#### PATTERNS FOR PROGRESS IN COMMUNITY DEVELOPMENT

Water is a problem with many West Texas communities, but Childress is solving it with an ambitious program. In connection with neighboring towns, there is a \$6 million dam and reservoir starting soon . . . under construction a \$4 million pipeline from the water supply to the city . . . and a pipeline system in the city. Add such things as a remodeled City Auditorium with convention facilities

. . vapor lamp street lighting downtown and on highways through town . . . remodeled Chamber of Commerce offices ... over \$400,000 in Church construction . . . new lounge at the Airport . . . and modernizing of many business buildings. Scheduled for the immediate future are a school bond election . . . expansion of State buildings . . . and a new hospital. The Childress record is a PATTERN FOR PROGRESS in "community development," improving chances for continued economic growth and attraction of new industry plus making it a better place to live, work and play. Growth conscious towns are invited to contact their local WTU manager for assistance from our area develop-

ment representatives.
