MEN AND MACHINES

The thumb rule of courts is that "ignorance of the law is no excuse" and this could well be extended to our everyday life and say that "ignorance of facts is no excuse to make false statements."

Today there are many misinformed and misguided people who are setting up the machine as the big bogymen responsible for unemployment. So the Machinery Institute set about getting facts and used as the basis of its study the official reports of the United States Government's Census Bureau and other governmental agencies.

Here are the facts revealed by the Institute's study: "It is not logical to assume that the machine is the cause of unemployment."

"Factory employment today is 83 per cent above the 1899 level when little machinery was used, while population is only 72 per cent above the 1899 figure. Had there been no increase in mechanization since then, a ninety-four hour work week would be required for factory workers to produce the goods necessary for the current standard of living."

WHY THE CONSTITUTION?

Something over eight months ago, a German citizen, the Reverend Martin Niemöller, an outstanding anti-Nazi Protestant pastor, was arrested in Berlin because of his outspoken opposition to the dictatorship of Adolph Hitler.

Later he was found guilty of the "crime" of having discussed and criticized government measures from the pulpit. He was sentenced to seven months in prison and a substantial fine. Because he had been in prison for a longer period awaiting trial than that to which he was sentenced, he was set free. But he was immediately arrested by Secret Police and without trial was sent to a prison concentration camp.

All too often we take our own Constitution and the rights it gives us too lightly.

In contrast to Germany, the Reverend Niemöller under the protection of the American Constitution would in the first place never have been arrested for criticizing the government or its acts; he would not have been held eight months awaiting trial and then upon his release could not be arrested and sent away to a prison camp without a trial. All because such things are forbidden by our Constitution. Truly, we take too lightly this document which guards our every right as Americans.

It always pays to be careful, and since the auto came the more careful you are the better it pays.

College is like a washing machine. You get out of it what you put in—but you'd never recognize it.

Legislation Makes Safer Protection

Texas Legislation has provided supervision that makes Life Insurance safer for the people.

The three ways that insurance companies may operate follow:

- (1) Under laws governing Legal Reserve Insurance Companies, whose rates and methods of operation are defined.
- (2) State Wide Mutual Laws, give permission to operate over the entire State.
- (3) Local Mutual Aid laws, permit business to be written only within a limited territory.

WE PREFER LOCAL MUTUAL AID LAWS, as they confine us to smaller territories where we have many sources to get accurate information before issuing policies.

PERSONAL ACQUAINTANCE AND FRIENDSHIP prompt statements that are truthful, so that statements made on Death Certificates will not conflict in settlement of claims. We like to know personally the people with whom we deal, and this can be done only in a limited territory.

WE FEEL THAT IF WE CONDUCT OUR BUSINESS honestly, that we can secure sufficient business within this given territory. If we have to leave our nearby territory to get business, YOU COULD WONDER WHY.

THERE IS ALWAYS GREATER PERSONAL interest in our friends, than in those whom we have never seen or never expect to see. We investigate carefully before we issue policies, rather than take your money and hunt reasons to keep from paying, or to make a compromise settlement through conflicting information, that might be obtained after death.

OUR RATES ARE APPROVED by the State as being adequate, yet they do not carry as heavy "loading expense" as many others.

● We are in business for your protection and you will not regret business relations with us.

We can also congratulate Joe Albertson and Thomas Riggsby, who won first place in the Debate for us last Saturday at Truscott. The subject they debated on was Resolved: That Texas Should Adopt a Unicameral System of Legislation. The other schools who entered were Truscott, Sunset, and Benjamin. Munday first debated against Truscott, and in the finals they defeated Benjamin. We are proud of these boys and hope they place at District Meet next week.

Munday had four boys in track and field meet at fat stock show. They were Burl Meers, Charles Haynie, Gene Thompson, and Herbert Partridge of Sunset who went with our boys.

Charles Haynie, outstanding Mogul high jumper won that event in the Fort Worth Stock Show track and field meet in the high school division last Saturday at Fort Worth.

Haynie had little difficulty in routing opposition by clearing the bar at 5 feet 10 inches, while his opponents nearest jump was 5 feet seven inches.

Haynie last year won five out of six track meets in the high jump, won the regional and in the state track meet failed to qualify. His highest leap is six feet two inches.

Meers Wins Third

Burl Meers, Munday's best all-track man, placed third in a fast field of half milers. The winning time in the half mile in the finals was 2:5.5, paced by Linehan, of Dallas. Howard of Tioga was second and Meers was close behind for third place.

Levena Counts is Winner of Third Year Dress Contest

Last Tuesday the fatal day for Homemaking, closed eventfully. The judges, Miss Mary Ruth Reeves, Seymour; and Mrs. Vaughter, Haskell, selected Beth Haynie, Zell Spann, and Joyce Jones for first second and third places respectively from the Homemaking II class. The third year girls dresses were judged immediately after the second year girls. The winners from the latter were Lavena Counts first, Peggy Jo Haynie second, and Billie Swain third.

The freshmen had their dresses judged some time ago; the winners of that group were Darlyne Duke, first; Doris Lee Walker, second, and Nadine Salem third.

Junior Class News

The Junior class of Munday High wish to tell the Junior class of Sunset High how much we appreciated the invitation to their play and the reception which followed. The play was extremely entertaining, and we just have to say that Sunset has a Junior class that will rate among the top when it comes to showing visitors an enjoyable evening. Our hats are off to you, Sunset Juniors, and we hope to have a chance some day to show you a lovely time as you showed us last Friday evening.

We are really proud of some of the members of our class. Last Saturday Jimmie Boone, one of our most beloved classmates, helped win second place in the county for the girls debating team. We are proud of Jimmie for this and for the fact that she is entering another event in the county Interscholastic League Meet, and you can depend upon it that Jimmie never slacks up in her duties. She is one of our best students in all of her work.

We have several athletes in our class also, for instance J. B. Pollock and Charlie Haynie. It seems that Charlie just can't be beat when it comes to jumping.

Sophomore News

The home economics II girls are very proud of one of their most prominent members. Alta Beth Haynie, whose dress won first place in the second year class, was chosen as the member to attend the State Rally. Beth has not only proved that she can sew, but can cook and state her own opinions as well. The next place went to Zell Spann, who has placed second for two years.

The Sophomores are also proud of Jane Stodghill, who with Jimmie Boone as her partner, helped the girls debate team win second place in the county meet event.

Freshman Report

The freshmen have been having a good time playing tennis since spring has come at last.

Dr. Bass and some of the freshmen set out rose bushes around the school building. We shall be very glad when they bloom because we think they are pretty and we want the entire school to enjoy them as much as we enjoyed setting them out.

In math we have finished our book and are going through it again. We should know it when we get through!

In English we are still studying the fifteen rules of the comma.

In citizenship we are studying "Workers in Many Fields."

PEEP SHOW

FOR LADIES ONLY
—BY—
MIGNON

It seems to me that every day Seems nicer than the rest Just like a doting mother Thinks her last child's the best.

Sure enough it seems that every day brings something lovely from some new friend, some beautiful thought to make me want to look up and smile about the little heart-aches that came yesterday, or a note from an old friend across the years making the day brighter and better. Entertained in the lovely home of Theresa McBurney, that charming poet who sings songs of mother love, of chivalry, of Texas trails and Oklahoma nights, I met a most unusual assembly of people. Mrs. Walt Mills (not the wife of the columnist but another) who makes poems with a brush or chalk that are a symphony of color and detail and symmetry and beauty.

Then John Wilson . . . a plain man apparently but one whom I will always remember as having had the privilege of knowing for a short space of time. A poet, deep and profound. A man whose generosity and gracious giving to his country, his church and his friends will be remembered and respected long after his frail bark has crossed this narrow strait of life. A kind of dreamer whose greatest dream no doubt, would be to bring peace and kindness and understanding to an entire world. Whose poems are not only written as most poets write but in hand tooled leather, in the lovely grill work of a church organ, the rich, deep pile of old velvets and damasks, the satin sheen of old walnut or rosewood which he lovingly patterns into things of beauty for an unappreciative public to give as a bridge prize. But he can always have his dream there in his heart and the beautiful inspiring thoughts that keep it company and maybe some day he will bring them out for us all to enjoy. He is deep in an article for Scribners at present concerning Russia, where he served his government for a long period. Then there was Robin Gould who made me think I almost had my preacher back again for his interpretation of the love chapter from the Book of books.

There were Buff and Reba Burtis—newspaper folks I adore and Little Buff, Betty and Jane that would warm anybody's heart—A whole lot more of delightful folks anybody would love to know. I fell hardest for Larissa's doctor though—Results, a hip dislocated—a knee decapped and a stocking that looks like a Union Station.

Redbud
Light your little lamps
And keep them burning
A signal
Of another spring's
Returning.

A dear friend, knowing how I love the redbud, brought a big beautiful bouquet of the lovely blossoms to me this week and they have been on my desk a rosy pool of loveliness.

But flowers to me are like songs, they have personalities all their own. The redbud is not just a "flame through smoke" not just a "purple swarm" . . . not just a "signal" for Springtime, it is a dear and much loved someone . . . that someone who went through the rain and wind of another spring to bring back a whole armful of delight just for me.

Speaking of Springtime and friendships, I have found both this week in a column by Dusty . . . my neighbor over at the Beckham County Democrat. Them's my sentiments, too, Dusty:
Promise
"If I shall never see another spring,
Come flying to a fading winter's
kiss,
I shall not moan the sudden whims
of fate.
I can only make the most of this."

Hey you poets! Don't forget Less Truitt, Enid, poetry chairman of the Federation is offering a prize for the best lyric submitted to her before April 5th. 100 word limit. Bessie knows her poetry and will announce the winners at the state council meeting this spring. Bessie has recently won first place in the coveted poet's corner in the Atlantic City news. It wasn't all just honor, either. She got a fat check. Hurrah for Bess!

Ah woe is me . . . Ah woe is me I act like a poet alphabetically At the P.E.O. or the O.E.S. Or the A.A.U.W. in a long tailed dress

But poppa's threats are not so few If I don't stop it P.D.Q.

WORDS WITHOUT MUSIC

By LOUIS REID
Music Features & Photo Syndicate

WILLIAM C. HANDY may well claim title to the term "Father of the Blues." As composer of "St. Louis Blues," "Memphis Blues," "Beale Street Blues" and other folk-

Louis Reid

can concert programs—companion piece, perhaps, to Dvorak's "New World Symphony."

Handy continues to win honors for the work. The other night, the St. Louis Music Association and the National Association of Negro Musicians presented him with a plaque for his composition. Handy is a high ranking member of the American Society of Composers, Authors and Publishers (ASCAP), the organization which protects the performing rights of America's creators of music.

The high honors heaped upon the "St. Louis Blues" were not predictable when it was composed in 1913. Handy, a native of Florence, Alabama, conceived the idea for his indelible tribute to St. Louis ten years before it was written. Strolling along the river front of the city looking for a job, he heard the melancholy chants of negro levee workers. He needed money to complete his education for the ministry. He got a job on the levee and quickly changed his mind about his future. He had become fascinated by the songs, had decided to transcribe their plaintive, simple beauty into orchestral music.

Cigar Box Blues

"St. Louis Blues" was first scribbled on a cigar box. Handy had planned to publish the work on his own account and wanted 10,000 copies, which would cost \$100. But he had only \$20 in cash. After some search he found a printer in Cincinnati to turn out the copies on the strength of a \$20 deposit. He sold the original shipment of 2,000 copies at five cents each within a few days after their arrival, which gave him enough cash to pay for the rest of the order.

Enlarging his publishing activities, he formed a partnership with one Pace, an official in a Memphis bank. Confident he had something out of the ordinary in music, Handy sought to interest the phonograph companies. But the recording rajahs of that period could see nothing in "St. Louis Blues." They told him blues was a fad that would soon die. It was a long uphill battle for Handy. Eventually, several blues singers used it in their acts and little by little it began to gain recognition. It was not long before it was sweeping the country. Up to this year more than a million copies of the piece have been sold. It holds the record for recordings, its total sales in this field exceeding 2,000,000. It is now definitely an American classic—the only blues that is.

Irving Caesar's new versions of nursery rhymes which adroitly stress the safety campaign now current throughout the country are winning extensive comment in the press.

Hoagy Carmichael is the latest of Broadway's composers to win a lucrative contract from Hollywood.

The bazooka, most closely associated with the Arkansas comedian Bob Burns, will probably be the next most widely exploited instrumental novelty. Bazoocas were the winning souvenirs given away at the recent music trades convention at the Hotel New Yorker.

Tunesmiths would like to glorify a new feminine surname in their song titles, but the old names won't make way. Dinah, Adeline, Annie, Genevieve, Mary are still riding high and triumphantly.

Edna Thomas, a singer, is said to have something new in the way of a book—one half devoted to Southern songs, the other half to Southern cooking. But what's new in that? The country's full of people who say Southern cooking calls for singing.

A song that remains popular more than six weeks in this era of radio is a phenomenon. "Continental" and "Stars Fell on Alabama" belonged in this class. "Where and When" currently is a phenomenon. It is the most seductive sweetest from the Rodgers and Hart confectionary since "A Song in My Heart."

Never hear any more of those men who taught the Duke of Windsor to play the banjo, the saxophone, the snare drums, the ukulele.

The playing of the old "Blue Danube" becomes a distinguished event when the Philharmonic adjusts its fiddles. Nothing like the "Blue Danube" for painting a musical picture of gaiety and romance. Yet, beneath its imperishably lilting strains there is the insistent note of pathos, reminding one that life and love are fleeting.

There is a persistent legend in musical circles that the best saxophonists come from Boston. A fact, the Cabots, surely, are not bragging about to the Lowells.

One reason for the current importance of piano teams is their ability to fit in with almost any kind of program. They are heard regularly with tenors, baritones and sopranos, group singers and masters of ceremonies, with male and female commentators on a variety of subjects; with dance and concert orchestras and lastly, by themselves. Their musical fare ranges from jazz, treated sympathetically to symphonic themes in Tin Pan Alley phrases, from Mother Goose ditties arranged beyond recognition to works of such moderns as Gershwin, Grofe, Carpenter, Alter. Fine.

SO YOU WANT TO WRITE A SONG? Well then: Have Your Title in the First Bar of the Chorus.

Ed Bauman, John C. Spann, Culum Campbell, Ben Blacklock and Lyle Stodghill were in Benjamin Munday where they were summoned for special jury duty.

1-MINUTE SAFETY TALKS

By Don Herold

Take—and Like—Your Medicine

I burn when I see somebody driving a car down our street faster than he should. Yet, I'd burn if I were doing the same thing and a cop caught me and gave me a ticket. But I oughtn't to. I ought to remember that my little Hildegard crosses that street several times a day and plays on the other side, and that traffic regulation and enforcement are for her protection. I ought for her sake, to be so loyal to traffic regulations that I would feel good about getting a ticket. There is always injustice in any ticket WE get for a traffic violation. Let's just have sense enough or sense of humor enough to remember that our own ticket is invariably going to seem unjust... and let's have sports-

manship enough to take our medicine in the name of a good cause.

At the present rate, according to estimates made by The Travelers Insurance Company, one out of every three children faces the PROBABILITY of death or maiming from motor accidents in the course of a lifetime.

So what we need is more tickets, not fewer tickets. And no "FIX-ING".

I like the spirit of that wife of a New York magistrate who some time ago appeared in traffic court and paid a fine. I think some types of patriotism and public spirit are apt to be the bunk, but I believe we should all lean over backwards to take what's coming to us for traffic rule violations.

BEAUTY SPOTS IN MUNDAY

Written by 3rd Year Home Ec Girls of Munday High School

(Editor's Note: The following story, one of a series that will be published weekly, are in keeping with the Munday Lions Club Beautification project, of which a large number of Munday homes are entered. For information see Lion Dr. J. H. Bass.)

Home and Yard Beautification is a topic of interest to everyone during the first spring weather. Perhaps few people know just how many beauty spots there are in Munday. These are some of the things to be noticed in your next drive over town.

The vacant lot in front of the Baptist church has been plowed and platted and will probably be set in garden or grain—an excellent method of controlling weeds.

Of the trees that are beginning to send forth their tender green leaves notice the beautiful mesquite growing on the northwest corner of the school campus. A stately popular is found in the yard of Herbert Barnes. Note, too, the cottonwoods and apricots at the L. W. Hobert home.

Bluebonnets do not do so well, they say. Take a look at the bed found in the Fred Broach yard and then across the street to the J. J. Keel home for more Bluebonnets. The tulips and poppies will soon be in full bloom in the same yard.

New rose gardens are to be found in many spots, for instance the one at Mrs. Charlie Maves, Mrs. U. R. Houser, and Miss Shelley Lee's. The twelve rose bushes planted last Saturday by the freshmen, in front of the high school, have begun to sprout.

Here and there there has been made on wild rye in the Bermuda. The W. A. Bakers, W. H. Atkisons, and the Ben Blacklocks have removed the top grass and spread new soil.

For harmony, peep over the Kendall's yard, noting the lilacs in full bloom.

The pause that refreshes—no, not Dr. Pepper, the waving purple flags in the Alexander lawn. Consult this column week by week for more beauty spots. Levena Counts

From Haskell county she moved to Knox county where she is now standing. Lillian entered Sunset when she was in the fourth grade, and she has spent the rest of her school days here. Mock Trial Held By Civics Class

"Do you swear to tell a lie, a whole lie and nothing but a lie, so help your conscience to forget it?" This was the oath administered to all the witnesses in the recent trial of Dorothy Garret for forging or altering a check. She is accused of changing a check from five to fifty dollars. There have been quite a few contradicting statements made during the course of the testimonies. J. E. Hunter swore that he was dated out with Dorothy while at the same time other witnesses swear she was at the home of Mrs. Otis Cash.

Oh Boy! And it is embarrassing to be caught in a lie. This is exactly what has happened to a large majority of the witnesses. Nell Nix and Faye Marie Partridge are attorneys for the defense while Buddy Bumpas and Fuller Shannon are lawyers for the state. There is quite a bit of mud slinging but after all it is all in fun. All of the witnesses admit that they might be liars, but it surely does make them appear queer to be called one right to their face. Mr. Kimbrough acts as judge while the rest of the class acts as witnesses for the two parties. Herbert is a handwriting expert and witness for the defense. Something turned up that J. W. Bigony did not give the testimony that Buddy expected him to give. So far, the girls are putting up the best argument, but, you can't ever tell "which way the wind will blow."

3,000 Acre Block Assembled at Rule

In a block of about 3,000 acres of land embracing the property of Foster L. Jones, L. W. Jones, J. W. Blake, and C. A. Jackson a drilling contract calls for a 4,000 foot test.

The block was assembled for Heenan and others, Oklahoma City oil operators and material is being hauled for the site, which is located about three miles north-east of Rule.

Another block is reported to be assembled near Sagerton by E. K. Sampley and associates with 5,000 acres leased with a drilling contract.

Mr. and Mrs. W. W. Rice attended the Fat Stock Show in Fort Worth last week. Rice had four of his 4-H club boys there also, who entered five calves in the show.

Tight insulation holds oven heat constant . . . helps the oven to heat faster . . . saves gas . . . and keeps the kitchen cooler. Simmer burners provide a highly flexible heat

that can be controlled to the exact temperature required for any boiling or frying job.

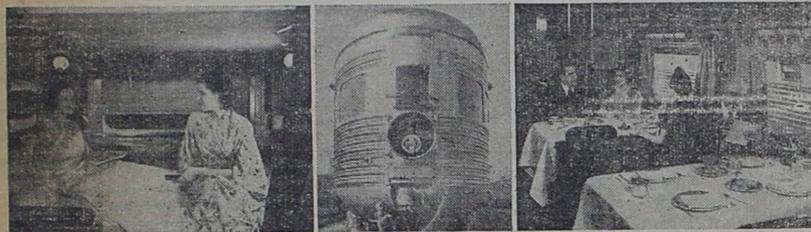

Of course, there are many other features to make your kitchen work easier and add hours of new leisure every day. And the best way to know these features is to get a first-hand look at the new ranges. They are as beautiful as they are efficient and are sold on the easiest kind of terms.

New Streamliners for Western Travel

Five of the 13 racing new trains, streamlined in stainless steel, the Santa Fe Railroad is placing in service for California and Southwestern travel. The Super Chief, El Captain, Chicagoan, Kansas Cityan, and San Diegan, flag bearers of this new fleet of trains, will be drawn by Diesel-electric locomotives; the famous Chief by giant Pacific type steam locomotives.

Pease River and Denison Dam

The Army engineers have approved of making a survey of the Pease River flood control project and the funds for beginning this survey will be carried in the flood control bill, soon to be considered in the House of Representatives. This river has caused great flood damage in recent years. It is believed by the engineers that the construction of a dam on this river will be of great assistance, not only in checking floods in that area, but in control on the lower reaches of Red River.

The Army engineers have recently approved and recommended to Congress the construction of a dam on Red River at Denison. This matter has been under consideration for many years. It will cost \$54,000,000 and will require about 4-1-2 years work to complete same. It is expected that the power furnished from this dam will be sufficient to furnish a considerable portion of the additional power needed in that area within a 250 mile radius. Cheap electricity is one of man's greatest blessings, which lifts a tremendous burden from the shoulders of the farmer and takes much of the drudgery out of housekeeping. It tremendously lowers the cost of producing and processing farm commodities and adds one of the greatest and most worthwhile modern conveniences for the rural population. The Denison Dam project was sponsored by Congressman Sam Rayburn.

Corporations and Individuals

Justice Black re-opened a Supreme Court mistake of long standing, in refusing to agree that a corporation, under the 14th Amendment, is a person. A corporation under the construction made by the Supreme Court many years ago was construed to be a person and as such, was given many exemptions and privileges not intended under the Constitution. Because of this Supreme Court interpretation, the states are powerless to control foreign corporations in many of their activities. The writer introduced a bill last May to correct the situation about which Justice Black justly complained. It is to be hoped as the Court receives more liberal members that these glaring inexcusable and unjust decisions will be corrected.

Navy Bill

The House began consideration of the Navy expansion bill last Monday and continued debate throughout the week. The most objectionable features of the bill, outside of the \$1,200,000,000 for the expenditure for the additional authorization of three battleships at a cost of more than \$70,000,000 each, and the naval policy attempted to be written into the bill. The Naval Policy is declared to be among others, "to protect our commerce and citizens abroad." The Naval policy section (Section 9) was stricken from the Bill on a point of order. The final vote on the bill will occur Monday. It is expected the bill will pass by an overwhelming vote.

Marketing Quota Vote

Last Saturday the farmers voted on whether or not they favored the marketing features of the new A AA act. More than 2-3 of the farmers in the twenty states affected voted and overwhelmingly said by their vote, that they favored the marketing quota act. The total vote in the 20 states was 1,190,138 for and 97,471 against, 92 per cent of those voting favoring the Act. In Texas, the vote was 196,875 for, to 28, 125 against, or 87.5 per cent favoring the Act. These figures for the state and nation are practically complete.

A friend of ours dropped in yesterday and we asked him if it was true that his wife called him a blockhead? "No, not on so many words," he replied, "she simply said 'pull down your cap, here comes a woodpecker.'" We are not looking for blockheads or easy marks because a reconditioned car as sold by us means that the working parts have been replaced and the car put in first class running condition.

P.-T.A. of Knox County Compiles Health Figures

Cooperating with a health committee comprised of Mrs. Vance Favor, Benjamin; Mrs. Clyde Gibson, Benjamin; Mrs. C. C. Hoge, Knox City; Mrs. P. V. Williams, Munday; Mrs. Herbert Smith, Truscott; and Mrs. Frank Moorhouse, Benjamin, representing the various Parent-Teacher Associations of Knox County, County Superintendent J. Lyndal Hughes, obtained the following information shown below:

IMMUNIZED FOR—			
	Diph-	Small-	Ty-
	theria	pox	phoid
Elementary	729	400	216
High school	380	286	153
Total	1109	686	369

NOT IMMUNIZED FOR—			
	Diph-	Small-	Ty-
	theria	pox	phoid
Elementary	781	1011	1215
High School	242	366	492
Total	1023	1377	1707

Hughes emphasizes the need of every parent taking stock of the health needs of their children, with special reference to immunization against Diphtheria, Smallpox, and Typhoid of those of pre school age. He likewise pointed out the responsibility of all school and county authorities being fully informed of the immunization status of boys and girls of pre school and scholastic age in the county.

An investigation made by making inquiries in 140,000 Texas homes in the summer of 1934 revealed that:

OUT OF EVERY 10 CHILDREN—

- 7 were not vaccinated against smallpox.
- 8 were not immunized against diphtheria.
- 7 were not inoculated against typhoid fever.

Every parent is urged to look to the proper immunization of their children. It is a safeguard against possible suffering, and death is not unlikely where disease exists in a child's body.
