### Boll Weevils Are Moving Into Earliest Cotton Fields

As cotton has begun to square, the need to inspect fields for early season pests increases. Earliest planted fields are now squaring. Fleahopper and boll weevil infestations are increasing.

Only a week is required from the time one can see a square developing until that square is one-third grown. Boll weevils must deposit their eggs in squares that are at least one-third grown in order for the larvae to survive. Boll weevil control applications are timed just prior to the one-third grown square stage to prevent overwintered boll weevils from depositing viable eggs and to delay the development of damaging infestations until later in the growing season.

Boll weevils continue to be captured in pheromone traps but are decreasing. Seven boll weevils were captured in one trap this week. When using traps, the week prior to the one-third grown square stage is most important. When an average of four or more boll weevils are captured per trap that week, overwintered boll weevil control measures are suggested. On June 20, only seven weevils were caught in eight traps located throughout Knox County. If producers do not use traps, the need for early season control can be indicated by the numbers of weevils in the field. If there are more than 532 boll weevils per acre (four per 100 feet of row on cotton planted in 40 inch rows, or three per 100 feet of row in 30 inch rows), control measures will be needed.

Individual fields may need control in heavily infested areas of the field. These population levels are based on information provided from a study

conducted recently by Dr. J.E. Slosser, Texas Agricultural Experiment Station Entomologist at Vernon.

As cotton begins to square, fleahoppers also become more important. Because of the warm conditions this spring, heavier than usual fleahopper activity may occur. Start inspecting for fleahoppers about 21 days after plant emergence. This should be about one week before the appearance of the first squares. When 15 to 20 fleahoppers are found per 100 terminals and 20% or more of the small squares are fleahopper damaged (dried up on the plant), fleahopper control measures will be needed.

Also, begin inspecting fields for small bollworms which will be feeding in the plant terminals. Some damage can be tolerated, but as cotton begins to bloom, bollworm damage becomes even more important.

TYRE GREENWOOD

### Local Boy Attends Texas Lions Camp

Tyre Greenwood of Munday recently attended the Texas Lions Camp in Kerrville. Sponsored by the Munday Lions Club, Tyre rode horses, went swimming and even camped out under the stars while enjoying the fun and fellowship with other children.

The camp serves children, ages seven through 16, who are visually or hearing impaired or have physical disabilities. Camp programs are adapted so that everyone may participate. The Texas Lions Club Camp has provided over 40,000 handicapped children with an opportunity to learn from and enjoy the outdoors since it was founded in 1949.

Tyre is the eight-year-old son of Mike and Barbara Greenwood.

### Munday Students To Attend Debate Camp

Jai Reed and David Tidwell, both juniors at Munday High School, will participate in the 17th Annual Summer Speech-Theatre-Debate Camp at Cameron University in Lawton, Oklahoma, July 7-12.

The boys will attend the Beginning CX Team Debate conference. Their daytime activities will include instruction, library research, lecture/demonstrations, and individual coaching. The evenings involve entertainment activities as well as additional coaching sessions.

The camp is being staffed by 58 successful high school Speech teachers, college professors and college students. Assisting from Munday will be Becky Ratliff, MHS English teacher and debate coach.

The Munday students are the sons of Floyd and Phyllis Reed and Joe and Claudia Tidwell.

### Area Zip Codes Change July 1

New ZIP codes will be put into use July 1 for Throckmorton, Woodson, and 18 other communities located west of Mineral Wells, according to the U.S. Postal Service.

Throckmorton's ZIP code will change from 76083 to 76483 and Woodson's from 76091 to 76491. The old ZIP's will be honored for at least a year to give citizens time to adjust. During that one-year grace period, mail bearing either ZIP code will be delivered, but postal patrons are being advised to make changes as soon as possible.

The change is necessary due to the growth of the Fort Worth-Dallas metroplex creating a shortage of ZIP codes for that area. The change will affect more than 25,000 people in the 20 communities involved.

### Church Homecoming Set For This Sunday

The Munday Church of Christ will celebrate their 85th anniversary and homecoming this Sunday, July 7.

The day will begin with Bible class at 9:30 a.m. and worship service led by former Munday evangelists at 10:30. After a pot luck luncheon at noon, former members and friends will entertain with funny stories. The day will conclude with old-fashioned singing and visitation, followed by a 6:00 p.m. worship service.

All former church members, as well as all area residents and friends, are welcome, regardless of religious affiliation.

### Emergency Care Course Scheduled

An Emergency Care Attendant Course (ECA) will be offered in Munday beginning Tuesday, July 9.

The class, to be taught by Roland and Sue Marion of Knox City, will meet for eight hours each week. A total of 60 hours is required for certification. There will be a small enrollment fee for the course.

For more information, or to sign up for the ECA course, contact Reba Redder or Jeanie Carden in Munday, or Sue or Roland Marion or Billie Norton in Knox City.

### Chamber Plans Summer Fun!

The Munday Chamber of Commerce has planned some summer fun activities for area residents.

A Class C Men's Slow-Pitch Softball Tournament is scheduled for July 12-13 for all the local sports fans.

On the quieter side, the Taste of Munday and Back to School Fashion Review will be held Sunday, July 21.

JERRY BENSON OF MUNDAY, driver of this pick-up, had to be removed from his vehicle by the Jaws of Life after being hit broadside by Walter R. Belcher of Knox City. Miraculously, Benson received only minor injuries. Mr. Belcher and his wife, Minnie, were both injured in the accident and were believed to have been transferred to a Wichita Falls hospital. The Belchers were heading north on the farm road adjacent to the Veterinary Clinic, while Benson was traveling on the Munday-Knox City highway.

### County Vegetable Show Draws Over 140 Entries

Over 140 entries were exhibited at the Knox County Vegetable Show held Saturday, June 22, at Knox City.

Richards adds that bids for enroll-

ing wetlands will not be accepted during the sign-up because the Food, Agriculture, Conservation and Trade Act of 1990 establishes a Wetland Reserve Program.

Richards says producers can simultaneously enter the same acreage into the annual commodity programs and CRP. They can withdraw from the commodity programs without penalty if the CRP bid is accepted.

Acceptance of a bid is not binding to either the producer or USDA until the contract is signed.

In the first ten CRP sign-ups, Texans had 3.9 million acres of land accepted into the program. On average, erosion was reduced by 36 tons on each of those acres as a result of the program. That's over 40 million tons of soil that did not erode as a direct result of the Conservation Reserve Program.

**WENDELL PARTRIDGE, KNOX COUNTY 4-H LEADER,** accepts a plaque honoring him as an outstanding adult leader, from Dr. Lynne Thibodeaux at the State 4-H Roundup Salute to Excellence Awards ceremony held recently at Texas A&M University.

**Munday 4-H Leader Gets Special State Recognition**

A 4-H volunteer from Knox County was among thirty honored recently at the 1991 State 4-H Roundup at Texas A&M University.

Wendell Partridge of Munday received the Texas 4-H Salute to Excellence Award provided by the Texas 4-H Foundation, the service organization of the Texas Agricultural Extension Service 4-H Youth Development program.

Volunteering for 4-H has been a major part of Partridge's life for more than 30 years. As a farmer, he was quick to realize the importance animal projects served in instilling self-esteem, self-confidence and responsibility in youth. He encourages young people to achieve their highest goals and become leaders.

Partridge has served on numerous 4-H committees, and has also found time to devote to other youth-oriented programs. Over the years, he has served as cub and den master of

the Boy Scouts and Eagle Scouts. He chartered the first Little League baseball group in the community and served as director for five years.

Presently, he is director of the Knox County American Heart Association and continues to volunteer assistance to home care facilities in the community.

Attending the Salute to Excellence Leader's Luncheon with Mr. Partridge were his wife, Leona; Jane Rowan, Knox County Extension Agent; and Alexis Bordovsky of College Station.

**Services Held For Local's Father**

J.C. Wright, Jr., 67, of Red Springs, passed away Thursday, June 27, at the Seymour Hospital.

Services were at 2:00 p.m. Saturday at Red Springs Baptist Church with the Rev. Tom Sülwell, pastor, and A.B. Martin, minister of the Church of Christ, officiating. Burial was in Henson Cemetery in Red Springs under the direction of Seymour Memorial Funeral Home.

Mr. Wright was born February 23, 1924, in Baylor County and grew up in Bomarton and Red Springs. A 1942 graduate of Seymour High School, he served in the Navy during World War II. He and Doris L. "Dot" Massey were married September 2, 1943, in Vera.

A farmer, he was employed by the Texas Highway Department and later served as the manager of the Seymour office of Production Credit Association. He retired in 1985.

Mr. Wright was a member of the Red Springs Baptist Church, a director of the Soil Conservation Service and served as a committee member for the Seymour Old Settlers Reunion. He was a vice-president of the Wichita Falls Production Credit Association.

Survivors include his wife; two daughters, Debbie Sosolik of Munday and Nancy Robertson of Canyon; three sons, Joe Pat and Ricky, both of Seymour, and Gary of Red Springs; two sisters, Louise Burkhalter of Seymour and Beth Bergman of Fort Worth; and eight grandchildren.

**Q:** Why does the Bible tell us to "fear God"? I can't believe in any God that I have to fear.

**A:** This is another example of how poor English Bible translations have misled people. There are three Greek nouns that are translated "fear" in the New Testament. (The original language of the N.T. is Greek.)

**Phobos:** is probably what you are thinking about when you say "fear" in English. This term means "dread" or "terror". When this type of "fear" is used in the New Testament, it generally is used in a negative context such as in Romans 8:15: "For you did not receive the spirit of slavery to fall back into fear, but you have received the spirit of sonship." When this term is used in the positive sense, it refers to "dread" of something. The dread of disease will cause someone to practice healthy habits, for instance. It was the outrageous dread which creates our English term "phobia". The phobos of God is the dread of that which defiles us and prevents us from growing to maturity in God. This is the intent of 2 Corinthians 7:1.

The second Greek term translated "fear" is *deilia*. This is the terror which produces cowardice. God does not want our obedience because of this type of fear or timidity. "For God did not give us a spirit of fear (timidity) but a spirit of power and love and self-control" (2 Timothy 1:7).

The third Greek term translated "fear" in the N.T. is *eulabeia*. It does not mean "dread" or "cowering to a menacing God". It means deep respect or reverence. We are told that Jesus had this type of "fear" (which should be translated "reverence"). "In the days of his flesh, Jesus offered up prayers and supplications, with loud cries and tears, to Him who was able to save him from death, and he was

heard for his godly fear" (godly reverence) (Hebrews 5:7).

God wants your respect (which I know that you have), not your terror. God is love (1 John 4:8). God's love is so immense that He wants us to be His children (1 John 3:1). This idea of absolute respect and tender love is wrapped up in the term "Abba", by which God wants us to know Him (Romans 8:15).

Don't forget the 85th anniversary and homecoming of the Munday Church of Christ next Sunday. See the ad in this paper for more information.

## Gauer-Kuehler Exchange Vows In Double-Ring Ceremony

Amanda Grace Gauer and Perry Allan Kuehler were united in marriage on Saturday, June 15, at St. Joseph's Catholic Church in Rhineland. The double-ring ceremony was performed by Father Gary Geurtz, pastor. Edgar N. Gauer III of Lubbock, brother of the bride, read scripture from Genesis 2:18-24 and Colossians 3:12-17.

Amanda is the daughter of Mr. and Mrs. Edgar J. Gauer of Seymour and the granddaughter of Mrs. Edgar N. Gauer, Jr. of Terre Haute, Indiana. Perry is the son of Mrs. Earlene Kuehler and the grandson of Mrs. Opal Brewer, both of Munday.

Vows were exchanged before the hand-carved altar in the sanctuary, which was adorned with matching brass candlesticks centered with arrangements of yellow and peach gladiolus, peach Gerber daisies, white iris, baby's breath and sprengerii fern. Boston ferns banked the front of the sanctuary area, creating a garden-effect for the ceremony. Baskets of silk Boston ferns were suspended in the archways lining the main aisle of the church. Garlands of grape ivy accented with overlaid yellow satin and white lace bows encircled the Gothic columns of the arches. Pews were lined with brass stands supporting free-styled arrangements of white larkspur, white, yellow and peach roses, yellow enchantment lilies, yellow and peach mini-carnations, baby's breath and sprengerii fern. Overlaid bows of yellow satin and white lace highlighted the brass stands. The ornate yellow and white unity candle sat on a stand entwined with grape ivy and a matching overlaid bow.

Guests were ushered by Andrew Gauer of Carlsbad, California, brother of the bride, and Terry Hendrix, Steven Smith, Marty Earle, Johnny Melton and Pat Smith, all of Munday, friends of the couple.

The bride's grandmother was ushered by her grandson, Edgar N. Gauer III. The mother of the bride was escorted by her son, Andrew Gauer. The groom's mother was escorted by her son, Rick Kuehler, and his grandmother was escorted by Terry Hendrix. The mothers lit the unity candle together while Lyndle Reeves of Munday sang *Sunrise, Sunset*.

The mother of the bride was attired in a one-piece dress of peach linen accented with a dropped waist and white lace collar. The bridegroom's

mother wore a two-piece dress of candlelight chiffon adorned with a lace overlay.

The bride was given in marriage by her parents and escorted by her father while Lohengrin's *Bridal Chorus* was played by organist, Sandy King of Munday. As the bride was escorted down the aisle, she paused to give both her mother and grandmother a white rose. Upon leaving the church, she paused once again, to give her new mother-in-law and grandmother-in-law each a matching rose.

The bride chose an Alfred Angelo original gown of French imported Chantilly lace featuring a Victorian neckline and sleeves, fitted at the wrist. The dress, accented with seed pearls, mother of pearl sequins and strings of pearls, was complimented with a Basque waistline accented by Venise lace and featured a keyhole back. The chapel-length train flowed from a rosette bow at the waistline.

For something old, the bride wore her confirmation pin, something new were pearl and diamond earrings given to her by her father, something borrowed was her grandmother's handkerchief, and something blue was her garter. She also carried a sixpence, given to her by her parents,

in her shoe.

She carried a cascading bouquet of white and yellow enchantment lilies, yellow, white and peach roses, and stephanotis centered with japhet orchids and accented with sprengerii fern, baby's breath, seed pearls and overlaid streamers of yellow satin and white lace.

Kathleen Gemberling of Moscow, Idaho, and Kim Schmidt of Pueblo, Colorado, friends of the bride, served as matrons of honor. Bridesmaids were Kelly Koerner of Terre Haute, Indiana, friend of the bride; Tabitha Gauer of Lubbock, sister-in-law of the bride; Kim Stewart of Munday, friend of the couple; and Tonya Kuehler of Munday, niece of the groom.

The attendants' dresses were of a yellow, peach and white summer cotton print. The bodices featured a v-neck and back with puffed sleeves to the elbow. The tea length skirts were accented by three tiers in the back and a bow at the waistline. They wore white lace gloves and white lace boucle hats trimmed in ribbon matching their dresses and featuring a yellow rose at the back. Their cascading bouquets were of yellow enchantment lilies, white and peach roses, yellow and peach mini-carnations, white iris, variegated ivy and baby's breath.

MRS. PERRY ALLAN KUEHLER  
.....nee Amanda Grace Gauer

Jennifer Rumbaugh of Gautier, Mississippi, niece of the bride, was flower girl. Her dress of white taffeta was accented with a white lace bib, a white satin bow at the waistline and white lace trim at the hem of the skirt. She wore a halo of peach roses, yellow mini-carnations, baby's breath and seed pearls in her hair. The basket she carried, made from the same material as the attendants' dresses, was adorned with overlaid bows of yellow satin and white lace and filled with yellow and peach rose petals.

The groom was attired in a Gray Parisian full dress tuxedo by Christian Dior with matching vest and satin tie. He wore a single yellow rose accented by stephanotis on his lapel.

Mike and Mark Stewart of Munday, friends of the groom, served as best men. Groomsmen were Rick Kuehler of Dallas, brother of the groom; Shannon Forehand of San Marcos, friend of the groom; and Stan Decker and Todd Meers, both of Munday, friends of the groom. The groomsmen and ushers were also attired in Gray Parisian tuxedos accented with a yellow tie and cummerbund. The father of the bride wore the same tuxedo with a matching vest and satin tie. Each wore a single yellow rose accented with stephanotis on his lapel.

Payden Stewart of Munday served as the ringbearer and was dressed identically to the groom. He carried a white satin ring pillow accented with white lace, peach roses and yellow

mini-carnations.

Kathleen Gemberling sang *When I'm With You* by Sheriff while the bride was given in marriage by her parents. She also sang *Ave Maria* in German while the couple lit the unity candle.

Lyndle Reeves sang *One Friend* by Dan Seals during the communion meditation and also sang *The Our Father*.

Parents of the bridal couple hosted a reception, dinner and dance in the Knights of Columbus Hall immediately following the ceremony.

The bride's table was covered by a white cloth featuring a white lace overlay, with overlaid bows of yellow satin and white lace accenting the corners of the table. The wedding cake was a waterfall of five free-standing layers that cascaded downward to the table. The cake was showered with sprays of white japhet orchids, yellow and white roses, yellow enchantment lilies, stephanotis, ming fern and variegated ivy. Magnolia blossoms floated around the base of the cake. Table appointments were of crystal and silver. Yellow mints, a gift from Jo Heldmann of Seymour, and peach mints, a gift from Jean Collins of Munday, were also served. Serving guests at the bride's table were Mayree Hollis of Haskell, Debbie Frazier of Aspermont, and Kay Bradley of Seymour.

The groom's table was covered with a cloth of peach satin, appointed with brass serving pieces and centered with a medley of fresh fruit, magnolia

blooms, yellow enchantment lilies and lemon leaves. Nestled in the arrangement were cheesecakes of three different flavors for the delight of the guests. Serving at the groom's table were Paula Schur of Munday and Cindy Wisdom of Thalia.

Holly Hutchinson of Munday registered guests at the entrance of the hall. The registry table was draped in a white satin cloth with a white lace overlay. Accenting the table was a picture of the bridal couple in a crystal frame inscribed with wedding bells.

The rehearsal dinner, compliments of the Collis Michels family and the John Cook family, was held on June 14 at the Perry Patton Community Center in Munday. Hot hors d'oeuvres and punch were served, followed by a seafood salad buffet. The buffet was centered by a dolphin ice sculpture covered with chilled shrimp. Tablecloths, place mats and napkins in the bride's chosen colors of yellow and peach highlighted the room.

The bride is a graduate of the University of North Texas and is employed as an adult probation officer in Haskell. The groom, a graduate of Munday High School, is the owner of *Buds For You* in Munday. Following a honeymoon in Jamaica, the couple will make their home in Munday.

A Sunday School teacher of children (age 8) asked her students to explain God. Here is an essay by a boy named Danny.

"One of God's main jobs is making people. He makes these to put in place of the ones that die so there will be enough people to take care of things here on earth. He doesn't make grown-ups, just babies. I think because they are smaller and easier to make. That way he does not have to take up his valuable time teaching them to talk and walk. He can just leave that up to the mothers and fathers. I think it works out pretty good.

"God's second most important job is listening to prayers. An awful lot of this goes on, cause some people, like preachers and things, pray other times besides bedtime, and Grandpa and Grandma Dutton pray every time they eat (except for snacks). God doesn't have time to listen to the radio or TV on account of this. Cause God hears everything, not only prayers, there must be a terrible lots of noise going on in his ears unless he has thought of a way to turn it off. I think we should all be a little quieter. God sees everything and hears everything and is everywhere. Which keeps him pretty busy. So you shouldn't go wasting his

time asking for things that aren't very important or go over your parents' heads and ask for something they said you couldn't have."

Jesus tells us in St. Matthew 18:3; "I tell you the truth, unless you change and become like little children, you will never enter the kingdom of heaven."

How do you see God?  
Hope to see you in study and worship this Sunday!

### Senior Citizens Plan Holiday Celebration

The Munday Senior Citizens Group, who meet regularly on the first Thursday of each month, recently realized that their July meeting would fall on Independence Day, July 4. First thoughts were to reschedule the meeting. But, after some consideration, the group decided to take advantage of the opportunity and make the meeting a celebration of our nation's independence.

All members, past members, and prospective members are urged to come and join in the festivities. The group will meet at 10:00 a.m. at the Perry Patton Community Center. Everyone is asked to bring some "goodies" to share at the noon meal. So, come, bring a friend, and celebrate!

### SOIL TEMPERATURE IMPORTANT FOR MESQUITE CONTROL

A big part of successful control of mesquite with foliar herbicides is timing the application when a majority of mesquite plants are susceptible. Two of the best indicators of susceptible mesquite are soil temperature and the foliage itself.

Mesquite should be sprayed when the plant will absorb enough herbicide through the leaves and move it to the roots to achieve root kill. For that to happen, enough of the leaves must be able to absorb an adequate amount of herbicide. Therefore, condition of the foliage is critical.

The plant should also be actively moving carbohydrates from leaves to root systems, because the herbicide follows the same path. Soil temperature appears to be a good indicator of when mesquite plants become active. Soil temperatures should be monitored with a soil thermometer that has at least a 12 inch probe.

Together soil temperature and foliage are good indicators for timing any foliar application, be it hand spraying, ground broadcast or aerial broadcast. Timing is especially critical to aerial applications where only small amounts of herbicide solution will hit the leaves. It may be less critical for hand applications where leaves are sprayed until wet, but optimum timing still offers the best results.

The Texas A&M University System incorporates soil temperature and foliage factors in their recommendations.

For Texas, the Texas A&M University System advises that the optimum time to spray mesquite begins when soil temperatures reach 75° Fahrenheit at a depth of 12 inches. For all recommended herbicides and tank mixes, the optimum season runs for 45 days after that point. If Reclaim\* herbicide is used alone or in a tank mix, the optimum period runs for 60 days after soil temperatures reach 75°F.

Expect wet soils, clay soils, bottom sites and heavily shaded sites to take longer to warm up. Take soil temperatures on several sites and key on the predominant site to be treated or where you most want control. Researchers at Texas Tech University obtained their best root kills when soil temperatures were 81-83°F at the 12-15 inch depth.

After soil temperature, the next consideration is foliage.

Mesquite foliage should be full, healthy and mature at the time of application. Spraying should be done after the leaves have turned from light green to dark green. This is very important: don't spray uneven, aged foliage -- some light green, some dark green. Uneven-aged foliage can be found when rains cause the mesquite to put on a new flush of growth. Spraying then often results in very poor control. Wait until all foliage is a mature, dark green.

Also, if mesquite foliage appears damaged or stressed by hail, wind, insects, or drought, postpone spraying.

Another time to avoid spraying, is when most of the mesquite bean pods are elongating. Typically, this is during a 7-10 day period just after mid-season. At this time, carbohydrates are moving from roots to bean pods, so herbicide movement is restricted, which may result in poor root kills. After the bean pods are fully elongated, spraying can continue for at least two weeks if other conditions are favorable.

Several herbicides and tank mixes are recommended for mesquite. Applications with Reclaim along and in tank mixes typically post the highest root kills.

Where the combination has been tested, mostly in West Texas, the tank mix of 2/3 pint per acre Reclaim and 1/2 pint per acre Grazon EE\* herbicide has been the most effective broadcast application on mesquite.

If Reclaim is to be aerially applied, some additional application tips should be followed, according to the herbicide manufacturer, DowElanco. These guidelines are based on an evaluation of the first two years' commercial results with the tank mix of Reclaim and Grazon PC. DowElanco recommends the guidelines for any aerial application with Reclaim alone or in the tank mix.

Total spray volume should be four gallons per acre for aerial applications with Reclaim, the manufacturer says. Among commercial results studied, average root kills increased and variation decreased as total volume sprayed went from two gallons to four gallons per acre. Under varying conditions in the two years of application studied, the four gallon rate averaged 55% root kill.

Spray mixes prepared as oil-water emulsions typically perform better than straight water dilutions. The oil may be diesel fuel, fuel oil or kerosene. For aerial applications of Reclaim, the manufacturer recommends a ratio of one part oil to five parts water. The commercial results evaluation confirmed that ratio as the best, averaging 56% root kill under varying conditions.

Wind speeds greater than five mph help break up the thermal barrier at ground level to allow better penetration of the foliage with Reclaim. When applied in 6-8 mph winds, treatments with Reclaim and Grazon PC averaged 55% root kill. Spraying in winds less than three mph or over 10 mph isn't recommended.

For optimum foliar control of mesquite, try to get all the factors in your favor.

(\*Trademark of DowElanco. Grazon PC is a federally restricted pesticide.)

### The Lord's Corner

by Dr. Pete Bradfield, pastor First Baptist Church

I believe in America. I believe it became great because of its faith in God, its hope for independence, and its love for freedom.

I am grateful for America's glorious past; I am awed by its unbelievable present; I am confident of its limitless future.

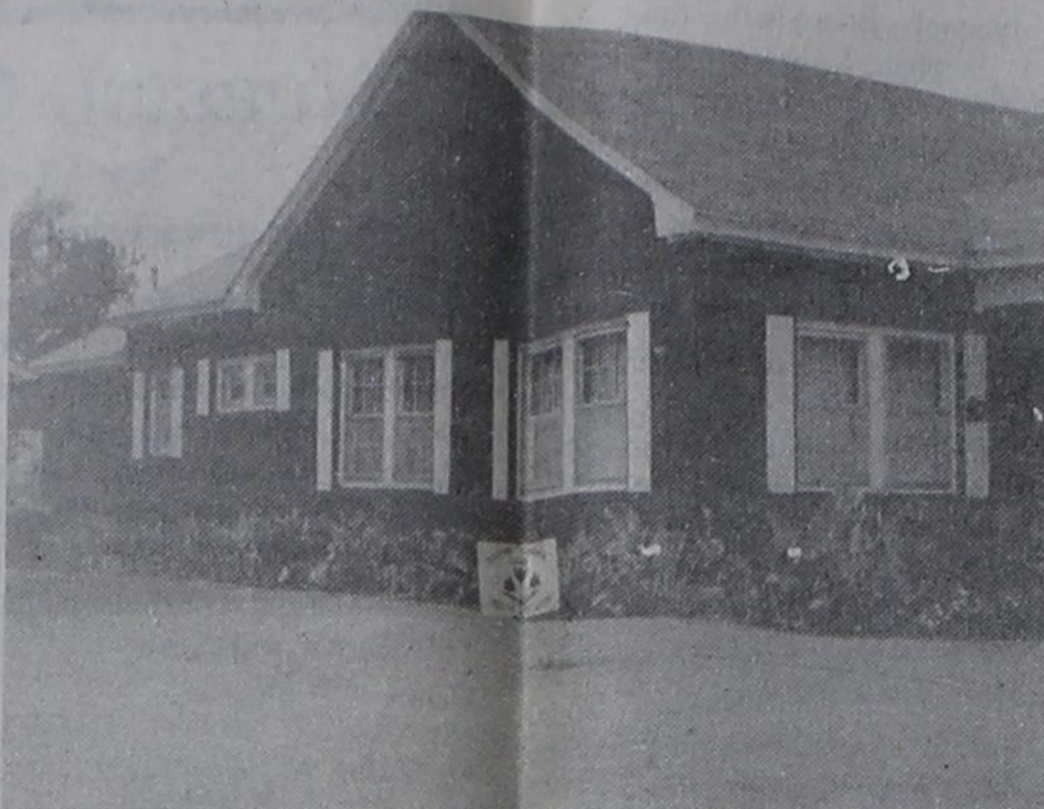

I am not ashamed to take my hat off and to stand at attention when Old Glory passes by. I do not apologize for the lump in my throat when I repeat the Pledge of Allegiance.

I am not embarrassed by the tears in my eyes when I hear "The Star Spangled Banner".

Like millions of Americans, I want a free choice, not a free handout. I prefer an opportunity to prove my abilities on the job rather than a license to demonstrate my frustrations in the street.

I am an old-fashioned American with a new-found determination to do my part to make democracy work.

See you next week and remember: it is impossible to rightly govern the world without God and the Bible.

THE BEAUTIFUL YARD OF TRUMAN AND MAXINE CYPERT was named this week's Yard of the Week by Munday Garden Club. A charming border of red caladiums graces the north side of the home, along with a multitude of other lovely flowers. The front is lush with elephant ears, lilies and periwinkles. If you drive by for a look at this beautiful yard, take note of the large shade tree on the north side that is surrounded by zinnias.

## Johnson Family Enjoys Reunion

MO Ranch, near Hunt, Texas, was the site for the Matthews-Johnson-Bickham family reunion June 20-23. The descendants of the late Kelly Johnson of Munday enjoyed three days of visiting and singing, along with the activities and beauty of the Texas hill country.

Those attending were Winters Matthews and Faye Johnson of Munday, Mary Johnson of Seymour, Dowell and Jo Matthews of Anson, Brandi Matthews of Lubbock, Susan

and Courtney Burgin of Groom and Vicky Albert and Nichole Booe of Rio Rancho, New Mexico.

Also, Glen Matthews of Huntington, West Virginia, Bill, Jo Ann, Mark and Mitch Matthews of Plainview, Mike Matthews of Lexington, NE., Melissa, Lacie, Matthew and Benjamin Young and Clay Matthews of Bovina, Nathan, Michele and Alex Tatum of Amarillo, dorman and Patsy Followwill of Boulder, Colorado, G.C. and Betty Brockett, Parks, Kelly, Jason and Sarah Whitehead of Alamogordo, New Mexico, and Karen, Ryan and Sean Gartner of Midland.

Attending from San Antonio were James, Jonnye and Summer Yandell, Tom, Cheryl and Dinita Dicerson, Ben Willmann, Karen Thomas, Lori Johnson and Kelly Bailey, Moriah, Nathan, Brandon and Molly.

Others were Dave and Nancy Alexander, Sharee and Alexandra White and Tony and Clay Orcutt, all of Houston, David Alexander of Azle, Jack, Mary Ann and Philip Matthews and Kari Land of Piedmont, Oklahoma, Steve, Amy, Meagan and Hunter Matthews of Yukon, Oklahoma, Maribeth and Kara Ford of Eastland, and Pat, Mary Ann and Robbie Noakes and Rene and Glen Ann Bickham, all of Corpus Christi. Also attending were Jim, Julie, James and John Yandell of Highland Village, Eric Dickerson of Arlington and Wendy Brashear of Bedford.

The group enjoyed a time of worship together led by Pat Bickham at the beautiful MO Ranch Chapel before departing and are looking forward to being back together in June of next year.

## Massey Family Holds Reunion

On Saturday, June 22, the family of Charles R. and Lucille Massey gathered at the Fellowship Hall of the Rylie Christian Church in Dallas for their first family reunion. Following a covered dish dinner, the group enjoyed an afternoon filled with picture taking, storytelling, games and "just plain visiting". Everyone had such a great time, plans are to make this an annual affair.

Seven of the Masseys eight children were present including Charles M. and Dorothy Massey of San Antonio, Patsy and J.H. Capp of Garland, Mary and Lamar Peterson of Angleton, and Peggy Emerson, Judy Cook, Jan Massey, Tom and Billie Massey, all of Garland. Unable to attend were Jimmy and Jerry Massey of Wichita Falls.

### SAFEGUARD AGAINST VACATION THEFT

Summer vacation season is here. Most vacationers will have a wonderful time and return with souvenirs and happy memories. Others will return the victims of theft.

Most homeowner's and tenant's insurance policies cover the theft of personal belongings when you are away from home. This includes items which may be stolen from a car, hotel room or from your bag on the beach. Check your insurance policy or with your agent to determine what the policy covers. This is also a good time to make sure items such as cameras and sporting equipment you carry on the trip are covered by the policy.

Bring the insurance company's telephone number with you. If you have any problems you can call them to get instructions for filing a claim and what paperwork, such as a police report, needs to accompany the claim. Also make an inventory of the items you take on the trip to help determine what was stolen in the event of a theft. Include jewelry, camera and video equipment, credit card account numbers and the telephone numbers to call to report lost cards and other valuables. Another option is to leave the list at home with a friend or relative you can call if a theft occurs or bring the list with you and leave it in the hotel safe.

### SUNSCREEN

As summer vacationers head to the beach or the mountains, many will have their sunscreen close at hand. To get the maximum value for your sunscreen dollar, keep these points in mind when shopping for and using sunscreen. Most people do not need a Sun Protection Factor (SPF) greater than 15. Purchase the highest SPF you need at the lowest cost per ounce. An SPF of 15 provides the same amount of protection regardless of the brand name. Purchasing expensive products and higher SPF's than needed can be a waste of money. To get the full protection of the sunscreen you purchase, make sure you apply enough of it. Most people only apply half the amount they should be using. It is recommended that you apply one ounce of sunscreen per application and that you apply it about 30 minutes before you go out in the sun.

### DRINKING ENOUGH FLUIDS

Now with the long hot Texas summer ahead, how much fluid should be consumed during exercise is a question many consumers ask. Drinking adequate amounts of fluid such as water, fruit juice, or low-fat

milk before and during exercise is absolutely crucial to top athletic performance and health. Water's most important function is its role of maintaining normal body temperature and cooling working muscles. Without enough water, the body dehydrates -- which can lead to heat exhaustion or heat stroke. Sweating will cause the loss of more fluids that cannot be fully replaced by drinking liquids -- so drink enough water frequently.

## Sorghum Producers To Elect Directors

Texas sorghum producers will vote by mail later this summer to elect directors for five seats available on the 15-member Texas Grain Sorghum Board (TGSB). Elections will be held in four of the five TGSB districts this year, including Panhandle, West Texas, South Texas and Upper Coast districts.

TGSB administers the funds collected by the statewide assessment on grain sorghum, which is collected on a refund-only basis and is used to fund programs of research, disease and insect control, education and promotion.

Those eligible to vote are persons who are subject to the assessment collected by TGSB, including producers of grain sorghum and owners of land on which grain sorghum is grown. Any eligible voter may be nominated for a seat on the board.

Nomination forms are available from the TGSB office at P.O. Box 560, Abilene, TX, 79311. The forms must be signed by the nominee and ten eligible voters and returned to the TGSB office not later than July 31, 1991.

TGSB will provide ballots to eligible voters prior to the election. Ballots will also be available at county extension offices and grain elevators and must be mailed to the TGSB office by September 10, 1991.

### PUBLIC HEARING #1

City of Munday will conduct a public hearing at 7:00 p.m. on July 9, 1991 at City Hall for the purpose of soliciting citizen input for the development of a Community Development Application to be submitted to the Texas Department of Commerce. This hearing is being held in compliance with a written citizen participation plan, which includes a complaint/grievance procedure, and is available at City Hall during regular business hours. All citizens, particularly low income residents, are invited and encouraged to attend. Handicapped individuals that wish to attend this meeting should contact City Hall to arrange for assistance. In addition, citizens unable to attend this hearing may submit written views and proposals to City Hall during regular business hours.

## July 4th Fatalities

day, July 3 and continues to midnight Thursday, July 4.

"In 1990, 89% of fatalities during July 4th occurred in accidents where speeding over the limits or driving while intoxicated was a factor in this state," Milner added.

Of the 19 traffic deaths, 13 were persons in vehicles where seat belts could have been used.

Milner said additional troopers will be working in areas where high volumes of traffic could be anticipated.

"DPS officers will be watching for intoxicated drivers and speeders, the leading traffic death elements in Texas," Milner stressed.

## DPS Expects Twelve

As many as 12 persons may be killed on Texas roadways during the 30-hour July 4th period, according to Department of Public Safety estimates.

DPS Director Colonel Joe Milner said the summer and vacation traveling holiday times will challenge motorists to avoid driving risks.

"The DPS and other law enforcement agencies throughout Texas will be working together to keep dangerous drivers off the local and rural streets," according to Colonel Milner.

During July 4th last year, which was also 30 hours in length, the DPS tabulated 15 deaths. Deaths due to critical injuries raised last year's final count to 19. This year's counting period begins at 6:00 p.m. Wednes-

**Benjamin News**  
 By Mrs Gladene Green

We have had several on the sick list this week and we ask your prayers in their behalf.

Jane Gideon came home from Wichita General Hospital Thursday. She will be here for a few days before going to Dallas for surgery to correct a kidney problem.

Nora Duke had an overnight stay in the Knox County Hospital recently. She is back home now and needs to take it a little slower than she has been.

Rosalee Golden spent a few days last week in the Seymour Hospital.

Virginia Griffith is continuing the medication given her by her oncologist in Lubbock. It seems to be helping, except for her back, which still causes her problems. If she doesn't get some noticeable results soon, she plans to return to Lubbock for further tests.

Bobby Roberson was in Wichita Falls Tuesday for a check-up. He got a good report and said his doctor was extra pleased that he had given up smoking.

Buster Tolson was admitted to the Seymour Hospital Thursday. He has undergone some tests and his return home depends on their outcome.

Nafeesa Ebraheim spent a couple of days in the Knox County Hospital. Nafeesa is the daughter of Hassien and Debra Hudson Ebraheim. She's back home and doing fine.

Philomae Roberson's mother, Lona Feemster, who resides in the Care Home in Knox City, will undergo some minor surgery at Wichita General Hospital the first of the week.

Her daughter, Corrine Parish of Franklin, has been here a few days and will remain until her mother returns to Knox City.

Aaron Kuehler suffered a broken collar bone and bruised shoulder last week in a "wrestling match". Other than being pretty sore, he had no real problem and by now is about back to normal.

Jerry Benson of Munday, relative of many here in Benjamin, was injured in an accident Saturday morning at the west edge of Munday. He was taken to Haskell Hospital, but had no broken bones...just mighty sore. He was released Sunday.

NOTE: When you received a card this past week urging you to remove any debris from your ditches, please do not be offended. Everyone who pays a water bill got that notice and it was not intended to cause any hard feelings at all. We do need (and plan) to begin work on our drainage problem very soon. When that work begins, we don't want to have to take time to clean the problem areas first. I hope this clears the matter up for everyone.

HERE 'N THERE  
 Recent guests of Odessa Cox were Reba and Charlie Morrill of Humble, Don Morrill of Houston, Dale and Zachary Cox of Memphis, Tennessee, and Lance and Joyce Poe and Ada Belle Bengel, all of Seymour.

Mike and Cindy Graham of Odessa spent Saturday with Juanita Burnett. Laura Belle Graham of Big Spring, who has been visiting Juanita several days, returned home with them.

Randy and C.J. Engbrock of Wichita Falls visited his parents, Joe and Julia Trepanier awhile Saturday. Ricky Trepanier returned to Benjamin with them after visiting several days in their home.

Michelle and Blayne Conner are spending a few days with their aunt and family, Kim, Randy and Samijo Russell in Spur.

Era Brown returned home Saturday after several weeks away from

home. She began her traveling in May, when she and her daughters, Daisy Roberts and Jan Whitmire of the Dallas area, and a son, Truman Brown of Corpus Christi, went to Longmont, Colorado, for the high school graduation of Truman's son, Thomas L. Brown. Enroute home, they stopped in Perryton for a visit with another son, Calvin, and his wife, Thelma. Then it was on to the metroplex for the remainder of Era's visit. She was there for the arrival of a great grandson (Daisy's grandson)...that makes her a total of 21 "great-grands."

Word was received last week of the death of former resident, Opal Harrison of Lubbock. Opal was a former district clerk in Knox County. Graveside rites were Friday in Knox City.

Johnny Brannan of Oklahoma City was a guest in the home of his mom, Gertrude Brannan, and his brother, Bobby, on Sunday.

Jeff Conner of Lubbock spent last week with relatives here.

Connie Porter of Fayetteville, Arkansas, spent several days here last week with Omitene Barnett.

Phil and Rebekah Boone of Wichita Falls were here Saturday for a visit with her family, the Dennis Dukes.

I learned today that Betty Lyles is a patient in an Oklahoma City hospital. She is to undergo knee surgery this week. We wish her the very best.

Ken, Trena and Jason Patterson were in Kerrville during the weekend for the Texas Junior Herford Livestock Show and Field Day. While in the area, they visited Fredericksburg and Johnson City. Ken lived in Johnson City when he was younger, so he enjoyed the visit.

**Pest riddance a taxable concern**

This is the time of year when pesky ants, mosquitoes and roaches begin multiplying and causing havoc throughout the state. There are professional pest control services that Texans can call for help, and more and more of the remedies are non-toxic in nature.

Pest control services must collect sales taxes on the total amount they bill their customers. The taxable amount will also include any charges for related activities, such as inspection.

Taxable pest control services include preventing, controlling or eliminating insects and removing or treating pests or diseases of trees, shrubs or other vegetation.  
 For more tax information, call the Comptroller's toll-free tax assistance hotline at 1-800-252-5555.
