

Kracker Krumb's Odd Bits Salvaged At Random

We wish somebody would claim it.

Some young feller probably got pretty cold last week during our coldest of winter weather—and his leather jacket was hanging up here in the Times Office.

Charles Baker found it on Christmas Day; we ran an ad, but nobody claimed it.

It was found on the street near the D. L. Ashley home, pretty close to our house, near the H. F. Jungman home, near the George Beatty home, near the Jeff Mitchell home, right along there close to where A. J. Waldron, the Cecil Bartons and the Hap Pendletons live.

You know, right along there—in the middle of the street. It probably blew off a pickup, out of a car or something.

It's a good jacket, too, nearly new. Probably fit a boy around 12 to 14 years old.

And if somebody don't claim it now, we're gonna give up and decide that 40 cents worth of advertising we ran on December 29 is no good.

We'd have given up already, if the jacket would fit us!

Somebody expected a razzing last week, and looked for it when the paper came out.

They didn't find it. You see, we don't believe in razzing folks for an honest, but maybe embarrassing, mistake.

Especially if it happens to be the sheriff or some of our local police force.

You see, a "negro man" was arrested for the siege of house burglaries we'd been having in Rhineland and around Munday. Everybody was plumb happy about it, even to those whose homes had not been entered.

He was lodged in jail, along with other negro men, then some days later came the news from Dallas that the man was a woman!

Dallas police had their fun out of our local law enforcement officers for about an hour, then said, "We done the same darn thing, ourselves!"

It turned out that everybody was fooled, including those for whom the negro worked during the fall, and those with whom she, or he, associated.

She has been posing as a man for a number of years; and, apparently getting by with it.

Maybe there's oil in Knox County!

At least there are folks who think so. Some have been thinking so for quite a spell.

Five wells have been "sunk" in Knox County during recent months. Some appeared to have a showing of oil, but all five seem to have been abandoned.

But they're trying again.

This week, business is picking up out on the Johnny Zeissel place—and folks who are putting their money in that hole think there's oil in Knox County.

The hole is to be drilled down to some 6,200 feet, so they'll likely find something. Whether they find oil or not will be revealed as the weeks go by.

We heard via grapevine that 18 locations have been staked in Knox County to be drilled in 1950.

And that's a heap of money just for drilling holes in the ground unless somebody thinks there's oil somewhere.

It seems, too, that the city of Munday is going to lease the city park for some sort of oil activity.

A few flowing wells on city property wouldn't hurt the town's finances none, we guess; and (Continued on Last Page)

Snody Asks For Re-Election As Treasurer

W. F. (Walter) Snody as authorized the Munday Times to announce his candidacy for re-election to the office of County Treasurer of Knox County, subject to the action of the 1950 Democratic primaries. Mr. Snody makes the following statement regarding his candidacy:

"First, I want to thank the voters of Knox County for their loyal support in the past and to solicit your vote and influence in the coming primaries.

"I have tried to handle the duties of office in an efficient manner, doing the best that I can at all times. If re-elected to the office, I promise you my best efforts for another term.

"Every voter has the same right that I take—to vote for the man of their choice, and I would not deny you that right. I want another term in this office, but I assure you that if defeated I will continue to make my county and state a good citizen. Your vote and influence will be sincerely appreciated."

Benjamin Man Dies Suddenly On Thursday

Richard Stanley Brannin, 74, of Benjamin died of a heart attack at his home in Benjamin last Thursday just a few minutes after he had returned from taking his wife to the Knox County Hospital. Mrs. Brannin entered the hospital for treatment for pneumonia.

Mr. Brannin was born on March 1, 1875, in Wise County. He moved his family to Seymour in 1882 and came to Knox County in 1885.

His father, A. E. Brannin, was one of the group of men who founded the town of Benjamin. The deceased had been a cowboy and rancher in this section for many years.

On June 4, 1911, he was married to Alice Thompson in Benjamin. In 1932, he moved to King County to work on the 6666 Ranch, retiring in 1937, when he moved back to Benjamin, where he had made his home since.

Funeral services were held at three o'clock Saturday afternoon from the Baptist Church in Benjamin with the pastor, Rev. George Smith, officiating. Burial was at Benjamin with the Warren Funeral Home of Knox City in charge of arrangements.

Survivors include his wife; two sons, R. S. Brannin, Jr., East Williston, N. Y., and Will Ed Brannin of Alameda, Calif.

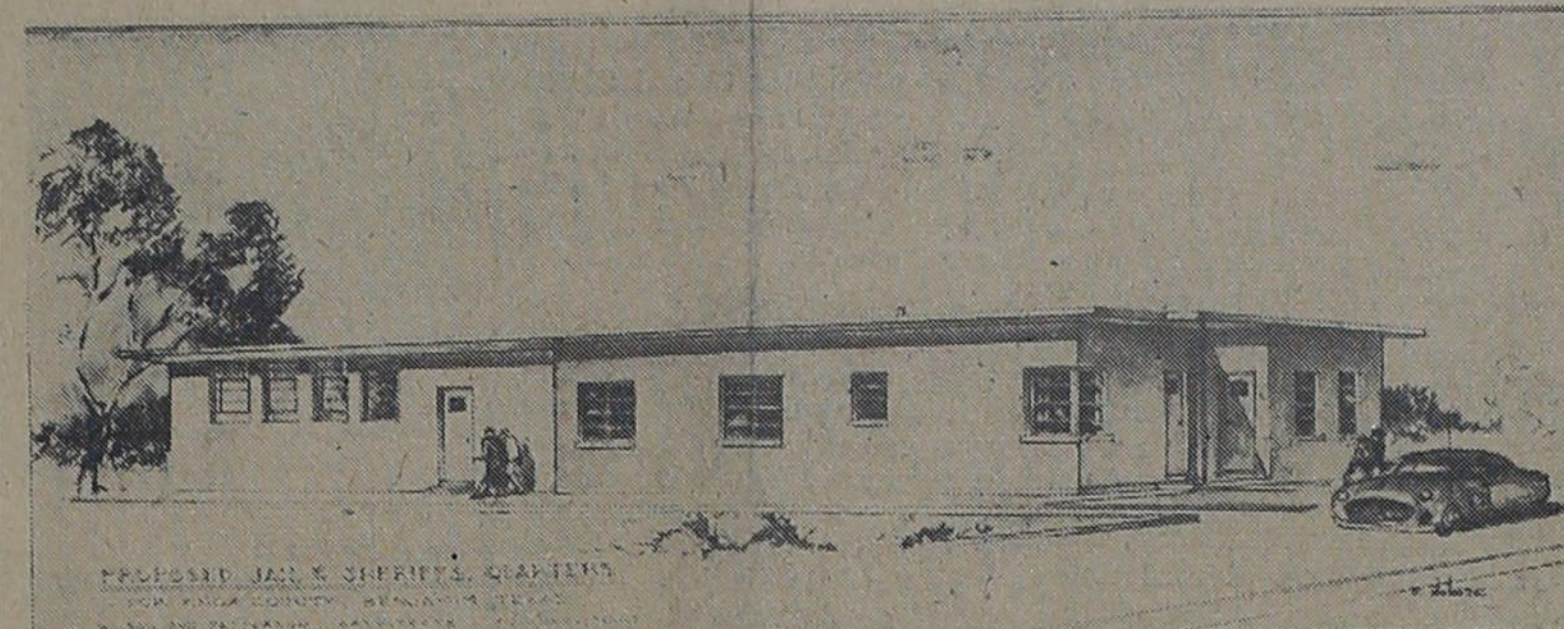

MEDICAL SOCIETY MEETS

A tri-county medical meeting was held Tuesday evening in the office of Dr. D. C. Eiland of Munday. The election of officers was held and Dr. C. G. Markward of Rochester was elected president while Dr. Tom Bunkley of Stamford was re-elected as secretary.

WHOA!

The old mule train seems to have dipped-clopped right up to the pool where this pretty miss is enjoying an outing in California's winter sunshine. She is wearing a beach ensemble designed in a new embossed cotton fabric by Stephanie Korset. The cotton outfit includes matching shorts and halter, plus a versatile beach coat.

Pictured above is the architect's conception of the new Knox County jail to be erected at Benjamin. The voters of Knox County approved a \$58,000 bond issue in a special election last Saturday by an overwhelming vote. Work on the new structure, to be erected just north of the court house, is expected to begin in March. It will replace the old jail building, which has been condemned since 1928.

Census Count To Begin Here About April 1

Benjamin E. Housler of Wichita Falls, district supervisor for the Bureau of the Census, located at 421 Federal Building, Wichita Falls, was in Munday the first of the week, making preparations for securing workers for the 1950 census for Knox County. Housler is in charge of enumeration for the 13th congressional district.

He stated that one crew chief and about 12 enumerators would be needed for the enumeration of Knox County.

Applications will be received in the near future, he said, and applications will be taken at Munday and Benjamin. Exact date for interviewing applicants will be announced later.

The census enumeration will begin on April 1. Housler stated that approximately 366 persons would be employed over the district.

The first U. S. census was taken in 1790, he said, and has continued every ten years since that time.

Former Knox County Man Is Crash Victim

Grover C. Jordan, of Dublin, Texas, was killed Tuesday night when the automobile he was driving crashed into the end of a concrete culvert about four miles north of Throckmorton.

Sheriff Bob Rankin of Throckmorton County and highway patrol officers said the victim was thrown from the vehicle following the impact. Mr. Jordan suffered a broken neck and crushed chest, and it is believed he was killed instantly.

The accident occurred about 9:30 Tuesday night, investigators said.

Funeral services were scheduled for 3 p. m. today (Thursday) at the First Baptist Church in Goree, to be conducted by Rev. S. E. Stevenson, pastor, with burial in the Johnson Memorial Cemetery at Munday.

Survivors include the widow; two sons, Jim and Lee Jordan, both of Dublin; two daughters Mrs. Joe Hudson of Wichita Falls and Mrs. Harold Jones of Goree; a stepson, William Hancock, and a stepdaughter, Miss Elizabeth Hancock, both of Dublin, and several grandchildren. Mr. Jordan was a former resident of Knox County, moving away only a short time ago.

Weather Report

For the period of January 1 through January 11, 1950, as compiled by H. P. Hill, U. S. Weather Observer.

Table with columns for Temperature (Low and High) and Precipitation (this year and this date) for January 1 through 11, 1950.

Moguls Win From Stamford

The Mogul cage team took another win last Friday night when they won a 39-14 battle from the Stamford Bulldogs on the local courts.

Gerald Myers led the locals in scoring with 16 points, while Scotty Ponder rang up 12 of the counters.

The B team also won from the Stamford boys.

On Tuesday night of last week, the Moguls lost a close decision at the hands of the Throckmorton cagers.

Next local games will be at 7 p. m. Friday night when the two teams engage the Albany Tigers. The B game will begin at seven o'clock, and the regulars play at eight.

Last Rites For T. J. Turner Are Held Saturday

Thomas Jefferson Turner of Stamford, former Munday resident, passed away Friday morning, at a Stamford sanitarium. He underwent surgery on Monday and had shown improvement until he developed pneumonia on Wednesday night.

Mr. Turner, 77, was a retired business man. Until five years ago, he had operated a wholesale oil agency in Stamford. Prior to that time he had farmed and been in the dairy business.

Born July 22, 1872, in Hood County, he moved to Aspermont in 1890, later coming to Munday where he lived until 1911 when he and his family moved to Stamford. During the early days, Mr. Turner was employed by Baker-Bryant Co. in Munday.

Mrs. Turner passed away May 31, 1943.

Turner, who was familiarly known as Tom, was a member of the Baptist Church and was a Mason and a Shriner. He was post officer of all Masonic York-Rite bodies in Stamford and taught schools in Masonic work over a large portion of the state. Survivors are two sons, W. L. Turner of Clifton and T. J. Turner, Jr., of Corpus Christi; three daughters, Mrs. Frank Allen and Mrs. M. D. Thompson, both of Stamford, and Mrs. Joel Campbell of Sitka, Alaska; a brother, Newt Turner of Aspermont; a sister, Emma Turner of Aspermont, and five grandchildren. He was related to J. F. Waldron and Mr. and Mrs. E. H. Nelson of Munday.

ANOTHER BOY ARRIVES AT HAMMACK RESIDENCE

His name is Joe Frank, and he's come to live in the home of Mr. and Mrs. George Hammack and to kinda grow up with the other three children who occupy the Hammack residence. He has received a cordial welcome, too.

Joe Frank was born at 6:21 a. m., Sunday, January 8. He and his mother are doing nicely. They're back home, now, and Joe Frank is kinda getting acquainted with his home and family.

IN WICHITA HOSPITAL

Mrs. R. L. Gaines was taken to a Wichita Falls hospital last week for treatment. Her condition had remained very serious since that time, according to reports from relatives.

Careful laundering and frequent dry cleaning help give woolen garments that new look.

Knox County To Get Another Wildcat Test

They moved the rig in, got it set up, and have started operations. And Knox County, and the Munday area, is going to get another try at oil!

Location was made on the Johnny Zeissel place, between six and seven miles northwest of Munday, a mile south and two miles west of Rhineland, and a pretty good farming area, too. But we imagine Johnny had just as soon raise oil on his place as cotton, and maize, and stuff.

It was stated as the "No. 1 J. W. Zeissel, 660 feet from south and east lines of lot 5, block 12, D. G. Burnett survey, a 6200 foot wildcat six miles northwest of Munday, in the southeast part of Knox County."

One paper Thursday morning said the drilling firm was Hunt and Daugherty, while another reported it as being Hewitt and Dougherty of Beville.

Anyway, folks will be watching activities there, and listening for reports, with interest.

Waldron Purchases Grocery And Station

A. J. Waldron has announced that he has purchased the grocery and service station formerly operated by Mr. and Mrs. Ralph Weeks. The deal was completed last week, and Mr. Waldron took charge of the business Monday morning.

He invites the continued patronage of all former customers of the firm, and asks others to give him a portion of their business, assuring them quality merchandise and prompt service.

Hoyt Gray will continue in charge of the service station, it was stated.

BIRTH ANNOUNCEMENT

Mr. and Mrs. Alvin A. Hollar are announcing the arrival of an eight pound boy born Tuesday, January 10, at the Knox County Hospital. Both mother and little son are doing nicely.

Rev. and Mrs. W. H. Albertson of Brownwood were Munday visitors during the holidays.

New County Jail Will Replace One Of Benjamin's Old Landmarks

Funeral For Mrs. Roberts Is Held Monday

Mrs. Mary Eula Roberts, beloved Christian mother of this area, passed away at the family home northwest of Munday at 5:30 p. m., Thursday, January 5. She had been in ill health for several months.

Born in Birmingham, Ala., on October 10, 1875, Mrs. Roberts was 74 years, 2 months and 25 days of age. She had lived in Knox County since 1936.

Mrs. Roberts had been a member of the Methodist church since early girlhood, and was a very consecrated christian mother and faithful member of the Munday church.

Surviving her are five daughters and three sons, who are: Mrs. Mae Wright of Munday, Mrs. L. T. Banks of Burleson, Mrs. Doyle Jacobs of Anson, Mrs. W. E. Chapman of Talco, Mrs. Tom Oates of Skellytown, S. C., and Woodrow Roberts of Goree and Joe B. Roberts of Munday. Other survivors include three sisters, Mrs. S. D. Roberts of San Antonio, Mrs. R. H. Godfrey of Sanger, and Mrs. W. T. Via of Bartlett; a brother, W. B. Cannon of San Antonio; 24 grandchildren and five great grandchildren.

Funeral services were held from the First Methodist Church in Munday at 2:30 o'clock last Friday afternoon, being conducted by Rev. R. L. Butler, pastor; Rev. S. Y. Allgood of Goree and Rev. Berry Baker of Rule. Burial was in the Haskell cemetery with the Mahan Funeral Home in charge of arrangements.

County School Men Attend Conference Held At Austin

On Thursday and Friday of last week, superintendents of Knox County and the County Superintendent attended a two-day conference in Austin.

The theme was on Education for Living and panel discussions were held on high school as preparations for living and on the school summer camps. Attempts were made to stretch the school months to twelve instead of the usual nine.

Reports of the Gilmer-Akin set-up were given, and of the progress up to date.

At this two-day conference, a total of 1500 schoolmen registered. Registration was under the leadership of L. A. Wood, superintendent of the State board of education.

Superintendents to attend from this county were: T. E. Holcomb of Knox City; W. C. Cox, Munday; J. R. Steedman, Benjamin; and Warren Morton of Vera; and the county superintendent, Merick McGaughey of Benjamin.

Be careful. Observe state and local traffic laws.

One of Knox County's landmarks since 1887 will soon be replaced with a new county jail at Benjamin. It's the old jail structure, erected in 1887 and condemned since 1928, that will soon be no more.

Every grand jury for the past several years has recommended erection of a new jail, but it took the fall grand jury to place the ball to rolling. This last grand jury recommended a bond election for the new jail.

Last Saturday, voters of Knox County approved issuance of an \$88,000 bond issue to cover the cost of construction of the new jail and sheriff's quarters. The new structure will house about 20 prisoners.

Work is expected to begin in March, with the Fort Worth architect firm of Wilson and Paterson in charge of plans.

The commissioners court met last Monday to canvass elector returns and set a date for taking bids on the proposed construction.

Plans are for the new jail to be erected just north of the courthouse. It will be modern in every respect, the building being 109 feet long and 39 feet wide and surrounded by a fence.

The jail portion will be reinforced concrete with the front of the building in light face brick. All doors in the cell block will be automatically controlled from on central point, it was stated.

In approving the bond issue Knox County citizens recorded rather light vote, the count being 262 for the issue to 68 against it. Returns by boxes are as follows:

Table showing election returns by boxes for the bond issue, including names like Benjamin, Truscott, Gilliland, Vera, Goree, Munday, Rhineland, Jas. Partridge, East Knox City, West Knox City, Hefner, Brock.

Bank Deposits Over 5 Million

Deposits in the First National Bank of Munday reached a time high on December 31, when a call for their financial statement was made by the Comptroller of the Currency at Washington, D. C.

But local bank officials were a little disappointed!

December 31, 1949, marked the close of a very successful year one in which deposits had skyrocketed from time to time, as business generally was good.

December 31, 1949, marked the close of a very successful year one in which deposits had skyrocketed from time to time, as business generally was good.

Deposits had not yet reached 5 million—and they wanted much to have that amount deposited one time when a call was made!

The call was made seven days early! Because on January 7, 1950 the local bank went over the 5 million mark! A condensed statement—a special one issued on that date—showed a total of \$5,252,380.41 on deposit. And the boys at the bank are so proud that they're publishing this special condensed statement this week, along with the regular statement.

The statement shows conditions good generally in the area served by the local bank. Take a "look-see" and you'll find out!

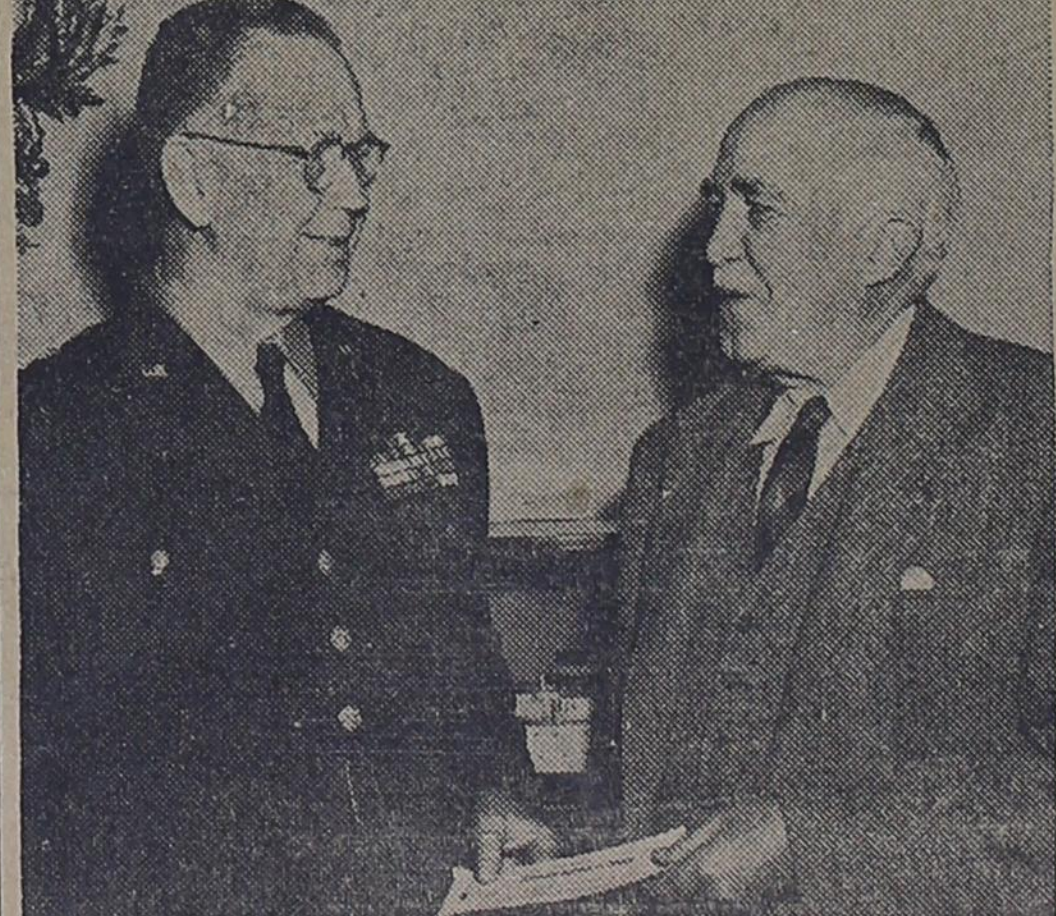

Ratliff Moves Into New Building

Don L. Ratliff this week completed the job of moving his Mennonite offices into his new building, which has been constructed just back of the Wardlaw Mennonite Service.

The building, constructed concrete blocks, was started December and has just been completed. It affords plenty of room for the offices.

Mrs. O. A. King has returned to her home in San Antonio at visiting friends and relatives Munday.

SERVICEMEN GIVE TO USO

WASHINGTON, D. C.—Lt. General Henry S. Aurand, Army Chief for the Pacific, turns over a check for \$1500, representing contributions to the USO from the enlisted men in his area. Receiving the gift is Major General Philip B. Fleming, Maritime Commission Chairman, who serves as liaison from the Federal government to the USO. Today there are 170 USO clubs, lounges and units providing civilian services and help to meet the off-duty needs of the 1,600,000 Americans in the Armed Forces.

The Munday Times

Published Every Thursday at Munday
Aaron Edgar and Grady Roberts . . . Owners
Aaron Edgar . . . Editor and Publisher
Entered as second class matter January 4,
1919, at the postoffice in Munday, Texas, under
Act of Congress, March 2, 1879.

OUR NEEDS FOR 1950

1. Completion of our portion of the Throckmorton road, giving the farmers of that area an all-weather outlet.
2. A farm-to-market road to the north and east of Munday, possibly connecting with the Hefner road.
3. A U. S. Federal building. Munday needs a new post office home.
4. More homes in Munday. We did a good job in 1949, but there's still a housing shortage.
5. A new telephone system, giving the town adequate telephone service and tapping the rural area surrounding the town.
6. Greater cooperation of business man, farmer, and citizen toward long-range development for our community.

WE STILL NEED THEM ALL

Those who believe that navies will be obsolete and unnecessary if war should come again, do not find their views shared by the best authorities.

Dr. Vannevar Bush, the distinguished scientist who is also regarded as one of the best informed civilians on military matters, writes in his important book, *Modern Arms and Free Men*, "The mission of the Navy will be as important and as difficult, as it ever has been in history. We are a power in the world and we intend to exert that power, if need be, far from our shores to support our friends and strike an enemy where he is most vulnerable. . . . We shall need to sweep enemy forces from the seas, whether they are under its surface or above it."

Weapons and techniques have changed, but the role of the Navy has not. Once, for instance, the battleship was the ship of the line, the paramount striking force. Now as Admiral Forrest P. Sherman has said, "For the foreseeable future, the fast carrier force will be the principal striking element in our fleets—the core of their offensive power, available to strike far from our own bases and to cover and support the operations of other services."

Today, as yesterday, the security of this nation rests upon all the fighting services—air, ground and sea. Each has its own vital job to do—none is more or less important than another.

WHAT TO EXPECT

At this session of congress one, can expect to see an increase in pensions, and broader coverage of old-age insurance; elimination of some excise taxes; reduced appropriations for foreign aid; but increased appropriations for military aid; an

The Munday Times is Democratic, yet supporting only what it believes to be right, and opposing what it believes to be wrong, regardless of party policies, publishing news fairly, impartially.
NOTICE TO THE PUBLIC: Any erroneous reflection upon the character, standing, or reputation of any person, firm or corporation which may appear in the columns of this paper, will be gladly corrected upon due notice being given to the publisher, at the Munday Times office.

increase in RFC funds, increased postal rates, extension of the draft law, retention of rent control and more funds for public housing and public works.

One should not expect increased taxes on incomes or estates, any favorable action on health insurance of federal aid to education, any noteworthy change in the Taft-Hartley law, approval of the Brannan plan, or a fair employment practice act or of the Columbia River Authority.

Such is the production of the United States News, which foresees the failure of much of the Truman program at this session, and more concern over domestic issues than foreign ones.—Wichita Daily Times.

WHAT ABOUT THE FUTURE?

Harry A. Bullis, chairman of the Board of General Mills, Inc., told a press conference in New York City:

"We are not heading for a depression. We should not have even a serious recession. We are making good progress in an inevitable economic readjustment from the post-war inflation . . .

"The big problem is not an insufficiency of private spending power. Today's problem is the lack of confidence on the part of both producers and consumers.

"The simple fact of the buyer's market is a salient factor in all business. It means that we must all work harder and we must become more efficient producers.

"This is not the time to be fearful. This is the time to be a realist, to see that we produce more industrial goods and sell them at prices that more people will be willing to pay. This is the time for business to strengthen its merchandising, advertising and selling programs and to bring out more attractive products."—Editor and Publisher.

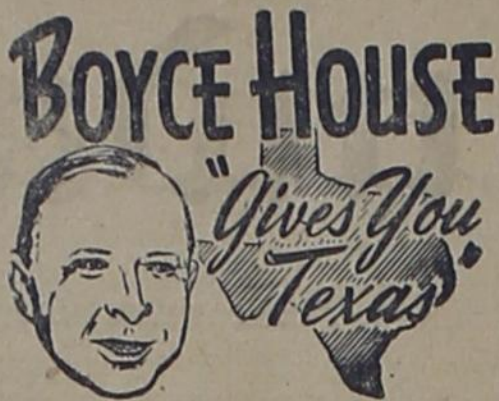

We've never been able to figure out—"When a doctor gets sick and another doctor doctors him, does the doctor doing the doctoring have to doctor the doctor the way the doctor being doctored wants to be doctored, or does the doctor doing the doctoring of the doctor doctor in his own way?"

About the most discouraged person you've ever seen was the fellow who had written a long overdue letter, and then lost it before getting it mailed.

Truth crushed to earth springs spontaneously upward and whispers to the breeze man's inalienable birthday—liberty.—Mary Baker Eddy.

Nature sure pulled a boner when she made prune smore healthful than strawberries.

So many people need sympathy nowadays that you shouldn't waste any on yourself.

"Red" Wright is United States marshal of the Fort Worth district. For several terms before that, he was sheriff and he is one of the most popular men in Tarrant county.

A good many years ago when Wright was sheriff, your columnist was attending a wrestling match one night, sitting at the very tip-top of the outdoor arena.

In between falls, it is customary for phonograph music to be sent out over the loud speaker but, at the interval between the first and second falls of the main match this particular night, someone began to sing.

The fan sitting next to me said, "What voice for calling hogs!"

We couldn't see the singer but he moved around and the fan declared, "That looks like Red Wright." He peered and then added, "By George, it is Red Wright." And turning to me, the fan said, "You know, he doesn't sing half bad!"

Dan Patch was the most famous horse of his day. When I was a little boy, the celebrated animal appeared at the Tri-State Fair Park in Memphis, Tenn., and I saw him. Dan was too old to race but he paraded proudly past.

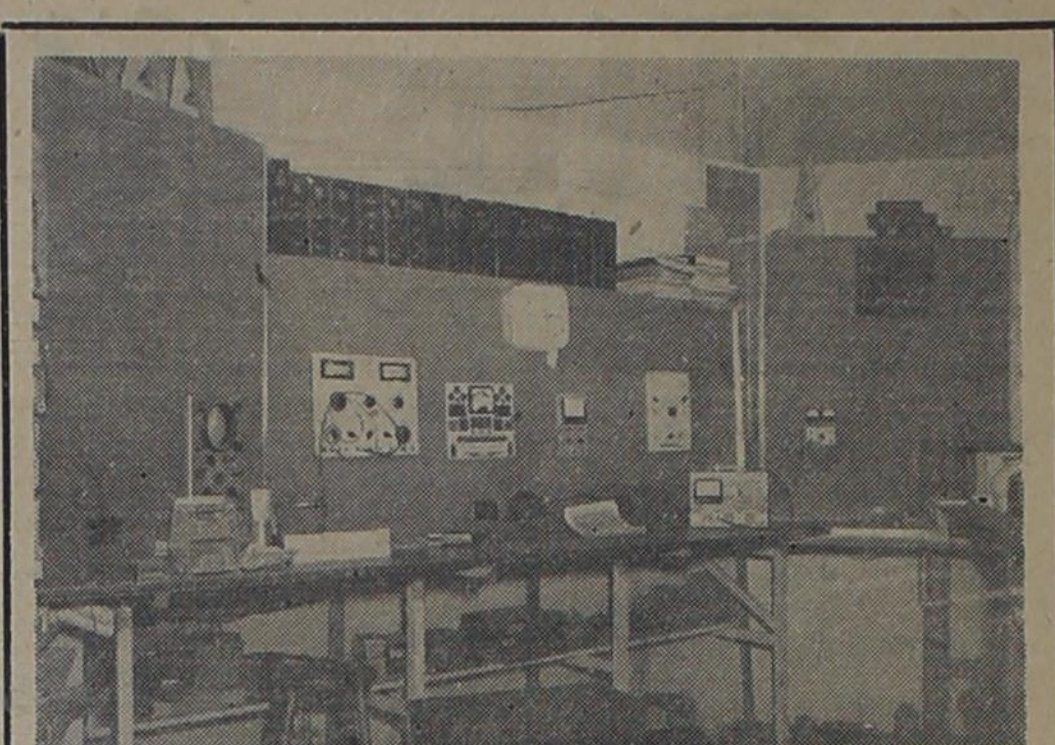

He was a great showman, seeming to know that he was being admired and he held his head high and stepped gracefully. One day, old Dan was being driven past a grandstand and as he paced along drawing the cart, he had his head turned toward the crowd. Two actors were in the throng and one exclaimed, "Bill, he's counting the house!"

When a man buys a pair of shoes, why does the salesman al-

HINTS ON BUYING HOUSEHOLD EQUIPMENT

There is plenty of household equipment, from washers and home freezers to hand irons, in many makes and models available to shoppers who are interested in such equipment. Price and appearance are likely to influence shoppers most in their choice, yet neither is a dependable guide to best values, says Mrs. Bernice Claytor, extension home management specialist of Texas A. & M. College.

She says it is generally best to buy equipment made by a reliable manufacturer known for good products and one that will back up guarantees. Relying on the manufacturer is necessary for usually the parts that count most toward good lasting service generally cannot be examined. In choosing between models, she says the wise shopper will give special consideration to the "standard" models. The special models may cost more than they offer in convenience and service, she says.

Look for essentials rather than style. Elaborate trim and fancy extras have sales appeal but bring up the price, often without making the equipment do its main job any better. She says always look for the Underwriters' Laboratories (UL) seal to be sure the equipment is constructed for safe use. On gas equipment the AGA star shows that it meets standards of good construction, performance and safety.

Last, but not least, she says, buy from a dealer with a depend-

Texas Leaders Set For Cotton Conference Soon

BRYAN—Nineteen Texas cotton leaders will play major roles in planning the cotton industry's 1950 research and promotion program at the National Cotton Council's twelfth annual meeting in Memphis, Tenn., January 23-25. Geo. G. Chance, Bryan, chairman of the Cotton Council's Texas Unit, said that all state cotton groups had completed selection of official delegates to represent Texas at the industry-wide meeting.

"At no time in recent years has the need for a well-integrated program of research and promotion for the American cotton industry been so great," Mr. Chance said. "It will be the job of the Council's official delegates from Texas and the other cotton-producing states to set the policies which will govern Council activities during the year ahead.

"Cotton's competition becomes greater rather than less as time goes by," he continued. "It is the task of the National Cotton Council and the cotton industry to meet the challenges of com-

petition and to maintain cotton consumption at a high level." Council delegates will vote on recommendations for a 1950 program in the fields of production and marketing efficiency, utilization research, sales promotion and public relations, foreign trade, and general activities including legislation.

Mr. Chance said that approximately 1,000 members of the cotton industry and allied groups are expected to attend the conferences at the Hotel Peabody in Memphis. Principal speakers of the three-day meeting include C. E. Wilson, Detroit, president of the General Motors Corporation; Allan B. Kline, Chicago, president

of the American Farm Bureau Federation, and Harold A. Young, North Little Rock, Ark., president of the Council.

The official delegation to the Council meeting includes:

Producers: Geo. G. Chance, Bryan; Geo. Q. Payne, El Paso; T. W. Steiner, Gonzales; Roy B. McQuatters, Littlefield; J. Walter Hammond, Tye; J. H. West, Bishop; R. A. Graham, Greenville. Ginners: Aubrey L. Lockett, Vernon; W. J. Ely, Snyder; R. V. Davis, Dawson.

Warehousemen: Stanton Brown, Waco; Claude F. Fuqua, Jr., Houston; March Anthony, Dallas.

Merchants: Burris C. Jackson, Hillsboro; R. O. Beach, Jr., J. B. Hubbard, Dallas.

Crushers: S. J. Vaughan, Jr., Hillsboro; Hugo G. Schmit, Seguin; George A. Simmons, Lubbock.

WEE WILLIE WINKIE

A modern Wee Willie Winkie is ready for bed on Christmas Eve in red cotton flannel nightie, footies, and night cap. This young fellow probably will be up and down the stairs several times before daybreak in his cotton nightgown to see whether old St. Nick has arrived.

LOCALS

Mr. and Mrs. J. Arthur Smith and daughter of Lorenza were visitor sin Munday last Monday.

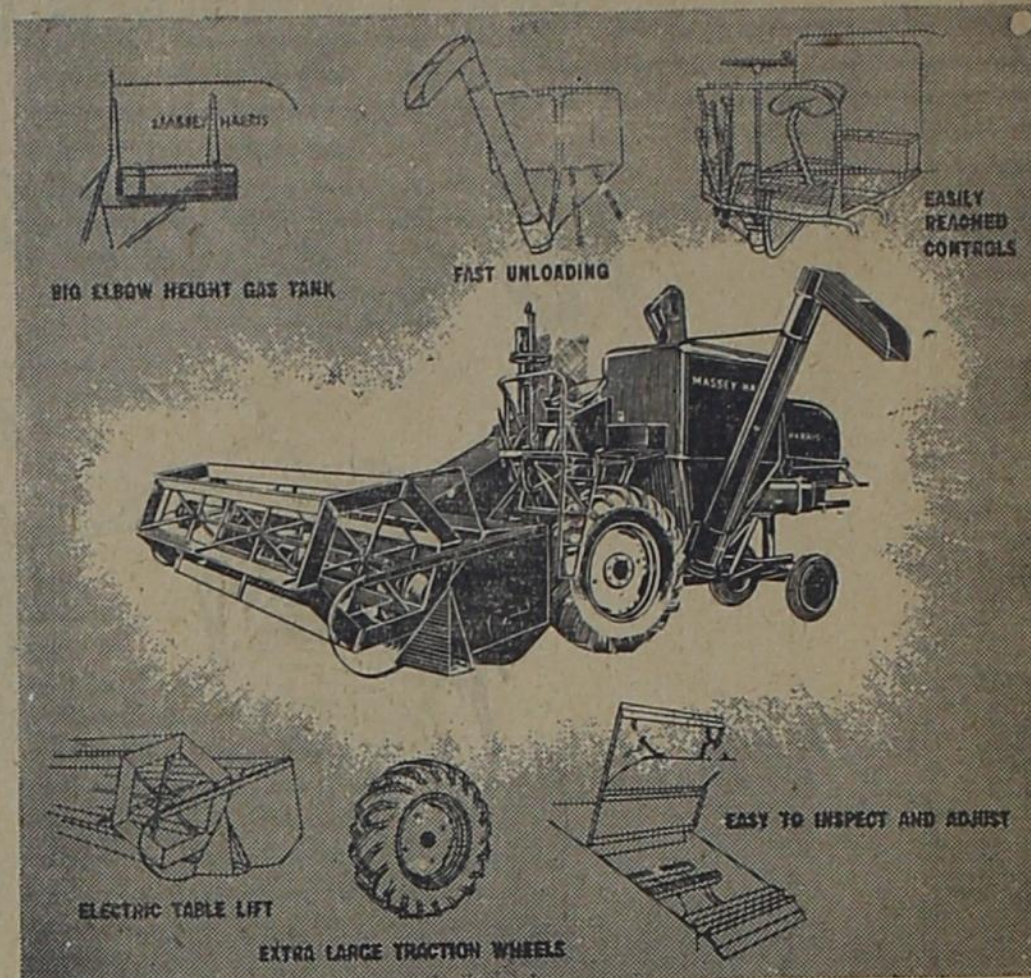

Winston Blacklock was a business visitor in Dallas the first of the week.

Mr. and Mrs. Lloyd Lucky of

Lubbock were Sunday visitors in the home of Mr. and Mrs. Terry Harrison.

George Dayton spent the past week end in Valley View visiting with his parents, Mr. and Mrs. F. H. Dayton.

George Salem left Monday for Washington to spend several weeks with his wife and other relatives.

NEW MASSEY-HARRIS "26" AND "27" SELF-PROPELLED ARE THE EASIEST COMBINES TO OPERATE

★ Ease of operation, simplicity, convenience are just natural results of the common sense construction of the 12 foot "26" and 16 foot "27."

You finish a tough day of harvesting feeling relaxed and satisfied when you own a new Massey-Harris combine. You combine faster, easier... everything is right there before you—all controls at your fingertips. Gas tank

is low for easy filling... Grain tank unloads in a jiffy... inspection panels provide fast adjustment and lubrication... extra large wheels take the jars and jolts out of rough fields and give sure footed traction. See the new "26" and "27" today... get the best for your farm. Don't forget to ask about the new combine principle—Balanced Separation.

It's Baby Chick Time Again!

Make More Money This Year with Our Big Quality-Bred Chicks
Chicks That LAY and PAY!

For more than six years, Munday Sanitary Hatchery has been building good will by breeding superior chicks for thousands of customers. We intend to continue our efforts to offer you our guarantee that every chick comes from pullorum tested breeding stock and that every precaution has been taken to assure health, vigor and liveability.

You are cordially invited to visit our hatchery and see the chicks before buying. Let us serve you this year, then you will see the difference.

Special prices on chick orders in January. We also do custom hatching.

We carry a full line of brooders, feeders, founts and remedies, also Red Chain and Chick-O-Line feeds.

Munday Sanitary Hatchery
Carl George, Mgr.

Complete oven meals are efficient time-savers and can include every course from soup to dessert. When cooking your oven meals, use an *Oven-Made Vegetable Soup*. Most other recipes in the complete oven meal won't take as long as three hours' cooking as does this soup but slide it into the oven ahead of the other dishes. Put 2 lbs. beef knuckles into dutch oven or tight-lidded pan. Cover with 2 qts. water, set on oven rack, turn thermostat to 350°. Cook for 2 hrs. Then mix in 1 cup carrots, 1/2 cup cabbage, 1 cup potatoes, diced, 1 medium-sized onion, 1 stalk celery, diced, 1 tsp. salt. Cook an additional hour. Note: Tomatoes, turnips or rutabagas may be added to the soup. It may also be cooked over a low flame on the top burner if you're not baking.

Old powder puffs are flexible and soft enough to make excellent silver polishers and for applying cleaner to mirrors.

Added comfort for cold bathrooms is a gas space heater now made in white to match bathroom fixtures.

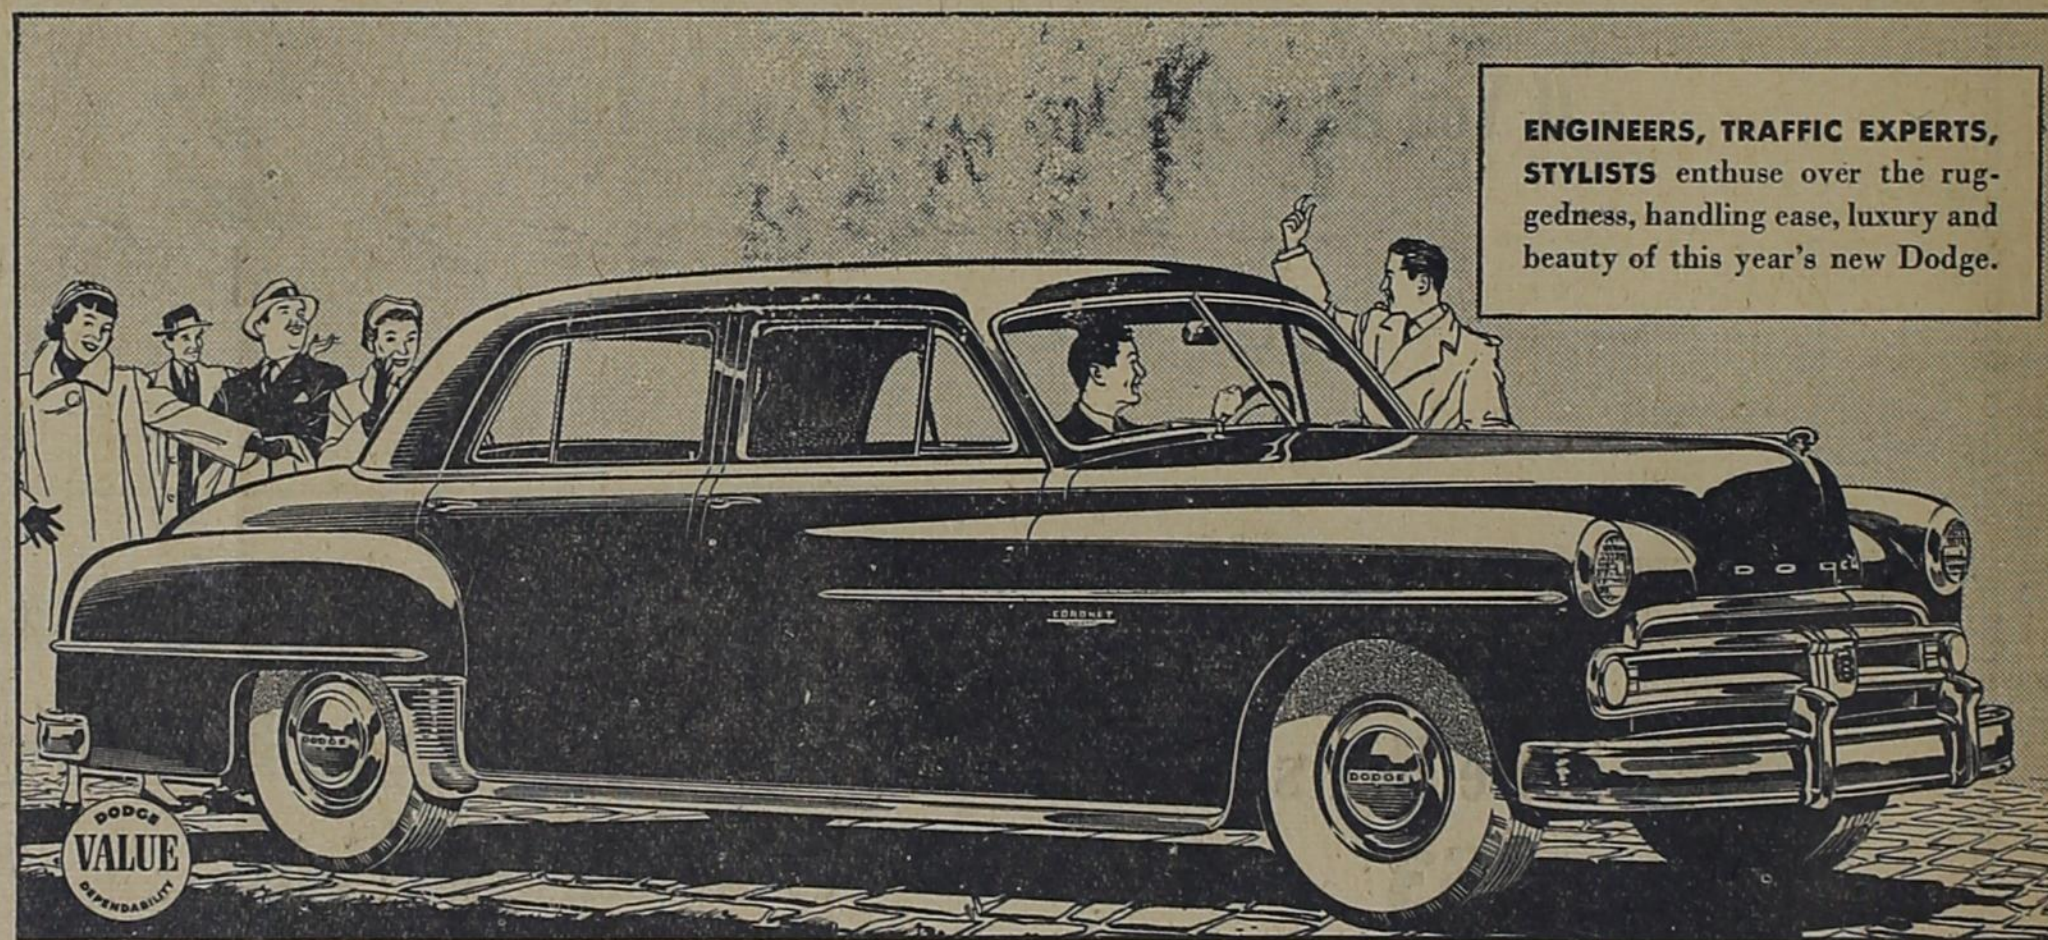

When a hot dish sticks to oil-cloth, pour hot water around it and in a few minutes you can pick up the dish without marring the oil-cloth.

An owner's guide is always included with your gas range. It's a good reference for time-saving hints on meal preparation and cooking and simple everyday care.

Equal parts of finely crushed cornflakes and flour will make a crisp crust for fish. Keep the flame turned low because you don't need as high heat to brown the crust.

Laundry bleach whitens kitchen sinks. Pour on the wet porcelain, then rinse well.

INSIDE... FRONT... AND REAR... OUTSIDE...

Coronet 4-Door Sedan

Nothing will thrill you like this year's DODGE!

You could pay a thousand dollars more and not get all the new beauty... extra room... famous ruggedness of this great new Dodge

INSIDE, you get the head room, leg room, hip room so you can sit naturally, ride in complete comfort all day long.

On the outside, Dodge compact design gives you the edge in parking, in busy traffic.

Out front, a sleek new grille enhances Dodge well-bred beauty.

While in the rear, a huge new picture window allows safer vision—gives a wonderful feeling of interior spaciousness.

Drive the new Dodge. Feel the surging power of the big high-compression "Get-away" Engine—the amazing smoothness of Dodge Fluid Drive. Come in today!

Come in for a "MAGIC MILE" Demonstration Ride

Ask any Dodge dealer for a "Magic Mile" demonstration ride. Prove for yourself how much more Dodge gives for your money in sound engineering and dependability.

GYRO-MATIC

Lowest-priced automatic transmission to free you from shifting, available on Coronet models at moderate extra cost.

New Bigger Value DODGE

Just a few dollars more than the lowest-priced cars!

Texas 4-H'ers Win National Honors

SIX of Texas' state winners in 1949 received National honors for superior records of achievement in their respective 4-H award programs. Brief outlines of their records follow:

Hubert Frerich, 17, of Rowena, National 4-H Better Methods winner, saved 1/2 month's time and eliminated carrying 10,950 gallons of water by installing a hog waterer for his hog project, which also resulted in greater profits. Hubert's \$300 college scholarship was provided by Westinghouse Educational Foundation.

E. P. Wicker, Jr., 19, of Wilson, National 4-H Dairy Production winner, developed a herd of 18 registered Jersey cattle during his seven years in 4-H Club work. He has also done an excellent job with his meat animal and field crops programs. Young Wicker's \$300 college scholarship award was provided by Kraft Foods Company.

Lee Wolf, 19, of Gainesville, was National 4-H winner in the Tractor Maintenance program. Lee served ably on the committee making plans for a county-wide tractor clinic. His \$300 college scholarship award was provided by Stanolind Oil and Gas Co.

Bonnie Gallagher, 18, of Clarkwood, National 4-H Meat Animal winner, completed 68 projects during his 10 years in 4-H. He handled 119 baby heaves, 116 breeding cattle and 21 swine. His income from the sale of beef during this period was nearly \$21,000. Bonnie's award

These programs are conducted under the direction of the Cooperative Extension Service.

Weekly Health LETTER

Issued by Dr. Geo. W. Cox, M. D., State Health Officer of Texas

AUSTIN—Diabetes is among the first ten reported causes of death in Texas. There are many people receiving treatment for this disease. Probably there are hundreds of undiscovered cases in the State, says Dr. Geo. W. Cox, State Health Officer.

Early recognition of diabetes pays. In the experience of doctors, those discovered early before they had complications lived three times as long as those discovered after some blighting affection drove them to a doctor. If you are a relative of a diabetic, or if you are approaching the fair, fat, and forty era of life, go to a doctor before you get sick and find out if you have diabetes. If you have it, control the disease in season and out of season. It pays.

Don't be caught napping. Find out if you have diabetes! If you do have it, make it an asset! Prove that you can live longer with it than without it. Then you will be helping not yourself alone but also other diabetics.

What is diabetes? When a person has diabetes, his body has lost some of its ability to turn the sugar in food into heat and energy. The sugar which should be used by the body goes into the blood stream until there is so much sugar in the blood that the sugar overflows into

must absorb in prices paid to purchase feed and food.

The result of these differential movements is in prices received by farmers versus prices paid for goods used in farm family living and production are easily understandable. First, the net income of farm operators is declining more than farm prices, despite high level production, and second, support prices and other farm program devices are becoming increasingly important.

Some simple statistics may illuminate these items: The net realied income of farm operators for this calendar year is now estimated as not much over 14 billion dollars as compared with 18 billion dollars in 1947, the record year, and there are some indications that farm operators' net realized income may be as low as 12 billion next year, or down one-third from 1947.

is not used, various bodily organs such as liver, heart, kidneys and eyes do not get good nurishment. The person whoes diabetes is not treated may get cataracts and other eye disease, kidney trouble, hardening of the arteries, or gaangreen. Be sure to consult your family physician.

No overtime pay for Mother!

THERE's no 8-hour, 5-day week for Mother, no vacation, holidays, or overtime pay, because running a family is a full-time job.

That's why Reddy Kilowatt, your electric servant, is just like another pair of hands for the homemaker. Around the clock and around the calendar, Reddy Kilowatt works hard to make life easier for Mother—healthier, more comfortable for the entire family.

Yet Reddy Kilowatt works for so little! Matter of fact, he's the only worker that gets paid less for overtime. That may sound strange, but it's true. The more you use Reddy Kilowatt, the less it costs for each additional task he does for you.

If yours is an average American family, Reddy's wages cost you less than one per cent of your family budget. What else gives you so much real living—for so little cost?

FARM NEWS PROGRAM
From the County PMA Committee

WHAT COST WITH NO FARM PROGRESS?

Often overlooked when the cost of agricultural price support programs are considered is the cost of no support program at all, says J. C. McGee, chairman of the Knox County PMA Committee.

In the face of full bins and cribs and warehouses, what would happen to the wheat and cotton if there were no price supports? What would happen to farm land prices? What would happen to the whole economy?

McGee thinks that these are questions which should be considered by everyone seriously concerned with farm price supports. He quoted, Paul S. Mills, President, Grocery Manufacturers of America, Inc., on this subject:

"When people weigh the costs of the disaster which might come from having the bottom fall out of farm prices against the costs of continuing farm price supports I believe they will agree that their continuation is in the public interest. At the present time, farm price supports provide stopping places so that any downward trend in farm prices will be gradual.

"The people who want farm price supports eliminated entirely should remember that these supports were used to speed up farm production to meet all war and postwar needs. Now that record-breaking crops, produced at the urgency of the government, appear greater than necessary to supply the present demand, it would be both unfortunate and uneconomical to pull the props of price support out from under the farmer's markets."

Under current programs, chairman McGee explains, farm price supports are below parity. This means below an even break with the rest of the people of the country.

Parity means that what a farmer has to sell is in an equitable balance with what he has to buy. Ninety percent of parity is 10 percent below this balance.

McGee points out, too, that in most cases, what the farmer gets is only a part of what the consumer has to pay. In many instances, this means that if the farmer were to give away his product there still would be only a small reduction in price to the consumer.

FARMERS AND 1950

What can farmers expect in 1950?

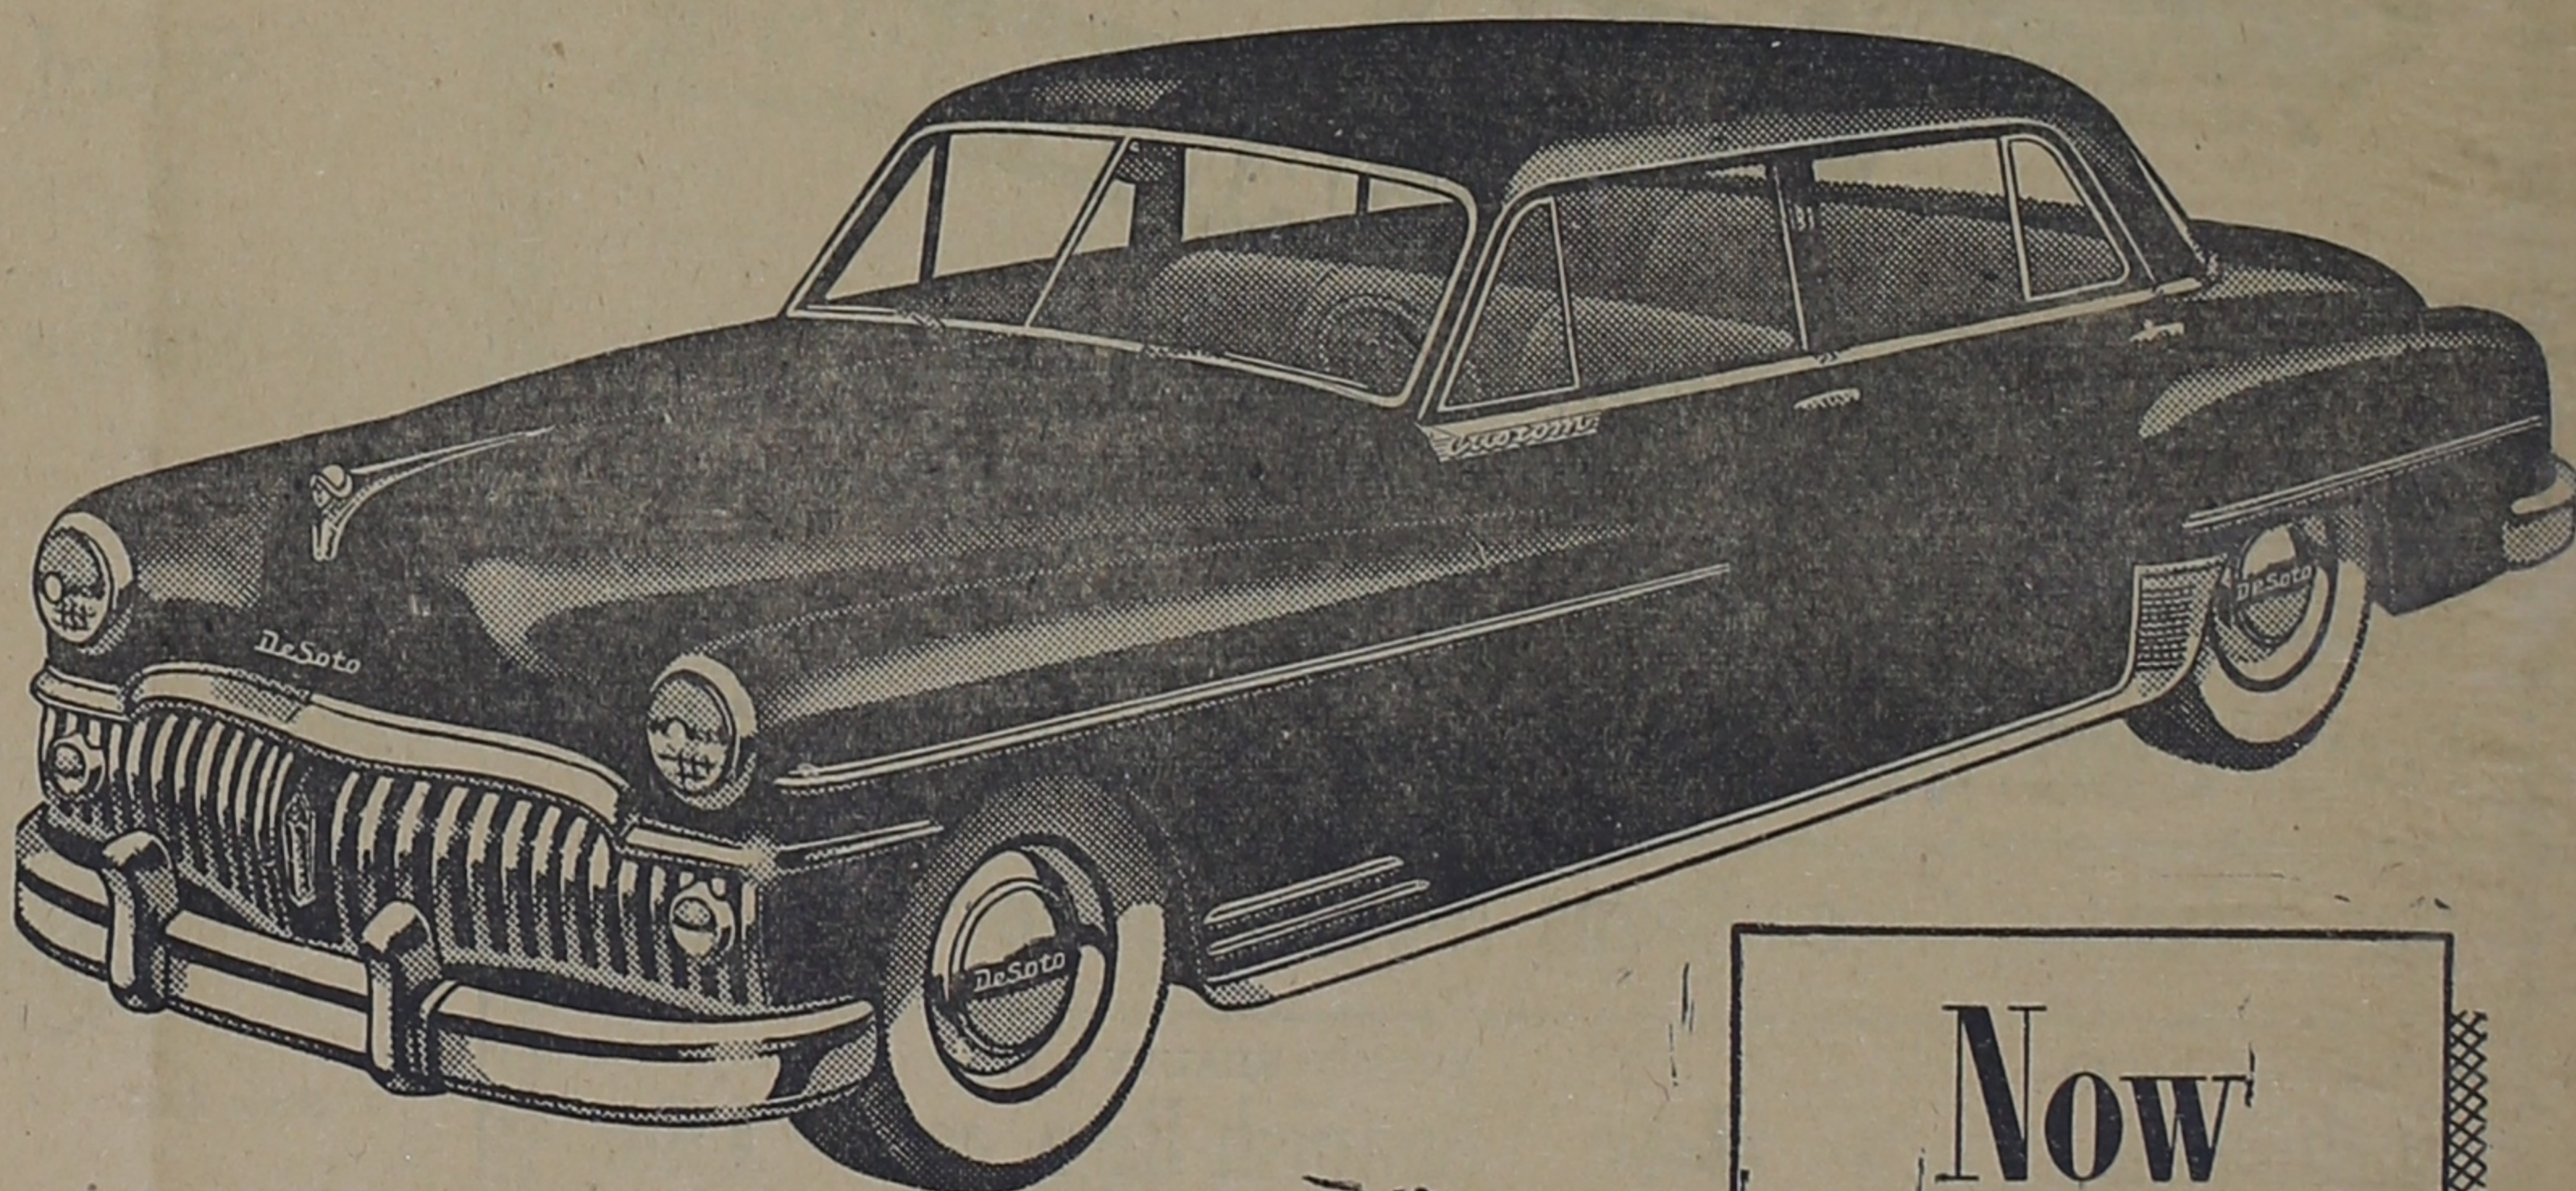

In answer to that question, B. F. Vance, Chairman of the Texas State Production and Marketing Administration Committee, brought back from the National PMA Conference held at Memphis, Tenn. last month, the following analysis presented by O. V. Wells, Chief, Bureau of Agricultural Economics.

"Farm production is holding at a high level. Food production for sale or home use is again 35 percent above the pre-war, or

1935-39 level this year and, with average yields, the over-all volume is not likely to be much different in 1950. Wheat production was 50 percent over the pre-war level.

"Farm prices and incomes are drifting downward. Farm prices so far this fall have been running about 12 per cent under a year ago and 22 percent under the peak record in January 1948. Prices paid are another story, running only about 3 percent under a year ago, about 4 percent under January 1948. Let's say it another way. Prices received by the farmers have been declining at about 4 times as fast as prices paid with most of the decline in prices paid or in farm costs tracing back through declines which farmers themselves

Announcing the **NEW DESOTO**

Now on display

HERE's the best-looking new car of them all! It's the new De Soto, designed to give you more room, more comfort, more visibility, more safety and more lasting satisfaction than any car you ever owned. Here's the car designed with YOU in mind.

It's brand-new from handsome new front grille to tail-lights. And it's waiting for you to come and ride in it.

It lets you drive without shifting. It has a terrific high-compression engine, bigger-than-ever brakes, weatherproof ignition, feather-light steering. Yet it is excitingly easy to buy and amazingly economical to operate.

No matter which make of car you thought you might buy this year, "Drive a De Soto before you decide." Let us arrange a demonstration.

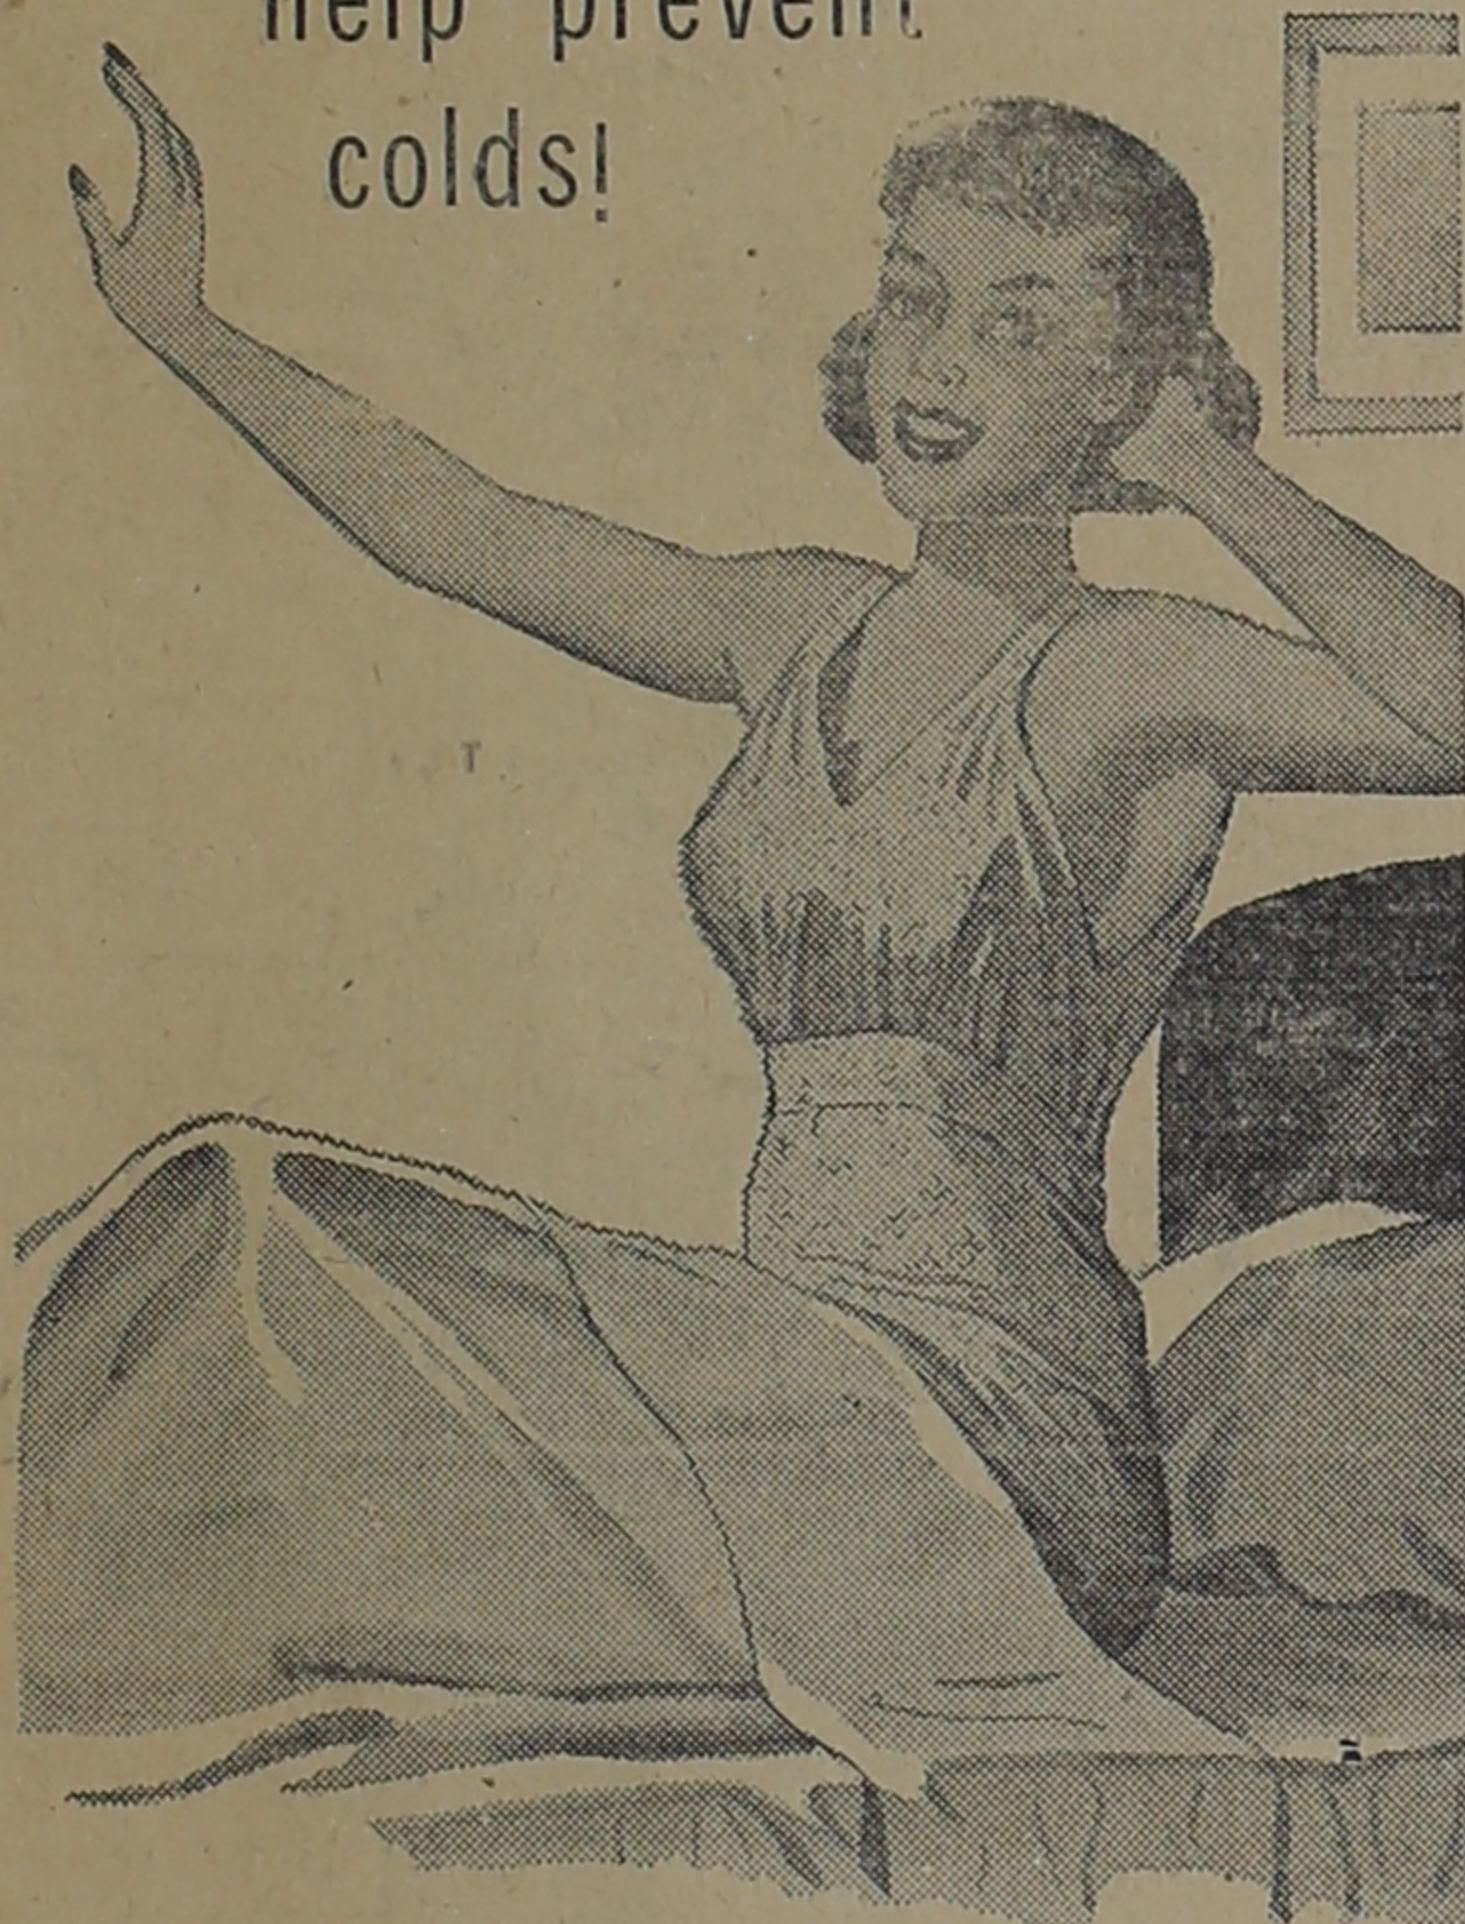

Tune in the GROUCHO MARX SHOW, "You Bet Your Life." Every Wednesday night over all CBS stations

Sleep better, help prevent colds!

... with noticeably fresh warm air from Flue-Vented gas heating appliances

EVERYONE starts the day rested and refreshed in a home cozy with fresh circulated heat supplied by automatic flue-vented gas heating appliances.

At bedtime, you simply set the temperature control at a fuel-saving, comfortable sleeping level. Products of combustion are carried off through a vent to the out-of-doors. The air is noticeably fresher. Wall and window sweating is eliminated.

Moreover, there's no early morning chill, no sudden change in temperature, which authorities say, make you susceptible to taking cold.

Closet-type central furnaces, floor furnaces, gas-steam radiators, wall furnaces, and vented circulators are a few of the modern flue-vented gas heating appliances that will give you this automatic, healthful heating.

Investigate the various types of flue-vented gas heating equipment for the health protection of your family, today.

Miss Irene Vaughn Becomes Bride Of Stanley Shelton

Miss Irene Vaughn, daughter of Mr. and Mrs. Ed Vaughn of Gooee, Texas, became the bride of Stanley Shelton, son of Mr. and Mrs. Shelton of Saltillo, Texas, at 6:00 P. M., Thursday, December 22 at the home of the bride, with Rev. Allgood officiating the double ring ceremony.

The bride wore a grey suit with navy blue accessories and a corsage of lovely pink carnations. Her only ornament was a string of pearls.

For the traditional something borrowed, the bride carried a white Bible with gold picture of Christ and his sheep on the front. Under the front cover, was a beautiful white handkerchief.

A reception was held immediately following the wedding in the home of Mr. and Mrs. Ed Vaughn.

For her going away apparel, the bride wore a light blue taffeta dress with grey accessories.

After a short honeymoon, Mr. and Mrs. Shelton returned to Gooee, where they will make their home for a while.

Out of town guests were Mrs. Shelton and daughter, Saltillo, Texas, the groom's sister and husband, Houston, Texas, Mr. and Mrs. B. L. Vaughn and children, Abilene and Pvt. Wayland Chandler, San Antonio.

Visitors in the home of Mrs. J. B. Bowden during the holidays were: Mr. and Mrs. M. L. Joyce, and son, Joe, of Albany, Mr. and Mrs. Lloyd Bowden and sons, Jimmie and Ronnie, of McCamey, and Mr. and Mrs. Dwaine Russell of Wichita Falls.

CARD OF THANKS

We take this method of showing our love and appreciation to our neighbors and friends for the good deeds and kindness shown our dear wife and mother in her eleven years of confining illness. Also we want to thank the good doctors and nurses at the Knox County Hospital for the wonderful care and treatment given her while confined at different times in their institution.

We especially want to express our appreciation to Dr. Eiland for his diligent care and treatment of her at all times, day or night, during her illness. We feel that he saved her for us for several years.

Also, we want to thank friends for floral offerings, food at the home, and for the funeral services so ably handled by Bro. Price and Bro. Reader of Knox City and Bro. Digby of Benjamin. We hope that we deserve the kindness shown us in this time of sadness, and may God bless you all, is our prayer.

Chas. Moorhouse and family.
Itp

Wesleyan Service Guild Meets With Mrs. Joe B. King

Mrs. Joe Bailey King was hostess to the Wesleyan Service Guild when it met in her home Monday night, January 9th. Co-hostess was Mrs. Bill Gaither.

At this meeting the group started a series of Bible lessons led by Rev. R. L. Butler. The title of this series is "Women of Scripture" by Arthur Bruce Moss. This course is very interesting and educational and is being enjoyed immensely by the Guild.

Mrs. C. P. Baker had charge of the devotional and several songs were sung by all present. The prayer was led by Mrs. O. H. Spann.

Refreshments were served to sixteen members and the hostesses. Those present were: Miss Ruth Baker, Mrs. O. H. Spann, Mrs. Charley Harpham, Mrs. Jimmie Harpham, Mrs. L. L. Womble, Mrs. H. R. Hicks, Mrs. C. P. Baker, Rev. and Mrs. Butler, Mrs. Earl Ponder, Mrs. I. V. Cook, Mrs. Joel Massey, Mrs. Robert Green, Mrs. Levi Bowden, Mrs. A. H. Mitchell, Mrs. Weldon Smith, Mrs. Joe Bailey King and Mrs. Bill Gaither.

Be careful. Observe state and local traffic laws.

Baptist W. M. S. Meets On Monday With Mrs. Bowden

Twelve members of the Woman's Missionary Society of the First Baptist Church met Monday at 3 p. m. in the home of Mrs. John Bowden in Circle program. Mrs. Bill Morris was hostess.

The opening session featured group singing, "The Light of the World Is Jesus". Opening prayer was given and Mrs. Don Reynolds directed a brief business meeting, hearing reports from members of circles. Announcement was made that the next meeting will be January 16th in the home of Mrs. Andy Hutchinson.

Members were dismissed with prayer. Certified planting seed are cheapest in the long run. They have been inspected during the growing season and have been tested for purity and germination. Many noxious weeds are introduced on the farm by planting uncleaned seed.

Coffee grounds make a good sweeping compound for the cement basement floor.

It Pays To Advertise

Polio Poster Children Form March of Dimes Honor Guard

1950 drive, following nation's worst epidemic, will be led by Wanda Wiley, escorted by poster children of past four years.

1946: Donald Anderson, Ore.

1947: Nancy Drury, Ky.

1948: Terry Tullios, Miss.

1949: Linda Brown, Texas

1950: Wanda Wiley, Texas

MARCH OF DIMES poster children whose plight and progress depict the fight against polio will tour seven cities in the 1950 drive, January 16-31. They will make a concerted appeal for greater contributions to provide effective continuation of patient care, research, and educational programs sponsored since 1938 by the National Foundation for Infantile Paralysis.

VISIONS OF SUGAR PLUMS!

A stockingful of goodies from Santa's pack! No wonder there is such a big smile on the face of this little miss while visions of sugar plums dance through her head. She is all dressed up on Christmas morning in one of her favorite gifts, a colorful striped, ruffled nightie made of cotton bag material. Her best-loved gift, a cuddly doll made from cotton feed sack fabric, has been put aside for the moment so she can give her full attention to the camera.

items.

The new gas refrigerators were designed by Walter Teague, nationally prominent industrial designer. Mr. Teague and his staff gave particular attention to the new long life design of the refrigerator, both inside and out. First, the exterior follows classic lines that will be attractive through the years as it is today. The second feature is a quick-change interior to manage any food storage requirement.

The gas refrigerator provides silent operation of the freezing compartment and it gives homemakers a chance to take the problem out of refrigerator food storage and minimize the loss of shelf area.

Other features include a cut-out area in the first shelf to allow for the tops of extra tall beverage bottles stored on one side of the shelves below. This is a partial shelf that swings down when additional tall storage space is needed for quarts of milk, baby's formula and other tall containers.

A frozen food storage compartment is placed horizontally across the top of a room interior. Two glass-covered food fresheners provide moist cold for storing fresh foods and vegetables. A tray under the frozen food compartment is provided for fresh meat storage.

Sheriff Homer T. Melton of Benjamin was here the first of this week, attending to official business.

Walter Snody of Benjamin was here Wednesday, visiting with friends and attending to business matters.

New Refrigerator Will Go Display On January 20th

First public showing of the new 1950 Servel gas refrigerator models—featuring drastic price reductions and advancements in styling, convenience and performance—will be held Friday, January 20, on sales floors of gas refrigerator dealers and the Lone

Star Gas Company in this territory, according to gas company representatives.

The new Servel discards the long accepted practice of fitting the food into the space, the representatives point out. The refrigerator is designed to make the space fit the food—with only a minimum of changes that can be made quickly without rearranging the entire interior and playing checkers with the food

Former Munday Boy Is Married On January 3rd

Miss Joan Revord, daughter of Mr. and Mrs. R. N. Revord, became the bride of Billy Wayne Lain, son of Mr. and Mrs. W. C. Lain of Fort Worth. They were married in a single ring ceremony at the home of the bride's mother, January 3rd, in Tulsa, Oklahoma.

The couple will make their home in Fort Worth where the groom is now employed.

Goree P.-T. A. Meets Tuesday Afternoon

The Goree Parent-Teacher Association met Tuesday, January 10th, at 3:15 p. m. in the Goree High School auditorium with a large attendance.

Mrs. W. M. Taylor presented the 6th grade pupils in a mock wedding, richly dressed in satin and velvet costumes depicting the latest styles of the gay twenties with hats, jewelry and high topped shoes to match.

Much attention was attracted by the bride, Junior Edwards, and bridesmaids, Charles Gaither and Buddy Mayo, who were very graceful in sheer white formal with high heels. Musical numbers were in keeping with those popular in the "gay twenties."

After the program, a short business session was led by Mrs. Leslie Treat, president.

A large number of relatives and friends attended the funeral of John M. Edwards, Sr. in Seymour, Thursday, January 5th. Mr. Edwards passed away in the Seymour Hospital January 4th.

E. L. Jones of San Angelo visited his sister, Mrs. Doris Rogers and family last week. His mother, Mrs. E. L. Jones, Sh., who had been visiting in Goree for some time, returned to San Angelo with him.

Mr. and Mrs. Orb Ciffman were in Dallas on business the past week. They also made a trip to the plains Sunday.

Mr. and Mrs. Beverly King, Jr. of Graham visited her parents, Mr. and Mrs. Ira Stalcup, last week.

S. W. Reeves, who has been in the home of his daughter, Mrs. S. E. Stevenson, for several weeks, has returned to Munday. Mr. and Mrs. George Weber

and Mr. and Mrs. Douglas Smith visited their brother, Leslie Polson, in Fort Worth Sunday. Leslie has returned home from a hospital where he has been critically ill.

Mr. and Mrs. V. L. Cade of Lubbock visited with Mrs. Cade's brother, Sam Hampton and family, awhile last Friday. They came down to attend the funeral of an aunt, Mrs. Eula Roberts, of Munday.

Billie Joe Roberts, son of Mr. and Mrs. Cannon Roberts, left Sunday for Wyoming where he is stationed with the Air Corps.

Mr. and Mrs. Hubert Blankinship went to Dallas last Wednesday where Mrs. Blankinship is receiving medical treatment.

Mr. and Mrs. Leroy Brooks and daughters were Wichita Falls visitors Friday.

Mrs. Bess Hollett of San Antonio visited in the homes of her cousins, Mr. and Mrs. Cannon Roberts, Mr. and Mrs. Woodrow Roberts and Mr. and Mrs. Sam Hampton this week.

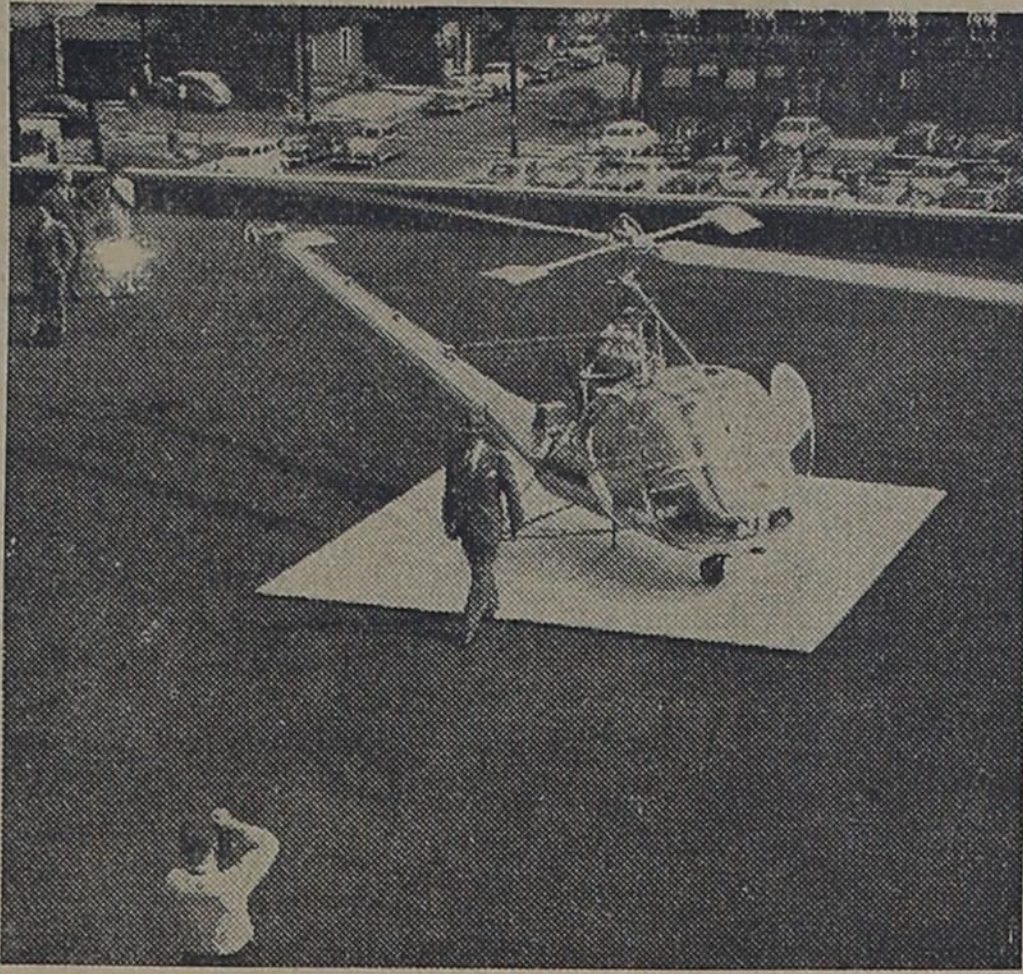

Ross Madole, formerly of Dallas but recently moved to Littlefield, passed through Goree enroute to Dallas Saturday and visited with Dr. and Mrs. W. M. Taylor a short while.

Buster Chamberlain and Sam Hampton attended a postal employees meeting in Sagerton Tuesday evening.

Mr. and Mrs. George Hunt spent Sunday in Coleman visiting friends.

Mr. and Mrs. Norris Price of Dallas spent the week end with their parents, Mr. and Mrs. Walter Price.

SIXTEEN-FOOT LANDING FIELD

Landing on a 16-foot square section of plywood, atop the main office of The Timken Roller Bearing Company's Canton, O., plant, climaxed a demonstration flight by a United Helicopter, Inc. craft recently.

William E. Umstadd, Timken president, is shown walking away from the Timken Bearing equipped helicopter after flying in from the Canton-Akron airport.

The demonstration was planned to prove the feasibility of flying home, not just to an airport some miles away. With the power of vertical ascent and descent and needing only the small landing space pictured, the helicopter has brought air travel right to the door of most any downtown office building.

time on chicken or turkey meat but there are provisions for support in the legislation now in force and they may come later. Despite the lower prices for eggs and meat, he believes the poultry industry, in 1950, will again produce a gross income of near \$3 billion and that, adds Parnell, makes the poultry industry one of the largest in the entire agricultural field.

Benzene hexachloride, BHC, used as a root paint is highly effective for controlling the chicken louse. Use a suspension containing 1 percent of the gamma isomer of BHC. It kills as a fumigant and is effective for about 48 hours after it is applied.

Make every day in 1950 a safe day on your farm.

GOREE CHURCH SPONSORS PROGRAM NEXT SUNDAY

The following program will be given at the Goree Methodist Church next Sunday evening beginning at 6:30 o'clock:

Eats served by the young adult class; sextette and group singing; bible study and meditation; open discussion of the business proposition must come before the whole church.

This is an urgent call to every member to attend.

Rev. S. Y. Allgood, pastor.

It has been scientifically proven through extensive research conducted by the medical school of a distinguished university that you'll "do better" if you eat an adequate breakfast.

The enemies of the natural resilience of the wool fiber are extremes of heat and cold, wringing or rubbing when the fabric is wet, and soaps which contain alkali.

USED Farmall Tractors for Sale!

We have at the present time several used Model M Farmall tractors for sale. These are in excellent running condition.

These tractors may be purchased with or without new or used 2-row and 4-row equipment. See these before you buy.

Munday Truck & Tractor CO.

The FARMALL House

So this is HOUSEKEEPING

If there's anything more determined than a woman trying to get a word in edgewise, it's a man trying to get there first. My sister and I were fighting hard, but my spouse and brother-in-law were in the lead. The big discussion revolved around the dream house our relatives were going to build. Jean clamored loudly for getting floor plans settled. But the male contingent was busy with a man-to-man debate on materials.

"Of course I realize," Jean told me with heavy sarcasm, "that copper tube is more important than where the kitchen sink goes!"

"You might think so in a few years when it saves you from having to cook, clean, and wash with rusty water," brother-in-law Bill stated.

"But the floor plans..." wailed Jean.

"Look," said Bill, "a home is only as good as its essential accessories. You've got to make up your mind about things like water line tubing and outdoor hardware. You want radiant heating... what kind of coils? What about gutters and down spouts and chimney flashings?"

"Don't think you're so smart," put in Jean. "I know that flashings are the things around chimneys that prevent rain from leaking in. But what difference does it make if you haven't got a room under the chimney?"

"What good is a room if the roof caves in?" yelled Bill.

"With his two cents came Jeff, my ever-loving. "Bill, you know your mind is made up. You're set on copper, brass, and bronze for everything from flashings and heating coils to hardware and window screens because they're rustproof and withstand corrosion. You just can't get a better long-time value for your money. Now let's go get a cigar and let these females decide the details."

As they rounded out the door Jean got a satanic look in her eye and grabbed a pencil.

"Details," she yelled, "details! I'll fix him. These are the final floor plans. Bill's study goes next to the coal bin. The living room will be on the third floor. We'll have the back porch in front..."

And edgewise or not, the female of the species got in the last word!

Postal Employees Meet At Sagerton On January 10th

The January meeting of the Brazos Valley Postal Employees Association was held at Sagerton on Tuesday night, January 10. Election of officers, collection of dues and selection of the next meeting place were taken up in order. Knox City was selected for the next meeting.

A round table discussion, one of the principal features, was devoted to air mail, dispatch, registered mail and general post office duties.

Since membership in the association is open to postmasters, assistants, clerks, rural and city carriers, and to substitute employees, it is believed that improvement of service will result from the bringing together of these people for the open discussion of postal problems and the treatment of mail matter in post offices, on rural, city and star routes.

At the conclusion, coffee and cake were served to Harold R. Spain, Haskell; Grady W. Baldwin, Stamford; Carl J. Opitz, Weinert; C. R. Chamberlain and S. G. Hampton, Goree; Mr. and Mrs. Claude F. Norman, Rule; Mr. and Mrs. Jeff Graham, Knox City; Earl B. Britton, A. N. Newell and B. W. Feris, Stamford; and the hostesses, Mrs. John L. Guinn and Miss Beulah M. Summers, Sagerton.

1950 OUTLOOK FOR POULTRY

Recent changes in the poultry support price program have somewhat confused the outlook for poultry in 1950, says E. D. Parnell, professor of poultry husbandry of Texas A. and M. College. Egg prices last year were supported at 90 percent of parity and the 1950 support program price will be based on 75 per cent of parity. Parnell says this means a reduction in support prices of about 80 cents per dozen.

He points out that the reduction was not unexpected and had actually been recommended by some groups to bring supplies more nearly in line with demands. Prices on most major poultry markets dropped considerably and January egg prices are the lowest for several years. Since eggs are the major source of income to the poultry industry, it is easy to understand how the recent change in prices has disturbed by the poultrman.

Parnell also sees a brighter side. He believes the better quality feed and the improvements brought about through poultry breeding and selection programs will increase the egg production per hen and this in turn will cut production costs. The number of shell eggs in storage is not excessive and storage supplies should not be a serious problem so far as egg prices are concerned.

The price situation as it concerns poultry meat is some different, says Parnell. In the first place, there is no support program in effect at the present

Texans Refuse To Lean On Uncle Sam

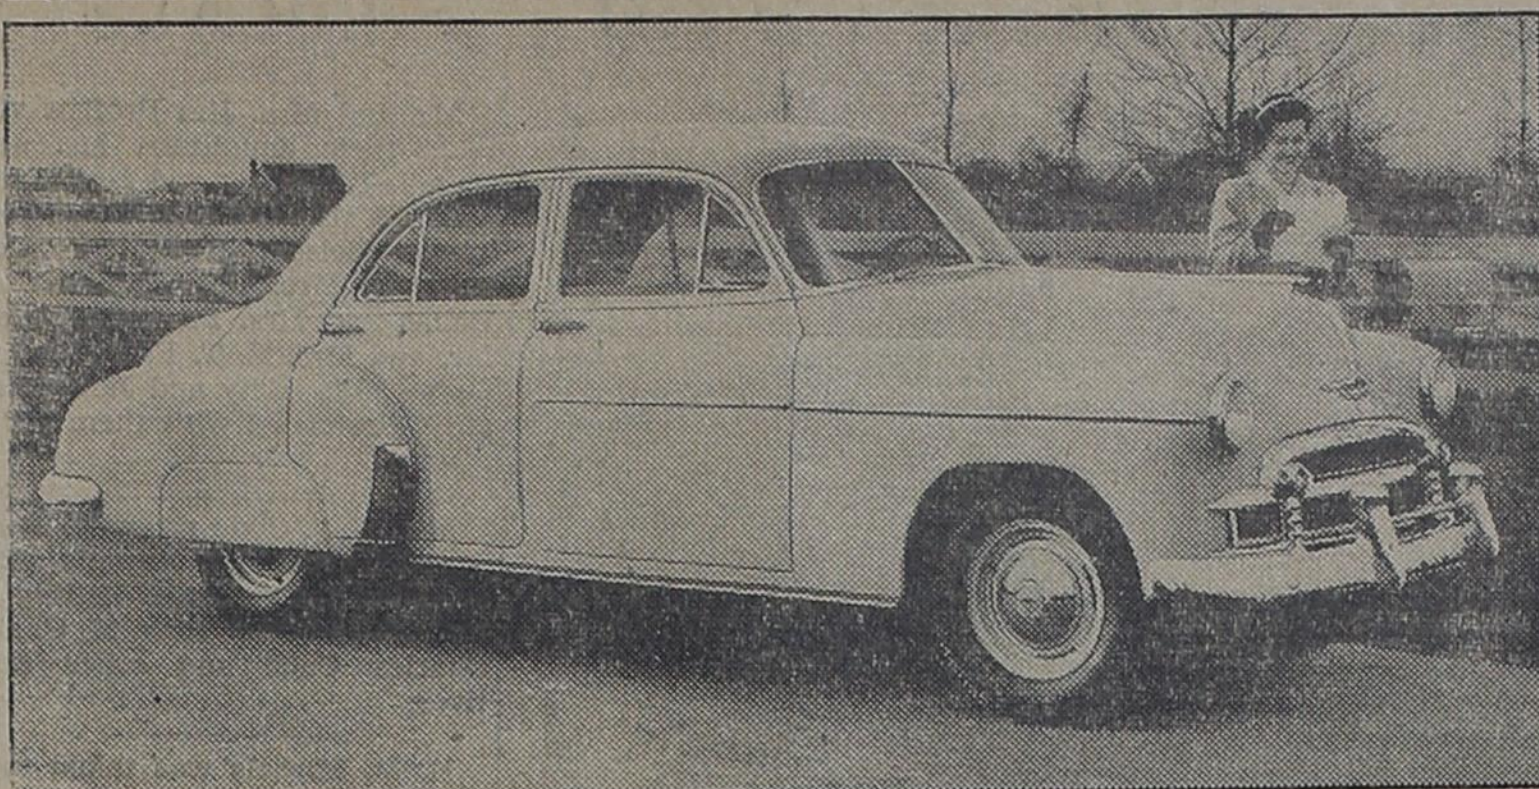

FROM COUNTRY GENTLEMAN, JAN. 1950

The 36 Production Credit Associations in Texas are doing something that deserves the thoughtful attention of the whole country. They are paying off the last dollar of the capital advanced by the Federal Government to enable them to become established.

In a time when large numbers of people are seeking dependence on the Government, it is excep-

tional to find a group that is voluntarily giving it up. The action is all the more impressive when these facts are considered: The use of this Government capital was free and no time limit was set for its return. In paying it all off, the associations automatically became subject to Federal income and other taxes, from which Congress had exempted them so long as they retained any

One of Two Sedans in 1950 Chevrolet Line

The Styleline, one of two individually designed sedans which have achieved immense popularity with Chevrolet owners, will have new beauty in 1950. Improved grille work, sturdier bumper guards and more tasteful ornamentation are some of the exterior improvements. New Chevrolets also offer increased power and comfort with the Powerglide automatic transmission as optional equipment on De Luxe models.

Government Capital.

When Congress set up the production credit system in 1933 and appropriated \$120,000,000 to get it started, it aimed to assure the permanency of the associations and also to permit the gradual return of Government capital. The PCA's were made co-operatives, with each borrower buying stock in proportion to his loan. Eventually, it was intended, the farmers and stockmen were to own these associations completely through the purchase of capital and the accumulation of earnings into surplus reserves. The responsibility for achieving these ends was put upon the farmer-stockholders. They were to operate and control the associations performing the tasks of making repayable loans and building up strong, self-supporting institutions, through boards of directors chosen from among themselves.

The farmers and stockmen, who directed the affairs of the Texas PCA's took these provisions literally. During the 16-year period they made loans totaling \$844,434,623. Losses plus the reserves set up to take care of such contingencies amounted to less than 5 cents on each \$10 loaned. They also kept in mind the other half of the arrangement. By last July 1 all but \$105,000 of the \$7,835,000 government capital once advanced to them had been returned. The last of it is being paid off right after January 1.

It took some hard effort and personal sacrifice by the PCA stockholders to attain this financial independence. To increase earnings they agreed to higher interest rates and service fees on their loans and they dug down into their pockets and bought more stock than was required of them. But they met the challenge, and they begin their self-owned status with around \$15,000,000 capital and reserves. This is a sum equal to 25 percent of their highest volume of loans, a

Texas Sends 25 Car Loads Food Thru C. R. O. P.

TAYLOR—State CROP headquarters announced here today that 67 Texas counties have sent in or reported their contributions

to the Christian Rural Overseas Program (CROP).

It is expected that an additional 13 will do so during the month of January. More than 25 carloads of commodities of food and fiber have been donated to-date. Counties from which contributions have been received or reported to be on hand include: Anderson, Angelina, Austin, Bastrop, Bexar, Blanco, Bosque, Brazos, Brooks, Burleson, Caldwell, Carson, Collins, Colorado, Comal, Coryell, Dallam, Dallas, Denton, DeWitt, Dickens, Eastland, Ellis, Falls, Fayette, Fort Bend, Gillespie, Gonzales, Grayson, Gregg, Guadalupe, Harris, Hartley, Hemphill, Hidalgo, Hill, Jackson, Jim Wells, Karnes, Kleberg, Lamb, Lavaca, Lee, Live Oak, Lynn, Mason, McLennan, Milam, Nueces, Ochiltree, Red River, Refugio, Runnels.

San Patricio, Tarrant, Travis, Uvalde, Van Zandt, Waller, Washington, Wichita, Wilbarger, Williamson, Wilson, and Young. Designated by the donors to re-

ratio which they seek to maintain.

The Texans are the first of the twelve Production Credit districts to become wholly farmer-owned. By this action they have erased the charge, often made, that these farm credit agencies are subsidized competition. Their reasons, as well as what they have done, are worth noting by the rest of the country. They felt they should carry out their end of the bargain made by Congress. And they liked to be independent. That attitude should bring a lift to the hearts of a lot of Americans.

CARD OF THANKS

include churches of the following denominations: American Lutheran, Evangelical and Reformed, Methodist, Catholic, Southern Baptist, Disciples of Christ, Assemblies of God, Presbyterian, 7 Day Adventists, Augustana Evangelical Lutheran, Czech-Moravian Brethren, Episcopal, Church of the Brethren and Missouri Synod Lutheran.

With hearts full of gratitude, we take this means of expressing our sincere thanks to our many friends of Munday and Goree, as well as all others, for the many kindnesses shown us in our recent sorrow in the death of our dear mother and grandmother, as well as those who ministered to her needs during her illness.

TO WICHITA HOSPITAL

Frank Lowrance, well known Munday man, was taken by Mahan ambulance to a Wichita Falls hospital last Sunday for medical treatment.

Your deeds of kindness, words of comfort and the lovely flowers were deeply appreciated. Our prayer is that God will richly bless you all and give you such loyal friends when sorrow comes your way.

The Children and Grandchildren of Mrs. Eula Roberts.

Washington News Letter

By Congressman Ed Gossett

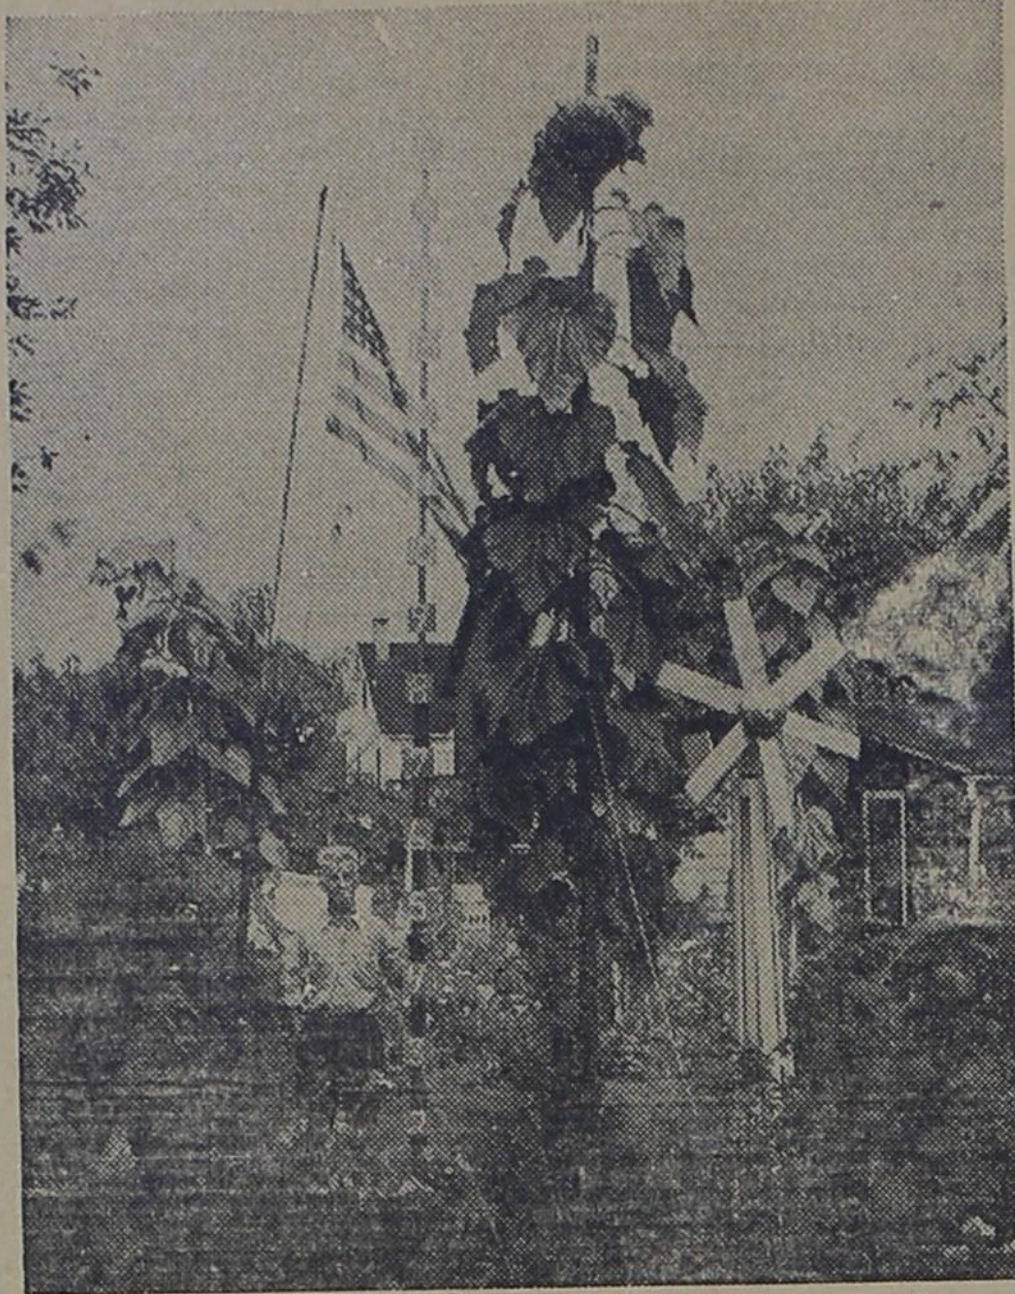

WASHINGTON, D. C., January 7, 1950.—This is our first newsletter written in the new year and in the new session of Congress.

The Washington Post on January 1 gave the names and addresses of the first two infants born in this city on New Year's day. I was amused to note that both of them were colored. Incidentally, about 1/3 of the population of the city of Washington is colored.

The first of several lobbyists to call on me this session was a representative of the Washington Citizens Association, urging me to support a bill for local self-government within the District of Columbia. At this time, our federal city is governed by Congress. Its executive officials are four commissioners who are appointed by the President and confirmed by the Senate. In both House and Senate are Committees on the District of Columbia. The Chairmen of these Committees are usually referred to as Mayors of the City of Washington. The Citizens League in Washington wants to elect the Mayor and City Councilmen and to acquire a large measure of local self-government. One of their arguments is that such a step would relieve Congress of considerable legislative detail. The Washington Board of Trade, which corresponds to a Chamber of Commerce, is opposed to the local self-government bill. They believe that municipal politics incident to Home Rule would give them worse government and a more expensive city government than they now enjoy.

Between Christmas and New Year's I spent three days in the city of New Orleans in conference with State officials of Louisiana, California, and Texas, working on our campaign for clearing up the States' title to the tidelands. My Committee in the House handles this legislation and we will devote much time during the next few weeks in perfecting a bill which we hope to pass through the House. We fear, however, that any bill passed will get caught in the log

SUNFLOWER KING GOES 17 FEET

A 17-foot giant sunflower is the prize winning result of a competitive home garden project launched last Spring by employees in the Canton Division of The Timken Roller Bearing Company. Thirty-two families entered the contest and were given identical packets of seeds with instructions to plant the seeds and sit tight.

This Fall when the claims were all in the committee named Clarence Hammen as official winner with a sunflower that reached skyward to the height of 17 feet, had a base diameter of three inches and flowers of 12-inch diameter. In the same garden were dwarfs of 12 and 13 feet.

The champion had this to say about the project, "This was a new experience for the family. Next year, my wife and four sons will join me in producing some really big ones. Utility poles, sky hooks and pulleys will enable us to make Jack and his beanstalk a real fairy tale."

jam which is almost sure to occur in the Senate toward the end of this session of Congress. It is my reluctant and pessimistic prediction that the tidelands battle will go on in the Courts and Congress for several years. It is my hope that we will eventually prevail in our righteous fight to retain what we thought we had owned for the last 150 years.

Yesterday was the 68th birthday of our distinguished Speaker of the House, the Honorable Sam Rayburn of Texas. Mr. Rayburn has served the Congress since March 4, 1913. Although 68 years of age, one would take Mr. Rayburn to be a man in his early fifties. His health and vigor belie his age. At the end of

this session of the Congress, he will have served longer as Speaker of the House than any other person in the history of Congress. Henry Clay is the only Speaker in history who was elected to that exalted post on the first day he served as Representative in the Congress. Perhaps only the President of the United States has a more important official post or exerts more influence in Government than does the Speaker of the House.

The American Church of Christ has recently suffered a rebuff in the threat of the Italian government to close an orphanage maintained by this church in Frascati, Italy. In the promotion of Christian charity, the Church of

LOCALS

Mr. and Mrs. Jim Proffitt visited their daughters, Mr. and Mrs. J. T. Barnett and family and Mr. and Mrs. Bill Fuller and son, James Nelson, of Irving. Also Mr. and Mrs. Bill Callander of Dallas and Mrs. Proffitt's sister, Mr. and Mrs. R. T. Parramore of Cedar Hill. Billy and Janice Callander returned with them for a visit.

Mrs. E. J. Cude returned home Tuesday from San Antonio after spending the holidays visiting in the homes of her sons, M. C. and Charles Cude and other relatives.

H. M. Michels was taken to a Wichita Falls hospital last Thursday for medical treatment. He is showing some improvement, according to latest reports from his bedside.

Christ has invested about \$100,000.00 in an orphanage just outside the city of Rome. In addition to the maintenance of this orphanage, the church has been distributing thousands of packages of food and clothing to the needy. It seems absurd and unreasonable that the Italians would bite the hand that feeds them, so to speak, and would deal harshly with a great American denomination. On Thursday of this week it was my privilege to go with Rev. Jimmy Wood, pastor of Crescent Hill Church of Brownfield, Texas, and with Mr. J. R. Chisholm, to discuss this matter with our State Department. Rev. Wood and Mr. Chisholm represent the Church of Christ in Texas in their efforts to clarify the status of the Frascati orphanage. I feel our State Department should be firm in this matter and should tell the Italians that a repudiation of this orphanage would be considered an unfriendly act. It seems to me that a great nation that must assume world leadership should demand respect from those to whom it has given so much. The Italians especially, should feel more grateful to our country for the generous and charitable manner in which we have dealt with them, and in which we have assisted with their rehabilitation. Our diplomats should learn to be firm, and tough where necessary, as well as courteous and polite.

TO WICHITA HOSPITAL

Henry Michaels was taken to the Wichita Clinic Hospital in Wichita Falls last Saturday after he had suffered a stroke. According to reports, Mr. Michaels is getting along nicely.

Mrs. W. W. Pusey and children of Lexington, Va., and Mrs. Robert Moore of Corpus Christi are her visiting in the home of their mother, Mrs. J. R. Smith, and with other relatives.

Clifton Swain of Hardin-Simmons University spent the past week end here visiting with home folks.

Mrs. Howard Collins of Lubbock was a visitor here the first of the week.

Mr. and Mrs. Jot Tynes and children and Mrs. Joe Frank Bowley and Butch of Big Spring spent last Friday and Saturday here visiting with relatives and attending to business matters.

Jim, Dorothy and Tommie Proffitt visited Mr. and Mrs. Odus Proffitt of Kirklind and Mr. and Mrs. W. Q. Wiginton and relatives of Wheeler.

Be careful. Obey state and local traffic rules.

Knox Prairie Philosopher Pleased To Find That New Yorkers Have Come Around To His Water-Saving Ways

Ediotr's note: The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek sounds like he has a point this week, but there's bound to be a misconstrual there somewhere. Dear editor:

Newspapers have been so full lately of stories about what's gonna happen in 1950 and how rosey things will be that it's been hard to find out what actually is happening in the first few days of the year, reminds me of the farmer who's always so busy making plans about wheat he's gonna do next month he ain't got time to do anything today and gets bogged down in Johnson grass I don't use that system, I don't plan to do much next month or this afternoon either and had just as soon be bogged down in Johnson grass as a crop requirin plowin, but I did discover a paper which a wind picked up from my neighbor's trash pile and blew over into my pasture and since it landed about in line with the direction I was walkin toward the house and I could get to it without goin out of my way over two or three feet. I went ahead and went out of my way

that much and picked it up and took in on in the house with me and read about the water shortage in New York and what they are doin to make the supply last.

Now I don't think I understand what's goin on up there, or else New Yorkers are far more backward than you'd suppose. Accordin to the story I read. New York officials have been wrackin their brains for ways to save water and finally came up with the idea of the men not shavin and the woman lettin the dishes pile up in the sink all day and washin em all at one time.

Thunderation! We been doin that out here for years. Is that what they call thinkin in New York?

If so, while up to now we ain't

J. A.

At Roxy, Tues., Wed. and Thurs.

Lucille Ball and William Holden in a scene from the picture "Miss Grant Takes Richmond."

PLENTY TO EAT IN 1950

A look at the possible food supplies for 1950 reveal that Americans are in for a good year so far as eating is concerned, says Louise Masin, extension foods and nutrition specialist of Texas A. & M. College.

Total supplies of meat and fish in 1950 are expected to be larger than in 1949. There'll be more pork, more grain-fed beef, more fish but perhaps less lamb and mutton. Turkeys should be thoroughly bkgq gg g gkqjkkk plentiful throughout the year.

There should be plenty of orange juice for the breakfast tables of the nation, she says. Florida is expected to harvest a record and much of it go into frozen

got no credit for it, I'm glad to see the thinkers have finally come around to recognizing that it ain't necessarily laziness to go without a shave, it's long-range water conservation. If more New Yorkers had followed my method, which I originated years ago, they wouldn't be in the trouble they're in now.

And as for women lettin the dishes stack up in the sink, that's been a custom in the South for years, with lots of women been even ahead of that and not even takin em off the table more'n once a day.

The South has been berated as backward long enough. We're years ahead of them Northerners.

Yours faithfully,
J. A.

FLOUR BAG GIFTS

Flour bags have been converted into gay, attractive tea towels for shower and Christmas gifts. The flour bags were salvaged from bakeries, laundered, block-printed with a variety of colorful designs, and now are appearing in department stores neatly packaged in cellophane, according to the National Cotton Council.

Plan Now For Early Chicks

Now is the time to make plans and get everything in readiness for those early chicks. Decisions must be made on how many, where will they be purchased and will they be raised for egg production or for meat purposes? C. B. Ryan of the poultry department of the Texas A. & M. College System, says buy chicks close to home if you can get them. Get them on feed and water as soon after they hatch as you can because the longer chicks are off feed and water after they hatch their chances of living and doing well decreases. Good vigorous chicks are a must for a successful brooding operation.

Ryan points out that only chicks from pullorum tested and selected flocks should be purchased. This item should be checked before you buy. If you are acquainted with your local

hatcheryman, you'll probably know the answer to this.

Good housing is another must that goes with the successful production of chicks, adds Ryan. Brooder house troubles can be held to a minimum if the chicks are given plenty of floor and equipment space.

Brooder houses should be repaired and thoroughly cleaned at least 30 days before the chicks arrive, he says. Sweep and clean the entire house and then use a lye solution for washing the house.

All equipment should be clean-

ed and disinfected. Be sure that it is all in good working order. Set up the brooder, have it regulated and going several days in advance of the chicks arrival. Good, properly working equipment, says Ryan, insures a successful brooding operation and reduces the amount of worry and the sleepless nights for the poultryman.

Ryan suggests that you visit your local extension agent's office for the latest information on growing baby chick. They will be glad to help you with your chick problems.

From where I sit... by Joe Marsh

Why Scoop No Longer Works Here

Scoop Blake paid us a friendly call at the Clarion's office last week and we were talking about when he was a reporter here.

"Remember how mad I got when I found out you were writing that election story right from your desk?" I asked him. "And how I made you get out and learn what a sheriff's job was all about?"

"I sure do, Joe," said Scoop. "I want to thank you for teaching me the 'hat-trick'—putting on my hat and finding out the facts, that is." Then we both had a good laugh because he found out so much that

darn if he didn't run and get elected sheriff himself!

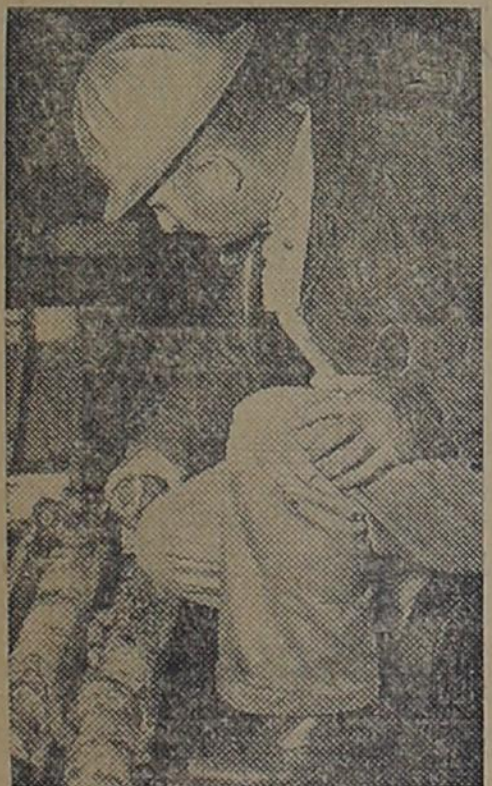

From where I sit, we should find out the facts before we try to talk about anything. When we do, we're inclined to be more tolerant... we're apt to understand a little more about the other fellow's preference for, say, his political candidate or for a temperate glass of beer now and then. I say, if you don't want to get tripped up, don't leap to conclusions!

Joe Marsh

Never-ending preparations protect your gas service

THESE pictures record the reasons you face winter without fear. They show a few of the never-ending preparations necessary for you to enjoy dependable gas service. So vital are these preparations that neither time, money, nor manpower is spared for them.

ON FLOOR OF RIG at right, Lone Star geologist saves "core" of well being drilled. "Core" reveals information vital to proper completion and operation of well.

ROUND-THE-CLOCK drilling operations on this well were in their eighth week when this picture was taken. Months of painstaking work preceded the drilling. It has taken years of exploratory activity to obtain 1,140 wells (in over 100 gas-producing fields) that now supply you natural gas.

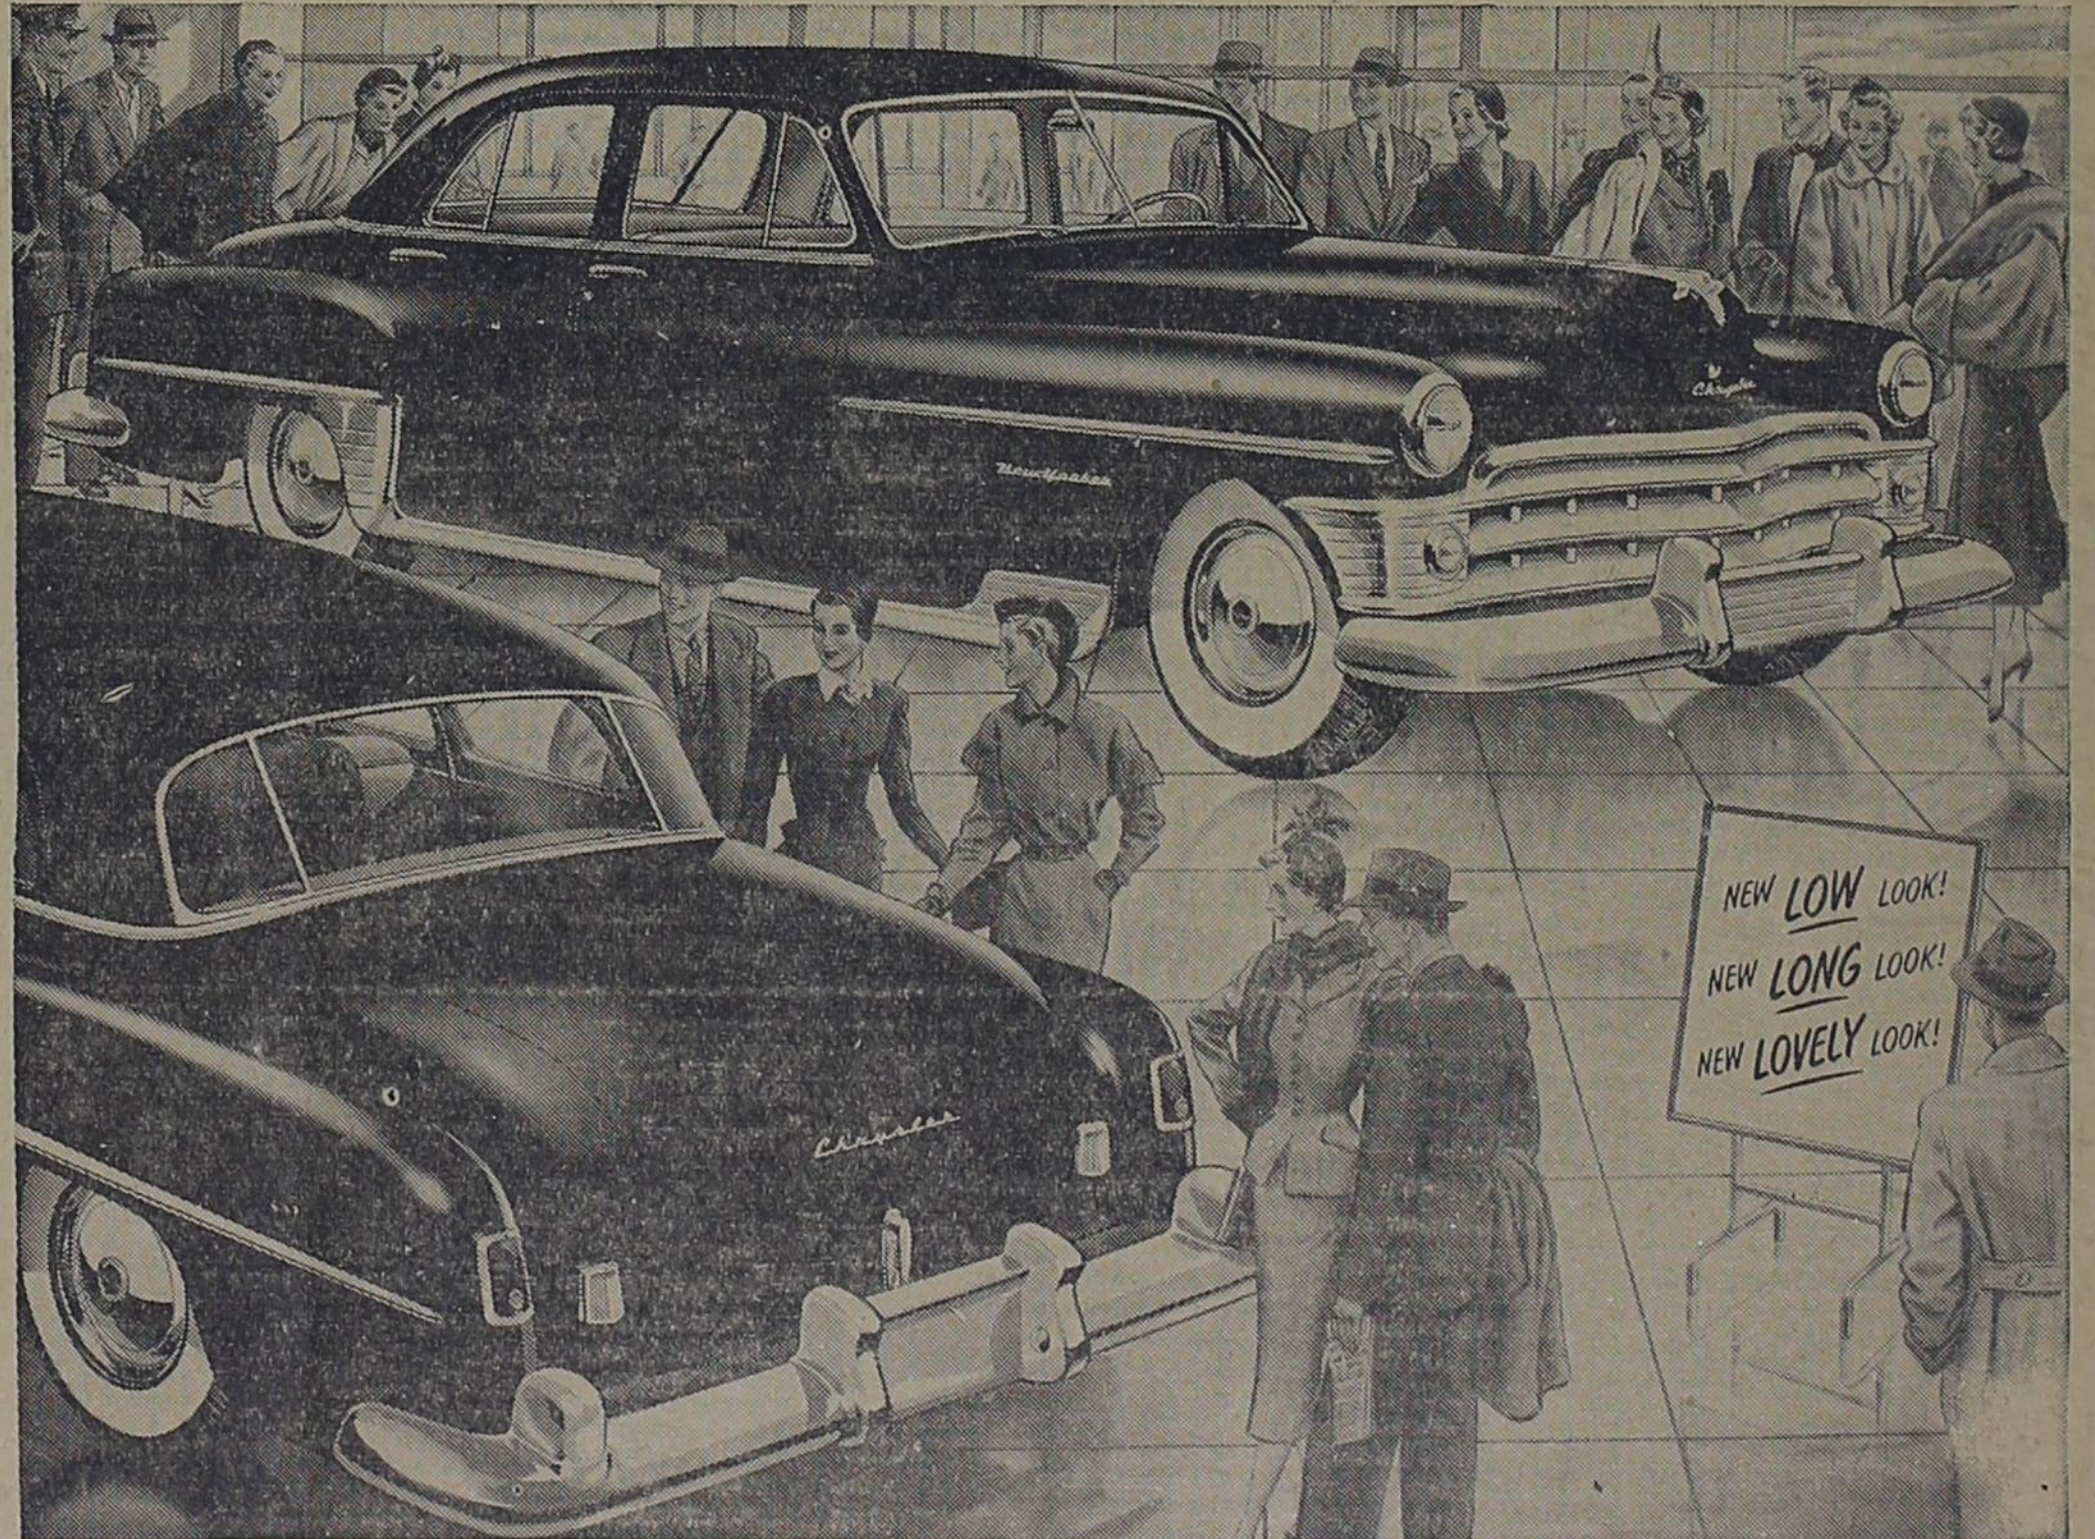

BEHIND GAS SERVICE there is something to build, paint, or repair every day, oftentimes in remote places. Above, a crew completes a control valve installation, part of a new compressor station. In the last three years, Lone Star has invested over \$100 per customer to assure dependable service. Yet, you enjoy conveniences and comforts of natural gas service for a year around average of less than 15c a day.

Lone Star natural gas sells for less than prewar price

Munday, Texas

Rhineland Parish Making Plans To Complete St. Joseph's Church

Plans for the completion of St. Joseph's Catholic Church at Rhineland have been drawn up by Lee M. J. Dielmann, A. I. A., of San Antonio.

The present building was begun under the direction of Rev. Boniface Spanke, O. S. B., in 1927. Depression and war caused delay, but now, 23 years later, this Catholic community under the leadership of Rev. Fabian Diersing, O. S. B., is anxious to see the completion of their parish church. Fundamentally Gothic in architecture, it will be an outstanding building in Northwest Texas when completed. Its interior will bear an atmosphere of worship to any who may enter.

The contract will be let on February 27, 1950, at 10 a. m. at Rhineland. As the building is, it needs some repairs and renovations exteriorly, and after that has been successfully completed the congregation will begin to finish the interior. Situated in a rural area, away from all city congestion, the church is a beautiful landmark in a Catholic colony founded 26 years ago by the Rev. Reisdorf.

Committeemen and the pastor are anxious to carry out plans as far as possible in cooperation with the architect and other mem-

bers of the congregation. Consequently they are anxious to open all bids publicly at the appointed time, and all builders seeking information may contact either Mr. Dielmann at 300 East Market St., San Antonio, or Rev. Diersing at Munday. Either will give all necessary information desired.

Moguls Whip Haskell 48-45

The Munday Moguls defeated the Haskell Indians on Wednesday night in a 6-A East basketball game at Haskell that went for an extra count.

The regulation time ended with the score all tied up, 42-42. Myers, who led the Munday scoring with 15 points, sank a field goal in the last ten seconds to tie the game and send the game into an extra session, when Munday came out ahead.

Boby Price of Haskell was high scorer for the game with 22 points.

The Indians led 20-16 at the half.

In a B team game between the

Burlington To Spend Huge Sum For Expansion

In an expansion of its policy of constantly improving its service, the Fort Worth and Denver Railway will spend \$3,170,000 in 1950 to secure 250 new steel-sheathed box cars and three 6,000 horsepower Diesel-electric heavy-duty freight locomotives, it was announced today by R. Wright Armstrong, Vice-President, Fort Worth.

Anticipating heavy demand for suitable cars to handle the huge Texas grain and cotton crop, the care are expected to roll from the assembly lines in ample time to help speed the flow of grain to elevators and ports this summer and be ready for the cotton harvest in the fall.

The purchase of the new Diesels-electric locomotives will permit the extension of the present Denver to Fort Worth high-speed freight service southward to Teague and expedite the movement of freight to and from Texas Gulf ports of Houston, Texas City and Galveston.

two schools, the locals took a 33-14 decision. Kenneth Setwart of Haskell with 16 points and Haynie of Munday with 9 were the leading scorers.

It Pays To Advertise

J. M. Edwards Of Seymour Passes January 4th

J. M. Edwards, 57, well known Seymour merchant and civic leader, died in a Seymour hospital at 9 a. m. Wednesday, January 4.

Funeral services were held Thursday from the First Baptist Church in Seymour, with the pastor, Rev. J. R. Balch, officiating. Burial was in Masonic Cemetery in Seymour.

Born in Goin, Tenn., in 1892, Mr. Edwards came to Texas with his parents at the turn of the century, and the family settled at Gore, where his father operated a grocery store.

Mr. Edwards and his wife once taught for a year at Mabelle school near Seymour and operated a small grocery store.

Taking an active part in civic affairs, Edwards became a well-to-do man, owning large stores in Seymour, Gore and Knox City. He was a deacon in the First Baptist Church, past president of the chamber of commerce, a member of the city council for many years and a former trustee of Hardin-Simmons University in Abilene.

Survivors include his wife; one son, J. M. Edwards, Jr., a daughter, Miss Jean Edwards, and one grandson, John M. Edwards III, all of Seymour; a sister, Mrs. Ira Stalcup of Gore, and a brother, E. V. Edwards of Austin.

Political Announcements

The Munday Times is authorized to announce the candidacy of the following, subject to the action of the voters in the 1950 Democratic Primaries:

For District Attorney: ROY A. JONES

For County Superintendent: MERICK MCGAUGHEY (Re-election)

For County Treasurer: W. F. (WALTER) SNODY (Re-Election)
