnake rattler collection. A search of shelves and closets failed to turn up. Crisis! Who had stolen the rattlers? When the second set of rattlers came in, the same territory was reviewed, and on the back of a shelf in the front closet was the rattlesnake jar, where Guess Who? had placed it last December when putting out Christmas decorations. Have you ever discovered the thief in your house was yourself?

Talked to a man from the Gainesville area not long ago who lived in the country but said he'd never seen a rattlesnake. He looked doubting when told we have a decorative jar holding around a quart of rattlers, all killed on our place and several killed in the yard or just outside it.

The killer dogs, Tuffy and Lucky, tackled another porcupine Saturday and it was back to the vet. The pavlovian theory of pain and avoidance doesn't seem to work for dogs about porcupines.

Kim, Bryon, and Andy Fry of Tahlequah, Oklahoma visited Kim's grandmother, Mrs. Vivian Brown, Friday evening to Sunday afternoon. They all had Mother's Day dinner with Jack and Clara Brown.

Fred and Phil Cook of Mesquite visited their parents, Mr. and Mrs. A.L. Cook, this past weekend. Glen McGuire also had Sunday dinner at the Cook home.

Faye and Malon Mitchell of Dallas visited her mother, Mrs. Venta Home, during the weekend.

BENJAMIN NEWS

By Mrs. Gladene Green

We are still having weather changes from time to time. Had a pretty nice weekend after some treats of rain Friday afternoon. But today (Monday), we have already had a shower and pretty good electrical storm with promises of more, possibly severe, weather this afternoon. Seems it usually happens toward the end of school, but this has been for several weeks and although strange as it sounds, we could use some more rain now for various reasons. Is it ever just like we need (or want) it - seems not!

I hope everyone had a nice Mother's Day weekend. I did. My daughter Diane Herring and I spent the weekend in Denton and I attended the wedding of my niece, Stephanie Foster and Pat Griffin on Saturday afternoon in Tyler. And we saw lots of water down that way. The weather has been mighty high but things are

getting back to near normal now. CONCERNING OUR SICK

Pearl Ryder was admitted to the Knox City Hospital Friday morning. She's had a bout with blood poison (doctors call it something else) as a result of a place on her hand getting infected. They think it may be caused from an insect bite but they are not sure. Whatever it was, reports are that it happened terribly fast and she's been very ill, but is better and hopefully can return home in a day or so. We surely do hope so.

Mabel Moorhouse is a patient in the Seymour Hospital. Reports are that she is quite ill but is getting very good care and hopefully she will return to her good health before long.

Imogean and Dutch Young visited their daughter-in-law, Collette Young, of Seymour in a Wichita Falls hospital Sunday and Dutch took their son Mike to Dallas Friday for a medical checkup. His news was not good as he has two ruptured discs in his back and will be facing surgery before long. I wish the best for all these friends.

ATTENDS SCHOOL

Mary Bohannon attended a telecommunication school in Amarillo recently. The 40-hour school was held on the West campus of the Amarillo Commercial College April 23-27.

Mary is a dispatcher for the Baylor County Law Enforcement Agencies. HERE AND THERE

Clodell Duke and Jan Pollock visited the Denny McCarthys in Iowa Park during the weekend. The McCarthys' son, Will, was home for the summer after finishing his first year at Texas A&M.

Zell Barton and Anne Allen of Amarillo were weekend guests of the Joe Bartons and their Moorhouse relatives and also visited Zell's sister, Mabel Moorhouse, in the Seymour Hospital.

Dee Ann and Anthony Lamb spent the weekend with her sister, Brenda Gollaher in Wichita Falls. On Sunday, they and their brother, Mike Young, all hosted a Mother's Day lunch for their mom, Imogean Young and Dutch on Sunday.

Lorrie Rolston and Curt Coop of San Angelo are here for a few days with her parents, Homer and Jan Rolston. On Sunday they all visited Homer's mom in Denver City.

Corrine Parrish of Franklin is spending a few days with her family here and at Vera and with her mom, Lona Feemster, in the Brazos Valley Care Home.

Kermit, Kathy, Jamie and Daniel Woolley of Spur were Sunday guests of her mom, Bo Milson, and his mother, Oliver Woolley.

Virginia Griffith visited her mom, Audrey Nolan, in the Colonial Medi-Center in Lubbock during the weekend. Audrey will be there until June 6 and then after that, if all goes well, she will be returned to the Brazos Valley Care Home. Her address is Audrey Nolan, Colonial Medi-Center, 4320 19th St., Lubbock, TX 79407.

Faye Dickey of Dumas spent the weekend with her brother and sister-in-law, J.D. and Annie Brown.

Daniel and Rose Ellen Albus of Lubbock spent the weekend with her mom, Nora Hertel and with other relatives and friends.

Don and Louise Hertel attended commencement exercises at South Western Oklahoma State University in Weatherford, Oklahoma Friday night. Their son, Kent, was a member of the graduating class, receiving a degree in Pharmacy.

Betty, Roger and Sabra Parker of Aspermont spent Mother's Day with Gloria and Leroy West. On Friday, Gloria visited her daughter, Kathy Tomlinson of Valley View at Rhineland who was there for a short visit.

We here at Benjamin finally finished our cancer drive. We collected about \$350. (I'm not sure of the exact amount) It should have been done by the last of April but the rainy weather and muddy streets kept us from completing the drive on time. Volunteers doing the collecting were Jessie Roberts, Jan Pollock, Barbara Pratt, Virginia Griffith and myself.

NOTICE - Someone lost a picture in the post office recently. From the information on the back of it, the little girl in the picture is Jackie Dillard, 13 months old. It was picked up in there and given to the postmaster. So if it's yours, I bet Dub will be happy to give it to you.

Texas Coalition For Safety Belts Urges Motorists To Buckle Up

May 21-28 is Buckle Up America! Week. As vacation season begins, the Texas Coalition for Safety Belts reminds motorists that buckling up is still the best way to arrive home safely -- even in cars equipped with air bags.

In fact, the theme for Buckle Up Week is "Belts and Bags - A Winning Combination."

"Many Americans believe that air bags will protect them in a crash, even if they don't buckle up," said George R. Gustafson, coalition spokesperson and president of Texas Safety Association. "They're dead wrong. The air bag and safety belt are made to work together."

Some facts about air bags, safety belts, and traffic in Texas:

-- Air bags deploy only in frontal crashes. They don't work in side-swipes or rollovers. Working alone, they are only 20% to 40% effective in preventing death and injury.

-- A lap/shoulder belt and air bag, used together, can be as much as 55%

effective.

-- If you don't have an air bag, don't worry. That lap/shoulder belt, manual or automatic, is still the best single restraint for adults. Used alone, it's 45% to 50% effective against death and injury.

-- An approved child seat, properly secured, is about 70% effective for infants and toddlers.

-- Since the Texas safety belt law took effect in September 1985, belt use had quadrupled. Sixty-three percent of Texas drivers buckled up in January 1990. Teenage drivers (ages 15-19) are at 54% -- a record high for this age group.

-- Front-seat fatalities were 15% lower in 1989 than in 1984, the last year before the law was passed.

-- Our mileage death rate last year was an all-time record low: 2.1 deaths for every 100 million miles driven.

-- On June 13, 1989, Texas experienced its first day without a traffic death since January 5, 1977.

Ag Statistics Service 1990 Inventories Begin June 1

Beginning June 1, representatives from the Texas Agricultural Statistics Service will begin contacting farmers and ranchers across the state to help set the 1990 planted acreage estimates and midyear livestock inventories.

State Statistician Dennis Findley emphasized that information from these surveys will help producers adjust their production and marketing plans for 1990. Information from these surveys will provide Texas producers with solid facts and figures they can use when making their marketing plans.

"There are many uncertainties facing agriculture," Findley added, "and accurate, reliable figures will give producers a chance to make sound production and marketing

decisions during the coming year."

Results of the confidential interviews, conducted by telephone or in person by field enumerators, will be published later this summer. The 1990 planted acreage report will be released June 28 and the U.S. cattle inventory will be released July 1.

To reduce survey costs, Findley is urging farmers and ranchers to return the mailed questionnaires as soon as possible. Individual reports will be combined with other reports to state estimates.

"Remember, these are sample surveys, so if you are contacted it is important to provide the requested information, since your one report represents similar operations of the same size and type. Our estimates can be no better than the numbers producers provide," Findley added.

Genealogical Society Organizes

Individuals from Foard, Hardeman and Knox counties met Friday, May 11 in the Foard County to form the Tri-County Genealogical Society.

The first project for the group will be to obtain a microfiche reader to be placed in the Foard County Library for public use. Mrs. Fay Statter reported \$160 in donations received toward the reader since the recent genealogy workshop. A reader will cost about \$300 and some basic genealogy materials in microfiche will be about \$300 more. These materials will include census records.

At this time, area residents must go to Lubbock, Abilene, or Wichita Falls to view microfiche or microfilm census records. Microfiche records can be bought or rented from several sources.

The organization will work to provide local programs on genealogy for area citizens, to educate members concerning genealogical research methods and materials, and to encourage area libraries to obtain material of special interest to tri-county residents.

Officers elected were Clara Brown, president; Faye Statter, secretary; and Margaret Daniel, treasurer.

Mrs. Statter and Mrs. Brown were named to draft a constitution and by-laws to be submitted at the next meeting.

The group voted to buy the two video tapes on using LDS genealogy libraries and place them in the Foard County Library's video exchange program.

It was also voted that the three officers will serve as an executive committee for any business before the next meeting, September 10.

Others attending the meeting were Mrs. Roxie Huff, Mrs. Laura Holland and Mrs. Lori Bell.

Tax Rebates Reflect Economy On Track

State Comptroller Bob Bullock's office sent \$138 million in monthly local sales tax rebates to more than a thousand Texas cities and counties recently, and according to Bullock "the Texas economy is still on track, and the increase in sales tax rebates reflects that."

Checks to cities totaled more than \$126 million, an increase of 7.27 percent over payments made last May, Bullock said.

Munday's check of \$6,323.36 indicated a 3.73% decrease from the same time last year; however other towns in the county showed an increase. Benjamin received \$731.37, a 14.16% increase from last year; Goree's check for \$1,281.66 was an 11.59% increase and Knox City's \$13,797.41 reflected a 34.09% increase over the 1989 amount.

Total 1990 payments to date for Knox County total \$74,249.02, an 11.77% increase for the same time period in 1989.

This month's checks include taxes collected on March sales and reported in April.

Knox County also received a check totaling \$116.44 for its 12.5% share of the state's mixed drink tax collected during the first quarter of 1990. Total county revenue on mixed drink tax totaled \$931.50.

The mixed drink tax is collected by the Alcoholic Beverage Commission and city and county tax rebates are sent out quarterly by Bullock's office.

Small Grains Field Day Scheduled

Texas A&M University Research and Extension Center will host a small grains field day Thursday, May 17 (today) at its facilities in Lockett.

The program will include discussion on management of stock cattle on wheat for profit, opportunities for Rolling Plains producers through the Foundation Seed Service, reports of work being done with canola, a relatively new crop for the area, new wheat varieties and breeding for resistance to the Russian wheat aphid and other pests, chain diking of wheat land, pesticide applicator training and demonstrations on small grain nutrition, wheat weaving, and baking.

Pesticide applicators can earn 4.5 CEU's for participating in morning field day and afternoon training.

Registration begins at 8:45 a.m. and the program begins at 9:15 a.m. A pesticide application training starts at 1 p.m.

Dear Kin and Friends,

Thank you sincerely for your prayers, get-well and birthday cards, visits, calls, plants, food and all the thoughtful things you did for me while I was in the hospital and health care center in Wichita Falls and since I have been home. A special thanks to my "second daughter and son" who have been concerned and done so much for me during this time and the last several months. (Phillippians 1:3 KJV)
