East

By AARON EDGAR

"He taught us how to hope and how to love, and how to win and how to lose," the then vice president of the United States said of a fallen political warrior--Senator Hubert H. Humphrey--at his funeral service.

"He taught us how to live, and finally, he taught us how to die."

Those words might well have been spoken just this week, as we as members of a sorrowing community, laid the body of a man whose life was dedicated to public service of another realm--Dr. Robert L. Newsom--to rest in Johnson Memorial Cemetery.

Although he had no aspirations toward a political career, Dr. Newsom was just as dedicated to serving those he loved as was the big-time politician. He gave of his life and of his service to those of the community in which he was born and reared. His dedication was to relieve the ill and suffering of the pains and heartaches that wracked their bodies, and to establish a lasting friendship among them.

We first learned of this good doctor's life of dedication less than two weeks after arriving in Munday. His medical practice was comparatively new, having been established less than three years before.

One of our first experiences was to accompany Dr. Newsom and Boyde Carley, who preceded us as editor of the Munday Times, to Haskell for a play-off football game one Friday afternoon.

We recall it was at this game that an outstanding star on the Texas A&M football team was introduced and recognized with a round of applause. He was Dick Todd of Crowell.

This pleasure trip was the beginning of a long and lasting friendship with Dr. Newsom. Of course, we claimed him and Dr. Chase Eiland as our family doctors, patronizing them both on occasion.

In the fall, we learned of another dedication of this good doctor--that of team doctor for the Munday Moguls. We never failed to marvel at his prompt attendance at all games, and when time was called because of injury to a Mogul, or even a member of the opposing team, he would snatch up his little medical satchel and go jogging across the field to render aid to the injured player.

Many were those boys of Munday High who graduated and went out into a "new world" carrying with them the memory of Dr. R. L. Newsom. He was their doctor on and off the team, and we doubt if he ever charged any player a fee for his service.

He was dedicated, though, to all who needed his medical ministry. This was climaxed by his desire to do what he could to help the senior citizens. He was there when they needed him.

Because of this dedication, Dr. Newsom was honored by having a 20-unit housing project for senior citizens, completed in 1972, dedicated to him and bearing the name of Newsom Homes.

He loved his church, too, and served it as a member of the Official Board. He was personal physician to every pastor and family to become associated with the church.

At times, we wondered why Dr. Newsom always occupied a spot on the back pew of his church near the entrance door. We soon realized, however, that this was done so he could be called out in case of emergency with as little disturbance as possible.

He maintained membership in the University of Texas Alumni Association, the Tri-County Medical Association composed of Baylor-Haskell and Knox County physicians, the Texas Medical Association and the American Medical Association, all of which witnessed his dedication.

When the Tri-County Medical Association disbanded in 1979, all funds in the organization were contributed to West Texas Rehabilitation Center in his honor.

He was honored in 1973 as Munday's Citizen of the Year for his 38 years of service to his community.

When declining health forced his retirement as a practicing physician, he continued sharing his medical knowledge with members of Leisure Lodge, giving them faith and hope, love

First National Bank Begins Giant Remodeling Project

Work was started this week on one of the most extensive remodeling projects ever undertaken in Munday. This project involves many changes to be made in the floor plan of the First National Bank in Munday.

This project, involving an expenditure in the neighborhood of \$150,000, has been in the planning stages by the bank's officers and directors for a period of several months.

Rose Construction Company of Abilene was awarded the remodeling contract, and work is expected to be completed in a period of six months.

A large majority of the work will be to the bank's interior, such as moving walls or completely doing away with some walls and re-locating various depart-

ments and work areas.

One thing that will give the bank a different appearance from the outside is that the entrance will be moved to the east side of the building. Due to popular demand, bank officials are considering a new time and temperature clock to be placed outside the building, replacing the old clock that has "gone haywire".

A lot of the work will be in moving walls, and tearing some of them completely away. The wall behind the tellers' line will be torn away, with the west wall of the building forming the tellers' line in the future.

The three waiting and work rooms now being used by customers with safety deposit boxes will be torn away, and the bookkeeping department will occupy

this area.

Three new offices will be added, two of which will be located in the present foyer and waiting room. "This arrangement will give us a much enlarged lobby and a better work flow," Gary Schur, bank president said. "The loan area, including a note window, will be centrally located. In addition to the new office area, two new secretarial areas will be included."

"Because of our torn-up situation," Schur continued, "and the noise and confusion that will be evident, our customers may wish to avoid this disruption by using our drive-in banking facilities."

While this work is in progress, Mr. Schur announced that \$100 cash prizes

will be awarded monthly to bank customers. After the remodeling is completed, a drawing will be held for a color TV, which will be given away at the open house ceremony.

"All you need to do," Schur said, "is to register for these prizes as you go through the drive-in."

About all of the interior to remain intact are the three present offices occupied by officials, the bank's vault, and the safety deposit box area.

This project is being undertaken in order to give customers of the First National Bank in Munday the very best in banking facilities and a banking home that is second to none in this section of the country.

Football Time Friday Night-Munday Vs. Anson

The Munday Moguls will host the Anson Tigers for the first game of the football season Friday at 7:30 p.m.

The Tigers are an 8-AA team with Hamlin, Rotan, Jim Ned, Albany, Baird, Winters and Merkel.

Anson has scrimmaged Haskell, a 1-1 tie, and Colorado City, ending 2-0 with Colorado City leading. Eight starters return on each side of the Tiger line. The team is considered the best in their district with experience.

Comments On Scrimmage

by Coach Lankford

We traveled to Abilene last Friday night and scrimmaged with Abilene Christian High School. They are a private school, but about equal to Class AA. The overall score was 6-3 in the Moguls' favor.

Local Merchants To Have Holiday

Time to take a break!
That's what merchants of Munday possibly had in mind when they selected Labor Day, Monday, September 7 as a "legal" holiday for the town, too.

This is one of the five holidays selected by the trades committee of Munday Chamber of Commerce as a "closing day" for the town. Merchants and employees will have a long weekend in which they may well do as they please--go visiting, fishing, on a picnic, or just do nothing.

It is indicated that practically all business places; except, maybe, farm supply firms, will be closed on Monday. Area people are asked to keep this in mind and transact their business accordingly.

The Courier force is asking that your advertising and news items be turned in as far ahead of Monday as possible, so we may be able to join merchants in closing.

Health Clinics Set For Knox In September

The Texas Department of Health Region 4 will hold screening clinics in Benjamin and Munday. The public is invited to attend, and there will be no charge for these services. Any abnormal findings will be referred to the physician of their choice.

Services offered will include blood pressure, anemia, diabetes, height, weight and skin disorders.

Munday screening clinic will be held on September 9 from 9:00 a.m. till 2:00 p.m. The clinic will be held at the Housing Authority.

Benjamin screening clinic will be held on September 17 from 9:00 a.m. until 12:00 noon at the Sorosis Club.

Weather Report

For seven days ending at 5 p.m. Monday, August 31, 1981, as compiled by Goodson Sellers, local U. S. Weather Observer.

Our first team Varsity scored 3 touchdowns and allowed three by Abilene Christian. We were pleased with our offense and had a total of 540 yards for the scrimmage with 467 of those yards coming on the ground and 73 in the air.

On the first series of offense we were not able to establish our running game or our passing game. The second pass we threw was intercepted and returned for a touchdown by an Abilene Christian defender.

However, after that interception we were able to drive the ball and score on a twelve yard run by Quincy Adams.

We were very pleased with our defense in the first series. Abilene Christian was only able to cross the 50 yard line twice and did not score during the period.

Our second team varsity was able to score 3 times while allowing no scoring for Abilene Christian. Quincy Adams made 2 touchdowns with 75 and 49 yard runs. Lawrence Collier completed the other touchdown with a four yard run.

In our second series of defense, Abilene Christian scored twice. The first was on a quarterback sneak following a long run-around-end. Their other score came on a 40-yard pass play that was perfectly executed.

During the second series of offense our line opened tremendous holes for our backs as we were able to score two touchdowns by a one yard run and a 15 yard run by Moses Dena.

Our running game has improved greatly since our first scrimmage. Our passing game still has quite a way to go.

Anson will certainly be a worthy opponent for the Moguls. They are not a large team but quick and have good speed. Myself and the other members of the coaching staff invite the people of Munday to attend this game and make a good showing in the stands for the boys. We would appreciate having a good crowd for this first game of the season. We need our fans to support us in every way.

ENJOYING IT ALL: Sitting on the freshly-mowed grassway, seated in chairs, or standing and visiting, many people enjoyed the Lions-sponsored watermelon feed last Thursday night. Boys playing in the background didn't seem interested, however.

DR. R. L. NEWSOM

Dr. R. L. Newsom, Longtime Physician of Munday, Dies

Dr. Robert Lee Newsom, 78, a native of Munday and long-time physician of this area, passed away at 7:30 a.m. Thursday at Leisure Lodge Nursing Home in Munday, where he had been a resident for the past few years. He had been a patient in a Wichita Falls hospital for a few days prior to his death.

Dr. Newsom was born in Munday on August 17, 1903, the son of the late Mr. and Mrs. N. L. Newsom, who came to this area in 1886. He graduated from Munday High School and the Texas University School of Medicine in 1934.

After interning in a Wichita Falls hospital for a year, he returned to his native Munday in 1935 to begin his medical practice.

He was well known for his dedication to the care of the sick and injured for many years, and received a number of honors during his years of service.

He was secretary of the Baylor-Knox Haskell Tri-County Medical Society for several years, and when this organization disbanded in 1979, all monies in the treasury were donated to the West Texas Rehabilitation Center in Abilene in his honor.

He served the Munday football team as team doctor for 26 years, and was

present at most of their games, ready to render medical assistance in time of injury.

He was a member of the First United Methodist Church and served on the official board for a number of years. He was also a member of Knox Lodge No. 851, AF&AM, the University of Texas Ex-Students Association, the Texas Medical Association and the American Medical Association.

Such was his dedication to the ills of elderly people that when the Munday Housing Authority completed a 20-unit housing project for senior citizens it was named Newsom Homes in his honor.

In 1973, he was named Citizen of the Year at the annual Chamber of Commerce banquet, honoring him for his 38 years of service to his community.

Funeral services were held at 2 p.m. Sunday from the First United Methodist Church in Munday with the pastor, Rev. Ivan Alen, officiating. Burial was in Johnson Memorial Cemetery under direction of McCauley-Smith Funeral Home.

Members of the Munday High School football team who served as pallbearers are Stan Decker, Danny Sloan, Danny Hertel, Bryan Kuehler, Quinn Smith,

Local Persons Devour Melons At Lions Sponsored Event

They began arriving early, but slowly. At first, one couldn't determine if they were melon-hungry persons or Munday Mogul fans remaining after a football workout.

Munday Lions began arriving, too, some with their purple and gold jackets and skull caps, others in common dress, others with sort of dressed-up regalia.

Those delegated to carve the melons arrived with long-bladed knives--but there were no melons to carve. The newcomers--those who settled in Mun-

day during the past year--began arriving, too. Charles Baker met them at the entrance gate and presented them name badges with their names written in that "fancy stuff" sort of lettering which he has just mastered.

Youngsters were playing with a football out on Mogul Field. It was thought they were just passing the time, waiting for the melon-cutting to begin. It was decided later that a number of them had rather play ball than feed on melons!

At the appointed time, and right on time, a pickup truck came on the scene. It was owned and driven by Lion W. H. Bellinghausen, and it was loaded with those delicious seedless melons that are grown each year by Herb Partridge and his "good man Friday", Victor Vasquez.

Boss Lion Gary Schur manned the microphone and welcomed the group to this event. He called the names of all newcomers whose names had been selected through a survey of electric and water meter installations, then by the "thinking machines" of individuals. Schur also named the Lion members who served on various committees, then called on Lion Ivan Allen to give thanks for the occasion.

Meanwhile, melons had been sliced into good-sized chunks, and everyone was invited to pitch in and enjoy the repast. It was estimated that around 150 persons were in attendance, and there were melons aplenty and to spare. A number of people received a free melon from the surplus.

When melon appetites had been satisfied, the clean-up crew went to work and soon the city's truck was loaded with the leftovers. The Lions melon festival was over, with most of those persons present being nice enough to say they enjoyed it!

This was another Munday Lions Club project that was carried out to completion!

School Holiday September 7

After two full weeks of school, students and teachers of Munday School will be enjoying their first holiday on Monday, September 7, Labor Day.

Classes will resume at the regular time on Tuesday, September 8, after the long weekend.

News From Leisure Lodge

By CHERYL BERRYHILL

A heavy cloud of sadness hovered over residents and employees of Leisure Lodge this week as death claimed three of our own. Dr. R. L. Newsom, friend and physician to so many, died Friday. His loss will be felt greatly by all. Residents as well as employees still relied on his medical knowledge in their times of need.

Another of our residents, Mary Blake, died Saturday. Although Mrs. Blake could speak very little English, she spoke to all in a way that endeared her to them. She was a small wisp of a woman, but her heart was as big as a mountain when it came to doing for others.

Still another was claimed by heaven when Mrs. Nettie Blankenship died early Monday morning. During the years Mrs. Blankenship resided in Leisure Lodge, she became the special pet of all the employees. Unable to speak very much, she still conveyed her feelings with her eyes. Every employee at one time or another told her funny stories or happenings and she always rewarded them with a big laugh.

During the month of August, three other residents joined their Maker, but left us to mourn their passing. Lois Coslor was with us only a short time, but won a special place in many hearts. Her sweet smile and ap-

preciative ways made her a joy to know.

Vernon Lee only resided here a short time and later moved back to his hometown of Denison. Word was received here last week of his death. Again sorrow was felt by residents and employees alike because this sweet man was loved by many.

Octavia Colvin only resided with us for one short week. We were denied the pleasure of getting to know her better, but due to her many friends who came to see her in that one week, we know she was a fine woman.

These residents will be missed so much because they had all won a place in our hearts. We extend our heartfelt sympathy to all the families and join them in their prayers. We loved them, too.

IN TOUCH

Jim Way
First Baptist Church

One of the blights on our age and one of the largest obstacles of the church in our generation is the problem of half-hearted devotion and divided allegiance. There is hardly a person in our part of the country who does not claim Christianity as his religion and some church as his preference. The number of faithful followers of Christ, however, is unmistakably smaller.

We are a busy people. The demands on time for the average family are too numerous to supply. A person can run himself into exhaustion trying to do all the good things he has opportunity to do.

What is the answer? Perhaps it is time for many of us to stop and review our value systems. What is really important? We need to make some decisions and place some priorities.

We need to hear the challenge of Joshua of old when he exhorted: "And if it seem evil unto you to serve the Lord, choose you this day whom ye will serve; whether the gods which your fathers served that were on the other side of the flod, or the gods of the Amorites, in whose land ye dwell: but as for me and my house, we will serve the Lord." Joshua 24:15. We need to decide what is worth everything to us--whom will we serve. Then we need to order our lives to reflect that priority system. Why not sit down as a family

Funds To Secure

Doctor Increasing

The Chamber of Commerce and Agriculture announces the funds for locating a doctor for Munday have increased to \$8,555.00 since the town hall meeting August 11th. \$135.00 of this amount has been given in memory of Dr. R. L. Newsom.

Anyone who chooses to give to this fund as a memorial may do so by bringing their contribution to the Chamber office. All gifts will be acknowledged to relatives and will be tax-deductible.

Pledges to the fund for locating a doctor are now \$14,800.00. Contacts with at least three doctors are being made, both by letter and telephone, at this time. At least one personal interview is to be scheduled in mid-September.

and inspiration.

He wanted nothing better than to serve those of his community; and, at the time of his passing, we believe he received the welcome plaudit: "Well done, thou good and faithful servant! Enter thou into the joy of thy Lord!"

and do this. If you choose to serve the Lord and arrange your life to reflect your decision, you will surely have God's blessings! May we all have such courage!

Head Coach Chet Forehand expressed his belief that Danny would be able to return in time to begin district play. The Bulldog squad is small and every man is vital. With six boys out for the team, Coach Forehand stated some early games would possibly be cancelled.

Mogul Coach Cites Prospects For '81 Season

Coach Rogers Lankford, head coach for the Munday Moguls, gave local Lions an insight on the upcoming football season at Tuesday's meeting.

Lankford, who introduced Robert Redden as a new member of his staff, gave club members a hopeful report of things to come this season. With 41 boys working out as of this date, and a number of last year's players back in the groove, he believes the team will have a successful season.

"We have good starters on defense, four fine cornerbacks, and both talent and depth," he said, "and I think we can give them a run for

the money. As a team, I think we are ahead of last year's team at this time of the season."

The coach named all members of his coaching staff, and gave a report of most of the individual players, as he saw things shaping up for an interesting season.

In the directors' meeting that followed, various possible projects for the year were reviewed. These included the annual broom sale in October, pancake supper in November, a spring cleanup, the annual carnival, a run-away hotline, and some form of activity for National Lions Day.

ANNOUNCING A NEW BOOK BY WATCHMAN NEE

"The Mystery of Creation"

(Translated from the Chinese)

Man always wonders about himself as well as the things that surround him. He has tried for centuries to unlock the mystery of creation by observation and speculation. Yet the true story of creation would never have been told had not God revealed it to Moses. The challenge of God to human inquiry and research is the same today as it was in the days of Job. Read Job 38:2-7

In this volume, Nee presents to us a Biblical interpretation of creation to which science attests. This is not meant to prove, however, that the story of creation as revealed in the Bible is scientifically true but to show instead that God is greater than science. Whereas God's word is forever true, the discipline of science must constantly be revised. How inexhaustible is God's revelation, that in giving the history of creation (as found in the letter of His Word) He has also disclosed His principles of working in the new as in the old creation.

May we bow in wonder at "the depth of the riches both of the knowledge and the wisdom of God" (Rom. 11:33)

Help Make Football Season Safe

"Over half of the 4,424 persons killed on Texas streets and highways in 1980 were under the age of 29," Major C. W. Bell, Regional Commander of the Texas Department of Public Safety, Region 5, said.

"This is an increase of 4.6 or 95 more deaths than the previous year," Bell said. We are asking you, the Texas motorist, to assist in preventing traffic accidents. Many young people are injured each year due to traffic problems which frequently occur following football games. The extremely congested condition caused by the numerous automobiles makes traffic move slowly after any athletic event.

Major Bell said, "Traffic after sports events will be happy. Please use an extra bit of patience and caution so that you will return home safely. When you leave the stadium and get into your automobile, remember to drive slowly and carefully."

It helps you where it counts . . .

On October 1, 1981, Big Country Savings offers the STARS SAVERS CERTIFICATE (Big Country Savings' All Savers Certificate). It allows savers to earn up to \$2,000 tax-free interest for married couples filing jointly or \$1,000 on an individual return. This means that the tax-free dollars you earn with the STARS SAVERS CERTIFICATE will benefit your bottom line when compared to the after-tax earnings from other savings plans (see table below).

Only \$500 is required to open an account. And your tax-free STARS SAVERS CERTIFICATE is insured by the F.S.L.I.C., an agency of the Federal Government. The STARS SAVERS CERTIFICATES earn an interest yield equal to 70% of the investment yield for 52-week U.S. Treasury securities. The yield you earn will be established on the date your certificate is purchased and will remain unchanged for one year until maturity. Your funds may be withdrawn at any time subject to the loss of tax-exempt interest status and an amount equal to 3-months interest penalty. (Final Government regulations to be issued could authorize a waiver of the months interest penalty.)

**Labor Day Holiday
Safety Urged By DPS**

The Labor Day holiday will be the last holiday of the summer. While the drivers of Texas are making their road plans, the Texas Department of Public Safety is preparing for "Operation Motorcade."

Major C. W. Bell, Regional Commander for the Texas Department of Public Safety in Lubbock, stated, "Operation Motorcade will be in effect from 6:00 p.m. Friday, September 4 until 11:59 p.m. Sunday, September 7. During that time all available D.P.S. Troopers will be on duty. These troopers have been instructed to be on the alert and direct the enforcement efforts toward those violators causing the most accidents--speeders and those who drink while driving. Most Texans are proud of their state and feel that Texas has the best of everything, so why not make it one of the safest states, if not the safest state, to drive in."

Major Bell also stated, "It is impossible for law enforcement officers to cover every street and highway in the state, so our best hope for a safe holiday rests with the individual motorist."

Remember: Safe and sensible driving results in a safe and enjoyable holiday.

Benjamin News

By MRS. GLADENE GREEN

LOCAL RANCHERS ENTER ROUNDUP

The owners and employees of the Moorhouse Ranch near Benjamin spent the weekend of August 21-22 in Wichita Falls, taking part in the Texas Ranch Roundup. This "ranch rodeo" was a competition between 12 of the large ranches in Texas; proceeds of which went to benefit West Texas Rehabilitation Center in Abilene, Sa' Angelo and Snyder, North Texas Rehab Center in Wichita Falls, and West Texas Boys Ranch of San Angelo.

The Knox-King County ranch reported a very exciting two days, with competition being very keen from the beginning. They placed fourth in the overall standing, with 49 points. The Lewis Ranches of Clarendon won first, with 62 points.

Tom Moorhouse, who was born and reared on the ranch, was judged best all around cowboy and received a hand-made saddle from Olsen-Stelzer for his individual performance and a sketch of himself by artist Leon Hale of Denver, Colo.

Tom's wife, Sue Moorhouse, placed second in the ranch queen contest, behind Eugenia Von Gottard of the Pitchfork Ranch. The chili cooking team had Mrs. Wanda Warner of the Aspermont Ranch as chief cook. She was very ably assisted by Togo and Lucille Moorhouse. The crew won first in the chili cook-off, and Mrs. Warner will be sent to the national cook-off in California later in the year.

The ranch finished third in the talent contest with their exhibits of fine arts and leathercrafts submitted by several of the ranch hands.

All Working Moms Will Have Their Day Sunday!

Governor William P. Clements has signed a State of Texas Official Memorandum designating September 6, 1981, as Working Mothers' Day, in recognition of the immense contribution made to our society by working mothers.

Spearheading the large group of advocates who worked to bring official recognition to working mothers were Allen M. Seigal, Vice-President of Public Affairs of National Child Care Centers, Kathleen McNemar, President of the Texas Association for the Education of Young Children, Jean English of the Texas Department of Human Resources and Jeanette Watson of Austin, newly elected national board member of the National Association for the Education of Young Children, plus many volunteers from these agencies and other child advocate groups.

"In four out of five households today, two wage-earners are needed to support a family," said Seigal. "Fifty-four percent of women with children under the age of 18 are employed outside the home. That's sixteen million American women. These women perform the almost superhuman task of serving as productive members of the work force as well as nurturing mothers and homemakers. Accepting this challenge and functioning with strength, humor and grace under pressure reflects the very best qualities of the American spirit. It's our privilege to be able to honor them by helping to declare September 6 as Working Mothers' Day."

FACT SHEET WORKING MOTHERS

1. In four out of five American households, two wage earners are needed to support a family.
2. 54% of women with children under the age of 18 are in the work force.
3. Over 40% of women with children under the age of 6 are in the work force.
4. Over 83% of the mothers who head single-parent families with children under 18 are in the work force.
5. Over 68% of the mothers who head single-parent families with children under 6 are in the work force.
6. Over 8.5 million families in America are maintained by working mothers.
7. A total of 16 million American women with children under age of 18 are employed outside the home.

New Sales Policy On CCC Corn Now Being Studied

Southwest sorghum and corn producers have recommended to Agriculture Secretary John Block that corn shipped into the Texas High Plains from the upper Midwest be restricted to export sales only.

Officials of Grain Sorghum Producers Assn. (GSPA) and Texas Corn Growers Assn. (TCGA) and their legal counsel met with Block and other USDA officials to discuss the effect of sales of the corn by Commodity Credit Corp.

The CCC purchased more than 200 million bushels of corn last year after President Jimmy Carter announced the embargo of grain to the Soviet Union. More than 45 million bushels of the corn was shipped from the northern corn belt to the Texas High Plains for storage, where it is now being offered for sale on a bid basis.

Noting that very little of the corn has been sold in recent weeks because CCC has refused most bids, GSPA-TCGA spokesman Elbert Harp said, "CCC's self-imposed limits offer farmers little assurance as long as the official policy is to sell the corn for unrestricted use. The threat of sales," Harp observed, "depresses prices just as much as actual sales."

The plan which GSPA-TCGA proposed to USDA was endorsed by 15 state and national farm organizations which represent grain farmers in the Southwest. Their recommendation was that the corn which CCC shipped to the High Plains from the northern corn belt and has now marked for sale be restricted to the export market. If USDA must sell any of the CCC corn because it is out on condition, it should be replaced with purchases of corn in the area of sales.

The GSPA-TCGA plan

was endorsed by the National Assn. of Wheat Growers and The Texas Wheat Producers Assn. The state Grain Sorghum Producers Assns. in Nebraska, Kansas and New Mexico, Texas Grain Sorghum Producers Board, South Texas Cotton and Grain Producers Assn. and the Cotton and Grain Producers of the Lower Rio Grande Valley also were co-signers of the proposal.

The commodity organizations were joined by general farm organizations of the area: Texas Farmers Union, New Mexico Farmers Union, National Women Involved in Farm Economics, the state W. I. F. E. organizations in Texas and New Mexico, the National American Agriculture Movement and the New Mexico A.A.M.

Harp said USDA made no commitments but agreed to study the proposal and would give the group an answer soon.

Mr. and Mrs. Tom Oustad and Mr. and Mrs. E. C. Browning recently returned from a pleasure trip to Arkansas and Tennessee.

Texans Are Planting Trees

Texas will have an additional 64,906 acres of productive forests if all tree seedlings sold by the Texas Forest Service were planted this year.

More than 35.3 million trees were sold to Texas landowners during the 1980-81 planting season. The one-year-old seedlings were sold for reforestation projects in the commercial timber region of East Texas and for wind-break plantings in Central, South and West Texas. The Forest Service does not sell for ornamental or landscaping purposes.

Forest industries planted 113,400 additional acres with trees produced at industry-owned nurseries, and by direct seeding (by helicopter or hand sowing) 2,900 more acres.

GTE Gives Customers Three Options

General Telephone now gives its customers three options on what to do with their telephones when having service discontinued.

The Public Utility Commission of Texas, in its rate order granting General Telephone \$2.1 million, approved a policy which gives customers the options of paying a charge for the company to pick up the instruments, retaining the instruments and paying the associated costs for the instruments retained, or returning the phones to the company.

Customers terminating service who return their phones to their telephone company business office or GTE Phone Mart are not charged a pick-up fee. However, if the company picks up the instruments, a \$10 charge is applied for residential customers and \$13 for business one-party customers. Another option is for the customer to purchase the phones, paying the commission-approved charges for particular instruments. Under this option the instruments become the property of the customer. A schedule of rates for particular instruments is available from the business office or GTE Phone Mart.

The new policy applies to all residential customers and one-party business customers.

Customers who return or retain their phones can unplug the instruments if they have GTE Phone Mart jacks, or if wired into the old style wall block, can simply cut the wires near the block. The company urges customers cutting wires to avoid cutting wires which carry household electrical current.

Skilled nursing care may involve such things as monitoring vital signs, diabetic teaching, including administration of insulin, IM injections, such as Vitamin B12, intermittent positive breathing treatments for the emphysema patient, catheterizations with catheter maintenance and family instruction, intravenous fluid feeding, Levine tube insertion/replacement and instruction to family in feedings and maintenance, ostomy care and teaching and application of sterile dressings. Our nurses work closely with the physician, the patient and the family in management of the patient's health condition and meeting nutritional needs.

Among services provided by Mid West Texas Home Health Agency are the services of Home Health Aides, assisting with the hygienic care of the patient and teaching the patient techniques in basic health care; the physical therapist, assisting the physician in his evaluation of the patient's exercise and activity regime; the speech therapist, cooperating with the doctor in evaluation of the patient's speech, hearing and language disorders; the occupational therapist, assisting the physician in his evaluation of patient's upper extremities; and the medical social worker, assisting the physician and other members of the health team in understanding the significant social and emotional factors related to the patient's health problems.

Mid West Texas Home Health Agency works as a complimentary service to the hospital and its staff. When a patient is discharged from the hospital, the agency nurses continue the teaching and monitoring that was begun in the hospital. With nurses residing in the rural areas, health care is readily available to those who might otherwise be neglected due to lack of transportation or

other factors. The goal of Mid West Texas Home Health Agency is to maintain the patient in his home as long as possible with good care and optimum function. This service is not in competition with nursing homes or hospitals, but desires to serve the patient in the way that will meet the patient's and family's desires and needs, granting them the opportunity to remain in a familiar setting surrounded by loved ones, friends and neighbors.

Mid West Texas Home Health Agency employees not only offer skilled nursing care, but all facets of the patient's needs are explored. Working with Texas Department of Human Resources social workers, churches, clubs and civic groups, our staff attempts to place the patient with the appropriate service. The nurses' desire to serve the community is further expressed by speaking at various organizational meetings upon request.

The major program through which we deliver home health and related programs is Medicare. This Federal Social Security Program for the benefit of the aged and home-bound is selective in terms of age, generally sixty-five (65) and older, and any person who is eligible by category to receive social security benefits.

Home Health Services are also delivered through Medicaid, a State welfare program which is almost a carbon copy of Medicare. There is no age restriction and the benefits are determined on the recipient's annual income. Service restrictions are for skilled nursing visits which are limited to fifty (50) per person.

In addition to Medicare and Medicaid, we have additional third party payers such as Veterans Administration, CHAMPUS, or private insurance benefits.

Mid West Texas Home Health Agency is certified annually through its individual provider offices by the Texas Department of Health and must comply with state and federal criteria, quality standards and regulations and must follow all Medicare guidelines.

Emergency assistance is provided 24 hours daily/7 days per week. For more information you may call the office in Seymour, at 817-888-5505, or you may call the nurses who service your area: Anita Thigpen, R.N. - 864-2081; Florene Larned, L.V.N. - 864-2855; or Alma Solomon, L.V.N. - 864-3473.

KATHY NIX and
JOE SCHUESSLER

Engagement Announced

Mr. and Mrs. Robert Nix are announcing the engagement of their daughter, Kathy, to Joe Schuessler of Lubbock.

Kathy is a graduate of Munday High School and attended L.C.C. in Lubbock.

Joe is a graduate of Salado High School in Salado.

The couple plan to be married November 7, 1981 in the Church of Christ in Munday.

Wedding Announced

Doris Routon of Goree and L. O. (Mutt) Chamberlain of Denver City, Texas were united in marriage in a home ceremony in Goree on Saturday, August 22, 1981. Rev. Jimmy Rogers of Knox City officiated.

Attending the wedding were the couple's three children, Jimmie Routon of Lubbock, Jeanette Coody, Farmers Branch, and Shirley Gatchell of Hobbs, New Mexico; eight of their grandchildren; and other friends and relatives.

A reception was held in the home following the wedding ceremony.

The couple will make their home in Goree.

Miss Wirges Honored At Reception

Miss Thelma Wirges, retiring District Extension Director for the Rolling Plains District, was honored at a public reception on August 28 in the Wichita Falls Activity Center by friends and associates.

She has served as District Extension Director since 1971, and has headquartered at the Texas A&M University Agricultural Research and Extension Center near Vernon. She was with the Texas Agricultural Extension Service for 34 years. Before being promoted to District Director, Miss Wirges served as county agent in Baylor, Haskell and Wichita Counties for some 23 years. Prior to joining the Extension Service, she was home economics teacher at Munday High School for two years.

Mrs. Elaine Houston of Pampa was named to the position held by Miss Wirges. She assumed her duties on September 1.

Six Flags Begins Fall Season

Six Flags Over Texas has begun weekend-only operation for the fall months following a spring and summer which produced an average attendance increase of 1,000 visitors a day.

The park welcomed its two millionth visitor of the 1981 season during the last week of August, the final week of daily operation.

Six Flags will open on Saturdays and Sundays through the end of November.

The crowds are roughly half the size of those in the spring and summer, and, of course, visitors don't have to contend with the heat.

MRS. DAVID WALLING
the former Angelia Bateman

Bateman, Walling Wed In Knox City Ceremony

Angelia Kay Bateman and Weldon David Walling were united in marriage at seven o'clock in the evening on Saturday, August 22, 1981, in First Methodist Church of Knox City. Rev. Jimmy Rogers officiated at the double ring ceremony.

The bride is the daughter of Mr. and Mrs. Charles G. Bateman of Knox City. Mr. and Mrs. Weldon D. Walling of O'Brien are parents of the groom.

Church decorations included two Hawaiian holly plants in wicker baskets decorated with pink satin bows. An arch was formed of three candelabras with pink candles strung with English ivy. Pew markers were of white gladioli, pink carnations, and silk rosebuds, tied with pink satin ribbons.

Organist was Mrs. Jimmy Rogers. Soloist Patti Counts sang "The Wedding Song" during the unity candle

ceremony. Other selections by Miss Counts were "We've Only Just Begun" and "You Needed Me".

Given in marriage by her father, the bride chose an original white formal gown by Michele of luster sheer polyester underlaid with white taffeta. The waist was fashioned with a sheer yoke and Venetian lace beaded with seed pearls and sequins in front and back, and featured a high mandarin lace collar. The long, slim sheer sleeves were designed with silk floss and re-embroidered lace. The skirt was fashioned redingote style with a sunburst pleated panel finished with a deep border of matching lace at the hemline, with lace also circling the chapel length train.

Her lace covered, beaded cloche held a double tiered fingertip veil of silk tulle with hand rolled hems and was scattered with lace

medallions.

The bride's bouquet was of pink and silver roses accented with dried baby's breath and apple blossoms. She also carried a white lace covered Bible with white streamers.

In keeping with tradition, the bride wore her great-grandmother's wedding band for something old. Her wedding dress was something new, and something borrowed was a garter which her mother had worn at her own wedding. The garter was also something blue. For good luck, she wore pennies in her shoe with the bride and groom's birthdates.

Michelle Bateman of Knox City, sister of the bride, was maid of honor. She wore a floor length gown of pink qiana featuring a high-rise, see-through neckline of schiffli embroidery and narrow binding. The dress was designed with brief lace sleeves and semi-flow skirt. She wore a picture hat accented with a pink satin ribbon band and a rosebud. She carried a bouquet of pink silk roses and satin rosebuds, encircled in white lace and accented with white streamers.

Bridesmaids were Tammy Amerson of Canyon and Jan Albright of Aspermont, both cousins of the bride. They were dressed in identical gowns of pink qiana designed with high-rise, see-through necklines of schiffli embroidery and pleated skirts. They also wore pink picture hats and carried bouquets of pink silk roses. Their bouquets were encircled with pink lace and had pink streamers.

The bridegroom's attire was a white tuxedo with a pink silk rosebud boutonniere. Ben Walling of Bridgeport, brother of the groom, was best man. Groomsmen were Shane Johnston of Milsap and Jamie Harms of Anson. The groomsmen and best man wore silver tuxedos and had pink satin rosebud boutonnieres.

Candlelighters were Kelli Smith of Munday and Terry Bateman of Lubbock.

Kim Bateman of Knox City, sister of the bride, was flower girl. She was dressed in a pinafore style long pink gown of flocked cotton dotted fabric designed with a sleeveless bodice.

Ushers were David Counts of Lubbock and Randy Waggoner of Munday.

The bride's parents hosted a reception in the fellowship hall of the church. The serving table held a three-tiered white cake accented with pink rambling roses.

Reception assistants included Mmes. Melvin Vojkufka, James Amerson, Jerry Guinn, Weldon Skiles, Gerald Huff, David Lorenz, Bill Vannoy, sister of the groom, and Mrs. Ben Walling, sister-in-law of the groom.

Mrs. Mark McGaughey registered guests. Kim Bateman distributed rice bags.

A rehearsal dinner was given by the grooms parents in the fellowship hall of the church on Friday evening.

The bride is a 1981 graduate of Knox City-O'Brien High School. She will attend Heather's Institute of Hair Design in Abilene this fall.

A 1979 graduate of Knox City-O'Brien High School, the groom attended Abilene Christian University and is presently employed by Republic Supply of Abilene.

The couple will reside in Abilene.
