Local Stores Will Be Closed On Monday

Most all of Munday's stores, its business and professional people, will be closed next Monday, halting their regular activities for the observance of Independence Day.

Since July 4th falls on Sunday, it was decided by the Chamber of Commerce committee that suggests the holidays to be observed locally that the retail stores would be closed on Monday. This, in reality, gives employers and employees two days in which to rest up, or do as they desire.

Business will be resumed as usual on Tuesday morn-

JOE W. DOBY COUNTY AGRICULTURAL AGENT

The third annual Knox County Vegetable Festival is now history. The entries in the vegetable and fruit divisions were an improvement in quality over past years. The home gardening exhibits really put the show over this year. Exhibitors are learning what to look for and how to prepare a quality product.

Station and Lester Brooks, retired Superintendent of the Iowa ly advised. Alternate every other Park Station. They asked me to week with zineb at the same rate. pass on a few comments concerning the show. The biggest fault been noted in many fields. The of the exhibits was the lack of damage is done by a tiny worm uniformity in the size of the total which eats through one layer of entry. One persons brings in six the leaves leaving a zigzag path. green beans for instance and someone else brings in a quart, A spray application of .5 pound which was listed as correct of actual Diazion can be used to amount for an exhibit. The few control both of these pests. This may be of better quality than the others, but it makes a difficult job for the judges to decide. Obtain a copy of the rules and bring in the exact amount specified. This will help the show more than anything else.

The commercial exhibits were outstanding, also. The earliness of the show and late spring kept the cantaloupes and watermelons from being ready.

The yield and quality of the potato variety test was the best this year it has ever been. This Friday from a week's visit with test is one of three in Texas his daughter and family, Mr. and which breeding lines from the USDA at Beltsville, Texas Ex- Houston. periment Station and many other State Experiment Stations are planted and observed. Notes were spent the week end with his partaken on vigor, vine growth and ents, Mr. and Mrs. R. J. Duncan. disease resistance as well as the actual yield per acre and the specific gravity. The results of the test here, at Lubbock and Crystal City, Texas, are evaluated and the decision made whether the repeat the line advanced with relatives in Crystal City. er to repeat the line, advance to visited with relatives in Stam- SHURFINE VIENNA

plot increase or to drop it entirely.

The specific gravity is a measure of the soluble solids in potatoes. The specific gravity of water is one, so the specific gravity of water is one, so the specific gravity of water is one, so the specific gravity of the solids in potatoes will be solids in potatoes will be solided in San Antonio, Houston and Galveston. They also visited his grandfather in Dawson and his sister in Denton.

Miss Karen Collins visited Mr. ity of the solids in potatoes will cause it to be heavier. The higher the specific gravity of potatoes, the lower the oil content of the thick week. the lower the oil content of the this week.

chips. S. G. ussually varies from 1.005 to 1.090. It varies with the same variety grown in different soils and with various stages of maturity.

There were 158 lines in the test this year grown on the farm of Gene Thompson in a commercial field of Cherokees. A total of 51 of these lines were recommended for repeat or advance on the basis of their performance. The top yield in the plot was

404 bags per acre with another line making 397. This is the total 100 pound bags of all grades.

* * * *

Watermelon and cantaloupe growers are urged to watch their fields carefully for disease. A field near Goree is affected by alternaria leaf spot. As the name indicates, the disease shows up as spots on the leaves and spreads The judges of the vegetable to other leaves. To produce qual-ty fruit, all the leaves must show were Dr. Jack Kyle, Lub-bock Experiment Station; Virgil ventive spray program of a week-Woodfin, Iowa Park Experiment ly application of 2 pounds Maneb

> Leaf miner damage has also material can be used up to three days before harvest. It is very important that the correct amount be applied. Each grower should have a copy of MP 675, Texas Guide for Controlling Insects on Commercial Vegetable

VRÖRER VRÖRER VRÖR IMPORTANT ADVICE FOR SENIOR CITIZENS

The ageing process can cause hardening of the arteries and liver. Elderly people are more subject to arthritis, heart trouble, bronchial coughs, prostrate and bladder troubles.

If you will immediately visit your physician at the very first signs of such troubles, the odds are you will not only get relief from distress, but also learn how to take care of yourself and live a longer, healthier life. We now have sustaining

medicines to keep ageing ailments controlled. YOUR DOCTOR CAN PHONE US when you R need a medicine. Pick up your prescription if you wish, or we will deliver promptly to your home in our "Pill Wagon," at no charge of course. And remember, we will re-open our prescription department for you anytime after we have closed whenever you need a mdicine.
