Volume XXVII.

Munday, Texas, Thursday, July 2, 1931.

Number 10./2

Knox City Wins From Munday On 13 Errors

Knox City walked all over the Munday outfit here on our own hand-to-hand Sunday afternoon, and took the game home with the safety tucked away to the tune of 21 to 5. It seems to have been just one of those off days for the home town outfit and they were unable to put the snap into the game that they have in the past, and several expensive errors resulted in the visitors accumulating a score that resembles the National debt. A dozen errors can make a schale of a difference. With a total of twenty errors made by both teams during the game it presented a very poor exhibition to spectators.

Following is the box score for the game:

MUNDAY		KNOX CITY	
Ab	R H O A E	Ab	R H O A E

Goree Defeats Sunset With Rally In Ninth

The Goree-Sunset game of last Sunday night was down as another one of those freak games, for by every indication shown in the box score, Sunset should have won the game, for they hammered Blankenship for 12 hits, while the Goree aggregation got to Garvin and Smith for only 7, and the game was raked out of the fire by the Goree outfit in the ninth, when six scores were made.

Following is the box score:

GOREE		SUNSET	
Ab	R H O A E	Ab	R H O A E
Hutchens, cf.	5 1 0 1 0 0	Burton, rf.	5 0 0 1 0 0

Rhineland Wins 4-2 Over The Cellar Dwellers

August Loran again pitched Rhineland to a 4-2 victory over the Weinert aggregation Sunday afternoon in their own home town in a game that seems to have been about the best on the card of the Brazos Valley League.

Joe Bailey King led the hitting for the home town outfit, while Rayburn was the leading slogger for the visitors, each garnering two hits, one of King's being good for two bases.

Following is the box score for Sunday's game:

WEINERT		RHINELAND	
Ab	R H O A E	Ab	R H O A E

In an article last week pertaining to the changing of the name of the Gillespie voting box to James Partridge we stated upon what we considered good authority that the land upon which the school building was erected was donated by the Partridge estate. However, we have since been informed that such was not the case, as the land was purchased and paid for by the school district, and we make this correction in justice to the members of the school board.

Revival Meeting Begins Church of Christ July 11

The Church of Christ begins a meeting Saturday night, July 11th, at the church house under the grove where we had it last year. Everybody invited to attend the meeting.

J. M. WHITE.

Miss Maxine Pendleton, daughter of Mr. and Mrs. H. A. Pendleton, had as guests last week Miss Helen Powers and Miss Betsy Lee of Wichita Falls and Miss Ruth Guina of Dallas, Texas. Miss Guina is a member of Alpha Omicron Pi Sorority to which Miss Pendleton was pledged this year.

Our Fourth of July Goes 'Round the World—By Albert T. Reid

"A Creed for 1931"

Reprinted from "The Sun Dial" by H. I. Phillips in The New York Sun, May 26, 1931

I believe in the United States of America.

I believe in the ability of the American citizen to swim upstream, hit fast ball pitching, break out of a half-nelson and have a pretty good time in the bargain.

I believe that in the long run fair weather overbalances the bad, that all "breaks" are subject to the law of averages, that the expression "Good old days" is relative, and that everything comes out all right in the wash.

I believe a little optimism never hurt anybody and can be taken straight.

I believe in the capacity of the American industrial leader and in the common sense of the American workman.

I believe that Uncle Sam is still at the old stand with a brave heart and a clear head, and I do not believe he is in any danger of losing his pants, coat, vest or shirt.

I believe in the total inability of Russia to change the course of the stars, to rearrange the general appearance of the heavens, to eliminate the constellations, to discontinue the daily rising of the sun, to subject the rainbow to a five-year plan or to make the American of normal backbone jump into a hole and pull it in after him.

I believe American railroads are worth considerably more than a dime a dozen.

I believe the American people will continue to own and operate automobiles and that there is not a Chinaman's chance that conditions will arise which will make them decide it is a good idea to go back to the bicycle and the buggy.

I believe the American housewife will continue to have an electric ice-box and will never again be satisfied to spend a half day mopping up the kitchen after the

visit of the old-fashioned ice man.

I believe the old-fashioned wash-tub has gone for good and that anybody who thinks the American is going back to the old days of drudgery and inconvenience is two-thirds cuckoo and one-third army mule.

I believe three square meals a day will be the American standard, but that even if we miss one or two it won't hurt us.

I believe in common sense and natural vision as opposed to the "fidgets" and the use of smoked glasses when anything goes wrong.

I believe in the silver lining, the rainbow after the storm, the plunge through center, the infallibility of the slogan "Never lead with your chin," and the potency of the cries "Block that kick!" and "Hold 'em, Yale!"

I believe that much of the world depression is "done by mirrors".

I believe the worst is over and that it never was as bad as it was advertised.

—H. I. Phillips.

CARD OF THANKS

We wish to express our sincere thanks to the many friends and neighbors for the kindly deeds and words of consolation that were spoken during our great sorrow, and especially do we wish to extend our sincere thanks to Dr. Heard for his faithful services.

Screw Lodged In Lung of Son of Hood Couple

Elden, the little two and one-half year old son of Prof. and Mrs. F. L. Bullington of the Hood community, swallowed a 1 1/8 inch screw on last Saturday while the family was visiting at Wellington, Texas, and was rushed to a hospital at Wichita Falls for medical attention, where an X-ray revealed the fact that the screw had passed through the bronchial tube and lodged in the right lung.

Being unable to extract the screw, attending physicians at Wichita Falls advised that the child be taken to Dr. Jackson's Prothroscopic Hospital at Philadelphia, Pa., and the parents left for that city Monday afternoon.

The many friends of Prof. and Mrs. Bullington will regret to learn of their misfortune and we sincerely trust that the Philadelphia specialist will be able to remove the screw without permanent injury to the little fellow.

Mr. and Mrs. Earl T. Williams were down Sunday from Eastland to visit with relatives and were accompanied home by their little son, Burton Williams, who had been here for some days visiting relatives.

THINKING OUT LOUD

BY JAKE N. NEDY

It seems like TOL has been kept busy here lately keeping the record straight, and about the time we get it all straightened up, it gets off balance again.

Last week in quoting Peter Loran about the baseball games played by Rhineland in the days of old we quoted him as implicating Leo Wilde in the methods of winning games when as a matter of fact we should have stated that it was Tony Willie, and we want to get the record straight.

TOL, being an optimist, naturally looks upon the bright side of things, and when we were informed that Orb Coffman, the hefty "backstop" for the Goree outfit, was out of the game for the balance of the season with a sprained ankle, we just couldn't help feeling that we fans in the grandstand would have a better vision of the games hereafter.

Notwithstanding the fact that secrets aren't supposed to leak out of the grand jury room, we are told that Orb was recently before that august body to give them some evidence concerning a boat that had been stolen from him on Lake Kemp.

After hearing the evidence which the hefty ex-mayor had to offer the foreman of the grand jury asked him if he knew of anything else that had been stolen, to which he replied in the negative.

The foreman continued him about telling the whole truth and nothing but the truth and still the ex-mayor contended that he had no knowledge of anything else being stolen.

Finally giving up in despair, the foreman stated that it had been rumored over at Knox City that someone had stolen second base off of his ex-majesty.

The presiding elder of this column together with his three sons and Editor E. L. Covey of the Goree Advocate, took time out over

Nurse Returns Monday to Give Additional Serum

Miss Susie Durden, state health nurse, will return to Munday on next Monday, July 6, at which time she will administer the final dose of typhoid serum to children who have started taking this serum, and will also administer the first dose to those who wish to take it.

There will also be toxoid for diphtheria to give to those desiring to take it.

Miss Durden very earnestly requests that parents who have not signed the pledge cards pertaining to the work do so and give them to her on Monday. This is very necessary and she asks for the fullest cooperation of parents.

In connection with the health work, we are requested to announce that W. E. Collins, sanitary engineer for the State Department of Health, will be here on Tuesday morning and would like to talk to the directors of the chamber of commerce and all directors are asked to meet at Span's tailor shop at eleven o'clock Tuesday morning.

Rev. W. C. Howell Resigns as Pastor Methodist Church

Rev. W. C. Howell, pastor of the Methodist church here since the last annual conference, has tendered his resignation to the board of stewards, and he and Mrs. Howell will leave within a few days to a new assignment, which has not yet of the district.

The pulpit at the Methodist church will be filled at the morning hour Sunday by Dr. Stoves, presiding elder, and in the evening A. G. Hulse will preach. Mr. Hulse was formerly pastor of the Munday circuit churches and resigned some two years ago to take up other work.

Mr. and Mrs. Grover Rayburn of Phoenix, Ariz., spent several days here this week visiting her father, T. A. Bolt and other relatives.

Bauman Motor Co. Takes Over Agency for Ford

The Bauman Motor Company has recently been designated as Ford dealers for the Munday territory and Mr. Bauman went to Dallas last week to make final arrangements to take over the agency and brought back with him a number of new Ford cars.

Mr. Bauman was agent for the Ford back in the days of the Model T, having sold hundreds of this famous model over the Munday trade territory during the six years he was their dealer here. In 1927 he relinquished the agency at a time when the company was discontinued the manufacture of the Model T and the time when they began the manufacture of the Model A.

Mr. Bauman is very fortunate in securing the agency at this time, since his plant is particularly fitted for the servicing of Ford cars, and he feels at home talking the merits of Ford cars and other products and extends an invitation to his many friends to visit his place of business and inspect the new cars from time to time.

Wilson-Mahan Nuptials Held at Cisco Thursday

Miss Lorena Wilson, daughter of Mrs. E. M. Wilson of this city, was married on Thursday evening to Mr. Carl S. Mahan of Abilene, the ceremony having been performed at the home of Mr. and Mrs. P. S. Sheppard at Cisco, Texas, with the Rev. Boney, pastor of the Presbyterian church at that city, officiating.

The bride is one of Munday's most accomplished young ladies, and for a number of years has resided in Cisco, Texas, where she has been recognized as one of the most efficient teachers of the state. She is a daughter of the late Epp Wilson, who was widely known over this section of Texas, and who was one of the early settlers in the Munday country.

The groom was formerly associated with the West Texas Utilities Company here as district superintendent. Some two years ago he was transferred to the head office at Abilene as Land and Tax Commissioner for the company, which position he now holds. He is well known all over the properties of the company, and has many friends over the entire section.

Only a few intimate friends witnessed the ceremony, among them being Mr. and Mrs. W. H. Lippman of this city.

After a brief trip to Dallas and other points they will be at home at 759 Vine street, Abilene.

Baptist People Will Consider Holding Reviva

All services at the regular hour next Sunday. At the morning service we will decide whether or not we will have a summer meeting—where we will have it, who it will be held, who the help will be, etc. Be sure to come.

Commissioner of Agriculture Joins All-Cotton Clads; Urges Cotton Clothing Be Worn

Dallas, Texas, June 30.—Commissioner J. E. McDonald of the Texas Department of Agriculture, practicing what he preaches in the "use more cotton" campaign, is shown here among the machines of the Pool Manufacturing Company plant at Sherman, the Southwest's largest garment manufacturer, inspecting one of Pool's all-cotton rompers for men. The Commissioner is, himself, clad in get-up similar to that made famous by Gov. W. H. (Alfalfa Bill) Murray of Oklahoma, and Ex-Gov. Dan Moody, and other prominent Texans; coat, trousers, shirt, tie, socks, handkerchief, all-cotton. Doubtless the nether garments are cotton, but nobody thought to ask the Commissioner about that. Belt and shoes are the only exceptions.

Commissioner McDonald's Sherman stop was between engagements at Cleburne Friday, where he spoke to the Texas Club on "Using More Cotton," and at Waxahachie Saturday night, in a swing through the section urging wider use of cotton and other products of Texas farms and factories. Every employee in his department at Austin wears cotton clothing, the Commissioner stated, and he is urging others to do the same. He was a prime mover with a dozen other high state officials in sponsoring "cotton commencements" in public schools last spring, a movement expected to result in many schools adopting standard cotton regalia for future occasions. "I am astonished at the size of the plant, and the volume and variety of the Pool products," Mr. McDonald said. "While I had known of the Pool Company as one of the major garment factories of the State, I had no idea of the immensity of the business or the number of people afforded employment."

"Texas people should demand Texas products," he added; "then scores of such plants, employing thousands of persons, would be consuming millions of bales of Texas cotton."

"The Commissioner points out that in the past Texas has shipped out cotton at 10c a pound and bought it back in finished shirts at \$3.00 a pound. 'Let's buy Texas manufactured shirts,' he exclaimed, 'and keep that difference of \$2.00 in Texas to be divided among Texas laboring men, farmers, merchants, and manufacturers.'"

Important Changes Made in School Law Regarding Tuition

Supt. H. H. Riley has sent the following article concerning changes in the school laws, which we are publishing for the information of our readers:

The recent decision of the Supreme Court in the case of Neota Camp et al vs. Dallas City schools, known as the Love high school tuition case, materially affects the administration of the rural high school tuition law.

The court holds that no one can receive the benefits of free high school tuition unless he has been enumerated on the scholastic census and is subject to be transferred. It will be necessary, therefore, to exclude from the benefits of this law the following classes of students:

1. Scholastics who reside in the rural school district but who were omitted from the scholastic census in March.
2. Scholastics who are of high school grade who have become residents of a rural, non-high school district after the taking of the census, unless such pupils have been enumerated within the county or in an adjoining district of a contiguous county and have been transferred to the district of their new residence.
3. Pupils over seventeen years of age. These pupils are not subject to transfer and are not allowed to attend school, even in their home district, without the payment of tuition.
4. Pupils enumerated in one county who desire to attend high school in another county, unless the high school student resides in a county line district and desires to be transferred to a contiguous high school district in the adjoining county.

BRUSHY NEWS

Sunday school attendance was not so good Sunday, however, we had several visitors.

Tessie Tritton of Phoenix, Arizona, is visiting his parents, this week.

Mr. and Mrs. C. N. Howard and little son of Lamesa, Texas, came Friday for a visit with Mrs. Howard's parents, Mr. and Mrs. J. E. Suggs. Mr. Howard returned home Sunday, Mrs. Howard and son will remain for a few weeks.

A large crowd attended the funeral services of Grandfather J. C. Lowe Friday afternoon, all the children being present. The entire community joins the bereaved ones in their time of sorrow.

Miss Audrey Griffith visited Miss Ruby Suggs Sunday.

Several from this community attended the singing at Hood Sunday afternoon.

Miss Estia Mae Bowman visited near Haskell Sunday.

—Reporter.

RHINELAND HAPPENINGS

Mrs. Bernard Wilde celebrated her 80th birthday anniversary on Sunday. A dinner party was given at her home in the evening for a number of relatives. Following this an entertainment for the entire community was given in the club hall. After several hours of delicious refreshments consisting of delicious lemonade and cake was served to all present.

Vacation time is here and we again have with us a number of visitors.

Mrs. Fred Steineman of Pampa, Texas, and her brother, William Rudinger, of San Antonio, were visitors in the home of Mr. and Mrs. John Herring the past week.

Miss Clara Andrea of Austin, Texas, where she is attending Seton Infirmary, a training school for nurses, is visiting her parents, Mr. and Mrs. John Andrea.

Miss Beatrice Herring of Wichita Falls, is visiting her parents, Mr. and Mrs. Frank Herring.

Prof. John J. Hoffman and family returned the latter part of last week after spending several days at Scotland and Wichita Falls.

Two of our young men, Victor Dierning and Leo Wilde, have gone to St. Francis, where they will remain during the harvest season.

—REPORTER.

PERILOUS FRIENDSHIP

"A talent for friendship is a dangerous one for those who sit in high places," says the Minneapolis Tribune which draws a lesson from the experience of President Harding's administration, saying "a sense of obligation to friends was his undoing and a faith in loyalty left him spiritually bankrupt."

This Republican newspaper says that "Woodrow Wilson will go down in history as a great president" although "his whole career is marked by the bones of broken friendships."

"Had President Harding possessed but a share of that icy egotism that was characteristic of his predecessor in the White House," says the northwestern newspaper, "his life would not have come to a close in the bitterness of disillusion. Wilson found himself frustrated, but he lost no faith in his fellow man, for he had little or none. It may be said that he loved humanity, man in the abstract, but he loved no individual."

ARE NEWSPAPERS HELPFUL?

Roger Babson, known throughout the nation as an accurate forecaster of business conditions, is out in the open with some views on newspapers, which we take the liberty of calling to the attention of readers of The Times.

Calling attention to the fact that every new invention is covered as news long before it reaches the retail counters, and that the market is thus prepared for the new product before any paid advertising gets into the newspapers.

Mr. Babson points out how the radios were sold to the public long before specific sets were offered for sale.

Then, he remarks that he knows of no business "that does so much good and is still so little appreciated as the newspaper business. We take our paper for granted, little thinking of the service it renders. Then, referring to the

small country papers, Mr. Babson says they are "performing an economic function absolutely indispensable to the growth of the country."

The statistician makes a "personal appeal for everyone to get behind his own town paper and boost it" as a method to "contribute strongly toward the recovery of business in your own town."

The remarks of this fact-gatherer are too long for quotation here, although it is seldom that such a generous appreciation of the functions of the press appear in print.

NOTES AND COMMENT

Motto for youth: Seek the truth.

It is always easier to increase expenses than it is to cut them down.

Just because a man looks serious is no sign that he has any sense.

Plans do not always mature exactly like one expects, and perhaps that is a good thing.

July 4th, being Saturday, is a fine day for subscribers to send in their subscription payments.

Our own observation is that a visitor can talk longer about nothing when you have a lot of work to do.

While the enforcement of a law is largely a matter of public opinion, officials can make or break any law.

Eminent educators have expressed doubt as to man's ability to use his brain to any extent worth mentioning.

If it wasn't for fishing some Munday citizens would have a lot of spare time on their hands.

Flying across the Atlantic ocean

is getting so common that the newspapers will soon chronicle the event on the inside pages.

While a newspaper is privately operated it is a public asset, if it is a good one, and deserves the support of the people in its territory.

Peddlers have to make a living. It is true, but Munday housewives have husbands who depend upon Munday business for their income.

One reason why we have such little economy in government is that once a job is created it stays on the payroll unless some political revolution occurs.

Now that the nations are going to get a moratorium some of the debt-owners in this country will probably believe that they can use the same system.

If married happiness got as much publicity as divorce suit scandals the young generation would have more respect for matrimony as an institution of society.

As far as we can make out 48 states in the union claim the best climate in the world; every town booster in every state claims remarkable climatic superiorities for his halibut.

Munday might as well make its own plans for prosperity, which will arrive locally, when we get together and make it. Nobody else is going to build up Munday.

If you ask us, one of the greatest handicaps to the revival of business in Munday is the impression that some great outside force is going to make everything hum, with profits easy to grab.

The greatest asset that any community can have is citizens of good character and growing children, being properly trained for the future. In this respect, there is a chance for any small town to compete favorably with huge cities.

County Agent Gives Formula in Making Bait for Sparrows

Of the different poisons for sparrows tested, the most satisfactory is strychnine, which is easy to prepare and acts quickly. Wheat has proved a good bait, as well as an excellent vehicle for administering the drug. A convenient method of preparing poison bait is as follows:

Put one-eighth ounce of pulverized strychnine into three fourths of a gill of water, add 1 1/2 teaspoonsful of starch, or wheat flour, moistened with a few drops of cold water, and beat, stirring constantly till the mixture thickens. Pour the hot poison starch over 1 quart of wheat and stir until every kernel is coated. Small kernal wheat is ideal for grain, making sure it is reasonably clean. A 2 quart fruit jar is a good vessel to mix in, as it is easily shaken and allows the condition of the contents to be seen. If the coated wheat be spread thinly on a hard flat surface it will dry enough for use in a very short time. It should be dried thoroughly if it is to be put in fruit jars and kept for future use. Dishes employed in preparing poison may be safely cleaned by washing.

The poison should be well scattered so that many birds may eat at the same time as the poison which acts hurriedly will frighten off other sparrows. After a rain the poison will have to be replaced as it will be washed off. This poison should be placed on high places or out of reach of children and poultry. A good plan is to put out unpoisoned grain a few days then put the poisoned, alternating to prevent the sparrows from becoming suspicious.

There may be a local law preventing the practice of poisoning birds in protection of the song birds. It would be well to inquire about this.

Sometimes only a few grains of

poison will only paralyze the bird for a few hours and after that time they will recover, so it would be well to visit the feeding grounds several times a day to kill such birds.

W. E. Jones, Co. Agent.

Schools Should Offer Courses for Singers

Doris Daniels Antoinette Halstead

Because They Do Not, Talent is Wasted

Learn Fundamentals
"When children enter school, they should be taught the fundamentals of music instead of simply singing patriotic songs for ten minutes in the morning. The teaching of music should be given the same status as the teaching of mathematics, instead of being thrown in with the fire-drill."

New York City.—Many women who have good voices, know music and might have earned a profitable living as singers, are working as stenographers and bookkeepers simply because they were never given the opportunity to learn the technical principles of singing.

This is the statement of Antoinette Halstead, who with Doris Daniels, makes up one of Broadway's most popular duet specialties.

"Every industrial and business school should have a singing course in its curriculum, and teach it in the same business-like manner that they teach bookkeeping or measuring," says Miss Halstead. "A girl who is musically inclined has the right to demand from her community's educational system the same technical training that is given

Munday Business Houses to Stay Open On Fourth

Due to the fact that the Fourth of July was year falls on Saturday, and this being the day that most of the farmers supply their needs for the coming week, the business houses of Munday will remain open as usual.

It has been the custom of the business concerns here to suspend business on the Fourth, but they feel that they cannot afford to discontinue their patrons or cause them the inconvenience of making their purchases on other days, so they will remain open as usual.

The Rev. Crabtree, pastor of the Methodist church at Rule, brother with Rev. C. A. Tucker and Editor E. B. Harris of the Rule News, were here on Tuesday attending the conference at the Methodist church.

Mr. and Mrs. C. A. Tucker have been entertaining a daughter in their home at Rule since June 15th.

We are requested to announce that Rev. C. A. Tucker will preach at the Presbyterian church Sunday at both the morning and evening hours, and at 2:30 in the afternoon at sunset. The public is cordially invited to attend these services.

Mrs. Alice Whittensore and children are visiting in the home of her father, D. M. Wallington, near Lawton, Okla.

Mrs. Bertie Stallings and son, Roland, of Fort Worth, are visiting in the home of her sister, Mrs. Condy Weaver.

Mrs. E. H. Stodghill and daughters have returned from San Antonio, where they spent several weeks visiting in the home of Mr. and Mrs. Jack Cartwright.

Chas. Farrington has returned from Oklahoma City, where he spent a few weeks attending the medical department of the University of Oklahoma.

Miss Christian Chapman is in Abilene this week visiting relatives and friends.

Miss Helen Smith has returned from Chickasha, Okla., where she visited relatives and friends.

Mrs. Cassie Lansford and daughter, Miss Nettie, have returned from a two week's vacation, which was spent with Mr. and Mrs. Cas Lansford at Trent, Texas, and in the home of Mr. and Mrs. W. E. Maddox at Quanah. While at Quanah they were members of a party of fourteen who went for a two days camping trip to Lake Pauline, and they report a most enjoyable time on their trip.

Miss Elizabeth Myers has gone to Boulder, Colorado, where she will attend the summer term at the University of Colorado.

Miss Billie Mae Clements of Lubbock is a guest of Miss Billie Geneva Smith at the Wilson hotel.

Mrs. W. A. Camp and daughter, Miss Flora, of Conway, Arkansas, are here visiting in the home of Mrs. J. R. Smith. Mrs. Camp is a sister to Mrs. Smith and this is the first time they have been together in about five years.
